President's Letter

June 30, 2005

DEAR SHAREHOLDER:

Enclosed is our report on your Fund's operations for the 12 months ended June 30, 2005. The 12-month period saw solid results for most investors. Stocks ended the period higher, with the S&P 500 returning 6.33 percent. Bonds overall, also, showed good results, with the Citigroup Broad Investment Grade Index rising 7.00 percent over the past 12 months.

Economic fundamentals were quite good. Corporate earnings remained solid. Gross domestic product (GDP) in the United States averaged 4 percent annualized growth through 2004, 3.8 percent in the first quarter of 2005, and estimates for the second calendar quarter of 2005 are for growth at 3 to 3.5 percent. Despite rising financial markets, investors generally remained cautious, bothered apparently by rising energy prices and interest rates, the potential for accelerating inflation, and a declining U.S. dollar.

The Federal Reserve initiated a series of increases in short-term interest rates during the period. The Fed enacted five quarter-point increases in the last half of calendar 2004 and four more between January and June of 2005, taking short-term rates from a very low level of 1 percent up to 3.25 percent. Recent public statements by the Federal Reserve indicate that additional increases may be forthcoming.

Despite the rising short-term interest rates and higher oil prices, we continue to feel the economy is doing quite well. Real economic growth of around 3 percent for the rest of calendar 2005, with a nominal growth (after inflation) of around 6 percent, seems likely, in our view. History suggests that corporate profits tend to grow in line with growth in the economy, and stocks generally follow the growth in profits. It now appears that S&P 500 profits could potentially rise in the area of 10 percent for all of 2005. Equities have been sluggish in the first six months of 2005, actually down slightly. We believe that some catch-up with profit growth appears probable.

Regardless of short-term setbacks brought on by economic or geopolitical events – and although past performance is no guarantee of future results – stocks have historically continued to rise over time. And, through appropriate diversification, you can potentially provide more balance to your portfolio over time.

Your financial advisor can help you with these strategies and work with you to develop and maintain a customized investment plan based on your individual situation. We believe that focusing on that plan, despite the swings of the market, is important as you work toward a sound financial future.

Thank you for your partnership and your continued commitment to your investment program.

Respectfully,

A handwritten signature in black ink, reading "Henry J. Herrmann". The signature is fluid and cursive, with a long horizontal flourish extending to the right.

Henry J. Herrmann, CFA
President

Manager's Discussion of Vanguard Fund

June 30, 2005

An interview with Daniel P. Becker, CFA, portfolio manager of Waddell & Reed Advisors Vanguard Fund, Inc.

The following discussion, graphs and tables provide you with information regarding the Fund's performance for the fiscal year ended June 30, 2005.

How did the Fund perform during the last fiscal year?

The Class A shares of the Fund increased 7.32 percent (before the impact of any sales charges). This compared with the Russell 1000 Growth Index (reflecting the performance of securities that generally represent the stock market), which increased 1.67 percent during the period, and the Lipper Large-Cap Growth Funds Universe Average (generally representing the performance of the universe of funds with similar investment objectives), which increased 2.95 percent during the period. The Russell 1000 Growth Index replaces the S&P 500 Index in this year's report. We believe that the new index provides a more accurate basis for comparing the Fund's performance to the types of securities in which the Fund invests. Both indexes are presented in this year's report for comparison purposes. Please note that the Fund returns include applicable fees and expenses, whereas the index returns do not include any such fees.

What factors affected performance relative to the benchmark index during the fiscal year?

We believe that much of the positive performance was generated by strong stock selection, specifically in the technology, health care and financial services sectors. In

our view, the economic environment, especially during the latter part of the fiscal year, provided a better setting for the large-cap growth asset class, bringing opportunities for "franchise" growth companies to potentially do well. The Fund focuses on these types of larger companies, and we believe that, for the first time in approximately five years, we are seeing strong opportunities for the large growth sector. We feel that the Fund remains well positioned to take advantage of these potential opportunities.

What other market conditions or events influenced the Fund's performance during the fiscal year?

The Fund's performance was positively influenced by the rebound in the general economy. The large-cap growth asset class had been a difficult place to invest in the recent past. Many of the top growth companies of the late 1990s have failed to continue to grow revenues and profits at acceptable rates, prompting a decline in popularity in these companies. Now, several years into the economic recovery, it appears that some of the largest companies are growing again and are starting to regain popularity. We believe that many aspects of the economy are in very good shape. Interest rates are still relatively low, and many companies are experiencing strong levels of

profitability. Given this, we feel that we could potentially see a change in performance patterns between small-cap and large-cap asset classes, and between value and growth styles. The timing is always uncertain, but we feel that things may be getting better for our style of investing.

What strategies and techniques did you employ that specifically affected the Fund's performance?

Our strategy, as always, remains steadfast. We focus on what we feel are dominant, well-capitalized companies that we believe can take a structurally advantaged competitive position and potentially produce sustained high levels of profitability and growth. As the economic recovery matures and aggregate earnings growth slows, we believe quality and sustainability will be valued more highly than they have been in the past.

The Fund's performance noted above is at net asset value (NAV), and does not include the effect of any applicable sales charges. If reflected, the sales charge would reduce the performance noted.

The opinions expressed in this report are those of the portfolio manager and are current only through the end of the period of the report as stated on the cover. The manager's views are subject to change at any time based on market and other conditions, and no forecasts can be guaranteed.

What industries or sectors did you emphasize during the fiscal year, and what looks attractive to you going forward?

As mentioned above, we focus on what we feel are large, dominant, growth-oriented companies. Specifically, during the fiscal year, we focused primarily on the technology, health care and financial services sectors.

Over the next fiscal year, we anticipate further increases in short-term interest rates and a moderate slowing in economic growth. We believe that select companies that may be able to grow steadily at rates above the general economy, while generating good profitability, have never been more attractive. We intend to focus on companies that we believe possess the potential for high levels of profitability and revenue growth in several different sectors, including financial services, technology, biotechnology and consumer services.

Past performance is no guarantee of future results. Investment return and principal value of an investment will fluctuate and shares, when redeemed, may be worth more or less than their original cost. Please visit www.waddell.com for the Fund's most recent month-end performance. Class A shares carry a maximum front-end sales load of 5.75%. Class B and Class C shares carry a maximum contingent deferred sales charge (CDSC) of 5% and 1%, respectively. (Accordingly, the Class C shares reflect no CDSC since it only applies to Class C shares redeemed within twelve months after purchase.) Class Y shares are not subject to sales charges.

- (3) 10-4-99 for Class B shares and Class C shares and 9-8-95 for Class Y shares (the date on which shares were first acquired by shareholders).

Illustration of Fund Expenses

VANGUARD FUND

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, redemption fees and exchange fees; and (2) ongoing costs, including management fees, distribution and service fees, and other Fund expenses. The following table is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the six-month period ended June 30, 2005.

Actual Expenses

The first line for each share class in the following table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, a \$7,500 account value divided by \$1,000 = 7.5), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period. There may be additional fees charged to holders of certain accounts that are not included in the expenses shown in the table. These fees apply to Individual Retirement Accounts (IRAs), IRA Rollovers, Roth IRAs, Conversion Roth IRAs, Simplified Employee Pension (SEP), Simple IRAs, Tax-Sheltered Accounts (TSAs), Keogh Plans, Owner Only 401(k) (Exclusive K) Plans and Final Pay Plans. As of the close of the six months covered by the table, a customer is charged an annual fee of \$15 within each plan type. This fee is waived for IRA Rollovers and Conversion Roth IRAs if the customer owns another type of IRA. Coverdell Education Savings Account plans are charged an annual fee of \$10 per customer. You should consider the additional fees that were charged to your Fund account over the six-month period when you estimate the total ongoing expenses paid over the period and the impact of these fees on your ending account value as such additional expenses are not reflected in the information provided in the expense table. Additional fees have the effect of reducing investment returns.

Hypothetical Example for Comparison Purposes

The second line for each share class of the following table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds. Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees or exchange fees. Therefore, the second line of each share class in the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Fund Expenses

Class A	\$1,000	\$1,032	1.23%	\$ 6.20
Class B	1,000	1,026	2.36	11.86

Class C	1,000	1,014	2.26	11.31
Class Y	1,000	1,020	0.88	4.38

*Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 181 days in the six-month period ended June 30, 2005, and divided by 365.

⁽¹⁾This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the fourth column.

⁽²⁾This section uses a hypothetical 5% return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

The above illustration is based on ongoing costs only and does not include any transactional costs, such as sales loads, redemption fees or exchange fees.

Notes to Financial Statements

June 30, 2005

NOTE 1 – Significant Accounting Policies

Waddell & Reed Advisors Vanguard Fund, Inc. (the Fund) is registered under the Investment Company Act of 1940 as a diversified, open-end management investment company. Its investment objective is to seek appreciation. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

- A. Security valuation** – Each stock and convertible bond is valued at the latest sale price thereof on each business day of the fiscal period as reported by the principal securities exchange on which the issue is traded or, if no sale is reported for a stock, the average of the latest bid and asked prices. Bonds, other than convertible bonds, are valued using a pricing system provided by a pricing service or dealer in bonds. Convertible bonds are valued using this pricing system only on days when there is no sale reported. Stocks which are traded over-the-counter are priced using the Nasdaq Stock Market, which provides information on bid and asked prices quoted by major dealers in such stocks. Restricted securities and securities for which quotations are not readily available or are deemed not to be reliable because of significant events or circumstances identified between the closing of their principal markets and the closing of the New York Stock Exchange are valued at fair value as determined in good faith under procedures established by and under the general supervision of the Fund's Board of Directors. Short-term debt securities are valued at amortized cost, which approximates market value.
- B. Security transactions and related investment income** – Security transactions are accounted for on the trade date (date the order to buy or sell is executed). Securities gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. See Note 3 – Investment Securities Transactions.
- C. Foreign currency translations** – All assets and liabilities denominated in foreign currencies are translated into U.S. dollars daily. Purchases and sales of investment securities and accruals of income and expenses are translated at the rate of exchange prevailing on the date of the transaction. For assets and liabilities other than investments in securities, net realized and unrealized gains and losses from foreign currency translations arise from changes in currency exchange rates. The Fund combines fluctuations from currency exchange rates and fluctuations in market value when computing net realized and unrealized gain or loss from investments.
- D. Federal income taxes** – It is the Fund's policy to distribute all of its taxable income and capital gains to its shareholders and otherwise qualify as a regulated investment company under Subchapter M of the Internal Revenue Code. In addition, the Fund intends to pay distributions as required to avoid imposition of excise tax. Accordingly, provision has not been made for Federal income taxes. See Note 4 – Federal Income Tax Matters.

E. Dividends and distributions – Dividends and distributions to shareholders are recorded by the Fund on the business day following record date. Net investment income dividends and capital gains distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences are due to differing treatments for items such as deferral of wash sales and post-October losses, foreign currency transactions, net operating losses and expiring capital loss carryovers. At June 30, 2005, \$2,943,691 was reclassified to accumulated undistributed net investment loss, \$2,826,085 was reclassified to accumulated undistributed net realized gain on investment transactions and \$117,606 was reclassified to additional paid-in capital. Net investment income and net assets were not affected by these changes.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

NOTE 2 – Investment Management and Payments to Affiliated Persons

Waddell & Reed Investment Management Company (WRIMCO), a wholly owned subsidiary of Waddell & Reed, Inc. (W&R), serves as the Fund's investment manager. The Fund pays a fee for investment management services. The fee is computed and paid daily based on the net asset value at the close of business. The fee is payable by the Fund at the annual rates of: 0.70% of net assets up to \$1 billion, 0.65% of net assets over \$1 billion and up to \$2 billion, 0.60% of net assets over \$2 billion and up to \$3 billion, and 0.55% of net assets over \$3 billion.

The Fund has an Accounting Services Agreement with Waddell & Reed Services Company (WRSCO), a wholly owned subsidiary of W&R. Under the agreement, WRSCO acts as the agent in providing accounting services and assistance to the Fund and pricing daily the value of shares of the Fund. For these services, the Fund pays WRSCO a monthly fee of one-twelfth of the annual fee shown in the following table.

Accounting Services Fee	
Average Net Asset Level (in millions)	Annual Fee Rate for Each Level
From \$ 0 to \$ 10	\$ 0
From \$ 10 to \$ 25	\$ 11,500
From \$ 25 to \$ 50	\$ 23,100
From \$ 50 to \$ 100	\$ 35,500
From \$ 100 to \$ 200	\$ 48,400
From \$ 200 to \$ 350	\$ 63,200
From \$ 350 to \$ 550	\$ 82,500
From \$ 550 to \$ 750	\$ 96,300
From \$ 750 to \$1,000	\$121,600
\$1,000 and Over	\$148,500

In addition, for each class of shares in excess of one, the Fund pays WRSCO a monthly per-class fee equal to 2.5% of the monthly accounting services base fee.

The Fund also pays monthly a fee at the annual rate of 0.01% or one basis point for the first \$1 billion of net assets with no fee charged for net assets in excess of \$1 billion.

For Class A, Class B and Class C shares, the Fund pays WRSCO a monthly per account charge for shareholder servicing of \$1.5292 for each shareholder account which was in existence at any time during the prior month. With respect to Class Y shares, the Fund pays WRSCO a monthly fee at an annual rate of 0.15% of the average daily net assets of the class for the preceding month. The Fund also reimburses W&R and WRSCO for certain out-of-pocket costs for all classes.

As principal underwriter for the Fund's shares, W&R received gross sales commissions for Class A shares (which are not an expense of the Fund) of \$2,743,577. A contingent deferred sales charge (CDSC) may be assessed against a shareholder's redemption amount of Class A, Class B and Class C shares and paid to W&R. During the period ended June 30, 2005, W&R received \$41, \$126,573 and \$4,359 in CDSC for Class A, Class B and Class C shares, respectively. With respect to Class A, Class B and Class C shares, W&R paid sales commissions of \$1,865,866 and all expenses in connection with the sale of Fund shares, except for registration fees and related expenses.

Under a Distribution and Service Plan for Class A shares adopted by the Fund pursuant to Rule 12b-1 under the Investment Company Act of 1940, the Fund may pay a distribution and/or service fee to W&R in an amount not to exceed 0.25% of the Fund's Class A average annual net assets. The fee is to be paid to reimburse W&R for amounts it expends in connection with the distribution of the Class A shares and/or provision of personal services to Fund shareholders and/or maintenance of shareholder accounts.

Under the Distribution and Service Plan adopted by the Fund for Class B and Class C shares, respectively, the Fund may pay W&R a service fee of up to 0.25%, on an annual basis, of the average daily net assets of the class to compensate W&R for providing services to shareholders of that class and/or maintaining shareholder accounts for that class and a distribution fee of up to 0.75%, on an annual basis, of the average daily net assets of the class to compensate W&R for distributing the shares of that class. The Class B Plan and the Class C Plan each permit W&R to receive compensation, through the distribution and service fee, respectively, for its distribution activities for that class, which are similar to the distribution activities described with respect to the Class A Plan, and for its activities in providing personal services to shareholders of that class and/or maintaining shareholder accounts of that class, which are similar to the corresponding activities for which it is entitled to reimbursement under the Class A Plan.

The Fund paid Directors' regular compensation of \$93,644, which are included in other expenses. The Fund pays Frederick Vogel III additional compensation for his service as lead independent director. For the fiscal year ended June 30, 2005, that amount was \$1,280.

W&R is a subsidiary of Waddell & Reed Financial, Inc., a public holding company, and a direct subsidiary of Waddell & Reed Financial Services, Inc., a holding company.

NOTE 3 – Investment Securities Transactions

Purchases of investment securities, other than U.S. government obligations and short-term securities, aggregated \$1,756,529,764, while proceeds from maturities and sales aggregated \$2,014,378,015. Purchases of short-term securities aggregated \$2,312,804,172, while proceeds from maturities and sales aggregated \$2,326,786,797. No U.S. government obligations were purchased or sold during the fiscal year ended June 30, 2005.

For Federal income tax purposes, cost of investments owned at June 30, 2005 was \$1,417,090,407, resulting in net unrealized appreciation of \$345,588,302, of which \$369,396,870 related to appreciated securities and \$23,808,568 related to depreciated securities.

NOTE 4 – Federal Income Tax Matters

For Federal income tax purposes, the Fund's distributed and undistributed earnings and profit for the fiscal year ended June 30, 2005 and the related capital loss carryover and post-October activity were as follows:

Net ordinary income	\$	—
Distributed ordinary income		—
Undistributed ordinary income		—

Distributed long-term capital gains		2,826,085
Undistributed long-term capital gains		39,188,749
Capital loss carryover		—
Post-October losses deferred		—

Internal Revenue Code regulations permit the Fund to defer into its next fiscal year net capital losses or net long-term capital losses incurred between each November 1 and the end of its fiscal year (post-October losses).

NOTE 5 – Multiclass Operations

The Fund currently offers four classes of shares, Class A, Class B, Class C and Class Y, each of which have equal rights as to assets and voting privileges. Class Y shares are not subject to a sales charge on purchases, are not subject to a Rule 12b–1 Distribution and Service Plan and are subject to a separate shareholder servicing fee structure. A comprehensive discussion of the terms under which shares of each class are offered is contained in the Prospectus and the Statement of Additional Information for the Fund.

Income, non-class specific expenses, and realized and unrealized gains and losses are allocated daily to each class of shares based on the value of their relative net assets as of the beginning of each day adjusted for the prior day's capital share activity.

The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of June 30, 2005, by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures.
