

VARIABLE ANNUITY ACCOUNT C
ING Life Insurance and Annuity Company
Multiple Sponsored Retirement Options

**April 29, 2011 Supplement to the April 29, 2011 Contract Prospectus
or Contract Prospectus Summary**

Oregon University System

We have issued group contracts to Oregon University System (“OUS”) as funding vehicles for its 403(b) and 401(a) plans. We do not serve as record keeper for participant accounts under these contracts; rather, we have issued them as unallocated contracts. OUS has designated Fidelity Investments Institutional Operations Company, Inc. (“Fidelity”) to be its administrative service provider for its plans and to act as record keeper for the individual accounts under the contracts. As directed by OUS, we pay Fidelity up to 16 bps of the average amount invested in the ING Life Insurance and Annuity Company contracts under the plans in consideration for providing these participant-level record keeping services.

Because we are not serving as participant record keeper for these contracts, the following information supersedes any information to the contrary in the contract prospectus or contract prospectus summary:

1. Participant transfers will not be monitored by ING Life Insurance and Annuity Company under its excessive trading policy. Instead, Fidelity will monitor transfers pursuant to its own excessive trading policy. You may obtain more information about Fidelity’s excessive trading policy by contacting Fidelity as provided for in your enrollment materials.
2. All inquiries, transactions requests, and administrative requests should be directed to Fidelity as provided for in your enrollment materials. Any such requests directed to ING Life Insurance and Annuity Company will be considered not in good order.

*Insurance products, annuities and retirement plan funding issued by (third party administrative services may also be provided by) ING Life Insurance and Annuity Company. **Securities are distributed by ING Financial Advisers, LLC (member SIPC), One Orange Way, Windsor, CT 06095. Securities may also be distributed through other broker-dealers with which ING Financial Advisers, LLC has selling agreements.***

VARIABLE ANNUITY ACCOUNT C

ING Life Insurance and Annuity Company

Multiple Sponsored Retirement Options

April 29, 2011 Supplement to April 29, 2011 Contract Prospectus or Contract Prospectus Summary

St. John's Regional Health Center

The following is a negotiated provision concerning the early withdrawal charge applicable to the St. John's Regional Health Center tax-deferred annuity plan. (See "FEES – Early Withdrawal Charge" in the Contract Prospectus or the Contract Prospectus Summary):

You may withdraw up to 10% of your current account each year without incurring an early withdrawal charge. This applies only to the first partial withdrawal in each calendar year. The amount eligible will be determined using the account value on the date we receive the withdrawal request. This provision is available to anyone up to age 70½ (instead of between the ages of 59½ and 70½). Outstanding loan amounts on 403(b) accounts are not included in the account value for the purpose of calculating the eligible partial withdrawal. This provision does not apply to full withdrawals or to partial withdrawals due to loan default.

Insurance products, annuities and retirement plan funding issued by (third party administrative services may also be provided by) ING Life Insurance and Annuity Company. Securities are distributed by ING Financial Advisers, LLC (member SIPC), One Orange Way, Windsor, CT 06095. Securities may also be distributed through other broker-dealers with which ING Financial Advisers, LLC has selling agreements.

ING LIFE INSURANCE AND ANNUITY COMPANY
Variable Annuity Account C
MULTIPLE SPONSORED RETIREMENT OPTIONS
CONTRACT PROSPECTUS – APRIL 29, 2011

The Contracts. The contracts described in this prospectus are group or individual deferred fixed and variable annuity contracts issued by ING Life Insurance and Annuity Company (the “Company”). They are intended to be used as funding vehicles for certain types of retirement plans and to qualify for beneficial tax treatment and/or to provide current income reduction under certain sections of the Internal Revenue Code of 1986, as amended (the “Tax Code”).

Why Reading this Prospectus is Important. Before you participate in the contract through your retirement plan, you should read this prospectus. It provides facts about the contract and its investment options. Plan sponsors (generally your employer) should read this prospectus to help determine if the contract is appropriate for their plan. Keep this document for future reference.

Investment Options. The contracts offer variable investment options and fixed interest options. When we establish your account(s), the contract holder, (generally, the sponsor of your retirement plan or a trust), or you if permitted by the plan, instructs us to direct account dollars to any of the available options. Some investment options may be unavailable through certain contracts and plans, or in some states.

Variable Investment Options. Variable investment options available through the contracts are listed on the next page. These options are called subaccounts. The subaccounts are within Variable Annuity Account C (the “separate account”), a separate account of the Company. Each subaccount invests in one of the mutual funds (funds) listed on the next page. Earnings on amounts invested in a subaccount will vary depending upon the performance and fees of its underlying fund. You do not invest directly in or hold shares of the funds.

Risks Associated with Investing in the Funds. Information about the risks of investing in the funds is located in the “Investment Options” section of this prospectus on page 10 and in each fund prospectus. Read this prospectus in conjunction with the fund prospectuses, and retain the prospectus for future reference.

Fixed Interest Options:

- Guaranteed Accumulation Account
- Fixed Plus Account
- Fixed Account

Except as specifically mentioned, this prospectus describes only the variable investment options. However, we describe the fixed interest options in the appendices to this prospectus. There is also a separate prospectus for the Guaranteed Accumulation Account.

Compensation. We pay compensation to broker-dealers whose registered representatives sell the contracts. See “CONTRACT DISTRIBUTION” for further information about the amount of compensation we pay.

Getting Additional Information. If you received a summary prospectus for any of the funds available through your contract, you may obtain a full prospectus and other fund information free of charge by either accessing the internet address, calling the telephone number or sending an email request to the email address shown on the front of the fund’s summary prospectus. You may obtain the April 29, 2011 Statement of Additional Information (“SAI”) without charge by indicating your request on your enrollment materials or calling the Company at 1-800-262-3862 or writing to us at the address referenced under the “**Contract Overview - Questions: Contacting the Company**” section of the prospectus. You may also obtain a prospectus or an SAI for any of the funds, or a Guaranteed Accumulation Account prospectus, by calling that number. This prospectus, the Guaranteed Accumulation Account prospectus, the SAI and other information about the separate account may be obtained by accessing the Securities and Exchange Commission (“SEC”) website, <http://www.sec.gov>. Copies of this information may also be obtained, after paying a duplicating fee, by contacting the SEC Public Reference Branch. Information on the operations of the SEC Public Reference Branch may be obtained by calling 1-202-551-8090 or 1-800-SEC-0330, e-mailing publicinfo@sec.gov, or by writing to the SEC Public Reference Branch, 100 F Street, NE, Room 1580, Washington, D.C. 20549. When looking for information regarding the contracts offered through this prospectus, you may find it useful to use the number assigned to the registration statement under the Securities Act of 1933. This number is 333-01107. The number assigned to the registration statement for the Guaranteed Accumulation Account is 333-173298. The SAI table of contents is listed on page 53 of this prospectus. The SAI is incorporated into this prospectus by reference.

Additional Disclosure Information. Neither the SEC, nor any state securities commission, has approved or disapproved the securities offered through this prospectus or passed on the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense. This prospectus is valid only when accompanied by current prospectuses of the funds. We do not intend for this prospectus to be an offer to sell or a solicitation of an offer to buy these securities in any state that does not permit their sale. We have not authorized anyone to provide you with information that is different from that contained in this prospectus.

Questions: Contacting the Company. Contact your local representative or write or call the Company:

ING
USFS Customer Service
Defined Contribution
Administration
P.O. Box 990063
Hartford, CT 06199-0063

1-800-262-3862

Sending Forms and Written Requests in Good Order.

If you are writing to change your beneficiary, request a withdrawal, or for any other purpose, contact your local representative or the Company to learn what information is required in order for the request to be in “good order.” By contacting us, we can provide you with the appropriate administrative form for your requested transaction.

Generally, a request is considered to be in “good order” when it is signed, dated and made with such clarity and completeness that we are not required to exercise any discretion in carrying it out.

We can only act upon written requests that are received in good order.

CONTRACT OVERVIEW

The following is intended as a summary. Please read each section of this prospectus for additional information.

Who's Who

You (the participant)*: The individual who participates in the contract through a retirement plan.

Plan Sponsor: The sponsor of your retirement plan. Generally, your employer.

Contract Holder*: The person to whom we issue the contract. Generally, the plan sponsor or a trust. We may also refer to the contract holder as the contract owner.

We (the Company): ING Life Insurance and Annuity Company. We issue the contract.

For greater detail, review “Contract Ownership and Rights” and “Contract Purchase and Participation.”

The Contract and Your Retirement Plan

Retirement Plan (plan): A plan sponsor has established a plan for you. This contract is offered as a funding option for that plan. We are not a party to the plan.

Plan Type: We refer to the plan by the Tax Code section under which it qualifies. For example: a “457 plan” is a plan that qualifies for tax treatment under Tax Code section 457. To learn which Tax Code section applies to your plan, contact your plan sponsor, your local representative or the Company.

Use of an Annuity Contract in your Plan: Under the federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of a qualified retirement account (such as a 401(a), 401(k), Roth 401(k), 403(a), 403(b), Roth 403(b), 457(b) or Roth 457(b) plan), an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the tax qualified account itself. Annuities do provide other features and benefits (such as a guaranteed death benefit under some contracts or the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with your financial representative taking into account the additional fees and expenses you may incur in an annuity. See “CONTRACT PURCHASE AND PARTICIPATION.”

Contract Rights: Rights under the contract and who may exercise those rights may vary by plan type. Also, while the contract may reserve certain rights for the contract holder, the contract holder may permit you to exercise those rights through the plan.

* Certain contracts are purchased by and issued directly to persons participating in certain plans. The words “you” and “participant” apply to these individuals. The words “contract holder” and “contract owner” also apply to these individuals, except that these individuals have no responsibilities to other participants or beneficiaries.

Contract Facts

Free Look/Right to Cancel: Contract holders may cancel the contract no later than 10 days after they receive the contract (or a longer period if required by state law). Participants in 403(b) plans, Roth 403(b) plans, or in some plans under 401(a), 401(k), Roth 401(k) or 403(a) may cancel their participation in the contract no later than 10 days after they receive evidence of participation in the contract. See “RIGHT TO CANCEL.”

Death Benefit: A beneficiary may receive a benefit in the event of your death during both the accumulation and income phases. The availability of a death benefit during the income phase depends upon the income phase payment option selected. See “DEATH BENEFIT” and “THE INCOME PHASE.”

Withdrawals: During the accumulation phase, you may, under some plans, withdraw all or part of your account value. Amounts withdrawn may be subject to an early withdrawal charge, other deductions, tax withholding and taxation. See “WITHDRAWALS” and “TAX CONSIDERATIONS.”

Systematic Distribution Options: These allow you to receive regular payments from your account, while retaining the account in the accumulation phase. See “SYSTEMATIC DISTRIBUTION OPTIONS.”

Fees: Certain fees are deducted from your account value. See “FEE TABLE” and “FEES.”

Taxation: Taxes will generally be due when you receive a distribution. Tax penalties may apply in some circumstances. See “TAX CONSIDERATIONS.”

Contract Phases

The Accumulation Phase (accumulating retirement benefits)

STEP 1: You or the contract holder provide ING Life Insurance and Annuity Company with your completed enrollment materials.

According to the plan, we set up one or more accounts for you. We may set up one or more accounts for employer contributions and/or for one or more accounts for contributions from your salary. Alternatively, we may issue the contract to an employer or a plan on an unallocated basis. In that case, we establish a single account under the contract for the contract holder, and the recordkeeper designated by the plan establishes and maintains an individual account or accounts for each participant.

STEP 2: The contract holder, or you if permitted by your plan, directs us to invest your account dollars in any of the following:

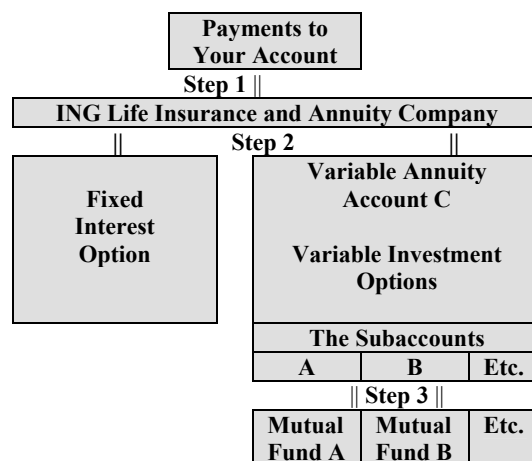

- Fixed Interest Options; or
- Variable Investment Options. (The variable investment options are the subaccounts of Variable Annuity Account C. Each one invests in a specific mutual fund.)

STEP 3: The subaccount(s) selected purchases shares of its corresponding fund.

The Income Phase (receiving income phase payments from your contract)

The contract offers several payment options. See “THE INCOME PHASE.” In general, you may:

- Receive income phase payments over a lifetime or for a specified period;
- Receive income phase payments monthly, quarterly, semi-annually or annually;
- Select an option that provides a death benefit to beneficiaries; or
- Select fixed income phase payments or payments that vary based on the performance of the variable investment options you select.

FEE TABLE

In This Section:

- Maximum Contract Holder Transaction Expenses;
- Maximum Periodic Fees and Charges;
- Total Annual Fund Operating Expenses;
- Examples; and
- Fees Deducted by the Funds.

See the “Fees” Section for:

- Early Withdrawal Charge Schedules;
- How, When and Why Fees are Deducted;
- Reduction, Waiver and/or Elimination of Certain Fees;
- Redemption Fees; and
- Premium and Other Taxes.

See “THE INCOME PHASE” for:

- Fees during the Income Phase.

Texas K-12 Contracts Defined:

Voluntary 403(b) annuity contracts for employees of K-12 public schools in Texas who became participants under the contract on and after June 1, 2002. These contracts meet the requirements established by the Teachers Retirement System of Texas in support of Senate Bill 273.

The following tables describe the fees and expenses that you will pay when buying, owning, and withdrawing account value from your contract. The first table describes the fees and expenses that you may pay at the time that you buy the contract, withdraw account value from the contract, take a loan from the contract or transfer cash value between investment options. State premium taxes may also be deducted.* See “THE INCOME PHASE” for fees that may apply after you begin receiving payments under the contract.

Maximum Contract Holder Transaction Expenses

Early Withdrawal Charge¹

(as a percentage of amount withdrawn, if applicable)

Applicable to Texas K-12 contracts	7%
Applicable to all other contracts	5%

Loan Interest Rate Spread (per annum) ²	3.0%
Loan Initiation Fee ³	\$100.00

The next table describes the fees and expenses that you will pay periodically during the time that you own the contract, not including fund fees and expenses.

Maximum Period Fees and Charges

	Applicable to Texas K-12 contracts	Applicable to all other contracts
<i>Maximum Annual Maintenance Fee⁴</i>	\$0.00	\$30.00
<i>Separate Account Annual Expenses⁴ (as a percentage of average account value)</i>		
<i>Maximum Mortality and Expense Risk Charge⁵</i>	1.25%	1.50%
<i>Maximum Administrative Expense Charge</i>	<u>0.25%</u> ⁶	<u>0.25%</u> ⁷
<i>Maximum Total Separate Account Expenses</i>	<u>1.50%</u>	<u>1.75%</u>

¹ This is a deferred sales charge. The percentage will be determined by the applicable early withdrawal charge schedule in the “FEES” section. In certain cases, this charge may not apply to a portion or all of your withdrawal. The early withdrawal charge reduces over time. These fees may be waived, reduced or eliminated in certain circumstances. See “FEES.”

² This is the difference between the rate charged and the rate credited on loans under your contract. We reserve the right to apply a loan interest rate spread between 0.0% up to 3.0% per annum. Currently, the loan interest spread for most contracts is 2.5% per annum. See “LOANS - Charges Associated with Loans.”

³ Certain contracts that have a zero loan interest rate spread may be subject to a loan initiation fee each time a loan is taken from your account value. See “LOANS - Charges Associated with Loans.”

⁴ These fees may be waived, reduced or eliminated in certain circumstances. See “FEES.”

⁵ A charge for the guaranteed death benefit, if any, is included in the mortality and expense risk charge. See “DEATH BENEFIT.”

⁶ We currently do not impose this charge under Texas K-12 contracts; however, we reserve the right to charge up to 0.25% annually.

⁷ We only impose this charge under some contracts. See “FEES.”

*State premium taxes (which currently range from 0% to 4% of premium payments) may apply, but are not reflected in the fee tables or examples. See “FEES - Premium and Other Taxes.”

The next item shows the minimum and maximum total operating expenses charged by the funds that you may pay periodically during the time that you own the contract. The minimum and maximum expenses listed below are based on expenses for the funds' most recent fiscal year ends without taking into account any fee waiver or expense reimbursement arrangements that may apply. More detail concerning each fund's fees and expenses is contained in the prospectus for each fund.

	<u>Applicable to Texas K-12 Contracts</u>		<u>Applicable to All Other Contracts</u>	
	Minimum	Maximum	Minimum	Maximum
Total Annual Fund Operating Expenses (expenses that are deducted from fund assets, including management fees, distribution (12b-1) and/or service fees, and other expenses)	0.26%	1.46%	0.26%	1.72%

Examples

The following examples are intended to help you compare the cost of investing in the contract with the cost of investing in other variable annuity contracts. For each type of contract, these costs include maximum contract holder transaction expenses, (assuming no loans) maximum maintenance fees (converted to a percentage of assets equal to 0.208%), maximum separate account annual expenses, and fund fees and expenses applicable to that type of contract.

Example 1: The following examples assume that you invest \$10,000 in the contract for the time periods indicated. The examples also assume that your investment has a 5% return each year and assume the **maximum** fees and expenses of any of the funds. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	(A) If you withdraw your entire account value at the end of the applicable time period*:				(B) If you do not withdraw your entire account value or if you select an income phase payment option at the end of the applicable time period**:			
	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Applicable to Texas K-12 contracts	\$962	\$1,500	\$2,055	\$3,280	\$299	\$915	\$1,557	\$3,280
Applicable to all other contracts*	\$877	\$1,645	\$2,435	\$3,930	\$370	\$1,125	\$1,901	\$3,930

* This example reflects deduction of an early withdrawal charge calculated using Early Withdrawal Charge Schedule I (based on completed purchase payment periods.) Schedule I is listed in "FEES." Under that schedule, if only one \$10,000 payment was made as described above, fewer than 5 purchase payment periods would have been completed at the end of years 1, 3 and 5, and the 5% charge would apply. At the end of the tenth account year, the early withdrawal charge is waived regardless of the number of purchase payment periods completed, and no early withdrawal charge would apply.

** This example will not apply if during the income phase a nonlifetime payment option is elected with variable payments and a lump-sum payment is requested within a certain number of years as specified in the contract. In that case, the lump-sum payment is treated as a withdrawal during the accumulation phase and may be subject to an early withdrawal charge. (Refer to Example A.)

Example 2: The following examples assume that you invest \$10,000 in the contract for the time periods indicated. The examples also assume that your investment has a 5% return each year and assume the **minimum** fees and expenses of any of the funds. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	(A) If you withdraw your entire account value at the end of the applicable time period*:				(B) If you do not withdraw your entire account value or if you select an income phase payment option at the end of the applicable time period**:			
	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Applicable to Texas K-12 contracts	\$850	\$1,159	\$1,482	\$2,073	\$179	\$554	\$954	\$2,073
Applicable to all other contracts*	\$739	\$1,236	\$1,762	\$2,552	\$225	\$693	\$1,189	\$2,552

Fees Deducted by the Funds

Fund Fee Information. The fund prospectuses show the investment advisory fees, 12b-1 fees and other expenses including service fees (if applicable) charged annually by each fund. See the “Fees” section of this prospectus, and the fund prospectuses, for further information. Fund fees are one factor that impact the value of a fund share. To learn about additional factors, refer to the fund prospectuses.

The Company may receive compensation from each of the funds or the funds’ affiliates based on an annual percentage of the average net assets held in that fund by the Company. The percentage paid may vary from one fund company to another. For certain funds, some of this compensation may be paid out of 12b-1 fees or service fees that are deducted from fund assets. Any such fees deducted from fund assets are disclosed in the fund prospectuses. The Company may also receive additional compensation from certain funds for administrative, recordkeeping or other services provided by the Company to the funds or the funds’ affiliates. These additional payments may also be used by the Company to finance distribution. These additional payments are made by the funds or the funds’ affiliates to the Company and do not increase, directly or indirectly, the fund fees and expenses. See “FEES - Fund Fees and Expenses” for additional information.

In the case of fund companies affiliated with the Company, where an affiliated investment adviser employs subadvisers to manage the funds, no direct payments are made to the Company or the affiliated investment adviser by the subadvisers. Subadvisers may provide reimbursement for employees of the Company or its affiliates to attend business meetings or training conferences. Investment management fees are apportioned between the affiliated investment adviser and subadviser. This apportionment varies by subadviser, resulting in varying amounts of revenue retained by the affiliated investment adviser. This apportionment of the investment advisory fee does not increase, directly or indirectly, fund fees and expenses. See “FEES - Fund Fees and Expenses” for additional information.

How Fees are Deducted. Fees are deducted from the value of the fund shares on a daily basis, which in turn affects the value of each subaccount that purchases fund shares.

* This example reflects deduction of an early withdrawal charge calculated using Early Withdrawal Charge Schedule I (based on completed purchase payment periods.) Schedule I is listed in “Fees.” Under that schedule, if only one \$10,000 payment was made as described above, fewer than 5 purchase payment periods would have been completed at the end of years 1, 3 and 5, and the 5% charge would apply. At the end of the tenth account year, the early withdrawal charge is waived regardless of the number of purchase payment periods completed, and no early withdrawal charge would apply.

** This example will not apply if during the income phase a nonlifetime payment option is elected with variable payments and a lump-sum payment is requested within a certain number of years as specified in the contract. In that case, the lump-sum payment is treated as a withdrawal during the accumulation phase and may be subject to an early withdrawal charge. (Refer to Example A.)

CONDENSED FINANCIAL INFORMATION

Understanding Condensed Financial Information. In Appendix VI, we provide condensed financial information about the Variable Annuity Account C subaccounts available under the contracts. These tables show the values of the subaccounts over the past 10 years. For subaccounts that were not available 10 years ago, we give a history from the date of first availability, or the date purchase payments were first received in the subaccounts (as noted in the tables).

Financial Statements. The statements of assets and liabilities, the statements of operations, the statements of changes in net assets and the related notes to financial statements for Variable Annuity Account C and the consolidated financial statements and the related notes to financial statements for ING Life Insurance and Annuity Company are located in the Statement of Additional Information.

VARIABLE ANNUITY ACCOUNT C

We established Variable Annuity Account C (the “separate account”) under Connecticut Law in 1976 as a continuation of the separate account established in 1974 under Arkansas law by Aetna Variable Annuity Life Insurance Company. The separate account was established as a segregated asset account to fund variable annuity contracts. The separate account is registered as a unit investment trust under the Investment Company Act of 1940 (the “1940 Act”). It also meets the definition of “separate account” under the federal securities laws.

The separate account is divided into “subaccounts.” Each subaccount invests directly in shares of a corresponding fund.

Although we hold title to the assets of the separate account, such assets are not chargeable with the liabilities of any other business that we conduct. Income, gains or losses of the separate account are credited to or charged against the assets of the separate account without regard to other income, gains or losses of ING Life Insurance and Annuity Company. All obligations arising under the contracts are obligations of ING Life Insurance and Annuity Company. All guarantees and benefits provided under the contracts that are not related to the separate account are subject to the claims paying ability of the Company and our general account.

THE COMPANY

ING Life Insurance and Annuity Company (the “Company,” “we,” “us,” “our”) issues the contracts described in this prospectus and is responsible for providing each contract’s insurance and annuity benefits. All guarantees and benefits provided under the contracts that are not related to the separate account are subject to the claims paying ability of the Company and our general account. We are a direct, wholly owned subsidiary of Lion Connecticut Holdings Inc.

We are a stock life insurance company organized under the insurance laws of the State of Connecticut in 1976 and an indirect wholly owned subsidiary of ING Groep N.V. (“ING”), a global financial institution active in the fields of insurance, banking and asset management. Through a merger, our operations include the business of Aetna Variable Annuity Life Insurance Company (formerly known as Participating Annuity Life Insurance Company, an Arkansas life insurance company organized in 1954). Prior to January 1, 2002, the Company was known as Aetna Life Insurance and Annuity Company.

As part of a restructuring plan approved by the European Commission, ING has agreed to separate its banking and insurance businesses by 2013. ING intends to achieve this separation by divestment of its insurance and investment management operations, including the Company. ING has announced that it will explore all options for implementing the separation including initial public offerings, sales or a combination thereof.

We are engaged in the business of issuing life insurance and annuities.

Our principal executive offices are located at:

One Orange Way
Windsor, Connecticut 06095-4774

Regulatory Matters. As with many financial services companies, the Company and its affiliates periodically receive informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the Company or the financial services industry. Some of these investigations and inquiries could result in regulatory action against the Company. The potential outcome of such action is difficult to predict but could subject the Company or its affiliates to adverse consequences, including, but not limited to, settlement payments, penalties, fines, and other financial liability. It is not currently anticipated that the outcome of any such action will have a material adverse effect on ING or ING's U.S.-based operations, including the Company. It is the practice of the Company and its affiliates to cooperate fully in these matters.

Product Regulation. Our products are subject to a complex and extensive array of state and federal tax, securities and insurance laws, and regulations, which are administered and enforced by a number of governmental and self-regulatory authorities, including state insurance regulators, state securities administrators, the SEC, the Financial Industry Regulatory Authority ("FINRA"), the Department of Labor and the Internal Revenue Service ("IRS"). For example, U.S. federal income tax law imposes certain requirements relating to product design, administration and investments that are conditions for beneficial tax treatment of such products under the Tax Code. **See "TAX CONSIDERATIONS" for further discussion of some of these requirements.** Failure to administer certain product features could affect such beneficial tax treatment. In addition, state and federal securities and insurance laws impose requirements relating to insurance product design, offering and distribution and administration. Failure to meet any of these complex tax, securities, or insurance requirements could subject the Company to administrative penalties imposed by a particular governmental or self regulatory authority and unanticipated claims and costs associated with remedying such failure. Additionally, such failure could harm the Company's reputation, interrupt the Company's operations or adversely impact profitability.

INVESTMENT OPTIONS

The contract offers variable investment options and fixed interest options. When we establish your account(s) (and your accounts may be established at different times), the contract holder, or you if permitted by the plan, instructs us to direct account dollars to any of the available options.

Variable Investment Options. These options are called subaccounts, which are within the separate account. Earnings on amounts invested in a subaccount will vary depending upon the performance and fees of its underlying fund. You do not invest directly in or hold shares of the funds.

- **Fund Descriptions.** We provide brief descriptions of the funds in Appendix V. Please refer to the fund prospectuses for additional information. Fund prospectuses may be obtained, free of charge, from the address and telephone number listed in "**Contract Overview - Questions: Contacting the Company**," by accessing the SEC's website or by contacting the SEC Public Reference Branch.

Fixed Interest Options. For descriptions of the fixed interest options, see Appendices I, II and III and the Guaranteed Accumulation Account prospectus. The Guaranteed Accumulation Account prospectus may be obtained free of charge at the address and telephone number listed in "**Contract Overview - Questions: Contacting the Company**," by accessing the SEC's website or by contacting the SEC Public Reference Branch.

Selecting Investment Options. When selecting investment options:

- **Choose options appropriate for you.** Your local representative can help you evaluate which subaccounts or fixed interest options may be appropriate for your financial goals;
- **Understand the risks associated with the options you choose.** Some subaccounts invest in funds that are considered riskier than others. Funds with additional risks are expected to have a value that rises and falls more rapidly and to a greater degree than other funds. For example, funds investing in foreign or international securities are subject to additional risks not associated with domestic investments, and their performance may vary accordingly. Also, funds using derivatives in their investment strategy may be subject to additional risks; and
- **Be informed.** Read this prospectus, the fund prospectuses, fixed interest option appendices and the Guaranteed Accumulation Account prospectus.

Limits on Option Availability. Some subaccounts and fixed interest options may not be available through certain contracts and plans, or in some states. For example, some subaccounts may be unavailable in a particular state due to state law limits on total aggregate charges applicable to investment options offered. We may add, withdraw or substitute investment options subject to the conditions in the contract and in compliance with regulatory requirements. In the case of a substitution, the new fund may have different fees and charges than the fund it replaced.

Limits on Number of Options Selected. Generally, the contract holder, or you if permitted by the plan, may select no more than 18 investment options at one time during the accumulation phase of your account. If you have an outstanding loan (available to 403(b) and some 401, 403(a) and 457(b) plans only), you may currently make a total of 18 cumulative selections over the life of the account. Each subaccount, the Fixed Account, Fixed Plus Account, and each classification of the Guaranteed Accumulation Account selected counts toward these limits. Thus, if you have a loan on the account, each investment option in which you have invested counts toward the limit, even after the full value is transferred to other investment options.

Additional Risks of Investing in the Funds

Insurance-Dedicated Funds (*Mixed and Shared Funding*). Some of the funds described in this prospectus are available only to insurance companies for their variable contracts (or directly to certain retirement plans, as allowed by the Tax Code). Such funds are often referred to as “insurance-dedicated funds,” and are used for “mixed” and “shared” funding.

“Mixed funding” occurs when shares of a fund, which the subaccount buys for variable annuity contracts, are bought for variable life insurance contracts issued by us or other insurance companies.

“Shared funding” occurs when shares of a fund, which the subaccount buys for variable annuity contracts, are also bought by other insurance companies for their variable annuity contracts. In other words:

- Mixed funding - bought for annuities and life insurance; and
- Shared funding - bought by more than one company.

Public Funds. The following funds, which the subaccounts buy for variable annuity contracts, are also available to the general public:

- Alger Green Fund
- Allianz NFJ Large-Cap Value Fund
- Amana Growth Fund
- Amana Income Fund
- American Century[®] Income & Growth Fund
- American Century[®] Inflation-Adjusted Bond Fund
- Ariel Fund
- Artisan International Fund
- Aston/Optimum Mid Cap Fund
- BlackRock Mid Cap Value Opportunities Fund
- Cohen & Steers Realty Shares, Inc.
- ColumbiaSM Acorn[®] Fund
- Columbia Diversified Equity Income Fund
- Columbia Mid Cap Value Fund
- EuroPacific Growth Fund[®]
- Fundamental InvestorsSM
- ING GNMA Income Fund
- Invesco Mid Cap Core Equity Fund
- Invesco U.S. Small Cap Value Fund
- Invesco Van Kampen Small Cap Value Fund
- Lazard U.S. Mid Cap Equity Portfolio
- LKCM Aquinas Growth Fund
- Loomis Sayles Small Cap Value Fund
- Neuberger Berman Socially Responsive Fund[®]
- New Perspective Fund[®]
- Oppenheimer Developing Markets Fund
- Pax World Balanced Fund
- SMALLCAP World Fund[®]
- Templeton Global Bond Fund
- The Bond Fund of AmericaSM
- The Growth Fund of America[®]
- The Hartford Capital Appreciation Fund
- The Hartford Dividend and Growth Fund
- USAA Precious Metals and Minerals Fund
- Washington Mutual Investors FundSM
- Wells Fargo Advantage Special Small Cap Value Fund

See “TAX CONSIDERATIONS – Special Considerations for Section 403(b) Plans” for a discussion of investment in one of the public funds under a 403(b) or Roth 403(b) annuity contracts.

Possible Conflicts of Interest. With respect to the insurance-dedicated funds and the public funds, it is possible that a conflict of interest may arise due to mixed and shared funding, a change in law affecting the operations of variable annuity separate accounts, differences in the voting instructions of the contract holder and others maintaining a voting interest in the funds, or some other reason. Such a conflict could adversely impact the value of a fund. For example, if a conflict of interest occurred and one of the subaccounts withdrew its investment in a fund, the fund may be forced to sell its securities at disadvantageous prices, causing its share value to decrease. Each insurance-dedicated fund’s board of directors or trustees will monitor events in order to identify any material irreconcilable conflicts that may arise and to determine what action, if any, should be taken to address such conflicts. With respect to both the public funds and the insurance-dedicated funds, in the event of a conflict, the Company will take any steps necessary to protect contract holders and annuitants maintaining a voting interest in the funds, including the withdrawal of the separate account from participation in the funds that are involved in the conflict.

TRANSFERS

Transfers Among Investment Options. During the accumulation phase and under some contracts the income phase, the contract holder, or you if permitted by the plan, may transfer amounts among investment options. Transfers from fixed interest options are restricted as outlined in Appendices I, II and III. Transfers may be requested in writing, by telephone or, where available, electronically. Transfers must be made in accordance with the terms of the contract.

Value of Transferred Dollars. The value of amounts transferred in or out of subaccounts will be based on the subaccount unit values next determined after we receive your request in good order at the address listed in “**Contract Overview - Questions: Contacting the Company,**” or if you are participating in the dollar cost averaging or account rebalancing programs, after your scheduled transfer or reallocation.

Telephone and Electronic Transfers: Security Measures. To prevent fraudulent use of telephone or electronic transactions (including, but not limited to, internet transactions), we have established security procedures. These include recording calls on our toll-free telephone lines and requiring use of a personal identification number (“PIN”)

to execute transactions. You are responsible for keeping your PIN and account information confidential. If we fail to follow reasonable security procedures, we may be liable for losses due to unauthorized or fraudulent telephone or other electronic transactions. We are not liable for losses resulting from following telephone or electronic instructions we believe to be genuine. If a loss occurs when we rely on such instructions, you will bear the loss.

Limits on Frequent or Disruptive Transfers

The contract is not designed to serve as a vehicle for frequent transfers. Frequent transfer activity can disrupt management of a fund and raise its expenses through:

- Increased trading and transaction costs;
- Forced and unplanned portfolio turnover;
- Lost opportunity costs; and
- Large asset swings that decrease the fund's ability to provide maximum investment return to all contract owners and participants.

This in turn can have an adverse effect on fund performance. **Accordingly, individuals or organizations that use market-timing investment strategies or make frequent transfers should not purchase or participate in the contract.**

Excessive Trading Policy. We and the other members of the ING family of companies that provide multi-fund variable insurance and retirement products have adopted a common Excessive Trading Policy to respond to the demands of the various fund families that make their funds available through our products to restrict excessive fund trading activity and to ensure compliance with Rule 22c-2 of the 1940 Act.

We actively monitor fund transfer and reallocation activity within our variable insurance products to identify violations of our Excessive Trading Policy. Our Excessive Trading Policy is violated if fund transfer and reallocation activity:

- Meets or exceeds our current definition of Excessive Trading, as defined below; or
- Is determined, in our sole discretion, to be disruptive or not in the best interests of other owners of our variable insurance and retirement products, or participants in such products.

We currently define "Excessive Trading" as:

- More than one purchase and sale of the same fund (including money market funds) within a 60 calendar day period (hereinafter, a purchase and sale of the same fund is referred to as a "round-trip"). This means two or more round-trips involving the same fund within a 60 calendar day period would meet our definition of Excessive Trading; or
- Six round-trips involving the same fund within a rolling twelve month period.

The following transactions are excluded when determining whether trading activity is excessive:

- Purchases or sales of shares related to non-fund transfers (for example, new purchase payments, withdrawals and loans);
- Transfers associated with scheduled dollar cost averaging, scheduled rebalancing, or scheduled asset allocation programs;
- Purchases and sales of fund shares in the amount of \$5,000 or less;
- Purchases and sales of funds that affirmatively permit short-term trading in their fund shares, and movement between such funds and a money market fund; and
- Transactions initiated by us, another member of the ING family of companies, or a fund.

If we determine that an individual or entity has made a purchase of a fund within 60 days of a prior round-trip involving the same fund, we will send them a letter (once per year) warning that another sale of that same fund within 60 days of the beginning of the prior round-trip will be deemed to be Excessive Trading and result in a six month suspension of their ability to initiate fund transfers or reallocations through the Internet, facsimile, Voice Response Unit ("VRU"), telephone calls to the ING Customer Service Center or other electronic trading medium that we may make available from time to time ("Electronic Trading Privileges"). Likewise, if we determine that an

individual or entity has made five round-trips involving the same fund within a rolling twelve month period, we will send them a letter warning that another purchase and sale of that same fund within twelve months of the initial purchase in the first round-trip will be deemed to be Excessive Trading and result in a suspension of their Electronic Trading Privileges. According to the needs of the various business units, a copy of any warning letters may also be sent, as applicable, to the person(s) or entity authorized to initiate fund transfers or reallocations, the agent/registered representative, or the investment adviser for that individual or entity. A copy of the warning letters and details of the individual's or entity's trading activity may also be sent to the fund whose shares were involved in the trading activity.

If we determine that an individual or entity has violated our Excessive Trading Policy, we will send them a letter stating that their Electronic Trading Privileges have been suspended for a period of six months. Consequently, all fund transfers or reallocations, not just those that involve the fund whose shares were involved in the activity that violated our Excessive Trading Policy, will then have to be initiated by providing written instructions to us via regular U.S. mail. Suspension of Electronic Trading Privileges may also extend to products other than the product through which the Excessive Trading activity occurred. During the six month suspension period, electronic "inquiry only" privileges will be permitted where and when possible. A copy of the letter restricting future transfer and reallocation activity to regular U.S. mail and details of the individual's or entity's trading activity may also be sent, as applicable, to the person(s) or entity authorized to initiate fund transfers or reallocations, the agent/registered representative or investment adviser for that individual or entity, and the fund whose shares were involved in the activity that violated our Excessive Trading Policy.

Following the six month suspension period during which no additional violations of our Excessive Trading Policy are identified, Electronic Trading Privileges may again be restored. We will continue to monitor the fund transfer and reallocation activity, and any future violations of our Excessive Trading Policy will result in an indefinite suspension of Electronic Trading Privileges. A violation of our Excessive Trading Policy during the six month suspension period will also result in an indefinite suspension of Electronic Trading Privileges.

We reserve the right to suspend Electronic Trading Privileges with respect to any individual or entity, with or without prior notice, if we determine, in our sole discretion, that the individual's or entity's trading activity is disruptive or not in the best interests of other owners of our variable insurance and retirement products, or participants in such products, regardless of whether the individual's or entity's trading activity falls within the definition of Excessive Trading set forth above.

Our failure to send or an individual's or entity's failure to receive any warning letter or other notice contemplated under our Excessive Trading Policy will not prevent us from suspending that individual's or entity's Electronic Trading Privileges or taking any other action provided for in our Excessive Trading Policy.

The Company does not allow exceptions to our Excessive Trading Policy. We reserve the right to modify our Excessive Trading Policy, or the policy as it relates to a particular fund, at any time without prior notice, depending on, among other factors, the needs of the underlying fund(s), the best interests of contract owners, participants, and fund investors, and/or state or federal regulatory requirements. If we modify our policy, it will be applied uniformly to all contract owners and participants or, as applicable, to all contract owners and participants investing in the underlying fund.

Our Excessive Trading Policy may not be completely successful in preventing market-timing or excessive trading activity. If it is not completely successful, fund performance and management may be adversely affected, as noted above.

Limits Imposed by the Underlying Funds. Each underlying fund available through the variable insurance and retirement products offered by us and/or the other members of the ING family of companies, either by prospectus or stated policy, has adopted or may adopt its own excessive/frequent trading policy, and orders for the purchase of fund shares are subject to acceptance or rejection by the underlying fund. We reserve the right, without prior notice, to implement fund purchase restrictions and/or limitations on an individual or entity that the fund has identified as violating its excessive/frequent trading policy and to reject any allocation or transfer request to a subaccount if the corresponding fund will not accept the allocation or transfer for any reason. All such restrictions and/or limitations (which may include, but are not limited to, suspension of Electronic Trading Privileges and/or blocking of future purchases of a fund or all funds within a fund family) will be done in accordance with the directions we receive from the fund.

Agreements to Share Information with Fund Companies. As required by Rule 22c-2 under the 1940 Act, we have entered into information sharing agreements with each of the fund companies whose funds are offered through the contract. Contract owner and participant trading information is shared under these agreements as necessary for the fund companies to monitor fund trading and our implementation of our Excessive Trading Policy. Under these agreements, the Company is required to share information regarding contract owner and participant transactions, including but not limited to information regarding fund transfers initiated by you. In addition to information about contract owner and participant transactions, this information may include personal contract owner and participant information, including names and social security numbers or other tax identification numbers.

As a result of this information sharing, a fund company may direct us to restrict a contract owner or participant's transactions if the fund determines that the contract owner or participant has violated the fund's excessive/frequent trading policy. This could include the fund directing us to reject any allocations of purchase payments or account value to the fund or all funds within the fund family.

The Dollar Cost Averaging Program. Certain contracts allow you to participate in our dollar cost averaging program. There is no additional charge for this service. Dollar cost averaging is a system for investing that buys fixed dollar amounts of an investment at regular intervals, regardless of price. Our program transfers, at regular intervals, a fixed dollar amount to one or more subaccounts that you select. Dollar cost averaging neither ensures a profit nor guarantees against loss in a declining market. You should consider your financial ability to continue purchases through periods of low price levels. For additional information about this program, contact your local representative or call the Company at the number listed in **"Contract Overview - Questions: Contacting the Company."**

Dollar cost averaging is not available to participants in the account rebalancing program. Subaccount reallocations or changes outside of the dollar cost averaging may affect the program. Changes such as fund mergers, substitutions, or closures may also affect the program.

The Account Rebalancing Program. Under some contracts you may participate in account rebalancing. Account rebalancing allows you to reallocate your account value to match your current investment allocations. Only account values invested in the subaccounts may be rebalanced. We automatically reallocate your account value annually (or more frequently as we allow). Account rebalancing neither ensures a profit nor guarantees against loss in a declining market. There is no additional charge for this program. If available under your contract, you may participate in this program by completing the account rebalancing election form or by contacting the Company at: ING Life Insurance and Annuity Company, Technical Services, One Orange Way, Windsor, CT 06095-4774, phone: 1-800-262-3862, fax: 1-800-643-8143.

Account rebalancing is not available if you elect to participate in the dollar cost averaging program. Subaccount reallocations or changes outside of the account rebalancing program may affect the program. Changes such as fund mergers, substitutions, or closures may also affect the program.

Transfers between Individual Accounts. We may establish one or more accounts for you. As permitted by your plan and if allowed under the contract, you may transfer assets from one account to another. Any such transfer will be subject to the restrictions, conditions and limits established by your plan or set forth in the contract.

CONTRACT PURCHASE AND PARTICIPATION

Contracts Available for Purchase. The contracts available for purchase are group or individual deferred annuity contracts that the Company offers in connection with plans established by eligible organizations under Tax Code sections 401(a), 401(k), 403(a), 403(b) and 457, including Roth 401(k), Roth 403(b), and Roth 457(b) plans.

When considering whether to purchase or participate in the contract, you should consult with your financial representative about your financial goals, investment time horizon and risk tolerance.

ERISA Notification. Some plans under Sections 401, 403(a) and 403(b) are subject to Title I of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The contract holder must notify the Company whether Title I of ERISA applies to the plan.

Use of an Annuity Contract in your Plan. Under the federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of a qualified retirement account (such as a 401(a), 401(k), Roth 401(k), 403(a), 403(b), Roth 403(b), 457(b) or Roth 457(b) plan), an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the tax qualified account itself. Annuities do provide other features and benefits (such as the guaranteed death benefit under some contracts or the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with your financial representative taking into account the additional fees and expenses you may incur in an annuity.

Purchasing the Contract. To purchase the contract:

- The contract holder submits the required forms and application to the Company; and
- We approve the forms and issue a contract to the contract holder.

Participating in the Contract. To participate in the contract:

- We provide you with enrollment materials for completion and return to us (occasionally enrollment is conducted by someone unaffiliated with us who is assisting the contract holder); and
- If your enrollment materials are complete and in good order, we establish one or more accounts for you. Under certain plans we establish an employee account for contributions from your salary and an employer account for employer contributions. We may also establish Roth 401(k), Roth 403(b) and Roth 457(b) accounts.

Acceptance or Rejection. We must accept or reject an application or your enrollment materials within two business days of receipt. If the forms are incomplete, we may hold any forms and accompanying purchase payments for five business days, unless you consent to our holding them longer. Under limited circumstances, we may also agree, for a particular plan, to hold purchase payments for longer periods with the permission of the contract holder. If we agree to do this, we will deposit the purchase payments in the ING Money Market Portfolio subaccount until the forms are completed (or for a maximum of 105 days). If we reject the application or enrollment, we will return the forms and any purchase payments.

Methods of Purchase Payment. The contract may allow one or more of the following purchase payment methods:

- Lump-sum payments: A one time payment to your account in the form of a transfer from a previous plan; and/or
- Installment payments: More than one payment made over time to your account.

Contributions to Roth 401(k), Roth 403(b) or Roth 457(b) accounts must be made by after-tax salary reduction, exchange, or rollover payments (to the extent allowed by the contract) paid to us on your behalf, as permitted by the Tax Code.

The plan and the contract may have certain rules or restrictions that apply to use of these two methods. For example, we may require that installment payments meet certain minimums. Under some contracts, we will place the different types of payments in distinct accounts, including Roth 401(k), Roth 403(b) and Roth 457(b) accounts, where each account will have its own early withdrawal charge schedule. See “FEES - Early Withdrawal Charge Schedules.”

Allocation of Purchase Payments. The contract holder or you, if the contract holder permits, directs us to allocate initial contributions to the investment options available under the plan. Generally, you will specify this information on your enrollment materials. After your enrollment, changes to allocations for future purchase payments or transfer of existing balances among investment options may be requested in writing and, where available, by telephone or electronically at www.ingretirementplans.com. Allocations must be in whole percentages, and there may be limitations on the number of investment options that can be selected. See “INVESTMENT OPTIONS” and “TRANSFERS.”

Transfer Credits. The Company provides a transfer credit in some cases on transferred assets, as defined by the Company, subject to certain conditions and state approvals. This benefit is provided on a nondiscriminatory basis. If a transfer credit is due under the contract, you will be provided with additional information specific to the contract.

Election of a transfer credit may impact the mortality and expense risk charge and the credited interest rate under certain fixed interest options. See “FEES” and “APPENDIX III - Fixed Plus Account.”

Tax Code Restrictions. The Tax Code places some limitations on contributions to your account. See “TAX CONSIDERATIONS.”

Factors to Consider in the Purchase Decision. The decision to purchase or participate in the contracts should be discussed with your financial representative. Make sure that you understand the investment options it provides, its other features, the risks and potential benefits you will face, and the fees and expenses you will incur when, together with your financial representative, you consider an investment in the contract. You should pay attention to the following issues, among others:

- **Long-Term Investment** - This contract is a long-term investment, and is typically most useful as part of a personal retirement plan. Early withdrawals may be restricted by the Tax Code or your plan or may expose you to early withdrawal charges or tax penalties. The value of deferred taxation on earnings grows with the amount of time funds are left in the contract. You should not participate in this contract if you are looking for a short-term investment or expect to need to make withdrawals before you are 59½;
- **Investment Risk** - The value of investment options available under this contract may fluctuate with the markets and interest rates. You should not participate in this contract in order to invest in these options if you cannot risk getting back less money than you put in;
- **Features and Fees** - The fees for this contract reflect costs associated with the features and benefits it provides. As you consider this contract, you should determine the value that these various benefits and features have for you, given your particular circumstances, and consider the charges for those features; and
- **Exchanges** - Replacing an existing insurance contract with this contract may not be beneficial to you. If this contract will be a replacement for another annuity contract or mutual fund option under the plan, you should compare the two options carefully, compare the costs associated with each, and identify additional benefits available under this contract. You should consider whether these additional benefits justify incurring a new schedule of early withdrawal charges or any increased charges that might apply under this contract. Also, be sure to talk to a qualified financial professional or tax adviser to make sure that the exchange will be handled so that it is tax-free.

Other Products. We and our affiliates offer various other products with different features and terms than these contracts, which may offer some or all of the same funds. These products have different benefits, fees and charges, and may offer different share classes of the funds offered in this contract that are less expensive. These other products may or may not better match your needs. You should be aware that there are alternative options available, and, if you are interested in learning more about these other products, contact your registered representative. These alternative options may not be available under your plan.

CONTRACT OWNERSHIP AND RIGHTS

Who Owns the Contract? The contract holder. This is the person or entity to whom we issue the contract.

Who Owns Money Accumulated Under the Contract? It depends on the type of plan, as follows:

- **Under Governmental 457(b) or Roth 457(b) Plans.** The Tax Code requires that 457(b) plan assets of governmental employers be held in trust for the exclusive benefit of you and your beneficiaries. An annuity contract satisfies the trust requirement of the Tax Code;
- **Under Tax-Exempt 457(b) Plans.** In order to avoid being subject to ERISA, 457(b) plan assets of tax-exempt employers (including certain nonqualified, church-controlled organizations) remain the property of the employer, and are subject to the claims of the employer’s general creditors; and
- **Under 401(a), 401(k), Roth 401(k), 403(a), 403(b) or Roth 403(b) Plans.** Under the contract, we may establish one or more accounts for you. Generally, we establish an employee account to receive salary reduction and rollover amounts and an employer account to receive employer contributions. You have the right to the value of your employee account and any employer account to the extent you are vested as interpreted by the contract holder.

Who Holds Rights Under the Contract? The terms of the annuity contract will determine who holds rights under the contracts:

- Under some contracts, the contract holder holds all rights under the contract, but may permit you to exercise some of those rights. For example, the contract holder may allow you to choose investment options; and
- Under other contracts, including most group contracts issued through a voluntary 403(b) or Roth 403(b) plan and most individual contracts, you generally hold all rights under the contract and may make elections for your accounts. However, pursuant to Treasury Department regulations that were generally effective on January 1, 2009, the exercise of certain of these rights may require the consent and approval of the plan sponsor or its delegate. See “TAX CONSIDERATIONS –Distributions - Eligibility - 403(b) and Roth 403(b) Plans.”

For additional information about the respective rights of the contract holder and participants, see Appendix IV.

RIGHT TO CANCEL

When and How to Cancel. If the contract holder chooses to cancel a contract, we must receive the contract and a written notice of cancellation within 10 days (or a longer period if required by state law) after the contract holder’s receipt of the contract.

If you wish to cancel participation in the contract and are allowed to do so under the contract and the plan, you must send the document evidencing your participation and a written notice of cancellation to the Company within 10 days after you receive confirmation of your participation in the contract.

Refunds. We will produce a refund no later than seven calendar days after we receive the required documents and written notice in good order at the address listed in “**Contract Overview - Questions: Contacting the Company.**” The refund will equal amounts contributed to the contract or account(s), as applicable, plus any earnings or less any losses attributable to the investment options in which amounts were invested. Any mortality and expense risk charges and administrative expense charges (if any) deducted during the period you held the contract will not be returned. We will not deduct an early withdrawal charge, nor apply a market value adjustment to any amounts you contributed to the Guaranteed Accumulation Account. In certain states, we are required to refund contributions. When a refund of contributions is not required, the investor bears any investment risk.

FEES

The following repeats and adds to information provided in the “FEE TABLE” section. Please review both this section and the “FEE TABLE” section for information on fees.

Transaction Fees

Early Withdrawal Charge

Withdrawals of all or a portion of your account value may be subject to a charge. In the case of a partial withdrawal where you request a specific dollar amount, the amount withdrawn from your account will be the amount you specified plus adjustment for any applicable early withdrawal charge. This charge may also be referred to as a surrender charge in your contract and/or certificate/enrollment materials.

Purpose: This is a deferred sales charge. It reimburses us for some of the sales and administrative expenses associated with the contract. If our expenses are greater than the amount we collect for the early withdrawal charge, we may use any of our corporate assets, including potential profit that may arise from the mortality and expense risk charges, to make up the difference.

Amount: This charge is a percentage of the amount that you withdraw from the subaccounts, the Fixed Account and the Guaranteed Accumulation Account. We do not deduct an early withdrawal charge from amounts that you withdraw from the Fixed Plus Account. The percentage is determined by the early withdrawal charge schedule that applies to your individual account. Some of these schedules are listed below. The charge will never be more than 8.5% of your total purchase payments to the individual account, or under some contracts, the maximum permitted by FINRA rules.

Early Withdrawal Charge Schedules. You may determine which schedule applies to you by consulting your certificate or the contract (held by the contract holder).

Schedule I. This is one of two maximum early withdrawal charge schedules that may apply to contracts other than Texas K-12 contracts. It grades down to zero over a 10-year period, as shown on the next page. Some contracts have schedules that grade down to zero over fewer than 10 years.

Each contract will specify whether a schedule is based on one of the following:

- The number of years since the individual account was established;
- The number of years since the contract was established; or
- The number of completed purchase payment periods (see sidebar for definitions and terms used).

Unless the contract provides otherwise, the same schedule applies to installment purchase payments (ongoing contributions) and to single purchase payments (rollovers, exchanges or other one-time contributions).

Types of Fees

You may incur the following types of fees under the contract:

- Transaction Fees
 - ▷ Early Withdrawal Charge
 - ▷ Loan Interest Rate Spread and Loan Initiation Fee
 - ▷ Redemption Fees
- Periodic Fees and Charges
 - ▷ Annual Maintenance Fee
 - ▷ Mortality and Expense Risk Charge
 - ▷ Administrative Expense Charge
- Fund Fees and Expenses
- Premium and Other Taxes

Terms to Understand in Schedules I, II and Schedule for Texas K-12 Contracts:

- Account Year - a 12-month period measured from the date we establish your account, or measured from any anniversary of that date.
- Contract Year - a 12-month period measured from the date we establish the contract, or measured from any anniversary of that date.
- Purchase Payment Period (also called Contribution Period, Deposit Cycles, Purchase Payment Cycles, or Installment Payment Period under some contracts) - the period of time it takes to complete the number of installment payments expected to be made to your account over a year.

For example, if your payment frequency is every two weeks, a payment period is completed after 26 payments are made. If only 25 payments are made, the payment period is not completed until the twenty-sixth payment is made. At any given time, the number of payment periods completed cannot exceed the number of account years completed, regardless of the number of payments made.

Schedule I

Account Years, Contract Years, Purchase Payment Periods, Contribution Periods, Deposit Cycles, Purchase Payment Cycles or Installment Payment Periods (depending upon the contract)	Early Withdrawal Charge
Fewer than 5	5%
5 or more but fewer than 7	4%
7 or more but fewer than 9	3%
9 or more but fewer than 10	2%
10 or more	0%

Schedule II. This is one of two maximum early withdrawal charge schedules that may apply to contracts other than Texas K-12 contracts. For contracts where we establish distinct accounts for installment purchase payments and single purchase payments (defined above), Schedule I applies to installment payment accounts and Schedule II applies to single payment accounts. As shown below, Schedule II grades down to zero over a nine-year period as account years are completed.

Schedule II

Completed Account Years	Early Withdrawal Charge
Fewer than 5	5%
5 or more but fewer than 6	4%
6 or more but fewer than 7	3%
7 or more but fewer than 8	2%
8 or more but fewer than 9	1%
9 or more	0%

Texas K-12 Contracts. The following schedule applies to Texas K-12 contracts.

Completed Account Years	Early Withdrawal Charge
Fewer than 1	7.0%
1 or more but fewer than 2	6.5%
2 or more but fewer than 3	6.0%
3 or more but fewer than 4	5.5%
4 or more but fewer than 5	5.0%
5 or more but fewer than 6	4.5%
6 or more but fewer than 7	4.0%
7 or more but fewer than 8	3.5%
8 or more but fewer than 9	3.0%
9 or more but fewer than 10	2.0%
10 or more	0.0%

Early Withdrawal Charge (Roth 401(k), Roth 403(b) or Roth 457(b)). Any early withdrawal charge under your contract applicable to a withdrawal of amounts attributable to a lump-sum payment or an installment payment will apply in the same manner to a withdrawal of amounts attributable to the same type of contribution to a Roth 401(k), Roth 403(b) or Roth 457(b) account, respectively, subject to the following exception.

In the case of an early withdrawal charge for a participant installment account that is based upon the number of purchase payment periods (“payment periods”) completed, the number of payment periods completed for the Roth 403(b) or Roth 457(b) account will be determined independently from the number of payment periods completed for any other participant installment account of the participant, other than the following exception. When we first establish a Roth 403(b) or Roth 457(b) account or any other participant installment account for a participant, we will credit the new participant installment account the same number of purchase payments or deposits as were made, if any, to the existing participant installment account with the greatest number of purchase payments or deposits. After the new participant installment account is established under this paragraph, the number of additional payment periods credited from that point forward to a participant installment account will be based solely on the number of subsequent purchase payments or deposits, if any, made to that particular participant installment account. This may result in a different number of payment periods completed for each participant installment account.

For example, if a Roth 403(b) or Roth 457(b) installment account is established for a participant who at that time has made 23 installment payments to her pre-tax 403(b) or Roth 457(b) employee installment account, when the participant’s Roth 403(b) or Roth 457(b) installment account is initially established we will credit it with the same number of installment payments as were made to the existing account (i.e., 23). Thereafter, any future payments the participant makes to her pre-tax account will be credited toward the number of payment periods completed for that account only, while any future payments the participant makes to her Roth 403(b) or Roth 457(b) account will be credited toward the number of payment periods completed only for the Roth 403(b) or Roth 457(b) account.

Early Withdrawal Charge Waivers under all Contracts. These apply to all contracts. Also read the following two subsections regarding additional waivers, reductions or elimination of the charge.

This charge is waived for portions of a withdrawal that are:

- Used to provide income payments during the income phase;
- Paid because of your death before income payments begin;
- Paid where your account value is \$5,000 or less*, and no part of the account has been taken as a withdrawal, used to provide income payments, or taken as a loan within the prior 12 months (36 months for some contracts issued in New York);
- Taken because of the election of a systematic distribution option (see “SYSTEMATIC DISTRIBUTION OPTIONS”); or
- Taken on or after the tenth anniversary of the effective date of the account.

Early Withdrawal Charge Waivers under Certain Contracts. To find out which waivers apply to the contract issued in connection with your plan, consult the certificate or the contract (held by the contract holder).

This charge is waived for portions of a withdrawal that are:

- Taken under accounts with an early withdrawal charge schedule based on completed purchase payment periods when you are at least age 59½ and have completed at least nine purchase payment periods;
- Taken after you have experienced a severance of employment with your employer** (under certain contracts, the employer must provide documentation of severance to the Company);
- Used to purchase an ING Life Insurance and Annuity Company single premium immediate annuity or other contracts allowed by the Company, under the condition that you do not cancel the new contract and obtain a refund during the cancellation period (if you cancel the new contract, we will reinstate the account under the old contract and the amount returned to the account from the new contract may then be withdrawn, subject to any early withdrawal charge that would have applied at the time the new contract was established);

* Under some contracts this waiver applies to withdrawals paid where your account value is \$3,500 or less (or \$1,999 for some contracts issued in New York, or when the paid-up annuity benefit is less than \$20 monthly). In addition, under some contracts, we will waive this charge as otherwise allowed by the plan for a lump-sum cashout without a participant’s consent.

** This waiver does not apply if the severance of employment would not have qualified as a separation from service under IRS guidance prior to the enactment of the Economic Growth and Tax Relief Reconciliation Act of 2001.

- Withdrawn from contracts used with plans under section 401(a), 401(k), 403(a), 403(b), Roth 401(k) or Roth 403(b) of the Tax Code, if the withdrawal is not more than 10% of your account value and is the first partial withdrawal in a calendar year;*
- Withdrawn due to the transfer of your account value to another of the retirement products the Company offers under the contract holder's plan, subject to various conditions agreed to by the contract holder and the Company in writing;
- Made because the Company terminated the account under the circumstances described in "Other Topics - Account Termination";
- Withdrawn for an exchange or transfer to a Tax Code section 403(b)(7) custodial account sponsored by the Company;
- Made for the purposes of taking a loan from the plan, subject to conditions agreed to by the contract holder and the Company in writing;
- Due to your disability as defined by the Tax Code, if the withdrawal is paid directly to you and certified by your employer; and
- Due to a transfer of amounts to a defined benefit governmental plan in connection with the purchase of permissive service credits under such defined benefit plan, or the repayment of a lump-sum amount previously withdrawn from such defined benefit plan, in accordance with the terms of the 403(b) plan or 457 plan, the defined benefit plan and applicable IRS guidelines.

Reduction, Waiver or Elimination. In addition to the specific waivers described above, we may reduce, waive or eliminate the early withdrawal charge for a particular plan. Any such reduction will reflect the differences we expect in distribution costs or services meant to be defrayed by this charge. Factors we consider for a reduction include, but are not limited to, the following:

- The number of participants under the plan;
- The type and nature of the group to which a contract is issued;
- The expected level of assets and/or cash flow under the plan;
- Our agent's involvement in sales activities;
- Our sales-related expenses;
- Distribution provisions under the plan;
- The plan's purchase of one or more other variable annuity contracts from us and the features of those contracts;
- The level of employer involvement in determining eligibility for distributions under the contract;
- Our assessment of financial risk to the Company relating to withdrawals; and
- Whether the contract results from the exchange of another contract issued by the Company to the same plan sponsor.

We will not reduce the early withdrawal charge in a manner that is unfairly discriminatory against any person.

We may also apply different early withdrawal charge provisions in contracts issued to certain employer groups or associations that have negotiated the contract terms on behalf of their employees, and this may include having an early withdrawal charge for some individual accounts and reducing or eliminating the early withdrawal charge for certain other individual accounts. We will offer any resulting early withdrawal charge uniformly to all employees in the group.

* To qualify for this waiver you must be between the ages of 59½ and 70½ and cannot have elected the systematic withdrawal option; any outstanding loans are not included in the account value when calculating the 10% amount; and this waiver does not apply to full withdrawals or to a withdrawal due to a loan default.

Reduction for Certain New York Contracts. For master 403(b) plan contracts issued after July 29, 1993 in New York, in addition to waivers or reductions that we grant, the State of New York requires a reduced early withdrawal charge schedule for withdrawals from the Guaranteed Accumulation Account. The schedule grades down over a seven-year period as account years are completed, as shown in the table below. This same schedule is used for withdrawals from the subaccounts, the Fixed Account or the Guaranteed Accumulation Account for contracts that have an early withdrawal charge that were issued in New York on or after March 7, 2000 under contract forms G-CDA-99(NY) and G-CDA-01(NY).

Completed Account Years	Early Withdrawal Charge
Fewer than 3	5%
3 or more but fewer than 4	4%
4 or more but fewer than 5	3%
5 or more but fewer than 6	2%
6 or more but fewer than 7	1%
7 or more	0%

Loan Interest Rate Spread and Loan Initiation Fee

For a discussion of the loan interest rate spread and the loan initiation fee, the fees and costs that may be associated with loans, please see “LOANS – Charges Associated with Loans.”

Redemption Fees

Certain funds may deduct redemption fees as a result of withdrawals, transfers, or other fund transactions you initiate. If applicable, we may deduct the amount of any redemption fees imposed by the underlying mutual funds as a result of withdrawals, transfers or other fund transactions you initiate. Redemption fees, if any, are separate and distinct from any transaction charges or other charges deducted from your account value. For a more complete description of the funds’ fees and expenses, review each fund’s prospectus.

Periodic Fees and Charges

Annual Maintenance Fee

Maximum Amount. \$30.00

When/How. For those plans that have a maintenance fee, each year during the accumulation phase we deduct this fee on your account anniversary and, in some cases, at the time of full withdrawal. Under some contracts we may also deduct this fee annually on the anniversary of the issue date of the contract, rather than on your account anniversary. It is deducted annually on a pro rata basis from your account value invested in the subaccounts and the fixed interest options. We do not deduct this fee from a single purchase payment account. Under some plans we deduct the maintenance fee from both employer and employee accounts, in which case we may deduct one-half the fee from each account, pro rata from your account value invested in the subaccounts and fixed interest options. We may also deduct all or a portion of the maintenance fee from a Roth 401(k), Roth 403(b), or Roth 457(b) account. Under some installment plans, your employer elects whether the fee is deducted from the employee account, employer account, or a portion from each. The Company may send a bill to your employer at or prior to such deduction.

Purpose. This fee helps defray the administrative expenses we incur in establishing and maintaining your account.

Reduction or Elimination. When a plan meets certain criteria, we may reduce, waive or eliminate the maintenance fee. Factors we consider reflect differences in our level of administrative costs and services, such as:

- The size, type and nature of the group to which a contract is issued;
- Amount of contributions to the contract;
- The expected level of assets under the plan (under some contracts, we may aggregate accounts under different contracts issued by the Company to the same contract holder);
- The anticipated level of administrative expenses, such as billing for payments, producing periodic reports, providing for the direct payment of account charges rather than having them deducted from account values, and any other factors pertaining to the level and expense of administrative services we will provide; and
- The number of eligible participants and the program's participation rate.

Due to factors on which the maintenance fee is based, it is possible that it may increase or decrease from year to year as the characteristics of the group change.

We will not unfairly discriminate against any group if we reduce or eliminate the maintenance fee. We will make any reduction according to our own rules in effect at the time we approve the application for a contract. We reserve the right to change these rules from time to time. Any increase will not result in an Annual Maintenance Fee in excess of the maximum amount shown above and in the Fee Table.

Mortality and Expense Risk Charge

Maximum Amount. 1.50% annually of your account value invested in the subaccounts during the accumulation phase; 1.25% annually of your account value invested in the subaccount during the income phase. See "THE INCOME PHASE - Charges Deducted." We may charge a different fee for different funds (but not beyond the maximum amount). See your certificate or the contract (held by the contract holder).

When/How. This fee is deducted daily from the subaccounts. We do not deduct this fee from any fixed interest option.

Purpose. This fee compensates us for the mortality and expense risks we assume under the contracts, namely:

- Mortality risks are those risks associated with our promise to make lifetime payments based on annuity rates specified in the contracts and our funding of the death benefits (including any guaranteed death benefits) and other payments we make to owners or beneficiaries of the accounts; and
- Expense risk is the risk that the actual expenses we incur under the contracts will exceed the maximum costs that we can charge.

If the amount we deduct for this fee is not enough to cover our mortality costs and expenses under the contracts, we will bear the loss. We may use any excess to recover distribution costs relating to the contract and as a source of profit. We expect to earn a profit from this fee.

Reduction. We may reduce the mortality and expense risk charge from the maximum amount when the plan meets certain criteria and we agree to the reduction with the contract holder in writing. Some contracts have a reduced mortality and expense risk charge only during the accumulation phase of the account which then increases during the income phase (but not beyond the maximum amount). Any reduction will reflect differences in expenses for administration based on such factors as:

- The expected level of assets under the plan (under some contracts, we may aggregate accounts under different contracts issued by the Company to the same contract holder);
- The size of the prospective group, projected annual number of eligible participants and the program's participation rate;
- The plan design (for example, the plan may favor stability of invested assets and limit the conditions for withdrawals, loans and available investment options, which in turn lowers administrative expenses);
- The frequency, consistency and method of submitting payments and loan repayments;
- The method and extent of onsite services we provide and the contract holder's involvement in service such as enrollment and ongoing participant services;
- The contract holder's support and involvement in the communication, enrollment, participant education and other administrative services;
- The projected frequency of distributions;
- The type and level of other factors that affect the overall administrative expense including expenses related to the contract or the plan, or the Company's reimbursement of any portion of the costs of the plan's third party administrator, if applicable;
- Whether or not a transfer credit was selected by the plan sponsor; and
- Whether or not the contract includes a guaranteed death benefit.

We will determine any reduction of the mortality and expense risk charge on a basis that is not unfairly discriminatory according to our rules in effect at the time a contract application is approved. We reserve the right to change these rules from time to time. Under some contracts we will reassess and increase or decrease this fee annually. However, the charge that may apply to a given participant upon entry into the income phase will remain fixed while the participant remains in that phase.

Administrative Expense Charge

Maximum Amount. 0.25% annually of your account value invested in the subaccounts.

When/How. For all participants who became covered under a contract on or after November 5, 1984, we reserve the right to charge an administrative expense charge of up to 0.25% annually of your account value invested in the subaccounts. We are currently deducting this charge under the contracts issued to some plans. If charged, this fee is deducted daily from the subaccounts. We do not deduct this charge from any fixed interest option. This fee may be assessed during the accumulation phase and/or the income phase. If we are currently imposing this fee under the contract issued in connection with your plan when you enter the income phase, the fee will apply to you during the entire income phase.

Purpose. This fee helps defray our administrative expenses that cannot be covered by the mortality and expense risk charge described above. The fee is not intended to exceed our average expected cost of administering the contracts. We do not expect to earn a profit from this fee.

Reduction. Under some contracts, if we charge the administrative expense charge, we may reduce it from the maximum when the plan meets certain criteria and we agree to the reduction with the contract holder, in writing. The level of the fee may be reassessed and increased or decreased annually.

Fund Fees and Expenses

As shown in the fund prospectuses and described in the “Fee Table - Fees Deducted by the Funds” section of this prospectus, each fund deducts management fees from the amounts allocated to the fund. In addition, each fund deducts other expenses, which may include service fees that may be used to compensate service providers, including the Company and its affiliates, for administrative and contract holder services provided on behalf of the fund. Furthermore, certain funds deduct a distribution or 12b-1 fee, which is used to finance any activity that is primarily intended to result in the sale of fund shares. **For a more complete description of the funds’ fees and expenses, review each fund’s prospectus.**

Less expensive share classes of the funds offered through this contract may be available for investment outside of this contract. You should evaluate the expenses associated with the funds available through this contract before making a decision to invest.

The Company may receive substantial revenue from each of the funds or from the funds’ affiliates, although the amount and types of revenue vary with respect to each of the funds offered through the contract. This revenue is one of several factors we consider when determining contract fees and charges and whether to offer a fund through our contracts. **Fund revenue is important to the Company’s profitability and it is generally more profitable for us to offer affiliated funds than to offer unaffiliated funds.**

Assets allocated to affiliated funds, meaning funds managed by Directed Services LLC, ING Investments, LLC or another Company affiliate, generate the largest dollar amount of revenue for the Company. Affiliated funds may also be subadvised by a Company affiliate or an unaffiliated third party. Assets allocated to unaffiliated funds, meaning funds managed by an unaffiliated third party, generate lesser, but still substantial dollar amounts of revenue for the Company. The Company expects to earn a profit from this revenue to the extent it exceeds the Company’s expenses, including the payment of sales compensation to our distributors.

Revenue Received from Affiliated Funds

The revenue received by the Company from affiliated funds may be deducted from fund assets and may include:

- A share of the management fee;
- Service fees;
- For certain share classes, compensation paid from 12b-1 fees; and
- Other revenues that may be based either on an annual percentage of average net assets held in the fund by the Company or a percentage of the fund’s management fees.

In the case of affiliated funds subadvised by unaffiliated third parties, any sharing of the management fee between the Company and the affiliated investment adviser is based on the amount of such fee remaining after the subadvisory fee has been paid to the unaffiliated subadviser. Because subadvisory fees vary by subadviser, varying amounts of revenue are retained by the affiliated investment adviser and ultimately shared with the Company. The Company may also receive additional compensation in the form of intercompany payments from an affiliated fund’s investment advisor or the investment advisor’s parent in order to allocate revenue and profits across the organization. The intercompany payments and other revenue received from affiliated funds provide the Company with a financial incentive to offer affiliated funds through the contract rather than unaffiliated funds.

Revenue Received from Unaffiliated Funds

Revenue received from each of the unaffiliated funds or their affiliates is based on an annual percentage of the average net assets held in that fund by the Company. Some unaffiliated funds or their affiliates pay us more than others and some of the amounts we receive may be significant.

The revenue received by the Company or its affiliates from unaffiliated funds may be deducted from fund assets and may include:

- Service fees;
- For certain share classes, compensation paid from 12b-1 fees; and
- Additional payments for administrative, recordkeeping or other services that we provide to the funds or their affiliates, such as processing purchase and redemption requests, and mailing fund prospectuses, periodic reports and proxy materials. These additional payments do not increase directly or indirectly the fees and expenses shown in each fund's prospectus. These additional payments may be used by us to finance distribution of the contract.

If the unaffiliated fund families currently offered through the contract that made payments to us were individually ranked according to the total amount they paid to the Company or its affiliates in 2010, in connection with the registered variable annuity contracts issued by the Company, that ranking would be as follows:

- | | |
|-------------------------------------|-------------------------------------|
| • Fidelity Investments® | • American Century Investments |
| • American Funds® | • Neuberger Berman Management, Inc. |
| • Franklin® Templeton® Investments | • Loomis Sayles Funds |
| • OppenheimerFunds, Inc. | • BlackRock, Inc. |
| • Columbia Funds | • Alger Funds |
| • Allianz Funds | • Ariel Mutual Funds |
| • Wells Fargo Funds Management, LLC | • Artisan Funds |
| • Lord Abbett Funds | • Lazard Funds, Inc. |
| • Pax World Funds | • Aston Funds |
| • Invesco Investments | • Janus Funds |
| • Pioneer Investments | • LKCM Aquinas Funds |
| • Amana Funds | • Hartford Mutual Funds |
| • Calvert Funds | |

If the revenues received from the affiliated funds were taken into account when ranking the funds according to the total dollar amount they paid to the Company or its affiliates in 2010, the affiliated funds would be first on the list.

In addition to the types of revenue received from affiliated and unaffiliated funds described above, affiliated and unaffiliated funds and their investment advisers, subadvisers or affiliates may participate at their own expense in Company sales conferences or educational and training meetings. In relation to such participation, a fund's investment adviser, subadviser or affiliate may help offset the cost of the meetings or sponsor events associated with the meetings. In exchange for these expense offset or sponsorship arrangements, the investment adviser, subadviser or affiliate may receive certain benefits and access opportunities to Company sales representatives and wholesalers rather than monetary benefits. These benefits and opportunities include, but are not limited to co-branded marketing materials, targeted marketing sales opportunities, training opportunities at meetings, training modules for sales personnel, and opportunities to host due diligence meetings for representatives and wholesalers.

Certain funds may be structured as "fund of funds." These funds may have higher fees and expenses than a fund that invests directly in debt and equity securities because they also incur the fees and expenses of the underlying funds in which they invest. These funds are affiliated funds, and the underlying funds in which they invest may be affiliated as well. The fund prospectuses disclose the aggregate annual operating expenses of each fund and its corresponding underlying fund or funds. These funds are identified in the investment option list in the front of this prospectus.

Please note certain management personnel and other employees of the Company or its affiliates may receive a portion of their total employment compensation based on the amount of net assets allocated to affiliated funds. **See also "CONTRACT DISTRIBUTION."**

Premium and Other Taxes

Maximum Amount. Some states and municipalities charge a premium tax on annuities. These taxes currently range from 0% to 4%, depending upon the jurisdiction.

When/How. We reserve the right to deduct a charge for premium taxes from your account value or from payments to the account at any time, but not before there is a tax liability under state law. For example, we may deduct a charge for premium taxes at the time of a complete withdrawal or we may reflect the cost of premium taxes in our income phase payment rates when you commence income phase payments.

We will not deduct a charge for any municipal premium tax of 1% or less, but we reserve the right to reflect such an expense in our annuity purchase rates.

In addition, the Company reserves the right to assess a charge for any federal taxes due against the separate account. See “TAX CONSIDERATIONS.”

YOUR ACCOUNT VALUE

During the accumulation phase, your account value at any given time equals:

- Account dollars directed to the fixed interest options, including interest earnings to date;
- Less any deductions from the fixed interest options (e.g., withdrawals, fees);
- Plus the current dollar value of amounts held in the subaccounts, which takes into account investment performance and fees deducted from the subaccounts.

Subaccount Accumulation Units. When a fund is selected as an investment option, your account dollars invest in “accumulation units” of the Variable Annuity Account C subaccount corresponding to that fund. The subaccount invests directly in the fund shares. The value of your interests in a subaccount is expressed as the number of accumulation units you hold multiplied by an “Accumulation Unit Value,” as described below, for each unit.

Accumulation Unit Value (“AUV”). The value of each accumulation unit in a subaccount is called the accumulation unit value or AUV. The value of accumulation units varies daily in relation to the underlying fund’s investment performance. The value also reflects deductions for fund fees and expenses, the mortality and expense risk charge, and the administrative expense charge (if any). We discuss these deductions in more detail in “Fee Table” and “Fees.”

Valuation. We determine the AUV every business day after the close of the New York Stock Exchange (“NYSE”) (normally at 4:00 p.m. Eastern Time). At that time, we calculate the current AUV by multiplying the AUV last calculated by the “net investment factor” of the subaccount. The net investment factor measures the investment performance of the subaccount from one valuation to the next.

Current AUV = Prior AUV x Net Investment Factor

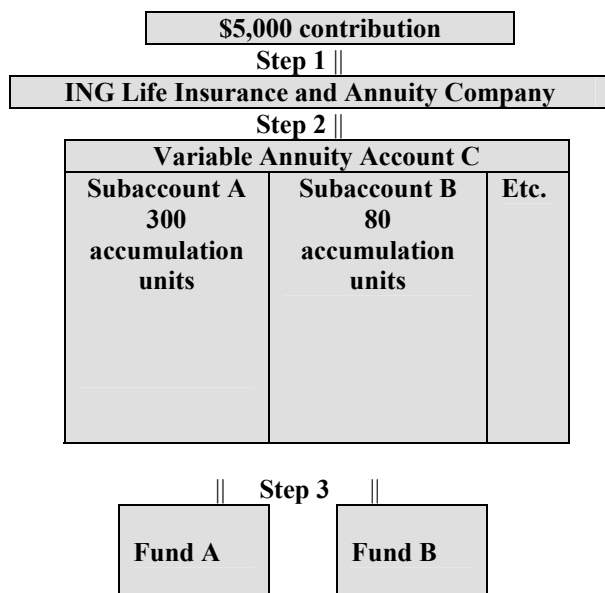

Net Investment Factor. The net investment factor for a subaccount between two consecutive valuations equals the sum of 1.0000 plus the net investment rate.

Net Investment Rate. The net investment rate is computed according to a formula that is equivalent to the following:

- The net assets of the fund held by the subaccount as of the current valuation; minus
- The net assets of the fund held by the subaccount at the preceding valuation; plus or minus
- Taxes or provisions for taxes, if any, due to subaccount operations (with any federal income tax liability offset by foreign tax credits to the extent allowed);
- Divided by the total value of the subaccount’s units at the preceding valuation;
- Minus a daily deduction for the mortality and expense risk charge, the administrative expense charge, if any, and any other fees deducted daily from investments in the separate account. See “FEES.”

The net investment rate may be either positive or negative.

Hypothetical Illustration. As a hypothetical illustration, assume that an investor contributes \$5,000 to his account and directs us to invest \$3,000 in Fund A and \$2,000 in Fund B. After receiving the contribution and following the next close of business of the NYSE (normally at 4:00 p.m. Eastern Time), the applicable AUV's are \$10 for Subaccount A, and \$25 for Subaccount B. The investor's account is credited with 300 accumulation units of Subaccount A and 80 accumulation units of Subaccount B.

Step 1: An investor contributes \$5,000.

Step 2:

- He directs us to invest \$3,000 in Fund A. His dollars purchase 300 accumulation units of Subaccount A (\$3,000 divided by the current \$10 AUV);and
- He directs us to invest \$2,000 in Fund B. His dollars purchase 80 accumulation units of Subaccount B (\$2,000 divided by the current \$25 AUV).

Step 3: The separate account then purchases shares of the applicable funds at the current market value (net asset value or NAV).

The fund's subsequent investment performance, expenses and charges, and the daily charges deducted from the subaccount, will cause the AUV to move up or down on a daily basis.

Purchase Payments to Your Account. If all or a portion of initial purchase payments are directed to the subaccounts, they will purchase subaccount accumulation units at the AUV next computed after our acceptance of the applicable application or enrollment forms, as described in "Contract Purchase and Participation." Subsequent purchase payments or transfers directed to the subaccounts that we receive in good order by the close of business of the NYSE (normally 4:00 p.m. Eastern Time) will purchase subaccount accumulation units at the AUV computed after the close of the NYSE (normally at 4:00 p.m. Eastern Time) on that day. The value of subaccounts may vary day to day.

WITHDRAWALS

Taxes, Fees and Deductions

Amounts withdrawn may be subject to one or more of the following:

- Early Withdrawal Charge. See “FEES - Early Withdrawal Charge”
- Maintenance Fee. See “FEES - Annual Maintenance Fee”
- Market Value Adjustment. See APPENDIX I
- Redemption Fees. See “FEES - Redemption Fees”
- Tax Penalty. See “TAX CONSIDERATIONS”
- Tax Withholding. See “TAX CONSIDERATIONS”

To determine which may apply, refer to the appropriate sections of this prospectus, contact your local representative or call the Company at the number listed in “**Contract Overview - Questions: Contacting the Company.**”

Making a Withdrawal. Subject to limitations on withdrawals from the fixed interest options and other restrictions (see “Withdrawal Restrictions” in this section), the contract holder, or you if permitted by the plan, may withdraw all or a portion of your account value at any time during the accumulation phase.

Steps for Making a Withdrawal. The contract holder, or you if permitted by the plan, must select the withdrawal amount:

- Full Withdrawal: You will receive, reduced by any required tax, your account value allocated to the subaccounts, the Guaranteed Accumulation Account (plus or minus any applicable market value adjustment) and the Fixed Account, minus any applicable early withdrawal charge, maintenance fee, and redemption fees, plus the amount available for withdrawal from the Fixed Plus Account; or
- Partial Withdrawal (Percentage or Specified Dollar Amount): You will receive, reduced by any required tax, the amount you specify, subject to the value available in your account. However, the amount actually withdrawn from your account will be adjusted by any applicable redemption fees, and by any applicable early withdrawal charge for amounts withdrawn from the subaccounts, the Guaranteed Accumulation Account or the Fixed Account, and any positive or negative market value adjustments for amounts withdrawn from the Guaranteed Accumulation Account. The amount available from the Fixed Plus Account may be limited;
- Select investment options. If not specified, we will withdraw dollars in the same proportion as the values you hold in the various investment options from each investment option in which you have an account value; and
- Properly complete a disbursement form and submit it to the address listed in “**Contract Overview - Questions: Contacting the Company.**”

For a description of limitations on withdrawals from the Fixed Plus Account, see Appendix III.

Calculation of Your Withdrawal. We determine your account value every normal business day after the close of the NYSE (normally at 4:00 p.m. Eastern Time). We pay withdrawal amounts based on your account value either:

- As of the next valuation after we receive a request for withdrawal in good order at the address listed in “**Contract Overview - Questions: Contacting the Company.**”; or
- On such later date as specified on the disbursement form.

Delivery of Payment. Payments for withdrawal requests will be made in accordance with SEC requirements. Normally, we will send your payment no later than seven calendar days following our receipt of your disbursement form in good order.

Reinstatement Privilege. Some contracts allow the one-time use of a reinstatement privilege. Within 30 calendar days after a full withdrawal, if allowed by law and the contract, you may elect to reinstate all or a portion of the proceeds. We must receive reinstated amounts within 60 days of the withdrawal. We will credit the account for the amount reinstated based on the subaccount values next computed following our receipt of your request in good order and the amount to be reinstated. We will credit the amount reinstated proportionally for maintenance fees and early withdrawal charges imposed at the time of withdrawal. We will deduct from the amounts reinstated any maintenance fee which fell due after the withdrawal and before the reinstatement. We will reinstate in the same investment options and proportions in place at the time of withdrawal. Special rules apply to reinstatements of amounts withdrawn from the Guaranteed Accumulation Account. See “APPENDIX I.” Seek competent advice regarding the tax consequences associated with reinstatement.

Withdrawal Restrictions. Some plans may have other limits on withdrawals, other than or in addition to those listed below:

- Section 403(b)(11) of the Tax Code generally prohibits withdrawals under 403(b) contracts prior to your death, disability, attainment of age 59½, severance from employment, or financial hardship of the following:
 - ▷ Salary reduction contributions made after December 31, 1988; and
 - ▷ Earnings on those contributions and earnings on amounts held before 1989 and credited after December 31, 1988. Income attributable to salary reduction contributions and credited on or after January 1, 1989, may not be distributed in the case of hardship;
- Effective January 1, 2009, 403(b) regulations impose restrictions on the distribution of 403(b) employer contributions under certain contracts. See “TAX CONSIDERATIONS – Distributions - Eligibility - 403(b) and Roth 403(b) Plans;”
- 401(k) plans generally prohibit withdrawal of salary reduction contributions and associated earnings prior to your death, disability, attainment of age 59½, severance from employment, or financial hardship;
- The contract generally requires that the plan sponsor or its delegate certify that you are eligible for the distribution;
- If you are married and covered by an ERISA plan, the contract holder must provide certification that Retirement Equity Act requirements have been met;
- Participants in the Ball State University Alternate Pension Plan - The portion of your account value attributable to employer contributions and applicable earnings may not be withdrawn unless your employment is terminated with Ball State University or you have died, retired or separated from service. The contract holder may withdraw the employer account value, and you may exchange or transfer employer account values as permitted by the plan, the Code and regulations thereunder without regard to this restriction. No early withdrawal charge will apply to the first 20% of the employer account value exchanged or transferred in a calendar year. This waiver does not apply to an exchange or transfer of the full employer account value; and
- Participants in the Texas Optional Retirement Program - You may not receive any distribution before retirement, except upon reaching age 70½ or terminating employment with Texas public institutions of higher learning. Conditions under which you may exercise the right to withdraw and the right to advance the date on which an income phase payment option is to begin are limited. These restrictions are imposed by reason of the Texas Attorney General’s interpretation of Texas law.

Other withdrawals may be allowed as provided for under the Tax Code or regulations.

Waivers of Early Withdrawal Charge and Fixed Plus Account Full and Partial Withdrawal Provisions (for those contracts that waive these charges/restrictions upon separation from service). Although the Tax Code permits distributions upon a participant’s severance from employment, the contracts do not provide for a waiver of early withdrawal charges or the Fixed Plus Account full or partial withdrawal provisions unless the severance from employment would otherwise have qualified as a separation from service under prior IRS “same desk” guidance (prior to enactment of the Economic Growth and Tax Relief Reconciliation Act of 2001). Generally, a severance from employment due to a merger, liquidation, consolidation or other employer transaction does not qualify as a separation from service.

Employer-Directed Withdrawals. Under certain contracts, if permitted by the plan, we may, at the plan sponsor’s direction, deduct amounts from participant accounts in order to pay costs associated with a third party administrator engaged by the plan sponsor to administer the plan.

LOANS

Availability. If allowed by the contract and the plan, you may take out a loan from your account value during the accumulation phase. Loans are not available from Roth 401(k) or Roth 403(b) contracts or accounts, and participant Roth 401(k) or Roth 403(b) accounts are excluded from the amount available for loan. Some plans restrict loans from your employer account. Loans are only allowed from amounts allocated to certain subaccounts and fixed interest options. Additional restrictions may apply under the Tax Code, your plan, or due to our administrative practices or those of a third party administrator selected by your plan sponsor, and loans may be subject to approval by the plan sponsor or its delegate. We reserve the right not to grant a loan request if the participant has an outstanding loan in default.

Unless specifically permitted by the terms of your plan and supported by your plan's administrator and record keeper, a loan is not available from your Roth 457(b) account. Absent such an exception, although your Roth 457(b) account may be included in the calculation of the amount available for loan ("lienable"), the amount of your Roth 457(b) account may not be part of a loan ("loanable"). Accordingly, the amount available for a full or partial withdrawal from a participant Roth account will not be reduced by any outstanding loan balance. Further, in the event of a loan default, no amount of the outstanding loan balance will be deducted from your Roth account.

Requests. If you are eligible to obtain a loan, you may request one by properly completing the loan request form and submitting it to the address listed in "**Contract Overview - Questions: Contacting the Company.**" Read the terms of the loan agreement before submitting any request.

Charges Associated with Loans. If you are eligible and take a loan from your account value, you may be subject to one of the following two charges associated with loans:

- **Loan Interest.** Interest will be charged and credited on loan amounts. The difference between the rate charged and the rate credited on the loans under your contract is called the loan interest rate spread. The loan interest rate spread for most contracts is currently 2.5%. For example, if the current interest rate charged on a loan is 6.0% and the loan interest rate spread is 2.5%, the amount of interest credited is 3.5%. The loan interest rate spread is retained by the Company. We reserve the right to apply a loan interest rate spread of between 0.0% and up to 3.0%; or
- **Loan Initiation Fee.** Loans under certain contracts that have a 0.0% loan interest rate spread may be subject to a loan initiation fee instead. This fee will not exceed \$100 per loan. The loan initiation fee will be deducted from the vested individual account value during the first month of the loan period. We reserve the right to change the fees charged for loan initiation, but not to exceed \$100 per loan.

For information about whether the loan interest rate spread or the loan initiation fee is applicable to you, please see your certificate/enrollment materials or the contract (held by the contract holder).

SYSTEMATIC DISTRIBUTION OPTIONS

Features of a Systematic Distributions Option

If available under your plan, a systematic distribution option allows you to receive regular payments from your account without moving into the income phase. By remaining in the accumulation phase, you retain certain rights and investment flexibility not available during the income phase. Because the account remains in the accumulation phase, all accumulation phase charges continue to apply.

Availability of Systematic Distribution Options. These options may be exercised at any time during the accumulation phase of the contract. To exercise one of these options, the account value must meet any minimum dollar amount and age criteria applicable to that option. To determine what systematic distribution options are available, check with the contract holder or the Company.

Systematic distribution options currently available under the contract include the following:

- **Systematic Withdrawal Option (SWO).** SWO is a series of partial withdrawals from your account based on a payment method you select. It is designed for those who want a periodic income while retaining accumulation phase investment flexibility for amounts accumulated under the account. (This option may not be available if you have an outstanding loan); and
- **Estate Conservation Option (ECO).** ECO also allows you to maintain the account in the accumulation phase and provides periodic payments designed to meet the Tax Code's required minimum distributions. Under ECO, the Company calculates the minimum distribution amount required by law (generally at age 70½ or retirement, if later) and pays you that amount once a year.

For certain contracts issued in the state of New York, no market value adjustment is imposed on ECO withdrawals from the Guaranteed Accumulation Account.

Other Systematic Distribution Options. Other systematic distribution options may be available from time to time. Additional information relating to any of the systematic distribution options may be obtained from your local representative or from the Company.

Availability of Systematic Distribution Options. The Company may discontinue the availability of one or all of the systematic distribution options at any time, and/or change the terms of future elections.

Electing a Systematic Distribution Option. The contract holder, or you if permitted by the plan, may elect a systematic distribution option. The plan sponsor or its delegate generally must provide the Company with certification that you are eligible for a distribution and that the distribution is in accordance with the terms of the plan.

Terminating a Systematic Distribution Option. Once you elect a systematic distribution option (other than accounts that are part of 457 plan contracts issued to non-governmental, tax exempt employers) you may revoke it at any time through a written request to the address listed in “**Contract Overview - Questions: Contacting the Company.**” Once revoked, an option may not be elected again until the next calendar year, nor may any other systematic distribution option be elected, unless the Tax Code permits it.

Tax Consequences. Withdrawals received through these options and revocations of elections may have tax consequences. See “TAX CONSIDERATIONS.”

DEATH BENEFIT

The contract provides a death benefit in the event of your death, which is payable to the beneficiary named under the contract (contract beneficiary):

- Under contracts issued in connection with most types of plans except most voluntary 403(b) and Roth 403(b) plans, the contract holder must be named as the contract beneficiary, but may direct that we make any payments to the beneficiary you name under the plan (plan beneficiary); and
- Under most group contracts issued in connection with voluntary 403(b) and Roth 403(b) plans and under individual contracts, you may generally designate your own contract beneficiary who will normally be your plan beneficiary, as well.

During the Income Phase

This section provides information about the accumulation phase. For death benefit information applicable to the income phase, see “THE INCOME PHASE.”

During the Accumulation Phase

Payment Process. To request payment of the death benefit following your death:

- The contract beneficiary (on behalf of the plan beneficiary, if applicable) must provide the Company with proof of death acceptable to us and a payment request in good order;
- The payment request should include selection of a benefit payment option; and
- Within seven calendar days after we receive proof of death acceptable to us and payment request in good order at the address listed in “**Contract Overview - Questions: Contacting the Company,**” we will mail payment, unless otherwise requested.

Until a death benefit request is in good order and a payment option is selected, account dollars will remain invested as at the time of your death, and no distributions will be made.

Benefit Payment Options. The following payment options are available, if allowed by the Tax Code:

- Lump-sum payment;
- Payment under an available income phase payment option (see “THE INCOME PHASE – Income Phase Payment Options”); and
- Payment under an available systematic distribution option (subject to certain limitations). See “SYSTEMATIC DISTRIBUTION OPTIONS.”

Unless the beneficiary elects otherwise, lump-sum payments will generally be made into an interest bearing retained asset account that is backed by our general account. **This account is not FDIC insured** and can be accessed by the beneficiary through a draftbook feature. The beneficiary may access the entire death benefit proceeds at any time through the draftbook without penalty. Interest credited on this account may be less than you could earn if the lump-sum payment was invested outside of the contract. Additionally, interest credited on this account may be less than under other settlement options available under the contract, and the Company seeks to earn a profit on this account.

At the time of death benefit election, the beneficiary may elect to receive the death benefit proceeds directly by check rather than through the retained asset account draftbook feature by notifying us at the address shown in the “**Contract Overview – Questions: Contacting the Company**” section of this prospectus.

The following options are also available under some contracts; however, the Tax Code limits how long the death benefit proceeds may be left in these options:

- Leaving the account value invested in the contract; and
- Under some contracts, leaving your account value on deposit in the Company’s general account and receiving monthly, quarterly, semi-annual or annual interest payments at the interest rate currently credited on such deposits. The balance on deposit can be withdrawn at any time or paid in accordance with any of the available income phase payment options. See “THE INCOME PHASE – Income Phase Payment Options.”

Death Benefit Options. The various death benefit options that may be made available by the Company under the contract are listed below. For information about the death benefit applicable to you, please see your certificate/enrollment materials or the contract (held by the contract holder).

Account Value Death Benefit. For most contracts, the death benefit will be based on your account value. For amounts held in the Guaranteed Accumulation Account, any positive aggregate market value adjustment (the sum of all market value adjustments calculated due to a withdrawal) will be included in your account value. If a negative market value adjustment applies, it would be deducted only if the death benefit is withdrawn more than six months after your death. We describe the market value adjustment in Appendix I and in the Guaranteed Accumulation Account prospectus.

The death benefit is calculated as of the next time we value your account following the date on which we receive proof of death and payment request in good order. In addition to this amount, some states require we pay interest on amounts invested in fixed interest options, calculated from date of death at a rate specified by state law.

Return of Purchase Payment Death Benefit. Some contracts provide a guaranteed death benefit if the contract beneficiary (on behalf of the plan beneficiary, if applicable) elects a lump-sum distribution or an income phase payment option within six months of your death. For those contracts, the guaranteed death benefit is the greater of:

- Your account value on the day that notice of death and request for payment are received in good order at the address listed in “**Contract Overview - Questions: Contacting the Company**,” plus any positive aggregate market value adjustment that applies to amounts allocated to the Guaranteed Accumulation Account; or
- The sum of payments (minus any applicable premium tax) made to your account, minus withdrawals made from your account and any outstanding loan amount.

In the event that the contract beneficiary does not request payment of the death benefit as a lump sum or as an income phase option within six months of your death, the amount of the death benefit is the account value as of the next valuation following our receipt of acceptable proof of death and the payment request in good order. See the contract and/or certificate/enrollment materials for treatment of amounts held in the Guaranteed Accumulation Account.

Adjusted Purchase Payment Guaranteed Death Benefit. Under another form of guaranteed death benefit that may be available under certain contracts, the death benefit payable under the contract will never be less than the amount of adjusted purchase payments made to your account (as defined below), less a proportional adjustment for amounts withdrawn or borrowed from your account. The charge for this guaranteed death benefit (if any) is included within the mortality and expense risk charge applicable under your contract, and is one of the factors we evaluate when we determine the mortality and expense risk charge applicable to your group contract. See “FEES - Mortality and Expense Risk Charge.”

Calculating the Value of the Death Benefit. The death benefit under the Adjusted Purchase Payment Guaranteed Death Benefit is guaranteed to be the greater of (a) or (b) as calculated as of the next valuation date (the date of the next close of the NYSE) following our receipt of proof of death and a payment request in good order at the address listed in the “**Contract Overview – Questions: Contacting the Company**” section, where:

- (a) is the adjusted purchase payment total, which is the sum of all net purchase payments to your account, minus a proportional adjustment for withdrawals and amounts taken as a loan, which amount will never be less than zero (see “Calculating Adjusted Purchase Payments,” below); and
- (b) is the current account value, excluding amounts taken as a loan, plus any positive aggregate market value adjustment (MVA), as applicable. See “APPENDIX I” and the Guaranteed Accumulation Account prospectus for further information regarding the MVA.

If the amount of the death benefit in (a) is greater than the amount in (b), the Company will deposit the difference into your account. The amount, if any, will be deposited into your account pro rata across your current investment allocations as of the valuation date following the date we receive proof of death acceptable to us and a payment request in good order at the address listed in the “**Contract Overview – Questions: Contacting the Company**” section.

If the beneficiary in that situation requests an immediate payment or begins income phase payments, the amount paid will be the current account value, excluding any amounts taken as a loan, plus any aggregate positive MVA, as of the valuation date following the date we deposit the difference into your account.

If the amount of the death benefit in (a) is less than the amount in (b), and the beneficiary requests an immediate payment or begins income phase payments, the amount paid will be the current account value, excluding any amounts taken as a loan, plus any aggregate positive MVA, as of the valuation date following the date we receive proof of death acceptable to us and a payment request in good order at the address listed in the “**Contract Overview – Questions: Contacting the Company**” section.

In the event a beneficiary elects to defer distribution of the death benefit, the amount paid to the beneficiary when the beneficiary elects to begin distribution of the death benefit will equal the current account value, excluding any amounts taken as a loan, plus or minus any applicable MVA, as of the next valuation following our receipt of the distribution request in good order at the address listed in the “**Contract Overview – Questions: Contacting the Company**” section. The amount paid may be more or less than the amount of the death benefit determined above on the date notice of death and an election to defer payment was received. No additional death benefit is payable upon the beneficiary’s death.

Calculating Adjusted Purchase Payments. The adjusted purchase payment total above is initially equal to the first purchase payment. The adjusted purchase payment total is then adjusted for each subsequent purchase payment, loan repayment, or partial withdrawal. The adjustment for subsequent purchase payments and loan repayments will be dollar for dollar. The adjustment for partial withdrawals, including loans taken, will be proportionate, reducing the adjusted purchase payment total in the same proportion that the current account value, excluding any amounts taken as loans, was reduced on the date of the partial withdrawal. The proportionate adjustment of the adjusted purchase payment total for each partial withdrawal is defined as the adjusted purchase payment total at that time, multiplied by the fraction A divided by B (A/B), where:

- **A** is the current account value, excluding amounts taken as a loan, immediately after the partial withdrawal; and
- **B** is the current account value, excluding amounts taken as a loan, before the partial withdrawal.

Tax Code Requirements. The Tax Code requires distribution of death benefit proceeds within a certain period of time. Failure to begin receiving death benefit payments within those time periods can result in tax penalties. Regardless of the method of payment, death benefit proceeds will generally be taxed to the beneficiary in the same manner as if you had received those payments. See “TAX CONSIDERATIONS” for additional information.

THE INCOME PHASE

We may have used the following terms in prior prospectuses:

- **Annuity Phase-Income Phase;**
- **Annuity Option-Income Phase Payment Option;**
- **Annuity Payment-Income Phase Payment; and**
- **Annuitization-Initiating Income Phase Payments**

Also, income phase payments are sometimes referred to as “annuity payments.”

During the income phase, you receive payments from your accumulated account value.

Initiating Income Phase Payments. At least 30 days prior to the date you want to start receiving income phase payments, the contract holder, or you if permitted by the plan, must notify us in writing of the following:

- Start date;
- Income phase payment option (see the income phase payment options table in this section);
- Income phase payment frequency (i.e., monthly, quarterly, semi-annually or annually);
- Choice of fixed or variable payments;
- Selection of an assumed net investment rate (only if variable payments are elected); and
- Under some plans, certification from your employer and/or submission of the appropriate forms is also required.

The account will continue in the accumulation phase until the contract holder or you, as applicable, properly initiate income phase payments. Once an income phase payment option is selected, it may not be changed; however, certain options allow you to withdraw a lump sum.

What Affects Income Phase Payments? Some of the factors that may affect income phase payments include: your age, your account value, the income phase payment option selected, number of guaranteed payments (if any) selected, and whether you select variable or fixed payments.

Fixed Payments. Amounts funding fixed income phase payments will be held in the Company’s general account. Fixed payments will remain the same over time.

Variable Payments. Amounts funding your variable income phase payments will be held in the subaccount(s) selected. The contracts may restrict the subaccounts available, the number of investment options to be selected and how many transfers, if any, are allowed among options during the income phase. For variable payments, an assumed net investment rate must be selected.

Payments from the Fixed Plus Account. Under some contracts, if a nonlifetime income phase payment option is selected, payments from the Fixed Plus Account may only be made on a fixed basis.

Assumed Net Investment Rate. If you select variable income phase payments, an assumed net investment rate must also be selected. If you select a 5% rate, your first payment will be higher, but subsequent payments will increase only if the investment performance of the subaccounts you selected is greater than 5% annually, after deduction of fees. Payment amounts will decline if the investment performance is less than 5%, after deduction of fees.

If you select a 3.5% rate, your first income phase payment will be lower and subsequent payments will increase more rapidly or decline more slowly depending upon the investment performance of the subaccounts you selected. For more information about selecting an assumed net investment rate, request a copy of the Statement of Additional Information by calling us. See “**Contract Overview - Questions: Contacting the Company.**”

Selecting an Increasing Payment. Under certain income phase payment options, if you select fixed payments, you may elect an increase of one, two, or three percent, compounded annually. The higher your percentage, the lower your initial payment will be, while future payments will increase each year at a greater rate. Generally, this feature is not available with cash refund payment options and nonlifetime options.

Charges Deducted. When you select an income payment phase option (one of the options listed in the tables below), a mortality and expense risk charge, consisting of a daily deduction of 1.25% on an annual basis, will be deducted from amounts held in the subaccounts. This charge compensates us for mortality and expense risks we assume under variable income phase payout options and is applicable to all variable income phase payout options, including variable nonlifetime options under which we do not assume mortality risk. In this situation, this charge will be used to cover expenses. Although we expect to earn a profit from this fee, we do not always do so. For variable options under which we do not assume a mortality risk, we may make a larger profit than under other options. We may also deduct a daily administrative charge of 0.25% annually from amounts held in the subaccounts.

Required Minimum Payment Amounts. The initial income phase payment or the annual income phase payment total must meet the minimums stated in the contract. If your account value is too low to meet these minimum payment amounts, you will receive one lump-sum payment.

Death Benefit During the Income Phase. The death benefits that may be available to a beneficiary are outlined in the following income phase payment option table. If a lump-sum payment is due as a death benefit, we will make payment within seven calendar days after we receive proof of death acceptable to us in good order and the payment request at the address listed in “**Contract Overview - Questions: Contacting the Company.**”

Unless the beneficiary elects otherwise, lump-sum payments will generally be made into an interest bearing retained asset account that is backed by our general account. **This account is not FDIC insured** and can be accessed by the beneficiary through a draftbook feature. The beneficiary may access the entire death benefit proceeds at any time through the draftbook without penalty. Interest credited on this account may be less than you could earn if the lump-sum payment was invested outside of the contract. Additionally, interest credited on this account may be less than under other settlement options available under the contract, and the Company seeks to earn a profit on this account.

At the time of death benefit election, the beneficiary may elect to receive the death benefit proceeds directly by check rather than through the retained asset account draftbook feature by notifying us at the address shown in the “**Contract Overview – Questions: Contacting the Company**” section of this prospectus.

Taxation. To avoid certain tax penalties, you and any beneficiary must meet the distribution rules imposed by the Tax Code. See “**TAX CONSIDERATIONS.**”

Income Phase Payment Options

The following tables list the income phase payment options and accompanying death benefits that may be available under the contracts. Some contracts restrict the options and the terms available. Refer to your certificate or check with your contract holder for details. We may offer additional income phase payment options under the contract from time to time.

Terms used in the Tables:

- **Annuitant:** The person(s) on whose life expectancy the income phase payments are calculated; and
- **Beneficiary:** The person designated to receive the death benefit payable under the contract.

Lifetime Income Phase Payment Options	
Life Income	<p>Length of Payments: For as long as the annuitant lives. It is possible that only one payment will be made should the annuitant die prior to the second payment’s due date.</p> <p>Death Benefit-None: All payments end upon the annuitant’s death.</p>

* Guaranteed period payments may not extend beyond the shorter of your life expectancy or until you’re age 95.

Lifetime Income Phase Payment Options (continued):	
Life Income-Guaranteed Payments*	<p>Length of Payments: For as long as the annuitant lives, with payments guaranteed for your choice of 5 to 30 years, or as otherwise specified in the contract.</p> <p>Death Benefit-Payment to the Beneficiary: If the annuitant dies before we have made all the guaranteed payments, we will continue to pay the beneficiary the remaining payments. Unless prohibited by a prior election of the contract holder, the beneficiary may elect to receive a lump-sum payment equal to the present value of the remaining guaranteed payments.</p>
Life Income-Two Lives	<p>Length of Payments: For as long as either annuitant lives. It is possible that only one payment will be made should both annuitants die before the second payment's due date.</p> <p>Continuing Payments:</p> <ul style="list-style-type: none"> • When you select this option, you choose for 100%, 66 2/3% or 50% of the payment to continue to the surviving annuitant after the first death; or • 100% of the payment to continue to the annuitant on the second annuitant's death, and 50% of the payment to continue to the second annuitant on the annuitant's death. <p>Death Benefit-None: All payments end after the death of both annuitants.</p>
Life Income-Two Lives-Guaranteed Payments*	<p>Length of Payments: For as long as either annuitant lives, with payments guaranteed for your choice of 5 to 30 years, or as otherwise specified in the contract.</p> <p>Continuing Payments: 100% of the payment to continue to the surviving annuitant after the first death.</p> <p>Death Benefit-Payment to the Beneficiary: If both annuitants die before the guaranteed payments have all been paid, we will continue to pay the beneficiary the remaining payments. Unless prohibited by a prior election of the contract holder, the beneficiary may elect to receive a lump-sum payment equal to the present value of the remaining guaranteed payments.</p>
Life Income-Cash Refund Option (limited availability fixed payment only)	<p>Length of Payments: For as long as the annuitant lives.</p> <p>Continuing Payment: 100% of the payment to continue after the first death.</p> <p>Death Benefit-Payment to the Beneficiary: When both annuitants die, we will pay a lump-sum payment equal to the amount applied to the income phase payment option (less any premium tax) and less the total amount of fixed income phase payments paid.</p>
Nonlifetime Income Phase Payment Options⁽¹⁾	
Nonlifetime-Guaranteed Payments*	<p>Length of Payments: Payments will continue for the number of years you choose, based on what is available under the contract. Under some contracts, for amounts held in the Fixed Plus Account during the accumulation phase, the payment must be on a fixed basis and must be for at least 5 years. In certain cases, a lump-sum payment may be requested at any time (see below).</p> <p>Death Benefit-Payment to the Beneficiary: If the annuitant dies before we make all the guaranteed payments, we will continue to pay the beneficiary the remaining payments. Unless prohibited by a prior election of the contract holder, the beneficiary may elect to receive a lump-sum payment equal to the present value of the remaining guaranteed payments. We will not impose any early withdrawal charge.</p>

Lump-sum Payment: If the Nonlifetime-Guaranteed Payments option is elected with variable payments, you may request at any time that all or a portion of the present value of the remaining payments be paid in one lump sum. A lump sum elected before three or five years of income phase payments have been completed (as specified by the contract) will be treated as a withdrawal during the accumulation phase and if election is made during an early withdrawal charge period, we will charge the applicable early withdrawal charge. See "FEES - Early Withdrawal Charge." Lump-sum payments will be sent within seven calendar days after we receive the request for payment in good order at the address listed in "**Contract Overview - Questions: Contacting the Company.**"

Calculation of Lump-sum Payments: If a lump-sum payment is available to a beneficiary or to you in the income phase payment options above, the rate we use to calculate the present value of the remaining guaranteed payments is the same rate we use to calculate the income phase payments (i.e., the actual fixed rate used for the fixed payments or the 3.5% or 5% assumed net investment rate for variable payments).

⁽¹⁾ For contracts issued to the State of Montana and Board of Trustees, University of Illinois, the nonlifetime option is available only with fixed income phase payments.

* Guaranteed period payments may not extend beyond the shorter of your life expectancy or until you're age 95.

CONTRACT DISTRIBUTION

General

The Company's subsidiary, ING Financial Advisers, LLC, serves as the principal underwriter for the contracts. ING Financial Advisers, LLC, a Delaware limited liability company, is registered as a broker-dealer with the SEC. ING Financial Advisers, LLC is also a member of FINRA and the Securities Investor Protection Corporation ("SIPC"). ING Financial Advisers, LLC's principal office is located at One Orange Way, Windsor, Connecticut 06095-4774.

We sell the contracts through licensed insurance agents who are registered representatives of broker-dealers that have entered into selling agreement with ING Financial Advisers, LLC. We refer to these broker-dealers as "distributors." The following distributors are affiliated with the Company and have entered into selling agreements with ING Financial Advisers, LLC for the sale of our variable annuity contracts:

- ING Financial Partners, Inc.
- Systematized Benefits Administrators, Inc.

Registered representatives of distributors who solicit sales of the contracts typically receive a portion of the compensation paid to the distributor in the form of commissions or other compensation, depending upon the agreement between the distributor and the registered representative. This compensation, as well as other incentives or payments, is not paid directly by contract holders or the separate account, but instead is paid by us through ING Financial Advisers, LLC. We intend to recoup this compensation and other sales expenses paid to distributors through fees and charges imposed under the contracts.

Compensation Arrangements. Registered representatives who offer and sell the contracts may be paid a commission. The commissions paid on transferred assets and recurring payments made during the first year of the participant account range from 0% to 7%. After the first year of the participant account, renewal commissions up to 3% may be paid on recurring payments up to the amount of the previous year's payments, and commissions of up to 7% may be paid on recurring payments in excess of this amount. In addition, the Company may pay an asset-based commission ranging up to 0.50%.

We may also pay ongoing annual compensation of up to 40% of the commissions paid during the year in connection with certain premiums received during that year, if the registered representative attains a certain threshold of sales of Company contracts. Individual registered representatives may receive all or a portion of compensation paid to their distributor, depending upon the firm's practices. Commissions and annual payments, when combined, could exceed 7% of total premium payments. In certain situations, we may reduce the compensation we pay if we have agreed with a plan sponsor to reimburse expenses related to the services of the plan's third party administrator. To the extent permitted by SEC and FINRA rules and other applicable laws and regulations, we may also pay or allow other promotional incentives or payments in the form of cash payments or other compensation to distributors, which may require the registered representative to attain a certain threshold of sales of Company products. Under one such program, we may pay additional amounts to distributors in connection with a participant's increased or re-started contributions and/or the number of participant enrollments completed by a registered representative during a specified time period. These other promotional incentives or payments may not be offered to all distributors, and may be limited only to ING Financial Partners, Inc. and other distributors affiliated with the Company.

We may also enter into special compensation arrangements with certain distributors based on those firms' aggregate or anticipated sales of the contracts or other criteria. These arrangements may include commission specials, in which additional commissions may be paid in connection with premium payments received for a limited time period, within the maximum commission rates noted above. These special compensation arrangements will not be offered to all distributors, and the terms of such arrangements may differ among distributors based on various factors. These special compensation arrangements may also be limited only to ING Financial Partners, Inc and other distributors affiliated with the Company. Any such compensation payable to a distributor will not result in any additional direct charge to you by us.

Some sales personnel may receive various types of non-cash compensation as special sales incentives, including trips, and we may also pay for some sales personnel to attend educational and/or business seminars. Any such compensation will be paid in accordance with SEC and FINRA rules. Management personnel of the Company, and of its affiliated broker-dealers, may receive additional compensation if the overall amount of investments in funds advised by the Company or its affiliates meets certain target levels or increases over time. Compensation for certain management personnel, including sales management personnel, may be enhanced if management personnel meet or exceed goals for sales of the contracts, or if the overall amount of investments in the contracts and other products issued or advised by the Company or its affiliates increases over time. Certain sales management personnel may also receive compensation that is a specific percentage of the commissions paid to distributors or of purchase payments received under the contracts, or which may be a flat dollar amount that varies based upon other factors, including management's ability to meet or exceed service requirements, sell new contracts or retain existing contracts, or sell additional service features such as a common remitting program.

In addition to direct cash compensation for sales of contracts described above, through ING Financial Advisers, LLC, we may also pay distributors additional compensation or reimbursement of expenses for their efforts in selling contracts to you and other customers. These amounts may include:

- Marketing/distribution allowances that may be based on the percentages of purchase payments received, the aggregate commissions paid and/or the aggregate assets held in relation to certain types of designated insurance products issued by the Company and/or its affiliates during the year;
- Loans or advances of commissions in anticipation of future receipt of purchase payments (a form of lending to registered representatives). These loans may have advantageous terms, such as reduction or elimination of the interest charged on the loan and/or forgiveness of the principal amount of the loan, which may be conditioned on sales;
- Education and training allowances to facilitate our attendance at certain educational and training meetings to provide information and training about our products. We also hold training programs from time to time at our own expense;
- Sponsorship payments or reimbursements for distributors to use in sales contests and/or meetings for their registered representatives who sell our products. We do not hold contests based solely on sales of this product;
- Certain overrides and other benefits that may include cash compensation based on the amount of earned commissions, representative recruiting or other activities that promote the sale of contracts; and
- Additional cash or noncash compensation and reimbursements permissible under existing law. This may include, but is not limited to, cash incentives, merchandise, trips, occasional entertainment, meals and tickets to sporting events, client appreciation events, business and educational enhancement items, payment for travel expenses (including meals and lodging) to pre-approved training and education seminars, and payment for advertising and sales campaigns.

We pay dealer concessions, wholesaling fees, overrides, bonuses, other allowances and benefits and the costs of all other incentives or training programs from our resources, which include the fees and charges imposed under the contracts.

The following is a list of the top 25 distributors that, during 2010, received the most compensation, in the aggregate, from us in connection with the sale of registered variable annuity contracts issued by the Company, ranked by total dollars received:

- | | |
|--|--|
| • LPL Financial Corporation | • Cadaret, Grant & Co., Inc. |
| • Symetra Investment Services, Inc. | • Financial Telesis Inc./Jhw Financial Services Inc. |
| • ING Financial Partners, Inc. | • Lincoln Investment Planning, Inc. |
| • American Portfolios Financial Services, Inc. | • Wells Fargo & Company |
| • NIA Securities, L.L.C. | • Multi-Financial Securities Corporation |
| • Morgan Stanley Smith Barney LLC | • M Holdings Securities, Inc. |
| • SagePoint Financial, Inc. | • NRP Financial, Inc. |
| • Valor Insurance Agency Inc. | • UVEST Financial Services Group, Inc. |
| • Lincoln Financial Group | • Securities America, Inc. |
| • Financial Network Investment Corporation | • National Planning Corporation |
| • Walnut Street Securities, Inc. [®] | • Royal Alliance Associates, Inc. |
| • NFP Securities, Inc. | • Woodbury Financial Services, Inc. |
| • Morgan Keegan and Company, Inc. | |

If the amounts paid to ING Financial Advisers, LLC were included, ING Financial Advisers, LLC would be first on the list.

This is a general discussion of the types and levels of compensation paid by us for the sale of our variable annuity contracts. It is important for you to know that the payment of volume or sales-based compensation to a distributor or registered representative may provide that registered representative a financial incentive to promote our contracts over those of another company, and may also provide a financial incentive to promote one of our contracts over another.

The names of the distributor and the registered representative responsible for your account are stated in your enrollment materials.

The Agreement between the Oregon Education Association (“OEA”) and the Company

Effective December 28, 2009, the Company and the OEA entered into an agreement in which the OEA agreed to endorse, and facilitate OEA members’ access to, the Company’s variable annuity.

Pursuant to the Agreement, the Company agrees:

- To reimburse OEA up to \$4,000 per year for the expenses of an outside consultant hired by OEA to review and monitor the competitiveness and performance of the Company’s variable annuity;
- To develop and provide custom marketing materials and seminars, in addition to the normal and customary expenditures associated with the distribution and marketing of its products and services, to support OEA member education;
- To develop a statewide program to educate OEA’s membership about the Oregon PERS program by utilizing its established network of representatives across the State. While one goal of the registered representative’s efforts to educate OEA’s membership about the Oregon PERS program is financial education, it is expected that the efforts of these representatives would result, indirectly, in additional enrollment in the Company’s variable annuity; and
- To pay for the costs of meeting rooms and appropriate refreshments for financial seminars and other presentations that the Company conducts.

The Company may also from time to time contribute to the costs incurred by OEA in sponsoring certain union and OEA Board member functions that Company personnel are permitted to attend, although the Agreement between OEA and the Company does not obligate the Company to make any such payments. The Company’s payments for such functions have typically not exceeded \$20,000 in recent years.

Third Party Compensation Arrangements. Please be aware that:

- The Company may seek to promote itself and the contracts by sponsoring or contributing to events sponsored by various associations, professional organizations and labor organizations;
- The Company may make payments to associations and organizations, including labor organizations, which endorse or otherwise recommend the contracts to their membership. If an endorsement is a factor in your contract purchasing decision, more information on the payment arrangement, if any, is available upon your request; and
- At the direction of the contract holder, the Company may make payments to the contract holder, its representatives or third party service providers intended to defray or cover the costs of plan or program-related administration.

TAX CONSIDERATIONS

In this Section:

- **Introduction;**
- **Taxation of Qualified Contracts;**
- **Possible Changes in Taxation; and**
- **Taxation of the Company**

When consulting a qualified tax adviser, be certain that he or she has expertise in the Tax Code sections applicable to your tax concerns.

Introduction

The contract described in this prospectus is designed to be treated as an annuity for U.S. federal income tax purposes. This section discusses our understanding of current federal income tax laws affecting the contract. The U.S. federal income tax treatment of the contract is complex and sometimes uncertain. You should keep the following in mind when reading this section:

- Your tax position (or the tax position of the designated beneficiary, as applicable) may influence the federal taxation of amounts held or paid out under the contract;
- Tax laws change. It is possible that a change in the future could affect contracts issued in the past, including the contract described in this prospectus;
- This section addresses some, but not all, applicable federal income tax rules and does not discuss federal estate and gift tax implications, state and local taxes or any other tax provisions; and
- No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of those set forth below.

We do not intend this information to be tax advice. No attempt is made to provide more than a general summary of information about the use of the contract with tax-qualified retirement arrangements, and the Tax Code may contain other restrictions and conditions that are not included in this summary. You should consult with a qualified tax adviser for advice about the effect of federal income tax laws, state tax laws or any other tax laws affecting the contract or any transactions involving the contract.

Taxation of Qualified Contracts

Qualified Contracts

The contract described in this prospectus may be purchased on a tax-qualified basis (qualified contracts).

Qualified Contracts. Qualified contracts are designed for use by individuals and/or employers whose premium payments are comprised solely of proceeds from and/or contributions under retirement plans or programs that are intended to qualify as plans or programs entitled to special favorable income tax treatment under sections 401(a), 401(k), 403(a), 403(b), or 457 of the Tax Code. Qualified contracts may also be offered in connection with qualified governmental excess benefit plans under Tax Code section 415(m), deferred compensation plans under Tax Code section 457(f), and bona fide severance pay plans under Tax Code section 457(e). **Employers or individuals intending to use the contract with such plans should seek qualified legal advice.**

Roth Accounts. Tax Code section 402A allows employees of certain private employers offering 401(k) plans, employees of public schools and certain Tax Code section 501(c)(3) organizations offering 403(b) plans, and employees of certain governmental employers offering 457(b) plans to contribute after-tax salary contributions to a Roth 401(k), Roth 403(b) and Roth 457(b) account, respectively. Roth accounts provide for tax-free distributions, subject to certain conditions and restrictions. If permitted under the plan for which the contract is issued, we will set up one or more accounts for you under the contract for Roth after-tax contributions and the portion of any transfer or rollover attributable to such amounts.

Eligible Retirement Plans and Programs. The contract may be purchased with the following retirement plans and programs to accumulate retirement savings:

- Sections 401(a), 401(k) and 403(a) of the Tax Code permit certain employers to establish various types of retirement plans for employees, and permit self-employed individuals to establish these plans for themselves and their employees;
- Section 403(b) of the Tax Code allows employees of certain Tax Code section 501(c)(3) organizations and public schools to exclude from their gross income the premium payments made, within certain limits, to a contract that will provide an annuity for the employee's retirement;
- Section 415(m) of the Tax Code permits certain employers to provide a qualified governmental excess benefit arrangement, which may be subject to the same requirements as those applied to Tax Code section 457(b) plans. If the Tax Code section 415(m) arrangement is not designed to meet the requirements of Tax Code section 457(b), then the amounts provided under the contract are taxed in accordance with Tax Code section 451 and are generally taxable when paid or made available to you. **There is no further information regarding 415(m) arrangements in this prospectus;**
- Section 457 of the Tax Code permits certain employers to offer deferred compensation plans for their employees. These plans may be offered by state governments, local governments, political subdivisions, agencies, instrumentalities and certain affiliates of such entities (governmental employers), as well as non-governmental, tax-exempt organizations (non-governmental employers). A 457 plan may be either a 457(b) (eligible) plan or a 457(f) (ineligible) plan. Participation in a 457(b) plan maintained by a non-governmental employer is generally limited to highly-compensated employees and select management (other than 457(b) plans maintained by nonqualified, church-controlled organizations). Generally, participants may specify the form of investment for their deferred compensation account; and
- Section 457(e)(11) of the Tax Code permits an employer to establish a bona fide severance payment plan and amounts payable under the contract used with such a plan are not generally taxable until paid or made available to you. However, because these plans are not clearly defined in the Tax Code, it may be determined that your plan does not qualify as a bona fide severance pay plan. If the plan does not qualify, then amounts provided under the contract are taxable in the year in which they are deferred. Because of this lack of clarity, it is imperative that you consult a qualified tax adviser for guidance regarding taxation. **There is no further information regarding bona fide severance pay plans in this prospectus.**

Special Considerations for Section 403(b) Plans. In addition to being offered as an investment option under the contract, shares of certain funds are also offered for sale directly to the general public. A list of these funds is provided in the "Investment Options" section of this prospectus under the heading "Additional Risks of Investing in the Funds - Public Funds." In order to qualify for favorable tax treatment under Tax Code section 403(b), a contract must be considered an "annuity." In Revenue Procedure 99-44, the IRS concluded that it will treat a contract as an annuity for federal income tax purposes under Tax Code section 403(b), notwithstanding that contract premiums are invested at the contract owner's direction in publicly available securities. This treatment will be available provided no additional tax liability would have been incurred if the contribution was paid into a trust or a custodial account in an arrangement that satisfied the requirements of Tax Code section 401(a) or 403(b)(7)(A). We believe that the contract satisfies the requirements set forth in Revenue Procedure 99-44 and will therefore be treated as an annuity for tax purposes, notwithstanding the fact that investments may be made in publicly available securities. However, the exact nature of the requirements of Revenue Procedure 99-44 are unclear, and you should consider consulting with a qualified tax adviser before electing to invest in a fund that is offered for sale to the general public through a contract issued in relation to a 403(b) plan.

Revenue Procedure 99-44 does not specifically address the use of publicly available securities in annuity contracts designed for use as a Roth 403(b). However, we believe that under this analysis such investment should not impact the treatment of such contracts as annuity contracts for purposes of Tax Code section 403(b). You should consider consulting with a qualified tax adviser before electing to invest in a fund that is offered for sale to the general public through a contract issued in relation to a Roth 403(b) account.

Special Considerations for Section 457 Plans. Under 457(b) plans of non-governmental employers and 457(f) plans, all amounts of deferred compensation, all property and rights purchased with such amounts and all income attributable to such amounts, property and rights remain solely the property and rights of the employer and are subject to the claims of the employer's general creditors. 457(f) plans must also contain a "substantial risk of forfeiture" in order to defer taxation of contributions and earnings. Generally, a substantial risk of forfeiture means that your right to receive deferred compensation is dependent upon your performance of future services to an employer or other entity. 457(b) plans of governmental employers, on the other hand, are required to hold all assets and income of the plan in trust for the exclusive benefit of plan participants and their beneficiaries. For purposes of meeting this requirement, an annuity contract is treated as a trust.

Taxation

The tax rules applicable to owners of qualified contracts vary according to the type of qualified contract and the specific terms and conditions of the qualified contract. The ultimate effect of federal income taxes on the amounts held under a qualified contract, or on income phase payments from a qualified contract, depends on the type of qualified contract or program and your tax position. Special favorable tax treatment may be available for certain types of contributions and distributions. In addition, certain requirements must be satisfied in purchasing a qualified contract with proceeds from a tax-qualified plan or program in order to continue receiving favorable tax treatment.

Adverse tax consequences may result from:

- Contributions in excess of specified limits;
- Distributions before age 59½ (subject to certain exceptions);
- Distributions that do not conform to specified commencement and minimum distribution rules; and
- Other specified circumstances.

Some qualified plans and programs are subject to additional distribution or other requirements that are not incorporated into the contract described in this prospectus. No attempt is made to provide more than general information about the use of the contract with qualified plans and programs. Contract holders, participants, annuitants, and beneficiaries are cautioned that the rights of any person to any benefit under these qualified plans and programs may be subject to the terms and conditions of the plans themselves, regardless of the terms and conditions of the contract. The Company is not bound by the terms and conditions of such plans to the extent such terms contradict the language of the contract, unless we consent to be so bound.

Generally, contract holders, participants, and beneficiaries are responsible for determining that contributions, distributions and other transactions with respect to the contract comply with applicable law. **Therefore, you should seek qualified legal and tax advice regarding the suitability of a contract for your particular situation.** The following discussion assumes that qualified contracts are purchased with proceeds from and/or contributions under retirement plans or programs that qualify for the intended special federal tax treatment.

Tax Deferral. Under federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of a qualified plan (as defined in this prospectus), an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the qualified plan itself. Annuities do provide other features and benefits (such as the guaranteed death benefit or the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with a qualified financial representative taking into account the additional fees and expenses you may incur in an annuity.

Contributions

In order to be excludable from gross income for federal income tax purposes, total annual contributions to certain qualified plans are limited by the Tax Code. We provide general information on these requirements for certain plans below. You should consult with a qualified tax adviser in connection with contributions to a qualified contract.

401(a), 401(k), Roth 401(k), 403(a), 403(b) and Roth 403(b) Plans. The total annual contributions (including pre-tax and Roth 401(k) or Roth 403(b) after-tax contributions) by you and your employer cannot exceed, generally, the lesser of 100% of your compensation or \$49,000 (as indexed for 2011). Compensation means your compensation for the year from the employer sponsoring the plan and, for years beginning after December 31, 1997, includes any elective deferrals under Tax Code section 402(g) and any amounts not includible in gross income under Tax Code sections 125 or 457.

This limit applies to your contributions as well as to any contributions made by your employer on your behalf. An additional requirement limits your salary reduction contributions to a 401(k), Roth 401(k), 403(b) or Roth 403(b) plan to generally no more than \$16,500. Contribution limits are subject to annual adjustments for cost-of-living increases. Your own limit may be higher or lower, depending upon certain conditions.

With the exception of the Roth 401(k) and Roth 403(b) contributions, purchase payments to your account(s) will generally be excluded from your gross income only if the plan meets certain nondiscrimination requirements, as applicable. Roth 401(k) and Roth 403(b) salary reduction contributions are made on an after-tax basis.

457(b) and Roth 457(b) Plans. The total annual contributions (including pre-tax and Roth 457(b) after-tax salary reduction contributions) made by you and your employer to a 457(b) or Roth 457(b) plan cannot exceed, generally, the lesser of 100% of your includible compensation or \$16,500 (as indexed for 2011). Generally, includible compensation means your compensation for the year from the employer sponsoring the plan, including deferrals to the employer's Tax Code section 401(k), Roth 401(k), 403(b), Roth 403(b) and 125 cafeteria plans in addition to any deferrals to the 457(b) or Roth 457(b) plan.

The \$16,500 limit is subject to an annual adjustment for cost-of-living increases.

Catch-up Contributions. Notwithstanding the contribution limits noted above, if permitted by the plan, a participant in a 401(k), Roth 401(k), 403(b), Roth 403(b), 457(b) or a Roth 457(b) plan of a governmental employer who is at least age 50 by the end of the plan year may contribute an additional amount not to exceed the lesser of:

- \$5,500; or
- The participant's compensation for the year reduced by any other elective deferrals of the participant for the year.

Additional catch-up special provisions may be available for 457(b) Plans. For advice on using a catch-up provision, please consult with a qualified tax adviser.

Distributions - General

Certain tax rules apply to distributions from the contract. A distribution is any amount taken from a contract including withdrawals, income phase payments, rollovers, exchanges and death benefit proceeds. We report the taxable portion of all distributions to the IRS.

401(a), 401(k), 403(a), 403(b) and Governmental 457(b) Plans. Distributions from these plans are taxed as received unless one of the following is true:

- The distribution is an eligible rollover distribution and is rolled over to another plan eligible to receive rollovers or to a traditional or Roth IRA in accordance with the Tax Code;
- You made after-tax contributions to the plan. In this case, depending upon the type of distribution, the amount will be taxed according to the rules detailed in the Tax Code; or
- The distribution is a qualified health insurance premium of a retired public safety officer as defined in the Pension Protection Act of 2006.

A distribution is an eligible rollover distribution unless it is:

- Part of a series of substantially equal periodic payments (at least one per year) made over the life expectancy of the participant or the joint life expectancy of the participant and his designated beneficiary or for a specified period of ten years or more;
- A required minimum distribution under Tax Code section 401(a)(9);
- A hardship withdrawal;
- Otherwise excludable from income; or
- Not recognized under applicable regulations as eligible for rollover.

457(f) Plans. Compensation deferred under a 457(f) plan is includible in gross income in the first year in which it is no longer subject to a “substantial risk of forfeiture” as defined under Tax Code section 457(f), or required to be includible under Tax Code section 409A. If the requirements of Tax Code section 409A are not met, affected participants covered by the plan will be subject to:

- Income tax inclusion on the deferred amounts, retroactive to the date of the original deferral (or if later, that date on which the deferred compensation was no longer subject to a substantial risk of forfeiture),
- Interest at the underpayment rate plus one percent on the underpayments, and
- An additional penalty tax equal to 20% of the amount included in income.

10% Penalty Tax. The Tax Code imposes a 10% penalty tax on the taxable portion of any distribution from a contract used with a 401(a), 401(k), 403(a) or 403(b) plan (or amounts from a governmental 457(b) plan that are attributable to rollovers from such plans) unless certain exceptions, including one or more of the following, have occurred:

- You have attained age 59½;
- You have become disabled, as defined in the Tax Code;
- You have died and the distribution is to your beneficiary;
- You have separated from service with the sponsor at or after age 55;
- The distribution amount is rolled over into another eligible retirement plan or to a traditional or Roth IRA in accordance with the terms of the Tax Code;
- You have separated from service with the plan sponsor and the distribution amount is made in substantially equal periodic payments (at least annually) over your life or the life expectancy or the joint lives or joint life expectancies of you and your designated beneficiary;
- The distribution is made due to an IRS levy upon your plan;
- The withdrawal amount is paid to an alternate payee under a Qualified Domestic Relations Order (“QDRO”); or
- The distribution is a qualified reservist distribution as defined under the Pension Protection Act of 2006 (401(k) and 403(b) plans only).

In addition, the 10% penalty tax does not apply to the amount of a distribution equal to unreimbursed medical expenses incurred by you during the taxable year that qualify for deduction as specified in the Tax Code. The Tax Code may provide other exceptions or impose other penalty taxes in other circumstances.

Qualified Distributions - Roth 401(k), Roth 403(b) and Roth 457(b). A partial or full distribution of purchase payments to a Roth 401(k), Roth 403(b) and Roth 457(b) account and earnings credited on those purchase payments (or of in-plan rollover amounts and earnings credited on those amounts, as described in the “In-Plan Roth Rollovers” section below) will be excludable from income if it is a qualified distribution. A “qualified distribution” from a Roth 401(k), Roth 403(b) and Roth 457(b) account is defined as a distribution that meets the following requirements:

- The distribution occurs after the five-year taxable period measured from the earlier of:
 - ▷ The first taxable year you made a designated Roth contribution to any designated Roth account established for you under the same applicable retirement plan as defined in Tax Code section 402A;
 - ▷ If a rollover contribution was made from a designated Roth account previously established for you under another applicable retirement plan, the first taxable year for which you made a designated Roth contribution to such previously established account; or
 - ▷ The first taxable year in which you made an in-plan Roth rollover of vested non-Roth amounts otherwise eligible for distribution under the same plan; and
- The distribution occurs after you attain age 59½, die with payment being made to your beneficiary, or become disabled as defined in the Tax Code.

A distribution from a Roth account that is not a qualified distribution is includible in gross income under the Tax Code in proportion to your investment in the contract (basis) and earnings on the contract.

Distributions - Eligibility

401(a) Pension Plans. Subject to the terms of your 401(a) pension plan, distributions may only occur upon your:

- Retirement;
- Death;
- Disability;
- Severance from employment;
- Attainment of normal retirement age;
- Attainment of age 62 under a phased retirement provision if available under your plan as described in the Pension Protection Act of 2006; or
- In some instances, termination of the plan.

Such distributions remain subject to other applicable restrictions under the Tax Code.

401(k) and Roth 401(k) Plans. Subject to the terms of your 401(k) plan, distributions from your 401(k) or Roth 401(k) employee account, and possibly all or a portion of your 401(k) or Roth 401(k) employer account, may only occur upon your:

- Retirement;
- Death;
- Attainment of age 59½;
- Severance from employment;
- Disability;
- Financial hardship; or
- In some instances, termination of the plan.

Such distributions remain subject to other applicable restrictions under the Tax Code.

403(b) and Roth 403(b) Plans. Distribution of certain salary reduction contributions and earnings on such contributions restricted under Tax Code section 403(b)(11) may only occur upon your:

- Death;
- Attainment of age 59½;
- Severance from employment;
- Disability;
- Financial hardship; or
- Met other circumstances as allowed by federal law, regulations or rulings.

Such distributions remain subject to other applicable restrictions under the Tax Code.

Effective January 1, 2009 and for any contracts or participant accounts established on or after that date, 403(b) regulations prohibit the distribution of amounts attributable to employer contributions before the earlier of your severance from employment or prior to the occurrence of some event as provided under your employer's plan, such as after a fixed number of years, the attainment of a stated age, or a disability.

If the Company agrees to accept amounts exchanged from a Tax Code section 403(b)(7) custodial account, such amounts will be subject to the withdrawal restrictions set forth in Tax Code section 403(b)(7)(A)(ii).

457(b) and Roth 457(b) Plans. Under 457(b) and Roth 457(b) plans, distributions may not be made available to you earlier than:

- The calendar year you attain age 70½;
- When you experience a severance from employment; or
- When you experience an unforeseeable emergency.

A one-time in-service distribution may also be permitted if the total amount payable to the participant does not exceed \$5,000 and no amounts have been deferred by the participant during the two-year period ending on the date of distribution.

457(f) Plans. Amounts deferred under Tax Code section 457(f) plans on or after January 1, 2005 must meet the requirements of the Tax Code section 409A, which includes standards for deferral elections, restrictions on subsequent elections regarding the time and form of payment, and a prohibition on accelerating payment. It also allows distributions only upon the occurrence of the following specified events:

- Separation from service;
- Disability;
- Death;
- Payment at a specified time (or under a fixed schedule) determined at the date that the deferral is made;
- Change in control or ownership of the sponsoring employer; or
- Unforeseeable emergency.

Amounts deferred under 457(f) plans prior to January 1, 2005 may be eligible for “grandfathering” from the requirements of Tax Code section 409A, if certain requirements are met.

Lifetime Required Minimum Distributions (401(a), 401(k), Roth 401(k), 403(a), 403(b), Roth 403(b), 457(b) and Roth 457(b) Plans)

To avoid certain tax penalties, you and any designated beneficiary must also meet the minimum distribution requirements imposed by the Tax Code. These rules dictate the following:

- Start date for distributions;
- The time period in which all amounts in your contract(s) must be distributed; and
- Distribution amounts.

Start Date. Generally, you must begin receiving distributions by April 1 of the calendar year following the calendar year in which you attain age 70½ or retire, whichever occurs later, unless:

- Under 401(a), 401(k) and governmental 457(b) plans, you are a 5% owner, in which case such distributions must begin by April 1 of the calendar year following the calendar year in which you attain age 70½; or
- Under 403(b) plans, the Company maintains separate records of amounts held as of December 31, 1986. In this case distribution of these amounts generally must begin by the end of the calendar year in which you attain age 75 or retire, if later. However, if you take any distributions in excess of the minimum required amount, then special rules require that the excess be distributed from the December 31, 1986 balance.

Time Period. We must pay out distributions from the contract over a period not extending beyond one of the following time periods:

- Over your life or the joint lives of you and your designated beneficiary; or
- Over a period not greater than your life expectancy or the joint life expectancies of you and your designated beneficiary.

Distribution Amounts. The amount of each required minimum distribution must be calculated in accordance with Tax Code section 401(a)(9). The entire interest in the account includes the amount of any outstanding rollover, transfer, recharacterization, if applicable, and the actuarial present value of other benefits provided under the account, such as guaranteed death benefits.

50% Excise Tax. If you fail to receive the required minimum distribution for any tax year, a 50% excise tax may be imposed on the required amount that was not distributed.

Further information regarding required minimum distributions may be found in your contract or certificate.

Required Distributions upon Death (401(a), 401(k), Roth 401(k), 403(a), 403(b), Roth 403(b), 457(b) and Roth 457(b) Plans)

Different distribution requirements apply after your death, depending upon if you have begun receiving required minimum distributions. Further information regarding required distributions upon death may be found in your contract or certificate.

If your death occurs on or after the date you begin receiving minimum distributions under the contract, distributions generally must be made at least as rapidly as under the method in effect at the time of your death. Tax Code section 401(a)(9) provides specific rules for calculating the minimum required distributions after your death.

If your death occurs before the date you begin receiving minimum distributions under the contract, your entire balance must be distributed by December 31 of the calendar year containing the fifth anniversary of the date of your death. For example, if you died on September 1, 2010, your entire balance must be distributed to the designated beneficiary by December 31, 2015. However, if distributions begin by December 31 of the calendar year following the calendar year of your death, then payments may be made within one of the following timeframes:

- Over the life of the designated beneficiary; or
- Over a period not extending beyond the life expectancy of the designated beneficiary.

Start Dates for Spousal Beneficiaries. If the designated beneficiary is your spouse, distributions must begin on or before the later of the following:

- December 31 of the calendar year following the calendar year of your death; or
- December 31 of the calendar year in which you would have attained age 70½.

No Designated Beneficiary. If there is no designated beneficiary, the entire interest generally must be distributed by the end of the calendar year containing the fifth anniversary of the contract holder's death.

Withholding

Any taxable distributions under the contract are generally subject to withholding. Federal income tax liability rates vary according to the type of distribution and the recipient's tax status.

401(a), 401(k), Roth 401(k), 403(a), 403(b), Roth 403(b), 457(b) and Roth 457(b) Plans of Governmental Employers. Generally, distributions from these plans are subject to a mandatory 20% federal income tax withholding. However, mandatory withholding will not be required if you elect a direct rollover of the distributions to an eligible retirement plan or in the case of certain distributions described in the Tax Code.

457(b) Plans of Non-Governmental Employers and 457(f) Plans. All distributions from these plans, except death benefit proceeds, are subject to mandatory federal income tax withholding as wages. No withholding is required on payments to designated beneficiaries.

Non-resident Aliens. If you or your designated beneficiary is a non-resident alien, any withholding is governed by Tax Code section 1441 based on the individual's citizenship, the country of domicile and treaty status. Section 1441 does not apply to participants in 457(b) plans of non-governmental employers and 457(f) plans, and we may require additional documentation prior to processing any requested distribution.

In-Plan Roth Rollovers

Tax Code section 401(k), 403(b) and governmental 457(b) plans may add a "qualified Roth contribution program," under which employees can forego the current exclusion from gross income for elective deferrals, in exchange for the future exclusion of the distribution of the deferrals and any earnings thereon. That is, participants may elect to make non-excludable contributions to "designated Roth accounts" (instead of making excludable contributions) - and to exclude from gross income (if certain conditions are met) distributions from these accounts (instead of having distributions included in gross income).

If permitted under the plan for which the contract is issued and provided the plan offers an applicable Roth account (a Roth 401(k), Roth 403(b) or Roth 457(b) account), vested non-Roth amounts otherwise eligible for distribution may be rolled over into a corresponding Roth account within the same plan. The Tax Code provides that, generally, an in-plan rollover to a Roth account is taxable and includable in gross income in the year the rollover occurs, just as if the amount were distributed and not rolled into a qualified account. Amounts rolled-over into an in-plan Roth account cannot subsequently be converted back into a non-Roth account.

A partial or full distribution of in-plan Roth rollover amounts and earnings credited on those amounts (or of purchase payments made by salary reduction to a Roth account and earnings credited on those purchase payments, as described above) will be excludable from income if it is a qualified distribution as defined in the "Qualified Distributions - Roth 401(k), Roth 403(b) and Roth 457(b)" section above.

In-plan Roth rollovers are not subject to the 10% additional tax on early distributions under Code section 72(t) that would normally apply to distributions from a 401(k) or 403(b) plan (or from a governmental 457(b) plan to the extent such amounts are attributable to rollovers from a 401(a), 401(k), 403(a) or 403(b) plan). However, a special recapture rule applies when a plan distributes any part of the in-plan Roth rollover within a five-year taxable period, making the distribution subject to the 10% additional tax on early distributions under Tax Code section 72(t) unless an exception to this tax applies or the distribution is allocable to any nontaxable portion of the in-plan Roth rollover. The five-year taxable period begins January 1 of the year of the in-plan Roth rollover and ends on the last day of the fifth year of the period. This special recapture rule does not apply when the participant rolls over the distribution to another designated Roth account or to a Roth IRA but does apply to a subsequent distribution from the rolled over account or Roth IRA within the five-year taxable period.

The tax rules associated with Roth accounts and in-plan Roth rollovers can be complex and you should seek qualified legal and tax advice regarding your particular situation.

Assignment and Other Transfers

401(a), 401(k), Roth 401(k), 403(a), 403(b), Roth 403(b), 457(b) and Roth 457(b) Plans. Adverse tax consequences to the plan and/or to you may result if your beneficial interest in the contract is assigned or transferred to persons other than:

- A plan participant as a means to provide benefit payments;
- An alternate payee under a QDRO in accordance with Tax Code section 414(p); or
- The Company as collateral for a loan.

Same-Sex Marriages

Pursuant to Section 3 of the federal Defense of Marriage Act (“DOMA”), same-sex marriages currently are not recognized for purposes of federal law. Therefore, the favorable income-deferral options afforded by federal tax law to an opposite-sex spouse under Tax Code sections 72(s) and 401(a)(9) are currently NOT available to a same-sex spouse. Same-sex spouses who own or are considering the purchase of annuity products that provide benefits based upon status as a spouse should consult a tax adviser. In some states, to the extent that an annuity contract or certificate accords to spouses other rights or benefits that are not affected by DOMA, same-sex spouses remain entitled to such rights or benefits to the same extent as any contract holder’s spouse.

Possible Changes in Taxation

Although the likelihood of changes in tax legislation, regulation, rulings and other interpretation thereof is uncertain, there is always the possibility that the tax treatment of the contract could change by legislation or other means. It is also possible that any change could be retroactive (that is, effective before the date of the change). You should consult a qualified tax adviser with respect to legislative developments and their effect on the contract.

Taxation of the Company

We are taxed as a life insurance company under the Tax Code. Variable Annuity Account C is not a separate entity from us. Therefore, it is not taxed separately as a “regulated investment company” but is taxed as part of the Company.

We automatically apply investment income and capital gains attributable to the separate account to increase reserves under the contracts. Because of this, under existing federal tax law we believe that any such income and gains will not be taxed to the extent that such income and gains are applied to increase reserves under the contracts. In addition, any foreign tax credits attributable to the separate account will be first used to reduce any income taxes imposed on the separate account before being used by the Company.

In summary, we do not expect that we will incur any federal income tax liability attributable to the separate account, and we do not intend to make any provision for such taxes. However, changes in federal tax laws and/or their interpretation thereof may result in our being taxed on income or gains attributable to the separate account. In this case we may impose a charge against the separate account (with respect to some or all of the contracts) to set aside provisions to pay such taxes. We may deduct this amount from the separate account, including from your contract value invested in the subaccounts.

OTHER TOPICS

Anti-Money Laundering

In order to protect against the possible misuse of our products in money laundering or terrorist financing, we have adopted an anti-money laundering program satisfying the requirements of the USA PATRIOT Act and other current anti-money laundering laws. Among other things, this program requires us, our agents and customers to comply with certain procedures and standards that will allow us to verify the identity of the sponsoring organization and that contributions and loan repayments are not derived from improper sources.

Under our anti-money laundering program, we may require customers, and/or beneficiaries to provide sufficient evidence of identification, and we reserve the right to verify any information provided to us by accessing information databases maintained internally or by outside firms.

We may also refuse to accept certain forms of payments or loan repayments (traveler's cheques, cashier's checks, bank drafts, bank checks and treasurer's checks, for example) or restrict the amount of certain forms of payments or loan repayments (money orders totaling more than \$5,000, for example). In addition, we may require information as to why a particular form of payment was used (third party checks, for example) and the source of the funds of such payment in order to determine whether or not we will accept it. Use of an unacceptable form of payment may result in us returning the payment to you.

Applicable laws designed to prevent terrorist financing and money laundering might, in certain circumstances, require us to block certain transactions until authorization is received from the appropriate regulator. We may also be required to provide additional information about you and your policy to government regulators.

Our anti-money laundering program is subject to change without notice to take account of changes in applicable laws or regulations and our ongoing assessment of our exposure to illegal activity.

Performance Reporting

We may advertise different types of historical performance for the subaccounts including:

- Standardized average annual total returns; and
- Non-standardized average annual total returns.

We may also advertise certain ratings, rankings or other information related to the Company, the subaccounts or the funds.

Standardized Average Annual Total Returns. We calculate standardized average annual total returns according to a formula prescribed by the SEC. This shows the percentage return applicable to \$1,000 invested in the subaccount over the most recent month-end, one, five and ten-year periods. If the investment option was not available for the full period, we give a history from the date money was first received in that option under the separate account or from the date the fund was first available under the separate account. As an alternative to providing the most recent month-end performance, we may provide a phone number, website or both where these returns may be obtained.

We include all recurring charges during each period (e.g., mortality and expense risk charges, annual maintenance fees, administrative expense charges (if any), and any applicable early withdrawal charges).

Non-Standardized Average Annual Total Returns. We calculate non-standardized average annual total returns in a similar manner as that stated above, except we may include returns that do not reflect the deduction of any applicable early withdrawal charge. Some non-standardized returns may also exclude the effect of a maintenance fee. If we reflected these charges in the calculation, they would decrease the level of performance reflected by the calculation. Non-standardized returns may also include performance from the fund's inception date, if that date is earlier than the one we use for standardized returns.

Voting Rights

Each of the subaccounts holds shares in a fund and each is entitled to vote at regular and special meetings of that fund. Under our current view of applicable law, we will vote the shares for each subaccount as instructed by persons having a voting interest in the subaccount. Generally, under contracts issued in connection with section 403(b), 401 or 403(a) plans, you have a fully vested interest in the value of your employee account, and in your employer account to the extent of your vested percentage in the plan. Therefore, under such plans you generally have the right to instruct the contract holder how to direct us to vote shares attributable to your account. Under contracts issued in connection with section 457 plans, the contract holder retains all voting rights. We will vote shares for which instructions have not been received in the same proportion as those for which we received instructions. Each person who has a voting interest in the separate account will receive periodic reports relating to the funds in which he or she has an interest, as well as any proxy materials and a form on which to give voting instructions. Voting instructions will be solicited by a written communication at least 14 days before the meeting.

The number of votes, whole and fractional, any person is entitled to direct will be determined as of the record date set by any fund in which that person invests through the subaccounts. Additionally:

- During the accumulation phase, the number of votes is equal to the portion of your account value invested in the fund, divided by the net asset value of one share of that fund; and
- During the income phase, the number of votes is equal to the portion of reserves set aside for the contract's share of the fund, divided by the net asset value of one share of that fund.

Contract Modification

We may change the contract as required by federal or state law. In addition, we may, upon 30 days' written notice to the contract holder, make other changes to group contracts that would apply only to individuals who become participants under that contract after the effective date of such changes. If the group contract holder does not agree to a change, we reserve the right to refuse to establish new accounts under the contract, and under some contracts, to discontinue accepting payments to existing accounts. Certain changes will require the approval of appropriate state or federal regulatory authorities.

We reserve the right to amend the contract to include any future changes required to maintain the contract (and the Roth 401(k), Roth 403(b) or Roth 457(b) accounts) as a designated Roth 403(b) or Roth 401(k) annuity contract (or account) under the Tax Code, regulations, IRS rulings and requirements.

In addition, under some contracts we reserve the right, without contract holder consent, to change the tables for determining the amount of income phase payments or the income phase payment options available. Such a change would only apply to income phase payments attributable to contributions accepted after the date of change.

Legal Matters and Proceedings

We are not aware of any pending legal proceedings which involve the separate account as a party.

The Company is involved in threatened or pending lawsuits/arbitrations arising from the normal conduct of business. Due to the climate in insurance and business litigation/arbitration, suits against the Company sometimes include claims for substantial compensatory, consequential, or punitive damages and other types of relief. Moreover, certain claims are asserted as class actions, purporting to represent a group of similarly situated individuals. While it is not possible to forecast the outcome of such lawsuits/arbitrations, in light of existing insurance, reinsurance, and established reserves, it is the opinion of management that the disposition of such lawsuits/arbitrations will not have a materially adverse effect on the Company's operations or financial position.

ING Financial Advisers, LLC, the principal underwriter and distributor of the contract, is a party to threatened or pending lawsuits/arbitration that generally arise from the normal conduct of business. Some of these suits may seek class action status and sometimes include claims for substantial compensatory, consequential or punitive damages and other types of relief. ING Financial Advisers, LLC is not involved in any legal proceeding that, in the opinion of management, is likely to have a material adverse effect on its ability to distribute the contract.

Payment Delay or Suspension

We reserve the right to suspend or postpone the date of any payment of benefits or values under the following circumstances:

- On any valuation date when the NYSE is closed (except customary weekend and holiday closings), or when trading on the NYSE is restricted;
- When an emergency exists as determined by the SEC so that disposal of securities held in the subaccounts is not reasonably practicable or it is not reasonably practicable to fairly determine the value of the subaccount's assets; or
- During any other periods the SEC may by order permit for the protection of investors.

The conditions under which restricted trading or an emergency exists shall be determined by the rules and regulations of the SEC.

Transfer of Ownership; Assignment

An assignment of a contract will only be binding on us if it is made in writing and sent to us at the address listed in “**Contract Overview - Questions: Contacting the Company.**” We will use reasonable procedures to confirm that the assignment is authentic, including verification of signature. If we fail to follow our own procedures, we will be liable for any losses to you directly resulting from the failure. Otherwise, we are not responsible for the validity of any assignment. The rights of the contract holder and the interest of the annuitant and any beneficiary will be subject to the rights of any assignee we have on our records.

Account Termination

Under some contracts, where allowed by state law, we reserve the right to terminate an individual account if the account value is less than \$5,000 (\$3,500 under some contracts, and \$1,999 for some contracts issued in New York), if this value is not due to negative investment performance, and if no purchase payments have been received within the previous twelve months (thirty-six months under some contracts issued in New York). In addition, for some contracts issued in New York, we may also terminate an individual account if the paid up annuity benefit is less than \$20 monthly. We will notify you or the contract holder 90 days prior to terminating the account. If we exercise this right we will not deduct an early withdrawal charge.

Intent to Confirm Quarterly

Under certain contracts, we will provide confirmation of scheduled transactions quarterly rather than immediately to the participant.

CONTENTS OF THE STATEMENT OF ADDITIONAL INFORMATION

The SAI contains more specific information on the Separate Account and the contract, as well as the financial statements of the Separate Account and the Company. A list of the contents of the SAI is set forth below:

• General Information and History	2
• Variable Annuity Account C	2
• Offering and Purchase of Contracts	2

• Financial Statements of the Separate Account	S-1
• Consolidated Financial Statements of ING Life Insurance and Annuity Company	C-1

You may request an SAI by calling the Company at the number listed in “**Contract Overview - Questions: Contacting the Company.**”

APPENDIX I

GUARANTEED ACCUMULATION ACCOUNT

The Guaranteed Accumulation Account is a fixed interest option that may be available during the accumulation phase under the contracts. Amounts allocated to the Guaranteed Accumulation Account will be deposited in a nonunitized separate account established by the Company. This Appendix is only a summary of certain facts about the Guaranteed Accumulation Account and does not include elements of the Guaranteed Accumulation Account that do not apply to the contracts offered through this prospectus. Please read the Guaranteed Accumulation Account prospectus before investing in this option. You may obtain a copy of the Guaranteed Accumulation Account prospectus by contacting us at the address or telephone number listed in “**Contract Overview: Questions - Contacting the Company.**”

General Disclosure. Amounts that you invest in the Guaranteed Accumulation Account will earn a guaranteed interest rate if amounts are left in the Guaranteed Accumulation Account for the specified period of time. If you withdraw or transfer those amounts before the specified period of time has elapsed, we may apply a “market value adjustment,” which may be positive or negative.

When you decide to invest money in the Guaranteed Accumulation Account, you will want to contact your local representative or the Company to learn:

- The interest rate we will apply to the amounts that you invest in the Guaranteed Accumulation Account. We change this rate periodically, so be certain you know what rate we guarantee on the day your account dollars are invested into the Guaranteed Accumulation Account.
- The period of time your account dollars need to remain in the Guaranteed Accumulation Account in order to earn that rate. You are required to leave your account dollars in the Guaranteed Accumulation Account for a specified period of time (guaranteed term), in order to earn the guaranteed interest rate.

Deposit Periods. A deposit period is the time during which we offer a specific interest rate if you deposit dollars for a certain guaranteed term. For a particular interest rate and guaranteed term to apply to your account dollars, you must invest them during the deposit period during which that rate and term are offered.

Interest Rates. We guarantee different interest rates, depending upon when account dollars are invested in the Guaranteed Accumulation Account. The interest rate we guarantee is an annual effective yield; that means that the rate reflects a full year’s interest. We credit interest daily at a rate that will provide the guaranteed annual effective yield over one year. The guaranteed interest rate will never be less than the rate stated in the contract.

Our guaranteed interest rates are influenced by, but do not necessarily correspond to, interest rates available on fixed income investments we may buy using deposits directed to Guaranteed Accumulation Account. We consider other factors when determining guaranteed interest rates including regulatory and tax requirements, sales commissions and administrative expenses borne by the Company, general economic trends, competitive factors, and whether an interest rate lock is being offered for that guaranteed term under certain contracts. **We make the final determination regarding guaranteed interest rates. We cannot predict the level of future guaranteed interest rates.**

Interest Rate Lock. Certain contracts (not including the contracts offered through this prospectus) may provide a 45 day interest rate lock in connection with external transfers into the Guaranteed Accumulation Account, which you must elect at the time you initiate the external transfer. Under this rate lock provision, we will deposit external transfers to the deposit period offering the greater of (a) and (b) where:

- (a) is the guaranteed interest rate for the deposit period in effect at the time we receive the rate lock election; and
- (b) is the guaranteed interest rate for the deposit period in effect at the time we receive an external transfer from your prior provider.

If provided for in the contract, this rate lock will be available to all external transfers received for 45 days from the date we receive a rate lock election. In the event we receive an external transfer after this 45 day time period, it will be deposited to the deposit period in effect at the time we receive the external transfer, and will earn the guaranteed interest rate for that guaranteed term. Only one rate lock may be in effect at one time per contract -- once a rate lock has been elected, that rate lock will apply to all external transfers received during that 45 day period, and you may not elect to begin a new rate lock period during that 45 day period.

Amounts subject to the rate lock will not be deposited until the external transfer has been received, and will not be credited interest until deposited. This could result in the deposit being credited interest for a shorter term than if a rate lock had not been elected.

The cost of providing a rate lock may be a factor we consider when determining the guaranteed interest rate for a deposit period, which impacts the guaranteed interest rate for all investors in that guaranteed term, including investors to whom the rate lock may not be available through their contract.

Fees and Other Deductions

If all or a portion of your account value in the Guaranteed Accumulation Account is withdrawn, you may incur the following:

- Market Value Adjustment (MVA) as described in this appendix and in the Guaranteed Accumulation Account prospectus;
- Tax Penalties and/or Tax withholding - See "TAX CONSIDERATIONS";
- Early Withdrawal Charge - See "FEES"; and/or
- Maintenance Fee - See "FEES."

We do not make deductions from amounts in the Guaranteed Accumulation Account to cover mortality and expense risks. Rather, we consider these risks when determining the credited rate.

Market Value Adjustment (MVA). If you withdraw or transfer your account value from the Guaranteed Accumulation Account before the guaranteed term is completed, an MVA may apply. The MVA reflects the change in the value of the investment due to changes in interest rates since the date of deposit. The MVA may be positive or negative. Generally:

- If interest rates at the time of withdrawal have increased since the date of deposit, the value of the investment decreases and the MVA will be negative. This could result in your receiving less than the amount you paid into the Guaranteed Accumulation Account; or
- If interest rates at the time of withdrawal have decreased since the date of deposit, the value of the investment increases and the MVA will be positive.

See your Guaranteed Accumulation Account prospectus for further details.

Under some contracts issued in New York, if you have elected ECO as described in "Systematic Distribution Options," no MVA applies to amounts withdrawn from the Guaranteed Accumulation Account.

Guaranteed Terms. The guaranteed term is the period of time account dollars must be left in the Guaranteed Accumulation Account in order to earn the interest rate specified for that guaranteed term. We offer different guaranteed terms at different times. Check with your local representative or the Company to learn the details about the guaranteed term(s) currently being offered.

In general we offer the following guaranteed terms:

- Short-term - three years or less; and
- Long-term - ten years or less, but greater than three years.

At the end of a guaranteed term, the contract holder or you if permitted may:

- Transfer dollars to a new guaranteed term;
- Transfer dollars to other available investment options; or
- Withdraw dollars.

Deductions may apply to withdrawals. See "Fees and Other Deductions" in this section.

Transfer of Account Dollars. Generally, account dollars invested in the Guaranteed Accumulation Account may be transferred among guaranteed terms offered through the Guaranteed Accumulation Account, and/or to other investment options offered through the contract. However, transfers may not be made during the deposit period in which your account dollars are invested in the Guaranteed Accumulation Account or for 90 days after the close of that deposit period. We will apply an MVA to transfers made before the end of a guaranteed term.

Income Phase. The Guaranteed Accumulation Account cannot be used as an investment option during the income phase. The contract holder or you, if permitted, may notify us at least 30 days in advance to elect a variable payment option and to transfer your Guaranteed Accumulation Account dollars to any of the subaccounts available during the income phase.

Loans. You cannot take a loan from your account value in the Guaranteed Accumulation Account. However, we include your account value in the Guaranteed Accumulation Account when determining the amount of your account value we may distribute as a loan.

Reinstating Amounts Withdrawn from the Guaranteed Accumulation Account. If amounts are withdrawn from the Guaranteed Accumulation Account and then reinstated in the Guaranteed Accumulation Account, we will apply the reinstated amount to the current deposit period. The guaranteed annual interest rate, and guaranteed terms available on the date of reinstatement will apply. Amounts will be reinstated proportionately in the same way as they were allocated before withdrawal.

Your account value will not be credited for any negative MVA that was deducted at the time of withdrawal.

APPENDIX II

FIXED ACCOUNT

The Fixed Account is an investment option available during the accumulation phase under some contracts. Amounts allocated to the Fixed Account are held in the Company's general account which supports insurance and annuity obligations. Under some contracts, this option is available to installment purchase plans only. This option is not available in the state of New York under some contracts.

Additional information about this option may be found in the contract.
--

General Disclosure. Interests in the Fixed Account have not been registered with the SEC in reliance upon exemptions under the Securities Act of 1933, as amended. Disclosure in this prospectus regarding the Fixed Account may be subject to certain generally applicable provisions of the federal securities laws relating to the accuracy and completeness of the statements. Disclosure in this Appendix regarding the Fixed Account has not been reviewed by the SEC.

Interest Rates. The Fixed Account guarantees that amounts allocated to this option will earn the minimum interest rate specified in the contract. We may credit a higher interest rate from time to time, but the rate we credit will never fall below the guaranteed minimum specified in the contract. Among other factors, the safety of the interest rate guarantee depends upon the claims-paying ability of the Company. Amounts applied to the Fixed Account will earn the interest rate in effect at the time money is applied. Amounts in the Fixed Account will reflect a compound interest rate as credited by us. The rate we quote is an annual effective yield.

Our determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. Under this option, we assume the risk of investment gain or loss by guaranteeing the amounts you allocate to this option and promising a minimum interest rate and income phase payment.

Withdrawals. Under certain emergency conditions, some contracts allow us to defer payment of any withdrawal for a period of up to 6 months or as provided by applicable federal or state law. Additionally, if allowed by state law, some contracts provide that we may pay withdrawals in equal payments with interest, over a period not to exceed 60 months when:

- The Fixed Account withdrawal value exceeds \$250,000 on the day before withdrawal; and
- The sum of the current Fixed Account withdrawal and total of all Fixed Account withdrawals within the past 12 calendar months exceeds 20% of the amount in the Fixed Account on the day before the current withdrawal.

The contract describes how we will determine the interest rate credited to amounts held in the Fixed Account during the payment period, including the minimum interest rate.

Charges. We do not make deductions from amounts in the Fixed Account to cover mortality and expense risks. We consider these risks when determining the credited rate.

If you make a withdrawal from amounts in the Fixed Account, an early withdrawal charge may apply. See "FEES - Early Withdrawal Charge."

Transfers. During the accumulation phase, you may transfer account dollars from the Fixed Account to any other available investment option. We may vary the dollar amount that you are allowed to transfer, but it will never be less than 10% of your account value held in the Fixed Account each calendar year or each 12-month period, depending upon the contract. We determine the amount available for transfer based on your Fixed Account value either (1) on the January 1st preceding the transfer request or (2) as of the date we receive the transfer request in good order at the address listed in “**Contract Overview - Questions: Contacting the Company.**” The 10% limit does not apply to amounts being transferred into the Fixed Plus Account (if available under the contract).

By notifying us at the address listed in “**Contract Overview - Questions: Contacting the Company**” at least 30 days before income payments begin you, or the contract holder on your behalf, may elect to have amounts transferred to one or more of the funds available during the income phase to provide variable payments.

Contract Loans. If available under your plan, contract loans may be made from account values held in the Fixed Account.

APPENDIX III

FIXED PLUS ACCOUNT

The Fixed Plus Account is an investment option available during the accumulation phase under some contracts. Amounts allocated to the Fixed Plus Account are held in the Company's general account which supports insurance and annuity obligations.

Additional information about this option may be found in the contract.
--

General Disclosure. Interests in the Fixed Plus Account have not been registered with the SEC in reliance upon exemptions under the Securities Act of 1933, as amended. Disclosure in this prospectus regarding the Fixed Plus Account may be subject to certain generally applicable provisions of the federal securities laws relating to the accuracy and completeness of the statements. Disclosure in this Appendix regarding the Fixed Plus Account has not been reviewed by the SEC.

Certain Restrictions. This option is not available in the state of New York under some contracts. We reserve the right to limit investments in or transfers to the Fixed Plus Account. Under most contracts, you may not elect certain withdrawal options, including the systematic distribution option, if you have requested a Fixed Plus Account transfer or withdrawal in the prior 12-month period. For some contracts, under certain emergency conditions, we may defer payment of a withdrawal from the Fixed Plus Account for a period of up to six months or as provided by federal law.

Interest Rates. The Fixed Plus Account guarantees that amounts allocated to this option will earn the minimum interest rate specified in the contract. We may credit a higher interest rate from time to time, but the rate we credit will never fall below the guaranteed minimum specified in the contract. Among other factors, the safety of the interest rate guarantees depends upon the claims-paying ability of the Company. Under some contracts, we credit amounts held in the Fixed Plus Account with a rate 0.25% higher than the then-declared rate beginning in the tenth year after your account was established. Amounts applied to the Fixed Plus Account will earn the interest rate in effect at the time money is applied. Amounts in the Fixed Plus Account will reflect a compound interest rate as credited by us. The rate we quote is an annual effective yield.

Our determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets, and whether a transfer credit has been selected. Under this option, we assume the risk of investment gain or loss by guaranteeing the amounts you allocate to this option and promising a minimum interest rate and income phase payment.

Requests for Partial Withdrawals. The contract holder or you, if permitted by the plan, may take up to 20% of the Fixed Plus Account value as a partial withdrawal in each twelve (12) month period, or under some contracts, in each calendar year. We determine the amount eligible for partial withdrawal as of the date we receive a request for partial withdrawal in good order at the address listed in “**Contract Overview - Questions: Contacting the Company**” or as of the January 1st preceding the partial withdrawal request, depending upon the terms of the contract. The amount allowed for partial withdrawal is reduced by any Fixed Plus Account withdrawals, transfers, loans or amounts applied to income phase payment options made in the prior 12 months (or, under some contracts, the prior calendar year). Under most contracts, in calculating the 20% limit, we reserve the right to include payments made due to the election of a systematic distribution option.

Waiver of Partial Withdrawal Limits. We generally waive the 20% limit if the partial withdrawal is due to the election of an income phase payment option (under some contracts, the waiver does not apply to the election of a nonlifetime payment option with variable payments). We also waive the 20% limit for withdrawals due to your death. Under most contracts, the waiver upon death may only be exercised once, must occur within six months after your date of death and must be made proportionally from all subaccounts and fixed interest options in which the account was invested.

Also, under some contracts the 20% limit is waived if the withdrawal is due to financial hardship or hardship resulting from an unforeseeable emergency, as defined by the Tax Code and regulations thereunder (under some contracts it must be for an unforeseeable emergency), and the following requirements are satisfied:

- The hardship is certified (required under most contracts);
- The partial withdrawal is taken proportionally from each investment option in which your account invests;
- The amount is paid directly to you; and
- The amount paid for all withdrawals due to hardship during the previous 12-month period does not exceed 10% (20% under some contracts) of the average value of your account(s) and all other accounts under the relevant contracts during that same period.

Under some contracts, the percentage limit is also waived if the partial withdrawal is due to severance from employment and the following conditions are met:

- The employer certifies you have separated from service (although the Tax Code permits distributions upon a participant's severance from employment, the contracts do not provide for a waiver of the Fixed Plus Account partial withdrawal provisions unless the severance from employment would otherwise have qualified as a separation from service under prior IRS guidance);
- The amount withdrawn is paid directly to you; and
- The amount paid for all partial and full withdrawals due to severance from employment during the previous 12-month period does not exceed 20% of the average value of your account(s) and all other accounts under the relevant contracts providing this waiver during that same period.

Under some contracts, the percentage limit may be waived for the purposes of taking a loan from the plan, subject to conditions agreed to by the contract holder and the Company in writing.

Additionally, we may allow other waivers of the percentage limit on partial withdrawals to participants in certain plans. You can determine what additional waivers, if any, apply to you by referring to the contract and/or certificate/enrollment materials.

Requests for Full Withdrawals. If the contract holder or you, if allowed by the plan, request a full withdrawal of your account value, we will pay any amounts held in the Fixed Plus Account with interest, in five annual payments equal to:

- One-fifth of the Fixed Plus Account value on the day the request is received, reduced by any Fixed Plus Account withdrawals, transfers, amounts used to fund income phase payments, or loans made during the prior 12 months (or, under some contracts, during the prior calendar year);
- One-fourth of the remaining Fixed Plus Account value 12 months later;
- One-third of the remaining Fixed Plus Account value 12 months later;
- One-half of the remaining Fixed Plus Account value 12 months later; and
- The balance of the Fixed Plus Account value 12 months later.

Under some contracts, there is a different method of calculating the amount available each year. The full withdrawal will be paid in installments of 20% of your account value held in the Fixed Plus Account, reduced by any Fixed Plus Account withdrawals, transfers, amounts used to fund income phase payments, or loans made during the prior 12 months in each of four consecutive 12-month periods. Under this provision, the remaining Fixed Plus Account balance in the account may be withdrawn any time after the end of the fourth 12-month period.

Once we receive a request for a full withdrawal, no further withdrawals, loans or transfers will be permitted from the Fixed Plus Account. A full withdrawal may be canceled at any time before the end of the five-payment period.

Waiver of Full Withdrawal Provisions. We will waive the Fixed Plus Account five-installment payout for full withdrawals made due to one or more of the following:

- due to the election of an income phase payment option (under some contracts this waiver does not apply to the election of a nonlifetime payment option with variable payments);
- due to your death during the accumulation phase (some contracts require that we be notified of your death, or that the withdrawal be taken, within six months of the death); and/or
- when the Fixed Plus Account value is \$5,000 or less (lower amounts may apply under some contracts). Most contracts also require that no withdrawals, transfers, loans or elections of income phase payment options have been made from the account within the prior 12 months (36 months for some contracts issued in the state of New York or, under some contracts, within the prior calendar year).

Additionally, under certain contracts, we will waive the five-payment full withdrawal provision due to one or more of the following:

- Due to financial hardship or hardship resulting from an unforeseeable emergency, as defined by the Tax Code and regulations thereunder if all of the following conditions are met:
 - ▷ The hardship is certified by the employer;
 - ▷ The amount is paid directly to you; and
 - ▷ The amount paid for all withdrawals due to hardship during the previous 12-month period does not exceed 10% (20% under some contracts) of the average value of your account(s) and all other accounts under the relevant contract during that same period (not applicable to certain contracts issued in New York);
- For any in-service distributions permitted by the plan and the following conditions are met:
 - ▷ The distribution has been certified by the employer;
 - ▷ The amount distributed is paid directly to you; and
 - ▷ The amount paid for all such withdrawals during the previous 12 months does not exceed a given percentage (stated in the contract) of the average value of all your accounts and all other accounts under the relevant contract during the same period. (Not applicable to certain contracts issued in New York);
- Due to your separation from service with the employer, provided that all the following apply*:
 - ▷ The employer certifies that you have separated from service (although the Tax Code permits distributions upon a participant's severance from employment, the contracts do not provide for a waiver of the Fixed Plus Account full withdrawal provisions unless the severance from employment would otherwise have qualified as a separation from service under prior IRS guidance);
 - ▷ The amount withdrawn is paid directly to you (under some contracts it must be paid directly to you only if you withdraw the amounts more than one year after separation); and
 - ▷ Under most contracts, if the amount paid for all partial and full withdrawals due to separation from service during the previous 12-month period does not exceed 20% of the average value of all your account(s) and all other accounts under the relevant contract during that same period;
- If you are at least age 59½ and, if applicable, have completed nine payment periods;
- If we terminate your account based on our right to do so for accounts below a certain value (usually \$5,000 or less; lower amounts may apply under some contracts); or
- For certain contracts issued in the state of New York, due to your disability as described in the Tax Code if all of the following conditions are met:
 - ▷ The disability is certified by the employer or otherwise documented in a form acceptable to us; and
 - ▷ The amount is paid directly to you.

Additionally, we may allow other waivers of the five installment payout for full withdrawals to participants in certain plans. You can determine what additional waivers, if any, apply to you by referring to the contract and/or certificate/enrollment materials.

Charges. We do not make deductions from amounts in the Fixed Plus Account to cover mortality and expense risks. We consider these risks when determining the credited rate.

* Instead of the provisions under the 3rd bullet above, some contracts waive the five-payment full withdrawal provision for separation from service if all of the following apply:

- The employer certifies that you have separated from service;
- We receive the withdrawal request within 60 days of the date of separation; and
- You pay a 3% charge based on the entire Fixed Plus Account value.

If you instead choose to have your payout in five annual installments as described above, then we will not assess the charge.

Transfers. The contract holder or you, if allowed by the plan, may transfer 20% of your account value held in the Fixed Plus Account in each 12-month period or during each calendar year, depending upon the terms of the contract. We determine the amount eligible for transfer on the day we receive a transfer request in good order at the address listed in “**Contract Overview - Questions: Contacting the Company**,” or under some contracts, as of the January 1st preceding the transfer request. We will reduce amounts allowed for transfer by any Fixed Plus Account withdrawals, transfers, loans or amounts applied to income phase payment options during the prior 12 months (or, under some contracts, during the prior calendar year). Under most contracts, in calculating the percentage limit on transfers, we reserve the right to include payments made due to the election of any of the systematic distribution options. We will waive the percentage limit on transfers when the value in the Fixed Plus Account is \$1,000 or less (\$2,000 or less under some contracts).

Under some contracts, if you transfer 20% of your account value held in the Fixed Plus Account in each of four consecutive 12-month periods, you may transfer the remaining balance in the succeeding 12-month period provided you do not allocate any amount to or transfer any other amount from the Fixed Plus Account during the five-year period. The 20% amount available to transfer under this provision will be reduced by any amount transferred, taken as a loan or applied to income phase payment options within the 12-month period preceding the first 20% transfer. Also, we may reduce it for payments we made from your Fixed Plus Account value under any systematic distribution option.

Income Phase. Amounts accumulating under the Fixed Plus Account can be transferred to the subaccounts to fund variable payments during the income phase. Availability of subaccounts may vary during the income phase. Some contracts do not permit Fixed Plus Account values to fund nonlifetime income options with variable payments.

Contract Loans. If permitted under the plan, loans may be made from account values held in the Fixed Plus Account. See the loan agreement for a description of the amount available and possible consequences upon loan default if Fixed Plus Account values are used for a loan.

Transfer Credits. The Company provides a transfer credit in certain circumstances. See “**CONTRACT PURCHASE AND PARTICIPATION - Transfer Credits**.” The transfer credit is a specified percentage of the assets or other specified amount that is transferred to the Company under a contract that remain in the accounts for the period of time specified by the Company. We apply the transfer credit to the current value held in the Fixed Plus Account.

APPENDIX IV

PARTICIPANT APPOINTMENT OF EMPLOYER AS AGENT UNDER AN ANNUITY CONTRACT

For Plans under Section 403(b), 401 or 403(a) of the Code, including Roth 403(b) and Roth 401(k) (Except Most Voluntary Section 403(b) Plans)*

The employer has adopted a plan under Internal Revenue Code Sections 403(b), Roth 403(b), 401(a), 401(k), Roth 401(k) or 403(a) ("Plan") and has purchased an ING Life Insurance and Annuity Company ("Company") group variable annuity contract ("contract") as the funding vehicle. Contributions under this Plan will be made by the participant through salary reduction to an Employee Account, and by the employer to an Employer Account.

By electing to participate in the employer's Plan, the participant voluntarily appoints the employer, who is the contract holder, as the participant's agent for the purposes of all transactions under the contract in accordance with the terms of the Plan. The Company is not a party to the Plan and does not interpret the Plan provisions.

As a participant in the Plan, the participant understands and agrees to the following terms and conditions:

- The participant owns the value of his/her Employee Account subject to the restrictions of Sections 403(b), 401(a), 401(k) or 403(a) and the terms of the Plan. Subject to the terms of the vesting schedule in the Plan and the restrictions of Section 403(b), 401(a), 401(k) or 403(a), the participant has ownership in the value of his/her Employer Account.
- The Company will process transactions only with the employer's written direction to the Company. The participant will be bound by the employer's interpretation of the Plan provisions and its written direction to the Company.
- The employer may permit the participant to make investment selections under the Employee Account and/or the Employer Account directly with the Company under the terms of the contract. Without the employer's written permission, the participant will be unable to make any investment selections under the contract.
- On behalf of the participant, the employer may request a loan in accordance with the terms of the contract and the provisions of the Plan. The Company will make payment of the loan amount directly to the participant. The participant will be responsible for making repayments directly to the Company in a timely manner.
- In the event of the participant's death, the employer is the named Beneficiary under the terms of the contract. The participant has the right to name a personal Beneficiary as determined under the terms of the Plan and file that Beneficiary election with the employer. It is the employer's responsibility to direct the Company to properly pay any death benefits.

* Under most group contracts issued through a voluntary 403(b) or Roth 403(b) plan and under individual contracts, you generally hold all rights under the contract and may make elections for your accounts. However, pursuant to Treasury Department regulations that were generally effective on January 1, 2009, the exercise of certain of these rights may require the consent and approval of the plan sponsor or its delegate. See "TAX CONSIDERATIONS – Distributions - Eligibility - 403(b) and Roth 403(b) Plans." See the contract or your certificate (if applicable) to determine who holds rights under the contract.

APPENDIX V

DESCRIPTION OF UNDERLYING FUNDS

*Certain funds offered under the contracts have limited availability as follows:

- Janus Aspen Balanced Portfolio, Janus Aspen Enterprise Portfolio, Janus Aspen Flexible Bond Portfolio, Janus Aspen Janus Portfolio, Janus Aspen Worldwide Portfolio, Oppenheimer Global Securities Fund/VA and Oppenheimer Global Strategic Income Fund/VA are only available to a limited number of participants who did not participate in the fund substitution during April, 2005.
- American Century[®] Income & Growth Fund is only available to plans offering the fund prior to May 1, 2002.
- The following funds are not available to all plans: Allianz NFJ Large-Cap Value Fund, Fidelity[®] VIP Mid Cap Portfolio, LKCM Aquinas Growth Fund, Invesco U.S. Small Cap Value Fund (will no longer be available after May 20, 2011), The Hartford Capital Appreciation Fund and The Hartford Dividend and Growth Fund. Availability is subject to Company and/or plan sponsor approval.
- Fidelity[®] VIP Overseas Portfolio is only available to plans offering the fund prior to May 1, 2004.
- Class Z shares of the ColumbiaSM Acorn[®] Fund and Columbia Mid Cap Value Fund are only available to unallocated, governmental plans with assets over \$100 million dollars.
- Columbia Diversified Equity Income Fund is only available to plans offering the fund prior to January 1, 2011 or that have approved the fund as an investment prior to that date and have invested in the fund by March 31, 2011.

List of Fund Name Changes

ING Invesco Van Kampen Growth and Income Portfolio	ING Van Kampen Growth and Income Portfolio
Oppenheimer Main Street Small- & Mid-Cap Fund [®] /VA	Oppenheimer Main Street Small Cap Fund [®] /VA

The investment results of the mutual funds (funds) are likely to differ significantly and there is no assurance that any of the funds will achieve their respective investment objectives. You should consider the investment objectives, risks and charges, and expenses of the funds carefully before investing. Please refer to the fund prospectuses for additional information. Shares of the funds will rise and fall in value and you could lose money by investing in the funds. Shares of the funds are not bank deposits and are not guaranteed, endorsed or insured by any financial institution, the Federal Deposit Insurance Corporation or any other government agency. Except as noted, all funds are diversified, as defined under the Investment Company Act of 1940. Fund prospectuses may be obtained free of charge at the address and telephone number listed in “Contract Overview – Questions: Contacting the Company,” by accessing the SEC’s website or by contacting the SEC Public Reference Branch. If you received a summary prospectus for any of the funds available through your contract, you may obtain a full prospectus and other fund information free of charge by either accessing the internet address, calling the telephone number or sending an email request to the email address shown on the front of the fund’s summary prospectus.

Certain funds offered under the contracts have investment objectives and policies similar to other funds managed by the fund’s investment adviser. The investment results of a fund may be higher or lower than those of other funds managed by the same adviser. There is no assurance and no representation is made that the investment results of any fund will be comparable to those of another fund managed by the same investment adviser.

For the share class of each fund offered through your contract, please see the cover page.

Fund Name	Investment Objective(s)
Investment Adviser/Subadviser	
Alger Green Fund	Seeks long-term capital appreciation.
Investment Adviser: Fred Alger Management, Inc.	

Fund Name	Investment Objective(s)

TABLE 32

FOR CONTRACTS ISSUED UNDER 403(b), 401(a) AND 401(k) PLANS ISSUED SINCE 1996 WITH TOTAL SEPARATE ACCOUNT CHARGES OF 1.50%
(Selected data for accumulation units outstanding throughout each period)

	<u>2010</u>	<u>2009</u>	<u>2008</u>	<u>2007</u>	<u>2006</u>	<u>2005</u>	<u>2004</u>	<u>2003</u>	<u>2002</u>	<u>2001</u>
ALGER GREEN FUND										
(Funds were first received in this option during December 2009)										
Value at beginning of period	\$12.93	\$12.83								
Value at end of period	\$13.96	\$12.93								
Number of accumulation units outstanding at end of period	680	596								
AMANA GROWTH FUND										
(Funds were first received in this option during September 2009)										
Value at beginning of period	\$9.55	\$8.87								
Value at end of period	\$10.90	\$9.55								
Number of accumulation units outstanding at end of period	578	101								
AMANA INCOME FUND										
(Funds were first received in this option during July 2009)										
Value at beginning of period	\$9.83	\$8.82								
Value at end of period	\$10.87	\$9.83								
Number of accumulation units outstanding at end of period	565	603								
AMERICAN CENTURY® INFLATION-ADJUSTED BOND FUND										
(Funds were first received in this option during July 2010)										
Value at beginning of period	\$11.00									
Value at end of period	\$11.10									
Number of accumulation units outstanding at end of period	163									
BLACKROCK MID CAP VALUE OPPORTUNITIES FUND										
(Funds were first received in this option during June 2010)										
Value at beginning of period	\$12.63									
Value at end of period	\$15.57									
Number of accumulation units outstanding at end of period	74									
CALVERT VP SRI BALANCED PORTFOLIO										
(Funds were first received in this option during July 2008)										
Value at beginning of period	\$14.59	\$11.82	\$17.47	\$17.26	\$16.11	\$15.48	\$14.51	\$12.35	\$14.265	\$15.562

GENERAL INFORMATION AND HISTORY

ING Life Insurance and Annuity Company (the “Company”, “we”, “us”, “our”) is a stock life insurance company which was organized under the insurance laws of the State of Connecticut in 1976. Prior to January 1, 2002, the Company was known as Aetna Life Insurance and Annuity Company. Through a merger, it succeeded to the business of Aetna Variable Annuity Life Insurance Company (formerly Participating Annuity Life Insurance Company organized in 1954).

The Company is an indirect wholly owned subsidiary of ING Groep N.V., a global financial institution active in the fields of insurance, banking and asset management and is a direct, wholly owned subsidiary of Lion Connecticut Holdings Inc. The Company is engaged in the business of issuing life insurance policies and annuity contracts. Our Home Office is located at One Orange Way, Windsor, Connecticut 06095-4774.

The Company serves as the depositor for the separate account.

Other than the mortality and expense risk charge and the administrative expense charge described in the prospectus, all expenses incurred in the operations of the separate account are borne by the Company. However, the Company does receive compensation for certain administrative costs or distribution costs from the funds or affiliates of the funds used as funding options under the contract. (See “Fees” in the prospectus.)

The assets of the separate account are held by the Company. The separate account has no custodian. However, the funds in whose shares the assets of the separate account are invested each have custodians, as discussed in their respective prospectuses.

From this point forward, the term “contract(s)” refers only to those offered through the prospectus.

VARIABLE ANNUITY ACCOUNT C

Variable Annuity Account C is a separate account established by the Company for the purpose of funding variable annuity contracts issued by the Company. The separate account is registered with the Securities and Exchange Commission (“SEC”) as a unit investment trust under the Investment Company Act of 1940, as amended. Purchase payments to accounts under the contract may be allocated to one or more of the subaccounts. Each subaccount invests in the shares of only one of the funds offered under the contract. We may make additions to, deletions from or substitutions of available investment options as permitted by law and subject to the conditions of the contract. The availability of the funds is subject to applicable regulatory authorization. Not all funds are available in all jurisdictions, under all contracts, or under all plans.

A complete description of each of the funds, including their investment objectives, policies, risks and fees and expenses, is contained in the prospectuses and statements of additional information for each of the funds.

OFFERING AND PURCHASE OF CONTRACTS

The Company is the depositor and the Company’s subsidiary, ING Financial Advisers, LLC serves as the principal underwriter for the contracts. ING Financial Advisers, LLC, a Delaware limited liability company, is registered as a broker-dealer with the SEC. ING Financial Advisers, LLC is also a member of the Financial

Industry Regulatory Authority and the Securities Investor Protection Corporation. ING Financial Advisers, LLC's principal office is located at One Orange Way, Windsor, Connecticut 06095-4774. The contracts are distributed through life insurance agents licensed to sell variable annuities who are registered representatives of ING Financial Advisers, LLC or of other registered broker-dealers who have entered into sales arrangements with ING Financial Advisers, LLC. The offering of the contracts is continuous. A description of the manner in which contracts are purchased may be found in the prospectus under the sections entitled "Contract Purchase and Participation - Contract Ownership and Rights" and "Your Account Value."

Compensation paid to the principal underwriter, ING Financial Advisers, LLC, for the years ending December 31, 2010, 2009 and 2008 amounted to \$43,979,093.81, \$44,259,566.54 and 43,901,529.15, respectively. These amounts reflect compensation paid to ING Financial Advisers, LLC attributable to regulatory and operating expenses associated with the distribution of all registered variable annuity products issued by Variable Annuity Account C of ING Life Insurance and Annuity Company.

INCOME PHASE PAYMENTS

When you begin receiving payments under the contract during the income phase (see "The Income Phase" in the prospectus), the value of your account is determined using accumulation unit values as of the tenth valuation before the first income phase payment is due. Such value (less any applicable premium tax charge) is applied to provide income phase payments to you in accordance with the payment option and investment options elected.

The Annuity option tables found in the contract show, for each option, the amount of the first income phase payment for each \$1,000 of value applied. When you select variable income payments, your account value purchases annuity units of the separate account subaccounts corresponding to the funds you select. The number of annuity units purchased is based on your account value and the value of each unit on the day the annuity units are purchased. Thereafter, variable payments fluctuate as the Annuity Unit value(s) fluctuates with the investment experience of the selected investment option(s). The first income phase payment and subsequent income phase payments also vary depending on the assumed net investment rate selected (3.5% or 5% per annum). Selection of a 5% rate causes a higher first income phase payment, but income phase payments will increase thereafter only to the extent that the net investment rate increases by more than 5% on an annual basis.

Income phase payments would decline if the rate failed to increase by 5%. Use of the 3.5% assumed rate causes a lower first income phase payment, but subsequent income phase payments would increase more rapidly or decline more slowly as changes occur in the net investment rate.

When the income phase begins, the annuitant is credited with a fixed number of Annuity Units (which does not change thereafter) in each of the designated investment options. This number is calculated by dividing (a) by (b), where (a) is the amount of the first income phase payment based upon a particular investment option, and (b) is the then current Annuity Unit value for that investment option. As noted, Annuity Unit values fluctuate from one valuation to the next (see "Your Account Value" in the prospectus); such fluctuations reflect changes in the net investment factor for the appropriate subaccount(s) (with a ten day valuation lag which gives the Company time to process payments) and a mathematical adjustment which offsets the assumed net investment rate of 3.5% or 5% per annum.

The operation of all these factors can be illustrated by the following hypothetical example. These procedures will be performed separately for the investment options selected during the income phase.

EXAMPLE:

Assume that, at the date income phase payments are to begin, there are 3,000 accumulation units credited under a particular contract or account and that the value of an accumulation unit for the tenth valuation prior to retirement was \$13.650000. This produces a total value of \$40,950.

Assume also that no premium tax charge is payable and that the annuity table in the contract provides, for the income phase payment option elected, a first monthly variable income phase payment of \$6.68 per \$1000 of value applied; the annuitant's first monthly income phase payment would thus be 40.950 multiplied by \$6.68, or \$273.55.

Assume then that the value of an Annuity Unit upon the valuation on which the first income phase payment was due was \$13.400000. When this value is divided into the first monthly income phase payment, the number of Annuity Units is determined to be 20.414. The value of this number of Annuity Units will be paid in each subsequent month.

Suppose there were 30 days between the initial and second payment valuation dates. If the net investment factor with respect to the appropriate subaccount is 1.0032737 as of the tenth valuation preceding the due date of the second monthly income phase payment, multiplying this factor by $.9971779^* = .9999058^{30}$ (to take into account 30 days of the assumed net investment rate of 3.5% per annum built into the number of Annuity Units determined above) produces a result of 1.000442. This is then multiplied by the Annuity Unit value for the prior valuation (\$13.400000 from above) to produce an Annuity Unit value of \$13.405928 for the valuation occurring when the second income phase payment is due.

The second monthly income phase payment is then determined by multiplying the number of Annuity Units by the current Annuity Unit value, or 20.414 times \$13.405928, which produces a payment of \$273.67.

*If an assumed net investment rate of 5% is elected, the appropriate factor to take into account such assumed rate would be $.9959968 = .9998663^{30}$.

SALES MATERIAL AND ADVERTISING

We may include hypothetical illustrations in our sales literature that explain the mathematical principles of dollar cost averaging, compounded interest, tax deferred accumulation, and the mechanics of variable annuity contracts. We may also discuss the difference between variable annuity contracts and other types of savings or investment products such as personal savings accounts and certificates of deposit.

We may distribute sales literature that compares the percentage change in accumulation unit values for any of the subaccounts to established market indices such as the Standard & Poor's 500 Stock Index and the Dow Jones Industrial Average or to the percentage change in values of other management investment companies that have investment objectives similar to the subaccount being compared.

We may publish in advertisements and reports, the ratings and other information assigned to us by one or more independent rating organizations such as A.M. Best Company, Duff & Phelps, Standard & Poor's Corporation and Moody's Investors Service, Inc. The purpose of the ratings is to reflect our financial strength and/or claims-paying ability. We may also quote ranking services such as Morningstar's Variable

Annuity/Life Performance Report and Lipper's Variable Insurance Products Performance Analysis Service (VIPPAS), which rank variable annuity or life subaccounts or their underlying funds by performance and/or investment objective. We may categorize the underlying funds in terms of the asset classes they represent and use such categories in marketing materials for the contracts. We may illustrate in advertisements the performance of the underlying funds, if accompanied by performance which also shows the performance of such funds reduced by applicable charges under the separate account. We may also show in advertisements the portfolio holdings of the underlying funds, updated at various intervals. From time to time, we will quote articles from newspapers and magazines or other publications or reports such as The Wall Street Journal, Money magazine, USA Today and The VARDS Report.

We may provide in advertising, sales literature, periodic publications or other materials information on various topics of interest to current and prospective contract holders or participants. These topics may include the relationship between sectors of the economy and the economy as a whole and its effect on various securities markets, investment strategies and techniques (such as value investing, market timing, dollar cost averaging,

asset allocation, constant ratio transfer and account rebalancing), the advantages and disadvantages of investing in tax-deferred and taxable investments, customer profiles and hypothetical purchase and investment scenarios, financial management and tax and retirement planning, and investment alternatives to certificates of deposit and other financial instruments, including comparison between the contracts and the characteristics of and market for such financial instruments.

EXPERTS

The statements of assets and liabilities of Variable Annuity Account C as of December 31, 2010, and the related statements of operations and changes in net assets for the periods disclosed in the financial statements, and the consolidated financial statements of ING Life Insurance and Annuity Company as of December 31, 2010 and 2009, and for each of the three years in the period ended December 31, 2010, included in the Statement of Additional Information, have been audited by Ernst & Young LLP, independent registered public accounting firm, as set forth in their reports thereon appearing elsewhere herein, and are included in reliance upon such reports given on the authority of such firm as experts in accounting and auditing.

The primary business address of Ernst & Young LLP is Suite 1000, 55 Ivan Allen Jr. Boulevard, Atlanta, GA 30308.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Account's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Account's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2010, by correspondence with the transfer agents or custodian. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of each of the respective Divisions constituting Variable Annuity Account C of ING Life Insurance and Annuity Company at December 31, 2010, the results of their operations and changes in their net assets for the periods disclosed in the financial statements, in conformity with U.S. generally accepted accounting principles.

/s/ Ernst & Young, LLP

Atlanta, Georgia

**VARIABLE ANNUITY ACCOUNT C OF
ING LIFE INSURANCE AND ANNUITY COMPANY**
Notes to Financial Statements

1. Organization

Variable Annuity Account C of ING Life Insurance and Annuity Company (the “Account”) was established by ING Life Insurance and Annuity Company (“ILIAC” or the “Company”) to support the operations of variable annuity contracts (“Contracts”). The Company is an indirect wholly owned subsidiary of ING America Insurance Holdings, Inc. (“ING AIH”), an insurance holding company domiciled in the State of Delaware. ING AIH is an indirect wholly owned subsidiary of ING Groep, N.V. (“ING”), a global financial services holding company based in The Netherlands.

As part of a restructuring plan approved by the European Commission (“EC”), ING has agreed to separate its banking and insurance businesses by 2013. ING intends to achieve this separation by divestment of its insurance and investment management operations, including the Company. ING has announced that it will explore all options for implementing the separation including one or more initial public offerings (“IPOs”), sales or a combination thereof. On November 10, 2010, ING announced that while the option of one global IPO remains open, ING and its U.S. insurance affiliates, including the Company, are going to prepare for a base case of two IPOs: one Europe-led IPO and one separate U.S. focused IPO.

The Account is registered as a unit investment trust with the Securities and Exchange Commission under the Investment Company Act of 1940, as amended. ILIAC provides for variable accumulation and benefits under the Contracts by crediting annuity considerations to one or more divisions within the Account or the fixed separate account, which is not part of the Account, as directed by the contractowners. The portion of the Account’s assets applicable to Contracts will not be charged with liabilities arising out of any other business ILIAC may conduct, but obligations of the Account, including the promise to make benefit payments, are obligations of ILIAC. Under applicable insurance law, the assets and liabilities of the Account are clearly identified and distinguished from the other assets and liabilities of ILIAC.

At December 31, 2010, the Account had 270 investment divisions (the “Divisions”), 105 of which invest in independently managed mutual funds and 165 of which invest in mutual funds managed by affiliates, either ING Investments, LLC (“IIL”) or Directed Services LLC (“DSL”). The assets in each Division are invested in shares of a designated fund (“Fund”) of various investment trusts (the “Trusts”). Investment Divisions with asset balances at December 31, 2010 and related Trusts are as follows:

2. Significant Accounting Policies

The following is a summary of the significant accounting policies of the Account:

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from reported results using those estimates.

**VARIABLE ANNUITY ACCOUNT C OF
ING LIFE INSURANCE AND ANNUITY COMPANY**
Notes to Financial Statements

Investments

Investments are made in shares of a Division and are recorded at fair value, determined by the net asset value per share of the respective Division. Investment transactions in each Division are recorded on the trade date. Distributions of net investment income and capital gains from each Division are recognized on the ex-distribution date. Realized gains and losses on redemptions of the shares of the Division are determined on a first-in, first-out basis. The difference between cost and current market value of investments owned on the day of measurement is recorded as unrealized appreciation or depreciation of investments.

Federal Income Taxes

Operations of the Account form a part of, and are taxed with, the total operations of ILIAC, which is taxed as a life insurance company under the Internal Revenue Code. Earnings and realized capital gains of the Account attributable to the contractowners are excluded in the determination of the federal income tax liability of ILIAC.

Contractowner Reserves

The annuity reserves of the Account are represented by net assets on the Statements of Assets and Liabilities and are equal to the aggregate account values of the contractowners invested in the Account Divisions. To the extent that benefits to be paid to the contractowners exceed their account values, ILIAC will contribute additional funds to the benefit proceeds. Conversely, if amounts allocated exceed amounts required, transfers may be made to ILIAC. Prior to the annuity date, the Contracts are redeemable for the net cash surrender value of the Contracts.

Changes from Principal Transactions

Included in Changes from Principal Transactions on the Statements of Changes in Net Assets are items which relate to contractowner activity, including deposits, surrenders and withdrawals, benefits, and contract charges. Also included are transfers between the fixed account and the Divisions, transfers between Divisions, and transfers to (from) ILIAC related to gains and losses resulting from actual mortality experience (the full responsibility for which is assumed by ILIAC). Any net unsettled transactions as of the reporting date are included in Payable to related parties on the Statements of Assets and Liabilities.

Subsequent Events

The Account has evaluated subsequent events for recognition and disclosure through the date the financial statements as of December 31, 2010 and for the years ended December 31, 2010 and 2009, were issued.

3. Recently Adopted Accounting Standards

**VARIABLE ANNUITY ACCOUNT C OF
ING LIFE INSURANCE AND ANNUITY COMPANY**
Notes to Financial Statements

Improving Disclosures about Fair Value Measurements

In January 2010, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2010-06, “Fair Value Measurements and Disclosure (Topic 820): Improving Disclosures about Fair Value Measurements,” (“ASU 2010-06”), which requires several new disclosures, as well as clarification to existing disclosures, as follows:

- Significant transfers in and out of Level 1 and Level 2 fair value measurements and the reason for the transfers;
- Purchases, sales, issuances, and settlement, in the Level 3 fair value measurements reconciliation on a gross basis;
- Fair value measurement disclosures for each Class of assets and liabilities (i.e., disaggregated); and
- Valuation techniques and inputs for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3 fair value measurements.

The provisions of ASU 2010-06 were adopted by the Account on January 1, 2010, except for the disclosures related to the Level 3 reconciliation, which are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The Account determined, however, that there was no effect on the Account’s disclosures, as the guidance is consistent with that previously applied by the Account under FASB Accounting Standards Codification™ (“ASC”) Topic 820, “Fair Value Measurements and Disclosures” (“ASC Topic 820”). As the pronouncement only pertains to additional disclosure, the adoption had no effect on the Account’s net assets and results of operations.

Subsequent Events

In May 2009, the FASB issued new guidance on subsequent events, included in ASC Topic 855, “Subsequent Events,” which establishes:

- The period after the balance sheet date during which an entity should evaluate events or transactions for potential recognition or disclosure in the financial statements;
- The circumstances under which an entity should recognize such events or transactions in its financial statements; and
- Disclosures regarding such events or transactions and the date through which an entity has evaluated subsequent events.

These provisions, as included in ASC Topic 855, were adopted by the Account on June 30, 2009. In addition, in February 2010, the FASB issued ASU 2010-09, “Subsequent Events (Topic 855): Amendments to Certain Recognition and Disclosure Requirements,” which clarifies that an SEC filer should evaluate subsequent events through the date the financial statements are issued and eliminates the requirement for an

**VARIABLE ANNUITY ACCOUNT C OF
ING LIFE INSURANCE AND ANNUITY COMPANY**
Notes to Financial Statements

SEC filer to disclose that date, effective upon issuance. The Account determined that there was no effect on the Account's net assets and results of operations upon adoption, as the guidance is consistent with that previously applied by the Account under US auditing standards. The disclosure provisions included in ASC Topic 855, as amended, are presented in the Significant Accounting Policies footnote.

Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly

In April 2009, the FASB issued new guidance on determining fair value when the volume and level of activity for the asset or liability have significantly decreased and identifying transactions that are not orderly, included in ASC Topic 820, "Fair Value Measurements and Disclosures," which confirms that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. In addition, this guidance, as included in ASC Topic 820:

- Clarifies factors for determining whether there has been a significant decrease in market activity for an asset or liability;
- Requires an entity to determine whether a transaction is not orderly based on the weight of the evidence; and
- Requires an entity to disclose in interim and annual periods the input and valuation technique used to measure fair value and any change in valuation technique.

These provisions, as included in ASC Topic 820, were adopted by the Account on April 1, 2009. The Account determined, however, that there was no effect on the Account's net assets and results of operations upon adoption, as its guidance is consistent with that previously applied by the Account under US GAAP.

4. Financial Instruments

The Account invests assets in shares of open-end mutual funds and funds of funds, which process orders to purchase and redeem shares on a daily basis at the fund's next computed net asset values ("NAV"). The fair value of the Account's assets is based on the NAVs of mutual funds, which are obtained from the custodian and reflect the fair values of the mutual fund investments. The NAV is calculated daily upon close of the New York Stock Exchange and is based on the fair values of the underlying securities.

The Account's financial assets are recorded at fair value on the Statements of Assets and Liabilities and are categorized as Level 1 as of December 31, 2010 and 2009, respectively, based on the priority of the inputs to the valuation technique below. The Account had no financial liabilities as of December 31, 2010.

The ASC Topic 820 fair value hierarchy gives the highest priority to quoted prices in

**VARIABLE ANNUITY ACCOUNT C OF
ING LIFE INSURANCE AND ANNUITY COMPANY**
Notes to Financial Statements

active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument.

- Level 1 - Unadjusted quoted prices for identical assets or liabilities in an active market.
- Level 2 - Quoted prices in markets that are not active or inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - a) Quoted prices for similar assets or liabilities in active markets;
 - b) Quoted prices for identical or similar assets or liabilities in non-active markets;
 - c) Inputs other than quoted market prices that are observable; and
 - d) Inputs that are derived principally from or corroborated by observable market data through correlation or other means.
- Level 3 - Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability.

5. Charges and Fees

Under the terms of the Contracts, certain charges are allocated to the Contracts to cover ILIAC's expenses in connection with the issuance and administration of the Contracts. Following is a summary of these charges:

Mortality and Expense Risk Charges

ILIAC assumes mortality and expense risks related to the operations of the Account and, in accordance with the terms of the Contracts, deducts a daily charge from the assets of the Account. Daily charges are deducted at annual rates of up to 1.50% of the average daily net asset value of each Division of the Account to cover these risks, as specified in the Contracts.

Asset Based Administrative Charges

A daily charge to cover administrative expenses of the Account is generally deducted at an annual rate of up to 0.25% of the assets attributable to the Contracts.

**VARIABLE ANNUITY ACCOUNT C OF
ING LIFE INSURANCE AND ANNUITY COMPANY**
Notes to Financial Statements

Contract Maintenance Charges

An annual Contract maintenance fee of up to \$40 may be deducted from the accumulation value of Contracts to cover ongoing administrative expenses, as specified in the Contract.

Contingent Deferred Sales Charges

For certain Contracts, a contingent deferred sales charge (“Surrender Charge”) is imposed as a percentage that ranges up to 7.00% of each premium payment if the Contract is surrendered or an excess partial withdrawal is taken as specified in the Contract.

Other Contract Charges

For certain Contracts, an additional annual charge of 0.25% is deducted daily from the accumulation value for amounts invested in the ING GET U.S. Core Portfolio Funds.

For certain Contracts, an additional annual charge of 1.00% is deducted daily from the accumulation value of Contracts for contractowners who select the Five-Year Guaranteed Minimum Income feature.

Premium Taxes

For certain Contracts, premium taxes are deducted, where applicable, from the accumulation value of each Contract. The amount and timing of the deduction depends on the contractowner’s state of residence and currently ranges up to 4.00% of premiums.

6. Related Party Transactions

During the year ended December 31, 2010, management and service fees were paid indirectly to IIL, an affiliate of the Company, in its capacity as investment adviser to the ING Equity Trust, ING Funds Trust, ING Mutual Funds, ING Variable Products Trust, ING Intermediate Bond Portfolio, ING Money Market Portfolio, ING Balanced Portfolio, Inc., ING Series Fund, Inc., ING Strategic Allocation Portfolios, Inc., ING Variable Funds, ING Variable Insurance Trust, and ING Variable Portfolios, Inc. The annual fee rate ranged from 0.08% to 0.98% of the average net assets of each respective Fund.

In addition, management fees were paid to DSL in its capacity as investment adviser to ING Partners, Inc. and ING Investors Trust. The Trusts’ advisory agreement provided for a fee at an annual rate up to 1.25% of the average net assets of each respective Fund.

- A** The Investment Income Ratio represents dividends received by the Division, excluding capital gains distributions divided by the average net assets. The recognition of investment income is determined by the timing of the declaration of dividends by the underlying fund in which the Division invests.
B The Expense Ratio considers only the expenses borne directly by the Account and is equal to the mortality and expense, administrative and other charges, as defined in Note 5. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.
C Total Return is calculated as the change in unit value for each Contract presented in the Statements of Assets and Liabilities. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

Report of Independent Registered Public Accounting Firm

The Board of Directors
ING Life Insurance and Annuity Company

We have audited the accompanying consolidated balance sheets of ING Life Insurance and Annuity Company and subsidiaries as of December 31, 2010 and 2009, and the related consolidated statements of operations, changes in shareholder's equity, and cash flows for each of the three years in the period ended December 31, 2010. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits include consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of ING Life Insurance and Annuity Company and subsidiaries at December 31, 2010 and 2009, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2010, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 1 to the financial statements, in 2009 the Company changed its method of accounting for the recognition and presentation of other-than-temporary impairments.

1. Organization and Significant Accounting Policies

Basis of Presentation

ING Life Insurance and Annuity Company (“ILIAC”) is a stock life insurance company domiciled in the state of Connecticut. ILIAC and its wholly-owned subsidiaries (collectively, the “Company”) are providers of financial products and services in the United States. ILIAC is authorized to conduct its insurance business in all states and the District of Columbia.

The consolidated financial statements for the year ended December 31, 2010, include ILIAC and its wholly-owned subsidiaries, ING Financial Advisers, LLC (“IFA”) and Directed Services LLC (“DSL”). ILIAC is a direct, wholly-owned subsidiary of Lion Connecticut Holdings Inc. (“Lion” or “Parent”), which is an indirect, wholly-owned subsidiary of ING Groep N.V. (“ING”). ING is a global financial services holding company based in the Netherlands, with American Depository Shares listed on the New York Stock Exchange under the symbol “ING.”

As part of a restructuring plan approved by the European Commission (“EC”), ING has agreed to separate its banking and insurance businesses by 2013. ING intends to achieve this separation by divestment of its insurance and investment management operations, including the Company. ING has announced that it will explore all options for implementing the separation including one or more initial public offerings, sales, or a combination thereof. On November 10, 2010, ING announced that while the option of one global initial public offering (“IPO”) remains open, ING and its U.S. insurance affiliates, including the Company, are going to prepare for a base case of two IPOs: one Europe-led IPO and one separate U.S.-focused IPO.

Description of Business

The Company offers qualified and nonqualified annuity contracts that include a variety of funding and payout options for individuals and employer-sponsored retirement plans qualified under Internal Revenue Code Sections 401, 403, 408, and 457, as well as nonqualified deferred compensation plans. The Company’s products are offered primarily to individuals, pension plans, small businesses, and employer-sponsored groups in the health care, government, and education markets (collectively “not-for-profit” organizations) and corporate markets. The Company’s products are generally distributed through pension professionals, independent agents and brokers, third party administrators, banks, dedicated career agents, and financial planners.

Products offered by the Company include deferred and immediate (payout annuities) annuity contracts. Company products also include programs offered to qualified plans and nonqualified deferred compensation plans that package administrative and record-keeping services along with a variety of investment options, including affiliated and nonaffiliated mutual funds and variable and fixed investment options. In addition, the

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amounts in millions, unless otherwise stated)

Company offers wrapper agreements entered into with retirement plans, which contain certain benefit responsive guarantees (i.e., liquidity guarantees of principal and previously accrued interest for benefits paid under the terms of the plan) with respect to portfolios of plan-owned assets not invested with the Company. The Company also offers pension and retirement savings plan administrative services.

The Company has one operating segment.

Recently Adopted Accounting Standards

Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses

In July 2010, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2010-20, “Receivables (Accounting Standards Codification™ (“ASC”) Topic 310): Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses” (“ASU 2010-20”), which requires certain existing disclosures to be disaggregated by class of financing receivable, including the rollforward of the allowance for credit losses, with the ending balance further disaggregated on the basis of impairment method. For each disaggregated ending balance, an entity is required to also disclose the related recorded investment in financing receivables, the nonaccrual status of financing receivables, and impaired financing receivables.

ASU 2010-20 also requires new disclosures by class of financing receivable, including credit quality indicators, aging of past due amounts, the nature and extent of troubled debt restructurings and related defaults, and significant purchases and sales of financing receivables disaggregated by portfolio segment.

In January 2011, the FASB issued ASU 2011-01, which temporarily delays the effective date of the disclosures about troubled debt restructurings in ASU 2010-20.

The provisions of ASU 2010-20 were adopted by the Company on December 31, 2010, and are included in the Financial Instruments footnote to the consolidated financial statements, as well as the Reinsurance section below, except for the disclosures that include information for activity that occurs during a reporting period, which are effective for periods beginning after December 15, 2010, and the disclosures about troubled debt restructurings. As the pronouncement only pertains to additional disclosure, the adoption had no effect on the Company’s financial condition, results of operations, or cash flows.

Scope Exception Related to Embedded Credit Derivatives

In March 2010, the FASB issued ASU 2010-11, “Derivatives and Hedging (ASC Topic 815): Scope Exception Related to Embedded Credit Derivatives” (“ASU 2010-11”), which clarifies that the only type of embedded credit derivatives that are exempt from

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

bifurcation requirements are those that relate to the subordination of one financial instrument to another.

The provisions of ASU 2010-11 were adopted by the Company on July 1, 2010. The Company determined, however, that there was no effect on the Company's financial condition, results of operations, or cash flows upon adoption, as the guidance is consistent with that previously applied by the Company under ASC Topic 815.

Improving Disclosures about Fair Value Measurements

In January 2010, the FASB issued ASU 2010-06, "Fair Value Measurements and Disclosure (ASC Topic 820): Improving Disclosures about Fair Value Measurements," ("ASU 2010-06"), which requires several new disclosures, as well as clarification to existing disclosures, as follows:

- Significant transfers in and out of Level 1 and Level 2 fair value measurements and the reason for the transfers;
- Purchases, sales, issuances, and settlement, in the Level 3 fair value measurements reconciliation on a gross basis;
- Fair value measurement disclosures for each class of assets and liabilities (i.e., disaggregated); and
- Valuation techniques and inputs for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3 fair value measurements.

The provisions of ASU 2010-06 were adopted by the Company on January 1, 2010, and are included in the Financial Instruments footnote to the consolidated financial statements, except for the disclosures related to the Level 3 reconciliation, which are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. As the pronouncement only pertains to additional disclosure, the adoption had no effect on the Company's financial condition, results of operations, or cash flows.

Accounting and Reporting for Decreases in Ownership of a Subsidiary

In January 2010, the FASB issued ASU 2010-02 "Consolidations (ASC Topic 810): Accounting and Reporting for Decreases in Ownership of a Subsidiary – a Scope Clarification," ("ASU 2010-02"), which clarifies that the scope of the decrease in ownership provisions applies to the following:

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amounts in millions, unless otherwise stated)

- A subsidiary or group of assets that is a business or nonprofit activity;
- A subsidiary that is a business or nonprofit activity that is transferred to an equity method investee or joint venture; and
- An exchange of a group of assets that constitutes a business or nonprofit activity for a noncontrolling interest in an entity (including an equity method investee or joint venture).

ASU 2010-02 also notes that the decrease in ownership guidance does not apply to sales of in substance real estate and expands disclosure requirements.

The provisions of ASU 2010-02 were adopted, retrospectively, by the Company on January 1, 2010. The Company determined, however, that there was no effect on the Company's financial condition, results of operations, or cash flows for the years ended December 31, 2010, 2009, or 2008, as there were no decreases in ownership of a subsidiary during those periods.

Improvements to Financial Reporting by Enterprises Involved in Variable Interest Entities

In December 2009, the FASB issued ASU 2009-17, "Consolidations (ASC Topic 810): Improvements to Financial Reporting by Enterprises Involved in Variable Interest Entities," ("ASU 2009-17"), which eliminates the exemption for qualifying special-purpose entities ("QSPEs"), as well as amends the consolidation guidance for variable interest entities ("VIEs"), as follows:

- Removes the quantitative-based assessment for consolidation of VIEs and, instead, requires a qualitative assessment of whether an entity has the power to direct the VIE's activities, and whether the entity has the obligation to absorb losses or the right to reserve benefits that could be significant to the VIE; and
- Requires an ongoing reassessment of whether an entity is the primary beneficiary of a VIE.

In addition, in February 2010, the FASB issued ASU 2010-10, "Consolidation (ASC Topic 810): Amendments for Certain Investment Funds" (ASU 2010-10), which primarily defers to ASU 2009-17 for an investment in an entity that is accounted for as an investment company.

The provisions of ASU 2009-17 and ASU 2010-10 were adopted on January 1, 2010. The Company determined, however, that there was no effect on the Company's financial condition, results of operations, or cash flows upon adoption, as the consolidation conclusions were consistent with those under previous accounting principles generally accepted in the United States ("US GAAP"). The disclosure provisions required by ASU 2009-17 are presented in the Financial Instruments footnote to these consolidated financial statements.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Accounting for Transfers of Financial Assets

In December 2009, the FASB issued ASU 2009-16 “Transfers and Servicing (ASC Topic 860): Accounting for Transfers of Financial Assets” (“ASU 2009-16”), which eliminates the QSPE concept and requires a transferor of financial assets to:

- Consider the transferor’s continuing involvement in assets, limiting the circumstances in which a financial asset should be derecognized when the transferor has not transferred the entire asset to an entity that is not consolidated;
- Account for the transfer as a sale only if an entity transfers an entire financial asset and surrenders control, unless the transfer meets the conditions for a participating interest; and
- Recognize and initially measure at fair value all assets obtained and liabilities incurred as a result of a transfer of financial assets accounted for as a sale.

The provisions of ASU 2009-16 were adopted on January 1, 2010. The Company determined, however, that there was no effect on the Company’s financial condition, results of operations, or cash flows upon adoption, as the Company did not have any QSPEs under previous US GAAP, and the requirements for sale accounting treatment are consistent with those previously applied by the Company under US GAAP.

Measuring the Fair Value of Certain Alternative Investments

In September 2009, the FASB issued ASU 2009-12, “Fair Value Measurements and Disclosures (ASC Topic 820): Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)” (“ASU 2009-12”), which allows the use of net asset value to estimate the fair value of certain alternative investments, such as interests in hedge funds, private equity funds, real estate funds, venture capital funds, offshore fund vehicles, and funds of funds. In addition, ASU 2009-12 requires disclosures about the attributes of such investments.

The provisions of ASU 2009-12 were adopted by the Company on December 31, 2009. The Company determined, however, that there was no effect on the Company’s financial condition, results of operations, or cash flows upon adoption, as its guidance is consistent with that previously applied by the Company under US GAAP. The disclosure provisions required by ASU 2009-12 are presented in the Investments footnote to these consolidated financial statements.

Subsequent Events

In May 2009, the FASB issued new guidance on subsequent events, included in ASC Topic 855, “Subsequent Events,” which establishes:

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amounts in millions, unless otherwise stated)

- The period after the balance sheet date during which an entity should evaluate events or transactions for potential recognition or disclosure in the financial statements;
- The circumstances under which an entity should recognize such events or transactions in its financial statements; and
- Disclosures regarding such events or transactions and the date through which an entity has evaluated subsequent events.

These provisions, as included in ASC Topic 855, were adopted by the Company on June 30, 2009. In addition, in February 2010, the FASB issued ASU 2010-09, “Subsequent Events (Topic 855): Amendments to Certain Recognition and Disclosure Requirements”, which clarifies that a Securities and Exchange Commission (“SEC”) filer should evaluate subsequent events through the date the financial statements are issued and eliminates the requirement for an SEC filer to disclose that date, effective upon issuance. The Company determined that there was no effect on the Company’s financial condition, results of operations, or cash flows upon adoption, as the guidance is consistent with that previously applied by the Company under U.S. auditing standards. The disclosure provisions included in ASC Topic 855, as amended, are presented in the Organization and Significant Accounting Policies footnote to these consolidated financial statements.

Recognition and Presentation of Other-Than-Temporary Impairments

In April 2009, the FASB issued new guidance on recognition and presentation of other-than-temporary impairments, included in ASC Topic 320, “Investments-Debt and Equity Securities,” which requires:

- Noncredit related impairments to be recognized in other comprehensive income (loss), if management asserts that it does not have the intent to sell the security and that it is more likely than not that the entity will not have to sell the security before recovery of the amortized cost basis;
- Total other-than-temporary impairments (“OTTI”) to be presented in the Statement of Operations with an offset recognized in Accumulated other comprehensive income (loss) for the noncredit related impairments;
- A cumulative effect adjustment as of the beginning of the period of adoption to reclassify the noncredit component of a previously recognized other-than-temporary impairment from Retained earnings (deficit) to Accumulated other comprehensive income (loss); and
- Additional interim disclosures for debt and equity securities regarding types of securities held, unrealized losses, and other-than-temporary impairments.

These provisions, as included in ASC Topic 320, were adopted by the Company on April 1, 2009. As a result of implementation, the Company recognized a cumulative effect of change in accounting principle of \$151.7 after considering the effects of

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

deferred policy acquisition costs (“DAC”) and income taxes of \$(134.0) and \$46.9, respectively, as an increase to April 1, 2009 Retained earnings (deficit) with a corresponding decrease to Accumulated other comprehensive income (loss).

In addition, the Company recognized an increase in amortized cost for previously impaired securities due to the recognition of the cumulative effect of change in accounting principle as of April 1, 2009, as follows:

	<u>Change in</u> <u>Amortized Cost</u>
Fixed maturities:	
U.S. corporate, state and municipalities	\$ 47.0
Foreign	45.0
Residential mortgage-backed	14.3
Commercial mortgage-backed	88.5
Other asset-backed	44.0
Total investments, available-for-sale	<u>\$ 238.8</u>

The disclosure provisions, as included in ASC Topic 320, are presented in the Investments footnote to these consolidated financial statements.

Disclosures about Derivative Instruments and Hedging Activities

In March 2008, the FASB issued new guidance on disclosures about derivative instruments and hedging activities, included in ASC Topic 815, “Derivatives and Hedging,” which requires enhanced disclosures about objectives and strategies for using derivatives, fair value amounts of, and gains and losses on, derivative instruments, and credit-risk-related contingent features in derivative agreements, including:

- How and why derivative instruments are used;
- How derivative instruments and related hedged items are accounted for under US GAAP for derivative and hedging activities; and
- How derivative instruments and related hedged items affect an entity’s financial statements.

These provisions, as included in ASC Topic 815, were adopted by the Company on January 1, 2009 and are included in the Financial Instruments footnote to these consolidated financial statements. As the pronouncement only pertains to additional disclosure, the adoption had no effect on the Company’s financial condition, results of operations, or cash flows.

New Accounting Pronouncements

Accounting for Costs Associated with Acquiring or Renewing Insurance Contracts

In October 2010, the FASB issued ASU 2010-26, “Financial Services - Insurance (ASC Topic 944): Accounting for Costs Associated with Acquiring or Renewing Insurance Contracts” (“ASU 2010-26”), which clarifies what costs relating to the acquisition of new or renewal insurance contracts qualify for deferral. Costs that should be capitalized include (1) incremental direct costs of successful contract acquisition and (2) certain costs related directly to successful acquisition activities (underwriting, policy issuance and processing, medical and inspection, and sales force contract selling) performed by the insurer for the contract. Advertising costs should be included in deferred acquisition costs only if the capitalization criteria in the US GAAP direct-response advertising guidance are met. All other acquisition-related costs should be charged to expense as incurred.

The provisions of ASU 2010-26 are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2011, and should be applied prospectively. Retrospective application is permitted, and early adoption is permitted at the beginning of an entity’s annual reporting period. The Company is currently in the process of determining the impact of adoption of the provisions of ASU 2010-26.

Consolidation Analysis of Investments Held through Separate Accounts

In April 2010, the FASB issued ASU 2010-15, “Financial Services - Insurance (ASC Topic 944): How Investments Held through Separate Accounts Affect an Insurer’s Consolidation Analysis of Those Investments” (“ASU 2010-15”), which clarifies that an insurance entity generally should not consider any separate account interests held for the benefit of policy holders in an investment to be the insurer’s interests, and should not combine those interests with its general account interest in the same investment when assessing the investment for consolidation.

The provisions of ASU 2010-15 are effective for fiscal years and interim periods beginning after December 15, 2010. The amendments are to be applied retrospectively to all prior periods as of the date of adoption. The Company does not expect any effect on its financial condition, results of operations, or cash flows upon adoption, as the guidance is consistent with that previously applied by the Company under ASC Topic 944.

Accounting Policy Change

During the fourth quarter of 2010, the Company concluded that it should change its accounting for realized capital gains (losses) and unrealized capital gains (losses) on investments supporting experience-rated products. The impact of this change in accounting policy on the Company’s financial statements is immaterial to all periods presented. Therefore, this correction is reflected in the fourth quarter of 2010 (the period

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

in which the change was made). Certain reclassifications, which increased (decreased) Realized gains (losses) and Interest credited and other benefits by \$11.3 and \$614.4 for the years ended December 31, 2009 and 2008, respectively, were made in connection with this change, and had no impact on net income. This change in accounting policy has no impact on individual customer account values and no impact on credited rates for experience-rated products.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from reported results using those estimates.

Reclassifications

Certain reclassifications have been made to prior year financial information to conform to the current year classifications.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, certain money market instruments, and other debt issues with a maturity of 90 days or less when purchased.

Investments

All of the Company's fixed maturities, except those accounted for using the fair value option, and equity securities are currently designated as available-for-sale. Available-for-sale securities are reported at fair value and unrealized capital gains (losses) on these securities are recorded directly in Shareholder's equity, after adjustment, if any, for related changes in DAC, value of business acquired ("VOBA"), and deferred income taxes. Fixed maturities accounted for using the fair value option are reported at fair value with changes in fair value recognized in the Statement of Operations.

Other-Than-Temporary Impairments

The Company analyzes its general account investments to determine whether there has been an other-than-temporary decline in fair value below the amortized cost basis. Factors considered in this analysis include, but are not limited to, the length of time and the extent to which the fair value has been less than amortized cost, the issuer's financial condition and near-term prospects, future economic conditions and market forecasts, interest rate changes, and changes in ratings of the security.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amounts in millions, unless otherwise stated)

When assessing the Company's intent to sell a security or if it is more likely than not it will be required to sell a security before recovery of its amortized cost basis, management evaluates facts and circumstances such as, but not limited to, decisions to rebalance the investment portfolio and sales of investments to meet cash flow needs.

When the Company has determined it has the intent to sell or if it is more likely than not that it will be required to sell a security before recovery of its amortized cost basis and the fair value has declined below amortized cost ("intent impairment") the individual security is written down from amortized cost to fair value and a corresponding charge is recorded in Net realized capital gains (losses) on the Consolidated Statements of Operations as an OTTI. If the Company does not intend to sell the security nor is it more likely than not it will be required to sell the security before recovery of its amortized cost basis, but the Company has determined that there has been an other-than-temporary decline in fair value below the amortized cost basis, the OTTI is bifurcated into the amount representing the present value of the decrease in cash flows expected to be collected ("credit impairment") and the amount related to other factors ("noncredit impairment"). The credit impairment is recorded in Net realized capital gains (losses) on the Consolidated Statements of Operations. The noncredit impairment is recorded in Other comprehensive income (loss) on the Consolidated Balance Sheets.

In order to determine the amount of the OTTI that is considered a credit impairment, the Company utilizes the following methodology and significant inputs:

- Recovery value is estimated by performing a discounted cash flow analysis based upon the best estimate of expected future cash flows, discounted at the effective interest rate implicit in the underlying debt security. The effective interest rate is the current yield prior to impairment for a fixed rate security or current coupon yield for a floating rate security.
- Collectability and recoverability are estimated using the same considerations as the Company uses in its overall impairment analysis which includes, but is not limited to, the length of time and the extent to which the fair value has been less than amortized cost, the issuer's financial condition and near-term prospects, future economic conditions and market forecasts, interest rate changes, and changes in ratings of the security.
- Additional factors considered for structured securities such as RMBS, CMBS and other ABS include, but are not limited to, quality of underlying collateral, anticipated loss severities, collateral default rates, and other collateral characteristics such as vintage, repayment terms, and the geographical makeup of the collateral.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Purchases and Sales

Purchases and sales of fixed maturities and equity securities, excluding private placements, are recorded on the trade date. Purchases and sales of private placements and mortgage loans are recorded on the closing date.

Valuation of Investments and Derivatives

The Company utilizes a number of valuation methodologies to determine the fair values of its financial assets and liabilities in conformity with the concepts of “exit price” and the fair value hierarchy as prescribed in ASC Topic 820. Valuations are obtained from third party commercial pricing services, brokers, and industry-standard, vendor-provided software that models the value based on market observable inputs. The valuations obtained from brokers and third-party commercial pricing services are non-binding. The valuations are reviewed and validated monthly through the internal valuation committee price variance review, comparisons to internal pricing models, back testing to recent trades, or monitoring of trading volumes.

All valuation methods and assumptions are validated at least quarterly to ensure the accuracy and relevance of the fair values. There were no material changes to the valuation methods or assumptions used to determine fair values during 2010, except for the Company’s use of commercial pricing services to value certain collateralized mortgage obligations (“CMO-Bs”) which commenced in the first quarter of 2010. CMO-Bs were previously valued using an average of broker quotes when more than one broker quote is provided.

Fair Value Measurements

ASC Topic 820, “Fair Value Measurements and Disclosures,” defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and enhances disclosure requirements for fair value measurements.

Fair Value Hierarchy

The Company has categorized its financial instruments into a three-level hierarchy based on the priority of the inputs to the valuation technique.

The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Financial assets and liabilities recorded at fair value on the Consolidated Balance Sheets are categorized as follows:

- Level 1 - Unadjusted quoted prices for identical assets or liabilities in an active market.
- Level 2 - Quoted prices in markets that are not active or inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - a) Quoted prices for similar assets or liabilities in active markets;
 - b) Quoted prices for identical or similar assets or liabilities in non-active markets;
 - c) Inputs other than quoted market prices that are observable; and
 - d) Inputs that are derived principally from or corroborated by observable market data through correlation or other means.
- Level 3 - Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability.

The following valuation methods and assumptions were used by the Company in estimating reported values for the investments and derivatives described below:

Fixed maturities: The fair values for the actively traded marketable bonds are determined based upon the quoted market prices and are classified as Level 1 assets. Assets in this category would primarily include certain US Treasury securities. The fair values for marketable bonds without an active market, excluding subprime residential mortgage-backed securities, are obtained through several commercial pricing services, which provide the estimated fair values, and are classified as Level 2 assets. These services incorporate a variety of market observable information in their valuation techniques, including benchmark yields, broker-dealer quotes, credit quality, issuer spreads, bids, offers and other reference data. This category includes US and foreign corporate bonds, Asset-backed Securities (“ABS”), US agency and government guaranteed securities, Commercial Mortgage-backed Securities (“CMBS”), and Residential Mortgage-backed Securities (“RMBS”), including CMO-Bs.

Generally, the Company does not obtain more than one vendor price from pricing services per instrument. The Company uses a hierarchy process in which prices are obtained from a primary vendor, and, if that vendor is unable to provide the price, the next vendor in the hierarchy is contacted until a price is obtained or it is determined that a price cannot be obtained from a commercial pricing service. When a price cannot be obtained from a commercial pricing service, independent broker quotes are solicited. Securities priced using independent broker quotes are classified as Level 3.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amounts in millions, unless otherwise stated)

Broker quotes and prices obtained from pricing services are reviewed and validated monthly through an internal valuation committee price variance review, comparisons to internal pricing models, back testing to recent trades, or monitoring of trading volumes. At December 31, 2010, \$73.3 and \$13.2 billion of a total of \$17.4 billion in fixed maturities were valued using unadjusted broker quotes and unadjusted prices obtained from pricing services, respectively, and verified through the review process. The remaining balance in fixed maturities consisted primarily of privately placed bonds valued using matrix-based pricing model.

All prices and broker quotes obtained go through the review process described above including valuations for which only one broker quote is obtained. After review, for those instruments where the price is determined to be appropriate, the unadjusted price provided is used for financial statement valuation. If it is determined that the price is questionable, another price may be requested from a different vendor. The internal valuation committee then reviews all prices for the instrument again, along with information from the review, to determine which price best represents “exit price” for the instrument.

Fair values of privately placed bonds are determined using a matrix-based pricing model and are classified as Level 2 assets. The model considers the current level of risk-free interest rates, current corporate spreads, the credit quality of the issuer, and cash flow characteristics of the security. Also considered are factors such as the net worth of the borrower, the value of collateral, the capital structure of the borrower, the presence of guarantees, and the Company’s evaluation of the borrower’s ability to compete in its relevant market. Using this data, the model generates estimated market values which the Company considers reflective of the fair value of each privately placed bond.

Trading activity for the Company’s RMBS, particularly subprime and Alt-A RMBS, declined during 2008 as a result of the dislocation of the credit markets. The Company continued to obtain pricing information from commercial pricing services and brokers. However, the pricing for subprime and Alt-A RMBS did not represent regularly occurring market transactions since the trading activity declined significantly in the second half of 2008. As a result, the Company concluded in the second half of 2008 that the market for subprime and Alt-A RMBS was inactive and classified these securities as Level 3 assets. The Company did not change its valuation procedures, which are consistent with those used for Level 2 marketable bonds without an active market, as a result of determining that the market was inactive. Due to increased trade activity of Alt-A RMBS during the second half of 2009, the Company determined that the Alt-A RMBS should be transferred to Level 2 of the valuation hierarchy as its overall assessment of the market was that it was active. The market for subprime RMBS remains largely inactive, and as such these securities will remain in Level 3 of the valuation hierarchy. The Company will continue to monitor market activity for RMBS to determine proper classification in the valuation hierarchy.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Equity securities, available-for-sale: Fair values of publicly traded equity securities are based upon quoted market price and are classified as Level 1 assets. Other equity securities, typically private equities or equity securities not traded on an exchange, are valued by sources such as analytics or brokers and are classified as Level 3 assets.

Cash and cash equivalents, Short-term investments, and Short-term investments under securities loan agreement: The carrying amounts for cash reflect the assets' fair values. The fair values for cash equivalents and short-term investments are determined based on quoted market prices. These assets are classified as Level 1. Other short-term investments are valued and classified in the fair value hierarchy consistent with the policies described herein, depending on investment type.

Derivatives: The carrying amounts for these financial instruments, which can be assets or liabilities, reflect the fair value of the assets and liabilities. Derivatives are carried at fair value (on the Consolidated Balance Sheets), which is determined using the Company's derivative accounting system in conjunction with observable key financial data from third party sources, such as yield curves, exchange rates, Standard & Poor's ("S&P") 500 Index prices, and London Inter Bank Offered Rates ("LIBOR"), or through values established by third party brokers. Counterparty credit risk is considered and incorporated in the Company's valuation process through counterparty credit rating requirements and monitoring of overall exposure. It is the Company's policy to transact only with investment grade counterparties with a credit rating of A- or better. The Company's own credit risk is also considered and incorporated in the Company's valuation process. Valuations for the Company's futures contracts are based on unadjusted quoted prices from an active exchange and, therefore, are classified as Level 1. The Company also has certain credit default swaps that are priced using models that primarily use market observable inputs, but contain inputs that are not observable to market participants, which have been classified as Level 3. However, all other derivative instruments are valued based on market observable inputs and are classified as Level 2.

Product guarantees: The Company records product guarantees, which can be either assets or liabilities, for annuity contracts containing guaranteed credited rates in accordance with ASC 815. The guarantee is treated as an embedded derivative or a stand-alone derivative (depending on the underlying product) and is required to be reported at fair value. The fair value of the obligation is calculated based on the income approach as described in ASC 820. The income associated with the contracts is projected using actuarial and capital market assumptions, including benefits and related contract charges, over the anticipated life of the related contracts. The cash flow estimates are produced by using stochastic techniques under a variety of risk neutral scenarios and other best estimate assumptions. These derivatives are classified as Level 3 liabilities or assets. Explicit risk margins in the actuarial assumptions underlying valuations are included, as well as an explicit recognition of all nonperformance risks as required by US GAAP. Nonperformance risk for product guarantees contains adjustments to the fair values of these contract liabilities related to the current credit standing of ING and the

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Company based on credit default swaps with similar term to maturity and priority of payment. The ING credit default spread is applied to the discount factors for product guarantees in the Company's valuation model in order to incorporate credit risk into the fair values of these product guarantees. As of December 31, 2010, the overall value of the derivative liability decreased. This decrease was mainly due to an increase in interest rate levels, and also benefited from the change in credit spread of ING in relation to prior periods which decreased the derivative liability.

Assets held in separate accounts: Assets held in separate accounts are reported at the quoted fair values of the underlying investments in the separate accounts.

The following investments are reported at values other than fair value on the Consolidated Balance Sheets, and therefore are not categorized in the fair value hierarchy:

Mortgage loans on real estate: Mortgage loans on real estate are reported at amortized cost, less impairment write-downs and allowance for losses. If the value of any mortgage loan is determined to be impaired (i.e., when it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement), the carrying value of the mortgage loan is reduced to either the lower of the present value of expected cash flows from the loan, discounted at the loan's effective interest rate, or fair value of the collateral. For those mortgages that are determined to require foreclosure, the carrying value is reduced to the fair value of the underlying collateral, net of estimated costs to obtain and sell at the point of foreclosure. The carrying value of the impaired loans is reduced by establishing a permanent write-down recorded in Net realized capital gains (losses).

Policy loans: The reported value of policy loans is equal to the carrying, or cash surrender, value of the loans. Policy loans are fully collateralized by the account value of the associated insurance contracts.

Loan - Dutch State obligation: The reported value of the State of the Netherlands (the "Dutch State") loan obligation is based on the outstanding loan balance plus any unamortized premium.

Limited partnerships/corporations: The carrying value for these investments, primarily private equities and hedge funds, is determined based on the Company's degree of influence over the investee's operating and financial policies along with the percent of the investee that the Company owns. Those investments where the Company has determined it has significant influence are accounted for under the equity method, with the remainder accounted for under the cost method.

Fair value estimates are made at a specific point in time, based on available market information and judgments about various financial instruments, such as estimates of

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amounts in millions, unless otherwise stated)

timing and amounts of future cash flows. Such estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument, nor do they consider the tax impact of the realization of unrealized capital gains (losses). In many cases, the fair value estimates cannot be substantiated by comparison to independent markets, nor can the disclosed value be realized in immediate settlement of the instruments.

Repurchase Agreements

The Company engages in dollar repurchase agreements with mortgage-backed securities ("dollar rolls") and repurchase agreements with other collateral types to increase its return on investments and improve liquidity. Such arrangements typically meet the requirements to be accounted for as financing arrangements. The Company enters into dollar roll transactions by selling existing mortgage-backed securities and concurrently entering into an agreement to repurchase similar securities within a short time frame in the future at a lower price. Under repurchase agreements, the Company borrows cash from a counterparty at an agreed upon interest rate for an agreed upon time frame and pledges collateral in the form of securities. At the end of the agreement, the counterparty returns the collateral to the Company and the Company, in turn, repays the loan amount along with the additional agreed upon interest. Company policy requires that at all times during the term of the dollar roll and repurchase agreements that cash or other collateral types obtained is sufficient to allow the Company to fund substantially all of the cost of purchasing replacement assets. Cash collateral received is invested in short-term investments, with the offsetting collateral liability included in Borrowed money on the Consolidated Balance Sheets. At December 31, 2010, the carrying value of the securities pledged in dollar rolls and repurchase agreement transactions was \$ 216.7. At December 31, 2009, there were no securities pledged in dollar rolls and repurchase agreement transactions. The repurchase obligation related to dollar rolls and repurchase agreements, including accrued interest, totaled \$214.7 and \$0.1, respectively at December 31, 2010 and 2009, and is included in Borrowed money on the Consolidated Balance Sheets. In addition to the purchase obligation at December 31, 2010, the Company did not have any collateral posted by the counterparty in connection with the increase in the value of pledged securities that will be released upon settlement.

The Company also enters into reverse repurchase agreements. These transactions involve a purchase of securities and an agreement to sell substantially the same securities as those purchased. Company policy requires that, at all times during the term of the reverse repurchase agreements, cash or other collateral types provided is sufficient to allow the counterparty to fund substantially all of the cost of purchasing replacement assets. At December 31, 2010 and 2009, the Company did not have any securities pledged under reverse repurchase agreements.

The primary risk associated with short-term collateralized borrowings is that the counterparty will be unable to perform under the terms of the contract. The Company's

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

exposure is limited to the excess of the net replacement cost of the securities over the value of the short-term investments, an amount that was immaterial at December 31, 2010. The Company believes the counterparties to the dollar rolls, repurchase, and reverse repurchase agreements are financially responsible and that the counterparty risk is minimal.

Securities Lending

The Company engages in securities lending whereby certain securities from its portfolio are loaned to other institutions for short periods of time. Initial collateral, primarily cash, is required at a rate of 102% of the market value of the loaned domestic securities. The collateral is deposited by the borrower with a lending agent, and retained and invested by the lending agent according to the Company's guidelines to generate additional income. The market value of the loaned securities is monitored on a daily basis with additional collateral obtained or refunded as the market value of the loaned securities fluctuates. At December 31, 2010 and 2009, the fair value of loaned securities was \$651.7 and \$339.5, respectively, and is included in Securities pledged on the Consolidated Balance Sheets.

Derivatives

The Company's use of derivatives is limited mainly to economic hedging purposes to reduce the Company's exposure to cash flow variability of assets and liabilities, interest rate risk, credit risk, and market risk.

The Company enters into interest rate, equity market, credit default, and currency contracts, including swaps, caps, floors, and options, to reduce and manage risks associated with changes in value, yield, price, cash flow, or exchange rates of assets or liabilities held or intended to be held, or to assume or reduce credit exposure associated with a referenced asset, index, or pool. The Company also utilizes options and futures on equity indices to reduce and manage risks associated with its annuity products. Open derivative contracts are reported as either Derivatives or Other liabilities, as appropriate, on the Consolidated Balance Sheets. Changes in the fair value of such derivatives are recorded in Net realized capital gains (losses) in the Consolidated Statements of Operations.

If the Company's current debt and claims paying ratings were downgraded in the future, the terms in the Company's derivative agreements may be triggered, which could negatively impact overall liquidity. For the majority of the Company's counterparties, there is a termination event should the Company's long-term debt ratings drop below BBB+/Baa1.

The Company also has investments in certain fixed maturity instruments, and has issued certain products with guarantees, that contain embedded derivatives whose market value is at least partially determined by, among other things, levels of or changes in domestic

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

and/or foreign interest rates (short-term or long-term), exchange rates, prepayment rates, equity markets, or credit ratings/spreads.

Embedded derivatives within retail annuity products are included in Future policy benefits and claims reserves on the Consolidated Balance Sheets, and changes in the fair value are recorded in Interest credited and benefits to contract owners in the Consolidated Statements of Operations.

DAC and VOBA

General

DAC represents policy acquisition costs that have been capitalized and are subject to amortization. Such costs consist principally of certain commissions, underwriting, contract issuance, and certain agency expenses, related to the production of new and renewal business.

VOBA represents the outstanding value of in force business capitalized in purchase accounting when the Company was acquired and is subject to amortization. The value is based on the present value of estimated profits embedded in the Company's contracts.

US GAAP guidance for universal life and investment-type products, such as fixed and variable deferred annuities, indicates DAC and VOBA are amortized, with interest, over the life of the related contracts in relation to the present value of estimated future gross profits from investment, mortality, and expense margins, plus surrender charges.

Internal Replacements

Contract owners may periodically exchange one contract for another, or make modifications to an existing contract. Beginning January 1, 2007, these transactions are identified as internal replacements and are accounted for in accordance with US GAAP guidance for DAC related to modification or exchange of insurance contracts.

Internal replacements that are determined to result in substantially unchanged contracts are accounted for as continuations of the replaced contracts. Any costs associated with the issuance of the new contracts are considered maintenance costs and expensed as incurred. Unamortized DAC and VOBA related to the replaced contracts continue to be deferred and amortized in connection with the new contracts. Internal replacements that are determined to result in contracts that are substantially changed are accounted for as extinguishments of the replaced contracts, and any unamortized DAC and VOBA related to the replaced contracts are written off to Net amortization of deferred policy acquisition costs and value of business acquired in the Consolidated Statements of Operations.

Unlocking

Changes in assumptions can have a significant impact on DAC and VOBA balances and amortization rates. Several assumptions are considered significant in the estimation of future gross profits associated with variable deferred annuity products. One of the most significant assumptions involved in the estimation of future gross profits is the assumed return associated with the variable account performance. To reflect the volatility in the equity markets, this assumption involves a combination of near-term expectations and long-term assumptions regarding market performance. The overall return on the variable account is dependent on multiple factors, including the relative mix of the underlying sub-accounts among bond funds and equity funds, as well as equity sector weightings. Other significant assumptions include surrender and lapse rates, estimated interest spread, and estimated mortality.

Due to the relative size and sensitivity to minor changes in underlying assumptions of DAC and VOBA balances, the Company performs quarterly and annual analyses of DAC and VOBA. The DAC and VOBA balances are evaluated for recoverability.

At each evaluation date, actual historical gross profits are reflected, and estimated future gross profits and related assumptions are evaluated for continued reasonableness. Any adjustment in estimated future gross profits requires that the amortization rate be revised (“unlocking”), retroactively to the date of the policy or contract issuance. The cumulative unlocking adjustment is recognized as a component of current period amortization. In general, sustained increases in investment, mortality, and expense margins, and thus estimated future gross profits, lower the rate of amortization. Sustained decreases in investment, mortality, and expense margins, and thus estimated future gross profits, however, increase the rate of amortization.

Property and Equipment

Property and equipment are carried at cost, less accumulated depreciation. Expenditures for replacements and major improvements are capitalized; maintenance and repair expenditures are expensed as incurred.

At December 31, 2010 and 2009, total accumulated depreciation and amortization was \$102.6 and \$99.5, respectively. Depreciation on property and equipment is provided on a straight-line basis over the estimated useful lives of the assets with the exception of land and artwork, which are not depreciated or amortized. The Company’s property and equipment are depreciated using the following estimated useful lives.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Buildings	40 years
Furniture and fixtures	5 years
Leasehold improvements	10 years, or the life of the lease, whichever is shorter
Equipment	3 years
Software	3 years

Reserves

The Company records as liabilities reserves to meet the Company’s future obligations under its variable annuity and fixed annuity products.

Future policy benefits and claims reserves include reserves for deferred annuities and immediate annuities with and without life contingent payouts.

Reserves for individual and group deferred annuity investment contracts and individual immediate annuities without life contingent payouts are equal to cumulative deposits, less charges and withdrawals, plus credited interest thereon, net of adjustments for investment experience that the Company is entitled to reflect in future credited interest. Credited interest rates vary by product and range from 0% to 7.8% for the years 2010, 2009, and 2008. Reserves for group immediate annuities without life contingent payouts are equal to the discounted value of the payment at the implied break-even rate.

Reserves for individual immediate annuities with life contingent payout benefits are computed on the basis of assumed interest discount rates, mortality, and expenses, including a margin for adverse deviations. Such assumptions generally vary by annuity type plan, year of issue, and policy duration. For the years 2010, 2009, and 2008, reserve interest rates ranged from 4.5% to 6.0%.

The Company records reserves for product guarantees, which can be either assets or liabilities, for annuity contracts containing guaranteed credited rates. The guarantee is treated as an embedded derivative or a stand-alone derivative (depending on the underlying product) and is reported at fair value in accordance with the requirements of US GAAP guidance for insurance companies, derivatives, and fair value measurements. The fair value of the obligation is calculated based on the income approach. The income associated with the contracts is projected using relevant actuarial and capital market assumptions, including benefits and related contract charges, over the anticipated life of the related contracts. The cash flow estimates are produced by using stochastic techniques under a variety of risk neutral scenarios and other best estimate assumptions. Explicit risk margins in the actuarial assumptions underlying valuations are included, as well as an explicit recognition of all nonperformance risks beginning January 1, 2008 with the adoption of new US GAAP guidance on fair value measurements. Nonperformance risk for product guarantees contain adjustment to the fair value of these contract liabilities related to the current credit standing of ING and the Company based

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

on credit default swaps with similar term to maturity and priority of payment. The ING credit default spread is applied to the discount factors for product guarantees in the Company's valuation model in order to incorporate credit risk into the fair value of these product guarantees.

Unpaid claims and claim expenses for all lines of insurance include benefits for reported losses and estimates of benefits for losses incurred but not reported.

Certain variable annuities offer guaranteed minimum death benefits ("GMDB"). The GMDB is accrued in the event the contract owner account value at death is below the guaranteed value and is included in reserves.

The Company's domestic individual life insurance business was disposed of on October 1, 1998 pursuant to an indemnity reinsurance agreement. The Company includes an amount in Reinsurance recoverable on the Consolidated Balance Sheets, which equals the Company's total individual life reserves. Individual life reserves are included in Future policy benefits and claims reserves on the Consolidated Balance Sheets.

Revenue Recognition

For most annuity contracts, charges assessed against contract owner funds for the cost of insurance, surrenders, expenses, and other fees are recorded as revenue as charges are assessed. Other amounts received for these contracts are reflected as deposits and are not recorded as premiums or revenue. When annuity payments with life contingencies begin under contracts that were initially investment contracts, the accumulated balance in the account is treated as a single premium for the purchase of an annuity and reflected in both Premiums and Interest credited and other benefits to contract owners in the Consolidated Statements of Operations.

Premiums on the Consolidated Statements of Operations primarily represent amounts received for immediate annuities with life contingent payouts.

Separate Accounts

Separate account assets and liabilities generally represent funds maintained to meet specific investment objectives of contract owners who bear the investment risk, subject, in limited cases, to certain minimum guarantees. Investment income and investment gains and losses generally accrue directly to such contract owners. The assets of each account are legally segregated and are not subject to claims that arise out of any other business of the Company or its affiliates.

Separate account assets supporting variable options under variable annuity contracts are invested, as designated by the contract owner or participant (who bears the investment risk subject, in limited cases, to minimum guaranteed rates) under a contract, in shares of

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

mutual funds that are managed by the Company or its affiliates, or in other selected mutual funds not managed by the Company or its affiliates.

The Company reports separately, as assets and liabilities, investments held in the separate accounts and liabilities of separate accounts if:

- such separate accounts are legally recognized;
- assets supporting the contract liabilities are legally insulated from the Company's general account liabilities;
- investments are directed by the contractholder; and
- all investment performance, net of contract fees and assessments, is passed through to the contractholder.

The Company reports separate account assets and liabilities that meet the above criteria at fair value based on the fair value of the underlying investments. Investment income and net realized and unrealized capital gains (losses) of the separate accounts, however, are not reflected in the Consolidated Statements of Operations. The Consolidated Statements of Cash Flows do not reflect investment activity of the separate accounts.

Reinsurance

The Company utilizes indemnity reinsurance agreements to reduce its exposure to losses from GMDBs in its annuity insurance business. Reinsurance permits recovery of a portion of losses from reinsurers, although it does not discharge the Company's primary liability as the direct insurer of the risks. The Company evaluates the financial strength of potential reinsurers and continually monitors the financial strength and credit ratings of its reinsurers. Only those reinsurance recoverable balances deemed probable of recovery are reflected as assets on the Company's Consolidated Balance Sheets.

The Company has a significant concentration of reinsurance arising from the disposition of its individual life insurance business. In 1998, the Company entered into an indemnity reinsurance agreement with a subsidiary of Lincoln National Corporation ("Lincoln"). The Lincoln subsidiary established a trust to secure its obligations to the Company under the reinsurance transaction. Of the Reinsurance recoverable on the Consolidated Balance Sheets, \$2.3 billion and \$2.4 billion at December 31, 2010 and 2009, respectively, is related to the reinsurance recoverable from the subsidiary of Lincoln under this reinsurance agreement.

Income Taxes

ILIAC files a consolidated federal income tax return with ING America Insurance Holdings, Inc. ("ING AIH"), an affiliate, and certain other subsidiaries of ING AIH. ILIAC is party to a federal tax allocation agreement with ING AIH and its subsidiaries that are part of the group whereby ING AIH charges its subsidiaries for federal taxes each

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

subsidary would have incurred were it not a member of the consolidated group and credits each subsidiary for losses at the statutory federal tax rate.

2. Investments

Fixed Maturities and Equity Securities

Fixed maturities and equity securities were as follows as of December 31, 2010.

	Amortized Cost	Gross Unrealized Capital Gains	Gross Unrealized Capital Losses	OTTI ⁽²⁾	Fair Value
Fixed maturities:

At December 31, 2010 and 2009, net unrealized gains were \$954.8 a nd \$146.2, respectively, on total fixed maturities, including securities pledged to creditors, and equity securities.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The amortized cost and fair value of total fixed maturities, including securities pledged, as of December 31, 2010, are shown below by contractual maturity. Actual maturities may differ from contractual maturities as securities may be restructured, called, or prepaid.

	Amortized Cost	Fair Value
Due to mature:		
One year or less	\$ 269.4	\$ 285.7
After one year through five years	4,316.0	4,606.4
After five years through ten years	4,376.8	4,635.0
After ten years	3,788.2	3,916.9
Mortgage-backed securities	3,121.6	3,385.0
Other asset-backed securities	615.3	588.8
Fixed maturities, including securities pledged	\$ 16,487.3	\$ 17,417.8

The Company did not have any investments in a single issuer, other than obligations of the U.S. government and government agencies and the Dutch State loan obligation, with a carrying value in excess of 10% of the Company's Shareholder's equity at December 31, 2010 and 2009.

At December 31, 2010 and 2009, fixed maturities with fair values of \$13.4 and \$12.9, respectively, were on deposit as required by regulatory authorities.

The Company invests in various categories of collateralized mortgage obligations ("CMOs"), including CMOs that are not agency-backed, that are subject to different degrees of risk from changes in interest rates and defaults. The principal risks inherent in holding CMOs are prepayment and extension risks related to dramatic decreases and increases in interest rates resulting in the prepayment of principal from the underlying mortgages, either earlier or later than originally anticipated. At December 31, 2010 and 2009, approximately 36.5% and 29.4%, respectively, of the Company's CMO holdings were invested in those types of CMOs which are subject to more prepayment and extension risk than traditional CMOs, such as interest-only or principal-only strips.

Transfer of Alt-A RMBS Participation Interest

On January 26, 2009, ING announced it reached an agreement, for itself and on behalf of certain ING affiliates including the Company, with the Dutch State on an Illiquid Assets Back-Up Facility (the "Back-Up Facility") covering 80% of ING's Alt-A residential mortgage-backed securities ("Alt-A RMBS"). Under the terms of the Back-Up Facility, a full credit risk transfer to the Dutch State was realized on 80% of ING's Alt-A RMBS owned by ING Bank, FSB and ING affiliates within ING Insurance US with a book value of \$36.0 billion, including book value of \$802.5 of the Alt-A RMBS portfolio owned by the Company (with respect to the Company's portfolio, the "Designated Securities Portfolio") (the "ING-Dutch State Transaction"). As a result of the risk transfer, the

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amounts in millions, unless otherwise stated)

Dutch State will participate in 80% of any results of the ING Alt-A RMBS portfolio. The risk transfer to the Dutch State took place at a discount of approximately 10% of par value. In addition, under the Back-Up Facility, other fees were paid both by the Company and the Dutch State. Each ING company participating in the ING-Dutch State Transaction, including the Company remains the legal owner of 100% of its Alt-A RMBS portfolio and will remain exposed to 20% of any results on the portfolio. The ING-Dutch State Transaction closed March 31, 2009, with the affiliate participation conveyance and risk transfer to the Dutch State described in the succeeding paragraph taking effect as of January 26, 2009.

In order to implement that portion of the ING-Dutch State Transaction related to the Company's Designated Securities Portfolio, the Company entered into a participation agreement with its affiliates, ING Support Holding B.V. ("ING Support Holding") and ING pursuant to which the Company conveyed to ING Support Holding an 80% participation interest in its Designated Securities Portfolio and will pay a periodic transaction fee, and received, as consideration for the participation, an assignment by ING Support Holding of its right to receive payments from the Dutch State under the Illiquid Assets Back-Up Facility related to the Company's Designated Securities Portfolio among, ING, ING Support Holding and the Dutch State (the "Company Back-Up Facility"). Under the Company Back-Up Facility, the Dutch State is obligated to pay certain periodic fees and make certain periodic payments with respect to the Company's Designated Securities Portfolio, and ING Support Holding is obligated to pay a periodic guarantee fee and make periodic payments to the Dutch State equal to the distributions it receives with respect to the 80% participation interest in the Company's Designated Securities Portfolio. The Dutch State payment obligation to the Company under the Company Back-Up Facility is accounted for as a loan receivable for US GAAP and is reported in Loan - Dutch State obligation on the Consolidated Balance Sheets.

Upon the closing of the transaction on March 31, 2009, the Company recognized a gain of \$206.2, which was reported in Net realized capital gains (losses) on the Consolidated Statements of Operations.

In a second transaction, known as the Step 1 Cash Transfer, a portion of the Company's Alt-A RMBS which had a book value of \$4.2 was sold for cash to an affiliate, Lion II Custom Investments LLC ("Lion II"). Immediately thereafter, Lion II sold to ING Direct Bancorp the purchased securities (the "Step 2 Cash Transfer"). Contemporaneous with the Step 2 Cash Transfer, ING Direct Bancorp included such purchased securities as part of its Alt-A RMBS portfolio sale to the Dutch State. The Step 1 Cash Transfer closed on March 31, 2009, and the Company recognized a gain of \$0.3 contemporaneous with the closing of the ING-Dutch State Transaction, which was reported in Net realized capital gains (losses) on the Consolidated Statements of Operations.

As part of the final restructuring plan submitted to the European Commission ("EC") in connection with its review of the Dutch state aid to ING (the "Restructuring Plan"), ING

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

has agreed to make additional payments to the Dutch State corresponding to an adjustment of fees for the Back-Up Facility. Under this new agreement, the terms of the ING-Dutch State Transaction which closed on March 31, 2009, including the transfer price of the Alt-A RMBS securities, will remain unaltered and the additional payments will not be borne by the Company or any other ING U.S. subsidiaries.

Variable Interest Entities

The Company holds certain VIEs for investment purposes. VIEs may be in the form of private placement securities, structured securities, securitization transactions, or limited partnerships. The Company has reviewed each of its holdings and determined that consolidation of these investments in the Company’s financial statements is not required, as the Company is not the primary beneficiary, because the Company does not have both the power to direct the activities that most significantly impact the entity’s economic performance and the obligation or right to potentially significant losses or benefits, for any of its investments in VIEs. Rather, the VIEs are accounted for using the cost or equity method of accounting. The Company provided no non-contractual financial support and its carrying value represents the Company’s exposure to loss. The carrying value of collateralized loan obligations (“CLOs”) of \$0.6 and \$0.1 at December 31, 2010 and 2009, respectively, is included in Limited partnerships/corporations on the Consolidated Balance Sheets. Income and losses recognized on these investments are reported in Net investment income on the Consolidated Statements of Operations.

Unrealized Capital Losses

Unrealized capital losses (including non-credit impairments) in fixed maturities, including securities pledged to creditors, for Investment Grade (“IG”) and Below Investment Grade (“BIG”) securities by duration were as follows as of December 31, 2010 and 2009.

	2010				2009

During the year ended December 31, 2010, unrealized capital losses on fixed maturities decreased by \$433.4. Lower unrealized losses are due to declining yields and the overall tightening of credit spreads since the end of 2009, leading to the increased value of fixed maturities.

At December 31, 2010, the Company held 1 fixed maturity with an unrealized capital loss in excess of \$10.0. The unrealized capital loss on this fixed maturity equaled \$10.0, or 4.3% of the total unrealized capital losses, as of December 31, 2010. At December 31, 2009, the Company held 8 fixed maturities with unrealized capital losses in excess of \$10.0. The unrealized capital losses on these fixed maturities equaled \$118.2, or 17.7% of the total unrealized capital losses, as of December 31, 2009.

All investments with fair values less than amortized cost are included in the Company’s other-than-temporary impairment analysis, and impairments were recognized as disclosed in “Other-Than-Temporary Impairments,” which follows this section. After detailed impairment analysis was completed, management determined that the remaining investments in an unrealized loss position were not other-than-temporarily impaired, and therefore no further other-than-temporary impairment was necessary.

Residential mortgage-backed	18.2	24	10.9	18
Other asset-backed	19.0	15	28.1	13
Total	<u>\$ 52.1</u>	<u>41</u>	<u>\$ 39.0</u>	<u>31</u>

(1) Primarily U.S. dollar denominated.

The fair value of fixed maturities with other-than-temporary impairments as of December 31, 2010, 2009, and 2008 was \$2.0 billion, \$3.0 billion, and \$2.1 billion, respectively.

The following tables identify the amount of credit impairments on fixed maturities for the years ended December 31, 2010 and 2009, for which a portion of the OTTI was recognized in Accumulated other comprehensive income (loss), and the corresponding changes in such amounts.

	2010	2009
Balance at January 1	\$ 46.0	\$ -
Implementation of OTTI guidance included in ASC Topic 320 ⁽¹⁾	-	25.1
Additional credit impairments:		
On securities not previously impaired	12.0	13.6
On securities previously impaired	8.7	8.8
Reductions:		
Securities sold, matured, prepaid or paid down	(7.5)	(1.5)
Balance at December 31	<u>\$ 59.2</u>	<u>\$ 46.0</u>

(1) Represents credit losses remaining in Retained earnings related to the adoption of new guidance on OTTI, included in ASC Topic 320, on April 1, 2009.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Net Investment Income

Sources of Net investment income were as follows for the years ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Fixed maturities	\$ 1,182.4	\$ 1,125.7	\$ 1,019.3
Equity securities, available-for-sale	15.3	15.4	(13.2)
Mortgage loans on real estate	104.0	113.4	116.1
Real estate	-	6.6	9.0
Policy loans	13.3	13.7	14.2
Short-term investments and cash equivalents	0.8	2.4	5.8
Other	68.0	4.7	(0.1)
Gross investment income	1,383.8	1,281.9	1,151.1
Less: investment expenses	41.5	39.8	80.1
Net investment income	<u>\$ 1,342.3</u>	<u>\$ 1,242.1</u>	<u>\$ 1,071.0</u>

Net Realized Capital Gains (Losses)

Net realized capital gains (losses) are comprised of the difference between the amortized cost of investments and proceeds from sale and redemption, as well as losses incurred due to credit-related and intent-related other-than-temporary impairment of investments and changes in fair value of fixed maturities accounted for using the fair value option and derivatives. The cost of the investments on disposal is determined based on specific identification of securities. Net realized capital gains (losses) on investments were as follows for the years ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Fixed maturities, available-for-sale, including net OTTI of \$(144.5), \$(347.1), and \$(987.0) in 2010, 2009, and 2008, respectively	\$ 38.7	\$ (15.1)	\$ (1,068.9)
Fixed maturities, at fair value using the fair value option	(39.2)	57.0	6.0
Equity securities, available-for-sale, including net OTTI of \$0.0, \$(19.5), and \$(55.1) in 2010, 2009, and 2008, respectively	4.1	(2.9)	(81.0)
Derivatives	(36.6)	(267.6)	(105.0)
Other investments, including net OTTI of \$(2.6), \$(27.9), and \$(10.4) in 2010, 2009, and 2008, respectively	4.9	(16.9)	(18.7)
Net realized capital losses	<u>\$ (28.1)</u>	<u>\$ (245.5)</u>	<u>\$ (1,267.6)</u>
After-tax net realized capital gains (losses)	<u>\$ 1.5</u>	<u>\$ (67.4)</u>	<u>\$ (1,151.9)</u>

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Proceeds from the sale of fixed maturities and equity securities and the related gross realized gains and losses were as follows for the periods ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Proceeds on sales	\$ 5,312.9	\$ 4,674.6	\$ 8,426.5
Gross gains	213.6	228.5	120.0
Gross losses	27.8	87.4	234.4

3. Financial Instruments

The following tables present the Company’s hierarchy for its assets and liabilities measured at fair value on a recurring basis as of December 31, 2010 and 2009.

	2010			
	Level 1	Level 2	Level 3 ⁽¹⁾	Total
Assets:

⁽¹⁾ Level 3 net assets and liabilities accounted for 2.5% of total net assets and liabilities measured at fair value on a recurring basis. Excluding separate accounts assets for which the policyholder bears the risk, the Level 3 net assets and liabilities in relation to total net assets and liabilities measured at fair value on a recurring basis totaled 8.4%.

Transfers in and out of Level 1 and 2

Certain U.S. Treasury securities valued by commercial pricing services where prices are derived using market observable inputs have been transferred from Level 1 to Level 2. These securities for the year ended December 31, 2010, include U. S. Treasury strips of \$60.6 in which prices are modeled incorporating a variety of market observable information in their valuation techniques, including benchmark yields, broker-dealer quotes, credit quality, issuer spreads, bids, offers and other reference data. The Company’s policy is to recognize transfers in and transfers out as of the beginning of the reporting period.

Valuation of Financial Assets and Liabilities

As described below, certain assets and liabilities are measured at estimated fair value on the Company's Consolidated Balance Sheets. In addition, further disclosure of estimated fair values is included in this Financial Instruments footnote. The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The exit price and the transaction (or entry) price will be the same at initial recognition in many circumstances. However, in certain cases, the transaction price may not represent fair value. The fair value of a liability is based on the amount that would be paid to transfer a liability to a third-party with an equal credit standing. Fair value is required to be a market-based measurement which is determined based on a hypothetical transaction at the measurement date, from a market participant's perspective. The Company considers three broad valuation techniques when a quoted price is unavailable: (i) the market approach, (ii) the income approach and (iii) the cost approach. The Company determines the most appropriate valuation technique to use, given the instrument being measured and the availability of sufficient inputs. The Company prioritizes the inputs to fair valuation techniques and allows for the use of unobservable inputs to the extent that observable inputs are not available.

The Company utilizes a number of valuation methodologies to determine the fair values of its financial assets and liabilities in conformity with the concepts of "exit price" and the fair value hierarchy as prescribed in ASC Topic 820. Valuations are obtained from third party commercial pricing services, brokers, and industry-standard, vendor-provided software that models the value based on market observable inputs. The valuations obtained from brokers and third party commercial pricing services are non-binding. The valuations are reviewed and validated monthly through the internal valuation committee price variance review, comparisons to internal pricing models, back testing to recent trades, or monitoring of trading volumes.

All valuation methods and assumptions are validated at least quarterly to ensure the accuracy and relevance of the fair values. There were no material changes to the valuation methods or assumptions used to determine fair values during 2010, except for the Company's use of commercial pricing services to value CMO-Bs which commenced in the first quarter of 2010. CMO-Bs were previously valued using an average of broker quotes when more than one broker quote is provided.

Level 3 Financial Instruments

The fair values of certain assets and liabilities are determined using prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement (i.e., Level 3 as defined by ASC 820), including but not limited to liquidity spreads for investments within markets deemed not currently active. These

ING Life Insurance and Annuity Company and Subsidiaries

Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability. In addition, the Company has determined, for certain financial instruments, an active market is such a significant input to determine fair value that the presence of an inactive market may lead to classification in Level 3. In light of the methodologies employed to obtain the fair value of financial assets and liabilities classified as Level 3, additional information is presented below, with particular attention addressed to the reserves for product guarantees due to the impact on the Company's results of operations.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The transfers out of Level 3 during the year ended December 31, 2010 in fixed maturities, including securities pledged, are primarily due to the Company’s use of commercial pricing services to value CMO-Bs. These services incorporate a variety of market observable information in their valuation techniques, including benchmark yields, broker-dealer quotes, credit quality, issuer spreads, bids, offers and other reference data and have been classified as Level 2. The CMO-Bs had previously been valued by using the average of broker quotes when more than one broker quote is provided.

The remaining transfers in and out of Level 3 for fixed maturities, equity securities and separate accounts during the year ended December 31, 2010 are due to the variation in inputs relied upon for valuation each quarter. Securities that are primarily valued using independent broker quotes when prices are not available from one of the commercial pricing services are reflected as transfers into Level 3, as these securities are generally less liquid with very limited trading activity or where less transparency exists corroborating the inputs to the valuation methodologies. When securities are valued using more widely available information, the securities are transferred out of Level 3 and into Level 1 or 2, as appropriate.

The carrying values and estimated fair values of certain of the Company’s financial instruments were as follows at December 31, 2010 and 2009.

	2010		2009	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Assets:				
Fixed maturities, available-for-sale, including securities pledged	\$ 16,964.4	\$ 16,964.4	\$ 15,375.5	\$ 15,375.5

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The following disclosures are made in accordance with the requirements of ASC Topic 825 which requires disclosure of fair value information about financial instruments, whether or not recognized in the balance sheet, for which it is practicable to estimate that value. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates, in many cases, could not be realized in immediate settlement of the instrument.

ASC Topic 825 excludes certain financial instruments, including insurance contracts, and all nonfinancial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented do not represent the underlying value of the Company.

The following valuation methods and assumptions were used by the Company in estimating the fair value of the following financial instruments which are not carried at fair value on the Consolidated Balance Sheets, and therefore not categorized in the fair value hierarchy:

Limited partnerships/corporations: The fair value for these investments, primarily private equities and hedge funds, is estimated based on the Net Asset Value (“NAV”) as provided by the investee.

Mortgage loans on real estate: The fair values for mortgage loans on real estate are estimated using discounted cash flow analyses and rates currently being offered in the marketplace for similar loans to borrowers with similar credit ratings. Loans with similar characteristics are aggregated for purposes of the calculations.

Loan - Dutch State obligation: The fair value of the Dutch State loan obligation is estimated utilizing discounted cash flows from the Dutch Strip Yield Curve.

Policy loans: The fair value of policy loans is equal to the carrying, or cash surrender, value of the loans. Policy loans are fully collateralized by the account value of the associated insurance contracts.

Investment contract liabilities (included in Future policy benefits and claims reserves):

With a fixed maturity: Fair value is estimated by discounting cash flows, including associated expenses for maintaining the contracts, at rates, which are market risk-free rates augmented by credit spreads on current Company credit default swaps. The augmentation is present to account for non-performance risk. A margin for nonfinancial risks associated with the contracts is also included.

Without a fixed maturity: Fair value is estimated as the mean present value of stochastically modeled cash flows associated with the contract liabilities relevant to both the contractholder and to the Company. Here, the stochastic valuation scenario set is consistent with current market parameters, and discount is taken using stochastically evolving short risk-free rates in the scenarios augmented by credit spreads on current Company debt. The augmentation in the discount is present to account for non-performance risk. Margins for non-financial risks associated with the contract liabilities are also included.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Notes receivable from affiliates: Estimated fair value of the Company's notes receivable from affiliates is based upon discounted future cash flows using a discount rate approximating the current market rate.

Fair value estimates are made at a specific point in time, based on available market information and judgments about various financial instruments, such as estimates of timing and amounts of future cash flows. Such estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument, nor do they consider the tax impact of the realization of unrealized capital gains (losses). In many cases, the fair value estimates cannot be substantiated by comparison to independent markets, nor can the disclosed value be realized in immediate settlement of the instruments. In evaluating the Company's management of interest rate, price, and liquidity risks, the fair values of all assets and liabilities should be taken into consideration, not only those presented above.

Mortgage Loans on Real Estate

The Company's mortgage loans on real estate are summarized as follows at December 31, 2010 and 2009.

	2010	2009
	Carrying Value	Carrying Value
Total commercial mortgage loans	\$ 1,844.1	\$ 1,876.5
Collective valuation allowance	(1.3)	(2.0)
Total net commercial mortgage loans	<u>\$ 1,842.8</u>	<u>\$ 1,874.5</u>

As of December 31, 2010, all commercial mortgage loans are held-for-investment. The Company diversifies its commercial mortgage loan portfolio by geographic region and property type to reduce concentration risk. The Company manages risk when originating commercial mortgage loans by generally lending only up to 75% of the estimated fair value of the underlying real estate. All mortgage loans are evaluated by seasoned underwriters, including an appraisal of loan-specific credit quality, property characteristics, and market trends, and assigned a quality rating using the Company's internally developed quality rating system. Loan performance is continuously monitored on a loan-specific basis through the review of borrower's submitted appraisals, operating statements, rent revenues and annual inspection reports, among other items. This review ensures properties are performing at a consistent and acceptable level to secure the debt.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The Company has established a collective valuation allowance for probable incurred, but not specifically identified, losses related to factors inherent in the lending process. The changes in the valuation allowance were as follows for the years ended December 31, 2010 and 2009.

	2010 Carrying Value	2009 Carrying Value
Collective valuation allowance for losses, beginning of year ⁽¹⁾	\$ 2.0	\$ -
Addition to / (release of) allowance for losses	(0.7)	2.0
Collective valuation allowance for losses, end of year	<u>\$ 1.3</u>	<u>\$ 2.0</u>

⁽¹⁾ Allowance was not recorded prior to 2009.

As indicators of credit quality, the commercial mortgage loan portfolio is the recorded investment, excluding collective valuation allowances, by the indicated loan-to-value ratio and debt service coverage ratio, as reflected in the following tables at December 31, 2010 and 2009.

	2010 ⁽¹⁾	2009 ⁽¹⁾
Loan-to-Value Ratio:		
0% - 50%	\$ 536.4	\$ 569.0
50% - 60%	564.6	562.9
60% - 70%	610.1	593.6
70% - 80%	113.9	130.4
80% - 90%	19.1	20.6
Total Commercial Mortgage Loans	<u>\$ 1,844.1</u>	<u>\$ 1,876.5</u>

⁽¹⁾ Balances do not include allowance for mortgage loan credit losses.

	2010 ⁽¹⁾	2009 ⁽¹⁾
Debt Service Coverage Ratio:		
Greater than 1.5x	\$ 1,270.0	\$ 1,233.9
1.25x - 1.5x	182.1	229.6
1.0x - 1.25x	191.8	152.6
Less than 1.0x	137.4	195.4
Mortgages secured by loans on land or construction loans	62.8	65.0
Total Commercial Mortgage Loans	<u>\$ 1,844.1</u>	<u>\$ 1,876.5</u>

⁽¹⁾ Balances do not include allowance for mortgage loan credit losses.

The Company believes it has a high quality mortgage loan portfolio with 100% of commercial mortgages classified as performing. The Company defines delinquent commercial mortgage loans consistent with industry practice as 60 days past due. As of December 31, 2010, there were no commercial loans classified as delinquent. The Company’s policy is to recognize interest income until a loan becomes 90 days delinquent or foreclosure proceedings are commenced, at which point interest accrual is discontinued. Interest accrual is not resumed until past due payments are brought current. At December 31, 2010, there were no commercial mortgage loans on nonaccrual status.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

All commercial mortgages are rated for the purpose of quantifying the level of risk. Those loans with higher risk are placed on a watch list and are closely monitored for collateral deficiency or other credit events that may lead to a potential loss of principal or interest. If the value of any mortgage loan is determined to be impaired (i.e., when it is probable that the Company will be unable to collect on all amounts due according to the contractual terms of the loan agreement), the carrying value of the mortgage loan is reduced to either the present value of expected cash flows from the loan, discounted at the loan's effective interest rate, or fair value of the collateral.

The carrying values and unpaid principal balances (prior to any charge-off) of impaired commercial mortgage loans were as follows for the years ended December 31, 2010 and 2009.

	2010	2009
	Carrying Value	Carrying Value
Impaired loans without valuation allowances	\$ 9.5	\$ 26.8
Unpaid principle balance of impaired loans	\$ 12.0	\$ 34.9

Derivative Financial Instruments

See the Organization and Significant Accounting Policies footnote for disclosure regarding the Company's purpose for entering into derivatives and the policies on valuation and classification of derivatives. In addition, the Company's derivatives are generally not accounted for using hedge accounting treatment under US GAAP, as the Company has not historically sought hedge accounting treatment. The Company enters into the following derivatives:

Interest rate caps: Interest rate caps are used to manage the interest rate risk in the Company's fixed maturity portfolio. Interest rate caps are purchased contracts that are used by the Company to hedge annuity products against rising interest rates.

Interest rate swaps: Interest rate swaps are used to manage the interest rate risk in the Company's fixed maturity portfolio, as well as the Company's liabilities. Interest rate swaps represent contracts that require the exchange of cash flows at regular interim periods, typically monthly or quarterly.

Foreign exchange swaps: Foreign exchange swaps are used to reduce the risk of a change in the value, yield, or cash flow with respect to invested assets. Foreign exchange swaps represent contracts that require the exchange of foreign currency cash flows for U.S. dollar cash flows at regular interim periods, typically quarterly or semi-annually.

Credit default swaps: Credit default swaps are used to reduce the credit loss exposure with respect to certain assets that the Company owns, or to assume credit exposure on certain assets that the Company does not own. Payments are made to or received from the counterparty at specified intervals and amounts for the purchase or sale of credit protection. In the event of a default on the underlying credit exposure, the Company will either receive an additional payment (purchased credit protection) or will be required to make an additional payment (sold credit protection) equal to par minus recovery value of the swap contract.

Forwards: Certain forwards are acquired to hedge the Company’s CM O-B portfolio against movements in interest rates, particularly mortgage rates. On the settlement date, the Company will either receive a payment (interest rate drops on owned forwards or interest rate rises on purchased forwards) or will be required to make a payment (interest rate rises on owned forwards or interest rate drops on purchased forwards).

Futures: Futures contracts are used to hedge against a decrease in certain equity indices. Such decreases may result in a decrease in variable annuity account values, which would increase the possibility of the Company incurring an expense for guaranteed benefits in excess of account values. A decrease in variable annuity account values would also result in lower fee income. A decrease in equity markets may also negatively impact the Company’s investment in equity securities. The futures income would serve to offset these effects. Futures contracts are also used to hedge against an increase in certain equity indices. Such increases may result in increased payments to contract holders of fixed indexed annuity contracts, and the futures income would serve to offset this increased expense.

Swaptions: Swaptions are used to manage interest rate risk in the Company’s collateralized mortgage obligations portfolio. Swaptions are contracts that give the Company the option to enter into an interest rate swap at a specific future date.

Managed Custody Guarantees: The Company issued certain credited rate guarantees on externally managed variable bond funds that represent stand alone derivatives. The market value is partially determined by, among other things, levels of or changes in interest rates, prepayment rates, and credit ratings/spreads.

Embedded derivatives: The Company also has investments in certain fixed maturity instruments, and has issued certain retail annuity products, that contain embedded derivatives whose market value is at least partially determined by, among other things, levels of or changes in domestic and/or foreign interest rates (short-term or long-term), exchange rates, prepayment rates, equity rates, or credit ratings/spreads.

⁽²⁾ Changes in value are included in Interest credited and other benefits to contract owners on the Consolidated Statements of Operations.

Credit Default Swaps

The Company has entered into various credit default swaps. When credit default swaps are sold, the Company assumes credit exposure to certain assets that it does not own.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Credit default swaps may also be purchased to reduce credit exposure in the Company’s portfolio. Credit default swaps involve a transfer of credit risk from one party to another in exchange for periodic payments. These instruments are typically written for a maturity period of five years and do not contain recourse provisions, which would enable the seller to recover from third parties. The Company has International Swaps and Derivatives Associations, Inc. (“ISDA”) agreements with each counterparty with which it conducts business and tracks the collateral positions for each counterparty. To the extent cash collateral is received, it is included in Payables under securities loan agreement, including collateral held, on the Consolidated Balance Sheets and is reinvested in short-term investments. Collateral held is used in accordance with the Credit Support Annex (“CSA”) to satisfy any obligations. Investment grade bonds owned by the Company are the source of non-cash collateral posted, which is reported in Securities pledged on the Consolidated Balance Sheets. In the event of a default on the underlying credit exposure, the Company will either receive an additional payment (purchased credit protection) or will be required to make an additional payment (sold credit protection) equal to par minus recovery value of the swap contract. At December 31, 2010, the fair value of credit default swaps of \$6.7 and \$14.7 was included in Derivatives and Other liabilities, respectively, on the Consolidated Balance Sheets. At December 31, 2009, the fair value of credit default swaps of \$0.2 and \$53.5 was included in Derivatives and Other liabilities, respectively, on the Consolidated Balance Sheets. As of December 31, 2010 and 2009, the maximum potential future exposure to the Company on the sale of credit protection under credit default swaps was \$625.6 and \$84.4, respectively.

4. Deferred Policy Acquisition Costs and Value of Business Acquired

Activity within DAC was as follows for the years ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Balance at January 1	\$ 901.8	\$ 865.5	\$ 728.6
Deferrals of commissions and expenses	142.2	108.2	168.7
Amortization:			
Amortization	(77.0)	(39.3)	(112.5)
Interest accrued at 5.5% to 7%	64.6	58.0	50.6
Net amortization included in Consolidated Statements of Operations	(12.4)	18.7	(61.9)
Change in unrealized capital gains/losses on available-for-sale securities	(8.6)	(90.6)	30.1
Balance at December 31	<u>\$ 1,023.0</u>	<u>\$ 901.8</u>	<u>\$ 865.5</u>

The estimated amount of DAC amortization expense, net of interest, is \$38.4, \$57.8, \$56.8, \$55.5, and \$55.3, for the years 2011, 2012, 2013, 2014, and 2015, respectively. Actual amortization incurred during these years may vary as assumptions are modified to incorporate actual results.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Activity within VOBA was as follows for the years ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Balance at January 1	\$ 991.5	\$ 1,832.5	\$ 1,253.2
Deferrals of commissions and expenses	23.6	40.4	33.3
Amortization:			
Amortization	(8.7)	(170.5)	(144.2)
Interest accrued at 5.5% to 7%	74.3	72.2	77.2
Net amortization included in Consolidated Statements of Operations	65.6	(98.3)	(67.0)
Change in unrealized capital gains/losses on available-for-sale securities	(364.3)	(783.1)	613.0
Balance at December 31	<u>\$ 716.4</u>	<u>\$ 991.5</u>	<u>\$ 1,832.5</u>

The estimated amount of VOBA amortization expense, net of interest, is \$50.0, \$72.3, \$69.5, \$64.2, and \$61.2, for the years 2011, 2012, 2013, 2014, and 2015, respectively. Actual amortization incurred during these years may vary as assumptions are modified to incorporate actual results.

5. Capital Contributions, Dividends and Statutory Information

ILIAC’s ability to pay dividends to its parent is subject to the prior approval of insurance regulatory authorities of the State of Connecticut for payment of any dividend, which, when combined with other dividends paid within the preceding twelve months, exceeds the greater of (1) ten percent (10.0%) of ILIAC’s earned statutory surplus at the prior year end or (2) ILIAC’s prior year statutory net gain from operations.

During the year ended December 31, 2010, ILIAC paid a \$203.0 dividend on its common stock to its Parent. During the years ended December 31, 2009 and 2008, ILIAC did not pay any dividends on its common stock to its Parent. On October 30, 2010, IFA paid a \$60.0 dividend to ILIAC, its parent, which was eliminated in consolidation.

During the year ended December 31, 2010, ILIAC did not receive any capital contributions from its Parent. On November 12, 2008, ING issued to The State of the Netherlands (the “Dutch State”) non-voting Tier 1 securities for a total consideration of EUR 10 billion. On February 24, 2009, \$2.2 billion was contributed to direct and indirect insurance company subsidiaries of ING America Insurance Holdings, Inc. (“ING AIH”), of which \$365.0 was contributed to the Company. The contribution was comprised of the proceeds from the investment by the Dutch State and the redistribution of currently existing capital within ING. During 2008, ILIAC did not receive any cash capital contributions from Lion.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amounts in millions, unless otherwise stated)

On February 18, 2011, ILIAC received a \$150.0 capital contribution from its Parent as part of the redistribution of currently existing capital within ING US Insurance Operations.

The State of Connecticut Insurance Department (the “Department”) recognizes as net income and capital and surplus those amounts determined in conformity with statutory accounting practices prescribed or permitted by the Department, which differ in certain respects from accounting principles generally accepted in the United States. Statutory net income (loss) was \$66.0, \$271.6, and \$(428.4), for the years ended December 31, 2010, 2009, and 2008, respectively. Statutory capital and surplus was \$1.7 billion and \$1.8 billion as of December 31, 2010 and 2009, respectively. As specifically prescribed by statutory accounting practices, statutory surplus as of December 31, 2010 included the impact of the \$150.0 capital contribution received by ILIAC from its Parent on February 18, 2011.

Effective December 31, 2009, the Company adopted Actuarial Guideline 43 – Variable Annuity Commissioners Annuity Reserve Valuation Method (“AG43”) for its statutory basis of accounting. The adoption of AG43 resulted in higher reserves than those calculated under previous standards by \$97.9. Where the application of AG43 produces higher reserves than the Company had otherwise established under previous standards, the Company may request permission from the Department to grade-in the impact of higher reserve over a three year period. The Company elected this grade-in provision, as allowed under AG43 and as approved by the Department, which allows the Company to reflect the impact of adoption of \$97.9 over a three year period. The impact of the grade-in for the years ended December 31, 2010 and 2009 was a \$23.0 and \$32.6, respectively, increase in reserves and a corresponding decrease in statutory surplus.

Effective December 31, 2009, the Company adopted SSAP No. 10R, Income Taxes, for its statutory basis of accounting. This statement requires the Company to calculate admitted deferred tax assets based upon what is expected to reverse within one year with a cap on the admitted portion of the deferred tax asset of 10% of capital and surplus for its most recently filed statement. If the Company’s risk-based capital (“RBC”) levels, after reflecting the above limitation, exceeds 250% of the authorized control level, the statement increases the limitation on admitted deferred tax assets from what is expected to reverse in one year to what is expected to reverse over the next three years and increases the cap on the admitted portion of the deferred tax asset from 10% of capital and surplus for its most recently filed statement to 15%. Other revisions in the statement include requiring the Company to reduce the gross deferred tax asset by a statutory valuation allowance adjustment if, based on the weight of available evidence, it is more likely than not (a likelihood of more than 50%) that some portion of or all of the gross deferred tax assets will not be realized. To temper this positive RBC impact, and as a temporary measure at December 31, 2009 only, a 5% pre-tax RBC charge must be applied to the additional admitted deferred tax assets generated by SSAP 10R. The adoption for 2009 had a December 31, 2009 sunset; however, during 2010, the 2009

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

adoption, including the 5% pre-tax RBC charge, was extended through December 31, 2011. The effects on the Company’s statutory financial statements of adopting this change in accounting principle were increases to total assets and capital and surplus of \$68.9 and \$51.1 as of December 31, 2010 and 2009, respectively. This adoption had no impact on total liabilities or net income.

6. Additional Insurance Benefits and Minimum Guarantees

The Company calculates an additional liability for certain GMDBs and other minimum guarantees in order to recognize the expected value of these benefits in excess of the projected account balance over the accumulation period based on total expected assessments.

The Company regularly evaluates estimates used to adjust the additional liability balance, with a related charge or credit to benefit expense, if actual experience or other evidence suggests that earlier assumptions should be revised.

As of December 31, 2010, the separate account liability for guaranteed minimum benefits and the additional liability recognized related to minimum guarantees were \$6.1 billion and \$4.4, respectively. As of December 31, 2009, the separate account liability for guaranteed minimum benefits and the additional liability recognized related to minimum guarantees were \$6.9 billion and \$3.6, respectively.

The aggregate fair value of equity securities, including mutual funds, supporting separate accounts with additional insurance benefits and minimum investment return guarantees as of December 31, 2010 and 2009, was \$6.1 billion and \$6.9 billion, respectively.

7. Income Taxes

Income taxes expense (benefit) consisted of the following for the years ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Current tax expense (benefit):			
Federal	\$ 73.2	\$ 27.5	\$ (121.8)
State	-	(0.9)	(18.1)
Total current tax expense (benefit)	73.2	26.6	(139.9)
Deferred tax expense:			
Federal	67.6	23.0	31.6
Total deferred tax expense	67.6	23.0	31.6
Total income tax expense (benefit)	\$ 140.8	\$ 49.6	\$ (108.3)

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Income taxes were different from the amount computed by applying the federal income tax rate to income before income taxes for the following reasons for the years ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Income (loss) before income taxes	\$ 577.7	\$ 403.5	\$ (1,138.5)
Tax rate	35.0%	35.0%	35.0%
Income tax expense (benefit) at federal statutory rate	202.2	141.2	(398.5)
Tax effect of:			
Dividend received deduction	(23.3)	(2.6)	(15.5)
IRS audit settlement	(26.8)	(0.1)	(10.1)
State audit settlement	-	(1.2)	(12.6)
State tax expense	0.6	0.1	1.3
Tax valuation allowance	(13.7)	(92.2)	333.0
Other	1.8	4.4	(5.9)
Income tax expense (benefit)	<u>\$ 140.8</u>	<u>\$ 49.6</u>	<u>\$ (108.3)</u>

Temporary Differences

The tax effects of temporary differences that give rise to Deferred tax assets and Deferred tax liabilities at December 31, 2010 and 2009, are presented below.

	2010	2009
Deferred tax assets:		
Insurance reserves	\$ 187.1	\$ 140.7
Investments	112.5	286.7
Postemployment benefits	83.7	73.5
Compensation	45.9	46.3
Other	22.1	9.5
Total gross assets before valuation allowance	451.3	556.7
Less: valuation allowance	(120.1)	(202.5)
Assets, net of valuation allowance	331.2	354.2
Deferred tax liabilities:		
Net unrealized gain	(71.9)	(55.3)
Value of business acquired	(410.5)	(379.2)
Deferred policy acquisition costs	(315.7)	(270.9)
Total gross liabilities	(798.1)	(705.4)
Net deferred income tax liability	<u>\$ (466.9)</u>	<u>\$ (351.2)</u>

Net unrealized capital gains and losses are presented as a component of other comprehensive income (loss) in Shareholder’s equity, net of deferred taxes.

Valuation allowances are provided when it is considered unlikely that deferred tax assets will be realized. At December 31, 2010 and 2009, the Company had a tax valuation allowance of \$109.0 and \$197.5, respectively, related to capital losses. As of December 31, 2010 and 2009, the Company had full tax valuation allowances of \$11.1

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

and \$5.0, respectively, related to foreign tax credits, the benefit of which is uncertain. The change in net unrealized capital gains (losses) includes an increase (decrease) in the tax valuation allowance of \$(68.7), \$(38.2), and \$(6.4) for the years ended December 31, 2010, 2009, and 2008, respectively.

Tax Sharing Agreement

Under the intercompany tax sharing agreement, ILIAC has a payable to and a receivable from ING AIH of \$49.3 and \$23.9 for federal income taxes as of December 31, 2010 and 2009, respectively.

See Related Party Transactions footnote for more information.

Unrecognized Tax Benefits

Reconciliations of the change in the unrecognized income tax benefits for the periods ended December 31, 2010 and 2009 are as follows:

	2010	2009
Balance at beginning of period	\$ 12.8	\$ 22.1
Additions for tax positions related to current year	-	0.9
Additions for tax positions related to prior years	36.2	3.5
Reductions for tax positions related to prior years	(25.8)	(13.3)
Reductions for settlements with taxing authorities	(0.2)	(0.4)
Balance at end of period	<u>\$ 23.0</u>	<u>\$ 12.8</u>

The Company had \$0.0 and \$24.8 of unrecognized tax benefits as of December 31, 2010 and 2009, respectively, which would affect the Company’s effective tax rate if recognized.

Interest and Penalties

The Company recognizes accrued interest and penalties related to unrecognized tax benefits in current income taxes and income tax expense (benefit) on the Balance Sheet and the Statement of Operations, respectively. The Company had accrued interest of \$0.0 and \$3.3 as of December 31, 2010 and 2009, respectively. The decrease in accrued interest during the year ended December 31, 2010 is primarily related to the settlement of the 2004 through 2008 federal audits.

Tax Regulatory Matters

In September 2010, the Internal Revenue Service (“IRS”) completed its examination of the Company’s returns through tax year 2008. The provision for the year ended December 31, 2010 reflected non-recurring favorable adjustments, resulting from a

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

reduction in the tax liability that was no longer deemed necessary based on the results of the IRS examination, monitoring the activities of the IRS with respect to certain issues with other taxpayers and the merits of the Company's positions.

The Company is currently under audit by the IRS and has agreed to participate in the Compliance Assurance Program ("CAP") for tax years 2009 and 2010. It is anticipated that the IRS audit of the 2009 tax year will be finalized within the next twelve months. Upon finalization of the IRS examination, it is reasonably possible that the unrecognized tax benefits will decrease by up to \$23.0.

8. Benefit Plans

Defined Benefit Plan

ING North America Insurance Corporation ("ING North America") sponsors the ING Americas Retirement Plan (the "Retirement Plan"), effective as of December 31, 2001. Substantially all employees of ING North America and its affiliates (excluding certain employees) are eligible to participate, including the Company's employees other than Company agents. The Retirement Plan was amended and restated effective January 1, 2008. The Retirement Plan was amended on July 1, 2008, related to the admission of the employees from the acquisition of CitiStreet LLC ("CitiStreet") by Lion, and ING North America filed a request for a determination letter on the qualified status of the Retirement Plan, but has not yet received a favorable determination letter. Additionally, effective January 1, 2009, the Retirement Plan was amended to provide that anyone hired or rehired by the Company on or after January 1, 2009, would not be eligible to participate in the Retirement Plan.

The Retirement Plan is a tax-qualified defined benefit plan, the benefits of which are guaranteed (within certain specified legal limits) by the Pension Benefit Guaranty Corporation ("PBGC"). As of January 1, 2002, each participant in the Retirement Plan earns a benefit under a final average compensation formula. Subsequent to December 31, 2001, ING North America is responsible for all Retirement Plan liabilities. The costs allocated to the Company for its employees' participation in the Retirement Plan were \$27.2, \$22.3, and \$14.0 for the years ended December 31, 2010, 2009, and 2008, respectively, and are included in Operating expenses in the Consolidated Statements of Operations.

Defined Contribution Plan

ING North America sponsors the ING Americas Savings Plan and ESOP (the "Savings Plan"). Substantially all employees of ING North America and its affiliates (excluding certain employees, including but not limited to Career Agents) are eligible to participate, including the Company's employees other than Company agents. Career Agents are certain, full-time insurance salespeople who have entered into a career agent agreement

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amounts in millions, unless otherwise stated)

with the Company and certain other individuals who meet specified eligibility criteria. The Savings Plan is a tax-qualified defined contribution retirement plan, which includes an employee stock ownership plan (“ESOP”) component. The Savings Plan was amended and restated effective January 1, 2008 and subsequently amended on July 1, 2008, with respect to the admission of employees from the acquisition of CitiStreet by Lion. The Savings Plan was most recently amended effective January 1, 2011 to permit Roth 401(k) contributions to be made to the Plan. ING North America filed a request for a determination letter on the qualified status of the Plan and received a favorable determination letter dated May 19, 2009. Savings Plan benefits are not guaranteed by the PBGC. The Savings Plan allows eligible participants to defer into the Savings Plan a specified percentage of eligible compensation on a pre-tax basis. ING North America matches such pre-tax contributions, up to a maximum of 6.0% of eligible compensation. Matching contributions are subject to a 4-year graded vesting schedule (although certain specified participants are subject to a 5-year graded vesting schedule). All contributions made to the Savings Plan are subject to certain limits imposed by applicable law. The cost allocated to the Company for the Savings Plan were \$10.7, \$8.9, and \$10.3, for the years ended December 31, 2010, 2009, and 2008, respectively, and are included in Operating expenses in the Consolidated Statements of Operations.

Non-Qualified Retirement Plans

Through December 31, 2001, the Company, in conjunction with ING North America, offered certain eligible employees (other than Career Agents) a Supplemental Executive Retirement Plan and an Excess Plan (collectively, the “SERPs”). Benefit accruals under Aetna Financial Services SERPs ceased, effective as of December 31, 2001 and participants begin accruing benefits under ING North America SERPs. Benefits under the SERPs are determined based on an eligible employee’s years of service and average annual compensation for the highest five years during the last ten years of employment.

The Company, in conjunction with ING North America, sponsors the Pension Plan for Certain Producers of ING Life Insurance and Annuity Company (formerly the Pension Plan for Certain Producers of Aetna Life Insurance and Annuity Company) (the “Agents Non-Qualified Plan”). This plan covers certain full-time insurance salespeople who have entered into a career agent agreement with the Company and certain other individuals who meet the eligibility criteria specified in the plan (“Career Agents”). The Agents Non-Qualified Plan was terminated effective January 1, 2002. In connection with the termination, all benefit accruals ceased and all accrued benefits were frozen.

The SERPs and Agents Non-Qualified Plan, are non-qualified defined benefit pension plans, which means all the SERPs benefits are payable from the general assets of the Company and Agents Non-Qualified Plan benefits are payable from the general assets of the Company and ING North America. These non-qualified defined benefit pension plans are not guaranteed by the PBGC.

(Dollar amounts in millions, unless otherwise stated)

Obligations and Funded Status

The following table summarizes the benefit obligations, fair value of plan assets, and funded status, for the SERPs and Agents Non-Qualified Plan, for the years ended December 31, 2010 and 2009.

	2010	2009
Change in Projected Benefit Obligation:		
Projected benefit obligation, January 1	\$ 90.2	\$ 94.9
Interest cost	5.1	5.3
Benefits paid	(10.1)	(13.4)
Actuarial gain on obligation	11.6	3.4
Projected benefit obligation, December 31	<u>\$ 96.8</u>	<u>\$ 90.2</u>
Fair Value of Plan Assets:		
Fair value of plan assets, December 31	<u>\$ -</u>	<u>\$ -</u>

Amounts recognized in the Consolidated Balance Sheets consist of:

	2010	2009
Accrued benefit cost	\$ (96.8)	\$ (90.2)
Accumulated other comprehensive income	30.0	21.1
Net amount recognized	<u>\$ (66.8)</u>	<u>\$ (69.1)</u>

Assumptions

The weighted-average assumptions used in the measurement of the December 31, 2010 and 2009 benefit obligation for the SERPs and Agents Non-Qualified Plan, were as follows:

	2010	2009
Discount rate at end of period	5.50%	6.00%
Rate of compensation increase	3.00%	1.50%

In determining the discount rate assumption, the Company utilizes current market information provided by its plan actuaries (particularly the Citigroup Pension Discount Curve Liability Index), including a discounted cash flow analysis of the Company’s pension obligation and general movements in the current market environment. The discount rate modeling process involves selecting a portfolio of high quality, noncallable bonds that will match the cash flows of the Retirement Plan. Based upon all available information, it was determined that 5.5% was the appropriate discount rate as of December 31, 2010, to calculate the Company’s accrued benefit liability.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The weighted-average assumptions used in calculating the net pension cost were as follows:

	2010	2009	2008
Discount rate	6.00%	6.00%	6.50%
Rate of increase in compensation levels	3.00%	1.50%	4.20%

Since the benefit plans of the Company are unfunded, an assumption for return on plan assets is not required.

Net Periodic Benefit Costs

Net periodic benefit costs for the SERPs and Agents Non-Qualified Plan, for the years ended December 31, 2010, 2009, and 2008, were as follows:

	2010	2009	2008
Interest cost	\$ 5.1	\$ 5.3	\$ 5.2
Net actuarial loss recognized in the year	2.6	2.1	-
Unrecognized past service cost recognized in the year	0.1	0.1	-
The effect of any curtailment or settlement	-	0.1	0.5
Net periodic benefit cost	<u>\$ 7.8</u>	<u>\$ 7.6</u>	<u>\$ 5.7</u>

Cash Flows

In 2011, the employer is expected to contribute \$9.9 to the SERPs and Agents Non-Qualified Plan. Future expected benefit payments related to the SERPs, and Agents Non-Qualified Plan, for the years ended December 31, 2011 through 2015, and thereafter through 2020, are estimated to be \$9.9, \$9.1, \$7.9, \$6.8, \$5.5, and \$28.4, respectively.

Stock Option and Share Plans

Through 2010, ING sponsored the ING Group Long-Term Equity Ownership Plan (“leo”), which provides employees of the Company who are selected by the ING Executive Board with options and/or performance shares. The terms applicable to an award under leo are set out in an award agreement, which is signed by the participant when he or she accepts the award.

Options granted under leo are nonqualified options on ING shares in the form of American Depositary Receipts (“ADRs”). Leo options have a ten (10) year term and vest three years from the grant date. Options awarded under leo may vest earlier in the event of the participant’s death, permanent disability or retirement. Retirement for purposes of leo means a participant terminates service after attaining age 55 and completing 5 years of service. Early vesting in all or a portion of a grant of options may also occur in the event the participant is terminated due to redundancy or business divestiture. Unvested options are generally subject to forfeiture when a participant voluntarily terminates

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amounts in millions, unless otherwise stated)

employment or is terminated for cause (as defined in leo). Upon vesting, participants generally have up to seven years in which to exercise their vested options. A shorter exercise period applies in the event of termination due to redundancy, business divestiture, voluntary termination or termination for cause. An option gives the recipient the right to purchase an ING share in the form of ADRs at a price equal to the fair market value of one ING share on the date of grant. On exercise, participant's have three options (i) retain the shares and remit a check for applicable taxes due on exercise, (ii) request the administrator to remit a cash payment for the value of the options being exercised, less applicable taxes, or (iii) retain some of the shares and have the administrator liquidate sufficient shares to satisfy the participant's tax obligation. The amount is converted from Euros to U.S. dollars based on the daily average exchange rate between the Euro and the U.S. dollar, as determined by ING.

Awards of performance shares may also be made under leo. Performance shares are a contingent grant of ING stock, and, on vesting, the participant has the right to receive a cash amount equal to the closing price per ING share on the Euronext Amsterdam Stock Market on the vesting date times the number of vested Plan shares. Performance shares generally vest three years from the date of grant, with the amount payable based on ING's share price on the vesting date. Payments made to participants on vesting are based on the performance targets established in connection with leo and payments can range from 0% to 200% of target. Performance is based on ING's total shareholder return relative to a peer group as determined at the end of the vesting period. To vest, a participant must be actively employed on the vesting date, although immediate vesting will occur in the event of the participant's death, disability or retirement. If a participant is terminated due to redundancy or business divestiture, vesting will occur but in only a portion of the award. Unvested shares are generally subject to forfeiture when an employee voluntarily terminates employment or is terminated for cause (as defined in leo). Upon vesting, participants have three options (i) retain the shares and remit a check for applicable taxes due on exercise, (ii) request the administrator to remit a cash payment for the value of the shares, less applicable taxes, or (iii) retain some of the shares and have the administrator liquidate sufficient shares to satisfy the participant's tax obligation. The amount is converted from Euros to U.S. dollars based on the daily average exchange rate between the Euro and the U.S. dollar, as determined by ING.

The Company was allocated from ING compensation expense for the leo options and performance shares of \$3.4, \$3.7, and \$4.1, for the years ended December 31, 2010, 2009, and 2008, respectively.

For leo, the Company recognized tax benefits of \$0.7, \$0.1, and \$0.7, in 2010, 2009, and 2008, respectively.

Commencing in 2011, ING introduced a new long-term equity and deferred bonus plan, the Long-Term Sustainable Performance Plan ("LSPP"). The terms applicable to an award under the LSPP will be set out in a grant agreement which is signed by the

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amounts in millions, unless otherwise stated)

participant when he or she accepts the award. The LSPP will provide employees of the Company who are selected by the ING Executive Board with performance shares and will also require deferral of discretionary incentive bonus awards in excess of EU 100,000. The performance shares awarded under the LSPP will be a contingent grant of ING ADR units and on settlement, the participant will have the right to either receive ING ADR units in kind or a cash amount equal to the closing price per ING share on the Euronext Amsterdam Stock Market on the settlement date times the number of vested ADR units, subject to achievement during the vesting period of performance targets based on return of equity and employee engagement. The excess bonus amount will be held in deferred ING ADR units or in a deferred cash account, or some combination thereof, depending on the total amount of the incentive bonus award, generally subject to vesting in three equal tranches over the three year period commencing on the date of incentive bonus payment. Unlike the leo plan, no options on ING shares in the form of ADRs will be granted under the LSPP. To vest in performance shares, deferred shares or deferred cash, an employee must generally be actively employed on the settlement date, although immediate full and partial vesting in the event of normal age or early retirement, death or disability, or termination due to redundancy or business divestiture will occur, similar to the vesting treatment in the leo plan.

In addition, the Company, in conjunction with ING North America, sponsors the following benefit plans:

- The ING 401(k) Plan for ILIAC Agents, which allows participants to defer a specified percentage of eligible compensation on a pre-tax basis. Effective January 1, 2006, the Company match equals 60% of a participant's pre-tax deferral contribution, with a maximum of 6% of the participant's eligible pay. A request for a determination letter on the qualified status of the ING 401(k) Plan for ILIAC Agents was filed with the IRS on January 1, 2008. A favorable determination letter was received dated January 5, 2011.
- The Producers' Incentive Savings Plan, which allows participants to defer up to a specified portion of their eligible compensation on a pre-tax basis. The Company matches such pre-tax contributions at specified amounts.
- The Producers' Deferred Compensation Plan, which allows participants to defer up to a specified portion of their eligible compensation on a pre-tax basis.
- Certain health care and life insurance benefits for retired employees and their eligible dependents. The post retirement health care plan is contributory, with retiree contribution levels adjusted annually and the Company subsidizes a portion of the monthly per-participant premium. Beginning August 1, 2009, the Company moved from self-insuring these costs and began to use a private-fee-for-service Medicare Advantage program for post-Medicare eligible retired participants. In addition, effective October 1, 2009, the Company no longer subsidizes medical premium costs for early retirees. This change does not impact any participant currently retired and receiving coverage under the plan or any employee who is eligible for coverage under the plan and whose employment ended before October

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amounts in millions, unless otherwise stated)

1, 2009. The Company continues to offer access to medical coverage until retirees become eligible for Medicare. The life insurance plan provides a flat amount of noncontributory coverage and optional contributory coverage.

- The ING Americas Supplemental Executive Retirement Plan, which is a non-qualified defined benefit restoration pension plan.
- The ING Americas Deferred Compensation Savings Plan, which is a deferred compensation plan that includes a 401(k) excess component.

The benefit charges allocated to the Company related to these plans for the years ended December 31, 2010, 2009, and 2008, were \$11.9, \$12.1, and \$13.9, respectively.

9. Related Party Transactions

Operating Agreements

ILIAC has certain agreements whereby it generates revenues and expenses with affiliated entities, as follows:

- Investment Advisory agreement with ING Investment Management LLC (“IIM”), an affiliate, in which IIM provides asset management, administrative, and accounting services for ILIAC’s general account. ILIAC incurs a fee, which is paid quarterly, based on the value of the assets under management. For the years ended December 31, 2010, 2009, and 2008, expenses were incurred in the amounts of \$23.7, \$35.9, and \$58.4, respectively.
- Services agreement with ING North America for administrative, management, financial, and information technology services, dated January 1, 2001 and amended effective January 1, 2002. For the years ended December 31, 2010, 2009, and 2008, expenses were incurred in the amounts of \$209.7, \$140.2, and \$175.3, respectively.
- Services agreement between ILIAC and its U.S. insurance company affiliates dated January 1, 2001, and amended effective January 1, 2002 and December 31, 2007. For the years ended December 31, 2010, 2009, and 2008, net expenses related to the agreement were incurred in the amount of \$53.3, \$26.3, and \$19.6, respectively.
- Service agreement with ING Institutional Plan Services, LLC (“IIPS”) effective November 30, 2008 pursuant to which IIPS provides recordkeeper services to certain benefit plan clients of ILIAC. For the years ended December 31, 2010 and 2009, net expenses related to the agreement were incurred in the amount of \$6.4 and \$4.9, respectively. An immaterial amount was incurred for the year ended December 31, 2008.
- Intercompany agreement with IIM pursuant to which IIM agreed, effective January 1, 2010, to pay the Company, on a monthly basis, a portion of the revenues IIM earns as investment adviser to certain U.S. registered investment companies that are investment options under certain of the Company’s variable insurance products. For the year ended December 31, 2010, revenue under the IIM intercompany agreement was \$24.1.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amounts in millions, unless otherwise stated)

Management and service contracts and all cost sharing arrangements with other affiliated companies are allocated in accordance with the Company's expense and cost allocation methods. Revenues and expenses recorded as a result of transactions and agreements with affiliates may not be the same as those incurred if the Company was not a wholly-owned subsidiary of its Parent.

DSL has certain agreements whereby it generates revenues and expenses with affiliated entities, as follows:

- Underwriting and distribution agreements with ING USA Annuity and Life Insurance Company ("ING USA") and ReliaStar Life Insurance Company of New York ("RLNY"), affiliated companies, whereby DSL serves as the principal underwriter for variable insurance products. In addition, DSL is authorized to enter into agreements with broker-dealers to distribute the variable insurance products and appoint representatives of the broker-dealers as agents. For the years ended December 31, 2010, 2009, and 2008, commissions were collected in the amount of \$220.0, \$275.3, and \$622.5. Such commissions are, in turn, paid to broker-dealers.
- Intercompany agreements with each of ING USA, IIPS, ReliaStar Life Insurance Company and Security Life of Denver Insurance Company (individually, the "Contracting Party") pursuant to which DSL agreed, effective January 1, 2010, to pay the Contracting Party, on a monthly basis, a portion of the revenues DSL earns as investment adviser to certain U.S. registered investment companies that are either investment option under certain variable insurance products of the Contracting Party or are purchased for certain customers of the Contracting Party. For the year ended December 31, 2010, expenses were incurred under these intercompany agreements in the aggregate amount of \$204.5.
- Prior to January 1, 2010, DSL was a party to a service agreement with ING USA pursuant to which ING USA provided DSL with managerial and supervisory services in exchange for a fee. This service agreement was terminated as of January 1, 2010. For the years ended December 31, 2009 and 2008, expenses were incurred under this service agreement in the amount of \$123.2 and \$139.2, respectively.
- Service agreement with RLNY whereby DSL receives managerial and supervisory services and incurs a fee. For the years ended December 31, 2010, 2009, and 2008, expenses were incurred under this service agreement in the amount of \$3.3, \$1.2, and \$1.2, respectively.
- Administrative and advisory services agreements with ING Investment LLC and IIM, affiliated companies, in which DSL receives certain services for a fee. The fee for these services is calculated as a percentage of average assets of ING Investors Trust. For the years ended December 31, 2010, 2009, and 2008, expenses were incurred in the amounts of \$19.8, \$12.5, and \$14.9, respectively.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amounts in millions, unless otherwise stated)

Investment Advisory and Other Fees

Effective January 1, 2007, ILIAC's investment advisory agreement to serve as investment advisor to certain variable funds offered in Company products (collectively, the "Company Funds"), was assigned to DSL. ILIAC is also compensated by the separate accounts for bearing mortality and expense risks pertaining to variable life and annuity contracts. Under the insurance and annuity contracts, the separate accounts pay ILIAC daily fees that, on an annual basis are, depending on the product, up to 3.4% of their average daily net assets. The total amount of compensation and fees received by the Company from the Company Funds and separate accounts totaled \$246.1, \$212.3, and \$255.2, (excludes fees paid to ING Investment Management Co.) in 2010, 2009, and 2008, respectively.

DSL has been retained by ING Investors Trust ("IIT"), an affiliate, pursuant to a management agreement to provide advisory, management, administrative and other services to IIT. Under the management agreement, DSL provides or arranges for the provision of all services necessary for the ordinary operations of IIT. DSL earns a monthly fee based on a percentage of average daily net assets of IIT. DSL has entered into an administrative services subcontract with ING Fund Services, LLC, an affiliate, pursuant to which ING Fund Services, LLC, provides certain management, administrative and other services to IIT and is compensated a portion of the fees received by DSL under the management agreement. In addition to being the investment advisor of the Trust, DSL is the investment advisor of ING Partners, Inc. (the "Fund"), an affiliate. DSL and the Fund have an investment advisory agreement, whereby DSL has overall responsibility to provide portfolio management services for the Fund. The Fund pays DSL a monthly fee, net of sub advisory fees, which is based on a percentage of average daily net assets. For the years ended December 31, 2010, 2009, and 2008, revenue received by DSL under these agreements (exclusive of fees paid to affiliates) was \$314.3, \$270.0, and \$323.8, respectively. At December 31, 2010 and 2009, DSL had \$25.1 and \$25.3, respectively, receivable from IIT under the management agreement.

Financing Agreements

Reciprocal Loan Agreement

The Company maintains a reciprocal loan agreement with ING AIH, an affiliate, to facilitate the handling of unanticipated short-term cash requirements that arise in the ordinary course of business. Under this agreement, which became effective in June 2001 and expires on April 1, 2011, either party can borrow from the other up to 3% of the Company's statutory admitted assets as of the preceding December 31. Interest on any Company borrowing is charged at the rate of ING AIH's cost of funds for the interest period, plus 0.15%. Interest on any ING AIH borrowing is charged at a rate based on the prevailing interest rate of U.S. commercial paper available for purchase with a similar duration.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amounts in millions, unless otherwise stated)

Under this agreement, the Company incurred an immaterial amount of interest expense for the years ended December 31, 2010 and 2009, and \$0.2 for the year ended December 31, 2008, and earned interest income of \$0.9, \$1.0 and \$4.8, for the years ended December 31, 2010, 2009, and 2008, respectively. Interest expense and income are included in Interest expense and Net investment income, respectively, on the Consolidated Statements of Operations. At of December 31, 2010 and 2009, the Company had an outstanding receivable of \$304.1 and \$287.2, respectively, with ING AIH under the reciprocal loan agreement.

Note with Affiliate

On December 29, 2004, ING USA issued a surplus note in the principal amount of \$175.0 (the “Note”) scheduled to mature on December 29, 2034, to ILIAC, in an offering that was exempt from the registration requirements of the Securities Act of 1933. ILIAC’s \$175.0 Note from ING USA bears interest at a rate of 6.26% per year. Interest is scheduled to be paid semi-annually in arrears on June 29 and December 29 of each year, commencing on June 29, 2005. Interest income was \$11.1 for each of the years ended December 31, 2010, 2009, and 2008.

Property and Equipment Sale

During the second quarter of 2009, ING’s U.S. life insurance companies, including the Company, sold a portion of its property and equipment in a sale/leaseback transaction to an affiliate, ING North America. The fixed assets involved in the sale were capitalized assets generally depreciated over the expected useful lives and software in development. Since the assets were being depreciated using expected useful lives, the current net book value reasonably approximated the current fair value of the assets being transferred. The fixed assets sold to ING North America by the Company totaled \$17.4.

Transfer of Registered Representatives

On January 1, 2011, IFA transferred a group of registered representatives and their related customer accounts to its broker-dealer affiliate, ING Financial Partners, Inc. and received \$5.0 as consideration for the transfer. Effective January 1, 2011, IFA will operate exclusively as a wholesale broker-dealer.

10. Financing Agreements

Revolving Note Facility

ILIAC maintains a \$50.0 uncommitted, perpetual revolving note facility with the Bank of New York (“BONY”). Interest on any of ILIAC’s borrowing accrues at an annual rate equal to a rate quoted by BONY to ILIAC for the borrowing. Under this agreement,

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

ILIAC incurred no interest expense for the years ended December 31, 2010, 2009, and 2008. At December 31, 2010 and 2009, ILIAC had no amounts outstanding under the revolving note facility.

Windsor Property Loan

On June 16, 2007, the State of Connecticut acting by the Department of Economic and Community Development (“DECD”) loaned ILIAC \$9.9 (the “DECD Loan”) in connection with the development of the corporate office facility located at One Orange Way, Windsor, Connecticut that serves as the principal executive offices of the Company (the “Windsor Property”). The loan has a term of twenty years and bears an annual interest rate of 1.00%. As long as no defaults have occurred under the loan, no payments of principal or interest are due for the initial ten years of the loan. For the second ten years of the DECD Loan term, ILIAC is obligated to make monthly payments of principal and interest.

The DECD Loan provided for loan forgiveness during the first five years of the term at varying amounts up to \$5.0 if ILIAC and its affiliates met certain employment thresholds at the Windsor Property during that period. On December 1, 2008, the DECD determined that the Company had met the employment thresholds for loan forgiveness and, accordingly, forgave \$5.0 of the DECD Loan to ILIAC in accordance with the terms of the DECD Loan. The DECD Loan provides additional loan forgiveness at varying amounts up to \$4.9 if ILIAC and its ING affiliates meet certain employment thresholds at the Windsor Property during years five through ten of the loan. ILIAC’s obligations under the DECD Loan are secured by an unlimited recourse guaranty from its affiliate, ING North America Insurance Corporation.

At both December 31, 2010 and 2009, the amount of the loan outstanding was \$4.9 which was reflected in Notes payable on the Consolidated Balance Sheets.

Also see Financing Agreements in the Related Party Transactions footnote.

11. Reinsurance

At December 31, 2010, the Company had reinsurance treaties with 6 unaffiliated reinsurers covering a significant portion of the mortality risks and guaranteed death benefits under its variable contracts. At December 31, 2010, the Company did not have any outstanding cessions under any reinsurance treaties with affiliated reinsurers. The Company remains liable to the extent its reinsurers do not meet their obligations under the reinsurance agreements.

On October 1, 1998, the Company disposed of its individual life insurance business under an indemnity reinsurance arrangement with a subsidiary of Lincoln for \$1.0 billion in cash. Under the agreement, the Lincoln subsidiary contractually assumed from the

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Company certain policyholder liabilities and obligations, although the Company remains obligated to contract owners. The Lincoln subsidiary established a trust to secure its obligations to the Company under the reinsurance transaction.

The Company assumed \$25.0 of premium revenue from Aetna Life, for the purchase and administration of a life contingent single premium variable payout annuity contract. In addition, the Company is also responsible for administering fixed annuity payments that are made to annuitants receiving variable payments. Reserves of \$11.5 and \$11.6 were maintained for this contract as of December 31, 2010 and 2009, respectively.

Reinsurance ceded in force for life mortality risks were \$17.4 billion and \$18.6 billion at December 31, 2010 and 2009, respectively. At December 31, 2010 and 2009, net receivables were comprised of the following:

	2010	2009
Claims recoverable from reinsurers	\$ 2,356.0	\$ 2,431.0
Payable for reinsurance premiums	-	(0.7)
Reinsured amounts due to reinsurers	0.4	(0.7)
Other	(0.5)	0.3
Total	<u>\$ 2,355.9</u>	<u>\$ 2,429.9</u>

Premiums and Interest credited and other benefits to contract owners were reduced by the following amounts for reinsurance ceded for the years ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Deposits ceded under reinsurance	\$ 154.6	\$ 162.4	\$ 174.4
Premiums ceded under reinsurance	0.3	0.3	0.3
Reinsurance recoveries	390.4	339.8	309.0

12. Commitments and Contingent Liabilities

Leases

Prior to December 31, 2008, the Company leased certain office space and certain equipment under various operating leases and paid substantially all expenses associated with its leased and subleased office properties. Any expenses not paid directly by the Company were paid for by an affiliate and allocated back to the Company. However, as of December 31, 2008, all of the Company’s expenses for leased and subleased office properties will be paid for by an affiliate and allocated back to the Company, as all operating leases were terminated or consolidated by ING AIH during the fourth quarter of 2008, which resulted in the Company no longer being party to any operating leases. For the years ended December 31, 2010, 2009, and 2008, rent expense for leases was \$4.0, \$5.1, and \$6.1, respectively.

ING Life Insurance and Annuity Company and Subsidiaries

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)

Notes to Consolidated Financial Statements

(Dollar amounts in millions, unless otherwise stated)

Commitments

Through the normal course of investment operations, the Company commits to either purchase or sell securities, commercial mortgage loans, or money market instruments, at a specified future date and at a specified price or yield. The inability of counterparties to honor these commitments may result in either a higher or lower replacement cost. Also, there is likely to be a change in the value of the securities underlying the commitments.

At December 31, 2010, the Company had off-balance sheet commitments to purchase investments equal to their fair value of \$336.3, of which \$144.0 was with related parties. At December 31, 2009, the Company had off-balance sheet commitments to purchase investments equal to their fair value of \$305.1, of which \$218.5 was with related parties. During 2010 and 2009, \$69.1 and \$46.8, respectively, was funded to related parties under these commitments.

Collateral

Under the terms of the Company's Over-The-Counter Derivative ISDA Agreements ("ISDA Agreements"), the Company may receive from, or deliver to, counterparties, collateral to assure that all terms of the ISDA Agreements will be met with regard to the CSA. The terms of the CSA call for the Company to pay interest on any cash received equal to the Federal Funds rate. As of December 31, 2010, the Company held \$4.7, of cash collateral, which was included in Payables under securities loan agreement, including collateral held, on the Consolidated Balance Sheets. As of December 31, 2009, the Company did not hold any cash collateral. In addition, as of December 31, 2010 and 2009, the Company delivered collateral of \$93.8 and \$130.3, respectively, in fixed maturities pledged under derivatives contracts, which was included in Securities pledged on the Consolidated Balance Sheets.

Litigation

The Company is involved in threatened or pending lawsuits/arbitrations arising from the normal conduct of business. Due to the climate in insurance and business litigation/ arbitrations, suits against the Company sometimes include claims for substantial compensatory, consequential, or punitive damages, and other types of relief. Moreover, certain claims are asserted as class actions, purporting to represent a group of similarly situated individuals. While it is not possible to forecast the outcome of such lawsuits/arbitrations, in light of existing insurance, reinsurance, and established reserves, it is the opinion of management that the disposition of such lawsuits/arbitrations will not have a materially adverse effect on the Company's operations or financial position.

ING Life Insurance and Annuity Company and Subsidiaries
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Regulatory Matters

As with many financial services companies, the Company and its affiliates periodically receive informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the Company or the financial services industry. Some of these investigations and inquiries could result in regulatory action against the Company. The potential outcome of such action is difficult to predict but could subject the Company or its affiliates to adverse consequences, including, but not limited to, settlement payments, penalties, fines, and other financial liability. It is not currently anticipated that the outcome of any such action will have a material adverse effect on ING or ING’s U.S.-based operations, including the Company. It is the practice of the Company and its affiliates to cooperate fully in these matters.

13. Accumulated Other Comprehensive Income (Loss)

Shareholder’s equity included the following components of Accumulated other comprehensive income (loss) as of December 31, 2010, 2009, and 2008.

	2010	2009	2008
Net unrealized capital gains (losses):			
Fixed maturities	\$ 930.5	\$ 133.4	\$ (1,315.5)
Equity securities, available-for-sale	24.3	12.8	(7.4)

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Consolidated Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Changes in unrealized capital gains (losses) on securities, including securities pledged and noncredit impairments, reported net of DAC, VOBA, and income tax, were as follows for the years ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Fixed maturities	\$ 797.1	\$ 1,448.9	\$ (1,267.4)
Equity securities, available-for-sale	11.5	20.2	(13.7)
Derivatives	0.5	-	-
DAC/VOBA adjustment on available-for-sale securities	(372.9)	(739.7)	643.1
Sales inducements adjustment on available-for-sale securities	(0.5)	(2.2)	2.2
Shadow premium deferral	(61.0)	-	-
Other investments	0.1	0.3	0.4
Unrealized capital gains (losses), before tax	374.8	727.5	(635.4)
Deferred income tax asset (liability)	(119.2)	(230.7)	193.7
Net change in unrealized capital gains (losses)	<u>\$ 255.6</u>	<u>\$ 496.8</u>	<u>\$ (441.7)</u>

Changes in unrealized capital gains on securities, including securities pledged and noncredit impairments, as recognized in Accumulated other comprehensive income (loss), reported net of DAC, VOBA, and income taxes, were as follows for the years ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Net unrealized capital holding gains arising during the period ⁽¹⁾	\$ 284.8	\$ 513.0	\$ (1,192.0)
Less: reclassification adjustment for gains and other items included in Net income (loss) ⁽²⁾	29.2	16.2	(750.3)
Net change in unrealized capital gains on securities	<u>\$ 255.6</u>	<u>\$ 496.8</u>	<u>\$ (441.7)</u>

⁽¹⁾ Pretax unrealized capital holding gains (losses) arising during the year were \$417.6, \$751.2, and \$(1,714.8), for the years ended December 31, 2010, 2009, and 2008, respectively.
⁽²⁾ Pretax reclassification adjustments for gains (losses) and other items included in Net income (loss) were \$42.8, \$23.7, and \$(1,079.4), for the years ended December 31, 2010, 2009, and 2008, respectively.

The reclassification adjustments for gains (losses) and other items included in Net income (loss) in the above table are determined by specific identification of each security sold during the period.
