SPECIAL NOTE ON FORWARD-LOOKING INFORMATION

This Form 10-Q contains certain “forward-looking statements,” based on current expectations, that involve risks and uncertainties that could cause our actual results to differ materially from our management’s current expectations. These forward-looking statements can be identified by the use of forward-looking terminology such as “believe,” “may,” “will,” “should,” “expect,” “generate,” “intend,” “estimate,” “are positioned to,” “continue,” “project,” “guidance,” “target,” “forecast,” “anticipated,” “plan,” “potential,” the negative of these terms or comparable terms. Future results will vary from historical results and historical trends are not indicative of future trends, which will depend upon a number of factors, including but not limited to: (i) the successful execution of our business and transformation strategies; (ii) the effect of existing and new competition in the marketplace; (iii) our exposure to international risks, including currency fluctuations; (iv) changes in economic or political conditions in the markets where we sell or source our products; (v) our ability to successfully anticipate consumer preferences for accessories, footwear, ready to wear and fashion trends; (vi) our ability to control costs; (vii) the effect of seasonal and quarterly fluctuations in our sales on our operating results; (viii) our ability to protect against infringement of our trademarks and other proprietary rights; and such other risk factors as set forth in the Company’s Annual Report on Form 10-K for the fiscal year ended June 29, 2013. Coach, Inc. assumes no obligation to revise or update any such forward-looking statements for any reason, except as required by law.

COACH, INC.

Notes to Condensed Consolidated Financial Statements (dollars and shares in thousands, except per share data)

1. Basis of Presentation and Organization

The accompanying unaudited condensed consolidated financial statements include the accounts of Coach, Inc. (“Coach” or the “Company”) and all 100% owned subsidiaries. These condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted from this report as is permitted by SEC rules and regulations. However, the Company believes that the disclosures are adequate to make the information presented not misleading. This report should be read in conjunction with the audited consolidated financial statements and notes thereto, included in the Company’s Annual Report on Form 10-K filed with the SEC for the year ended June 29, 2013 (“fiscal 2013”).

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all normal and recurring adjustments necessary to present fairly the consolidated financial position, results of operations, comprehensive income and cash flows of the Company for the interim periods presented. The results of operations, cash flows and comprehensive income for the quarter and nine months (which represents 13 and 39 week periods, respectively) ended March 29, 2014 are not necessarily indicative of results to be expected for the entire fiscal year, which will end on June 28, 2014 (“fiscal 2014”).

In connection with the acquisition of the retail business in Europe, the Company evaluated the composition of its reportable segments and concluded that sales in this region should be included in the International segment. Accordingly, prior year sales related to Europe have been reclassified to the International segment to conform to the current year presentation.

2. Sale of Reed Krakoff Business; Restructuring and Transformational Related Charges

On August 30, 2013, the Company sold the Reed Krakoff business, involving the sale of the equity interests of Reed Krakoff LLC and certain assets, including the Reed Krakoff brand name and related intellectual property rights, to Reed Krakoff International LLC (“Buyer”). The sale was pursuant to the Asset Purchase and Sale Agreement dated July 29, 2013 (the “Purchase Agreement”) with Buyer and Reed Krakoff, the Company’s former President and Executive Creative Director. Coach received a de minimus amount of cash and convertible preferred membership interests representing 8.0% of Buyer’s issued and outstanding convertible preferred units and initial equity value immediately following such issuance. Coach recorded a cost method investment of \$3,261, included in Long-term investments in the condensed consolidated balance sheet at March 29, 2014.

Concurrent with the Closing under the Purchase Agreement, the parties executed certain ancillary agreements including a transition services agreement between Coach and Buyer for up to nine months.

In connection with the Purchase Agreement, Mr. Krakoff’s resignation from Coach and the closing of the sale, Mr. Krakoff waived his right to receive compensation, salary, bonuses, equity vesting and certain other benefits. The Company recorded a loss of \$2,683 during the first quarter of fiscal 2014 related to the sale, which is recorded in Selling, general and administrative expenses on the condensed consolidated statement of income.

In the fourth quarter of fiscal 2013, the Company recorded restructuring and transformation related charges of \$53,202, primarily related to our North America segment. Coach substantially completed its reduction in workforce related to this restructuring during the first quarter of fiscal 2014.

3. Acquisition

Coach became the 100% owner of its European joint venture by purchasing Hackett Limited's 50% interest in the joint venture on July 1, 2013, enabling Coach to assume direct control and consolidate its European retail business. The joint venture included 18 retail locations in Spain, Portugal, Great Britain, France, Ireland and Germany. The purchase price consisted of cash payments of approximately \$15,105 and the forgiveness of a loan from Coach to Hackett Limited of approximately \$18,019. The cash payments were made in installments with \$7,893 paid in fiscal 2013, \$5,437 paid in the first quarter of fiscal 2014 offset by cash acquired as part of the acquisition of \$3,453. The remaining \$1,775 was paid at the beginning of the third quarter of fiscal 2014. Unaudited pro forma information related to this acquisition is not included, as the impact of this transaction is not material to the consolidated results of the Company. The allocation of the purchase price acquisition has been substantially completed resulting in goodwill of \$22,534.

4. Goodwill and Intangible Assets

The change in the carrying amount of the Company's goodwill, all of which is included within the International reportable segment, for the nine months ended March 29, 2014 is as follows:

	Total
Balance at June 29, 2013	\$ 345,039
Acquisition of European joint venture	22,534
Foreign exchange impact	(4,156)
Balance at March 29, 2014	\$ 363,417

At March 29, 2014 and June 29, 2013, the Company's intangible assets, which are not subject to amortization, consisted of \$9,788 of trademarks and are included in Other assets.

Non-vested at March 29, 2014	3,287	54.70

At March 29, 2014, \$109,669 of total unrecognized compensation cost related to non-vested RSU awards is expected to be recognized over a weighted-average period of 1.1 years.

The weighted-average grant-date fair value per share of RSU awards granted during the first nine months of fiscal 2014 and fiscal 2013 was \$53.09 and \$54.94, respectively. The total fair value of RSUs vested during the first nine months of fiscal 2014 and fiscal 2013 was \$76,895 and \$79,641, respectively.

Performance-based Restricted Stock Unit Awards (“PRSU”)

The Company grants performance-based share awards to key executives, the vesting of which is subject to the executive’s continuing employment and the Company’s achievement of certain performance goals. A summary of performance-based share award activity, during the nine months ended March 29, 2014 is as follows:

	Number of Non-vested Share Units	Weighted-Average Grant-Date Fair Value Per Share
Non-vested at June 29, 2013	1,093	\$ 46.84

Non-vested at March 29, 2014	918	44.72

At March 29, 2014, \$16,546 of total unrecognized compensation cost related to non-vested PRSU awards is expected to be recognized over a weighted-average period of 1.5 years.

The weighted-average grant-date fair value per share of PRSU awards granted during the first nine months of fiscal 2014 and fiscal 2013 was \$32.29 and \$50.55, respectively. The total fair value of shares vested during the first nine months of fiscal 2014 and fiscal 2013 was \$23,149 and \$0, respectively.

COACH, INC.

Notes to Condensed Consolidated Financial Statements (in thousands except per share data, unaudited)

During the first nine months of fiscal 2014, the Company granted 241 shares of common stock with a fair value of \$6,814 to selected executives as retention PRSU awards with a maximum potential number of shares issued and fair value (excluding dividends) of 321 shares and \$9,085, respectively. These shares are included within the PRSU tables above. The shares of common stock under these PRSU awards will be earned and distributed based on performance criteria which compares the Company's total stockholder return over the performance period to the total stockholder return of the companies included in the Standard & Poor's 500 Index on the date of grant (excluding the Company). The grant date fair value of the PRSU awards was determined utilizing a Monte Carlo simulation and the following assumptions: expected volatility of 32.61%, risk-free interest rate of 0.63%, and dividend yield of 0.00%.

In the first nine months of fiscal 2014 and 2013, the cash tax benefit realized for the tax deductions from all service and performance-based RSUs were \$33,091 and \$23,247, respectively.

8. Fair Value Measurements

In accordance with Accounting Standards Codification ASC 820-10, "*Fair Value Measurements and Disclosures*," the Company categorizes its assets and liabilities, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy as set forth below. The three levels of the hierarchy are defined as follows:

Level 1 — Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 — Observable inputs other than quoted prices included in Level 1. Level 2 inputs include quoted prices for identical assets or liabilities in non-active markets, quoted prices for similar assets or liabilities in active markets, and inputs other than quoted prices that are observable for substantially the full term of the asset or liability.

Level 3 — Unobservable inputs reflecting management's own assumptions about the input used in pricing the asset or liability.

^(a) Cash equivalents consist of money market funds, time deposits, and commercial paper with maturities of three months or less at the date of purchase. Due to their short term maturity, management believes that their carrying value approximates fair value.

^(b) Short-term investments consist of time deposits, U.S. Treasuries and government agency securities, and high-credit quality U.S. and non U.S. issued corporate debt securities, with maturities of less than one year in which management believes their carrying value approximates fair value based on their short maturity.

^(c) Fair value is determined using vendor or broker priced securities. These securities have maturity dates between calendar years 2014 and 2017.

^(d) Fair value is determined using a valuation model that takes into consideration the financial conditions of the issuer and the bond insurer, current market conditions and the value of the collateral bonds. The Company has determined that the significant majority of the inputs used to value this security fall within Level 3 of the fair value hierarchy as the inputs are based on unobservable estimates.

^(e) The fair value of these cash flow hedges is primarily based on the forward curves of the specific indices upon which settlement is based and includes an adjustment for the counterparty's or Company's credit risk.

Non-Financial Assets and Liabilities

The Company's non-financial instruments, which primarily consist of goodwill and property and equipment, are not required to be measured at fair value on a recurring basis and are reported at carrying value. However, on a periodic basis whenever events or changes in circumstances indicate that their carrying value may not be fully recoverable (and at least annually for goodwill), non-financial instruments are assessed for impairment and, if applicable, written-down to and recorded at fair value, considering market participant assumptions.

Adverse changes in future market conditions or weaker operating results compared to our expectations could result in losses or a potential impairment charge if the Company is unable to recover the carrying value of certain assets.

9. Debt

The Company has a \$700 million credit facility with certain lenders and JP Morgan Chase Bank, N.A. as the primary lender and administrative agent (the "JP Morgan facility") with a maturity date of March 26, 2018. The JP Morgan facility is available to finance the seasonal working capital requirements and general corporate purposes of the Company and its subsidiaries. At Coach's request and lenders' consent, revolving commitments of the JP Morgan facility may be increased to \$1 billion. As of March 29, 2014 and June 29, 2013, there was \$210,000 and \$0 outstanding on the JP Morgan facility. Due to the short-term nature of this borrowing, the fair value approximates carrying value.

Borrowings under the JP Morgan Facility bear interest at a rate per annum equal to, at Coach's option, either (a) a rate based on the rates applicable for deposits in the interbank market for U.S. dollars or the applicable currency in which the loans are made plus an applicable margin or (b) an alternate base rate (which is a rate equal to the greatest of (1) the Prime Rate in effect on such day, (2) the Federal Funds Effective Rate in effect on such day plus ½ of 1% or (3) the Adjusted LIBO Rate for a one month Interest Period on such day plus 1%). Additionally, Coach pays a commitment fee on the average daily unused amount of the JP Morgan Facility. At March 29, 2014, the commitment fee was 7.5 basis points.

As of March 29, 2014, Coach Japan, a wholly owned subsidiary of the Company, had credit facilities with several Japanese financial institutions to provide funding for working capital and general corporate purposes, allowing a maximum borrowing of 5.3 billion yen, or approximately \$51 million, as of March 29, 2014. Interest is based on the Tokyo Interbank rate plus a margin of 25 to 30 basis points. During fiscal 2013 and through the third quarter of fiscal 2014, there were no borrowings under these facilities.

COACH, INC.

Notes to Condensed Consolidated Financial Statements (in thousands except per share data, unaudited)

As of March 29, 2014, Coach Shanghai Limited, a wholly owned subsidiary of the Company, had a credit facility to provide funding for working capital and general corporate purposes, allowing a maximum borrowing of 63 million Chinese renminbi, or approximately \$10 million, as of March 29, 2014. Interest is based on the People's Bank of China rate. During fiscal 2013 and through the third quarter of fiscal 2014, there were no borrowings under this facility.

Both the Coach Japan and Coach Shanghai Limited credit facilities can be terminated at any time by the respective financial institutions, and there is no guarantee that they will be available to the Company in future periods.

10. Commitments and Contingencies

In April 2013, the Company entered into a joint venture agreement with Related Companies, L.P. to develop a new office tower in Manhattan in the Hudson Yards district ("Hudson Yards joint venture"). The formation of the Hudson Yards joint venture serves as a financing vehicle for the construction project. Upon expected completion of the office tower in calendar 2015, the Company will retain a condominium interest in the office tower, which will serve as its new corporate headquarters.

The Company expects to invest approximately \$370,000 in the Hudson Yards joint venture between the beginning of the fourth quarter of fiscal 2014 through fiscal 2016, with approximately \$30,000 estimated for the remainder of fiscal 2014, depending on construction progress. During the quarter and nine months ended March 29, 2014, the Company invested \$21,518 and \$62,856, respectively, in the joint venture. Outside of investments in the joint venture, the Company expects to incur approximately \$190,000 of capital expenditures over the remaining period of construction.

In the ordinary course of business, Coach is a party to several pending legal proceedings and claims. Although the outcome of such items cannot be determined with certainty, Coach's General Counsel and management are of the opinion that the final outcome will not have a material effect on Coach's financial position, results of operations or cash flows.

These securities have maturity dates between calendar years 2014 and 2017.

^(b) The investment was sold in the third quarter of fiscal 2014. Refer to Footnote 8 for further information.

^(c) Portfolio of high-credit quality U.S. government agency debt securities, U.S. and non-U.S. issued corporate debt securities, and commercial paper classified as held to maturity and recorded at amortized cost which approximates fair value. These securities have maturity dates in the calendar year 2014 and 2015.

^(d) Portfolio of time deposits with original maturities greater than 3 months.

^(e) Equity method investment related to Hudson Yards joint venture and Reed Krakoff cost method investment. The Hudson Yards joint venture is determined to be a variable interest entity primarily due to the fact that it has insufficient equity to finance its activities without additional subordinated financial support from its two joint venture partners. Coach is not considered the primary beneficiary of the entity primarily because the Company does not have the power to direct the activities that most significantly impact the entity's economic performance. The Company's maximum loss exposure is limited to the committed capital.

12. Derivative Instruments and Hedging Activities

Substantially all of the Company's transactions involving international parties, excluding international customer sales, are denominated in U.S. dollars, which limits the Company's exposure to the effects of foreign currency exchange rate fluctuations. However, the Company is exposed to foreign currency exchange risk related to its foreign operating subsidiaries' U.S. dollar-denominated inventory purchases and various cross-currency intercompany and related party loans. Coach uses derivative financial instruments to manage these risks. These derivative transactions are in accordance with the Company's risk management policies. Coach does not enter into derivative transactions for speculative or trading purposes.

Two of the Company's businesses outside of the United States, Coach Japan and Coach Canada, enter into zero-cost collar options, to manage the exchange rate risk related to their inventory purchases. As of March 29, 2014 and June 29, 2013, zero-cost collar options with aggregate notional amounts of \$93,997 and \$193,352 were outstanding, respectively. Current maturity dates range from April 2014 to June 2015.

As of March 29, 2014, and June 29, 2013, the Company had entered into various short-term intercompany and related party loans denominated in various foreign currencies. Current maturity dates range from May 2014 to March 2018. To manage the exchange rate risk related to these loans, the Company entered into forward exchange and cross-currency swap contracts with notional amounts of \$15,687 and \$147,591, respectively as of March 29, 2014, and June 29, 2013 to hedge the total principal amount of the short-term intercompany and related party loans. The terms of these contracts include the exchange of foreign currency fixed interest for U.S. dollar fixed interest and an exchange of the foreign currency and U.S. dollar based notional values at the maturity dates.

As of March 29, 2014 and June 29, 2013, the Company had entered into forward contracts to manage the exchange rate risk of contractual obligations with notional values of \$4,000 and \$16,944, respectively. Contractual obligations as of March 29, 2014 and June 29, 2013 consist of \$4,000 and \$10,000, respectively, due to Shinsegae International related to the acquisition of the domestic retail business in Korea. The Company also had contractual obligations at June 29, 2013 of \$6,944 due to Hackett Limited related to the acquired European joint venture.

The Company's derivative instruments are designated as cash flow hedges. The effective portion of gains or losses on the derivative instruments are reported as a component of other comprehensive income and reclassified into earnings in the same periods during which the hedged transaction affects earnings. The ineffective portion of gains or losses on the derivative instruments are recognized in current earnings and are included within net cash provided by operating activities.

14. Stock Repurchase Program

Purchases of Coach's common stock are made subject to market conditions and at prevailing market prices, through the open market. Repurchased shares of common stock become authorized but unissued shares and may be issued in the future for general corporate and other purposes. The Company may terminate or limit the stock repurchase program at any time.

Coach accounts for stock repurchases and retirements by allocating the repurchase price to common stock, additional paid-in-capital and retained earnings. The repurchase price allocation is based upon the equity contribution associated with historical issuances, beginning with the earliest issuance. During the fourth quarter of fiscal 2010, cumulative stock repurchases allocated to retained earnings resulted in an accumulated deficit balance. Since its initial public offering, the Company has not experienced a net loss in any fiscal year, and the net accumulated deficit balance in stockholders' equity is attributable to the cumulative stock repurchase activity and dividends declared.

For the third quarter of fiscal 2014, the Company repurchased and retired 3,646 shares, or \$174,989 at an average cost of \$47.99. The Company did not repurchase any shares during the third quarter of fiscal 2013.

For the first nine months of fiscal 2014, the Company repurchased and retired 10,239 shares, or \$524,926 of common stock, at an average cost of \$51.27 per share. For the first nine months of fiscal 2013, the Company repurchased and retired 7,066 shares, or \$400,000 of common stock, at an average cost of \$56.61 per share.

As of March 29, 2014, Coach had \$836,701 remaining in the stock repurchase program.

ITEM 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of Coach’s financial condition and results of operations should be read together with Coach’s condensed consolidated financial statements and notes to those statements, included elsewhere in this document. When used herein, the terms “Coach,” “Company,” “we,” “us” and “our” refer to Coach, Inc., including consolidated subsidiaries.

EXECUTIVE OVERVIEW

Coach is a leading New York design house of modern luxury accessories. Our product offerings includes fine accessories and gifts for women and men, including handbags, men’s bags, women’s and men’s small leather goods, footwear, outerwear, watches, weekend and travel accessories, scarves, sunwear, fragrance, jewelry and related accessories. We are in the process of transforming Coach from an international accessories business to a global lifestyle brand, anchored in accessories. We plan to accomplish this strategy by building upon our strong management and design teams and enhancing and building out the Coach experience through expanded and new product categories, notably footwear and outerwear, enhanced retail environments and integrated marketing communications.

Coach operates in two segments: North America and International. The North America segment includes sales to North American customers through Coach-operated stores (including Internet sales) and sales to North American wholesale customers. The International segment includes sales to customers through Coach-operated stores in Japan and mainland China (including Internet sales), Hong Kong and Macau, Singapore, Taiwan, Malaysia, Korea, Europe, and sales to wholesale customers and distributors in over 30 countries. As Coach’s business model is based on multi-channel global distribution, our success does not depend solely on the performance of a single channel or geographic area.

In order to drive growth within our global business, we are focused on four key initiatives:

- Transform from a leading international accessories Company into a global lifestyle brand, anchored in accessories, presenting a clear and compelling expression of the Coach woman and man across all product categories, store environments and brand imagery.
- Focus on the Men’s opportunity for the brand, by drawing on our long heritage in the category. We are capitalizing on this opportunity by opening new standalone and dual gender stores and broadening the men’s assortment in existing stores.
- Leverage the global opportunity for Coach by raising brand awareness and building market share in markets where Coach is under-penetrated, most notably in Asia and Europe. We are also developing the brand opportunity as we expand into South America and Central America.
- Harness the growing power of the digital world, accelerating the development of our digital programs and capabilities in North America and worldwide, reflecting the change in consumer shopping behavior globally. Our intent is to rapidly drive further innovation to engage with customers in this channel. Key elements include www.coach.com, our invitation-only factory flash site, our global e-commerce sites, marketing sites and social media.

However, certain trends and uncertainties, macroeconomic and other, may have a material effect on net sales, net income and cash flows. Today, primarily in North America, we are experiencing intensified competition and a highly promotional environment, as well as an industry wide deceleration of in-store traffic. Internet sales have also recently been negatively impacted by eliminating third-party internet sales events and our decision to limit access to our e-factory flash sales site. At the same time, the Company is making investments to its Internet business, as we continue to move to an “omni-channel” business, and is reviewing its store fleet systematically, assessing strategic opportunities for potential closures and additional investments.

The Company believes that long-term growth can be realized through its transformational efforts over time.

SUMMARY – THIRD QUARTER OF FISCAL 2014

During the third quarter of fiscal 2014, the Company generated net sales of \$1.10 billion, net income of \$190.7 million and net income per diluted share of \$0.68. This compares to net sales of \$1.19 billion, net income of \$238.9 million and net income per diluted share of \$0.84 for the third quarter of fiscal 2013.

Our operating performance for the third quarter of fiscal 2014 reflected a decline in net sales of 7.4% due to decreased net sales from our North America business, partially offset by increased net sales in our International business. Excluding the unfavorable effects of foreign currency, net sales declined 5.4%. Our gross profit decreased by 11.2% to \$781.3 million during the quarter ended March 29, 2014. Selling, general and administrative ("SG&A") expenses decreased 2.5% as a result of lower performance-related compensation costs and lower sales in North America partially offset by additional expansion-related expenses incurred in our International business. As a result, operating income decreased to \$262.7 million in the third quarter of fiscal 2014.

Net income decreased in the third quarter of fiscal 2014 as compared to the same period of fiscal 2013, primarily due to a decrease in gross profit of \$98.9 million partially offset by decreases in the provision for income taxes and SG&A expenses of \$38.8 million and \$13.1 million, respectively. Net income per diluted share decreased due to lower net income.

THIRD QUARTER FISCAL 2014 COMPARED TO THIRD QUARTER FISCAL 2013

RESULTS OF OPERATIONS

Net Sales

Net sales decreased 7.4% or \$88.0 million to \$1.10 billion. Excluding the effects of foreign currency, net sales decreased 5.4% or \$64.6 million. The decrease was driven by lower sales in the North America business partially offset by gains in the International business.

Net sales by reportable segment in the third quarter of fiscal 2014, compared to the third quarter of fiscal 2013, were as follows:

	Quarter Ended				
	(unaudited, dollars in millions)				
	Net Sales			Percentage of Total Net Sales	
	March 29, 2014	March 30, 2013 ⁽¹⁾	Rate of Change	March 29, 2014	March 30, 2013 ⁽¹⁾
North America	\$ 647.9	\$ 792.5	(18.2) %	58.9 %	66.8 %
International	440.6	385.2	14.4	40.1	32.4
Other ⁽²⁾	11.1	9.9	12.1	1.0	0.8
Total net sales	<u>\$ 1,099.6</u>	<u>\$ 1,187.6</u>	(7.4)	<u>100.0</u>	<u>100.0</u>

⁽¹⁾ In connection with the acquisition of the retail business in Europe, the Company evaluated the composition of its reportable segments and concluded that sales in this region should be included in the International segment. Accordingly, prior year comparable sales have been reclassified to conform to the current year presentation.

⁽²⁾ Net sales in the Other category, which is not a reportable segment, consists of sales generated in ancillary channels, including licensing and disposition.

North America Net Sales decreased 18.2% or \$144.6 million to \$647.9 million. This decrease was primarily driven by lower comparable store sales of \$145.1 million or 21.4%, primarily due to decreased store traffic which was partially impacted by weather and the shift in timing of the Easter holiday. The Internet business had a negative impact, of approximately 3%, on comparable store sales which is attributable to eliminating third-party internet events and our decision to limit access to our e-factory flash sales site. This decrease was partially offset by an increase of \$23.0 million related to new stores. Since the end of the third quarter of fiscal 2013, Coach opened 14 factory stores, including three Men's factory stores, and closed a net 14 retail stores.

International Net Sales increased 14.4% or \$55.4 million to \$440.6 million. Excluding the unfavorable impact of foreign currency, primarily due to the Japanese yen, net sales increased \$76.8 million or 19.9%. The increase in net sales was primarily due to double digit growth in Asia of \$58.4 million primarily related to new stores and positive comparable store sales and \$11.6 million due to the Europe business which was acquired in the first quarter of fiscal 2014. Since the quarter ended March 30, 2013, we opened 47 net new stores, with 44 net new stores in mainland China, Hong Kong and Macau and Japan, and three net new stores in the other regions. The acquisition of the European joint venture resulted in a transfer of 18 stores to the Company's direct control. Since the acquisition on July 1, 2013, Coach has opened six new stores and transitioned two stores from wholesale to direct control.

Gross Profit

Gross profit decreased 11.2% to \$781.3 million in the third quarter of fiscal 2014 from \$880.2 million during the third quarter of fiscal 2013. Gross margin for the quarter ended March 29, 2014 was 71.1% as compared to 74.1% during the quarter ended March 30, 2013.

North America Gross Profit decreased 23.4% or \$126.0 million to \$413.0 million in the third quarter of fiscal 2014. Gross margin decreased 430 basis points from 68.0% in the third quarter of fiscal 2013 to 63.7% in the third quarter of fiscal 2014. The decrease in gross margin is primarily due to increased promotional activity in our factory channel.

International Gross Profit increased \$36.4 million to \$348.0 million in the third quarter of fiscal 2014. Gross margin decreased 190 basis points from 80.9% in the third quarter of fiscal 2013 to 79.0% in the third quarter of fiscal 2014. The decrease in gross margin is primarily due to the negative translation effect of changes in foreign currency. Other factors negatively impacting gross margin were increased promotions, selling products with a higher average unit cost, as well as increased penetration of our broadened lifestyle categories which were offset by the absence of higher cost inventory related to our prior year acquisitions.

Selling, General and Administrative Expenses

Selling, general and administrative expenses are comprised of four categories: (1) selling; (2) advertising, marketing and design; (3) distribution and customer service; and (4) administrative. Selling expenses include store employee compensation, occupancy costs and supply costs, wholesale and retail account administration compensation globally and Coach international operating expenses. These expenses are affected by the number of Coach-operated stores open during any fiscal period and store performance, as compensation and rent expenses vary with sales. Advertising, marketing and design expenses include employee compensation, media space and production, advertising agency fees (primarily to support North America), new product design costs, public relations and market research expenses. Distribution and customer service expenses include warehousing, order fulfillment, shipping and handling, customer service and bag repair costs. Administrative expenses include compensation costs for “corporate” functions including: executive, finance, human resources, legal and information systems departments, as well as corporate headquarters occupancy costs, consulting and software expenses. Administrative expenses also include global equity compensation expense.

Coach includes inbound product-related transportation costs from our service providers within cost of sales. Coach, similar to some companies, includes certain transportation-related costs related to our distribution network in selling, general and administrative expenses rather than in cost of sales; for this reason, our gross margins may not be comparable to that of entities that include all costs related to their distribution network in cost of sales.

Selling, general and administrative expenses decreased 2.5% to \$518.6 million in the third quarter of fiscal 2014 as compared to \$531.7 million in the third quarter of fiscal 2013. As a percentage of net sales, selling, general and administrative expenses increased to 47.2% during the third quarter of fiscal 2014 as compared to 44.8% during the third quarter of fiscal 2013.

Selling expenses were \$371.4 million, or 33.8% of net sales, in the third quarter of fiscal 2014 compared to \$362.8 million, or 30.6% of net sales, in the third quarter of fiscal 2013. The dollar increase in selling expenses reflected new store openings and the impact of acquiring our former partner Hackett’s 50% interest in our European joint venture. This increase was offset by lower selling costs associated with lower sales in North America and the favorable impact of the foreign currency exchange rates related to Coach Japan.

Advertising, marketing and design costs were \$61.0 million, or 5.6% of net sales, in the third quarter of fiscal 2014, compared to \$65.5 million, or 5.5% of net sales, during the same period of fiscal 2013. Advertising, marketing, and design costs remained fairly consistent from the same period in the prior year as the decrease in costs related to the divestiture of the Reed Krakoff business was offset by increased expense as a part of the Company’s transformation-related efforts.

Distribution and customer service expenses were \$20.4 million, or 1.9% of net sales, in the third quarter of fiscal 2014, compared to \$20.8 million, or 1.8% of net sales, in the third quarter of fiscal 2013. Distribution and customer service expenses remained fairly consistent from the same period in the prior year.

Administrative expenses were \$65.8 million, or 6.0% of net sales, in the third quarter of fiscal 2014 compared to \$82.6 million, or 7.0% of net sales, during the same period of fiscal 2013. The dollar decrease in the third quarter of fiscal 2014 reflects lower performance-related compensation costs.

Operating Income

Operating income decreased 24.6% or \$85.8 million to \$262.7 million during the third quarter of fiscal 2014 as compared to \$348.5 million in third quarter of fiscal 2013. Operating margin decreased to 23.9% as compared to 29.3% in third quarter of fiscal 2013.

The following table presents operating income by reportable segment for the third quarter fiscal 2014 compared to same quarter in fiscal 2013:

	Quarter Ended				
	(unaudited, dollars in millions)				
	March 29, 2014	March 30, 2013 ⁽¹⁾	Variance		
		\$	%		
North America	\$ 222.1	\$ 325.6	(103.5)	(31.8)	
International	163.6	151.6	12.0	7.9	
Other ⁽²⁾	5.7	6.7	(1.0)	(14.9)	
Corporate unallocated	(128.7)	(135.4)	6.7	(4.9)	
Total operating income	\$ 262.7	\$ 348.5	(85.8)	(24.6)	

⁽¹⁾ In connection with the acquisition of the retail business in Europe, the Company evaluated the composition of its reportable segments and concluded that the operating income associated with this region should be included in the International segment. Accordingly, prior year comparable amounts have been reclassified to conform to the current year presentation.

⁽²⁾ Operating income in the Other category, which is not a reportable segment, consists of sales and expenses generated in ancillary channels, including licensing and disposition.

North America Operating Income decreased 31.8% to \$222.1 million in the third quarter of fiscal 2014 reflecting the decrease in gross profit of \$126.0 million which was partially offset by lower SG&A expenses of \$22.5 million. The decrease in SG&A expenses was primarily related to lower variable selling costs as a result of lower sales and the absence of costs in the third quarter of fiscal 2014 related to the divestiture of the Reed Krakoff business. Operating margin decreased 680 basis points to 34.3% in the third quarter of fiscal 2014 from 41.1% during the same period in the prior year due to lower gross margin and higher SG&A expense as a percentage of net sales.

International Operating Income increased 7.9% to \$163.6 million primarily reflecting higher gross profit of \$36.4 million offset by higher SG&A expenses of \$24.4 million. The increase in SG&A expenses is related to a \$14.6 million increase in China and Asia, excluding Japan, related to higher occupancy and employee costs related to new store openings and a \$12.9 million increase as a result of the recently acquired Europe business. The increase in SG&A costs were offset by favorable foreign currency effects in Japan of \$7.2 million. Operating margin decreased 230 basis points to 37.1% in the third quarter of fiscal 2014 from 39.4% during the same period in the prior year primarily due to lower gross margin of 190 basis points and higher overall selling expenses as a percentage of net sales which increased by 40 basis points.

Corporate Unallocated Operating Expense decreased \$6.7 million to \$128.7 million, a decrease of 4.9%. The decrease in Corporate Unallocated expense was primarily related to lower administrative costs of \$17.8 million, largely due to lower performance-related compensation expense, offset by less favorable production variances, particularly for labor, of \$8.4 million.

Provision for Income Taxes

The effective tax rate was 26.9% in the third quarter of fiscal 2014, as compared to 31.3% in the third quarter of fiscal 2013. The decrease in our effective tax rate was primarily attributable to discrete items, most notably the tax benefit we received as a result of statute closures. Excluding discrete items, our effective tax rate was 30.1% in the third quarter of fiscal 2014. This decrease when compared to the same period in fiscal 2013, was primarily attributable to the geographic mix of our earnings in the third quarter of fiscal 2014 as compared with the third quarter of fiscal 2013.

Net Income

Net income was \$190.7 million in the third quarter of fiscal 2014 as compared to \$238.9 million in the third quarter of fiscal 2013. This decrease was primarily due to lower operating income offset by lower provision for income taxes.

Earnings per Share

Diluted earnings per share declined by 19.0% to \$0.68 in the third quarter of fiscal 2014 as compared to \$0.84 in the third quarter of fiscal 2013 as a result of lower net income.

SUMMARY – FIRST NINE MONTHS OF FISCAL 2014

During the first nine months of fiscal 2014, the Company generated net sales of \$3.67 billion, net income of \$706.1 million and net income per diluted share of \$2.51. This compares to net sales of \$3.85 billion, net income of \$813.1 million and net income per diluted share of \$2.84 for the first nine months of fiscal 2013.

Our operating performance for the first nine months of fiscal 2014 reflected a decline in net sales of 4.7% primarily due to decreased net sales from our North America business partially offset by increased net sales in our International business. Excluding the unfavorable effects of foreign currency, net sales decreased by 2.0%. Our gross profit decreased by 7.8% to \$2.59 billion during the nine months ended March 29, 2014. Selling, general and administrative expenses decreased 2.1% as a result of lower performance and equity-related compensation costs and lower net sales in North America partially offset by additional expansion-related expenses incurred in our International business. As a result, operating income decreased to \$1.02 billion for the nine months ended March 29, 2014.

Net income decreased in the first nine months of fiscal 2014 as compared to the same period of fiscal 2013, primarily due to a decrease in gross profit of \$220.1 million offset by decreases in the provision for income taxes and SG&A expenses of \$73.8 million and \$33.7 million, respectively. Net income per diluted share decreased due to lower net income slightly offset by a lower weighted-average of the amount of diluted shares outstanding at March 29, 2014.

Net Sales

Net sales decreased 4.7% or \$182.7 million to \$3.67 billion. Excluding the effects of foreign currency, net sales decreased by 2.0% or \$78.7 million. This decrease was driven by lower sales in the North America business partially offset by gains in the International businesses.

Net sales by reportable segment in the first nine months of fiscal 2014, compared to the first nine months of fiscal 2013, were as follows:

	Nine Months Ended

⁽¹⁾ In connection with the acquisition of the retail business in Europe, the Company evaluated the composition of its reportable segments and concluded that sales in this region should be included in the International segment. Accordingly, prior year comparable sales have been reclassified to conform to the current year presentation.

⁽²⁾ Net sales in the Other category, which is not a reportable segment, consists of sales generated in ancillary channels, including licensing and disposition.

North America Net Sales decreased 9.2% or \$243.6 million to \$2.41 billion. This decrease was primarily driven by a decrease in comparable store sales of \$329.5 million or 13.8%, of which the Internet business had an immaterial negative impact, approximately 1%, on comparable store sales. The decrease in comparable store sales was primarily due to decreased store traffic. This decrease was partially offset by an increase of \$113.1 million related to new stores. Since the end of the third quarter of fiscal 2013, Coach opened 14 factory stores, including three Men's factory stores, and closed a net 14 retail stores.

International Net Sales increased 5.1% or \$60.0 million to \$1.23 billion. Excluding the unfavorable impact of foreign currency, primarily due to the Japanese yen, net sales increased \$157.5 million or 13.5%. The increase in net sales was primarily due to double digit growth in China and Asia, excluding Japan, reflecting \$120.9 million due to new stores and positive comparable store sales, a \$24.5 million increase related to the acquisition of the Europe joint venture in the first quarter of fiscal 2014 and a \$10.6 million increase in Japan. Since the quarter ended March 30, 2013, we opened 47 net new stores, with 44 net new stores in mainland China, Hong Kong and Macau and Japan, and three net new stores in the other regions. The acquisition of the European joint venture resulted in a transfer of 18 stores to the Company's direct control. Since the acquisition on July 1, 2013, Coach has opened six new stores and transitioned two stores from wholesale to direct control.

Gross Profit

Gross profit decreased 7.8% to \$2.59 billion in the first nine months of fiscal 2014 from \$2.81 billion during the first nine months of fiscal 2013. Gross margin for the nine months ended March 29, 2014 was 70.6% as compared to 73.0% during the same period of fiscal 2013.

North America Gross Profit decreased 13.6% or \$244.1 million to \$1.55 billion in the first nine months of fiscal 2014. Gross margin decreased 330 basis points from 67.7% in the first nine months of fiscal 2013 to 64.4% in the first nine months of fiscal 2014. The decrease in gross margin is primarily due to a 230 basis points decline due to increased promotional activity primarily in our factory channel and a 90 basis point decline as a result of selling products with a higher average unit cost as well as increased penetration of our broadened lifestyle categories.

International Gross Profit increased 3.8% or \$35.4 million to \$971.5 million in the first nine months of fiscal 2014. Gross margin decreased 100 basis points from 80.0% in the first nine months of fiscal 2013 to 79.0% in the first nine months of fiscal 2014. The decrease in gross margin is primarily due to the negative translation effect of changes in foreign currency. Other factors negatively impacting gross margin were increased promotions, selling products with a higher average unit cost, as well as increased penetration of our broadened lifestyle categories which were offset by the absence of higher cost inventory related to our prior year acquisitions.

Selling, General and Administrative Expenses

Selling, general and administrative expenses decreased 2.1% to \$1.57 billion in the first nine months of fiscal 2014 as compared to \$1.60 billion in the same period of fiscal 2013. As a percentage of net sales, selling, general and administrative expenses increased to 42.8% during the first nine months quarter of fiscal 2014 as compared to 41.6% during the same period in fiscal 2013.

Selling expenses were \$1.15 billion, or 31.3% of net sales, in the first nine months of fiscal 2014 compared to \$1.13 billion, or 29.4% of net sales, during the same period of fiscal 2013. The dollar increase in selling expenses reflected increases in new store openings and the impact of acquiring our former partner Hackett's 50% interest in our European joint venture. These expenses were mostly offset by a favorable impact of foreign currency exchange rates primarily related to Coach Japan and lower variable expenses related to lower sales in North America.

Advertising, marketing and design costs were \$183.1 million, or 5.0% of net sales, in the first nine months of fiscal 2014 compared to \$200.9 million, or 5.2% of net sales, during the same period of fiscal 2013. The decrease was primarily due to the divestiture of the Reed Krakoff business. This decrease was partially offset by increased advertising, marketing, and design costs related to the Company's transformation efforts.

Distribution and customer service expenses were \$66.9 million, or 1.8% of net sales, in the first nine months of fiscal 2014 compared to \$64.7 million, or 1.7% of net sales, during the same period of fiscal 2013. Distribution and customer service expenses remained fairly consistent from the same period in the prior year.

Administrative expenses were \$173.3 million, or 4.7% of net sales, in the first nine months of fiscal 2014 compared to \$205.4 million, or 5.3% of net sales, during the same period of fiscal 2013, reflecting lower performance and equity-related compensation expense.

Operating Income

Operating income decreased 15.5% or \$186.5 million to \$1.02 billion during the first nine months of fiscal 2014 as compared to \$1.21 billion in the first nine months of fiscal 2013. Operating margin decreased to 27.8% as compared to 31.3% during the same period in fiscal 2013.

The following table presents operating income by reportable segment for the first nine months of fiscal 2014 compared to first nine months of fiscal 2013:

	Nine Months Ended			
	(unaudited, dollars in millions)			
	March 29,	March 30,	Variance	
	2014	2013 ⁽¹⁾	\$	%
North America	\$ 926.1	\$ 1,131.0	(204.9)	(18.1)
International	434.8	438.8	(4.0)	(0.9)
Other ⁽²⁾	19.8	19.4	0.4	2.1
Corporate unallocated	(360.4)	(382.4)	22.0	(5.8)
Total operating income	\$ 1,020.3	\$ 1,206.8	(186.5)	(15.5)

⁽¹⁾ In connection with the acquisition of the retail business in Europe, the Company evaluated the composition of its reportable segments and concluded that the operating income associated with this region should be included in the International segment. Accordingly, prior year comparable amounts have been reclassified to conform to the current year presentation.

⁽²⁾ Operating income in the Other category, which is not a reportable segment, consists of sales and expenses generated in ancillary channels, including licensing and disposition.

North America Operating Income decreased 18.1% to \$926.1 million in the first nine months fiscal 2014 reflecting the decrease in gross profit of \$244.1 million which was partially offset by lower SG&A expenses of \$39.2 million. The decrease in SG&A expenses was primarily related to lower variable selling costs as a result of lower sales. Operating margin decreased 420 basis points to 38.4% in the first nine months of fiscal 2014 from 42.6% during the same period in the prior year primarily due to lower gross margin.

International Operating Income decreased 0.9% to \$434.8 million reflecting an increase in SG&A expenses of \$39.4 million largely offset by higher gross profit of \$35.4 million. The increase in SG&A expenses is primarily related to a \$40.3 million increase in China and Asia, excluding Japan, largely due to higher occupancy and employee costs related to new store openings and a \$32.6 million increase as a result of the recently acquired Europe business. The increase in SG&A costs were partially offset by favorable foreign currency effects in Japan of \$40.3 million. Operating margin decreased 220 basis points to 35.3% in the first nine months of fiscal 2014 from 37.5% during the same period in the prior year due to higher overall selling expenses as a percentage of net sales which increased by 120 basis points and lower gross margin of 100 basis points.

Corporate Unallocated Operating Expense decreased \$22.0 million to \$360.4 million, a decrease of 5.8%. The decrease in Corporate Unallocated expense was primarily related to lower administrative costs of \$34.5 million largely due to lower performance and equity-related compensation expense offset by less favorable production variances, particularly for labor, of \$9.9 million.

Provision for Income Taxes

The effective tax rate was 30.9% in the first nine months of fiscal 2014, as compared to 32.4% for the first nine months of fiscal 2013. The decrease in our effective tax rate was primarily attributable to the geographic mix of our earnings for the first nine months of fiscal 2014 as compared with the same period of fiscal 2013 and discrete items, most notably the tax benefit we received in the third quarter of fiscal 2014 as a result of statute closures. Excluding discrete items, our effective tax rate was 31.6% for the first nine months of fiscal 2014.

Net Income

Net income was \$706.1 million in the first nine months of fiscal 2014 as compared to \$813.1 million in the first nine months of fiscal 2013. This decrease was primarily due to lower operating income partially offset by the lower provision for income taxes.

Earnings per Share

Diluted earnings per share declined 11.6% to \$2.51 in the first nine months of fiscal 2014 as compared to \$2.84 in the first nine months of fiscal 2013. This decline reflected lower net income for the first nine months of fiscal 2014 as compared to the same period in the prior year slightly offset by a lower weighted-average of the amount of diluted shares outstanding at March 29, 2014.

Non-GAAP Measures

The Company's reported results are presented in accordance with accounting principles generally accepted in the United States of America ("GAAP"). The percentage increase in net sales in the third quarter and the first nine months of fiscal 2014 for total and International net sales has been presented both including and excluding currency fluctuation effects from translating these foreign-denominated amounts into U.S. dollars and comparing these figures to the third quarter and the first nine months of fiscal 2013. Excluding currency fluctuation effects is considered a non-GAAP measure.

We believe that presenting total and International net sales variances, including and excluding currency fluctuation effects, will help investors and analysts to understand the effect on these valuable performance measures of significant year-over-year currency fluctuations. The non-GAAP financial measures are limited in their usefulness and should be considered in addition to, and not in lieu of, U.S. GAAP financial measures. Further, these non-GAAP measures may be unique to the Company, as they may be different from non-GAAP measures used by other companies.

LIQUIDITY AND CAPITAL RESOURCES

Cash Flow

(unaudited, dollars in thousands)	<u>Nine Months Ended</u>		<u>Change</u>
	<u>March 29,</u> <u>2014</u>	<u>March 30,</u> <u>2013</u>	
Net cash provided by operating activities	\$ 669,337	\$ 1,039,407	\$ (370,070)
Net cash used in investing activities	(673,885)	(374,550)	(299,335)
Net cash used in financing activities	(593,172)	(697,452)	104,280
Effect of exchange rate changes on cash and cash equivalents	(1,602)	(8,261)	6,659
Net decrease in cash and cash equivalents	<u>\$ (599,322)</u>	<u>\$ (40,856)</u>	<u>\$ (558,466)</u>

The Company's cash and cash equivalents decreased \$599.3 million during the first nine months of fiscal 2014 compared to a decrease of \$40.9 million in the first nine months of fiscal 2013. The year-over-year change is primarily driven by declines in net cash provided by operations and increased purchases of investments (a move from cash and cash equivalents into short and long term investments) which were partially offset by less cash used in financing activities.

Net cash provided by operating activities was \$669.3 million in the first nine months of fiscal 2014 compared to \$1.04 billion in the first nine months of fiscal 2013. The decrease of \$370.1 million was primarily due to changes in operating asset and liability balances, the most significant occurring in accrued liabilities, accounts payable and inventory coupled with lower net income in the current period. Accrued liabilities were a source of cash of \$39.9 million in the prior fiscal period, compared to a use of cash of \$79.5 million in the current fiscal period, primarily driven by the timing of dividends and tax payments. Changes in accounts payable balances resulted in a \$59.2 million higher use of cash in the current period due to timing. Inventory balances were a \$46.1 million higher use of cash in the current period as compared to the prior year due to increased distribution in connection with new stores and the Europe acquisition. Inventory levels at the end of the current quarter were \$583.7 million dollars, 13% above the \$515.9 million at the end of last year's third quarter, driven by sales below our expectations.

Net cash used in investing activities was \$673.9 million in the first nine months of fiscal 2014 compared to \$374.6 million in the first nine months of fiscal 2013. The increase of \$299.3 reflects a net \$301.2 million higher cash and cash equivalents moved into the Company's short and long-term investment portfolio and \$62.9 million of cash used to invest in the Company's Hudson Yards joint venture. The Company used \$53.3 million of cash in the prior fiscal year for distributor acquisitions. Full year capital expenditures are expected to be between \$250 and \$260 million.

Net cash used in financing activities was \$593.2 million in the first nine months of fiscal 2014 as compared to \$697.5 million in the first nine months of fiscal 2013. The decrease of \$104.3 million was primarily due to \$210.0 million in net borrowings under the Company's revolving credit facility, lower dividend payments of \$56.0 million due to the timing of dividends paid which were slightly offset by our increased dividend rate, partially offset by higher cash used for share repurchases of \$124.9 million.

Revolving Credit Facilities

The Company has a \$700 million credit facility with certain lenders and JP Morgan Chase Bank, N.A. as the primary lender and administrative agent (the “JP Morgan facility”) with a maturity date of March 26, 2018. The JP Morgan facility is available to finance the seasonal working capital requirements and general corporate purposes of the Company and its subsidiaries. At the Company’s request and lenders’ consent, revolving commitments of the JP Morgan facility may be increased to \$1 billion.

Borrowings under the JP Morgan Facility bear interest at a rate per annum equal to, at Coach’s option, either (a) a rate based on the rates applicable for deposits in the interbank market for U.S. dollars or the applicable currency in which the loans are made plus an applicable margin or (b) an alternate base rate (which is a rate equal to the greatest of (1) the Prime Rate in effect on such day, (2) the Federal Funds Effective Rate in effect on such day plus ½ of 1% or (3) the Adjusted LIBO Rate for a one month Interest Period on such day plus 1%). Additionally, Coach pays a commitment fee on the average daily unused amount of the JP Morgan Facility. At March 29, 2014, the commitment fee was 7.5 basis points. The JP Morgan facility contains various covenants and customary events of default. Coach is in compliance with all covenants of the JP Morgan facility. During the first nine months of fiscal 2014, the Company borrowed and repaid \$360 million and \$150 million, respectively. There was \$210 million in borrowings outstanding under this facility as of March 29, 2014.

As of March 29, 2014, Coach Japan, a wholly owned subsidiary of the Company, had credit facilities with several Japanese financial institutions to provide funding for working capital and general corporate purposes, allowing a maximum borrowing of 5.3 billion yen, or approximately \$51 million, as of March 29, 2014. Interest is based on the Tokyo Interbank rate plus a margin of 25 to 30 basis points. There were no borrowings under these credit facilities in fiscal 2014 and fiscal 2013.

As of March 29, 2014, Coach Shanghai Limited, a wholly owned subsidiary of the Company, had a credit facility to provide funding for working capital and general corporate purposes, allowing a maximum borrowing of 63 million Chinese renminbi, or approximately \$10 million, as of March 29, 2014. Interest is based on the People's Bank of China rate. There were no borrowings under this credit facility in fiscal 2014 and fiscal 2013.

Both the Coach Japan and Coach Shanghai Limited credit facilities can be terminated at any time by the respective financial institutions, and there is no guarantee that they will be available to the Company in future periods.

Common Stock Repurchase Program

In October 2012, the Company’s Board of Directors approved a common stock repurchase program to acquire up to \$1.5 billion of Coach’s outstanding common stock through June 2015. Purchases of Coach common stock are made subject to market conditions and at prevailing market prices, through open market purchases. Repurchased shares become authorized but unissued shares and may be issued in the future for general corporate and other uses. The Company may terminate or limit the stock repurchase program at any time.

During the first nine months of fiscal 2014 and fiscal 2013, the Company repurchased and retired 10.2 million and 7.1 million shares respectively, or \$524.9 and \$400.0 million of common stock, respectively, at an average cost of \$51.27 and \$56.61 per share, respectively.

The Company expects its total share repurchases to be \$524.9 million for fiscal 2014. As of March 29, 2014, Coach had \$836.7 million remaining in the stock repurchase program.

Capital Expenditures and Working Capital

The Company expects total capital expenditures for the fiscal year ending June 28, 2014 to be between \$250 and \$260 million. Capital expenditures are primarily for new stores in North America and Asia to support our global expansion. We will also continue to invest in corporate infrastructure, primarily technology, and department store and distributor locations.

Because Coach products are frequently given as gifts, Coach experiences seasonal variations in its net sales, operating cash flows and working capital requirements, primarily related to seasonal holiday shopping. During the first fiscal quarter, Coach builds inventory for the holiday selling season. In the second fiscal quarter, its working capital requirements are reduced substantially as Coach generates higher net sales and operating income, especially during the holiday months of November and December. Accordingly, the Company's net sales, operating income and operating cash flows for the nine months ended March 29, 2014 are not necessarily indicative of that expected for the full Fiscal 2014. However, fluctuations in net sales, operating income and operating cash flows in any fiscal quarter may be affected by other events affecting retail sales, such as changes in weather patterns.

In April 2013, the Company entered into a joint venture agreement with the Related Companies, L.P. to develop a new office tower in Manhattan in the Hudson Yards district. The formation of the joint venture serves as a financing vehicle for the project, with the Company owning less than 43%. Upon completion of the office tower in 2015, the Company will retain a condominium interest serving as its new corporate headquarters. During the quarter and nine months ended March 29, 2014, the Company invested \$21.5 and \$62.9 million, respectively, in the joint venture. The Company expects to invest approximately \$370 million between the beginning of the fourth quarter of fiscal 2014 through fiscal 2016. The Company's latest estimate contemplates investing approximately \$30 million in the fourth quarter of fiscal 2014. The Company expects to incur approximately \$190 million of capital expenditures over the remaining period of construction. The joint venture investments will be financed by the Company with cash on hand, borrowings under its credit facility and approximately \$130 million of proceeds from the sale of its current headquarters buildings in fiscal 2016.

Our sources of liquidity are the cash flows generated from our operations, our available cash and cash equivalents, short and long-term investments, the \$700 million available under our JP Morgan facility, the availability under our Japan and Shanghai credit facilities and our other available financing options. A substantial amount of our cash and short-term investments are currently held outside the United States in jurisdictions where we intend to permanently reinvest our undistributed earnings to support our continued growth. We believe that our existing sources of liquidity, including as our ability to access capital markets, will be sufficient to meet our cash needs.

We expect to continue to draw on our credit facilities to fund general corporate business purposes in North America and our investment in the Hudson Yards district joint venture. This may lead to a higher outstanding debt balance at the end of fiscal 2014.

As of March 29, 2014 we had \$210 million of borrowings outstanding under our revolving credit facility. Our average borrowings outstanding for the three and nine months ended March 29, 2014 was \$55.4 and \$51.6 million, respectively. We had no revolving credit borrowings outstanding as of June 29, 2013.

Any future acquisitions or joint ventures, and other similar transactions may require additional capital. There can be no assurance that any such capital will be available to Coach on acceptable terms or at all. Coach's ability to fund its working capital needs, planned capital expenditures, dividend payments and any scheduled debt payments, as well as to comply with all of the financial covenants under its debt agreements, depends on its future operating performance and cash flow, which in turn are subject to prevailing economic conditions and to financial, business and other factors, some of which are beyond Coach's control.

Reference should be made to our most recent Annual Report on Form 10-K for additional information regarding liquidity and capital resources.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our discussion of results of operations and financial condition relies on our consolidated financial statements that are prepared based on certain critical accounting policies that require management to make judgments and estimates that are subject to varying degrees of uncertainty. We believe that investors need to be aware of these policies and how they impact our financial statements as a whole, as well as our related discussion and analysis presented herein. While we believe that these accounting policies are based on sound measurement criteria, actual future events can and often do result in outcomes that can be materially different from these estimates or forecasts. The accounting policies and related risks described in our Annual Report on Form 10-K for the year ended June 29, 2013 are those that depend most heavily on these judgments and estimates. As of March 29, 2014, there have been no material changes to any of the critical accounting policies contained therein.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

Coach operates in foreign countries, which exposes the Company to market risk associated with foreign exchange rate fluctuations. In addition, the Company's financial instruments are subject to market risk arising from interest rate fluctuations. This inherent market risk, which represents potential loss in fair value, earnings or cash flows, arises from adverse changes in these foreign currency exchange rates or interest rates. Coach manages these exposures through operating and financing activities and, when appropriate, through the use of derivative financial instruments. The use of derivative financial instruments is in accordance with Coach's risk management policies. Coach does not enter into derivative transactions for speculative or trading purposes.

The following quantitative disclosures are based on quoted market prices obtained through independent pricing sources for the same or similar types of financial instruments, taking into consideration the underlying terms and maturities and theoretical pricing models. These quantitative disclosures do not represent the maximum possible loss or any expected loss that may occur, since actual results may differ from those estimates.

Foreign Currency Exchange

Foreign currency exposures arise from transactions, including firm commitments and anticipated contracts, denominated in a currency other than the entity's functional currency, and from foreign-denominated revenues and expenses translated into U.S. dollars. Substantially all of Coach's purchases and sales involving international parties, excluding international customer sales, are denominated in U.S. dollars and, therefore, are not subject to foreign currency exchange risk. The Company is exposed to risk from foreign currency exchange rate fluctuations resulting from its foreign operating subsidiaries' U.S. dollar denominated inventory purchases. To mitigate such risk, Coach Japan and Coach Canada enter into zero-cost collar options. As of March 29, 2014 and June 29, 2013, foreign currency contracts designated as hedges with a notional amount of \$94.0 million and \$193.4 million, respectively, were outstanding.

Coach is also exposed to market risk from foreign currency exchange rate fluctuations with respect to various cross-currency intercompany and related party loans. These loans are denominated in various foreign currencies. To manage the exchange rate risk related to these loans, the Company entered into forward exchange and cross-currency swap contracts, the terms of which include the exchange of foreign currency fixed interest for U.S. dollar fixed interest and an exchange of the foreign currency and U.S. dollar based notional values at the maturity dates of the contracts, the latest of which is March 2018. As of March 29, 2014 and June 29, 2013, the total notional values of outstanding forward exchange and cross-currency swap contracts related to these loans were \$15.7 million and \$147.6 million, respectively.

The fair value of open foreign currency derivatives included in current assets at March 29, 2014 and June 29, 2013 was \$3.2 million and \$4.5 million, respectively. The fair value of open foreign currency derivatives included in current liabilities at March 29, 2014 and June 29, 2013 was \$0.1 million and \$2.9 million, respectively. The fair value of these contracts is sensitive to changes in foreign currency exchange rates.

Interest Rate

Coach is exposed to interest rate risk in relation to its investments and revolving credit facilities.

The Company's investment portfolio is maintained in accordance with the Company's investment policy, which identifies allowable investments, specifies credit quality standards and limits the credit exposure of any single issuer. The primary objective of our investment activities is the preservation of principal while maximizing interest income and minimizing risk. We do not hold any investments for trading purposes. The Company's investment portfolio consists of assets classified as available-for-sale or held to maturity.

At March 29, 2014 and June 29, 2013, the Company's short-term investments, classified within current assets on the condensed consolidated balance sheet consisted of \$311.4 million and \$72.1 million, respectively, of time deposits, commercial paper, and high-credit quality U.S. and non U.S. issued corporate debt securities and U.S. Treasuries and governmental agency securities with original maturities greater than three months.

At March 29, 2014 and June 29, 2013, the Company's long-term investments, classified within non-current assets on the condensed consolidated balance sheet consisted of high-credit U.S. and non-U.S. issued corporate debt securities, U.S. Treasuries and governmental agency securities with a fair value of \$319.2 million and \$103.4 million, respectively. These securities have maturity dates between calendar years 2014 and 2017. Unrealized gains and losses are recorded within other comprehensive income.

The Company's cash and cash equivalents of \$463.5 million and \$1,062.8 million at March 29, 2014 and June 29, 2013, respectively, primarily consisted of cash, time deposits, commercial paper and money market funds. As the Company does not have the intent to sell and will not be required to sell these securities until maturity, cash equivalents are classified as held-to-maturity and stated at amortized cost.

As of March 29, 2014, the Company had \$210 million in outstanding borrowings on its JP Morgan facility and no outstanding borrowings on the Coach Japan credit facility and the Coach Shanghai Limited credit facility. The fair value of any future borrowing may be impacted by fluctuations in interest rates.

ITEM 4. Controls and Procedures

Based on the evaluation of the Company's disclosure controls and procedures, as that term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended, each of Victor Luis, Chief Executive Officer of the Company, and Jane Nielsen, Chief Financial Officer of the Company, have concluded that the Company's disclosure controls and procedures are effective as of March 29, 2014.

There were no changes in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Reference should be made to our most recent Annual Report on Form 10-K for additional information regarding discussion of the effectiveness of the Company's controls and procedures.

PART II – OTHER INFORMATION

ITEM 1. Legal Proceedings

Coach is involved in various routine legal proceedings as both plaintiff and defendant incident to the ordinary course of its business, including proceedings to protect Coach's intellectual property rights, litigation instituted by persons alleged to have been injured upon premises within Coach's control and litigation with present or former employees.

As part of Coach's policing program for its intellectual property rights, from time to time, Coach files lawsuits in the U.S. and abroad alleging acts of trademark counterfeiting, trademark infringement, patent infringement, trade dress infringement, trademark dilution and/or state or foreign law claims. At any given point in time, Coach may have a number of such actions pending. These actions often result in seizure of counterfeit merchandise and/or out of court settlements with defendants. From time to time, defendants will raise, either as affirmative defenses or as counterclaims, the invalidity or unenforceability of certain of Coach's intellectual properties.

Although Coach's litigation with present or former employees is routine and incidental to the conduct of Coach's business, as well as for any business employing significant numbers of employees, such litigation can result in large monetary awards when a civil jury is allowed to determine compensatory and/or punitive damages for actions claiming discrimination on the basis of age, gender, race, religion, disability or other legally protected characteristic or for termination of employment that is wrongful or in violation of implied contracts.

Coach believes that the outcome of all pending legal proceedings in the aggregate will not have a material adverse effect on Coach's business or consolidated financial statements.

Coach has not entered into any transactions that have been identified by the IRS as abusive or that have a significant tax avoidance purpose. Accordingly, we have not been required to pay a penalty to the IRS for failing to make disclosures required with respect to certain transactions that have been identified by the IRS as abusive or that have a significant tax avoidance purpose.

ITEM 1A. Risk Factors

There are no material changes from the risk factors previously disclosed in our Annual Report on Form 10-K for the fiscal year ended June 29, 2013.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Company's stock repurchases during the third quarter of fiscal 2014 were as follows:

COACH, INC.
(Registrant)

By: /s/ Jane Nielsen
Name: Jane Nielsen
Title: Chief Financial Officer
(Principal Financial and Accounting Officer)

Dated: May 6, 2014

I, Victor Luis, certify that,

1. I have reviewed this Quarterly Report on Form 10-Q of Coach, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
