

VARIABLE ANNUITY ACCOUNT B

ING Life Insurance and Annuity Company

Supplement Dated April 30, 2007

To the Prospectus and Contract Prospectus Summary dated April 30, 2007

**Group Variable Annuity Contracts for Employer-Sponsored Deferred Compensation Plans
Producers' Deferred Compensation Plan and Producers' Incentive Savings Plan**

This supplement relates to the Producers' Deferred Compensation Plan and the Producers' Incentive Savings Plan (the "Plans") for career agents and certain brokers of Aetna Life Insurance Company and ING Life Insurance and Annuity Company. The Plans have met the criteria allowing for the reduction or elimination of certain charges under the contract. The Company will not deduct a maintenance fee or an early withdrawal charge under the contract. See "Fees."

Insurance products issued by ING Life Insurance and Annuity Company. Securities offered through ING Financial Advisers, LLC (Member SIPC), 151 Farmington Avenue, Hartford, CT 06156, or through other Broker-Dealers with which it has a selling agreement. These companies are wholly owned, indirect subsidiaries of ING Groep N.V. Insurance obligations are the responsibility of each individual company.

**ING Life Insurance and Annuity Company
and its
Variable Annuity Account B**

**Group Variable Annuity Contracts for Employer-Sponsored
Deferred Compensation**

**Supplement dated April 30, 2007 to your current variable annuity Contract Prospectus, Contract
Prospectus Summary and Statement of Additional Information**

This supplement updates certain information contained in your current variable annuity Contract Prospectus, Contract Prospectus Summary and Statement of Additional Information (SAI). Please read it carefully and keep it with your variable annuity Contract Prospectus, Contract Prospectus Summary and SAI.

NOTICE OF FUND SUBSTITUTIONS

Effective July 27, 2007, and pursuant to applicable regulatory approvals, ING Life Insurance and Annuity Company (the "Company") and Variable Annuity Account C (the "Separate Account") will replace certain funds in which the subaccounts of the Separate Account invest (the "Replaced Funds") with certain other funds (the "Substitute Funds") as follows:

Replaced Funds	Substitute Funds
Lord Abbett Series Fund - Growth and Income Portfolio (Class VC)	ING Lord Abbett Affiliated Portfolio (Class I)
Pioneer Equity Income VCT Portfolio (Class I)	ING Pioneer Equity Income Portfolio (Class I)
Pioneer Fund VCT Portfolio (Class I)	ING Pioneer Fund Portfolio (Class I)
Pioneer High Yield VCT Portfolio (Class I)	ING Pioneer High Yield Portfolio (I Class)
Pioneer Mid Cap Value VCT Portfolio (Class I)	ING Pioneer Mid Cap Value Portfolio (Class I)

Important Information about the Substitutions.

- Effective July 27, 2007, the subaccounts which invest in the Replaced Funds will no longer be available through your variable annuity contract.
- Prior to the effective date of the substitutions and for thirty days thereafter you may transfer amounts allocated to a subaccount which invests in a Replaced Fund to any other subaccount or any available fixed account free of charge and any such transfer will not count as a transfer when imposing any applicable restriction or limit on transfers.
- On the effective date of the substitutions, existing investments and ongoing allocations to a subaccount which invests in a Replaced Fund will be automatically reallocated to the subaccount which invests in the corresponding Substitute Fund. Thereafter, all future allocations directed to a subaccount which invested in a Replaced Fund will be automatically allocated to the corresponding Substitute Fund.
- The investment objective and policies of each Substitute Fund are the same as, similar to or consistent with the investment objective and policies of the corresponding Replaced Fund. The investment objective of each Substitute Fund is more fully described in each Substitute Fund's prospectus.
- A prospectus for each of the Substitute Funds has previously been sent to you or accompanies this supplement. Read these materials carefully before deciding what to do with amounts allocated to subaccounts which invest in the Replaced Funds. Should you need additional prospectuses, please call the number listed in your Contract Prospectus under "Questions: Contacting the Company" on the or the first page of your Contract Prospectus Summary.
- **Although the total expenses of each Substitute Fund are less than or equal to the total expenses of the corresponding Replaced Fund, you should know that the Company and its affiliates expect to collectively receive higher levels of revenue from each Substitute Fund than from the corresponding Replaced Fund. This additional revenue is primarily realized in the form of management and service fees the Substitute Funds will pay to certain of the Company's affiliates (the prospectus applicable to each Substitute Fund details these amounts). By contrast, the corresponding fees of the Replaced Funds are paid to non-ING entities. The Company therefore has a financial incentive to proceed with the substitution.**

Insurance products issued by ING Life Insurance and Annuity Company. Securities offered through ING Financial Advisers, LLC (Member SIPC), 151 Farmington Avenue, Hartford, CT 06156, or through other Broker-Dealers with which it has a selling agreement. These companies are wholly owned, indirect subsidiaries of ING Groep N.V. Insurance obligations are the responsibility of each individual company.

ING Life Insurance and Annuity Company
Variable Annuity Account B
GROUP VARIABLE ANNUITY CONTRACTS FOR EMPLOYER-SPONSORED
DEFERRED COMPENSATION
CONTRACT PROSPECTUS – APRIL 30 , 2007

The Contracts. The contracts described in this prospectus are group deferred fixed and variable annuity contracts issued by ING Life Insurance and Annuity Company (the Company). They are intended to be used as funding vehicles for certain types of retirement plans, including those that qualify for beneficial tax treatment, and/or to provide current income reduction under certain sections of the Internal Revenue Code of 1986, as amended (Tax Code). The contracts were formerly sold as both group contracts and employer-owned individual contracts.

Why Reading this Prospectus is Important. Before you participate in the contract through a retirement plan, you should read this prospectus. It provides facts about the contract and its investment options. Plan sponsors (generally your employer) should read this prospectus to help determine if the contract is appropriate for their plan. Keep this document for future reference.

Table of Content ... page 3

Investment Options. The contracts offer variable investment options and fixed interest options. When we establish your account(s), the contract holder, or you if permitted by the plan, instructs us to direct account dollars to any of the available options. Some investment options may be unavailable through certain contracts and plans, or in some states.

Variable Investment Options. These options are called subaccounts. The subaccounts are within Variable Annuity Account B (the separate account), a separate account of the Company. You do not invest directly in or hold shares of the funds. Each subaccount invests in one of the mutual funds (funds) listed on the next page. Earnings on amounts invested in a subaccount will vary depending upon the performance and fees of its underlying fund.

Risks Associated with Investing in the Funds. Information about the risks of investing in the funds is located in the "Investment Options" section of this prospectus on page 10, in Appendix IV to this prospectus, "Fund Descriptions" and in each fund prospectus. Read this prospectus in conjunction with the fund prospectuses, and retain the prospectuses for future reference.

Fixed Interest Options.

- ▷ Guaranteed Accumulation Account
- ▷ Fixed Plus Account
- ▷ Fixed Account

Except as specifically mentioned, this prospectus describes only the variable investment options. However, we describe the fixed interest options in the appendices to this prospectus. There is also a separate prospectus for the Guaranteed Accumulation Account.

Compensation. We pay compensation to broker-dealers whose registered representatives sell the contracts. See "Contract Distribution" for further information about the amount of compensation we pay.

Getting Additional Information. You may obtain the April 30, 2007 Statement of Additional Information (SAI) free of charge by indicating your request on your enrollment materials, by calling the Company at 1-800-262-3862 or by writing to us at the address listed in the "Questions: Contacting the Company" section of this prospectus. You may also obtain an SAI for any of the funds by calling that number. This prospectus, the SAI and other information about the separate account may be obtained by accessing the Securities and Exchange Commission (SEC) web site, <http://www.sec.gov>. Copies of this information may also be obtained, after paying a duplicating fee, by contacting the SEC Public Reference Branch. Information on the operation of the SEC Public Reference Branch may be obtained by calling 1-202-551-8090 or 1-800-SEC-0330, e-mailing publicinfo@sec.gov or by writing to SEC Public Reference Branch, 100 F Street, NE, Room 1580, Washington, D.C. 20549. When looking for information regarding the contracts offered through this prospectus, you may find it useful to use the number assigned to the registration statement under the Securities Act of 1933. This number is 033-75996. The number assigned to the registration statement for the Guaranteed Accumulation Account is 333-141040. The SAI table of contents is listed on page 41 of this prospectus. The SAI is incorporated into this prospectus by reference.

Additional Disclosure Information. Neither the SEC, nor any state securities commission, has approved or disapproved the securities offered through this prospectus or passed on the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense. This prospectus is valid only when accompanied by current prospectuses of the funds. We do not intend for this prospectus to be an offer to sell or a solicitation of an offer to buy these securities in any state that does not permit their sale. We have not authorized anyone to provide you with information that is different than that contained in this prospectus.

Questions: Contacting the Company. Contact your local representative or write or call our Home Office:

ING
USFS Customer Service
Defined Contribution
Administration , TS21
151 Farmington Avenue
Hartford, CT 06156-1277
1-800-262-3862

Sending Forms and Written Requests in Good Order.

If you are writing to change your beneficiary, request a withdrawal or for any other purpose, contact your local representative or the Company to learn what information is required in order for the request to be in "good order." By contacting us, we can provide you with the appropriate administrative form for your requested transaction.

Generally, a request is considered to be in "good order" when it is signed, dated and made with such clarity and completeness that we are not required to exercise any discretion in carrying it out.

We can only act upon written requests that are received in good order.

CONTRACT OVERVIEW

The following is intended as a summary. Please read each section of this prospectus for additional information.

Who's Who

You (the participant): The individual participating in a retirement plan, where the plan uses the contract as a funding option.

Plan Sponsor: The sponsor of your retirement plan. Generally, your employer.

Contract Holder: The person or entity to whom we issue the contract. Generally, the plan sponsor. We may also refer to the contract holder as the contract holder.

We (the Company): ING Life Insurance and Annuity Company. We issue the contract.

For greater detail, please review "Contract Ownership and Rights" and "Contract Purchase and Participation."

The Contract and Your Retirement Plan

Retirement Plan (plan): A plan sponsor has established a retirement plan for you. This contract is offered as a funding option for that plan. We are not a party to the plan, so the terms and the conditions of the contract and the plan may differ.

Plan type. We refer to plans in this prospectus as 457 plans or non-section 457 plans. For a description of each, see "Taxation."

Use of an Annuity Contract in your Plan. Under the federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of a deferred compensation arrangement (such as 457 plans or non-section 457 plans), an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the arrangement itself. Annuities do provide other features and benefits (such as the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with your financial representative taking into account the additional fees and expenses you may incur in an annuity. See "Contract Purchase and Participation."

Contract Rights

The contract holder holds all rights under the contract, but may permit you to exercise those rights through the plan. For example, the contract may permit the contract holder to select investment options for your account dollars. The plan may permit you to exercise that right. For greater detail see "Contract Ownership and Rights."

Contract Facts

Free Look/Right to Cancel: Contract holders may cancel the contract no later than 10 days after they receive the contract (or a longer period if required by state law). See “Right To Cancel.”

Death Benefit: A beneficiary may receive a benefit in the event of your death during both the accumulation and income phases. The availability of a death benefit during the income phase depends upon the income phase payment option selected. See “Death Benefit” and “The Income Phase.”

Withdrawals: During the accumulation phase, the contract holder may, on your behalf and subject to the limits in the contract, withdraw all or a part of your account value. Certain fees and taxes may apply. See “Withdrawals” and “Taxation.”

Systematic Distribution Options: If available under your contract, the contract holder may elect on your behalf for you to receive regular payments from your account, while retaining the account in the accumulation phase. See “Systematic Distribution Options.”

Fees: Certain fees are deducted from your account value. See “Fee Table” and “Fees.”

Taxation: You will not generally pay taxes on any earnings from the annuity contract described in this prospectus until they are withdrawn (or otherwise made available to you or a beneficiary). Amounts you receive as a distribution will be generally included in your gross income and will be subject to taxation. Tax penalties may apply in some circumstances. See “Taxation.”

Contract Phases

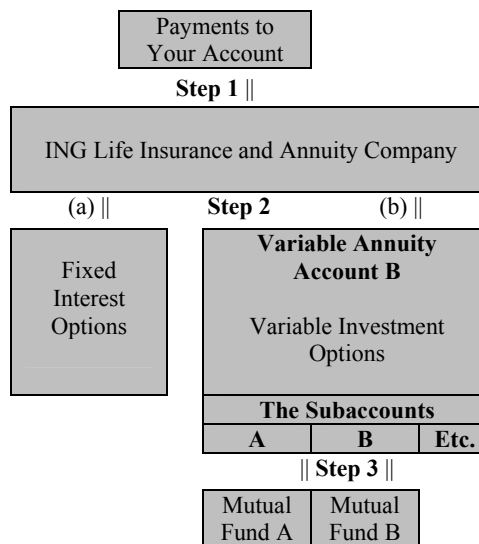

I. Accumulation Phase (accumulating retirement benefits)

STEP 1: You or the contract holder provide the Company with your completed enrollment materials. The contract holder directs us to set up an account for you.

STEP 2: The contract holder, or you if permitted by your plan, directs us to invest your account dollars in any of the:

- (a) Fixed Interest Options; and/or
- (b) Variable Investment Options. (The variable investment options are the subaccounts of Variable Annuity Account B. Each one invests in a specific mutual fund.)

STEP 3: The subaccount(s) selected purchases shares of its corresponding fund.

II. The Income Phase (receiving income phase payments from your contract)

The contract offers several payment options. See “The Income Phase.” In general, you may:

- ▷ Receive income phase payments over a lifetime or for a specified period;
- ▷ Receive income phase payments monthly, quarterly, semi-annually or annually;
- ▷ Select an option that provides a death benefit to beneficiaries; and
- ▷ Select fixed income phase payments or payments that vary based on the performance of the variable investment options you select.

In This Section:

- ▷ Maximum Contract Holder Transaction Expenses;
- ▷ Annual Maintenance Fee;
- ▷ Maximum Separate Account Annual Expenses;
- ▷ Total Annual Fund Operating Expenses;
- ▷ Hypothetical Examples; and
- ▷ Fees Deducted by the Funds.

Also see the “Fees” Section for:

- ▷ Early Withdrawal Charge Schedules;
- ▷ Redemption Fees;
- ▷ How, When and Why Fees are Deducted;
- ▷ Reduction, Waiver and/or Elimination of Certain Fees;
- ▷ Premium and Other Taxes; and

See “The Income Phase” for:

- ▷ Fees during the income phase.

FEE TABLE

The following tables describe the fees and expenses that you will pay when buying, owning, and withdrawing from your contract. The first table describes the fees and expenses that you will pay at the time that you buy the contract, withdraw from the contract, or transfer cash value between investment options. State premium taxes may also be deducted.* See “The Income Phase” for fees that may apply after you begin receiving payments under the contract.

Maximum Contract Holder Transaction Expenses

Early Withdrawal Charge ¹ (as a percentage of amount withdrawn)	5%
---	----

¹ This is a deferred sales charge. The percentage will be determined by the applicable early withdrawal charge schedule in the “Fees” section. In certain cases, this charge may not apply to a portion or all of your withdrawal. The early withdrawal charge reduces over time. These fees may be waived, reduced or eliminated in certain circumstances. See the “Fees” section.

The next table describes the fees and expenses that you will pay periodically during the time that you own the contract, not including fund fees and expenses.

Annual Maintenance Fee

Installment Purchase Payment Accounts	\$20.00 ²
Single Purchase Payment Accounts	\$0.00

Maximum Separate Account Annual Expenses

(as a percentage of average account value)

Mortality and Expense Risk Charge	1.25% ²
Administrative Expense Charge	0.25% ³
Total Separate Account Expenses	<u>1.50%</u>

² These charges may be waived, reduced or eliminated in certain circumstances. See “Fees.”

³ We only impose this charge under some contracts. See “Fees.”

*State premium taxes (which currently range from 0% to 4% of premium payments) may apply, but are not reflected in the fee tables or examples. See “Premium and Other Taxes.”

The next item shows the minimum and maximum total operating expenses charged by the funds that you may pay periodically during the time that you own the contract. The minimum and maximum expenses listed below are based on expenses for the funds' most recent fiscal year ends without taking into account any fee waiver or expense reimbursement arrangements that may apply. More detail concerning each fund's fees and expenses is contained in the prospectus for each fund.

	Minimum	Maximum
Total Annual Fund Operating Expenses (expenses that are deducted from fund assets, including management fees, distribution (12b-1) and/or service fees, and other expenses)	0.27%	1.52%

Hypothetical Examples

The following Examples are intended to help you compare the cost of investing in the contract with the cost of investing in other variable annuity contracts. These costs include contract holder transaction expenses, contract fees including an annual maintenance fee of \$20 (converted to a percentage of assets equal to 0.019%), separate account annual expenses, and fund fees and expenses.

Example 1: The following Examples assume that you invest \$10,000 in the contract for the time periods indicated. The Examples also assume that your investment has a 5% return each year and assume the **maximum** fees and expenses of any of the funds. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

(A) If you withdraw your entire account value at the end of the applicable time period*:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$817	\$1,469	\$2,147	\$3,354

(B) If you do not withdraw your entire account value or if you select an income phase payment option at the end of the applicable time period:**

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$307	\$939	\$1,596	\$3,354

Example 2: The following Examples assume that you invest \$10,000 in the contract for the time periods indicated. The Examples also assume that your investment has a 5% return each year and assume the **minimum** fees and expenses of any of the funds. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

(A) If you withdraw your entire account value at the end of the applicable time period*:

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$698	\$1,113	\$1,555	\$2,104

(B) If you do not withdraw your entire account value or if you select an income phase payment option at the end of the applicable time period:**

<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
\$182	\$563	\$969	\$2,104

* This example reflects deduction of an early withdrawal charge calculated using the schedule applicable to Installment Purchase Payment Accounts. The Installment Purchase Payment Accounts schedule is listed in "Fees." Under that schedule, if only one \$10,000 payment was made as described above, fewer than 5 purchase payment periods would have been completed at the end of years 1, 3 and 5, and the 5% charge would apply. At the end of the tenth account year, the early withdrawal charge is waived regardless of the number of purchase payment periods completed, and no early withdrawal charge would apply.

** This example does not apply if during the income phase a nonlifetime payment option is elected with variable payments is selected and a lump-sum withdrawal is requested within 3 years after payments start. In this case, the lump-sum payment is treated as a withdrawal during the accumulation phase and may be subject to an early withdrawal charge as shown in Example A.

Fees Deducted by the Funds

Fund Fee Information. The fund prospectuses show the investment advisory fees, 12b-1 fees and other expenses including service fees (if applicable) charged annually by each fund. See the “Fees” section of this prospectus, and the fund prospectuses, for further information. Fund fees are one factor that impact the value of a fund share. To learn about additional factors, refer to the fund prospectuses.

The Company may receive compensation from each of the funds or the funds’ affiliates based on an annual percentage of the average net assets held in that fund by the Company. The percentage paid may vary from one fund company to another. For certain funds, some of this compensation may be paid out of 12b-1 fees or service fees that are deducted from fund assets. Any such fees deducted from fund assets are disclosed in the fund prospectuses. The Company may also receive additional compensation from certain funds for administrative, recordkeeping or other services provided by the Company to the funds or the funds’ affiliates. These additional payments may also be used by the Company to finance distribution. These additional payments are made by the funds or the funds’ affiliates to the Company and do not increase, directly or indirectly, the fund fees and expenses. See “Fees - Fund Fees and Expenses” for additional information.

In the case of fund companies affiliated with the Company, where an affiliated investment adviser employs subadvisers to manage the funds, no direct payments are made to the Company or the affiliated investment adviser by the subadvisers. Subadvisers may provide reimbursement for employees of the Company or its affiliates to attend business meetings or training conferences. Investment management fees are apportioned between the affiliated investment adviser and subadviser. This apportionment varies by subadviser, resulting in varying amounts of revenue retained by the investment adviser. This apportionment of the investment advisory fee does not increase, directly or indirectly, fund fees and expenses. See “Fees - Fund Fees and Expenses” for additional information.

How Fees are Deducted. Fees are deducted from the value of the fund shares on a daily basis, which in turn affects the value of each subaccount that purchases fund shares.

CONDENSED FINANCIAL INFORMATION

Understanding Condensed Financial Information. In Appendix V, we provide condensed financial information about the Variable Annuity Account B subaccounts available under the contracts. The tables show the value of the subaccounts over the past 10 years. For subaccounts that were not available 10 years ago, we give a history from the date of first availability or the date purchase payments were first received (as noted in the tables).

Financial Statements. The statements of assets and liabilities, the statements of operations, the statements of changes in net assets and the related notes to financial statements for Variable Annuity Account B and the consolidated financial statements and the related notes to financial statements for ING Life Insurance and Annuity Company are located in the Statement of Additional Information.

VARIABLE ANNUITY ACCOUNT B

We established Variable Annuity Account B (the “separate account”) under Connecticut Law in 1976 as a continuation of the separate account established in 1974 under Arkansas law of Aetna Variable Annuity Life Insurance Company. The separate account was established as a segregated asset account to fund variable annuity contracts. The separate account is registered as a unit investment trust under the Investment Company Act of 1940 (the “40 Act”). It also meets the definition of “separate account” under the federal securities laws.

The separate account is divided into “subaccounts.” These subaccounts invest directly in shares of a corresponding fund.

Although we hold title to the assets of the separate account, such assets are not chargeable with the liabilities of any other business that we conduct. Income, gains or losses of the separate account are credited to or charged against the assets of the separate account without regard to other income, gains or losses of ING Life Insurance and Annuity Company. All obligations arising under the contracts are obligations of ING Life Insurance and Annuity Company.

THE COMPANY

ING Life Insurance and Annuity Company (the Company, we, us, our) issues the contracts described in this prospectus and is responsible for providing each contract's insurance and annuity benefits. We are a direct, wholly owned subsidiary of Lion Connecticut Holdings Inc.

We are a stock life insurance company organized under the insurance laws of the State of Connecticut in 1976 and an indirect wholly owned subsidiary of ING Groep N.V., a global financial institution active in the fields of insurance, banking and asset management. Through a merger, our operations include the business of Aetna Variable Annuity Insurance Company (formerly known as Participating Annuity Life Insurance Company, an Arkansas life insurance company organized in 1954). Prior to May 1, 2002, the Company was known as Aetna Life Insurance and Annuity Company.

We are engaged in the business of issuing life insurance and annuities.

Our principal executive offices are located at:

151 Farmington Avenue
Hartford, Connecticut 06156

Regulatory Developments – the Company and the Industry. As with many financial services companies, the Company and its affiliates have received informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the financial services industry. In each case, the Company and its affiliates have been and are providing full cooperation.

Insurance and Retirement Plan Products and Other Regulatory Matters. The New York Attorney General, other federal and state regulators and self-regulatory agencies are also conducting broad inquiries and investigations involving the insurance and retirement industries. These initiatives currently focus on, among other things, compensation, revenue sharing, and other sales incentives; potential conflicts of interest; potential anti-competitive activity; reinsurance; marketing practices; specific product types (including group annuities and indexed annuities); and disclosure. It is likely that the scope of these industry investigations will further broaden before they conclude. The Company and certain of its U.S. affiliates have received formal and informal requests in connection with such investigations, and are cooperating fully with each request for information. Some of these matters could result in regulatory action involving the Company.

These initiatives also may result in new legislation and regulation that could significantly affect the financial services industry, including businesses in which the Company is engaged.

In light of these and other developments, U.S. affiliates of ING, including the Company, periodically review whether modifications to their business practices are appropriate.

Investment Product Regulatory Issues. Since 2002, there has been increased governmental and regulatory activity relating to mutual funds and variable insurance products. This activity has primarily focused on inappropriate trading of fund shares; directed brokerage; compensation; sales practices, suitability, and supervision; arrangements with service providers; pricing; compliance and controls; adequacy of disclosure; and document retention.

In addition to responding to governmental and regulatory requests on fund trading issues, ING management, on its own initiative, conducted, through special counsel and a national accounting firm, an extensive internal review of mutual fund trading in ING insurance, retirement, and mutual fund products. The goal of this review was to identify any instances of inappropriate trading in those products by third parties or by ING investment professionals and other ING personnel.

The internal review identified several isolated arrangements allowing third parties to engage in frequent trading of mutual funds within the variable insurance and mutual fund products of certain affiliates of the Company, and identified other

circumstances where frequent trading occurred despite measures taken by ING intended to combat market timing. Each of the arrangements has been terminated and disclosed to regulators, to the independent trustees of ING Funds (U.S.) and in Company reports previously filed with the Securities and Exchange Commission ("SEC") pursuant to the Securities Exchange Act of 1934, as amended.

Action may be taken by regulators with respect to certain ING affiliates before investigations relating to fund trading are completed. The potential outcome of such action is difficult to predict but could subject certain affiliates to adverse consequences, including, but not limited to, settlement payments, penalties, and other financial liability. It is not currently anticipated, however, that the actual outcome of any such action will have a material adverse effect on ING or ING's U.S.-based operations, including the Company.

ING has agreed to indemnify and hold harmless the ING Funds from all damages resulting from wrongful conduct by ING or its employees or from ING's internal investigation, any investigations conducted by any governmental or self-regulatory agencies, litigation or other formal proceedings, including any proceedings by the SEC. Management reported to the ING Funds Board that ING management believes that the total amount of any indemnification obligations will not be material to ING or ING's U.S.-based operations, including the Company.

Product Regulation. Our products are subject to a complex and extensive array of state and federal tax, securities and insurance laws, and regulations, which are administered and enforced by a number of governmental and self-regulatory authorities. In addition, state and federal securities and insurance laws impose requirements relating to insurance and annuity product design, offering and distribution, and administration. Failure to meet any of these complex tax, securities, or insurance requirements could subject the Company to administrative penalties, unanticipated remediation, or other claims and costs.

INVESTMENT OPTIONS

The contract offers variable investment options and fixed interest options. When we establish your account(s), the contract holder, or you if permitted by the plan, instructs us to direct account dollars to any of the available options.

Variable Investment Options. These options are called subaccounts. The subaccounts are within Variable Annuity Account B (the separate account), a separate account of the Company. Earnings on amounts invested in a subaccount will vary depending upon the performance and fees of its underlying fund. You do not invest directly in or hold shares of the funds.

Fund Descriptions. We provide brief descriptions of the funds in Appendix IV. Please refer to the fund prospectuses for additional information. Fund prospectuses may be obtained, free of charge at the address and telephone number listed in "Contract Overview - Questions" or by accessing the SEC's web site or by contacting the SEC Public Reference Branch.

Fixed Interest Options. For descriptions of the fixed interest options, see Appendices I, II, and III and the Guaranteed Accumulation Account prospectus. The Guaranteed Accumulation Account Prospectus may be obtained free of charge at the address and telephone number listed in "Contract Overview-Questions: Contacting the Company," by accessing the SEC's website or by contacting the SEC Public Reference Branch.

Selecting Investment Options

- Choose options appropriate for you. Your local representative can help you evaluate which subaccounts or fixed interest options may be appropriate for your financial goals.
- Understand the risks associated with the options you choose. Some subaccounts invest in funds that are considered riskier than others. Funds with additional risks are expected to have a value that rises and falls more rapidly and to a greater degree than other funds. For example, funds investing in foreign or international securities are subject to additional risks not associated with domestic investments, and their performance may vary accordingly. Also, funds using derivatives in their investment strategy may be subject to additional risks.
- Be informed. Read this prospectus, the fund prospectus, fixed interest option appendices and the Guaranteed Accumulation Account prospectus.

Limits on Option Availability. Some subaccounts and fixed interest options may not be available through certain contracts and plans or in some states. We may add, withdraw or substitute investment options, subject to the conditions in the contract and regulatory requirements. In the case of a substitution, the new fund may have different fees and charges than the fund it replaced.

Limits on Number of Options Selected. No more than 18 investment options may be selected for your account at any one time. Each subaccount, the Fixed Account, the Fixed Plus Account and each classification of the Guaranteed Accumulation Account selected counts as one option.

Additional Risks of Investing in the Funds. (*Mixed and Shared Funding*) The funds described in this prospectus are available only to insurance companies for their variable contracts. Such funds are often referred to as “insurance-dedicated funds,” and are used for “mixed” and “shared” funding.

“Mixed funding” occurs when shares of a fund, which the subaccounts buy for variable annuity contracts, are bought for variable life insurance contracts issued by us or other insurance companies.

“Shared funding” occurs when shares of a fund, which the subaccounts buy for variable annuity contracts, are also bought by other insurance companies for their variable annuity contracts.

- ▷ Mixed – bought for annuities and life insurance
- ▷ Shared – bought by more than one company

Possible Conflicts of Interest. With respect to the funds, it is possible that a conflict of interest may arise due to mixed and shared funding, a change in law affecting the operations of variable annuity separate accounts, differences in the voting instructions of the contract holder and others maintaining a voting interest in the funds, or some other reason. Such a conflict could adversely impact the value of a fund. For example, if a conflict of interest occurred and one of the subaccounts withdrew its investment in a fund, the fund may be forced to sell its securities at disadvantageous prices, causing its share value to decrease. Each fund’s board of directors or trustees will monitor events in order to identify any material irreconcilable conflicts which may arise and to determine what action, if any, should be taken to address such conflicts. With respect to the funds, in the event of a conflict, the Company will take any steps necessary to protect contract holders and annuitants maintaining a voting interest in the funds, including the withdrawal of Variable Annuity Account B from participation in the funds which are involved in the conflict.

TRANSFERS

Transfers Among Investment Options. During the accumulation phase (and under some contracts, during the income phase) the contract holder, or you if permitted by the plan, may transfer amounts among investment options. Transfers from fixed interest options are restricted as outlined in Appendices I, II and III. Transfers may be requested in writing, by telephone or, where available, electronically. Transfers must be made in accordance with the terms of the contract.

Value of Transferred Dollars. The value of amounts transferred into or out of the funds will be based on the subaccount unit values next determined after we receive your transfer request in good order at the address listed in “Contract Overview-Questions: Contacting the Company,” or if you are participating in the dollar cost averaging program, after your scheduled transfer. The contracts may restrict how many transfers, if any, are allowed among options during the income phase.

Telephone and Electronic Transfers: Security Measures. To prevent fraudulent use of telephone or electronic transactions (including, but not limited to, Internet transactions), we have established security procedures. These include recording calls on our toll-free telephone lines and requiring use of a personal identification number (PIN) to execute transactions. You are responsible for keeping your PIN and account information confidential. If we fail to follow reasonable security procedures, we may be liable for losses due to unauthorized or fraudulent telephone or other electronic transactions. We are not liable for losses resulting from following telephone or electronic instructions we believe to be genuine. If a loss occurs when we rely on such instructions, you will bear the loss.

Limits Imposed by Underlying Funds. Most underlying funds have their own excessive trading policies, and orders for the purchase of fund shares are subject to acceptance or rejection by the underlying fund. We reserve the right to reject, without prior notice, any allocation or transfer to a subaccount if the corresponding fund will not accept the allocation or transfer for any reason.

Limits on Frequent or Disruptive Transfers. The contract is not designed to serve as a vehicle for frequent transfers. Frequent transfer activity can disrupt management of a fund and raise its expenses through:

- Increased trading and transaction costs;
- Forced and unplanned portfolio turnover;
- Lost opportunity costs; and
- Large asset swings that decrease the fund's ability to provide maximum investment return to all contract holders and participants.

This in turn can have an adverse effect on fund performance. **Accordingly, individuals or organizations that use market-timing investment strategies or make frequent transfers should not purchase or participate in the contract.**

We have an excessive trading policy and monitor transfer activity. You will violate our excessive trading policy if your transfer activity:

- Exceeds our current definition of excessive trading, as defined below;
- Is identified as problematic by an underlying fund (even if the activity does not exceed our monitoring standard for excessive trading);
- Is determined, in our sole discretion, to be disruptive due to the excessive dollar amounts involved; or
- Is determined, in our sole discretion, to be not in the best interests of other contract holders or participants.

If we determine that you have violated our excessive trading policy we will take the following actions. Upon the first violation, we will send to you a one time warning letter. After a second violation we will suspend your transfer privileges via facsimile, telephone, email and the internet, and your transfer privileges will be limited to submission by regular U.S. mail for a period of six months. Our suspension of your electronic transfer privileges will relate to all transfers, not just those fund(s) involved in the excessive transfer activity, and may extend to other Company variable annuity contracts that you own or participate in. It may also be extended to other variable contracts and variable life insurance policies that are issued to you by our affiliates, or that you participate in. At the end of the six month suspension period, your electronic transfer privileges will be reinstated. If, however, you violate our excessive trading policy again, after your electronic transfer privileges have been reinstated, we will suspend your electronic transfer privileges permanently. We will notify you in writing if we take any of these actions.

Additionally, if we determine that our excessive trading policy has been violated by a market-timing organization or an individual or other party that is authorized to give transfer instructions on your behalf, whether such violation relates to your contract or to another contract holder or participant's variable contract or policy, we will also take the following actions, without prior notice:

- Not accept transfer instructions from that organization individual or other party; and
- Not accept preauthorized transfer forms from market timing organizations individuals or other parties acting on behalf of more than one contract holder or participant at a time.

Our current definition of excessive trading is more than one purchase and sale of the same underlying fund within a 30-day period. We do not count transfers associated with scheduled dollar cost averaging or automatic rebalancing programs and transfers involving certain de minimis amounts when determining whether transfer activity is excessive.

The Company does not allow exceptions to our excessive trading policy. We reserve the right to modify our excessive trading policy, or the policy as it relates to a particular fund, at any time without prior notice, depending on, among other factors, the needs of the underlying fund(s), the best interests of contract holders, participants, and fund investors, and/or state or federal regulatory requirements. If we modify our policy, it will be applied uniformly to all contract holders and participants or, as applicable, to all contract holders and participants investing in the underlying fund.

Our excessive trading policy may not be completely successful in preventing market timing or excessive trading activity. If it is not completely successful, fund performance and management may be adversely affected, as noted above.

The Company Intends to Modify its Excessive Trading Policy in October 2007. At that time, the Company will begin restricting electronic transfer privileges if a contract holder or participant (1) requests two purchases and subsequent sales of the same fund in a 60 calendar day period; or (2) requests six purchases and subsequent sales of the same fund within a twelve month period. We may change these planned modifications before they are implemented.

The Company intends to notify contract holders and participants before we implement these changes; however, failure to provide this notice will not prevent the Company from implementing these or any other changes to our excessive trading policy.

Agreements to Share Information with Funds. As required by Rule 22c-2 under the 1940 Act, the Company has entered into information sharing agreements with each of the fund companies whose funds are offered through the contract. Contract holder and participant trading information is shared under these agreements as necessary for the fund companies to monitor fund trading and the Company's excessive trading policy. Under these agreements, the Company is required to share information regarding contract holder and participant transactions, including but not limited to information regarding fund transfers initiated by you. In addition to information about contract holder and participant transactions, this information may include personal contract holder and participant information, including names and social security numbers or other tax identification numbers.

As a result of this information sharing, a fund company may direct us to restrict a contract holder or participant's transactions if the fund determines that the contract holder or participant has violated the fund's trading policies. This could include the fund directing us to reject any allocations of purchase payments or account value to the fund.

The Dollar Cost Averaging Program. If available under your plan, you may participate in our dollar cost averaging program. There is no additional charge for this service. Dollar cost averaging is a system for investing that buys fixed dollar amounts of an investment at regular intervals, regardless of price. Our program transfers, at regular intervals, a fixed dollar amount to one or more subaccounts that you select. Dollar cost averaging neither ensures a profit nor guarantees against loss in a declining market. You should consider your financial ability to continue purchases through periods of low price levels. For additional information about this program, contact your local representative or call the Company at the number listed in "Contract Overview – Questions: Contacting the Company."

CONTRACT PURCHASE AND PARTICIPATION

Contracts Available for Purchase. The contracts are designed for deferred compensation plans sponsored by an employer for its employees and/or independent contractors. The plans may be sponsored by:

- (1) Non-governmental tax-exempt organizations for deferrals that are subject to Tax Code section 457 (457 Plans);
- (2) Tax-exempt organizations for deferrals not subject to Tax Code section 457; or
- (3) Taxable organizations.

The types of plans described in (2) and (3) above are referred to as non-section 457 plans.

When considering whether to purchase or participate in the contract, you should consult with your financial representative about your financial goals, investment time horizon and risk tolerance.

Use of an Annuity Contract in Your Plan. Under the federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of tax-favored deferred compensation arrangements (such as 457 plans or non-section 457 plans), an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the arrangement itself. Annuities do provide other features and benefits (such as the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with your financial representative, taking into account the additional fees and expenses you may incur in an annuity.

Purchasing the Contract.

- (1) The contract holder submits the required forms and application to the Company.
- (2) We approve the forms and issue a contract to the contract holder.

Participating in the Contract. To participate in the contract, complete an enrollment form and submit it to us. If your enrollment is accepted, we establish an account for you under the contract. The contract holder must determine your eligibility to participate in its plan. We are not responsible for such determination.

Acceptance or Rejection. We must accept or reject an application or your enrollment materials within two business days of receipt. If the forms are incomplete, we may hold any forms and accompanying purchase payments for five business days, unless you consent to our holding them longer. Under limited circumstances, we may also agree, for a particular plan, to hold purchase payments for longer periods with the permission of the contract holder. If we agree to do this, we will deposit the purchase payments in the ING VP Money Market Portfolio subaccount until the forms are completed (or for a maximum of 105 days). If we reject the application or enrollment, we will return the forms and any purchase payments.

Methods of Purchase Payment. The following purchase payment methods are available:

- ▷ Continuous payments over time into an installment purchase payment account. Payments to an installment purchase payment account must be at least \$100 per month (\$1,200 annually). No payment may be less than \$25.
- ▷ Lump-sum transfer from a previous plan into a single purchase payment account, in accordance with our procedures in effect at the time of purchase.

If you participate in a 457(b) plan, the Tax Code places limits on how much of your compensation may be deferred annually. See “Taxation” for further information.

Allocation of Purchase Payments. The contract holder or you, if the contract holder permits, directs us to allocate initial contributions to the investment options available under the plan. Generally you will specify this information on your enrollment materials. After your enrollment, changes to allocations for future purchase payments or transfer of existing balances among investment options may be requested in writing and, where available, by telephone or electronically.

Allocations must be in whole percentages and there may be limitations on the number of investment options that can be selected at any one time. See “Investment Options” and “Transfers.”

Transfer Credits. The Company provides a transfer credit in some cases on transferred assets, as defined by the Company, subject to certain conditions and state approvals. This benefit is provided on a nondiscriminatory basis. If a transfer credit is due under the contract, you will be provided with additional information specific to the contract.

Election of a transfer credit may impact the mortality and expense risk charge and the credited interest rate under certain fixed interest options. See “Fees” and “Appendix III.”

Tax Code Restrictions. The Tax Code places some limitations on contributions to your account. See “Taxation.”

Factors to Consider in the Purchase Decision. The decision to purchase or participate in the contract should be discussed with your financial representative. Make sure that you understand the investment options it provides, its other features, the risks and potential benefits you will face, and the fees and expenses you will incur when, together with your financial representative, you consider an investment in the contract. You should pay attention to the following issues, among others:

1. Long-Term Investment - This contract is a long-term investment, and is typically most useful as part of a personal retirement plan. Early withdrawals may be restricted by the Tax Code or your plan, or may expose you to early withdrawal charges or tax penalties. The value of deferred taxation on earnings grows with the amount of time funds are left in the contract. You should not participate in this contract if you are looking for a short-term investment or expect to need to make withdrawals before you are 59½ (or otherwise able to withdraw amounts from your plan).
2. Investment Risk - The value of investment options available under this contract may fluctuate with the markets and interest rates. You should not participate in this contract in order to invest in these options if you cannot risk getting back less money than you put in.
3. Features and Fees - The fees for this contract reflect costs associated with the features and benefits it provides. As you consider this contract, you should determine the value that these various benefits and features have for you, given your particular circumstances, and consider the charges for those features.
4. Exchanges - Replacing an existing insurance contract with this contract may not be beneficial to you. If this contract will be a replacement for another annuity contract or mutual fund option under the plan, you should compare the two options carefully, compare the costs associated with each, and identify additional benefits available under this contract. You should consider whether these additional benefits justify incurring a new schedule of early withdrawal charges or any increased charges that might apply under this contract. Also, be sure to talk to your financial professional or tax adviser to make sure that the exchange will be handled so that it is tax-free.

Other Products. We and our affiliates offer various other products with different features and terms than these contracts, which may offer some or all of the same funds. These products have different benefits, fees and charges, and may offer different share classes of the funds offered in this contract that are less expensive. These other products may or may not better match your needs. You should be aware that there are alternative options available, and, if you are interested in learning more about these other products, contact your registered representatives. These alternative options may not be available under your plan.

CONTRACT OWNERSHIP AND RIGHTS

Who Owns the Contract? The contract holder. This is the person or entity to whom we issue the contract.

Who Owns Money Accumulated under the Contract? All dollars accumulated under the contracts, including contributions attributable to deferred compensation, are part of your employer's general assets and subject to the claims of its general creditors. The plan exclusively governs what benefits are available to you and those benefits are provided from your employer's general assets.

What Rights Do I Have under the Contract? The contract holder, usually your employer, holds all rights under the contract. The contract holder's plan, which you participate in, may permit you to exercise some of those rights.

RIGHT TO CANCEL

When and How to Cancel. If the contract holder chooses to cancel a contract, we must receive the contract and a written notice of cancellation within 10 days (or a longer period if required by state law) after the contract holder's receipt of the contract.

Refunds to Contract Holders. We will produce a refund to the contract holder not later than seven calendar days after we receive the contract and the written notice of cancellation at the address listed in "Contract Overview-Questions: Contacting the Company." The refund will equal amounts contributed to the contract plus any earnings or less any losses attributable to the investment options in which amounts were invested. Any mortality and expense risk charges and administrative expense charges (if any) deducted during the period you held the contract will not be returned. We will not deduct an early withdrawal charge, nor apply a market value adjustment to any amounts you contributed to the Guaranteed Accumulation Account. In certain states, we are required to refund contributions. When a refund of contributions is not required, the investor bears any investment risk.

FEES

The following repeats and adds to information provided in the “Fee Table” section. Please review both this section and the Fee Table for information on fees.

I. Maximum Transaction Fees

Early Withdrawal Charge

Withdrawals of all or a portion of your account value may be subject to a charge. In the case of a partial withdrawal where you request a specified dollar amount, the amount withdrawn from your account will be the amount you specified plus adjustment for any applicable early withdrawal charge.

Purpose. This is a deferred sales charge. It reimburses us for some of the sales and administrative expenses associated with the contract. If our expenses are greater than the amount we collect for the early withdrawal charge, we may use any of our corporate assets, including potential profit that may arise from the mortality and expense risk charge, to make up any difference.

Amount. This charge is a percentage of the amount withdrawn. The percentage is determined by the early withdrawal charge schedule that applies to your account. It will never be more than 8.5% of your total purchase payments to your account.

Early Withdrawal Charge Schedules

Installment Purchase Payment Accounts		Single Purchase Payment Accounts	
Purchase Payment Periods or Deposit Cycles Completed	Early Withdrawal Charge	Account Years Completed	Early Withdrawal Charge
Fewer than 5	5%	Fewer than 5	5%
5 or more but fewer than 7	4%	5 or more but fewer than 6	4%
7 or more but fewer than 9	3%	6 or more but fewer than 7	3%
9 or more but fewer than 10	2%	7 or more but fewer than 8	2%
10 or more	0%	8 or more but fewer than 9	1%
		9 or more	0%

Types of Fees

There are four types of fees or deductions that may affect your account:

I. Maximum Transaction Fees

- Early Withdrawal Charge
- Annual Maintenance Fee
- Redemption Fees

II. Maximum Fees Deducted from the Subaccounts

- Mortality and Expense Risk Charge
- Administrative Expense Charge

III. Fund Fees and Expenses

IV. Premium and Other Taxes

Terms to Understand in Schedules

- ▷ Account Year - a 12-month period measured from the date we establish your account, or measured from any anniversary of that date.
- ▷ Purchase Payment Period (also called Deposit Cycle) (for installment purchase payments) - the period of time it takes to complete the number of installment payments expected to be made to your account over a year. For example, if your payment frequency is monthly, a payment period is completed after 12 purchase payments are made. If only 11 purchase payments are made, the Payment period is not completed until the twelfth purchase payment is made. At any given time, the number of payment periods completed cannot exceed the number of account years completed, regardless of the number of payments made.

Waiver. The early withdrawal charge is waived for portions of a withdrawal that are:

- ▷ Used to provide payments to you during the income phase;
- ▷ Paid because of your death before income phase payments begin;
- ▷ Paid where your account value is \$3,500 or less (or, if applicable, as otherwise allowed by the plan for a lump-sum cashout without a participant's consent) and no part of the account has been taken as a withdrawal or used to provide income phase payments within the prior 12 months;*
- ▷ Taken because of the election of a systematic distribution option (if available under your contract), see "Systematic Distribution Options";
- ▷ Taken when you are 59½ or older, have an installment purchase payment account and have completed at least nine purchase payment periods;
- ▷ Taken on or after the tenth anniversary of the effective date of the account;
- ▷ For 457 plans only, withdrawn due to a hardship resulting from an unforeseeable emergency as defined by the Tax Code, and regulations thereunder; or
- ▷ For contracts issued in connection with retirement programs for select management and highly compensated healthcare employees in plans formerly carried under certain hospital association endorsements, withdrawn due to your separation from service.

* If the contract holder makes a full withdrawal from more than one of the accounts on your behalf, the value of those accounts will be added together to determine eligibility for the \$3,500 exemption. This option is not available for contracts where we do not maintain participant accounts or for withdrawals of all accounts under one contract.

Reduction, Waiver or Elimination. In addition to the specific waivers described above, we may reduce, waive or eliminate the early withdrawal charge for a particular plan. Any such reduction will reflect the differences we expect in distribution costs or services meant to be defrayed by this charge. Factors we consider for a reduction include, but are not limited to, the following:

- ▷ The number of participants under the plan;
- ▷ The expected level of assets and/or cash flow under the plan;
- ▷ Our agent's involvement in sales activities;
- ▷ Our sales-related expenses;
- ▷ Distribution provisions under the plan;
- ▷ The plan's purchase of one or more other variable annuity contracts from us and the features of those contracts;
- ▷ The level of employer involvement in determining eligibility for distributions under the contract; and
- ▷ Our assessment of financial risk to the Company relating to withdrawals.

We will not reduce the early withdrawal charge in a manner that is unfairly discriminatory against any person.

We may also apply different early withdrawal charge provisions in contracts issued to certain employer groups or associations which have negotiated the contract terms on behalf of their employees. We will offer any resulting early withdrawal charge uniformly to all employees in the group.

Waiver of Early Withdrawal Charge (for those contracts that waive these charges upon separation from service). Although the Tax Code permits distributions upon a participant's severance from employment, the contracts do not provide for a waiver of early withdrawal charges unless, under certain contracts, the severance from employment would otherwise have qualified as a separation from service under prior IRS "same desk" guidance (prior to enactment of the Economic Growth and Tax Relief Reconciliation Act of 2001). Generally, a severance from employment due to a merger, liquidation, consolidation or other employer transaction does not qualify as a separation from service.

Annual Maintenance Fee

Maximum Amount. \$20.00. (This fee only applies to installment purchase payment accounts.)

When/How. For those plans that have a maintenance fee, each year during the accumulation phase we deduct this fee from your account value. We deduct it on your account anniversary and, in some cases, at the time of full withdrawal. It is deducted on a pro rata basis from your account value invested in the subaccounts and the fixed interest options. For certain contracts the maintenance fee is deducted for each asset account maintained under the contract, in which case a maximum of \$20 per asset account may be applied.

Purpose. This fee helps defray the administrative expenses we incur in establishing and maintaining your account.

Reduction, Waiver or Elimination. When the plan meets certain criteria, we may reduce, waive or eliminate the maintenance fee. Factors we consider reflect differences in our level of administrative costs and services, such as:

- ▷ The size, type and nature of the group for which a contract is issued;
- ▷ The amount of contributions to the contract;
- ▷ The anticipated level of administrative expenses such as billing for payments, producing periodic reports, providing for the direct payment of account charges rather than having them deducted from account values, and any other factors pertaining to the level and expense of administrative services we will provide; and
- ▷ The number of eligible participants and the program's participation rate.

We will not unfairly discriminate against any person if we reduce or eliminate the maintenance fee. We will make any reduction or elimination of this fee according to our own rules in effect at the time an application for a contract is approved. We reserve the right to change these rules from time to time.

Redemption Fees

Certain funds may deduct redemption fees as a result of withdrawals, transfers, or other fund transactions you initiate. If applicable, we may deduct the amount of any redemption fees imposed by the underlying mutual funds as a result of withdrawals, transfers or other fund transactions you initiate. Redemption fees, if any, are separate and distinct from any transaction charges or other charges deducted from your account value. For a more complete description of the funds' fees and expenses, review each funds' prospectus.

II. Maximum Fees Deducted from the Subaccounts

Mortality and Expense Risk Charge

Maximum Amount. 1.25% annually of your account value invested in the subaccount.

When/How. This fee is deducted daily from the subaccount. We do not deduct this from any fixed interest option. This fee is assessed during the accumulation phase and the income phase. See "The Income Phase - Fees Deducted."

Purpose. This fee compensates us for the mortality and expense risks we assume under the contracts.

- ▷ The mortality risks are those risks associated with our promise to make lifetime income phase payments based on annuity rates specified in the contracts and our funding of the death benefit and other payments we make to owners or beneficiaries of the accounts.
- ▷ The expense risk is the risk that the actual expenses we incur under the contracts will exceed the maximum costs that we can charge.

If the amount we deduct for this fee is not enough to cover our mortality costs and expenses under the contracts, we will bear the loss. We may use any excess to recover distribution costs relating to the contract and as a source of profit. We expect to make a profit from this fee.

Reduction. We may reduce the mortality and expense risk charge from the maximum when the plan meets certain criteria and we agree to the reduction with the contract holder in writing. Some contracts have a reduced mortality and expense risk charge only during the accumulation phase of the account which then increases during the income phase (but not beyond the maximum amount). Any reduction will reflect differences in expenses for administration based on such factors as:

- ▷ The plan design (for example, the plan may favor stability of invested assets and limit the conditions for withdrawals and available investment options, which in turn lowers administrative expenses);
- ▷ The size of the prospective group, projected annual number of eligible participants and the program's participation rate, or the number of participants estimated to choose the contract;
- ▷ The frequency, consistency and method of submitting payments;
- ▷ The method and extent of onsite services we provide and the contract holder's involvement in services such as enrollment and ongoing participant services;
- ▷ The contract holder's support and involvement in the communication, enrollment, participant education and other administrative services;
- ▷ The projected frequency of distributions;
- ▷ The type and level of other factors that affect the overall administrative expense; and
- ▷ Whether or not a transfer credit was selected by the plan sponsor.

We will determine any reduction of mortality and expense risk on a basis that is not unfairly discriminatory according to our rules in effect at the time a contract application is approved. We reserve the right to change these rules from time to time.

Administrative Expense Charge

Maximum Amount. 0.25% annually of your account value invested in the subaccounts.

When/How. For all participants who became covered under a contract on or before November 5, 1984, we reserve the right to charge an administrative expense fee of up to 0.25% annually. This fee may be assessed during the accumulation phase and/or the income phase. If we are imposing this fee under the contract issued in connection with your plan when you enter the income phase, the fee will apply to you during the entire income phase.

The administrative expense charge is not imposed on all contracts:

- ▷ We do not currently impose this charge under any contracts issued in connection with retirement programs for select management and highly compensated healthcare employees in plans formerly carried under certain hospital association endorsements.
- ▷ For contracts not in the above category, beginning on April 4, 1997 we began to deduct this charge during the accumulation phase only for contracts effective before October 31, 1996 where the number of participants was less than 30 as of November 30, 1996 and the contract holder had chosen not to elect one of the Company's electronic standards for cash collection and application of participant contribution data. However, we do not impose the administrative expense charge for participants under those contracts who enrolled in a group contract or became covered under an individual contract before November 5, 1984.
- ▷ We do not currently deduct an administrative expense charge during the accumulation phase for any contracts other than those described above.
- ▷ We do not currently deduct an administrative expense charge during the income phase for any contracts.

Purpose. This fee helps defray our administrative expenses that cannot be covered by the mortality and expense risk charge described above. The fee is not intended to exceed the average expected cost of administering the contracts. We do not expect to make a profit from this fee.

III. Fund Fees and Expenses

As shown in the fund prospectuses and described in the “Fees Deducted by the Funds” section of this prospectus, each fund deducts management fees from the amounts allocated to the fund. In addition, each fund deducts other expenses which may include service fees that may be used to compensate service providers, including the Company and its affiliates, for administrative and contract holder services provided on behalf of the fund. Furthermore, certain funds deduct a distribution or 12b-1 fee, which is used to finance any activity that is primarily intended to result in the sale of fund shares. **For a more complete description of the funds’ fees and expenses, review each fund’s prospectus.**

The Company or its U.S. affiliates receive substantial revenue from each of the funds or the funds’ affiliates, although the amount and types of revenue vary with respect to each of the funds offered through the contract. This revenue is one of several factors we consider when determining contract fees and charges and whether to offer a fund through our contracts. **Fund revenue is important to the Company’s profitability, and it is generally more profitable for us to offer affiliated funds than to offer unaffiliated funds.**

In terms of total dollar amounts received, the greatest amount of revenue generally comes from assets allocated to funds managed by Directed Services LLC or other Company affiliates, which funds may or may not also be subadvised by a Company affiliate. Assets allocated to funds managed by a Company affiliate but subadvised by unaffiliated third parties generally generate the next greatest amount of revenue. Finally, assets allocated to unaffiliated funds generate the least amount of revenue. The Company expects to make a profit from this revenue to the extent it exceeds the Company’s expenses, including the payment of sales compensation to our distributors.

Types of Revenue Received from Affiliated Funds

Affiliated funds are (a) funds managed by Directed Services LLC or other Company affiliates, which may or may not also be subadvised by another Company affiliate; and (b) funds managed by a Company affiliate but that are subadvised by unaffiliated third parties.

Revenues received by the Company from affiliated funds may include:

- A share of the management fee deducted from fund assets, which are disclosed in each fund prospectus;
- Service fees that are deducted from fund assets;
- For certain share classes, the Company or its affiliates may also receive compensation paid out of 12b-1 fees that are deducted from fund assets; and
- Other revenues that may be based either on an annual percentage of average net assets held in the fund by the Company or a percentage of the fund’s management fees.

These revenues may be received as cash payments or according to a variety of financial accounting techniques which are used to allocate revenue and profits across the organization. In the case of affiliated funds subadvised by unaffiliated third parties, any sharing of the management fee between the Company and the affiliated investment adviser is based on the amount of such fee remaining after the subadvisory fee has been paid to the unaffiliated subadviser. Because subadvisory fees vary by subadviser, varying amounts of revenue are retained by the affiliated investment adviser and ultimately shared with the Company.

Types of Revenue Received from Unaffiliated Funds

Revenue received from each of the unaffiliated funds or their affiliates is based on an annual percentage of the average net assets held in that fund by the Company. Some unaffiliated funds or their affiliates pay us more than others and some of the amounts we receive may be significant.

Revenues received by the Company or its affiliates from unaffiliated funds include:

- For certain funds, compensation paid from 12b-1 fees or service fees that are deducted from fund assets; and
- Additional payments for administrative, recordkeeping or other services which we provide to the funds or their affiliates, such as processing purchase and redemption requests, and mailing fund prospectuses, periodic reports and proxy materials. These additional payments do not increase directly or indirectly the fees and expenses shown in each fund prospectus. These additional payments may be used by us to finance distribution of the contract.

The revenues are received as cash payments, and if the unaffiliated fund families currently offered through the contract were individually ranked according to the total amount they paid to the Company or its affiliates in 2006 in connection with the registered variable annuity contracts issued by the Company, that ranking would be as follows:

- | | |
|-----------------------------------|-------------------------------------|
| 1) Fidelity Investments | 6) AIM Investments |
| 2) Lord Abbett Funds | 7) Calvert Funds |
| 3) Franklin Templeton Investments | 8) Columbia Wanger Asset Management |
| 4) Pioneer Investments | 9) PIMCO Funds |
| 5) Oppenheimer Funds | 10) Premier VIT Funds |

Some of the fund families listed above may not have paid any amounts to the Company or its affiliates during 2006 in connection with the registered variable annuity contracts issued by the Company. If the revenues received from affiliated funds were included in the table above, payments from Direct Services, LLC and other Company affiliates would be at the top of the list.

Please note certain management personnel and other employees of the Company or its affiliates may receive a portion of their total employment compensation based on the amount of net assets allocated to affiliated funds.

In addition to the types of revenue received from affiliated and unaffiliated funds described above, affiliated and unaffiliated funds and their investment advisers, subadvisers or affiliates may participate at their own expense in Company sales conferences or educational and training meetings. In relation to such participation, a fund's investment adviser, subadviser or affiliate may help offset the cost of the meetings or sponsor events associated with the meetings. In exchange for these expense offset or sponsorship arrangements, the investment adviser, subadviser or affiliate may receive certain benefits and access opportunities to Company sales representatives and wholesalers rather than monetary benefits. These benefits and opportunities include, but are not limited to co-branded marketing materials; targeted marketing sales opportunities; training opportunities at meetings; training modules for sales personnel; and opportunity to host due diligence meetings for representatives and wholesalers.

Certain funds may be structured as "fund of funds" (including the ING Solution portfolios). These funds may have higher fees and expenses than a fund that invests directly in debt and equity securities because they also incur the fees and expenses of the underlying funds in which they invest. These funds are affiliated funds, and the underlying funds in which they invest may be affiliated as well. The fund prospectuses disclose the aggregate annual operating expenses of each portfolio and its corresponding underlying fund or funds. These funds are identified in the investment option list on the front of this prospectus.

IV. Premium and Other Taxes

Maximum Amount. Some states and municipalities charge a premium tax on annuities. These taxes currently range from 0% to 4%, depending upon the jurisdiction.

When/How. We reserve the right to deduct a charge for premium taxes from your account value or from purchase payments to the account at any time, but not before there is a tax liability under state law. For example, we may deduct a charge for premium taxes at the time of a complete withdrawal or we may reflect the cost of premium taxes in our income phase payment rates when you commence income phase payments. We will not deduct a charge for any municipal premium tax of 1% or less, but we reserve the right to reflect such an expense in our annuity purchase rates.

In addition, the Company reserves the right to assess a charge for any federal taxes due against the separate account. See “Taxation.”

YOUR ACCOUNT VALUE

During the accumulation phase, your account value at any given time equals:

- ▷ Account dollars directed to the fixed interest options, including interest earnings to date; less
- ▷ Deductions if any, from the fixed interest options (e.g., withdrawals, fees); plus
- ▷ The current dollar value of amounts held in the subaccounts, which takes into account investment performance and fees deducted from the subaccounts.

Subaccount Accumulation Units. When a fund is selected as an investment option, your account dollars invest in “accumulation units” of the Variable Annuity Account B subaccount corresponding to that fund. The subaccount invests directly in the fund shares. The value of your interests in a subaccount is expressed as the number of accumulation units you hold multiplied by an “Accumulation Unit Value,” as described below, for each unit.

Accumulation Unit Value (AUV). The value of each accumulation unit in a subaccount is called the accumulation unit value or AUV. The value of accumulation units vary daily in relation to the underlying fund’s investment performance. The value also reflects deductions for fund fees and expenses, the mortality and expense risk charge, and the administrative charge (if any). We discuss these deductions in more detail in “Fee Table” and “Fees.”

Valuation. We determine the AUV every business day after the close of the New York Stock Exchange (normally at 4:00 p.m. Eastern Time). At that time, we calculate the current AUV by multiplying the AUV last calculated by the “net investment factor” of the subaccount. The net investment factor measures the investment performance of the subaccount from one valuation to the next.

Current AUV = Prior AUV x Net Investment Factor

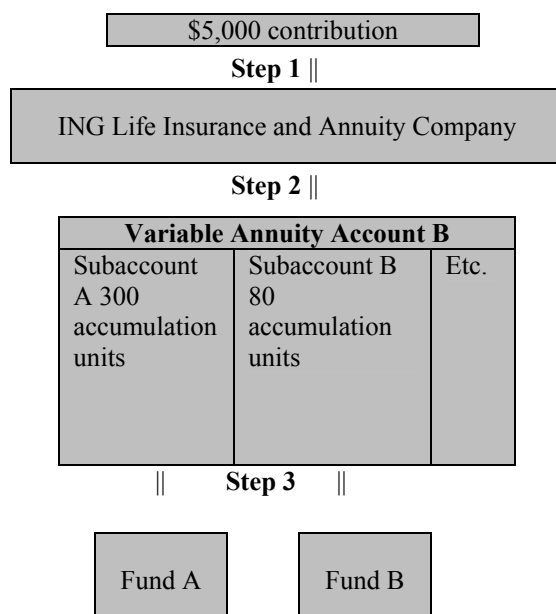

Net Investment Factor. The net investment factor for a subaccount between two consecutive valuations, equals the sum of 1.0000 plus the net investment rate.

Net Investment Rate. The net investment rate is computed according to a formula that is equivalent to the following:

- ▷ The net assets of the fund held by the subaccount as of the current valuation; minus
- ▷ The net assets of the fund held by the subaccount at the preceding valuation; plus or minus
- ▷ Taxes or provisions for taxes, if any, due to subaccount operations (with any federal income tax liability offset by foreign tax credits to the extent allowed); divided by
- ▷ The total value of the subaccount units at the preceding valuation; minus
- ▷ A daily deduction for the mortality and expense risk charge and the administrative expense charge, if any, and any other fees deducted daily from investments in the separate account. See “Fees.”

The net investment rate may be either positive or negative.

Hypothetical Illustration. As a hypothetical illustration, assume that an investor contributes \$5,000 to his account and directs us to invest \$3,000 in Fund A and \$2,000 in Fund B. After receiving the contribution and following the next close of business of the New York Stock Exchange (normally at 4:00 p.m. Eastern Time), the applicable AUV's are \$10 for Subaccount A, and \$25 for Subaccount B. The investor's account is credited with 300 accumulation units of Subaccount A and 80 accumulation units of Subaccount B.

Step 1: An investor contributes \$5,000.

Step 2:

A. He directs us to invest \$3,000 in Fund A. His dollars purchase 300 accumulation units of Subaccount A (\$3,000 divided by the current \$10 AUV).

B. He directs us to invest \$2,000 in Fund B. His dollars purchase 80 accumulation units of Subaccount B (\$2,000 divided by the current \$25 AUV).

Step 3: The separate account then purchases shares of the applicable funds at the current market value (net asset value or NAV).

The fund's subsequent investment performance, expenses and charges, and the daily charges deducted from the subaccount, will cause the AUV to move up or down on a daily basis.

Purchase Payments to Your Account. If all or a portion of initial purchase payments are directed to the subaccounts, they will purchase subaccount accumulation units at the AUV next computed after our acceptance of the applicable application or enrollment forms. Subsequent purchase payments or transfers directed to the subaccounts that we receive by the close of business of the New York Stock Exchange (Exchange) will purchase subaccount accumulation units at the AUV computed after the close of the Exchange on that day (normally at 4:00 p.m. Eastern Time). The value of subaccounts may vary day to day.

WITHDRAWALS

Making a Withdrawal. Subject to limitations on withdrawals from the Fixed Plus Account, the contract holder, or you if permitted by the plan, may withdraw all or a portion of your account value (on your behalf) at any time during the accumulation phase.

Steps for Making a Withdrawal. The contract holder, or you if permitted by the plan must:

- ▷ Select the Withdrawal Amount.
- (1) Full Withdrawal: You will receive, reduced by any required tax, your account value allocated to the subaccounts, the Guaranteed Accumulation Account (plus or minus any applicable market value adjustment) and the Fixed Account, minus any applicable early withdrawal charge or redemption fees, plus the amount available for withdrawal from the Fixed Plus Account.
- (2) Partial Withdrawal (Percentage or Specified Dollar Amount): You will receive, reduced by any required tax, the amount you specify, subject to the value available in your account. However, the amount actually withdrawn from your account will be adjusted by any applicable redemption fees or any applicable early withdrawal charge for amounts withdrawn from the subaccounts, the Guaranteed Accumulation Account or the Fixed Account, and any positive or negative market value adjustment for amounts withdrawn from the Guaranteed Accumulation Account. The amount available from the Fixed Plus Account may be limited.

For a description of limitations on withdrawals from the Fixed Plus Account, see Appendix III.

- ▷ Select Investment Options (if not specified, we will withdraw dollars in the same proportion as the values you hold in the various investment options from each investment option in which you have an account value).
- ▷ Properly complete a disbursement form and submit it to the address listed in “Contract Overview-Questions: Contacting the Company.”

Calculation of Your Withdrawal. We determine your account value every normal business day after the close of the New York Stock Exchange (normally at 4:00 p.m. Eastern Time). We pay withdrawal amounts based on your account value either:

- (1) As of the next valuation after we receive a request for withdrawal in good order at the address listed in “Contract Overview-Questions: Contacting the Company,” or
- (2) On such later date as specified on the disbursement form.

Taxes, Fees and Deductions

Amounts withdrawn may be subject to one or more of the following:

- ▷ Early Withdrawal Charge. See “Fees - Early Withdrawal Charge”
- ▷ Maintenance Fee. See “Fees - Maintenance Fee”
- ▷ Market Value Adjustment. See “Appendix I”
- ▷ Redemption Fees. See “Fees - Redemption Fees”
- ▷ Tax Penalty. See “Taxation”
- ▷ Tax Withholding. See “Taxation”

To determine which may apply, refer to the appropriate sections of this prospectus, contact your local representative or call the Company at the number listed in “Contract Overview - Questions.”

Features of a Systematic Distribution Option

If available under your contract, a systematic distribution option allows you to receive regular payments from your account without moving into the income phase. By remaining in the accumulation phase, you retain certain rights and investment flexibility not available during the income phase. Because the account remains in the accumulation phase, all accumulation phase charges continue to apply.

SYSTEMATIC DISTRIBUTION OPTIONS

Availability of Systematic Distribution Options. These options may be exercised at any time during the accumulation phase of the contract. To exercise one of these options the account value must meet any minimum dollar amount and age criteria applicable to that option. To determine what systematic distribution options are available, check with the contract holder or the Company.

The systematic withdrawal option currently available under the contract include the following:

- ▷ **SWO - Systematic Withdrawal Option.** SWO is a series of automatic partial withdrawals from your account based on the payment method selected. It is designed for those who want a periodic income while retaining accumulation phase investment flexibility for amounts accumulated under the contract.
- ▷ **ECO - Estate Conservation Option.** ECO offers the same investment flexibility as SWO, but is designed for those who want to receive only the minimum distribution that the Tax Code requires each year.

Under ECO, we calculate the minimum distribution amount required by law, generally at age 70½, and pay you that amount once a year. ECO is available under 457 plans only.

- ▷ **Other Systematic Distribution Options.** We may add additional Systematic Distribution Options from time to time. You may obtain additional information relating to any of the systematic distribution options from your local representative or by contacting us at the number or address listed in “Contract Overview-Questions: Contacting the Company.”

Availability of Systematic Distribution Options. The Company may discontinue the availability of one or all of the systematic distribution options at any time, and/or change the terms of future elections.

Terminating a Systematic Distribution Option. Once a systematic distribution option is elected, the contract holder may revoke it at any time by submitting a written request to the address listed in “Contact Overview-Questions: Contacting the Company.” Any revocation will apply only to the amount not yet paid. Once an option is revoked for an account, it may not be elected again until the next calendar year, nor may any other systematic distribution option be elected.

Taxation. Taking a withdrawal through a systematic distribution option or revocation of election of a systematic distribution option may have tax consequences. See “Taxation.”

DEATH BENEFIT

The contract provides a death benefit in the event of your death, which is payable to the contract holder (usually your employer). The contract holder may direct that we make any payments to the beneficiary you name under the plan (plan beneficiary).

During the Accumulation Phase

Payment Process.

1. Following your death, the contract holder (on behalf of your plan beneficiary) must provide the Company with proof of death acceptable to us and a payment request in good order.
2. The payment request should include selection of a benefit payment option.
3. Within seven calendar days after we receive proof of death acceptable to us and payment request in good order at the address listed in “Contract Overview-Questions: Contacting the Company,” we will mail payment, unless otherwise requested.

During the Income Phase.

This section provides information about the accumulation phase. For death benefit information applicable to the income phase, see “The Income Phase.”

Until proof of death and a payment request in good order is received by us, account dollars will remain invested as at the time of your death, and no distribution will be made.

If you die during the accumulation phase of your account, the following payment options are available to your plan beneficiary, if allowed by your contract and the Tax Code:

- Lump-sum payment;
- Payment in accordance with any of the available income phase payment options (see “The Income Phase - Payment Options”); or
- Payment in accordance with an available systematic distribution option (subject to certain limitations). See “Systematic Distribution Options.”

Unless the beneficiary elects otherwise, lump-sum payments will generally be made into an interest bearing account that is backed by our general account. This account can be accessed by the beneficiary through a checkbook feature. The beneficiary may access death benefit proceeds at any time through the checkbook without penalty. Interest credited under this account may be less than under other settlement options.

The following options are also available under some contracts; however, the Tax Code limits how long the death benefit proceeds may be left in these options:

- Leaving your account value invested in the contract: or
- Under some contracts, leaving your account value on deposit in the Company’s general account, and receiving monthly, quarterly, semi-annual or annual interest payments at the interest rate then being credited on such deposits. The beneficiary may withdraw the balance on deposit at any time or request to receive payment in accordance with any of the available income phase payment options. See “The Income Phase - Payment Options.”

The Value of the Death Benefit. The death benefit will be based on your account value as calculated on the next valuation following the date on which we receive proof of death and a payment request in good order. In addition to this amount, some states require we pay interest on fixed interest options, calculated from date of death at a rate specified by state law. For amounts held in the Guaranteed Accumulation Account (GAA), any positive aggregate market value adjustment (the sum of all market value adjustments calculated due to a withdrawal) will be included in your account value. If a negative market value adjustment applies, it would be deducted only if the death benefit is withdrawn more than six months after your death. We describe the market value adjustment in Appendix I and in the GAA prospectus.

Tax Code Requirements. The Tax Code requires distribution of death benefit proceeds within a certain period of time. Failure to begin receiving death benefit payments within those time periods can result in tax penalties. Regardless of the method of payment, death benefit proceeds will generally be taxed to the beneficiary in the same manner as if you had received those payments. See “Taxation” for additional information.

We may have used the following terms in prior prospectuses:

Annuity Phase - Income Phase
Annuity Option - Income Phase Payment Option
Annuity Payment - Income Phase Payment
Annuitization - Initiating Income Phase Payments

THE INCOME PHASE

During the income phase you receive payments from your accumulated account value.

Initiating Income Phase Payments. At least 30 days prior to the date you want to start receiving payments, the contract holder or you, if permitted by the plan, must notify us in writing of the following:

- ▷ Start date;
- ▷ Income phase payment option (see the income phase payment options table in this section);
- ▷ Income phase payment frequency (i.e., monthly, quarterly, semi-annually or annually);
- ▷ Choice of fixed or variable payments;
- ▷ Selection of an assumed net investment rate (only if variable payments are elected); and
- ▷ Under some plan, certification from your employer and/or submission of the appropriate forms is also required.

The account will continue in the accumulation phase until the contract holder or you, as applicable, properly initiate income phase payments. Once an income phase payment option is selected, it may not be changed; however, certain options allow you to withdraw a lump sum.

What Affects Income Phase Payment Amounts? Some of the factors that may affect income phase payment amounts include: your age, your account value, the income phase payment option selected, number of guaranteed payments (if any) selected, and whether variable or fixed payments are selected.

Fixed Payments. Amounts funding fixed income phase payments will be held in the Company's general account. Fixed payment amounts do not vary over time.

Variable Payments. Amounts funding your variable income phase payments will be held in the subaccount(s) selected. The contracts may restrict the subaccounts available, the number of investment options to be selected and how many transfers, if any, are allowed among options during the income phase. For variable income phase payments, an assumed net investment rate must be selected.

Payments from the Fixed Plus Account. If a nonlifetime payment option is selected, payments from the Fixed Plus Account may only be made on a fixed basis.

Assumed Net Investment Rate. If you select income phase payments, an assumed net investment rate must also be selected. If you select a 5% rate, your first payment will be higher, but subsequent income phase payments will increase only if the investment performance of the subaccounts selected is greater than 5% annually, after deduction of fees. Payment amounts will decline if the investment performance is less than 5%, after deduction of fees.

If a 3.5% rate is selected, your first income phase payment will be lower and subsequent payments will increase more rapidly or decline more slowly depending upon the investment performance of the subaccounts selected. For more information about selecting an assumed net investment rate, request a copy of the Statement of Additional Information by calling us. See "Contract Overview - Questions."

Required Minimum Payment Amounts. The income phase payment option selected must meet the minimum stated in the contract:

- ▷ A first income phase payment of at least \$20; or
- ▷ Total yearly income phase payments of at least \$100.

If your account value is too low to meet these minimum payment amounts, the contract holder, on your behalf, must elect a lump-sum payment.

Fees Deducted. When you select an income payment phase option (one of the options listed in the tables immediately below), a mortality and expense risk charge, consisting of a daily deduction of 1.25% on an annual basis, will be deducted from amounts held in the subaccounts. This charge compensates us for mortality and expense risks we assume under variable income phase payout options and is applicable to all variable income phase payout options, including variable nonlifetime options under which we do not assume mortality risk. In this situation, this charge will be used to cover expenses. Although we expect to make a profit from this fee, we do not always do so. For variable options under which we do not assume a mortality risk, we may make a larger profit than under other options.

We may also deduct a daily administrative charge from amounts held in the separate account. We currently charge this under some contracts and reserve the right to charge it under all others. The maximum amount is 0.25% on an annual basis of your account value invested in the subaccount. If we are currently imposing this fee under the contract issued in connection with your plan when you enter the income phase, the fee will apply throughout the entire income phase.

Death Benefit During the Income Phase. The death benefits that may be available to a beneficiary are outlined in the following income phase payment option table. If a lump-sum payment is due as a death benefit, we will make payment within seven calendar days after we receive proof of death acceptable to us in good order and the payment request in good order at the address listed in "Contract Overview-Questions: Contacting the Company."

Unless the beneficiary elects otherwise, lump-sum payments will generally be made into an interest bearing account that is backed by our general account. This account can be accessed by the beneficiary through a checkbook feature. The beneficiary may access death benefit proceeds at any time through the checkbook without penalty. Interest credited under this account may be less than under other settlement options.

Taxation. To avoid certain tax penalties, you and any beneficiary must meet the distribution rules imposed by the Tax Code. See "Taxation."

Income Phase Payment Options

The following tables list the income phase payment options and accompanying death benefits which may be available under the contracts. Some contracts restrict the options and the terms available. Check with your contract holder for details. We may offer additional income phase payment options under the contract from time to time.

Terms Used in the Tables:

Annuitant: The person(s) on whose life expectancy the income phase payments are calculated.

Beneficiary: The person designated to receive the death benefit payable under the contract.

Lifetime Income Phase Payment Options	
Life Income	<p>Length of Payments: For as long as the annuitant lives. It is possible that only one payment will be made should the annuitant die prior to the second payment's due date. Death Benefit-None: All payments end upon the annuitant's death.</p>
Life Income-Guaranteed Payments*	<p>Length of Payments: For as long as the annuitant lives, with payments guaranteed for a choice of 5-20 years or as otherwise specified in the contract.</p> <p>Death Benefit-Payment to the Beneficiary: If the annuitant dies before we have made all the guaranteed payments, we will continue to pay the beneficiary the remaining payments. Unless prohibited by a prior election of the contract holder, the beneficiary may elect to receive a lump-sum payment equal to the present value of the remaining guaranteed payments.</p>
Life Income-Two Lives	<p>Length of Payments: For as long as either annuitant lives. It is possible that only one payment will be made should both annuitants die before the second payment's due date.</p> <p>Continuing Payments:</p> <p>(a) This option allows a choice of 100%, 66 2/3% or 50% of the payment to continue to the surviving annuitant after the first death; or</p> <p>(b) 100% of the payment to continue to the annuitant on the second annuitant's death, and 50% of the payment to continue to the second annuitant on the annuitant's death.</p> <p>Death Benefit-None: All payments end after the death of both annuitants.</p>
Life Income-Two Lives-Guaranteed Payments*	<p>Length of Payments: For as long as either annuitant lives, with payments guaranteed for a minimum of 120 months, or as otherwise specified in the contract.</p> <p>Continuing Payments: 100% of the payment to continue to the surviving annuitant after the first death.</p> <p>Death Benefit-Payment to the Beneficiary: If both annuitants die before the guaranteed payments have all been paid, we will continue to pay the beneficiary the remaining payments. Unless prohibited by a prior election of the contract holder, the beneficiary may elect to receive a lump-sum payment equal to the present value of the remaining guaranteed payments.</p>
Life Income-Cash Refund Option (limited availability fixed payment only)	<p>Length of Payments: For as long as the annuitant lives.</p> <p>Death Benefit-Payment to the Beneficiary: Following the annuitant's death, we will pay a lump-sum payment equal to the amount originally applied to the income phase payment option (less any premium tax) and less the total amount of fixed income phase payments paid.</p>
Life Income - Two Lives - Cash Refund Option (limited availability - fixed payment only)	<p>Length of Payments: For as long as either annuitant lives.</p> <p>Continuing Payment: 100% of the payment to continue after the first death.</p> <p>Death Benefit - Payment to the Beneficiary: When both annuitants die, we will pay a lump-sum payment equal to the amount applied to the income phase payment option (less any premium tax) and less the total amount of fixed income phase payments paid.</p>
Nonlifetime Income Phase Payment Options	
Nonlifetime-Guaranteed Payments*	<p>Length of Payments: Payments generally may be fixed or variable and may be made for 3-30 years. However, for amounts held in the Fixed Plus Account during the accumulation phase, the payment must be on a fixed basis and must be for at least 5 years. In certain cases a lump-sum payment may be requested at any time (see below).</p> <p>Death Benefit - Payment to the Beneficiary: If the annuitant dies before we make all the guaranteed payments, we will continue to pay the beneficiary the remaining payments. Unless prohibited by a prior election of the contract holder, the beneficiary may elect to receive a lump-sum payment equal to the present value of the remaining guaranteed payments. We will not impose any early withdrawal charge.</p>
<p>Lump-Sum Payment: If the Nonlifetime - Guaranteed Payments option is elected with variable payments, you may request at any time that all or a portion of the present value of the remaining payments be paid in one lump sum. A lump sum elected before three years of income phase payments have been completed will be treated as a withdrawal during the accumulation phase and we will charge any applicable early withdrawal charge. If the early withdrawal charge is based on completed purchase payment periods, each year that passes after income payments begin will be treated as a completed purchase payment period, even if no additional payments are made. See "Fees - Early Withdrawal Charge." Lump-sum payments will be sent within seven calendar days after we receive the request for payment in good order at the address listed in "Contract Overview-Questions: Contacting the Company."</p> <p>Calculation of Lump-Sum Payments: If a lump-sum payment is available to a beneficiary or to you in the income phase payment options above, the rate we use to calculate the present value of the remaining guaranteed payments is the same rate we use to calculate the income phase payments (i.e., the actual fixed rate used for the fixed payments, or the 3.5% or 5% assumed net investment rate for variable payments).</p>	

*Guaranteed period payments may not extend beyond the shorter of your life expectancy or until your age 95.

CONTRACT DISTRIBUTION

General. The Company's subsidiary, ING Financial Advisers, LLC, serves as the principal underwriter for the contracts. ING Financial Advisers, LLC, a Delaware limited liability company, is registered as a broker-dealer with the SEC. ING Financial Advisers, LLC is also a member of the National Association of Securities Dealers, Inc. ("NASD") and the Securities Investor Protection Corporation. ING Financial Advisers, LLC's principal office is located at 151 Farmington Avenue, Hartford, Connecticut 06156.

The contracts are offered to the public by individuals who are registered representatives of ING Financial Advisers, LLC or other broker-dealers that have entered into a selling arrangement with ING Financial Advisers, LLC. We refer to ING Financial Advisers, LLC and the other broker-dealers selling the contracts as "distributors." All registered representatives selling the contracts must also be licensed as insurance agents for the Company.

The following is a list of broker-dealers that are affiliated with the Company:

Bancnorth Investment Group, Inc.
Directed Services LLC
Financial Network Investment Corporation
Guaranty Brokerage Services, Inc.
ING America Equities, Inc.
ING Direct Funds Limited
ING DIRECT Securities, Inc.
ING Financial Markets LLC
ING Financial Partners, Inc.
ING Funds Distributor, LLC
ING Investment Management Services LLC
ING Private Wealth Management LLC
Multi-Financial Securities Corporation
PrimeVest Financial Services, Inc.
Systematized Benefits Administrators, Inc.

Registered representatives of distributors who solicit sales of the contracts typically receive a portion of the compensation paid to the distributor in the form of commissions or other compensation, depending upon the agreement between the distributor and the registered representative. This compensation, as well as other incentives or payments, is not paid directly by contract holders of the separate account. We intend to recoup this compensation and other sales expenses paid to distributors through fees and charges imposed under the contracts.

Commission Payments. Persons who offer and sell the contracts may be paid a commission. The commissions paid on transferred assets and recurring payments made during the first year of the participant account range from 0% to 7%. After the first year of the participant account, renewal commissions up to 1% may be paid on recurring payments up to the amount of the maximum of prior year's payments, and commissions of up to 7% may be paid on recurring payments in excess of this amount. In addition, the Company may pay up to 2.5% on transferred assets and asset-based commission ranging up to 0.10%.

In addition, we may also pay ongoing annual compensation of up to 40% of the commissions paid during the year in connection with certain premium received during that year, if the registered representative attains a certain threshold of sales of Company contracts. Individual registered representatives may receive all or a portion of compensation paid to their distributor, depending upon the firm's practices. Commissions and annual payments, when combined, could exceed 7% of total premium payments. To the extent permitted by SEC and NASD rules and other applicable laws and regulations, we may also pay or allow other promotional incentives or payments in the form of cash payments or other compensation to distributors, which may require the registered representative to attain a certain threshold of sales of Company products.

We may also enter into special compensation arrangements with certain distributors based on those firms' aggregate or anticipated sales of the contracts or other criteria. These special compensation arrangements will not be offered to all distributors, and the terms of such arrangements may differ among distributors based on various factors. Any such compensation payable to a distributor will not result in any additional direct charge to you by us.

Some sales personnel may receive various types of non-cash compensation as special sales incentives, including trips, and we may also pay for some sales personnel to attend educational and/or business seminars. Any such compensation will be paid in accordance with SEC and NASD rules. Management personnel of the Company, and of its affiliated broker-dealers, may receive additional compensation if the overall amount of investments in funds advised by the Company or its affiliates meets certain target levels or increases over time. Compensation for certain management personnel, including sales management personnel, may be enhanced if the overall amount of investments in the contracts and other products issued or advised by the Company or its affiliates increases over time. Certain sales management personnel may also receive compensation that is a specific percentage of the commissions paid to distributors or of purchase payments received under the contracts.

In addition to direct cash compensation for sales contracts described above, ING Financial Advisers, LLC may also pay distributors additional compensation or reimbursement of expenses for their efforts in selling contracts to you and other customers. These amounts may include:

- Marketing/distribution allowances that may be based on the percentages of purchase payments received, the aggregate commissions paid and/or the aggregate assets held in relation to certain types of designated insurance products issued by the Company and/or its affiliates during the year;
- Loans or advances of commissions in anticipation of future receipt of purchase payments (a form of lending to registered representatives). These loans may have advantageous terms, such as reduction or elimination of the interest charged on the loan and/or forgiveness of the principal amount of the loan, which may be conditioned on fixed insurance product sales;
- Education and training allowances to facilitate our attendance at certain educational and training meetings to provide information and training about our products. We also hold training programs from time to time at our own expense;
- Sponsorship payments or reimbursements for distributors to use in sales contests and/or meetings for their registered representatives who sell our products. We do not hold contests based solely on sales of this product;
- Certain overrides and other benefits that may include cash compensation based on the amount of earned commissions, representative recruiting or other activities that promote the sale of contracts; and
- Additional cash or noncash compensation and reimbursements permissible under existing law. This may include, but is not limited to, cash incentives, merchandise, trips, occasional entertainment, meals and tickets to sporting events, client appreciation events, business and educational enhancement items, payment for travel expenses (including meals and lodging) to pre-approved training and education seminars, and payment for advertising and sales campaigns.

We pay dealer concessions, wholesaling fees, overrides, bonuses, other allowances and benefits and the costs of all other incentives or training programs from our resources, which include the fees and charges imposed under the contracts.

The following is a list of the top 25 selling firms that, during 2006, received the most compensation, in the aggregate, from us in connection with the sale of registered variable annuity contracts issued by the Company, ranked by total dollars received.

- | | |
|---|---|
| 1) Symetra Investment Services, Inc. | 14) National Planning Corporation |
| 2) AIG Financial Advisors Inc. | 15) Jefferson Pilot Securities Corporation |
| 3) Walnut Street Securities, Inc.® | 16) Morgan Keegan and Company, Inc. |
| 4) Lincoln Investment Planning, Inc. | 17) Cadaret, Grant & Co., Inc. |
| 5) Securities America, Inc. | 18) Tower Square Securities, Inc. |
| 6) ING Financial Partners, Inc. | 19) Financial Telesis Inc./JHW Financial & Insurance Services |
| 7) Financial Network Investment Corporation | 20) Mutual Service Corporation |
| 8) Linsco/Private Ledger Corp. | 21) Huckin Financial Group, Inc. |
| 9) Valor Insurance Agency, Inc. | 22) Northwestern Mutual Investment Services, LLC |
| 10) Multi-Financial Securities Corporation | 23) Waterstone Financial Group |

| 13) USI Securities, Inc. | |

If the amounts paid to ING Financial Advisers, LLC, were included, ING Financial Advisers, LLC would be at the top of the list.

This is a general discussion of the types and levels of compensation paid by us for the sale of our variable annuity contracts. It is important for you to know that the payment of volume or sales-based compensation to a distributor or registered representative may provide that registered representative a financial incentive to promote our contracts over those of another Company, and may also provide a financial incentive to promote one of our contracts over another.

The names of the distributor and the registered representative responsible for your account are stated in your enrollment materials.

Third Party Compensation Arrangements.

- ▷ The Company may seek to promote itself and the contracts by sponsoring or contributing to events sponsored by various associations, professional organizations and labor organizations.
- ▷ The Company may make payments to associations and organizations, including labor organizations, which endorse or otherwise recommend the contracts to their membership. If an endorsement is a factor in your contract purchasing decision, more information on the payment arrangement, if any, is available upon your request.
- ▷ At the direction of the contract holder, we may make payments to the contract holder, its representatives or third party service providers intended to defray or cover the costs of plan or program related administration.

TAXATION

In this Section

I. Introduction

II. Taxation of Deferred Compensation Contracts

III. Possible Changes in Taxation

IV. Taxation of the Company

When consulting a tax adviser, be certain that he or she has expertise in the Tax Code sections applicable to your tax concerns.

I. Introduction

This section discusses our understanding of current federal income tax laws affecting the contracts. You should keep the following in mind when reading it:

- ▷ Your tax position (or the tax position of the designated beneficiary, as applicable) determines federal taxation of amounts held or paid out under the contracts;
- ▷ Tax laws change. It is possible that a change in the future could affect contracts issued in the past;
- ▷ This section addresses federal income tax rules and does not discuss federal estate and gift tax implications, state and local taxes or any other tax provisions; and
- ▷ We do not make any guarantee about the tax treatment of the contract or any transaction involving the contracts.

We do not intend this information to be tax advice. For advice about the effect of federal income taxes or any other taxes on amounts held or paid out under the contracts, consult a tax adviser. No attempt is made to provide more than general information about the use of the contracts with tax-qualified retirement arrangements. For more comprehensive information contact the Internal Revenue Service (IRS).

Deferred Compensation Contracts

The contracts are available for purchase in connection with deferred compensation plans (deferred compensation contracts).

Deferred compensation contracts are designed for use by individuals and/or employers whose premium payments are comprised solely of proceeds from and/or contributions under retirement plans or programs intended to qualify for special income tax treatment under Tax Code section 457(b) and Tax Code section 457(f), as well as in connection with non-section 457 nonannuities deferred compensation plans and qualified governmental excess benefit plans under Tax Code section 415(m).

II. Taxation of Deferred Compensation Contracts

General

The contracts are primarily designed for use with Tax Code section 457(b) plans and nonqualified deferred compensation plans under Tax Code section 457(f). They may also be used with non-section 457 nonqualified deferred compensation plans and with qualified governmental excess benefit arrangements under Tax Code section 415(m). (We refer to all of these as “deferred compensation plans”). The tax rules applicable to participants in these deferred compensation plans vary according to the type of plan and the terms and conditions of the plan itself. The ultimate effect of federal income taxes on the amounts held under a contract, or on income phase payments, depends on the type of retirement plan or program, the tax and employment status of the individual concerned, and on your tax status. Special favorable tax treatment may be available for certain types of contributions and distributions. In addition, certain requirements must be satisfied in purchasing a deferred compensation contract with proceeds from a tax-qualified plan or program in order to continue receiving favorable tax treatment.

Adverse tax consequences may result from: contributions in excess of specified limits, distributions before age 59½ (subject to certain exceptions), distributions that do not conform to specified commencement and minimum distribution rules, and in other specified circumstances. Some deferred compensation plans are subject to additional distribution or other requirements that are not incorporated into our contract. No attempt is made to provide more than general information about the use of the contracts with deferred compensation plans. Contract holders, participants, annuitants, and beneficiaries are cautioned that the rights of any person to any benefit under these deferred compensation plans may be subject to the terms and conditions of the plan themselves, regardless of the terms and conditions of the contract. The Company is not bound by the terms and conditions of such plans to the extent such terms contradict the contract, unless we consent.

Generally, contract holders, participants, and beneficiaries are responsible for determining that contributions, distributions and other transactions with respect to the contract comply with applicable law. Therefore, you should seek competent legal and tax advice regarding the suitability of a contract for your particular situation. The following discussion assumes that deferred compensation contracts are purchased with proceeds from and/or contributions under retirement plans or programs that qualify for the intended special federal tax treatment.

Tax Deferral

Under the federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of a deferred compensation plan (as defined in this prospectus), an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the deferred compensation plan itself. Annuities do provide other features and benefits (such as the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with your financial representative taking into account the additional fees and expenses you may incur in an annuity.

Section 457(b) and 457(f) Plans and Non-Section 457 Deferred Compensation Plans. Section 457 of the Tax Code permits certain employers to offer deferred compensation plans for their employees. These plans may be offered by state governments, local governments, political subdivisions, agencies, instrumentalities and certain affiliates of such entities (governmental employers), as well as non-governmental, tax-exempt organizations (non-governmental employers). The contract is not offered in connection with 457 plans of governmental employers. A 457 plan may be either a 457(b) (eligible) plan or a 457(f) (ineligible) plan. Participation in a 457(b) plan maintained by a non-governmental employer is generally limited to highly compensated employees and select management (other than 457(b) plans maintained by nonqualified, church-controlled organizations). Generally, participants may specify the form of investment for their deferred compensation account.

A non-section 457 deferred compensation plan may be either a deferred compensation plan of a tax-exempt employer that is “grandfathered” and not subject to section 457 rules, or a deferred compensation plan of a for-profit employer. Employers intending to use the contract with such plans should seek competent legal advice.

Under 457(b) plans of non-governmental employers, 457(f) plans, and non-section 457 deferred compensation plans, all amounts of deferred compensation, all property and rights purchased with such amounts and all income attributable to such amounts, property and rights remain solely the property and rights of the employer and are subject to the claims of the employer’s general creditors. 457(f) plans must also contain a “substantial risk of forfeiture” in order to defer taxation of contributions and earnings. Generally, a substantial risk of forfeiture means that your right to receive deferred compensation is dependent upon your performance of future services to an employer or other entity.

Amounts deferred under Tax Code section 457(f) plans and non-section 457 deferred compensation plans on or after January 1, 2005 must also meet the requirements of the Tax Code section 409A, which includes standards for deferral elections, restrictions on subsequent elections regarding the time and form of payment, and a prohibition on accelerating payment. It also requires distributions only upon the occurrence of the following specified events:

- Separation from service
- Disability
- Death
- Payment upon a specified time (or under a specified schedule) determined at the date that the deferral is made
- Change in control or ownership of the sponsoring employer, or
- Unforeseeable emergency

Tax Code section 409A does not affect the application of any other provision of the Tax Code, including section 457(f), or any common law doctrines (e.g. constructive receipt).

If the requirements of Tax Code section 409A are not met, affected participants covered by the plan will be subject to:

- Income tax inclusion on the deferred amounts, retroactive to the date of the original deferral (or if later, that date on which the deferred compensation was no longer subject to a substantial risk of forfeiture),
- Interest at the underpayment rate plus one percent on the underpayments, and
- An additional penalty tax equal to 20% of the amount included in income.

Amounts deferred under these plans prior to January 1, 2005 may be eligible for “grandfathering” from the requirements of Tax Code section 409A, if certain requirements are met.

415(m) Arrangements. If you participate in the contract through a qualified governmental excess benefit arrangement as defined in Tax Code section 415(m), the amounts provided under the contract may be subject to the same requirements as those applied to Tax Code section 457(b) plans. If the Tax Code section 415(m) arrangement is not designed to meet the requirements of Tax Code section 457(b), then the amounts provided under the contract are taxed in accordance with Tax Code section 451 and are generally taxable when paid or made available to you. There is no further information regarding 415(m) arrangements in this prospectus.

Contributions

In order to be excludable from gross income for federal income tax purposes, total annual contributions to certain deferred compensation plans are limited by the Tax Code. We provide general information on these requirements for certain plans below. You should consult with your tax adviser in connection with contributions to a deferred compensation contract.

457(b) Plans. In order to be excludable from gross income for federal income tax purposes, total annual contributions made by you and your employer to a 457(b) plan cannot exceed, generally, the lesser of \$15,500 or 100% of your includible compensation. Generally, includible compensation means your compensation for the year from the employer sponsoring the plan, including deferrals to the employer’s Tax Code section 457, 401(k), Roth 401(k), 403(b), Roth 403(b), and 125 cafeteria plans.

The \$15,500 limit is subject to an annual adjustment for cost-of-living increases.

Distributions - General

Certain tax rules apply to distributions from the contracts. A distribution is any amount taken from a contract including withdrawals, income phase payments, rollovers, exchanges and death benefit proceeds. We report the taxable portion of all distributions to the IRS.

457(b) Plans. All distributions from a 457(b) plan are taxed when paid or made available to you. Under a 457(b) plan, amounts may not be made available to you earlier than (1) the calendar year you attain age 70½; (2) when you experience a severance from employment with your employer; or (3) when you experience an unforeseeable emergency. A one-time in-service distribution may also be permitted if the total amount payable to the participant does not exceed \$5,000 and no amounts have been deferred by the participant during the 2-year period ending on the date of distribution.

457(f) Plans. Compensation deferred under a 457(f) plan is includible in gross income in the first year in which it is no longer subject to a “substantial risk of forfeiture” as defined under Tax Code section 457(f), or required to be includible under Tax Code section 409A.

Non-Section 457 Deferred Compensation Plans. Compensation deferred under a non-section 457 deferred compensation plan is generally includible in income in the first year in which it (i) is paid or otherwise made available to you or your designated beneficiary, or (ii) is required to be includible under Tax Code section 409A.

Lifetime Required Minimum Distributions (457(b) Plans only)

To avoid certain tax penalties, you and any designated beneficiary must meet the required minimum distribution requirements imposed by the Tax Code. These rules dictate the following:

- ▷ Start date for distributions;
- ▷ The time period in which all amounts in your contract(s) must be distributed; and
- ▷ Distribution amounts.

Start Date. Generally, you must begin receiving distributions by April 1 of the calendar year following the calendar year in which you attain age 70½ or retire, whichever occurs later.

Time Period. We must pay out distributions from the contract over a period not extending beyond one of the following time periods:

- ▷ Over your life or the joint lives of you and your designated beneficiary; or
- ▷ Over a period not greater than your life expectancy or the joint life expectancies of you and your designated beneficiary.

Distribution Amounts. The amount of each required minimum distribution must be calculated in accordance with Tax Code Section 401(a)(9). The entire interest in the account includes the amount of any outstanding rollover, transfer, recharacterization, if applicable, and the actuarial present value of any other benefits provided under the account, such as guaranteed death benefits.

50% Excise Tax. If you fail to receive the required minimum distribution for any tax year, a 50% excise tax may be imposed on the required amount that was not distributed.

Further information regarding required minimum distributions may be found in your contract or certificate.

Required Distributions Upon Death (457(b) Plans Only)

Different distribution requirements apply after your death, depending upon if you have begun receiving required minimum distributions. Further information regarding required distributions upon death may be found in your contract or certificate.

If your death occurs on or after you begin receiving minimum distributions under the contract, distributions generally must be made at least as rapidly as under the method in effect at the time of your death. Tax Code section 401(a)(9) provides specific rules for calculating the minimum required distributions after your death.

If your death occurs before you begin receiving minimum distributions under the contract, your entire balance must be distributed by December 31 of the calendar year containing the fifth anniversary of the date of your death. For

example, if you died on September 1, 2007, your entire balance must be distributed to the designated beneficiary by December 31, 2012. However, if distributions begin by December 31 of the calendar year following the calendar year of your death, then payments may be made within one of the following timeframes:

- ▷ Over the life of the designated beneficiary; or
- ▷ Over a period not extending beyond the life expectancy of the designated beneficiary.

Start Dates for Spousal Beneficiaries. If the designated beneficiary is your spouse, distributions must begin on or before the later of the following:

- ▷ December 31 of the calendar year following the calendar year of your death; or
- ▷ December 31 of the calendar year in which you would have attained age 70½.

No designated beneficiary. If there is no designated beneficiary, the entire interest generally must be distributed by the end of the calendar year containing the fifth anniversary of the contract holder's death.

Withholding

Any taxable distributions under the contract are generally subject to withholding. Federal income tax liability rates vary according to the type of distribution and the recipient's tax status.

457(b) Plans of Non-Governmental Employers, 457(f) Plans, and Non-Section 457 Deferred Compensation Plans. All distributions from these plans, except death benefit proceeds, are subject to mandatory federal income tax withholding as wages. No withholding is required on payments to designated beneficiaries.

Assignment and Other Transfers.

457(b) Plans. Adverse tax consequences to the plan and/or to you may result if your beneficial interest in the contract is assigned or transferred to persons other than:

- ▷ A plan participant as a means to provide benefit payments;
- ▷ An alternate payee under a qualified domestic relations order in accordance with Tax Code section 414(p); or
- ▷ The Company as collateral for a loan.

III. Possible Changes in Taxation

Although the likelihood of legislative change and tax reform is uncertain, there is always the possibility that the tax treatment of the contracts could change by legislation or other means. It is also possible that any change could be retroactive (that is, effective before the date of the change). The Pension Protection Act of 2006 made permanent pension and IRA provisions under the Economic Growth and Tax Relief Reconciliation Act of 2001. You should consult a tax adviser with respect to legislative developments and their effect on the contract.

IV. Taxation of the Company

We are taxed as a life insurance company under the Tax Code. Variable Annuity Account B is not a separate entity from us. Therefore, it is not taxed separately as a "regulated investment company" but is taxed as part of the Company.

We automatically apply investment income and capital gains attributable to the separate account to increase reserves under the contracts. Because of this, under existing federal tax law we believe that any such income and gains will not be taxed to the extent that such income and gains are applied to increase reserves under the contracts. In addition, any foreign tax credits attributable to the separate account will be first used to reduce any income taxes imposed on the separate account before being used by the Company.

In summary, we do not expect that we will incur any federal income tax liability attributable to the separate account and we do not intend to make any provision for such taxes. However, changes in federal tax laws and/or their interpretation may result in our being taxed on income or gains attributable to the separate account. In this case we may impose a charge against the separate account (with respect to some or all of the contracts) to set aside provisions to pay such taxes. We may deduct this amount from the separate account, including from your contract value invested in the subaccounts.

OTHER TOPICS

Performance Reporting

We may advertise different types of historical performance for the subaccounts including:

- ▷ standardized average annual total returns; and
- ▷ non-standardized average annual total returns.

We may also advertise certain ratings, rankings or other information related to the Company, the subaccounts or the funds.

Standardized Average Annual Total Returns. We calculate standardized average annual total returns according to a formula prescribed by the SEC. This shows the percentage return applicable to \$1,000 invested in the subaccount over the most recent month-end, one, five and 10-year periods. If the investment option was not available for the full period, we give a history from the date money was first received in that option under the separate account or from the date the fund was first available under the separate account. As an alternative to providing the most recent month-end performance, we may provide a phone number, website or both where these returns may be obtained. We include all recurring charges during each period (e.g., mortality and expense risk charges, annual maintenance fees, administrative expense charges (if any), and any applicable early withdrawal charges).

Non-Standardized Average Annual Total Returns. We calculate non-standardized average annual total returns in a similar manner as that stated above, except we may include returns that do not reflect the deduction of any applicable early withdrawal charge. Some non-standardized returns may also exclude the effect of a maintenance fee. If we reflected these charges in the calculation, they would decrease the level of performance reflected by the calculation. Non-standardized returns may also include performance from the fund's inception date, if that date is earlier than the one we use for standardized returns.

Voting Rights

Each of the subaccounts holds shares in a fund and each is entitled to vote at regular and special meetings of that fund. Under our current view of applicable law, we will vote the shares for each subaccount as instructed by persons having a voting interest in the subaccount. Under the contracts described in this prospectus, the contract holder, not the plan participant, has all voting rights. We will vote shares for which instructions have not been received in the same proportion as those for which we received instructions. Each person who has a voting interest in the separate account will receive periodic reports relating to the funds in which he or she has an interest, as well as any proxy materials and a form on which to give voting instructions. Voting instructions will be solicited by a written communication at least 14 days before the meeting.

The number of votes (including fractional votes) the contract holder is entitled to direct will be determined as of the record date set by any fund the contract holder invests in through the subaccounts.

- ▷ During the accumulation phase, the number of votes is equal to the portion of the account value invested in the fund, divided by the net asset value of one share of that fund.
- ▷ During the income phase, the number of votes is equal to the portion of reserves set aside for the contract's share of the fund, divided by the net asset value of one share of that fund.

Contract Modification

We may change the contract as required by federal or state law. In addition, we may, upon 30 days' written notice to the contract holder, make other changes to group contracts that would apply only to individuals who become participants under that contract after the effective date of such changes. If the group contract holder does not agree to a change, we reserve the right to refuse to establish new accounts under the contract. Certain changes will require the approval of appropriate state or federal regulatory authorities.

Legal Matters and Proceedings

We are not aware of any pending legal proceedings which involve the separate account as a party.

The Company is involved in threatened or pending lawsuits/arbitrations arising from the normal conduct of business. Due to the climate in insurance and business litigation/arbitrations, suits against the Company sometimes include claims for substantial compensatory, consequential, or punitive damages and other types of relief. Moreover, certain claims are asserted as class actions, purporting to represent a group of similarly situated individuals. While it is not possible to forecast the outcome of such lawsuits/arbitrations, in light of existing insurance, reinsurance, and established reserves, it is the opinion of management that the disposition of such lawsuits/arbitrations will not have a materially adverse effect on the Company's operations or financial position.

ING Financial Advisers, LLC, the principal underwriter and distributor of the contract (the "distributor"), is a party to threatened or pending lawsuits/arbitration that generally arise from the normal conduct of business. Some of these suits may seek class action status and sometimes include claims for substantial compensatory, consequential or punitive damages and other types of relief. ING Financial Advisers, LLC is not involved in any legal proceeding which, in the opinion of management, is likely to have a material adverse effect on its ability to distribute the contract.

Payment Delay or Suspension

We reserve the right to suspend or postpone the date of any payment of benefits or values under the following circumstances:

- (a) on any valuation date when the New York Stock Exchange is closed (except customary weekend and holiday closings) when trading on the Exchange is restricted;
- (b) when an emergency exists as determined by the SEC so that disposal of the securities held in the subaccounts is not reasonably practicable or it is not reasonably practicable for us fairly to determine the value of the subaccount's assets; or
- (c) during any other periods the SEC may, by order, permit for the protection of investors.

The conditions under which restricted trading or an emergency exists shall be determined by the rules and regulations of the SEC.

Transfer of Ownership; Assignment

An assignment of a contract will only be binding on us if it is made in writing and sent to the address listed in "Contract Overview-Questions: Contacting the Company." We will use reasonable procedures to confirm that the assignment is authentic, including verification of signature.

If we fail to follow our own procedures, we will be liable for any losses to you directly resulting from the failure. Otherwise, we are not responsible for the validity of any assignment. The rights of the contract holder and the interest of the annuitant and any beneficiary will be subject to the rights of any assignee we have on our records.

Intent to Confirm Quarterly

Under certain contracts, we will provide confirmation of scheduled transactions quarterly rather than immediately to the participant.

CONTENTS OF THE STATEMENT OF ADDITIONAL INFORMATION

The Statement of Additional Information (SAI) contains more specific information on the separate account and the contract, as well as the financial statements of the separate account and the Company. A list of the contents of the SAI is set forth below:

General Information and History

Variable Annuity Account B

Offering and Purchase of Contracts

Income Phase Payments

Sales Material and Advertising

Independent Registered Public Accounting Firm

Financial Statements of the Separate Account

Consolidated Financial Statements of ING Life Insurance and Annuity Company

You may request an SAI by calling the Company at the number listed in “Contract Overview - Questions.”

APPENDIX I

GUARANTEED ACCUMULATION ACCOUNT

The Guaranteed Accumulation Account (GAA) is a fixed interest option that may be available during the accumulation phase under the contracts. This appendix is only a summary of certain facts about GAA. Please read the GAA prospectus before investing in this option. You may obtain a copy of the Guaranteed Accumulation Account prospectus by contacting us at the address or telephone number listed in “Questions: Contacting the Company.”

In General. Amounts that you invest in GAA will earn a guaranteed interest rate if amounts are left in GAA for the specified period of time. If you withdraw or transfer those amounts before the specified period of time has elapsed, we may apply a “market value adjustment,” which may be positive or negative.

When you decide to invest money in GAA, you will want to contact your representative or the Company to learn:

- ▷ The interest rate we will apply to the amounts that you invest in GAA. We change this rate periodically, so be certain you know what rate we guarantee on the day your account dollars are invested into GAA.
- ▷ The period of time your account dollars need to remain in GAA in order to earn that rate. You are required to leave your account dollars in GAA for a specified period of time (guaranteed term), in order to earn the guaranteed interest rate.

Deposit Periods. A deposit period is the time during which we offer a specific interest rate if you deposit dollars for a certain guaranteed term. For a particular interest rate and guaranteed term to apply to your account dollars, you must invest them during the deposit period during which that rate and term are offered.

Interest Rates. We guarantee different interest rates, depending upon when account dollars are invested in GAA. The interest rate we guarantee is an annual effective yield; that means that the rate reflects a full year’s interest. We credit interest daily at a rate that will provide the guaranteed annual effective yield over one year. The guaranteed interest rate will never be less than the rate stated in the contract.

Fees and Other Deductions. If all or a portion of your account value in GAA is withdrawn, you may incur the following:

- ▷ Market Value Adjustment (MVA) - as described in this appendix and in the GAA prospectus;
- ▷ Tax Penalties and/or Tax withholding - see “Taxation”;
- ▷ Early Withdrawal Charge - see “Fees”; or
- ▷ Maintenance Fee - see “Fees.”

We do not make deductions from amounts in the GAA to cover mortality and expense risks. Rather, we consider these risks when determining the credited rate.

Market Value Adjustment (MVA). If you withdraw or transfer your account value from GAA before the guaranteed term is completed, an MVA may apply. The MVA reflects the change in the value of the investment due to changes in interest rates since the date of deposit. The MVA may be positive or negative.

- ▷ If interest rates at the time of withdrawal have increased since the date of deposit, the value of the investment decreases and the MVA will be negative. This could result in your receiving less than the amount you paid into GAA.
- ▷ If interest rates at the time of withdrawal have decreased since the date of deposit, the value of the investment increases and the MVA will be positive.

Guaranteed Terms. The guaranteed term is the period of time account dollars must be left in GAA in order to earn the guaranteed interest rate specified for that guaranteed term. We offer different guaranteed terms at different times. Check with your representative or the Company to learn the details about the guaranteed term(s) currently being offered.

In general we offer the following guaranteed terms:

- ▷ Short-term - three years or less; and
- ▷ Long-term - ten years or less, but greater than three years.

At the end of a guaranteed term, your contract holder or you if permitted may:

- ▷ Transfer dollars to a new guaranteed term;
- ▷ Transfer dollars to other available investment options; or
- ▷ Withdraw dollars.

Deductions may apply to withdrawals. See “Fees and Other Deductions” in this section.

Transfer of Account Dollars. Generally, account dollars invested in GAA may be transferred among guaranteed terms offered through GAA, and/or to other investment options offered through the contract. However, transfers may not be made during the deposit period in which your account dollars are invested in GAA or for 90 days after the close of that deposit period. We will apply an MVA to transfers made before the end of a guaranteed term.

Income Phase. GAA cannot be used as an investment option during the income phase. However, the contract holder (or you, if permitted) may notify us at least 30 days in advance to elect a variable payment option and to transfer your GAA account dollars to any of the subaccounts available during the income phase.

APPENDIX II

FIXED ACCOUNT

The Fixed Account is an investment option available during the accumulation phase under the contracts. Amounts allocated to the Fixed Account are held in the Company's general account which supports insurance and annuity obligations.

Additional information about this option may be found in the contract.

General Disclosure. Interests in the Fixed Account have not been registered with the SEC in reliance upon exemptions under the Securities Act of 1933, as amended. Disclosure in this prospectus about the Fixed Account may be subject to certain generally applicable provisions of the federal securities laws relating to the accuracy and completeness of the statements. Disclosure in this Appendix regarding the Fixed Account has not been reviewed by the SEC.

Interest Rates. The Fixed Account guarantees that amounts allocated to this option will earn the minimum interest rate specified in the contract. We may credit a higher interest rate from time to time, but the rate we credit will never fall below the guaranteed minimum specified in the contract. Among other factors, the safety of the interest rate guarantee depends upon the claims-paying ability of the Company. Amounts applied to the Fixed Account will earn the interest rate in effect at the time money is applied. Amounts in the Fixed Account will reflect a compound interest rate as credited by us. The rate we quote is an annual effective yield.

Our determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets, and the amortization of any capital gains and/or losses realized on the sale of invested assets. Under this option, we assume the risk of investment gain or loss by guaranteeing the amounts you allocate to this option and promising a minimum interest rate and income phase payment.

Withdrawals. Under certain emergency conditions, we may defer payment of any withdrawal for a period of up to 6 months or as provided by applicable federal or state law.

Additionally, if allowed by state law, we may pay withdrawals in equal payments with interest, over a period not to exceed 60 months when:

- (a) the Fixed Account withdrawal value for the contract or for the total of the accounts under the contract exceeds \$250,000 on the day before withdrawal; and
- (b) the sum of the current Fixed Account withdrawal and total of all Fixed Account withdrawals from the contract or any account under the contract within the past 12 calendar months exceeds 20% of the amount in the Fixed Account on the day before current withdrawal.

The contract describes how we will determine the interest rate credited to amounts held in the Fixed Account during the payment period, including the minimum interest rate.

Charges. We do not make deductions from amounts in the Fixed Account to cover mortality and expense risks. We consider these risks when determining the credited rate. If you make a withdrawal from amounts in the Fixed Account, an early withdrawal charge may apply. See "Fees - Early Withdrawal Charge."

Transfers. During the accumulation phase, you may transfer account dollars from the Fixed Account to any other available investment option. We may vary the dollar amount that you are allowed to transfer, but it will never be less than 10% of your account value held in the Fixed Account. This 10% limit does not apply to amounts being transferred into the Fixed Plus Account (if available under the contract).

By notifying us at the address listed in "Contract Overview-Questions: Contacting the Company" at least 30 days before income phase payments begin, you may elect to have amounts transferred to one or more of the subaccounts available during the income phase to provide variable payments.

APPENDIX III

FIXED PLUS ACCOUNT

The Fixed Plus Account is an investment option available under some contracts. Amounts allocated to the Fixed Plus Account are held in the Company's general account which supports insurance and annuity obligations. We reserve the right to limit investment in or transfers to the Fixed Plus Account.

Additional information about this option may be found in the contract.

General Disclosure. Interests in the Fixed Plus Account have not been registered with the SEC in reliance upon exemptions under the Securities Act of 1933, as amended. Disclosure in this prospectus about the Fixed Plus Account may be subject to certain generally applicable provisions of the federal securities laws relating to the accuracy and completeness of the statements. Disclosure in this Appendix regarding the Fixed Plus Account has not been reviewed by the SEC.

Interest Rates. The Fixed Plus Account guarantees that amounts allocated to this option will earn the minimum interest rate specified in the contract. We may credit a higher interest rate from time to time, but the rate we credit will never fall below the guaranteed minimum specified in the contract. Among other factors, the safety of the interest rate guarantee depends upon the claims-paying ability of the Company. For some contracts we credit amounts held in the Fixed Plus Account with a rate 0.25% higher than the then-declared rate beginning in the tenth year after your account was established. Amounts applied to the Fixed Plus Account will earn the interest rate in effect at the time money is applied. Amounts in the Fixed Plus Account will reflect a compound interest rate as credited by us. The rate we quote is an annual effective yield. We do not make deductions from amounts in the Fixed Plus Account to cover mortality and expense risks. We consider these risks in determining the credited rate.

Our determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets, the amortization of any capital gains and/or losses realized on the sale of invested assets, and whether a transfer credit has been selected. Under this option, we assume the risk of investment gain or loss by guaranteeing the amounts you allocate to this option and promising a minimum interest rate and income phase payment.

Request for Partial Withdrawal. Partial withdrawals are limited to 20% of the amount held in the Fixed Plus Account on the day we receive a request in good order at the address listed in "Contract Overview-Questions: Contacting the Company." The 20% limit is reduced by any Fixed Plus withdrawals, transfers or income phase payments made in the last 12 months. In calculating the 20% limit, we reserve the right to include payments made through a Systematic Distribution Option, if available under your contract.

The 20% limit is waived if a partial withdrawal is taken proportionally from each investment option in which the account invests and is due to one or more of the following:

- Election of any income phase payment option with fixed payments or a lifetime payment option with variable payments; and/or
- Due to your death (the withdrawal must occur within six months after death and can only be exercised once).

Request for Full Withdrawal. If the contract holder or you, if allowed by the plan, request a full withdrawal of your account value, we will pay any amounts held in the Fixed Plus Account, with interest, in five annual payments equal to:

- One-fifth of the Fixed Plus Account value on the day we receive the request, reduced by any Fixed Plus Account withdrawals, transfers or income phase payments made during the past 12 months
- One-fourth of the remaining Fixed Plus Account value 12 months later
- One-third of the remaining Fixed Plus Account value 12 months later
- One-half of the remaining Fixed Plus Account value 12 months later, and
- The balance of the Fixed Plus Account value 12 months later

A full withdrawal may be canceled at any time before the end of the five-payment period.

Once we receive a request for full withdrawal, no further withdrawals or transfers will be permitted from Fixed Plus Account.

We will waive the above full withdrawal five-payment period if full withdrawal is made due to any of the following:

- ▷ Your death before income phase payments have begun (request must be received within 6 months after date of death); or
- ▷ Election of any income phase payment option with fixed payments or a lifetime payment option with variable payments; or
- ▷ Your account value in the Fixed Plus Account is \$3,500 or less and no withdrawals, transfers or income phase payments have been made from your account within the past 12 months.

Charges. We do not make deductions from amounts in the Fixed Plus Account to cover mortality and expense risks. We consider these risks when determining the credited rate.

Transfers. Transfers are limited to 20% of the amount held in the Fixed Plus Account on the day a request in good order is received at the address listed in “Contract Overview-Questions: Contacting the Company.” The 20% is reduced by any Fixed Plus Account withdrawals, transfers or income phase payments made in the past 12 months. We reserve the right to include payments made through a Systematic Distribution Option, if available under your contract, in calculating the 20% limit. The 20% limit will be waived if your account value in the Fixed Plus Account is \$1,000 or less.

Income Phase. Amounts accumulating under the Fixed Plus Account can be transferred to the subaccounts to fund variable lifetime income options during the income phase. However, Fixed Plus Account values may not be used to fund nonlifetime income options with variable payments.

Systematic Withdrawal Option (SWO). If available under your contract, SWO described in “Systematic Distribution Options,” may not be elected if you have requested a Fixed Plus Account transfer or withdrawal within the past 12 months.

APPENDIX IV FUND DESCRIPTIONS

List of Fund Name Changes

Current Fund Name	Former Fund Name
ING FMR SM Large Cap Growth Portfolio	ING FMR SM Earnings Growth Portfolio
ING JPMorgan Small Cap Core Equity Portfolio	ING JPMorgan Small Cap Equity Portfolio
ING Thornburg Value Portfolio	ING MFS Capital Opportunities Portfolio

The investment results of the mutual funds (funds) are likely to differ significantly and there is no assurance that any of the funds will achieve their respective investment objectives. You should consider the investment objectives, risks and charges, and expenses of the funds carefully before investing. Please refer to the fund prospectuses for additional information. Shares of the funds will rise and fall in value and you could lose money by investing in the funds. Shares of the funds are not bank deposits and are not guaranteed, endorsed or insured by any financial institution, the Federal Deposit Insurance Corporation or any other government agency. Except as noted, all funds are diversified, as defined under the Investment Company Act of 1940. Fund prospectuses may be obtained free of charge at the address and telephone number listed in “Contract Overview-Questions,” by accessing the SEC’s web site or by contacting the SEC Public Reference Branch.

Certain funds offered under the contracts have investment objectives and policies similar to other funds managed by the fund’s investment adviser. The investment results of a fund may be higher or lower than those of other funds managed by the same adviser. There is no assurance and no representation is made that the investment results of any fund will be comparable to those of another fund managed by the same investment adviser.

For the share class of each fund offered through your contract, please see the cover page.

CONDENSED FINANCIAL INFORMATION

Except for subaccounts which did not commence operations as of December 31, 2006, the following tables give (1) the accumulation unit value (AUV) at the beginning of the period, (2) the AUV at the end of the period and (3) the total number of accumulation units outstanding at the end of the period for each subaccount of Variable Annuity Account B available under the contracts for the indicated periods. For those subaccounts that commenced operations during the period ended December 31, 2006 the "Value at beginning of period" shown is the value at first date of investment.

GENERAL INFORMATION AND HISTORY

ING Life Insurance and Annuity Company (the “Company,” we, us, our) is a stock life insurance company which was organized under the insurance laws of the State of Connecticut in 1976. Prior to May 1, 2002, the Company was known as Aetna Life Insurance and Annuity Company. Through a merger, it succeeded to the business of Aetna Variable Annuity Life Insurance Company (formerly Participating Annuity Life Insurance Company organized in 1954).

As of December 31, 2006, the Company had \$59 billion invested through their products, including \$50 billion in their separate accounts (of which Company affiliates manage or oversee the management of \$19 billion). The Company is ranked based on assets among the top 2% of all life and health insurance companies rated by A.M. Best Company as of July 19, 2006. The Company is an indirect wholly owned subsidiary of ING Groep N.V., a global financial institution active in the fields of insurance, banking and asset management and is a direct, wholly owned subsidiary of Lion Connecticut Holdings Inc." The Company is engaged in the business of issuing life insurance policies and annuity contracts. Our Home Office is located at 151 Farmington Avenue, Hartford, Connecticut 06156.

In addition to serving as the principal underwriter and the depositor for the separate account, the Company is a registered investment adviser under the Investment Advisers Act of 1940.

Other than the mortality and expense risk charge and administrative expense charge, described in the prospectus, all expenses incurred in the operations of the separate account are borne by the Company. However, the Company does receive compensation for certain administrative or distribution costs from the funds or affiliates of the funds used as funding options under the contract. (See “Fees” in the prospectus.)

The assets of the separate account are held by the Company. The separate account has no custodian. However, the funds in whose shares the assets of the separate account are invested each have custodians, as discussed in their respective prospectuses.

From this point forward, the term “contract(s)” refers only to those offered through the prospectus.

VARIABLE ANNUITY ACCOUNT B

Variable Annuity Account B is a separate account established by the Company for the purpose of funding variable annuity contracts issued by the Company. The separate account is registered with the Securities and Exchange Commission (“SEC”) as a unit investment trust under the Investment Company Act of 1940, as amended. Payments to accounts under the contract may be allocated to one or more of the subaccounts. Each subaccount invests in the shares of only one of the funds listed below. We may make additions to, deletions from or substitutions of available investment options as permitted by law and subject to the conditions of the contract. The availability of the funds is subject to applicable regulatory authorization. Not all funds are available in all jurisdictions, under all contracts, or under all plans.

The funds currently available under the contract are as follows:

AIM V.I. Capital Appreciation Fund (Series I)	ING Stock Index Portfolio (Class I)

* FMRSM is a service mark of Fidelity Management & Research Company.

- (1) This fund has changed its name to the name listed above. See Appendix IV – Fund Descriptions in the prospectus for a complete list of former and current fund names.
- (2) This fund is scheduled to be available on May 11, 2007.
- (3) These funds are structured as fund of funds that invest directly in shares of underlying funds. See “Fees - Fund Fees and Expenses” in the prospectus for additional information.
- (4) This fund is scheduled to be available on May 7, 2007.

Complete descriptions of each of the funds, including their investment objectives, policies, risks and fees and expenses, are contained in the prospectuses and statements of additional information for each of the funds.

OFFERING AND PURCHASE OF CONTRACTS

The Company's subsidiary, ING Financial Advisers, LLC serves as the principal underwriter for contracts. ING Financial Advisers, LLC, a Delaware limited liability company, is registered as a broker-dealer with the SEC. ING Financial Advisers, LLC is also a member of the National Association of Securities Dealers, Inc. and the Securities Investor Protection Corporation. ING Financial Advisers, LLC's principal office is located at 151 Farmington Avenue, Hartford, Connecticut 06156. The contracts are distributed through life insurance agents licensed to sell variable annuities who are registered representatives of ING Financial Advisers, LLC or of other registered broker-dealers who have entered into sales arrangements with ING Financial Advisers, LLC. The offering of the contracts is continuous. A description of the manner in which contracts are purchased may be found in the prospectus under the sections entitled "Contract Ownership and Rights" and "Your Account Value."

Compensation paid to the principal underwriter, ING Financial Advisers, LLC, for the years ending December 31, 2006, 2005 and 2004 amounted to \$2,507,216.09, \$2,761,989.83, and \$2,068,285.47 respectively. These amounts reflect compensation paid to ING Financial Advisers, LLC attributable to regulatory and operating expenses associated with the distribution of all registered variable annuity products issued by Variable Annuity Account B of ING Life Insurance and Annuity Company.

INCOME PHASE PAYMENTS

When you begin receiving payments under the contract during the income phase (see "Income Phase" in the prospectus), the value of your account is determined using accumulation unit values as of the tenth valuation before the first income phase payment is due. Such value (less any applicable premium tax charge) is applied to provide payments to you in accordance with the income phase payment option and investment options elected.

The annuity option tables found in the contract show, for each option, the amount of the first payment for each \$1,000 of value applied. Thereafter, variable payments fluctuate as the Annuity Unit value(s) fluctuates with the investment experience of the selected investment option(s). The first and subsequent payments also vary depending on the assumed net investment rate selected (3.5% or 5% per annum). Selection of a 5% rate causes a higher first payment, but payments will increase thereafter only to the extent that the net investment rate increases by more than 5% on an annual basis. Payments would decline if the rate failed to increase by 5%. Use of the 3.5% assumed rate causes a lower first income phase payment, but subsequent income phase payments would increase more rapidly or decline more slowly as changes occur in the net investment rate.

When the income phase begins, the annuitant is credited with a fixed number of Annuity Units (which does not change thereafter) in each of the designated investment options. This number is calculated by dividing (a) by (b), where (a) is the amount of the first payment based upon a particular investment option, and (b) is the then current Annuity Unit value for that investment option. As noted, Annuity Unit values fluctuate from one valuation to the next (see "Account Value" in the prospectus); such fluctuations reflect changes in the net investment factor for the appropriate subaccount(s) (with a ten day valuation lag which gives the Company time to process payments) and a mathematical adjustment which offsets the assumed net investment rate of 3.5% or 5% per annum.

The operation of all these factors can be illustrated by the following hypothetical example. These procedures will be performed separately for the investment options selected during the income phase.

EXAMPLE:

Assume that, at the date payments are to begin, there are 3,000 accumulation units credited under a particular contract or account and that the value of an accumulation unit for the tenth valuation prior to retirement was \$13.650000. This produces a total value of \$40,950.

Assume also that no premium tax charge is payable and that the annuity table in the contract provides, for the payment option elected, a first monthly variable payment of \$6.68 per \$1,000 of value applied; the annuitant's first monthly payment would thus be 40.950 multiplied by \$6.68, or \$273.55.

Assume then that the value of an Annuity Unit upon the valuation on which the first payment was due was \$13.400000. When this value is divided into the first monthly payment, the number of Annuity Units is determined to be 20.414. The value of this number of Annuity Units will be paid in each subsequent month.

Suppose there were 30 days between the initial and second payment valuation dates. If the net investment factor with respect to the appropriate subaccount is 1.0032737 as of the tenth valuation preceding the due date of the second monthly income phase payment, multiplying this factor by $.9971779^{*} = .9999058^{30}$ (to take into account 30 days of the assumed net investment rate of 3.5% per annum built into the number of Annuity Units determined above) produces a result of 1.000442. This is then multiplied by the Annuity Unit value for the prior valuation (\$13.400000 from above) to produce an Annuity Unit value of \$13.405928 for the valuation occurring when the second income phase payment is due.

The second monthly income phase payment is then determined by multiplying the number of Annuity Units by the current Annuity Unit value, or 20.414 times \$13.405928, which produces a payment of \$273.67.

*If an assumed net investment rate of 5% is elected, the appropriate factor to take into account such assumed rate would be $.9959968 = .9998663^{30}$.

SALES MATERIAL AND ADVERTISING

We may include hypothetical illustrations in our sales literature that explain the mathematical principles of dollar cost averaging, compounded interest, tax deferred accumulation, and the mechanics of variable annuity contracts. We may also discuss the difference between variable annuity contracts and other types of savings or investment products such as, personal savings accounts and certificates of deposit.

We may distribute sales literature that compares the percentage change in accumulation unit values for any of the subaccounts to established market indices such as the Standard & Poor's 500 Stock Index and the Dow Jones Industrial Average or to the percentage change in values of other management investment companies that have investment objectives similar to the subaccount being compared.

We may publish in advertisements and reports, the ratings and other information assigned to us by one or more independent rating organizations such as A.M. Best Company, Duff & Phelps, Standard & Poor's Corporation and Moody's Investors Service, Inc. The purpose of the ratings is to reflect our financial strength and/or claims-paying ability. We may also quote ranking services such as Morningstar's Variable Annuity/Life Performance Report and Lipper's Variable Insurance Products Performance Analysis Service (VIPPAS), which rank variable annuity or life subaccounts or their underlying funds by performance and/or investment objective. We may categorize funds in terms of the asset classes they represent and use such categories in marketing material for the contracts. We may illustrate in advertisements the performance of the underlying funds, if accompanied by performance which also shows the performance of such funds reduced by applicable charges under the separate account. We may also show in advertisements the portfolio holdings of the underlying funds, updated at various intervals. From time to time, we will quote articles from newspapers and magazines or other publications or reports such as The Wall Street Journal, Money magazine, USA Today and The VARDS Report.

We may provide in advertising, sales literature, periodic publications or other materials information on various topics of interest to current and prospective contract holders or participants. These topics may include the relationship between sectors of the economy and the economy as a whole and its effect on various securities markets, investment strategies and techniques (such as value investing, market timing, dollar cost averaging, asset allocation, constant ratio transfer and account rebalancing), the advantages and disadvantages of investing in tax-deferred and taxable investments, customer profiles and hypothetical purchase and investment scenarios, financial management and tax and retirement planning, and investment alternatives to certificates of deposit and other financial instruments, including comparison between the contracts and the characteristics of and market for such financial instruments.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Ernst & Young LLP, 55 Ivan Allen Jr. Boulevard, Suite 1000, Atlanta, GA 30308 is the independent registered public accounting firm for the separate account and for the Company. The services provided to the separate account include primarily the audit of the separate account's financial statements.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Account's internal control over financial reporting. Our audits include consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Account's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2006, by correspondence with the transfer agents. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of each of the respective Divisions constituting Variable Annuity Account B of ING Life Insurance and Annuity Company at December 31, 2006, the results of their operations and changes in their net assets for the periods disclosed in the financial statements, in conformity with U.S. generally accepted accounting principles.

**VARIABLE ANNUITY ACCOUNT B OF
ING LIFE INSURANCE AND ANNUITY COMPANY**
Notes to Financial Statements

1. Organization

Variable Annuity Account B of ING Life Insurance and Annuity Company (the “Account”) was established by ING Life Insurance and Annuity Company (“ILIAC” or the “Company”) to support the operations of variable annuity contracts (“Contracts”). The Company is an indirect wholly owned subsidiary of ING America Insurance Holdings, Inc. (“ING AIH”), an insurance holding company domiciled in the State of Delaware. ING AIH is an indirect wholly owned subsidiary of ING Groep, N.V., a global financial services holding company based in The Netherlands.

The Account is registered as a unit investment trust with the Securities and Exchange Commission under the Investment Company Act of 1940, as amended. The Account is exclusively for use with Contracts that may be entitled to tax-deferred treatment under specific sections of the Internal Revenue Code of 1986, as amended. ILIAC provides for variable accumulation and benefits under the Contracts by crediting annuity considerations to one or more divisions within the Account or the fixed separate account, which is not part of the Account, as directed by the contractowners. The portion of the Account’s assets applicable to Contracts will not be charged with liabilities arising out of any other business ILIAC may conduct, but obligations of the Account, including the promise to make benefit payments, are obligations of ILIAC. The assets and liabilities of the Account are clearly identified and distinguished from the other assets and liabilities of ILIAC.

At December 31, 2006, the Account had 167 investment divisions (the “Divisions”), 38 of which invest in independently managed mutual funds and 129 of which invest in mutual funds managed by affiliates, either Directed Services, LLC or ING Investments, LLC. The assets in each Division are invested in shares of a designated fund (“Fund”) of various investment trusts (the “Trusts”). Investment Divisions with asset balances at December 31, 2006 and related Trusts are as follows:

ING Pioneer Equity Income Portfolio - Institutional Class
ING Stock Index Portfolio - Institutional Class
ING Variable Portfolios, Inc.
ING VP Growth Portfolio - Class S
ING Variable Products Trust
ING VP Growth Opportunities Portfolio - Class I
ING VP Growth Opportunities Portfolio - Class S

2. Significant Accounting Policies

The following is a summary of the significant accounting policies of the Account:

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from reported results using those estimates.

Investments

Investments are made in shares of a Fund and are recorded at fair value, determined by the net asset value per share of the respective Fund. Investment transactions in each Fund are recorded on the trade date. Distributions of net investment income and capital gains from each Fund are recognized on the ex-distribution date. Realized gains and losses on redemptions of the shares of the Fund are determined on the specific identification basis. The difference between cost and current market value of investments owned on the day of measurement is recorded as unrealized appreciation or depreciation of investments.

Federal Income Taxes

Operations of the Account form a part of, and are taxed with, the total operations of ILIAC, which is taxed as a life insurance company under the Internal Revenue Code. Earnings and realized capital gains of the Account attributable to the contractowners are excluded in the determination of the federal income tax liability of ILIAC.

**VARIABLE ANNUITY ACCOUNT B OF
ING LIFE INSURANCE AND ANNUITY COMPANY**
Notes to Financial Statements

Contractowner Reserves

Prior to the annuity date, the Contracts are redeemable for the net cash surrender value of the Contracts. The annuity reserves of the Account are represented by net assets on the Statements of Assets and Liabilities and are equal to the aggregate account values of the contractowners invested in the Account Divisions. To the extent that benefits to be paid to the contractowners exceed their account values, ILIAC will contribute additional funds to the benefit proceeds. Conversely, if amounts allocated exceed amounts required, transfers may be made to ILIAC.

Changes from Principal Transactions

Included in Changes from Principal Transactions on the Statements of Changes in Net Assets are items which relate to contractowner activity, including deposits, surrenders and withdrawals, benefits, and contract charges. Also included are transfers between the fixed account and the Divisions, transfers between Divisions, and transfers to (from) ILIAC related to gains and losses resulting from actual mortality experience (the full responsibility for which is assumed by ILIAC). Any net unsettled transactions as of the reporting date are included in Due to related parties on the Statements of Assets and Liabilities.

3. Charges and Fees

Under the terms of the Contracts, certain charges are allocated to the Contracts to cover ILIAC's expenses in connection with the issuance and administration of the Contracts. Following is a summary of these charges:

Mortality and Expense Risk Charges

ILIAC assumes mortality and expense risks related to the operations of the Account and, in accordance with the terms of the Contracts, deducts a daily charge from the assets of the Account. Daily charges are deducted at annual rates of up to 1.25% of the average daily net asset value of each Division of the Account to cover these risks, as specified in the Contracts.

Asset Based Administrative Charges

A daily charge to cover administrative expenses of the Account is deducted at an annual rate of up to 0.25% of the assets attributable to the Contracts.

**VARIABLE ANNUITY ACCOUNT B OF
ING LIFE INSURANCE AND ANNUITY COMPANY**
Notes to Financial Statements

Contract Maintenance Charges

An annual Contract maintenance fee of up to \$30 may be deducted from the accumulation value of Contracts to cover ongoing administrative expenses, as specified in the Contract.

Contingent Deferred Sales Charges

For certain Contracts, a contingent deferred sales charge (“Surrender Charge”) is imposed as a percentage that ranges up to 7.00% of each premium payment if the Contract is surrendered or an excess partial withdrawal is taken, as specified in the Contract.

Premium Taxes

For certain Contracts, premium taxes are deducted, where applicable, from the accumulation value of each Contract. The amount and timing of the deduction depends on the contractowner’s state of residence and currently ranges up to 4.00% of premiums.

Other Contract Charges

Under the Fixed/Variable Single Premium Immediate Annuity contract, an additional annual charge of 1.00% is deducted daily from the accumulation values for contractowners who select the Guaranteed Minimum Income feature. For Deferred Variable Annuity contracts, an additional annual charge of up to 0.50% is deducted daily from the accumulation value for amounts invested in the ING GET U.S. Core Portfolio Funds. In addition, an annual charge of up to 0.50% is deducted daily from the accumulation values for contractowners who select the Premium Bonus Option feature.

Fees Waived by ILIAC

Certain charges and fees for various types of Contracts are currently waived by ILIAC. ILIAC reserves the right to discontinue these waivers at its discretion or to conform with changes in the law.

ING LIFE INSURANCE AND ANNUITY COMPANY**
Notes to Financial Statements

4. Related Party Transactions

During the year ended December 31, 2006, management fees were paid indirectly to ING Investments, LLC, an affiliate of the Company, in its capacity as investment adviser to the ING GET Fund, ING VP Balanced Portfolio, Inc., ING Strategic Allocation Portfolios, Inc., ING Variable Funds, ING Variable Insurance Trust, ING Variable Portfolios, Inc., ING Variable Products Trust, ING VP Intermediate Bond Portfolio, ING VP Money Market Portfolio and ING VP Natural Resources Trust. The annual fee rate ranged from 0.25% to 1.00% of the average net assets of each respective Fund or Fund of the Trust.

In addition, management fees were paid to ILIAC in its capacity as investment adviser to ING Partners, Inc. The annual fee rate ranged from 0.10% to 1.00% of the average net assets of each respective Fund of the Trust.

Management fees were also paid indirectly to Directed Services, Inc. (“DSI”), an affiliate of the Company, in its capacity as investment manager to ING Investors Trust. The Fund’s advisory agreement provided for a fee at an annual rate ranging from 0.00% to 1.25% of the average net assets of each respective Portfolio excluding ING American Funds Growth Portfolio, ING American Funds Growth-Income Portfolio, and ING American Funds International Portfolio.

On November 9, 2006, the Board of Trustees of ING Partners, Inc. and ING Investors Trust approved a consolidation of the Advisory functions for all of the Portfolios. Effective December 31, 2006 DSI was reorganized into a limited liability corporation, renamed to Directed Services, LLC (“DSL”) and transferred so that it became a wholly owned subsidiary of ILIAC. The functions of DSI and ILIAC were consolidated into DSL effective December 31, 2006. DSL is a dually registered investment adviser and broker-dealer. DSI’s current advisory contracts will remain within the newly organized DSL, and ILIAC’s advisory contracts will be assumed by DSL.

Notes to Financial Statements

Non-Qualified 1964

Individual Contracts issued from December 1, 1964 to March 14, 1967.

Non-Qualified V

Certain AetnaPlus Contracts issued in connection with deferred compensation plans issued since August 28, 1992, and certain individual non-qualified Contracts.

Non-Qualified V (0.75)

Subset of Non-Qualified V Contracts having a mortality and expense charge of 0.75%

Non-Qualified VI

Certain existing Contracts that were converted to ACES, an administrative system (previously valued under Non-Qualified I).

Non-Qualified VII

Certain individual and group Contracts issued as non-qualified deferred annuity contracts or Individual retirement annuity Contracts issued since May 4, 1994.

Non-Qualified VIII

Certain individual retirement annuity Contracts issued since May 1, 1998.

Non-Qualified IX

Group Aetna Plus Contracts assessing an administrative expense charge effective April 7, 1997 issued in connection with deferred compensation plans.

Non-Qualified X

Group AetnaPlus contracts containing contractual limits on fees, issued in connection with deferred compensation plans and as individual non-qualified Contracts, resulting in reduced daily charges for certain funding options effective May 29, 1997.

Non-Qualified XI

Certain Contracts, previously valued under Non-Qualified VI, containing contractual limits on fees, resulting in reduced daily charges for certain funding options effective May 29, 1997.

ING LIFE INSURANCE AND ANNUITY COMPANY**
Notes to Financial Statements

Non-Qualified XII

Certain individual retirement annuity contracts issued since March 1999.

Non-Qualified XIII

Certain individual retirement annuity Contracts issued since October 1, 1998.

Non-Qualified XIV

Certain individual retirement annuity Contracts issued since September 1, 1998.

Non-Qualified XV

Certain individual retirement annuity Contracts issued since September 1, 1998.

Non-Qualified XVI

Certain individual retirement annuity Contracts issued since August 2000.

Non-Qualified XVIII

Certain individual retirement annuity Contracts issued since September 2000.

Non-Qualified XIX

Certain individual retirement annuity Contracts issued since August 2000.

Non-Qualified XX

Certain deferred compensation Contracts issued since December 2002.

Non-Qualified XXII

Certain AetnaPlus Contracts issued in conjunction with deferred compensation plans issued since August 28, 1992, and certain individual non-qualified contracts having a mortality and expense charge of 0.90%.

(a) As investment Division was not available until 2002, this data is not meaningful and is therefore not presented.

(b) As investment Division was not available until 2003, this data is not meaningful and is therefore not presented.

(c) As investment Division was not available until 2004, this data is not meaningful and is therefore not presented.

(d) As investment Division was not available until 2005, this data is not meaningful and is therefore not presented.

(e) As investment Division was not available until 2006, this data is not meaningful and is therefore not presented.

A The Investment Income Ratio represents dividends received by the Division, excluding capital gains distributions, divided by the average net assets.

The recognition of investment income is determined by the timing of the declaration of dividends by the underlying fund in which the Division invests.

B The Expense Ratio considers only the expenses borne directly by the Account and is equal to the mortality and expense charge, and other contract charges as defined in Note 3. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

C Total Return is calculated as the change in unit value for each Contract presented in the Statements of Assets and Liabilities. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

* Includes units for annuity contracts in payout beginning in 2006.

The Board of Directors
ING Life Insurance and Annuity Company

We have audited the accompanying consolidated balance sheets of ING Life Insurance and Annuity Company and subsidiaries as of December 31, 2006 and 2005, and the related consolidated statements of operations, changes in shareholder's equity, and cash flows for each of the three years in the period ended December 31, 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of ING Life Insurance and Annuity Company and subsidiaries as of December 31, 2006 and 2005, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2006, in conformity with U.S. generally accepted accounting principles.

/s/ Ernst & Young LLP

1. Organization and Significant Accounting Policies

Basis of Presentation

ING Life Insurance and Annuity Company (“ILIAC”) is a stock life insurance company domiciled in the state of Connecticut. ILIAC and its wholly-owned subsidiaries (collectively, the “Company”) are providers of financial products and services in the United States. ILIAC is authorized to conduct its insurance business in all states and in the District of Columbia.

The consolidated financial statements include ILIAC and its wholly-owned subsidiaries, ING Financial Advisers, LLC (“IFA”), Directed Services LLC (“DSL”), and Northfield Windsor LLC (“NWL”). ILIAC is a direct, wholly-owned subsidiary of Lion Connecticut Holdings Inc. (“Lion” or “Parent”), which is an indirect, wholly-owned subsidiary of ING Groep N.V. (“ING”). ING is a global financial services holding company based in The Netherlands, with American Depositary Shares listed on the New York Stock Exchange under the symbol “ING.”

On December 1, 2006, Lion contributed to ILIAC, Directed Services, Inc. (“DSI”), a New York corporation registered as a broker-dealer under the Securities Exchange Act of 1934 and as an investment advisor under the Investment Advisors Act of 1940, whose primary functions are the distribution of variable insurance products and investment advisory services for open-end mutual funds. Additionally, on December 12, 2006, ILIAC organized DSL as a wholly-owned Delaware limited liability company. On December 31, 2006, DSI merged with and into DSL and ceased to exist. Upon merger, the operations and broker-dealer and investment advisor registrations of DSI were consolidated into DSL, the surviving company. Effective January 1, 2007, ILIAC’s investment advisory agreement with certain variable funds offered in Company products was assigned to DSL.

Statement of Financial Accounting Standards (“FAS”) No. 141, “Business Combinations”, excludes transfers of net assets or exchanges of shares between entities under common control, and notes that certain provisions under Accounting Principles Board (“APB”) Opinion No. 16, “Business Combinations”, provide a source of guidance for such transactions. In accordance with APB Opinion No. 16, financial information of the combined entity is presented as if the entities had been combined for the full year, and all comparative financial statements are restated and presented as if the entities had previously been combined, in a manner similar to a pooling-of-interests. The Consolidated Balance Sheets and Consolidated Statements of Operations give effect to the DSL consolidation transactions as if they had occurred on January 1, 2004 and include the following:

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

	2006	2005	2004
Total revenue	\$ 594.9	\$ 507.7	\$ 476.0
Net income	35.8	28.2	21.2
Additional paid-in capital:			
Dividends paid	25.0	20.5	13.5
Employee share-based payments	0.1	0.2	-

On May 11, 2006, ILIAC organized NWL as a wholly-owned subsidiary for the purpose of purchasing, constructing, developing, leasing, and managing a new corporate office facility to be located at 200 Northfield Drive, Windsor, Connecticut that will serve as the principal executive offices of the Company and as corporate offices for other Hartford based operations of the Company and its affiliates (the “Windsor Property”).

On December 31, 2005, ILIAC’s subsidiary, ING Insurance Company of America (“IICA”), merged with and into ILIAC. As of the merger date, IICA ceased to exist and ILIAC became the surviving corporation. The merger did not have an impact on ILIAC, as IICA was a wholly-owned subsidiary and already included in the consolidated financial statements for all periods presented.

Description of Business

The Company offers qualified and nonqualified annuity contracts that include a variety of funding and payout options for individuals and employer-sponsored retirement plans qualified under Internal Revenue Code Sections 401, 403, 408, and 457, as well as nonqualified deferred compensation plans. The Company’s products are offered primarily to individuals, pension plans, small businesses, and employer-sponsored groups in the health care, government, and education markets (collectively “not-for-profit” organizations) and corporate markets. The Company’s products are generally distributed through pension professionals, independent agents and brokers, third party administrators, banks, dedicated career agents, and financial planners.

Products offered by the Company include deferred and immediate (payout annuities) annuity contracts. These products include programs offered to qualified plans and nonqualified deferred compensation plans that package administrative and record-keeping services along with a variety of investment options, including affiliated and nonaffiliated mutual funds and variable and fixed investment options. In addition, the Company offers wrapper agreements entered into with retirement plans, which contain certain benefit responsive guarantees (i.e. liquidity guarantees of principal and previously accrued interest for benefits paid under the terms of the plan) with respect to portfolios of plan-owned assets not invested with the Company. The Company also offers investment advisory services and pension plan administrative services.

The Company has one operating segment.

Recently Adopted Accounting Standards

Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans

In September 2006, the Financial Accounting Standards Board (“FASB”) issued FAS No. 158, “Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans - An Amendment of FASB Statements No. 87, 88, 106, and 132R” (“FAS No. 158”). FAS No. 158 requires an employer to:

- Recognize in the statement of financial position, an asset for a plan’s overfunded status or a liability for a plan’s underfunded status;
- Measure a plan’s assets and obligations that determine its funded status as of the end of the fiscal year; and
- Recognize changes in the funded status of a defined benefit postretirement plan in the year in which the changes occur, reporting such changes in comprehensive income.

On December 31, 2006, the Company adopted the recognition and disclosure provisions of FAS No. 158. The effect of adopting FAS No. 158 on the Company’s financial condition at December 31, 2006 is included in the accompanying consolidated financial statements. FAS No. 158 did not have a significant effect on the Company’s financial condition at December 31, 2005 or 2004. The provisions regarding the change in the measurement date of postretirement benefit plans are not applicable, as the Company already uses a measurement date of December 31 for its pension plans.

The incremental effects of adopting the provisions of FAS No. 158 on the Company’s Consolidated Balance Sheet at December 31, 2006, are as follows:

	Prior to Adopting FAS No. 158	Effects of Adopting FAS No. 158	As Reported at December 31, 2006
Other assets	\$ 74.0	\$ (0.2)	\$ 73.8
Deferred income taxes	246.3	(0.3)	246.0
Other liabilities	405.6	0.6	406.2
Accumulated other comprehensive loss	(13.5)	(0.5)	(14.0)

Considering the Effects of Prior Year Misstatements

In September 2006, the Securities and Exchange Commission (“SEC”) staff issued SEC Staff Accounting Bulletin (“SAB”) Topic 1N, “Financial Statements - Considering the Effects of Prior Year Misstatements When Quantifying Misstatements in Current Year Financial Statements” (“SAB 108”). SAB 108 states that a registrant should quantify the effect of an error on the financial statements using a dual approach. Specifically, the amount should be computed using both the “rollover” (current year income statement perspective) and “iron curtain” (year-end balance sheet perspective) methods.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

SAB 108 was effective for fiscal years ending after November 15, 2006. The adoption of SAB 108 did not have a material impact on the Company's financial position.

The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments

On November 3, 2005, the FASB issued FASB Staff Position ("FSP") FAS No. 115-1, "The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments" ("FSP FAS No. 115-1"). FSP FAS No. 115-1 replaces the impairment evaluation guidance of the Emerging Issues Task Force ("EITF") Issue No. 03-1, "The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments" ("EITF 03-1").

FSP FAS No. 115-1 addresses the determination of when an investment is considered impaired, whether that impairment is other-than-temporary, and the measurement of an impairment loss. In addition, it includes considerations for accounting subsequent to the recognition of an other-than-temporary impairment and requires certain disclosures about unrealized losses that have not been recognized as other-than-temporarily impaired. FSP FAS No. 115-1 further clarifies that an impairment loss should be recognized no later than when the impairment is deemed other-than-temporary, even if a decision to sell an impaired security has not been made. FSP FAS No. 115-1 references existing guidance on other-than-temporary impairments.

FSP FAS No. 115-1 was effective for reporting periods beginning after December 15, 2005, and was implemented by the Company during the fourth quarter of 2005. As a result of adopting FSP FAS No. 115-1, the Company recognized impairment losses of \$42.6 and \$5.7 for the years ended December 31, 2006 and 2005, respectively, related to investments that the Company does not have the intent and ability to retain for a period of time sufficient to allow for recovery in fair value. The required disclosures are included in the Investments footnote.

Investor's Accounting for an Investment in a Limited Partnership When the Investor is the Sole General Partner and the Limited Partners Have Certain Rights

In June 2005, the EITF reached a consensus on EITF Issue 04-5, "Investor's Accounting for an Investment in a Limited Partnership When the Investor is the Sole General Partner and the Limited Partners Have Certain Rights" ("EITF 04-5"), which states that the general partner in a limited partnership should presume that it controls and, thus, should consolidate the limited partnership, unless the limited partners have either (a) substantive ability to dissolve the limited partnership or otherwise remove the general partner without cause or (b) substantive participating rights. EITF 04-5 applies to limited partnerships that are not variable interest entities under FASB Interpretation No. 46(R): "Consolidation of Variable Interest Entities" ("FIN 46(R)"). EITF 04-5 was effective immediately for all new limited partnerships formed and for existing limited partnerships for which partnership agreements are modified after June 29, 2005, and is effective for all

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

other limited partnerships at the commencement of the first reporting period beginning after December 15, 2006.

EITF 04-5 had no impact on ILIAC as of December 31, 2006, as the Company's investments in limited partnerships are generally considered variable interest entities under FIN 46(R), and are accounted for using the cost or equity method of accounting since the Company is not the primary beneficiary. Investments in limited partnerships are included in Other investments on the Consolidated Balance Sheets.

Share-Based Payment

In December 2004, the FASB issued FAS No. 123 (revised 2004), "Share-Based Payment" ("FAS No. 123R"), which requires all share-based payments to employees be recognized in the financial statements based upon the fair value. FAS No. 123R was effective at the beginning of the first annual period beginning after June 15, 2005. FAS No. 123R provides two transition methods, modified-prospective and modified-retrospective.

The modified-prospective method recognizes the grant-date fair value of compensation for new awards granted after the effective date and unvested awards beginning in the fiscal period in which the recognition provision are first applied. Prior periods are not restated. The modified-retrospective method permits entities to restate prior periods by recognizing the compensation cost based on amounts previously reported in the pro forma footnote disclosure as required under FAS No. 123, "Accounting for Stock-Based Compensation" ("FAS No. 123").

The Company early adopted the provisions of FAS No. 123R on January 1, 2005, using the modified-prospective method. Under the modified-prospective method, compensation cost recognized include: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2005, based on the grant date fair value estimated in accordance with the original provisions of FAS No. 123, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2005, based on the grant-date fair value in accordance with the provisions of FAS No. 123R. Results for prior periods are not restated.

Prior to January 1, 2005, the Company applied the intrinsic value-based provisions set forth in Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25"), and related Interpretations, as permitted by FAS No.123. No stock based employee compensation cost was recognized in the Consolidated Statement of Operations during 2004, as all options granted during the year had an exercise price equal to the market value of the underlying common stock on the date of grant. All shares granted during 2006 and 2005 were those of ING, the Company's ultimate parent.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

As a result of adopting FAS No. 123R, the Company's Net income for the years ended December 31, 2006 and 2005, was \$7.1 and \$5.0, respectively, lower than if it had continued to account for share-based payments under APB 25. The fair value of shares granted during 2006 and 2005 was \$7.6 and \$11.1, respectively, as of December 31, 2006 and 2005, and will be expensed over a vesting period of 3 years. Prior to the adoption of FAS No. 123R, no modifications were made to outstanding options, and there were no significant changes of valuation methodologies as a result of the adoption of FAS No. 123R.

New Accounting Pronouncements

The Fair Value Option for Financial Assets and Financial Liabilities

In February 2007, the FASB issued FASB Statement No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("FAS No. 159"), which allows a company to make an irrevocable election, on specific election dates, to measure eligible items at fair value. The election to measure an item at fair value may be determined on an instrument by instrument basis, with certain exceptions. If the fair value option is elected, unrealized gains and losses will be recognized in earnings at each subsequent reporting date, and any upfront costs and fees related to the item will be recognized in earnings as incurred. Items eligible for the fair value option include:

- Certain recognized financial assets and liabilities;
- Rights and obligations under certain insurance contracts that are not financial instruments;
- Host financial instruments resulting from the separation of an embedded nonfinancial derivative instrument from a nonfinancial hybrid instrument; and
- Certain commitments.

FAS No. 159 is effective for fiscal years beginning after November 15, 2007, although early adoption is permitted under certain conditions. As of the effective date, the fair value option may be elected for eligible items that exist on that date. The effect of the first remeasurement to fair value shall be reported as a cumulative effect adjustment to the opening balance of retained earnings. As application of the standard is optional, any impact is limited to those financial assets and liabilities to which FAS No. 159 is applied. The Company is currently evaluating the items to which the fair value option may be applied.

Fair Value Measurements

In September 2006, the FASB issued FASB Statement No. 157, "Fair Value Measurements" ("FAS No. 157"). FAS No. 157 provides guidance for using fair value to measure assets and liabilities whenever other standards require (or permit) assets or liabilities to be measured at fair value. FAS No. 157 does not expand the use of fair value in any new circumstances.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

Under FAS No. 157, the FASB clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the asset or liability. In support of this principle, FAS No. 157 establishes a fair value hierarchy that prioritizes the information used to develop such assumptions. The fair value hierarchy gives the highest priority to quoted prices in active markets and the lowest priority to unobservable data. FAS No. 157 also requires separate disclosure of fair value measurements by level within the hierarchy and expanded disclosure of the effect on earnings for items measured using unobservable data.

The provisions of FAS No. 157 are effective for financial statements issued for fiscal years beginning after November 15, 2007. The Company is in the process of determining the impact of adoption of FAS No. 157.

Accounting for Uncertainty in Income Taxes

In June 2006, the FASB issued FIN 48, "Accounting for Uncertainty in Income Taxes" ("FIN 48"), which creates a single model to address the accounting for the uncertainty in income tax positions recognized in a company's financial statements in accordance with FAS No. 109, "Accounting for Income Taxes."

FIN 48 prescribes a two-step process for determining the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. The first step is recognition: A company first determines whether a tax position is more likely than not to be sustained upon examination, based on the technical merits of the position. The second is measurement: A tax position that meets the more-likely-than-not recognition threshold is measured to determine the amount of benefit recognized in the financial statements. The benefit under step two is measured as the largest amount of benefit that is greater than 50% likely of being realized upon ultimate settlement. No benefit will be recognized on tax positions that do not meet the more-likely-than-not recognition standard. In addition, FIN 48 provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition.

FIN 48 is effective for fiscal years beginning after December 15, 2006, and was adopted by the Company on January 1, 2007. As a result of implementing FIN 48, the Company expects to recognize a cumulative effect of change in accounting principle between \$2.5 and \$5.0 as a reduction to January 1, 2007 Retained earnings.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

Accounting for Servicing of Financial Assets

In March 2006, the FASB issued FAS No. 156, “Accounting for Servicing of Financial Assets – an amendment of FASB Statement No. 140” (“FAS No. 156”). FAS No. 156 requires the separate recognition of servicing assets and servicing liabilities each time an obligation to service a financial asset is undertaken by entering into a servicing contract and permits the fair value measurement of servicing assets and servicing liabilities. In addition, FAS No. 156 does the following:

- Clarifies when a servicer should separately recognize servicing assets and liabilities;
- Requires all separately recognized servicing assets and servicing liabilities to be initially measured at fair value, if practicable;
- Permits a one-time reclassification of available-for-sale securities to trading securities by entities with recognized servicing rights, provided that the available-for-sale securities are identified in some manner as offsetting the exposure to changes in fair value of servicing assets and servicing liabilities that are subsequently measured at fair value; and
- Requires additional disclosures for all separately recognized servicing assets and servicing liabilities.

FAS No. 156 requirements for recognition and initial measurement of servicing assets and servicing liabilities should be applied prospectively to all transactions entered into after the beginning of the first fiscal year that commences after September 15, 2006. The Company has determined that the adoption of FAS No. 156 will not have a material effect on the financial position, results of operations, or cash flows.

Accounting for Certain Hybrid Financial Instruments

In February 2006, the FASB issued FAS No. 155, “Accounting for Certain Hybrid Financial Instruments - an amendment of FASB Statements No. 133 and 140” (“FAS No. 155”), which permits the application of fair value accounting to certain hybrid financial instruments in their entirety if they contain embedded derivatives that would otherwise require bifurcation under FAS No. 133, “Accounting for Derivative Instruments and Hedging Activities” (“FAS No. 133”). Under this approach, changes in fair value would be recognized currently in earnings. In addition, FAS No. 155 does the following:

- Clarifies which interest-only strips and principal-only strips are not subject to derivative accounting under FAS No. 133;
- Requires that interests in securitized financial assets be analyzed to identify interests that are freestanding derivatives or that are hybrid instruments that contain embedded derivatives requiring bifurcation;
- Clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives; and

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

- Allows a qualifying special-purpose entity to hold derivative financial instruments that pertain to beneficial interests, other than another derivative financial instrument.

FAS No. 155 is effective for all instruments acquired, issued, or subject to a remeasurement event, occurring after the beginning of the first fiscal year that commences after September 15, 2006, and was adopted by the Company on January 1, 2007. The Company does not expect FAS No. 155 to have a significant impact on the Company's financial position, results of operations, or cash flows.

Accounting by Insurance Enterprises for Deferred Acquisition Costs in Connection with Modifications or Exchanges of Insurance Contracts

In September 2005, the American Institute of Certified Public Accountants issued Statement of Position 05-1, "Accounting by Insurance Enterprises for Deferred Acquisition Costs in Connection With Modifications or Exchanges of Insurance Contracts" ("SOP 05-1"), which states that when an internal replacement transaction results in a substantially changed contract, the unamortized deferred acquisition costs, unearned revenue liabilities, and deferred sales inducement assets, related to the replaced contract should not be deferred in connection with the new contract. Contract modifications that meet various conditions defined by SOP 05-1 and result in a new contract that is substantially unchanged from the replaced contract, however, should be accounted for as a continuation of the replaced contract.

SOP 05-1 defines an internal replacement as a modification in product benefits, features, rights, or coverages, that occurs by the exchange of a contract for a new contract, by amendment, endorsement, or rider, to a contract, or by the election of a feature or coverage within a contract. SOP 05-1 applies to internal replacements made primarily to contracts defined by FAS No. 60, "Accounting and Reporting by Insurance Enterprises" ("FAS No. 60"), as short-duration and long-duration insurance contracts, and by FAS No. 97, "Accounting and Reporting by Insurance Enterprises for Certain Long-Duration Contracts and for Realized Gains and Losses from the Sale of Investments" ("FAS No. 97"), as investment contracts.

SOP 05-1 is effective for internal replacements occurring in fiscal years beginning after December 15, 2006, with earlier adoption encouraged, and was adopted by the Company on January 1, 2007. As a result of implementing SOP 05-1, the Company expects to recognize a cumulative effect of a change in accounting principle of \$43.4, before tax, or \$28.2, net of \$15.2 of income taxes, as a reduction to January 1, 2007 Retained earnings.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from reported results using those estimates.

Reclassifications

Certain reclassifications have been made to prior year financial information to conform to the current year classifications.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, money market instruments, and other debt issues with a maturity of 90 days or less when purchased.

Investments

All of the Company's fixed maturities and equity securities are currently designated as available-for-sale. Available-for-sale securities are reported at fair value and unrealized capital gains (losses) on these securities are recorded directly in Shareholder's equity, after adjustment for related changes in experience-rated contract allocations, deferred policy acquisition costs ("DAC"), value of business acquired ("VOBA"), and deferred income taxes.

Other-Than-Temporary Impairments

The Company analyzes the general account investments to determine whether there has been an other-than-temporary decline in fair value below the amortized cost basis. Management considers the length of time and the extent to which fair value has been less than amortized cost, the issuer's financial condition and near-term prospects, future economic conditions and market forecasts, and the Company's intent and ability to retain the investment for a period of time sufficient to allow for recovery in fair value. If it is probable that all amounts due according to the contractual terms of a debt security will not be collected, an other-than-temporary impairment is considered to have occurred.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

In addition, the Company invests in structured securities that meet the criteria of EITF Issue No. 99-20 “Recognition of Interest Income and Impairment on Purchased and Retained Beneficial Interests in Securitized Financial Assets” (“EITF 99-20”). Under EITF 99-20, a further determination of the required impairment is based on credit risk and the possibility of significant prepayment risk that restricts the Company’s ability to recover the investment. An impairment is recognized if the fair value of the security is less than amortized cost and there has been adverse change in cash flow since the remeasurement date.

When a decline in fair value is determined to be other-than-temporary, the individual security is written down to fair value, and the loss is accounted for as a change in Net realized capital gains (losses).

Experience-Rated Products

Included in available-for-sale securities are investments that support experience-rated products. Experience-rated products are products where the customer, not the Company, assumes investment (including realized capital gains and losses) and other risks, subject to, among other things, minimum principal and interest guarantees. Unamortized realized capital gains (losses) on the sale of and unrealized capital gains (losses) on investments supporting these products are included in Future policy benefits and claims reserves on the Consolidated Balance Sheets. Net realized capital gains (losses) on all other investments are reflected in the Consolidated Statements of Operations. Unrealized capital gains (losses) on all other investments are reflected in Accumulated other comprehensive income (loss) in Shareholder’s equity, net of DAC and VOBA adjustments for unrealized capital gains (losses), and related income taxes.

Purchases and Sales

Purchases and sales of fixed maturities and equity securities, excluding private placements, are recorded on the trade date. Purchases and sales of private placements and mortgage loans are recorded on the closing date.

Valuation

The fair value for fixed maturities is largely determined by one of two pricing methods: published price quotations or valuation techniques with market inputs. Security pricing is applied using a hierarchy or “waterfall” approach, whereby prices are first sought from published price quotations, including independent pricing services or broker-dealer quotations. Published price quotations may be unavailable or deemed unreliable, due to a limited market, for securities that are rarely traded or are traded only in privately negotiated transactions. As such, fair values for the remaining securities, consisting primarily of privately placed bonds, are then determined using risk-free interest rates, current corporate spreads, the credit quality of the issuer, and cash flow characteristics of the security.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

The fair values for actively traded equity securities are based on quoted market prices. For equity securities not actively traded, estimated fair values are based upon values of issues of comparable yield and quality or conversion value, where applicable.

Mortgage loans on real estate are reported at amortized cost, less impairment write-downs. If the value of any mortgage loan is determined to be impaired (i.e., when it is probable the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement), the carrying value of the mortgage loan is reduced to the present value of expected cash flows from the loan, discounted at the loan's effective interest rate, or fair value of the collateral. If the loan is in foreclosure, the carrying value is reduced to the fair value of the underlying collateral, net of estimated costs to obtain and sell. The carrying value of the impaired loans is reduced by establishing a permanent write-down recorded in Net realized capital gains (losses). At December 31, 2006 and 2005, the Company had no allowance for mortgage loan credit losses. The properties collateralizing mortgage loans are geographically dispersed throughout the United States, with the largest concentration of 17.7% and 22.0% of properties in California at December 31, 2006 and 2005, respectively.

Policy loans are carried at unpaid principal balances.

Short-term investments, consisting primarily of money market instruments and other fixed maturity issues purchased with an original maturity of 91 days to one year, are considered available-for-sale and are carried at fair value.

Derivative instruments are reported at fair value using the Company's derivative accounting system. The system uses key financial data, such as yield curves, exchange rates, Standard & Poor's ("S&P") 500 Index prices, and London Inter Bank Offered Rates, which are obtained from third party sources and uploaded into the system. Embedded derivative instruments are reported at fair value based upon internally established valuations that are consistent with external valuation models or market quotations.

Repurchase Agreements

The Company engages in dollar repurchase agreements ("dollar rolls") and repurchase agreements to increase the return on investments and improve liquidity. These transactions involve a sale of securities and an agreement to repurchase substantially the same securities as those sold. Company policies require a minimum of 95% of the fair value of securities pledged under dollar rolls and repurchase agreement transactions to be maintained as collateral. Cash collateral received is invested in fixed maturities, and the carrying value of the securities pledged in dollar rolls and repurchase agreement transactions is included in Securities pledged on the Consolidated Balance Sheets. The repurchase obligation related to dollar rolls and repurchase agreements is included in Borrowed money on the Consolidated Balance Sheets.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

The Company also enters into reverse repurchase agreements. These transactions involve a purchase of securities and an agreement to sell substantially the same securities as those purchased. Company policies require a minimum of 102% of the fair value of securities pledged under reverse repurchase agreements to be pledged as collateral. Reverse repurchase agreements are included in Cash and cash equivalents on the Consolidated Balance Sheets.

Securities Lending

The Company engages in securities lending whereby certain securities from its portfolio are loaned to other institutions for short periods of time. Initial collateral, primarily cash, is required at a rate of 102% of the market value of the loaned domestic securities. The collateral is deposited by the borrower with a lending agent, and retained and invested by the lending agent according to the Company's guidelines to generate additional income. The market value of the loaned securities is monitored on a daily basis with additional collateral obtained or refunded as the market value of the loaned securities fluctuates.

Derivatives

The Company's use of derivatives is limited mainly to hedging purposes to reduce the Company's exposure to cash flow variability of assets and liabilities, interest rate risk, credit risk, and market risk. Generally, derivatives are not accounted for using hedge accounting treatment under FAS No. 133, as the Company has not historically sought hedge accounting treatment.

The Company enters into interest rate, equity market, credit default, and currency contracts, including swaps, caps, floors, and options, to reduce and manage risks associated with changes in value, yield, price, cash flow, or exchange rates of assets or liabilities held or intended to be held, or to assume or reduce credit exposure associated with a referenced asset, index, or pool. The Company also purchases options and futures on equity indices to reduce and manage risks associated with its annuity products. Open derivative contracts are reported as either Other investments or Other liabilities, as appropriate, on the Consolidated Balance Sheets. Changes in the fair value of such derivatives are recorded in Net realized capital gains (losses) in the Consolidated Statements of Operations.

The Company also has investments in certain fixed maturity instruments, and has issued certain retail annuity products, that contain embedded derivatives whose market value is at least partially determined by, among other things, levels of or changes in domestic and/or foreign interest rates (short- or long-term), exchange rates, prepayment rates, equity markets, or credit ratings/spreads.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

Embedded derivatives within fixed maturity instruments are included in Fixed maturities, available-for-sale, on the Consolidated Balance Sheets, and changes in fair value are recorded in Net realized capital gains (losses) in the Consolidated Statements of Operations.

Embedded derivatives within retail annuity products are included in Future policy benefits and claims reserves on the Consolidated Balance Sheets, and changes in the fair value are recorded in Interest credited and benefits to contractowners in the Consolidated Statements of Operations.

Deferred Policy Acquisition Costs and Value of Business Acquired

DAC represents policy acquisition costs that have been capitalized and are subject to amortization. Such costs consist principally of certain commissions, underwriting, contract issuance, and certain agency expenses, related to the production of new and renewal business.

VOBA represents the outstanding value of in force business capitalized in purchase accounting when the Company was acquired and is subject to amortization. The value is based on the present value of estimated net cash flows embedded in the Company's contracts.

FAS No. 97 applies to universal life and investment-type products, such as fixed and variable deferred annuities. Under FAS No. 97, DAC and VOBA are amortized, with interest, over the life of the related contracts in relation to the present value of estimated future gross profits from investment, mortality, and expense margins, plus surrender charges.

Changes in assumptions can have a significant impact on DAC and VOBA balances and amortization rates. Several assumptions are considered significant in the estimation of future gross profits associated with variable deferred annuity products. One of the most significant assumptions involved in the estimation of future gross profits is the assumed return associated with the variable account performance. To reflect the volatility in the equity markets, this assumption involves a combination of near-term expectations and long-term assumptions regarding market performance. The overall return on the variable account is dependent on multiple factors, including the relative mix of the underlying sub-accounts among bond funds and equity funds, as well as equity sector weightings. Other significant assumptions include surrender and lapse rates, estimated interest spread, and estimated mortality.

Due to the relative size and sensitivity to minor changes in underlying assumptions of DAC and VOBA balances, the Company performs quarterly and annual analyses of DAC and VOBA. The DAC and VOBA balances are evaluated for recoverability.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

At each evaluation date, actual historical gross profits are reflected, and estimated future gross profits and related assumptions are evaluated for continued reasonableness. Any adjustment in estimated profit requires that the amortization rate be revised (“unlocking”), retroactively to the date of the policy or contract issuance. The cumulative unlocking adjustment is recognized as a component of current period amortization. In general, sustained increases in investment, mortality, and expense margins, and thus estimated future profits, lower the rate of amortization. Sustained decreases in investment, mortality, and expense margins, and thus estimated future profits, however, increase the rate of amortization.

Reserves

The Company records as liabilities reserves to meet the Company’s future obligations under its variable annuity and fixed annuity products.

Future policy benefits and claims reserves include reserves for deferred annuities and immediate annuities with and without life contingent payouts.

Reserves for individual and group deferred annuity investment contracts and individual immediate annuities without life contingent payouts are equal to cumulative deposits, less charges and withdrawals, plus credited interest thereon, net of adjustments for investment experience that the Company is entitled to reflect in future credited interest. Reserves interest rates vary by product and ranged from 1.5% to 7.8% for the years 2006, 2005, and 2004. Certain reserves also include unrealized gains and losses related to investments and unamortized realized gains and losses on investments for experience-rated contracts. Reserves on experienced-rated contracts reflect the rights of contractowners, plan participants, and the Company. Reserves for group immediate annuities without life contingent payouts are equal to the discount value of the payment at the implied break-even rate.

Reserves for individual immediate annuities with life contingent payout benefits are computed on the basis of assumed interest discount rates, mortality, and expenses, including a margin for adverse deviations. Such assumptions generally vary by annuity type plan, year of issue, and policy duration. For the years 2006, 2005, and 2004, reserve interest rates ranged from 4.9% to 5.9%.

The Company has a significant concentration of reinsurance arising from the disposition of its individual life insurance business. In 1998, the Company entered into an indemnity reinsurance arrangement with certain subsidiaries of Lincoln National Corporation (“Lincoln”). Effective March 1, 2007, the reinsurance agreements were assigned to a single subsidiary of Lincoln, and that subsidiary established a trust to secure its obligations to the Company under the reinsurance transaction. The Company includes an amount in Reinsurance recoverable on the Consolidated Balance Sheets, which equals the Company’s total individual life reserves. Individual life reserves are included in Future policy benefits and claims reserves on the Consolidated Balance Sheets.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amount in millions, unless otherwise stated)

Unpaid claims and claim expenses for all lines of insurance include benefits for reported losses and estimates of benefits for losses incurred but not reported.

Certain variable annuities offer guaranteed minimum death benefits (“GMDB”). The GMDB is accrued in the event the contractowner account value at death is below the guaranteed value and is included in reserves.

Revenue Recognition

For most annuity contracts, charges assessed against contractowner funds for the cost of insurance, surrenders, expenses, and other fees are recorded as revenue as charges are assessed. Other amounts received for these contracts are reflected as deposits and are not recorded as premiums or revenue. When annuity payments with life contingencies begin under contracts that were initially investment contracts, the accumulated balance in the account is treated as a single premium for the purchase of an annuity and reflected in both Premiums and Interest credited and other benefits to contractowners in the Consolidated Statements of Operations.

Premiums on the Consolidated Statements of Operations primarily represent amounts received for immediate annuities with life contingent payouts.

Separate Accounts

Separate account assets and liabilities generally represent funds maintained to meet specific investment objectives of contractowners who bear the investment risk, subject, in limited cases, to certain minimum guarantees. Investment income and investment gains and losses generally accrue directly to such contractowners. The assets of each account are legally segregated and are not subject to claims that arise out of any other business of the Company or its affiliates.

Separate account assets supporting variable options under variable annuity contracts are invested, as designated by the contractowner or participant (who bears the investment risk subject, in limited cases, to minimum guaranteed rates) under a contract, in shares of mutual funds that are managed by the Company or its affiliates, or in other selected mutual funds not managed by the Company or its affiliates.

Separate account assets and liabilities are carried at fair value and shown as separate captions in the Consolidated Balance Sheets. Deposits, investment income, and net realized and unrealized capital gains (losses) of the separate accounts, however, are not reflected in the Consolidated Statements of Operations (with the exception of realized and unrealized capital gains (losses) on the assets supporting the guaranteed interest option). The Consolidated Statements of Cash Flows do not reflect investment activity of the separate accounts.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

Assets and liabilities of separate account arrangements that do not meet the criteria for separate presentation in the Consolidated Balance Sheets (primarily the guaranteed interest option), and revenue and expenses related to such arrangements, are consolidated in the financial statements with the general account. At December 31, 2006 and 2005, unrealized capital losses of \$7.3 and \$8.3, respectively, after taxes, on assets supporting a guaranteed interest option are reflected in Shareholder's equity.

Reinsurance

The Company utilizes indemnity reinsurance agreements to reduce its exposure to losses from GMDBs in its annuity insurance business. Reinsurance permits recovery of a portion of losses from reinsurers, although it does not discharge the Company's primary liability as the direct insurer of the risks. The Company evaluates the financial strength of potential reinsurers and continually monitors the financial strength and credit ratings of its reinsurers. Only those reinsurance recoverable balances deemed probable of recovery are reflected as assets on the Company's Consolidated Balance Sheets.

Of the Reinsurance recoverable on the Consolidated Balance Sheets, \$2.7 billion and \$2.8 billion at December 31, 2006 and 2005, respectively, is related to the reinsurance recoverable from certain subsidiaries of Lincoln arising from the disposal of the Company's individual life insurance business in 1998 (see the Reinsurance footnote). Effective March 1, 2007, the reinsurance agreements were assigned to a single subsidiary of Lincoln, and that subsidiary established a trust to secure its obligations to the Company under the reinsurance transaction.

Income Taxes

The Company is taxed at regular corporate rates after adjusting income reported for financial statement purposes for certain items. Deferred income tax expenses/benefits result from changes during the year in cumulative temporary differences between the tax basis and book basis of assets and liabilities.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Due to mature:		
One year or less	\$ 303.3	\$ 302.5
After one year through five years	2,961.0	2,935.7
After five years through ten years	3,569.0	3,550.6
After ten years	1,373.8	1,421.7
Mortgage-backed securities	6,791.1	6,746.7
Other asset-backed securities	1,258.1	1,254.5
Less: securities pledged	1,106.2	1,099.5
Fixed maturities, excluding securities pledged	\$ 15,150.1	\$ 15,112.2

The Company did not have any investments in a single issuer, other than obligations of the U.S. government and government agencies, with a carrying value in excess of 10% of the Company's Shareholder's equity at December 31, 2006 or 2005.

The Company does not have any significant exposure to subprime mortgage loans. The only exposure, if any, would arise from the Company's investment in mortgage-backed securities. These securities are primarily agency-backed and are highly rated. The average rating was AAA at December 31, 2006.

At December 31, 2006 and 2005, fixed maturities with fair values of \$11.2 and \$11.0, respectively, were on deposit as required by regulatory authorities.

The Company has various categories of collateralized mortgage obligations ("CMOs") that are subject to different degrees of risk from changes in interest rates and, for CMOs that are not agency-backed, defaults. The principal risks inherent in holding CMOs are prepayment and extension risks related to dramatic decreases and increases in interest rates resulting in the prepayment of principal from the underlying mortgages, either earlier or later than originally anticipated. At December 31, 2006 and 2005, approximately 2.3% and 1.2%, respectively, of the Company's CMO holdings were invested in types of CMOs which are subject to more prepayment and extension risk than traditional CMOs, such as interest-only or principal-only strips.

Equity Securities

Equity securities, available-for-sale, included investments with fair values of \$49.8 and \$49.5 in ING proprietary funds as of December 31, 2006 and 2005, respectively.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

Repurchase Agreements

The Company engages in dollar repurchase agreements (“dollar rolls”) and repurchase agreements. At December 31, 2006 and 2005, the carrying value of the securities pledged in dollar rolls and repurchase agreement transactions was \$832.4 and \$942.9, respectively. The repurchase obligation related to dollar rolls and repurchase agreements totaled \$833.2 and \$941.1 at December 31, 2006 and 2005, respectively.

The Company also engages in reverse repurchase agreements. At December 31, 2006, the Company did not have any reverse repurchase agreements. At December 31, 2005, the carrying value of the securities in reverse repurchase agreements was \$32.8.

The primary risk associated with short-term collateralized borrowings is that the counterparty will be unable to perform under the terms of the contract. The Company’s exposure is limited to the excess of the net replacement cost of the securities over the value of the short-term investments, an amount that was immaterial at December 31, 2006 and 2005. The Company believes the counterparties to the dollar rolls, repurchase, and reverse repurchase agreements are financially responsible and that the counterparty risk is immaterial.

Unrealized Capital Losses

Unrealized capital losses in fixed maturities at December 31, 2006 and 2005, were primarily related to interest rate movement, or spread widening, and to mortgage and other asset-backed securities. Mortgage and other asset-backed securities include U.S. government-backed securities, principal protected securities, and structured securities, which did not have an adverse change in cash flows. The following table summarizes the unrealized capital losses by duration and reason, along with the fair value of fixed maturities, including securities pledged, in unrealized capital loss positions at December 31, 2006 and 2005.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

	Less than Six Months Below Amortized Cost	More than Six Months and less than Twelve Months Below Amortized Cost	More than Twelve Months Below Amortized Costs	Total Unrealized Capital Loss
2006				
Interest rate or spread widening	\$ 10.8	\$ 4.8	\$ 102.6	\$ 118.2
Mortgage and other asset-backed securities	11.0	2.5	107.4	120.9
Total unrealized capital losses	<u>\$ 21.8</u>	<u>\$ 7.3</u>	<u>\$ 210.0</u>	<u>\$ 239.1</u>
Fair value	<u>\$ 2,447.4</u>	<u>\$ 501.5</u>	<u>\$ 6,726.2</u>	<u>\$ 9,675.1</u>
2005				
Interest rate or spread widening	\$ 55.7	\$ 33.9	\$ 62.7	\$ 152.3
Mortgage and other asset-backed securities	41.8	43.1	56.0	140.9
Total unrealized capital losses	<u>\$ 97.5</u>	<u>\$ 77.0</u>	<u>\$ 118.7</u>	<u>\$ 293.2</u>
Fair value	<u>\$ 5,941.1</u>	<u>\$ 2,790.7</u>	<u>\$ 2,643.6</u>	<u>\$ 11,375.4</u>

Of the unrealized capital losses aged more than twelve months, the average market value of the related fixed maturities is 97.0% of the average book value. In addition, this category includes 1,193 securities, which have an average quality rating of AA-. No other-than-temporary impairment loss was considered necessary for these fixed maturities as of December 31, 2006.

Other-Than-Temporary Impairments

The following table identifies the Company's other-than-temporary impairments by type for the years ended December 31, 2006, 2005, and 2004.

	2006		2005		2004	
	Impairment	No. of Securities	Impairment	No. of Securities	Impairment	No. of Securities
U.S. Treasuries	\$ 6.4	4	\$ 0.1	2	\$ -	-
U.S. corporate	24.4	67	3.9	15	-	-
Foreign	4.2	10	0.3	1	-	-
Residential mortgage- backed	16.6	76	44.7	82	13.5	53
Other asset-backed	7.0	1	-	-	-	-
Equity securities	0.1	3	-	-	-	-
Total	<u>\$ 58.7</u>	<u>161</u>	<u>\$ 49.0</u>	<u>100</u>	<u>\$ 13.5</u>	<u>53</u>

The above schedule includes \$16.1, \$43.3, and \$13.5, for the years ended December 31, 2006, 2005, and 2004, respectively, in other-than-temporary write-downs related to the analysis of credit-risk and the possibility of significant prepayment risk. The remaining \$42.6 and \$5.7 in write-downs for the years ended December 31, 2006 and 2005,

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

respectively, related to investments that the Company does not have the intent to retain for a period of time sufficient to allow for recovery in fair value, based upon the requirements of FSP FAS No. 115-1. The following table summarizes these write-downs recognized by type for the years ended December 31, 2006 and 2005.

	2006		2005	
	Impairment	No. of Securities	Impairment	No. of Securities
U.S. Treasuries	\$ 6.4	4	\$ 0.1	2
U.S. corporate	24.4	67	2.3	13
Foreign	4.2	10	-	-
Residential mortgage-backed	0.6	1	3.3	2
Other asset-backed	7.0	1	-	-
Total	\$ 42.6	83	\$ 5.7	17

The remaining fair value of the fixed maturities with other-than-temporary impairments at December 31, 2006 and 2005 was \$687.7 and \$470.8, respectively.

The Company may sell securities during the period in which fair value has declined below amortized cost for fixed maturities or cost for equity securities. In certain situations new factors, including changes in the business environment, can change the Company's previous intent to continue holding a security.

Net Investment Income

Sources of Net investment income were as follows for the years ended December 31, 2006, 2005, and 2004.

	2006	2005	2004
Fixed maturities, available-for-sale	\$ 969.0	\$ 978.9	\$ 999.4
Equity securities, available-for-sale	10.5	9.7	7.1
Mortgage loans on real estate	93.6	73.0	56.0
Policy loans	13.2	30.0	8.1
Short-term investments and cash equivalents	2.4	2.7	2.4
Other	44.5	38.7	10.0
Gross investment income	1,133.2	1,133.0	1,083.0
Less: investment expenses	103.5	95.9	84.4
Net investment income	\$ 1,029.7	\$ 1,037.1	\$ 998.6

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amount in millions, unless otherwise stated)

Net Realized Capital Gains (Losses)

Net realized capital gains (losses) are comprised of the difference between the amortized cost of investments and proceeds from sale and redemption, as well as losses incurred due to other-than-temporary impairment of investments and changes in fair value of derivatives. The cost of the investments on disposal is determined based on specific identification of securities using the first-in, first-out method. Net realized capital gains (losses) on investments were as follows for the years ended December 31, 2006, 2005, and 2004.

	2006	2005	2004
Fixed maturities, available-for-sale	\$ (67.0)	\$ 1.0	\$ 51.8
Equity securities, available-for-sale	9.3	12.4	9.9
Derivatives	(3.9)	17.9	(10.2)
Other	-	(0.3)	1.3
Less: allocation to experience-rated contracts	(64.6)	9.0	42.0
Net realized capital gains	\$ 3.0	\$ 22.0	\$ 10.8
After-tax net realized capital gains	\$ 2.0	\$ 14.3	\$ 7.0

During the year ended December 31, 2006, Net realized capital gains decreased due to the higher other-than-temporary impairments recognized in 2006 and higher losses on derivatives.

Net realized capital gains allocated to experience-rated contracts were deducted from Net realized capital gains (losses) and an offsetting amount was reflected in Future policy benefits and claim reserves on the Consolidated Balance Sheets. Net unamortized realized capital gains allocated to experienced-rated contractowners were \$164.5, \$240.3, and \$233.4, at December 31, 2006, 2005, and 2004, respectively.

Proceeds from the sale of fixed maturities and equity securities, available-for-sale, and the related gross gains and losses, excluding those related to experience-related contracts, were as follows for the years ended December 31, 2006, 2005, and 2004.

	2006	2005	2004
Proceeds on sales	\$ 6,481.2	\$ 10,062.3	\$ 10,236.3
Gross gains	109.0	161.1	146.9
Gross losses	110.9	93.9	70.9

3. Financial Instruments

Estimated Fair Value

The following disclosures are made in accordance with the requirements of FAS No. 107, "Disclosures about Fair Value of Financial Instruments" ("FAS No. 107"). FAS No. 107 requires disclosure of fair value information about financial instruments, whether or not recognized in the balance sheet, for which it is practicable to estimate that value. In cases

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates, in many cases, could not be realized in immediate settlement of the instrument.

FAS No. 107 excludes certain financial instruments, including insurance contracts, and all nonfinancial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented do not represent the underlying value of the Company.

The following valuation methods and assumptions were used by the Company in estimating the fair value of the following financial instruments:

Fixed maturities, available-for-sale: The fair values for the actively traded marketable bonds are determined based upon the quoted market prices or dealer quotes. The fair values for marketable bonds without an active market are obtained through several commercial pricing services which provide the estimated fair values. Fair values of privately placed bonds are determined using a matrix-based pricing model. The model considers the current level of risk-free interest rates, current corporate spreads, the credit quality of the issuer, and cash flow characteristics of the security. Also considered are factors such as the net worth of the borrower, the value of collateral, the capital structure of the borrower, the presence of guarantees, and the Company's evaluation of the borrower's ability to compete in their relevant market. Using this data, the model generates estimated market values which the Company considers reflective of the fair value of each privately placed bond.

Equity securities, available-for-sale: Fair values of these securities are based upon quoted market price. For equity securities not actively traded, estimated fair values are based upon values of issues of comparable yield and quality or conversion price, where applicable.

Mortgage loans on real estate: The fair values for mortgage loans on real estate are estimated using discounted cash flow analyses and rates currently being offered in the marketplace for similar loans to borrowers with similar credit ratings. Loans with similar characteristics are aggregated for purposes of the calculations.

Cash and cash equivalents, Short-term investments under securities loan agreement, and Policy loans: The carrying amounts for these assets approximate the assets' fair values.

Assets held in separate accounts: Assets held in separate accounts are reported at the quoted fair values of the individual securities in the separate accounts.

Investment contract liabilities (included in Future policy benefits and claim reserves):

With a fixed maturity: Fair value is estimated by discounting cash flows at interest rates currently being offered by, or available to, the Company for similar contracts.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

Without a fixed maturity: Fair value is estimated as the amount payable to the contractowner upon demand. However, the Company has the right under such contracts to delay payment of withdrawals, which may ultimately result in paying an amount different than that determined to be payable on demand.

Liabilities related to separate accounts: Liabilities related to separate accounts are reported at full account value in the Company's Consolidated Balance Sheets. Estimated fair values of separate account liabilities are equal to their carrying amount.

Other financial instruments reported as assets and liabilities: The carrying amounts for these financial instruments (primarily derivatives and limited partnerships) approximate the fair values of the assets and liabilities. Derivatives are carried at fair value on the Consolidated Balance Sheets.

The carrying values and estimated fair values of certain of the Company's financial instruments were as follows at December 31, 2006 and 2005.

	2006		2005	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Assets:				
Fixed maturities, available-for-sale, including securities pledged	\$ 16,211.7	\$ 16,211.7	\$ 17,988.1	\$ 17,988.1
Equity securities, available-for-sale	251.7	251.7	170.1	170.1
Mortgage loans on real estate	1,879.3	1,852.6	1,396.0	1,386.2
Policy loans	268.9	268.9	262.4	262.4
Cash, cash equivalents, and short-term investments under securities loan agreement	594.3	594.3	575.8	575.8
Other investments	398.9	398.9	144.6	144.6
Assets held in separate accounts	43,550.8	43,550.8	35,899.8	35,899.8
Liabilities:				
Investment contract liabilities:				
With a fixed maturity	1,475.1	1,529.2	1,772.7	1,886.3
Without a fixed maturity	14,407.2	14,367.8	14,936.4	14,896.0
Derivatives	45.1	45.1	26.7	26.7
Liabilities related to separate accounts	43,550.8	43,550.8	35,899.8	35,899.8

Fair value estimates are made at a specific point in time, based on available market information and judgments about various financial instruments, such as estimates of timing and amounts of future cash flows. Such estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument, nor do they consider the tax impact of the realization of unrealized capital gains (losses). In many cases, the fair value estimates cannot be substantiated by comparison to independent markets, nor can the disclosed

4. Deferred Policy Acquisition Costs and Value of Business Acquired

Activity within DAC was as follows for the years ended December 31, 2006, 2005, and 2004.

Balance at January 1, 2004	\$ 308.0
Deferrals of commissions and expenses	123.5
Amortization:	
Amortization	(43.5)
Interest accrued at 5% to 7%	24.3
Net amortization included in the Consolidated Statements of Operations	(19.2)
Change in unrealized capital gains (losses) on available-for-sale securities	2.2
Balance at December 31, 2004	414.5
Deferrals of commissions and expenses	123.1
Amortization:	
Amortization	(59.6)
Interest accrued at 5% to 7%	30.7
Net amortization included in the Consolidated Statements of Operations	(28.9)
Change in unrealized capital gains (losses) on available-for-sale securities	3.7
Balance at December 31, 2005	512.4
Deferrals of commissions and expenses	136.0
Amortization:	
Amortization	(62.1)
Interest accrued at 6% to 7%	37.5
Net amortization included in the Consolidated Statements of Operations	(24.6)
Change in unrealized capital gains (losses) on available-for-sale securities	(0.2)
Balance at December 31, 2006	\$ 623.6

The estimated amount of DAC to be amortized, net of interest, is \$35.7, \$38.7, \$43.7, \$38.7, and \$36.1, for the years 2007, 2008, 2009, 2010, and 2011, respectively. Actual amortization incurred during these years may vary as assumptions are modified to incorporate actual results.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amount in millions, unless otherwise stated)

Activity within VOBA was as follows for the years ended December 31, 2006, 2005, and 2004.

Balance at January 1, 2004	\$ 1,415.4
Deferrals of commissions and expenses	50.1
Amortization:	
Amortization	(200.5)
Interest accrued at 5% to 7%	92.3
Net amortization included in the Consolidated Statements of Operations	(108.2)
Change in unrealized capital gains (losses) on available-for-sale securities	7.9
Balance at December 31, 2004	1,365.2
Deferrals of commissions and expenses	49.3
Amortization:	
Amortization	(219.4)
Interest accrued at 5% to 7%	88.4
Net amortization included in the Consolidated Statements of Operations	(131.0)
Change in unrealized capital gains (losses) on available-for-sale securities	10.9
Balance at December 31, 2005	1,294.4
Deferrals of commissions and expenses	46.2
Amortization:	
Amortization	(82.4)
Interest accrued at 5% to 7%	85.7
Net amortization included in the Consolidated Statements of Operations	3.3
Change in unrealized capital gains (losses) on available-for-sale securities	(1.0)
Balance at December 31, 2006	\$ 1,342.9

The estimated amount of VOBA to be amortized, net of interest, is \$95.3, \$96.6, \$105.9, \$93.5, and \$84.0, for the years 2007, 2008, 2009, 2010, and 2011, respectively. Actual amortization incurred during these years may vary as assumptions are modified to incorporate actual results.

Analysis of DAC and VOBA

The decrease in Amortization of DAC and VOBA in 2006 is primarily driven by favorable unlocking of \$83.3, resulting from the refinements of the Company's estimates of persistency, expenses and other assumptions. In addition, the decrease in amortization reflects lower actual gross profits, primarily due to a legal settlement incurred in 2006.

Amortization of DAC and VOBA increased in 2005 primarily due to increased gross profits, which were driven by higher fixed margins and variable fees because of higher average assets under management ("AUM"), partially offset by higher expenses. The Company revised long-term separate account return and certain contractowner withdrawal behavior assumptions, as well as reflected current experience during 2005, resulting in a deceleration of amortization of DAC and VOBA of \$11.7.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

During 2004, DAC and VOBA amortization increased principally due to higher actual gross profits, as a result of the fixed margins and fees earned on higher average fixed and variable AUM and fewer other-than-temporary impairments. The Company revised certain contractowner withdrawal behavior assumptions for its products during 2004, resulting in a deceleration of amortization of DAC and VOBA of \$5.7.

5. Dividend Restrictions and Shareholder's Equity

The Company's ability to pay dividends to its parent is subject to the prior approval of insurance regulatory authorities of the State of Connecticut for payment of any dividend, which, when combined with other dividends paid within the preceding 12 months, exceeds the greater of (1) ten percent (10%) of ILIAC's statutory surplus at the prior year end or (2) ILIAC's prior year statutory net gain from operations.

During 2006, 2005, and 2004, the Company paid \$256.0, \$20.5, and \$83.5, respectively, in dividends on its common stock to its parent.

During 2006, Lion contributed to ILIAC DSI, which had \$50.5 in equity on the date of contribution and was accounted for in a manner similar to a pooling-of-interests. During 2006, 2005, and 2004, the Company did not receive any cash capital contributions from its parent.

The Insurance Department of the State of Connecticut (the "Department") recognizes as net income and capital and surplus those amounts determined in conformity with statutory accounting practices prescribed or permitted by the Department, which differ in certain respects from accounting principles generally accepted in the United States. Statutory net income was \$125.7, \$228.5, and \$217.2, for the years ended December 31, 2006, 2005, and 2004, respectively. Statutory capital and surplus was \$1,434.9 and \$1,539.1 as of December 31, 2006 and 2005, respectively.

As of December 31, 2006, the Company did not utilize any statutory accounting practices that are not prescribed by state regulatory authorities that, individually or in the aggregate, materially affect statutory capital and surplus.

6. Additional Insurance Benefits and Minimum Guarantees

The Company calculates an additional liability for certain GMDBs in order to recognize the expected value of death benefits in excess of the projected account balance over the accumulation period based on total expected assessments.

The Company regularly evaluates estimates used to adjust the additional liability balance, with a related charge or credit to benefit expense, if actual experience or other evidence suggests that earlier assumptions should be revised.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

As of December 31, 2006, the separate account liability for guaranteed minimum benefits and the additional liability recognized related to minimum guarantees were \$3.3 billion and \$0.7, respectively. As of December 31, 2005, the separate account liability for guaranteed minimum benefits and the additional liability recognized related to minimum guarantees were \$3.7 billion and \$0.8, respectively.

The aggregate fair value of equity securities, including mutual funds, supporting separate accounts with additional insurance benefits and minimum investment return guarantees as of December 31, 2006 and 2005 was \$3.3 billion and \$3.7 billion, respectively.

7. Income Taxes

Effective January 1, 2006, ILIAC files a consolidated federal income tax return with ING America Insurance Holdings, Inc. ("ING AIH"), an affiliate, and certain other subsidiaries of ING AIH that are eligible corporations qualified to file consolidated federal income tax returns as part of the ING AIH affiliated group. Effective January 1, 2006, ILIAC is party to a federal tax allocation agreement with ING AIH and its subsidiaries that are part of the group, whereby ING AIH charges its subsidiaries for federal taxes each subsidiary would have incurred were it not a member of the consolidated group and credits each subsidiary for losses at the statutory federal tax rate.

For the years ended December 31, 2006, 2005, and 2004, DSI, which merged with and into DSL on December 31, 2006, filed a consolidated federal income tax return as part of the ING AIH affiliated group and was party to the ING AIH federal tax allocation agreement, as described above. Income from DSL, a single member limited liability company, is taxed at the member level (ILIAC).

ILIAC's consolidated group filings with IICA for taxable year 2005, and prior taxable periods, were governed by a federal tax allocation agreement with IICA, whereby ILIAC charged its subsidiary for federal taxes it would have incurred were it not a member of the consolidated group and credited IICA for losses at the statutory federal tax rate.

Income tax expense (benefit) consisted of the following for the years ended December 31, 2006, 2005, and 2004.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

	2006	2005	2004
Current tax (benefit) expense:			
Federal	\$ 23.3	\$ 4.9	\$ 7.7
State	20.0	4.9	3.2
Total current tax expense	43.3	9.8	10.9
Deferred tax expense:			
Federal	79.4	11.7	46.1
Total deferred tax expense	79.4	11.7	46.1
Total income tax expense	\$ 122.7	\$ 21.5	\$ 57.0

Income taxes were different from the amount computed by applying the federal income tax rate to income before income taxes for the following reasons for the years ended December 31, 2006, 2005, and 2004.

	2006	2005	2004
Income before income taxes	\$ 424.5	\$ 294.2	\$ 277.5
Tax rate	35.0%	35.0%	35%
Income tax at federal statutory rate	148.6	103.0	97.1
Tax effect of:			
Dividend received deduction	(36.5)	(25.8)	(9.6)
IRS audit settlement	-	(58.2)	(33.0)
State tax expense	13.0	3.2	2.1
Other	(2.4)	(0.7)	0.4
Income tax expense	\$ 122.7	\$ 21.5	\$ 57.0

The tax effects of temporary differences that give rise to Deferred tax assets and Deferred tax liabilities at December 31, 2006 and 2005, are presented below.

	2006	2005
Deferred tax assets:		
Insurance reserves	\$ 262.0	\$ 275.5
Unrealized gains allocable to experience-rated contracts	18.3	17.0
Investments	3.5	18.8
Postemployment benefits	74.7	57.7
Compensation	25.1	37.6
Other	19.9	14.2
Total gross assets	403.5	420.8
Deferred tax liabilities:		
Value of business acquired	(469.1)	(453.0)
Net unrealized capital gains	(15.9)	(27.3)
Deferred policy acquisition costs	(164.5)	(123.6)
Total gross liabilities	(649.5)	(603.9)
Net deferred income tax liability	\$ (246.0)	\$ (183.1)

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

Net unrealized capital gains (losses) are presented as a component of Other comprehensive income (loss) in Shareholder's equity, net of deferred taxes.

Valuation allowances are provided when it is considered unlikely that deferred tax assets will be realized. No valuation allowance was established at December 31, 2006 and 2005, as management believed the above conditions did not exist.

The Company had a payable of \$28.5 to ING AIH under the intercompany tax sharing agreement at December 31, 2006 and a payable of \$30.3 to the Internal Revenue Service ("IRS") at December 31, 2005 for federal income taxes.

Under prior law, life insurance companies were allowed to defer from taxation a portion of income. Prior to 2006, deferred income of \$17.2 was accumulated in the Policyholders' Surplus Account and would only become taxable under certain conditions, which management believed to be remote. In 2004, Congress passed the American Jobs Creation Act of 2004, allowing certain tax-free distributions from the Policyholders' Surplus Account during 2005 and 2006. During 2006, the Company made a dividend distribution of \$256.0, which eliminated the \$17.2 balance in the Policyholders' Surplus Account and, therefore, any potential tax on the accumulated balance.

The Company establishes reserves for possible proposed adjustments by various taxing authorities. Management believes there are sufficient reserves provided for, or adequate defenses against, any such adjustments.

In 2005, the IRS completed its examination of the Company's returns through tax year 2001. The provision for the year ended December 31, 2005 reflected non-recurring favorable adjustments, resulting from a reduction in the tax liability that was no longer deemed necessary based on the results of the IRS examination, monitoring the activities of the IRS with respect to certain issues with other taxpayers, and the merits of the Company's positions.

The IRS is examining the Company's income tax returns for tax years 2002 and 2003, with expected completion in early 2007. Management is not aware of any adjustments as a result of this examination that would have a material impact on the Company's financial statements. There are also various state tax audits in progress.

8. Benefit Plans

Defined Benefit Plan

ING North America Insurance Corporation (“ING North America”) sponsors the ING Americas Retirement Plan (the “Retirement Plan”), effective as of December 31, 2001. Substantially all employees of ING North America and its subsidiaries and affiliates (excluding certain employees) are eligible to participate, including the Company’s employees other than Company agents. The Retirement Plan is a tax-qualified defined benefit plan, the benefits of which are guaranteed (within certain specified legal limits) by the Pension Benefit Guaranty Corporation (“PBGC”). As of January 1, 2002, each participant in the Retirement Plan (except for certain specified employees) earns a benefit under a final average compensation formula. Subsequent to December 31, 2001, ING North America is responsible for all Retirement Plan liabilities. The costs allocated to the Company for its employees’ participation in the Retirement Plan were \$23.8, \$22.5, and \$18.8, for 2006, 2005, and 2004, respectively, and are included in Operating expenses in the Consolidated Statements of Operations.

Defined Contribution Plan

ING North America sponsors the ING Americas Savings Plan and ESOP (the “Savings Plan”). Substantially all employees of ING North America and its subsidiaries and affiliates (excluding certain employees, including but not limited to Career Agents) are eligible to participate, including the Company’s employees other than Company agents. Career Agents are certain, full-time insurance salesmen who have entered into a career agent agreement with the Company and certain other individuals who meet specified eligibility criteria. The Savings Plan is a tax-qualified profit sharing and stock bonus plan, which includes an employee stock ownership plan (“ESOP”) component. Savings Plan benefits are not guaranteed by the PBGC. The Savings Plan allows eligible participants to defer into the Savings Plan a specified percentage of eligible compensation on a pre-tax basis. ING North America matches such pre-tax contributions, up to a maximum of 6% of eligible compensation. All matching contributions are subject to a 4-year graded vesting schedule (although certain specified participants are subject to a 5-year graded vesting schedule). All contributions made to the Savings Plan are subject to certain limits imposed by applicable law. Pre-tax charges to operations of the Company for the Savings Plan were \$9.7, \$8.9, and \$8.0, in 2006, 2005, and 2004, respectively, and are included in Operating expenses in the Statements of Operations.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

Non-Qualified Retirement Plans

Through December 31, 2001, the Company, in conjunction with ING North America, offered certain eligible employees (other than Career Agents) a Supplemental Executive Retirement Plan and an Excess Plan (collectively, the “SERPs”). Benefit accruals under the SERPs ceased, effective as of December 31, 2001. Benefits under the SERPs are determined based on an eligible employee’s years of service and average annual compensation for the highest five years during the last ten years of employment.

The Company, in conjunction with ING North America, sponsors the Pension Plan for Certain Producers of ING Life Insurance and Annuity Company (formerly the Pension Plan for Certain Producers of Aetna Life Insurance and Annuity Company) (the “Agents Non-Qualified Plan”). This plan covers certain full-time insurance salesmen who have entered into a career agent agreement with the Company and certain other individuals who meet the eligibility criteria specified in the plan (“Career Agents”). The Agents Non-Qualified Plan was terminated effective January 1, 2002. In connection with the termination, all benefit accruals ceased and all accrued benefits were frozen.

The SERPs and Agents Non-Qualified Plan, are non-qualified defined benefit pension plans, which means all the SERPs benefits are payable from the general assets of the Company and Agents Non-Qualified Plan benefits are payable from the general assets of the Company and ING North America. These non-qualified defined benefit pension plans are not guaranteed by the PBGC.

Obligations and Funded Status

The following tables summarize the benefit obligations, fair value of plan assets, and funded status, for the SERPs and Agents Non-Qualified Plan, for the years ended December 31, 2006 and 2005.

	2006	2005
Change in Benefit Obligation:		
Defined benefit obligation, January 1	\$ 106.8	\$ 104.1
Interest cost	5.5	6.0
Benefits paid	(8.3)	(9.7)
Actuarial loss on obligation	(6.3)	6.4
Defined benefit obligation, December 31	<u>\$ 97.7</u>	<u>\$ 106.8</u>
Fair Value of Plan Assets:		
Fair value of plan assets, December 31	<u>\$ -</u>	<u>\$ -</u>

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

Amounts recognized in the Consolidated Balance Sheets consist of:

	2006	2005
Accrued benefit cost	\$ (97.7)	\$ (101.8)
Intangible assets	-	0.4
Accumulated other comprehensive income	14.1	17.8
Net amount recognized	<u>\$ (83.6)</u>	<u>\$ (83.6)</u>

At December 31, 2006 and 2005, the accumulated benefit obligation was \$97.7 and \$106.8, respectively.

Assumptions

The weighted-average assumptions used in the measurement of the December 31, 2006 and 2005 benefit obligation for the SERPs and Agents Non-Qualified Plan, were as follows:

	2006	2005
Discount rate at beginning of period	5.50%	6.00%
Rate of compensation increase	4.00%	4.00%

In determining the discount rate assumption, the Company utilizes current market information provided by its plan actuaries (particularly the Citigroup Pension Discount Curve), including a discounted cash flow analysis of the Company's pension obligation and general movements in the current market environment. The discount rate modeling process involves selecting a portfolio of high quality, noncallable bonds that will match the cash flows of ING Americas' Retirement Plan. Based upon all available information, it was determined that 5.9% was the appropriate discount rate as of December 31, 2006, to calculate the Company's accrued benefit liability. Accordingly, as prescribed by SFAS No. 87, "Employers' Accounting for Pensions", the 5.9% discount rate will also be used to determine the Company's 2007 pension expense. December 31 is the measurement date for the SERP's and Agents Non-Qualified Plan.

The weighted-average assumptions used in calculating the net pension cost were as follows:

	2006	2005	2004
Discount rate	5.90%	6.00%	6.25%
Rate of increase in compensation levels	4.00%	4.00%	3.75%

The weighted average assumptions used in calculating the net pension cost for 2006 were as indicated above (5.9% discount rate, 4.0% rate of compensation increase). Since the benefit plans of the Company are unfunded, an assumption for return on plan assets is not required.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

Net Periodic Benefit Costs

Net periodic benefit costs for the SERPs and Agents Non-Qualified Plan, for the years ended December 31, 2006, 2005, and 2004, were as follows:

	2006	2005	2004
Interest cost	\$ 5.5	\$ 6.0	\$ 5.9
Net actuarial loss recognized in the year	2.0	1.3	-
Unrecognized past service cost			
recognized in the year	0.2	0.2	0.2
The effect of any curtailment or settlement	0.4	0.3	0.1
Net periodic benefit cost	\$ 8.1	\$ 7.8	\$ 6.2

Cashflows

In 2007, the employer is expected to contribute \$13.5 to the SERPs and Agents Non-Qualified Plan. Future expected benefit payments related to the SERPs, and Agents Non-Qualified Plan, for the years ended December 31, 2007 through 2011, and thereafter through 2016, are estimated to be \$13.5, \$13.1, \$9.8, \$9.4, \$8.2, and \$25.4, respectively.

Other

On October 4, 2004, the President signed into law The Jobs Creation Act ("Jobs Act"). The Jobs Act affects nonqualified deferred compensation plans, such as the Agents Nonqualified Plan. ING North America will make changes to impacted nonqualified deferred compensation plans, as necessary to comply with the requirements of the Jobs Act.

Other Benefit Plans

In addition, the Company, in conjunction with ING North America, sponsors the following benefit plans:

- The ING 401(k) Plan for ILIAC Agents, which allows participants to defer a specified percentage of eligible compensation on a pre-tax basis. Effective January 1, 2006, the Company match equals 60% of a participant's pre-tax deferral contribution, with a maximum of 6% of the participant's eligible pay.
- The Producers' Incentive Savings Plan, which allows participants to defer up to a specified portion of their eligible compensation on a pre-tax basis. The Company matches such pre-tax contributions at specified amounts.
- The Producers' Deferred Compensation Plan, which allows participants to defer up to a specified portion of their eligible compensation on a pre-tax basis.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

- Certain health care and life insurance benefits for retired employees and their eligible dependents. The post retirement health care plan is contributory, with retiree contribution levels adjusted annually. The life insurance plan provides a flat amount of noncontributory coverage and optional contributory coverage.

The benefit charges allocated to the Company related to these plans for the years ended December 31, 2006, 2005, and 2004, were \$1.5, \$1.4, and \$2.5, respectively.

9. Related Party Transactions

Operating Agreements

ILIAC has certain agreements whereby it generates revenues and expenses with affiliated entities, as follows:

- Investment Advisory agreement with ING Investment Management LLC (“IIM”), an affiliate, in which IIM provides asset management, administrative, and accounting services for ILIAC’s general account. ILIAC incurs a fee, which is paid quarterly, based on the value of the assets under management. For the years ended December 31, 2006, 2005, and 2004, expenses were incurred in the amounts of \$62.2, \$61.7, and \$58.8, respectively.
- Services agreement with ING North America for administrative, management, financial, and information technology services, dated January 1, 2001 and amended effective January 1, 2002. For the years ended December 31, 2006, 2005, and 2004, expenses were incurred in the amounts of \$175.3, \$138.5, and \$132.9, respectively.
- Services agreement between ILIAC and its U.S. insurance company affiliates dated January 1, 2001, and amended effective January 1, 2002. For the years ended December 31, 2006, 2005, and 2004, net expenses related to the agreement were incurred in the amount of \$12.4, \$17.8, and \$8.6, respectively.

DSL has certain agreements whereby it generates revenues and expenses with affiliated entities, as follows:

- Underwriting and distribution agreements with ING USA Annuity and Life Insurance Company (“ING USA”) and ReliaStar Life Insurance Company of New York (“RLNY”), affiliated companies, whereby DSL acts as the principal underwriter for variable insurance products. In addition, DSL is authorized to enter into agreements with broker-dealers to distribute the variable insurance products and appoint representatives of the broker-dealers as agents. For the years ended December 31, 2006, 2005, and 2004, commissions were collected in the amount of \$429.2, \$378.1, and \$375.0. Such commissions are, in turn, paid to broker-dealers.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

- Services agreements with Lion, ING USA, and RLNY, whereby DSL receives managerial and supervisory services and incurs a fee that is calculated as a percentage of average assets in the variable separate accounts. For the years ended December 31, 2006, 2005, and 2004, expenses were incurred in the amount of \$70.8, \$46.3, and \$37.6, respectively.
- Administrative and advisory services agreements with ING Investment LLC and IIM, affiliated companies, in which DSL receives certain services for a fee. The fee for these services is calculated as a percentage of average assets. For the years ended December 31, 2006, 2005, and 2004, expenses were incurred in the amounts of \$8.8, \$6.4, and \$5.3, respectively.

Management and service contracts and all cost sharing arrangements with other affiliated companies are allocated in accordance with the Company's expense and cost allocation methods.

Investment Advisory and Other Fees

During 2006, 2005, and 2004, ILIAC served as investment advisor to certain variable funds offered in Company products (collectively, the "Company Funds"). The Company Funds paid ILIAC, as investment advisor, daily fees that, on an annual basis, ranged, depending on the Fund, from 0.5% to 1.0% of their average daily net assets. Each of the Company Funds managed by ILIAC were subadvised by investment advisors, in which case ILIAC paid a subadvisory fee to the investment advisors, which included affiliates. ILIAC is also compensated by the separate accounts for bearing mortality and expense risks pertaining to variable life and annuity contracts. Under the insurance and annuity contracts, the separate accounts pay ILIAC daily fees that, on an annual basis are, depending on the product, up to 3.4% of their average daily net assets. The amount of compensation and fees received from affiliated mutual funds and separate accounts amounted to \$289.9, \$263.0, and \$209.2 (excludes fees paid to ING Investment Management Co.) in 2006, 2005, and 2004, respectively. Effective January 1, 2007, ILIAC's investment advisory agreement with the Company Funds was assigned to DSL.

DSL serves as the investment advisor, transfer agent, and administrator, to ING Investors Trust (the "Trust"), an affiliate. Under a unified fee agreement, DSL provides all services necessary for the ordinary operations of the Trust. DSL earns a monthly fee based on a percentage of average daily net assets. For the years ended December 31, 2006, 2005, and 2004, revenue for these services was \$233.9, \$174.6, and \$138.2, respectively. At December 31, 2006 and 2005, DSL had \$22.1 and \$17.2, respectively, receivable from the Trust under the unified fee agreement.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

Financing Agreements

ILIAC maintains a reciprocal loan agreement with ING America Insurance Holdings, Inc. ("ING AIH"), an affiliate, to facilitate the handling of unanticipated short-term cash requirements that arise in the ordinary course of business. Under this agreement, which became effective in June 2001 and expires on April 1, 2011, either party can borrow from the other up to 3% of ILIAC's statutory admitted assets as of the preceding December 31. Interest on any ILIAC borrowing is charged at the rate of ING AIH's cost of funds for the interest period, plus 0.15%. Interest on any ING AIH borrowings is charged at a rate based on the prevailing interest rate of U.S. commercial paper available for purchase with a similar duration.

Under this agreement, ILIAC incurred interest expense of \$1.8, \$0.7, and \$0.2, for the years ended December 31, 2006, 2005, and 2004, respectively, and earned interest income of \$3.3, \$1.1, and \$1.3, for the years ended December 31, 2006, 2005, and 2004, respectively. Interest expense and income are included in Interest expense and Net investment income, respectively, on the Consolidated Statements of Operations. At December 31, 2006 and 2005, ILIAC had \$45.0 and \$131.0, respectively, receivable from ING AIH under the reciprocal loan agreement.

Note with Affiliate

On December 29, 2004, ING USA issued a surplus note in the principal amount of \$175.0 (the "Notes") scheduled to mature on December 29, 2034, to ILIAC, in an offering that was exempt from the registration requirements of the Securities Act of 1933. ILIAC's \$175.0 notes receivable from ING USA bears interest at a rate of 6.26% per year. Any payment of principal and/or interest is subject to the prior approval of the Iowa Insurance Commissioner. Interest is scheduled to be paid semi-annually in arrears on June 29 and December 29 of each year, commencing on June 29, 2005. Interest income for the years ended December 31, 2006 and 2005 was \$11.1.

Tax Sharing Agreements

Effective January 1, 2006, the Company is a party to a federal tax allocation agreement with ING AIH and its subsidiaries that are part of the ING AIH consolidated group. Under the federal tax allocation agreement, ING AIH charges its subsidiaries for federal taxes each subsidiary would have incurred were it not a member of the consolidated group and credits each subsidiary for losses at the statutory federal tax rate.

For the years ended December 31, 2006, 2005, and 2004, DSI, which merged with and into DSL on December 31, 2006, was party to the ING AIH federal tax allocation agreement, as described above. Income from DSL, a single member limited liability company, is taxed at the member level (ILIAC).

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

ILIAC has also entered into a state tax sharing agreement with ING AIH and each of the specific subsidiaries that are parties to the agreement. The state tax agreement applies to situations in which ING AIH and all or some of the subsidiaries join in the filing of a state or local franchise, income tax, or other tax return on a consolidated, combined, or unitary basis.

10. Financing Agreements

ILIAC maintains a \$100.0 uncommitted, perpetual revolving note facility with the Bank of New York ("BONY"). Interest on any of ILIAC's borrowing accrues at an annual rate equal to a rate quoted by BONY to ILIAC for the borrowing. Under this agreement, ILIAC incurred minimal interest expense for the years ended December 31, 2006, 2005, and 2004. At December 31, 2006 and 2005, ILIAC had no amounts outstanding under the revolving note facility.

ILIAC also maintains a \$75.0 uncommitted line-of-credit agreement with PNC Bank ("PNC"), effective December 19, 2005. Borrowings are guaranteed by ING AIH, with maximum aggregate borrowings outstanding at anytime to ING AIH and its affiliates of \$75.0. Interest on any of ILIAC's borrowing accrues at an annual rate equal to a rate quoted by PNC to ILIAC for the borrowing. Under this agreement, ILIAC incurred minimal interest expense for the year ended December 31, 2006 and no interest expense for the year ended December 31, 2005. At December 31, 2006 and 2005, ILIAC had no amounts outstanding under the line-of-credit agreement.

ILIAC also maintains \$100.0 uncommitted line-of-credit agreement with Svenska Handelsbanken AB (Publ.), effective June 2, 2006. Borrowings are guaranteed by ING AIH, with maximum aggregate borrowings outstanding at anytime to ING AIH and its affiliates of \$100.0. Interest on any of the Company's borrowing accrues at an annual rate equal to the rate quoted by Svenska to the Company for the borrowing. Under this agreement, the Company incurred minimal interest expense for the year ended December 31, 2006. At December 31, 2006, ILIAC had no amounts outstanding under the line-of-credit agreement.

Also see Financing Agreements in the Related Party Transactions footnote.

11. Reinsurance

At December 31, 2006, the Company had reinsurance treaties with eight unaffiliated reinsurers covering a significant portion of the mortality risks and guaranteed death benefits under its variable contracts. At December 31, 2006, the Company did not have reinsurance treaties with affiliated reinsurers. The Company remains liable to the extent its reinsurers do not meet their obligations under the reinsurance agreements.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

On, October 1, 1998, the Company disposed of its individual life insurance business under an indemnity reinsurance arrangement with certain subsidiaries of Lincoln for \$1.0 billion in cash. Under the agreement, Lincoln contractually assumed from the Company certain policyholder liabilities and obligations, although the Company remains obligated to contractowners. Effective March 1, 2007, the reinsurance agreements were assigned to a single subsidiary of Lincoln, and that subsidiary established a trust to secure its obligations to the Company under the reinsurance transaction.

The Company has assumed \$25.0 of premium revenue from Aetna Life, for the purchase and administration of a life contingent single premium variable payout annuity contract. In addition, the Company is also responsible for administering fixed annuity payments that are made to annuitants receiving variable payments. Reserves of \$17.4 and \$17.8 were maintained for this contract as of December 31, 2006 and 2005, respectively.

Reinsurance ceded in force for life mortality risks were \$22.4 and \$24.2 at December 31, 2006 and 2005, respectively. At December 31, 2006 and 2005, net receivables were comprised of the following:

	2006	2005
Claims recoverable from reinsurers	\$ 2,727.1	\$ 2,806.6
Payable for reinsurance premiums	(1.2)	(1.7)
Reinsured amounts due to reinsurer	(0.5)	(0.3)
Reserve credits	0.8	1.1
Other	(10.8)	(9.0)
Total	<u>\$ 2,715.4</u>	<u>\$ 2,796.7</u>

Premiums and Interest credited and other benefits to contractowners were reduced by the following amounts for reinsurance ceded for the years ended December 31, 2006, 2005, and 2004.

	2006	2005	2004
Deposits ceded under reinsurance	\$ 199.0	\$ 215.5	\$ 244.9
Premiums ceded under reinsurance	0.5	0.4	0.5
Reinsurance recoveries	359.0	363.7	395.2

12. Commitments and Contingent Liabilities

Leases

The Company leases its office space and certain other equipment under various operating leases, the longest term of which expires in 2014.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

For the years ended December 31, 2006, 2005, and 2004, rent expense for leases was \$17.8, \$17.4, and \$17.2, respectively. The future net minimum payments under noncancelable leases for the years ended December 31, 2007 through 2011 are estimated to be \$16.9, \$3.6, \$2.6, \$1.6, and \$0.9, respectively, and \$0.8 thereafter. The Company pays substantially all expenses associated with its leased and subleased office properties. Expenses not paid directly by the Company are paid for by an affiliate and allocated back to the Company.

Commitments

Through the normal course of investment operations, the Company commits to either purchase or sell securities, commercial mortgage loans, or money market instruments, at a specified future date and at a specified price or yield. The inability of counterparties to honor these commitments may result in either a higher or lower replacement cost. Also, there is likely to be a change in the value of the securities underlying the commitments.

At December 31, 2006, the Company had off-balance sheet commitments to purchase investments equal to their fair value of \$706.8, \$322.3 of which was with related parties. At December 31, 2005, the Company had off-balance sheet commitments to purchase investments equal to their fair value of \$516.7, \$398.0 of which was with related parties. During 2006 and 2005, \$79.4 and \$42.4, respectively, was funded to related parties under off-balance sheet commitments.

Financial Guarantees

The Company owns a 3-year credit-linked note arrangement, whereby the Company will reimburse the guaranteed party upon payment default of the referenced obligation. Upon such default, the Company reimburses the guaranteed party for the loss under the reference obligation, and the Company receives that reference obligation in settlement. The Company can then seek recovery of any losses under the agreement by sale or collection of the received reference obligation. As of December 31, 2006, the maximum liability to the Company under the guarantee was \$30.0.

New Construction

During the second half of 2006, NWL entered into agreements for site development and facility construction at the Windsor Property (collectively, the "Construction Agreements"), with a maximum estimated cost of \$81.5 under the Construction Agreements. Costs incurred under the Construction Agreements and other agreements associated with the construction, acquisition and development of the corporate office facility totaled \$27.6 for the year ended December 31, 2006. These costs were capitalized in Property and equipment on the Consolidated Balance Sheet.

Litigation

The Company is involved in threatened or pending lawsuits/arbitrations arising from the normal conduct of business. Due to the climate in insurance and business litigation/arbitrations, suits against the Company sometimes include claims for substantial compensatory, consequential, or punitive damages, and other types of relief. Moreover, certain claims are asserted as class actions, purporting to represent a group of similarly situated individuals. While it is not possible to forecast the outcome of such lawsuits/arbitrations, in light of existing insurance, reinsurance, and established reserves, it is the opinion of management that the disposition of such lawsuits/arbitrations will not have a materially adverse effect on the Company's operations or financial position.

Other Regulatory Matters

Regulatory Matters

As with many financial services companies, the Company and its affiliates have received informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the financial services industry. In each case, the Company and its affiliates have been and are providing full cooperation.

Insurance and Retirement Plan Products and Other Regulatory Matters

The New York Attorney General, other federal and state regulators, and self-regulatory agencies, are conducting broad inquiries and investigations involving the insurance and retirement industries. These initiatives currently focus on, among other things, compensation, revenue sharing, and other sales incentives; potential conflicts of interest; potential anti-competitive activity; reinsurance; marketing practices; specific product types (including group annuities and indexed annuities); and disclosure. It is likely that the scope of these industry investigations will further broaden before they conclude. The Company and certain of its U.S. affiliates have received formal and informal requests in connection with such investigations, and are cooperating fully with each request for information. Some of these matters could result in regulatory action involving the Company. These initiatives also may result in new legislation and regulation that could significantly affect the financial services industry, including businesses in which the Company is engaged. In light of these and other developments, U.S. affiliates of ING, including the Company, periodically review whether modifications to their business practices are appropriate.

Investment Product Regulatory Issues

Since 2002, there has been increased governmental and regulatory activity relating to mutual funds and variable insurance products. This activity has primarily focused on inappropriate trading of fund shares; directed brokerage; compensation; sales practices, suitability, and supervision; arrangements with service providers; pricing; compliance and controls; adequacy of disclosure; and document retention.

In addition to responding to governmental and regulatory requests on fund trading issues, ING management, on its own initiative, conducted, through special counsel and a national accounting firm, an extensive internal review of mutual fund trading in ING insurance, retirement, and mutual fund products. The goal of this review was to identify any instances of inappropriate trading in those products by third parties or by ING investment professionals and other ING personnel.

The internal review identified several isolated arrangements allowing third parties to engage in frequent trading of mutual funds within the variable insurance and mutual fund products of certain affiliates of the Company, and identified other circumstances where frequent trading occurred despite measures taken by ING intended to combat market timing. Each of the arrangements has been terminated and disclosed to regulators, to the independent trustees of ING Funds (U.S.) and in Company reports previously filed with the Securities and Exchange Commission ("SEC") pursuant to the Securities Exchange Act of 1934, as amended.

Notes to Consolidated Financial Statements

(Dollar amount in millions, unless otherwise stated)

Action may be taken with respect to certain ING affiliates before investigations relating to fund trading are completed. The potential outcome of such action is difficult to predict but could subject certain affiliates to adverse consequences, including, but not limited to, settlement payments, penalties, and other financial liability. It is not currently anticipated, however, that the actual outcome of any such action will have a material adverse effect on ING or ING's U.S.-based operations, including the Company.

ING has agreed to indemnify and hold harmless the ING Funds from all damages resulting from wrongful conduct by ING or its employees or from ING's internal investigation, any investigations conducted by any governmental or self-regulatory agencies, litigation or other formal proceedings, including any proceedings by the SEC. Management reported to the ING Funds Board that ING management believes that the total amount of any indemnification obligations will not be material to ING or ING's U.S.-based operations, including the Company.

13. Accumulated Other Comprehensive Income (Loss)

Shareholder's equity included the following components of Accumulated other comprehensive income (loss) as of December 31, 2006, 2005, and 2004.

	2006	2005	2004
Net unrealized capital gains (losses):			
Fixed maturities, available-for-sale	\$ (44.6)	\$ (18.0)	\$ 482.1
Equity securities, available-for-sale	18.1	3.2	8.7
DAC/VOBA adjustment on available-for-sale securities	3.9	5.1	(9.5)
Sales inducements adjustment on available-for-sale securities	0.1	0.1	(0.1)
Premium deficiency reserve adjustment	(37.5)	(23.6)	-
Other investments	0.8	1.2	1.3
Less: allocation to experience-rated contracts	(52.4)	(48.6)	357.5
Unrealized capital (losses) gains, before tax	(6.8)	16.6	125.0
Deferred income tax asset (liability)	2.4	(10.3)	(41.2)
Net unrealized capital (losses) gains	(4.4)	6.3	83.8
Pension liability, net of tax	(9.6)	(11.6)	(16.7)
Accumulated other comprehensive (loss) income	<u>\$ (14.0)</u>	<u>\$ (5.3)</u>	<u>\$ 67.1</u>

Net unrealized capital (losses) gains allocated to experience-rated contracts of \$(52.4) and \$(48.6) at December 31, 2006 and 2005, respectively, are reflected on the Consolidated Balance Sheets in Future policy benefits and claims reserves and are not included in Shareholder's equity.

ING Life Insurance and Annuity Company and Subsidiaries**(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)****Notes to Consolidated Financial Statements****(Dollar amount in millions, unless otherwise stated)**

Changes in Accumulated other comprehensive income (loss), net of DAC, VOBA, and tax, related to changes in unrealized capital gains (losses) on securities, including securities pledged and excluding those related to experience-rated contracts, were as follows for the years ended December 31, 2006, 2005, and 2004.

	2006	2005	2004
Fixed maturities, available-for-sale	\$ (26.6)	\$ (500.1)	\$ (133.0)
Equity securities, available-for-sale	14.9	(5.5)	(5.1)
DAC/VOBA adjustment on available-for-sale securities	(1.2)	14.6	10.1
Sales inducements adjustment on available-for-sale securities	-	0.2	(0.1)
Premium deficiency reserve adjustment	(13.9)	(23.6)	-
Other investments	(0.4)	(0.1)	(59.7)
Less: allocation to experience-rated contracts	(3.8)	(406.1)	(134.0)
Unrealized capital gains (losses), before tax	(23.4)	(108.4)	(53.8)
Deferred income tax asset (liability)	12.7	30.9	21.6
Net change in unrealized capital gains (losses)	<u>\$ (10.7)</u>	<u>\$ (77.5)</u>	<u>\$ (32.2)</u>

	2006	2005	2004
Net unrealized capital holding gains (losses) arising during the year ⁽¹⁾	\$ (43.6)	\$ (38.2)	\$ (1.8)
Less: reclassification adjustment for gains (losses) and other items included in Net income ⁽²⁾	(32.9)	39.3	30.4
Net change in unrealized capital gains (losses)	<u>\$ (10.7)</u>	<u>\$ (77.5)</u>	<u>\$ (32.2)</u>

⁽¹⁾ Pretax unrealized holding gains (losses) arising during the year were \$(95.4), \$(53.4), and \$(3.0), for the years ended December 31, 2006, 2005, and 2004, respectively.

⁽²⁾ Pretax reclassification adjustments for gains (losses) and other items included in Net income were \$(72.0), \$55.0, and \$50.8, for the years ended December 31, 2006, 2005, and 2004, respectively.

QUARTERLY DATA (UNAUDITED)

(Dollar amounts in millions, unless otherwise stated)

2006	First*	Second*	Third*	Fourth
