## IMPORTANT INFORMATION REGARDING THE INVESTMENT PORTFOLIOS

### Open Investment Portfolios

You bear the entire investment risk for amounts you allocate to any investment portfolio (“fund”), and you may lose your principal. The investment results of the funds are likely to differ significantly and there is no assurance that any of the funds will achieve their respective investment objectives. You should carefully consider the investment objectives, risks and charges and expenses of the funds before investing. More information is available in the fund prospectuses. Shares of the funds will rise and fall in value and you could lose money by investing in the funds. Shares of the funds are not bank deposits and are not guaranteed, endorsed or insured by any financial institution, the Federal Deposit Insurance Corporation or any other government agency.

The following table reflects the funds that are open and available for transfers under your Contract along with each fund’s investment adviser/subadviser and investment objective.
