**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**FOR THE PERIOD FROM INCEPTION (MARCH 1, 1997) TO JUNE 30, 2002**

**(1) Summary of Significant Accounting Policies:**

**Basis of Presentation:**

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB and Regulation S-B. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation have been included.

For further information, refer to the financial statements and footnotes included in Form 10-KSB for the year ended October 31, 2001 and form 8K/A filed on March 4, 2002.

The results of operations for the six months ending June 30, 2002 are not necessarily indicative of the results to be expected for the year ending December 31, 2002.

The accompanying consolidated financial statements include the accounts of Voyager Entertainment International, Inc. (the "Company"), formerly known as Dakota Imaging, Inc., ("Dakota"), incorporated under the laws of the state of North Dakota on January 31, 1991 and its subsidiaries:

- a) Voyager Ventures, Inc. ("Ventures"), incorporated under the laws of the State of Nevada on January 15, 2002 (owned 100% by the Company);
- b) Outland Development, LLC ("Outland"), a limited liability company formed under the laws of the State of Nevada on March 1, 1997(owned 100% by Ventures); and
- c) Voyager Entertainment Holdings, Inc. ("Holdings"), incorporated under the laws of the State of Nevada on May 2, 2002 (owned 100% by the Company).

The Company is currently a development stage enterprise reporting under the provisions of Statement of Financial Accounting Standards ("SFAS") No. 7.

Dakota entered into an agreement and Plan of Merger (the "Agreement"), dated as of February 1, 2002, with Ventures and Dakota Subsidiary Corp. ("DSC"), an inactive Nevada corporation. The agreement became effective February 8, 2002, when Ventures (the accounting acquirer) completed a reverse triangular merger ("Merger") between DSC and Dakota (the legal acquirer), whereby Dakota issued 3,660,000 shares of its Series A convertible preferred stock in exchange for 100% of Venture's outstanding common stock. Pursuant to the terms of the merger, Ventures merged with DSC wherein DSC ceased to exist and Ventures became a wholly owned subsidiary of Dakota.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)**

**FOR THE PERIOD FROM INCEPTION (MARCH 1, 1997) TO JUNE 30, 2002**

**(1) Summary of Significant Accounting Policies (Continued):**

**Basis of Presentation, Continued:**

Concurrent with the closing of the Merger:

- a) Dakota cancelled 47,000,000 shares (9,400,000 shares prior to 5 for 1 forward split) held by certain shareholders of Dakota in exchange for certain assets and liabilities of Dakota; and
- b) The Company issued 21,600,000 shares of its common stock for the conversion of 2,160,000 shares of the Series A convertible preferred stock issued.

As a result of the Merger, Venture's former shareholders obtained control of Dakota through their ownership interest in the Series A preferred stock held and converted. Therefore, this acquisition has been treated as a recapitalization of Ventures for accounting purposes and, accordingly, its financial position and results of operations have been presented for the periods preceding the Merger.

During April 2002, the Company changed its name from Dakota Imaging, Inc. to Voyager Entertainment International, Inc. and its fiscal year-end from October 31 to December 31.

The Company has limited operations and is still in the development stage. The Company will need to raise a substantial amount of capital in order to continue its business plan. This situation raises substantial doubt about its ability to continue as a going concern. The accompanying consolidated financial statements do not include any adjustments relative to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might result from the outcome of this uncertainty. Management is currently initiating their business plan and in the process raising additional capital.

**Line of Business:**

The Company is in the entertainment development business and is planning the development of two of the world's tallest Ferris Wheels, one on the Las Vegas Strip and the other in Shanghai, China.

**Use of Estimates:**

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

**(1) Summary of Significant Accounting Policies:**

**Recent Accounting Pronouncements:**

On June 29, 2001, SFAS No. 141, "Business Combinations," was approved by the FASB, which requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001. Goodwill and certain intangible assets will remain on the balance sheet and not be amortized. On an annual basis, and when there is reason to suspect that their values have been diminished or impaired, these assets must be tested for impairment, and write-downs may be necessary. The Company has implemented this pronouncement and has concluded that the adoption has no material impact to the financial statements.

On June 29, 2001, SFAS No. 142, "Goodwill and Other Intangible Assets", was approved by the FASB, which changes the accounting for goodwill from an amortization method to an impairment-only approach. Amortization of goodwill, including goodwill recorded in past business combinations, will cease upon adoption of this statement. The Company has implemented this pronouncement and has concluded that the adoption has no material impact to the financial statements.

During August 2001, SFAS No. 143, "Accounting for Asset Retirement Obligation" was issued. SFAS No. 143 is effective for fiscal years beginning after June 15, 2002, and will require companies to record a liability for asset retirement obligations in the period in which they are incurred, which typically could be upon completion or shortly thereafter. The FASB decided to limit the scope to legal obligation and the liability will be recorded at fair value. The effect of adoption of this standard on Company's results of operations and financial positions is being evaluated.

During August 2001, SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." was issued. SFAS No. 144 is effective for fiscal years beginning after December 15, 2001. It provides a single accounting model for long-lived assets to be disposed of and replaces SFAS No. 121 "Accounting for the Impairment of Long-Lived Assets and Long-Lived Assets to Be Disposed Of." The Company has implemented this pronouncement and has concluded that the adoption has no material impact to the financial statements.

In April 2002, the FASB issued Statement No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections." This Statement rescinds FASB Statement No. 4, "Reporting Gains and Losses from Extinguishment of Debt", and an amendment of that Statement, FASB Statement No. 64, "Extinguishments of Debt Made to Satisfy Sinking-Fund Requirements" and FASB Statement No. 44, "Accounting for Intangible Assets of Motor Carriers". This Statement amends FASB Statement No. 13, "Accounting for Leases", to eliminate an inconsistency between the required accounting for sale-leaseback transactions and the required accounting for certain lease modifications that have economic effects that are similar to sale-leaseback transactions. The Company does not expect the adoption to have a material impact to the Company's financial position or results of operations.

**(2) Reorganization:**

Outland

Ventures entered into an agreement and Plan of Reorganization (the "Reorganization"), dated as of January 30, 2002 with Outland, whereby Ventures issued 15,000,000 shares of its common stock in exchange for 100% of Outland's membership interest.

This transaction has been accounted for in the consolidated financial statements as a reverse acquisition. As a result of this transaction, the former members of Outland acquired or exercised control over a majority of the shares of the Company before and after the reorganization. Accordingly, the transaction has been treated for accounting purposes as a recapitalization of Outland. Therefore, these consolidated financial statements represent a continuation of Outland, not Ventures.

The consolidated financial statements presented include the accounts of Outland from its inception (March 1, 1997) through the reorganization.

Voyager Ventures

The Agreement and Merger, as discussed in Note 1, with Dakota, DSC and Ventures has been accounted for in the consolidated financial statements as a public shell merger. As a result of this transaction, the former shareholders of Ventures acquired or exercised control over a majority of the shares of Dakota. Accordingly, the transaction has been treated for accounting purposes as a recapitalization of Ventures and, therefore, these consolidated financial statements represent a continuation of the entity, Ventures, not Dakota.

In accounting for this transaction:

- i) Ventures is deemed to be the purchaser and surviving company for accounting purposes. Accordingly, its net assets are included in the balance sheet at their historical book values;
- ii) Control of the net assets and business of Dakota was acquired effective February 8, 2002, the effective date. This transaction has been accounted for as a purchase of the assets and liabilities of Dakota by Ventures at its net book value of \$0.

**(6) Stock option Plan:**

The Company's shareholders approved the 2002 Stock Option Plan on April 2, 2002 at the Company's annual meeting. The plan authorizes the Company to issue 5,000,000 shares of common stock for issuance upon exercise of options.

The plan is intended to encourage directors, officers, employees and consultants of the Company to acquire ownership of Common Stock. Officers (including officers who are members of the Board of Directors), directors (other than members of the Stock Option Committee (the "Committee") to be established to administer the Stock Option Plan) and other employees and consultants of the Company and its subsidiaries (if established) will be eligible to receive options under the planned Stock Option Plan. The Committee will administer the Stock Option Plan and will determine those persons to whom options will be granted, the number of options to be granted, the provisions applicable to each grant and the time periods during which the options may be exercised. No options may be granted more than ten years after the date of the adoption of the Stock Option Plan.

Unless the Committee, in its discretion, determines otherwise, non-qualified stock options will be granted with an option price equal to the fair market value of the shares of Common Stock to which the non-qualified stock option relates on the date of grant. In no event may the option price with respect to an incentive stock option granted under the Stock Option Plan be less than the fair market value of such Common Stock to which the incentive stock option relates on the date the incentive stock option is granted. Each option granted under the Stock Option Plan will be exercisable for a term of not more than ten years after the date of grant. Certain other restrictions will apply in connection with this Plan when some awards may be exercised.

In the event of a change of control (as defined in the Stock Option Plan), the date on which all options outstanding under the Stock Option Plan may first be exercised will be accelerated. Generally, all options terminate 90 days after a change of control. As of June 30, 2002, no options have been issued under this plan.

**(7) Subsequent Events:**

On July 9, 2002, the Company entered into an agreement with Technology Capital & Markets, Inc. In addition, the Company granted TCM a first right of refusal to purchase an additional twenty-five percent (25%) of the common stock of Voyager Entertainment Holdings, Inc. and issued TCM a 30-day Warrant to purchase one million (1,000,000) shares of the Company's common stock at \$2.50 per share.

Effective August 6, 2002, the Company replaced Merdinger, Fruchter, Rosen & Company, P.C. as its independent auditors with Stonefield Josephson, Inc., who will act as the Company's independent certified public accountants for the year ending December 31, 2002.

#### Overview

Voyager Entertainment International, Inc., formerly named Dakota Imaging, Inc., was incorporated in North Dakota on January 31, 1991. Effective February 8, 2002, the Company completed a reverse triangular merger between Dakota Subsidiary Corp. ("DSC"), a wholly owned subsidiary of the Company, and Voyager Ventures, Inc., a Nevada corporation ("Ventures"), whereby the Company issued 3,660,000 shares of its Series A preferred stock in exchange for 100% of Ventures outstanding common stock. Pursuant to the terms of the merger, Ventures merged with DSC wherein DSC ceased to exist and Ventures became a wholly owned subsidiary of the Company.

On April 2, 2002, the Company held its annual stockholders meeting and the stockholders voted on and approved changing the Company's name from Dakota Imaging, Inc. to Voyager Entertainment International, Inc.

Voyager has yet to generate revenues from any source and there is a substantial going concern issue as to whether Voyager will ever be able to commercialize its technology and generate sufficient, if any, revenues to satisfy its working capital requirements. Since inception, Voyager has been dependent on the sale of its equity securities and loans from affiliates to satisfy its working capital requirements. Voyager continues to have a working capital deficiency that raises substantial concern regarding its ability to continue as a going concern.

## Business of the Company

The Company's current business plan is to build two of the world's largest Ferris wheels, one on the Las Vegas Strip and the other in Shanghai, China.

### *Las Vegas "Voyager" Wheel*

Outland Development, a wholly-owned subsidiary of the Company, for the past 5 years has extensively planned and/or evaluated the available locations at both the North and South ends of the Las Vegas Strip. The location selected for VOYAGER is the 26.87 acres owned by SLVC adjacent to the Sahara Hotel & Casino. It is anticipated that the project will benefit from the location on Las Vegas Blvd., both from the physical connection to be developed and future development properties on the north end of the strip.

"VOYAGER" is intended to be designed as a visual ICON and experience overlooking the "Las Vegas Strip". With 33 vehicles called Sky Cruiser's, the vertical revolving vehicle will overlook the Las Vegas Strip as it revolves higher than a 50-story building at 560 (+/-) feet. One slow rotation in a vehicle will last 27 minutes and each vehicle will travel at 0.652 MPH or .9567 feet per second. The vehicle will be controlled and enhanced by the on-board SS Navigator...part entertainer, and part steward, an individual also skilled in life-safety and security.

### ***Land Acquisition***

The Company is currently in the process of negotiating a long-term lease for a site located adjacent to the Sahara Hotel & Casino, owned by SLVC, whereby both companies are planning to jointly design and develop an entire master plan resort for the 26.87 acre parcel. The front portion of the site will be occupied by Voyager and will become the engine for the mixed-use complex. A hotel and casino are planned, as well as timeshare or other residential modules. The design of Voyager will be integrated throughout the entire resort. The site plan will detail Voyager's plans for the wheel, including a large lake with custom boats utilized for hotel rooms, a new hotel tower and a time share tower.

### ***Organization***

The project will be owned by the parent company, but will be designed, developed, built and operated by Outland Management, LLC, a wholly owned subsidiary of the Company. Outland will manage the project via a ten-year contract with performance-based extensions. All covenants, restrictions and protocol will be detailed in its operating agreement.

As the management company, Outland will be responsible for the design, development, construction, and operation of VOYAGER, and provide the following: concept development, project design, location assessment and acquisition, strategic alliances in both entertainment and gaming, business plans and budgets, financial oversight and management during both construction and operation, marketing plans, insurance procurement and risk management, senior operational management including development of policies and procedures, and overall strategic focus for VOYAGER.

VOYAGER is fundamentally an amusement ride attraction, and its operational and maintenance requirements are very similar to those found in the theme park industry. In addition, Las Vegas is a unique marketplace, and the visitor when placed in the environment is also unique. The ability to understand the visitor, and successfully attract customers to VOYAGER will come as a result of clearly understanding the marketing strategies of the gaming industry. Outland Management intends to employ highly skilled individuals from the theme park industry and combine their specialized skills with those from the gaming industry.

The initial management team at Outland is anticipated to consist of: Veldon Simpson, as CEO and a Director; Richard Hannigan, as President and a Director; Michael Schaunessy, as CFO; and Sig Rogich, as Director of Public Relations & Communications.

### Shanghai, China “Star of Shanghai”

Anticipated to be located on the western bank (Puxi) of the Huangpu River, the Bund (“muddy embankment”) is the chosen location for a master planned development with the Star of Shanghai as the dominant feature. Star of Shanghai is to be designed as a special tribute to the legendary figure Huang Daopo who invented the “spinning wheel” that reformed the technique of cotton weaving, and gained fame for its production of clothing.

China is anticipated to have a bright future and grow in all dimensions, this is anticipated to impact and attract international attention.

Voyager will require substantial additional funds to fulfill its business plan and successfully develop its two projects. Voyager intends to raise these needed funds from private placements of its securities, debt financing or internally generated funds from the licensing of its intellectual property or service fees. As of the date of this filing, the Company has not received a firm commitment for financing of any of the projects.

### Plan of Operation

During the next 12 months, the Company plans to focus its efforts on its development of the Ferris Wheels; however, actual production will not commence until the Company has sufficient capital for production and marketing.

As of June 30, 2002, the Company had only unpaid Officers and Directors. The Company is dependent upon Richard Hannigan, President and Director and Veldon Simpson, CEO and Director. The Company does not have any employees at this time and does not anticipate the need to hire any employees until such time as the Company has been sufficiently capitalized.

Risks that could cause actual performance to differ from expected performance are detailed in the remainder of this section, and under the section titled “Factors That May Affect the Company’s Future Operating Results.”

### Liquidity and Capital Resources

A critical component of our operating plan impacting our continued existence is the ability to obtain additional capital through additional equity and/or debt financing. We do not anticipate enough positive internal operating cash flow until such time as we can generate substantial revenues, which may take the next few years to fully realize. In the event we cannot obtain the necessary capital to pursue our strategic plan, we may have to cease or significantly curtail our operations. This would materially impact our ability to continue operations.

Our near term cash requirements are anticipated to be offset through the receipt of funds from private placement offerings and loans obtained through private sources. Since inception, we have financed cash flow requirements through debt financing and issuance of common stock for cash and services. As we initiate operational activities, we may continue to experience net negative cash flows from operations, pending receipt of servicing or licensing fees, and will be required to obtain additional financing to fund operations through stock offerings and bank borrowings to the extent necessary to provide working capital.

Over the next twelve months, we believe that existing capital and anticipated funds from operations will not be sufficient to sustain operations and planned development. Consequently, we will be required to seek additional capital in the future to fund growth and expansion through additional equity or debt financing or credit facilities. No assurance can be made that such financing would be available, and if available it may take either the form of debt or equity. In either case, the financing could have a negative impact on our financial condition and our stockholders.

We anticipate incurring operating losses over the next twelve months. Our lack of operating history makes predictions of future operating results difficult to ascertain. Our prospects must be considered in light of the risks, expenses and difficulties frequently encountered by companies in their early stage of development, particularly companies in new and rapidly evolving markets such as development related companies. Such risks include, but are not limited to, an evolving and unpredictable business model and the management of growth. To address these risks we must, among other things, implement and successfully execute our business and marketing strategy, continue to develop and upgrade technology and products, respond to competitive developments, and attract, retain and motivate qualified personnel. There can be no assurance that we will be successful in addressing such risks, and the failure to do so can have a material adverse effect on our business prospects, financial condition and results of operations.

As of June 30, 2002, the Company had current assets of \$30,087, and current liabilities of \$25,990, resulting in working capital of \$4,097.

## **FACTORS THAT MAY AFFECT THE COMPANY'S FUTURE OPERATING RESULTS**

***We are a development stage company, recently reorganized and have minimal operating history, which makes an evaluation of us extremely difficult. At this stage of our business operations, even with our good faith efforts, potential investors have a high probability of losing their investment.***

As a result of our recent reorganization, we have yet to generate revenues from operations and have been focused on organizational, start-up, market analysis and fund raising activities. Although we have a project to market, there is nothing at this time on which to base an assumption that our business operations will prove to be successful or that we will ever be able to operate profitably. Our future operating results will depend on many factors, including our ability to raise adequate working capital, demand and acceptance of our project, the level of our competition and our ability to attract and maintain key management and employees.

While Management believes its estimates of projected occurrences and events are within the timetable of its business plan, there can be no guarantees or assurances that the results anticipated will occur.

***We will require substantial additional financing in order to fully implement our business plan. Without any additional funding, we could remain as a start-up company with no material operations, revenues, or profits.***

Due to our start-up nature and lack of current capital, in order to fully implement our business plan we will require substantial additional funding. Our business plan will require us to incur the costs of development of our projects, which is anticipated to exceed several hundred million dollars. Our current fundraising efforts have only enabled us to maintain minimum operations and supplement our working capital requirements. We anticipate raising additional funds through a private placement, registered offering, debt financing or other sources to implement our business plan. Adequate funds for this purpose on terms favorable to us may not be available when needed, if ever. Without new funding, we cannot implement our business plan, and our shareholders may lose part or all of their investment.

***Our auditor's report reflects the fact that without realization of additional capital, it would be unlikely for us to continue as a going concern. If we are unable to continue as a going concern, it is unlikely that we will continue in business.***

As a result of our deficiency in working capital and other factors, our auditors have included a paragraph in their report regarding substantial doubt about our ability to continue as a going concern. Our plans in this regard are to seek additional funding through future equity private placements or debt facilities.

***There is a limited current public market for our common stock.***

Although our common stock is listed on the Over-the-Counter Bulletin Board, there is a limited volume of sales, thus providing a limited liquidity into the market for our shares. As a result of the foregoing, stockholders may be unable to liquidate their shares for any reason.
