EVP, Chief Financial Officer and Treasurer

FOR IMMEDIATE RELEASE

**TIB FINANCIAL CORP. REPORTS THIRD QUARTER NET INCOME
AND STRENGTHENING OF ITS RESERVE FOR LOAN LOSSES**

NAPLES, Fla. October 24, 2007 – TIB Financial Corp. (NASDAQ: TIBB), parent of TIB Bank and The Bank of Venice, leading community banks serving the greater Naples, Bonita Springs-Fort Myers area, Highlands County, South Miami-Dade County, the Florida Keys and Sarasota County, today reported net income from continuing operations for the quarter ended September 30, 2007 of \$494,000 compared to \$1.71 million reported for the second quarter of 2007 and \$2.44 million for the third quarter of 2006. On a per diluted share basis, earnings from continuing operations were \$0.04 for the third quarter of 2007, compared to \$0.14 for the second quarter of 2007 and \$0.21 per share for the third quarter of 2006.

In response to slowing economic activity and continued softness in residential real estate in its markets, which resulted in an increase in nonperforming loans, the Company strengthened its reserve for loan losses by recording a provision for loan losses of \$2.4 million during the current period compared to provisions of \$632,000 in the prior quarter and \$670,000 in the year ago quarter. The reserve for loan losses increased to \$11.61 million, or 1.05% of loans at September 30, 2007.

The higher provision for loan losses and the impact of income not recognized on nonperforming loans compared to the prior quarter reduced net income during the third quarter by approximately \$1.4 million, or \$0.11 per diluted share. Partially offsetting this effect was an after tax gain of approximately \$449,000, or \$0.03 per diluted share from the planned sale of an office building previously utilized in the Company's operations.

TIB Financial also reported total assets of \$1.40 billion as of September 30, 2007, representing 6% asset growth from December 31, 2006 and 11% asset growth from \$1.26 billion as of September 30, 2006. Total loans increased 6% to \$1.10 billion compared to \$1.04 billion a year ago, and increased 4% compared to \$1.06 billion at December 31, 2006. Total deposits of \$1.02 billion as of September 30, 2007 represent an increase of 5%, or \$47.4 million, from \$972.1 million a year ago while decreasing \$10.0 million from December 31, 2006.

TIB Financial's results of operations during 2007 include the operations of The Bank of Venice subsequent to its acquisition on April 30, 2007. As of September 30, 2007, the effect of the acquisition of The Bank of Venice increased total assets by \$74.7 million, total loans by \$56.8 million and total deposits by \$53.8 million.

"While we are certainly disappointed with our third quarter results, we are positive in our outlook on the future of TIB. We have been closely monitoring asset quality throughout the loan portfolios since this turbulent period began. In anticipation of possible increases in nonperforming assets and delinquencies, our management team has been taking appropriate action all along -- through analysis of our exposures, enhancement of collateral positions where possible and implementation of workout solutions," said Edward V. Lett, Chief Executive Officer and President .

"Of our current nonperforming loans, the majority are comprised of just a few relationships. We believe our strengthening of the reserve for loan losses reflects the overall heightened risk and uncertainty in our operating environment."

"Economic activity in our regional and local markets continues to slow as the much softer residential real estate market penetrates other facets of the economy. With the incremental operating challenges presented by a difficult interest rate environment and slowing economic activity, we anticipate increased opportunities for our well-positioned financial institution. Our experienced management team, time-tested risk management policies and procedures, and technological advantages and related infrastructure should enable us to weather these challenges and allow us to capitalize on opportunities for improved

returns.

“Contemporaneously, we continue to focus on cost containment, disciplined loan origination and continued active management of our cost of funds. Our containment activities include the reduction of leased office space, the sale of an office building no longer necessary for our operations and rightsizing the organization for our anticipated near term level of growth. We have addressed the rightsizing through a significant reduction in staffing, principally through attrition since the beginning of the year, and reduction of controllable operating expenses. During this period of slowed economic growth we are maintaining our disciplined underwriting standards and prudent risk assessment practices. Our efforts to manage our current and future funding costs by cultivating our more profitable and less rate sensitive multi-product customer relationships are apparent; however, the cost of this is a measured reduction of rate sensitive CD deposits and current replacement with lower cost wholesale funding,” said Lett.

Detailed Financial Discussion

The decrease in net income from continuing operations for the third quarter of 2007 compared to the third quarter of 2006 was primarily due to the increased provision for loan losses, higher operating expenses and a lower net interest margin.

Our increased provision for loan losses results from the continued contraction of residential real estate activity and the ripple effect on our local economies, as well as the increase in our nonperforming loans and delinquencies. Accordingly, we elevated certain quantitative and qualitative factors used in estimating our allowance for loan losses. Net charge offs increased to \$721,000 during the third quarter compared to \$394,000 during the second quarter of 2007. Charge offs in the second quarter were reduced by a recovery of approximately \$175,000 resulting from the sale of previously charged-off indirect loan balances to a third-party collector. Charge-offs in the current quarter are comprised principally of indirect auto loans. As of September 30, 2007, non-performing loans were \$16.57 million, or 1.5% of loans. The allowance for loan losses increased to \$11.61 million, or 1.05% of total loans, reflecting the excess of our provision for loan losses over net charge-offs for the period. Net charge-offs during the quarter represented 0.26% of average loans, an increase compared to 0.15% and 0.12% for the prior quarter and the third quarter of last year, respectively.

The tax equivalent net interest margin of 3.52% for the three months ended September 30, 2007 contracted in comparison with the 3.73% net interest margin reported during the second quarter of 2007. The contraction and the concomitant decrease in net interest income were primarily due to the increase in non-performing loans and the nonrecognition of interest income on these loans. Additionally, the net interest margin continues to be impacted by the challenging interest rate environment and highly competitive deposit pricing.

Non-interest income, which includes service charges, real estate fees and other operating income, totaled \$2.14 million for the third quarter of 2007, increasing 33% from the prior quarter and 32% from the third quarter of 2006. The increase is attributable to a \$702,000 gain recognized during the third quarter of 2007 from the disposition of an office building previously used in our operations.

Operating costs increased during the third quarter of 2007 as non-interest expense rose 15% to \$10.36 million compared to \$9.00 million for the third quarter of 2006. This increase includes \$663,000 of operating costs for The Bank of Venice. Due to the first quarter opening of our new TIB Bank headquarters and branch in Naples, Florida along with higher insurance and other occupancy costs and annual salary adjustments to reward and retain key employees, non-interest expense increased approximately 8% compared to the third quarter of last year. Compared to the previous quarter, excluding \$401,000 of operating expenses associated with The Bank of Venice, non-interest expense declined slightly.

During the third quarter of 2007, the Board of Directors of TIB Financial Corp. declared a quarterly cash dividend of \$0.06 per share on its common stock. The cash dividend was paid on October 10, 2007 to all TIB Financial Corp. common shareholders of record as of September 30, 2007. This dividend, when annualized, represents \$0.24 per share.

In August, the Board also authorized the repurchase of up to 400,000 shares of the Company's outstanding common stock. No shares were purchased during the third quarter.

About TIB Financial Corp.

Headquartered in Naples, Florida, TIB Financial Corp. is a growth-oriented financial services company with approximately \$1.4 billion in total assets and 19 full-service banking offices throughout the Florida Keys, Homestead, Naples, Bonita Springs,

Fort Myers, Venice and Sebring.

TIB Financial Corp., through its wholly owned subsidiaries, TIB Bank and The Bank of Venice, serves the personal and commercial banking needs of local residents and businesses in its market areas. The banks' experienced bankers are local community leaders, who focus on a relationship-based approach built around anticipating specific customer needs, providing sound advice and making timely decisions. To learn more about TIB Bank and The Bank of Venice, visit www.tibbank.com and www.bankofvenice.com, respectively.

Copies of recent news releases, SEC filings, price quotes, stock charts and other valuable information may be found on TIB's investor relations site at www.tibfinancialcorp.com. For more information, contact Edward V. Lett, Chief Executive Officer and President at (239) 263-3344, or Stephen J. Gilhooly, Executive Vice President and Chief Financial Officer, at (239) 659-5876.
