FOR IMMEDIATE RELEASE

Page 1 of 4

QUEBECOR WORLD INC. ANNOUNCES RECORD RESULTS FOR THIRD QUARTER 2000

- *Revenues up 30 % to US\$1.6 Billion**
- *Cash EPS up 43 % to US\$0.70**
- *Quebecor World Inc. continues to develop new markets
with expansion into Brazil**

Montreal, Canada - Quebecor World is pleased to announce another record quarter and a special anniversary. It was one year ago the Company acquired World Color Press in the U.S., making Quebecor World the global leader in its field. The integration has gone better than we had expected since synergies and cost savings are almost double earlier projections.

For the three months ended September 30, 2000, Quebecor World revenues reached US\$1.6 billion, a 30% increase over the same period last year. Operating income totaled US\$202 million, a 60% increase from the same quarter in 1999. Net income was US\$89 million, or US\$0.58 per share, 35% over last year. Cash EPS reached US\$0.70 per share in 2000 compared to US\$0.49 per share in 1999, a 43% improvement.

"We continue to deliver improved year to year results while at the same time managing the largest merger in the history of the commercial printing industry," said Charles G. Cavell, President and Chief Executive Officer of Quebecor World. "Earnings targets are meeting and in some cases exceeding our expectations in spite of the unfavorable impact of foreign exchange translation on our European income."

The Company's revenues for the nine months ended September 30, 2000, reached US\$4.8 billion, a 55% increase over the same period last year. Operating income increased 89%, reaching US\$508 million for the first three quarters of 2000. Net income improved 54% to US\$189 million, or US\$1.23 per share, from US\$123 million, or US\$0.97 per share, last year. Net income on a cash basis reached US\$1.56 per share, from US\$1.11 per share for the corresponding period of 1999, a 41% increase.

"We have now completed our first full year since the World Color acquisition. We are significantly ahead of schedule with respect to the integration of operations, which is approximately 80% complete. The synergies and cost savings are close to double what we built into our business plan. We have kept every promise we made at the time of merger, and fully expect that we will be able to continue improving results, on all levels," stated Mr. Cavell.

Also during the quarter the Company announced its expansion into Brazil with the signing of a contract with Abril S.A., the country's leading publisher of consumer magazines.

"Our position in Latin America was reinforced by a new 10-year, US\$170 million contract, allowing us to build our first printing facility in Recife, Brazil," said Mr. Cavell. "We strongly believe there are significant growth opportunities in Latin America. During the quarter we added management expertise in the region to be better able to take advantage of opportunities as we move forward."

The results of our European operations improved during the quarter, excluding the unfavorable effect of the Euro devaluation, driven in part by our newly strengthened management team combined with restructuring initiatives during the first half of 2000.

Quebecor World continues to be focused on paying down and refinancing acquisition bank debt. During the quarter the Company refinanced some of its' long term debt to extend maturities. In September, the Company issued Senior Notes of US\$121 million, maturing in 2015 and 2020. This follows a placement of US\$250 million in July maturing in 2010 and 2012. Total proceeds have been used to repay bank indebtedness incurred as a result of the World Color acquisition. One of the results of these efforts is that Dominion Bond Rating Service removed the negative outlook it had temporarily placed on Quebecor World and confirmed the quality of its ratings.

As of September 30, the Company repurchased for cancellation under its Normal Course Issuer Bid a total of 1,382,608 Subordinate Voting Shares for a total of approximately CDN\$46 million. The average cost per share was CDN\$33.54. The Company believes that the purchase of Subordinate Voting Shares under the issuer bid represents an attractive investment at current trading prices, and will continue to repurchase shares. The issuer bid is being funded with cash proceeds from the sale of non-core assets as well as those made redundant as a result of restructuring.

The Board of Directors declared a dividend of \$0.10 per share on Multiple Voting Shares and Subordinate Voting Shares. The Board also declared a dividend of CDN\$0.3125 per share on Series 2 Preferred Shares. The two dividends are payable on December 1st, 2000 to shareholders of record at the close of business on November 16, 2000.

Quebecor World Inc. (NYSE, TSE: IQW) is the largest commercial print media services company in the world. The Company is a leader in most of its major product categories, which include magazines, inserts and circulars, books, catalogs, specialty printing and direct mail, directories, digital pre-media, logistics, mail list, technologies and other value added services. The Company has over 43,000 employees working in more than 160 printing and related facilities in the United States, Canada, France, the United Kingdom, Spain, Switzerland, Austria, Sweden, Finland, Chile, Argentina, Peru, Colombia, Mexico and India.

Except for historical information contained herein, the statements in this release are forward-looking and made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements involve known and unknown risks and uncertainties that may cause the Company's actual results in future periods to differ materially from forecasted results. Those risks include, among others, changes in customers' demand for the Company's products, changes in raw material and equipment costs and availability, seasonal changes in customer orders, pricing actions by the Company's competitors, and general changes in economic conditions. Those and other risks are more fully described in the Company's filings with the Securities and Exchange Commission.

Certain information included in this document is forward-looking and is subject to important risk and uncertainties. The results or events predicted in these statements may differ materially from actual results or events. Factors which could cause results or events to differ from current expectations include, among other things: the impact of price and product competition; the impact of technological and market change; the ability of Quebecor World Inc. to integrate the operations of acquired businesses in an effective manner; general industry and market conditions and growth rates, including interest rate and currency exchange fluctuations; and the impact of consolidation in the printing industry.

All dollar amounts in this review of operations are in US dollars unless otherwise stated.

1. Highlights

Revenues for the third quarter ended September 30, 2000 increased 30% to reach \$1.6 billion, compared with \$1.3 billion for the corresponding period in 1999. Net income amounted to \$89 million, compared with \$55 million last year, an improvement of 62% over 1999.

EBITA for the third quarter of fiscal 2000 amounted to \$287 million, compared with \$199 million for the third quarter of fiscal 1999. Operating income increased by 60% to reach \$202 million, compared with \$127 million for the corresponding period last year. The operating income margin for the quarter improved from 10.1% in 1999 to 12.4% in 2000.

For the three-month period ended September 30, 2000, earnings per share amounted to \$0.58, an increase of 35% from \$0.43 in 1999. On a cash basis, earnings per share improved 43% to reach \$0.70 in 2000, from \$0.49 in 1999.

1. Highlights (Cont'd)

For the nine months ended September 30, 2000, revenues amounted to \$4.8 billion, a 55% increase over \$3.1 billion in 1999. Net income increased 54% to reach \$189 million, from \$123 million in 1999.

EBITA for the nine month period reached \$774 million, a 69% increase over \$458 million for 1999. Operating income for the period improved 89% to reach \$508 million, compared with \$269 million in 1999. The operating income margin year-to-date has increased to 10.6% compared with 8.6% in 1999.

Earnings per share for the first nine months of 2000 were \$1.23, a 27% increase over \$0.97 for 1999. Cash earnings per share totalled \$1.56, compared with \$1.11 for the corresponding period of 1999, an improvement of 41%.

2. Recent Developments

Sale of CD-ROM Replication Business

During the third quarter, Quebecor World closed the sale of its North American CD replicating and fulfillment facilities in Fife, Washington and Westborough, Massachusetts to Vancouver-based Q-Media for a total consideration of \$63 million. The sale is comprised of \$42 million received in cash, \$5 million of Common shares of Q-Media and \$16 million of Preferred shares.

This divestiture completes our program initiated during 1998 to exit non-core operations. The cash component of the sale price will be used for general corporate purposes, including, but not limited to, the purchase of shares under the company's normal course issuer bid announced in April.

2. Recent Development (Cont'd)

Recife, Brazil

Quebecor World announced in September 2000 the signing of a 10-year agreement with Editorial Abril S.A. to print 80 million magazines per year. The total value of the contract over ten years exceeds \$170 million, excluding the cost of paper.

To produce this work, Quebecor World Latin America is constructing a new facility in an industrial park near Recife, Brazil's fourth largest city. Approximately 250 people will be employed in a plant of 173,000-sq ft. Digital content will be transmitted via satellite from Sao Paolo to Recife and then output on state of the art computer to plate equipment. Total planned capital spending of approximately \$ 16.5 million will include three modern heatset offset presses, four stitchers with selectivity and ink jet personalization, and other finishing and packaging equipment. It is expected that the plant will be operational during the first quarter of 2001.

France Restructuring Plan

During the quarter, the company successfully completed the transfer and reinstallation of presses from its Bondoufle plant, shutdown at the end of the second quarter.

The negotiation and ultimate shutdown of Bondoufle took place at the same time the company successfully negotiated an agreement with employee groups to implement the 35 hours/week in its French plants, reorganizing working schedules with minimal impact on its overall results.

3. Progress Report - Integration of Operations and Capital Spending

As of September 30, Quebecor World has completed restructuring initiatives that are providing annualized cost savings and synergies in excess of \$80 million. Further initiatives to be completed in 2000 (such as the integration of certain activities from Dresden to Buffalo) or planned for 2001, are expected to bring total annualized savings to a level consistent with management's earlier projections of \$100 millions by 2002.

<u>Key Projects</u>	<u>Status</u>
Corporate services integration	Completed.
Sales' force integration	Completed.
Digital services	Completed.
San Jose	Closed in December 1999 and equipment transfer underway.
Sherwood	Production transferred effective January 31, 2000.
Houston	Closed effective January 31, 2000.
Nashville	Closed effective March 31, 2000.
St-Paul	Closed effective April 10, 2000.
Vermont	Closed effective July 31, 2000.
Dresden	Closure to be completed by December 31, including integration of certain activities from Dresden into Buffalo.
Pawtucket	Integration of three plants underway.

3. Progress Report - Integration of Operations and Capital Spending (Cont'd)

Cash Restructuring Costs

As a result of the restructuring plan adopted in 1999, the Company has incurred to date \$54 million of cash restructuring costs and expects to spend \$18 million in the fourth quarter of 2000.

Capital Investment

As of September 30, 2000, the Company had invested \$160 million in capital spending and is still targeting a total of \$250 million for the year 2000. Capital investments related to the restructuring plan are expected to be close to \$65 million while expenditures related to maintenance and environmental compliance will amount to approximately \$55 million. The balance of the investment plan of approximately \$130 million represents growth capital to support customer requirements and to grow the business through incremental manufacturing capacity.

4. Management Appointments

Key management appointments made during the third quarter of 2000 are discussed below.

Quebecor World - Europe

Vincent Bastien, a new addition to the company with extensive experience in general management and senior marketing positions, was appointed to the position of Chief Operating Officer Europe. As an interim step, Mr. Bastien will operate as President and General Manager, France, allowing him to transition into his new role and to improve the company's position in it's largest European market.

John Dickin, currently Managing Director U.K., will oversee the rest of Quebecor World Europe in the newly created position of Executive Vice President for Operations, responsible for business units in Spain, Norden, the U.K. and Austria, and will continue reporting to John Bertuccini, President, Quebecor World Europe.

Quebecor World - Latin America

Sean Twomey, previously Vice President, Business Development for Quebecor World, was appointed Senior Vice President, Latin America. Sean's appointment, given his significant experience in acquisitions for the past 10 years and management experience prior to that in the directory market segment, reflects the company's focus to further develop its market position in Latin America. He also bring more depth to the management team that recent undertook a greenfield project in Recife, Brazil. Because of the importance of this greenfield plant, this will be his initial priority.

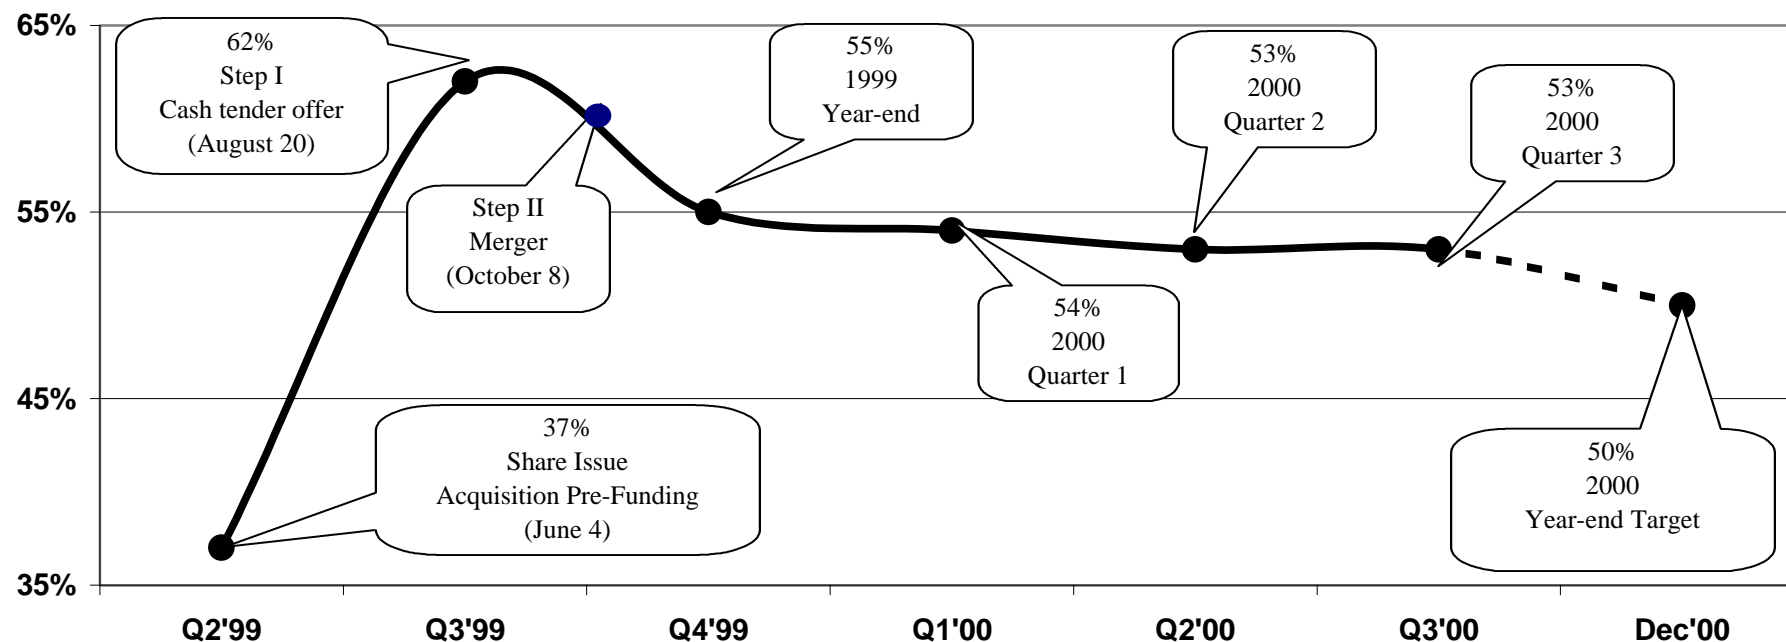

4. Management Appointments (Cont'd)

Quebecor World

Claire Lanctôt, with significant experience in the Mergers and Acquisitions area and as Senior Finance Executive, was appointed to the position of Vice President, Business Development for Quebecor World. Prior to this appointment, Ms. Lanctôt worked with Quebecor World on a number of key projects, including the industry exchange, other industry initiatives and the recent divestiture of the CD-ROM Replication Business.

5. Corporate Finance

Debt to Equity Ratio

Private Placement of Long Term Debt

During the third quarter 2000, Quebecor World raised \$371 million through the issuance of Senior Notes in the US debt capital markets. Proceeds from these offerings were applied to the reduction of acquisition bank debt incurred as a result of the Merger with World Color.

The main objectives pursued by these financings were to diversify funding sources and extend debt maturities.

5. Corporate Finance (Cont'd)

**Bank Borrowings
World Color Acquisition Facility**

5. Corporate Finance (Cont'd)

Normal Course Issuer Bid

As of September 30, 2000, Quebecor World had repurchased for cancellation a total of 1,382,608 shares under its Normal Course Issuer Bid, announced April 4, 2000. The total cash cost of approximately \$46 million CDN (\$32 million US) represents an average cost per share of \$33.54 CDN (\$22.79 US). The issuer bid is being funded with cash proceeds from the sale of non-core business and other assets made redundant as a result of the restructuring of the manufacturing platform in the US.

Note to Consolidated Financial Statements

(In thousands of US dollars, except per share data)
(Unaudited)

1. Accounting change:

Effective January 1, 2000, the Canadian Institute of Chartered Accountants ("CICA") changed the accounting standards relating to the accounting for income taxes and the accounting for employee future benefits, including pension and non-pension postretirement benefits.

a) Income taxes

In December 1997, the Accounting Standards Board issued Section 3465 of the CICA Handbook, "Income Taxes". Under the asset and liability method of Section 3465, future income tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Future income tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on future income tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Future income tax assets are recognized and if realization is not considered "more likely than not", a valuation allowance is provided.

The Company has adopted in 2000 the new recommendations of the CICA and has applied the provisions of Section 3465 retroactively to January 1989 when the Company was created. The cumulative effect of this change in accounting for income taxes is reported as a restatement to increase the opening balance of retained earnings as of January 1, 2000 by \$7,119 (an increase of \$8,690 as of January 1, 1999).

Accordingly, the financial statements for the nine months ended September 30, 1999 have been restated to comply with the provisions of Section 3465. In addition to restating the future income tax accounts, an allocation between short- and long-term portions is now presented in the consolidated balance sheets.

b) Employee future benefits

In March 1999, the Accounting Standards Board issued Section 3461 of the CICA Handbook, "Employee future benefits". Under the Section 3461, the Company is required to accrue, during employees' active service period, the estimated cost of pension, retiree benefit payment other than pensions and workers' compensation. The Company previously expensed the cost of postretirement benefits other than pension, which are principally health care, as claims were incurred by the employees and paid by the Company. In addition, the Company will now use the corridor method to amortize actuarial gains or losses (such as changes in actuarial assumptions and experience gains or losses). Under the corridor method, amortization is recorded only if the accumulated net actuarial gains or losses exceed 10% of the greater of accrued pension benefit obligation and the value of the plan assets. Previously, actuarial gains and losses were amortized on a straight-line basis over the average remaining service life of the employees.

The Company has elected to recognize this change in accounting on the immediate recognition basis retroactively to January 1, 1992. The cumulative effect of this change in accounting for pension and other postretirement benefits is reported as a restatement to decrease of the opening balance of retained earnings as of January 1, 2000 by \$10,715 (a decrease of \$9,694 as of January 1, 1999).

c) Summary effect

The following summarizes the impact of applying Sections 3465 and 3461 on net income, retained earnings, and earnings per share for the quarter and the nine months ended September 30, 1999. The presentation of fixed assets, goodwill, future income taxes and other liabilities are also affected by these changes.

	Three months		Nine months		
	Net income	Earnings per share	Net income	Earnings per share	Retained earnings
As previously reported	\$ 55,650	\$ 0.44	\$ 125,763	\$ 1.00	\$ 718,463
Effect of Section 3465	(722)	(0.01)	(1,849)	(0.02)	6,841
Effect of Section 3461, net of taxes	(269)	—	(806)	(0.01)	(10,500)
As restated	\$ 54,659	\$ 0.43	\$ 123,108	\$ 0.97	\$ 714,804
