# OPERATIONAL UPDATE FOR THE NINE MONTHS AND QUARTER ENDED 31 MARCH 2018

## HARMONY CONFIDENT THAT IT WILL DELIVER ON FY18 GUIDANCE

**Johannesburg. Wednesday 2 May 2018.** Harmony Gold Mining Company Limited ("Harmony" or "the company") is pleased to provide an operational update for the nine months and quarter ended 31 March 2018.

Chief Executive Officer, Peter Steenkamp, commented that: "We are on track to meet annual production guidance of 1.18 Moz. Harmony's performance in the fourth quarter of FY18 will be boosted with the inclusion of Moab Khotsong and higher production at Hidden Valley where production is ramping up."

Regrettably three fatalities were recorded in two separate incidents during the quarter. We will continue to make every effort to ensure safe working areas and that our employees are safe. Operational excellence during the March 2018 quarter was key in supporting steady production and underground grade performance and achieving good cost control.

Moab Khotsong became part of the Harmony asset portfolio on 1 March 2018, producing 764kg (24 563oz) of gold attributable to the March 2018 month. The integration of Harmony's information technology systems, management and operating processes at the operation is progressing well. The operating results for Moab Khotsong and the Harmony group's all-in sustaining cost (AISC) will be provided in the full year FY18 results to be released in August 2018.

## FY18 PRODUCTION GUIDANCE UPDATE

Group gold production is updated to 1.18 million ounces (from 1.1 million ounces) following the inclusion of the Moab Khotsong operation from 1 March 2018. Annual AISC cost guidance is unchanged at R520 000/kg.

Production and grade guidance for Moab Khotsong for the four months ending 30 June 2018 is 2 500kg (80 000oz) and 8.00g/t respectively.

## OPERATIONAL RESULTS – NINE MONTHS ENDED MARCH 2018 COMPARED TO NINE MONTHS ENDED MARCH 2017

*Note: Discussion below excludes the operational results of Moab Khotsong.*

Group production was steady at 25 401 kg (816 663oz) (up by 1%), underground grade 3% higher at 5.19g/t and cash operating costs well contained at R433 502/kg (5% increase in US Dollar terms to US\$1 043/oz) when compared to the comparative nine months ended 31 March 2017.

The average gold price received including the Rand/gold hedge was R574 451/kg (US\$ 1 383/oz).
