Interim Consolidated Financial Statements
(Unaudited)**

For the Three and Nine Months Ended October 31, 2007

Responsibility for Interim Consolidated Financial Statements

The accompanying unaudited interim consolidated financial statements for Royal Standard Minerals Inc. have been prepared by management in accordance with Canadian generally accepted accounting principles consistently applied. The most significant of these accounting principles have been set out in the audited January 31, 2007 consolidated financial statements. Only changes in accounting information have been disclosed in these unaudited interim consolidated financial statements. These unaudited interim consolidated financial statements are presented on the accrual basis of accounting. Accordingly, a precise determination of many assets and liabilities is dependent upon future events. Therefore, estimates and approximations have been made using careful judgment. Recognizing that the Company is responsible for both the integrity and objectivity of these unaudited interim consolidated financial statements, management is satisfied that these unaudited interim consolidated financial statements have been fairly presented.

The accompanying unaudited interim financial statements of Royal Standard Minerals Inc. for the three and nine months ended October 31, 2007 have been approved by the Audit Committee and Board of Directors of the Company. These unaudited interim statements have not been audited, reviewed or verified by the Company's independent external auditors or any other independent accounting firm.

Notes to Interim Consolidated Financial Statements

Three and Nine Months Ended October 31, 2007

(Unaudited)

1. The Company and Operations

Royal Standard Minerals Inc. (the "Company") is a publicly held company, engaged in the acquisition, exploration and development of gold and silver resource properties. The Company's common shares are listed on the TSX Venture Exchange and traded on the OTC Bulletin Board. The Company is in the exploration stage and has adopted the Accounting Guideline 11 as required by the Canadian Institute of Chartered Accountants ("CICA") Handbook. The date of inception has been deemed to be June 26, 1996, the date on which the Company acquired all of the outstanding common shares of Southeastern Resources Inc. ("SRI").

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of the carrying value of the exploration properties and the Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise alternative financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis. Changes in future conditions could require material write-downs of the carrying values.

2. Basis of Presentation and Accounting Policies

These financial statements have been prepared on the basis of accounting principles applicable to a going concern, which contemplates the realization of its assets and the settlement of its liabilities in the normal course of operations. The Company's ability to continue its operations is dependent upon obtaining necessary financing to complete the development of its properties and/or the realization of the proceeds from the sale of one or more of its properties. These financial statements do not include adjustments related to the carrying values and classifications of assets and liabilities that would be necessary should the Company be unable to continue in business.

The unaudited consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and notes to the consolidated financial statements required by Canadian generally accepted accounting principles for annual consolidated financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. Operating results for the three and nine month periods ended October 31, 2007 may not necessarily be indicative of the results that may be expected for the year ended January 31, 2008.

The consolidated balance sheet at January 31, 2007 has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by Canadian generally accepted accounting principles for annual consolidated financial statements. The interim consolidated financial statements have been prepared by management in accordance with the accounting policies described in the Company's annual audited consolidated financial statements for the year ended January 31, 2007, except as noted below. For further information, refer to the audited consolidated financial statements and notes thereto for the year ended January 31, 2007.

Accounting Changes

Effective February 1, 2007, the Company adopted the Canadian Institute of Chartered Accountants ("CICA") Section 1506, "Accounting Changes". This section prescribes the criteria for changing accounting policies, together with the accounting treatment and disclosure of changes in accounting policies, changes in accounting estimates and correction of errors.

2. Basis of Presentation and Accounting Policies (Continued)**Change in accounting policy with retroactive application**

During the period ended October 31, 2007, the Company changed its accounting policy with regards to the amortization of its exploration equipment. In prior periods, the Company recorded such amortization as an operating expense. As the Company is still in the development stage, the Company's management determined that it would be more appropriate to defer the amortization of the exploration equipment until the Company ceases to be in the development stage and enters the production stage. The effect of this change on the January 31, 2007 year end balance sheet is an increase in mineral properties by \$759,636 and a corresponding decrease in the accumulated deficit by the same amount. The effect of this change on the net loss and the accumulated deficit for the three month period and nine month period ended October 31, 2006 is a decrease of \$140,539 and \$402,582 respectively with corresponding increase in mineral properties. The opening accumulated deficit for the three month period and nine month period ended October 31, 2006 decreased by \$482,712 and \$220,669 respectively with corresponding increase in opening balance in mineral properties. The basic and diluted loss per share for the three and nine month periods ended October 31, 2006 decreased by \$0.01.

Financial instruments, comprehensive income (loss) and hedges

In January 2005, the CICA issued Handbook Sections 3855, "Financial Instruments – Recognition and Measurement", 1530, "Comprehensive Income", 3861, "Financial Instruments - Disclosure and Presentation" and 3865, "Hedges". These new standards are effective for interim and annual financial statements relating to fiscal years commencing on or after October 1, 2006 on a prospective basis; accordingly, comparative amounts for prior periods have not been restated. The Company has adopted these new standards effective February 1, 2007.

(a) Financial instruments - recognition and measurement

Section 3855 prescribes when a financial instrument is to be recognized on the balance sheet and at what amount. It also specifies how financial instrument gains and losses are to be presented. This Section requires that:

- All financial assets be measured at fair value on initial recognition and certain financial assets to be measured at fair value subsequent to initial recognition;
- All financial liabilities be measured at fair value if they are classified as held for trading purposes. Other financial liabilities are measured at amortized cost using the effective interest method; and
- All derivative financial instruments be measured at fair value on the balance sheet, even when they are part of an effective hedging relationship.

(b) Comprehensive income (loss)

Section 1530 introduces a new requirement to temporarily present certain gains and losses from changes in fair value outside net income. It includes unrealized gains and losses, such as: changes in the currency translation adjustment relating to self-sustaining foreign operations; unrealized gains or losses on available-for-sale investments; and the effective portion of gains or losses on derivatives designated as cash flow hedges or hedges of the net investment in self-sustaining foreign operations.

2. Basis of Presentation and Accounting Policies (Continued)

Financial instruments, comprehensive income (loss) and hedges (continued)

(c) Financial instruments - disclosure and presentation

Section 3861 establishes standards for presentation of financial instruments and non-financial derivatives, and identifies the information that should be disclosed about them. Under the new standards, policies followed for periods prior to the effective date generally are not reversed and therefore, the comparative figures have not been restated except for the requirement to restate currency translation adjustments as part of other comprehensive income.

(d) Hedges

Section 3865 provides alternative treatments to Section 3855 for entities which choose to designate qualifying transactions as hedges for accounting purposes. It replaces and expands on Accounting Guideline 13 "Hedging Relationships", and the hedging guidance in Section 1650 "Foreign Currency Translation" by specifying how hedge accounting is applied and what disclosures are necessary when it is applied.

(e) Impact upon adoption of Sections 1530, 3855, 3861 and 3865

The primary impact on the interim consolidated financial statements resulting from the adoption of sections 1530 and 3855 is as follows:

(1) The Company's marketable securities are classified as "available-for-sale" and are measured at fair value. Changes in fair value are recognized in other comprehensive income until their disposition, at which time they are transferred to net income. Investments in securities having quoted market values and which are publicly traded on a recognized securities exchange and for which no sales restrictions apply are recorded at values based on the current bid prices.

The Company's investments in equity securities that do not have a quoted market price in an active market are measured at cost. As at January 31, 2007 and October 31, 2007, the Company did not have any such investments.

As at January 31, 2007, marketable securities are carried at cost. At October 31, 2007, the Company's marketable securities are carried at fair market value.

(2) The Company has recorded the following transition adjustments in its interim consolidated financial statements as at February 1, 2007 resulting from the adoption of sections 1530 and 3855:

- i) an increase of \$32,596, representing a fair value adjustment to the value of marketable securities; and
- ii) an increase in accumulated other comprehensive income of \$32,596, representing the fair value adjustment of marketable securities of \$26,709, net of taxes of \$5,887 and recovery of capital loss carryforwards of \$5,887.

(3) The Company has evaluated the impact of sections 3861 and 3865 on its interim consolidated financial statements and determined that no adjustments are currently required.

The adoption of these Handbook Sections had no impact on opening deficit.

2. Basis of Presentation and Accounting Policies (Continued)

Accounting policy choice for transaction costs

On June 1, 2007, the Emerging Issues Committee of the CICA issued Abstract No.166, Accounting Policy Choice for Transaction Costs (EIC-166). This EIC addresses the accounting policy choice of expensing or adding transaction costs related to the acquisition of financial assets and financial liabilities that are classified as other than held-for-trading. Specifically, it requires that the same accounting policy choice to be applied to all similar financial instruments classified as other than held-for-trading, but permits a different policy choice for financial instruments that are not similar. The Company has adopted EIC-166 effective October 31, 2007 which requires retroactive application to all transaction costs accounted for in accordance with CICA Handbook Section 3855, Financial Instruments - Recognition and Measurement. The Company has evaluated the impact of EIC-166 and determined that no adjustments are currently required.

Future accounting changes

Capital Disclosures and Financial Instruments – Disclosures and Presentation

On December 1, 2006, the CICA issued three new accounting standards: Handbook Section 1535, Capital Disclosures, Handbook Section 3862, Financial Instruments – Disclosures, and Handbook Section 3863, Financial Instruments – Presentation. These new standards are effective for interim and annual consolidated financial statements for the Company's reporting period beginning on February 1, 2008.

Section 1535 specifies the disclosure of (i) an entity's objectives, policies and processes for managing capital; (ii) quantitative data about what the entity regards as capital; (iii) whether the entity has complied with any capital requirements; and (iv) if it has not complied, the consequences of such non-compliance. .

The new Sections 3862 and 3863 replace Handbook Section 3861, Financial Instruments — Disclosure and Presentation, revising and enhancing its disclosure requirements, and carrying forward unchanged its presentation requirements. These new sections place increased emphasis on disclosures about the nature and extent of risks arising from financial instruments and how the entity manages those risks.

The Company is currently assessing the impact of these new accounting standards on its consolidated financial statements.

3. Mineral Properties

On a quarterly basis, management of the Company review exploration costs to ensure mineral properties include only costs and projects that are eligible for capitalization.

For a description of the mineral properties, refer to Note 5 of the audited consolidated financial statements as at January 31, 2007.

11. Commitments and Contingencies

As further explained in Note 14 to the audited consolidated financial statements as of and for the year ended January 31, 2007, the Company is engaged in several matters of litigation, one of which involves a dissident group of shareholders requesting that a special meeting of the shareholders be called to consider the removal and replacement of the existing board of directors of the Company. The Company filed a lawsuit on October 11, 2006, in the United States District Court for the Central District of California alleging violations of the Securities Exchange Act of 1934 and sought an injunction against the group. On June 17, 2007, the Court preliminarily enjoined the dissident group and all persons acting in concert with them from, among other things, voting or causing to be voted all shares that are owned or controlled or directed by any of them or attempting to influence management or any of the Company's business relationships or becoming involved in a sale or merger of the Company or any of its assets. Trial was originally scheduled to begin on September 14, 2007 but has been continued to March 2008.

Refer to Notes 14 and 15 of the January 31, 2007 audited consolidated financial statements for other Company commitments and contingencies.
