Gentlemen;

I am writing out of concern for the lack of short sale position reporting on bulletin board stocks. While I cannot prove this, I am certain that PCS Edventures.com, Inc. (OTBB: PCSV) has been a recurring victim of "naked" short sales during the past 24 months. There have been times such as the late summer and fall of 2004 our stock was so depressed as to make any financing almost impossible. All of this occurred even while the basic fundamentals of revenue and earnings were improving, and it is very frustrating to simply have to stand by and watch these people work to destroy a Company.

Thank you,

Tony
