Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion (the "MD&A") of the financial condition and results of operations of Sharpe Resources Corporation Inc. (the "Corporation") constitutes management's review of the factors that affected the Corporation's financial and operating performance for the first quarter ending June 30, 2007. The MD&A was prepared as of August 24, 2007 and should be read in conjunction with the audited annual financial statements for the year ended December 31, 2006 of the Corporation, including the notes thereto. Unless otherwise stated, all amounts discussed herein are denominated in United States dollars.

Overview

The Corporation is continued under the New Brunswick Business Corporation Act and its common shares are listed in the United States on the OTC:BB symbol SHGPF and in Canada under the symbol SHO.H on the NEX exchange.

The Corporation is considered in the exploration stage as of January 1, 2002 as it started disposing of its interest in petroleum and natural gas properties that year. The Corporation completed the disposal of these properties during the fiscal year ended on December 31, 2005. The Corporation has since changed its focus away from the oil and gas business into precious metals exploration and development in the western U.S.

Results of Operations

The net loss for the second quarter ending June 30, 2007 was \$179,521 as compared to the net loss of \$208,659 for the second quarter 2006 a decrease of \$29,138. Revenue decreased from \$12,732 in the second quarter of 2006 to \$9,769 in 2007. Revenue consists of \$1,163 in interest income and \$8,606 in various small override interests in petroleum and natural gas properties.

Operating and Administrative expenses for the six months ending June 30, 2007 were \$189,290 compared to \$221,391 for the six months ending June 30, 2006. General and Administrative expenses went from \$171,371 for the second quarter 2006 to \$66,941 for the second quarter 2007. The decrease of \$104,430 is due to decreased activity.

Liquidity and Capital Resources

The Corporation's cash balance at June 30, 2007 was \$327,299 compared to \$204,866 at June 30, 2006. Total assets at June 30, 2007 were \$577,299 compared to \$454,866 at June 30, 2006.

There was little change in current liabilities at June 30, 2007 which were \$791,962 compared to \$808,240 at June 30, 2006. Accounts payable decreased from \$110,209 for the second quarter 2006 to \$93,931 for the second quarter 2007.

On a forward going basis equity and debt financings will remain the single major source of cash flow for the Corporation. As revenue from operations improve the capital requirement of the Corporation will also improve. However, debt and equity financings will continue to be a source of capital to expand the Corporation's activities in the future.

The Corporation is authorized to issue an unlimited number of Common Shares of which 46,619,863 are outstanding at June 30, 2007. At June 30, 2007 the Corporation had outstanding options to purchase 3,511,000 common shares with exercise prices of C\$0.10 per share and expiration dates ranging from May 2007 to May 2010. There are no warrants outstanding at June 30, 2007.

During the first quarter ending March 31, 2007, management fees of \$15,000 (March 31, 2006 - \$154,000) were paid to a director and officer of the Corporation. This transaction was in the normal course of operations and was measured at the exchange value which represented the amount of consideration established and agreed to by the related parties.

Changes in Accounting Policies

In January 2005, the Canadian Institute of Chartered Accountants issued four new accounting standards: Handbook Section 1530, Comprehensive Income, Handbook Section 3251, Equity, Handbook Section 3855, Financial Instruments – Recognition and Measurement and Handbook Section 3865, Hedges. These standards are effective for interim and annual financial statements for the Corporation's fiscal years beginning January 1, 2007. More detailed information on these changes can be found in Note 2 of the Unaudited Interim Consolidated Financial Statements for the Three and Six Months Ended June 30, 2007.

Risk and Uncertainties

At the present time, the Corporation does not have sufficient assets to maintain ongoing profitability. The Corporation's ability to acquire and develop new projects is a function of its ability to raise the necessary capital to pursue the efforts successfully.

The Corporation has limited financial resources and there is no assurance that additional capital will be available to it for further acquisitions, exploration and development of new or existing projects. Failure to obtain such additional financing could result in delay or indefinite postponement of further exploration and development of the property interests of the Corporation with the possible dilution or loss of such interests.

Forward Looking Statements

This MD&A includes certain "forward-looking statements" within the meaning of applicable Canadian securities legislation. All statements, other than statements of historical facts, included in this MD&A that address activities, events or developments that the Corporation expects or anticipates will or may occur in the future, including such things as future business strategy, competitive strengths, goals, expansion and growth of the Corporation's businesses, operations, plans and other such matters are forward-looking statements. When used in this MD&A, the words "estimate", "plan", "anticipate", "expect", "intend", "believe" and similar expressions are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Corporation to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, risks related to joint venture operations, actual results of current exploration activities, changes in project parameters as plans continue to be refined unavailability of financing, fluctuations in oil and gas prices and other factors. Although the Corporation has attempted to identify important factors that could cause actual results to differ materially, there may be other factors that cause results not to be anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.
