FPIC Insurance Group, Inc.
REPORTS SECOND QUARTER 2009 RESULTS

JACKSONVILLE, Fla. (Business Wire) – August 5, 2009 – FPIC Insurance Group, Inc. (“FPIC” or the “Company”) (NASDAQ: FPIC) reported for the second quarter of 2009:

- operating earnings⁽¹⁾ of \$8.2 million, or \$1.09 per diluted common share, as compared to \$10.3 million, or \$1.16 per diluted common share, for the second quarter of 2008; and
- net income of \$9.2 million, or \$1.22 per diluted common share, as compared to \$10.3 million, or \$1.16 per diluted common share, for the second quarter of 2008.

For the six months ended June 30, 2008, FPIC reported:

- operating earnings of \$16.6 million, or \$2.16 per diluted common share, as compared to \$21.2 million, or \$2.35 per diluted common share, for the first six months of 2008; and
- net income of \$17.6 million, or \$2.29 per diluted common share, as compared to \$21.2 million, or \$2.34 per diluted common share, for the first six months of 2008.

(1) To supplement the consolidated financial information presented herein in accordance with accounting principles generally accepted in the United States of America (“GAAP”), we report operating earnings and certain other non-GAAP financial measures widely used in the insurance industry to assist in evaluating financial performance over time. For additional information and reconciliation to GAAP results, see the section entitled **Non-GAAP Financial Measures**, found later in this press release.

“Our second quarter financial results, including our strong operating earnings per share and significant book value growth, demonstrate our unwavering focus on achieving sustainable shareholder value,” said John R. Byers, President and Chief Executive Officer. “We also continued to achieve excellent retention of existing business and to grow our policyholder base during the quarter. These results reflect our ongoing commitment to and the success of our business strategies.”

Other Unaudited Financial and Operational Highlights for Second Quarter 2009

(as compared to second quarter 2008 unless otherwise indicated)

- Our policyholder retention was 95 percent on a national basis and 96 percent in Florida as of June 30, 2009 and 2008.
- Our professional liability policyholders, excluding alternative risk arrangements, increased 5 percent to 13,999 policyholders as of June 30, 2009 from 13,316 policyholders as of June 30, 2008.

- During the quarter, we recognized \$5.0 million in favorable prior year reserve development compared to \$4.0 million in second quarter 2008. The resulting calendar year loss ratio was 57.7 percent for the second quarter 2009 compared to 58.2 percent for 2008.
- Consolidated revenues were 9 percent lower primarily as the result of lower Florida premium rates, as well as lower net investment income.
- Lower rates in our Florida market and changes in business mix, offset to some extent by growth in professional liability policyholders, resulted in a 15 percent decline in net premiums written.
- Net investment income was 6 percent lower as a result of a decrease in average invested assets and a lower yield on cash and cash equivalents partially offset by a slight increase in the average yield on fixed income securities.
- Our expense ratio was 26.5 percent compared to 21.7 percent for 2008. The higher ratio was primarily due to lower net premiums earned, as well as a lesser impact from the recovery of previous insurance guaranty fund assessments.
- Book value per common share grew 11 percent from December 31, 2008 to \$37.04 as of June 30, 2009. The statutory surplus of our insurance subsidiaries as of June 30, 2009 was \$236.0 million and the ratio of net premiums written to surplus was 0.6 to 1.
- In July 2009, our Board of Directors approved a 500,000 share increase in our share repurchase program. On a trade date basis, we repurchased 378,644 shares of our common stock during the three months ended June 30, 2009 at an average price of \$31.22 per share. Through July 31, 2009, we have repurchased an additional 135,496 shares of our common stock at an average price of \$31.21 per share, and had remaining authority from our Board of Directors to repurchase an additional 623,474 shares as of that date.
- On July 30, 2009, we announced a definitive agreement to acquire Advocate, MD Financial Group Inc., which through its subsidiary is the fourth largest provider of medical professional liability insurance in Texas.

Cautionary Statement Regarding Forward-Looking Statements

This press release contains forward-looking statements that involve risks and uncertainties, as well as assumptions that, if they do not materialize or prove correct, could cause our results to differ materially from those expressed or implied by such forward-looking statements. Such statements are made in reliance upon the safe harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical fact are statements that could be deemed forward-looking statements, including statements: of our plans, strategies and objectives for future operations; concerning new products, services or developments; regarding future economic conditions, performance or outlook; as to the outcome of contingencies; of beliefs or expectations; and of assumptions underlying any of the foregoing. Forward-looking statements may be identified by their use of forward-looking terminology, such as “believes,” “expects,” “may,” “should,” “would,” “will,” “intends,” “plans,” “estimates,” “anticipates,” “projects” and similar words or expressions. You should not place undue reliance on these forward-looking statements, which reflect our management’s opinions only as of the date of this press release.

Factors that might cause our results to differ materially from those expressed or implied by the forward-looking statements contained in this press release include, but are not limited to:

- i) The effect of negative developments and cyclical changes in the medical professional liability insurance business;
- ii) The effects of competition, including competition for agents to place insurance, of physicians electing to self-insure or to practice without insurance coverage, and of related trends and associated pricing pressures and developments;
- iii) Business risks that result from our size, products, and geographic concentration;
- iv) The risks and uncertainties involved in determining the rates we charge for our products and services, as well as these rates being subject to or mandated by legal requirements and regulatory approval;
- v) The actual amount of our new and renewal business;
- vi) The uncertainties involved in the loss reserving process, including the possible occurrence of insured losses with a frequency or severity exceeding our estimates;
- vii) The unpredictability of court decisions and our exposure to claims for extra contractual damages and losses in excess of policy limits;
- viii) Developments in financial and securities markets that could affect our investment portfolio;
- ix) Legislative, regulatory or consumer initiatives that may adversely affect our business, including initiatives seeking to lower premium rates;
- x) The passage of additional or repeal of current tort reform measures, and the effect of such measures;
- xi) Assessments imposed by state financial guaranty associations or other insurance regulatory bodies;
- xii) Developments in reinsurance markets that could affect our reinsurance programs or our ability to collect reinsurance recoverables;
- xiii) The loss of the services of any key members of senior management;

- xiv) Changes in our financial ratings resulting from one or more of these uncertainties or other factors and the potential impact on our agents' ability to place insurance business on our behalf; and
- xv) The completion of the acquisition of Advocate, MD Financial Group Inc.;
- xvi) Other factors discussed in our Annual Report on Form 10-K for the year ended December 31, 2008, including *Item 1A. Risk Factors* and *Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations*, filed with the Securities and Exchange Commission ("SEC") on March 4, 2009, and other factors discussed in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2009 filed with the SEC on August 5, 2009.

Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of their dates. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Non-GAAP Financial Measures

To supplement the consolidated financial information presented herein in accordance with GAAP, we report certain non-GAAP financial measures widely used in the insurance industry to evaluate financial performance over time. Operating earnings is a non-GAAP financial measure used by investors and analysts in the insurance sector to facilitate understanding of results by excluding: (i) the net effects of realized capital gains and losses, which are more closely tied to the financial markets; (ii) the cumulative effects of accounting changes and other infrequent or non-recurring items, which can affect comparability across reporting periods; and (iii) discontinued operations. Tangible book value is another non-GAAP financial measure used by investors and analysts to gauge book values excluding goodwill and other intangible assets.

The presentation of non-GAAP financial information is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. For more information on these non-GAAP financial measures, see the tables below the caption "Reconciliation of Non-GAAP Measures to the Nearest Comparable GAAP Measures," provided later in this release. We believe that these non-GAAP financial measures provide meaningful supplemental information regarding our performance and allow for greater transparency with respect to supplemental information used by us in our financial and operational decision-making.
