Fintrust Brokerage Services, LLC

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended December 31, 2022

1. Organization and Nature of Business

FinTrust Brokerage Services, LLC, a North Carolina limited liability company, is a registered broker-dealer in securities with the Securities and Exchange Commission (SEC) and is a member of various exchanges and the Financial Industry Regulatory Authority, Inc. (FINRA). The Company received its approval for membership on January 2, 1997.

Since the Company is a limited liability company, the Member is not liable for the debts, obligations, or liabilities of the Company, whether arising in contract, tort or otherwise, unless the Member has signed a specific guarantee.

2. Significant Accounting and Reporting Policies

Basis of Accounting

The Company maintains its books and records on the accrual basis of accounting for financial reporting purposes, which is in accordance with U.S. Generally Accepted Accounting Principles (GAAP) as required by the SEC and FINRA. The Company is evaluating new accounting standards and will implement as required.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For the purposes of the Statement of Cash Flows, the Company defines cash equivalents as highly liquid investments with original maturity dates of less than ninety (90) days that are not held for sale in the ordinary course of business.

Revenue from Contracts with Customers

Significant Judgements

The Company follows ASC606 Revenue for Contracts with Customers, revenue is recognized upon satisfaction of performance detailed by the contract with its customers.

Revenue from contracts with customers includes commission income and fees from commissions. The recognition and measurement of revenue is based on the assessment of individual contract terms. Significant judgement is required to determine whether the performance obligations are satisfied at a point in time or over time; how to allocate transaction prices where multiple performance obligations are identified; when to recognize revenue based on the appropriate measure of the Company's progress under the contract; whether the revenue should be presented gross or net of certain costs; and whether constraints on variable consideration should be applied due to uncertain future events. Mutual funds or pooled investment vehicles (collectively "funds") have entered into agreements with the Company to distribute and/or sell its shares to investors. Fees are paid up front and over time (i.e.: 12b-1 fees) on the basis of a contractual rate applied to the monthly or quarterly market value of the fund (that is, net asset value [NAV]). The fund may also pay, upon investor exit from the fund (that is, contingent deferred sales charge [CDSC]), or as a combination thereof. Revenue is recognized monthly as services are provided.

Fintrust Brokerage Services, LLC

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended December 31, 2022

2. Significant Accounting and Reporting Policies - Continued

Brokerage Commissions

The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recorded on the trade date (the date the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon, and the risks and rewards of ownership of the securities has been transferred to or from the customer.

Income Taxes

The Company is a single member limited liability company that is treated as a disregarded entity for income tax purposes as all income or loss flows through to the Member. Therefore, no income tax expense or liability is recorded in the accompanying financial statements.

The Company follows the FASB Accounting Standards Codification (ASC) 740-10, Accounting for the Uncertainty in Income Taxes. Under FASB ASC 740-10, the Company is required to evaluate each of its tax positions to determine if they are "more likely than not" of being sustained "when challenged" or "when examined" by the applicable taxing authority. Tax positions not deemed to meet the "more likely than not" threshold would be recorded as a tax expense and liability in 2022. A tax position includes any entity's status, including its status as a pass-through entity, and the decision to not file a tax return.

Management has evaluated the Company's tax positions and concluded that the Company has taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of this guidance as of December 31, 2022. The Company is not currently under audit by any tax jurisdiction.

Fair Value

FASB ASC 820 defines fair value, establishes a framework for measuring fair value and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

Fintrust Brokerage Services, LLC

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended December 31, 2022

2. Significant Accounting and Reporting Policies - Continued

Fair Value

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1: Inputs are unadjusted quoted prices in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2: Inputs are inputs (other than quoted prices included in Level 1) that are observable for the assets or liability, either directly or indirectly.
- Level 3: Unobservable inputs for asset or liability and rely on management's own assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

The Company had three CD's in its net capital account at NFS as of December 31, 2022. The current market value of those CD's at year end was \$294,467. A 2% haircut was applied to the CD's. The CD's are in the line item "NFS Account Balances".

3. Guarantees

In the normal course of its business, the Company indemnifies and guarantees certain service providers, such as clearing and custody agents, trustees and administrators, against specific potential losses in connection with their acting as an agent of, or providing services to, the Company or its affiliates. The Company also indemnifies some clients against potential losses incurred in the event specific third-party service providers, including sub-custodians and third-party brokers, improperly execute transactions. The maximum potential amount of the future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely to have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications. For the year ended December 31, 2022, the Company experienced no material net losses as the result of the indemnity.

4. Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1) which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15:1. At December 31, 2022, the Company had net capital of \$676,787, which was \$624,512 in excess of its required minimum of \$52,275. The Company's percentage of aggregate indebtedness to net capital was 115.86% at December 31, 2022.

Fintrust Brokerage Services, LLC

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended December 31, 2022

5. Commitments and Contingencies

The Company has evaluated commitments and contingencies in accordance with Accounting Standards Codification 450, *Contingencies* (ASC 450) and Accounting Standards Codification 440, *Contingencies* (ASC 440). Management has determined that no significant commitments and contingencies exist as of December 31, 2022.

6. Related Party Transactions

The Company has an expense sharing agreement with an affiliate effective January 1, 2022. Under the agreement, the Company pays the affiliate a monthly fee for the use of personnel, office premises, including furniture and equipment, facilitating the payment of commissions to the Company's registered representatives, and other administrative services and operating expenses. The sharing rates are based on relative revenue as adjusted for certain types of revenue that require less administrative and personnel expense. In 2022, shared expenses under this agreement totaled \$577,361 and are included within various operating expense line items on the accompanying Statement of Operations. During 2022, the Company's Member processed the commissions and other direct expenses of the Company as common paymaster, with the related liability passed through to the affiliate for collection from the Company. The commissions paid totaled \$466,758 and are included with compensation and benefits, and the other direct expenses totaled \$34,390 and are included within various operating expense line items, on the accompanying Statement of Operations.

In addition, under a clearing charge agreement effective January 1, 2022, the Company charges this affiliate for costs of trading and related office expenses which totaled \$91,701 and is included in the revenue on the accompanying financial statements.

As of December 31, 2022, the Company has recorded a liability due to this affiliate related to these transactions for \$671,773.

The Company is party to a services agreement effective in 2022 with an affiliate to pay \$4,000 monthly for accounting, human resources, and other administrative services provided by the affiliate, which automatically renews annually unless terminated by either party. As of December 31, 2022, the Company has recorded a liability due to this affiliate related to these transactions for \$48,000.

7. Accounts Receivable

The Company has evaluated its accounts receivable and determined that no valuation allowance is needed as all accounts receivable are deemed collectible. The Company's accounts receivable is due upon providing services. The balance at December 31, 2021 was \$10,000.

8. Advertising Costs

Advertising costs are expensed as incurred. For the year ended December 31, 2022, the Company incurred advertising costs of \$8,308.

9. Subsequent Events
