

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934  
For the fiscal year ended July 31, 2009

Commission file number 1-8696

**COMPETITIVE TECHNOLOGIES, INC.**

(Exact name of registrant as specified in its charter)

[www.competitivetech.net](http://www.competitivetech.net)

Registrant's telephone number, including area code: (203) 368-6044

Delaware

(State or other jurisdiction of incorporation or organization)

36-2664428

(I.R.S. Employer Identification No.)

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class  
Common Stock (\$.01 par value)

Name of Each Exchange on  
which Registered  
NYSE Amex

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

☒ Yes ☐ No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of "accelerated filer, large accelerated filer and smaller reporting company" as defined in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☒

The aggregate market value of the common equity held by non-affiliates of the registrant as of January 31, 2009 (the last business day of the registrant's most recently completed second fiscal quarter) was \$9,707,121

The number of shares of the registrant's common stock outstanding as of October 27, 2009, was 10,121,047 shares.

## PART I

### Forward-Looking Statements

Statements about our future expectations are "forward-looking statements" within the meaning of applicable Federal Securities Laws, and are not guarantees of future performance. When used herein, the words "may," "will," "should," "anticipate," "believe," "appear," "intend," "plan," "expect," "estimate," "approximate," and similar expressions are intended to identify such forward-looking statements. These statements involve risks and uncertainties inherent in our business, including those set forth in Item 1A under the caption "Risk Factors," in this Annual Report on Form 10-K for the year ended July 31, 2009, and other filings with the SEC, and are subject to change at any time. Our actual results could differ materially from these forward-looking statements. We undertake no obligation to update publicly any forward-looking statement.

### Item 1. Business

#### Overview:

Competitive Technologies, Inc. ("CTT"), was incorporated in Delaware in 1971, succeeding an Illinois corporation incorporated in 1968. CTT and its subsidiaries (collectively, "we," "our," or "us"), provide distribution, patent and technology transfer, sales and licensing services focusing on the needs of our customers, matching those requirements with commercially viable technology or product solutions. We develop relationships with universities, companies, inventors and patent or intellectual property holders to obtain the rights or a license to their intellectual property (collectively, the "technology" or "technologies"), or to their product. They become our clients, for whom we find markets to sell or further develop or distribute their technology or product. We also develop relationships with those who have a need or use for technologies or products. They become our customers, usually through a license or sublicense, or distribution agreement.

We earn revenue in two ways, from licensing our clients' and our own technologies to our customer licensees, and in a business model that allows us to share in the profits of distribution of finished products. Our customers pay us license fees, royalties based on usage of the technology, or per unit fees, and we share that revenue with our clients. Our revenue fluctuates due to changes in revenue of our customers, upfront license fees, new licenses granted, new distribution agreements, expiration of existing licenses or agreements, and/or the expiration or economic obsolescence of patents underlying licenses or products.

We acquire rights to commercialize a technology or product on an exclusive or non-exclusive basis, worldwide or limited to a specific geographic area. When we license or sublicense those rights to our customers, we may limit rights to a defined field of use. Technologies can be early, mid, or late stage. Products we evaluate must be working prototypes or finished products. We establish channel partners based on forging relationships with mutually aligned goals and matched competencies to deliver solutions that benefit the ultimate end-user.

The Company incurred an operating loss for fiscal 2009, as well as an operating loss in fiscal 2008. During fiscal 2007, we had a significant concentration of revenues from our homocysteine assay technology. The main patent for this technology expired in July 2007 and we will not receive revenues for sales made after that date. Revenue in 2008 for the homocysteine technology reflects previously unreported back royalties. We continue to seek revenue from new technologies or products to mitigate the concentration of revenues, and replace revenues from expiring licenses. At current reduced spending levels, the Company may not have sufficient cash flow to fund operating expenses beyond second quarter fiscal 2010. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include adjustments to reflect the possible future effect of the recoverability and classification of assets or amounts and classifications of liabilities that may result from the outcome of this uncertainty.

The Company's continuation as a going concern is dependent upon its developing other recurring revenue streams sufficient to cover operating costs. If necessary, we will meet anticipated operating cash requirements by further reducing costs, and/or pursuing sales of certain assets and technologies while we pursue licensing and distribution opportunities for our remaining portfolio of technologies. The company does not have any significant individual cash or capital requirements in the budget going forward. In addition, we will sell shares to Fusion Capital Fund II, LLC ("Fusion Capital") per our 2009 Agreement, on an as-needed basis, when the Company's stock price is at

or above \$1.00 per share. There can be no assurance that the Company will be successful in such efforts or that we will be able to obtain alternative financing should our stock price fall below \$1.00 per share. Failure to develop a recurring revenue stream sufficient to cover operating expenses would negatively affect the Company's financial position.

### **Product Distribution Services**

Our services are beneficial to the inventor, manufacturer and distributor of the product. We evaluate a working prototype or finished product for marketability. We find opportunities through industry connections and contacts, and trade shows. We select products we will represent, negotiate with potential domestic and international distributors, and sign agreements on a country and/or area exclusive basis. We earn revenue on a per-unit basis through product distribution agreements. We share the revenue with the product inventor, and/or manufacturer.

### **Technology Commercialization Services**

Our services are beneficial to the provider and user of the technology. The technology client can focus on research and development, rather than selling and marketing, as we effectively become their marketing department. The technology customer can focus on selling and marketing, rather than research and development. We maintain and enforce our clients' and our technology patent rights, by monitoring and addressing infringement. We maximize the value of technologies for the benefit of our clients, customers and shareholders.

We identify and commercialize innovative technologies in life and physical sciences, electronics, and nano science. Life sciences include medical testing, diagnostics, pharmaceuticals, biotechnologies, medical devices and other medical or biological applications. Physical sciences include chemical, display, and environmental applications. Electronics include communications, semiconductors, Internet related, e-commerce and consumer electronics applications. Nanotechnologies are the manipulation of microscopic particles into useful arrangements, and smart or novel materials; a nano particle is one thousand times smaller than the width of a human hair. We have technologies in each area, with a concentration in life sciences.

Over the years we have licensed nearly 500 technologies to and from corporations, and can count as our clients a number of major universities and inventors. We are a vital part of the technology commercialization community, and have generated over \$100 million in shared technology revenues to universities.

### **Portfolio Acquisition**

We continue to expand relationships with universities and inventors, increasing the number of clients, products and technologies we represent, and establishing us as the premier technology commercialization and product distribution company. The goal is to have a pipeline of technologies and distribution products that will generate a long-term recurring revenue stream.

We evaluate potential technologies based on the strength of the intellectual property, our ability to protect it, its life stage, further development time needed, compatibility with existing technology in our portfolio, marketability, market size, and potential profitability.

We evaluate potential products for distribution based on their capability to fulfill an unmet market need and/or social responsibility. We focus on products that improve quality-of-life. The goal is to acquire products for distribution that have a competitive advantage, proprietary know-how and/or regulatory approval. We seek exclusive rights to manufacture, market and distribute the products.

Numerous technologies and products are reviewed and evaluated in terms of current, mid- and long-term revenue potential. Both products and technologies have the potential to produce different levels of revenue throughout the life of the agreement. We obtain rights to improvements and/or refinements that extend the life of the product or technology, increasing the potential revenue. We continuously review the revenue potential of our product and technology portfolio to generate a long-term recurring revenue stream.

A non-disclosure agreement signed with a prospective client allows us access to confidential information about the product or technology. We require similar non-disclosure agreements from prospective customers when we commercialize the product or technology. We include mutual non-disclosure provisions about the product or technology in agreements granted to protect value, for CTT, our clients and our customers. As a result of these obligations, as well as federal regulations for disclosure of confidential information, we may only be able to disclose limited information about licenses and sublicenses granted for products or technologies we evaluate, as is necessary for an understanding of our financial results.

## **Marketing Technologies and Products**

We commercialize technologies and products through contacts in research and development, legal firms, major corporations, seminars and trade shows. We determine the most likely users of the technologies or distributors of products, and contact prospective customers.

## **Technology Protection and Litigation**

Protecting our technologies from unintentional and willful patent infringement, domestically and internationally, is an important part of our business. We sometimes assist in preparation of initial patent applications, and often are responsible for prosecuting and maintaining patents. Unintentional infringement, where the infringer usually does not know that a patent exists, can often be resolved by the granting of a license. In cases of willful infringement, certain infringers will continue to infringe absent legal action, or, companies may successfully find work-arounds to avoid paying proper monies to us and our clients for use of our technologies. We defend our technologies on behalf of ourselves, our clients and licensees, and pursue patent infringement cases through litigation, if necessary. Such cases, even if settled out of court, may take several years to resolve, with expenses borne by our clients, us, or shared. Proceeds from the case are usually shared in proportion to the costs. As a result, we may incur significant expenses in some years and be reimbursed through proceeds of awards or settlements several years later. In cases of willful infringement, patent law provides for the potential of treble damages at the discretion of the Court.

## **Revenue Generation**

We license technologies to generate revenue based on usage or sales of the technologies, or by sharing in the profits of distribution. When our customers pay us, we share the revenue with our clients.

*Product distribution* We have established a new business model for appropriate technologies that allows us to move beyond our usual royalty arrangement and share in the profits of distribution. Distribution terms are set in written agreements for products, and are generally signed for exclusive area parameters.

In late fiscal 2007, we obtained exclusive worldwide distribution rights to a non-invasive pain therapy device for rapid treatment of high-intensity oncologic and neuropathic pain, including pain resistant to morphine and other drugs. Developed in Italy by CTT's client, Prof. Giuseppe Marineo, DSc, MD, the technology was brought to CTT through the efforts of Prof. Giancarlo Elia Valori of the Italian business development group, Sviluppo Lazio S.p.A., and assistance from the Zangani Investor Community™. The unit, with a biophysical rather than a biochemical approach, uses a multi-processor able to simultaneously treat multiple pain areas by applying surface electrodes to the skin. The device's European CE mark certification allows it to be distributed and sold throughout Europe, and makes it eligible for approval for distribution and sales in multiple global markets. In February 2009, CTT received FDA 510(k) clearance for U.S. sales of the device. Several thousand patients in various hospitals have been successfully treated using the technology. CTT's partner, GEOMC Co., Ltd. of Korea, is manufacturing the product commercially for worldwide distribution. U.S. and international patents are pending.

In July 2008, we signed a country-exclusive distribution agreement with Excel Life Sciences, Inc. for India. In the first six months fiscal 2009, we signed three additional country-exclusive distribution agreements with GEOMC Co., Ltd. for Korea, Biogene Pharma Limited for Bangladesh, and Able Global Healthcare Sdn. Bhd. for Malaysia. In February 2009, the Company signed an agreement with Life Epistème srl granting them exclusive distribution rights in 29 countries throughout Europe, Asia, Africa, the Middle East, South America and Oceania. Exclusive distribution rights in two additional countries were granted to Life Epistème in March 2009. Local sales authorization is required in each country.

In April 2009, the Company, acknowledging the current difficult economic climate, entered into an agreement with Americorp Financial, LLC (AFS), where AFS will provide financing of sales of the pain therapy medical device for 24 – 60 month lease periods to hospitals, clinics and medical practices in the U.S. AFS will provide financing services under the name, Competitive Technologies Financial Services. CTT will receive the full retail sales price of the device upon execution of each lease, while AFS carries the lease.

Also in April 2009, we signed an agreement with Native Energy & Economic Development, giving them exclusive sales rights for selected U.S. government agencies, including the Department of Veteran's Affairs (VA), the Department of Defense (DOD), and the Indian Health Service (IHS).

In July 2009, we signed an agreement with Innovative Medical Therapies, Inc. granting them exclusive distribution rights to CTT's pain therapy medical device in the United States and related territories excluding selected Federal agencies. The contract provides for minimum monthly cash payments to CTT totaling over \$1 million for the first eight months. These minimum monthly payments increase each year throughout the term of the agreement with, for example, the fourth year minimum payments reaching \$9 million and eighth year minimum payments of \$21 million dollars. IMT will receive shipments of CTT's pain therapy medical device in return for these payments

In October 2009, we signed an agreement with Athens, Greece-based Fintrade Medical granting them the exclusive rights to market and sell CTT's pain therapy medical device in Greece and Cyprus.

Also in October 2009, we signed an agreement with Calmar Pain Relief, LLC, a Delaware limited liability company ("Calmar"), with its headquarters in North Providence, Rhode Island. Calmar was established to provide medical equipment, office leasing, and other business services to medical doctors looking to offer CTT's non-invasive pain therapy to patients in a clinical setting. Calmar will furnish CTT's MC-5A pain therapy medical device to medical doctors who will open pain therapy treatment centers in selected U.S. cities over the next two years.

The signed distribution agreements for this device, now cover more than 50% of the world's population.

Another product in our distribution group is a compressed air drying device that eliminates water condensation, oil residues and solid particles that are contaminants present in compressed air lines, extending the life of pneumatic tools;

*Technology royalties* Client and customer agreements are generally for the duration of the technology life, which usually is determined by applicable patent law. When we receive customer reports of sales or payments, whichever occurs first, we record revenue for our portion, and record our obligation to our clients for their portion. For early stage technologies that may not be ready for commercial development without further research, we may receive annual minimum payments and/or milestone payments based on research progress or subsequent sublicense or joint venture proceeds. In certain sublicense or license agreements, we may receive an upfront fee upon execution of the license. Our fees are generally non-refundable, and, except for annual minimums, are usually not creditable against future royalties. In certain cases, the first year or several years' royalties may be waived in consideration for an upfront fee. We may apply the upfront fee or initial fees to reimburse patent prosecution and/or maintenance costs incurred by either party. In these cases, payments are recorded as a reduction of expense, and not as revenue. If the reimbursement belongs solely to our client, we record no revenue or expense. As a result, a new technology may not generate significant revenue in its early years.

Licensing terms are documented in written agreements with customers. We generally enter into single element agreements with customers, under which we have no additional obligations other than patent prosecution and maintenance. We may enter into multiple element agreements under which we have continuing service obligations. All revenue from multiple element agreements is deferred until delivery of all verifiable required elements. In milestone billing agreements we recognize non-refundable, upfront fees ratably over the life of the agreement, and milestone payments as the specified milestone is achieved. We evaluate billing agreements on a case-by-case basis, and record revenue as appropriate. We do not have multiple element or milestone billing agreements at this time, but have had such agreements in the past, and could have in the future.

In fiscal 2007, we had a significant concentration of revenue from our homocysteine assay technology. The main patent for this technology expired in July 2007 and we will not receive revenue for sales made after that date. Homocysteine revenue in 2008 reflects unreported back royalties.

We actively market other technologies, and seek new technologies to mitigate this concentration of revenue and provide a steady future revenue stream. We have created a new business model for appropriate technologies that allows us to move beyond our usual royalty arrangement and share in the profits of distribution. Technologies that produced revenue equal to or exceeding 15% of our total retained royalties revenue, or at least \$250,000 in 2009 and 2008 were:

	<b>2009</b>	<b>2008</b>
Homocysteine assay	\$ <b>18,000</b>	\$ 276,000
Plant Regeneration	\$ <b>132,000</b>	\$ -
Plasma display	\$ <b>30,000</b>	\$ 150,000
Sexual dysfunction	\$ -	\$ 320,000

As a percentage of total retained royalties for the same periods, these technologies represented:

	<b>2009</b>	<b>2008</b>
Homocysteine assay	<b>7%</b>	28%
Plant Regeneration	<b>51%</b>	-%
Plasma display	<b>11%</b>	15%
Sexual dysfunction	<b>-%</b>	33%

The homocysteine assay is a diagnostic blood test used to determine homocysteine levels and a corresponding deficiency of folate or vitamin B12. Studies suggest that high levels of homocysteine may be a primary risk factor for cardiovascular, vascular and Alzheimer's diseases, and rheumatoid arthritis. The main patent for this technology expired in July 2007. We expect to receive revenue from this technology for sales made prior to that date. We will not receive revenue for sales made after that date. We are in litigation with Carolina Liquid Chemistries Corporation, and others, to recover funds that we believe are due us for homocysteine assays kits manufactured, sold or offered for sale in infringement of our patent. (For further information, see **Item 3. Legal Proceedings.**) (For further information see **Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.**)

The plant regeneration technology has been assigned to the University of Pennsylvania who pays us a royalty on any income earned from exploiting this technology. The technology is currently exclusively licensed to Syngenta Biotechnology, Inc.

The plasma display technology is subject to annual minimum license fees. For fiscal 2009 we were able to record \$30,000 in revenue based upon our receipt of the minimum license fee. This patent expired in August 2009 and we will receive no more royalties on this technology.

On September 11, 2007, we presented Palatin with a Notice of Termination of the PT-14 technology license agreement, related to our sexual dysfunction technology, stating that Palatin committed a material breach of the agreement originally signed between the two companies on March 31, 1998. On January 22, 2008, we announced an agreement with Palatin terminating the March 31, 1998 agreement. As part of the January agreement, Palatin agreed to pay CTT \$800,000. These funds were received in January 2008. CTT recorded revenue of \$320,000 and reduced patent enforcement expenses by \$480,000 in accordance with the agreement with our client. (For further information, see **Item 3. Legal Proceedings.**) CTT retains all rights to the technology commonly known as PT-14, and is planning to develop this technology. We received no revenue from this technology during fiscal 2009.

We receive revenue from legal awards that result from successful patent enforcement actions and/or out of court settlements. Such awards or settlements may be significant, are non-recurring and may include punitive damages, attorneys' fees, court costs and interest.

Other technologies in our life sciences portfolio, many of which are subject to testing, clinical trials and approvals, include:

- Nanotechnology bone cement biomaterial with a broad range of potential applications, including dental, spinal and other bone related applications. Exclusively licensed to Soteira Inc. for human spinal applications;
- Breast Cancer Test, a non-invasive device that generates an analysis that detects angiogenesis, using adhesive pads embedded with hundreds of thermistors, micro-thermometers;
- Sunless tanning agent, a skin-pigment enhancer being researched as a skin cancer preventative, and therapeutic for vitiligo, albinism and psoriasis, exclusively licensed to Clinuvel Pharmaceuticals, Ltd. (Australia);
- Lupus Diagnostic and Monitoring technology, a cost-effective scalable testing platform used to detect and monitor the autoimmune disease, Lupus;

Our applied science/electronics portfolio includes:

- Encryption technology that operates at high speeds with low memory requirements to secure applications used on the Internet, telecommunications, smart cards and e-commerce;
- Video and audio signal processing technology licensed in the Motion Picture Electronics Group visual patent portfolio pool (MPEG 4 Visual), and used in streaming video products for personal computers and wireless devices, including mobile phones;
- Radio Alert Warning System, a low powered dual-mode transmitter capable of short-range interruption of commercial radio broadcasting with a message alerting of an emergency situation;
- Structural Steel Fissure Detection Paint contains a built-in, self-activating, crack-indicating or warning capability effective coincident with application of the paint to the structure, and requiring minimum training for its use.

### **Retained Royalties from Foreign Sources**

Retained royalties received from foreign licensees totaled approximately \$43,000 and \$237,000, in 2009 and 2008, respectively. Of the foreign sourced royalties received, \$32,000 and \$176,000, in 2009 and, 2008, respectively, were from Japanese licenses.

### **Investments**

From time to time we provide other forms of assistance and funding to certain development-stage companies to further develop specific technologies.

### **Employees**

As of October 13, 2009, we employed the full-time equivalent of 9 people. We also had independent consultants under contract to provide business development services. In addition to the diverse technical, intellectual property, legal, financial, marketing and business expertise of our professional team, from time to time we rely on advice from outside specialists to fulfill unique technology needs.

### **Corporate Governance**

CTT's Corporate Governance Principles, Corporate Code of Conduct, the Committee Charters for the Audit and Nominating Committees of the Board of Directors, the unofficial restated Certificate of Incorporation and the By-Laws are available on our website at [www.competitivetech.net/investors/governance.html](http://www.competitivetech.net/investors/governance.html).

## Available Information

We make available without charge copies of our Annual Report, Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, amendments to those, and other reports filed with the Securities and Exchange Commission ("SEC") on our website, [www.competitivetech.net](http://www.competitivetech.net), as soon as reasonably practicable after they are filed. Our website's content is not intended to be incorporated by reference into this report or any other report we file with the SEC. You may request a paper copy of materials we file with the SEC by calling us at (203) 368-6044.

You may read and copy materials we file with the SEC on the SEC's website at [www.sec.gov](http://www.sec.gov), or at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549. You may obtain information on the operation of the Public Reference Room by calling (800) 732-0330.

## Fiscal Year

Our fiscal year ends July 31, and our first, second, third and fourth quarters end October 31, January 31, April 30 and July 31, respectively.

## Item 1A. Risk Factors

### **Risks Related to our Business and the Market Environment**

The risk factors described below are not all-inclusive. All risk factors should be carefully considered when evaluating our business, results of operations, and financial position. We undertake no obligation to update forward-looking statements or risk factors. There may be other risks and uncertainties not highlighted herein that may affect our financial condition and business operations.

***Certain of our licensed patents have recently expired or will expire in the near future and we may not be able to replace their royalty revenue.***

In 2009, we earned retained royalties from licenses for 12 patented technologies. The patents for six of those patented technologies have or will expire between 2009 and 2011. Those patented technologies represented approximately 32% of our retained royalties in 2009. Retained royalties of approximately \$50,000, or 19%, \$15,000, or 6%, and \$18,000, or 7%, were from patents expiring in fiscal, 2009, 2010 and 2011, respectively. The loss of this revenue will materially and adversely affect our operating results if we are unable to replace it with revenue from other licenses or sources. Since it often takes two or more years for a technology to produce significant revenue, we continuously seek new sources of future revenue.

***Sales of our common stock to Fusion Capital Fund II, LLC ("Fusion Capital") will cause dilution to current shareholders and Fusion's resale of those shares of common stock could cause the price of our common stock to decline.***

In August 2009, we entered into an agreement with Fusion Capital Fund II, LLC (the "2009 Agreement") to sell up to \$8 million of our common stock to Fusion Capital over a twenty-five (25) month period, subject to certain limitations and extensions. This was a new agreement, separate from the July 2008 agreement (the "2008 Agreement") with the same company that was terminated in August 2009. The purchase price for the common stock to be issued to Fusion Capital pursuant to the 2009 Agreement fluctuates based on the price of our common stock. The purchase price per share, not to be below \$1 per share, is equal to the lesser of: (1) the lowest sale price of our common stock on the purchase date or (2) the average of the three (3) lowest closing sale prices of our common stock during the twelve (12) consecutive trading days prior to the date of a purchase by Fusion Capital. Pursuant to a registration statement filed with the SEC, all shares sold to Fusion Capital are freely tradable.

Fusion Capital may sell none, some or all of the shares of common stock purchased from us at any time. We expect that Fusion Capital will resell any shares that they purchase over a period of up to twenty-five (25) months from the date of the 2009 Agreement. Depending upon market liquidity at the time, a sale of shares by Fusion Capital

at any given time could cause the trading price of our common stock to decline. The sale of a substantial number of shares of our common stock, or the anticipation of such sales, could make it more difficult for us to sell equity or equity-related securities in the future at a time and price at which we might otherwise wish to effect sales.

There were 1,962,823 shares of our common stock registered for sale to Fusion Capital, including 86,933 commitment shares that were issued on October 2, 2009 and additional commitment shares issuable under the agreement. The 1,962,823 registered shares equaled 19.9% of our outstanding shares of common stock at July 31, 2009. In addition to the 86,933 shares which were issued to Fusion Capital as an initial commitment fee on October 2, 2009 we may issue an additional 86,933 commitment shares to Fusion Capital as we sell shares to Fusion Capital.

Since July 31, 2009 through October 27, 2009, we sold 210,197 shares, and issued 4,890 Commitment Shares of our common stock to Fusion Capital for approximately \$450,000, and amortized approximately \$34,089 of deferred charges against capital in excess of par value.

The sale of shares to Fusion Capital may result in significant dilution to the ownership interests of other holders of our common stock. The amount of dilution would be higher if the per share market price of our common stock is lower at the time we sell shares to Fusion Capital, since a lower market price would cause more shares of our common stock to be issued to Fusion Capital for the same proceeds. Subsequent sales of these shares in the open market by Fusion Capital may also have the effect of lowering our stock price, thereby increasing the number of shares issuable to them under the common stock purchase agreement and consequently further diluting our outstanding shares. Although we have the right to reduce or suspend sales to Fusion Capital at any time, our financial condition at the time may require us to waive our right to suspend purchases even if there is a decline in the market price. Furthermore, the dilution caused by the issuance of shares to Fusion Capital may cause other shareholders to elect to sell their shares of our common stock, which could cause the trading price of our common stock to decrease. In addition, prospective investors anticipating the downward pressure on the price of our common stock due to the shares available for sale by Fusion Capital could refrain from purchases or cause sales or short sales in anticipation of a decline of the market price, which may itself cause the price of our stock to decline.

***In four of the last five fiscal years, we incurred significant net losses and negative cash flows, and our ability to finance future losses is limited, and may significantly affect existing stockholders.***

The table below summarizes our consolidated results of operations and cash flows for the five years ended July 31, 2009:

	2009	2008	2007	2006	2005
Net income (loss)	<b>\$ (3,479,824)</b>	\$ (5,966,454)	\$ (8,893,946)	\$ (2,377,224)	\$ 5,701,787
Net cash flows from:					
Operating activities	<b>(3,451,630)</b>	(4,994,411)	(5,437,443)	(3,527,318)	5,006,936
Investing activities	<b>(1,490)</b>	792,539	(978,217)	(141,644)	803,220
Financing activities	<b>1,968,096</b>	(133,109)	78,425	2,298,726	4,159,711
Net increase (decrease) in cash and cash equivalents	<b>\$ (1,485,024)</b>	\$ (4,334,981)	\$ (6,337,235)	\$ (1,370,236)	\$ 9,969,867

The Company incurred an operating loss for fiscal 2009, as well as operating losses in fiscal 2008, 2007 and 2006. During fiscal 2007, we had a significant concentration of revenues from our homocysteine assay technology. The main patent for this technology expired in July 2007 and we will not receive revenues for sales made after that date. Revenue in 2008 for the homocysteine technology reflects previously unreported back royalties. We continue to seek revenue from new technologies or products to mitigate the concentration of revenues, and replace revenues from expiring licenses. At current reduced spending levels, the Company may not have sufficient cash flow to fund operating expenses beyond second quarter fiscal 2010. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include adjustments to reflect the possible future effect of the recoverability and classification of assets or amounts and classifications of liabilities that may result from the outcome of this uncertainty.

The Company's continuation as a going concern is dependent upon its developing other recurring revenue streams sufficient to cover operating costs. If necessary, we will meet anticipated operating cash requirements by further reducing costs, and/or pursuing sales of certain assets and technologies while we pursue licensing and distribution opportunities for our remaining portfolio of technologies. The company does not have any significant individual cash or capital requirements in the budget going forward. In addition, we will sell shares to Fusion Capital per our 2009 Agreement, on an as-needed basis, when the Company's stock price is at or above \$1.00 per share. There can be no assurance that the Company will be successful in such efforts or that we will be able to obtain alternative financing should our stock price fall below \$1.00 per share. Failure to develop a recurring revenue stream sufficient to cover operating expenses would negatively affect the Company's financial position.

Our current recurring revenue stream is insufficient for us to be profitable with our present cost structure. In 2005 we were profitable because of unusually large, upfront license fees related to our homocysteine technology that did not recur in 2009, 2008, 2007 or 2006. To return to and sustain profitability, we must increase recurring revenue by successfully licensing technologies with current and long-term revenue streams, and continue to build our portfolio of innovative technologies. We significantly reduced overhead costs with staff reductions across all company departments, reduced extraneous litigations, and obtained new technologies to build revenue. We will continue to monitor our cost structure, and expect to operate within our generated revenue and cash balances.

In July 2008, to improve our financial condition we entered into an equity financing arrangement with Fusion ("Fusion 2008") for up to \$5.0 million of cash through sales of our common stock, at our option. We terminated the Fusion 2008 agreement in August 2009, and entered into a new agreement with Fusion ("Fusion 2009") for the sale of up to \$8 million of common stock in August 2009.

Future revenue, obtaining rights to new technologies, granting licenses, and enforcing intellectual property rights are subject to many factors beyond our control. These include technological changes, economic cycles, and our licensees' ability to successfully commercialize our technologies. Consequently, we may not be able to generate sufficient revenue to be profitable. Although we cannot be certain that we will be successful in these efforts, we believe the combination of our cash on hand, the ability to raise funds from sales of our common stock under the Fusion 2009 agreement, and revenue from successfully executing our strategy will be sufficient to meet our obligations of current and anticipated operating cash requirements.

***We depend on relationships with inventors to gain access to new technologies and inventions. If we fail to maintain existing relationships or to develop new relationships, we may have fewer technologies and inventions available to generate revenue. Technology can change rapidly and industry standards continually evolve, often making products obsolete, or resulting in short product lifecycles. Our profitability depends on our licensees' ability to adapt to such changes.***

We do not invent new technologies or products. We depend on relationships with universities, corporations, government agencies, research institutions, inventors, and others to provide technology-based opportunities that can develop into profitable licenses, and/or allow us to share in the profits of distribution. Failure to maintain or develop relationships could adversely affect operating results and financial conditions. We are dependent upon our clients' abilities to develop new technologies, introduce new products, and adapt to technology and economic changes.

We cannot be certain that current or new relationships will provide the volume or quality of technologies necessary to sustain our business. In some cases, universities and other technology sources may compete against us as they seek to develop and commercialize technologies. Universities may receive financing for basic research in exchange for the exclusive right to commercialize resulting inventions. These and other strategies may reduce the number of technology sources, potential clients, to whom we can market our services. If we are unable to secure new sources of technology, it could have a material adverse effect on our operating results and financial condition.

***We receive most of our revenue from customers over whom we have no control.***

We rely on our customers for revenue. Development of new products utilizing our technology involves risk. Many technologies do not become commercially profitable products despite extensive development efforts. Our license agreements do not require customers to advise us of problems they encounter in development of commercial

products, and usually treat such information as confidential. Their failure to resolve problems may result in a material adverse effect on our operating results and financial condition.

***Strong competition within our industry may reduce our client base.***

We compete with universities, law firms, venture capital firms and other technology commercialization firms. Many organizations offer some aspect of technology transfer services, and are well established with more financial and human resources than we provide. This market is highly fragmented and participants frequently focus on a specific technology area.

***From time-to-time we are involved in lawsuits that historically have involved significant legal expenses. If the courts or regulatory agencies in these suits or actions decide against us, this could have a material adverse effect on our business, results of operations and financial condition. Legal fees and other costs we incurred in 2009 relating to the current cases were significant, and the amount of costs we incur in the future may be significant.***

For a complete description of all lawsuits in which we are currently involved, see **Item 3. Legal Proceedings.**

***Our revenue growth depends on our ability to understand the technology requirements of our customers in the context of their markets. If we fail to understand their technology needs or markets, we limit our ability to meet those needs and generate revenues.***

By focusing on the technology needs of our customers, we are better positioned to generate revenue by providing technology solutions. The market demands of our customers drive our revenue. The better we understand their markets, the better we are able to identify and obtain effective technology solutions for our customers. We rely on our professional staff and contract business development consultants to understand our customers' technical, commercial, and market requirements and constraints, to identify and obtain effective technology solutions for them.

***Our success depends on our ability to attract and retain key personnel.***

Our success depends on the knowledge, efforts and abilities of a small number of key personnel, including John B. Nano, our Chairman, President, Chief Executive Officer and Interim Chief Financial Officer. We rely on our professional staff and contract business development consultants to identify intellectual property opportunities and technology solutions, and to negotiate and close license agreements. Competition for personnel with the necessary range and depth of experience is intense. We cannot be certain that we will be able to continue to attract and retain qualified personnel. If we are unable to hire and retain highly qualified professionals and consultants, especially with our small number of staff, our revenue, financial condition and future activities could be materially adversely affected.

***Our customers, and we, depend on government approvals to commercially develop certain licensed products.***

Commercial development of some licensed patents may require the approval of foreign or domestic governmental regulatory agencies, especially in the life sciences area, and there is no assurance that those agencies will grant such approvals. In the United States, the principal governmental agency involved is the U.S. Food and Drug Administration ("FDA"). The FDA's approval process is rigorous, time consuming and costly. Until a licensee obtains approval for a product requiring such approval, the licensee may not sell the product in the U.S., and therefore we will not receive revenue based on U.S. sales.

***If we, and our clients, are unable to protect the intellectual property underlying our licenses, or to enforce our patents adequately, we may be unable to develop such licensed patents or technologies successfully.***

License revenue is subject to the risk that issued patents may be declared invalid, may not be issued upon application, or that competitors may circumvent or infringe our licensed patents rendering them commercially inadequate. When all patents underlying a license expire, our revenue from that license ceases, and there can be no assurance that we will be able to replace it with revenue from new or existing licenses.

***Patent litigation has increased; it can be expensive, and may delay or prevent our customers' products from entering the market.***

Our clients and/or we may pursue patent infringement litigation or interference proceedings against holders of conflicting patents or sellers of competing products that we believe infringe our patent rights. For a description of proceedings in which we are currently involved, see **Item 3. Legal Proceedings.**

We cannot be certain that our clients and/or we will be successful in any litigation or proceeding. The costs and outcome may materially adversely affect our business, operating results and financial condition.

***Developing new products, and creating effective commercialization strategies for technologies are subject to inherent risks that include unanticipated delays, unrecoverable expenses, technical problem, and the possibility that development funds will be insufficient. The occurrence of any one or more of these risks could cause us to abandon or substantially change our technology commercialization strategy.***

Our success depends upon, among other factors, our clients' ability to develop new or improved technologies, and our customers' products meeting targeted cost and performance objectives for large-scale production, adapting technologies to satisfy industry standards and consumer expectations and needs, and bringing the product to market before saturation. They may encounter unanticipated problems that result in increased costs or substantial delays in the product launch. Products may not be reliable or durable under actual operating conditions, or commercially viable and competitive. They may not meet price or other performance objectives when introduced into the marketplace. Any of these events may adversely affect our realization of revenue from new products.

***We have not paid dividends on our common stock.***

We have not paid cash dividends on our common stock since 1981, and, our Board of Directors does not currently have plans to declare or pay cash dividends in the future. The decision to pay dividends is solely at the discretion of our Board of Directors based upon factors that they deem relevant, and may change at any time.

***In developing new products we are affected by patent laws and regulations.***

Patent laws and regulations are continuously reviewed for possible revision. We cannot be certain how we will be affected by revisions.

***The price of our common stock may fall below \$1.00 and we may be unable to sell shares to Fusion or obtain alternate equity financing.***

In early 2009, the global equity markets collapsed and our common stock traded at around \$1.00. Per our Fusion 2009 equity financing agreement, Fusion is not required to purchase common stock from us when our stock trades below \$1.00. There is no guarantee that we would be able to obtain alternate financing.

***Our common stock could be delisted from the NYSE Amex making it difficult to trade shares of our common stock.***

On December 2, 2008, we received notice from the NYSE Amex, then known as NYSE Alternext US LLC (the "Exchange"), notifying us that the staff of the Exchange Corporate Compliance Department had determined that the Company Form 10-K for the fiscal year ended July 31, 2008 did not meet continued listing standards as set forth in Part 10 of the Exchange Company Guide, and the Company has therefore become subject to the procedures and requirements of Section 1009 of the Exchange Company Guide. As noted in Section 1003 of the Exchange Company Guide, companies with stockholders' equity of less than \$2 million, and losses from continuing operations and net losses in two out of its three most recent fiscal years, or with stockholders' equity of less than \$4 million and losses from continuing operations and net losses in three out of its four most recent fiscal years are non-compliant.

On December 18, 2008, the company submitted a business plan to the Exchange detailing actions it will take to bring it into compliance with the above continued listing standards by June 2, 2010. On January 22, 2009, the Exchange accepted our business plan.

The Company will continue its listing during the plan period up to June 2, 2010, during which time it will be subject to periodic review to determine whether it is making progress consistent with the plan. If the Company is not in compliance with the continued listing standards at the conclusion of the plan period or does not make progress consistent with the plan during the plan period, the Exchange staff will initiate delisting procedures as appropriate. The Company is allowed to appeal a staff determination to initiate delisting proceedings in accordance with Section 1010 and Part 12 of the Exchange Company Guide. The company fully expects to be in compliance with continued listing standards by June 2, 2010, but cannot provide any assurance that it will be. Per the 2009 Agreement with Fusion Capital, should we be delisted from the exchange and unable to obtain listing with another exchange, we will be unable to sell shares to Fusion Capital.

### **Item 1B. Unresolved Staff Comments**

None.

### **Item 2. Properties**

Our executive offices are approximately 11,000 square feet of leased space in a building in Fairfield, Connecticut. The seven-year lease commenced August 24, 2006, and expires August 31, 2013. We have an option to terminate the lease after five years, or renew for an additional five years under similar terms and conditions. The average annual base rent is approximately \$265,000 over the life of the lease, after incentives, exclusive of taxes, climate control, power and maintenance. Management has sub-leased some excess space and is seeking additional sub-tenants.

### **Item 3. Legal Proceedings**

*Carolina Liquid Chemistries Corporation, et al.* (Case pending) – On August 29, 2005, we filed a complaint against Carolina Liquid Chemistries Corporation ("Carolina Liquid") in the United States District Court for the District of Colorado, alleging patent infringement of our patent covering homocysteine assays, and seeking monetary damages, punitive damages, attorneys' fees, court costs and other remuneration at the option of the court. Carolina Liquid was served on September 1, 2005. As we became aware of other infringers, we amended our complaint to add as defendants Catch, Inc. ("Catch") and the Diazyme Laboratories Division of General Atomics ("Diazyme"). On September 6, 2006, Diazyme filed for declaratory judgment in the Southern District of California for a change in venue and a declaration of non-infringement and invalidity. On September 12, 2006, the District Court in Colorado ruled that both Catch and Diazyme be added as defendants to the Carolina Liquid case. On October 23, 2006, Diazyme requested the United States Patent and Trademark Office (the "USPTO") to re-evaluate the validity of our patent and this request was granted by the USPTO on December 14, 2006. On July 30, 2009, the homocysteine patent was upheld by the U.S. Patent and Trademark Office's Board of Patent Appeals and Interferences (BPAI). In September 2008, the patent had been denied by the examiner, but that denial was overruled by the BPAI. Further action in this case is pending as the BPAI result will now be returned to the U.S District Court for the District of Colorado.

*Ben Marcovitch and other co-defendants* (Case completed) – On August 8, 2007, we announced that former CTT Director Ben Marcovitch had been removed for cause from our Board of Directors by unanimous vote of CTT's five Directors for violating CTT's Code of Conduct. At that time, CTT also withdrew from its involvement with Agrofrut, E.U., a nutraceutical firm brought to CTT by Mr. Marcovitch. As announced on April 10, 2007, CTT had paid \$750,000 to Agrofrut for a 5% ownership, and certain marketing and investment options in Agrofrut.

On August 31, 2007, we filed a Federal complaint in the U.S. District Court for the District of Connecticut against Mr. Marcovitch, Betty Rios Valencia, President and CEO of Agrofrut and former spouse of Mr. Marcovitch, John Derek Elwin, III, a former CTT employee, and other defendants. The complaint claims that false and misleading information had been provided to CTT in a conspiracy to fraudulently obtain funds from CTT using the Agrofrut transaction. We have requested, among other relief, punitive damages and attorneys' fees. It is our opinion and that of

our Board of Directors that this lawsuit is required to recover our \$750,000 and to settle outstanding issues regarding the named parties.

On October 22, 2007, at a show cause hearing, the Court stated that all defendants named in the case, and their associates, were enjoined from any further use of any remaining part of the \$750,000 received from CTT. The Court ordered a full disclosure of all accounts where remaining funds are held, and a complete description of the disposition of any portion of the CTT payment must be made to CTT's counsel. On October 30, 2007, in amended complaint, CTT sought injunctive relief and damages against Sheldon Strauss for conspiring with Mr. Marcovitch to unlawfully solicit proxies in violation of Securities Exchange Act of 1934.

At a December 7, 2007 hearing, the Court requested CTT to specify an appropriate Prejudgment Remedy for the Court to consider. On December 20, 2007, a Prejudgment Remedy was issued granting garnishment of the \$750,000 CTT is seeking to recover.

On January 11, 2008, the Court denied the defendants' attempts at demonstrating that Connecticut was not the proper jurisdiction for these hearings.

On April 22, 2008, the Court ruled that the defendants must make arrangements for depositions to be completed by May 2, 2008, a date that was then extended by the Court. The Court granted permission for the defendants' depositions to be conducted via video conferencing when the defendants indicated their inability to travel to the Connecticut court. The depositions were conducted on June 2, 2008.

On June 23, 2008, the Court ruled that the defendants are compelled to respond to interrogatories and to produce any supplemental discovery documents by the deadline of July 7, 2008.

On August 15, 2008, CTT filed a motion for Summary Judgment. A Memorandum in Opposition was filed by Marcovitch, et al, on September 15, 2008. CTT responded to the Memorandum on September 24. The judge denied the Summary Judgment Motion on April 6, 2009. On June 1, 2009, the Judge granted permission to CTT to enter a Motion for Default Judgment against Agrofrut and Sheldon Strauss. On June 4, 2009, the Judge granted permission for CTT to enter a Motion for Default Judgment against Ben Marcovitch and Betty Rios Valencia. These Default motions were filed on June 15, 2009.

On September 8, 2009, the Judge ruled favorably on CTT's motion for default judgment. The judgment entered against Marcovitch, Rios Valencia, Agrofrut and Strauss, jointly and severally, is for \$750,000, as well as reasonable attorneys' fees and costs of \$600,788. Additionally, judgments were entered against Marcovitch, Rios Valencia, and Agrofrut, jointly and severally, for \$2.25 million, treble damages, and for \$600,788, punitive damages. A judgment was also entered against Rios Valencia and Agrofrut, jointly and severally, for punitive damages of \$750,000. The judge confirmed that Marcovitch was properly removed as a member of CTT's Board of Directors and issued a permanent injunction prohibiting Marcovitch from holding himself out as a member of CTT's Board. A judgment was entered against Strauss prohibiting Strauss from soliciting proxies in contravention of the SEC rules and regulations. Based on the Court's rulings, CTT will now proceed to collect all funds possible from the parties.

*Employment matters – former employee* (Cases pending) – In September 2003, a former employee filed a whistleblower complaint with OSHA alleging that the employee had been terminated for engaging in conduct protected under the Sarbanes Oxley Act of 2002 (SOX). In February 2005, OSHA found probable cause to support the employee's complaint and ordered reinstatement and payment of damages. CTT filed objections and requested a *de novo* hearing before an Administrative Law Judge ("ALJ"). Based on evidence submitted at the May 2005 hearing, in October 2005 the ALJ issued a written decision recommending dismissal of the employee's claim without relief. The employee then appealed the case to the Administrative Review Board ("ARB"). In March 2008, the ARB issued a decision and order of remand, holding that the ALJ erred in shifting the burden of proof to CTT based on a mere inference of discrimination and remanding the case to the ALJ for clarification of the judge's analysis under the appropriate burden of proof. In January 2009, the ALJ ruled in favor of CTT on the ARB remand. The employee has now appealed the January 2009 ALJ ruling to the ARB and we await the ARB's decision. The employee had previously requested reconsideration of the ARB order of remand based on the Board's failure to address the employee's appeal issues; that request was denied by the ARB in October 2008.

In August 2007, the same former employee filed a new SOX whistleblower complaint with OSHA alleging that in April 2007 CTT and its former general counsel retaliated against the employee for past-protected conduct by refusing to consider the employee's new employer when awarding a consulting contract. In March 2008, OSHA dismissed the employee's complaint citing the lack of probable cause. The employee filed objections and requested *de novo* review by an ALJ. In August 2008, the employee gave notice of intent to terminate proceedings before the ALJ and remove the case to federal district court. In October 2008, the former employee moved to voluntarily dismiss with prejudice the case before the ALJ. We anticipate no further action on this matter.

On September 5, 2008, CTT filed a complaint in the U.S. District Court for the District of Connecticut against the former employee seeking a declaration that CTT did not violate SOX as alleged in the employee's 2007 OSHA complaint, and to recover approximately \$80,000 that CTT paid to the employee in compliance with a court order that was subsequently vacated by the U.S. Court of Appeals for the Second Circuit. On July 1, 2009, the judge ruled in favor of the former employee's motion to dismiss. The court abstained from ruling on the question of unjust enrichment due to the unresolved questions before the Department of Labor Administrative Review Board.

On December 4, 2008, the former employee filed a complaint with the Department of Labor asking to have the Connecticut case dismissed. On June 1, 2009, the Department dismissed the former employee's complaint, finding that "there is no reasonable cause to believe that the Respondent (CTT) violated SOX". We anticipate no further action on this matter.

*Federal Insurance Co.* (Case completed) – On April 2, 2008, CTT filed a complaint in the U.S. District Court for the District of Connecticut against Federal Insurance, seeking the coverage to which it is entitled under its policy with Federal. CTT asserts that Federal is obligated to insure CTT for its legal fees and \$750,000 loss associated with the case involving Ben Marcovitch and other co-defendants.

In September 2008, we received \$400,000 against a claim under our fraud insurance policy in full settlement of this matter with Federal.

*Summary* – We may be a party to other legal actions and proceedings from time to time. We are unable to estimate legal expenses or losses we may incur, or damages we may recover in these actions, if any, and have not accrued potential gains or losses in our financial statements. Expenses in connection with these actions are recorded as they are incurred.

We believe we carry adequate liability insurance, directors' and officers' insurance, casualty insurance, for owned or leased tangible assets, and other insurance as needed to cover us against claims and lawsuits that occur in the ordinary course of our business. However, an unfavorable resolution of any or all matters, and/or our incurrence of legal fees and other costs to defend or prosecute any of these actions may have a material adverse effect on our consolidated financial position, results of operation and cash flows in a particular period.

#### **Item 4. Submission of Matters to a Vote of Security Holders**

At the Annual Meeting of Shareholders held April 17, 2009, shareholders voted on the following issues:

- Election of Directors

<u>Election of Directors</u>	<u>For</u>	<u>Withheld</u>
Joel M. Evans, M.D.	7,312,722	528,381
Richard D. Hornidge, Jr.	7,513,258	327,845
Rustin Howard	7,039,824	801,279
John B. Nano	5,681,714	2,159,389
William L. Reali	7,451,988	389,115

- Ratification of selection of MHM Mahoney Cohen CPAs as the independent public accounting firm:

<u>Accounting Firm</u>	<u>For</u>	<u>Against</u>	<u>Abstained</u>
MHM Mahoney Cohen CPAs	7,533,421	165,088	143,594

Pursuant to an asset purchase agreement, our former independent public accounting firm, Mahoney Cohen & Company, CPA, P.C. was acquired by the New York practice of Mayer Hoffman McCann P.C ("MHM"), and the shareholders of Mahoney Cohen became shareholders of MHM. Following its acquisition of Mahoney Cohen, MHM changed its name to MHM Mahoney Cohen CPAs, effective December 31, 2008.

#### **Item 4A. Executive Officers of the Registrant**

The name of our executive officer, his age and background information is as follows:

*John B. Nano, 64*, has served as our President and Chief Executive Officer and Interim Chief Financial Officer, as well as Chairman of the Board of Directors, since February 2007. From January 2006 to January 2007 he served as President and Chief Executive Officer of Articulated Technologies, LLC., a company involved in creating and commercializing patented light emitting diode technologies for global solid state lighting applications. He is currently a member of their Board of Directors. Mr. Nano served as President and Chief Executive Officer, and a member of the Board of CTT from June 2002 through June 2005. Prior to joining CTT, Mr. Nano served as a Principal reporting to the Chairman of Stonehenge Networks Holdings, N.V., a global virtual private network provider, with positions in operating, strategic planning and finance from 2000 to 2001. From 1998 to 1999, Mr. Nano served as Executive Vice President and Chief Financial Officer of ConAgra Trade Group, a subsidiary of ConAgra, Inc., an international food company. From 1983 to 1998, he served as Executive Vice President, Chief Financial Officer and President of an Internet Startup Division of Sunkyoung America, a subsidiary of the Korean conglomerate, Sunkyoung Group.

## **PART II**

#### **Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities**

*Market information.* Our common stock has been traded on the American Stock Exchange ("AMEX") under the ticker symbol CTT since April 25, 1984. Effective October 1, 2008 the NYSE Euronext completed its acquisition of the AMEX. The new entity is now known as NYSE Amex. CTT's ticker symbol remains the same on the new entity. The following table, sets forth for the periods indicated, the quarterly high and low trading prices for our common stock, as reported by the NYSE Amex.

<b>Year Ended July 31, 2009</b>			<b>Year Ended July 31, 2008</b>		
	<u>High</u>	<u>Low</u>		<u>High</u>	<u>Low</u>
First Quarter	<b>\$3.00</b>	<b>\$1.02</b>	First Quarter	\$3.05	\$2.02
Second Quarter	<b>\$1.55</b>	<b>\$0.76</b>	Second Quarter	\$2.45	\$1.25
Third Quarter	<b>\$1.80</b>	<b>\$0.54</b>	Third Quarter	\$1.93	\$1.12
Fourth Quarter	<b>\$2.84</b>	<b>\$1.41</b>	Fourth Quarter	\$3.42	\$1.60

*Holders.* At October 27, 2009, there were approximately 528 holders of record of our common stock.

*Dividends.* No cash dividends were declared on our common or preferred stocks during the last two fiscal years.

## COMPETITIVE TECHNOLOGIES, INC.

### **Item 6. Selected Financial Data** <sup>(1) (4)</sup>

	2009	2008	2007	2006	2005
<b>Statement of Operations Summary:</b>					
Total revenues <sup>(2)</sup>	\$ 348,240	\$ 1,193,353	\$ 4,167,216	\$ 5,187,631	\$ 14,174,354
Net income (loss) <sup>(2) (3)</sup>	\$ (3,479,824)	\$ (5,966,454)	\$ (8,893,946)	\$ (2,377,224)	\$ 5,701,787
Net income (loss) per share:					
Basic	\$ (0.40)	\$ (0.73)	\$ (1.11)	\$ (0.31)	\$ 0.84
Assuming dilution	\$ (0.40)	\$ (0.73)	\$ (1.11)	\$ (0.31)	\$ 0.78
Weighted average number of common shares outstanding:					
Basic	8,740,419	8,156,343	8,040,455	7,651,635	6,762,553
Assuming dilution	8,740,419	8,156,343	8,040,455	7,651,635	7,324,701
<b>Year-end Balance Sheet Summary:</b>					
			At July 31,		
Cash and cash equivalents	\$ 752,071	\$ 2,237,095	\$ 6,572,076	\$ 12,909,311	\$ 14,279,547
Total assets	1,401,491	3,110,983	9,712,733	18,416,901	19,441,093
Total long-term obligations	81,418	78,822	62,624	-	-
Total shareholders' interest	285,168	1,593,436	7,598,816	14,454,200	14,107,881

- (1) This summary should be read in conjunction with our Consolidated Financial Statements and Notes thereto. All amounts in these notes are rounded to thousands.
- (2) 2008 includes \$320,000 for the settlement of our dispute with Palatin regarding their breach of our License Agreement. 2007 includes \$806,000 for the sale of video compression patents. 2006 includes upfront license fees totaling \$460,000. 2005 includes homocysteine upfront license fees totaling \$6,181,000, settlements with JDS Uniphase and Palatin totaling \$1,390,000, \$930,000 of dividends, and \$1,037,000 from LabCorp awards.
- (3) 2009 includes \$400,000 insurance recovery in settlement of our legal action against Federal Insurance. 2008 includes recovery of \$480,000 in legal fees related to the settlement of our dispute with Palatin. 2007 includes \$877,000 of non-cash compensation related to stock options, \$1,650,000 for the settlement of the case, including legal fees, brought against us by John B. Nano, write-off of \$750,000 investment in non-public companies and related investigative fees of \$189,000, and \$711,000 of costs related to the proxy contest, including \$125,000 non-cash compensation in the form of shares of common stock. 2006 includes \$398,000 of non-cash compensation expense related to stock options and \$371,000 of legal costs relating to Mr. Nano. 2005 includes \$170,000 of non-cash compensation expense related to stock options, \$782,000 in defense costs relating to an OSHA claim by two former employees, and \$228,000 relating to compliance with Section 404 of the Sarbanes-Oxley Act.
- (4) No cash dividends were declared or paid in any year presented.

## **Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operation**

### **Forward-Looking Statements**

Statements about our future expectations are "forward-looking statements" within the meaning of applicable Federal Securities Laws, and are not guarantees of future performance. When used herein, the words "may," "will," "should," "anticipate," "believe," "appear," "intend," "plan," "expect," "estimate," "approximate," and similar expressions are intended to identify such forward-looking statements. These statements involve risks and uncertainties inherent in our business, including those set forth in Item 1A under the caption "Risk Factors," in this Annual Report on Form 10-K for the year ended July 31, 2009, and other filings with the SEC, and are subject to change at any time. Our actual results could differ materially from these forward-looking statements. We undertake no obligation to update publicly any forward-looking statement.

### **Overview**

Competitive Technologies, Inc. ("CTT"), was incorporated in Delaware in 1971, succeeding an Illinois corporation incorporated in 1968. CTT and its subsidiaries (collectively, "we," "our," or "us"), provide distribution, patent and technology transfer, sales and licensing services focusing on the needs of our customers, matching those requirements with commercially viable technology or product solutions. We develop relationships with universities, companies, inventors and patent or intellectual property holders to obtain the rights or a license to their intellectual property (collectively, the "technology" or "technologies"), or to their product. They become our clients, for whom we find markets to sell or further develop or distribute their technology or product. We also develop relationships with those who have a need or use for technologies or products. They become our customers, usually through a license or sublicense, or distribution agreement.

We earn revenues in two ways, from licensing our clients' and our own technologies to our customer licensees, and in a business model that allows us to share in the profits of distribution of finished products. Our customers pay us license fees, royalties based on usage of the technology, or per unit fees, and we share that revenue with our clients. Our revenue fluctuates due to changes in revenue of our customers, upfront license fees, new licenses granted, new distribution agreements, expiration of existing licenses or agreements, and/or the expiration or economic obsolescence of patents underlying licenses or products.

We acquire rights to commercialize a technology or product on an exclusive or non-exclusive basis, worldwide or limited to a specific geographic area. When we license or sublicense those rights to our customers, we may limit rights to a defined field of use. Technologies can be early, mid, or late stage. Products we evaluate must be a working prototype or finished product. We establish channel partners based on forging relationships with mutually aligned goals and matching competencies, to deliver solutions that benefit the ultimate end-user.

*Reliance on one revenue source.* In fiscal 2007, we had a significant concentration of revenue from our homocysteine assay technology. The main patent for this technology expired in July 2007 and we will not receive revenue for sales made after that date. Homocysteine revenue in 2008 reflects unreported back royalties. We continue to seek revenue from new technology licenses to mitigate the concentration of revenue, and replace revenue from expiring licenses. We have created a new business model for appropriate technologies that allows us to move beyond our usual royalty arrangement and share in the profits of distribution.

We filed a patent infringement complaint against three suspected infringers, but believe progress in this case may be subject to delaying tactics by the defendants, adding to the normal period of time it takes for such cases to work their way through the court system. In response to the action we filed, one defendant has requested that the United States Patent and Trademark Office ("USPTO") re-evaluate the validity of our patent. On July 30, 2009, the homocysteine patent was upheld by the U.S. Patent and Trademark Office's Board of Patent Appeals and Interferences (BPAI). In September 2008, the patent had been denied by the examiner, but that denial was overruled by the BPAI. Further action in this case is pending as the BPAI result will now be returned to the U.S District Court for the District of Colorado. (For further information, see **Item 3. Legal Proceedings.**)

*Presentation* All amounts in this Item 7 have been rounded to the nearest thousand dollars. All periods discussed in this Item 7 relate to our fiscal year ending July 31; first, second, third and fourth quarters ending October 31, January 31, April 30 and July 31, respectively.

The following discussion and analysis provides information that we believe is relevant to an assessment and understanding of our financial condition and results of operations. This discussion and analysis should be read in conjunction with our Consolidated Financial Statements and Notes thereto.

The Company incurred an operating loss for fiscal 2009, as well as an operating loss in fiscal 2008. During fiscal 2007, we had a significant concentration of revenues from our homocysteine assay technology. The patent for this technology expired in July 2007 and we will not receive revenues for sales made after that date. Revenue in 2008 for the homocysteine technology reflects previously unreported back royalties. We continue to seek revenue from new technologies or products to mitigate the concentration of revenues, and replace revenues from expiring licenses. At current reduced spending levels, the Company may not have sufficient cash flow to fund operating expenses beyond second quarter fiscal 2010. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include adjustments to reflect the possible future effect of the recoverability and classification of assets or amounts and classifications of liabilities that may result from the outcome of this uncertainty.

The Company's continuation as a going concern is dependent upon its developing other recurring revenue streams sufficient to cover operating costs. If necessary, we will meet anticipated operating cash requirements by further reducing costs, and/or pursuing sales of certain assets and technologies while we pursue licensing and distribution opportunities for our remaining portfolio of technologies. The company does not have any significant individual cash or capital requirements in the budget going forward. In addition, we will sell shares to Fusion Capital Fund II, LLC ("Fusion Capital") per our 2009 Agreement, on an as-needed basis, when the Company's stock price is at or above \$1.00 per share. There can be no assurance that the Company will be successful in such efforts or that we will be able to obtain alternative financing should our stock price fall below \$1.00 per share. Failure to develop a recurring revenue stream sufficient to cover operating expenses would negatively affect the Company's financial position.

## Results of Operations - 2009 vs. 2008

### Summary of Results

We incurred a net loss for 2009 of \$3,480,000, or \$0.40 per share, compared to a net loss for 2008 of \$5,966,000, or \$0.73 per share, a decreased loss of \$2,486,000, or \$.33 per share. The reasons for the decrease in net loss are explained in detail below.

### Revenues

Total revenue for 2009 was \$348,000, compared to \$1,193,000 for 2008, a decrease of \$845,000, or 71%.

*Retained royalties* for 2009 were \$261,000, which was \$712,000, or 73% lower than the \$973,000 reported in 2008. The following compares revenue from technologies with retained royalties greater than or equal to \$130,000 in 2009 or 2008.

	2009	2008	Increase (Decrease)	% Increase (Decrease)
Homocysteine assay	\$ 18,000	\$ 276,000	\$ (258,000)	(93)
Sexual dysfunction	-	320,000	(320,000)	(100)
Plant regeneration	132,000	-	132,000	-
Plasma display	30,000	150,000	(120,000)	(80)
All other technologies	81,000	227,000	(146,000)	(64)
<b>Total retained royalties</b>	<b>\$ 261,000</b>	<b>\$ 973,000</b>	<b>\$ (712,000)</b>	<b>(73)%</b>

The main patent for our homocysteine assay expired in July 2007. Revenue in 2008 was primarily from unreported back royalties. We will not receive significant revenue from this technology in the future.

During 2008, we announced an agreement with Palatin terminating the License Agreement of March 31, 1998 for our sexual dysfunction technology. As part of the agreement, Palatin agreed to pay CTT \$800,000. CTT recorded revenue of \$320,000 and reduced patent enforcement expenses by \$480,000 in accordance with the agreement with our client. We received no revenue from this technology during 2009.

Plant regeneration technology provided \$132,000 royalty income in fiscal 2009. This was primarily unreported back royalties. Going forward we expect this technology to provide revenue of approximately \$17,000 per year.

The patent on our plasma display technology expired in August 2009. We will not receive any more revenue from this technology.

*Investment income* includes dividends and interest earned on our invested cash. Investment income for 2009 was \$7,000, compared to \$159,000 in 2008 a decrease of \$152,000, or 96%. The decrease is due to lower average monthly cash balances in the current year compared to the prior year.

*Product sales* for 2009 represents sales of one pain therapy medical device and three electronic stress management and memory improvement devices (which we are no longer actively marketing). For 2008 sales are for our thermal therapy unit, which we no longer carry, and our electronic stress management and memory improvement product.

Sales of our pain therapy medical device will be recorded as net of amounts owed as royalties or revenue sharing with our manufacturing partner.

*Other income* for 2009 was primarily the proceeds of \$71,000 on the sale of our flip chip patent.

## Expenses

	2009	2008	Increase (Decrease)	% Increase (Decrease)
Cost of product sales	\$ 1,000	\$ 54,000	\$ (53,000)	(98)
Personnel and other direct expenses relating to revenues	2,024,000	3,202,000	(1,178,000)	(37)
General and administrative expenses	2,199,000	3,563,000	(1,364,000)	(38)
Patent enforcement expenses, net of reimbursements	2,000	42,000	(40,000)	(95)
Loss on permanent impairment of available-for-sale securities	-	228,000	(228,000)	(100)
Loss on sale of available-for-sale securities	-	71,000	(71,000)	(100)
Insurance recovery	(400,000)	-	(400,000)	-
Interest expense	3,000	-	3,000	-
<b>Total expenses</b>	<b>\$ 3,829,000</b>	<b>\$ 7,160,000</b>	<b>\$ (3,331,000)</b>	<b>(47)</b>

*Total expenses* decreased \$3,331,000 or 47% in 2009 compared to 2008.

*Cost of product sales* in 2008 represents final liquidation of our thermal therapy inventory. The remaining costs related to our electronic stress management and memory improvement device. All the costs for 2009 relate to our stress management and memory improvement device. We are no longer actively marketing this device.

*Personnel and other direct expenses relating to revenues* decreased a net \$1,178,000 or 37% in 2009, compared to 2008. Payroll and related benefits decreased by \$445,000 as a result of reducing full-time equivalent headcount from 16 to 9. Severance costs decreased \$207,000 as seven people were terminated in fiscal 2008 versus three in fiscal 2009. Employer 401(k) expenses were \$203,000 less in 2009 because we had initially recorded an accrual for the employer contribution of \$150,000 for fiscal 2008. The actual contribution for fiscal 2008 was only \$40,000 and we have accrued a contribution of \$50,000 for fiscal 2009. The following costs were incurred in fiscal 2008 and did not recur in fiscal 2009: \$20,000 to acquire the rights to our solar panel technology; \$21,000 to obtain the rights to an ultra-low power pulse-oximeter technology; \$106,000 paid to the University of Connecticut for development of an asthma assay; \$45,000 for the US launch of MC Square, our memory improvement device; \$14,000 of legal costs to evaluate a new technology from Virginia Commonwealth University, and \$14,000 of legal expenses to attempt to collect reported but unpaid homocysteine royalties. We incurred \$30,000 less in patent prosecution costs in fiscal 2009, as the initial prosecution costs on our pain therapy device were incurred in fiscal 2008. In addition, we reduced consulting costs by \$130,000 as management made a concerted effort to lower costs. These were offset by \$59,000 increase in costs related to the commercialization of our pain therapy medical device.

*General and administrative expenses* decreased a net \$1,364,000 or 38% in 2009, compared to 2008. The decrease in expenses is primarily due to the following reductions: legal fees as a result of less active litigation, \$859,000, primarily the Marcovitch case; marketing expenses, \$62,000, primarily due to the attendance at a major IP conference in 2008 not repeated in 2009 and a smaller presence at the 2009 Biotechnology Industry Conference; investor relations expenses as a result of negotiation of more favorable terms with outside consultants, \$83,000 auditing expenses due to an overaccrual of fiscal 2008 audit fees of approximately \$35,000. In addition, we had to pay BDO, our former auditor, \$15,000 in fiscal 2008 to obtain consents for an S-1. In addition, we saved \$88,000 by reducing travel and entertainment expenses, dues and subscriptions expenses, supplies and other miscellaneous office expenses as a result of lower headcount and concerted effort by management to reduce costs, \$112,000; lower workers compensation costs due to lower headcount, \$7,000; lower product liability costs due to elimination of coverage for our electronic stress relief and memory improvement device, \$15,000; and the decision to not repeat the CTT Innovation Conference, \$126,000. Other expenses incurred in 2008 and not repeated in 2009 include \$87,000 to market MC Square, our stress relief and memory improvement device. In addition, Directors Fees and Expenses decreased \$151,000, primarily due to lower equity compensation costs. We are subletting a portion of our excess office space, resulting in a \$10,000 savings in fiscal 2009. Our depreciation is \$10,000 less in fiscal 2009 as most of our office equipment is fully depreciated but not yet in need of replacement. These savings were offset by a negative bad debt expense of \$129,000 in fiscal 2008. In fiscal 2008 we reversed \$129,000 of previously recorded bad debt expense due to the receipt of previously disputed homocysteine royalties. We recorded no bad debt expense in fiscal 2009. In addition, our Sarbanes-Oxley compliance costs are \$93,000 higher in fiscal 2009. This is because the consultants we hired to perform our fiscal 2008 Sarbanes Oxley testing performed most of the work in the first quarter of fiscal 2009. Most of the work for fiscal 2009 was completed in the fourth quarter of fiscal 2009.

*Patent enforcement expenses, net of reimbursements*, decreased a net \$40,000 or 95% in 2009, compared to 2008. Patent enforcement expenses vary, depending on the activity relating to outstanding litigation. The reduction of expenses is primarily due to settlement of litigation with Palatin in the second quarter of fiscal 2008, so no expenses for this action were incurred after that time.

*Loss on permanent impairment of available for sale securities* of \$228,000 relates to our investment in Palatin shares. During the first quarter of fiscal 2008, we determined that the decline in market value of the Palatin shares was other than temporary and wrote the investment down to its fair market value as of October 31, 2007.

*Loss on sale of securities* of \$71,000 relates to the sale of our available for sale Palatin and Clinuvel securities.

*Insurance recovery* in 2009 represents settlement of our action against Federal Insurance to cover our legal fees and loss associated with the case involving Ben Marcovitch and other co-defendants (For further information, see the Marcovitch and Federal cases, **Item 3. Legal Proceedings**).

*Interest expense* in 2009 was incurred as a result of our landlord allowing us to defer certain rent payments while we are in the process of commercializing our pain therapy device. No interest expense should be incurred after December 31, 2009.

## **Provision for income taxes**

In current and prior years, we generated significant federal and state income and alternative minimum tax ("AMT") losses, and these net operating losses ("NOLs") were carried forward for income tax purposes to be used against future taxable income. In 2009 and in 2008, we incurred a loss but did not record a benefit since the benefit was fully reserved (see below).

The NOLs are an asset to us if we can use them to offset or reduce future taxable income and therefore reduce the amount of both federal and state income taxes to be paid in future years. Previously, since we were incurring losses and could not be sure that we would have future taxable income to be able to use the benefit of our NOLs, we recorded a valuation allowance against the asset, reducing its book value to zero. In 2009 and in 2008, the benefit from our net loss was offset completely by a valuation allowance recorded against the asset. We did not show a benefit for income taxes. We will reverse the valuation allowance if we have future taxable income. We have substantial federal and state NOLs and capital loss carryforwards to use against future regular taxable income. In addition, we can use our NOLs to reduce our future AMT liability. A significant portion of the remaining NOLs at July 31, 2009, approximately \$4,081,000, was derived from income tax deductions related to the stock options exercises. The tax effect of these deductions will be credited against capital in excess of par value at the time they are utilized for book purposes, and not credited to income. We will never receive a benefit for these NOLs in our statement of operations.

We adopted the provisions of FIN 48 on August 1, 2007. We did not record any unrecognized income tax benefits as a result of the implementation of FIN 48. At the adoption date, and at July 31, 2009, and July 31, 2008, we had no unrecognized tax benefits.

## **Financial Condition and Liquidity**

Our liquidity requirements arise principally from our working capital needs, including funds needed to find and obtain new technologies or products, and protect and enforce our intellectual property rights, if necessary. We fund our liquidity requirements with a combination of cash on hand and cash flows from operations, if any, including royalty legal awards. In addition, we have the ability to fund our requirements through sales of common stock under the Fusion Capital agreement. At July 31, 2009, we had no outstanding debt, and no credit facility.

We believe we will successfully license new technologies and collect due, but unpaid, royalties on existing licenses to add revenue. Although there can be no assurance that we will be successful in our efforts, we believe the combination of our cash on hand, the ability to raise funds from sales of our common stock under the Fusion Capital agreement, and revenue from executing our strategy will be sufficient to meet our obligations of current and anticipated operating cash requirements throughout fiscal 2010. In fiscal 2010, we will raise cash through sale of stock to Fusion as needed, provided that our stock price does not drop below \$1.00. If necessary, we will meet anticipated operating cash requirements by further reducing costs, and/or pursuing sales of certain assets and technologies while we pursue licensing opportunities for our remaining portfolio of technologies. Our litigation costs, especially for the lawsuit against Ben Marcovitch, and others, should decline greatly from those reflected in our Statement of Operations through July 31, 2009.

In late fiscal 2007, the Company obtained exclusive worldwide distribution rights to a non-invasive pain therapy medical device for rapid treatment of high-intensity oncologic and neuropathic pain, including pain resistant to morphine and other drugs. Developed in Italy by CTT's client, Prof. Giuseppe Marineo, DSc, MD, the technology was brought to CTT through the efforts of Prof. Giancarlo Elia Valori of the Italian business development group, Sviluppo Lazio S.p.A., and assistance from the Zangani Investor Community™. The unit, with a biophysical rather than a biochemical approach, uses a multi-processor able to simultaneously treat multiple pain areas by applying surface electrodes to the skin. The device's European CE mark certification allows it to be distributed and sold throughout Europe, and makes it eligible for approval for distribution and sales in multiple global markets. In February 2009, CTT received FDA 510(k) clearance for U.S. sales of the device. Several thousand patients in various hospitals have been successfully treated using the technology. CTT's partner, GEOMC Co., Ltd. of Korea, is manufacturing the product commercially for worldwide distribution. U.S. and international patents are pending.

In July 2008, we signed a country-exclusive distribution agreement with Excel Life Sciences, Inc. for India. In the first six months fiscal 2009, we signed three additional country-exclusive distribution agreements with GEOMC Co., Ltd. for Korea, Biogene Pharma Limited for Bangladesh, and Able Global Healthcare Sdn. Bhd. for Malaysia. In February 2009, the Company signed an agreement with Life Epistème srl granting them exclusive distribution rights in 29 countries throughout Europe, Asia, Africa, the Middle East, South America and Oceania. Exclusive distribution rights in two additional countries were granted to Life Epistème in March 2009. Local sales authorization is required in each country.

In April 2009, the Company, acknowledging the current difficult economic climate, entered into an agreement with Americorp Financial, LLC (AFS), where AFS will provide financing of sales of the pain therapy medical device for 24 – 60 month lease periods to hospitals, clinics and medical practices in the U.S. AFS will provide financing services under the name, Competitive Technologies Financial Services. CTT will receive the full retail sales price of the device upon execution of each lease, while AFS carries the lease.

Also in April 2009, we signed an agreement with Native Energy & Economic Development, giving them exclusive sales rights for selected U.S. government agencies, including the Department of Veteran's Affairs (VA), the Department of Defense (DOD), and the Indian Health Service (IHS).

In July 2009, we signed an agreement with Innovative Medical Therapies, Inc. ("IMT") granting them exclusive distribution rights to CTT's pain therapy medical device in the United States and related territories excluding selected Federal agencies. The contract provides for minimum monthly cash payments to CTT totaling over \$1 million for the first eight months. These minimum monthly payments increase each year throughout the term of the agreement with, for example, the fourth year minimum payments reaching \$9 million and eighth year minimum payments of \$21 million dollars. IMT will receive shipments of CTT's pain therapy medical device in return for these payments

In October 2009, we signed an agreement with Athens, Greece-based Fintrade Medical granting them the exclusive rights to market and sell CTT's pain therapy medical device in Greece and Cyprus.

Also in October 2009, we signed an agreement with Calmar Pain Relief, LLC, a Delaware limited liability company ("Calmar"), with its headquarters in North Providence, Rhode Island. Calmar was established to provide medical equipment, office leasing, and other business services to medical doctors looking to offer CTT's non-invasive pain therapy to patients in a clinical setting. Calmar will furnish CTT's MC-5A pain therapy medical device to medical doctors who will open pain therapy treatment centers in selected U.S. cities over the next two years.

The signed distribution agreements for this device, now cover more than 50% of the world's population.

Cash and cash equivalents consist of demand deposits and interest earning investments with maturities of three months or less, including overnight bank deposits and money market funds. We carry cash equivalents at cost.

At July 31, 2009, cash and cash equivalents were \$752,000 compared to \$2,237,000 at July 31, 2008. The fiscal 2009 loss of \$3,480,000 contained non-cash charges of \$293,000 and reduction in assets and liabilities of \$305,000, resulting in cash used in operations of \$3,492,000. Cash flow provided by investing activities includes proceeds of \$2,008,000 primarily from the sale of common stock to Fusion. These activities reduced cash by \$1,485,000. As of October 16, 2009, our cash and cash equivalents balance is approximately \$469,000 million.

We currently have the benefit of using a portion of our accumulated NOLs to eliminate any future regular federal and state income tax liabilities. We will continue to receive this benefit until we have utilized all of our NOLs, federal and state. However, we cannot determine when and if we will be profitable and thus able to utilize the benefit of the remaining NOLs before they expire.

At July 31, 2009, we had aggregate federal net operating loss carryforwards of approximately \$26,238,000, which expire at various times through 2029, with the majority of them expiring after 2011. A majority of our federal NOLs can be used to reduce taxable income used in calculating our AMT liability. We also have state net operating loss carryforwards of approximately \$19,100,000 that expire through fiscal year 2013.

A significant portion of the NOLs remaining at July 31, 2009, approximately \$4,081,000, was derived from income tax deductions related to the exercise of stock options. The tax effect of these deductions will be credited against capital in excess of par value at the time they are utilized for book purposes, and not credited to income. We will never receive a benefit for these NOLs in our statement of operations.

## **Funding and Capital Requirements**

### **Equity Financing**

On August 6, 2009, we entered into an agreement with Fusion Capital Fund II, LLC ("Fusion Capital") to sell up to \$8 million of our common stock to Fusion Capital over a 25-month period (the "2009 Agreement"). We have the right to determine the timing and the amount of stock sold, if any, to Fusion Capital.

Under the terms of the 2009 Agreement, we issued 86,933 registered shares of our common stock to Fusion Capital on October 2, 2009, for its initial commitment (the "Initial Commitment Shares"), and agreed to issue 86,933 Additional Commitment Shares (the "Additional Commitment Shares") to Fusion Capital on a pro-rata basis as we sell the \$8 million of stock (collectively, the "Commitment Shares"). Commencement of sales of common stock under the 2009 Agreement was contingent upon certain conditions, principally the Securities and Exchange Commission ("SEC") declaring effective our registration statement filed with the SEC to register 1,962,823 shares of common stock potentially to be issued under the Agreement. On October 1, 2009, the SEC declared our registration statement effective.

Subject to our right at any time to suspend sales of our common stock or to terminate the 2009 Agreement, Fusion Capital is obligated to purchase up to \$75,000 of our common stock each two business days (the "Base Purchase Amount"). No sales will be made below a \$1.00 per share floor price. The sale price per share will be the lower of the lowest sales price on the sale date or an average of the three lowest closing prices during the 12 consecutive trading days prior to the sale date.

Fusion Capital may not purchase shares of our common stock under the 2009 Agreement if Fusion Capital would beneficially own in excess of 19.99% of our common stock outstanding at the time of purchase. Fusion Capital has agreed not to sell the Commitment Shares for 25 months or until termination of the 2009 Agreement.

We incurred total cash costs of \$84,172 relating to the completion of the Agreement, including professional fees, listing fees and due diligence costs, of which 40,000 had been incurred and accrued as of July 31, 2009, and \$44,172 was incurred subsequent to July 31, 2009. We also incurred noncash costs for the estimated fair value of the Initial Commitment Shares of \$212,117 on October 2, 2009. We will capitalize all of the cash and noncash costs as deferred financing costs, and will charge them against capital in excess of par value on a pro-rata basis as we sell shares to Fusion Capital, based upon the ratio of shares issued compared to the total number of shares available for sale in the 2009 Agreement.

### **Capital requirements**

The Company incurred operating losses for fiscal 2009 and 2008. In fiscal 2007, we had a significant concentration of revenues from our homocysteine assay technology. The main patent for this technology expired in July 2007 and we will not receive revenue for sales made after that date. Homocysteine revenue in 2008 reflects unreported back royalties.

We continue to seek revenue from new technology licenses to mitigate the concentration of revenue, and replace revenue from expiring licenses. We have created a new business model for appropriate technologies that allows us to move beyond our usual royalty arrangement and share in the profits of distribution.

For fiscal 2010, we expect our capital expenditures to be less than \$25,000.

## General

Our future cash requirements depend on many factors, including results of our operations and marketing efforts, results and costs of our legal proceedings, and our equity financing. To achieve and sustain profitability, we must increase the number of distributors for our products, broaden the base of technologies for distribution, license technologies with sufficient current and long-term revenue streams, and add new licenses. Obtaining rights to new technologies, granting rights to licensees and distributors, enforcing intellectual property rights, and collecting revenue are subject to many factors, some of which are beyond our control. Although we cannot be certain that we will be successful in these efforts, we believe the combination of our cash on hand, the ability to raise funds from sales of our common stock under the 2009 Fusion Capital Agreement, and revenue from executing our strategic plan will be sufficient to meet our obligations of current and anticipated operating cash requirements throughout fiscal 2010.

### Contractual Obligations and Contingencies

At July 31, 2009, our contractual obligations were:

<b>Contractual Obligations</b>	<b>Total</b>	<b>Within 1 year</b>	<b>1-3 years</b>	<b>3-5 years</b>	<b>More than 5 years</b>
Operating lease obligations, principally rent	\$ 1,219,000	\$ 303,000	\$ 589,000	\$ 327,000	\$ -
Nano employment agreement	175,000	175,000	-	-	-
	<u>\$ 1,394,000</u>	<u>\$ 478,000</u>	<u>\$ 589,000</u>	<u>\$ 327,000</u>	<u>\$ -</u>

Any other commitments we may have are contingent upon a future event.

*Contingencies.* Our directors, officers, employees and agents may claim indemnification in certain circumstances. We seek to limit and reduce potential obligations for indemnification by carrying directors and officers liability insurance, subject to deductibles.

We also carry liability insurance, casualty insurance, for owned or leased tangible assets, and other insurance as needed to cover us against potential and actual claims and lawsuits that occur in the ordinary course of business.

Many of our license and service agreements provide that upfront license fees, license fees and/or royalties we receive are applied against amounts that our clients or we have incurred for patent application, prosecution, issuance and maintenance costs. We expense such costs as incurred, and reduce expense if reimbursed from future fees and/or royalties. If the reimbursement belongs to our client, we record no revenue or expense.

As of July 31, 2009, CTT and its majority owned subsidiary, Vector Vision, Inc. ("VVI"), have remaining obligations, contingent upon receipt of certain revenues, to repay up to \$199,006 and \$205,183, respectively, in consideration of grant funding received in 1994 and 1995. CTT also is obligated to pay at the rate of 7.5% of its revenues, if any, from transferring rights to certain inventions supported by the grant funds. VVI is obligated to pay at rates of 1.5% of its net sales of supported products or 15% of its revenues from licensing supported products, if any. We recognize these obligations only if we receive revenues related to the grant funds. We recognized approximately \$2,135 of these obligations in 2009.

We engage independent consultants who provide us with business development, consulting and/or evaluation services under contracts that are cancelable on certain written notice. These contracts include contingencies for potential incentive compensation earned solely on sales resulting directly from the work of the consultant. We have neither accrued nor paid significant incentive compensation under such contracts in fiscal 2009 or 2008. For the year ended July 31, 2009, we neither accrued nor paid incentive compensation under such contracts. For the year ended July 31, 2008, we paid \$1,500 under such contracts.

## Critical Accounting Estimates

The preparation of our consolidated financial statements in conformity with accounting principles generally accepted in the U.S. requires that we make estimates, assumptions and judgments that affect the reported amounts of assets and liabilities at the date of the financial statements, the reported amounts of revenue and expenses for the reporting period, and related disclosures. We base our estimates on information available at the time, and assumptions we believe are reasonable. By their nature, estimates, assumptions and judgments are subject to change at any time, and may depend on factors we cannot control. As a result, if future events differ from our estimates, assumptions and judgments, we may need to adjust or revise them in later periods.

We believe the following significant estimates, assumptions and judgments we used in preparing our consolidated financial statements are critical to understanding our financial condition and operations.

*Deferred tax assets.* In assessing the realization of deferred tax assets, the Company considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. As a result of uncertainty of achieving sufficient taxable income in the future, a full valuation allowance against its deferred tax asset has been recorded. If these estimates and assumptions change in the future, the Company may be required to reverse the valuation allowance against deferred tax assets, which could result in additional income tax income.

*Share-based compensation.* We account for share-based compensation on a fair value basis. Share-based compensation cost is measured at the grant date based on the value of the award and is recognized as expense over the service (vesting) period. Determining the fair value of share-based awards at the grant date requires judgment, including, estimating the expected life of the stock option, volatility, and the amount of share-based awards that can be expected to be forfeited. Our estimates were based on our historical experience with stock option awards.

*Deferred equity financing costs.* We have incurred cash costs relating to the completion of the July 2008 Agreement we entered into with Fusion Capital, including professional fees, listing fees and due diligence costs. We capitalized all of the cash costs, aggregating \$138,779, as deferred financing costs and charged them against capital in excess of par value on a pro-rata basis as we sell shares to Fusion Capital, based upon the ratio of the proceeds received compared to our estimate of the total proceeds to be received over the life of the Agreement. At July 31, 2009, we charged the remaining balance of these costs against capital in excess of par value since we terminated the agreement on August 5, 2009. In August 2009, we entered into a new agreement with Fusion Capital for the sale of up to \$8 million of our common stock. As of July 31, 2009 we had incurred cash costs relating to the completion of this transaction totaling \$40,000. These costs are reflected as deferred financing costs, net and accrued expenses on our balance sheet.

## Related Party Transactions

Our board of directors determined that when a director's services are outside the normal duties of a director, we compensate the director at the rate of \$1,000 per day, plus expenses, which is the same amount we pay a director for attending a one-day Board meeting. We classify these amounts as consulting expenses, included in personnel and other direct expenses relating to revenues.

We incurred charges of \$54,000, and \$70,500 in 2009 and 2008, respectively, for consulting services provided by a relative of our President and CEO.

## Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Not applicable for smaller reporting company.

## **Item 8. Financial Statements and Supplementary Data**

<u>Description</u>	<u>Page</u>
Reports of Independent Registered Public Accounting Firms	29-30
Consolidated Balance Sheets	31
Consolidated Statements of Operations	32
Consolidated Statements of Changes in Shareholders' Interest	33
Consolidated Statements of Cash Flows	34
Notes to Consolidated Financial Statements	35-55

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Board of Directors and Stockholders of  
Competitive Technologies, Inc.  
Fairfield, CT

We have audited the accompanying consolidated balance sheet of Competitive Technologies, Inc. and Subsidiaries as of July 31, 2009 and the related consolidated statements of operations, changes in shareholders' interest and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Competitive Technologies, Inc. and Subsidiaries at July 31, 2009, and the results of their operations and their cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that Competitive Technologies, Inc. and Subsidiaries will continue as a going concern. As more fully described in Note 1, at July 31, 2009, the Company has incurred operating losses since fiscal year 2006. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 1. The consolidated financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the outcome of this uncertainty.

# COMPETITIVE TECHNOLOGIES, INC. AND SUBSIDIARIES

## Notes to Consolidated Financial Statements

### 1. BUSINESS AND BASIS OF PRESENTATION

Competitive Technologies, Inc. ("CTT") and its wholly-owned subsidiary, CTT Trading Company, LLC ("CTT Trading"), and majority-owned subsidiary, Vector Vision, Inc. ("VVI"), (collectively, "we" or "us") provide patent and technology licensing and commercialization services throughout the world, with concentrations in the U.S. and Asia, with respect to a broad range of life and physical sciences, electronics, and nanotechnologies originally invented by individuals, corporations and universities. We are compensated for our services by sharing in the profits of distribution or the license and royalty fees generated from successful licensing of clients' technologies.

The consolidated financial statements include the accounts of CTT, CTT Trading, and VVI. Inter-company accounts and transactions have been eliminated in consolidation.

The Company has incurred operating losses since fiscal 2006. During fiscal 2007, we had a significant concentration of revenues from our homocysteine assay technology. The main patent for this technology expired in July 2007 and we will not receive revenues for sales made after that date. Revenue in 2008 for the homocysteine technology reflects previously unreported back royalties. We continue to seek revenue from new technologies or products to mitigate the concentration of revenues, and replace revenues from expiring licenses. At current reduced spending levels, the Company may not have sufficient cash flow to fund operating expenses beyond second quarter fiscal 2010. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include adjustments to reflect the possible future effect of the recoverability and classification of assets or amounts and classifications of liabilities that may result from the outcome of this uncertainty.

The Company's continuation as a going concern is dependent upon its developing other recurring revenue streams sufficient to cover operating costs. If necessary, we will meet anticipated operating cash requirements by further reducing costs, and/or pursuing sales of certain assets and technologies while we pursue licensing and distribution opportunities for our remaining portfolio of technologies. The company does not have any significant individual cash or capital requirements in the budget going forward. In addition, we will sell shares to Fusion Capital per our 2009 Agreement, on an as-needed basis, when the Company's stock price is at or above \$1.00 per share. There can be no assurance that the Company will be successful in such efforts or that we will be able to obtain alternative financing should our stock price fall below \$1.00 per share. In addition, should the company be delisted by the NYSE Amex ("the exchange") and be unable to obtain listing with another exchange, the company may not be able to sell shares to Fusion Capital. (See Note 6) Failure to develop a recurring revenue stream sufficient to cover operating expenses would negatively affect the Company's financial position.

Our liquidity requirements arise principally from our working capital needs, including funds needed to find and obtain new technologies or products, and protect and enforce our intellectual property rights, if necessary. We fund our liquidity requirements with a combination of cash on hand and cash flows from operations, if any, including royalty legal awards. In addition, we have the ability to fund our requirements through sales of common stock under the Fusion Capital agreement. At July 31, 2009, we had no outstanding debt, and no credit facility.

Our current recurring revenue stream is insufficient for us to be profitable with our present cost structure. In 2005, we were profitable because of unusually large, upfront license fees related to our homocysteine technology that did not recur in 2009, 2008, 2007 or 2006. To return to and sustain profitability, we must increase recurring revenue by successfully licensing technologies with current and long-term revenue streams, and continue to build our portfolio of innovative technologies. We significantly reduced overhead costs with staff reductions across all company departments, reduced extraneous litigations, and obtained new technologies to build revenue. We will continue to monitor our cost structure, and expect to operate within our generated revenue and cash balances.

In late fiscal 2007, the Company obtained exclusive worldwide distribution rights to a non-invasive pain therapy medical device for rapid treatment of high-intensity oncologic and neuropathic pain, including pain resistant to morphine and other drugs. Developed in Italy by CTT's client, Prof. Giuseppe Marineo, DSc, MD, the technology was brought to CTT through the efforts of Prof. Giancarlo Elia Valori of the Italian

business development group, Sviluppo Lazio S.p.A., and assistance from the Zangani Investor Community™. The unit, with a biophysical rather than a biochemical approach, uses a multi-processor able to simultaneously treat multiple pain areas by applying surface electrodes to the skin. The device's European CE mark certification allows it to be distributed and sold throughout Europe, and makes it eligible for approval for distribution and sales in multiple global markets. In February 2009, CTT received FDA 510(k) clearance for U.S. sales of the device. Several thousand patients in various hospitals and medical centers have been successfully treated using the technology. CTT's partner, GEOMC Co., Ltd. of Korea, is manufacturing the product commercially for worldwide distribution. U.S. and international patents are pending.

In July 2008, we signed a country-exclusive distribution agreement with Excel Life Sciences, Inc. for India. In the first six months fiscal 2009, we signed three additional country-exclusive distribution agreements with GEOMC Co., Ltd. for Korea, Biogene Pharma Limited for Bangladesh, and Able Global Healthcare Sdn. Bhd. for Malaysia. In February 2009, the Company signed an agreement with Life Epistème srl granting them exclusive distribution rights in 29 countries throughout Europe, Asia, Africa, the Middle East, South America and Oceania. Exclusive distribution rights in two additional countries were granted to Life Epistème in March 2009. Local sales authorization is required in each country.

In April 2009, the Company, acknowledging the current difficult economic climate, entered into an agreement with Americorp Financial, LLC (AFS), where AFS will provide financing of sales of the pain therapy medical device for 24 – 60 month lease periods to hospitals, clinics and medical practices in the U.S. AFS will provide financing services under the name, Competitive Technologies Financial Services. CTT will receive the full retail sales price of the device upon execution of each lease, while AFS carries the lease.

Also in April 2009, we signed an agreement with Native Energy & Economic Development, giving them exclusive sales rights for selected U.S. government agencies, including the Department of Veteran's Affairs (VA), the Department of Defense (DOD), and the Indian Health Service (IHS).

In July 2009, we signed an agreement with Innovative Medical Therapies, Inc. ("IMT") granting them exclusive distribution rights to CTT's pain therapy medical device in the United States and related territories excluding selected Federal agencies. The contract provides for minimum monthly cash payments to CTT totaling over \$1 million for the first eight months. These minimum monthly payments increase each year throughout the term of the agreement with, for example, the fourth year minimum payments reaching \$9 million and eighth year minimum payments of \$21 million dollars. IMT will receive shipments of CTT's pain therapy medical device in return for these payments.

In October 2009, we signed an agreement with Athens, Greece-based Fintrade Medical granting them the exclusive rights to market and sell CTT's pain therapy medical device in Greece and Cyprus.

Also in October 2009, we signed an agreement with Calmar Pain Relief, LLC, a Delaware limited liability company ("Calmar"), with its headquarters in North Providence, Rhode Island. Calmar was established to provide medical equipment, office leasing, and other business services to medical doctors looking to offer CTT's non-invasive pain therapy to patients in a clinical setting. Calmar will furnish CTT's MC-5A pain therapy medical device to medical doctors who will open pain therapy treatment centers in selected U.S. cities over the next two years.

The signed distribution agreements for this device, now cover more than 50% of the world's population.

In July 2008, to improve our financial condition we entered into an equity financing arrangement (the "2008 Agreement") with Fusion Capital for up to \$5.0 million of cash through sales of our common stock, at our option. We raised approximately \$2.0 million through this agreement and terminated it on August 5, 2009. On August 6, 2009 we entered into a new agreement (the "2009 Agreement") with Fusion Capital to raise up to \$8.0 million dollars through sales of our common stock.

Future revenue, obtaining rights to new technologies, granting licenses, and enforcing intellectual property rights are subject to many factors beyond our control. These include technological changes, economic cycles, and our licensees' ability to successfully commercialize our technologies. Consequently, we may not be able to generate sufficient revenue to be profitable.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires that we make estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses, and disclosure of contingent assets and liabilities. Actual results could differ significantly from our estimates.

### Revenue Recognition

We earn revenue in two ways, retained royalties from licensing our clients' and our own technologies to our customer licensees, and product sales fees in a business model that allows us to share in the profits of distribution of finished products.

We develop relationships with universities, companies, inventors and patent or intellectual property holders to obtain the rights or a license to their intellectual property, principally patents and inventions, or to their products. They become our clients, for whom we find markets to sell or further develop or distribute their technology or product. We also develop relationships with those who have a need or use for technologies or products. They become our customers, usually through a license or sublicense, or distribution agreement. We acquire rights to commercialize a technology or product on an exclusive or non-exclusive basis, worldwide or limited to a specific geographic area. When we license or sublicense these rights to our customer, we may limit rights to a defined field of use. Technologies can be early, mid, or late stage. Products must be a working prototype or finished product.

Our customers pay us license fees based on usage of the technology, or per unit fees, and we share the revenue with our clients. When we receive reports of sales or payments from customers, whichever occurs first, we record revenue for our portion, and record our obligation to our clients. Revenue we record is solely our share of the gross revenue, net of our clients' share, which is usually a fixed percentage.

We may receive annual minimum royalty payments or unit fees, milestone payments or unit fees, or an upfront payment or fee upon execution of the license or distribution agreement. These are generally non-refundable, and, except for annual minimums, are usually not creditable against future payments. We may apply the upfront fee or initial fees to reimburse patent prosecution and/or maintenance costs incurred by either party. In these cases, payments are recorded as a reduction of expense, and not as revenue. If the reimbursement belongs solely to our client, we record no revenue or expense reduction. As a result, a new technology may not generate significant revenue in its early years.

Licensing and distribution terms are set in written agreements with customers. In licensing technologies, we generally enter into single element agreements with customers, under which we have no additional obligations other than patent prosecution and maintenance. We may enter into multiple element agreements under which we have continuing service obligations. All revenue from multiple element agreements is deferred until delivery of all verifiable required elements. In milestone billing agreements we recognize non-refundable, upfront fees ratably over the life of the agreement, and milestone payments as the specified milestone is achieved. Retained royalties or distribution fees earned are of the following types:

*Non-refundable, upfront license fee* – We record our share of non-refundable, upfront license fees upon execution of a license, sublicense or distribution agreement. Once delivery is complete, and the fee is collected, we have no continuing obligation. In fiscal 2008, we received \$50,000 in upfront fees. No upfront fees were received in fiscal 2009.

*Royalty or per unit fees* – The royalty or per unit rate is fixed in the license or distribution agreement, with the amount earned contingent upon our customer's usage of our technology or sale of our product. Some agreements may contain stipulated minimum monthly or annual fee payments to CTT. We determine the amount of revenue to record when we can estimate the amount earned for a period. We receive payment or royalty reports on a monthly, quarterly

or semi-annual basis indicating usage or sales of licensed technologies or products to determine the revenue earned in the period. Revenue may fluctuate from one quarter to another based on receipt of reports from customers.

Retained royalties from foreign licensees were \$42,628, and \$237,262 for 2009 and 2008, respectively. Retained royalties from Japanese licenses were \$32,314, and \$176,462, in 2009 and 2008, respectively.

*Royalty legal awards* – We earn non-recurring revenues from royalty legal awards, principally from patent infringement actions filed on behalf of our clients and/or us. Patent infringement litigation cases generally occur when a customer or another party ignores our patent rights, or challenges the legal standing of our clients' or our technology rights. These cases, even if settled out of court, may take several years to complete, and the expenses may be borne by our clients, by us, or shared. We share royalty legal awards in accordance with the agreement we have with our clients, usually after reimbursing each party for their related legal expenses. We recognize royalty legal award revenue when our rights to litigation awards are final and unappealable and we have assurance of collecting those awards, or when we have collected litigation awards in cash from the adverse party, or by sale of our rights to another party without recourse, and we have no obligation or are very unlikely to be obligated to repay such collected amounts. Proceeds from cases settled out of court are recorded as retained royalties. (For further information, see **Note 3.**)

Legal awards in patent infringement cases usually include accrued interest through the date of payment, as determined by the court. The court awards interest for unpaid earned income. Interest may also be included in other settlements with customers. Interest included in an award or settlement is generally recorded as interest income when received.

Unless otherwise specified, we record all other revenue, as earned.

### **Concentration of Revenues**

Approximately \$276,000, or 28%, of 2008 retained royalties was derived from the homocysteine assay.

The homocysteine assay is a diagnostic blood test used to determine homocysteine levels and a corresponding deficiency of folate or vitamin B12. The patent for this technology expired in July 2007 and we will not receive revenue for sales made after that date. Homocysteine revenue in 2008 reflects unreported back royalties.

Certain of our other patents have or will soon expire. In 2009, we derived retained royalties from licenses on 12 patented technologies. Royalties from six of those patented technologies have or will expire between 2009 and 2011. Those patented technologies represented approximately 32% of our retained royalties in 2009. Retained royalties of \$50,282, or 19%, \$15,408, or 6%, and \$17,778, or 7%, were from patents expiring in fiscal 2009, 2010 and 2011, respectively. We continue to seek revenue from new technology licenses to mitigate the concentration of revenues, and replace revenue from expiring licenses. We have created a new business model for appropriate technologies that allows us to move beyond our usual royalty arrangement and share in the profits of distribution.

### **Expenses**

We recognize expenses related to evaluating, patenting and licensing inventions, and enforcing intellectual property rights in the period incurred.

Personnel and other direct expenses relating to revenue include employee salaries and benefits, marketing and consulting expenses related to technologies and specific revenue initiatives, domestic and foreign patent legal filing, prosecution and maintenance expenses, net of reimbursements, amortization and impairment of intangible assets acquired, royalty audits, and other direct costs.

General and administrative expenses include directors' fees and expenses, public company related expenses, professional services, including financing, audit and legal services, rent and other general business and operating expenses.

Patent enforcement expenses, net of reimbursements, include direct costs incurred to enforce our patent rights, excluding personnel related costs. In certain instances we recover amounts previously expensed from future revenue and record our reimbursement as a reduction of expense. (For further information, see **Note 3.**)

### **Cash and Cash Equivalents**

Cash and cash equivalents consist of demand deposits and interest earning investments with maturities of three months or less, including overnight bank deposits and money market funds. Cash equivalents are carried at cost.

### **Property and Equipment**

Property and equipment are carried at cost less an allowance for depreciation. Expenditures for normal maintenance and repair are charged to expense as incurred. The costs of depreciable assets are charged to operations on a straight-line basis over their estimated useful lives, three to five years for equipment, or the terms of the related lease for leasehold improvements. The cost and related accumulated depreciation or amortization of property and equipment are removed from the accounts upon retirement or other disposition, and any resulting gain or loss is reflected in earnings.

### **Impairment of Long-lived and Intangible Assets Acquired**

We review our long-lived and intangible assets acquired for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. If the estimated fair value is less than the carrying amount of the asset, we record an impairment loss. If a quoted market price is available for the asset or a similar asset, we use it to determine estimated fair value. We re-evaluate the remaining useful life of the asset and adjust the useful life accordingly. There were no impairment indicators identified.

### **Income Taxes**

Income taxes are accounted for on the asset and liability method in accordance with Statement of Financial Accounting Standards ("SFAS") No. 109, Accounting for Income Taxes. The provision for income taxes is the estimated amount of our income tax liability for the year, combined with the change during the year in deferred tax assets and liabilities. We recognize deferred income taxes for the future income tax consequences of differences between the income tax and financial reporting bases of assets and liabilities at each balance sheet date. We base the amount of deferred income taxes recorded on enacted income tax laws and statutory income tax rates applicable to the periods in which the differences are expected to affect our taxable income. We establish valuation allowances against deferred income tax assets to reduce their carrying values to the amount that we estimate we are more likely than not to realize. We may be subject to the alternative minimum tax ("AMT"). We record any AMT liability in the year in which it is incurred.

### **Net Income (Loss) Per Share**

We calculate basic net income (loss) per share based on the weighted average number of common shares outstanding during the period without giving any effect to potentially dilutive securities. Net income (loss) per share, assuming dilution, is calculated giving effect to all potentially dilutive securities outstanding during the period.

### **Share-Based Compensation**

Effective August 1, 2005, we adopted Financial Accounting Standards Board Statement No. 123(R), "*Share-Based Payment*" ("FAS 123R"), which establishes the accounting required for share-based compensation, including stock options. FAS 123R requires us to measure the fair value at the grant date, as defined in FAS 123R, of all share-based awards, and recognize such value as compensation expense in our statements of operations over the requisite service, vesting period. We elected to adopt FAS 123R using a modified prospective application, whereby the provisions of the statement were applied going forward only from the date of adoption to new, issued subsequent to July 31, 2005, stock option awards, and for the portion of any previously issued and outstanding stock option awards which vested after the date of adoption. We recognized as expense the fair value of stock options issued prior to August 1, 2005, but vesting after August 1, 2005, over the remaining vesting period. In addition, compensation expense must be recognized for any

awards modified, repurchased, or cancelled after the date of adoption. Under the modified prospective application, no restatement of previously issued results was required. We use the Black-Scholes option-pricing model to measure fair value, which is the same method we used in prior years for disclosure purposes. This model requires the use of subjective input assumptions, including estimated life and related volatility, and expected forfeitures over the term of the grant. The estimate of forfeitures was not previously required for disclosure purposes and is a new variable for us. All of our assumptions are based upon historical experience; however, actual results could differ significantly from our current estimates.

The adoption of this pronouncement has resulted in our recognizing non-cash compensation expense related to stock options granted to employees, which is included in personnel and other direct expenses related to revenues, and stock options granted to our directors, which is included in general and administrative expenses.

## **Supplemental Cash Flow Information**

Non-cash investing and financing activities are excluded from the Consolidated Statements of Cash Flows. In 2009, the Company issued 63,280 registered shares of common stock valued at \$123,397 to Fusion Capital II, LLC as initial commitment shares per our equity financing agreement. During fiscal 2009 we amortized \$262,176 of deferred financing costs related to this equity financing agreement against Capital in Excess of Par Value. In 2008, prior to the sale of our Clinuvel and Palatin common stock, the Company recorded a non-cash reclassification adjustment for realized losses of \$508,959 on these stocks. Non-cash financing activities included \$52,451, and \$148,208, in 2009 and 2008 respectively, of stock issued pursuant to our 401(k) plan and a directors' stock plan.

## **Fiscal Year**

Our fiscal year ends July 31, and our first, second, third and fourth quarters end October 31, January 31, April 30 and July 31, respectively. Fiscal year 2009 is the year ended July 31, 2009.

## **Recent Accounting Pronouncements**

In September 2006, the Financial Accounting Standard Board ("FASB") issued Statement No. 157 "*Fair Value Measures*" ("SFAS 157"). SFAS 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. In February 2008, the FASB issued FASB Staff Positions ("FSP") 157-1, which amends SFAS 157 to remove leasing transactions accounted for under SFAS 13, "*Accounting for Leases*," FSP 157-2, which deferred the effective date of SFAS 157 for all nonfinancial assets and nonfinancial liabilities that are recognized or disclosed at fair value in the financial statements on a nonrecurring basis to fiscal years beginning after November 15, 2008, and FSP 157-3, which clarifies the application of SFAS 157 in a market that is not active and illustrates considerations in determining the fair value of a financial asset when the market for the financial asset is not active. The Company adopted SFAS 157 on August 1, 2008. The adoption of SFAS 157 for financial assets and liabilities did not have a material impact on the Company's consolidated financial statements because the Company does not maintain investments or derivative instruments. The Company does not believe the adoption of SFAS 157 for nonfinancial assets and liabilities, effective August 1, 2009, will have a material impact on our consolidated financial statements.

In April 2009, the FASB issued FASB Staff Position (FSP) FAS 157-4, "*Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*." This FSP: (1) affirms that the objective of fair value when the market for an asset is not active is the price that would be received to sell the asset in an orderly transaction, (2) clarifies and includes additional factors for determining whether there has been a significant decrease in market activity for an asset when the market for that asset is not active, and (3) eliminates the proposed presumption that all transactions are distressed (not orderly) unless proven otherwise. The FSP instead (1) requires an entity to base its conclusion about whether a transaction was not orderly on the weight of the evidence, (2) includes an example that provides additional explanation on estimating fair value when the market activity for an asset has declined significantly, (3) requires an entity to disclose a change in valuation technique (and the related inputs) resulting from the application of the FSP and to quantify its effects, if practicable, and (4) applies to all fair value measurements when appropriate. FSP FAS 157-4 must be applied prospectively and retrospective application is not permitted. FSP FAS 157-4 is effective for interim and annual periods ending after June 15, 2009, with early adoption permitted for periods ending after March

15, 2009. An entity early adopting FSP FAS 157-4 must also early adopt FSP FAS 115-2 and FAS 124-2, "*Recognition and Presentation of Other-Than-Temporary Impairments*," as discussed below.

In April 2009 the FASB issued FSP FAS 115-2 and FAS 124-2, "*Recognition and Presentation of Other-Than-Temporary Impairments*." This FSP: (1) changes existing guidance for determining whether an impairment is other than temporary to debt securities, (2) replaces the existing requirement that the entity's management assert it has both the intent and ability to hold an impaired security until recovery with a requirement that management assert: (a) it does not have the intent to sell the security; and (b) it is more likely than not it will not have to sell the security before recovery of its cost basis, (3) incorporates examples of factors from existing literature that should be considered in determining whether a debt security is other-than-temporarily impaired, (4) requires that an entity recognize noncredit losses on held-to-maturity debt securities in other comprehensive income and amortize that amount over the remaining life of the security in a prospective manner by offsetting the recorded value of the asset unless the security is subsequently sold or there are additional credit losses, (5) requires an entity to present the total other-than-temporary impairment in the statement of earnings with an offset for the amount recognized in other comprehensive income, and (6) when adopting FSP FAS 115-2 and FAS 124-2, an entity is required to record a cumulative-effect adjustment as of the beginning of the period of adoption to reclassify the noncredit component of a previously recognized other-temporary impairment from retained earnings to accumulated other comprehensive income if the entity does not intend to sell the security and it is not more likely than not that the entity will be required to sell the security before recovery. FSP FAS 115-2 and FAS 124-2 are effective for interim and annual periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. The adoption of FSP 157-4, FSP 115-2 and FAS 124-2 did not have a material impact on the Company's consolidated financial statements.

In April 2009, the FASB issued FSP FAS 107-1 and APB 28-1 "*Interim Disclosures about Fair Value of Financial Instruments*." This FSP amends FASB Statement No. 107, "*Disclosures about Fair Value of Financial Instruments*," to require an entity to provide disclosures about fair value of financial instruments in interim financial information. This FSP also amends APB Opinion No. 28, "*Interim Financial Reporting*," to require those disclosures in summarized financial information at interim reporting periods. Under this FSP, a publicly traded company shall include disclosures about the fair value of its financial instruments whenever it issues summarized financial information for interim reporting periods. In addition, an entity shall disclose in the body or in the accompanying notes of its summarized financial information for interim reporting periods and in its financial statements for annual reporting periods the fair value of all financial instruments for which it is practicable to estimate that value, whether recognized or not recognized in the statement of financial position, as required by Statement 107.

FSP 107-1 and APB 28-1 are effective for interim periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. However, an entity may early adopt these interim fair value disclosure requirements only if it also elects to early adopt FSP FAS 157-4 and FSP FAS 115-2 and FAS 124-2. The Company is currently evaluating the impact adoption of FSP 107-1 and APB 28-1 may have on the consolidated financial statements. The company will adopt SFAS 107-1 effective August 1, 2009, which will require additional disclosure in its quarterly consolidated financial statements.

In August 2009, the FASB issued Accounting Standards Update No. 2009-05 "*Measuring Liabilities at Fair Value*" ("AUS 2009-05"). AUS 2009-05 provides guidance on how to measure the fair value of liabilities in circumstances where a quoted price in an active market for the identical liability is not available. The guidance provided in this statement is effective for the first reporting period (including interim periods) beginning after issuance, quarter ended January 31, 2010 for the company.. The Company does not believe that the adoption of AUS 2009-05 will have a material effect on the financial statements.

In February 2007, the FASB issued Statement No. 159, "*The Fair Value Option for Financial Assets and Financial Liabilities—including an amendment of FASB Statement No. 115*" ("SFAS 159"). This statement permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value and establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. The Company adopted SFAS 159 on August 1, 2008. The Company has currently chosen not to elect the fair value

option for any items that are not already required to be measured at fair value in accordance with accounting principles generally accepted in the United States.

In December 2007, the FASB issued SFAS 141 (Revised 2007), "*Business Combinations*" ("SFAS 141(R)"). SFAS 141(R) establishes principles and requirements for the reporting entity in a business combination, including recognition and measurement in the financial statements of the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquired entity. SFAS 141(R) also establishes disclosure requirements to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008, and interim periods within those fiscal years. The Company is currently evaluating the impact of adoption of SFAS 141(R) may have on the financial statements. In April 2009, the FASB issued FASB Staff Position ("FSP") FAS 141(R)-1, "*Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies*" ("FSP FAS 141(R)-1"). FSP FAS 141(R)-1 amends and clarifies Statement No. 141(R), "*Business Combinations*", to address application issues on initial recognition and measurement, subsequent measurement and accounting, and disclosure of assets and liabilities arising from contingencies in a business combination. Under FSP FAS 141(R)-1, an acquirer is required to recognize at fair value an asset acquired or liability assumed in a business combination that arises from a contingency if the acquisition date fair value can be determined during the measurement period. If the acquisition date fair value cannot be determined, the acquirer applies the recognition criteria in Statement No. 5, "*Accounting for Contingencies*," and Interpretation No. 14, "*Reasonable Estimation of the Amount of a Loss*," to determine whether the contingency should be recognized as of the acquisition date or after it. FSP FAS 141(R)-1 is effective for business combinations for which the acquisition date is on or after August 1, 2009.

In December 2007, the FASB issued Statement No. 160 "*Noncontrolling Interests in Consolidated Financial Statements – An Amendment of ARB No. 51*" ("SFAS 160"). SFAS 160 establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Earlier adoption is prohibited. The Company does not have any noncontrolling interests in subsidiaries and believes that SFAS 160 will not have a material impact on its financial statements.

In March 2008, the FASB issued SFAS 161, "*Disclosures about Derivative Instruments and Hedging Activities — an amendment of FASB Statement No. 133*" ("SFAS 161"). SFAS 161 requires enhanced disclosures about how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for, and how they affect an entity's financial position, financial performance, and cash flows. SFAS 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The Company's adoption of SFAS 161 will not have a material impact on its financial statements.

In May 2008, the FASB issued Statement No. 162, "*The Hierarchy of Generally Accepted Accounting Principles*" ("SFAS 162"). The new standard is intended to improve financial reporting by identifying a consistent framework, or hierarchy, for selecting accounting principles to be used in preparing financial statements that are presented in conformity with U.S. generally accepted accounting principles (GAAP) for nongovernmental entities. Prior to the issuance of SFAS 162, GAAP hierarchy was defined in the American Institute of Certified Public Accountants (AICPA) Statement on Auditing Standards (SAS) No. 69, "*The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*." SAS 69 has been criticized because it is directed to the auditor rather than the entity. SFAS 162 addresses these issues by establishing that the GAAP hierarchy should be directed to entities because it is the entity, not its auditor that is responsible for selecting accounting principles for financial statements that are presented in conformity with GAAP. SFAS 162 is effective November 15, 2008.

In May 2008, the FASB issued Statement No. 163, "*Accounting for Financial Guarantee Insurance Contracts – an interpretation of FASB Statement No. 60*" ("SFAS 163"). SFAS 163 requires recognition of an insurance claim liability prior to an event of default when there is evidence that credit deterioration has occurred in an insured financial obligation. SFAS 163 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and all interim periods within those fiscal years. Early application is not permitted. The Company's adoption of SFAS 163 will not have a material impact on its financial statements.

In May 2009, the FASB issued Statement No. 165, "*Subsequent Events*" ("SFAS 165"). SFAS 165 establishes standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. SFAS 165 is effective for interim or annual financial statement periods ending after June 15, 2009.

In June 2009, the FASB issued Statement No. 166, "*Accounting for Transfers of Financial Assets – an amendment of FASB Statement No. 140 (SFAS 166)*." SFAS 166 eliminates the exceptions for qualifying special-purpose entities from consolidation guidance and the exception that permitted sale accounting for certain mortgage securitizations when a transferor has not surrendered control over the transferred financial assets. SFAS 166 is effective as of the beginning of the first annual reporting period that begins after November 15, 2009. The Company is currently evaluating the impact the adoption of SFAS 166 will have on the financial statements.

In June 2009, the FASB issued Statement No. 167, "*Amendments to FASB Interpretation No. 46(R) (SFAS 167)*." SFAS 167 amends Interpretation of 46(R) to require an enterprise to perform an analysis to determine whether the enterprise's variable interest or interests give it a controlling financial interest in a variable interest entity. This analysis identifies the primary beneficiary of a variable interest entity as the enterprise that has both of the following characteristics: (1) the power to direct the activities of the variable interest entity that most significantly impact the entities economic performance, and (2) the obligation to absorb losses of the entity that could potentially be significant to the variable interest entity or the right to receive benefits from the entity that could potentially be significant to the variable interest entity. Additionally, an enterprise is required to assess whether it has an implicit financial responsibility to ensure that a variable interest entity operates as designed when determining whether it has the power to direct the activities of the variable interest entity that most significantly impact the entity's economic performance. SFAS 167 is effective as of the beginning of the first annual reporting period that begins after November 15, 2009. Earlier application is prohibited. The Company is currently evaluating the impact the adoption of SFAS 167 will have on the financial statements.

Effective July 1, 2009, the FASB issued SFAS No. 168, "*The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles – a replacement of FASB Statement No. 162*" ("ASC"), which became the single official source of authoritative, nongovernmental GAAP. The historical GAAP hierarchy was eliminated and the ASC became the only level of authoritative GAAP, other than guidance issued by the SEC. All other literature became non-authoritative. ASC is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Company does not expect the adoption of the ASC to have a material impact on its consolidated financial statements.

No other new accounting pronouncements issued or effective during the fiscal year has had or is expected to have a material impact on the consolidated financial statements.

### **3. RETAINED ROYALTIES: PRIOR YEAR LICENSES GRANTED AND SETTLEMENTS**

*Palatin Technologies, Inc.* – During the second quarter of fiscal 2008, we agreed to a settlement with Palatin regarding our arbitration proceeding against them. As part of the agreement Palatin agreed to pay us \$800,000. We recorded \$320,000 of revenue, and reduced patent enforcement expenses by \$480,000 in accordance with the agreement with our client.

### **4. INCOME TAXES**

In current and prior years, we generated significant federal and state income and alternative minimum tax losses, and these net operating losses ("NOLs") were carried forward for income tax purposes to be used against future taxable income.

A reconciliation of our effective income tax rate compared to the U.S. federal statutory rate is as follows:

	Year ended July 31,	
	2009	2008
Provision (benefit) at U.S. federal statutory rate	(34.0)%	(34.0)%
State provision (benefit), net of U.S. federal tax	(5.3)	(6.1)
Permanent differences	0.8	.7
Expiration of capital loss carryforwards	6.8	-
Other items	0.4	(0.2)
Deferred tax valuation allowance	31.3	39.6
Effective income tax rate	0.0%	0.0%

Net deferred tax assets consist of the following:

	July 31, 2009	July 31, 2008
Net federal and state operating loss carryforwards	\$ 10,292,301	\$ 8,856,492
Net capital loss carryforwards	120,002	358,256
Impairment of investments	550,506	733,802
Other, net	432,835	357,410
Deferred tax assets	11,395,644	10,305,960
Valuation allowance	(11,395,644)	(10,305,960)
Net deferred tax assets	\$ -	\$ -

At July 31, 2009, we had aggregate federal net operating loss carryforwards of approximately \$26,238,000, which expire at various times through 2029, with the majority of them expiring after 2011. A majority of our federal NOLs can be used to reduce taxable income used in calculating our AMT liability. We also have state net operating loss carryforwards of approximately \$19,100,000 that expire through fiscal year 2013.

A significant portion of the NOLs remaining at July 31, 2009, approximately \$4,081,000, was derived from income tax deductions related to the exercise of stock options. The tax effect of these deductions will be credited against capital in excess of par value at the time they are utilized for book purposes, and not credited to income. We will never receive a benefit for these NOLs in our statement of operations.

Changes in the valuation allowance were as follows:

	Year ended July 31,	
	2009	2008
Balance, beginning of year	\$ 10,308,114	\$ 8,492,266
Change in temporary differences	(107,871)	7,905
Change in net operating and capital losses	1,195,401	1,807,943
Balance, end of year	\$ 11,395,644	\$ 10,308,114

Our ability to derive future tax benefits from the net deferred tax assets is uncertain and therefore we continue to provide a full valuation allowance against the assets, reducing the carrying value to zero. We will reverse the valuation allowance if future financial results are sufficient to support a carrying value for the deferred tax assets.

We adopted the provisions of FIN 48 on August 1, 2007. We did not record any unrecognized income tax benefits as a result of the implementation of FIN 48. At the adoption date, and at July 31, 2009, we had no unrecognized tax benefits.

Prior to the adoption of FIN 48, we included interest and penalties on the underpayment of income taxes in income tax expense. Upon adoption of FIN 48, we have continued to follow this policy.

We file income tax returns in the United States and Connecticut. The Internal Revenue Service has completed audits for the periods through the fiscal year ended July 31, 2005. Our open tax years for review are fiscal years ending July 31, 2006 through 2008. The Company's returns filed with Connecticut are subject to audit as determined by the statute of limitations.

## 5. NET INCOME (LOSS) PER COMMON SHARE

The following sets forth the denominator used in the calculations of basic net income (loss) per share and net income (loss) per share assuming dilution:

	Year ended July 31,	
	2009	2008
Denominator for basic net income (loss) per share, weighted average shares outstanding	8,740,419	8,156,343
Dilutive effect of common stock options	N/A	N/A
Denominator for net income (loss) per share, assuming dilution	8,740,419	8,156,343

Options to purchase 770,750 and 806,325 shares of our common stock at July 31, 2009, and 2008, respectively, were outstanding but were not included in the computation of net income (loss) per share because they were anti-dilutive. Due to the net loss incurred for the years ended July 31, 2009, and 2008, the denominator used in the calculation of basic net loss per share was the same as that used for net loss per share, assuming dilution, since the effect of any options and warrants would have been anti-dilutive.

## 6. EQUITY FINANCING

On July 22, 2008, we entered into an agreement with Fusion Capital Fund II, LLC ("Fusion Capital") to sell up to \$5.0 million of our common stock to Fusion Capital over a 24-month period (the "2008 Agreement"). We had the right to determine the timing and the amount of stock sold, if any, to Fusion Capital.

Under the terms of the 2008 Agreement, we issued 63,280 registered shares of our common stock to Fusion Capital for its initial commitment (the "Initial Commitment Shares"), and agreed to issue 42,187 Additional Commitment Shares (the "Additional Commitment Shares") to Fusion Capital on a pro-rata basis as we sold the \$5.0 million of stock (collectively, the "Commitment Shares"). Commencement of sales of common stock under the 2008 Agreement was contingent upon certain conditions, principally the Securities and Exchange Commission ("SEC") declaring effective our registration statement filed with the SEC to register 1,605,467 shares of common stock potentially to be issued under the 2008 Agreement. On September 26, 2008, the SEC declared our registration statement effective.

Subject to our right to suspend sales of our common stock at any time and to terminate the 2008 Agreement at any time, Fusion Capital was obligated to purchase up to \$50,000 of our common stock each three business days (the "Base Purchase Amount"). No sales were to be made below a \$1.00 per share floor price. The sale price per share was to be the lower of the lowest sales price on the sale date or an average of the three lowest closing prices during the 12 consecutive trading days prior to the sale date.

Fusion Capital could not purchase shares of our common stock under the 2008 Agreement if Fusion Capital would beneficially own in excess of 19.99% of our common stock outstanding at the time of purchase. Fusion Capital agreed not to sell the Commitment Shares for 24 months or termination of the 2008 Agreement, which occurred on August 5, 2009.

Through July 31, 2009, we sold 1,500,000 shares, and issued 16,783 Commitment Shares, of our common stock to Fusion Capital. The proceeds were used to fund general working capital needs.

We have incurred cash costs relating to the completion of the 2008 Agreement, including professional fees, listing fees and due diligence costs. We have capitalized all of the cash costs, aggregating \$138,779, as deferred financing costs. We amortize these cash costs along with the Initial Commitment Shares, and charge them against capital in excess of par value on a pro-rata basis as we sell shares to Fusion Capital, based upon the ratio of the proceeds received compared to our estimate of the total proceeds to be received over the life of the 2008 Agreement. On August 5, 2009, we terminated the 2008 Agreement with Fusion Capital. As a result all remaining deferred financing fees at July 31, 2009, were charged against capital in excess of par value.

On August 6, 2009, we entered into another agreement with Fusion Capital Fund II, LLC ("Fusion Capital") to sell up to \$8.0 million of our common stock to Fusion Capital over a 25-month period (the "2009 Agreement"). We have the right to determine the timing and the amount of stock sold, if any, to Fusion Capital.

Under the terms of the 2009 Agreement, we issued 86,933 registered shares of our common stock to Fusion Capital on October 2, 2009 for its initial commitment (the "Initial Commitment Shares"), and agree to issue 86,933 Additional Commitment Shares (the "Additional Commitment Shares") to Fusion Capital on a pro-rata basis as we sell the \$8.0 million of stock (collectively, the "Commitment Shares"). Commencement of sales of common stock under the 2009 Agreement is contingent upon certain conditions, principally the Securities and Exchange Commission ("SEC") declaring effective our registration statement filed with the SEC to register 1,962,823 shares of common stock potentially to be issued under the 2009 Agreement. On October 1, 2009 the SEC declared our registration statement effective.

Subject to our right to suspend sales of our common stock at any time and to terminate the 2009 Agreement at any time, Fusion Capital is obligated to purchase up to \$75,000 of our common stock each two business days (the "Base Purchase Amount"). No sales will be made below a \$1.00 per share floor price. The sale price per share will be the lower of the lowest sales price on the sale date or an average of the three lowest closing prices during the 12 consecutive trading days prior to the sale date.

On December 2, 2008, we received notice from the NYSE Amex, then known as NYSE Alternext US LLC (the "Exchange"), notifying us that the staff of the Exchange Corporate Compliance Department had determined that the Company Form 10-K for the fiscal year ended July 31, 2008 did not meet continued listing standards as set forth in Part 10 of the Exchange Company Guide, and the Company has therefore become subject to the procedures and requirements of Section 1009 of the Exchange Company Guide. As noted in Section 1003 of the Exchange Company Guide, companies with stockholders' equity of less than \$2 million, and losses from continuing operations and net losses in two out of its three most recent fiscal years, or with stockholders' equity of less than \$4 million and losses from continuing operations and net losses in three out of its four most recent fiscal years are non-compliant.

On December 18, 2008, the company submitted a business plan to the Exchange detailing actions it will take to bring it into compliance with the above continued listing standards by June 2, 2010. On January 22, 2009, the Exchange accepted our business plan.

The Company will continue its listing during the plan period up to June 2, 2010, during which time it will be subject to periodic review to determine whether it is making progress consistent with the plan. If the Company is not in compliance with the continued listing standards at the conclusion of the plan period or does not make progress consistent with the plan during the plan period, the Exchange staff will initiate delisting procedures as appropriate. The Company is allowed to appeal a staff determination to initiate delisting proceedings in accordance with Section 1010 and Part 12 of the Exchange Company Guide. Per the 2009 Agreement with Fusion Capital, should we be delisted from the exchange and unable to obtain listing with another exchange, we will be unable to sell shares to Fusion Capital.

Fusion Capital may not purchase shares of our common stock under the 2009 Agreement if Fusion Capital would beneficially own in excess of 19.99% of our common stock outstanding at the time of purchase. Fusion Capital has agreed not to sell the Commitment Shares for 25 months or termination of the 2009 Agreement.

Since July 31, 2009 through October 27, 2009, we sold 210,197 shares, and issued 4,890 Commitment Shares of our common stock to Fusion Capital for approximately \$450,000, and amortized approximately \$34,089 of deferred charges against capital in excess of par value.

## 7. RECEIVABLES

Receivables consist of the following:

	<b>July 31, 2009</b>	<b>July 31, 2008</b>
Royalties, net of reserve of \$101,154 at July 31, 2009 and 2008	\$ <b>88,023</b>	\$ 26,524
Advance to GEO MC Co. Ltd.	<b>107,989</b>	17,989
Receivables from insurance carrier	-	63,440
Other	<b>3,607</b>	12,124
Total	<b>\$ 199,619</b>	<b>\$ 120,077</b>

GEOMC Co. Ltd., as a commercialization partner, has invested in a production line for the pain management medical device, and is building inventory for sales expected to occur in fiscal 2010. The Company will receive repayment of the advance as these machines are shipped to our distributors.

## 8. PROPERTY AND EQUIPMENT, NET

Property and equipment, net, consist of the following:

	<b>July 31, 2009</b>	<b>July 31, 2008</b>
Equipment and furnishings	\$ <b>419,802</b>	\$ 418,641
Leasehold improvements	<b>113,838</b>	113,838
Property and equipment, gross	<b>533,640</b>	532,479
Accumulated depreciation and amortization	<b>(330,628)</b>	(269,616)
Property and equipment, net	<b>\$ 203,012</b>	<b>\$ 262,863</b>

Depreciation expense was \$61,341 and \$71,656, in 2009 and 2008, respectively.

## 9. AVAILABLE-FOR-SALE AND EQUITY SECURITIES

	<b>July 31, 2009</b>	<b>July 31, 2008</b>	<b>Number of shares</b>	<b>Type</b>
Melanotan	--	--	378,000	Common stock
Security Innovation, Inc.	--	--	223,317	Common stock

An ownership interest in Melanotan Corporation ("Melanotan") was purchased in prior years for a nominal amount. In a separate transaction, we licensed to Melanotan certain rights relating to a sunless tanning technology that we own. Melanotan sublicensed the rights to Clinuvel Pharmaceuticals. Melanotan had no operations of its own, and has been dissolved.

In prior years, we acquired 3,129,509 shares of NTRU Cryptosystems, Inc. ("NTRU") common stock, and certain preferred stock that later was redeemed, in exchange for cash and a reduction in our future royalty rate on sales of NTRU's products. NTRU was a privately held company that sold encryption software for security purposes, principally in wireless markets. There was no public market for NTRU shares. In 2003, we wrote down the value of NTRU to \$0, but we continued to own the shares. On July 22, 2009, all NTRU assets were acquired by Security Innovation, an independent provider of secure software located in Wilmington, MA. We have been advised that the 3,129,509 shares of NTRU have been exchanged for 223,317 shares of stock in the privately-held Security Innovation.

## 10. PREPAID EXPENSES AND OTHER CURRENT ASSETS

Prepaid expenses and other assets consist of the following:

	July 31, 2009	July 31, 2008
Prepaid insurance	\$ 125,198	\$ 249,428
Prepaid investor relations service	20,000	20,000
Prepaid employee benefits	18,158	-
Other	43,433	48,328
Prepaid expenses and other current assets	<u>\$ 206,789</u>	<u>\$ 317,756</u>

## 11. ACCRUED EXPENSES AND OTHER LIABILITIES

Accrued expenses and other liabilities consist of the following:

	July 31, 2009	July 31, 2008
Royalties payable	\$ 54,093	\$ 243,951
Deferred executive payroll	126,538	-
Accrued 401(k) contribution	50,000	150,000
Accrued directors stock compensation	30,000	37,500
Accrued audit fee	100,000	110,000
Accrued legal fees	197,214	7,765
Other accrued professional fees	7,500	21,963
Accrued Directors Fees	59,833	4,667
Accrued purchases	-	47,850
Accrued AMEX listing fee	-	33,109
Unclaimed property liability	25,431	25,431
Other	31,753	76,845
Accrued expenses and other liabilities	<u>\$ 682,362</u>	<u>\$ 759,081</u>

## 12. SHAREHOLDERS' INTEREST AND STOCK-BASED COMPENSATION PLANS

*Preferred Stock* – Holders of preferred stock are entitled to receive, if, as, and when declared by the Board of Directors, out of funds legally available therefore, preferential non-cumulative dividends at the rate of \$1.25 per share per annum, payable quarterly, before any dividends may be declared or paid upon or other distribution made in respect of any share of common stock. Preferred stock is redeemable, in whole at any time or in part from time to time, on 30 days' notice, at the option of the Company, at a redemption price of \$25. In the event of voluntary or involuntary liquidation, the holders of preferred stock are entitled to \$25 per share in cash before any distribution of assets can be made to holders of common stock.

Each share of preferred stock is entitled to one vote. Holders of preferred stock have no preemptive or conversion rights. The preferred stock is not registered to be publicly traded.

*Employee Stock Option Plans* – Pursuant to our 1997 Employees' Stock Option Plan, as amended (the "1997 Option Plan"), we could grant to employees either incentive stock options or nonqualified stock options (as defined by the Internal Revenue Service). The stock options had to be granted at exercise prices not less than 100% of the fair market value of our common stock at the grant date. The maximum life of stock options granted under this plan is ten years from the grant date. The Compensation Committee or the Board of Directors determined vesting provisions when stock options were granted, and stock options granted generally vested over three or four years. No options could be granted under this plan after September 30, 2007.

The following information relates to the 1997 Option Plan:

	July 31, 2009	July 31, 2008
Common shares reserved for issuance on exercise of options	581,750	646,075
Shares available for future option grants	-	-

Prior to the 1997 Option Plan, we had a stock option plan that expired on December 31, 2000, after which no option could be granted under the plan. Pursuant to this plan incentive stock options and nonqualified stock options were granted to key employees. Incentive stock options could be granted at an exercise price not less than the fair market value of our common stock on the grant date. Nonqualified stock options could be granted at an exercise price not less than 85% of the fair market value of our common stock on the grant date. Options generally vested over a period of up to three years after the grant date and expire ten years after the grant date if not terminated earlier. The number of common shares reserved for issuance on exercise of stock options as of July 31, 2009 and 2008 is 14,000, and 15,250, respectively.

*2000 Director's Stock Option Plan* – We also have a Directors' Stock Option Plan (the "Directors' Option Plan"), under which we grant each non-employee director 10,000 fully vested, nonqualified common stock options when the director first is elected, and 10,000 common stock options on the first business day of January thereafter, as long as the individual is a director. All such stock options are granted at an option price not less than 100% of the fair market value of the common stock at the grant date. The maximum life of options granted under this plan is ten years from the grant date. No options may be granted after January 4, 2010.

The following information relates to the 2000 Directors' Stock Option Plan:

	<b>July 31, 2009</b>	July 31, 2008
Common shares reserved for issuance on exercise of options	<b>175,000</b>	145,000
Shares available for future option grants	<b>132,000</b>	182,000

At the Annual Meeting on February 2, 2007, a new Board of Directors was elected. On August 1, 2007, following a 180-day allowed grace period after the prior Board's termination, 282,000 options that had been granted to, but not exercised by the Directors became available for future grant under this plan. In August 2007, we made an initial grant of 10,000 shares each to Directors Evans, Hornidge, Reali and Torello. An initial grant of 10,000 shares was made to Director Howard in October 2007. On January 2, 2008 and 2009 we issued each Director 10,000 options as prescribed by the plan.

*Summary of Common Stock Options* – Pursuant to FAS 123R, the total fair value of shares vested in 2009 and 2008 was \$244,118 and \$321,825, respectively, of non-cash compensation expense. Of this amount, \$211,768 and \$194,135, respectively, was included in personnel and other direct expenses relating to revenues, from stock options granted to employees in current and prior years, and vesting during 2009 and 2008. Stock options granted during the year are outstanding only a portion of the year, with the compensation expense recognized for that portion of the year. As of July 31, 2009, there was approximately \$173,113 of total unrecognized compensation cost related to outstanding non-vested stock options granted under the 1997 Option Plan. This cost is expected to be recognized over a weighted average period of 0.89 years. Included in the \$244,118 of expense recognized in 2009 is \$32,350 of noncash compensation expense, included in general and administrative expenses, from stock options granted to directors pursuant to the Directors Option Plan. Since these stock options are fully vested upon grant, the full fair value of the stock options is recorded as expense at the date of grant. In 2008, we recognized additional non-cash expense of \$127,690 included in general and administrative expenses.

We estimated the fair value of each option on the grant date using a Black-Scholes option-pricing model with the following weighted average assumptions:

	Year ended July 31,	
	<b>2009</b>	2008
Dividend yield <sup>(1)</sup>	<b>0.0%</b>	0.0%
Expected volatility <sup>(2)</sup>	<b>79.0%</b>	74.2%
Risk-free interest rates <sup>(3)</sup>	<b>1.7%</b>	4.1%
Expected lives <sup>(2)</sup>	<b>5 years</b>	5 years

- (1) We have not paid cash dividends on our common stock since 1981, and currently do not have plans to pay or declare cash dividends. Consequently, we used an expected dividend rate of zero for the valuations.

- (2) Estimated based on our historical experience. Volatility was based on historical experience over a period equivalent to the expected life in years.
- (3) Based on the U.S. Treasury constant maturity interest rate with a term consistent with the expected life of the options granted.

A summary of the status of all our common stock options as of July 31, 2009 and 2008, and changes during the years then ended is presented below.

	<b>2009</b>		<b>2008</b>	
	<b>Shares</b>	<b>Weighted Average Exercise Price</b>	<b>Shares</b>	<b>Weighted Average Exercise Price</b>
Outstanding at beginning of year	<b>806,325</b>	<b>\$ 2.96</b>	960,825	\$ 4.19
Granted	<b>50,000</b>	<b>1.01</b>	290,000	2.17
Forfeited	<b>(64,325)</b>	<b>2.55</b>	(444,500)	5.11
Exercised	<b>(20,000)</b>	<b>1.26</b>	-	-
Expired or terminated	<b>(1,250)</b>	<b>4.22</b>	-	-
Outstanding at end of year	<b>770,750</b>	<b>\$ 2.91</b>	806,325	\$ 2.96
Exercisable at end of year	<b>603,250</b>	<b>\$ 3.05</b>	471,325	\$ 3.35
Weighted average fair value per share of options issued during the year		<b>\$ 0.65</b>		\$ 1.38

The total intrinsic value of stock options exercised during 2009 was \$23,650. Total proceeds from stock option exercises were \$25,107 in 2009. Generally, we issue new shares of common stock to satisfy stock option exercises.

The following table summarizes information about all common stock options outstanding at July 31, 2009.

<b>Range of Exercise Prices</b>	<b>Number Outstanding</b>	<b>Weighted Average Remaining Contractual Life in Years</b>	<b>Weighted Average Exercise Price</b>	<b>Number Exercisable</b>	<b>Weighted Average Remaining Contractual Life in Years</b>	<b>Weighted Average Exercise Price</b>
\$1.01 - \$ 2.50	211,750	8.03	\$ 1.88	144,250	8.01	\$ 1.70
\$2.51 - \$ 3.50	440,000	7.56	\$ 2.53	340,000	7.56	\$ 2.53
\$3.51 - \$ 6.50	88,000	3.76	\$ 5.20	88,000	3.76	\$ 5.20
\$6.51 - \$11.04	31,000	0.78	\$ 8.86	31,000	0.78	\$ 8.86

A summary of the status of the Company's non-vested shares as of July 31, 2009 and changes during the year ended July 31, 2009 is presented below:

<b>Non Vested Shares</b>	<b>Shares</b>	<b>Weighted Average Grant Date Fair Value</b>
Non vested at July 31, 2008	335,000	\$ 1.57
Granted	50,000	0.65
Vested	(182,500)	1.34
Forfeited and expired	(35,000)	1.43
Non vested at July 31, 2009	167,500	\$ 1.57

*1996 Directors' Stock Participation Plan* – Pursuant to the terms of our 1996 Directors' Stock Participation Plan, on the first business day of January of each year, we issue to each non-employee director who has served at least one year as a director, the lesser of 2,500 shares of our common stock or a number of shares of common stock equal to \$15,000 on the date such shares are issued. If an otherwise eligible director terminates as a director before the first business day of the year, we issue such director a number of shares equal to the portion of the year served by that director. This plan expires on January 3, 2011.

We issued 12,500 and 10,000 shares of common stock to eligible directors in 2009 and 2008, respectively, and charged to expense \$12,563 and \$15,100, in 2009 and 2008 respectively, for the shares issued under this plan. The following information relates to the 1996 Directors' Stock Participation Plan:

	<b>July 31, 2009</b>	<b>July 31, 2008</b>
Common shares reserved for future share issuances	<b>36,659</b>	49,159

There was no significant impact on the calculation of net loss per share for the years ended July 31, 2009 and 2008, as a result of the issuance of shares to our directors.

During the second quarter of fiscal 2009, the Company granted to its non-employee directors as their annual award, options to purchase an aggregate of 50,000 shares of common stock under the Directors' Stock Option Plan at a weighted average exercise price of \$1.01 per share that vested immediately. The fair value of the options granted for the second quarter fiscal 2009 was \$32,350. This amount was recorded as non-cash compensation expense during the respective period.

During the first quarter of fiscal 2008, the Company granted to its non-employee directors as their initial directors award, options to purchase an aggregate of 50,000 shares of common stock under the Directors' Stock Option Plan at a weighted average exercise price of \$2.52 per share that vested immediately. The fair value of the options granted for the first quarter fiscal 2008 was \$81,440. This amount was recorded as non-cash compensation expense during the respective period.

During the second quarter of fiscal 2008, the Company granted to its non-employee directors as their annual award, options to purchase an aggregate of 50,000 shares of common stock under the Directors' Stock Option Plan at a weighted average exercise price of \$1.51 per share that vested immediately. The fair value of the options granted for the second quarter fiscal 2008 was \$46,250. This amount was recorded as non-cash compensation expense during the respective period.

During the first quarter of fiscal 2008, the Company granted to its employees options to purchase an aggregate of 190,000 shares of common stock under the 1997 Employees' Stock Option Plan at an exercise price of \$2.25 which vest over four years. The fair value of these options was \$272,080, which will be recognized as non-cash compensation expense over the vesting period. For fiscal 2009 and 2008, the Company recognized \$32,434 and \$40,386 respectively, of non-cash compensation expense for the fair value of options granted to employees.

### **13. 401(k) PLAN**

We have an employee-defined contribution plan qualified under section 401(k) of the Internal Revenue Code (the "Plan"), for all employees age 21 or over, and meet certain service requirements. The Plan has been in effect since January 1, 1997. Participation in the Plan is voluntary. Employees may defer compensation up to a specific dollar amount determined by the Internal Revenue Service for each calendar year. We do not make matching contributions, and employees are not allowed to invest in our stock under the Plan.

Our directors may authorize a discretionary contribution to the Plan, allocated according to the provisions of the Plan, and payable in shares of our common stock valued as of the date the shares are contributed. Our Directors ultimately approved a contribution to the plan of \$50,000 for fiscal 2008. This contribution was made during the third quarter of fiscal 2009. On April 3, 2009, the Company contributed 33,333 shares of CTT common stock to the 401(k) plan. The plan's forfeiture account funded 6,741 of these shares and the Company funded the remainder of 26,592 shares. These shares were valued at \$1.50 per share, which was the closing price on February 25, 2009, the day the Board of Directors approved the contribution. For fiscal 2009, we have accrued \$50,000 for our discretionary 401(k) contribution, subject to final approval by our directors.

### **14. COMMITMENTS AND CONTINGENCIES**

*Operating Leases* – We have our offices in Fairfield, Connecticut under a lease that began August 24, 2006, and will end August 31, 2013, with an option to renew for an additional five years.

At July 31, 2009, future minimum rental payments required under operating leases with initial or remaining non-cancelable lease terms in excess of one year, were:

<b>Year ending July 31,</b>	<b>Rental Payments</b>
2010	\$ 303,320
2011	289,351
2012	299,973
2013	301,973
2014	25,227
Total minimum payments required	<u>\$ 1,219,844</u>

Total rental expense for all operating leases was:

	<b>Year ended July 31,</b>	
	<b>2009</b>	<b>2008</b>
Minimum rental payments	\$ 303,156	\$ 301,006
Less: Sublease rentals	13,577	4,075
Net rent expense	<u>\$ 289,579</u>	<u>\$ 296,931</u>

*Employment Agreement* – On February 2, 2007, we entered into an employment agreement with John B. Nano, our President and Chief Executive Officer. He was also appointed Chairman of the Board at no additional compensation. This agreement expires on February 2, 2010. Pursuant to the terms of the agreement, Mr. Nano will receive a minimum base compensation of \$350,000, subject to change upon approval of our Board of Directors, eligibility to participate in all employee benefit plans, and is eligible, in the event of a termination of his employment for other than cause, to receive the continuation of base compensation and benefits through the term of the agreement, but not less than twelve months. In the event of a change in control, as defined, he is eligible to receive a continuation of the amount of base compensation in effect immediately prior to such termination or resignation for a period equal to twice that for a termination without cause or for the remainder of the employment agreement term, whichever is longer. The agreement automatically renews for one-year periods, unless notice is given 180 days in advance. Mr. Nano is also entitled to a car allowance or lease of a car equal to an S-class Mercedes. The agreement also called for the payment of \$1 million to Mr. Nano and \$650,000 to his legal advisors in settlement of his lawsuit against us.

*Contingencies – Revenue based* – As of July 31, 2008, CTT and VVI have obligations, contingent upon receipt of certain revenues, to repay up to \$199,006 and \$205,183, respectively, from grant funding received in 1994 and 1995. CTT also is obligated to pay at the rate of 7.5% of its revenues, if any, from transferring rights to certain inventions supported by the grant funds. VVI is obligated to pay at rates of 1.5% of its net sales of supported products or 15% of its revenues from licensing supported products, if any. We recognize these obligations only if we receive revenues related to the grant funds. We recognized \$2,135 and \$2,805 related to these obligations in 2009 and 2008.

#### *Contingencies – Litigation*

*Carolina Liquid Chemistries Corporation, et al.* (Case pending) – On August 29, 2005, we filed a complaint against Carolina Liquid Chemistries Corporation ("Carolina Liquid") in the United States District Court for the District of Colorado, alleging patent infringement of our patent covering homocysteine assays, and seeking monetary damages, punitive damages, attorneys' fees, court costs and other remuneration at the option of the court. Carolina Liquid was served on September 1, 2005. As we became aware of other infringers, we amended our complaint to add as defendants Catch, Inc. ("Catch") and the Diazyme Laboratories Division of General Atomics ("Diazyme"). On September 6, 2006, Diazyme filed for declaratory judgment in the Southern District of California for a change in venue and a declaration of non-infringement and invalidity. On September 12, 2006, the District Court in Colorado ruled that both Catch and Diazyme be added as defendants to the Carolina Liquid case. On October 23, 2006, Diazyme requested the United States Patent and Trademark Office (the "USPTO") to re-evaluate the validity of our patent and this request was granted by the USPTO on December 14, 2006. On July 30, 2009, the homocysteine patent was upheld by the U.S. Patent and Trademark Office's Board of Patent Appeals and Interferences (BPAI). In September 2008, the patent had been denied by the examiner, but that denial was overruled by the BPAI. Further

action in this case is pending as the BPAI result will now be returned to the U.S District Court for the District of Colorado.

*Ben Marcovitch and other co-defendants* (Case completed) – On August 8, 2007, we announced that former CTT Director Ben Marcovitch had been removed for cause from our Board of Directors by unanimous vote of CTT's five Directors for violating CTT's Code of Conduct. At that time, CTT also withdrew from its involvement with Agrofrut, E.U., a nutraceutical firm brought to CTT by Mr. Marcovitch. As announced on April 10, 2007, CTT had paid \$750,000 to Agrofrut for a 5% ownership, and certain marketing and investment options in Agrofrut.

On August 31, 2007, we filed a Federal complaint in the U.S. District Court for the District of Connecticut against Mr. Marcovitch, Betty Rios Valencia, President and CEO of Agrofrut and former spouse of Mr. Marcovitch, John Derek Elwin, III, a former CTT employee, and other defendants. The complaint claims that false and misleading information had been provided to CTT in a conspiracy to fraudulently obtain funds from CTT using the Agrofrut transaction. We have requested, among other relief, punitive damages and attorneys' fees. It is our opinion and that of our Board of Directors that this lawsuit is required to recover our \$750,000 and to settle outstanding issues regarding the named parties.

On October 22, 2007, at a show cause hearing, the Court stated that all defendants named in the case, and their associates, were enjoined from any further use of any remaining part of the \$750,000 received from CTT. The Court ordered a full disclosure of all accounts where remaining funds are held, and a complete description of the disposition of any portion of the CTT payment must be made to CTT's counsel. On October 30, 2007, in amended complaint, CTT sought injunctive relief and damages against Sheldon Strauss for conspiring with Mr. Marcovitch to unlawfully solicit proxies in violation of Securities Exchange Act of 1934.

At a December 7, 2007 hearing, the Court requested CTT to specify an appropriate Prejudgment Remedy for the Court to consider. On December 20, 2007, a Prejudgment Remedy was issued granting garnishment of the \$750,000 CTT is seeking to recover.

On January 11, 2008, the Court denied the defendants' attempts at demonstrating that Connecticut was not the proper jurisdiction for these hearings.

On April 22, 2008, the Court ruled that the defendants must make arrangements for depositions to be completed by May 2, 2008, a date that was then extended by the Court. The Court granted permission for the defendants' depositions to be conducted via video conferencing when the defendants indicated their inability to travel to the Connecticut court. The depositions were conducted on June 2, 2008.

On June 23, 2008, the Court ruled that the defendants are compelled to respond to interrogatories and to produce any supplemental discovery documents by the deadline of July 7, 2008.

On August 15, 2008 CTT filed a motion for Summary Judgment. A Memorandum in Opposition was filed by Marcovitch et al on September 15, 2008. CTT responded to the Memorandum on September 24. The judge denied the Summary Judgment Motion on April 6, 2009. On June 1, 2009, the Judge granted permission to CTT to enter a Motion for Default Judgment against Agrofrut and Sheldon Strauss. On June 4, 2009, the Judge granted permission for CTT to enter a Motion for Default Judgment against Ben Marcovitch and Betty Rios Valencia. These Default motions were filed on June 15, 2009.

On September 8, 2009, the Judge ruled favorably on CTT's motion for default judgment. The judgment entered against Marcovitch, Rios Valencia, Agrofrut and Strauss, jointly and severally, is for \$750,000, as well as reasonable attorneys' fees and costs of \$600,788. Additionally, judgments were entered against Marcovitch, Rios Valencia, and Agrofrut, jointly and severally, for \$2.25 million, treble damages, and for \$600,788, punitive damages. A judgment was also entered against Rios Valencia and Agrofrut, jointly and severally, for punitive damages of \$750,000. The judge confirmed that Marcovitch was properly removed as a member of CTT's Board of Directors and issued a permanent injunction prohibiting Marcovitch from holding himself out as a member of CTT's Board. A judgment was entered against Strauss prohibiting Strauss from soliciting proxies in contravention of the SEC rules and regulations. Based on the Court's rulings, CTT will now proceed to collect all funds possible from the parties.

*Employment matters – former employee* (Cases pending) – In September 2003, a former employee filed a whistleblower complaint with OSHA alleging that the employee had been terminated for engaging in conduct protected under the Sarbanes Oxley Act of 2002 (SOX). In February 2005, OSHA found probable cause to support the employee's complaint and ordered reinstatement and payment of damages. CTT filed objections and requested a *de novo* hearing before an Administrative Law Judge ("ALJ"). Based on evidence submitted at the May 2005 hearing, in October 2005 the ALJ issued a written decision recommending dismissal of the employee's claim without relief. The employee then appealed the case to the Administrative Review Board ("ARB"). In March 2008, the ARB issued a decision and order of remand, holding that the ALJ erred in shifting the burden of proof to CTT based on a mere inference of discrimination and remanding the case to the ALJ for clarification of the judge's analysis under the appropriate burden of proof. In January 2009, the ALJ ruled in favor of CTT on the ARB remand. The employee has now appealed the January 2009 ALJ ruling to the ARB and we await the ARB's decision. The employee had previously requested reconsideration of the ARB order of remand based on the Board's failure to address the employee's appeal issues; that request was denied by the ARB in October 2008.

In August 2007, the same former employee filed a new SOX whistleblower complaint with OSHA alleging that in April 2007 CTT and its former general counsel retaliated against the employee for past-protected conduct by refusing to consider the employee's new employer when awarding a consulting contract. In March 2008, OSHA dismissed the employee's complaint citing the lack of probable cause. The employee filed objections and requested *de novo* review by an ALJ. In August 2008, the employee gave notice of intent to terminate proceedings before the ALJ and remove the case to federal district court. In October 2008, the former employee moved to voluntarily dismiss with prejudice the case before the ALJ. We anticipate no further action on this matter.

On September 5, 2008, CTT filed a complaint in the U.S. District Court for the District of Connecticut against the former employee seeking a declaration that CTT did not violate SOX as alleged in the employee's 2007 OSHA complaint, and to recover approximately \$80,000 that CTT paid to the employee in compliance with a court order that was subsequently vacated by the U.S. Court of Appeals for the Second Circuit. On July 1, 2009, the judge ruled in favor of the former employee's motion to dismiss. The court abstained from ruling on the question of unjust enrichment due to the unresolved questions before the Department of Labor Administrative Review Board.

On December 4, 2008, the former employee filed a complaint with the Department of Labor asking to have the Connecticut case dismissed. On June 1, 2009, the Department dismissed the former employee's complaint, finding that "there is no reasonable cause to believe that the Respondent (CTT) violated SOX". We anticipate no further action on this matter.

*Federal Insurance Co.* (Case completed) – On April 2, 2008, CTT filed a complaint in the U.S. District Court for the District of Connecticut against Federal Insurance, seeking the coverage to which it is entitled under its policy with Federal. CTT asserts that Federal is obligated to insure CTT for its legal fees and \$750,000 loss associated with the case involving Ben Marcovitch and other co-defendants.

In September 2008, we received \$400,000 against a claim under our fraud insurance policy in full settlement of this matter with Federal.

*Consultants* – We engage independent consultants who provide us with business development and evaluation services under contracts that are cancelable upon written notice. Certain of these contracts include contingencies for potential payments to the consultant if we earn revenues as a result of the efforts of the consultant. For the year ended July 31, 2008, we paid \$1,500 under such contract. For the year ended July 31, 2009, we neither accrued nor paid incentive compensation under such contracts.

*Summary* – We may be a party to other legal actions and proceedings from time to time. We are unable to estimate legal expenses or losses we may incur, if any, or possible damages we may recover, and we have not recorded any potential judgment losses or proceeds in our financial statements to date. We record expenses in connection with these suits as incurred.

We believe that we carry adequate liability insurance, directors and officers insurance, casualty insurance, for owned or leased tangible assets, and other insurance as needed to cover us against potential and actual claims and lawsuits.

that occur in the ordinary course of our business. However, an unfavorable resolution of any or all matters, and/or our incurrence of significant legal fees and other costs to defend or prosecute any of these actions and proceedings may, depending on the amount and timing, have a material adverse effect on our consolidated financial position, results of operations or cash flows in a particular period.

## 15. RELATED PARTY TRANSACTIONS

Our board of directors determined that when a director's services are outside the normal duties of a director, we compensate the director at the rate of \$1,000 per day, plus expenses, which is the same amount we pay a director for attending a one-day Board meeting. We classify these amounts as consulting expenses, included in personnel and other direct expenses relating to revenues.

We incurred charges of \$54,000, and \$70,500 in 2009 and 2008, respectively, for consulting services provided by a relative of our President and CEO.

## 16. SUBSEQUENT EVENTS

As mentioned in Note 6, on August 6, 2009, the company entered into the 2009 Agreement with Fusion Capital to sell up to \$8.0 million of our common stock to Fusion Capital over a 25 month period.

The company has evaluated subsequent events through October 27, 2009, which is the date the financial statements were issued, and has concluded that no such events or transactions took place which would require a disclosure herein, except as mentioned above relating to the 2009 Agreement with Fusion Capital.

## 17. SELECTED QUARTERLY FINANCIAL DATA (unaudited)

<i><b>Year Ended July 31, 2009</b></i>	<b>First Quarter</b>	<b>Second Quarter</b>	<b>Third Quarter</b>	<b>Fourth Quarter</b>
Total revenues <sup>(1)</sup>	\$ 103,801	\$ 28,746	\$ 167,177	\$ 48,516
Operating loss <sup>(2)</sup>	(973,456)	(934,005)	(757,336)	(822,373)
Net loss	(968,100)	(932,397)	(757,096)	(822,231)
Net loss per share:				
Basic	(0.12)	(0.11)	(0.09)	(0.09)
Assuming dilution	(0.12)	(0.11)	(0.09)	(0.09)
Weighted average number of common shares outstanding				
Basic	8,212,461	8,440,698	8,810,314	9,500,482
Assuming dilution	8,212,461	8,440,698	8,810,314	9,500,482
<i><b>Year Ended July 31, 2008</b></i>				
Total revenues <sup>(1)</sup>	\$ 210,609	\$ 530,493	\$ 238,129	\$ 224,714
Operating loss <sup>(2)</sup>	(2,639,658)	(1,350,085)	(1,037,132)	(1,108,880)
Net loss	(2,559,644)	(1,299,320)	(1,010,795)	(1,096,695)
Net loss per share:				
Basic	(0.32)	(0.16)	(0.12)	(0.13)
Assuming dilution	(0.32)	(0.16)	(0.12)	(0.13)
Weighted average number of common shares outstanding				
Basic	8,107,380	8,158,760	8,179,872	8,179,872
Assuming dilution	8,107,380	8,158,760	8,179,872	8,179,872

(1) Total revenue in first quarter included \$10,592 gain on sale for available-for-sale securities. This gain was reclassified in the second quarter.

(2) Operating (loss) is defined herein as revenues less expenses, excluding investment income, and income taxes.

## **Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosures**

### **Engagement of new independent accountant**

Pursuant to an asset purchase agreement, our former independent public accounting firm, Mahoney Cohen & Company, CPA, P.C. was acquired by the New York practice of Mayer Hoffman McCann P.C ("MHM"), and the shareholders of Mahoney Cohen became shareholders of MHM. Following its acquisition of Mahoney Cohen, MHM changed its name to MHM Mahoney Cohen CPAs, effective December 31, 2008.

### **Item 9A(T). Controls and Procedures.**

#### *Evaluation of Disclosure Controls and Procedures*

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed by the Company in the reports filed or submitted by it under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including the Company's Chairman, President, Chief Executive Officer ("CEO"), and Interim Chief Financial Officer ("CFO"), as appropriate to allow timely decisions regarding required disclosure.

Each fiscal quarter the Company carries out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chairman, President, CEO, and Interim CFO, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. In making this assessment, our management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control — Integrated Framework. Based on this evaluation, our management, with the participation of the Chairman, President, CEO, and Interim CFO,, concluded that, as of July 31, 2009, our disclosure controls and procedures were effective.

#### *Changes in Internal Control over Financial Reporting*

During the fiscal year ended July 31, 2009, there was no change in the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

#### *Management's Report on Internal Control over Financial Reporting*

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f). A system of internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation and fair presentation of financial statements for external purposes in accordance with generally accepted accounting principles. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision and with the participation of our management, including our Chairman, President, CEO, and Interim CFO, we conducted an assessment of the effectiveness of our internal control over financial reporting as of July 31, 2009. Based on this assessment, management concluded that our internal control over financial reporting was effective as of July 31, 2009.

This annual report does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's independent registered public accounting firm pursuant to rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

## Item 9B. Other Information

None.

## PART III

## Item 10. Directors and Executive Officers of the Registrant

### Directors

All persons named below are directors of CTT on the filing date of this document. No director or executive officer is related by family to any other director or executive officer. The following table sets forth information regarding each director according to information furnished to us by each:

Name	Age	Positions currently held with CTT	Committee memberships	Director of CTT since
Joel M. Evans, M.D.	49	Director	A, N	February 2007
Richard D. Hornidge, Jr.	63	Director	A, C*	February 2007
Rustin Howard.	52	Director	C, N*	October 2007
John B. Nano	64	Chairman of the Board of Directors, President and Chief Executive Officer	--	February 2007
William L. Reali	67	Director	A*, C, N	February 2007

A – Audit Committee

C – Compensation and Stock Option Committee

N – Nominating and Corporate Governance Committee

\* – Committee Chair

**Joel M. Evans, M.D.** Dr. Evans founded The Center for Women's Health in Stamford, Connecticut in June 1996 and since then has been its Director. From November 1996 to present, Dr. Evans has been a lecturer and senior faculty member of The Center for Mind Body Medicine in Washington, D.C. Dr. Evans has been featured in magazines as well as interviewed on television and radio shows across the country. Dr. Evans is an Assistant Clinical Professor at the Albert Einstein College of Medicine in New York City and helped create a clinical study at Columbia University Medical Center for use of the herb, black cohosh, in breast cancer. From November 2005 to present, Dr. Evans has been a member of the Scientific Advisory Board for Metagenics Incorporated, a nutritional supplement manufacturer. Dr. Evans brings key medical experience to the Company.

Dr. Evans completed his undergraduate and medical studies at the Sophie Davis School of Biomedical Education of the City College of New York and the Mt. Sinai School of Medicine. He fulfilled his residency at the Albert Einstein College of Medicine.

**Richard D. Hornidge, Jr.** Mr. Hornidge has been a tennis professional since February 2005, currently at the Newburyport Racquet Club in Newburyport, Massachusetts, and earlier at Willows Racquet Club in North Andover, Massachusetts.

Prior to that he was an independent consultant. From June 1984 through June 1989, Mr. Hornidge was President of Travis Associates, an employment agency. Mr. Hornidge was a program coordinator for Raytheon from 1973 through 1984, where he was involved in the Patriot Missile test equipment program.

He has won numerous tennis tournaments, and was a member of two USTA teams that competed nationally. He was ranked #1 in New England in paddle-tennis for most of his 20-year career, in the top 16 on a national level, and was three-time National Champion in various senior divisions.

Mr. Hornidge received a BA from Boston University after serving in the U.S. Navy.

**Rustin Howard.** Mr. Howard is principal of Whitesand Investments LLC, an angel investment organization.

In 1990, he founded and served as CEO and Chairman of Phyton, Inc., a world leader in the use of proprietary plant cell fermentation technology, including the production of paclitaxel, the active ingredient of Bristol-Myers Squibb's multi-billion dollar anticancer drug, Taxol<sup>®</sup>. Phyton was sold to a private pharmaceutical company in 2003.

Additionally, Mr. Howard is the Chairman of DeepGulf, Inc., and a co-owner and officer of Silver Bullet Technology. DeepGulf builds underwater pipelines and associated facilities in deep and ultra-deep offshore oil and gas production fields. Silver Bullet Technology, where he has been primarily responsible for corporate and financial oversight as well as strategic planning, manufactures and sells software for the banking and payment processing industry. Previously, he served as president and CEO of BioWorks Inc., a biotechnology company he founded to develop, produce, and sell products that replace chemical pesticides.

He earned his MBA from Cornell University's Johnson Graduate School of Management, where he focused his studies on Entrepreneurship, and managing innovation and technology.

**John B. Nano.** Mr. Nano is President and Chief Executive Officer of Competitive Technologies, Inc. and Chairman of the Board of Directors. In January 2006 Mr. Nano became President and Chief Executive Officer of Articulated Technologies, LLC., a company involved in creating and commercializing patented light emitting diode technologies for global solid-state lighting applications. He is currently a member of their Board of Directors. Mr. Nano served as President and CEO, and a member of the Board of CTT from June 2002 through June 2005. He has a broad background in domestic and international operating experience with technology-based companies focusing on life sciences, physical sciences, digital technology and electronics. Prior to joining CTT in 2002, Mr. Nano held various executive leadership positions in operations, strategic planning, business development, M&A and finance, including at Stonehenge Network Holdings, N.V. as a Principal, at ConAgra Trade Group, a subsidiary of ConAgra, Inc., as Executive VP and Chief Financial Officer; at Sunkyoung America, a subsidiary of the Sunkyoung Group, a Korean conglomerate, as Executive VP and Chief Financial Officer, and as President of an Internet Startup Division of Sunkyoung America.

Mr. Nano is a graduate of MIT's Sloan School Executive Program, holds an MBA in Finance from Northeastern University, and a BS in Chemical Engineering from Worcester Polytechnic Institute.

**William L. Real.** Mr. Real is a Certified Public Accountant with the firm of Real, Giampetro and Scott in Canfield, Ohio. The firm provides auditing and other related accounting and tax services to a diverse group of business clients. Over the past five years, Mr. Real's primary responsibility with the firm has been business consulting, working with large and small national and multinational clients. He has worked with distressed companies, assisting them with cost reduction, turn-around programs and re-organization.

Serving as Chairman of various community associations, Mr. Real donates a great deal of time to local organizations.

Mr. Real received his BA from Youngstown State University.

## **Executive Officers**

The name of our executive officer, his age and background information is as follows:

*John B. Nano*, 63, has served as our President and Chief Executive Officer and Interim Chief Financial Officer, as well as Chairman of the Board of Directors, since February 2007. From January 2006 to January 2007 Mr. Nano served as President and Chief Executive Officer of Articulated Technologies, LLC., a company involved in creating and commercializing patented light emitting diode technologies for global solid-state lighting applications. He is currently a member of their Board of Directors. Mr. Nano served as President and Chief Executive Officer, and a member of the Board of CTT from June 2002 through June 2005. Prior to joining CTT, Mr. Nano served as a Principal reporting to the Chairman of Stonehenge Networks Holdings, N.V., a global virtual private network provider, with positions in operating, strategic planning and finance from 2000 to 2001. From 1998 to 1999, Mr. Nano served as Executive Vice President and Chief Financial Officer of ConAgra Trade Group, a subsidiary of ConAgra, Inc., an international food company. From 1983 to 1998, he served as Executive Vice President, Chief Financial Officer and President of an Internet Startup Division of Sunkyoung America, a subsidiary of the Korean conglomerate, Sunkyoung Group.

## **Beneficial Ownership Reporting Compliance**

Section 16(a) of the Securities Exchange Act of 1934 (the "Exchange Act") requires our directors and officers, and persons who own more than ten percent of the Common Stock to file reports of ownership and changes in ownership with the Securities and Exchange Commission ("SEC") and the American Stock Exchange. SEC regulations require reporting persons to furnish us with copies of all Section 16(a) forms they file.

Based solely on our review of the copies of the Forms 3, 4 and 5 and amendments thereto furnished to us by the persons required to make such filings during fiscal 2008 and our own records, we believe that all Section 16(a) filing requirements for our officers and directors were complied with on a timely basis.

## **Corporate Governance**

CTT's Corporate Governance Principles, Corporate Code of Conduct (covering all employees and directors), the Committee Charters for the Audit and Nominating Committees of the Board of Directors, the unofficial restated Certificate of Incorporation and the By-Laws are all available on our website at [www.competitivetech.net/investors/governance.html](http://www.competitivetech.net/investors/governance.html).

## **Audit Committee**

The function of the Audit Committee is to assist the Board in fulfilling its responsibility to the stockholders relating to our corporate accounting matters, financial reporting practices, and the quality and integrity of our financial reports. The Audit Committee's purpose is to assist the Board with overseeing:

- the reliability and integrity of our financial statements, accounting policies, internal controls and disclosure practices;
- our compliance with legal and regulatory requirements, including our disclosure controls and procedures;
- our independent auditor's qualifications, engagement, compensation, and independence;
- the performance of our independent auditor; and
- the production of an annual report of the Audit Committee for inclusion in our annual proxy statement.

The Audit Committee is to be composed of not less than three of our independent directors. The Board has determined that each member of the Audit Committee is an independent director in accordance with the applicable rules of the American Stock Exchange and the Securities Exchange Act of 1934. It has also determined that each member is financially literate and has identified Mr. Reali, who is a certified public accountant, as an audit committee financial expert as defined by the Securities and Exchange Commission. The Audit Committee operates pursuant to its charter, which was adopted by the Board, a copy of which was filed as Appendix A to our 2004 Proxy Statement. The Audit Committee evaluates the adequacy of its charter annually.

## **Compensation and Stock Option Committee**

The purpose of the Compensation Committee is to:

- review and approve corporate goals and objectives relevant to CEO compensation, evaluate the CEO's performance in light of those goals and objectives, and determine and approve the CEO's compensation level based on this evaluation;
- review and approve the compensation of our other officers based on recommendations from the CEO;
- review, approve and make recommendations to the Board with respect to incentive compensation plans or programs, or other equity-based plans or programs, including but not limited to our Annual Incentive Plan, our 1997 Employees' Stock Option Plan, and our 401(k) Plan; and
- produce an annual report of the Compensation Committee on executive compensation for inclusion in our annual proxy statement.

The Compensation Committee is to be composed of not less than three of our independent directors. The Board has determined that each member of the Compensation Committee is (1) an independent director in accordance with the applicable rules of the NYSE Amex and any other applicable legal or regulatory requirement, (2) a non-employee director within the meaning of Rule 16-b3(i) under the Securities Exchange Act of 1934, and (3) an outside director within the meaning of Section 162(m) of the Internal Revenue Code of 1986 (the "Internal Revenue Code").

The new Board of Directors is reviewing all compensation plans to assure effectiveness and fiduciary responsibility.

## **Nominating and Corporate Governance Committee**

The purpose of the Nominating Committee is to:

- identify individuals qualified to become members of the Board, consistent with criteria approved by the Board;
- recommend to the Board candidates for all directorships to be filled by the Board or our stockholders;
- in consultation with the Chairman of the Board, recommend to the Board members of the Board to be appointed to committees of the Board and the chairpersons thereof, including filling any vacancies;
- develop and recommend to the Board a set of corporate governance principles applicable to us;
- oversee, evaluate and monitor the Board and its individual members, and our corporate governance principles and procedures; and
- fulfill such other duties and responsibilities as may be set forth in its charter or assigned by the Board from time to time.

The Nominating Committee is to be composed of not less than three of our independent directors. The Board has determined that each member of the Nominating Committee is an independent director in accordance with the applicable rules of the NYSE Amex and any other applicable legal or regulatory requirement. The Nominating Committee operates pursuant to its charter, which was adopted by the Board, a copy of which was filed as Appendix B to our 2004 Proxy Statement.

The Nominating Committee will consider nominees recommended by stockholders but it has not identified any special procedures stockholders need to follow in submitting such recommendations. The Nominating Committee has not identified any such procedures because as discussed below under the heading "Stockholder Communications to the Board," stockholders are free to send communications in writing directly to the Board, committees of the Board, and/or individual directors, at our corporate address in care of our Secretary.

## **Meetings and Attendance**

During the fiscal year ended July 31, 2009, the board of directors met 6 times. The audit committee held four meetings during the fiscal year ended July 31, 2009. The compensation committee held two meetings during the fiscal year ended July 31, 2009. The nominating and corporate governance committee held three meetings during

fiscal year ended July 31, 2009. In 2009, all directors attended at least 75% of all meetings of the board of directors and the committees on which they served after becoming a member of the board or committee. We and the board expect all directors to attend the next Annual Meeting barring unforeseen circumstances or irresolvable conflicts.

### Executive Sessions of Non-Management Directors

The non-management directors of our board meet in executive session, generally at regularly scheduled meetings of the board of directors or at other times as considered necessary or appropriate. A presiding director is chosen by the non-management directors to preside at each meeting and does not need to be the same director at each meeting.

### Relationships Among Directors or Executive Officers

There are no family relationships among any of our directors or executive officers.

### Compensation Committee Interlocks and Insider Participation

No interlocking relationship exists between any member of our board of directors or compensation committee and any member of the board of directors or compensation committee of any other company, nor has such interlocking relationship existed in the past.

## Item 11. Executive Compensation

### Summary Compensation

The following table summarizes the total compensation awarded to, earned by or paid by us for services rendered by the named executive officers that served during the fiscal years 2009 and 2008.

Name and Principal Position	Year	Salary	Bonus	Option Awards	All Other Compensation	Total
Current Executive Officers:						
John B. Nano <sup>(1)</sup> Chairman of the Board of Directors, President and Chief Executive Officer, Interim Chief Financial Officer	2009	\$350,000 <sup>(5)</sup>	\$ -	\$179,333	\$39,889 <sup>(3)</sup>	\$569,222
	2008	363,702	-	153,749	\$29,534 <sup>(2)</sup>	546,985
Aris D. Despo Executive Vice President – Business Development	2009	209,999 <sup>(6)</sup>	-	9,730	\$7,584 <sup>(4)</sup>	227,313
	2008	219,650	-	8,975	-	228,625
John P. Rafferty Vice President and Controller	2009	115,001	-	4,865	\$4,151 <sup>(4)</sup>	124,017
Girish Nallur Executive Vice President – Chief Scientific Officer	2008	145,385	-	8,975	-	154,360

(1) Mr. Nano's salary does not include any additional compensation for serving as Chairman of the Board.

(2) Payment of auto lease.

(3) Includes \$30,461 for payment of auto lease, \$1,167 for auto repairs, and discretionary contribution of 5,511 shares of CTT common stock (valued at \$8,267) contributed to the Company's 401(k) plan.

(4) Represents discretionary contribution to the Company's 401(k) plan of 5,056 shares of CTT common stock for Mr. Despo and 2,767 shares for Mr. Rafferty.

(5) Beginning in January 2009, Mr. Nano began deferring one half his salary until the company is in a stronger cash flow position. This amount includes deferred wages of \$94,231.

- (6) Beginning in January 2009, Mr. Despo began deferring a portion of his salary until the company is in a stronger cash flow position. This amount includes deferred wages of \$32,308.

### Grants of Plan Based Awards

The following table shows equity awards granted to named executive officers during fiscal 2009 and 2008. Equity awards identified in the table below are also reported in the Outstanding Equity Awards at 2009 Year End Table.

Name	Grant Date	Option Awards:		Closing Market Price on Grant Date (\$)	Grant Date Fair Value of Stock Option Grants (\$) <sup>(2)</sup>
		Number of Securities Underlying Options (#) <sup>(1)</sup>	Exercise Price (\$/Share)		
Aris D. Despo	9/28/07 <sup>(3)</sup>	30,000	2.25	2.25	42,960
Girish Nallur	9/28/07 <sup>(3)</sup>	30,000	2.25	2.25	42,960

- (1) Granted pursuant to our 1997 Employees Stock Option Plan.  
(2) These amounts reflect the fair value as of the option grant date as determined by SFAS 123(R) for accounting purposes. For a description of the assumptions used to determine the grant date fair value, see Note 14 of Notes to Consolidated Financial Statements in Part II, Item 8.  
(3) These stock options vest 25% on the first anniversary of the grant and 25% annually thereafter.

### Outstanding Equity Awards at Fiscal Year-End

Name	Number of Securities Underlying Unexercised Options Exercisable <sup>(1)</sup>	Number of Securities Underlying Unexercised Options Unexercisable <sup>(1)</sup>	Option Price	Option Expiration Date
John B. Nano	300,000	100,000 <sup>(2)</sup>	\$2.52	2/02/17
Aris D. Despo	7,500	22,500 <sup>(3)</sup>	2.25	9/28/17
John P. Rafferty	3,750	11,250 <sup>(3)</sup>	2.25	9/28/17

- (1) Option awards under our 1997 Employees Stock Option Plan.  
(2) Options vest on February 2, 2010.  
(3) Vesting schedule: 33% each on September 28, 2009, 2010, and 2011, respectively.

### Option Exercises During Fiscal Year 2009

There were no options exercised during fiscal year 2009.

### Employment, Severance and Change of Control Arrangements

John B. Nano signed an employment agreement with the Company in February 2, 2007. The agreement provides for employment for a period of three years from the effective date, ending at the close of business on February 2, 2010. The agreement states that the Company employs Mr. Nano as its President and Chief Executive Officer, and that he reports to the Company's Board of Directors. The agreement also states that Mr. Nano was appointed to the Board as its Chairman, without any additional compensation. The agreement established his starting annual base salary at \$350,000, subject to reviews and increases at the sole discretion of the Board. The complete agreement, including all terms and definitions, can be found at [www.sec.gov](http://www.sec.gov) with the current report on Form 8-K dated February 6, 2007.

Mr. Nano's responsibilities and duties are appropriate to the position of Chief Executive Officer the Company, including, without limitation, developing and implementing an overall strategic plan and annual business plans, raising new capital, and supervising day-to-day operations. The agreement entitles Mr. Nano to receive a yearly bonus of up to 50% of his base compensation, based upon the Company's performance and his performance of objectives during that time period as determined by the Compensation Committee of the Board. Mr. Nano's

agreement provides for reimbursement of business related expenses, a leased car, and participation in employee benefit programs and plans.

The company granted Mr. Nano ten year options ("Plan Options") for the purchase of an aggregate of 400,000 shares of the Company's common stock at the mean average of the high and low share price on the effective date of the agreement. The Plan Options vest 25% on each of the following four dates: immediately upon employment; on each successive one-year anniversary of the date of employment.

If Mr. Nano resigns his employment for good reason, or the Company terminates his employment without cause, he will be entitled to receive all accrued but unpaid salary and benefits through the date of termination plus severance benefits. In the event Mr. Nano resigns from the Company without good reason, or if the Company terminates his employment with cause, the Company has no liability to him except to pay his base compensation and any accrued benefits through his last day worked, and he will not be entitled to receive severance or other benefits.

In the event of Mr. Nano's death, or if he is unable to fulfill his obligations to the Company due to illness, injury, physical or mental incapacity or other disability, for any 120 days within any 12 month period, all obligations under the agreement are terminated; except that: the Company will pay his base compensation and accrued benefits to him or to his estate, and any unvested Plan Options granted under this agreement will become fully vested and immediately exercisable for a period of one year by him or his estate. In the event of his death, any post-retirement benefits shall be paid to Executive's estate. In the event of his disability, he will be reimbursed for one-time premium post-retirement health coverage not to exceed \$120,000.

If the Company terminates Mr. Nano's employment without cause in conjunction with a Change in Control, he will be entitled to receive all accrued but unpaid salary and benefits through the date of termination plus the Change in Control benefit.

The agreement's severance benefit granted to Mr. Nano provides for no less than twelve months continuation of his base compensation, his employment benefits, vesting of Options granted, and reimbursement for post retirement health coverage.

The agreement's Changes in Control benefit granted to Mr. Nano provides for continuation of compensation in effect to be paid for a period of either twice the amount of the severance benefit period, or the remainder of his employment term, whichever is longer; continuation of his employment benefits and reimbursement for post-retirement health care benefits; and full and immediate vesting of any unvested but outstanding Options

The following table summarizes the value of benefits payable to Mr. Nano pursuant to the arrangements described above. Calculations are based on the termination, resignation or change of control taking place as of July 31, 2009, the last day of our most recent fiscal year.

#### **Summary of Potential Payments at July 31, 2009 for John B. Nano Employment Contract**

	<b>Severance (\$)</b>	<b>Benefits Summary (\$)</b>	<b>Options Vesting (\$)</b>	<b>Post Retirement Healthcare (\$)</b>	<b>Total (\$)</b>
Resignation	-	-	-	-	-
Termination – cause	-	-	-	-	-
Death or disability	-	-	102,733 <sup>(5)</sup>	120,000	222,733
Resignation – good reason	350,000 <sup>(1)</sup>	57,226 <sup>(3)</sup>	102,733 <sup>(5)</sup>	120,000	629,959
Termination – w/o cause	350,000 <sup>(1)</sup>	57,226 <sup>(3)</sup>	102,733 <sup>(5)</sup>	120,000	629,959
Change of control	700,000 <sup>(2)</sup>	114,451 <sup>(4)</sup>	102,733 <sup>(5)</sup>	120,000	1,037,184

(1) Reflects minimum severance benefit of one year's base salary.

(2) Reflects minimum change in control benefit of two years base salary.

(3) Reflects continued benefits of auto, medical, dental, vision and life insurance plan coverage for the severance benefit period (12 months).

- (4) Reflects continued benefits of auto, medical, dental, vision and life insurance plan coverage for the change in control benefit period (24 months).
- (5) Reflects accelerated vesting of the unamortized cost of the options, as if the officer continued employment for the remaining term of the agreement.

### **Compensation Discussion and Analysis**

The purpose of CTT's Incentive Plan, approved by the Board on November 22, 2005, is to attract and retain personnel of experience and ability by providing an incentive to those who contribute to the successful operation of CTT. The Incentive Plan provides for eligible employees to earn an annual bonus incentive in cash. The targeted annual bonus incentive award is a percentage of the participant's salary earned during the plan year, as defined in the Incentive Plan, and is comprised of two parts, 50% of which is dependent upon attainment of financial performance metrics that serve as our company wide goals and objectives and are set at the beginning of the year (the "Company Component"), and 50% of which is dependent upon the individual's performance compared to each individual's pre-established goals and objectives (the "Individual Component"). If our financial performance is less than 70% of its goal, there will be no award for the Company Component. If our financial performance is more than 120% of its goal, then the Company Component award will increase up to 125% of the award and may, under certain conditions, as defined, increase up to a maximum of 200% of the award. If a participant meets his or her individual goals, we may pay the Individual Component regardless of whether the Company Component is met. The Committee may suspend or amend the Incentive Plan at any time from time to time, and the Board may terminate the Incentive Plan.

The Committee also determines the number and terms of stock options to grant to all employees pursuant to the Stock Option Plan. This plan provides additional long-term incentive for employees to maximize stockholder value and to attract, retain and motivate our employees to continue employment with us. To encourage and recognize the cooperative teamwork of all employees that is required to achieve our goals, we grant stock options to all employees to give them a proprietary interest in CTT.

### **REPORT OF THE COMPENSATION AND STOCK OPTION COMMITTEE**

This report of the Compensation and Stock Option Committee (the "Committee") shall not be deemed incorporated by reference by any general statement incorporating the Proxy Statement by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934 (the "Acts"), except to the extent that CTT specifically incorporates this information by reference, and shall not otherwise be deemed filed under such Acts.

CTT's compensation program consists of base salary, bonus, stock options, other incentive awards and other benefits, which the Committee generally reviews annually. The Committee's overall philosophy is to align compensation with our business strategy and to support achievement of our long-term goals. In order to attract and retain competent executives, we believe it is essential to maintain an executive compensation program that provides overall compensation competitive with that paid to executives with comparable qualifications and experience.

The Board of Directors is reviewing all compensation plans to assure effectiveness and fiduciary responsibility.

#### ***Compensation and Stock Option Committee Report:***

We have reviewed and discussed with management certain Executive Compensation and Compensation Discussion and Analysis provisions to be included in the Company's Annual Report on Form 10-K, filed pursuant to the Securities Exchange Act of 1934, as amended (the "Annual Report"). Based on the reviews and discussions referred to above, we recommend to the Board of Directors that the Executive Compensation and Compensation Discussion and Analysis provisions referred to above be included in the Company's Annual Report.

Submitted by the Compensation and Stock Option Committee of the Board of Directors

Richard D. Hornidge, Jr. (Chairman)  
Rustin Howard                      William L. Reali

This Compensation Committee Report is not deemed incorporated by reference by any general statement incorporating by reference of this Annual Report into any filing under the Securities Act of 1933, as Amended, or the Exchange Act, except to the extent that the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under either such Acts.

## Director Compensation

The following table summarizes the total compensation awarded to, earned by or paid by us for services rendered during fiscal year 2009 to the non-employee Board of Director members:

Name	Fees Earned or Paid in Cash <sup>(3)</sup>	Option Awards <sup>(1)</sup>	Other Equity Compensation <sup>(2)</sup>	Total
Joel M. Evans, M.D.	\$16,000	\$6,470	\$2,513	\$24,983
Richard D. Hornidge, Jr.	15,500	6,470	2,513	24,483
Rustin Howard	16,000	6,470	2,513	24,983
William L. Reali	21,500	6,470	2,513	30,483
Former Board Member: Ralph S. Torello	13,500	6,470	2,513	22,483

- (1) Each director serving on January 2, 2009 received a stock option for 10,000 shares of common stock at \$1.005 per share under the 2000 Directors Stock Option Plan. We estimated the fair value of stock awards at \$0.647 per share using the Black-Scholes option valuation model with expected life of 5 years, risk free interest rate of 1.72%, volatility of 79.04% and dividend yield of 0. See Item 14 in Notes to Consolidated Financial Statements in Part II, Item 8
- (2) Each director serving on January 2, 2009 received 2,500 shares of stock under the 1996 Directors Stock Participation Plan. The fair market value of the stock was \$1.005 per share.
- (3) This amount includes unpaid fees of \$13,833, \$14,833, \$14,333, and \$16,833 for Dr. Evans, Mr. Hornidge, Mr. Howard, and Mr. Reali respectively.

## Outstanding Equity Awards at July 31, 2009

Name	Number of Securities Underlying Unexercised Options <sup>(1)</sup>	Option Exercise Price	Option Expiration Date
Joel M. Evans, M.D.	10,000	\$2.58	8/2/17
	10,000	1.51	1/2/18
	10,000	1.005	1/2/19
Richard D. Hornidge, Jr.	10,000	2.58	8/2/17
	10,000	1.51	1/2/18
	10,000	1.005	1/2/19
Rustin Howard	10,000	2.29	10/5/17
	10,000	1.51	1/2/18
	10,000	1.005	1/2/19
William L. Reali	10,000	2.58	8/2/17
	10,000	1.51	1/2/18
	10,000	1.005	1/2/19
Former Board Member: Ralph S. Torello	10,000	2.58	8/2/17

- (1) Each stock option was granted pursuant to our 2000 Directors' Stock Option Plan. The shares were vested immediately on issuance.

Each of our non-employee directors is paid an annual cash retainer of \$10,000, paid quarterly in arrears, for their services to the Company. In addition, directors are issued shares of common stock pursuant to our 1996 Directors Stock Participation Plan, as amended, and are granted stock options to purchase common stock pursuant to our 2000 Directors Stock Option Plan, both as described below. In addition, effective in fiscal year 2005, the

Chairman of the Board, if a non-employee, and the Chairman of the Audit Committee are paid annual stipends for the additional responsibilities and time commitments required of them. Mr. Nano, as an employee of the Company, has not been paid any compensation for serving as Chairman of the Board. Mr. Reali has served as Chairman of the Audit Committee since February 2, 2007, and received a \$6,000 stipend in 2009.

Each non-employee director is also paid \$1,000 for each Board meeting attended and \$500 for each committee meeting attended. All directors are reimbursed for out-of-pocket expenses incurred to attend Board and committee meetings.

Pursuant to our 1996 Directors Stock Participation Plan, as amended, on the first business day of January, each non-employee director who has been elected by the stockholders and has served at least one full year as a director is issued a number of shares of common stock equal to the lesser of \$15,000 divided by the per share fair market value of such stock on the issuance date, or 2,500 shares. If a non-employee director were to leave the Board after serving at least one full year, but prior to the January issuance date, we will issue shares of common stock to the director on a pro-rata basis up to the termination date. Common stock may not be issued pursuant to this plan after January 3, 2011.

Pursuant to our 2000 Directors' Stock Option Plan, non-employee directors are granted 10,000 fully vested, non-qualified stock options to purchase our common stock on the date the individual is first elected as a director, whether by the stockholders or by the Board, and is granted 10,000 options on the first business day of January thereafter, provided the individual is still a director. The stock options granted are at an exercise price not less than 100% of the fair market value of the common stock at the grant date and have a term of ten years from date of grant. If an individual's directorship terminates because of death or permanent disability, the stock options may be exercised within one year after termination. If the termination is for any other reason, the stock options may be exercised within 180 days after termination. However, the Board has the discretion to amend previously granted stock options to provide that such stock options may continue to be exercisable for specified additional periods following termination. In no event may a stock option be exercised after the expiration of its ten-year term. Stock options may not be granted under this plan after the first business day of January 2010.

## Item 12. Security Ownership of Certain Beneficial Owners and Management

### Beneficial Ownership of Shares:

<b>Names of Beneficial Owners (and address, if ownership is more than 5%)</b>	<b>Amount Beneficially Owned</b>	<b>(1)</b>	<b>Percent (%)</b>
Directors and executive officers			
Joel M. Evans, M.D.	38,800	(2)	*
Richard D. Hornidge, Jr.	111,135	(2)	1.1
Rustin Howard	56,000	(2)	*
John B. Nano	322,183	(2)	3.2
William L. Reali	43,000	(2)	*
All directors and executive officers as a group	571,118		5.6

\* Less than 1%

(1) Designated person or group has sole voting and investment power.

(2) Persons listed below have the right to acquire the listed number of shares upon the exercise of stock options:

<b>Name</b>	<b>Right to Acquire</b>
Joel M. Evans, M.D.	30,000
Richard D. Hornidge, Jr.	30,000
Rustin Howard	30,000
John B. Nano	300,000
William L. Reali	30,000
All Directors and Executive Officers as a Group	420,000

## Equity Compensation Plan Information

Plan Category	Number of Securities to be issued upon exercise of outstanding options	Weighted-average exercise price of outstanding options	Number of securities remaining available for future issuance (excluding options outstanding)
Equity Compensation plans approved by security holders			
Key Employees Stock Option Plan <sup>(1)</sup>	14,000	\$7.08	-
1997 Employees Stock Option Plan <sup>(2)</sup>	581,750	\$2.72	-
2000 Directors Stock Option Plan <sup>(3)</sup>	175,000	3.21	132,000
1996 Directors Stock Participation Plan <sup>(4)</sup>	-		36,659

- (1) The Key Employees' Stock Option Plan expired on December 31, 2000, after which no option could be granted under the plan. Pursuant to this plan incentive stock options and nonqualified stock options were granted to key employees. Incentive stock options could be granted at an exercise price not less than the fair market value of our common stock on the grant date. Nonqualified stock options could be granted at an exercise price not less than 85% of the fair market value of our common stock on the grant date. Options generally vested over a period of up to three years after the grant date and expire ten years after the grant date if not terminated earlier. The number of common shares reserved for issuance on exercise of stock options as of July 31, 2009 and 2008 is 14,000 and 15,250 respectively.
- (2) The 1997 Employees' Stock Option Plan provided for the granting of stock options to purchase our common stock. Stock options granted under the Plan had to be granted at not less than 100% of the fair market value on the date of grant. The Compensation Committee determined the vesting period for the stock options. Stock options expired upon termination of grantee's employment or ten years after date of grant. At the option of the Compensation Committee, grants could continue to be exercisable through up to ten years after the grant date, irrespective of the termination of the optionee's employment with us. No options could be granted pursuant to this plan after September 30, 2007.
- (3) The 2000 Directors' Stock Option Plan provides for the granting of stock options to purchase our common stock. Stock options may be granted under this Plan to non-employee directors at not less than 100% of the fair market value on the date of grant. Each non-employee director is eligible to receive a grant of 10,000 fully vested common stock options when first elected as a director and 10,000 more common stock options on the first business day of January thereafter, as long as the individual is a director. The maximum life of options granted under this plan is ten years from the date of grant. No options may be granted after January 4, 2010, the first business day in January 2010. On August 1, 2007, following a 180-day allowed grace period after the prior Board's termination, 282,000 options that had been granted to, but not exercised by the Directors, became available for future grant under this plan. In August 2007, we made an initial grant of 10,000 shares each to Directors Evans, Hornidge, Reali and Torello. An initial grant of 10,000 shares was made to Director Howard in October 2007.
- (4) The 1996 Directors' Stock Participation Plan calls for the issuance of stock to each non-employee who has served at least one year as a director on the first business day in January. They are entitled to receive the lesser of 2,500 shares of our common stock or a number of shares of common stock equal to \$15,000 on the date such shares are issued. If an otherwise eligible director terminates as a director before the first business day of the year, we issue such director a number of shares equal to the portion of the year served by that director. This plan expires on January 3, 2011, the first business day in January 2011.

## Item 13. Certain Relationships, Related Transactions and Director Independence

We have adopted a written policy for the review and approval of related party transactions which is defined as a sale or purchase of property, supplies or services to or from any director or officer of the company, members of a director's or officer's family, or entities in which any of these persons is a director, officer or owner of 5% or more

that that entity's interests. Our policy requires prior approval by both a majority of our Board of Directors and a majority of our disinterested directors who are not employees of the company.

Our Board of Directors determined that when a director's services are outside the normal duties of a director, we compensate the director at the rate of \$1,000 per day, plus expenses, which is the same amount we pay a director for attending a one-day Board meeting. We classify these amounts as consulting expenses, included in personnel and other direct expenses relating to revenues.

We incurred a charge of \$54,000 and \$70,500 in 2009 and 2008, respectively, for consulting services provided by a relative of our President and CEO.

CTT's Board of Directors is composed of five members (refer to Item 10, Part III). Directors Evans, Hornidge, Howard, and Reali are considered to be independent directors as defined by the NYSE Amex. Director Nano is not considered an independent director, as he is an employee of the Company.

## Item 14. Principal Accounting Fees and Services

### Independent Public Accountants

Mahoney Cohen & Company, CPA, P.C. ("Mahoney Cohen") are the independent registered public accountants for the company. Pursuant to an asset purchase agreement, our former independent public accounting firm, Mahoney Cohen & Company, CPA, P.C. was acquired by the New York practice of Mayer Hoffman McCann P.C ("MHM"), and the shareholders of Mahoney Cohen became shareholders of MHM. Following its acquisition of Mahoney Cohen, MHM changed its name to MHM Mahoney Cohen CPAs ("MHM Mahoney Cohen"), effective December 31, 2008.

*Fees Billed by Principal Accountants* – The following table presents fees for professional services rendered by Mahoney Cohen and MHM Mahoney Cohen for the years ended July 31, 2009 and 2008:

	<b>2009</b>	<b>2009</b>	<b>2009</b>	<b>2008</b>
	Mahoney Cohen	MHM Mahoney Cohen	Full Year Total	Mahoney Cohen
Audit fees	\$ 90,304	\$ 30,000	\$ 120,304	\$ 142,299
Tax fees	-	1,483	1,483	4,000
Audit related fees <sup>(1)</sup>	5,211	2,000	7,211	8,400
<b>Total</b>	<b>\$ 95,515</b>	<b>\$ 33,483</b>	<b>\$ 128,998</b>	<b>\$ 154,699</b>

(1) Fees for S-1 and S-8 review.

### Audit Committee Pre-Approval of Services of Principal Accountants

The Audit Committee has the sole authority and responsibility to select, evaluate, determine the compensation of, and, where appropriate, replace the independent auditor. After determining that providing the non-audit services is compatible with maintaining the auditor's independence, the Audit Committee pre-approves all audits and permitted non-audit services to be performed by the independent auditor, except for *de minimus* amounts. If it is not practical for the Audit Committee to meet to approve fees for permitted non-audit services, the Audit Committee has authorized its chairman, currently Mr. Reali, to approve them and to review such pre-approvals with the Audit Committee at its next meeting.

## **PART IV**

### **Item 15. Exhibits and Financial Statement Schedules**

- (a) List of financial statements and schedules.

The following consolidated financial statements of Competitive Technologies, Inc. and Subsidiaries are included herein by reference to the pages listed in "Item 8. Financial Statements and Supplementary Data":

Reports of Independent Registered Public Accounting Firms

Consolidated Balance Sheets as of July 31, 2009 and 2008

Consolidated Statements of Operations for the years ended July 31, 2009, and 2008

Consolidated Statements of Changes in Shareholders' Interest for the years ended July 31, 2009 and 2008

Consolidated Statements of Cash Flows for the years ended July 31, 2009 and 2008

**CERTIFICATION**

I, John B. Nano, Chairman, President, Chief Executive Officer and Interim Chief Financial Officer certify that:

1. I have reviewed this Annual Report on Form 10-K of Competitive Technologies, Inc. (the "Company");
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Company as of, and for, the periods presented in this report;
4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the Company and we have:
  - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Company, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) evaluated the effectiveness of the Company's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (c) disclosed in this report any change in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter (the Company's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
  - (d) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting procedures.
5. I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the Company's auditors and the audit committee of the Company's Board of Directors (or persons performing the equivalent functions):

- (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Company's ability to record, process, summarize and report financial information; and
- (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the Company's internal control over financial reporting.

Date: October 27, 2009

Chairman, President, Chief Executive Officer, and  
Interim Chief Financial Officer

**CERTIFICATION PURSUANT TO  
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002  
(18 U.S.C. 1350)**

In connection with the Annual Report of Competitive Technologies, Inc. (the "Company") on Form 10-K for the year ended July 31, 2009, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, John B. Nano, Chairman, President, Chief Executive Officer, and Interim Chief Financial Officer of the Company, certify, pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (18 U.S.C. 1350), that to my knowledge:

1. the Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
2. the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

/s/ John B. Nano
