

November 15, 2004

Hello SEC,

My name is Darin Shebesta and I am a student at Arizona State University. I am in the Barrett Honors College and am required to complete a thesis. My thesis is in the area of corporate governance and we have spent much time with Statements of Additional Information (SAIs). My director sent me the email on the press release about data tagging. I have been meaning to become in contact with your organization because I have several comments to make concerning the data on EDGAR. I understand the deadline for this information is November 15, 2004. I would like an extension to give you a general idea of what I am thinking about. I would enjoy hearing your feedback. I am hard at work with this project and I would appreciate it if I can share this pertinent information with your entity. Thank you for your time. Have an outstanding day.

Darin R. Shebesta
