Form 10-K for the Fiscal Year Ended December 31, 2007

Note 2. Inventory, page 40

Note 3. Inventories, page 47

1. We note the long-term inventory classification of \$26.9 million and \$11.8 million in 2007 and 2006, respectively. Please tell us why no inventory write-down was necessary for the current and prior year. Include in your response the factors you considered in concluding that you do not have excess inventories based on your anticipated sales. Also, tell us how you considered the following in arriving at your conclusion.

- Your 32% and 7% decrease in sales in 2007 and 2006, respectively. We also note that your sales have continued to decrease in the 2008 1st and 2nd quarters as compared to the corresponding interim quarters of the preceding fiscal year.
- Your inventory continues to increase in the 2008 1st and 2nd quarters.
- Your inventory turnover has continued to decrease since 2006.
- The total shipments of carats have been decreasing since 2006 as compared to the previous periods.
- Although the average selling price per carat remained the same in 2007 and 2006, we note that it decreased 3% in the 2008 1st quarter.
- The Cree and Norstel purchase commitment agreements for raw materials. We note that the purchase commitment with Cree is \$4 million for 2008 and you are currently in negotiations with Norstel to reduce your 2008 purchase commitment with them.
- You have continued to use significant cash in operating and investing activities since 2006. Address whether you will be required to reduce your average selling prices to provide cash flows from future operations.

Note 2. Concentrations of Credit Risk, page 42

2. Please refer to the \$4.5 million in trade accounts receivable that is past due. Tell us how you concluded that an uncollectible provision for this receivable is not necessary. We note that the past due amount has increased in the 2008 1st quarter to \$5 million.
