Rule 11.18. Obligations of Market Maker Authorized Traders

Rule 11.19. Registration of Market Makers in a Security

(No change).

Rule 11.20. Obligations of Market Makers

(a) General. Members who are registered as Market Makers in one or more securities traded on the Exchange must engage in a course of dealings for their own account to assist in the maintenance, insofar as reasonably practicable, of fair and orderly markets on the Exchange in

accordance with these Rules. The responsibilities and duties of a Market Maker specifically include, but are not limited to, the following:

(1) – (4) (No change).

(5) Clear and settle transactions through the facilities of a registered clearing agency. This requirement may be satisfied by direct participation, use of direct clearing services or by [entering]entry into a correspondent clearing arrangement with another Member that clears trades through such agency.

(b) (No change).

(c) If the Exchange finds any substantial or continued failure by a Market Maker to engage in a course of dealings as specified in paragraph (a) of this Rule, such Market Maker will be subject to disciplinary action, including, without limitation, suspension or revocation of its registration by the Exchange in one or more of the securities in which the Market Maker is registered. Nothing in this Rule 11.20 will limit[s] any powers of the Exchange under the By-Laws, Rules or procedures of the Exchange with respect to the registration of a Market Maker or in respect of any violation by a Market Maker of the provisions of this Rule 11.20. Any Member aggrieved by any determination under this Rule 11.20 may seek review under Chapter X of the Exchange Rules governing adverse action.

(d) Quotation Requirements and Obligations

(1) *Continuous, Two-Sided Quote Obligation.* For each security in which a Member is registered as a Market Maker, the Member shall be willing to buy and sell such security for its own account on a continuous basis during Regular Trading Hours and shall enter and maintain a two-sided trading interest (“Two-Sided Obligation”) that is identified to the Exchange as the interest meeting the obligation and is displayed in the Exchange’s System at all times. Interest eligible to be considered as part of a Market Maker’s Two-Sided Obligation shall have a displayed quotation size of at least one normal unit of trading (or a larger multiple thereof); provided, however, that a Market Maker may augment its Two-Sided Obligation size to display limit orders priced at the same price as the Two-Sided Obligation. Unless otherwise designated, a “normal unit of trading” shall be 100 shares. After an execution against its Two-Sided Obligation, a Market Maker must ensure that additional trading interest exists in the System to satisfy its Two-Sided Obligation either by immediately entering new interest to comply with this obligation to maintain continuous, two-sided quotations or by identifying existing interest on the EDGA Book that will satisfy this obligation.

(A) If a technical failure or limitation of a system of the Exchange prevents the Market Maker from maintaining or communicating to the Exchange timely and accurate quotes in each security in which a Member is registered as a Market Maker, the duration of such failure shall not be considered in determining whether the Market Maker has satisfied the quoting standard with respect to that security.

(B) The continuous quoting obligations set forth above: (i) shall be suspended during a trading halt, suspension, or pause in the security, and shall not re-commence until after the first regular way transaction on the primary listing market following such halt, suspension, or pause in the security, as reported by the responsible single plan processor, and (ii) shall be suspended for the duration that an NMS stock is in a Limit State or a Straddle State.

(C) The Exchange may consider other exceptions to the Two-Sided Obligation based on demonstrated legal or regulatory requirements or other mitigating circumstances.

(2) (No change).

(A) Bid Quotations. At the time of entry of bid interest satisfying the Two-Sided Obligation, the price of the bid interest shall be not more than the Designated Percentage away from the then current NBB, or if no NBB, not more than the Designated Percentage away from the last reported sale as reported by the responsible single plan processor. In the event that the NBB (or if no NBB, the last reported sale) increases to a level that would cause the bid interest of the Two-Sided Obligation to be more than the Defined Limit away from the NBB (or if no NBB, the last reported sale), or if the bid is executed or cancelled, the Market Maker shall enter new bid interest at a price not more than the Designated Percentage away from the then current NBB (or if no NBB, the last reported sale), or must be able to identify to the Exchange current resting interest that satisfies the Two-Sided Obligation.

(B) Offer Quotations. At the time of entry of offer interest satisfying the Two-Sided Obligation, the price of the offer interest shall be not more than the Designated Percentage away from the then current NBO, or if no NBO, not more than the Designated Percentage away from the last reported sale reported by the responsible single plan processor. In the event that the NBO (or if no NBO, the last reported sale) decreases to a level that would cause the offer interest of the Two-Sided Obligation to be more than the Defined Limit away from the NBO (or if no NBO, the last reported sale), or if the offer is executed or cancelled, the Market Maker shall enter new offer interest at a price not more than the Designated Percentage away from the then current NBO (or if no NBO, the last reported sale), or must be able to identify to the Exchange current resting interest that satisfies the Two-Sided Obligation.

(C) (No change).
