President's Letter

June 30, 2005

DEAR SHAREHOLDER:

Enclosed is our report on your Fund's operations for the 12 months ended June 30, 2005. The 12-month period saw solid results for most investors. Stocks ended the period higher, with the S&P 500 returning 6.33 percent. Bonds overall, also, showed good results, with the Citigroup Broad Investment Grade Index rising 7.00 percent over the past 12 months.

Economic fundamentals were quite good. Corporate earnings remained solid. Gross domestic product (GDP) in the United States averaged 4 percent annualized growth through 2004, 3.8 percent in the first quarter of 2005, and estimates for the second calendar quarter of 2005 are for growth at 3 to 3.5 percent. Despite rising financial markets, investors generally remained cautious, bothered apparently by rising energy prices and interest rates, the potential for accelerating inflation, and a declining U.S. dollar.

The Federal Reserve initiated a series of increases in short-term interest rates during the period. The Fed enacted five quarter-point increases in the last half of calendar 2004 and four more between January and June of 2005, taking short-term rates from a very low level of 1 percent up to 3.25 percent. Recent public statements by the Federal Reserve indicate that additional increases may be forthcoming.

Despite the rising short-term interest rates and higher oil prices, we continue to feel the economy is doing quite well. Real economic growth of around 3 percent for the rest of calendar 2005, with a nominal growth (after inflation) of around 6 percent, seems likely, in our view. History suggests that corporate profits tend to grow in line with growth in the economy, and stocks generally follow the growth in profits. It now appears that S&P 500 profits could potentially rise in the area of 10 percent for all of 2005. Equities have been sluggish in the first six months of 2005, actually down slightly. We believe that some catch-up with profit growth appears probable.

Regardless of short-term setbacks brought on by economic or geopolitical events – and although past performance is no guarantee of future results – stocks have historically continued to rise over time. And, through appropriate diversification, you can potentially provide more balance to your portfolio over time.

Your financial advisor can help you with these strategies and work with you to develop and maintain a customized investment plan based on your individual situation. We believe that focusing on that plan, despite the swings of the market, is important as you work toward a sound financial future.

Thank you for your partnership and your continued commitment to your investment program.

Respectfully,

A handwritten signature in black ink, reading "Henry J. Herrmann". The signature is fluid and cursive, with a long horizontal flourish extending to the right.

Henry J. Herrmann, CFA
President

Manager's Discussion of International Growth Fund

June 30, 2005

An interview with Thomas A. Mengel, portfolio manager of Waddell & Reed Advisors International Growth Fund, Inc.

The following discussion, graphs and tables provide you with information regarding the Fund's performance for the fiscal year ended June 30, 2005.

How did the Fund perform during the last fiscal year?

The Fund showed a positive return for the period, but lagged its benchmark index. The Class A shares of the Fund increased 8.86 percent for the year (before the impact of any sales charges). In comparison, the Morgan Stanley Capital International EAFE Index (generally reflecting the performance of securities that represent the international equity markets) increased 13.66 percent during the year, and the Lipper International Large-Cap Core Funds Universe Average (reflecting the performance of the universe of funds with similar objectives) increased 11.26 percent. Please note that the Fund returns include applicable fees and expenses, whereas the index returns do not include any such fees.

Why did the Fund lag its benchmark index during the fiscal year?

We believe that our stock selection was the biggest factor, as specific holdings negatively impacted performance for the fiscal year. Fund performance was particularly hurt by an overweight position in consumer-discretionary stocks in Europe, where domestic demand has been slow to recover.

What other market conditions or events influenced the Fund's performance during the fiscal year?

Financial markets were faced with sharp increases in energy prices during the fiscal year, as well as rising interest rates in the United States and several foreign countries. There were also periods of uncertainty over China's ability to manage its industrial expansion. Foreign equity markets recovered late in 2004, but trended lower again by March of 2005, as slower economic growth became evident in most industrialized countries. During this time, however, economic growth remained impressive in both the United States and China, providing a stable framework for global demand. In recent months, most equity markets began to rebound, as bond prices rallied on the expectation of moderate but non-inflationary global growth.

What strategies and techniques did you employ that specifically affected the Fund's performance?

Early in the fiscal year, the Fund was overweight in consumer-related shares, particularly discretionary spending selections in continental Europe, where domestic demand has been sluggish for several years.

Corporate labor reform continues to reduce German business costs while boosting profitability, but workers continue to be impacted by stagnant wages and a weak hiring environment.

What industries or sectors did you emphasize during the fiscal year, and what looks attractive to you going forward?

While the Fund was overweight in consumer sectors early in the fiscal year, its exposure to materials and industrials was quite limited. However, by the middle of the fiscal year, our sector weights were adjusted to be much closer to benchmark levels, with the exception of a moderate overweight position in energy. As crude oil prices continued to move higher, we established this moderate overweight position in the energy sector on the premise that high energy prices appear to

be well-supported by fundamentals and are likely to stay high for a protracted period of time.

In terms of country selections, we have maintained our overweight positions in areas of Europe, such as Switzerland and Germany, that we believe have been economically weak countries but now are experiencing improved export growth aided by weaker currencies. German manufacturing companies continue what we view as impressive cost-cutting activities associated with labor reform. Our British exposure remains significantly underweight, as we feel that a strong currency may limit export growth, and the combination of higher interest rates and falling home prices threatens to further dampen consumer sentiment and spending plans, in our opinion. Japanese exposure remains about neutral with the benchmark, in response to stable domestic demand and market sentiment.

The Fund's performance noted above is at net asset value (NAV), and does not include the effect of any applicable sales charges. If reflected, the sales charge would reduce the performance noted.

The opinions expressed in this report are those of the portfolio manager and are current only through the end of the period of the report as stated on the cover. The manager's views are subject to change at any time based on market and other conditions, and no forecasts can be guaranteed.

- (2) Data quoted is past performance and is based on deduction of the maximum applicable sales load for each of the periods. Current performance may be lower or higher. Past performance is no guarantee of future results. Investment return and principal value of an investment will fluctuate and shares, when redeemed, may be worth more or less than their original cost. Please visit www.waddell.com for the Fund's most recent month-end performance. Class A shares carry a maximum front-end sales load of 5.75%. Class B and Class C shares carry maximum contingent deferred sales charges (CDSC) of 5% and 1%, respectively. (Accordingly, the Class C shares reflect no CDSC since it only applies to Class C shares redeemed within twelve months after purchase.) Class Y shares are not subject to sales charges.

- (3) 10-4-99 for Class B shares, 10-5-99 for Class C shares and 9-27-95 for Class Y shares (the date on which shares were first acquired by shareholders).

Past performance is not necessarily indicative of future performance. Indexes are unmanaged. The performance graph and table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares.

Illustration of Fund Expenses

INTERNATIONAL GROWTH FUND

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, redemption fees and exchange fees; and (2) ongoing costs, including management fees, distribution and service fees, and other Fund expenses. The following table is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the six-month period ended June 30, 2005.

Actual Expenses

The first line for each share class in the following table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, a \$7,500 account value divided by \$1,000 = 7.5), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period. There may be additional fees charged to holders of certain accounts that are not included in the expenses shown in the table. These fees apply to Individual Retirement Accounts (IRAs), IRA Rollovers, Roth IRAs, Conversion Roth IRAs, Simplified Employee Pension (SEP), Simple IRAs, Tax-Sheltered Accounts (TSAs), Keogh Plans, Owner Only 401(k) (Exclusive K) Plans and Final Pay Plans. As of the close of the six months covered by the table, a customer is charged an annual fee of \$15 within each plan type. This fee is waived for IRA Rollovers and Conversion Roth IRAs if the customer owns another type of IRA. Coverdell Education Savings Account plans are charged an annual fee of \$10 per customer. You should consider the additional fees that were charged to your Fund account over the six-month period when you estimate the total ongoing expenses paid over the period and the impact of these fees on your ending account value as such additional expenses are not reflected in the information provided in the expense table. Additional fees have the effect of reducing investment returns.

Hypothetical Example for Comparison Purposes

The second line for each share class of the following table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds. Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees or exchange fees. Therefore, the second line of each share class in the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Fund Expenses

For the Six Months Ended June 30, 2005	Beginning Account Value 12-31-04	Ending Account Value 6-30-05	Annualized Expense Ratio Based on the Six-Month Period	Expenses Paid During Period*
Based on Actual Fund Return⁽¹⁾				
Class A	\$1,000	\$ 981	1.61%	\$ 7.90
Class B	1,000	975	2.88	14.08
Class C	1,000	976	2.63	12.88
Class Y	1,000	984	1.09	5.38
Based on 5% Return⁽²⁾				
Class A	\$1,000	\$1,017	1.61%	\$ 8.05
Class B	1,000	1,011	2.88	14.34
Class C	1,000	1,012	2.63	13.12
Class Y	1,000	1,019	1.09	5.47

*Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 181 days in the six-month period ended June 30, 2005, and divided by 365.

(1) This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the fourth column.

(2) This section uses a hypothetical 5% return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

The above illustration is based on ongoing costs only and does not include any transactional costs, such as sales loads, redemption fees or exchange fees.

Notes to Financial Statements

NOTE 1 – Significant Accounting Policies

Waddell & Reed Advisors International Growth Fund, Inc. (the Fund) is registered under the Investment Company Act of 1940 as a diversified, open-end management investment company. Its investment objective is long-term appreciation. Realization of income is a secondary goal. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

- A. Security valuation** – Each stock and convertible bond is valued at the latest sale price thereof on each business day of the fiscal period as reported by the principal securities exchange on which the issue is traded or, if no sale is reported for a stock, the average of the latest bid and asked prices. Bonds, other than convertible bonds, are valued using a pricing system provided by a pricing service or dealer in bonds. Convertible bonds are valued using this pricing system only on days when there is no sale reported. Stocks which are traded over-the-counter are priced using the Nasdaq Stock Market, which provides information on bid and asked prices quoted by major dealers in such stocks. Restricted securities and securities for which quotations are not readily available or are deemed not to be reliable because of significant events or circumstances identified between the closing of their principal markets and the closing of the New York Stock Exchange are valued at fair value as determined in good faith under procedures established by and under the general supervision of the Fund's Board of Directors. Short-term debt securities are valued at amortized cost, which approximates market value.
- B. Security transactions and related investment income** – Security transactions are accounted for on the trade date (date the order to buy or sell is executed). Securities gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recorded as soon as the Fund is informed of the ex-dividend date. Interest income is recorded on the accrual basis. See Note 3 – Investment Securities Transactions.
- C. Foreign currency translations** – All assets and liabilities denominated in foreign currencies are translated into U.S. dollars daily. Purchases and sales of investment securities and accruals of income and expenses are translated at the rate of exchange prevailing on the date of the transaction. For assets and liabilities other than investments in securities, net realized and unrealized gains and losses from foreign currency translations arise from changes in currency exchange rates. The Fund combines fluctuations from currency exchange rates and fluctuations in market value when computing net realized and unrealized gain or loss from investments.
- D. Forward foreign currency exchange contracts** – A forward foreign currency exchange contract (Forward Contract) is an obligation to purchase or sell a specific currency at a future date at a fixed price. Forward Contracts are "marked-to-market" daily at the applicable translation rates and the resulting unrealized gains or losses are reflected in the Fund's financial statements. Gains or losses are realized by the Fund at the time the Forward Contract is extinguished. Contracts may be extinguished either by entry into a closing transaction or by delivery of the currency. Risks may arise from the possibility that the other party will not complete the obligations of the contract and from unanticipated movements in the value of the foreign currency relative to the U.S. dollar. The Fund uses Forward Contracts to attempt to reduce the overall risk of its investments.

E. Federal income taxes – It is the Fund's policy to distribute all of its taxable income and capital gains to its shareholders and otherwise qualify as a regulated investment company under Subchapter M of the Internal Revenue Code. In addition, the Fund intends to pay distributions as required to avoid imposition of excise tax. Accordingly, provision has not been made for Federal income taxes. See Note 4 – Federal Income Tax Matters.

F. Dividends and distributions – Dividends and distributions to shareholders are recorded by the Fund on the business day following record date. Net investment income dividends and capital gains distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences are due to differing treatments for items such as deferral of wash sales and post-October losses, foreign currency transactions, net operating losses and expiring capital loss carryovers. At June 30, 2005, \$942,451 was reclassified between accumulated undistributed net investment income and accumulated undistributed net realized loss. Net investment income, additional paid-in capital and net assets were not affected by this change.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

NOTE 2 – Investment Management and Payments to Affiliated Persons

Waddell & Reed Investment Management Company (WRIMCO), a wholly owned subsidiary of Waddell & Reed, Inc. (W&R), serves as the Fund's investment manager. The Fund pays a fee for investment management services. The fee is computed and paid daily based on the net asset value at the close of business. The fee is payable by the Fund at the annual rates of: 0.85% of net assets up to \$1 billion, 0.83% of net assets over \$1 billion and up to \$2 billion, 0.80% of net assets over \$2 billion and up to \$3 billion, and 0.76% of net assets over \$3 billion.

The Fund has an Accounting Services Agreement with Waddell & Reed Services Company (WRSCO), a wholly owned subsidiary of W&R. Under the agreement, WRSCO acts as the agent in providing accounting services and assistance to the Fund and pricing daily the value of shares of the Fund. For these services, the Fund pays WRSCO a monthly fee of one-twelfth of the annual fee shown in the following table.

Accounting Services Fee	
Average Net Asset Level (in millions)	Annual Fee Rate for Each Level
From \$ 0 to \$ 10	\$ 0
From \$ 10 to \$ 25	\$ 11,500
From \$ 25 to \$ 50	\$ 23,100
From \$ 50 to \$ 100	\$ 35,500
From \$ 100 to \$ 200	\$ 48,400
From \$ 200 to \$ 350	\$ 63,200
From \$ 350 to \$ 550	\$ 82,500
From \$ 550 to \$ 750	\$ 96,300
From \$ 750 to \$1,000	\$121,600
\$1,000 and Over	\$148,500

In addition, for each class of shares in excess of one, the Fund pays WRSCO a monthly per-class fee equal to 2.5% of the monthly accounting services base fee.

The Fund also pays monthly a fee at the annual rate of 0.01% or one basis point for the first \$1 billion of net assets with no fee charged for net assets in excess of \$1 billion.

For Class A, Class B and Class C shares, the Fund pays WRSCO a monthly per account charge for shareholder servicing of \$1.5292 for each shareholder account which was in existence at any time during the prior month. With respect to Class Y shares, the Fund pays WRSCO a monthly fee at an annual rate of 0.15% of the average daily net assets of the class for the preceding month. The Fund also reimburses W&R and WRSCO for certain out-of-pocket costs for all classes.

As principal underwriter for the Fund's shares, W&R received gross sales commissions for Class A shares (which are not an expense of the Fund) of \$662,323. A contingent deferred sales charge (CDSC) may be assessed against a shareholder's redemption amount of Class A, Class B and Class C shares and is paid to W&R. During the period ended June 30, 2005, W&R received \$83, \$39,485 and \$513 in CDSC for Class A, Class B and Class C shares, respectively. With respect to Class A, Class B and Class C shares, W&R paid sales commissions of \$397,783 and all expenses in connection with the sale of Fund shares, except for registration fees and related expenses.

Under a Distribution and Service Plan for Class A shares adopted by the Fund pursuant to Rule 12b-1 under the Investment Company Act of 1940, the Fund may pay a distribution and/or service fee to W&R in an amount not to exceed 0.25% of the Fund's Class A average annual net assets. The fee is to be paid to reimburse W&R for amounts it expends in connection with the distribution of the Class A shares and/or provision of personal services to Fund shareholders and/or maintenance of shareholder accounts.

Under the Distribution and Service Plan adopted by the Fund for Class B and Class C shares, respectively, the Fund may pay W&R a service fee of up to 0.25%, on an annual basis, of the average daily net assets of the class to compensate W&R for providing services to shareholders of that class and/or maintaining shareholder accounts for that class and a distribution fee of up to 0.75%, on an annual basis, of the average daily net assets of the class to compensate W&R for distributing the shares of that class. The Class B Plan and the Class C Plan each permit W&R to receive compensation, through the distribution and service fee, respectively, for its distribution activities for that class, which are similar to the distribution activities described with respect to the Class A Plan, and for its activities in providing personal services to shareholders of that class and/or maintaining shareholder accounts of that class, which are similar to the corresponding activities for which it is entitled to reimbursement under the Class A Plan.

The Fund paid Directors' regular compensation of \$44,369, which are included in other expenses. The Fund pays Frederick Vogel III additional compensation for his service as lead independent director. For the fiscal year ended June 30, 2005, that amount was \$521.

W&R is a subsidiary of Waddell & Reed Financial, Inc., a public holding company, and a direct subsidiary of Waddell & Reed Financial Services, Inc., a holding company.

NOTE 3 – Investment Securities Transactions

The Board of Directors of Waddell & Reed Advisors International Growth Fund, Inc.

Each of the individuals listed below serves as a director for the Fund, and for the other portfolios within the Waddell & Reed Advisors Funds, Waddell & Reed InvestEd Portfolios, Inc. and W&R Target Funds, Inc. (the Advisors Fund Complex), except that Mr. Hechler is not a Director of W&R Target Funds, Inc. The Advisors Fund Complex, together with the Ivy Family of Funds, make up the Waddell & Reed Fund Complex. The Ivy Family of Funds consists of the portfolios in the Ivy Funds and Ivy Funds, Inc.

The interested directors are “interested” by virtue of their current or former engagement as officers of Waddell & Reed Financial, Inc. (WDR) or its wholly-owned subsidiaries, including the funds’ investment advisor, Waddell & Reed Investment Management Company (WRIMCO); the funds’ principal underwriter, Waddell & Reed, Inc. (W&R); and the funds’ transfer agent, Waddell & Reed Services Company (WRSCO), as well as by virtue of their personal ownership of shares of WDR. The other directors (more than a majority of the total number) are disinterested; that is, they are not employees or officers of, and have no financial interest in, WDR or any of its wholly-owned subsidiaries, including W&R, WRIMCO and WRSCO. Each Director serves an indefinite term, until he or she dies, resigns, is removed or becomes disqualified.
