NOTICE TO SHAREHOLDERS FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2005

SHARPE RESOURCES CORPORATION

Responsibility for Consolidated Financial Statements

The accompanying consolidated financial statements for Sharpe Resources Corporation have been prepared by management in accordance with Canadian generally accepted accounting principles consistently applied. The most significant of these accounting principles have been set out in the December 31, 2004 audited consolidated financial statements. Only changes in accounting information have been disclosed in these consolidated financial statements. These statements are presented on the accrual basis of accounting. Accordingly, a precise determination of many assets and liabilities is dependent upon future events. Therefore, estimates and approximations have been made using careful judgment. Recognizing that the Company is responsible for both the integrity and objectivity of the financial statements, management is satisfied that these consolidated financial statements have been fairly presented.

Auditors' involvement

The auditors of Sharpe Resources Corporation have not performed a review of the unaudited consolidated financial statements for the three and six months ended June 30, 2005 and June 30, 2004.

Notes to Consolidated Financial Statements (Prepared by Management)

(Expressed in United States Dollars)

Six Months Ended June 30, 2005

(Unaudited)

1. ACCOUNTING POLICIES

Sharpe Resources Corporation ("Sharpe" or the "Corporation") is a publicly held company, engaged primarily in the exploration for production of petroleum and natural gas properties through its wholly-owned subsidiary, Sharpe Energy Company ("Sharpe Energy"), in a single cost centre being the United States. The Corporation is continued under the New Brunswick Business Corporation Act and its common shares are listed on the TSX Venture Exchange and traded on the OTC Bulletin Board.

In August 1999, Sharpe Energy was forced to voluntarily seek Chapter 11 reorganization under the United States Bankruptcy Code and on March 27, 2000, Sharpe Energy's second plan of reorganization ("the Chapter 11 Plan") was confirmed under which the Corporation recorded a gain on settlement of debt of \$1,313,900 in 2000.

At June 30, 2005, the Corporation still has outstanding debt under the Chapter 11 Plan.

As of September 15, 2004, the Corporation changed its focus away from the oil and gas business into precious metals exploration and development in the western US. To this end Sharpe has purchased an option (the "Option") from Royal Standard Minerals Inc. (RSM) to acquire a 60% interest in RSM's gold project located in Lyon County, Nevada (the "Project"), in consideration for which Sharpe has issued 2,000,000 common shares to RSM at a deemed value of \$100,000 (Cdn) (\$78,125 US). To exercise the option, Sharpe must maintain the unpatented and patented mining claims on the Project, must pay all required option, annual advanced minimum royalty payments, and deliver a completed positive feasibility study in compliance with National Instrument 43-101 in respect of the Project. Upon exercise of the Option, Sharpe will hold a 60% working interest in the Project.

These financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assume that the Corporation will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. These financial statements do not include adjustments to the amounts and classification of assets and liabilities that might be necessary should the Corporation be unable to continue in business.

The unaudited financial statements have been prepared in accordance with Canadian generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and notes to the financial statements required by Canadian generally accepted accounting principles for annual financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six month periods ended June 30, 2005 may not be necessarily indicative of the results that may be expected for the year ending December 31, 2005.

The balance sheet at December 31, 2004 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by Canadian generally accepted accounting principles for complete financial statements. The interim financial statements have been prepared by management in accordance with the accounting policies described in the Corporation's annual financial statements for the year ended December 31, 2004. For further information, refer to the financial statements and notes thereto included in the Corporation's annual financial statements for the year ended December 31, 2004.

SHARPE RESOURCES CORPORATION

Notes to Consolidated Financial Statements (Prepared by Management)

(Expressed in United States Dollars)

Six Months Ended June 30, 2005

(Unaudited)

2. STOCK OPTIONS

	Number of common shares	Weighted Average Exercise price (CDN)
Balance, beginning of period	3,250,000	\$ 0.10
Granted	480,000	0.10
Expired/cancelled	(219,000)	0.15
Balance, end of period	3,511,000	\$ 0.10

A summary of the stock options outstanding is as follows:

	Black-Scholes Value (\$)	NUMBER OF OPTIONS	EXERCISE PRICE Cdn (\$)	EXPIRY DATE
	nil	600,000	0.10	May 8, 2007
	nil	1,000,000	0.10	May 13, 2007
	17,660	1,431,000	0.10	May 8, 2008
(1)	27,097	480,000	0.10	May 16, 2010
	44,757	3,511,000		

(1) On May 16, 2005 the Company issued 480,000 stock options to directors of the Company to purchase common shares at a price of \$0.10 Cdn until May 16, 2010. The fair value of these stock options were estimated using the Black-Scholes option pricing model with the following assumptions; dividend yield - 0%, volatility - 93%, risk-free interest rate - 4.5% and an expected life of five years. The estimated fair value of \$27,097 was charged to the statement of operations and deficit and credited to contributed surplus.

3. WARRANTS

As of June 30, 2005, the Corporation had no warrants outstanding.

4. SEGMENTED INFORMATION

The Corporation has one reportable business segment. Substantially all of the Corporation's assets are located in the United States except for small balances held in Canadian banks. The Corporation's operations in Canada consist of general and administrative expenses necessary to maintain the Corporation's public company status.

5. INCOME TAXES

Estimated taxable income for the period ended is nil. Based on the level of historical taxable income, it cannot be reasonably estimated at this time if it is more likely than not that the Corporation will realize the benefits from future income tax assets or the amounts owing from future income tax liabilities.

SHARPE RESOURCES CORPORATION

Notes to Consolidated Financial Statements (Prepared by Management)

(Expressed in United States Dollars)

Six Months Ended June 30, 2005

(Unaudited)

5. INCOME TAXES (continued)

Consequently, the future recovery of loss arising from differences in tax values and accounting values have been reduced by an equivalent estimated taxable temporary difference valuation allowance.

The estimated taxable temporary difference valuation allowance will be adjusted in the period that it is determined that it is more likely than not that some portion or all of the future tax assets or future tax liabilities will be realized.

For further information on the Corporation's actual losses for tax purposes, refer to the December 31, 2004 audited financial statements. The benefit of these losses and the estimated loss for the period ended have not been recognized in these financial statements.

6. BASIC AND DILUTED INCOME (LOSS) PER SHARE

The income (loss) per share is computed by dividing the income (loss) for the period by the weighted average number of common shares outstanding during the period. Diluted income (loss) per share reflects the maximum possible dilution from the potential exercise of outstanding stock options. For 2004, the conversion of stock options was not included in the calculation because their inclusion would be anti-dilutive. In 2005, the conversion of stock options was not included because the average trading price for the period was less than the exercise price of the stock options. Diluted income (loss) per share is therefore the same as basic income (loss) per share.

The following table sets out the computation for basic and diluted income (loss) per share:

	2005	2004
Numerator:		
Income (loss) for the period	\$ 320,053	\$ (120,203)
Denominator:		
Average number of common shares outstanding	35,184,803	33,184,803
Weighted average number of common shares outstanding	35,184,803	33,184,803
Basic and diluted income loss per share	\$ 0.01	\$ 0.00

7. SALE OF ASSET

During the period, the Company sold its interest in West Thrifty, an oil and gas property in which the Company held a 62% interest. All costs relating to the West Thrifty property were previously written-off. Proceeds from the sale of the property, net of disposal fees, have been recorded as a realized gain on the sale.
