FOR IMMEDIATE RELEASE

HEATHSVILLE, VA, SEPTEMBER 14, 2004. SHARPE RESOURCES CORPORATION, (Sharpe, or the “Company”) is changing its focus away from the oil and gas business into precious metals exploration and development in the western US. To this end Sharpe has purchased an option (the “Option”) from Royal Standard Minerals Inc. (RSM) to acquire a 60% interest in RSM’s gold project located in Lyon County, Nevada (the “Project”), in consideration for which Sharpe has issued 2,000,000 common shares to RSM at a deemed value of \$100,000 (Cdn.). To exercise the option, Sharpe must maintain the unpatented and patented mining claims on the Project, must pay all required option, annual advanced minimum royalty payments, and deliver a completed positive feasibility study in compliance with National Instrument 43-101 in respect of the Project. Upon exercise of the Option, Sharpe will hold a 60% working interest in the Project.

The Project consists of 79 unpatented and 5 patented mining claims located in Township 15 North, Range 22 East, Sections 11, 12, 13 and 14, MDB&M. The claims are within a Comstock Lode-type volcanic hosted epithermal gold-silver vein system or vein complex that extends from west to east for more than 10,000 feet. This property has had minor gold-silver production in the mid- late 1800’s and considerable modern exploration by several major mining companies over the past 40 years with the latest effort completed in 2001.

The data indicates that this project has significant gold-silver deposit potential. Many of the gold-silver bearing structures have only been partially explored and include opportunities to expand both the strike and depth extents of the gold-silver mineralized structures.

NEX does not accept responsibility for adequacy or accuracy of this press release

Sharpe Resources Corporation cautions that the statements made in this press release and other forward looking statements made on behalf of the Company may be affected by such other factors including, but not limited to market volatility, competition, and other risks detailed herein and from time to time in the Securities and Exchange Commission filings of the Company.
