ALTERNA SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

ALTERNA SECURITIES, INC. (the “Company”), a Delaware corporation, is a wholly-owned subsidiary of Alterna Holdings, Inc. (the “Parent”). With effect from April 26, 2021, the name of the Company was changed from Actinver Securities, Inc. to Alterna Securities, Inc. The Company is registered as a broker-dealer with the Securities and Exchange Commission (“SEC”) and is a member of the Financial Industry Regulatory Authority (FINRA). The Company’s management and administrative operations are located in Texas and related sales activities are conducted primarily in Mexico. The Company’s customers are primarily individuals and institutions located throughout Mexico. The financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (“US GAAP”).

The Company operates under the provisions of Paragraph (k)(2)(ii) of Rule 15c3-3 of the SEC and, accordingly, is exempt from the remaining provisions of that Rule. Essentially, the requirements of Paragraph (k)(2)(ii) provide that the Company clear all transactions on behalf of customers on a fully disclosed basis with a clearing broker-dealer, and promptly transmit all customer funds and securities to the clearing broker-dealer. The clearing broker-dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker-dealer.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Foreign Currency Transactions

As an agent, in the normal course of business, the Company enters into securities transactions which are denominated in foreign currencies, primarily the Mexican peso. Realized and unrealized foreign currency gains and losses on such transactions are recorded in income in the period they are incurred. There is no net realized and unrealized foreign currency loss recorded in 2021. For the purposes of reporting cash flows, the Company has determined that the effect of exchange rate changes on foreign currency transactions is immaterial.

Cash and Cash Equivalents

Money market funds and highly liquid investments, generally government obligations and commercial paper, with an original maturity of three months or less that are not held for sale in the ordinary course of business, if any, are reflected as cash equivalents in the accompanying statement of financial condition and for purposes of the statement of cash flows. From time to time, cash balances exceed federally insured limits at certain financial institutions. The Company has not incurred any losses to date regarding these balances.

ALTERNA SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*Continued*)

Receivables

During the year, the Company received commissions for various trades of securities. Historically, the Company's management has not experienced losses collecting these commissions and believes the remainder is collectable, thus no allowance has been recorded.

Marketable Securities

Marketable securities and marketable securities sold, not yet purchased held for trading purposes are recorded at fair value. Realized and unrealized gains and losses, determined by the first-in, first-out method, are included in earnings and are presented in other income on the statement of income.

Property and Equipment

Property and equipment are carried at cost less accumulated depreciation. Depreciation is provided for using the straight-line method over the estimated useful lives of five to seven years. Leasehold improvements are amortized over the lesser of the economic useful life of the improvement or the term of the lease. Maintenance and repairs are charged to operations as incurred.

Advertising Costs

The Company expenses advertising and marketing costs as the expenses are incurred. For the year ended December 31, 2021, the Company did not incur advertising expenses.

Security Transactions

Securities transactions and related income and expense are recorded on the trade date. Realized gains and losses from sales of securities are computed using the first-in, first-out method.

Income Taxes

The Company files consolidated Federal and combined state and local tax returns with its Parent company. Federal income taxes are calculated as if the company filed as a separate return basis, and the amount of current tax or benefit calculated is either remitted to or received from the Parent. The Company uses the asset and liability method of accounting for income taxes that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in the Company's financial statements. In estimating future tax consequences, all expected future events are considered other than enactment of changes in the tax law or rates. The Company provides a valuation allowance, if necessary, to reduce deferred tax assets to amounts that are not likely to be realized.

The Company's deferred tax asset represents the tax effects of taxable temporary differences in book and tax reporting. The taxable temporary differences consist of depreciation methods and lives and the timing of the deduction for certain expenses.

ALTERNA SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*Continued*)

Lease Accounting

The company accounts for leases under ASC 842, Leases ("ASC 842"), which requires substantially all leases (with the exception of leases with a term of one year or less) to be recorded on the balance sheet using a method referred to as the right-of-use ("ROU") asset approach.

The standard introduces two lease accounting models, which result in a lease being classified as either a "finance" or "operating" lease on the basis of whether the lessee effectively obtains control of the underlying asset during the lease term. A lease is classified as a finance lease if it meets one of five classification criteria, four of which are generally consistent with current lease accounting guidance. By default, a lease that does not meet the criteria to be classified as a finance lease will be deemed an operating lease. Regardless of classification, the initial measurement of both lease types will result in the balance sheet recognition of a ROU asset representing the Company's right to use the underlying asset for a specified period of time and a corresponding lease liability. The lease liability is recognized at the present value of the future lease payments, and the ROU asset equals the lease liability adjusted for any prepaid rent, lease incentives provided by the lessor, and any indirect costs.

Leases classified as a finance lease will be accounted for using the effective interest method. The lessee will amortize the ROU asset (generally on a straight-line basis in a manner similar to depreciation) and the discount on the lease liability (as a component of interest expense). Leases classified as an operating lease will result in the recognition of a single lease expense amount that is recorded on a straight-line basis (or another systematic basis, if more appropriate).

NOTE 2: REVENUE RECOGNITION

Revenue Recognition

Revenues are recognized when control of the promised services is transferred to customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those services. Revenues are analyzed to determine whether the Company is the principal (i.e., reports revenues on a gross basis) or agent (i.e., reports revenues on a net basis) in the contract. Principal or agent designations depend primarily on the control an entity has over the product or service before control is transferred to a customer. The indicators of which party exercises control include primary responsibility over performance obligations, inventory risk before the good or service is transferred and discretion in establishing the price.

ALTERNA SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 2: REVENUE RECOGNITION (Continued)

Commissions

Commission revenue represents sales commissions generated by advisors for their clients' purchases and sales of securities on exchanges and over-the-counter ("OTC"), as well as purchases of other investment products. The Company views the selling, distribution and marketing, or any combination thereof, of investment products to such clients as a single performance obligation to the product sponsors.

The Company is the principal for commission revenue, as it is responsible for the execution of the clients' purchases and sales, and maintains relationships with the product sponsors. Advisors assist the Company in performing its obligations. Accordingly, total commission revenues are reported on a gross basis. The following table presents the Company's total commission revenue disaggregated by investment product category for the year ended December 31, 2021:

Equities	\$	1,234,533
Options		106,858
Foreign Exchange		233,042
Mutual Funds		7,898,683
OTC Stocks		2,139,303
Alternative Investments		130,755
Commission Income	\$	<u>11,743,174</u>

The Company generates two types of commission revenue: sales-based commission revenue that is recognized at the point of sale on the trade date and trailing commission revenue that is recognized over time as earned. Sales-based commission revenue varies by investment product and is based on a percentage of an investment product's current market value at the time of purchase. Trailing commission revenue is generally based on a percentage of the current market value of clients' investment holdings in trail-eligible assets, and is recognized over the period during which services, such as on-going support, are performed. As trailing commission revenue is based on the market value of clients' investment holdings, this variable consideration is constrained until the market value is determinable.

NOTE 2: REVENUE RECOGNITION (Continued)

The following table presents the Company's sales-based and trailing commission revenues disaggregated by product category:

Trailing	
Mutual funds	\$ 7,653,784
Total trailing revenue	7,653,784
Total commission revenue	\$ 11,743,174

Investment banking income includes revenue generated from a private placement offering which is recognized at the closing of the offering.

Interest income is earned from margin accounts and cash equivalents.

Other income primarily includes firm account revenue and gains and losses on firm investments.

NOTE 3: TRANSACTIONS WITH CLEARING BROKER-DEALER

The Company's clearing broker-dealer is a national United States clearing broker-dealer. The agreement with the clearing broker-dealer provides for clearing charges at a fixed rate multiplied by the number of tickets traded by the Company. The agreement also requires the Company to maintain a minimum of \$100,000 as a deposit in an account with the clearing broker-dealer.

NOTE 4: NET CAPITAL REQUIREMENTS

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of a minimum amount of net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2021, the Company had net capital and net capital requirements of \$5,357,141 and \$259,906 respectively. The Company's net capital ratio was 0.73 to 1.

The Agreement requires the Actinver Casa de Bolsa to receive 20%, of commissions charged and received, net of reasonable expenses, to the referred clients' accounts for the handling and execution of securities transactions by the Company. As of June 1, 2021, this agreement was changed from 20% to 35% for existing referred clients' accounts and 50% for new referred clients' accounts. The total amount incurred under the Agreement for the year ended December 31, 2021 was \$1,404,857, of which \$642,290 is payable as of December 31, 2021.

The total amount incurred under the trademark license agreement for the year ended December 31, 2021 was \$366,650, of which \$329,985 is payable as of December 31, 2021.

From time to time the Company advances money to and receives advances from related entities. At December 31, 2021, the Company was owed \$314,117 from certain related entities and owed \$117,197 to other related entities.

The Company accounts for uncertainty in income taxes in accordance with FASB ASC 740-10, which prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return.

The Company did not have unrecognized tax benefits as of December 31, 2021 and does not expect this to change significantly over the next 12 months. The Company recognizes interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense in accordance with ASC 740-10-25. As of December 31, 2021, the Company had not accrued interest or penalties relating to uncertain tax provisions.

The Company files consolidated income tax returns with its Parent in the U.S. federal jurisdiction and state of Texas. The Company's federal income tax returns for tax years 2018 and beyond remain subject to examination by the Internal Revenue Service. The Company's Texas Gross Margin tax returns for the tax years 2018 and beyond remain subject to examination by the state of Texas.

NOTE 8: COMMITMENTS AND CONTINGENCIES

Security Transactions

The Company executes securities transactions on behalf of its customers. If either the customer or the counterparty fails to perform, the Company may be required to discharge the obligation of the nonperforming party. In such circumstances, the Company may sustain a loss if the market value of the security contract is different from the contract value of the transaction. The Company does not expect nonperformance by customers or counterparties.

ALTERNA SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 8: COMMITMENTS AND CONTINGENCIES *(Continued)*

The Company clears all of its securities transactions through its clearing broker on a fully disclosed basis. Pursuant to the terms of the agreements between the Company and the clearing broker, the clearing broker has the right to charge the Company for losses that result from a counterparty's failure to fulfill its contractual obligations. As the right to charge the Company has no maximum amount and applies to all trades executed through the clearing broker, the Company believes there is no maximum amount assignable to this right. At December 31, 2021, the Company has not recorded liabilities with regard to the right. During 2021, the Company did not pay the clearing brokers any amounts related to these guarantees. The Company's policy is to monitor its market exposure, customer risk, and counterparty risk through the use of a variety of credit exposure reporting and control procedures, including marking-to-market securities and any related collateral as well as requiring adjustments of collateral levels as necessary. In addition, the Company has a policy of reviewing, as considered necessary, the credit standing of each counterparty and customer with which it conducts business.

Legal Matters and Contingencies

The Company is subject to claims, lawsuits and other contingencies that arise primarily in the ordinary course of business. The Company has evaluated such claims including consultation with its legal counsel. For remote or reasonably possible claims, no accrual has been recorded or reflected in the accompanying financial statements. When the Company believes the claims are probable and estimable, an accrual is recorded based on the information available and guidance from legal counsel in accordance with FASB ASC 450-20-25. The Company has accrued for \$265,000 of contingencies at December 31, 2021.

Other

During the normal course of business, the Company enters into contracts that contain a variety of representation and warranties and which provide general indemnifications. The Company's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Company that have not yet occurred. However, based on experience, the Company expects the risk of loss to be remote.

NOTE 9: LEASES

The Company recognizes an ROU asset and a corresponding lease liability based on the present value of the future lease payments over the lease term at the commencement date. The Company remeasured the ROU liability in June 2021 when the Company amended the lease to extend the maturity date of the San Antonio lease to July 31, 2022 with fixed monthly lease payments of \$7,965. In 2021, the Company recorded an increase of \$55,752 to the ROU liability and ROU asset to account for the re-measurement.

ALTERNA SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 9: LEASES *(Continued)*

ROU assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. ROU assets and liabilities are recognized at the lease commencement date based on the present value of lease payments over the lease term. For determining the present value of lease payments, we use the discount rate implicit in the lease when readily determinable. As most of the Company's leases do not provide an implicit rate, we use an incremental borrowing rate in determining the present value of lease payments that approximates the rate of interest we would have to pay to borrow on a collateralized basis over a similar term.

The ROU measurement was calculated using the fixed scheduled rent payments up to the maturity date of July 2022 for the office space in San Antonio and December 2024 for the office space in Houston.

The lease agreements do not contain any material residual value guarantees, renewal options or material restrictive covenants.

The Company determines if an agreement is a lease at inception. A lease is defined as a contract, or part of a contract, that conveys the right to control the use of identified property, plant or equipment (an identified asset) for a period of time in exchange for consideration.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholder
of Alterna Securities, Inc.

We have reviewed management's statements, included in the accompanying Exemption Report, in which (1) Alterna Securities, Inc. identified the following provisions of 17 C.F.R. §15c3-3(k) under which Alterna Securities, Inc. claimed an exemption from 17 C.F.R. §240.15c3-3: (k)(2)(ii) (exemption provisions) and (2) Alterna Securities, Inc. stated that Alterna Securities, Inc. met the identified exemption provisions throughout the most recent fiscal year without exception. Alterna Securities, Inc.'s management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about Alterna Securities, Inc.'s compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.
