PORTRUSH PETROLEUM CORPORATION

(Exact name of Registrant as specified in its charter)

British Columbia, Canada

(Jurisdiction of incorporation or organization)

1687 West Broadway #200, Vancouver, British Columbia V6J 1X2
(Address of principal executive offices)

Securities to be registered pursuant to Section 12(b) of the Act:
None

Securities to be registered pursuant to Section 12(g) of the Act:
Common Shares, without par value
(Title of Class)

Securities for which there is a reporting obligation pursuant to Section 15(d)
of the Act: None

Indicate the number of outstanding shares of each of the issuer's classes of
capital or common stock as of the close of the period covered by the annual
report. 43,433,792

Indicate by check mark whether the registrant (1) has filed all reports
required to be filed by Section 12 or 15(d) of the Securities Exchange Act of
1934 during the preceding 12 months (or for such shorter period that the
registrant was required to file such reports), and (2) has been subject to
such filing requirements for the past ninety days. Yes xxx No ____

Indicate by check mark which financial statement item the registrant has
elected to follow: Item 17 xxx Item 18 ____

INTRODUCTION

Portrush Petroleum Corporation was organized under the laws of British Columbia, Canada. In this Annual Report, the "Company", "we", "our" and "us" refer to Portrush Petroleum Corporation (unless the context otherwise requires). Summary discussions of documents referred to in this Annual Report may not be complete and we refer you to the actual documents for more complete information. Our principal corporate offices are located at 1687 West Broadway #200, Vancouver, British Columbia, Canada V6J 1X2. Our telephone number is 604-696-2555.

BUSINESS OF PORTRUSH PETROLEUM CORPORATION

The Company is in the business of acquiring, exploring, and developing (when appropriate) oil/gas properties. The Company maintains: a 22.5% working interest in the Lenox Prospects, a producing oil/gas property in Michigan; and a 10% working interest (7.5% net revenue interest) in the Mission River Development Project, a producing oil/gas property in Texas.

FINANCIAL AND OTHER INFORMATION

In this Annual Report, unless otherwise specified, all dollar amounts are expressed in Canadian Dollars ("CDN\$" or "\$"). The Government of Canada permits a floating exchange rate to determine the value of the Canadian Dollar against the U.S. Dollar (US\$).

FORWARD-LOOKING STATEMENTS

This Annual Report on Form 20-F contains forward-looking statements principally in ITEM #4, "Information on the Company" and ITEM #5, "Management's Discussion and Analysis of Financial Condition and Results of Operations". These statements may be identified by the use of words like "plan", "expect", "aim", "believe", "project", "anticipate", "intend", "estimate", "will", "should", "could" and similar expressions in connection with any discussion, expectation, or projection of future operating or financial performance, events or trends. In particular, these include statements about the Company's strategy for growth, property exploration, mineral prices, future performance or results of current or anticipated mineral production, interest rates, foreign exchange rates, and the outcome of contingencies, such as acquisitions and/or legal proceedings.

Forward-looking statements are based on certain assumptions and expectations of future events that are subject to risks and uncertainties. Actual future results and trends may differ materially from historical results or those projected in any such forward-looking statements depending on a variety of factors, including, among other things, the factors discussed in this Annual Report under ITEM #3, "Key Information, Risk Factors" and factors described in documents that we may furnish from time to time to the Securities and Exchange Commission. We undertake no obligation to update publicly or revise any forward-looking statements because of new information, future events or otherwise.

PART I

ITEM 1. IDENTITY OF DIRECTORS, SENIOR MANAGEMENT AND ADVISORS.

--- No Disclosure Necessary ---

ITEM 2. OFFER STATISTICS AND EXPECTED TIMETABLE.

--- No Disclosure Necessary ---

ITEM 3. KEY INFORMATION.

3.A.1. Selected Financial Data

3.A.2. Selected Financial Data

The selected financial data of the Company for fiscal years ended December 31st 2005/2004/2003 was derived from the financial statements of the Company that have been audited by Davidson & Company LLP, independent Chartered Accountants, as indicated in their audit report which is included elsewhere in this Registration Statement. The selected financial data of the Company for Fiscal 2002/2001 ended December 31st was derived from audited financial statements of the Company, not included herein.

The financial statements are the responsibility of the Company's management. The auditor's responsibility is to express an opinion on the financial statements based on their audit.

The auditor's conducted their audits in accordance with Canadian generally accepted auditing standards and the standards of the Public Company Accounting Oversight Board (United States). Those standards require that the auditor plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. The auditor's report states that they believe that their audits provided a reasonable basis for their opinion.

The selected financial data should be read in conjunction with the financial statements and other financial information included elsewhere in the Registration Statement.

The Company has not declared any dividends since incorporation and does not anticipate that it will do so in the foreseeable future. The present policy of the Company is to retain all available funds for use in its operations and the expansion of its business.

Table No. 1 is derived from the financial statements of the Company, which have been prepared in accordance with Canadian Generally Accepted Accounting Principles (GAAP). All material numerical differences between Canadian GAAP and United States GAAP (US GAAP), as applicable to the Company, are described in footnotes to the financial statements.

All per-share figures and number of shares are adjusted for the one-for-five stock consolidation effective March 2000.

Table No. 1
Selected Financial Data
(CDN\$ in 000, except per share data)

	Year Ended 12/31/2005	Year Ended 12/31/2004	Year Ended 12/31/2003	Year Ended 12/31/2002	Year Ended 12/31/2001
<u>Canadian GAAP</u>					
Net Revenue	\$594	\$442	\$415	\$303	\$ 0
Operating Income (Loss)	(\$153)	(\$693)	(\$651)	(\$382)	(\$255)
Net Income (Loss)	(\$160)	(\$766)	(\$747)	(\$1750)	(\$1812)
(Loss) per Share	(\$0.01)	(\$0.02)	(\$0.03)	(\$0.10)	(\$0.12)
Dividends Per Share	\$0.00	\$0.00	\$0.00	\$0.00	\$0.00
Wtd. Avg. Shares (000)	41573	33859	22236	17767	15705
Period-end Shares O/S(000)	43434	40342	26694	20061	16769
Working Capital	\$158	(\$287)	(\$307)	(\$575)	(\$1018)
Oil/Gas Properties	1571	1642	174	376	2077
Long-Term Obligations	10	6	6	168	0
Capital Stock	13399	12854	10534	9956	9654

<u>US GAAP</u>					
Loss Per Share	(\$0.00)	(\$0.02)	(\$0.03)		
Wtd. Avg. Shares (000)	41476	33756	22133		
<p>(1) Cumulative Net Loss since incorporation under US GAAP to 12/31/2005 was (\$12,777,318).</p> <p>(2) Under US GAAP, the calculation of weighted average number of shares used in the calculation of Loss Per Share would not have included 103,125 escrowed, contingently cancelable common shares. The release of such shares from escrow will result in compensation to be recorded reflecting the difference between the issue price of the shares (\$0.175 per share) and the market price at the date of release. On 12/7/2005, the escrowed shares were cancelled.</p> <p>(3) Under US GAAP, a calculation of cumulative non-cash compensation expense relating to the granting of stock options, non-recognized under Canadian GAAP, was \$759,296 at 12/31/2005 and 12/31/2004, respectively.</p>					

3.A.3. Exchange Rates

In this Annual Report Statement, unless otherwise specified, all dollar amounts are expressed in Canadian Dollars (CDN\$). The Government of Canada permits a floating exchange rate to determine the value of the Canadian Dollar against the U.S. Dollar (US\$).

Table No. 2 sets forth the rate of exchange for the Canadian Dollar at the end of the five most recent fiscal periods ended December 31st, the average rates for the period, and the range of high and low rates for the period. The data for each month during the previous six months is also provided.

For purposes of this table, the rate of exchange means the noon buying rate in New York City for cable transfers in foreign currencies as certified for customs purposes by the Federal Reserve Bank of New York. The table sets forth the number of Canadian Dollars required under that formula to buy one U.S. Dollar. The average rate means the average of the exchange rates on the last day of each month during the period.

Table No. 2
U.S. Dollar/Canadian Dollar

	Average	High	Low	Close
May 2006		1.12	1.10	1.10
April 2006		1.17	1.12	1.12
March 2006		1.17	1.13	1.17
February 2006		1.16	1.14	1.14
January 2006		1.17	1.14	1.14

No Disclosure Necessary ---

3.C. Reasons For The Offer And Use Of Proceeds

No Disclosure Necessary ---

3.D. Risk Factors

In addition to the other information presented in this Annual report, the following should be considered carefully in evaluating the Company and its business. This Annual Report contains forward-looking statements that involve risks and uncertainties. The Company's actual results may differ materially from the results discussed in the forward-looking statements. Factors that might cause such a difference include those discussed below and elsewhere in this Annual Report.

Corporate Risks

Investors may be disadvantaged because the Company is incorporated in Canada, which has different laws

The articles/by-laws and the laws of Canada are different from those typical in the United States. The typical rights of investors in Canadian companies differ modestly from those in the United States; refer to the relevant sections which are discussed in Section 9.A.5 and Section 10.B of this Annual Report. Such differences may cause investors legal difficulties.

U.S. investors may not be able to enforce their civil liabilities against the Company or its directors, controlling persons and officers

It may be difficult to bring and enforce suits against the Company. The Company is a corporation incorporated under the laws of the British Columbia, Canada. A majority of the Company's directors are resident outside the United States, and all or substantial portions of their assets are located outside of the United States. As a result, it may be difficult for U.S. holders of the Company's common shares to effect service of process on these persons within the United States or to realize in the United States upon judgments rendered against them. In addition, a shareholder should not assume that the courts of Canada (i) would enforce judgments of U.S. courts obtained in actions against the Company or such persons predicated upon the civil liability provisions of the U.S. federal securities laws or other laws of the United States, or (ii) would enforce, in original actions, liabilities against us or such persons predicated upon the U.S. federal securities laws or other laws of the United States.

As a "foreign private issuer", the Company is exempt from the Section 14 proxy rules and Section 16 of the 1934 Securities Act

The submission of proxy and annual meeting of shareholder information (prepared to Canadian standards) on Form 6-K may result in shareholders having less complete and timely data. The exemption from Section 16 rules regarding sales of common shares by insiders may result in shareholders having less data.

Passive Foreign Investment Company ("PFIC") designation could lead to an adverse tax situation for U.S. investors

U.S. investors in the Company could be subject to U.S. taxation at possibly adverse or higher rates and under a system that might be more complicated and unfamiliar to them. For example, a U.S. investor might be subject to special tax rules with respect to any "excess distribution" received and any gain realized from a sale or other disposition (including a pledge) of that holder's shares. Distributions a U.S. investor receives in a taxable year that are greater than 125% of the average annual distributions received during the shorter of the three preceding taxable years or the holder's holding period for the shares will be treated as excess distributions. For example, under certain circumstances, a U.S. investor who is an individual might be subject to information reporting requirements and backup withholding, currently at a 28% rate, on dividends received on common shares. If a U.S. Holder holds shares in any year in which the Company is a PFIC, that holder might be required to file Internal Revenue Service Form 8621. Refer to ITEM #10.E.

Risks Related to the Company's Oil/Gas Operations

Competition

Oil and gas exploration is intensely competitive and involves a high degree of risk. There can be no assurance that commercial production of hydrocarbons can be obtained from any of the Company's properties, nor are there any assurances that production, if obtained, will be in sufficient quantities to be profitable. In its efforts to acquire properties, the Company competes with other companies that have significantly greater resources. Many of these companies not only explore for and produce oil and gas, but also conduct refining and petroleum marketing operations on a worldwide basis. Competition for producing properties will be affected by the amount of funds available to the Company, information available to the Company and any standards established by the Company for the minimum projected return on investment. Competition may also be presented by alternative fuel sources.

Risks Associated with Oil and Gas Exploration

There can be no assurance that the Company will recover commercial quantities of hydrocarbons in the future. The marketability of any oil and gas acquired or discovered will be affected by numerous factors beyond the control of the Company. These factors include market fluctuations, proximity and capacity of oil and gas pipelines and processing equipment and government regulations (including regulations relating to royalties, allowable production, importing and exporting of oil and gas, and environmental protection). In addition, hazards such as unusual or unexpected formations, pressures or other conditions are involved in drilling and operating wells.

Environmental Regulation

Hazards incident to the exploration and development of oil and gas properties such as accidental spills or leakage of petroleum liquids and other unforeseen conditions may be encountered by the Company. The Company may be subject to liability for pollution and other damages due to hazards that cannot be insured against due to prohibitive premium costs or for other reasons. Governmental regulations relating to environmental matters could also increase the cost of doing business or require alteration or cessation of operations in certain areas.

Existing and possible future environmental legislation, regulations and actions could give rise to additional expense, capital expenditures, restrictions and delays in the activities of the Company, the extent of which cannot be predicted. Regulatory requirements and environmental standards are subject to constant evaluation and may be significantly increased, which could materially and adversely affect the business of the Company or its ability to develop its properties on an economically feasible basis. Before development and production can commence on any properties, the Company must obtain regulatory and environmental approvals. There is no assurance that such approvals will be obtained on a timely basis or at all. The cost of compliance with changes in governmental regulations has the potential to reduce the profitability of operations or preclude entirely the economic development of a property.

Fluctuation in Oil and Gas Prices

As with most other companies involved in resource exploration, the Company may be adversely affected by future increases in the costs of conducting exploration, development and resource extraction that may not be fully offset by increases in the price received on sale of the petroleum or natural gas.

Volatility of Oil and Gas Prices

The Company's revenues, profitability and future growth and the carrying value of its oil and gas properties are substantially dependent on prevailing prices of oil and gas. The Company's ability to borrow and to obtain additional capital on attractive terms is also substantially dependent upon oil and gas prices. Prices for oil and gas are subject to large fluctuations in response to relatively minor changes in the supply of and demand for oil and gas, market uncertainty and a variety of additional factors beyond the control of the Company. These factors include economic conditions in the United States and Canada, the actions of the Organization of Petroleum Exporting Countries, governmental regulation, political stability in the Middle East and elsewhere, the foreign supply of oil and gas, the price of foreign imports and the availability of alternative fuel sources.

Any substantial and extended decline in the price of oil and gas would have an adverse effect on the Company's carrying value of its proved reserves, borrowing capacity, revenues, profitability and cash flows from operations.

Volatile oil and gas prices make it difficult to estimate the value of producing properties for acquisition and often cause disruption in the market for oil and gas producing properties, as buyers and sellers have difficulty agreeing on such value. Price volatility also makes it difficult to budget for and project the return on acquisitions and development and exploitation projects.

Risks Relating to Financial Condition

Going concern assumption used by management highlights doubts on the Company's ability to successfully continue

The Company's financial statements include a statement that the financial statements of the Company are prepared on a going concern basis, and therefore that certain reported carrying values are subject to the Company receiving the future continued support of its stockholders, obtaining additional financing and generating revenues to cover its operating costs. The going concern assumption is only appropriate provided that additional financing continues to become available.

The Company's History of Operating Losses is likely to continue leading to need for additional potentially unavailable financings and related problems

The Company has a history of losses: (\$160,248), (\$766,320), and (\$746,498) in Fiscal Years 2005/2004/2003. Despite recent capital infusions, the Company will require significant additional funding to meet its business objectives. Capital may need to be available to help maintain and to expand work on the Company's principal exploration/development property. The Company may not be able to obtain additional financing on reasonable terms, or at all. If equity financing is required, then such financings could result in significant dilution to existing shareholders. If the Company is unable to obtain sufficient financing, the Company might have to dramatically slow exploration/development efforts and/or lose control of its projects. The Company has historically obtained the preponderance of its financing through the issuance of equity. There are 100 million common shares authorized; and the Company has no current plans to obtain financing through means other than equity financing and/or loans. Such losses and the resulting need for external financings could result in losses of investment value.

The Company's Need for Additional Financing to Finish Property Exploration/Development could lead to the Company's inability to finish proposed property exploitation and/or loss of properties

The Company is engaged in the business of exploiting oil/gas properties. The Company believes it may have insufficient funds to undertake its planned operations and exploration projects during Fiscal 2006; additional financing will be required to continue exploration and to develop the oil/gas properties identified and to place new wells into commercial production. The exploitation of the Company's oil/gas properties is, therefore, dependent upon the Company's ability to obtain financing through the lease of assets, debt financing, equity financing or other means. Failure to obtain such financing may result in delay or indefinite postponement of work on the Company's oil/gas properties, as well as the possible loss of such properties. Such delays, and possible inability to proceed with planned operations could cause loss of investment value.

The Company competes with other oil/gas companies which have similar operations, and many such competitor companies have operations and financial resources and industry experience far greater than those of the Company. Nevertheless, the market for the Company's potential future production of oil/gas tends to be commodity-oriented rather than company-oriented. If a well successfully reaches commercial production, the Company will still be subject to competition from much larger and financially stronger competitors and such competition may materially adversely affect the Company's financial performance.

Risks Relating to Management and Specific Operations

The Company's Articles of Continuation contain provisions indemnifying its officers and directors against all costs, charges and expenses incurred by them

The Company's Articles of Continuation contain provisions that state, subject to applicable law, the Company shall indemnify every director or officer of the Company, subject to the limitations of the British Columbia Corporations Act, against all losses or liabilities that the Company's director or officer may sustain or incur in the execution of their duties. The Company's Articles of Continuation further state that no director or officer shall be liable for any loss, damage or misfortune that may happen to, or be incurred by the Company in the execution of their duties if they acted honestly and in good faith with a view to the best interests of the Company. Such limitations on liability may reduce the likelihood of litigation against the Company's officers and directors and may discourage or deter its shareholders from suing the Company's officers and directors based upon breaches of their duties to the Company, though such an action, if successful, might otherwise benefit the Company and its shareholders.

Key management employees may fail to properly carry out their duties or may leave which could negatively impact corporate operations and/or stock pricing

While engaged in the business of exploiting mineral properties, the nature of the Company's business, its ability to continue its exploration of potential exploration/development projects, and to develop a competitive edge in the marketplace, depends, in large part, on its ability to attract and maintain qualified key management personnel. Competition for such personnel is intense and the Company may not be able to attract and retain such personnel. The Company's growth will depend on the efforts of its Directors and its Senior Management, including its President/CEO, Martin Cotter; and its Corporate Secretary, Neal Iverson. Loss of these individuals could have a material adverse effect on the Company. The Company has no key-man life insurance and there are no written agreements with them.

Management and Directors are associated with other resource companies and such conflicts of interest and/or lack of attention to corporate affairs could have a negative impact on corporate operations and/or stock pricing

Certain of the Directors and Senior Management of the Company (specifically, Martin Cotter and Wes Franklin) are also Directors and/or Senior Management and/or significant shareholders of other companies, including those also involved in the oil/gas industry; refer to ITEM 6.A. for resumes. As the Company is engaged in the business of exploiting oil/gas properties, such associations may give rise to conflicts of interest from time to time. Law requires the directors of the Company to act honestly and in good faith with a view to the best interests of the Company and to disclose any interest that they may have in any project or opportunity of the Company. If a conflict of interest arises at a meeting of the Board of Directors, any Director in a conflict must disclose his interest and abstain from voting on such matter. In determining whether or not the Company will participate in any project or opportunity, the Directors will primarily consider the degree of risk to which the Company may be exposed and its financial position at the time. If not properly resolved, the Company could be placed at a disadvantage when considering which properties to acquire/explore and if/how to explore/develop existing properties.

Risks Relating to the Company's Common Shares

Principal Stockholders, Officers and Directors have substantial control regarding stock ownership; this concentration could lead to conflicts of interest and difficulties in the "public" investors effecting corporate changes, and could adversely affect the Company's stock prices

The Company's Senior Management, Directors and greater-than-five-percent stockholders (and their affiliates), acting together, hold approximately 10% of the shares of the Company, on a diluted basis, have the ability to influence substantially all matters submitted to the Company's stockholders for approval (including the election and removal of directors and any merger, consolidation or sale of all or substantially all of the Company's assets) and to control the Company's management and affairs. Accordingly, this concentration of ownership may have the effect of delaying, deferring or preventing a change in control of the Company, impeding a merger, consolidation, takeover or other business combination involving the Company or discouraging a potential acquirer from making a tender offer or otherwise attempting to obtain control of the Company, which in turn could materially adversely affect the market price of the Company's stock.

Employee/Director/Consultant Stock Options could lead to greater concentration of stock ownership among insiders and could lead to dilution of stock ownership which could lead to depressed stock prices

Because the success of the Company is highly dependent upon its respective employees, the Company has granted to some or all of its key employees, Directors and consultants options to purchase common shares as non-cash incentives. To the extent that significant numbers of such options may be granted and exercised, the interests of the other stockholders of the Company may be diluted causing possible loss of investment value.

The Company has never declared or paid cash dividends on its Common Shares and does not anticipate doing so in the foreseeable future. There can be no assurance that the Company's Board of Directors will ever declare cash dividends, which action is exclusively within its discretion. Investors cannot expect to receive a dividend on the Company's Common Shares in the foreseeable future, if at all.

Low Stock Market Prices and Volume Volatility for the Company's common shares create a risk that investors might not be able to effect purchases/sales at prices that accurately reflect corporate value

The market for the common shares of the Company may be highly volatile for reasons both related to the performance of the Company or events pertaining to the industry (i.e., price fluctuation/high production costs/accidents) as well as factors unrelated to the Company or its industry. The market price of metals is highly speculative and volatile. Instability in oil/gas prices may affect the interest in oil/gas properties and the development of production from such properties and may adversely affect the Company's ability to raise capital to explore existing or new oil/gas properties. The Company's common shares can be expected to be subject to volatility in both price and volume arising from market expectations. Stockholders of the Company may be unable to sell significant quantities of common shares in the public trading markets without a significant reduction in the price of the common shares.

Broker-Dealers May Be Discouraged From Effecting Transactions In Our Common Shares Because They Are Penny Stocks And Are Subject To The Penny Stock Rules. Rules 15g-1 through 15g-9 promulgated under the Securities Exchange Act of 1934, as amended, impose sales practice and disclosure requirements on NASD broker-dealers who make a market in "a penny stock". A penny stock generally includes any non-NASDAQ equity security that has a market price of less than US\$5.00 per share. Our shares are quoted on the TSX Venture Exchange, and the price of our common shares ranged from CDN\$0.09 (low) to CDN\$0.29 (high) during the period from 1/1/2005 to 12/31/2005, trading at CDN\$0.19 on 12/31/2005; the closing price of our shares was CDN\$0.195 on 5/31/2006. The additional sales practice and disclosure requirements imposed upon broker-dealers may discourage broker-dealers from effecting transactions in our shares, which could severely limit the market liquidity of the shares and impede the sale of our shares in the secondary market.

Under the penny stock regulations, a broker-dealer selling penny stock to anyone other than an established customer or "accredited investor" (generally, an individual with net worth in excess of US\$1,000,000 or an annual income exceeding US\$200,000, or US\$300,000 together with his or her spouse) must make a special suitability determination for the purchaser and must receive the purchaser's written consent to the transaction prior to sale, unless the broker-dealer or the transaction is otherwise exempt.

In addition, the penny stock regulations require the broker-dealer to deliver, prior to any transaction involving a penny stock, a disclosure schedule prepared by the US Securities and Exchange Commission relating to the penny stock market, unless the broker-dealer or the transaction is otherwise exempt. A broker-dealer is also required to disclose commissions payable to the broker-dealer and the registered representative and current quotations for the securities. Finally, a broker-dealer is required to send monthly statements disclosing recent price information with respect to the penny stock held in a customer's account and information with respect to the limited market in penny stocks.

ITEM 4. INFORMATION ON THE COMPANY

4.A. History and Development of the Company

Introduction

Portrush Petroleum Corporation (hereinafter, together with its subsidiary, is also referred to as the "Company") is engaged in the exploration for and production of oil/gas. Without any material properties at 12/31/1999, the Company acquired interests in five oil/gas properties during 2000 (including the Lenox Prospects) and two oil/gas properties during 2001. The less promising properties have been disposed of and during 2002-2003 focused its efforts on the oil/gas producing Lenox Property in Michigan, USA. The Mission River Development Project was acquired in January 2004.

It is the intention of the Company, either alone or with others, to carry out or participate in exploration and development programs on its properties and on other properties that it may acquire an interest in, to determine the existence, location, extent and quality of the oil and gas resources located on its properties and to drill and complete, where appropriate, oil or gas wells.

The Company's executive office is located at:

1687 West Broadway #200, Vancouver, British Columbia, Canada V6J 1X2

Telephone: 604-696-2555; and

Facsimile: 604-648-9568.

Website: <http://www.portrushpetroleum.com/>

e-mail: info@portrushpetroleum.com

The Company's registered office is located at:

595 Howe Street #700, Vancouver, British Columbia, Canada V6C 2T5

Telephone: 604-687-2923; and

Facsimile: 604-687-5960.

The contact person is: Neal Iverson, Director

The Company's fiscal year ends December 31st.

The Company has one wholly-owned subsidiary: Portrush Petroleum (US) Corporation, incorporated in Michigan, USA, on 11/17/2003.

The Company's common shares trade on the TSX Venture Exchange in Canada under the symbol "PSH" and on the OTC Bulletin Board in the USA under the symbol "PRRPF".

The Company has 100,000,000 of no-par common shares authorized. At 12/31/2005, the end of the Company's most recent fiscal year, there were 43,433,792 common shares issued and outstanding. At 5/31/2006, there were 44,033,792 shares issued and outstanding.

The Company's financial statements are stated in Canadian Dollars ("CDN\$") and are prepared in accordance with Canadian GAAP. Material variations in the accounting principles, practices and methods used in preparing those financial statements from principles, practices and methods accepted in the United States are disclosed in notes to the financial statements.

Herein, all references to "\$" and "CDN\$" refer to Canadian Dollars and all references to "US\$" refer to United States Dollars. All references to common shares refer to the Company's Common Shares without Par Value unless otherwise indicated.

The information contained in this Annual Report is current as at 5/23/2006, except where a different date is specified.

History and Development

Incorporation/Name Changes

The Company was incorporated under the laws of Ontario, Canada, on 2/9/1965 under the name "Barbi Lake Copper Mines Limited". The Company's name was changed to "Bar Resources Limited" on 4/28/1983, to "Southern Bar Minerals Corporation" on 10/31/1995, to "Texas Gulf Petroleum Corporation" on 2/12/1996, and to "Portrush Petroleum Corporation" on 3/15/2000.

Stock Consolidations

The Company consolidated its common shares on a 1-for-3.5 basis effective 12/19/1994 and on a 1-for-5 basis on 3/15/2000. All references to number of shares and to per share data reflect post-consolidation basis unless otherwise indicated.

Property Acquisitions

Fiscal 1999: No properties acquired

Fiscal 2000: Lambton/Kent Counties = Michigan Basin Property, Ontario
Cranberry-Botha Prospects, Alberta
Lenox Prospects, Michigan

Fiscal 2001: Rock Springs Prospects, Wyoming

Fiscal 2003: Lenox North Prospects, Michigan

Fiscal 2004: Mission River Development Project, Texas

Fiscal 2005: None

Fiscal 2006 To-Date: None

Property/Asset Dispositions

Fiscal 1999: None

Fiscal 2000: None

Fiscal 2001: Lambton/Kent Counties = Michigan Basin Property, Ontario

Fiscal 2002: Rock Springs Prospects, Wyoming

Fiscal 2003: None

Fiscal 2004: None

Fiscal 2005: None

Fiscal 2006 To-Date: None

Financings

The Company has financed its operations through funds raised in loans, public/private placements of common shares, shares issued for property, shares issued in debt settlements, and shares issued upon exercise of stock options and share purchase warrants. The following table lists equity offerings:

Year	Nature of Share Issuance	Number of Shares	Capital Raised
2000:	Special Warrant Offering	2,541,667 Special Warrants	\$305,000
	Private Placement	2,694,000 Units	\$942,900
2001:	Private Placement	5,000,000 Units	\$150,000
2002:	Private Placement	600,000 Units	\$ 60,000
	Private Placement	2,500,000 Units	\$250,000
2003:	Convertible Debt Offering	8% Convertible Debentures (1)	\$180,000
	Private Placement	2,100,000 Units	\$315,000
	Private Placement	2,037,059 Units	\$346,300
2004:	Private Placement	3,100,000 Units	\$620,000
	Private Placement	1,500,000 Shares	\$300,000
	Exercise of Warrants	7,680,000 Shares	\$1,090,200
	Exercise of Stock Options	1,050,000 Shares	\$110,000
2005:	Exercise of Stock Options	1,194,500 Shares	\$179,175
	Private Placement	2,000,000 Units	\$300,000
2006-to-date:	Stock Option Exercise	600,000 Shares	\$ 90,000

(1) Converted to 1,500,000 common shares during FY2003.

4.B. BUSINESS OVERVIEW

Business of the Company - 2006/2005/2004/2003/2002/2001/2000

In April/May 2000, the Company acquired the Lambton/Kent Prospects in Ontario, Canada. In June 2000, the Company acquired the Lenox Prospects in Michigan, USA. In January 2001, the Company acquired the Cranberry-Botha Property in Alberta, Canada; the Company has written off its investment in the project. In September 2001, the Company acquired the Rock Springs Property in Wyoming, USA; this project was abandoned in August 2002. In September 2003, the Company acquired the Lenox North Prospects. In February 2004, the company acquired the Mission River Development Project in Texas, USA. In November 2004, the Company acquired a 5% working interest in a prospect located in Ontario, Canada, in exchange for funding 50% of the project costs by paying US\$120,000; the Company will receive a payout of all costs incurred plus a 5% working interest in the project.

Lenox Prospects, Michigan, USA

The Michigan Basin contains extensive belts of organic reefs composed of carbonate rocks (limestone and dolomite) formed under shallow seas in the Silurian period. These oil/gas-filled reefs are the principal target for exploration companies in the basin. The Company is now in a position to form relationships with the industry partners to evaluate other Silurian reef projects in the basin. The Company will avoid exposing itself to unnecessary risks in pursuing these opportunities.

The focus of the Company's operations remains the Lenox Prospects where the Company has a 22.5% working interest. A successful well was brought into production in January 2002 and a second well was completed in January 2003. The initial producing well, Richards #1-20, was drilled to a total depth of 3,000 feet and intersected the Brown Niagaran reef anomaly at approximately 2,900 feet. The second producing well, the Martin #1-21, is a 600-foot step-out from the discovery well. A 2-D seismic program has been completed. The Shmude LaTorre 1-20 well, located north of the other wells, encountered a gas charged zone up-hole of the Reef formation. Management anticipates that drilling expenditures on this property will not be significant during 2006.

At present, the Company has two wells on production currently producing at a combined rate of 70 barrels of oil per day (December 2005), with a small amount of gas being flared.

Production revenue for 2002 was \$302,915, primarily derived from the Richards #1-20 well at the Lenox Prospects that went on stream in January 2002. Production revenue for 2003 was \$415,244, derived from the combined production of the Richards #1-20 and the Martin #1-21 (placed on production in April 2003), both located at the Lenox Prospects. Production revenue from the Lenox Prospects for 2004 was \$349,550, derived from the combined production of the Richards #1-20 and the Martin #1-21. Production revenue from the Lenox Prospects for 2005 was \$330,187, derived from the combined production of the Richards #1-20 and the Martin #1-21.

Lenox North Prospects

In September 2003, the Company acquired a 22.5% working interest in a leasehold immediately north of it's Lenox Prospect property in southeast Michigan. The Company has also agreed an area of mutual interest ("AMI") of approximately 2,000 acres comprising of leases in and around the said leasehold. The Company has the option to participate in the drilling of the initial four wells and any further development wells within the AMI. The target on the leasehold, which has seismic cover, is an extension of Niagarian reef that was discovered on the Lenox property. Typical reefs in the area can vary in size from approximately 300,000 barrels and 2BCF to over 1,000,000 barrels and 10 BCF of recoverable reserves and are contained in surface area between 80 to 300 acres.

In October 2003, the LaTorie #1-20 Well was drilled. This well, located approximately 1,300 north of the Richards #1-20 Well and Martin #1-21 Well, did not encountered the Silarian Reef, as hoped for, and was abandoned.

In April 2004, the Werderman #1-21 Well was drilled. This well, located approximately 650 feet from the Martin #1-21 Well, was on a seismic line and was testing the southeastern extension of the platform reef from the Richards #1-20 and Martin #1-21 wells. The reef was not encountered and the well was abandoned.

Mission River Development Project

In February 2004, the Company entered into an agreement to participate in a 12-well development-drilling program, at a 10% interest. The initial 12-well program is estimated to cost approximately US\$10.5 million or approximately US\$800,000 per well. A successful well can be drilled and producing within six weeks. The property is crossed over by a natural gas pipeline and can be serviced by two natural gas transmission systems.

In October 2004, the Company did not exercise its right to acquire up to an additional 19% interest in the Mission River Development Project.

Natural gas in the area is typically sold into the local spot market at an estimated discount of US\$0.50/mcf, relative to the Henry Hub price. The Henry Hub price for 2005 was about US\$9 per Mmbtu. A compression fee may be applied to the wellhead price. The operating costs of a typical gas well are estimated to be US\$3,500 per month. Crude oil in the area is trucked to a local refinery and nets an estimated wellhead price of Cushing Spot less a US\$1.50/barrel discount. The Cushing Spot price for 2005 was about US\$56 per barrel.

The operator, High Plains Gas Systems Inc, drilled the first well on 5/14/2004. The Scanio-Sheldon Well #2 was drilled to the Massive Zone at 6,800 feet and was tested: for bypassed oil and gas pay between 5,000 and 6,800 feet; for untested oil zones in the lower 4,000 feet range; and untested gas zones down to 2,300 feet. A total of 120 sidewall-cores/eight formation-pressure-tests/log analysis identified eight zones as having probable reserves. The well was completed as a gas well, without yet testing the seven other zones including the main target zone.

During 2004/2005/2006, the Company completed the next four wells on the project, producing oil, gas, and condensate:

- July 2004: Scanio-Sheldon Well #4;
- July 2004: Scanio-Sheldon Well #5;
- August 2004: Scanio-Sheldon Well #3;
- August 2004: Scanio-Sheldon Well #1 (oil only);
- February 2005: Scanio-Sheldon Well #9 (oil only); and
- March 2006: Scanio-Sheldon Well #6.

Production revenue from the Mission River Development Project for 2005 was \$258,706, derived from the combined production of the first five wells noted above.

The Mission River field has seven wells on production and at 3/31/2006 was producing approximately 2 million cubic feet of gas and 100 barrels of oil a day.

The Scanio-Shelton #6 well was drilled to a depth of 10,300 feet. As drilling progressed, indications of increasing pressure resulted in a decision to run a 7.62 inch liner at a depth of 8,170 feet. An additional five inch liner was run in the interval between 8,170 and 8,650. This intermediate casing was set to protect the up-hole formations before drilling through the over-pressured zone at approximately 9,000 feet.

Several logging programs were completed over the open hole at various times during the drilling process. Initial interpretation of the logs indicated the presence of several hydrocarbon-bearing sandstones within the main target zone. A zone at approximately the 8,300 foot level was perforated prior to placing the well on production.

The evaluation of reserves discovered at Scanio Shelton #6 has been completed. Proven producing gas reserves have been calculated at 5 BCF and associate condensate reserves at approximately 200,000 barrels. In addition, proven behind pipe reserves have been calculated to be 4.5BCF. The well has been placed on production and is producing at a rate of 1.8 million cubic feet of gas and sixty barrels of condensate a day. The well commenced production on 3/13/2006. Btu adjustment on the gas is 11.44%.

The Company's Mission River Project operator has proposed drilling another deep test on the Mission River lease. The proposed well will be drilled to further evaluate the aerial extent of the producing zone. The well will also help to fully develop the other sands encountered in the Scanio Shelton #6. It has been agreed in order to effectively drain the reservoir and recover the reserves another well is needed. The proposed well will be drilled to and through the 8,400 pay section to properly develop the sands encountered in the Scanio Shelton #6 and is a very significant departure from the original twelve well shallow drilling program. It is considered in the best interest of all participants because the potential new reserves to be captured far exceed the potential reserves in the shallower formations.

The deep test on the Mission River lease was spudded on June 24th 2006. The well, the Scanio Shelton #7, will be drilled approximately 1,200 feet north of the Scanio Shelton #6 and the operator has hired the drilling contractor who successfully drilled the number six well.

United States vs. Foreign Sales/Assets

During 2005, 2004 and 2003, respectively, the Company generated \$593,598, \$442,368 and \$415,244 in oil/gas production revenue, from the Lenox Prospects in Michigan, USA and the Mission River Development Project in Texas, USA.

At 12/31/2005 and 12/31/2004, respectively, \$104,464 and \$149,560 of the Company's capital assets were located in Canada; the remainder were located in the United States, principally the Lenox Prospects, Lenox North Prospects, and the Mission River Development Project.

Oil/Gas Operations

Summary of the Company's appraised interests in oil and gas reserves after royalties is contained in Table No. 3, at 12/31/2004, all proved reserves are located at the Lenox Prospects in Michigan, USA; and 12/31/2005, both the Lenox Prospects and the Mission River Development Project contain proven reserves.

Present Activities

There is one well to be drilled in June 2006.

Delivery Commitments

There are no delivery commitments as of 5/31/2006.

Plan Of Operations

Source of Funds for Fiscal 2006

Historically, the Company's primary source of funds since incorporation was through the issuance of common stock and loans. The Company generated \$593,598 in oil/gas revenue in Fiscal 2005 and anticipates a significant increase during Fiscal 2006.

The Company had working capital balance of \$157,501 at 12/31/2005. During Fiscal 2006-to-date, the Company: raised \$90,000 from the exercise of stock options.

At 5/23/2006, the Company had 2,475,000 outstanding stock options with an exercise price of \$0.15. At 5/23/2006 the Company had 2,387,500 outstanding share purchase warrants with exercise prices ranging from \$0.15 to \$0.20.

The Company has had discussions with third parties about additional equity offerings; but, the talks as of 5/23/2006 were preliminary.

Use of Funds for Fiscal 2006

During Fiscal 2006, the Company estimates that total general/administrative costs will be approximately \$0.4 million.

During Fiscal 2006, the Company estimates that it will expend \$0.5 million on property acquisition/exploration/development.

Anticipated Changes to Facilities/Employees

Since the signing of the property acquisition agreements, the Company added no additional personnel to assist property acquisition/exploration/development programs or for administrative/general activities. There are no plans to add additional in-house personnel; rather, the Company is relying on the property operators to provide all technical staff.

4.C. Organization Structure

The Company has one wholly-owned subsidiary: Portrush Petroleum (US) Corporation, incorporated in Michigan, USA, on 11/17/2003.

4.D. Property, Plant and Equipment

Executive Offices

The Company's executive offices are located in shared, rented premises of approximately 250 square feet at 1687 West Broadway #200, Vancouver, British Columbia V6J 1X2. The Company began occupying this facility in May 2000 and considers the facility adequate for current needs.

Lenox Prospects, Michigan, USA

In June 2000, the Company acquired a 22.5% working interest in two Silurian-Ordovician prospects, and associated leased lands (approximately 2,560 acres) located in St. Clair County, Cottrellville Township and Macomb County, Lenox Township, Southeast Michigan in consideration of cash payments to Range of \$150,000 for each of the two areas. The Company holds a 22.5% working interest in the property. A successful well (Richards #1-20) was drilled and completed; the well commenced production in January 2002 and remains on production. A second well (Martin #1-21) was drilled and completed in January 2003 and began producing in April 2003.

Lenox North Prospects

In September 2003, the Company acquired a 22.5% working interest in a leasehold immediately north of the Lenox Prospect property in southeast Michigan. The Company has also agreed an area of mutual interest ("AMI") of approximately 2,000 acres comprising of leases in and around the said leasehold. The operator plans to drill four wells on the property. The Company has the option to participate in the drilling of the initial four wells and any further development wells within the AMI. The target on the leasehold, which has seismic cover, is an extension of Niagarian reef that was discovered on the Lenox property. Typical reefs in the area can vary in size from approximately 300,000 barrels and 2BCF to over 1,000,000 barrels and 10 BCF of recoverable reserves and are contained in surface area between 80 to 300 acres.

Mission River Development Project

In January 2004, the Company acquired from McAlester Fuel Company, a 10% interest in 620 contiguous acres, subject to a 25% royalty interest held by Slack Oil Company. The Company paid US\$1,044,000 to acquire the interest and it is fully carried on the planned 12-well drilling program. The Mission River Development Project is adjacent to the producing Refugio oil/gas complex.

ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

The following discussion for the fiscal years ended 12/31/2005, 12/31/2004, and 12/31/2003 should be read in conjunction with the Company's consolidated financial statements and notes thereto.

Overview

Without any material properties at 12/31/1999, the Company acquired interests in five oil/gas properties during 2000 (including the Lenox Prospects) and two oil/gas properties during 2001. The less promising properties have been disposed of and during 2002-2003 focused its efforts on the oil/gas producing Lenox Property in Michigan, USA. The Lenox North Property was acquired in September 2003 and the Mission River Development Project was acquired in January 2004.

The funds raised in the equity financings discussed below have been used for the aforementioned property acquisitions and the funding of the Company's share of oil/gas well exploration/development. This has led to nine producing oil/gas wells; \$442,368 in oil/gas revenue in Fiscal 2004, and production of 7,524 barrels of oil and 12,000 MCF of gas in Fiscal 2004; and \$593,698 in oil/gas revenue in Fiscal 2005, and production of 7,399 barrels of oil and 14,000 MCF of gas in Fiscal 2005.

Financings

In May 2003, the Company issued a convertible debenture for proceeds of \$180,000 maturing 5/1/2005, bearing interest at 8% per annum, convertible, at the option of the lender, into units at \$0.12 per unit until 5/1/2004 and thereafter at \$0.14 per unit until 5/1/2005. Each unit was comprised of one common share and one common share purchase warrant. Each share purchase warrant entitles the holder to acquire one additional common share for \$0.12 per share until 5/1/2004 and thereafter at \$0.14 per share expiring 5/1/2005. The funds were used for working capital and to pay for the completion costs on the Martin 1-21 well. During November 2003, the convertible debentures were converted into 1,500,000 units of common shares and warrants.

In August 2003, the Company completed a private placement of 2,100,000 units at \$0.10 a unit, raising \$210,000. Two of the Company's Directors subscribed for \$110,000 of the placement. Each unit consisted of one common share and one share purchase warrant. One warrant and an additional \$0.10 will entitle the holder to purchase one additional common share until 8/28/2005.

In October 2003, the Company concluded a private placement of 2,037,059 units at \$0.17 a unit, raising \$346,300. Each unit consisted of one common share and one share purchase warrant. One warrant and an additional \$0.24 will entitle the holder to purchase one additional common share until 10/14/2005.

In June 2004, the Company concluded a private placement of 3,100,000 units at \$0.20 a unit, raising \$620,000. Each unit consisted of one common share and one share purchase warrant. Eight warrants and an additional \$0.20 will entitle the holder to purchase one additional common share until 6/2/2006; the warrants will entitle the holders to purchase a total of 387,500 common shares. The Company issued 225,000 common shares at a value of \$45,000 as a finder's fee.

In August 2004, the Company concluded a private placement of 1,500,000 common shares at \$0.20 per share, raising \$300,000. The Company issued 93,750 common shares at a deemed value of \$18,750 as a finder's fee.

During Fiscal 2004, the Company raised: \$1,090,200 through the issuance of 7,680,000 common shares pursuant to the exercise of warrants; and \$110,000 through the issuance of 1,050,000 common shares pursuant to the exercise of stock options.

In September 2005, the Company issued 2,000,000 units at \$0.15 per unit for gross proceeds of \$300,000. Each unit consisted of one common share and one share purchase warrant exercisable at \$0.15 per share expiring 9/14/2007. The Company paid a finder's fee and other issuance costs of \$24,942.

During Fiscal 2005, the Company raised: \$179,175 through the issuance of 1,194,500 common shares pursuant to the exercise of stock options.

During Fiscal 2006-To-Date, the Company raised \$90,000 through the issuance common shares pursuant to the exercise of stock options.

Critical Accounting Policies

Management is required to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. On a regular basis, we evaluate our estimates and assumptions. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

US GAAP RECONCILIATION

Oil and gas properties

Under both United States and Canadian GAAP, property, plant and equipment must be assessed for potential impairment.

Under Canadian GAAP, a ceiling test is applied to ensure that capitalized costs for oil and gas properties and equipment do not exceed the sum of estimated undiscounted, future net revenues from proven reserves less the cost incurred or estimated to develop those reserves, interest and general and administration costs, and an estimate for restoration costs and applicable taxes. Effective 1/1/2004, the CICA implemented a new pronouncement on impairment of long-lived assets, which required the impairment loss as a result of the ceiling test to be measured as the amount by which the carrying amount of the asset exceeds the expected future cash flows discounted using a risk free interest rate.

Under United States GAAP, costs accumulated in each cost center are limited to an amount equal to the present value, discounted at 10%, of the estimated future net operating revenues from proved reserves, net of restoration costs and income taxes. Under United States GAAP an additional ceiling test write-down was not required as at December 31, 2005, 2004 and 2003.

Stock-based compensation

Under United States GAAP, Statement of Financial Accounting Standards No. 123, "Accounting for Stock-based Compensation ("SFAS 123") recommends, but does not require, companies to establish a fair market value based method of accounting for stock-based compensation plans. The Company has elected for the years ended December 31, 2005, 2004 and 2003 to account for stock-based compensation using SFAS 123. Accordingly, compensation cost for stock options is measured at the fair value of options granted.

Under Canadian GAAP, the Company accounts for stock based compensation as disclosed in Note 2. Accordingly, there is no difference between Canadian GAAP and United States GAAP on the accounting for stock-based compensation for the years ended December 31, 2005, 2004 and 2003.

Loss per share

Under both Canadian GAAP and United States GAAP basic loss per share is calculated using the weighted average number of common shares outstanding during the year.

Under United States GAAP, the weighted average number of common shares outstanding excludes any shares that remain in escrow, but may be cancelled if not earned out based on the Company incurring a certain amount of exploration and development expenditures. The weighted average number of shares outstanding under United States GAAP for the years ended December 31, 2005, 2004 and 2003 was 41,476,215, 33,755,501 and 22,132,652, respectively.

Accordingly, the loss per share for the years ended December 31, 2005, 2004 and 2003 was \$(0.00), \$(0.02) and \$(0.03), respectively.

Asset retirement obligations

Under United States GAAP, Statement of Financial Accounting Standards No. 143, "Accounting for Asset Retirement Obligations" requires companies to record the fair value of the liability for closure and removal costs associated with the legal obligations upon retirement or removal of any tangible long-lived assets. Under this standard, the initial recognition of the liability is capitalized as part of the asset cost and depreciated over its estimated useful life.

Under Canadian GAAP, the Company was required to record asset retirement obligations as at 12/31/2005 for estimated future net costs of well abandonment and site restoration including removal of production facilities at the end of their useful life of \$10,494 (2004 - \$6,473). New accounting and disclosure standards were introduced under Canadian GAAP (Note 2 to the audited financial statements) and adopted by the Company effective 1/1/2003. Accordingly, there is no difference between Canadian GAAP and United States GAAP as at December 31, 2005 and 2004.

New accounting pronouncements

In December 2004, FASB issued Statement of Financial Accounting Standards No. 153, "Exchanges of Non-Monetary Assets - an amendment of APB Opinion No. 29" ('SFAS 153"), which amends Accounting Principles Board Opinion No. 29, "Accounting for Non-monetary Transactions", to eliminate the exception for non-monetary exchanges of similar productive assets and replaces it with a general exception for exchanges of non-monetary assets that do not have commercial substance. A non-monetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. SFAS 153 is effective for non-monetary asset exchanges occurring in fiscal periods beginning after 6/15/2005.

In December 2004, FASB issued Statement of Financial Accounting Standards No. 123R, "Share Based Payment" ('SFAS 123R"). SFAS 123R supersedes APB 25 and its related implementation guidance by requiring entities to recognize the cost of employee services received in exchange for awards of equity instruments based on the grant date fair value of those awards (with limited exceptions) and revises SFAS 123 as follows:

- i. Public entities are required to measure liabilities incurred to employees in share-based payment transactions at fair value and non-public entities may elect to measure their liabilities to employees incurred in share-based payment transactions at their intrinsic value, whereas under SFAS 123 all share based payment liabilities were measured at their intrinsic value.
- ii. Non-public entities are required to calculate fair value using an appropriate industry sector index for the expected volatility of its share price, if it is not practicable to estimate the expected volatility of the entity's share price.
- iii. Entities are required to estimate the number of instruments for which the requisite service is expected to be rendered as opposed to accounting for forfeitures as they occur.
- iv. Incremental compensation cost for a modification of the terms or conditions of an award is measured by comparing the fair value of the modified award with the fair value of the award immediately before the modification, whereas SFAS 123 required that the effect of a modification be measured as the difference between the fair value of the modified award at the date it is granted and the award's value immediately before the modification, determined based on the shorter of (1) its remaining initially estimated expected life or (2) the expected life of the modified award.

SFAS 123R also clarifies and expands guidance in several areas, including measuring fair value, classifying an award as equity or a liability and attributing compensation cost to reporting periods. SFAS 123R does not change the accounting guidance for share-based payment transactions with parties other than employees provided in SFAS 123 as originally issued in EITF 96-18. SFAS 123R also does not address the accounting for employee share ownership plans which are subject to Statement of Position 93-6, "Employers' Accounting for Employee Stock Ownership Plans". Public entities (other than those filing as small business issuers) will be required to apply SFAS 123R as of the first annual reporting period that begins after 6/15/2005. Public entities that file as small business issuers will be required to apply SFAS 123R in the first annual reporting period that begins after 12/15/2005. For non-public entities, SFAS 123R must be applied as of the beginning of the first annual reporting period beginning after 12/15/2005.

In May 2005, FASB issued Statement of Financial Accounting Standards No. 154, "Accounting Changes and Error Corrections - A Replacement of APB Opinion 20 and FASB Statement 3" (SFAS 154). SFAS 154 requires retrospective application to prior periods' financial statements for changes in accounting principle. SFAS 154 also requires that a change in depreciation, amortization, or depletion method for long-lived, non-financial assets be accounted for as a change in accounting estimate affected by a change in accounting principle. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after 12/15/2005.

The adoption of these new pronouncements is not expected to have a material effect on the Company's consolidated financial position or results of operations.

Results Of Operations

Fiscal 2005 Ended December 31, 2005 versus Fiscal 2004

The Company acquired interests in five oil/gas properties during 2000 (including the Lenox Prospects) and two oil/gas properties during 2001. The less promising properties have been disposed of. During 2002-2003, the Company has focused its efforts on the oil/gas producing Lenox Property in Michigan, USA. The Lenox North Property was acquired in September 2003 and the Mission River Development Project was acquired in January 2004.

The Company generated \$593,598 during 2005 (versus \$442,368) in oil/gas revenue from the Lenox Prospects and Mission River project. Offsetting this revenue was \$122,269 (versus \$121,937) in depletion costs. Oil/gas operating expenses were \$221,664 (versus \$145,556), reflecting increased production activity. Gross Profit was \$249,665 [versus \$174,875].

General/Administrative (excluding stock-based compensation) expenses fell 40% to \$327,506 during 2005 (versus \$569,690), as expected, due to the Company's reduced office/miscellaneous costs, reduced consulting/administrative fees and lower investor relations' costs.

Investor Relations expenses fell by two-thirds to \$53,635 from \$164,344 as a result of changes to the investor relations program. Consulting/Administrative expenses fell by two-thirds to \$34,750 from \$107,170 reduced use of consultants. Office/Miscellaneous expenses fell by a third to \$74,393 from \$107,354 due to staffing reductions.

Non-Cash stock-based compensation relating to the granting of stock options fell to \$75,193 from \$298,483, reflecting reduced granting of options.

Net Loss for Fiscal 2005 was (\$160,248) versus (\$766,320). Basis and Diluted Loss Per Share was (\$0.01) versus (\$0.02).

Fiscal 2004 Ended December 31, 2004 versus Fiscal 2003

The Company generated \$442,368 during 2004 (versus \$415,244) in oil/gas revenue from the Lenox Prospects and Mission River project. Offsetting this revenue was \$121,937 (versus \$599,679) in depletion costs; the ceiling test calculation determined that the net book value of the Company's assets in the USA exceeded net future cash flows from proven reserves and, accordingly, the Company recorded a ceiling test write-down of \$319,950 during 2003. Oil/gas operating expenses were \$145,556 (versus \$123,767), reflecting increased production activity. Gross Profit (loss) was \$174,875 [versus (\$308,202)].

General/Administrative (excluding stock-based compensation) expenses increased by 60% to \$569,691 during 2004 (versus \$343,110), as expected, due to the Company's increased exploration and development activity, fund raising, and investor relations effort. Investor Relations expenses rose more than six-fold to \$164,344 from \$24,860 as a result of the hiring of an outside consulting firm and the development of a corporate awareness program.

Office/Miscellaneous expenses rose 73% to \$107,354 from \$62,040 due to the general increase in corporate activity and consulting/administrative expenses tripled to \$107,170 from \$34,322 as well. Consulting/Administrative expenses tripled to \$107,170 from \$34,322 due to general increase in corporate activity.

Fiscal 2003 Ended December 31, 2003 versus Fiscal 2002

The Company generated \$415,244 in oil/gas revenue from the Lenox Prospects. Offsetting this revenue was \$599,679 in depletion and \$123,767 in oil/gas operating expenses. Gross Profit (loss) was (\$308,202).

General/Administrative expenses increased by 59% to \$343,110 during Fiscal 2003, as expected, due to the Company's increased exploration and development activity and fund raising undertaken. Professional fees (primarily for legal and accounting) rose to \$100,702 compared to \$65,253 last year, due to increased corporate activity and fund raising undertaken. Management fees rose to \$87,000 from \$60,000 last year. The \$87,000 (\$27,000 increase) included \$72,000 (versus \$60,000) paid/accrued to Martin Cotter, President/CEO/ Director of the Company; and \$15,000 paid/accrue to Bruce Nurse. Office/miscellaneous expenses tripled to \$62,040 from \$21,722 last year due to increased corporate activity and fund raising.

Other Items were (\$95,186) versus (\$1,368,148) last year. This year the material items were \$2,464 gain on settlement of accounts payable; (\$12,191) interest expense; and (\$85,459) foreign exchange loss resulting from the increased value of the Canadian Dollar (CDN\$) versus the US Dollar because the Company earns its revenue in the USA and most of its assets are in the USA. Last year's "other items" were dominated by the (\$1,441,793) write-off of oil/gas properties.

Net Loss for Fiscal 2003 was (\$746,498) versus (\$1,749,571). Net Loss Per Share was (\$0.03) versus (\$0.10). Weighted average number of shares was 22,235,777 versus 17,767,024 last year.

Liquidity and Capital Resources

Fiscal 2005 Ended December 31, 2005

Working Capital was \$157,501 at 12/31/2005.
Working Capital was a negative (\$286,850) at 12/31/2004.
Working Capital was a negative (\$306,989) at 12/31/2003.
Working Capital was a negative (\$574,732) at 12/31/2002.
Working Capital was a negative (\$1,018,261) at 12/31/2001.

The Company generated \$593,598 in revenue from oil/gas production during Fiscal 2005. While the Company anticipates increased revenue during Fiscal 2006 and beyond, profitability from its oil/gas operations is not expected to be sufficient to fund all corporate operations and growth during the next fiscal year. Thus, the Company expects to rely upon equity financing as its primary source of funding. During Fiscal 2006-to-date, the exercise of 600,000 stock options has raised \$90,000.

The Company has insufficient financial resources to undertake by itself the exploration and development of its planned exploration and development programs during Fiscal 2006. Long-term, the payment of property payments and the development of its property interests will depend upon the Company's ability to obtain financing through the joint venturing of projects, private placement financing, public financing or other means. There is no assurance that the Company will be successful in obtaining the required financing or that financing will be available on terms and conditions acceptable to the Company or that will not cause significant dilution to shareholders.

The Company completed a private placement of 2,000,000 units during Fiscal 2005, with gross proceeds of \$300,000. In addition, 1,194,599 stock options were exercised, raising \$179,175.

Cash Used in Fiscal 2005 Operating Activities totaled (\$85,103), including the (160,248) Net Loss. Material adjustments included depletion of \$122,269, write-off of accounts payable of (\$8,215), accrual of management fees of \$72,000, stock-based compensation of \$75,193, and the (\$186,102) net change in non-cash working capital items. Cash Used in Fiscal 2005 Investing Activities totaled (\$47,096), for oil/gas property expenditures. Cash Provided by Fiscal 2005 Financing Activities totaled \$247,202, predominately from the aforementioned private placements and offset by advances repaid to related parties.

Fiscal 2004 Ended December 31, 2004

Working Capital was a negative (\$286,850) at 12/31/2004.

In June 2004, the Company issued 3,100,000 units, with gross proceeds of \$620,000 and issued 225,000 common shares as a finders' fee. In August 2004, the Company issued 1,500,000 common shares for gross proceeds of \$300,000. During Fiscal 2004, the Company: issued 7,680,000 common shares pursuant to the exercise of warrants, raising \$1,090,200; and issued 1,050,000 common shares pursuant to the exercise of stock options, raising \$110,000.

Cash Used in Fiscal 2004 Operating Activities totaled (\$318,125), including the (\$766,320) Net Loss. Material adjustments included depletion of \$121,937, recovery of write-off of receivables of \$73,022, accrual of management fees of \$72,000, stock-based compensation of \$298,483, and the (\$117,247) decrease in non-cash working capital. Cash Used in Fiscal 2004 Investing Activities totaled (\$1,590,572), for oil/gas property expenditures. Cash Provided by Fiscal 2004 Financing Activities totaled \$1,978,259, predominately from the aforementioned private placements and offset by advances from related parties.

5.C. Research and development, patents and licenses, etc.

5.D. Trend information

5.G. Safe harbor.

--- No Disclosure Necessary ---

5.E. Off-Balance Sheet Arrangements.

We do not have any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resource that is material to investors.

5.F. Tabular disclosure of contractual obligations.

The Company does not have any contractual obligations as of 5/23/2006 that will require significant cash outlays in the future.

ITEM 6. DIRECTORS, SENIOR MANAGEMENT, AND EMPLOYEES

6.A. Directors and Senior Management

Table No. 8
Directors and Senior Management
May 15, 2006

Name	Position	Age	Date of First Election or Appointment
Martin P. Cotter (1)(2)	President/CEO/Director	55	January 1996
Neal Iverson (1)(3)	Director	55	March 2000
Wes Franklin (4)	Director	59	May 2005
<hr/>			
(1) Member of Audit Committee.			
(2) He spends over half of his time on the affairs of the Company.			
Resident/Citizen of Ireland			
Business address: 65 Main Street, Blackrock, Dublin, Ireland.			
(3) Resident/Citizen of British Columbia, Canada			
Business address: c/o Portruth Petroleum Corp.			
1687 West Broadway #200, Vancouver, BC V6J 1X2			
(4) Resident/Citizen of Washington, USA			
Business address: 561 Mussel Beach, Coupeville, WA 98239			

Martin P. Cotter, President/CEO/Director of the Company is a professional engineer resident in Dublin, Ireland. He also manages Ashcliff Holdings, a private property and investment company.

Neal Iverson, Director of the Company, is a commercial realtor who has been associated with Western Mortgage Realty Corporation in Vancouver, British Columbia for over fifteen years.

Wes Franklin, Director of the Company, is a registered geologist with both the State of Washington and the American Association of Petroleum Geologists, and he is a member of SPE and SE.G. He has been in the exploration and production segment of the petroleum industry for 34 years and spent over 16 years in senior management positions for Tenneco Oil Company and Fina Oil and Chemical Company. Since his retirement from Fina in 1997, he has been an active consultant in both domestic and international exploration plays.

The Directors have served in their respective capacities since their election and/or appointment and will serve until the next Annual General Meeting or until a successor is duly elected, unless the office is vacated in accordance with the Articles/By-Laws of the Company.

The Senior Management serves at the pleasure of the Board of Directors with management service contracts but without term of office, except as disclosed in ITEM #6B below.

Despite the Company's Executive Officers spending material portions of their time on businesses other than the Company, the Company believes that they devote sufficient time to the Company to properly carry out their duties.

No Director and/or Executive Officer has been the subject of any order, judgment, or decree of any governmental agency or administrator or of any court or competent jurisdiction, revoking or suspending for cause any license, permit or other authority of such person or of any corporation of which he is a Director and/or Executive Officer, to engage in the securities business or in the sale of a particular security or temporarily or permanently restraining or enjoining any such person or any corporation of which he is an officer or director from engaging in or continuing any conduct, practice, or employment in connection with the purchase or sale of securities, or convicting such person of any felony or misdemeanor involving a security or any aspect of the securities business or of theft or of any felony.

There are no arrangements or understandings between any two or more Directors or Executive Officers, pursuant to which he was selected as a Director or Executive Officer. There are no family relationships between any two or more Directors or Executive Officers.

6.B. Compensation

Director Compensation. The Company has no formal plan for compensating its Directors for their service in their capacity as Directors. Directors are entitled to reimbursement for reasonable travel and other out-of-pocket expenses incurred in connection with attendance at meetings of the Board of Directors. The Board of Directors may award special remuneration to any Director undertaking any special services on behalf of the Company other than services ordinarily required of a Director. Other than indicated below no Director received any compensation for his services as a Director, including committee participation and/or special assignments.

Senior Management Cash Compensation. During Fiscal 2005 Ended 12/31/2005, the Company paid/accrued cash compensation/salary (directly and indirectly) to one Senior Management/Director totaling \$72,000 to Martin Cotter.

Table No. 9 details compensation paid/accrued for Fiscal 2005/2004/2003 ended December 31st for the Senior Management and Directors.

Table No. 9
Summary Compensation Table
Senior Management and Directors

					<u>Long-Term Compensation</u>			
Name and Principal Position	Fiscal Year	<u>Annual Compensation</u>			<u>Awards</u>			
		Salary	Bonus	Other Annual Comp.	Restricted			All Other Comp.
					Stock Award(s)	Options/ SARS(#)	LTIP Payouts	
Martin Cotter: President/CEO/Director (1)								
	2005	\$72,000	nil	nil	nil	nil	nil	nil
	2004	\$72,000	nil	\$55,000	1,000,000	nil	nil	nil
	2003	\$72,500	nil	nil	0	nil	nil	nil

(1) 2004 Other Annual Compensation includes:
\$35,000 "value realized" from the exercise of 500,000 stock options.
\$20,000 "deemed value" of stock options granted at "below market".

Options/SARs Granted During The Most Recently Completed Fiscal Year

During the most recently completed fiscal year, the following incentive stock options were granted to Senior Management, Directors and employees/consultants. No SARs (stock appreciation rights) were granted during this period.

Table No. 10
Stock Option Grants in Fiscal 2005 Ended 12/31/2005

Name	Percentage		Exer. Price Per Share	Market Value of Securities Underlying Options on Date		
	Number of Options Granted	of Total Options Granted		Grant Date	Expiration Date	of Grant Per Share
Wes Franklin	300,000	22.2%	\$0.15	10/31/2005	9/01/2007	\$0.15
Neal Iverson	100,000	7.4%	\$0.15	10/31/2005	9/01/2007	\$0.15
Employees/Consultants	949,500	70.4%				
TOTAL	1,349,500	100.0%				

Options/SARs Exercised During The Most Recently Completed Fiscal Year

During the most recently completed fiscal year, 1,194,500 stock options were exercised by Senior Management, Directors and/or employees/consultants; 380,000 stock options expired unexercised or were cancelled. No SARs (stock appreciation rights) were granted/exercised during this period.

The following table gives certain information concerning stock option exercises during Fiscal 2005 by the Company's Senior Management and Directors. It also gives information concerning stock option values at 12/31/2005.

Table No. 11
Aggregated Stock Options Exercises in Fiscal 2005
Fiscal Yearend Unexercised Stock Options
Fiscal Yearend Stock Option Values
Senior Management/Directors

Name	Number of Shares Acquired on Exercise		Number of Unexercised Options at Fiscal Yearend Exercisable/ Unexercisable		Value of Unexercised In-the Money Options at Fiscal Yearend Exercisable/ Unexercisable	
	Aggregate Value Realized					
Martin Cotter	nil	\$nil	1,000,000/	nil	\$40,000/	\$nil
Wes Franklin	nil	\$nil	300,000/	nil	\$12,000	\$nil

Subtotal	nil	\$nil	1,500,000/	nil	\$60,000/	\$nil
Others	1,349,000	\$37,790	1,325,000/150,000		\$53,000/	\$6,000
TOTAL	1,349,500	\$37,790	2,825,000/150,000		\$113,000/	\$6,000

Stock Options. The Company may grant stock options to Directors, Senior Management and employees. Refer to ITEM #6.E., "Share Ownership" and Table No. 9, No. 10, No. 11, and No. 12 for information about stock options.

Change of Control Remuneration. The Company has no plans or arrangements in respect of remuneration received or that may be received by Executive Officers of the Company in Fiscal 2006 to compensate such officers in the event of termination of employment (as a result of resignation, retirement, change of control) or a change of responsibilities following a change of control, where the value of such compensation exceeds US\$100,000 per Senior Management.

Other Compensation. No Senior Management/Director received "other compensation" in excess of the lesser of US\$25,000 or 10% of such officer's cash compensation, and all Senior Management/Directors as a group did not receive other compensation which exceeded US\$25,000 times the number of persons in the group or 10% of the compensation, other than disclosed in Table No. 11 and ITEM #7.B.

Bonus/Profit Sharing/Non-Cash Compensation. Except for the stock option program discussed in ITEM #6.E., the Company has no material bonus or profit sharing plans pursuant to which cash or non-cash compensation is or may be paid to the Company's Directors or Senior Management.

Pension/Retirement Benefits. No funds have been set aside or accrued by the Company since incorporation to provide pension, retirement or similar benefits for Directors or Senior Management.

Written Management Agreements

--- No Disclosure Necessary ---

6.C. Board Practices

All directors hold office until the next meeting of the shareholders of the Company unless they resign or are removed in accordance with the Company's Articles. Senior Management are appointed to serve at the discretion of the Board of Directors. The Board of Directors and the Audit Committee of the Board schedule regular meetings over the course of the year.

The fundamental objective of the Board is to ensure that it operates in a fashion that maximizes shareholder value over the long term. The Board's duties and responsibilities are all carried out in a manner consistent with that fundamental objective. The principal duty and responsibility of the Board is to oversee the management and operations of the Company, with the day-to-day management of the business and affairs of the Company delegated by the Board to the President/CEO and other Senior Management.

The Board's responsibilities include overseeing the conduct of the Company's business, providing leadership and direction to its management, and setting policies. Strategic direction for the Company is developed through the Board's annual planning process. Through this process, the Board adopts the operating plan for the coming year, and monitors management's progress relative to that plan through a regular reporting and review process.

The Board has delegated to the President/CEO and other Senior Management responsibility for the day-to-day management of the business of the Company. Matters of policy and issues outside the normal course of business are brought before the Board for its review and approval, along with all matters dictated by statute and legislation requiring Board review and approval. The President/CEO and Senior Management review the Company's progress in relation to the current operating plan at in-person and telephone-conference Board meetings. The Board meets on a regular basis with and without management present. Financial, operational and strategic issues facing the Company are reviewed, monitored and approved at the Board meetings.

6.C.1. Terms of Office. Refer to ITEM 6.A.1.

6.C.2. Directors' Service Contracts. - No Disclosure Necessary -

6.C.3. Board of Director Committees.

The Company only has an Audit Committee, which recommends to the Board of Directors the engagement of the independent auditors of the Company and reviews with the independent auditors the scope and results of the Company's audits, the Company's internal accounting controls, and the professional services furnished by the independent auditors to the Company. The Audit Committee met twice in Fiscal 2005 and has met two times during Fiscal 2006-to-date.

Multilateral Instrument 52-110 of the Canadian Securities Administrators ("MI 52-110") requires the Company, as a "venture issuer" to disclose annually in its Information Circular certain information concerning the constitution of its audit committee and its relationship with its independent auditor, as set forth in the following:

The audit committee is chartered as a committee of the Board of Directors of the Company that is independent of the Company's management and represents the interests of the Company's shareholders.

The audit committee is authorized by the board of directors to:

- (a) oversee the process of selecting/appointing the Company's external auditor,
- (b) oversee the conduct of the audit, and
- (c) have primary responsibility for the relationship between the Company and its external auditor.

The audit committee's responsibilities include:

- (a) take reasonable steps, at the time the auditor's appointment is under consideration, to ensure that the auditor is independent of management of the Company in accordance with applicable standards,
- (b) determine whether the audit fees charged by the auditor appear adequate in relation to the work required to support an audit opinion, without regard to fees that might be paid to the auditor for other services,
- (c) meet with the auditor, regularly and when otherwise appropriate, without management present to determine whether there are any contentious issues between the auditor and management relating to the Company's financial disclosure and, if so, whether those issues have been resolved to the auditor's satisfaction,
- (d) establish, and monitor compliance with, the Company's policies regarding:
 - (i) the auditor's providing services beyond scope of the Company's audit,
 - (ii) the Company's hiring individuals formerly employed by the auditor to fill senior officer positions of the Company, and
- (e) prepare annually a report describing the steps it has taken to ensure that the auditor is independent of management of the Company, including:
 - (i) the policies and procedures followed so that any contracts for non-audit services to be provided by the auditor do not compromise the auditor's independence, and
 - (ii) the nature of any non-audit service contracts entered into and the amount of the related fees.

The Company's audit committee is comprised of three directors: Martin Cotter, Wes Franklin, and Neal Iverson. All audit committee members are "financially literate" (as defined in MI 52-110) and only Martin Cotter, the President, is not "independent".

Since the commencement of the Company's most recently completed financial year, the Company's Board of Directors has not failed to adopt a recommendation of the audit committee to nominate or compensate an external auditor.

Since the effective date of MI 52-110, the Company has not relied on the exemptions contained in sections 2.4 or 8 of MI 52-110. Section 2.4 provides an exemption from the requirements that the audit committee must pre-approve all non-audit services to be provided by the auditor, where the total amount of fees related to the non-audit services are not expected to exceed 5% of the total fees payable to the auditor in the fiscal year in which the non-audit services were provided.

Section 8 permits a company to apply to a securities regulatory authority for an exemption from the requirements of MI 52-110, in whole or in part.

The audit committee has not adopted specific policies and procedures for the engagement of non-audit services. Subject to the requirements of MI 52-110, the engagement of non-audit services is considered by the Company's Board of Directors, and where applicable the audit committee, on a case-by-case basis.

The Company is relying on the exemption provided by section 6.1 of MI 52-110 that provides that the Company, as a venture issuer, is not required to comply with Part 3 (Composition of the Audit Committee) and Part 5 (Reporting Obligations) of MI 52-110.

6.D. Employees

As of 5/23/2006, the Company had two employees, including one Senior Management. As of 12/31/2005, 12/31/2004, and 12/31/2003, there were two, four, and two employees (including the two Senior Management), respectively. None of the Company's employees are covered by collective bargaining agreements.

6.E. Share Ownership

Table No. 12 lists, as of 5/31/2006 Directors/Senior Management who beneficially own the Company's voting securities and the amount of Company's voting securities owned by the Directors and Executive Officers as a group. Table No. 11 also includes all persons/companies (none) where the Company is aware that they have 5% or greater beneficial interest in the Company's securities.

Table No. 12
Shareholdings of Directors and Executive Officers
Shareholdings of 5% Shareholders

Title of Class	Name of Beneficial Owner	Amount and Nature of Beneficial Ownership	Percent of Class #
Common	Martin P. Cotter (1)	6,796,666	14.6%
Common	Neal Iverson (2)	200,000	0.5%
Common	Wes Franklin	300,000	0.7%
Total Directors/Officers/5% Shareholders		7,296,666	15.8%
(1) 1,500,000 represent currently exercisable stock options. 1,000,000 represent currently exercisable warrants.			
(2) 100,000 represent currently exercisable stock options.			
(3) 300,000 represent currently exercisable stock options.			
# Based on 44,033,792 shares outstanding as of 5/31/2006 and share purchase warrants and stock options held by each beneficial holder exercisable within sixty days.			

Stock Options. The terms of incentive options grantable by the Company are done in accordance with the rules and policies of the TSX Venture Exchange and the British Columbia Securities Commission, including the number of common shares under option, the exercise price and expiry date of such options, and any amendments thereto. The Company adopted a formal written stock option plan (the "Stock Option Plan") on 6/15/2004.

The principal purposes of the Company's stock option program are to (a) promote a proprietary interest in the Company among the officers, directors and employees of the Company and its affiliates, (b) retain and attract the qualified officers, directors and employees the Company requires, (c) provide a long-term incentive element in overall compensation, and (d) promote the long-term profitability of the Company.

The Stock Option Plan provides that stock options may be granted to directors, senior officers, employees and consultants of the Company and management company employees. For the purposes of the Stock Option Plan, the terms "employees", "consultants" and "management company employees" have the meanings set out in TSX Venture Exchange Policy 4.4. In addition, the term "director" is defined in TSX Venture Exchange Policy 4.4 to include directors, senior officers and management company employees.

Under the Stock Option Plan, the Company's board of directors (the "Board") may, from time to time, designate a director or other senior officer or employee of the Company as administrator (the "Administrator") for the purposes of administering the Plan. Currently, the Administrator is the Corporate Secretary of the Company.

The Plan provides for the issuance of stock options to acquire at any time up to a maximum of a "rolling" 10% of the issued and outstanding common shares of the Company (subject to standard anti-dilution adjustments). If a stock option expires or otherwise terminates for any reason without having been exercised in full, the number of common shares reserved for issuance under that expired or terminated stock option shall again be available for the purposes of the Plan. Any stock option outstanding when the Plan is terminated will remain in effect until it is exercised or it expires. The Plan provides that it is solely within the discretion of the Board to determine who should receive stock options and in what amounts, subject to the following conditions:

- (a) options will be non-assignable and non-transferable except that they will be exercisable by the personal representative of the option holder in the event of the option holder's death;
- (b) options may be exercisable for a maximum of five years from grant date;
- (c) options to acquire no more than 5% of the issued shares of the Company may be granted to any one individual in any 12 month period;
- (d) options to acquire no more than 2% of the issued shares of the Company may be granted to any one consultant in any 12 month period;
- (e) options to acquire no more than an aggregate of 2% of the issued shares of the Company may be granted to an employee conducting investor relations activities (as defined in TSX Venture Exchange Policy 1.1), in any 12 month period;
- (f) options held by an option holder who is a director, employee, consultant or management company employee must expire within 90 days after the option holder ceases to be a director, employee, consultant or management company employee;
- (g) options held by an option holder who is engaged in investor relations activities must expire within 30 days after the option holder ceases to be employed by the Company to provide investor relations activities; and
- (h) in the event of an option holder's death, the option holder's personal representative may exercise any portion of the option holder's vested outstanding options for one year following the option holder's death.

The Stock Option Plan provides that other terms and conditions may be attached to a particular stock option, such terms and conditions to be referred to in a schedule attached to the option certificate. Stock options granted to directors, senior officers, employees or consultants will vest when granted unless otherwise determined by the Board on a case by case basis, other than stock options granted to consultants performing investor relations activities, which will vest in stages over 12 months with no more than one-fourth of the options vesting in any three month period.

In addition, under the Stock Option Plan a stock option will expire immediately in the event a director or senior officer ceases to be a director or senior officer of the Company as a result of (i) ceasing to meet the qualifications under the *Company Act* (British Columbia), (ii) the passing of a special resolution by the shareholders or (iii) an order made by a regulatory authority. A stock option will also expire immediately in the event an employee ceases to be an employee as a result of termination for cause or an employee or consultant ceases to be an employee or consultant as a result of an order made by a regulatory authority.

The price at which an option holder may purchase a common share upon the exercise of a stock option will be as set forth in the option certificate issued in respect of such option and in any event will not be less than the discounted market price of the Company's common shares as of the date of the grant of the stock option (the "Award Date"). The market price of the Company's common shares for a particular Award Date will typically be the closing trading price of the Company's common shares on the day immediately preceding the Award Date, or otherwise in accordance with the terms of the Stock Option Plan. Discounted market price means the market price less a discount of up to 25% if the market price is \$0.50 or less; up to 20% if the market price is between \$2.00 and \$0.51; and up to 15% if the market price is greater than \$2.00.

In no case will a stock option be exercisable at a price less than the minimum prescribed by each of the organized trading facilities or the applicable regulatory authorities that would apply to the award of the stock option in question.

The Stock Option Plan also provides that (a) disinterested shareholder approval will be obtained for any reduction in the exercise price of an option held by an insider of the Company and (b) options cannot be granted to employees, consultants or management company employees that are not bona fide employees, consultants or management company employees, as the case may be.

Common shares will not be issued pursuant to stock options granted under the Stock Option Plan until they have been fully paid for by the option holder. The Company will not provide financial assistance to option holders to assist them in exercising their stock options.

The names and titles of the Directors/Executive Officers of the Company to whom outstanding stock options have been granted and the number of common shares subject to such options are set forth in Table No. 13 as of 5/31/2006, as well as the number of options granted to Directors and all employees as a group.

Table No. 13
Stock Options Outstanding

Name	Number of Shares of Common Stock	CDN\$ Exer. Price	Grant Date	Expir'n Date
Martin P. Cotter	1,500,000	\$0.15	4/10/06	4/10/09

Employees/Consultants	1,525,000			
Total Officers/Directors/Etc.	3,425,000			

ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS

7.A. Major Shareholders

7.A.1.a. Holdings By Major Shareholders

Refer to ITEM #6.E. and Table No. 11.

7.A.1.b. Significant Changes in Major Shareholders' Holdings

The participation in private placements of equity by the Company and exercise of stock options/share purchase warrants has lead over the last several year to some significant changes in the holdings of major shareholders; table reflects direct/indirect holdings of common shares (excluding stock options and warrants), refer to Table No. 11 for additional information.

	Shares Owned 12/31/2005	Shares Owned 12/31/2004	Shares Owned 12/31/2003
Martin P. Cotter	4,296,666	3,296,666	1,546,666
Nextel Investment Properties	0	0	157,000

7.A.1.c. Different Voting Rights. The Company's major shareholders do not have different voting rights.

7.A.2. Canadian Share Ownership. On 5/31/2006, the Company's shareholders' list showed 44,033,792 common shares outstanding, with 327 registered shareholders. 84 of these shareholders were U.S. residents, holding 6,293,897 common shares (representing about 14% of the issued/outstanding shares); 238 registered shareholders were resident in Canada, holding 38,974,395 common shares (80%), and five registered shareholders were resident in other countries, holding 2,765,500 common shares (6%).

The Company has researched the indirect holding by depository institutions and other financial institutions; based on this research and other research into the indirect holdings of other institutions, the Company believes that it has approximately 1000 beneficial owners of its common shares.

7.A.3. Control of Company. The Company is a publicly-owned Canadian corporation, the shares of which are owned by U.S. residents, Canadian residents and other foreign residents. The Company is not controlled by any foreign government or other person(s) except as described in ITEM #4.A., "History and Development of the Company", and ITEM #6.E., "Share Ownership".

7.A.4. Change of Control of Company Arrangements.

--- No Disclosure Necessary ---

7.B. Related Party Transactions

Martin Cotter, President/Director

During Fiscal 2005/2004/2003, the Company paid/accrued to Martin Cotter fees totalling \$72,000, \$72,000, and \$72,000, respectively.

At 12/31/2005 and 12/31/2004, due to related parties included \$17,571 and \$150,000 owing to Martin Cotter.

Bruce Nurse, Director

During Fiscal 2005/2004/2003, respectively, the Company paid/accrued \$0, \$0 and \$15,000 to Bruce Nurse for consulting fees related to investor relations.

Other than as disclosed above and in prior Annual Reports on Form 20-F, there have been no transactions since 12/31/2002, or proposed transactions, which have materially affected or will materially affect the Company in which any director, executive officer, or beneficial holder of more than 10% of the outstanding common stock, or any of their respective relatives, spouses, associates or affiliates has had or will have any direct or material indirect interest. Management believes the transactions referenced above were on terms at least as favorable to the Company as the Company could have obtained from unaffiliated parties.

7.C. Interests of Experts and Counsel

None of the named experts or counselors employed on a contingent basis owns shares in the company or its subsidiaries or has a material, direct or indirect economic interest in the Company.

ITEM 8. FINANCIAL INFORMATION

8.A. Consolidated Statements and Other Financial Information

The Company's financial statements are stated in Canadian Dollars (CDN\$) and are prepared in accordance with Canadian GAAP, the application of which, in the case of the Company, conforms in all material respects for the periods presented with United States GAAP, except as discussed in footnotes to the financial statements.

The financial statements as required under ITEM #17 are attached hereto and found immediately following the text of this Annual Report. The audit reports of Davidson & Company LLP, Chartered Accountants, are included herein immediately preceding the financial statements and schedules.

Audited Financial Statements
for Fiscal 2005, Fiscal 2004, and Fiscal 2003, Ended December 31st

8.A.7. Legal/Arbitration Proceedings

The Directors and the management of the Company know of no material, active or pending, legal proceedings against them; nor is the Company involved as a plaintiff in any material proceeding or pending litigation.

The Directors and the management of the Company know of no active or pending proceedings against anyone that might materially adversely affect an interest of the Company.

8.B. Significant Changes

No undisclosed significant change has occurred since the date of the annual financial statements, and/or since the date of the most recent interim financial statement.

ITEM 9. THE OFFER AND LISTING**9.A.4. Common Share Trading Information**

The Company's common shares began trading on the OTC Bulletin Board on 3/19/2002 under the symbol PRRPF.OB. Table No. 14 lists the volume of trading and high, low and closing sales prices on the OTC Bulletin Board for the Company's common shares for: the last six months, the last nine fiscal quarters, and the last four fiscal years.

The TSX Venture Exchange

The TSX Venture Exchange is a result of the acquisition by the Toronto Stock Exchange of the Canadian Venture Exchange ("CDNX") from its member firms on 8/1/2001. The CDNX resulted from the merger between the Vancouver Stock Exchange and the Alberta Stock Exchange that took place on 11/29/1999, to form the CDNX. The TSX Venture Exchange currently operates as a complementary but independent exchange from its parent, the Toronto Stock Exchange.

The initial roster of the CDNX was made up of venture companies previously listed on the Vancouver Stock Exchange or the Alberta Stock Exchange and later incorporated junior listings from the Montreal Stock Exchange, the Winnipeg Stock Exchange, and the CDN Over-The-Counter Market. The TSX Venture Exchange is a venture market as compared to the Toronto Stock Exchange that is Canada's senior market and the Montreal Exchange that is Canada's market for derivatives products.

The TSX Venture Exchange currently has five service centers: Calgary, Toronto, Vancouver, Winnipeg and Montreal. These service centers provide corporate finance, surveillance and marketing expertise. The corporate office for the TSX Venture Exchange is located in Calgary and the operations office is located in Vancouver.

The TSX Venture Exchange is a self-regulating organization owned and operated by the Toronto Stock Exchange, which in turn is owned by its member brokerage firms. It is governed by representatives of member firms and the public.

Organizationally, the TSX Venture Exchange is comprised of seven business areas: Corporate Finance Services, Trading Services and Market Information Services, Compliance, Marketing, Technology, Corporate Affairs and Human Resources.

The TSX Venture Exchange acts as a business link between TSX members, listed companies and investors. TSX Venture Exchange policies and procedures are designed to accommodate companies still in their formative stages and recognize those that are more established. Listings are predominately small and medium sized companies.

Investors in Canada are protected by the Canadian Investor Protection Fund ("CIPF"). The CIPF is a private trust fund established to protect customers in the event of the insolvency of a member of any of the following self-regulatory organizations: the TSX Venture Exchange; the Montreal Exchange; the Toronto Stock Exchange; the Toronto Futures Exchange; and the Investment Dealers Association of Canada.

Post-trade monitoring of market activity occurs in the market surveillance department. Sophisticated software analyses trade data from TRADETSX to detect possible market improprieties. A variety of surveillance and investigative tools allow the TSX Venture Exchange to perform electronic market monitoring and trade reviews.

The surveillance department is also responsible for monitoring and reviewing listed company activities and detecting breaches of the listing policies or the listing agreement. Market surveillance and listed company surveillance activities are closely coordinated.

9.C. Markets Identified

The common shares trade on the TSX Venture Stock Exchange in Canada and on the OTC Bulletin Board in the United States. Refer to ITEM #9.A.4.

ITEM 10. ADDITIONAL INFORMATION

10.B. Memorandum and Articles of Association

Following shareholder approval of a "special resolution" at the 5/31/2005 Special and Annual Meeting of shareholders, the Company adopted a new set of Articles. The Company undertook this action to bring the Company into compliance with the new, updated *British Columbia Corporations Act*. The principle changes include: the reduction of the required vote for a "special resolution" from three-quarters to two-thirds; Directors are able to approve a name change for the Company without a shareholder vote; Directors can set the location of the Annual General Meeting outside British Columbia, Canada; and deleted the requirement for a pro rate purchase of the shares of the Company.

In addition, the new British Columbia Corporations Act removed the requirement that a majority of Company directors be resident in British Columbia.

Refer to discussion in Fiscal 2001 Annual Report on Form 20-F, for more information about the Company's articles.

10.C. Material Contracts: --- No Disclosure Necessary ---

10.D. Exchange Controls

Canada has no system of exchange controls. There are no Canadian restrictions on the repatriation of capital or earnings of a Canadian public company to non-resident investors. There are no laws in Canada or exchange restrictions affecting the remittance of dividends, profits, interest, royalties and other payments to non-resident holders of the Company's securities, except as discussed in ITEM 10, "Taxation" below.

Restrictions on Share Ownership by Non-Canadians

There are no limitations under the laws of Canada or in the organizing documents of the Company on the right of foreigners to hold or vote securities of the Company, except that the Investment Canada Act may require review and approval by the Minister of Industry (Canada) of certain acquisitions of "control" of the Company by a "non-Canadian". The threshold for acquisitions of control is generally defined as being one-third or more of the voting shares of the Company. "Non-Canadian" generally means an individual who is not a Canadian citizen, or a corporation, partnership, trust or joint venture that is ultimately controlled by non-Canadians.

10.E Taxation

The following is a brief summary of some of the principal Canadian federal income tax consequences to a holder of common shares of the Company (a "U.S. Holder") who deals at arm's length with the Company, holds the shares as capital property and who, for the purposes of the *Income Tax Act* (Canada) (the "Act") and the *Canada - United States Income Tax Convention* (the "Treaty"), is at all relevant times resident in the United States, is not and is not deemed to be resident in Canada and does not use or hold and is not deemed to use or hold the shares in carrying on a business in Canada. Special rules, which are not discussed below, may apply to a U.S. Holder that is an insurer that carries on business in Canada and elsewhere.

This summary is of a general nature only and is not, and should not be interpreted as, legal or tax advice to any particular U.S. Holder and no representation is made with respect to the Canadian income tax consequences to any particular person. Accordingly, U.S. Holders are urged to consult their own tax advisors with respect to their particular circumstances.

Under the Act and the Treaty, a U.S. Holder of common shares will generally be subject to a 15% withholding tax on dividends paid or credited or deemed by the Act to have been paid or credited on such shares. The withholding tax rate is 5% where the U.S. Holder is a corporation that beneficially owns at least 10% of the voting shares of the Company and the dividends may be exempt from such withholding in the case of some U.S. Holders such as qualifying pension funds and charities.

In general, a U.S. Holder will not be subject to Canadian income tax on capital gains arising on the disposition of shares of the Company unless (i) at any time in the five-year period immediately preceding the disposition, 25% or more of the shares of any class or series of the capital stock of the Company was owned by (or was under option of or subject to an interest of) the U.S. holder or persons with whom the U.S. holder did not deal at arm's length, and (ii) the value of the common shares of the Company at the time of the disposition derives principally from real property (as defined in the Treaty) situated in Canada. For this purpose, the Treaty defines real property situated in Canada to include rights to explore for or exploit mineral deposits and other natural resources situated in Canada, rights to amounts computed by reference to the amount or value of production from such resources, certain other rights in respect of natural resources situated in Canada and shares of a corporation the value of whose shares is derived principally from real property situated in Canada.

The US Internal Revenue Code provides special anti-deferral rules regarding certain distributions received by US persons with respect to, and sales and other dispositions (including pledges) of stock of, a passive foreign investment company. A foreign corporation, such as the Company, will be treated as a passive foreign investment company if 75% or more of its gross income is passive income for a taxable year or if the average percentage of its assets (by value) that produce, or are held for the production of, passive income is at least 50% for a taxable year. The Company believes that it was not a passive foreign investment company for the taxable year ended 12/31/2004 and, furthermore, expects to conduct its affairs in such a manner so that it will not meet the criteria to be considered passive foreign investment company in the foreseeable future.

10.H. Document on Display

The Company's documents can be viewed at its North American office, located at: 1687 West Broadway, #200, Vancouver, British Columbia, Canada V6J 1X2. The Company files reports, registration statements and other information with the Securities and Exchange Commission (the "SEC"). The Company's reports, registration statements and other information can be inspected on the SEC's website at www.sec.gov and such information can also be inspected and copies ordered at the public reference facilities maintained by the SEC at the following location: Judiciary Plaza, 450 Fifth Street, N.W., Room 1024, Washington, D.C. 20549.

10.I. Subsidiary Information

The Company has one wholly-owned subsidiary, Texas Gulf Petroleum Corp., incorporated in Nevada on 7/20/1981, acquired on 8/31/1995. This subsidiary is inactive.

ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company has not entered into any activities in derivative financial instruments, other financial instruments, or derivative commodity instruments. The Company's financial assets in the form of cash and cash equivalents are held in short term interest-bearing deposits at institutions with high credit quality ratings.

The reporting currency of our consolidated financial statements is the Canadian Dollar. Revenues from our operations outside of Canada represented 100% of our revenues in Fiscal 2005/2004/2003, all located in the United States and recorded in U.S. Dollars. As a result, we enter into transactions with customers and suppliers in U.S. Dollars. We are exposed to market risks from changes in foreign currency exchange rates that may affect our results of operations and financial condition and, consequently, our fair value. We do not enter into forward exchange contracts. We manage these risks through internal risk management policies. Many of our strategies are based on historical trading patterns and correlations and our management's expectations of future events. However, these strategies may not be fully effective in all market environments or against all types of risks. Unexpected market developments may affect our risk management strategies during this time, and unanticipated developments could impact our risk management strategies in the future. If any of the variety of instruments and strategies we utilize are not effective, we may incur losses.

The oil and gas industry is exposed to a variety of risks including the uncertainty of finding and recovering new economic reserves, the performance of hydrocarbon reservoirs, securing markets for production, commodity prices, interest rate fluctuations, potential damage to or malfunction of equipment and changes to income tax, royalty, environmental or other governmental regulations. We mitigate these risks to the extent we are able by:

- a. employing highly-skilled staff and focusing them in areas where they have a strong knowledge base in order to maximize value;
- b. utilizing competent, professional consultants as support teams to Company staff;
- c. performing careful and thorough geophysical, geological and engineering analyses of each prospect;
- d. using current, cost-effective and where feasible, leading-edge technology;
- e. focusing on a limited number of core properties;
- f. striving to be a low-cost producer to maximize field netbacks;
- g. maintaining a balanced portfolio of sales contracts;
- h. staying informed about industry changes and trends through appropriate association memberships, publications, subscriptions and conferences.

Our future financial performance remains closely linked to hydrocarbon commodity prices, which can be influenced by many factors including global and regional supply and demand, worldwide political events and weather. These factors, among others, can result in a high degree of price volatility.

We currently have no hedge positions, however, we manage our potential exposure to commodity price volatilities through diversification as follows:

- a. Our oil/gas portfolio is split between two primary markets: southern Michigan and southeast Texas; and
- b. Commodity mix: our sales portfolio is comprised of natural gas, crude oil and natural gas liquids. Crude oil and natural gas liquids are sold at prices with volatilities that differ from those of natural gas.

ITEM 12. DESCRIPTION OF SECURITIES OTHER THAN EQUITY SECURITIES

<u>12.A. Debt Securities</u>	--- No Disclosure Necessary --
<u>12.B. Warrants and Rights</u>	--- No Disclosure Necessary --
<u>12.C. Other Securities</u>	--- No Disclosure Necessary --
<u>12.D. American Depositary Shares</u>	--- No Disclosure Necessary --

PART II

ITEM 13. DEFAULTS, DIVIDEND ARREARAGES AND DELINQUENCIES

--- No Disclosure Necessary ---

ITEM 14. MATERIAL MODIFICATIONS TO THE RIGHTS OF SECURITY

HOLDERS AND USE OF PROCEEDS - No Disclosure Necessary -

ITEM 15. CONTROLS AND PROCEDURES

The Board of Directors has overall responsibility for reviewing the Company's disclosure to ensure the Company provides full and plain disclosure to shareholders and other stakeholders. The Board discharges its responsibilities through its committees, specifically, with respect to financial disclosure to the Audit Committee, which is responsible for reviewing the Company's financial reporting procedures and internal controls to ensure full and accurate disclosure of the Company's financial position.

At the end of Fiscal 2005 Ended 12/31/2005 (the "Evaluation Date"), under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, the Company evaluated the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rule 13a-15e under the Exchange Act). Based upon that evaluation, the Company's management, including the Chief Executive Officer and Chief Financial Officer, concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures were effective in timely alerting them to the material information relating to the Company (or its consolidated subsidiaries) required to be included in the Company's periodic SEC filings. The Company's management's, including its Chief Executive Officer and Chief Financial Officer, concluded that the Company's disclosure controls and procedures are designed and are effective to give reasonable assurance that the information required to be disclosed by the Company in reports that it files under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC.

The Company's management, including the Chief Executive Officer and Chief Financial Officer, identified no change in the Company's internal control over financial reporting that occurred during the Company's Fiscal Year Ended December 31, 2005 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

The term "internal control over financial reporting" is defined as a process designed by, or under the supervision of, the Company's principal executive and principal financial officers, or persons performing similar functions, and effected by the Company's Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- a. Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the registrant;
- b. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the registrant are being made only in accordance with authorizations of management and directors of the registrant; and
- c. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the registrant's assets that could have a material effect on the financial statements.

The Company's management, including the Chief Executive Officer and Chief Financial Officer, does not expect that its disclosure controls and procedures or internal controls and procedures will prevent all error and all fraud. A control system can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

ITEM 16. RESERVED**ITEM 16A. AUDIT COMMITTEE FINANCIAL EXPERT**

The Company does not have an "audit committee financial expert" serving on its audit committee. The Company's Audit Committee consists of an unrelated director, the President/CEO of the Company, and the Corporate Secretary of the Company, all of whom are both financially literate and very knowledgeable about the Company's affairs. Because the Company's structure and operations are straightforward, the Company does not find it necessary to augment its Board with a financial expert.

ITEM 16B. CODE OF ETHICS

The Company has not adopted a written "code of ethics" that meets the new United States' Sarbanes-Oxley standards; the Board of Directors believes that existing Canadian standards and procedures is adequate for its purposes. The Company has not seen any need to adopt a written code of ethics on the basis that its corporate culture effectively deters wrongdoing and promotes honest and ethical conduct, full, fair and accurate, timely, and understandable disclosure in reports and documents, the compliance with applicable governmental laws, rules and regulations; the prompt internal reporting of violations of the code; and accountability for adherence to the code.

Item 16C. PRINCIPAL ACCOUNTING FEES AND SERVICES

The audit committee is directly responsible for the appointment, compensation and oversight of auditors; the audit committee has in place procedures for receiving complaints and concerns about accounting and auditing matters; and has the authority and the funding to engage independent counsel and other outside advisors.

The Audit Committee may delegate to one or more designated members of the Audit Committee the authority to grant pre-approvals required by this policy / procedure. The decisions of any Audit Committee member to whom authority is delegated to pre-approve a service shall be presented to the full Audit Committee at its next scheduled meeting.

In accordance with the requirements of the US Sarbanes-Oxley Act of 2002 and rules issued by the Securities and Exchange Commission, we introduced a procedure for the review and pre-approval of any services performed by Davidson & Company LLP, including audit services, audit related services, tax services and other services. The procedure requires that all proposed engagements of Davidson & Company LLP for audit and permitted non-audit services are submitted to the finance and audit committee for approval prior to the beginning of any such services.

Fees, including reimbursements for expenses, for professional services rendered by Davidson & Company LLP to the Company are detailed below.

Fiscal Year ended December 31, 2005 and 2004	Fiscal Year	Fiscal Year
Principal Accountant Fees and Services	2005	2004
Audit Fees	\$22,352	\$15,240

PORTRUSH PETROLEUM CORPORATION

**CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in Canadian Dollars)**

DECEMBER 31, 2005

INDEPENDENT AUDITORS' REPORT

To the Shareholders of
Portrush Petroleum Corporation

We have audited the consolidated balance sheets of Portrush Petroleum Corporation as at December 31, 2005 and 2004 and the consolidated statements of operations and deficit and cash flows for the years ended December 31, 2005, 2004 and 2003. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards and with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2005 and 2004 and the results of its operations and its cash flows for the years ended December 31, 2005, 2004 and 2003 in accordance with Canadian generally accepted accounting principles.

COMMENTS BY AUDITORS FOR U.S. READERS ON CANADA – U.S. REPORTING DIFFERENCE

In the United States, reporting standards for auditors require the addition of an explanatory paragraph (following the opinion paragraph) when the financial statements are affected by conditions and events that cast substantial doubt on the Company's ability to continue as a going concern, such as those described in Note 1 to the financial statements. Our report to the shareholders dated March 31, 2006 is expressed in accordance with Canadian reporting standards which do not permit a reference to such events and conditions in the auditors' report when these are adequately disclosed in the financial statements.

Supplemental disclosure with respect to cash flows (Note 5)

The accompanying notes are an integral part of these consolidated financial statements.

1. NATURE AND CONTINUANCE OF OPERATIONS

The Company is incorporated under the laws of British Columbia and its principal business activity is the acquiring and developing of oil and gas properties.

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. Continued operations of the Company are dependent on the Company's ability to receive continued financial support, complete public equity financing, or generate profitable operations in the future. These consolidated financial statements do not include the adjustments that would be necessary should the Company be unable to continue as a going concern.

	2005	2004
Working capital (deficiency)	\$ 157,501	\$ (286,850)
Deficit	(12,018,022)	(11,857,774)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of consolidation

These consolidated financial statements include the financial statements of the Company and its wholly-owned subsidiary. Significant inter-company transactions have been eliminated on consolidation.

Use of estimates

The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses during the year. Actual results could differ from these estimates.

Oil and gas properties

The Company follows the full cost method of accounting for oil and natural gas operations, whereby all costs of exploring for and developing oil and natural gas reserves are capitalized and accumulated in cost centres on a country-by-country basis. Costs include land acquisition costs, geological and geophysical charges, carrying charges on non-productive properties and costs of drilling both productive and non-productive wells. General and administrative costs are not capitalized other than to the extent of the Company's working interest in operated capital expenditure programs on which operator's fees have been charged equivalent to standard industry operating agreements. At December 31, 2005, the Company has not capitalized any interest, general or administrative costs.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

Oil and gas properties (cont'd...)

The costs in each cost centre, including the costs of well equipment, are depleted and depreciated using the unit-of-production method based on the estimated proved reserves before royalties. Natural gas reserves and production are converted to equivalent barrels of crude oil based on relative energy content. The costs of acquiring and evaluating significant unproved properties are initially excluded from depletion calculations. These unevaluated properties are assessed periodically to ascertain whether impairment has occurred. When proved reserves are assigned or the property is considered to be impaired, the cost of the property or the amount of the impairment is added to costs subject to depletion.

The capitalized costs less accumulated depletion and depreciation in each cost centre are limited to an amount equal to the estimated future net revenue from proved reserves (based on prices and costs at the balance sheet date) plus the cost (net of impairments) of unproved properties. The total capitalized costs less accumulated depletion and depreciation, site restoration provision and future income taxes of all cost centres is further limited to an amount equal to the future net revenue from proved reserves plus the cost (net of impairments) of unproved properties of all cost centres less estimated future site restoration costs, general and administrative expenses, financing costs and income taxes.

Proceeds from the sale of oil and natural gas properties are applied against capitalized costs, with no gain or loss recognized, unless such a sale would significantly alter the rate of depletion and depreciation.

Certain of the Company's exploration and production activities are conducted jointly with others and, accordingly, the accounts reflect only the Company's proportionate interest in such activities.

Site restoration

The Company has adopted CICA Handbook Section 3110 "Asset Retirement Obligations". This standard focuses on the recognition and measurement of liabilities related to legal obligations associated with the retirement of property, plant and equipment. Under this standard, these obligations are initially measured at fair value and subsequently adjusted for any changes resulting from the passage of time and revisions to either the timing or the amount of the original estimate of undiscounted cash flows. The asset retirement cost is to be capitalized to the related asset and amortized into earnings over time. Under this section, the Company has recognized estimated future net costs of well abandonment and site restoration, including removal of production facilities at the end of their useful life of \$10,494 (2004 - \$6,473).

Revenue recognition

Revenue from oil and gas operations is recognized in the accounts when oil and natural gas are shipped, title passes and collection of the sale is reasonably assured.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

Foreign currency translation

The Company's subsidiary is an integrated foreign operation and is translated into Canadian dollars using the temporal method. Monetary items are translated at the exchange rate in effect at the balance sheet date and non-monetary items are translated at historical exchange rates. Income and expense items are translated at the average exchange rate for the period. Translation gains and losses are reflected in the loss for the year.

Stock-based compensation

The Company uses the fair value based method of accounting for all stock-based compensation to employees and non-employees. Any consideration paid by the option holders to purchase shares is credited to capital stock.

Income taxes

The Company follows the asset/liability method of accounting for income taxes. Future income tax assets and liabilities are determined based on the differences between the tax basis of assets and liabilities and those reported in the financial statements. The future tax assets or liabilities are calculated using the tax rates for the periods in which the differences are expected to be settled. Future tax assets are recognized to the extent that they are considered more likely than not to be realized.

Loss per share

The Company uses the treasury stock method to compute the dilutive effect of options, warrants and similar instruments. Under this method the dilutive effect on earnings per share is recognized on the use of the proceeds that could be obtained upon exercise of options, warrants and similar instruments. It assumes that the proceeds would be used to purchase common shares at the average market price during the year. For loss per share the dilutive effect has not been computed as it proved to be anti-dilutive. At December 31, 2005, 2004 and 2003, the total number of potentially dilutive shares excluded from loss per share is 5,362,500, 4,644,559 and 9,687,059 respectively.

Loss per share is calculated using the weighted-average number of shares outstanding during the year.

Comparative figures

Certain comparative figures have been reclassified to conform with the current year's presentation.

PORTRUSH PETROLEUM CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in Canadian Dollars)
DECEMBER 31, 2005

3. OIL AND GAS PROPERTIES

The Company entered into agreements to acquire interests in various oil and gas properties as follows:

	2005	2004
Oil and gas properties:		
U.S.A., proved	\$ 2,708,708	\$ 2,612,495
Canada, unproved	104,464	149,560
	<u>2,813,172</u>	<u>2,762,055</u>
Less: Accumulated depletion	<u>(1,241,931)</u>	<u>(1,119,662)</u>
	<u>\$ 1,571,241</u>	<u>\$ 1,642,393</u>

At December 31, 2005, the oil and gas properties include \$104,464 (2004 - \$149,560) relating to unproved properties that have been excluded from the depletion calculation.

Ontario prospect, Canada

The Company entered into an agreement to acquire a 5% working interest in a prospect located in Ontario, Canada in exchange for funding 50% of the project costs by paying US\$120,000. The Company will receive a payout of all costs incurred plus a 5% working interest in the prospect.

Michigan and Wyoming, U.S.A.

The Company has a 22.5% working interest in a prospect located in Michigan, U.S.A. During the year ended December 31, 2003, the ceiling test calculation determined that the net book value of the Company's assets in the U.S.A. exceeded net future cash flows from proven reserves and, accordingly, the Company recorded a ceiling test write-down of \$319,950 included in accumulated depletion.

Texas, U.S.A.

The Company acquired a 10% working interest (7.5% net revenue interest) in certain oil and gas leases located in the Refugio and Goliad Counties, Texas, U.S.A. As consideration for its interest, the Company made staged payments totaling US\$1,044,000.

The full cost ceiling test results as of December 31, 2005 resulted in no impairment of evaluated oil and gas properties. The future prices used in the December 31, 2005 ceiling test are as follows:

	Natural Gas (Cdn \$/Mmbtu)	Oil (Cdn \$/Bbl)
2006	\$ 11.08	\$ 71.08
2007	10.87	69.67
2008	10.65	68.28
2009	10.42	66.88
2010	10.23	65.59

On December 7, 2005, the Company cancelled 103,125 common shares held that were held in escrow.

4. CAPITAL STOCK AND CONTRIBUTED SURPLUS (cont'd...)

During the year ended December 31, 2005, the Company issued the following common shares:

- i) 1,194,500 common shares pursuant to the exercise of stock options for proceed of \$179,175.
- ii) In September 2005, the Company issued 2,000,000 units at \$0.15 per unit for gross proceeds of \$300,000. Each unit consisted of one common share and one share purchase warrant exercisable at \$0.15 per share expiring September 14, 2007. The Company paid a finder's fee and other issuance costs of \$24,942.

During the year-ended December 31, 2004 the Company issued the following common shares:

- i) In June 2004, the Company issued 3,100,000 units at \$0.20 per unit for total proceeds of \$620,000. Each unit consisted of one common share and one non-transferable share purchase warrant. A total of eight warrants entitles the holder to acquire one additional common share for \$0.20 until June 2, 2006. The Company issued 225,000 common shares at a value of \$45,000 as a finder's fee.
- ii) In August 2004, the Company issued 1,500,000 shares at \$0.20 per share for total proceeds of \$300,000. The Company issued 93,750 common shares at a value of \$18,750 as a finder's fee.
- iii) Issued 7,680,000 common shares pursuant to the exercise of warrants for proceeds of \$1,090,200 of which \$146,950 was received during the year ended December 31, 2003. The Company also issued 1,050,000 common shares pursuant to the exercise of stock options for proceeds of \$110,000.

During the year ended December 31, 2003 the Company issued the following common shares:

- i) In August 2003, issued 2,100,000 units at a price of \$0.10 per unit for total proceeds of \$210,000. Each unit consisted of one common share and one share purchase warrant entitling the holder to acquire one additional common share at \$0.10 until August 28, 2005. The share purchase warrants issued with this private placement have been recorded at a fair value of \$79,313 which is included in contributed surplus. The Company incurred share issuance costs of \$12,780 on the private placement which were allocated on a pro-rata basis between capital stock and contributed surplus.
- ii) In October 2003, the Company issued 2,037,059 units at a price of \$0.17 per unit for total proceeds of \$346,300. Each unit consisted of one common share and one share purchase warrant entitling the holder to acquire one additional common share at \$0.24 until October 14, 2005. The share purchase warrants issued with this private placement have been recorded at a fair value of \$125,736 which is included in contributed surplus. The Company incurred share issuance costs of \$36,444 on the private placement which were allocated on a pro-rata basis between capital stock and contributed surplus.
- iii) In November 2003, the Company issued 1,500,000 units pursuant to the conversion of debentures with an aggregate face value of \$180,000. Each unit consisted of one common share and one share purchase warrant entitling the holder to acquire one additional common share for \$0.12 until May 1, 2004 and thereafter for \$0.14 until May 1, 2005. The share purchase warrants issued with this conversion have been recorded at a fair value of \$63,561 which is included in contributed surplus. The Company incurred share issuance costs of \$7,300 on the conversion which were allocated on a pro-rata basis between capital stock and contributed surplus.

PORTRUSH PETROLEUM CORPORATION

DECEMBER 31, 2005

4. CAPITAL STOCK AND CONTRIBUTED SURPLUS (cont'd...)

Stock options

The Company has a stock option plan whereby, from time to time, at the discretion of the Board of Directors, stock options are granted to directors, officers and certain consultants enabling them to acquire up to 10% of the issued and outstanding common stock of the Company. The exercise price of each option is based on the market price of the Company's common stock at the date of the grant less an applicable discount. The options can be granted for a maximum term of 5 years and vest at the discretion of the Board of Directors.

The following incentive stock options and share purchase warrants were outstanding at December 31, 2005:

	Number of Shares	Exercise Price	Expiry Date
Options	1,795,000	\$ 0.15	April 5, 2006
	305,000	0.15	April 27, 2007
	100,000	0.15	August 11, 2007
	625,000	0.15	September 1, 2007
	150,000	0.15	December 15, 2007
Warrants	387,500	0.20	June 2, 2006
	2,000,000	0.15	September 14, 2007

Warrants and stock option transactions are summarized as follows:

	Warrants		Stock Options	
	Number	Weighted Average Exercise Price	Number	Weighted Average Exercise Price
Outstanding, December 31, 2002	8,100,000	\$ 0.27	1,500,000	\$ 0.13

(Expressed in Canadian Dollars)
DECEMBER 31, 2005

4. CAPITAL STOCK AND CONTRIBUTED SURPLUS (cont'd...)

Stock-based compensation

During the year ended December 31, 2005, the Company granted 1,349,500 (2004 – 3,300,000; 2003 - Nil) stock options to directors and consultants. The Company recognized \$75,193 (2004 - \$298,483; 2003 - \$Nil) in stock-based compensation expense, with a corresponding credit to contributed surplus on the balance sheet. The compensation recognized was calculated using the Black-Scholes option pricing model.

The following weighted average assumptions were used in the valuation of stock options granted:

	2005	2004
Risk-free interest rate	3.4%	2.4%
Expected life of options	2 years	2 years
Annualized volatility	81%	160%
Dividend rate	0.00%	0.00%

5. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

	2005	2004	2003
Cash paid during the year for interest	\$ -	\$ -	\$ -
Cash paid during the year for income taxes	\$ -	\$ -	\$ -

Significant non-cash transactions during the year ended December 31, 2005 included:

- a) The accrual of future site restoration costs of \$4,021.
- b) The cancellation of 103,125 escrow shares with a value of \$31,556.

The significant non-cash transactions during the year ended December 31, 2004 were the issuance of 318,750 common shares valued at \$63,750 for finders' fees on private placements.

Significant non-cash transactions during the year ended December 31, 2003 included:

- a) The issuance of 1,500,000 units pursuant to the conversion of debentures with an aggregate face value of \$180,000.
- b) The accrual of future site restoration costs of \$6,473.

PORTRUSH PETROLEUM CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in Canadian Dollars)
DECEMBER 31, 2005

6. RELATED PARTY TRANSACTIONS

The Company entered into the following transactions with related parties:

- a) Paid or accrued management fees of \$72,000 (2004 - \$72,000; 2003 - \$87,000) to directors.
- b) Paid or accrued rent of \$Nil (2004 - \$Nil; 2003 - \$4,000) to a director.

Amounts due to related parties are non-interest bearing, unsecured and have no specific terms of repayment.

Related party transactions are in the normal course of operations, occurring on terms and conditions that are similar to those of transactions with unrelated parties and, therefore, are measured at the exchange amount.

7. INCOME TAXES

A reconciliation of current income taxes at statutory rates with the reported taxes is as follows:

	2005	2004	2003
Loss for the year	\$ (160,248)	\$ (766,320)	\$ (746,498)
Expected income taxes (recovery)	\$ (54,794)	\$ (272,810)	\$ (280,683)
Non-deductible items for income tax purposes	56,503	43,410	225,479
Other items deductible for income tax purposes	(108,310)	(56,285)	(53,402)
Unrecognized benefits of non-capital losses	106,601	285,685	108,606
Actual income tax recovery	\$ -	\$ -	\$ -

The tax effects of temporary differences that give rise to significant components of future income tax assets and liabilities are as follows:

	2005	2004
Future income tax assets:		
Oil and gas properties	\$ 640,187	\$ 1,287,892
Mineral property and related exploration expenditures	91,371	95,334
Financing fees	32,959	68,279
Operating losses available for future periods	658,197	640,519
Capital losses available	252,741	527,409
	1,675,455	2,619,433
Valuation allowance	(1,675,455)	(2,619,433)
Net future income tax asset	\$ -	\$ -

7. INCOME TAXES (cont'd.....)

The Company has incurred operating losses of approximately \$1,929,064 in Canada which, if unutilized, will expire commencing 2015. Subject to certain restrictions, the Company also has capital losses and resource exploration expenditures available to reduce taxable income of future years. Future tax benefits which may arise as a result of these losses and resource deductions have not been recognized in these financial statements, as their realization is not judged likely to occur.

8. SEGMENT INFORMATION

All of the Company's operations are in the oil and gas industry and 100% of the revenues have been generated in the U.S.A.

The total amount of capital assets attributable to Canada is \$104,464 (2004 - \$149,560) and the total amount of capital assets attributable to the U.S.A. is \$1,466,777 (2004 - \$1,492,833).

9. FINANCIAL INSTRUMENTS

The Company's financial instruments consist of cash, receivables, accounts payable and accrued liabilities and due to related parties. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments. The fair value of these financial instruments approximates their carrying value, unless otherwise noted.

10. SUBSEQUENT EVENT

Subsequent to December 31, 2005, the Company issued 500,000 common shares for gross proceeds of \$75,000 pursuant to the exercise of stock options.

**11. DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY
ACCEPTED ACCOUNTING PRINCIPLES**

These consolidated financial statements have been prepared in accordance with generally accepted accounting principles in Canada ("Canadian GAAP"). Material variations in the accounting principles, practices and methods used in preparing these consolidated financial statements from principles, practices and methods accepted in the United States ("United States GAAP") are described and quantified below.

PORTRUSH PETROLEUM CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in Canadian Dollars)
DECEMBER 31, 2005

**11. DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY
ACCEPTED ACCOUNTING PRINCIPLES (cont'd...)**

Consolidated financial statement balances under United States GAAP

	2005	2004
Consolidated balance sheets		
Total assets under Canadian GAAP and United States GAAP	\$ 1,834,436	\$ 1,790,255
Total liabilities under Canadian GAAP and United States GAAP	\$ 116,188	\$ 441,185
Capital stock and contributed surplus under Canadian GAAP	13,736,270	13,206,844
Cumulative compensation expense on granting of stock options	759,296	759,296
Capital stock and contributed surplus under United States GAAP	14,495,566	13,966,140
Deficit under Canadian GAAP	(12,018,022)	(11,857,774)
Cumulative compensation expense on granting of stock options	(759,296)	(759,296)
Deficit under United States GAAP	(12,777,318)	(12,617,070)
Total shareholders' equity under United States GAAP	1,718,248	1,349,070
Total liabilities and shareholders' equity under United States GAAP	\$ 1,834,436	\$ 1,790,255

The impact of the differences between Canadian GAAP and United States GAAP do not materially affect the consolidated statements of operations and cash flows.

**11. DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY
ACCEPTED ACCOUNTING PRINCIPLES (cont'd...)**

Oil and gas properties

Under both United States and Canadian GAAP, property, plant and equipment must be assessed for potential impairment.

Under Canadian GAAP, a ceiling test is applied to ensure that capitalized costs for oil and gas properties and equipment do not exceed the sum of estimated undiscounted, future net revenues from proven reserves less the cost incurred or estimated to develop those reserves, interest and general and administration costs, and an estimate for restoration costs and applicable taxes. Effective January 1, 2004, the CICA implemented a new pronouncement on impairment of long-lived assets, which required the impairment loss as a result of the ceiling test to be measured as the amount by which the carrying amount of the asset exceeds the expected future cash flows discounted using a risk free interest rate.

Under United States GAAP, costs accumulated in each cost center are limited to an amount equal to the present value, discounted at 10%, of the estimated future net operating revenues from proved reserves, net of restoration costs and income taxes. Under United States GAAP an additional ceiling test write-down was not required as at December 31, 2005, 2004 and 2003.

Stock-based compensation

Under United States GAAP, Statement of Financial Accounting Standards No. 123, "Accounting for Stock-based Compensation ("SFAS 123") recommends, but does not require, companies to establish a fair market value based method of accounting for stock-based compensation plans. The Company has elected for the years ended December 31, 2005, 2004 and 2003 to account for stock-based compensation using SFAS 123. Accordingly, compensation cost for stock options is measured at the fair value of options granted.

For the year ended December 31, 2002, the Company elected to account for stock-based compensation using Accounting Principles Board Opinion No. 25 "Accounting for Stock Issued to Employees". Accordingly, compensation cost for stock options was measured as the excess, if any, of the quoted market price of the Company's stock at the date of grant over the option price. Since stock options are granted at exercise prices that are at or above the quoted market value of the Company's common shares at the date of grant, there was no compensation costs to be recognized by the Company. All the options granted and repriced during the year ended December 31, 2002 were fully vested on grant.

Under Canadian GAAP, the Company accounts for stock based compensation as disclosed in Note 2. Accordingly, there is no difference between Canadian GAAP and United States GAAP on the accounting for stock-based compensation for the years ended December 31, 2005, 2004 and 2003.

Loss per share

Under both Canadian GAAP and United States GAAP basic loss per share is calculated using the weighted average number of common shares outstanding during the year.

**11. DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY
ACCEPTED ACCOUNTING PRINCIPLES (cont'd...)**

Loss per share (cont'd...)

Under United States GAAP, the weighted average number of common shares outstanding excludes any shares that remain in escrow, but may be earned out based on the Company incurring a certain amount of exploration and development expenditures. The weighted average number of shares outstanding under United States GAAP for the years ended December 31, 2005, 2004 and 2003 was 41,476,215, 33,755,501 and 22,132,652, respectively. Accordingly, the loss per share for the years ended December 31, 2005, 2004 and 2003 was \$(0.00), \$(0.02) and \$(0.03), respectively.

Asset retirement obligations

Under United States GAAP, Statement of Financial Accounting Standards No. 143, "Accounting for Asset Retirement Obligations" requires companies to record the fair value of the liability for closure and removal costs associated with the legal obligations upon retirement or removal of any tangible long-lived assets. Under this standard, the initial recognition of the liability is capitalized as part of the asset cost and depreciated over its estimated useful life.

Under Canadian GAAP, the Company was required to record asset retirement obligations as at December 31, 2005 for estimated future net costs of well abandonment and site restoration including removal of production facilities at the end of their useful life of \$10,494 (2004 - \$6,473). New accounting and disclosure standards were introduced under Canadian GAAP (Note 2) and adopted by the Company effective January 1, 2003. Accordingly, there is no difference between Canadian GAAP and United States GAAP as at December 31, 2005 and 2004.

New accounting pronouncements

In December 2004, FASB issued Statement of Financial Accounting Standards No. 153, "Exchanges of Non-Monetary Assets – an amendment of APB Opinion No. 29" ('SFAS 153'), which amends Accounting Principles Board Opinion No. 29, "Accounting for Non-monetary Transactions", to eliminate the exception for non-monetary exchanges of similar productive assets and replaces it with a general exception for exchanges of non-monetary assets that do not have commercial substance. A non-monetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. SFAS 153 is effective for non-monetary asset exchanges occurring in fiscal periods beginning after June 15, 2005.

In December 2004, FASB issued Statement of Financial Accounting Standards No. 123R, "Share Based Payment" ('SFAS 123R'). SFAS 123R supersedes APB 25 and its related implementation guidance by requiring entities to recognize the cost of employee services received in exchange for awards of equity instruments based on the grant date fair value of those awards (with limited exceptions) and revises SFAS 123 as follows:

**11. DIFFERENCES BETWEEN CANADIAN AND UNITED STATES GENERALLY
ACCEPTED ACCOUNTING PRINCIPLES (cont'd...)**

New accounting pronouncements (cont'd...)

- i. Public entities are required to measure liabilities incurred to employees in share-based payment transactions at fair value and non-public entities may elect to measure their liabilities to employees incurred in share-based payment transactions at their intrinsic value, whereas under SFAS 123 all share based payment liabilities were measured at their intrinsic value.
- ii. Non-public entities are required to calculate fair value using an appropriate industry sector index for the expected volatility of its share price, if it is not practicable to estimate the expected volatility of the entity's share price.
- iii. Entities are required to estimate the number of instruments for which the requisite service is expected to be rendered as opposed to accounting for forfeitures as they occur.
- iv. Incremental compensation cost for a modification of the terms or conditions of an award is measured by comparing the fair value of the modified award with the fair value of the award immediately before the modification, whereas SFAS 123 required that the effect of a modification be measured as the difference between the fair value of the modified award at the date it is granted and the award's value immediately before the modification, determined based on the shorter of (1) its remaining initially estimated expected life or (2) the expected life of the modified award.

SFAS 123R also clarifies and expands guidance in several areas, including measuring fair value, classifying an award as equity or a liability and attributing compensation cost to reporting periods. SFAS 123R does not change the accounting guidance for share-based payment transactions with parties other than employees provided in SFAS 123 as originally issued in EITF 96-18. SFAS 123R also does not address the accounting for employee share ownership plans which are subject to Statement of Position 93-6, "Employers' Accounting for Employee Stock Ownership Plans". Public entities (other than those filing as small business issuers) will be required to apply SFAS 123R as of the first annual reporting period that begins after June 15, 2005. Public entities that file as small business issuers will be required to apply SFAS 123R in the first annual reporting period that begins after December 15, 2005. For non-public entities, SFAS 123R must be applied as of the beginning of the first annual reporting period beginning after December 15, 2005.

In May 2005, FASB issued Statement of Financial Accounting Standards No. 154, "Accounting Changes and Error Corrections - A Replacement of APB Opinion 20 and FASB Statement 3" (SFAS 154). SFAS 154 requires retrospective application to prior periods' financial statements for changes in accounting principle. SFAS 154 also requires that a change in depreciation, amortization, or depletion method for long-lived, non-financial assets be accounted for as a change in accounting estimate affected by a change in accounting principle. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005.

The adoption of these new pronouncements is not expected to have a material effect on the Company's consolidated financial position or results of operations.
