Item 1. Business

Background

Simon Property Group, L.P. is a Delaware limited partnership and a majority owned subsidiary of Simon Property Group, Inc. In this report, the terms the “Operating Partnership”, “we”, “us” and “our” refer to the Simon Property Group, L.P. and its subsidiaries and the term “Simon Property” refers specifically to Simon Property Group, Inc.

We are engaged primarily in the ownership, development, and management of retail real estate, primarily regional malls, Premium Outlet® centers and community/lifestyle centers. As of December 31, 2005, we owned or held an interest in 286 income-producing properties in the United States, which consisted of 171 regional malls, 33 Premium Outlet centers, 71 community/lifestyle centers, and 11 other shopping centers or outlet centers in 39 states and Puerto Rico (collectively, the “Properties”, and individually, a “Property”). We also own interests in ten parcels of land held for future development (together with the Properties, the “Portfolio”). Finally, we have ownership interests in 51 European shopping centers (in France, Italy and Poland), five Premium Outlet centers in Japan, and one Premium Outlet center in Mexico.

Operating Policies and Strategies

The following is a discussion of our investment policies, financing policies, conflict of interest policies and policies with respect to certain other activities, which are also consistent with those of Simon Property. The Simon Property Board of Directors (“Board”) may amend or rescind these policies from time to time at its discretion without a vote of our limited partners.

Investment Policies

Our primary business objectives are to increase operating results and the value of our Properties while maintaining a stable balance sheet consistent with our financing policies. We intend to achieve these objectives by:

- developing new shopping centers which meet our economic criteria;
- renovating and/or expanding our Properties where appropriate;
- acquiring additional shopping centers and portfolios of other retail real estate companies that meet our investment criteria;
- pursuing a leasing strategy that capitalizes on the desirable location of our Properties;
- generating additional revenues through merchandising, marketing and promotional activities;
- adding mixed-use elements to our Portfolio through our land intensification initiatives. This includes adding elements such as multifamily, condominiums, hotel and self-storage at selected locations; and
- improving the performance of our Properties by using the economies of scale that result from our size to help control operating costs.

We cannot assure you that we will achieve our business objectives.

We develop and acquire properties to generate both current income and long-term appreciation in value. We do not limit the amount or percentage of assets that may be invested in any particular property or type of property or in any geographic area. We may purchase or lease properties for long-term investment or develop, redevelop, and/or sell our Properties, in whole or in part, when circumstances warrant. We participate with other entities in property ownership, through joint ventures or other types of co-ownership. These equity investments may be subject to existing mortgage financing and other indebtedness that have priority over our equity interest.

While we emphasize equity real estate investments, we may, at our discretion, invest in mortgages and other real estate interests consistent with Simon Property’s qualification as a real estate investment trust or REIT under the Internal Revenue Code of 1986, as amended (“Code”). We do not currently intend to invest to a significant extent in mortgages or deeds of trust; however, we hold an interest in one Property through a mortgage note, which results in us receiving 100% of the economics of the Property. We may invest in participating or convertible mortgages if we conclude that we may benefit from the cash flow or any appreciation in the value of the property.

We may also invest in securities of other entities engaged in real estate activities or securities of other issuers. However, any of these investments would be subject to the percentage ownership limitations and gross income tests

necessary to maintain Simon Property's qualification as a REIT. These REIT limitations mean that Simon Property cannot make an investment that would cause its real estate assets to be less than 75% of its total assets. In addition, at least 75% of Simon Property's gross income must be derived directly or indirectly from investments relating to real property or mortgages on real property, including "rents from real property," dividends from other REITs and, in certain circumstances, interest from certain types of temporary investments. At least 95% of Simon Property's income must be derived from such real property investments, and from dividends, interest and gains from the sale or dispositions of stock or securities or from other combinations of the foregoing.

Subject to these REIT limitations, we may invest in the securities of other issuers in connection with acquisitions of indirect interests in real estate. Such an investment would normally be in the form of general or limited partnership or membership interests in special purpose partnerships and limited liability companies that own one or more properties. We may, in the future, acquire all or substantially all of the securities or assets of other REITs, management companies or similar entities where such investments would be consistent with our investment policies.

Financing Policies

We must comply with the covenant restrictions of debt agreements that limit our ratio of debt to total market valuation. For example, our lines of credit and the indentures for our debt securities contain covenants that restrict the total amount of debt to 65%, or 60% in relation to certain debt, of total assets, as defined under the related arrangement, and secured debt to 50% of total assets. In addition, these agreements contain other covenants requiring compliance with financial ratios. Furthermore, the amount of debt that we may incur is limited as a practical matter by our desire to maintain acceptable ratings for Simon Property's equity securities and our debt securities.

We may raise additional capital through debt financing, creation of joint ventures with existing ownership interests in Properties, retention of cash flows or a combination of these methods. If the Board determines to raise additional equity capital at the Operating Partnership level, we may, without limited partner approval, issue additional units of limited partnership interests or units. We may issue units in any manner and on such terms and for such consideration, as we deem appropriate. This may include issuing units in exchange for property. The units may be preferred units and may be senior to the outstanding classes of our units and may be convertible into units. Existing holders of units have no preemptive right to purchase units in any subsequent offerings. Any such offering could dilute a unitholder's investment in us.

We anticipate that any additional borrowings would be made in the form of bank borrowings, publicly and privately placed debt instruments, or purchase money obligations to the sellers of properties. Any of such indebtedness may be unsecured or may be secured by any or all of our assets, or any existing or new property-owning partnership. Any such indebtedness may also have full or limited recourse to all or any portion of the assets of any of the foregoing. Although we may borrow to fund the payment of dividends, we currently have no expectation that we will regularly be required to do so.

We may obtain unsecured or secured lines of credit. We also may determine to issue debt securities. Any such debt securities may be convertible into units, preferred units or be accompanied by warrants to purchase equity interests or be exchangeable for stock of Simon Property. We also may sell or securitize our lease receivables. The proceeds from any borrowings or financings may be used for the following:

- financing acquisitions;
- developing or redeveloping properties;
- refinancing existing indebtedness;
- working capital or capital improvements; or
- assisting Simon Property to meet the income distribution requirements applicable to REITs, if Simon Property has income without the receipt of cash sufficient to enable it to meet such distribution requirements.

We also may determine to finance acquisitions through the following:

- issuance of additional units;
- issuance of additional preferred units;
- issuance of other securities; or
- sale or exchange of ownership interests in Properties.

Our ability to offer units to transferors may result in beneficial tax treatment for the transferors. This is because the exchange of units for properties may defer the recognition of gain for tax purposes by the transferor. It may also be advantageous for us since certain investors may be limited in the number of shares of units that they may purchase.

If the Board determines to obtain additional debt financing, we intend to do so generally through mortgages on Properties, drawings against revolving lines of credit or term loan facilities, or the issuance of unsecured debt. We may do this directly or through an entity owned or controlled by us. The mortgages may be non-recourse, recourse, or cross-collateralized. We do not have a policy limiting the number or amount of mortgages that may be placed on any particular property. Mortgage financing instruments, however, usually limit additional indebtedness on such properties.

Typically, we invest in or form special purpose entities only to obtain permanent financing for Properties on attractive terms. Permanent financing for Properties is typically structured as a mortgage loan on one or a group of Properties in favor of an institutional third party, as a joint venture with a third party, or as a securitized financing. For securitized financings, we are required to create special purpose entities to own the Properties. These special purpose entities are structured so that they would not be consolidated with us in the event we would ever become subject to a bankruptcy proceeding. We decide upon the structure of the financing based upon the best terms then available to us and whether the proposed financing is consistent with our other business objectives. For accounting purposes, we include the outstanding securitized debt of special purpose entities owning consolidated Properties as part of our consolidated indebtedness.

Conflict of Interest Policies

We maintain policies and have entered into agreements designed to reduce or eliminate potential conflicts of interest. Simon Property has adopted governance principles governing its affairs and the affairs of its subsidiaries and the Board, as well as written charters for each of the standing Committees of the Board. In addition, the Board has a Code of Business Conduct and Ethics, which applies to all of its officers, directors, and employees. At least a majority of the members of the Board must qualify as independent under the listing standards for New York Stock Exchange companies and cannot be affiliated with the Simon or DeBartolo families. Any transaction between us and the Simons or the DeBartolos, including property acquisitions, service and property management agreements and retail space leases, must be approved by a majority of non-affiliated directors.

The sale of certain of our properties may have an adverse tax impact on the Simons or the DeBartolos and the other limited partners. In order to avoid any conflict of interest between Simon Property and our limited partners, the Simon Property charter requires that at least six of the independent directors of the Board must authorize and may require us to sell any property we own. Any such sale is subject to applicable agreements with third parties. Noncompetition agreements executed by each of the Simons contain covenants limiting the ability of the Simons to participate in certain shopping center activities in North America.

Policies With Respect To Certain Other Activities

We intend to make investments which are consistent with Simon Property's qualification as a REIT, unless the Board determines that it is no longer in Simon Property's best interests to qualify as a REIT. The Board may make such a determination because of changing circumstances or changes in the REIT requirements. We have authority to offer units of our equity interests or other securities in exchange for property. We also have authority to repurchase or otherwise reacquire our units or any other securities. We may engage in such activities in the future. We may also repurchase units subject to Board approval. It is our policy to not make any loans to the directors or executive officers of Simon Property for any purpose. We may make loans to our management company and to joint ventures in which we participate.

Operating Strategies

We plan to achieve our primary business objectives through a variety of methods discussed below, although we cannot assure you that we will achieve such objectives.

Leasing. We pursue a leasing strategy that includes:

- marketing available space to maintain or increase occupancy levels;
- renewing existing leases and originating new leases at higher base rents per square foot;

- negotiating leases that allow us to recover from our tenants the majority of our property operating, real estate tax, repairs and maintenance, and advertising and promotion expenditures; and
- executing leases that provide for percentage or overage rents and/or regular or periodic fixed contractual increases in base rents.

Management. We draw upon our expertise gained through management of a geographically diverse Portfolio, nationally recognized as comprising high quality retail and other Properties. In doing so, we seek to maximize cash flow through a combination of:

- an active merchandising program to maintain our shopping centers as inviting shopping destinations;
- efforts to minimize overhead and operating costs which not only benefits our operations but also reduces the costs reimbursed to us from our tenants. A tenant's ability to pay rent is affected by the percentage of its sales represented by occupancy costs, which consist of rent and expense recoveries. As sales levels increase, if expenses subject to recovery are controlled, the tenant can afford to pay higher base rent.
- coordinated marketing and promotional activities that establish and maintain customer loyalty; and
- systematic planning and monitoring of results.

We believe that if we are successful in our efforts to increase sales while controlling operating expenses we will be able to continue to increase base rents at the Properties.

We manage substantially all our Properties held as joint venture Properties and as a result we derive revenues from management fees and other services.

Other Revenues. Due to our size, tenant and vendor relationships, we also generate revenues from the activities of:

- Simon Brand Ventures ("Simon Brand") obtains revenues from establishing our malls as leading market resource providers for retailers and other businesses and consumer-focused corporate alliances. Simon Brand revenues include payment services, national media contracts, a national beverage contract and other contracts with national companies as well as the fees derived from the issuance of bank-issued co-branded gift cards.
- Simon Business Network ("Simon Business") revenues are derived from the offering of products and property operating services, resulting from its relationships with vendors, to our tenants and others. These services include such items as waste handling, facility services, and energy services, as well as major capital expenditures such as roofing, parking lots and energy systems.

We also generate other revenues through the sale or lease of land adjacent to our Properties commonly referred to as "outlots" or "outparcels."

International Expansion. Our investments in Europe, Japan, and Mexico are currently conducted through joint ventures. In Europe, we have investments in partnerships with Groupe Auchan (known as Gallerie Commerciali Italia ("GCI") in Italy) and Ivanhoe Cambridge, Inc. (known as European Retail Enterprises, B.V. ("ERE") in France and Poland). In Japan, our investments are in partnerships with Mitsubishi Estate Co., Ltd. and Sojitz Corporation (formerly known as Nissho Iwai Corporation). Our Mexico investment is a joint venture with Sordo Madaleno y Asociados. We account for our international joint venture activities under the equity method of accounting as defined by accounting policies generally accepted in the United States. We are also evaluating additional investments opportunities in Korea and China through additional joint venture relationships.

We believe that the expertise we have gained through the development, leasing, management, and marketing of our Properties in the United States can be utilized in retail properties abroad. There are risks inherent in international operations that may be beyond our control which are described in the following section entitled "Risk Factors."

Mergers and Acquisitions

Mergers and acquisitions have been a significant component of the growth and development of our business. In 2005, we completed two acquisitions that added to our overall Portfolio:

- On November 18, 2005, we purchased a 37.99% interest in Springfield Mall in Springfield, Pennsylvania for approximately \$39.3 million, including the issuance of our share of debt of \$29.1 million.

- On November 21, 2005, we purchased a 50% interest in Coddington Mall in Santa Rosa, California for approximately \$37.1 million, including the assumption of our share of debt of \$10.5 million.

Dispositions

As part of our strategic plan to own quality retail real estate, we continually evaluate our properties and sell those which no longer meet our strategic criteria. We may use the capital generated from these dispositions to invest in higher-quality, higher-growth properties. We believe that the sale of these non-core Properties will not have a material impact on our future results of operations or cash flows nor will their sale materially affect our ongoing operations. We expect that any earnings dilution from the sales on our results of operations from these dispositions will be offset by the positive impact of acquisition, development and redevelopment activities.

During 2005, we sold or disposed of sixteen previously consolidated non-core properties, consisting of four regional malls, one community/lifestyle center, nine other Outlet centers, and two office buildings. The properties and the month and year of disposition were:

Regional Malls:

- Cheltenham Square — November 2005
- Southgate Mall — November 2005
- Eastland Mall (Oklahoma) — December 2005
- Biltmore Square — December 2005

Office Buildings:

- Riverway — June 2005
- O'Hare International Center — June 2005

Community Center:

- Grove at Lakeland Square — July 2005

Outlet Centers:

- Lakeland Factory Outlet Mall — March 2005
- Factory Stores of America
(Various properties — all December 2005):
— Draper, Arcadia, Hanson, Tri-Cities, Tupelo,
Union City, West Frankfort, and Patriot Plaza

The sale of these properties resulted in our recording an aggregate gain on the sale or disposition of these properties of \$146.1 million, \$146.9 million of which was reported as gain on disposal or sale of discontinued operations, net. In addition, on January 11, 2005, Metrocenter, a regional mall located in Phoenix, Arizona, in which we held a 50% interest, was sold. On December 22, 2005, we sold our 38% interest in our Canadian property, Forum Entertainment Centre. Both of these properties were accounted for on the equity method of accounting.

Competition

We consider our principal competitors to be seven major United States or internationally publicly-held companies that own or operate regional malls, outlet centers, and other shopping centers in the United States and abroad. We also compete with many commercial developers, real estate companies and other owners of retail real estate that operate in our trade areas. Some of our Properties and investments are of the same type and are within the same market area as competitor properties. The existence of competitive properties could have a material adverse effect on our ability to lease space and on the level of rents we can obtain. This results in competition for both the acquisition of prime sites (including land for development and operating properties) and for tenants to occupy the space that we and our competitors develop and manage. In addition, our Properties compete against non-physical based forms of retailing such as catalog companies and e-commerce websites that offer retail products and services.

We believe that our Portfolio is the largest, as measured by gross leasable area ("GLA"), of any publicly-traded retail real estate company. In addition, we own or have an interest in more regional malls than any other publicly-traded company. We believe that we have a competitive advantage in the retail real estate business as a result of:

- the size, quality and diversity of our Properties;
- our management and operational expertise;
- our extensive experience and relationships with retailers and lenders;
- our mall marketing initiatives and consumer focused strategic corporate alliances; including those developed by Simon Brand and Simon Business; and
- our ability to use our size to reduce the total occupancy cost of our tenants.

Our size reduces our dependence upon individual retail tenants. Approximately 4,200 different retailers occupy more than 24,000 stores in our Properties and no retail tenant represents more than 4.0% of our Properties' total minimum rents.

Certain Activities

During the past three years, we have:

- issued 12,443,195 units to Simon Property upon the conversion of Series B preferred units;
- issued 9,357,735 units to Simon Property upon the exchange of units for common stock of Simon Property;
- issued 803,341 units to other partners upon the conversion of preferred units;
- issued 97,278 units upon the conversion of preferred units;
- issued 120,671 units in 2004;
- issued 255,373 7.5% Cumulative Redeemable Preferred Units;
- issued 1,146,978 restricted units to Simon Property, net of forfeitures, with respect to the issuance of a like number of restricted shares of common stock issued under The Simon Property Group 1998 Stock Incentive Plan;
- issued 1,333,024 units to Simon Property in exchange for cash contributed resulting from the exercise of stock options under The Simon Property Group 1998 Stock Incentive Plan;
- purchased and retired 111,000 common units;
- repurchased 3,132,700 common units for \$202.8 million;
- redeemed 669,039 limited partner units for cash;
- issued 4,652,232 units to limited partners and 12,978,795 units to Simon Property in connection with the October 2004 acquisition of Chelsea Property Group, Inc. and its subsidiary CPG Partners, L.P. (collectively “Chelsea”), (the “Chelsea Acquisition”);
- issued 3,328,540 Series H preferred units in 2003 and repurchased 3,250,528 Series H preferred units in 2003 and 78,012 Series H preferred units in 2004;
- issued and subsequently converted for cash 1,156,039 Series D preferred units in 2004 and redeemed 19,287 Series D preferred units in 2005;
- redeemed 1,000,000 Series E preferred units;
- issued 4,753,794 Series I preferred units to Chelsea limited partners and 13,261,712 Series I preferred units to Simon Property in the Chelsea Acquisition and redeemed 3,300 Series I preferred units in 2005;
- issued 796,948 Series J preferred units in the Chelsea Acquisition;
- issued 1,602,821 units to Simon Property in exchange for the economic rights of Ocean County Mall;
- borrowed a maximum amount of \$1.2 billion under our unsecured revolving credit facility; the outstanding amount of borrowings under this facility as of December 31, 2005 was \$809.3 million.
- as a co-borrower with Simon Property, borrowed \$1.8 billion under an unsecured acquisition facility in connection with the Chelsea Acquisition, of which \$600 million was outstanding as of December 31, 2005;
- not made loans to other entities or persons, including Simon Property’s executive officers and directors, other than to our management company and certain joint venture properties and officers prior to the enactment of the Sarbanes-Oxley Act of 2002 to pay income taxes due upon the vesting of restricted stock; all loans previously made to current executive officers have been repaid in full and our Code of Conduct prohibits us from making any further loans to officers and directors of Simon Property;
- not invested in the securities of other issuers for the purpose of exercising control, other than certain wholly-owned subsidiaries and to acquire interests in real estate and, our 2003 withdrawn tender offer for Taubman Centers, Inc.;
- not underwritten securities of other issuers; and
- not engaged in the purchase and sale or turnover of investments for the purpose of trading.

Employees

At January 24, 2006 we and our affiliates employed approximately 4,700 persons at various properties and offices throughout the United States, of which approximately 1,700 were part-time. Approximately 1,000 of these employees were located at our corporate headquarters in Indianapolis, IN and 160 were located at the Chelsea offices in Roseland, NJ.

Corporate Headquarters

Our corporate headquarters are located at National City Center, 115 West Washington Street, Indianapolis, Indiana 46204, and our telephone number is (317) 636-1600. During 2006, we will be moving our corporate headquarters to our new office building located at 225 West Washington Street, located in Indianapolis, Indiana 46204.

Available information

Our Internet website address is www.simon.com. Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act are available or may be accessed free of charge through the "About Simon/Investor Relations/Financial Information" section of our Internet website as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC. Our Internet website and the information contained therein or connected thereto are not intended to be incorporated into this Annual Report on Form 10-K.

Item 1A. Risk Factors.

The following factors, among others, could cause actual results to differ materially from those contained in forward-looking statements made in this Annual Report on Form 10-K and presented elsewhere by our management from time to time. These factors, among others, may have a material adverse effect on our business, financial condition, operating results and cash flows, and you should carefully consider them. It is not possible to predict or identify all such factors. You should not consider this list to be a complete statement of all potential risks or uncertainties. Past performance should not be considered an indication of future performance.

Risks Relating to Debt and the Financial Markets

We have a substantial debt burden that could affect our future operations.

As of December 31, 2005, our consolidated mortgages and other indebtedness, net of the related premium and discount, totaled \$14.0 billion, of which approximately \$1.4 billion matures during 2006, including recurring principal amortization. We are subject to the risks normally associated with debt financing, including the risk that our cash flow from operations will be insufficient to meet required debt service. Our debt service costs generally will not be reduced when developments, such as the entry of new competitors or the loss of major tenants, could cause a reduction in income from a Property. Should such events occur, our operations may be adversely affected. If a Property is mortgaged to secure payment of indebtedness and income from the Property is insufficient to pay that indebtedness, the Property could be foreclosed upon by the mortgagee resulting in a loss of income and a decline in our total asset value.

We depend on external financings for our growth and ongoing debt service requirements.

We depend, primarily, on external financings, principally debt financings, to fund the growth of our business and to ensure that we can meet ongoing maturities of our outstanding debt. Our access to financing depends on our credit rating, the willingness of banks to lend to us and conditions in the capital markets in general. We cannot assure you that we will be able to obtain the financing we need for future growth or to meet our debt service as obligations mature, or that the financing available to us will be on acceptable terms.

Adverse changes in our credit rating could affect our borrowing capacity and borrowing terms.

Our outstanding senior unsecured notes and the preferred stock of Simon Property are periodically rated by nationally recognized credit rating agencies. The credit ratings are based on our operating performance, liquidity and leverage ratios, overall financial position, and other factors viewed by the credit rating agencies as relevant to our industry and the economic outlook in general. The credit rating of our senior unsecured notes and Simon Property's preferred stock can affect the amount of capital we can access, as well as the terms of any financing we obtain. Since we depend primarily on debt financing to fund our growth, adverse changes in our credit rating could have a negative effect on our future growth.

Rising interest rates could adversely affect our debt service costs.

As of December 31, 2005, approximately \$2.2 billion of our total consolidated debt, adjusted to reflect outstanding derivative instruments, was subject to floating interest rates. In a rising interest rate environment, these debt service costs will increase. Increased debt service costs would adversely affect our cash flow. The impact of changes in market rates of interest on the fair value of our debt and, in turn, our future earnings and cash flows appears elsewhere in this report.

Our hedging interest rate protection arrangements may not effectively limit our interest rate risk.

We manage our exposure to interest rate risk by a combination of interest rate protection agreements to effectively fix or cap a portion of our variable rate debt, or in the case of a fair value hedge, effectively convert fixed rate debt to variable rate debt. In addition, we refinance fixed rate debt at times when we believe rates and terms are appropriate. Our efforts to manage these exposures may not be successful.

Our use of interest rate hedging arrangements to manage risk associated with interest rate volatility may expose us to additional risks, including a risk that a counterparty to a hedging arrangement may fail to honor its obligations. Developing an effective interest rate risk strategy is complex and no strategy can completely insulate us from risks associated with interest rate fluctuations. There can be no assurance that our hedging activities will have the desired beneficial impact on our results of operations or financial condition. Our termination of these hedging agreements typically involve costs, such as transaction fees or breakage costs.

Factors Affecting Real Estate Investments and Operations

We face risks associated with the acquisition, development and expansion of properties.

We regularly acquire and develop new properties and expand and redevelop existing Properties, and these activities are subject to various risks. We may not be successful in pursuing acquisition, development or redevelopment/expansion opportunities, and newly acquired, developed or redeveloped/expanded properties may not perform as well as expected. We are subject to other risks in connection with any acquisition, development and redevelopment/expansion activities, including the following:

- construction costs of a project may be higher than projected, potentially making the project unfeasible or unprofitable;
- we may not be able to obtain financing or to refinance construction loans on favorable terms, if at all;
- we may be unable to obtain zoning, occupancy or other governmental approvals;
- occupancy rates and rents may not meet our projections and the project may not be profitable; and
- we may need the consent of third parties such as anchor tenants, mortgage lenders and joint venture partners, and those consents may be withheld.

If a development or redevelopment/expansion project is unsuccessful, either because it is not meeting our expectations when operational or was not completed according to the project planning, we could lose our investment in the project. Further, if we guarantee the property's financing, our loss could exceed our investment in the project.

We are subject to risks related to owning retail real estate.

We are subject to risks incidental to the ownership and operation of retail real estate. These risks include, among others:

- the risks normally associated with changes in the general economic climate;
- trends in the retail industry;
- creditworthiness of tenants;
- competition for tenants and customers;
- consumer confidence;
- impact of terrorist activities;
- changes in tax laws;
- interest and foreign currency exchange rates;
- the availability of financing; and
- potential liability under environmental and other laws.

Real estate investments are relatively illiquid.

Our Properties represent a substantial portion of our total consolidated assets. These investments are relatively illiquid. As a result, our ability to sell one or more of our Properties or investments in real estate in response to any changes in economic or other conditions is limited. If we want to sell a Property, we cannot assure you that we will be able to dispose of it in the desired time period or that the sales price of a Property will exceed the cost of our investment.

Environmental Risks

As owners of real estate, we can face liabilities for environmental contamination.

Federal, state and local laws and regulations relating to the protection of the environment may require us, as a current or previous owner or operator of real property, to investigate and clean up hazardous or toxic substances or petroleum product releases at a Property or at impacted neighboring properties. These laws often impose liability regardless of whether the property owner or operator knew of, or was responsible for, the presence of hazardous or toxic substances. These laws and regulations may require the abatement or removal of asbestos containing materials in the event of damage, demolition or renovation, reconstruction or expansion of a Property and also govern emissions of and exposure to asbestos fibers in the air. Those laws and regulations also govern the installation, maintenance and removal of underground storage tanks used to store waste oils or other petroleum products. Many of our Properties contain, or at one time contained, asbestos containing materials or underground storage tanks (primarily related to auto service center establishments or emergency electrical generation equipment). The costs of investigation, removal or remediation of hazardous or toxic substances may be substantial and could adversely affect our results of operations or financial condition but is not estimable. The presence of contamination, or the failure to remediate contamination, may also adversely affect our ability to sell, lease or redevelop a Property or to borrow using a Property as collateral.

Our efforts to identify environmental liabilities may not be successful.

Although we believe that the Portfolio is in substantial compliance with Federal, state and local environmental laws, ordinances and regulations regarding hazardous or toxic substances, this belief is based on limited testing. Nearly all of the Properties have been subjected to Phase I or similar environmental audits. These environmental audits have not revealed, nor are we aware of, any environmental liability that we believe will have a material adverse effect on our results of operations or financial condition. However, we cannot assure you that:

- existing environmental studies with respect to the Portfolio reveal all potential environmental liabilities;
- any previous owner, occupant or tenant of a Property did not create any material environmental condition not known to us;
- the current environmental condition of the Portfolio will not be affected by tenants and occupants, by the condition of nearby properties, or by other unrelated third parties; or
- future uses or conditions (including, without limitation, changes in applicable environmental laws and regulations or the interpretation thereof) will not result in environmental liabilities.

Retail Operations Risks

We are subject to risks that affect the general retail environment.

Our concentration in the real estate market means that we are subject to the risks that affect the retail environment generally, including the levels of consumer spending, seasonality, the willingness of retailers to lease space in our shopping centers, tenant bankruptcies, changes in economic conditions, consumer confidence and terrorist activities. Any one or more of these factors could adversely affect our results of operations or financial condition.

We may not be able to lease newly developed Properties and renew leases and relet space at existing Properties.

We may not be able to lease new Properties to an appropriate mix of tenants or for rents that are consistent with our projections. Also, when leases for our existing Properties expire, the premises may not be relet or the terms of reletting, including the cost of allowances and concessions to tenants, may be less favorable than the current lease terms. To the extent that our leasing plans are not achieved, our cash generated before debt repayments and capital expenditures could be adversely affected.

Certain Properties depend on anchor tenants to attract shoppers and could be adversely affected by the loss of a key anchor tenant.

Regional malls are typically anchored by department stores and other large tenants. The value of certain of our Properties could be adversely affected if department stores or other large tenants fail to comply with their contractual obligations, seek concessions in order to continue operations, or cease their operations. Department store and larger store, or “big box”, consolidations typically result in the closure of existing stores or duplicate store locations. We do

not control the disposition of those department stores or larger stores that we do not own. We also may not control the vacant space that is not re-leased in those stores we do own. Other tenants may be entitled to modify the terms of their existing leases in the event of such closures. The modification could be unfavorable to us as the lessor and decrease rents or expense recovery charges. Additionally, major tenant closures may result in decreased customer traffic which could lead to decreased sales at other stores. If the sales of stores operating in our Properties were to decline significantly due to closing of anchors, economic conditions, or other reasons, tenants may be unable to pay their minimum rents or expense recovery charges. In the event of default by a tenant or anchor store, we may experience delays and costs in enforcing our rights as landlord to recover amounts due to us under the terms of our agreements with those parties.

We face potential adverse effects from tenants' bankruptcies.

Bankruptcy filings by retailers occur frequently in the course of our operations. We are continually re-leasing vacant spaces resulting from tenant terminations. The bankruptcy of a tenant, particularly an anchor tenant, may make it more difficult to lease the remainder of the affected Properties. Future tenant bankruptcies could adversely affect our Properties or impact our ability to successfully execute our re-leasing strategy.

Risks Relating to Joint Venture Properties

We have limited control with respect to certain Properties partially owned or managed by third parties, which may adversely affect our ability to sell or refinance the Properties at the most advantageous time for us.

As of December 31, 2005, we owned interests in 146 income-producing properties with other parties. Of those, 20 Properties are included in our consolidated financial statements. We account for the other 126 properties under the equity method of accounting (joint venture properties). We serve as general partner or property manager for 59 of these 146 properties; however, certain major decisions, such as selling or refinancing these properties, require the consent of the other owners. The other owners also have other participating rights that we consider substantive for purposes of determining control over the properties' assets. The remaining joint venture properties are managed by third parties. These limitations may adversely affect our ability to sell, refinance, or otherwise operate these properties.

We guarantee debt or otherwise provide support for a number of joint venture Properties.

Joint venture debt is the liability of the joint venture and is typically secured by a mortgage on the joint venture Property. As of December 31, 2005, we have guaranteed or have provided letters of credit to support \$41.6 million of our total \$3.2 billion share of joint venture mortgage and other indebtedness. A default by a joint venture under its debt obligations may expose us to liability under a guaranty or letter of credit.

Other Factors Affecting Our Business

Our Common Area Maintenance (CAM) contributions may not allow us to recover the majority of our operating expenses from tenants.

CAM costs typically include allocable energy costs, repairs, maintenance and capital improvements to common areas, janitorial services, administrative, property and liability insurance costs, and security costs. We historically have used leases with variable CAM provisions that adjust to reflect inflationary increases. However, we are making a concerted effort to shift from variable to fixed CAM contributions for our cost recoveries which will fix our tenants' CAM contributions to us. As a result, our CAM contributions may not allow us to recover all operating costs and, we cannot assure you that we will succeed in our efforts to recover a substantial portion of these costs in the future.

We face a wide range of competition that could affect our ability to operate profitably.

Our Properties compete with other retail properties for tenants on the basis of the rent charged and location. The principal competition may come from existing or future developments in the same market areas and from discount shopping centers, outlet malls, catalogues, discount shopping clubs and electronic commerce. The presence of competitive properties also affects our ability to lease space and the level of rents we can obtain. Renovations and expansions at competing malls could also negatively affect our Properties.

We also compete with other retail property developers to acquire prime development sites. In addition, we compete with other retail property companies for attractive tenants and qualified management.

We expect to continue to pursue international expansion opportunities that may subject us to different or greater risk from those associated with our domestic operations.

We hold interests in joint venture properties in Europe, Japan and Mexico. We have also established arrangements to develop joint venture properties in China and Korea, and expect to pursue additional expansion opportunities outside the United States. International development and ownership activities carry risks that are different from those we face with our domestic Properties and operations. These risks include:

- adverse effects of changes in exchange rates for foreign currencies;
- changes in foreign political environments, regionally, nationally, and locally;
- challenges of complying with a wide variety of foreign laws including corporate governance, operations, taxes, and litigation;
- differing lending practices;
- differences in cultures;
- changes in applicable laws and regulations in the United States that affect foreign operations;
- difficulties in managing international operations; and
- obstacles to the repatriation of earnings and cash.

Although our international activities currently are a relatively small portion of our business (international properties represented less than 6% of the GLA of all of our properties at December 31, 2005), to the extent that we expand our international activities, these risks could increase in significance and adversely affect our results of operations and financial condition.

Some of our potential losses may not be covered by insurance.

We maintain commercial general liability “all risk” property coverage including fire, flood, extended coverage and rental loss insurance on our Properties. One of our subsidiaries indemnifies our general liability carrier for a specific layer of losses. A similar policy written through our subsidiary also provides a portion of our initial coverage for property insurance and certain windstorm risks at the Properties located in Florida. Even insured losses could result in a serious disruption to our business and delay our receipt of revenue.

There are some types of losses, including lease and other contract claims that generally are not insured. If an uninsured loss or a loss in excess of insured limits occurs, we could lose all or a portion of the capital we have invested in a Property, as well as the anticipated future revenue from the Property. If this happens, we may still remain obligated for any mortgage debt or other financial obligations related to the Property.

The events of September 11, 2001 significantly affected our insurance programs. Although insurance rates remain high, since the President signed into law the Terrorism Risk Insurance Act (TRIA) in November of 2002, the price of terrorism insurance has steadily decreased, while the available capacity has been substantially increased. We have purchased terrorism insurance covering all Properties. The program provides limits up to \$1 billion per occurrence for Certified (Foreign) acts of terrorism and \$500 million per occurrence for Non-Certified (Domestic) acts of terrorism. The coverage is written on an “all risk” policy form. In December of 2005, the President signed into law the Terrorism Risk Insurance Extension Act (TRIEA) of 2005, thereby extending the federal terrorism insurance backstop through 2007. TRIEA narrows terms and conditions afforded by TRIA for 2006 and 2007 by: 1) excluding lines of coverage for commercial automobile, surety, burglary and theft, farm owners’ multi-peril and professional liability; 2) raising the certifiable event trigger mechanism from \$5 million to \$50 million during 2006 and to \$100 million during 2007; and 3) increasing the deductibles and co-pays assigned to insurance companies. Upon the expiration of TRIEA in 2007, we could pay higher premiums for comparable terrorism coverage and /or obtain or be otherwise able to secure less coverage than we have currently.

Terrorist attacks may adversely affect the value of our properties.

Our higher profile Properties or markets they operate in could be potential targets for terrorism attacks, due to the large quantities of people at the Property or in the surrounding areas. Threatened or actual terrorist attacks in these high profile markets could directly or indirectly impact our Properties by resulting in lower property values, a decline in revenue, or a decline in customer traffic and, in turn, a decline in our tenants’ sales.

Inflation may adversely affect our financial condition and results of operations.

Although inflation has not materially impacted our operations in the recent past, increased inflation could have a more pronounced negative impact on our mortgage and debt interest and general and administrative expenses, as these costs could increase at a rate higher than our rents. Also, inflation may adversely affect tenant leases with stated rent increases, which could be lower than the increase in inflation at any given time. Inflation could also have an adverse effect on consumer spending which could impact our tenants' sales and, in turn, our overage rents, where applicable.

Risks Relating to Federal Income Taxes

The failure of any of our subsidiaries to qualify as a REIT would have adverse tax consequences to us, our unitholders and Simon Property.

Three of our subsidiaries have elected to be treated as a REIT. Qualification as a REIT for federal income tax purposes is governed by highly technical and complex Internal Revenue Code provisions for which there are only limited judicial or administrative interpretations. If any of these subsidiaries fails to qualify as a REIT and any available relief provisions do not apply:

- The subsidiary will not be allowed a deduction for distributions to us in computing its taxable income;
- The subsidiary will be subject to corporate level income tax, including any applicable alternative minimum tax, on its taxable income at regular corporate rates;
- Unless entitled to relief under relevant statutory provisions, the subsidiary will also be disqualified from treatment as a REIT for the four taxable years following the year during which qualification was lost; and
- Simon Property would also fail to qualify as a REIT as a result of the subsidiary's failure and the same adverse consequences would apply to it and its stockholders.

As a result, net income and funds available for distribution to our unitholders would be reduced for those years in which any of the REIT subsidiaries fails to qualify as a REIT. Although we currently intend to operate our REIT subsidiaries so as to qualify each as a REIT, we cannot assure you we will succeed or that future economic, market, legal, tax or other considerations might cause us to revoke the REIT election of any of the REIT subsidiaries.

United States Properties

Our Properties primarily consist of regional malls, Premium Outlet® centers, community/lifestyle centers, and other properties. Our Properties contain an aggregate of approximately 200 million square feet of GLA, of which we own approximately 121.7 million square feet ("Owned GLA"). Total estimated retail sales at the Properties in 2005 were approximately \$51 billion.

Regional malls typically contain at least one traditional department store anchor or a combination of anchors and big box retailers with a wide variety of smaller stores ("Mall" stores) located in enclosed malls connecting the anchors. Additional stores ("Freestanding" stores) are usually located along the perimeter of the parking area. Our 171 regional malls range in size from approximately 400,000 to 2.0 million square feet of GLA. Our regional malls contain in the aggregate more than 18,300 occupied stores, including approximately 700 anchors, which are mostly national retailers. Our regional mall totals include certain lifestyle centers when the center contains a traditional department store anchor.

Community/lifestyle centers are generally unenclosed and smaller than our regional malls. Our 71 community/lifestyle centers generally range in size from approximately 100,000 to 600,000 square feet of GLA. Community/lifestyle centers are designed to serve a larger trade area and typically contain at least two anchors and other tenants that are usually national retailers among the leaders in their markets. These tenants generally occupy a significant portion of the GLA of the center. We also own traditional community shopping centers that focus primarily on value-oriented and convenience goods and services. These centers are usually anchored by a supermarket, discount retailer, or drugstore and are designed to service a neighborhood area. Finally, we own open-air centers adjacent to our regional malls designed to take advantage of the drawing power of the mall.

Premium Outlet centers generally contain a wide variety of retailers located in open-air manufacturer's outlet centers. Our 33 Premium Outlet centers range in size from approximately 200,000 to 600,000 square feet of GLA. The Premium Outlet centers are generally located near metropolitan areas including New York City, Los Angeles, Chicago, Boston, Washington, D.C., San Francisco, Sacramento, Atlanta, and Dallas; or within 20 miles of major tourist destinations including Palm Springs, Napa Valley, Orlando, Las Vegas, and Honolulu.

We also have interests in 11 other shopping centers or outlet centers. These other Properties range in size from approximately 85,000 to 300,000 square feet of GLA. The combined other Properties represent less than 1% of our total operating income before depreciation.

The following table provides representative data for our Properties as of December 31, 2005:

	Regional Malls	Premium Outlet Centers	Community/ Lifestyle Centers	Other Properties
% of total Property annualized base rent	81.5%	11.7%	5.9%	0.9%
% of total Property GLA	82.7%	6.3%	10.0%	1.0%
% of Owned Property GLA	76.0%	10.5%	11.8%	1.7%

As of December 31, 2005, approximately 93.1% of the Mall and Freestanding Owned GLA in regional malls and the retail space of the other Properties was leased, approximately 99.6% of Owned GLA in the Premium Outlet centers was leased and approximately 91.6% of Owned GLA in the community/lifestyle centers was leased.

We own 100% of 197 of our 286 Properties, effectively control 20 Properties in which we have a joint venture interest, and hold the remaining 69 Properties through unconsolidated joint venture interests. We are the managing or co-managing general partner or member of 276 of our Properties. Substantially all of our joint venture Properties are subject to rights of first refusal, buy-sell provisions, or other sale rights for all partners which are customary in real estate partnership agreements and the industry. Our partners in our joint ventures may initiate these provisions at any time, which will result in either the use of available cash or borrowings to acquire their partnership interest or the disposal of our partnership interest.

The following property table summarizes certain data on our regional malls, Premium Outlet centers, and community/lifestyle centers located in the United States, including Puerto Rico, as of December 31, 2005.

International Properties

We own interests in properties outside the United States through the following international joint venture arrangements.

European Investments

The following summarizes our joint venture investments in Europe and the underlying countries in which these joint ventures own and operate real estate properties as of December 31, 2005:

Joint Venture Investment	Ownership Interest	Properties open and operating	Countries of Operation
Gallerie Commerciali Italia, S.p.A. ("GCI")	49.0%	40	Italy
European Retail Enterprises, B.V. ("ERE") (1)	34.7%	11	France, Poland

(1) Subsequent to December 31, 2005, we and our partner acquired additional interests and now each own 50% of ERE.

In addition, we jointly hold with a third party an interest in one parcel of land for development near Paris, France outside of these two joint ventures. ERE also operates through a wholly-owned subsidiary, Groupe BEG, S.A. ("BEG"). ERE and BEG are fully integrated European retail real estate developers, owners and managers.

Our properties in Europe consist primarily of hypermarket-anchored shopping centers. Substantially all of our European properties are anchored by either the hypermarket retailer Auchan, primarily in Italy, who is also our partner in GCI, or are anchored by the hypermarket Carrefour in France and Poland. Certain of these properties are subject to leaseholds whereby GCI leases all or a portion of the premises from a third party who is entitled to receive substantially all the economic benefits of that portion of the properties. Auchan and Carrefour are the two largest hypermarket operators in Europe.

Other International Investments

We also hold real estate interests in five joint ventures in Japan and one in Mexico. The five Premium Outlet centers in Japan have over 1.3 million square feet of GLA and were 100% leased as of December 31, 2005. These five Premium Outlet centers contained 576 stores with approximately 273 different tenants. The Premium Outlet center in Mexico opened in December of 2004.

The following summarizes our six other international joint venture investments:

- (2) This property is held partially in fee and partially encumbered by a leasehold on the premise which entitles the lessor to the majority of the economics of the portion of the property subject to the leasehold.
- (3) These properties are encumbered by a leasehold on the entire premises which entitles the lessor the majority of the economics of the property.
- (4) Represents the sales area of the anchor and excludes any warehouse/storage areas.
- (5) Gallerie Commerciali Italia, in which we have a 49% joint venture interest, has been notified by an Italian appellate court that the center which opened in February 2004, though properly permitted, was not in accordance with the Modugno master plan. The joint venture is appealing the decision of the appellate court and is otherwise working to resolve the issue. The center remains open. The joint venture partner has indemnified us for the amount of our allocated investment in the project.
- (6) Subsequent to December 31, 2005, we acquired additional ownership interests and now hold a 50% ownership interest in ERE.

Land Held for Development

We have direct or indirect ownership interests in ten parcels of land held in the United States for future development, containing an aggregate of approximately 560 acres located in five states.

On December 28, 2005, we invested \$50 million of equity for a 40% interest in a joint venture with Toll Brothers, Inc. (Toll Brothers) and Meritage Homes Corp. (Meritage Homes) to purchase a 5,485-acre land parcel in northwest Phoenix from DaimlerChrysler Corporation for \$312 million. Toll Brothers and Meritage Homes each plan to build a significant number of homes on the site. We have the option to purchase a substantial portion of the commercial property for retail uses. Other parcels may also be sold to third parties. Initial plans call for a mixed-use master planned community, which will include approximately 4,840 acres of single-family homes and attached homes. Approximately 645 acres of commercial and retail development will include schools, community amenities and open space. Initial home sales are tentatively scheduled to begin in 2009. The joint venture, of which Toll Brothers is the managing member, expects to develop a master planned community of approximately 12,000 to 15,000 residential units.

Mortgage Financing on Properties

The following table sets forth certain information regarding the mortgages and other debt encumbering our Properties and the properties held by our international joint venture arrangements. Substantially all of the mortgage and property related debt is nonrecourse to us.

Item 3. Legal Proceedings

On November 15, 2004, the Attorneys General of Massachusetts, New Hampshire and Connecticut filed complaints in their respective state Superior Courts against us and our affiliate, SPGGC, Inc., alleging that the sale of co-branded, bank-issued gift cards sold in certain Properties violated gift certificate statutes and consumer protection laws in those states. Each of these suits seeks injunctive relief, unspecified civil penalties and disgorgement of any fees determined to be improperly charged to consumers.

In addition, we are a defendant in three other proceedings relating to the gift card program: Betty Benson and Andrea Nay-Richardson vs. Simon Property Group, Inc., and Simon Property Group, L.P., Superior Court of Cobb County, State of Georgia, Case No.: 04-1-9617-42, filed December 9, 2004; Christopher Lonner vs. Simon Property Group, Inc., Supreme Court of the State of NY, County of Westchester, Case No.: 04-2246, filed February 18, 2004; and Aliza Goldman, individually and on behalf of all others similarly situated vs. Simon Property Group, Inc., Supreme Court of the State of New York, County of Nassau, filed February 7, 2005. Each of these proceedings has been brought by a private plaintiff as a purported class action and alleges violation of state consumer protection laws, state abandoned property and contract laws or state statutes regarding gift certificates or gift cards and seeks a variety of remedies including unspecified damages and injunctive relief.

We believe that we have viable defenses under both state and federal laws to the above gift card actions. Although it is not possible to provide any assurance of the ultimate outcome of any of these pending actions, management does not believe that an adverse outcome would have a material adverse effect on our financial position, results of operations or cash flow.

Triple Five of Minnesota, Inc., a Minnesota corporation, v. Melvin Simon, et al. On or about November 9, 1999, Triple Five of Minnesota, Inc. commenced an action in the District Court for the state of Minnesota, Fourth Judicial District, against, among others, Mall of America, certain members of the Simon family and entities allegedly controlled by such individuals, and us. The action was later removed to federal court. On September 10, 2003, the court issued its decision in a Memorandum and Order (the “September Order”). In the September Order, the court found that certain entities and individuals breached their fiduciary duties to Triple Five. The court did not award Triple Five damages but instead awarded Triple Five equitable and other relief and imposed a constructive trust on that portion of the Mall of America owned by us. Specifically, as it relates to us, the court ordered that Triple Five was entitled to purchase from us the one-half partnership interest that we purchased in October 1999, provided Triple Five remits the sum of \$81.38 million within nine months of the September Order. On August 6, 2004, Triple Five closed on its purchase of our one-half partnership interest and the court further held that we must disgorge all “net profits” that we received as a result of our ownership interest in the Mall from October 1999 to the that date.

As a result of the September Order, we initially recorded a \$6.0 million charge for our share of the estimated loss in 2003. In the first quarter of 2004, as a result of a May 3, 2004 memorandum issued by the court appointed mediator, which has now been affirmed by the court, we recorded an additional \$13.5 million charge for our share of the loss that is included in “(Loss) gain on sales of interests in unconsolidated entities and other assets, net” in the accompanying consolidated statements of operations and comprehensive income. We ceased recording any contribution to net income from the results of operations of Mall of America as of September 1, 2003.

We appealed the September Order to the United States Court of Appeals for the Eighth Circuit. On April 21, 2005, the Court of Appeals issued its opinion, affirming in part and reversing in part the Order of the trial court. The Appellate Court opinion changes the equitable remedy contained in the September Order and requires that the one-half partnership interest Triple Five acquired from us pursuant to the September Order must instead be offered, for the same price, to Mall of America Associates, a general partnership in which Triple Five and an entity affiliated with the Simon family are ⁵⁰/₅₀ partners (“MOAA”). If MOAA refuses to purchase the interest, then Triple Five must transfer back to us one-half of the interest it acquired from us in August, 2004. Triple Five, as managing partner of MOAA, has elected to cause MOAA to acquire the one-half partnership interest. In addition, Triple Five asked the Trial Court to grant it additional relief, namely to cause the Simon family partner in MOAA to be disassociated from that partnership and to terminate the existing management contract for the Mall with our subsidiary. The trial court issued an order on December 23, 2005 (“December Order”), denying Triple Five’s request for dissociation of the Simon family partner in MOAA, but granting Triple Five’s request that they be permitted to terminate the existing management contract for the Mall with our subsidiary. We have appealed that portion of the December Order granting Triple Five the right to terminate the management contract. On January 18, 2006, Triple Five transferred to MOAA the partnership interest it acquired from us in August, 2004, for a purchase price of approximately

\$23.1 million. The purchase price was financed with a new credit facility secured by distributions payable to MOAA's partners. In connection with the resolution of this matter, the Simon family transferred, under certain circumstances, the right to receive cash flow distributions and capital transaction proceeds attributable to one-half of the interest that MOAA acquired from Triple Five (or 25%), subject to the new credit facility, to the Operating Partnership. The Simon family did not transfer its partnership interest in MOAA to us, and the Simon family retains the right to make all decisions regarding that partnership interest. As a result of the transfer to us of the right to receive cash flow distributions and capital transaction proceeds, we will recognize a gain in the first quarter of 2006 to recognize this beneficial interest, including prior earnings of the partnership since August, 2004. We will also begin to record contributions to net income and FFO representing 25% of the results of operations at Mall of America as a result of this arrangement.

We are involved in various other legal proceedings that arise in the ordinary course of our business. We believe that such routine litigation, claims and administrative proceedings will not have a material adverse impact on our financial position or our results of operations. We record a liability when a loss is considered probable and the amount can be reasonably estimated.

Market Information

There is no established public trading market for our units or preferred units. The following table sets forth for the periods indicated, the distributions declared on the units:

	<u>Declared Distribution</u>
2005	
1 st Quarter	\$0.70
2 nd Quarter	0.70
3 rd Quarter	0.70
4 th Quarter	0.70
2004

2 nd Quarter	0.65
3 rd Quarter	0.65
4 th Quarter	0.65

Holders

The number of holders of units was 234 as of March 6, 2006.

Distributions

We make distributions to our unitholders including Simon Property in order to maintain Simon Property's qualification as a REIT. Simon Property is required each year to distribute to its stockholders at least 90% of its taxable income after certain adjustments. Future distributions will be determined at the discretion of the Board based on actual results of operations, cash available for distribution, and what may be required to maintain Simon Property's status as a REIT.

Unregistered Sales of Equity Securities

During the fourth quarter of 2005, we issued 23,300 units to Simon Property related to employee stock options that were exercised during the quarter. We used the net proceeds from the option exercised of approximately \$0.9 million for general working capital purposes. The issuance of units was exempt from registration under the Securities Act of 1933 as amended, in reliance upon Section 4(2) as a private offering.

- (3) The ratios for 2004, 2003, and 2002 have been restated for the reclassification of discontinued operations described in Note 3. 2002 includes \$162.0 million of gains on sales of assets, net, and excluding these gains the ratio would have been 1.57x. 2001 includes a \$47,000 impairment charge. Excluding this charge the ratio would have been 1.54x in 2001.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion in conjunction with the financial statements and notes thereto that are included in this report. Certain statements made in this section or elsewhere in this report may be deemed "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Although we believe the expectations reflected in any forward-looking statements are based on reasonable assumptions, we can give no assurance that our expectations will be attained, and it is possible that our actual results may differ materially from those indicated by these forward-looking statements due to a variety of risks and uncertainties. Those risks and uncertainties include the matters disclosed in Simon Property's periodic reports from time to time as well as national, international, regional and local economic climates, competitive market forces, changes in market rental rates, trends in the retail industry, the inability to collect rent due to the bankruptcy or insolvency of tenants or otherwise, risks associated with acquisitions, the impact of terrorist activities, environmental liabilities, maintenance of Simon Property's REIT status, the availability of financing, changes in market rates of interest, and exchange rates for foreign currencies. We undertake no duty or obligation to update or revise these forward-looking statements, whether as a result of new information, future developments, or otherwise.

Overview

Simon Property Group, L.P. is a Delaware limited partnership and a majority-owned partnership Simon Property Group, Inc. In this discussion, the terms "Operating Partnership", "we", "us" and "our" refer to Simon Property Group, L.P. and its subsidiaries, and "Simon Property" refers specifically to Simon Property Group, Inc.

We are engaged in the ownership, development, and management of retail real estate properties, primarily regional malls, Premium Outlet® centers and community/lifestyle centers. As of December 31, 2005, we owned or held an interest in 286 income-producing properties in the United States, which consisted of 171 regional malls, 71 community/lifestyle centers, 33 Premium Outlet centers and 11 other shopping centers or outlet centers in 39 states plus Puerto Rico (collectively, the "Properties", and individually, a "Property"). We also own interests in ten parcels of land held in the United States for future development (together with the Properties, the "Portfolio"). Finally, we have ownership interests in 51 European shopping centers (France, Italy, and Poland); five Premium Outlet centers in Japan; and one Premium Outlet center in Mexico.

Operating Fundamentals

We generate the majority of revenues from leases with retail tenants including:

- Base minimum rents and cart and kiosk rentals,
- Overage and percentage rents based on tenants' sales volume, and
- Recoveries of a significant amount of our recoverable expenditures, which consist of property operating, real estate tax, repairs and maintenance, and advertising and promotional expenditures.

Revenues of our management company, after intercompany eliminations, consist primarily of management fees that are typically based upon the revenues of the property being managed.

We seek growth in our earnings, funds from operations ("FFO"), and cash flows by enhancing the profitability and operation of our regional malls, Premium Outlet centers, community/lifestyle centers, and international investments. We seek to accomplish this growth through the following:

- Focusing on leasing to increase revenues and utilization of economies of scale to reduce operating expenses,
- Expanding and re-tenanting existing franchise locations at competitive market rates,
- Adding mixed-use elements to our Portfolio through our land intensification initiatives. This includes adding elements such as multifamily, condominiums, hotel and self-storage at selected locations, and
- Selling non-core assets.

We also grow by generating supplemental revenues in our existing real estate portfolio, from outlot parcel sales and, due to our size and tenant relationships, from the following:

- Simon Brand Ventures ("Simon Brand") mall marketing initiatives, including fees derived from the issuance of bank-issued co-branded gift cards. Simon Brand revenues also include payment services, national media contracts, a national beverage contract and other contracts with national companies.

- Simon Business Network (“Simon Business”) property operating services to our tenants and others resulting from its relationships with vendors.

We strive to develop high quality real estate across the retail real estate spectrum. We pursue strategic expansion and renovation activity to enhance existing assets’ profitability and market share when we believe the investment of our capital meets our risk-reward criteria. We selectively develop new properties in major metropolitan areas that exhibit strong population and economic growth.

We acquire high quality retail real estate within our three domestic platforms. As part of our acquisition strategy, we review and evaluate a number of acquisition opportunities based on their complement to our Portfolio.

Lastly, we are selectively expanding our international presence. Our strategy to investing internationally includes partnering with established real estate companies and financing international investments with local currency to minimize foreign exchange risk.

To support our overall growth goals, we employ a three-fold capital strategy:

- Provide the capital necessary to fund growth.
- Maintain sufficient flexibility to access capital in many forms, both public and private.
- Manage our overall financial structure in a fashion that preserves our investment grade ratings.

Results Overview

Our core business fundamentals remained stable during 2005. Regional mall comparable sales per square foot (“psf”) strengthened in 2005, increasing 5.4% to \$450 psf from \$427 psf in 2004, reflecting robust retail demand and the disposition of lower quality properties. Our regional mall average base rents increased 3.0% to \$34.49 psf from \$33.50 psf. In addition, we maintained strong regional mall leasing spreads of \$7.40 psf in 2005 increasing from \$5.74 psf in 2004. The regional mall leasing spread for 2005 includes new store leases signed at an average of \$43.18 psf initial base rents as compared to \$35.78 psf for store leases terminating or expiring in the same period. Our same store leasing spread for 2005 was \$7.00 psf or a 17.6% growth rate and is calculated by comparing leasing activity completed in 2005 with the prior tenants’ rents for those exact same spaces. Finally, our regional mall occupancy increased by 40 basis points to 93.1% as of December 31, 2005 from 92.7% as of December 31, 2004.

During 2005, we completed acquisitions of two joint venture Properties through the following transactions:

- On November 18, 2005 we purchased a 37.99% interest in Springfield Mall in Springfield, Pennsylvania for approximately \$39.3 million, including the issuance of our share of debt of \$29.1 million.
- On November 21, 2005 we purchased a 50% interest in Coddington Mall in Santa Rosa, California for approximately \$37.1 million, including the assumption of our share of debt of \$10.5 million.

During 2005, we invested approximately \$593.0 million in development and redevelopment/expansion opportunities for our consolidated and joint venture Properties, highlighted by the following openings:

- St. Johns Town Center, a 1.5 million square foot open-air retail project comprised of a town center with a mainstreet design and a community center in Jacksonville, Florida, on March 15, 2005.
- Seattle Premium Outlets, a 438,000 square foot Premium Outlet center located 30 minutes north of Seattle in the Tulalip Tribes’ Quil Ceda Village, on May 6, 2005.
- Wolf Ranch, a 600,000 square foot open-air community center located in Georgetown, Texas, on July 15, 2005.
- Firewheel Town Center, a 785,000 square foot open-air regional mall located 15 miles northeast of downtown Dallas in Garland, Texas, on October 7, 2005.
- Rockaway Plaza, a 450,000 square foot community center located in Rockaway, New Jersey, adjacent to our Rockaway Townsquare, in November 2005.

We continue to identify additional opportunities in various international markets. We look to continue to focus on our joint venture interests in Europe, Japan, and other market areas abroad. In 2005, we increased our presence in Japan with the opening of Toki Premium Outlets, a 178,000 square-foot center which opened fully leased in March of 2005. Also in 2005, we realigned the interests in European Retail Enterprises, B.V. (“ERE”) with the result that our ownership and our new partner’s ownership were increased to 50% each in the first quarter of 2006. We will continue to evaluate our development opportunities in future shopping centers located in China as well as additional expansion

of the Premium Outlet center locations in other Far East markets. We expect international development and redevelopment/expansion activity for 2006 to include:

- Our Italian joint venture will continue construction of five shopping centers in Napoli, Roma, Nola (Napoli), Guigliano (Napoli), and Milano with a gross leasable area (“GLA”) of nearly 3.8 million square feet.
- Our joint venture investment in ERE will continue construction of one shopping center in Gliwice, Poland and an expansion of a shopping center in Wasquehal, France with a combined total GLA of 600,000 square feet.
- Our Premium Outlet center in Sano, Japan will undergo an expansion of 91,000 square feet.

Regarding financing activities, despite significantly increasing rate environments that have resulted in one-month LIBOR increasing approximately 200 basis points (4.39% at December 31, 2005 versus 2.40% at December 31, 2004), our effective weighted average interest rate increased by only 44 basis points during the year. Our financing activities were highlighted by the following:

- We refinanced our unsecured revolving credit facility (“Credit Facility”) twice during 2005, first expanding the facility from \$1.25 billion to \$2.0 billion in January, and second increasing it to \$3.0 billion in December. The Credit Facility bears interest at LIBOR plus 42.5 basis points with an additional 15 basis point facility fee on the entire facility and provides for variable grid pricing based upon our corporate credit rating. In addition, the Credit Facility has a \$750 million U.S. dollar equivalent multi-currency tranche for Euro, Yen or Sterling borrowings, and also includes a money market competitive bid option program that allows us to hold auctions to obtain lower pricing for short-term funds for up to \$1.5 billion. The Credit Facility also has a one-year extension through 2011 available to us at our option.
- We paid off a \$110 million mortgage that bore interest at LIBOR plus 115 basis points, as a result of our disposition of the property (Riverway).
- We issued four tranches of senior unsecured notes during 2005 totaling \$2.1 billion at a weighted average fixed interest rate of 4.90% for the two tranches issued in June and 5.58% for the two tranches issued in November. We used the proceeds to repay \$833 million in aggregate borrowings under our Credit Facility and to repay \$1.2 billion of the \$1.8 billion loan (“Acquisition Facility”) we incurred to finance a portion of the acquisition of Chelsea Property Group, Inc. and its affiliates (collectively “Chelsea”) in 2004.
- We repaid \$710 million in unsecured notes that bore interest at fixed rates ranging from 6.75% to 8.375%, and \$250 million in unsecured notes that bore a variable rate of LIBOR plus 65 basis points.
- We paid off two mortgages totaling \$62 million that bore interest at fixed rates of 7.13% and 7.77%.
- We repaid \$268.7 million in unsecured Euro-denominated borrowings that bore a variable rate of EURIBOR plus 60 basis points.
- Our obligation on a \$54.9 million mortgage that bore interest at fixed rates of 5.89% was assumed by the acquirer of the property upon disposition (Cheltenham Square).

United States Portfolio Data

The Portfolio data discussed in this overview includes the following key operating statistics: occupancy; average base rent per square foot; and comparable sales per square foot. We include acquired Properties in this data beginning in the year of acquisition and remove properties sold in the year disposed. We do not include any Properties located outside of the United States. The following table sets forth these key operating statistics for:

- Properties that we control and which are consolidated in our consolidated financial statements;
- Properties which we do not control that we account for under the equity method as unconsolidated joint ventures; and,
- all Properties on a total Portfolio basis.

We believe the total Portfolio data provides information helpful in evaluating not only the quality and growth potential of the Portfolio, but also the effectiveness of our management.

Occupancy Levels and Average Base Rents. Occupancy and average base rent is based on mall and freestanding GLA owned by us (“Owned GLA”) at mall and freestanding stores in the regional malls, all tenants at Premium Outlet centers, and all tenants at community/lifestyle centers. We believe the continued growth in regional mall occupancy is primarily the result of the overall quality of our Portfolio. The result of the growth in occupancy is a direct or indirect increase in nearly every category of revenue. Our Portfolio has maintained stable occupancy and increased average base rents, in the current economic climate.

Comparable Sales per Square Foot. Sales volume includes total reported retail sales at Owned GLA in the regional malls and all reporting tenants at Premium Outlet centers and community/lifestyle centers. Retail sales at Owned GLA affect revenue and profitability levels because sales determine the amount of minimum rent that can be charged, the percentage rent realized, and the recoverable expenses (common area maintenance, real estate taxes, allocable energy, administrative, repairs, maintenance, and capital improvements) that tenants can afford to pay.

Discussion regarding our results of operations for our investment in unconsolidated entities is included in our year over year comparisons to follow. The values for

international Premium Outlet centers for 2004 are provided for comparative purposes. These investments were acquired as part of the acquisition of Chelsea in the fourth quarter of 2004.

Significant Accounting Policies

Our significant accounting policies are described in detail in Note 3 of the Notes to Consolidated Financial Statements. The following briefly describes those accounting policies we believe are important to understanding our business:

- We, as a lessor, retain substantially all of the risks and benefits of ownership of the investment properties and account for our leases as operating leases. We accrue minimum rents on a straight-line basis over the terms of their respective leases. Substantially all of our retail tenants are also required to pay overage rents based on sales over a stated base amount during the lease year. We recognize overage rents only when each tenant's sales exceeds its sales threshold.
- We review Properties for impairment on a case-by-case basis whenever events or changes in circumstances indicate that our carrying value may not be recoverable. These circumstances include, but are not limited to, declines in cash flows, occupancy and comparable sales per square foot. Changes in our estimates of the future undiscounted operating income before depreciation and amortization as well as the holding period for each Property could affect our conclusion on whether an impairment charge is necessary. We recognize an impairment of investment property when we estimate that the undiscounted operating income before depreciation and amortization is less than the carrying value of the Property. To the extent an impairment has occurred, we charge to income the excess of the carrying value of the Property over its estimated fair value. We may decide to sell Properties that are held for use and the sales prices of these Properties may differ from their carrying values.
- To maintain Simon Property's qualification as a REIT under the Internal Revenue Code of 1986, as amended (the "Code"), Simon Property is required to distribute 90% of its taxable income in any given year and meet certain asset and income tests. The American Jobs Creation Act of 2004 builds in some flexibility to the REIT tax rules and imposes at most, monetary penalties in lieu of REIT disqualification, for the failure to meet certain REIT rules. These REIT savings provisions apply to issues discovered by the REIT after October 22, 2004. Simon Property monitors its business and transactions that may potentially impact its REIT status. In the unlikely event that Simon Property fails to maintain its REIT status, and it is not able to avail itself of the REIT savings provisions, then it would be required to pay federal income taxes at regular corporate income tax rates during the period it did not qualify as a REIT. If Simon Property lost its REIT status, it could not elect to be taxed as a REIT for four years unless its failure was due to reasonable cause and certain other conditions were met. As a result, failing to maintain REIT status would result in a significant increase in the income tax expense recorded during those periods. This could in turn adversely impact our ability to sell our debt securities and Simon Property's ability to sell its securities in the capital markets. We make distributions to our unitholders including Simon Property so that Simon Property can meet the REIT qualification requirements.
- We make estimates as part of our allocation of the purchase price of acquisitions to the various components of the acquisition based upon the relative value of each component. The most significant components of our allocations are typically the allocation of fair value to the buildings, as-if-vacant, land and the market value of in-place leases. In the case of the fair value of buildings and the allocation of value to land and other intangibles, our estimates of the values of these components will affect the amount of depreciation we record over the estimated useful life of the property acquired or the remaining lease term. In the case of the market value of in-place leases, we make our best estimates of the tenants' ability to pay rents based upon the tenants' operating performance at the property, including the competitive position of the property in its market as well as sales psf, rents psf, and overall occupancy cost for the tenants in place at the acquisition date. Our assumptions affect the amount of future revenue that we will recognize over the remaining lease term for the acquired in-place leases.

Results of Operations

In addition to the 2005 acquisitions, dispositions and Property openings previously discussed in the Results Overview, the following acquisitions, dispositions, and Property openings affected our consolidated results from continuing operations in the comparative periods:

- On December 28, 2005, the deed for Biltmore Square was surrendered to the bank in full consideration of the \$26 million mortgage on the property, which bore interest at a fixed rate of 7.95%, and had an anticipated maturity date of December 11, 2010.
- On November 17, 2005, we sold our interest in Cheltenham Square for \$71.5 million and recognized a gain on its disposition of \$19.7 million.
- On June 1, 2005, we sold the Riverway and O'Hare International Center office building complexes, in Rosemont, Illinois for \$257.3 million and recognized a gain on their disposition of \$125.1 million.
- On March 15, 2005, we and our joint venture partner completed the construction of, obtained permanent financing for, and opened St. Johns Town Center (St. Johns). Prior to the completion of construction and opening of the center, we were responsible for 85% of the development costs, and guaranteed this same percentage of the outstanding construction debt. As a result, we consolidated St. Johns during its construction phase. Upon obtaining permanent financing, the guarantee was released, and our partner and our ownership percentages were each adjusted to 50%. We received a distribution from the partnership of \$15.7 million in repayment of our capital contributions to equalize our ownership interests, and this Property is now accounted for using the equity method of accounting. Total investment property of St. Johns at the date of refinancing was approximately \$136 million.
- On January 1, 2005, Simon Property assigned the economic rights of Ocean County Mall, the only Property held directly by Simon Property, to us in exchange for 1,602,821 units and the settlement of an \$88.8 million note receivable. We now consolidate the Property in our financial statements.
- On December 15, 2004, we increased our ownership interest in Woodland Hills, located in Tulsa, Oklahoma, to approximately 94.5% for \$119.5 million, including the assumption of our \$39.7 million share of debt, resulting in this Property now being consolidated.
- On November 19, 2004, we increased our ownership interest in Lehigh Valley, located in Whitehall, Pennsylvania, to 37.6% for approximately \$42.3 million, including the assumption of our \$25.9 million share of debt.
- On October 22, 2004, Phase III of The Forum Shops at Caesars in Las Vegas opened.
- On October 14, 2004, we and Simon Property completed the acquisition of Chelsea. The acquisition included 32 Premium Outlet centers, 4 Premium Outlet centers in Japan, 3 community/lifestyle centers, 21 other retail centers, 1 Premium Outlet in Mexico, and its development portfolio. The purchase price was approximately \$5.2 billion including the assumption of debt. As a result, the remaining 50% interests in two Premium Outlet centers in Las Vegas and Chicago was acquired, which resulted in our owning a 100% interest in these Properties which were previously accounted for under the equity method of accounting.
- On May 4, 2004, we purchased a 100% interest in Plaza Carolina in San Juan, Puerto Rico for approximately \$309.0 million.
- On April 27, 2004, we increased our ownership interest in Bangor Mall and Montgomery Mall to approximately 67.6% and 54.4%, respectively, for approximately \$67.0 million and the assumption of our \$16.8 million share of debt.
- On April 1, 2004, we increased our ownership interest in Mall of Georgia Crossing from 50% to 100% for approximately \$26.3 million, including the assumption of our \$16.5 million share of debt.
- On February 5, 2004 we purchased a 95% interest in Gateway Shopping Center in Austin, Texas for approximately \$107.0 million.
- On August 20, 2003, we acquired a 100% interest in Stanford Shopping Center.
- In the fourth quarter of 2003, we increased our ownership in Kravco Investments L.P. ("Kravco") that resulted in the consolidation of four Properties (the "Kravco transactions").

In addition to the 2005 acquisitions, dispositions, and Property openings previously discussed in the Results Overview, the following acquisitions, dispositions, and Property openings affected our income from unconsolidated entities in the comparative periods:

- On January 11, 2005, we sold our 50% ownership interest in Metrocenter, and recorded a gain on its disposition of \$11.8 million.

- On October 14, 2004, Clay Terrace in Carmel, Indiana opened.
- On May 10, 2004, we and our joint venture partner completed the construction and opened Chicago Premium Outlets.
- On April 7, 2004, we sold the joint venture interest in a hotel property held by our management company, and on August 6, 2004, we completed the court ordered sale of our joint venture interest in Mall of America, in Minneapolis, Minnesota (see footnotes to consolidated financial statements).
- The Kravco transactions increased our ownership interests in 11 joint venture properties. We acquired control of four of the Properties and as a result have included them in the consolidated financial statements.
- On August 4, 2003, we and our joint venture partner completed construction and opened Las Vegas Premium Outlets.

As a result of the adoption of Interpretation No. 46, “Consolidation of Variable Interest Entities, an Interpretation of Accounting Research Bulletin No. 51” (“FIN 46”) on January 1, 2004, we consolidated the operations of two Properties, which were previously accounted for under the equity method.

Our consolidated discontinued operations reflect results of the following significant property dispositions on the indicated date:

Property	Date of Disposition
Hutchinson Mall	June 15, 2004
Bridgeview Court	July 22, 2004
Woodville Mall	September 1, 2004
Heritage Park Mall	December 29, 2004
Riverway (office)	June 1, 2005
O'Hare International Center (office)	June 1, 2005
Grove at Lakeland Square	July 1, 2005
Cheltenham Square	November 17, 2005
Southgate Mall	November 28, 2005
Eastland Mall (Tulsa, OK)	December 16, 2005
Biltmore Square	December 28, 2005

For the purposes of the following comparisons between the years ended December 31, 2005 and 2004 and the years ended December 31, 2004 and 2003, the above transactions are referred to as the Property Transactions. In the following discussions of our results of operations, “comparable” refers to Properties open and operating throughout both the current and prior year.

Year Ended December 31, 2005 vs. Year Ended December 31, 2004

Minimum rents, excluding rents from our consolidated Simon Brand and Simon Business initiatives, increased \$405.4 million during the period. The net effect of the Property Transactions increased minimum rents \$368.0 million of which \$299.7 million was due to the operations of the Premium Outlet centers and other Properties acquired from Chelsea in October of 2004 (the “Chelsea Acquisition”). Total amortization of the fair market value of in-place leases increased minimum rents by \$25.1 million, including the impact of the Property Transactions, principally the result of the Chelsea Acquisition. Comparable rents, excluding rents from Simon Brand and Simon Business, increased \$37.5 million, or 2.7%. This was primarily due to the leasing of space at higher rents that resulted in an increase in base rents of \$40.8 million. In addition, increased rents from carts, kiosks, and other temporary tenants increased comparable rents by \$8.2 million. Straight-line rents also increased by \$12.9 million year over year.

Overage rents increased \$19.6 million of which \$16.1 million related to the Property Transactions, principally the Chelsea Acquisition. Comparable overage rents increased \$3.5 million.

Tenant reimbursements, excluding Simon Business initiatives, increased \$148.7 million. The Property Transactions accounted for \$128.4 million, \$98.3 million of which was due to the Chelsea Acquisition. The remainder of the increase of \$20.3 million, or 2.8% was in comparable Properties and was due to inflationary increases in property operating expenses, resulting in higher reimbursements.

Management fees and other revenues increased \$5.0 million primarily due to increased leasing and development support activities for new joint venture Properties.

Total other income, excluding consolidated Simon Brand and Simon Business initiatives, decreased \$3.9 million. The aggregate decrease in other income included the following significant activity:

- \$21.9 million decrease in our land sales activity on consolidated Properties;
- the effect of the Property Transactions, principally Chelsea, which contributed \$5.7 million to the increase for the ancillary fees received from the Japanese Premium Outlet Properties;
- increase in interest income of \$1.0 million;
- collection of a \$4.1 million note receivable that had been previously reserved for;
- \$2.5 million gain on the sale of air rights at the Villages at Southpark in North Carolina;
- \$2.2 million in gains related to the sale of stock received in prior period bankruptcy proceedings; and
- \$2.5 million in other net activity of the comparable Properties.

Consolidated revenues from Simon Brand and Simon Business initiatives increased \$24.2 million to \$155.8 million from \$131.6 million. The increase in revenues is primarily due to:

- increased revenue from fees derived from our co-branded gift card programs,
- increased rents and fees from service providers,
- increased advertising rentals, and
- increased event and sponsorship income.

The increased revenues from Simon Brand and Simon Business were offset by a \$1.9 million increase in Simon Brand and Simon Business expenses that primarily resulted from increased gift card and other operating expenses, which are reported with property operating expenses in our consolidated statements of operations and comprehensive income.

Property operating expenses increased \$68.5 million, \$14.8 million of which was on comparable properties (representing an increase of 4.5%) and was principally as a result of inflationary increases. The remainder of the increase in property operating expenses was due to the effect of Property Transactions, principally the Chelsea Acquisition.

Depreciation and amortization expenses increased \$247.6 million primarily due in large part to the net effect of the Property Transactions. The Chelsea Acquisition accounted for \$191.1 million of the increase. Comparable properties depreciation and amortization increased \$9.6 million, or 1.8%, due to the effect of our expansion and renovation activities.

Real estate taxes increased \$49.2 million, due principally to the Property Transactions. The Chelsea Acquisition accounted for \$32.3 million of the increase. The increase for the comparable properties was \$9.2 million, or 4.0%.

Repairs and maintenance increased \$16.8 million due principally to the Property Transactions. The Chelsea Acquisition accounted for \$9.7 million of the increase. The comparable properties increased \$4.5 million, or 5.4%.

Advertising and promotion expenses increased \$24.3 million, of which \$25.4 million was due to the Property Transactions, offset by a \$1.1 million decrease on comparable properties.

Provision for credit losses decreased \$8.8 million from the prior period due to a reduction of gross receivables, an overall improvement in quality of the receivables, and recoveries of amounts previously written off or provided for in prior periods.

Home office and regional costs increased \$26.2 million due to the Property Transactions, primarily due to the Chelsea Acquisition and the additional costs of operating the Roseland, NJ offices, and incentive compensation arrangements.

Other expenses increased \$18.1 million due to increases in ground rent expenses of \$5.1 million and increases in professional fees and legal fees.

Interest expense increased \$145.3 million due to the following:

- the effect of the borrowings to finance the Property Transactions, including \$41.4 million related to the Acquisition Facility,
- the consolidation and/or acquisition of debt related to Property Transactions, principally the Chelsea Acquisition, which increased interest expense by \$50.4 million,
- increased average borrowings resulting from the impact of an unsecured note offering in August of 2004, and

- increases in our average borrowing rates for our variable rate debt.

Income from unconsolidated entities for 2005 was comparable to the results of our income from consolidated entities for 2004. This includes an increase in the aggregate operations of our joint venture Properties, as a result of our acquisition activity and redevelopment/expansion, offset by an increase in the amount of depreciation and amortization related to acquired properties, principally as a result of the Chelsea Acquisition. The total number of joint venture properties increased from 124 in 2004 to 126 in 2005.

We recorded a \$0.8 million net loss on the sales of interests in unconsolidated entities in 2005 that included our share of the loss on the sale of Forum Entertainment Center of \$13.7 million, offset by our share of the gain on the sale of Metrocenter of \$11.8 million and a \$1.3 million net gain on the sale of a property management entity acquired as part of the Rodamco acquisition in 2002.

In 2005, the gain on sale of discontinued operations of \$146.9 million principally represents the net gain upon disposition of seven non-core Properties consisting of four regional malls, two office buildings, and one community/lifestyle center.

The results of operations from discontinued operations includes the net operating results of properties sold, including the sale of underlying ground adjacent to the Riverway and O'Hare International Center properties. We believe these dispositions will not have a material adverse effect on our results of operations or liquidity.

Finally, preferred unit distribution requirements increased \$38.4 million due to the issuance of preferred units in conjunction with the Chelsea Acquisition.

Year Ended December 31, 2004 vs. Year Ended December 31, 2003

Minimum rents, excluding rents from our consolidated Simon Brand and Simon Business initiatives, increased \$207.2 million during the period. The net effect of the Property Transactions increased minimum rents \$136.2 million, including the amortization of \$6.5 million of fair market value of acquired in-place leases as part of our acquisitions. Comparable base rents, excluding rents from Simon Brand and Simon Business, increased \$71.0 million, including \$7.7 million for the amortization of fair market value of in-place leases. Leasing of space at higher rents also resulted in an increase in base rents of \$55.0 million. In addition, increased rents from carts, kiosks, and renting unoccupied in-line space increased comparable rents from temporary tenant income by \$7.7 million. Straight-line rents also increased by \$5.8 million year over year.

Overage rents increased \$19.2 million of which \$13.6 million related to the Property Transactions. Comparable overage rents increased \$5.6 million.

Tenant reimbursements, excluding Simon Business initiatives, increased \$80.2 million. The Property Transactions accounted for \$57.5 million of the increase. The remaining portion of the increase was primarily due to increases in comparable recoverable expenditures amounting to \$22.7 million, or 3.4%.

Our management company recorded fee revenues of \$55.4 million and insurance premium revenues of \$17.3 million.

Total other income, excluding consolidated Simon Brand and Simon Business initiatives, increased \$4.3 million. The increase in other income was primarily due to increased outlot land sales of \$8.9 million offset by a decline in lease settlement income of \$2.2 million and interest income of \$4.5 million.

Consolidated revenues from Simon Brand and Simon Business initiatives increased \$31.5 million to \$130.7 million from \$99.2 million. The increase in revenues is primarily due to:

- increased revenue from fees derived from our co-branded gift card programs,
- increased rents and fees from service providers,
- increased advertising rentals, and
- increased event and sponsorship income.

The increased revenues from Simon Brand and Simon Business were offset by a \$20.1 million increase in Simon Brand and Simon Business expenses that primarily resulted from increased gift card and other operating expenses, which are reported with property operating expenses in our consolidated statement of operations and comprehensive income.

Property operating expenses increased \$46.2 million, \$18.5 million of which was on comparable properties (representing an increase of 5.8%) and was principally as a result of inflationary increases and increased gift card expenses discussed above. The remainder of the increase in property operating expenses was due to the effect of the Property Transactions.

Depreciation and amortization expenses increased \$125.8 million due in large part to the net effect of the Property Transactions. Comparable properties accounted for \$53.0 million of the increase due to redevelopment and expansion activity.

Real estate taxes increased \$35.1 million, of which the Property Transactions accounted for \$24.5 million of the increase. The increase for the comparable properties was \$10.6 million, or 5.1%.

Repairs and maintenance increased \$8.3 million due principally to the Property Transactions.

Advertising and promotion expenses increased \$7.8 million, of which \$14.2 million was due to the Property Transactions offset by a decrease of \$6.4 million on comparable properties.

Home office and regional costs increased \$11.1 million due to the Property Transactions.

In 2003, we incurred \$10.6 million of costs related a withdrawn tender offer which did not recur in 2004.

Other expenses increased \$12.8 million due to increases in ground rent expenses of \$4.9 million and increases in professional fees and legal fees.

Interest expense increased \$58.7 million as a result of the following:

- Increase in our average borrowings of \$1.8 billion. The increase in the average borrowings is primarily due to the financing of our 2004 and 2003 acquisitions,
- our \$500 million unsecured note offering in January of 2004,
- our \$900 million unsecured senior note offering in August of 2004,
- and the effect of slightly higher variable interest rate levels during 2004.

The increases were offset by an overall decrease in weighted average interest rates as a result of refinancing activity which moved certain borrowings as previously described to lower borrowing rates. Our effective weighted average interest rate on fixed-rate borrowings decreased from 6.71% in 2003 to 6.48% in 2004. Conversely, our weighted average interest rate on variable rate borrowings increased from 2.61% in 2003 to 3.06% in 2004.

Income from unconsolidated entities decreased \$20.0 million in 2004 as compared to 2003. This was principally the result of the Property Transactions and the effect of development projects in joint venture operations that were placed into service during 2003 resulting in a full year of operations. The total number of joint venture properties increased from 76 in 2003 to 124 in 2004.

We recorded a \$0.8 million net loss on the sale of assets in 2004 (Mall of America loss offset by a gain on the disposition of our interests in a hotel property) as compared to a \$5.1 million net loss for 2003. Included in the net loss for 2003 was a \$6.0 million charge in connection with Mall of America.

In 2004, discontinued operations were the result of the sale of five non-core properties during 2004, consisting of three regional malls, one community center, and one Premium Outlet center. Our discontinued operations also include the significant property dispositions during 2005. As a result of these transactions, we reclassified the results of operations from these consolidated properties to discontinued operations. We believe these dispositions will not have a material effect on our results of operations or liquidity.

Finally, preferred unit requirements were consistent at \$63.6 million for 2004 as compared to \$67.2 million for 2003. The impact of preferred units issued in connection with the Chelsea Acquisition and Kravco transactions was offset by the conversion of the Series B 6.5% Preferred units into units in the fourth quarter of 2003 and redemption of the Series E Preferred 8% units in the fourth quarter of 2004.

Liquidity and Capital Resources

Because we generate revenues primarily from long-term leases, our financing strategy relies primarily on long-term fixed rate debt. We manage our floating rate debt to be approximately 15-25% of total outstanding indebtedness by setting interest rates for each financing or refinancing based on current market conditions. We also

enter into interest rate protection agreements as appropriate to assist in managing our interest rate risk. We derive most of our liquidity from leases that generate positive net cash flow from operations and distributions of capital from unconsolidated entities that totaled \$1.6 billion during 2005. In addition, our Credit Facility provides an alternative source of liquidity as our cash needs vary from time to time.

Our balance of cash and cash equivalents decreased \$183.0 million during 2005 to \$337.0 million as of December 31, 2005 principally as a result of changes to our co-branded gift card programs whereby funds are now held by the card-issuer banks. The December 31, 2005 cash and cash equivalents included a balance of \$42.3 million related to the co-branded gift card programs, which we do not consider available for general working capital purposes.

We refinanced the Credit Facility twice in 2005. On January 11, 2005, we increased the facility from \$1.25 billion to \$2.0 billion. On December 15, 2005, we refinanced the Credit Facility increasing it to \$3.0 billion. The Credit Facility has a maturity date of January 11, 2010, with an additional one-year extension available at our option. The facility can also be increased to \$3.5 billion within the first two years of closing at our option. The Credit Facility bears interest at LIBOR plus 42.5 basis points with an additional 15 basis point facility fee on the entire facility and provides for variable grid pricing based upon our corporate credit rating. Prior to December 15, 2005, the rate on the Credit Facility was LIBOR plus 55 basis points. In addition, the Credit Facility has a \$750 million U.S. dollar equivalent multi-currency tranche for Euro, Yen or Sterling borrowings, and also includes a money market competitive bid option program that allows us to hold auctions to obtain lower pricing for short-term funds for up to \$1.5 billion. On December 31, 2005, the Credit Facility had available borrowing capacity of \$2.2 billion net of outstanding borrowings of \$809.3 million and letters of credit of \$2.5 million. During 2005, the maximum amount outstanding under the Credit Facility was \$1.2 billion and the weighted average amount outstanding was \$813.5 million. The weighted average interest rate was 3.75% for the year ended December 31, 2005.

We and the Operating Partnership and/or Simon Property also have access to public equity and long term unsecured debt markets and we have access to private equity from institutional investors at the Property level. Our current senior unsecured debt ratings are Baa1 by Moody's Investors Service, BBB+ by Standard & Poor's, and BBB+ by Fitch.

Cash Flows

Our net cash flow from operating activities and distributions of capital from unconsolidated entities totaled \$1.6 billion during 2005. We also received \$384.1 million primarily from the sale of sixteen non-core Properties. We had net payments from our debt financing and repayment activities in 2005 of \$235.0 million, as discussed below in "Financing and Debt". We also:

- repurchased units and preferred units at an aggregate price of \$193.8 million,
- paid distributions on units totaling \$783.5 million,
- paid distributions on preferred units totaling \$101.9 million,
- funded consolidated capital expenditures of \$726.4 million. These capital expenditures include development costs of \$340.4 million, renovation and expansion costs of \$252.2 million and tenant costs and other operational capital expenditures of \$133.8 million, and
- funded investments in unconsolidated entities of \$76.7 million.

We met our maturing debt obligations in 2005 primarily through our refinancing and borrowing activities.

In general, we anticipate that for 2006 and thereafter cash generated from operations will be sufficient to meet operating expenses, monthly debt service, recurring capital expenditures, and the level of distributions necessary to maintain Simon Property's REIT qualification. In addition, we expect to be able to obtain capital for nonrecurring capital expenditures, such as acquisitions, major building renovations and expansions, as well as for scheduled principal maturities on outstanding indebtedness, from:

- excess cash generated from operating performance and working capital reserves,
- borrowings on our Credit Facility,
- additional secured or unsecured debt financing, or
- additional equity raised by Simon Property in the public or private markets and contributed to us in exchange for units.

Financing and Debt

Unsecured Debt

We have \$1.0 billion of unsecured notes that are structurally senior in right of payment to holders of other unsecured notes to the extent of the assets and related cash flows of certain Properties. These unsecured notes have a weighted average interest rate of 7.02% and weighted average maturities of 6.3 years.

On June 7, 2005, we issued two tranches of senior unsecured notes to institutional investors pursuant to Rule 144A totaling \$1.0 billion at a weighted average fixed interest rate of 4.90%. The first tranche is \$400.0 million at a fixed interest rate of 4.60% due June 15, 2010, and the second tranche is \$600.0 million at a fixed interest rate of 5.10% due June 15, 2015. We received net proceeds of \$993.0 million. We used \$358.0 million of the net proceeds to reduce borrowings on our Credit Facility, \$600.0 million to reduce a \$1.8 billion term loan we used to finance part of the acquisition of Chelsea (the "Acquisition Facility"), and the remaining portion was used for general working capital purposes. All of the Rule 144A notes were exchanged in July of 2005 in a transaction registered under the Securities Act of 1933 for notes having the same economic terms and conditions.

On November 8, 2005, we issued two tranches of senior unsecured notes to institutional investors pursuant to Rule 144A totaling \$1.1 billion at a weighted average fixed interest rate of 5.58%. The first tranche is \$500.0 million at a fixed interest rate of 5.375% due June 1, 2011, and the second tranche is \$600.0 million at a fixed interest rate of 5.75% due December 1, 2015. We received net proceeds of \$1.09 billion. We used \$475.0 million of the net proceeds to reduce borrowings on our Credit Facility, \$600.0 million to reduce the Acquisition Facility, and the remaining portion was used for general working capital purposes. All of the Rule 144A notes are expected to be exchanged in 2006 in a transaction registered under the Securities Act of 1933 for notes having the same economic terms and conditions.

Credit Facility. Other significant activity on the Credit Facility during the twelve-month period ended December 31, 2005 was as follows:

Draw Date	Draw Amount	Use of Credit Line Proceeds
January 20, 2005	\$200,000	• To repay a \$250 million unsecured term loan, which had a rate of LIBOR plus 65 basis points.
March 31, 2005	17,268	• Repayment of Chelsea's Yen unsecured loan facility, which had a rate of TIBOR plus 125 basis points.
May 16, 2005	110,000	• Repayment of \$110 million unsecured notes, which had a fixed rate of 7.625%.
June 15, 2005	300,000	• Repayment of \$300 million of unsecured notes, which had a fixed rate of 6.75%.
June 24, 2005	100,000	• Repayment of \$100 million Medium Term Notes, which had a fixed rate of 7.125%.
Various dates	155,000	• Repayment of various series of unsecured notes, which had fixed rates ranging from 6.875% to 8.375%.
August 30, 2005	63,000	• To repay two secured mortgages for one regional mall, which had fixed rates of 7.13% and 7.77%, respectively.
December 15, 2005	242,475	• To repay a 200 million Euro-denominated unsecured term loan, which had a rate of EURIBOR plus 60 basis points.

Other amounts drawn on the Credit Facility were primarily for general working capital purposes. The total aggregate amount of our repayments on the Credit Facility during the twelve month period ended December 31, 2005 was \$1.5 billion. The total outstanding balance of the Credit Facility was \$809.3 million as of December 31, 2005. During 2005, the maximum amount outstanding under the Credit Facility was \$1.2 billion and the weighted average amount outstanding was \$813.5 million.

Acquisition Facility. We borrowed the \$1.8 billion Acquisition Facility in 2004 to finance the cash portion of the Chelsea Acquisition. The Acquisition Facility matures on October 12, 2006 and has one remaining principal payment, due at maturity. The Acquisition Facility bears interest at LIBOR plus 55 basis points with an additional 15 basis point facility fee on all loans outstanding and provides for variable grid pricing based upon our credit rating. There is also a 7.5 basis point lenders' fee from the 13th to the 18th month, increasing to 10 basis points from the 18th month to maturity.

Secured Debt

Total secured indebtedness, excluding net premiums, was \$4.5 billion and \$5.0 billion at December 31, 2005 and December 31, 2004, respectively. During the twelve-month period ended December 31, 2005, we repaid \$116.7 million in mortgage loans, unencumbering five separate Properties. In addition, on June 1, 2005, we repaid a \$110 million mortgage related to our disposition of Riverway, which bore interest at LIBOR plus 115 basis points, and had a maturity date of October 1, 2006. On November 17, 2005, we sold Cheltenham Square, which held a \$54.9 million mortgage that bore interest at a fixed rate of 5.89%, and had a maturity date of July 1, 2014. Finally, on December 28, 2005, the deed for Biltmore Square was surrendered to the bank in full consideration of the \$26 million mortgage on the property, which bore interest at a fixed rate of 7.95%, and had an anticipated maturity date of December 11, 2010.

Summary of Financing. We incurred interest expense during 2005 of \$799.1 million from continuing operations, net of capitalized interest of \$14.4 million. Our consolidated debt, adjusted to reflect outstanding derivative instruments, as of December 31, and effective weighted average interest rate for the years then ended consisted of the following (dollars in thousands):

Debt Subject to	Adjusted Balance as of December 31, 2005	Effective Weighted Average Interest Rate	Adjusted Balance as of December 31, 2004	Effective Weighted Average Interest Rate
Fixed Rate	\$11,908,050	6.22%	\$10,766,015	6.48%
Variable Rate	2,198,067	4.95%	3,820,378	3.06%
	<u>\$14,106,117</u>	<u>6.02%</u>	<u>\$14,586,393</u>	<u>5.58%</u>

As of December 31, 2005, we had interest rate cap protection agreements on \$207.4 million of consolidated variable rate debt. We had interest rate protection agreements effectively converting variable rate debt to fixed rate debt on \$59.1 million of consolidated variable rate debt. We also hold \$370.0 million of notional amount variable rate swap agreements that have a weighted average variable pay rate of 4.64% and a weighted average fixed receive rate of 3.72% at December 31, 2005. As of December 31, 2005 and December 31, 2004, the net effect of these agreements effectively converted \$310.9 million and \$304.5 million of fixed rate debt to variable rate debt, respectively.

We expect to meet our 2006 debt maturities principally through refinancings, the issuance of new debt securities or borrowings on the Credit Facility. We expect to have access to capital markets to meet all future long term obligations when they come due. Specific financing decisions will be made based upon market rates, property values, and our desired capital structure at the maturity date of each obligation.

Contractual Obligations and Off-balance Sheet Arrangements. The following table summarizes the material aspects of our future obligations as of December 31, 2005 (dollars in thousands):

(1) Represents principal maturities only and therefore, excludes net premiums and discounts and fair value swaps of \$85,146.

(2) Represents our pro rata share of principal maturities and excludes net premiums and discounts.

(3) Represents our pro rata share of capital expenditure commitments.

Capital expenditure commitments presented in the table above represent new developments, redevelopments or renovation/expansions that we have committed to the completion of construction. The timing of these expenditures may vary due to delays in construction or acceleration of the opening date of a particular project. In addition, the amount includes our share of committed costs for joint venture developments.

Our off-balance sheet arrangements relate primarily to our investments in real estate joint ventures which are common in the real estate industry and are described in Note 7 of the notes to the accompanying financial statements. Joint venture debt is the liability of the joint venture, is typically secured by the joint venture Property, and is non-recourse to us. As of December 31, 2005, we have guaranteed, provided letters of credit, or have entered into the other guarantee obligations to support \$41.6 million of our total \$3.2 billion share of joint venture mortgage and other indebtedness presented in the table above.

Preferred Unit Activity

During 2005, the holders of 197,155 Series I Preferred units exercised their rights to exchange the preferred units for shares of Simon Property's Series I Preferred Stock.

Acquisitions and Dispositions

Acquisitions. In 2005 we acquired ownership interest in the following Properties:

- acquired a 37.99% interest in Springfield Mall in Springfield, Pennsylvania for approximately \$39.3 million, including the issuance of our share of debt of \$29.1 million.
- acquired a 50% interest in Coddington Mall in Santa Rosa, California for approximately \$37.1 million, including the assumption of our share of debt of \$10.5 million.

Dispositions. As part of our strategic plan to own quality retail real estate we continue to pursue the sale of Properties, under the right circumstances, that no longer meet our strategic criteria. In 2005, we disposed of sixteen non-core Properties that no longer met our strategic criteria. These consisted of four regional malls, two office buildings, one community/lifestyle center, and nine other outlet centers. We do not believe the sale of these Properties

will have a material impact on our future results of operations or cash flows and their removal from service and sale will not materially affect our ongoing operations. We believe the disposition of these Properties will enhance the average overall quality of our Portfolio.

Joint Ventures. Buy/sell provisions are common in real estate partnership agreements. Most of our partners are institutional investors who have a history of direct investment in retail real estate. Our partners in our joint ventures may initiate these provisions at any time and if we determine it is in Simon Property's stockholders' best interests for us to purchase the joint venture interest, we believe we have adequate liquidity to execute the purchases of the interests without hindering our cash flows or liquidity. Should we decide to sell any of our joint venture interests, we would expect to use the net proceeds from any such sale to reduce outstanding indebtedness. On January 11, 2005, Metrocenter, a regional mall located in Phoenix, Arizona was sold. On December 22, 2005, our Canadian property, Forum Entertainment Centre was sold. We held a 50% interest in Metrocenter and a 38% interest in Forum Entertainment Centre.

Development Activity

New Developments. The following describes our new development projects, the estimated total cost, our share of the estimated total cost and our share of the construction in progress balance as of December 31, 2005 (dollars in millions):

Property	Location	Gross Leasable Area	Estimated Total Cost (a)	Our Share of Estimated Total Cost	Our Share of Construction in Progress	Estimated Opening Date
Under Construction:						
The Town Center at Coconut Point	Estero/Bonita Springs, FL	1,200,000	\$ 213	\$107	\$ 54	2 nd Quarter 2006 (b)
The Domain	Austin, TX	700,000	195	195	90	1 st Quarter 2007
Rio Grande Valley Premium Outlets	Mercedes, TX	404,000	59	59	17	4 th Quarter 2006
Round Rock Premium Outlets	Round Rock, TX (Austin)	433,000	106	106	50	3 rd Quarter 2006
The Shops at Arbor Walk	Austin, TX	460,000	52	52	7	1 st Quarter 2007
The Village at SouthPark	Charlotte, NC	81,000	26	26	2	1 st Quarter 2007

(a) Represents the project costs net of land sales, tenant reimbursements for construction, and other items (where applicable).

(b) The estimated opening date represents Phase I only. Phase II estimated opening date is 4th quarter 2006.

We expect to fund these capital projects with available cash flow from operations, borrowings from our Credit Facility, or project specific construction loans. We expect our share of the total 2006 new development costs during the year to be approximately \$450.0 million.

Strategic Expansions and Renovations. The following describes our significant renovation and/or expansion projects currently under construction, the estimated total cost, our share of the estimated total cost and our share of the construction in progress balance as of December 31, 2005 (dollars in millions):

Property	Location	Incremental Gross Leasable Area	Estimated Total Cost (a)	Our Share of Estimated Total Cost	Our Share of Construction in Progress	Estimated Opening Date
Under Construction:						
Lenox Square	Atlanta, GA	65,300	\$ 44	\$ 44	\$ 4	4 th Quarter 2007
Northgate Mall	Seattle, WA	114,600	39	39	2	2 nd Quarter 2007
Smith Haven Mall	Lake Grove (New York), NY	20,900	65	16	3	4 th Quarter 2006

(a) Represents the project costs net of land sales, tenant reimbursements for construction, and other items (where applicable).

We expect to fund these capital projects with available cash flow from operations or borrowings from the Credit Facility. We have other renovation and/or expansion projects currently under construction or in preconstruction development and expect to invest a total of approximately \$175.0 million (our share) on expansion and renovation activities in 2006.

On December 28, 2005, we invested \$50 million of equity for a 40% interest in a joint venture with Toll Brothers, Inc. (Toll Brothers) and Meritage Homes Corp. (Meritage Homes) to purchase a 5,485-acre land parcel in northwest Phoenix from DaimlerChrysler Corporation for \$312 million. Toll Brothers and Meritage Homes each plan to build a significant number of homes on the site. We have the option to purchase a substantial portion of the commercial property for retail uses. Other parcels may also be sold to third parties. Initial plans call for a mixed-use master planned community, which will include approximately 4,840 acres of single-family homes and attached homes. Approximately 645 acres of commercial and retail development will include schools, community amenities and open space. Initial home sales are tentatively scheduled to begin in 2009. The joint venture, of which Toll Brothers is the managing member, expects to develop a master planned community of approximately 12,000 to 15,000 residential units.

Capital Expenditures on Consolidated Properties

The following table summarizes total capital expenditures on consolidated Properties on a cash basis:

	2005	2004	2003
New Developments	\$ 341	\$ 215	\$ 105
Renovations and Expansions	252	244	187
Tenant Allowances	69	73	54
Operational Capital Expenditures	64	17	8
Total	<u>\$ 726</u>	<u>\$ 549</u>	<u>\$ 354</u>

International. Our strategy is to invest capital internationally not only to acquire existing properties but also to use the net cash flow from the existing properties to fund other future developments. We believe reinvesting the cash flows derived overseas in foreign denominated development and redevelopment projects helps minimize our exposure to our initial investment and to the changes in foreign currencies on future investments that might otherwise significantly increase our cost and reduce our returns on these new projects and developments. In addition, to date we have funded the majority of our investments specific to Europe, with Euro-denominated borrowings that act as a natural hedge on our investments. This has also been the case with our Premium Outlet joint ventures in Japan and Mexico whereby Yen and Peso denominated financing have been secured for the financing of the affected properties.

Currently, our net income exposure to changes in the volatility to foreign currencies is not material. In addition, since cash flow from operations is currently being reinvested in other development projects, we do not expect to repatriate a significant amount of foreign denominated earnings for the next few years.

We operate in Europe through two separate joint ventures: European Retail Enterprises, B.V. (“ERE”), in which we hold a 34.7% interest and Gallerie Commerciali Italia (“GCI”), in which we hold a 49% interest. The carrying amount of our total combined investment in ERE and GCI as of December 31, 2005 net of the related cumulative translation adjustment was \$287.4 million. Currently a total of seven European developments are under construction that will add approximately 4.4 million square feet of GLA for a total net cost of approximately €683.1 million, of which our share is approximately €183.7 million.

On October 20, 2005, Ivanhoe Cambridge, Inc. (“Ivanhoe”), an affiliate of Caisse de dépôt et placement du Québec, effectively acquired our former partner’s 39.5% ownership interest in ERE. On February 13, 2006, pursuant to the terms of our October 20, 2005 transaction with Ivanhoe, we sold a 10.5% interest in ERE to Ivanhoe for €45.2 million, or \$53.9 million. We then settled all remaining share purchase commitments from the founders of ERE, including the early settlement of some commitments by purchasing an additional 25.8% interest for €55.1 million, or \$65.5 million. The result of these transactions equalized our and Ivanhoe’s ownership in ERE to 50% each. We expect to record a gain on this transaction in the first quarter of 2006.

As of December 31, 2005, the carrying amount of our 40% joint venture investment in the five Japanese Premium Outlet centers net of the related cumulative translation adjustment was \$287.7 million. There is one project under expansion in Sano, Japan which contains total GLA of 91,000 square feet for a total net cost of ¥2.4 billion, of which our share is approximately ¥1.0 billion.

Distributions

On February 3, 2006, Simon Property’s Board of Directors (“Board”) approved an increase in the annual distribution rate to \$3.04 per unit. Distributions during 2005 aggregated \$2.80 per unit and distributions during 2004 aggregated \$2.60 per unit. We are required to pay a minimum level of distributions to maintain Simon Property’s status as a REIT. Our distributions typically exceed our net income generated in any given year primarily because of depreciation, which is a “non-cash” expense. Our future distributions will be determined by the Board based on actual results of operations, cash available for distributions, and what may be required to maintain Simon Property’s status as a REIT.

Item 7A. Qualitative and Quantitative Disclosure About Market Risk

Please refer to the Management’s Discussion and Analysis of Financial Condition and Results of Operations included in Item 7 under the caption Liquidity and Capital Resources.

Item 8. Financial Statements and Supplementary Data

Reference is made to the Index to Financial Statements contained in Item 15.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. We carried out an evaluation under the supervision and with participation of management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Form 10-K pursuant to Exchange Act Rule 13a-15. Based upon that evaluation, our management, including the chief executive officer and chief financial officer, concluded that our disclosure controls and procedures were effective as of December 31, 2005.

Changes in Internal Control Over Financial Reporting. There was no change in our internal control over financial reporting (as defined in Rule 13a-15(f)) that occurred during the fourth quarter of 2005 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Management’s Report on Internal Control over Financial Reporting. We are responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rule 13a-15(f) or 15d-15(f) promulgated under the Securities Exchange Act of 1934 as a process designed by, or under

the supervision of, our principal executive and principal financial officers and effected by Simon Property's Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect our transactions and dispositions of the assets;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and
- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

We assessed the effectiveness of our internal control over financial reporting as of December 31, 2005. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control-Integrated Framework.

Based on our assessment, we believe that, as of December 31, 2005, our internal control over financial reporting is effective based on those criteria.

Our independent registered public accounting firm has issued an audit report on our assessment of our internal control over financial reporting. Their report is included within Item 9A of this Form 10-K.

Report Of Independent Registered Public Accounting Firm

The Board of Directors of Simon Property Group, Inc.
and
The Partners of Simon Property Group, L.P.:

We have audited management's assessment, included in the accompanying Management's Report on Internal Control Over Financial Reporting, included within Item 9A of this Form 10-K, that Simon Property Group, L.P. and Subsidiaries maintained effective internal control over financial reporting as of December 31, 2005, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Simon Property Group L.P. and Subsidiaries' management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the partnership's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that Simon Property Group, L.P. and Subsidiaries maintained effective internal control over financial reporting as of December 31, 2005, is fairly stated, in all material respects, based on the COSO criteria. Also, in our opinion, Simon Property Group, L.P. and Subsidiaries maintained, in all material respects, effective internal control over financial reporting as of December 31, 2005, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Simon Property Group, L.P. and Subsidiaries as of December 31, 2005 and 2004, and the related consolidated statements of operations and comprehensive income, partners' equity and cash flows for each of the three years in the period ended December 31, 2005 and the financial statement schedule listed in the Index at Item 15, and our report dated March 7, 2006 expressed an unqualified opinion thereon.

Report Of Independent Registered Public Accounting Firm

The Board of Directors of Simon Property Group, Inc.
and

The Partners of Simon Property Group, L.P.:

We have audited the accompanying consolidated balance sheets of Simon Property Group, L.P. and Subsidiaries as of December 31, 2005 and 2004, and the related consolidated statements of operations and comprehensive income, partners' equity and cash flows for each of the three years in the period ended December 31, 2005. Our audits also included the financial statement schedule listed in the Index at Item 15. These financial statements and schedule are the responsibility of Simon Property Group, L.P. and Subsidiaries' management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Simon Property Group, L.P. and Subsidiaries at December 31, 2005 and 2004, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2005, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the base financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of Simon Property Group, L.P. and Subsidiaries' internal control over financial reporting as of December 31, 2005, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 7, 2006, expressed an unqualified opinion thereon.

Simon Property Group, L.P. and Subsidiaries

Notes to Consolidated Financial Statements

(Dollars in thousands, except share and per share amounts and where indicated as in millions or billions)

1. Organization

Simon Property Group, L.P. is a Delaware limited partnership and a majority owned subsidiary of Simon Property Group, Inc. In these notes to consolidated financial statements, the terms “Operating Partnership”, “we”, “us” and “our” refer to the Simon Property Group, L.P. and its subsidiaries and the term “Simon Property” refers specifically to Simon Property Group, Inc. Simon Property is a self-administered and self-managed real estate investment trust (“REIT”) under the Internal Revenue Code of 1986, as amended (the “Code”). Pursuant to our partnership agreement, we are required to pay all expenses of Simon Property.

We are engaged primarily in the ownership, development, and management of retail real estate, primarily regional malls, Premium Outlet® centers and community/lifestyle centers. As of December 31, 2005, we owned or held an interest in 286 income-producing properties in the United States, which consisted of 171 regional malls, 71 community/lifestyle centers, 33 Premium Outlet centers and 11 other shopping centers or outlet centers in 39 states and Puerto Rico (collectively, the “Properties”, and individually, a “Property”). We also own interests in ten parcels of land held in the United States for future development (together with the Properties, the “Portfolio”). Finally, we have ownership interests in 51 European shopping centers (France, Italy, and Poland); five Premium Outlet centers in Japan; and one Premium Outlet center in Mexico.

We generate the majority of our revenues from leases with retail tenants including:

- Base minimum rents and cart and kiosk rentals,
- Overage and percentage rents based on tenants’ sales volume, and
- Recoveries of substantially all of our recoverable expenditures, which consist of property operating, real estate tax, repairs and maintenance, and advertising and promotional expenditures.

We also generate revenues due to our size and tenant relationships from:

- Pursuing mall marketing initiatives, including our co-branded gift card programs,
- Forming consumer focused strategic corporate alliances, and
- Offering property operating services to our tenants and others resulting from our relationships with vendors.

Structural Simplification

On January 1, 2005, we simplified our organizational structure by merging SPG Realty Consultants, L.P. (“SPG Realty”), a subsidiary of Simon Property, into the Operating Partnership. SPG Realty was the Operating Partnership’s paired-unit affiliate that resulted from the business combination with Corporate Property Investors, Inc. The accompanying statement of partners’ equity for the year ended December 31, 2005 reflects the additional partner’s equity as a result of this merger.

2. Basis of Presentation and Consolidation

The accompanying consolidated financial statements include the accounts of the Operating Partnership and its subsidiaries, and all significant intercompany amounts have been eliminated.

We consolidate Properties that are wholly owned or Properties that we own less than 100% but we control. Control of a Property is demonstrated by, among other factors, our ability to:

- manage day-to-day operations,
- refinance debt and sell the Property without the consent of any other partner or owner, and
- the inability of any other partner or owner to replace us.

We also consolidate all variable interest entities when we are determined to be the primary beneficiary.

The deficit minority interest balances included in deferred costs and other assets in the accompanying consolidated balance sheets represent outside partners’ interests in the net equity of certain properties. We record

2. Basis of Presentation and Consolidation (Continued)

deficit minority interests when a joint venture agreement provides for the settlement of deficit capital accounts before distributing the proceeds from the sale of joint venture assets, the joint venture partner is obligated to make additional contributions to the extent of any capital account deficits or the joint venture partner has the ability to fund such additional contributions.

Investments in partnerships and joint ventures represent noncontrolling ownership interests in Properties. We account for these investments using the equity method of accounting. We initially record these investments at cost and we subsequently adjust for net equity in income or loss, which we allocate in accordance with the provisions of the applicable partnership or joint venture agreement, and cash contributions and distributions. The allocation provisions in the partnership or joint venture agreements are not always consistent with the legal ownership interests held by each general or limited partner or joint venture investee primarily due to partner preferences.

As of December 31, 2005, of our 343 properties we consolidated 197 wholly-owned properties and consolidated 20 additional properties that are less than wholly-owned, which we control or for which we are the primary beneficiary. We account for the remaining 126 properties using the equity method of accounting (joint venture properties). We manage the day-to-day operations of 59 of the 126 joint venture properties but have determined that our partner or partners have substantive participating rights in regards to the assets and operations of these joint venture properties.

We allocate our net operating results after preferred distributions based on our partners' respective ownership. In addition, Simon Property owns certain of our preferred units. Simon Property's weighted average ownership interest in the Operating Partnership was as follows:

	For the Year Ended December 31,		
	2005	2004	2003
Weighted average ownership interest	78.7%	77.7%	75.4%

As of December 31, 2005 and 2004, Simon Property's ownership interest in the Operating Partnership was 79.0% and 78.2%, respectively. We adjust the limited partners' interest at the end of each period to reflect their ownership interest. The adjustment is reflected in the accompanying consolidated statements of partners' equity.

3. Summary of Significant Accounting Policies

Investment Properties

We record investment properties at cost. Investment properties include costs of acquisitions; development, predevelopment, and construction (including salaries and related benefits); tenant allowances and improvements; and interest and real estate taxes incurred related to construction. We capitalize improvements and replacements from repair and maintenance when the repairs and maintenance extend the useful life, increase capacity, or improve the efficiency of the asset. All other repair and maintenance items are expensed as incurred. We record depreciation on buildings and improvements utilizing the straight-line method over an estimated original useful life, which is generally 10 to 40 years. We review depreciable lives of investment properties periodically and we make adjustments when necessary to reflect a shorter economic life. We record depreciation on tenant allowances, tenant inducements and tenant improvements utilizing the straight-line method over the term of the related lease or occupancy term of the tenant, if shorter. We record depreciation on equipment and fixtures utilizing the straight-line method over seven to ten years.

We review investment properties for impairment on a property-by-property basis whenever events or changes in circumstances indicate that the carrying value of investment properties may not be recoverable. These circumstances include, but are not limited to, declines in cash flows, occupancy and comparable sales per square foot at the property. We recognize an impairment of investment property when the estimated undiscounted operating income before

3. Summary of Significant Accounting Policies (Continued)

depreciation and amortization is less than the carrying value of the property. To the extent impairment has occurred, we charge to income the excess of carrying value of the property over its estimated fair value. We may decide to sell properties that are held for use and the sale prices of these properties may differ from their carrying values.

Purchase Accounting Allocation

We allocate the purchase price of acquisitions to the various components of the acquisition based upon the relative value of each component in accordance with SFAS No. 141 “Business Combinations” (FAS 141). These components typically include buildings, land and intangibles related to in-place leases and we estimate:

- the fair value of the buildings on an as-if-vacant basis. The value allocated to land and related improvements is determined either by real estate tax assessments, a third party valuation specialist, or other relevant data.
- the market value of in-place leases based upon our best estimate of current market rents and amortize the resulting market rent adjustment into revenues.
- the value of costs to obtain tenants, including tenant allowances and improvements and leasing commissions.
- the value of revenue and recovery of costs foregone during a reasonable lease-up period, as if the space was vacant.

Amounts allocated to building are depreciated over the estimated remaining life of the acquired building or related improvements. We amortize amounts allocated to tenant improvements, in-place lease assets and other lease-related intangibles over the remaining life of the underlying leases, either on a specific lease methodology for a portfolio acquisition or an average of total property leases methodology, generally applied for a single property acquisition, depending on the availability of estimates by lease. We also estimate the value of other acquired intangible assets, if any, which are amortized over the remaining life of the underlying related leases or intangibles. Any remaining amount of value will be allocated to in-place leases, as deemed appropriate under the circumstances.

Discontinued Operations

SFAS No. 144, “Accounting for the Impairment or Disposal of Long-Lived Assets” (“SFAS No. 144”) provides a framework for the evaluation of impairment of long-lived assets, the treatment of assets held for sale or to be otherwise disposed of, and the reporting of discontinued operations. SFAS No. 144 requires us to reclassify any material operations related to consolidated properties sold during the period to discontinued operations. We have reclassified the results of operations of the seven regional malls, community/lifestyle centers, and office building properties disposed during 2005, the five properties sold during 2004, and the thirteen properties sold in 2003 as described in Note 4 to discontinued operations in the accompanying consolidated statements of operations and comprehensive income for all periods presented. Revenues included in discontinued operations were \$29.3 million for the year ended December 31, 2005, \$62.7 million for the year ended December 31, 2004, and \$105.6 million for the year ended December 31, 2003.

Cash and Cash Equivalents

We consider all highly liquid investments purchased with an original maturity of 90 days or less to be cash and cash equivalents. Cash equivalents are carried at cost, which approximates market value. Cash equivalents generally consist of commercial paper, bankers acceptances, Eurodollars, repurchase agreements, and money markets. During 2005, independent banks assumed responsibility for the gift card programs. We collect gift card funds at the point of sale and then remit those funds onto the banks for further processing. As a result, significantly all of the cash collected from the issuance of a gift card is now held by the banks. Further, the banks also now bear the related liability for funds which will be owed to retailers which honor a gift card for tender of goods and services. Our balance of cash and cash equivalents includes a balance of \$42.3 million related to our co-branded gift card programs which we do not consider

available for general working capital purposes. See Notes 4, 8, and 10 for disclosures about non-cash investing and financing transactions.

Marketable Securities

Marketable securities consist primarily of the assets of our insurance subsidiaries and are included in deferred costs and other assets. The types of securities typically include U.S. Treasury or other U.S. government securities as well as corporate debt securities with maturities ranging from 1 to 10 years. These securities are classified as available-for-sale and are valued based upon quoted market prices or using discounted cash flows when quoted market prices are not available. The amortized cost of debt securities in this category is adjusted for amortization of premiums and accretion of discounts to maturity. Changes in the values of these securities are recognized in accumulated other comprehensive income until the gain or loss is realized and recorded in other income. However, if we determine a decline in value is other than temporary, then we recognize the unrealized loss in income to write down the investments to their net realizable value. Our insurance subsidiaries are required to maintain statutory minimum capital and surplus as well as maintain a minimum liquidity ratio. Therefore, our access to their securities may be limited.

Use of Estimates

We prepared the accompanying consolidated financial statements in accordance with accounting principles generally accepted in the United States ("GAAP"). GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reported period. Our actual results could differ from these estimates.

Capitalized Interest

We capitalize interest on projects during periods of construction until the projects are ready for their intended purpose. The amount of interest capitalized during each year is as follows:

	For the Year Ended December 31,		
	2005	2004	2003
Capitalized interest	\$14,433	\$14,612	\$10,705

Segment Disclosure

The Financial Accounting Standards Board (the "FASB") Statement No. 131, "Disclosures about Segments of an Enterprise and Related Information" ("Statement 131"), in June of 1997. Statement 131 requires disclosure of certain operating and financial data with respect to separate business activities within an enterprise. Our primary business is the ownership, development and management of retail real estate. We have aggregated our retail operations, including regional malls, Premium Outlet centers and community/lifestyle centers, into one reportable segment because they have similar economic characteristics and we provide similar products and services to similar types of tenants. Further, all material operations are within the United States and no customer or tenant comprises more than 10% of consolidated revenues.

Deferred Financing and Lease Costs. Our deferred costs consist primarily of financing fees we incurred in order to obtain long-term financing and internal and external leasing commissions and related costs. We record amortization of deferred financing costs on a straight-line basis over the terms of the respective loans or agreements. Our deferred leasing costs consist primarily of capitalized salaries and related benefits in connection with lease originations. We record amortization of deferred leasing costs on a straight-line basis over the terms of the related leases. We amortize debt premiums and discounts, which are included in mortgages and other indebtedness, over the remaining terms of the related debt instruments. These debt premiums or discounts arise either at the debt issuance or as part of the purchase price allocation of the fair value of debt assumed in acquisitions. Details of these deferred costs as of December 31 are as follows:

	<u>2005</u>	<u>2004</u>
Deferred financing and lease costs	\$ 337,919	\$418,447
Accumulated amortization	(154,670)	(238,758)
Deferred financing and lease costs, net	<u>\$ 183,249</u>	<u>\$179,689</u>

The accompanying statements of operations and comprehensive income includes amortization as follows:

	<u>For the year ended December 31,</u>		
	<u>2005</u>	<u>2004</u>	<u>2003</u>
Amortization of deferred financing costs	\$22,063	\$17,188	\$15,710
Amortization of debt premiums net of discounts	(26,349)	(8,401)	(5,723)
Amortization of deferred leasing costs	20,606	19,209	18,626

We report amortization of deferred financing costs, amortization of premiums, and accretion of discounts as part of interest expense.

Intangible Assets. The average life of the in-place lease intangibles is approximately 6.5 years and is amortized over the remaining life of the leases of the related property on the straight-line basis and is included with depreciation and amortization in the consolidated statements of operations and comprehensive income. The fair market value of above and below market leases are amortized into revenue over the remaining lease life as a component of reported minimum rents. The weighted average remaining life of these intangibles approximates five years. The unamortized amounts of below market leases are included in accounts payable, accrued expenses, intangibles and deferred revenues on the consolidated balance sheets and are \$261.9 million and \$334.2 million as of December 31, 2005 and 2004,

Derivative Financial Instruments

We account for our derivative financial instruments pursuant to SFAS 133 "Accounting for Derivative Instruments and Hedging Activities," as amended by SFAS 138, "Accounting for Derivative Instruments and Hedging Activities." We use a variety of derivative financial instruments in the normal course of business to manage or hedge the risks described in Note 8 and record all derivatives on our balance sheets at fair value. We require that hedging derivative instruments are effective in reducing the risk exposure that they are designated to hedge. We formally designate any instrument that meets these hedging criteria as a hedge at the inception of the derivative contract.

We adjust our balance sheets on an ongoing basis to reflect the current fair market value of our derivatives. We record changes in the fair value of these derivatives each period in earnings or comprehensive income, as appropriate. The ineffective portion of the hedge is immediately recognized in earnings to the extent that the change in value of a derivative does not perfectly offset the change in value of the instrument being hedged. The unrealized gains and losses held in accumulated other comprehensive income will be reclassified to earnings over time as the hedged items are recognized in earnings. We have a policy of only entering into contracts with major financial institutions based upon their credit ratings and other factors.

We use standard market conventions to determine the fair values of derivative instruments, and techniques such as discounted cash flow analysis, option pricing models, and termination cost are used to determine fair value at each balance sheet date. All methods of assessing fair value result in a general approximation of value and such value may never actually be realized.

Accumulated Comprehensive Income

The components of our accumulated comprehensive income consisted of the following as of December 31:

	<u>2005</u>	<u>2004</u>
Cumulative translation adjustment	\$ (3,574)	\$ 5,826
Accumulated derivative gains, net	16,155	14,350
Net unrealized gains (losses) on marketable securities	<u>(141)</u>	<u>874</u>
Total accumulated comprehensive income	<u>\$ 12,440</u>	<u>\$21,050</u>

Revenue Recognition

We, as a lessor, retain substantially all of the risks and benefits of ownership of the investment properties and account for our leases as operating leases. We accrue minimum rents on a straight-line basis over the terms of their respective leases. Substantially all of our retail tenants are also required to pay overage rents based on sales over a stated base amount during the lease year. We recognize overage rents only when each tenant's sales exceeds the applicable sales threshold.

We structure our leases to allow us to recover a significant portion of our property operating, real estate taxes, repairs and maintenance, and advertising and promotion expenses from our tenants. A substantial portion of our leases, other than those for anchor stores, require the tenant to reimburse us for a substantial portion of our operating expenses, including common area maintenance (CAM), real estate taxes and insurance. This significantly reduces our exposure to increases in costs and operating expenses resulting from inflation. For approximately 40% of our leases, we receive a fixed payment from the tenant for the CAM component, which is subject to an annual adjustment. We are continually working toward converting an increased number of our leases to the fixed payment methodology. For the remainder of our leases, these CAM expense reimbursements are based on the tenant's proportionate share of the allocable operating expenses and CAM capital expenditures for the property. Such property operating expenses typically include utility, insurance, security, janitorial, landscaping, food court and other administrative expenses. We accrue reimbursements from tenants for recoverable portions of all these expenses as revenue in the period the applicable expenditures are incurred. Our advertising and promotional costs are expensed as incurred. We also receive escrow payments for these reimbursements from substantially all our non-fixed CAM tenants and monthly fixed CAM payments throughout the year. We do this to reduce the risk of loss on uncollectible accounts once we perform the final year-end billings for recoverable expenditures. We recognize differences between estimated recoveries and the final billed amounts in the subsequent year. These differences were not, and are not expected to be, material in any period presented.

Management Fees and Other Revenues

Management fees and other revenues are generally received from our unconsolidated joint venture Properties as well as third parties. Management fee revenue is recognized based on a contractual percentage of joint venture property revenue. Development fee revenue is recognized on a contractual percentage of hard costs to develop a property. Leasing fee revenue is recognized on a contractual per square foot charge based on the square footage of current year leasing activity.

Insurance premiums written and ceded are recognized on a pro-rata basis over the terms of the policies. Insurance losses are reflected in property operating expenses in the accompanying statements of operations and comprehensive income and include estimates for losses incurred but not reported as well as losses pending settlement. Estimates for losses are based on evaluations by actuaries and management's best estimates. Total insurance reserves for our insurance subsidiary as of December 31, 2005 and 2004 approximated \$93.6 million and \$79.0 million, respectively.

3. Summary of Significant Accounting Policies (Continued)

We recognize fee revenues from our co-branded gift card programs when the fees are earned under the related arrangements with the card issuers. Generally, these revenues are recorded at the issuance of the gift card for handling fees and, if applicable, at future dates for servicing fees in the event of non-use of the card.

Allowance for Credit Losses

We record a provision for credit losses based on our judgment of a tenant's creditworthiness, ability to pay and probability of collection. In addition, we also consider the retail sector in which the tenant operates and our historical collection experience in cases of bankruptcy, if applicable. Presented below is the activity in the allowance for credit losses and includes the activities related to discontinued operations during the following years:

	For the year Ended December 31,		
	2005	2004	2003
Balance at Beginning of Year	\$36,917	\$31,305	\$20,120
Consolidation of previously unconsolidated entities	122	—	1,700
Provision for Credit Losses	7,284	18,867	14,675
Accounts Written Off	(9,084)	(13,255)	(5,190)
Balance at End of Year	<u>\$35,239</u>	<u>\$36,917</u>	<u>\$31,305</u>

Income Taxes

As a partnership, the allocated share of our income or loss for each year is included in the income tax returns of the partners; accordingly, no accounting for income taxes is required in the accompanying consolidated financial statements. State income, franchise or other taxes were not significant in any of the periods presented.

Simon Property and certain of our subsidiaries are taxed as REITs under Sections 856 through 860 of the Code and applicable Treasury regulations relating to REIT qualification. In order to maintain this REIT status, the regulations require Simon Property to distribute at least 90% of its taxable income to its stockholders and meet certain other asset and income tests as well as other requirements. We intend to continue to make distributions to Simon Property in order to allow it to adhere to these requirements and maintain its REIT status. As REITs, the subsidiary REIT entities will generally not be liable for federal corporate income taxes as long as they continue to distribute in excess of 100% of their taxable income. Thus, we made no provision for federal income taxes for these entities in the accompanying consolidated financial statements. If Simon Property or any of our REIT subsidiaries fail to qualify as a REIT, it will be subject to tax at regular corporate rates for the years in which it failed to qualify. If we lose our REIT status we could not elect to be taxed as a REIT for four years unless our failure to qualify was due to reasonable cause and certain other conditions were satisfied.

On October 22, 2004, President Bush signed the American Jobs Creation Act which included several provisions of the REIT Improvement Act, which builds in some flexibility to the REIT rules. This Act provides for monetary penalties in lieu of REIT disqualification. This better matches the severity of the penalty to the REIT's error and therefore reduces the possibility of disqualification.

Simon Property has elected taxable REIT subsidiary ("TRS") status for some of our subsidiaries. This enables us to provide services that would otherwise be considered impermissible for REITs and participate in activities that don't qualify as "rents from real property". For these entities, deferred tax assets and liabilities are established for temporary differences between the financial reporting basis and the tax basis of assets and liabilities at the enacted tax rates expected to be in effect when the temporary differences reverse. A valuation allowance for deferred tax assets is provided if we believe all or some portion of the deferred tax asset may not be realized. An increase or decrease in the valuation allowance that results from the change in circumstances that causes a change in our judgment about the realizability of the related deferred tax asset is included in income.

3. Summary of Significant Accounting Policies (Continued)

As of December 31, 2005 and 2004, we had a net deferred tax asset of \$7.1 million and \$11.3 million, respectively, related to our TRS subsidiaries. The net deferred tax asset is included in deferred costs and other assets in the accompanying consolidated balance sheets and consists primarily of operating losses and other carryforwards for Federal income tax purposes as well as the timing of the deductibility of losses from insurance subsidiaries.

Reclassifications

We made certain reclassifications of prior period amounts in the financial statements to conform to the 2005 presentation. These reclassifications have no impact on net income previously reported. Also, the statements of operations and comprehensive income for the periods ended December 31, 2003 and 2004 have been reclassified to reflect significant property dispositions during 2003, 2004, and 2005.

4. Real Estate Acquisitions, Disposals, and Impairment

We acquire properties to generate both current income and long-term appreciation in value. We acquire individual properties or portfolios of other retail real estate companies that meet our investment criteria. We sell properties which no longer meet our strategic criteria. Our acquisition and disposal activity for the periods presented are highlighted as follows:

2005 Acquisitions

On November 18, 2005, we purchased a 37.99% interest in Springfield Mall in Springfield, Pennsylvania, for approximately \$39.3 million, including the issuance of our share of debt of \$29.1 million. On November 21, 2005, we purchased a 50% interest in Coddington Mall in Santa Rosa, California, for approximately \$37.1 million, including the assumption of our share of debt of \$10.5 million. Both of these Properties are being accounted for on the equity method of accounting.

2004 Acquisitions

On February 5, 2004, we purchased a 95% interest in Gateway Shopping Center in Austin, Texas, for approximately \$107.0 million. We initially funded this transaction with borrowings on the Credit Facility and with the issuance of 120,671 units of the Operating Partnership valued at approximately \$6.0 million.

On April 1, 2004, we increased our ownership interest in The Mall of Georgia Crossing from 50% to 100% for approximately \$26.3 million, including the assumption of \$16.5 million of debt. As a result of this transaction, this Property is now reported as a consolidated entity.

On April 27, 2004, we increased our ownership in Bangor Mall in Bangor, Maine from 32.6% to 67.6% and increased our ownership in Montgomery Mall in Montgomery, Pennsylvania from 23.1% to 54.4%. We acquired these additional ownership interests from our partner in the properties for approximately \$67.0 million and the assumption of \$16.8 million of debt. We funded this transaction with a mortgage and borrowings on the Credit Facility. Bangor Mall and Montgomery Mall were previously accounted for under the equity method. These Properties are now consolidated as a result of this acquisition.

On May 4, 2004, we purchased a 100% interest in Plaza Carolina in San Juan, Puerto Rico for approximately \$309.0 million. We funded this transaction with a mortgage and borrowings on the Credit Facility.

On November 19, 2004, we increased our ownership interest in Lehigh Valley, located in Whitehall, Pennsylvania, from 24.88% to 37.61% for approximately \$42.3 million, including the assumption of our \$25.9 million share of debt.

4. Real Estate Acquisitions, Disposals, and Impairment (Continued)

On December 15, 2004, we increased our ownership in Woodland Hills in Tulsa, Oklahoma from 47.2% to 94.5%. We acquired this additional ownership interest from our partner in the property for approximately \$119.5 million, including the assumption of \$39.7 million of debt. Woodland Hills was previously accounted for under the equity method. This Property is now consolidated as a result of this acquisition.

Chelsea Acquisition

On October 14, 2004, Simon Property acquired all of the outstanding common stock of Chelsea Property Group, Inc. ("Chelsea") and the limited partnership units of its operating partnership subsidiary in a transaction valued at approximately \$5.2 billion, including the assumption of \$1.5 billion of debt (the "Chelsea Acquisition"). Chelsea had interests in 37 Premium Outlet centers and 24 other shopping centers containing 16.6 million square feet of gross leasable area in 31 states, Japan, and Mexico. We and Simon Property funded the cash portion of this acquisition with a \$1.8 billion unsecured term loan facility discussed in Note 8. Chelsea common stockholders received consideration of \$36.00 per share for each share of Chelsea's common stock in cash, a fractional share of 0.2936 of Simon Property common stock, and a fractional share of 0.3000 of Simon Property Series I 6% Convertible Perpetual Preferred Stock (Series I Preferred Stock). In total, Simon Property issued to Chelsea common stockholders at closing:

- 12,978,795 shares of common stock, and
- 13,261,712 shares of Series I Preferred Stock (liquidation value of \$50 per share).

In accordance with our partnership agreement, we issued to Simon Property an equivalent number of our units based on the shares of common stock issued and an equivalent number of our preferred units, with terms substantially the same as the related Series I Preferred Stock that Simon Property issued to Chelsea common stockholders. The Series I 6% preferred units and the corresponding Series I Preferred Stock are further described in the footnotes to the consolidated financial statements.

Further, each share of Chelsea Series A Preferred Stock was converted into the right to receive one share of Simon Property Series J 8 $\frac{3}{8}$ % Cumulative Redeemable Preferred Stock (Series J Preferred Stock), which has terms substantially the same as the Chelsea Series A Preferred Stock. The fair value of the Chelsea Series A Preferred Stock at the acquisition date was \$39.8 million, which resulted in the issuance of 796,948 share of Series J Preferred Stock. As a result, we issued to Simon Property an equivalent number of Series J 8 $\frac{3}{8}$ % Cumulative Redeemable Preferred Units with terms substantially the same as the related Series J Preferred Stock.

As part of the Chelsea Acquisition, we issued to the limited partner of CPG Partners, L.P., the operating partnership subsidiary of Chelsea:

- 4,652,232 units; and
- 4,753,794 Series I 6% Convertible Perpetual Preferred Units (liquidation value of \$50 per unit).

As a result CPG Partners, L.P. and Chelsea are now our subsidiaries.

During 2005, we finalized the purchase price allocation for the Chelsea Acquisition as required by FAS 141, as described in our purchase accounting allocation policy in Note 3. Our valuation of the Chelsea assets was developed in consultation with independent valuation specialists. The final purchase price allocation reflects reallocations between tangible assets and finite life intangible assets. However, these adjustments did not have a significant impact on our consolidated results of operations.

2003 Acquisitions

On March 14, 2003, we purchased the remaining interest in The Forum Shops at Caesars in Las Vegas, NV from the minority limited partner who initiated the buy/sell provision of the partnership agreement. We purchased this interest for \$174.0 million in cash and assumed the minority limited partner's \$74.2 million share of debt, and other partnership liabilities. We funded this purchase with borrowings from our Credit Facility. We recorded minority interest expense relating to the minority limited partner's share of the results of operations of The Forum Shops at Caesars through March 14, 2003.

On August 20, 2003, we purchased a 100% leasehold stake in Stanford Shopping Center in Palo Alto, California for \$333.0 million from Stanford University. Stanford University holds, as lessor, a long-term ground lease underlying the asset. We funded this purchase with a mortgage, with borrowings from our Credit Facility, and with available working capital.

4. Real Estate Acquisitions, Disposals, and Impairment (Continued)

In the fourth quarter 2003, through a series of transactions we increased our ownership interest in Kravco Investments L.P. (“Kravco”), a Philadelphia, PA based owner of regional malls, from approximately 18% to approximately 80% (which was subsequently reduced to 76% in the fourth quarter of 2004) and in its affiliated management company from approximately 15% to 50%. The portfolio consists of six regional malls, five of which are in the Philadelphia metropolitan area, and four community/lifestyle centers. We acquired our interest in Kravco from certain private investor real estate companies. We acquired our initial interest jointly with these real estate companies in connection with the Rodamco acquisition in 2002. As a result of this acquisition, we consolidated four new partnerships and account for the other six partnerships as joint ventures. The total consideration paid in these transactions was approximately \$293.4 million and consisted of:

- cash of \$82.0 million,
- issuance of \$107.4 million of perpetual preferred units, and
- the assumption of our share of mortgage debt and other payables of \$104.0 million.

On December 22, 2003, we jointly formed with The Rinascente Group the joint venture Gallerie Commerciali Italia S.p.A (“GCI”), which owns a geographically diverse portfolio in Italy of 40 existing shopping centers as of December 31, 2004 (38 as of December 31, 2003). The Rinascente Group contributed these 38 existing shopping centers as well as development opportunities to GCI and then sold 49% of GCI to one of our affiliates. The initial gross value of GCI was approximately €860 million, or approximately \$1.1 billion, and our initial equity investment was approximately €187 million, or \$232 million. We account for our interest in GCI under the equity method of accounting.

2005 Disposals

During the year ended December 31, 2005, we sold or disposed of sixteen non-core properties, consisting of four regional malls, one community/lifestyle center, nine other outlet centers and two office buildings. Our significant dispositions are summarized as follows (dollars in millions):

<u>Properties</u>	<u>Previous Ownership %</u>	<u>Date of Disposal</u>	<u>Sales Price</u>	<u>Gain/(Loss)</u>
Riverway and O’Hare International Center	100%	June 1, 2005	\$257.3	\$125.1
Grove at Lakeland Square	100%	July 1, 2005	10.4	(0.1)
Cheltenham Square	100%	November 17, 2005	71.5	19.7
Southgate Mall	100%	November 28, 2005	8.5	1.1
Eastland Mall (Tulsa, OK)	100%	December 16, 2005	1.5	(1.1)
Biltmore Square	100%	December 28, 2005	26.0	2.2
			<u>\$375.2</u>	<u>\$146.9</u>

The disposition of Biltmore Square was accomplished through a transfer of the deed to the property to the lender in settlement of the remaining balance of the non-recourse debt on the property. Additionally, nine other insignificant non-core properties were sold which resulted in no gain or loss.

We disposed of two joint venture properties during 2005. On January 11, 2005, Metrocenter was sold for \$62.6 million and we recognized our share of the gain of \$11.8 million. On December 22, 2005, our Canadian property, Forum Entertainment Centre, was sold and we recognized our share of the loss of \$13.7 million.

Certain of the net proceeds from these sales, net of repayment of outstanding debt, are held in escrow to complete IRS Section 1031 exchanges while the remainder was used for general working capital purposes.

Heritage Park Mall	100%	December 29, 2004	4.1	(0.2)
			<u>\$ 35.9</u>	<u>\$ (0.4)</u>

We disposed of three joint venture properties during 2004. On April 7, 2004, we sold a joint venture interest in a hotel for \$17.0 million, resulting in a gain of \$12.6 million, \$8.3 million net of tax. On April 8, 2004 we sold our joint venture interest in Yards Plaza resulting in no gain or loss on this disposition. On August 6, 2004, we completed the court ordered sale of our joint venture interest in Mall of America (see Note 11).

2003 Disposals

During the year ended December 31, 2003, we sold 13 non-core properties, consisting of seven regional malls, five community centers and one mixed-use property. The properties and their dates of sale consisted of:

<u>Properties</u>	<u>Previous Ownership %</u>	<u>Date of Disposal</u>	<u>Sales Price</u>	<u>Gain/(Loss)</u>
Richmond Square	100%	January 9, 2003	\$ 18.0	\$ (3.3)

Impairment. In 2004, we recorded an \$18.0 million impairment charge related to one Property. We evaluate our Properties for impairment using a combination of estimations of the fair value based upon a multiple of the net cash flow of the Properties and discounted cash flows from the individual Properties' operations as well as contract prices, if applicable and available.

5. Per Unit Data

We determine basic earnings per unit based on the weighted average number of units outstanding during the period. We determine diluted earnings per unit based on the weighted average number of units outstanding combined with the incremental weighted average units that would have been outstanding assuming all dilutive potential common units were converted into units at the earliest date possible. The following table sets forth the computation of our basic and diluted earnings per unit.

	For the Year ended December 31,		
	2005	2004	2003
Income from continuing operations, after preferred unit requirement	\$ 355,394	\$ 390,792	\$ 366,781
Discontinued operations	155,187	(10,081)	45,751
Net Income available to Unitholders — Basic & Diluted	\$ 510,581	\$ 380,711	\$ 412,532
Weighted Average Units Outstanding — Basic	279,825,351	265,405,033	248,926,276
Effect of stock options of Simon Property	871,010	867,368	823,532
Weighted Average Units Outstanding — Diluted	280,696,361	266,272,401	249,749,808

For the year ending December 31, 2005, potentially dilutive securities include the stock options of Simon Property and certain preferred units. The only potentially dilutive security that had a dilutive effect for the years ended December 31, 2005, 2004, and 2003 were stock options of Simon Property. Units may be exchanged for shares of Simon Property common stock, on a one-for-one basis, in certain circumstances. We accrue distributions when they are declared.

7. Investments in Unconsolidated Entities

Joint ventures are common in the real estate industry. We use joint ventures to finance properties, develop new properties, and diversify our risk in a particular property or portfolio. We held joint venture ownership interests in 69 Properties as of December 31, 2005 and 67 as of December 31, 2004. We also held interests in two joint ventures which owned 51 European shopping centers as of December 31, 2005 and 2004. We also held an interest in five joint venture properties in Japan and one joint venture property in Mexico. We account for these Properties using the equity method of accounting.

During 2005, we and our joint venture partner completed the construction of, obtained permanent financing for, and opened St. Johns Town Center (St. Johns). Prior to the completion of construction and opening of the center,

7. Investments in Unconsolidated Entities (Continued)

we were responsible for 85% of the development costs, and guaranteed this same percentage of the outstanding construction debt. As a result, we consolidated St. Johns during its construction phase. Upon obtaining permanent financing, the guarantee was released, and our partner's and our ownership percentages were each adjusted to 50%. We received a distribution from the partnership of \$15.7 million in repayment of our capital contributions to equalize our ownership interests, and this Property is now accounted for using the equity method of accounting.

On June 1, 2005, we refinanced Westchester Mall, a joint venture Property, with a \$500.0 million, 4.86% fixed-rate mortgage that matures on June 1, 2010. The balances of the two previous mortgages, which were repaid, were \$142.0 million and \$50.1 million and bore interest at fixed rates of 8.74% and 7.20%, respectively. Both were scheduled to mature on September 1, 2005. We received our share of the excess refinancing proceeds of approximately \$120 million on the closing of the new mortgage loan.

On November 29, 2005, we refinanced Houston Galleria, a joint venture Property, with an \$821.0 million, 5.436% fixed-rate mortgage that matures on December 1, 2015. The balances of the two previous mortgages, which were repaid, were \$213.2 million and \$84.7 million and bore interest at a fixed rate of 7.93% and at LIBOR plus 150 basis points, respectively. They were scheduled to mature on December 1, 2005 and December 31, 2006, respectively. We received our share of the excess refinancing proceeds of approximately \$165.0 million on the closing of the new mortgage loan.

On December 28, 2005, we invested \$50 million of equity for a 40% interest in a joint venture with Toll Brothers, Inc. (Toll Brothers) and Meritage Homes Corp. (Meritage Homes) to purchase a 5,485-acre land parcel in northwest Phoenix from DaimlerChrysler Corporation for \$312 million. Toll Brothers and Meritage Homes each plan to build a significant number of homes on the site. We have the option to purchase a substantial portion of the commercial property for retail uses. Other parcels may also be sold to third parties. Initial plans call for a mixed-use master planned community, which will include approximately 4,840 acres of single-family homes and attached homes. Approximately 645 acres of commercial and retail development will include schools, community amenities and open space. Initial home sales are tentatively scheduled to begin in 2009. The joint venture, of which Toll Brothers is the managing member, expects to develop a master planned community of approximately 12,000 to 15,000 residential units.

Substantially all of our joint venture Properties are subject to rights of first refusal, buy-sell provisions, or other sale rights for partners which are customary in real estate joint venture agreements and the industry. Our partners in these joint ventures may initiate these provisions at any time (subject to any applicable lock up or similar restrictions), which will result in either the sale of our interest or the use of available cash or borrowings to acquire the joint venture interest.

Summary financial information of the joint ventures and a summary of our investment in and share of income from such joint ventures follow. We condensed into separate line items major captions of the statements of operations for joint venture interests sold or consolidated. Consolidation occurs when we acquire an additional interest in the joint venture or became the primary beneficiary and as a result, gain unilateral control of the Property. We reclassified these line items into "Discontinued Joint Venture Interests" and "Consolidated Joint Venture Interests" so that we

“Excess Investment” represents the unamortized difference of our investment over our share of the equity in the underlying net assets of the joint ventures acquired. We amortize excess investment over the life of the related Properties, typically no greater than 40 years, and the amortization is included in the reported amount of income from unconsolidated entities.

On January 11, 2005, Metrocenter, a joint venture regional mall property was sold. We recognized our share of the gain of \$11.8 million, net of the write-off of the related investment and received \$62.6 million representing our share of the proceeds from this disposition. On December 22, 2005, The Forum Entertainment Centre, our Canadian property, was sold. We recognized our share of the loss of \$13.7 million, net of the write-off of the related investment, from the disposition of this property. The result of these two dispositions is included in the loss on sales of interests in unconsolidated entities and other assets, net in the 2005 consolidated statements of operations and comprehensive income.

International Joint Venture Investments

The carrying amount of our total combined investment in two joint venture investments, European Retail Enterprises, B.V. (“ERE”) and GCI, is \$287.4 million as of December 31, 2005, net of the related cumulative translation adjustment. Our investments in ERE and GCI are accounted for using the equity method of accounting. The Operating Partnership has a 49% ownership in GCI and a current 34.7% ownership in ERE.

On October 20, 2005, Ivanhoe Cambridge, Inc. (“Ivanhoe”), an affiliate of Caisse de dépôt et placement du Québec, effectively acquired our former partner’s 39.5% ownership interest in ERE. On February 13, 2006, pursuant to the terms of our October 20, 2005 transaction with Ivanhoe, we sold a 10.5% interest in ERE to Ivanhoe for €45.2 million, or \$53.9 million. We then settled all remaining share purchase commitments from the founders of ERE, including the early settlement of some commitments by purchasing an additional 25.8% interest for €55.1 million, or \$65.5 million. The result of these transactions equalized our and Ivanhoe’s ownership in ERE to 50% each. We expect to record a gain on this transaction in the first quarter of 2006.

As of December 31, 2005, the net carrying amount of our 40% investment in the five Japanese Premium Outlet joint ventures net of the related cumulative translation adjustment was \$287.7 million.

General. At December 31, 2005, we have pledged 84 Properties as collateral to secure related mortgage notes including 8 pools of cross-defaulted and cross-collateralized mortgages encumbering a total of 42 Properties. Under these cross-default provisions, a default under any mortgage included in the cross-defaulted package may constitute a default under all such mortgages and may lead to acceleration of the indebtedness due on each Property within the collateral package. Of our 84 encumbered Properties, indebtedness of 22 of these encumbered Properties and our unsecured notes are subject to various financial performance covenants relating to leverage ratios, annual real property appraisal requirements, debt service coverage ratios, minimum net worth ratios, debt-to-market

capitalization, and/or minimum equity values. Our mortgages and other indebtedness may be prepaid but are generally subject to prepayment of a yield-maintenance premium or defeasance. As of December 31, 2005, we are in compliance with all our debt covenants.

Mortgages and Other Indebtedness. The balance of fixed and variable rate mortgage notes was \$4.6 billion as of December 31, 2005, including related premiums, and, of this amount \$4.3 billion is nonrecourse to us. The fixed-rate mortgages generally require monthly payments of principal and/or interest. The interest rates of variable-rate mortgages are typically based on LIBOR.

Some of the limited partner Unitholders guarantee a portion of our consolidated debt through foreclosure guarantees. In total, 48 limited partner Unitholders provide guarantees of foreclosure of \$344.1 million of our consolidated debt at 12 consolidated Properties. In each case, the loans were made by unrelated third party institutional lenders and the guarantees are for the benefit of each lender. In the event of foreclosure of the mortgaged property, the proceeds from the sale of the property are first applied against the amount of the guarantee and also reduce the amount payable under the guarantee. To the extent the sale proceeds from the disposal of the property do not cover the amount of the guarantee, then the unitholder is liable to pay the difference between the sale proceeds and the amount of the guarantee so that the entire amount guaranteed to the lender is satisfied. The debt is non-recourse to us and our affiliates.

Unsecured Debt

We have \$1.0 billion of unsecured notes issued by our subsidiaries that are structurally senior in right of payment to holders of other unsecured notes to the extent of the assets and related cash flows of certain Properties. These unsecured notes have a weighted average interest rate of 7.02% and weighted average maturities of 6.3 years.

During 2005, we refinanced our unsecured revolving credit facility (the "Credit Facility") twice. On January 11, 2005, we increased the facility from \$1.25 billion to \$2.0 billion. On December 15, 2005, we refinanced the Credit Facility increasing it to \$3.0 billion. The Credit Facility now has a maturity date of January 11, 2010, and can be extended one year at our option. The Credit Facility can also be increased to \$3.5 billion within the first two years at our option. The Credit Facility bears interest at LIBOR plus 42.5 basis points with an additional 15 basis point facility fee on the entire facility and provides for variable grid pricing based upon our corporate credit rating. Prior to December 15, 2005, the rate on the Credit Facility was LIBOR plus 55 basis points. In addition, the Credit Facility has a \$750 million U.S. dollar equivalent multi-currency tranche for Euro, Yen or Sterling borrowings. The Credit Facility contains financial covenants relating to capitalization value and leverage criteria, minimum EBITDA and unencumbered EBITDA coverage ratio requirements and a minimum equity value.

On June 7, 2005, we issued two tranches of senior unsecured notes to institutional investors pursuant to Rule 144A totaling \$1.0 billion at a weighted average fixed interest rate of 4.90%. The first tranche is \$400.0 million at a fixed interest rate of 4.60% due June 15, 2010, and the second tranche is \$600.0 million at a fixed interest rate of 5.10% due June 15, 2015. We received net proceeds of \$993.0 million. We used \$358.0 million of the net proceeds to reduce borrowings on our Credit Facility, \$600.0 million to reduce a \$1.8 billion term loan we used to finance part of our acquisition of Chelsea (the "Acquisition Facility"), and the remaining portion was used for general working capital purposes. All of the Rule 144A notes were exchanged in July of 2005 in a transaction registered under the Securities Act of 1933 for notes having the same economic terms and conditions.

On November 8, 2005, we issued two tranches of senior unsecured notes to institutional investors pursuant to Rule 144A totaling \$1.1 billion at a weighted average fixed interest rate of 5.58%. The first tranche is \$500.0 million at a fixed interest rate of 5.375% due June 1, 2011, and the second tranche is \$600.0 million at a fixed interest rate of 5.75% due December 1, 2015. We received net proceeds of \$1.09 billion. We used \$475.0 million of the net proceeds to reduce borrowings on our Credit Facility, \$600.0 million to reduce the Acquisition Facility and the remaining portion was used for general working capital purposes. All of the Rule 144A notes are expected to be exchanged in a

Credit Facility. Significant activity on the Credit Facility during the twelve-month period ended December 31, 2005 was as follows:

Draw Date	Draw Amount	Use of Credit Facility Proceeds
January 20, 2005	\$200,000	• To repay a \$250 million unsecured term loan, which had a rate of LIBOR plus 65 basis points.
March 31, 2005	17,268	• Repayment of Chelsea's Yen unsecured loan facility, which had a rate of TIBOR plus 125 basis points.
May 16, 2005	110,000	• Repayment of \$110 million unsecured notes, which had a fixed rate of 7.625%.
June 15, 2005	300,000	• Repayment of \$300 million of unsecured notes, which had a fixed rate of 6.75%.
June 24, 2005	100,000	• Repayment of \$100 million Medium Term Notes, which had a fixed rate of 7.125%.
Various dates	155,000	• Repayment of \$50 million in unsecured notes, which had fixed rates ranging from 6.875% to 8.375%.
August 30, 2005	63,000	• To repay two secured mortgages for one regional mall, which had fixed rates of 7.13% and 7.77%, respectively.
December 15, 2005	242,475	• To repay a 200 million Euro-denominated unsecured term loan, which had a rate of EURIBOR plus 60 basis points.

Other amounts drawn on the Credit Facility were primarily for general working capital purposes. The total aggregate amount of our repayments on the Credit Facility during the twelve month period ended December 31, 2005 was \$1.5 billion. During 2005, the maximum amount outstanding under the Credit Facility was \$1.2 billion and the weighted average amount outstanding was \$813.5 million. The Credit Facility's weighted average interest for the year ended December 31, 2005 was 3.75%.

Acquisition Facility. We borrowed the \$1.8 billion Acquisition Facility in 2004 to finance the cash portion of our acquisition of Chelsea. Acquisition Facility matures on October 12, 2006 and has one remaining principal payment, due at maturity. The Acquisition Facility bears interest at LIBOR plus 55 basis points with an additional 15 basis point facility fee on all loans outstanding and provides for variable grid pricing based upon our credit rating. There is also a 7.5 basis point lenders' fee from the 13th to the 18th month, increasing to 10 basis points from the 18th month to maturity.

Secured Debt

Total secured indebtedness was \$4.6 billion and \$5.1 billion at December 31, 2005 and December 31, 2004, respectively. During the twelve-month period ended December 31, 2005, we repaid \$116.7 million in mortgage loans, unencumbering five separate Properties. In addition on June 1, 2005, we repaid a \$110 million mortgage related to our disposition of Riverway, which bore interest at LIBOR plus 115 basis points, and had a maturity date of October 1, 2006. On November 17, 2005, we sold Cheltenham Square, which held a \$54.9 million mortgage, which bore interest at a fixed rate of 5.89%, and had a maturity date of July 1, 2014. Finally, on December 28, 2005, the deed for Biltmore Square was transferred to the lender in settlement of a \$26 million non-recourse mortgage on the property. The mortgage bore interest at a fixed rate of 7.95%, and had a maturity date of December 11, 2010.

Derivative Financial Instruments

Our exposure to market risk due to changes in interest rates primarily relates to our long-term debt obligations. We manage exposure to interest rate market risk through our risk management strategy by a combination of interest rate protection agreements to effectively fix or cap a portion of variable rate debt, or in the case of a fair value hedge, effectively convert fixed rate debt to variable rate debt. We are also exposed to foreign currency risk on financings of certain foreign operations. Our intent is to offset gains and losses that occur on the underlying exposures, with gains and losses on the derivative contracts hedging these exposures. We do not enter into either interest rate protection or foreign currency rate protection agreements for speculative purposes.

We may enter into treasury lock agreements as part of an anticipated debt issuance. If the anticipated transaction does not occur, the cost is charged to net income. Upon completion of the debt issuance, the cost of these instruments is recorded as part of accumulated other comprehensive income and is amortized to interest expense over the life of the debt agreement.

As of December 31, 2005, we have reflected the fair value of outstanding consolidated derivatives in other liabilities for \$11.8 million. In addition, we recorded the benefits from our treasury lock and interest rate hedge agreements in accumulated comprehensive income and the unamortized balance of these agreements is \$7.0 million as of December 31, 2005. The net benefits from terminated swap agreements are also recorded in accumulated comprehensive income and the unamortized balance is \$5.7 million as of December 31, 2005. As of December 31, 2005, our outstanding LIBOR based derivative contracts consist of:

- interest rate cap protection agreements with a notional amount of \$207.4 million that mature in May 2006.
- interest rate protection agreements effectively converting variable rate debt to fixed rate debt on \$59.1 million of consolidated variable rate debt that matures in January 2006.
- variable rate swap agreements with a notional amount of \$370.0 million that mature in September 2008 and January 2009 and have a weighted average pay rate of 4.64% and a weighted average receive rate of 3.72%.

8. Indebtedness and Derivative Financial Instruments (Continued)

Within the next twelve months, we expect to reclassify to earnings approximately \$3.3 million of income of the current balance held in accumulated other comprehensive income. The amount of ineffectiveness relating to fair value and cash flow hedges recognized in income during the periods presented was not material.

Fair Value of Financial Instruments

The carrying value of our variable-rate mortgages and other loans approximates their fair values. We estimated the fair values of combined fixed-rate mortgages using cash flows discounted at current borrowing rates and other indebtedness using cash flows discounted at current market rates. The fair values of financial instruments and our related discount rate assumptions used in the estimation of fair value for our consolidated fixed-rate mortgages and other indebtedness as of December 31 is summarized as follows:

	As of December 31,	
	2005	2004
Fair value of fixed-rate mortgages and other indebtedness	\$12,078,531	\$11,357,011
Average discount rates assumed in calculation of fair value	6.11%	5.20%

9. Rentals under Operating Leases

Future minimum rentals to be received under noncancelable tenant operating leases for each of the next five years and thereafter, excluding tenant reimbursements of operating expenses and percentage rent based on tenant sales volume as of December 31, 2005 are as follows:

2006	\$1,537,710
2007	1,415,158
2008	1,253,067
2009	1,101,068
2010	928,280
Thereafter	2,728,947
	<u>\$8,964,230</u>

Approximately 0.8% of future minimum rents to be received are attributable to leases with an affiliate of a limited partner in the Operating Partnership.

10. Partners' Equity

Mezzanine Equity. Preferred units whose redemption is outside our control have been classified as temporary equity in the accompanying consolidated balance sheets. Such units are described in the following paragraph.

7.75%/8.00% Cumulative Redeemable Preferred Units. During 2003, in connection with the purchase of additional interest in Kravco, we issued 7.75%/8.00% Cumulative Redeemable Preferred Units (the "7.75% Preferred Units") that accrue cumulative distributions at a rate of 7.75% of the liquidation value of \$100 per unit for the period beginning December 5, 2003 and ending December 31, 2004, 8.00% of the liquidation value for the period beginning January 1, 2005 and ending December 31, 2009, 10.00% of the liquidation value for the period beginning January 1, 2010 and ending December 31, 2010, and 12% of the liquidation value thereafter. These distributions are payable quarterly in arrears. A holder may require the Operating Partnership to repurchase the 7.75% Preferred Units on or after January 1, 2009 or any time the aggregate liquidation value of the outstanding units exceeds 10% of the book value of partners' equity of the Operating Partnership. The Operating Partnership may redeem the 7.75% Preferred Units on or after January 1, 2011 or earlier upon the occurrence of certain tax triggering events. Our intent is to redeem these units after January 1, 2009 after the occurrence of a tax-triggering event, which we expect to be in 2009. The redemption price is the liquidation value plus accrued and unpaid distributions, payable in cash or interest in one or more properties mutually agreed upon.

Unit Issuances and Repurchases

In 2005, sixteen limited partners exchanged 2,205,188 units for a like number of shares of common stock of Simon Property, increasing Simon Property's interest in us, and two limited partners converted 100,817 preferred units for 76,293 common units.

We issued 206,464 units to Simon Property related to employee stock options exercised during 2005. We used the net proceeds from the option exercises of approximately \$6.2 million for general working capital purposes.

During the first quarter of 2005, Simon Property repurchased 2,000,000 shares of common stock in the open market at an average price of \$61.88 under a \$250 million share repurchase program approved by the Simon Property Board of Directors ("Board"), which expired on May 6, 2005. On May 11, 2005, the Board authorized a new common stock repurchase program under which Simon Property may purchase up to 6,000,000 shares of its common stock subject to a maximum aggregate purchase price of \$250 million over the next twelve months as market conditions warrant. Simon Property may repurchase the shares in the open market or in privately negotiated transactions. During the third quarter of 2005, Simon Property repurchased 815,400 shares at an average price of \$71.93 as part of this program. The program has 5,184,600 shares, limited to \$191.4 million, remaining for Simon Property's potential repurchase. As a result of these share repurchases, we have repurchased a like number of our units from Simon Property.

Series B Convertible Preferred Units. During 2003, all of the outstanding units of our 6.5% Series B Convertible Preferred Units were either converted into common units or were redeemed at a redemption price of \$106.34 per unit. We issued an aggregate of 1,628,400 common units to the holders who exercised their conversion rights. The remaining 18,340 Series B preferred units were redeemed for cash.

Series C 7.00% Cumulative Convertible Preferred Units. Each Series C 7.00% cumulative convertible preferred unit has a liquidation value of \$28.00 and accrues cumulative distributions at a rate of \$1.96 annually, which is payable quarterly in arrears. The Series C preferred units are convertible at the holders' option on or after August 27, 2004, into either a like number of shares of 7.00% Cumulative Convertible Preferred Stock of Simon Property with terms substantially identical to the Series C preferred units or into units at a ratio of 0.75676 to one provided that the closing stock price of Simon Property common stock exceeds \$37.00 for any three consecutive trading days prior to the conversion date. The Operating Partnership may redeem the Series C preferred units at their liquidation value plus accrued and unpaid distributions on or after August 27, 2009, payable in units. In the event of the death of a holder of Series C preferred units, or the occurrence of certain tax triggering events, the Operating Partnership may be required to redeem the Series C preferred units at their liquidation value payable at the option of the Operating Partnership in either cash (the payment of which may be made in four equal annual installments) or units.

Series D 8.00% Cumulative Redeemable Preferred Units. Each Series D 8.00% cumulative redeemable preferred unit has a liquidation value of \$30.00 and accrues cumulative distributions at a rate of \$2.40 annually, which is payable quarterly in arrears. The Series D preferred units are each paired with one Series C preferred unit or the units into which the Series C preferred units may be converted. The Operating Partnership may redeem the Series D preferred units at their liquidation value plus accrued and unpaid distributions on or after August 27, 2009, payable in either new preferred units of the Operating Partnership having the same terms as the Series D preferred units, except that the distribution coupon rate would be reset to a market rate, or in units. The Series D preferred units are convertible at the holder's option on or after August 27, 2004, into 8.00% Cumulative Redeemable Preferred Stock of Simon Property with terms substantially identical to the Series D preferred units. In the event of the death of a holder or the occurrence of certain tax triggering events, the Operating Partnership may be required to redeem the Series D preferred units owned by such holder at their liquidation value payable at the option of the Operating Partnership in either cash (the payment of which may be made in four equal annual installments) or units.

Series E 8.00% Cumulative Redeemable Preferred Units. Each Series E 8.00% cumulative redeemable preferred unit has a liquidation value of \$25.00 per unit and accrues cumulative distributions at the rate of \$2.00 annually. The corresponding series of Simon Property preferred stock was redeemable beginning August 27, 2004 at \$25.00 per share plus accrued dividends. The carrying value was being accreted to the liquidation value over the non-redeemable period. If the corresponding series of preferred stock is redeemed, the Series E preferred units would also be redeemed. The Series E Cumulative Redeemable Preferred Units were redeemed on November 10, 2004 at the liquidation value of \$25 per unit.

Series F 8.75% Cumulative Redeemable Preferred Units. Each Series F 8.75% cumulative redeemable preferred unit has a liquidation value of \$25.00 and accrues distributions at the rate of \$2.1875 annually. The corresponding series of Simon Property preferred stock may be redeemed any time on or after September 29, 2006, at \$25.00 per share, plus accrued dividends. The liquidation value (other than the portion thereof consisting of accrued and unpaid dividends) is payable solely out of the sale proceeds of other capital shares of Simon Property, which may include other series of preferred shares. If the corresponding series of preferred stock is redeemed, the Series F preferred units would also be redeemed.

Series G 7.89% Cumulative Step-Up Premium Rate Preferred Units. Each Series G 7.89% cumulative step-up premium rate preferred unit has a liquidation value of \$50.00 and currently accrues distributions at the rate of \$3.945 annually. Beginning October 1, 2012, the annual distribution rate increases to \$4.945. Management intends to redeem the corresponding series of Simon Property preferred stock prior to October 1, 2012. Beginning September 30, 2007,

Simon Property may redeem the corresponding preferred stock in whole or in part, using the proceeds of other capital stock of Simon Property, at the liquidation value of \$50.00 per share, plus accrued dividends. If the corresponding series of preferred stock is redeemed, the Series G preferred units would also be redeemed.

Series H Variable Rate Preferred Units. To fund the redemption of the Series B Preferred Units, we issued 3,328,540 units of Series H Variable Rate Preferred Units to Simon Property for \$83.2 million. The Series H preferred units were redeemable at any time prior to March 15, 2004 or after March 15, 2009 at specified prices. We repurchased 3,250,528 units of the Series H preferred units for \$81.3 million on December 17, 2003. On January 7, 2004 we repurchased the remaining 78,012 units for \$1.9 million.

Series I 6% Convertible Perpetual Preferred Units. On October 14, 2004, the Operating Partnership issued 18,015,506 6% Convertible Perpetual Preferred Units in the Chelsea Acquisition. Distributions are to be made quarterly beginning November 30, 2004 at an annual rate of 6% per unit. On or after October 14, 2009, the Operating Partnership shall have the option to redeem the 6% Convertible Perpetual Preferred Units, in whole or in part, for cash only at a liquidation preference of \$50.00 per unit plus accumulated and unpaid distributions. However, if the redemption date falls between the record date and distribution payment date the redemption price will be equal to only the liquidation preference per unit, and will not include any amount of distributions declared and payable on the corresponding distribution payment date. The redemption may occur only if, for 20 trading days within a period of 30 consecutive trading days ending on the trading day before notice of redemption is issued, the closing price per share of common stock exceeds 130% of the applicable conversion price. The 6% Convertible Perpetual Preferred Units are convertible into a number of fully paid and non-assessable Common Units upon the occurrence of a conversion triggering event at a conversion rate of 0.7853 of a common unit, as of December 31, 2005 (or a conversion triggering price of \$79.59 per share of Simon Property's common stock at December 31, 2005). A conversion triggering event includes the following: (a) if the 6% Convertible Perpetual Preferred Unit is called for redemption by the Operating Partnership; or, (b) if Simon Property is a party to a consolidation, merger, binding share exchange, or sale of all or substantially all of its assets; or, (c) if during any fiscal quarter after the fiscal quarter ending December 31, 2004, the closing sale price of Simon Property's common stock for at least 20 trading days in a period of 30 consecutive trading days ending on the last trading day of the preceding fiscal quarter exceeds 125% of the applicable conversion price. If the closing price condition is not met at the end of any fiscal quarter, then conversions will not be permitted in the following fiscal quarter. The holder has the option to exchange Series I Preferred Units for an equal number of shares of Series I Preferred Stock of Simon Property; however, the Operating Partnership may elect to pay cash in lieu of the shares of stock.

Series J 8 $\frac{3}{8}$ % Cumulative Redeemable Preferred Units. On October 14, 2004, we issued 796,948 units of Series J 8 $\frac{3}{8}$ % Cumulative Redeemable Preferred Units in replacement of an existing series of Chelsea preferred units in the Chelsea Acquisition. On or after October 15, 2027, the Series J Preferred Units, in whole or in part, may be redeemed at our option at a price, payable in cash, of \$50.00 per unit plus accumulated and unpaid distributions. The Series J Preferred Units are not convertible or exchangeable for any other property or securities of the Operating Partnership. The Series J Preferred Stock was issued at a premium of \$7,553 as of the date of the acquisition of Chelsea. For our preliminary purchase price allocation, premium related to this financing component as of December 31, 2004 was included with the other financing related premiums attributable to this business combination.

7.5% Cumulative Redeemable Preferred Units. The Operating Partnership issued 7.5% Cumulative Redeemable Preferred Units (the "7.5% Preferred Units") in connection with the purchase of additional interest in Kravco. The 7.5% Preferred Units accrue cumulative dividends at a rate of \$7.50 annually, which is payable quarterly in arrears. The Operating Partnership may redeem the 7.5% Preferred Units on or after November 10, 2013 unless there is the occurrence of certain tax triggering events such as death of the initial unitholder, or the transfer of any units to any person or entity other than the persons or entities entitled to the benefits of the original holder. The redemption price is the liquidation value of \$100 per unit plus accrued and unpaid distributions, payable either in cash or shares of

Simon Property common stock. In the event of the death of a holder of the 7.5% Preferred Units, the occurrence of certain tax triggering events applicable to the holder, or on or after November 10, 2006, the Preferred unitholder may require the Operating Partnership to redeem the 7.5% Preferred Units payable at the option of the Operating Partnership in either cash or shares of Simon Property common stock.

Notes Receivable from Former CPI Stockholders

Notes receivable of \$17,787 from former Corporate Property Investors, Inc. ("CPI") stockholders, which result from securities issued under CPI's executive compensation program and were assumed in our merger with CPI, are reflected as a deduction from capital in excess of par value in the consolidated statements of partners' equity in the accompanying financial statements. A total of \$138 of these notes bear interest at rates ranging from 6.00% to 7.50%. The remainder of the notes do not bear interest and become due at the time the underlying shares are sold.

Note Receivable from Simon Property

In 1999, Simon Property borrowed \$92.8 million from us at 7.8% interest with a maturity of December 2009. Simon Property used the proceeds to purchase a non-controlling 88% interest in Northshore Mall. Simon Property contributed its interest in the Property to us in exchange for 3,617,070 units. The note receivable from Simon Property was recorded as a reduction of partners' equity. The amount of interest earned during 2004 and 2003 was \$7,046 and \$7,173, respectively.

On January 1, 2005, Simon Property assigned the economic rights of Ocean County Mall, the only Property held directly by Simon Property, to the Operating Partnership in exchange for 1,602,821 units and the settlement of the note receivable. The Property is now consolidated with the Operating Partnership. The assignment was a final step to align the ownership interests in the properties acquired as a result of the merger with Corporate Properties Inc. in 1998 and the acquisition of the Northshore Mall in 1999.

The Simon Property Group 1998 Stock Incentive Plan

We, along with Simon Property, have a stock incentive plan (the "1998 Plan"), which provides for the grant of awards with respect to the equity of Simon Property during a ten-year period, in the form of options to purchase shares of Simon Property common stock ("Options"), stock appreciation rights ("SARs"), restricted stock grants and performance unit awards (collectively, "Awards"). Options may be granted which are qualified as "incentive stock options" within the meaning of Section 422 of the Code and Options which are not so qualified. As of December 31, 2005, Simon Property had reserved 11,300,000 shares for issuance under the 1998 Plan. Additionally, the partnership agreement requires Simon Property to sell shares to us, at fair value, sufficient to satisfy the exercising of stock options, and for Simon Property to purchase Units for cash in an amount equal to the fair market value of such shares.

Administration. The 1998 Plan is administered by Simon Property's Compensation Committee (the "Committee"). The Committee, at its sole discretion, determines which eligible individuals may participate and the type, extent and terms of the Awards to be granted to them. In addition, the Committee interprets the 1998 Plan and makes all other determinations deemed advisable for the administration of the 1998 Plan. Options granted to employees ("Employee Options") become exercisable over the period determined by the Committee. The exercise price of an Employee Option may not be less than the fair market value of the shares on the date of grant. Employee Options generally vest over a three-year period and expire ten years from the date of grant.

Automatic Awards For Eligible Directors. Prior to May 7, 2003, the 1998 Plan provided for automatic grants of Options to directors ("Director Options") of Simon Property who are not also our employees or employees of our affiliates ("Eligible Directors"). Each Eligible Director was automatically granted Director Options to purchase 5,000 shares upon the director's initial election to the Board, and upon each re-election, an additional 3,000 Director

Options multiplied by the number of calendar years that had elapsed since such person's last election to the Board. The exercise price of Director Options is equal to the fair market value of the shares on the date of grant. Director Options vest and become exercisable on the first anniversary of the date of grant or in the event of a "Change in Control" as defined in the 1998 Plan. The last year during which Eligible Directors received awards of Director Options was 2002.

Pursuant to an amendment to the 1998 Plan approved by the Simon Property stockholders effective May 7, 2003, Eligible Directors now receive annual grants of restricted stock in lieu of Director Options. Each Eligible Director receives on the first day of the first calendar month following his or her initial election as a director, a grant of 1,000 shares of restricted stock annually. Thereafter, as of the date of each annual meeting of Simon Property's stockholders, Eligible Directors who are re-elected as directors receive a grant of 1,000 shares of restricted stock. In addition, Eligible Directors who serve as chairpersons of the standing committees of the Board receive an additional annual grant in the amount of 500 shares of restricted stock (in the case of the Audit Committee) or 300 shares of restricted stock (in the case of all other standing committees).

Each award of restricted stock vests in four equal annual installments on January 1 of each year, beginning in the year following the year in which the award occurred. If a director otherwise ceases to serve as a director before vesting, the unvested portion of the award terminates. Any unvested portion of a restricted stock award vests if the director dies or becomes disabled while in office or has served a minimum of five annual terms as a director, but only if the Compensation Committee or full Board determines that such vesting is appropriate. The restricted stock also vests in the event of a "Change in Control".

Once vested, the delivery of any shares with respect to a restricted stock award (including reinvested dividends) is deferred under our Director Deferred Compensation Plan until the director retires, dies or becomes disabled or otherwise no longer serves as a director. The Eligible Directors may vote and are entitled to receive dividends on the shares underlying the restricted stock awards; however, any dividends on the shares underlying restricted stock awards must be reinvested in shares and held in the Director Deferred Compensation Plan until the shares underlying a restricted stock award are delivered to the former director.

In addition to automatic awards, Eligible Directors may be granted discretionary awards under the 1998 Plan.

Restricted Stock. The 1998 Plan also provides for shares of restricted common stock of Simon Property to be granted to certain employees at no cost to those employees, subject to growth targets and other factors established by the Compensation Committee related to the most recent year's performance (the "Restricted Stock Program"). Restricted Stock Program grants vests annually over a four-year period (25% each year) beginning on January 1 of the year following in which the restricted stock award is related. The cost of restricted stock grants, which is based upon the stock's fair market value on the grant date, is charged to partners' equity and subsequently amortized against our earnings over the vesting period. Through December 31, 2005 a total of 3,823,714 shares of restricted stock, net of forfeitures, have been awarded under the plan. As a result, we have issued a like number of units to Simon Property as called for in our partnership agreement. Information regarding restricted stock awards are summarized in the following table for each of the years presented:

	For the Year Ended December 31,

10. Partners' Equity (Continued)

We also maintain a tax-qualified retirement 401(k) savings plan and offer no other postretirement or post employment benefits to our employees.

Exchange Rights

Limited partners in the Operating Partnership have the right to exchange all or any portion of their Units for shares of common stock on a one-for-one basis or cash, as selected by the Board. The amount of cash to be paid if the exchange right is exercised and the cash option is selected will be based on the trading price of Simon Property's common stock at that time. At December 31, 2005, we had reserved 80,001,088 shares of common stock for possible issuance upon the exchange of Units, options, Class B and C common stock and certain convertible preferred stock.

Litigation

On November 15, 2004, the Attorneys General of Massachusetts, New Hampshire and Connecticut filed complaints in their respective state Superior Courts against us and our affiliate, SPGGC, Inc., alleging that the sale of co-branded, bank-issued gift cards sold in certain Properties violated gift certificate statutes and consumer protection laws in those states. Each of these suits seeks injunctive relief, unspecified civil penalties and disgorgement of any fees determined to be improperly charged to consumers.

In addition, we are a defendant in three other proceedings relating to the gift card program. Each of the three proceedings has been brought by a private plaintiff as a purported class action and alleges violation of state consumer protection laws, state abandoned property and contract laws or state statutes regarding gift certificates or gift cards and seeks a variety of remedies including unspecified damages and injunctive relief.

We believe that we have viable defenses under both state and federal laws to the above gift card actions. Although it is not possible to provide any assurance of the ultimate outcome of any of these pending actions, management does not believe that an adverse outcome would have a material adverse effect on our financial position, results of operations or cash flow.

Triple Five of Minnesota, Inc., a Minnesota corporation, v. Melvin Simon, et al. On or about November 9, 1999, Triple Five of Minnesota, Inc. commenced an action in the District Court for the state of Minnesota, Fourth Judicial District, against, among others, Mall of America, certain members of the Simon family and entities allegedly controlled by such individuals, and us. The action was later removed to federal court. On September 10, 2003, the court issued its decision in a Memorandum and Order (the "September Order"). In the September Order, the court found that certain entities and individuals breached their fiduciary duties to Triple Five. The court did not award Triple Five damages but instead awarded Triple Five equitable and other relief and imposed a constructive trust on that portion of the Mall of America owned by us. Specifically, as it relates to us, the court ordered that Triple Five was entitled to purchase from us the one-half partnership interest that we purchased in October 1999, provided Triple Five remits the sum of \$81.38 million within nine months of the September Order. On August 6, 2004, Triple Five closed on its purchase of our one-half partnership interest and the court further held that we must disgorge all "net profits" that we received as a result of our ownership interest in the Mall from October 1999 to the that date.

As a result of the September Order, we initially recorded a \$6.0 million charge for our share of the estimated loss in 2003. In the first quarter of 2004, as a result of a May 3, 2004 memorandum issued by the court appointed mediator, which has now been affirmed by the court, we recorded an additional \$13.5 million charge for our share of the loss that is included in "(Loss) gain on sales of interests in unconsolidated entities and other assets, net" in the accompanying consolidated statements of operations and comprehensive income. We ceased recording any contribution to net income from the results of operations of Mall of America as of September 1, 2003.

11. Commitments and Contingencies (Continued)

We appealed the September Order to the United States Court of Appeals for the Eighth Circuit. On April 21, 2005, the Court of Appeals issued its opinion, affirming in part and reversing in part the Order of the trial court. The Appellate Court opinion changes the equitable remedy contained in the September Order and requires that the one-half partnership interest Triple Five acquired from us pursuant to the September Order must instead be offered, for the same price, to Mall of America Associates, a general partnership in which Triple Five and an entity affiliated with the Simon family are ⁵⁰/₅₀ partners ("MOAA"). If MOAA refuses to purchase the interest, then Triple Five must transfer back to us one-half of the interest it acquired from us in August, 2004. Triple Five, as managing partner of MOAA, has elected to cause MOAA to acquire the one-half partnership interest. In addition, Triple Five asked the Trial Court to grant it additional relief, namely to cause the Simon family partner in MOAA to be disassociated from that partnership and to terminate the existing management contract for the Mall with our subsidiary. The trial court issued an order on December 23, 2005 ("December Order"), denying Triple Five's request for dissociation of the Simon family partner in MOAA, but granting Triple Five's request that they be permitted to terminate the existing management contract for the Mall with our subsidiary. We have appealed that portion of the December Order granting Triple Five the right to terminate the management contract. On January 18, 2006, Triple Five transferred to MOAA the partnership interest it acquired from us in August, 2004, for a purchase price of approximately \$23.1 million. The purchase price was financed with a new credit facility secured by distributions payable to MOAA's partner. In connection with the resolution of this matter, the Simon family transferred, under certain circumstances, the right to receive cash flow distributions and capital transaction proceeds attributable to one-half of the interest that MOAA acquired from Triple Five (or 25%), subject to the new credit facility, to the Operating Partnership. The Simon family did not transfer its partnership interest in MOAA to us, and the Simon family retains the right to make all decisions regarding that partnership interest. As a result of the transfer to us of the right to receive cash flow distributions and capital transaction proceeds, we will recognize a gain in the first quarter of 2006 to recognize this beneficial interest, including prior earnings of the partnership since August, 2004. We will also begin to record contributions to net income and FFO representing 25% of the results of operations at Mall of America as a result of this arrangement.

We are involved in various other legal proceedings that arise in the ordinary course of our business. We believe that such routine litigation, claims and administrative proceedings will not have a material adverse impact on our financial position or our results of operations. We record a liability when a loss is considered probable and the amount can be reasonably estimated.

Lease Commitments

As of December 31, 2005, a total of 34 of the consolidated Properties are subject to ground leases. The termination dates of these ground leases range from 2006 to 2090. These ground leases generally require us to make payments of a fixed annual rent, or a fixed annual rent plus a participating percentage over a base rate based upon the revenues or total sales of the property. Some of these leases also include escalation clauses and renewal options. We incurred ground lease expense included in other expense and discontinued operations as follows:

	For the year ended December 31,		
	2005	2004	2003
Ground lease expense	\$25,584	\$20,689	\$17,028

11. Commitments and Contingencies (Continued)

Future minimum lease payments due under such ground leases for each of the next five years ending December 31 and thereafter are as follows:

2006	\$ 16,612
2007	16,749
2008	16,995
2009	16,909
2010	16,694
Thereafter	<u>722,662</u>
	<u>\$806,621</u>

Insurance

We maintain commercial general liability, fire, flood, extended coverage and rental loss insurance on our Properties. Rosewood Indemnity, Ltd, a wholly-owned subsidiary of our management company, has agreed to indemnify our general liability carrier for a specific layer of losses. The carrier has, in turn, agreed to provide evidence of coverage for this layer of losses under the terms and conditions of the carrier's policy. A similar policy written through Rosewood Indemnity, Ltd. also provides initial coverage for property insurance and certain windstorm risks at the Properties located in Florida.

The events of September 11, 2001 affected our insurance programs. Although insurance rates remain high, since the President signed into law the Terrorism Risk Insurance Act (TRIA) in November of 2002, the price of terrorism insurance has steadily decreased, while the available capacity has been substantially increased. We have purchased terrorism insurance covering all Properties. The program provides limits up to \$1 billion per occurrence for Certified (Foreign) acts of terrorism and \$500 million per occurrence for Non-Certified (Domestic) acts of terrorism. The coverage is written on an "all risk" policy form that eliminates the policy aggregates associated with our previous terrorism policies. In December of 2005, the President signed into law the Terrorism Risk Insurance Extension Act (TRIEA) of 2005, thereby extending the federal terrorism insurance backstop through 2007. TRIEA narrows terms and conditions afforded by TRIA for 2006 and 2007 by: 1) excluding lines of coverage for commercial automobile, surety, burglary and theft, farm owners' multi-peril and professional liability; 2) raising the certifiable event trigger mechanism from \$5 million to \$50 million in 2006 and \$100 million in 2007; and, 3) increasing the deductibles and co-pays assigned to insurance companies.

Guarantees of Indebtedness

Joint venture debt is the liability of the joint venture and is typically secured by the joint venture Property, which is non-recourse to us. As of December 31, 2005, we have guaranteed or provided letters of credit and have other guarantee obligations of \$12.8 million and \$28.7 million, respectively, to support our total \$3.2 billion share of joint venture mortgage and other indebtedness in the event the joint venture partnership defaults under the terms of the underlying arrangement. Mortgages which are guaranteed by us are secured by the property of the joint venture partnership and could be sold in order to satisfy the outstanding obligation.

Concentration of Credit Risk

We are subject to risks incidental to the ownership and operation of commercial real estate. These risks include, among others, the risks normally associated with changes in the general economic climate, trends in the retail industry, creditworthiness of tenants, competition for tenants and customers, changes in tax laws, interest rate and foreign currency levels, the availability of financing, and potential liability under environmental and other laws. Our regional malls, Premium Outlet centers and community/lifestyle centers rely heavily upon anchor tenants like most retail

properties. Four retailers occupied 408 of the approximately 992 anchor stores in the Properties as of December 31, 2005. An affiliate of one of these retailers is a limited partner in the Operating Partnership.

Limited Life Partnerships

FASB Statement No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" ("SFAS 150") establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability. The effective date of a portion of the Statement has been indefinitely postponed by the FASB. We have certain transactions, arrangements, or financial instruments that have been identified that appear to meet the criteria for liability recognition in accordance with paragraphs 9 and 10 under SFAS 150 due to the indefinite life of certain joint venture arrangements. However, SFAS 150 requires disclosure of the estimated settlement value of these non-controlling interests. As of December 31, 2005 and 2004, the estimated settlement value of these non-controlling interests was approximately \$145 million and \$100 million, respectively.

12. Related Party Transactions

Our management company provides management, insurance, and other services to Melvin Simon & Associates, Inc. ("MSA"), a related party, and other non-owned properties. Amounts for services provided by our management company and its affiliates to our unconsolidated joint ventures and other related parties were as follows:

	For the year ended December 31,		
	2005	2004	2003
Amounts charged to unconsolidated joint ventures	\$58,450	\$59,500	\$59,631
Amounts charged to properties owned by related parties	9,465	9,694	4,850

13. Recently Issued Accounting Pronouncements

During 2005, the FASB issued Interpretation No. 47, "Accounting for Conditional Asset Retirement Obligations—an interpretation of FASB Statement No. 143, Asset Retirement Obligations" ("FIN 47"). FIN 47 provides clarification of the term "conditional asset retirement obligation" as used in SFAS 143, defined as a legal obligation to perform an asset retirement activity in which the timing or method of settlement are conditional on a future event that may or may not be within the control of the Operating Partnership. Under this standard, a company must record a liability for a conditional asset retirement obligation if the fair value of the obligation can be reasonably estimated. FIN 47 became effective for our year ended December 31, 2005. The adoption of FIN 47 did not have a material adverse effect on our consolidated financial statements. Certain of our real estate assets contain asbestos. The asbestos is appropriately contained, in accordance with current environmental regulations, and the Operating Partnership has no current plans to remove the asbestos. If these properties were demolished, certain environmental regulations are in place which specify the manner in which the asbestos must be handled and disposed. Because the obligation to remove the asbestos has an indeterminable settlement date, we are not able to reasonably estimate the fair value of this asset retirement obligation.

In December 2004, the FASB issued SFAS No. 153, "Exchanges of Nonmonetary Assets — an amendment of APB Opinion No. 29." This Statement requires exchanges of productive assets to be accounted for at fair value, rather than at carryover basis, unless (a) neither the asset received nor the asset surrendered has a fair value that is determinable within reasonable limits, or (b) the transactions lack commercial substance. SFAS No. 153 is effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The adoption of this Statement is not anticipated to have a material impact on our financial position or results of operations.

13. Recently Issued Accounting Pronouncements (Continued)

In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections." SFAS No. 154 is a replacement of APB Opinion No. 20, "Accounting Changes" and SFAS No. 3, "Reporting Accounting Changes in Interim Financial Statements." This Statement requires voluntary changes in accounting to be accounted for retrospectively and all prior periods to be restated as if the newly adopted policy had always been used, unless it is impracticable. APB Opinion No. 20 previously required most voluntary changes in accounting to be recognized by including the cumulative effect of the change in accounting in net income in the period of change. This Statement also requires a change in method of depreciation, amortization or depletion for a long-lived asset be accounted for as a change in estimate that is affected by a change in accounting principle. SFAS No. 154 is effective for fiscal years beginning after December 15, 2005. The provisions of this Statement could have an impact on prior year consolidated financial statements if we have a change in accounting.

In June 2005, the FASB ratified its consensus in EITF Issue 04-05, "Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights" (Issue 04-05). The effective date for Issue 04-05 is June 29, 2005 for all new or modified partnerships and January 1, 2006 for all other partnerships for the applicable provisions. The adoption of the provisions of EITF 04-05 did not have a material impact on our financial position or results of operations for new partnerships after June 29, 2005 and is not expected to have a material impact on adoption for our remaining partnerships.

Depreciation of the Operating Partnership's investment in buildings and improvements reflected in the consolidated statements of operations and comprehensive income is calculated over the estimated original lives of the assets as follows:

- Buildings and Improvements — typically 10-40 years for the structure, 15 years for landscaping and parking lot, and 10 years for HVAC equipment.
 - Tenant Allowances and Improvements — shorter of lease term or useful life.
- (3) Initial cost generally represents net book value at December 20, 1993 except for acquired properties and new developments after December 20, 1993. Initial cost also includes any new developments that are opened during the current year. Costs of disposals of property are first reflected as a reduction to cost capitalized subsequent to acquisition.
- (4) Not developed/constructed by the Operating Partnership or its predecessors. The date of construction represents acquisition date.
- (5) Property initial cost for these properties is the cost at the date of consolidation for properties previously accounted for under the equity method of accounting. Accumulated depreciation amounts for properties consolidated which were previously accounted for under the equity method of accounting include the minority interest holders' portion of accumulated depreciation.
