RADIO ONE, INC. REPORTS THIRD QUARTER RESULTS

Washington, DC: - Radio One, Inc. (NASDAQ: ROIAK and ROIA) today reported its results for the quarter ended September 30, 2014. Net revenue was approximately \$112.2 million, a decrease of 5.3% from the same period in 2013. Station operating income¹ was approximately \$38.6 million, a decrease of 13.8% from the same period in 2013. The Company reported operating income of approximately \$19.6 million for the three months ended September 30, 2014, compared to operating income of \$21.8 million for the same period in 2013. Net loss was approximately \$13.2 million or \$0.28 per share for each of the quarters ending September 30, 2014 and 2013.

Alfred C. Liggins, III, Radio One's President and CEO stated, "Our radio business experienced a very soft quarter: we had a perfect storm of weak market revenues and soft ratings in our four largest markets, and political revenues were less than anticipated. We had some ratings challenges in Washington DC, Baltimore and Atlanta in addition to the new competitor in Houston. Management has taken steps to remedy these issues, including a format change in Houston from News to Classic Hip-hop. The initial ratings for our new station, Boom 92, are extremely encouraging, and should mean we reverse the annual \$1.5 million of losses that we were incurring on the news format. Outside our top four markets, radio revenues for the third quarter were +1.5% against a flat market. Overall Q4 radio revenue is currently pacing -1.9% and I believe we will have positive momentum going into the new year. Reach Media experienced a similarly weak third quarter, but is performing better in 4th quarter, consistent with the radio division. Both our Internet and Cable Television segments showed improved adjusted EBITDA² and margins compared to the prior year."

PAGE 5 -- RADIO ONE, INC. REPORTS THIRD QUARTER RESULTS

Net revenue decreased to approximately \$112.2 million for the quarter ended September 30, 2014, from approximately \$118.4 million for the same period in 2013, a decrease of 5.3%, resulting primarily from declines in our four largest radio markets. Net revenues from our radio broadcasting segment decreased 8.1% for the quarter ended September 30, 2014, versus the same period in 2013. We experienced net revenue growth most significantly in our Charlotte, Dallas and Detroit markets, countered by our Atlanta, Baltimore, Houston, Philadelphia, Richmond, St. Louis and Washington DC markets experiencing the most significant declines. Reach Media's net revenues decreased 19.3% for the quarter ended September 30, 2014, compared to the same period in 2013 due to a mix of customer turnover and lower rates. We recognized approximately \$39.5 million of revenue from our cable television segment during the three months ended September 30, 2014, compared to approximately \$37.8 million for the same period in 2013, the increase of approximately \$1.7 million due primarily from an increase in both affiliate and advertising sales. Finally, net revenues for our internet business decreased 4.9% for the three months ended September 30, 2014, compared to the same period in 2013 due to a decrease in direct revenues.

Operating expenses, excluding depreciation and amortization, stock-based compensation and impairment of long-lived assets, increased to approximately \$83.4 million for the quarter ended September 30, 2014, up 0.1% from the approximately \$83.3 million incurred for the comparable quarter in 2013.

Depreciation and amortization expense decreased 4.1% to approximately \$9.2 million compared to approximately \$9.6 million for the quarters ended September 30, 2014 and 2013, respectively. The decrease was due to the completion of amortization for certain intangible assets and the completion of useful lives for certain assets.

There was no impairment of long-lived assets for the three months ended September 30, 2014. Impairment of long-lived assets for the three months ended September 30, 2013, was approximately \$3.7 million and related to a non-cash impairment charge recorded to reduce the carrying value of our Cleveland and Boston radio broadcasting licenses.

Interest expense decreased to approximately \$19.4 million for the quarter ended September 30, 2014, compared to approximately \$22.3 million for the same period in 2013. The primary driver of the decrease in interest expense is the lower interest rate associated with the 2020 Notes, compared to the 2016 Notes which were settled during the first quarter of 2014. The Company made cash interest payments of approximately \$26.3 million on all outstanding instruments for the quarter ended September 30, 2014, compared to cash interest payments of approximately \$20.9 million for the quarter ended September 30, 2013. Cash interest payments associated with the 2020 Notes began August 15, 2014.

The provision for income taxes for the quarter ended September 30, 2014, was approximately \$9.0 million compared to approximately \$8.4 million for the comparable period in 2013, primarily attributable to the deferred tax liability ("DTL") for indefinite-lived intangible assets. The increase in tax provision is primarily due to provision to return adjustments. The Company paid \$117,000 and \$221,000 for income taxes for the quarters ended September 30, 2014 and 2013, respectively.

The increase in noncontrolling interests in income of subsidiaries is due primarily to greater net income generated by TV One during the three months ended September 30, 2014, compared to the 2013 period. Reach Media generated lower net income during the three months ended September 30, 2014, compared to the 2013 period, which partially offset the income generated by TV One.

PAGE 6 -- RADIO ONE, INC. REPORTS THIRD QUARTER RESULTS

Other pertinent financial information includes capital expenditures of approximately \$1.3 million for each of the quarters ended September 30, 2014 and 2013, respectively. The Company received dividends from TV One in the amount of approximately \$8.9 million and \$6.2 million for the quarters ended September 30, 2014 and 2013, respectively. As of September 30, 2014, the Company had total debt (net of cash balances) of approximately \$765.8 million. The Company's cash and cash equivalents by segment are as follows: Radio and Internet, approximately \$32.7 million; Reach Media, approximately \$3.4 million; and Cable Television, approximately \$19.0 million. In addition to cash and cash equivalents, the cable television segment also has short-term investments of approximately \$2.1 million and long-term investments of \$803,000. During the three months ended September 30, 2013, the Company repurchased 512,300 shares of Class D common stock in the amount of \$3,000. During the nine months ended September 30, 2013, the Company repurchased 2,630,574 shares of Class D common stock in the amount of approximately \$5.4 million and 32,669 shares of Class A common stock in the amount of \$71,000. There were no stock repurchases made during the three or nine month periods ended September 30, 2014.

Supplemental Financial Information:

For comparative purposes, the following more detailed, unaudited statements of operations for the three and nine months ended September 30, 2014 and 2013 are included. These detailed, unaudited and adjusted statements of operations include certain reclassifications associated with accounting for discontinued operations. These reclassifications had no effect on previously reported net income or loss, or any other previously reported statements of operations, balance sheet or cash flow amounts.

Jakes' "Empowering Moments", and the <u>Reverend Al Sharpton Show</u>. Beyond its core radio broadcasting franchise, Radio One owns Interactive One (<u>http://www.interactiveone.com/</u>), an online platform serving the African-American community through social content, news, information, and entertainment. Interactive One operates a number of branded sites, including News One, UrbanDaily, HelloBeautiful and social networking websites, including BlackPlanet and MiGente. In addition, the Company owns a controlling interest in TV One, LLC (<u>http://www.tvoneonline.com/</u>), a cable/satellite network programming primarily to African-Americans.

Notes:

¹ "Station operating income" consists of net loss before depreciation and amortization, corporate expenses, stock-based compensation, equity in income of affiliated company, income taxes, noncontrolling interest in income (loss) of subsidiaries, interest expense, impairment of long-lived assets, other (income) expense, loss (gain) on retirement of debt, (income) loss from discontinued operations, net of tax, interest income and gain on purchase of affiliated company. Station operating income is not a measure of financial performance under generally accepted accounting principles. Nevertheless station operating income is a significant basis used by our management to measure the operating performance of our stations within the various markets because station operating income provides helpful information about our results of operations apart from expenses associated with our fixed assets and long-lived intangible assets, income taxes, investments, debt financings and retirements, overhead, stock-based compensation, impairment charges, and asset sales. Our measure of station operating income may not be comparable to similarly titled measures of other companies as our definition includes the results of all four segments (Radio Broadcasting, Reach Media, Internet and Cable Television). Station operating income does not purport to represent operating income or cash flow from operating activities, as those terms are defined under generally accepted accounting principles, and should not be considered as an alternative to those measurements as an indicator of our performance. A reconciliation of net income (loss) to station operating income has been provided in this release.

2 "Adjusted EBITDA" consists of net loss plus (1) depreciation, amortization, income taxes, interest expense, noncontrolling interest in income of subsidiaries, impairment of long-lived assets, stock-based compensation, loss on retirement of debt, loss from discontinued operations. net of tax, less (2) equity in income of affiliated company, other income, interest income, gain on retirement of debt and gain on purchase of affiliated company. Net income before interest income, interest expense, income taxes, depreciation and amortization is commonly referred to in our business as "EBITDA." Adjusted EBITDA and EBITDA are not measures of financial performance under generally accepted accounting principles. However, we believe Adjusted EBITDA is often a useful measure of a company's operating performance and is a significant basis used by our management to measure the operating performance of our business because Adjusted EBITDA excludes charges for depreciation, amortization and interest expense that have resulted from our acquisitions and debt financing, our taxes, impairment charges, as well as our equity in (income) loss of our affiliated company, gain on retirements of debt, and any discontinued operations. Accordingly, we believe that Adjusted EBITDA provides useful information about the operating performance of our business, apart from the expenses associated with our fixed assets and long-lived intangible assets, capital structure or the results of our affiliated company. Adjusted EBITDA is frequently used as one of the bases for comparing businesses in our industry, although our measure of Adjusted EBITDA may not be comparable to similarly titled measures of other companies as our definition includes the results of all four segments (Radio Broadcasting, Reach Media, Internet and Cable Television). Adjusted EBITDA and EBITDA do not purport to represent operating income or cash flow from operating activities, as those terms are defined under generally accepted accounting principles, and should not be considered as alternatives to those measurements as an indicator of our performance. A reconciliation of net income (loss) to EBITDA and Adjusted EBITDA has been provided in this release.
