Title: Company Secretary

# REPORT TO SHAREHOLDERS

for the quarter and nine months ended 31 March 2013

(Incorporated in the Republic of South Africa) • Registration No.1895/000926/06 / JSE share code: DRD • ISIN: ZAE 000058723 • NYSE trading symbol: DRD • ("DRDGOLD" or "the Group")

## GROUP RESULTS: KEY FEATURES

### FOR THE QUARTER Q3 2013 v Q3 2012

- ▲ Gold production up 3% to 35 976 oz
- ▲ Gold revenue up 16% to R531.0 million
- ▲ Operating profit up 5% to R170.7 million
- ▲ Cash operating costs up 3% to US\$1 111/oz
- ▲ Headline earnings up 17% to 14 cps

### FOR THE NINE MONTHS FY2013 v FY2012

- ▲ Gold production up 7% to 110 822 oz
- ▲ Gold revenue up 20% to R1 638.4 million
- ▲ Operating profit up 15% to R583.1 million
- ▲ Cash operating costs up 1% to US\$1 091/oz
- ▲ Headline earnings up 51% to 59 cps

All figures used in this report represent continuing operations, unless specified otherwise.

# DEAR SHAREHOLDER

As the new Crown/Ergo pipeline continues to settle, increasingly we are starting to understand what to expect from Ergo's current Brakpan carbon-in-leach ("CIL") circuit in our effort to achieve steady-state performance. Volume delivery into our plants was steady, and gold production was marginally better than the average quarterly production over the last two years.

Headline earnings per share ("HEPS") in Q3 FY2013 were 17% higher at 14 South African cents compared with Q3 FY2012. This was on the back of a 16% increase in gold revenue to R531.0 million, flowing both from a 3% increase in gold production to 35 976oz and a higher average Rand gold price received of R474 482/kg. After accounting for net operating costs of R360.3 million, operating profit was 5% higher at R170.7 million.

Free cash flow in Q3 FY2013 was up 16% from R73.7 million to R85.7 million compared to Q3 FY2012.

Gold production for the first nine months of FY2013 was 7% higher at 110 822oz compared with the first nine months of FY2012. Together with a higher Rand gold price received of R466 506/kg, this delivered a 20% rise in gold revenue to R1 638.4 million. Cash operating costs were well contained to US\$1 091/oz – a 1% increase – and operating profit was 15% higher at R583.1 million, yielding a 51% increase in HEPS to 59 South African cents.

Compared to Q2 FY2013, gold production was down 3 055oz due to marginally lower head-grades into the Brakpan plant.

Total production and free cash flows, namely for both continued and discontinued operations for the nine months to March 2013 are lower than the comparative period in FY2012 following the disposal of Blyvooruitzicht, in Q4 2012.

# DETAILED OPERATIONAL REVIEW

## ERGO

### Q3 FY2013 V Q3 2012

Gold production was 3% higher at 35 976oz due to a 3% increase in throughput to 5 766 000t. Yield was steady at 0.194g/t. Improved throughput reflects the positive impact of both continued stabilisation in the operating parameters of the new Crown/Ergo pipeline and de-commissioning of the Crown plant.

Notwithstanding a 3% increase in cash operating unit costs to US\$1 111/oz due to increased volumes and annual price increases, operating profit rose by 5% to R170.7 million, a consequence both of the increase in gold production and a 13% improvement in the average rand gold price received to R474 482/kg.

Capital expenditure was 60% higher at R99.8 million, reflecting on-going development of the flotation/fine-grind circuit at the Brakpan plant.

#### First nine months of FY2013 v first nine months of FY2012

An 8% increase in throughput to 17 430 000t offset the effect of a slight decline in yield to 0.198g/t, resulting in a 7% rise in gold production to 110 822oz. The Crown/Ergo pipeline coming on stream and the Crown plant de-commissioning were the primary contributors to higher throughput.

Cash operating unit costs were contained to US\$1 091/oz. This, together with the increase in gold production and a 12% strengthening in the average Rand gold price received to R466 506/kg, resulted in operating profit increasing by 15% to R583.1 million.

Capital expenditure, 26% higher at R282.9 million, was directed mainly towards the flotation/fine-grind project.

## ERPM, ZIMBABWE

As reported last quarter, we intend to dispose of our ERPM underground mining asset in South Africa and our exploration assets in Zimbabwe. Various expressions of interest have been received and these are being assessed, our objective being to secure the best deals that maximise value for shareholders.

## LOOKING AHEAD

As we move into the exciting commissioning phase of the new flotation/fine-grind circuit at Ergo's Brakpan plant – our first delivery from our ongoing research and development programme – we are cautiously optimistic about this project's ability to deliver into targeted operating and financial performance. Meantime, as our strategic capital commitments come to an end, we remain focused on maximising the operating and financial capabilities of the Brakpan plant's CIL circuit. A key element here is improved productivity, both at operational and individual employee level.

**Niël Pretorius**

## Notes to the financial statements

### 1. Cash and cash equivalents

Included in cash and cash equivalents is restricted cash of R69.5 million.

### 2. Loans and borrowings

Included in loans and borrowings is a Domestic Medium Term Note Programme ("DMTN Programme") under which DRDGOLD can issue notes from time to time. DRDGOLD raised a total of R165 million under the DMTN Programme in July and September 2012. The different unsecured notes issued mature 12 (R20.0 million), 24 (R69.5 million) and 36 (R75.5 million) months from the date of issue and bear interest at the three month Johannesburg Inter-bank Acceptance Rate (JIBAR) rate (currently 5.125%) plus margin ranging from 4% to 5% per annum.

## FORWARD-LOOKING STATEMENTS

Many factors could cause the actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements, including, among others, adverse changes or uncertainties in general economic conditions in the markets we serve, a drop in the gold price, a sustained strengthening of the Rand against the Dollar, regulatory developments adverse to DRDGOLD or difficulties in maintaining necessary licenses or other governmental approvals, changes in DRDGOLD's competitive position, changes in business strategy, any major disruption in production at key facilities or adverse changes in foreign exchange rates and various other factors.

These risks include, without limitation, those described in the section entitled "Risk Factors" included in our annual report for the fiscal year ended 30 June 2012, which we filed with the United States Securities and Exchange Commission on 26 October 2012 on Form 20-F. You should not place undue reliance on these forward-looking statements, which speak only as of the date thereof. We do not undertake any obligation to publicly update or revise these forward-looking statements to reflect events or circumstances after the date of this report or to the occurrence of unanticipated events. Any forward-looking statements included in this report have not been reviewed and reported on by DRDGOLD's auditors.
