Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion (the "MD&A") of the financial condition and results of operations of Sharpe Resources Corporation Inc. (the "Corporation") constitutes management's review of the factors that affected the Corporation's financial and operating performance for the third quarter ending September 30, 2006. The MD&A was prepared as of November 9, 2006 and should be read in conjunction with the audited annual financial statements for the year ended December 31, 2005 of the corporation, including the notes thereto. Unless otherwise stated, all amounts discussed herein are denominated in United States dollars.

Overview

The Company is continued under the New Brunswick Business Corporation Act and its common shares are listed on the TSX Venture Exchange and traded on the OTC Bulletin Board.

In late 2004 the Corporation changed its focus away from the oil and gas business into precious metals exploration and development in the western U.S.

In June, 2006 the Corporation closed an option agreement to purchase a 100% interest in the coal and coal gas rights to approximately 17,000 acres in Preston County, West Virginia. The purchase option involves several payments including \$250,000 to exercise the option to purchase. A final payment of \$100,000 is to be paid within 180 days of the purchase option agreement date. Sharpe has completed an evaluation of the coal resources on the property with the help of an independent coal resource consulting firm.

Results of Operations

Net income for the three months ending September 30, 2006 was \$5,955 and for the nine months ending September 30, 2006 net income was \$18,687 as compared to \$0 for 2005. This income represents revenue from small override revenue interests. Operating and Administrative expenses for the three months ending September 30, 2006 were \$16,186 compared to \$44,025 for the three months ending September 30, 2005. The decrease is due to a decrease in general and administrative expenses which went from \$36,823 for the three months ending September 30, 2005 to \$7,851 for the same period in 2006. Operating and Administrative expenses for the nine months ending September 30, 2006 increased to \$237,577 as compared to \$158,680 for the nine months ending September 30, 2005. The increase is due to a management fee of \$154,000 paid to a current director and officer for the Company. This transaction was in the normal course of operations and was measured at the exchange value which represented the amount of consideration established and agreed to by the related parties.

Liquidity and Capital Resources

The Corporation's cash balance as at September 30, 2006 was \$341,334 compared to \$339,570 at December 31, 2005. Total assets at September 30, 2006 were \$592,927 compared to \$439,242 at December 31, 2005. On January 24, 2006 the Company completed a private placement of 8,796,200 units of the Company at CDN \$0.05 per unit for gross proceeds of CDN \$439,810 (US \$378,530). Each unit consists of one common share of the Company and one common share purchase warrant. Each warrant is exercisable for one year from closing at CDN \$0.10 per share. The subscribers under the private placement are directors of the Company. The warrants were valued using the Black-Scholes option pricing model where the value was determined to be CDN \$237,497 (US \$204,408). The following assumptions were used: dividend yield 0%, risk-free interest rate 3.83%, expected volatility 190% and an expected life of 1 year. The units are subject to a hold period which expires May 25, 2006.

In June, 2006 the Corporation closed an option agreement to purchase a 100% interest in the coal and coal gas rights to approximately 17,000 acres in Preston County, West Virginia. The purchase option involves several payments including \$250,000 to exercise the option to purchase. A final payment of \$100,000 is to be paid within 180 days of the purchase option agreement date. Sharpe has completed an evaluation of the coal resources on the property with the help of an independent coal resource consulting firm.

Current liabilities at September 30, 2006 were \$820,439 compared to \$826,394 at December 31, 2005. This decrease is the result of a decrease in accounts payable from \$82,896 at December 31, 2005 to \$76,941 at September 30, 2006.

On a forward going basis equity and debt financings will remain the single major source of cash flow for the Corporation. As revenue from operations improve the capital requirement of the Corporation will also improve. However, debt and equity financings will continue to be a source of capital to expand the Corporation's activities in the future.

The Corporation is authorized to issue an unlimited number of Common Shares of which 43,981,003 are outstanding at September 30, 2006. At September 30, 2006 the Corporation had outstanding options to purchase 3,511,000 common shares with exercise prices of C\$0.10 per share and expiration dates ranging from May 2007 to May 2010. At September 30, 2006 there were 8,796,200 warrants outstanding with an exercise price of C\$0.10 and expiration date of January 24, 2007.

Changes in Accounting Policies

In January 2005, the Canadian Institute of Chartered Accountants issued four new accounting standards: Handbook Section 1530, Comprehensive Income, Handbook Section 3251, Equity, Handbook Section 3855, Financial Instruments – Recognition and Measurement and Handbook Section 3865, Hedges. These standards are effective for interim and annual financial statements for the Corporation's fiscal years beginning January 1, 2007.

Risk and Uncertainties

At the present time, the Corporation does not have sufficient assets to maintain ongoing profitability. The Corporation's ability to acquire and develop new projects is a function of its ability to raise the necessary capital to pursue the efforts successfully.

The Corporation has limited financial resources and there is no assurance that additional capital will be available to it for further acquisitions, exploration and development of new or existing projects. Failure to obtain such additional financing could result in delay or indefinite postponement of further exploration and development of the property interests of the Corporation with the possible dilution or loss of such interests.

Forward Looking Statements

This MD&A includes certain "forward-looking statements" within the meaning of applicable Canadian securities legislation. All statements, other than statements of historical facts, included in this MD&A that address activities, events or developments that the Corporation expects or anticipates will or may occur in the future, including such things as future business strategy, competitive strengths, goals, expansion and growth of the Corporation's businesses, operations, plans and other such matters are forward-looking statements. When used in this MD&A, the words "estimate", "plan",

“anticipate”, “expect”, “intend”, “believe” and similar expressions are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Corporation to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, risks related to joint venture operations, actual results of current exploration activities, changes in project parameters as plans continue to be refined unavailability of financing, fluctuations in oil and gas prices and other factors. Although the Corporation has attempted to identify important factors that could cause actual results to differ materially, there may be other factors that cause results not to be anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.
