Recent Results

Second-Quarter Highlights

- Double-digit top-line growth driven by:
 - Low- to mid-single digit rate increases and continued solid retention of commercial business
 - New business contribution reflected diligent account-based underwriting practices
- Sub-100% combined ratio:
 - Strong performance of core book of business reflected benefits of improving pricing environment and continued favorable prior-year reserve development
 - Significant reduction in catastrophe losses to a more normal level as unusually dry weather continues
 - Offset by 2 percentage point increase in expense ratio due to DAC accounting change
- Life insurance net written premiums increased more than 22%
- Net investment income rises as growth in invested assets more than offset decline in yield

Bringing to Each Regional Market:

- Expertise with “Main Street” businesses
- Disciplined underwriting
 - Underwriters average 19 years of industry experience
- Exceptional customer service
- Superior loss control services
- Fair and ethical claims handling
- Efficient and effective technology
- Strong agency relationships

Decentralized Underwriting and Marketing

Agency Philosophy

- Continually monitor agencies for compatibility
- Criteria: loss ratio, volume, relationship
- Seek “top three” position (as measured by direct premiums written)
- Competitive performance-based compensation

Agency Force (as of December 31, 2011)

- More than 1,300 independent agencies
- Average agency size: \$354,000
- Size of largest agency: \$7.5 million

Underwriting Strategies

- Non-renewing poor performing accounts
 - 2012 emphasis on identification and re-underwriting of selected business
 - Leveraging local market knowledge and technology
- Non-renewing higher cat risk accounts post 2011 storms
 - Updated exposure analysis
- Premium from top 20: \$90.1 million
- Premium from top 100: \$219.4 million

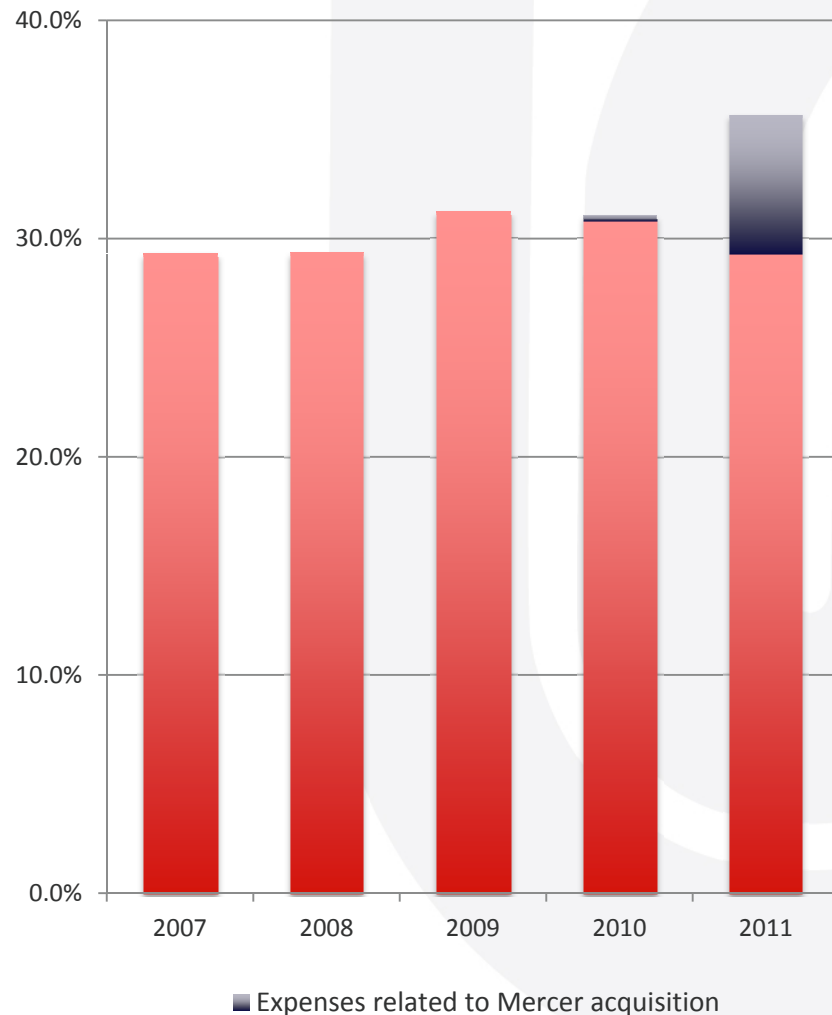

Claims and Back-Office Functions Centralized

Claims Philosophy

- FAIR claims service
- FAST claims service
- Use of outside adjusters is infrequent, allowing us to more closely control the adjusting function
- Conservative reserving practices lead to consistent loss reserve redundancies
- Employ top industry fraud predictive analytics technology

Claims and Back-Office Functions Centralized

Expense Ratio

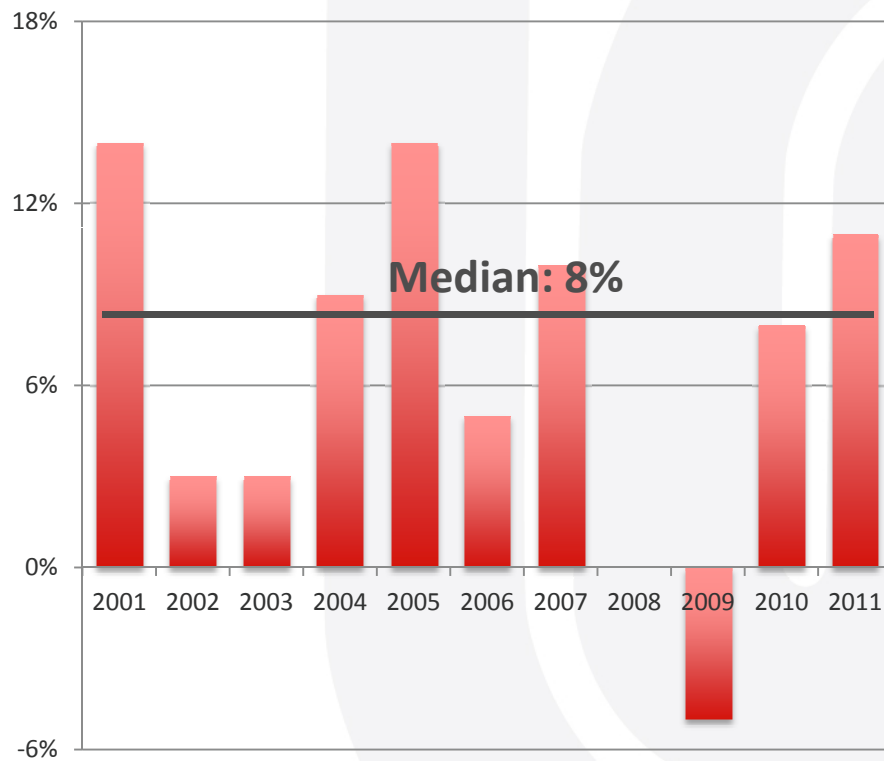

Technology

- Streamline how our agencies transact business with us
- Enable producers to efficiently provide their clients with a high level of service
- Enhance agency online inquiry capabilities
- Provide agencies with online reporting
- Continuous improvement objective
 - Feedback from agent technology board

Reserving

Net Reserve Redundancy (Deficiency)

Reserving Philosophies

- Historically reported loss redundancies
- Consistent reserving practices
- Reserve on a case basis with some pessimism
- Reserve for IBNR and LAE using actuarial methods

Exposure Management

Managing Catastrophe Exposure

- Lowered 100-year PML (average of RMS and AIR) despite expanded portfolio due to Mercer transaction
- Managing geographic exposures to reduce coastal and other risks
- Better utilizing operating structure
- Updated policy terms and conditions, e.g., wind deductibles

Reinsurance Programs

- 2012 catastrophe program
 - \$180 million excess of \$20 million retention
 - 95% excess of \$20 million
- 2012 core program
 - \$2 million retention
 - \$13 million per risk property coverage
 - \$38 million per occurrence casualty coverage

Ike	22.6	110.7	17.5	26.0

Notes on Modeled Losses

- Modeled loss from Katrina and Rita are based on UFG's June 2005 portfolio.
- Modeled loss from Ike and Gustav are based on UFG's September 2008 portfolio.
 - RiskLink v10 does not include Gustav and Ike in its historical event set. As a workaround, \$9.5M and \$22.6M were estimated based on a suite of stochastic events RMS provided for real-time analysis. According to RMS, these events represent the characteristics and damage of Gustav and Ike.
- Storm surge and loss amplification are included in the modeled loss.

Operating income is a commonly used Non-GAAP financial measure of net income excluding realized capital gains and losses and related federal income taxes. Because our calculation may differ from similar measures used by other companies, investors should be careful when comparing our measure of operating income to that of other companies. Management evaluates this measurement and ratios derived from this measurement because we believe it better represents the normal, ongoing performance of our businesses.
