Report of Independent Auditors

Board of Administration
The TRW Employee Stock Ownership
and Savings Plan

We have audited the accompanying statements of net assets available for benefits of The TRW Employee Stock Ownership and Savings Plan as of December 31, 2000 and 1999, and the related statement of changes in net assets available for benefits for the year ended December 31, 2000. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of The TRW Employee Stock Ownership and Savings Plan as of December 31, 2000 and 1999, and the changes in net assets available for benefits for the year ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule of assets held for investment purposes at the end of year as of December 31, 2000, and the schedule of reportable transactions for the year then ended, are presented for purposes of complying with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, and are not a required part of the basic financial statements. The Fund Information in the statement of net assets available for benefits and the statement of changes in net assets available for benefits is presented for purposes of additional analysis rather than to present the net assets available for benefits and changes in net assets available for benefits of each fund. The supplemental schedules and Fund Information have been subjected to the auditing procedures applied in our audit of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The TRW Employee Stock Ownership and Savings Plan

Notes to Financial Statements

December 31, 2000 and 1999

A. Description of the Plan

The following description of The TRW Employee Stock Ownership and Savings Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the plan’s provisions.

Participation in the Plan is available to substantially all domestic employees of TRW who have been employed for at least three months. The Plan is governed by the Internal Revenue Code and related legislation.

Participant Contributions

The Plan allows eligible employees to contribute up to 16% of qualifying compensation on a before-tax basis by way of salary reduction; such contributions are made in increments of one percent of qualifying compensation and could not exceed \$10,500 in 2000. Participants may also elect to contribute, in increments of one percent, up to 10% of qualifying compensation on an after-tax basis. The combined contribution cannot exceed 22% of their qualifying compensation. Participants can make unlimited contribution percentage changes per month. Annual contributions to a participant’s account (including before-tax, after-tax and TRW matching contributions) and to any other defined contribution plan are limited to the lesser of \$30,000 or 25% of the participant’s annual compensation reduced by the amount of before-tax contributions.

Participants determine the funds in which to invest their contributions. Employee contributions may be invested, in multiples of 1% percent, in one or more of the fourteen investment funds. Fund elections may be changed at any time.

TRW Contributions

TRW contributes to the Plan, out of current or accumulated earnings, an amount equal to 100% of each participant’s before-tax contributions to a maximum of three percent of each participant’s qualifying compensation. Participants immediately vest in the TRW contributions. All TRW matching contributions are invested in the TRW Stock Fund. TRW contributions always remain in the TRW Stock Fund and may not be transferred, except under special circumstances. TRW contributions may be in the form of cash or treasury or authorized and unissued shares of TRW Common Stock. TRW Common Stock contributed is to be valued by any reasonable method selected by TRW.

The TRW Employee Stock Ownership and Savings Plan

Notes to Financial Statements (continued)

A. Description of the Plan (continued)

The amount and type of TRW contributions are summarized as follows:

	2000
TRW Common Stock	\$30,472,851
Cash	19,038,163
	<u>\$49,511,014</u>

Withdrawals and Distributions

Upon termination of employment, a participant may elect to receive his or her account, less the unpaid balance of any loan outstanding, in a single sum except a participant whose account balance exceeds \$5,000 may defer such payments until he or she reaches age 70. Participants receive the value of their TRW shares in cash unless they elect to receive shares. If a participant elects to defer payment of his or her account, the undistributed account balance remains invested in the Plan.

Participants who have attained age 55 as of the end of the preceding fiscal year-end and commenced participation in the Plan at least ten years prior may elect, within an election period during each of the succeeding six consecutive plan years, to receive a special ESOP distribution or may transfer the applicable amount to one or more investment funds under the Plan. The number of shares eligible for the annual election is 50% of the total number of shares of TRW common stock attributable to TRW matching contributions made after 1986, less the equivalent number of shares distributed as a result of any prior ESOP election, as determined on the preceding December 31.

Participant Loans

Participants can borrow from \$1,000 to \$50,000 (in increments of \$100) of their before-tax contributions, but such borrowings in the aggregate cannot exceed 50% of a participant’s total Plan balance. The interest rate is fixed (prime rate at the end of the last business day of the preceding quarter plus one percent) and the repayment period cannot be less than one year or more than five years.

The TRW Employee Stock Ownership and Savings Plan

Notes to Financial Statements (continued)

A. Description of the Plan (continued)

Other

Although it has not expressed any intent to do so, TRW reserves the right to suspend or terminate the Plan. In the event of termination, the amount of each participant's account may be retained in trust for the benefit of the participant.

The above description of the Plan provides only general information. Participants should refer to the Summary Plan Description, which is available from the Stock Savings Plan's Participant Service Center and the Plan's website, and annual prospectus for a more complete description of the Plan's provisions.

B. Significant Accounting Policies

The financial statements have been prepared on the accrual basis of accounting.

Investments are stated at fair value. Investments in common stock are valued at the last reported sales price of the common stock on the last business day of the plan year. The shares of registered investment companies are valued at quoted market prices that represent the net asset values of shares held by the Plan at year-end. Investments in common trust funds investing primarily in equities are valued based on the redemption price of units owned by the Plan, which is based on the current market values of the underlying assets of the fund. The investment in common trust funds investing primarily in insurance contracts, is valued at contract value, plus income received thereon, less distributions and administrative expense payments, which approximates fair value. Investments in common trust funds investing in short-term fixed income obligations have a market value approximating cost. The participant loans are valued at their outstanding balances which approximate fair value.

All separate account and synthetic contracts have a guaranteed return of principal. As of December 31, 2000 and 1999, approximately \$26 and \$54 million was invested in general account assets, \$124 and \$129 million in separate account assets, and \$272 and \$320 million in assets owned by the Plan, respectively. The weighted average yield (excluding administrative expenses) for all investment contracts was 6.19% and 5.89% in 2000 and 1999, respectively. The crediting interest rate for all investment contracts was 6.55% at December 31, 2000 and 6.32% at December 31, 1999.

The TRW Employee Stock Ownership and Savings Plan

Notes to Financial Statements (continued)

B. Significant Accounting Policies (continued)

The cost of securities sold is determined by the average cost method for purposes of determining realized gains and losses.

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Certain amounts in the 1999 financial statement have been reclassified to conform to the 2000 presentation.

C. Investments

During the year ended December 31, 2000, the Plan’s investments (including investments purchased, sold, as well as held during the year) appreciated (depreciated) in fair value as determined by quoted market prices as follows:

	Net Appreciation (Depreciation) in Fair Value of Investments
Common stock	\$(250,806,924)
Common trust funds	(80,405,124)
Shares of registered investment companies	(106,679,978)
Bonds, notes, and other	9,408
	<u>\$(437,882,618)</u>

The TRW Employee Stock Ownership and Savings Plan

Notes to Financial Statements (continued)

C. Investments (continued)

The fair value of individual investments that represent 5% or more of the Plan’s net assets are as follows:

	December 31	
	2000	1999
TRW Inc. Common Stock	\$831,085,108	\$1,038,999,663
Putnam S&P 500 Index Fund	689,213,368	866,910,952
Putnam Small Company Equity Fund	152,709,997	166,712,922
Putnam Investors Fund		191,053,304

Investments within the DLJDirect Securities Account, as of December 31, 2000, consisted of \$14,070,956 of stocks – common and preferred, \$3,491,773 of shares of registered investment companies, and \$535,362 of bonds and notes.

D. Administrative Expenses

Generally, trustee and custodian fees, investment manager fees, brokerage fees, and other fund-related expenses are charged back to the funds for which the expenses are incurred. The charges to audit the Plan, the administrative expenses of operating the Plan, and any other charges that cannot be directly related to a specific fund will be charged back to the funds on a quarterly basis in proportion to the ratio of the net asset value of each fund to the value of all funds invested in the Plan as of the previous quarter-end.

E. Federal Income Tax Status of the Plan

The Plan has received a determination letter from the Internal Revenue Service dated May 24, 1995, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the “Code”) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

The TRW Employee Stock Ownership and Savings Plan

Notes to Financial Statements (continued)

F. Transactions with Parties-in-Interest

Party-in-interest transactions include the purchase and sale of investments managed by the Plan's Trustee, Putnam Investments and any transactions with TRW stock.

Putnam Investments managed assets of the Plan of \$1,051,651,669 and \$1,323,343,488 as of December 31, 2000 and 1999, respectively. There were no trustee fees paid in cash to Putnam in 2000.

There were no party-in-interest transactions which were prohibited under Department of Labor Regulations.

G. Transfer of Assets from Other Plans

On December 24, 1997, TRW purchased BDM International, Inc. (BDM). BDM had an existing 401(k) plan which was merged into the Plan effective January 1, 1999. On January 6, 2000, assets from IG Systems, a separate 401(k) plan associated with the BDM purchase, were merged into the Plan. The transfer of IG Systems' assets of \$2,068,783 is shown on the financial statements as "Transfer from Other Plan."

Employee rollover contributions of \$9,589,425 were made in 2000 from other plans. These contribution amounts are contained in the contribution amounts for each of the respective funds.
