

**ING Life Insurance and Annuity Company**  
**Variable Annuity Account C**  
**ING Flexible Income**  
**CONTRACT PROSPECTUS – MAY 1, 2013**

---

**The Contract.** The contract described in this prospectus is a fixed or variable, group and/or individual immediate annuity contract issued by ING Life Insurance and Annuity Company (the “Company,” “we,” “us,” “our”). The contract is available as an internal exchange from certain existing annuity contracts issued by the Company or certain of its affiliates, and to any participants in a retirement plan where the plan sponsor has purchased a group master contract (whether or not connected with an internal exchange). We may also issue contracts directly without a relationship to an existing Company contract or a retirement plan. The contract may be issued as either a nonqualified contract, or as a qualified contract for use with a traditional Individual Retirement Annuity (“IRA”) under section 408(b) of the Internal Revenue Code of 1986, as amended (“Tax Code”) or with retirement plans under Tax Code sections 401, 403(b) or 457. Contracts sold in New York are not available to 457 plans.

**Why Reading This Prospectus Is Important.** This prospectus contains facts about the contract and its investment options that you should know before purchasing. The information will help you decide if the contract is right for you. Please read this prospectus carefully and keep it for future reference.

**Investment Options.** The contract offers variable investment options and a fixed dollar option. When you purchase the contract, your purchase payment will be applied to the investment options you select. Some investment options may be unavailable through your contract, your plan or in your state.

**Variable Income Payments.** If you select variable income payments, the amount of your variable income payments will vary based on the performance of the variable investment options that you select. These options are called subaccounts. The subaccounts are within Variable Annuity Account C (the “separate account”), a separate account of the Company. Each subaccount invests in one of the mutual funds (the “funds”) listed on the previous page. Subaccount performance will vary depending upon the performance of its underlying fund. You do not invest directly in or hold shares of the funds.

**Risks Associated with Investing in the Funds.** Information about the risks of investing in the funds is located in the “INVESTMENT OPTIONS” section on page 11 and in each fund prospectus. Read this prospectus in conjunction with the fund prospectuses, and retain the prospectuses for future reference.

**Fixed Income Payments.** If you select fixed income payments, the amount of your fixed income payment amount will not vary. Except as specifically mentioned, this prospectus describes only the variable investment options. However, we describe the fixed dollar option in **APPENDIX I** of this prospectus.

**Compensation.** We pay compensation to broker-dealers whose registered representatives sell the contracts. See “**CONTRACT DISTRIBUTION**” for further information about the amount of compensation we pay.

**Getting Additional Information.** If you have received a summary prospectus for any of the funds available through your contract, you may obtain a full prospectus and other fund information free of charge by either accessing the internet address, calling the telephone number or sending an email request to the email address shown on the front of the fund’s summary prospectus. You may obtain the May 1, 2013 Statement of Additional Information (“SAI”) about the separate account free of charge by indicating your request on your application or enrollment form, calling us at 1-800-238-6273 or writing to us at the address referenced under “**CONTRACT OVERVIEW - Questions: Contacting the Company**” section of the prospectus. You may also obtain a prospectus or an SAI for any of the funds by calling that number. This prospectus, the SAI and other information about the separate account may be obtained by accessing the Securities and Exchange Commission’s (“SEC”) website, <http://www.sec.gov>. Copies of this information may also be obtained, after paying a duplicating fee, by contacting the SEC Public Reference Branch. Information on the operation of the SEC Public Reference Branch may be obtained by calling 1-202-551-8090 or 1-800-SEC-0330, e-mailing [publicinfo@sec.gov](mailto:publicinfo@sec.gov) or by writing to SEC Public Reference Branch, 100 F Street, NE, Room 1580, Washington, D.C. 20549. When looking for information regarding the contracts offered through this prospectus, you may find it useful to use the number assigned to the registration statement under the Securities Act of 1933. This number is 333-109622. The SAI table of contents is listed on page 43 of this prospectus. The SAI is incorporated into this prospectus by reference.

**Additional Disclosure Information.** Neither the SEC, nor any state securities commission, has approved or disapproved the securities offered through this prospectus or passed on the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense. We do not intend for this prospectus to be an offer to sell or a solicitation of an offer to buy these securities in any state that does not permit their sale. We have not authorized anyone to provide you with information that is different than that contained in this prospectus.

**The contracts are not deposits with, obligations of, or guaranteed or endorsed by any bank, nor are they insured by the Federal Deposit Insurance Corporation (“FDIC”). The contracts are subject to investment risk, including the possible loss of the principal amount of your investment.**

## CONTRACT OVERVIEW

The following is intended as a summary. Please read each section of this prospectus for additional information.

### Contract Design

The contract described in this prospectus is a fixed and/or variable, group or individual immediate annuity contract. It is designed for individuals who would like regular income payments from an annuity contract.

### Who's Who

**Contract Holder:** The person or plan to whom we issue an individually owned contract, or the plan to which we issue a group master contract. We may also refer to the contract holder as the contract owner.

**You (the "Participant"):** The individual who owns an individual contract, participates in a group master contract, or who receives income payments in connection with an individual contract owned by a plan sponsor.

**We (the "Company"):** ING Life Insurance and Annuity Company. We issue the contract.

For greater detail, please review "CONTRACT PURCHASE AND PARTICIPATION."

### The Contract and Your Retirement Plan

We may offer this contract to employees or other individuals in connection with a retirement plan.

**Plan Type.** We refer to a retirement plan by the Tax Code section under which it qualifies. For example: a "457 plan" is a plan that qualifies for tax treatment under Tax Code section 457. We are not a party to the plan, so the terms and the conditions of the contract and the plan may differ.

**Use of an Annuity Contract in Your Plan.** Under the federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of a qualified retirement account (such as a 401(a), 403(b), 408(b) or 457(b) retirement plan), an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the tax qualified account itself. Annuities do provide other features and benefits (such as the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with your financial representative taking into account the additional fees and expenses you may incur in an annuity. See "CONTRACT PURCHASE AND PARTICIPATION."

### Contract Rights

For individual and group master contracts issued in connection with 401 and 457 plans, the plan sponsor is the contract holder and holds the rights under the contract. Section 401 and 457 plan sponsors may allow their participants to exercise certain limited contract rights. For example, a section 401 or 457 plan sponsor has the right to make investment selections, but may permit their individual participants to exercise that right. For individual contracts issued on a nonqualified basis and those issued in connection with 408(b) and most 403(b) retirement plans, the individual is the contract holder and holds all contract rights. In situations where an individual or group master contract is issued to the plan sponsor of a 403(b) plan, the participant generally holds all contract rights. However, pursuant to Treasury Department regulations that were generally effective on January 1, 2009, the exercise of certain of these rights may require the consent and approval of the contract holder or its delegate. We reserve the right to modify the contracts to comply with these regulations where allowed, or where required by law. See "TAX CONSIDERATIONS - Distributions – Eligibility – 403(b) Plans."

### Questions: Contacting the Company

To answer your questions, contact your sales representative or write or call our Customer Service Center at:

ING  
Attention: Payout  
Services  
One Orange Way  
Windsor, CT 06095-  
4774  
1-800-238-6273

### Sending Forms and Written Requests in Good Order

If you are writing to change your beneficiary, request a withdrawal, or for any other purpose, contact your sales representative or write or call us to learn what information is required for the request to be in "good order." By contacting us, we can provide you with the appropriate administrative form for your requested transaction.

Generally, a request is considered to be in "good order" when it is signed, dated and made with such clarity and completeness that we are not required to exercise any discretion in carrying it out.

We can only act upon requests that are received in good order.

## Contract Facts

**Income Payment Options.** You may select from a number of features for your payments including but not limited to: duration, number of payees, payments to beneficiaries, guaranteed minimum payment amount, and variable or fixed payments. Some features require payment of additional fees. See “**INCOME PAYMENTS.**”

**Free Look/Right to Cancel.** The contract holder may cancel the contract no later than within 10 days of receipt (some states require more than 10 days). Participants in 403(b) plans and some 401 plans may cancel their participation in a group contract no later than 10 days after they receive evidence of participation in the contract. See “**RIGHT TO CANCEL.**”

**Death Benefit.** If any guaranteed income payments remain to be paid at the time of the death of the annuitant or both annuitants, if applicable, they may be paid to your beneficiary. See “**DEATH BENEFIT.**”

**Withdrawals.** Some income payment options allow you to withdraw a portion or all of any remaining guaranteed payments. An early withdrawal charge may apply. See “**WITHDRAWALS.**”

**Fees.** Certain fees associated with the contract will reduce income payments. See “**FEE TABLE**” and “**FEES.**”

**Taxation.** The Tax Code has certain rules that apply to amounts distributed under the contract. Tax penalties may apply if rules are not followed. See “**TAX CONSIDERATIONS.**”

## FEE TABLE

The following tables describe the fees and expenses that you will pay when buying, owning, and surrendering the contract.

The tables and examples in this section show the fees that may affect the amount of variable income payments. For fees applicable to fixed income payments, see APPENDIX I. See “FEES” for additional information. The fees shown below do not reflect any state premium tax that may apply.\*

### *Maximum Transaction Expenses*

#### **Early Withdrawal Charge**

(As a percentage of the present value of remaining guaranteed income payments withdrawn)<sup>(1)</sup>

#### *Early Withdrawal Charge Schedule<sup>(2)</sup>*

<u>Number of Years from Contract Effective Date<sup>(3)</sup></u>	<u>Early Withdrawal Charge</u>
Fewer than 1	7%
1 or more but fewer than 2	6%
2 or more but fewer than 3	5%
3 or more but fewer than 4	4%
4 or more but fewer than 5	3%
5 or more but fewer than 6	2%
6 or more but fewer than 7	1%
7 or more	0%

#### **In this Section:**

- Maximum Transaction Expenses;
- Maximum Periodic Fees and Charges;
- Fund Fees and Expenses; and
- Examples.

#### **See the “FEES” Section for:**

- Transaction Fees;
- Redemption Fees;
- Fees Deducted from Investments in the Separate Account; and
- Reduction or Elimination of Certain Fees.

\* State premium taxes (which currently range from 0% to 3.5% of purchase payments) may apply, but are not reflected in the fee tables or examples. See “FEES - Premium and Other Taxes.”

<sup>(1)</sup> Although the maximum early withdrawal charge is 7% of the remaining guaranteed income payments withdrawn, the total early withdrawal charge deducted will not exceed 8.5% of your purchase payment to the contract. See “FEES - Early Withdrawal Charge.”

<sup>(2)</sup> Not all contracts permit withdrawals. Under certain contracts withdrawals are not allowed during the first year. See “WITHDRAWALS.”

<sup>(3)</sup> For participants under a group contract, the early withdrawal charge will be calculated based upon the number of years from the certificate effective date. For amounts transferred into this contract as a result of an internal exchange, see “FEES.”

## ***Maximum Periodic Fees and Charges***

The next table describes the fees and expenses that you will pay periodically during the time that you own the contract, not including fund fees and expenses.

**Maximum Fees Deducted from the Subaccounts.** (Daily deductions, equal to the following percentages on an annual basis, from amounts invested in the subaccounts.)

### **For Contracts Without the Guaranteed Minimum Income Feature:**

	<u>Maximum Charge</u>	<u>Current Charge</u>
Mortality and Expense Risk Charge	1.25%	0.95%
Administrative Expense Charge <sup>(4)</sup>	<u>0.25%</u>	<u>0.00%</u>
Total Separate Account Expenses	<u>1.50%</u>	<u>0.95%</u>

### **For Contracts With the Five-Year Guaranteed Minimum Income Feature:**

	<u>Maximum Charge</u>	<u>Current Charge</u>
Mortality and Expense Risk Charge	1.25%	0.95%
Administrative Expense Charge <sup>(4)</sup>	0.25%	0.00%
Five-Year Guaranteed Minimum Income Charge <sup>(5)</sup>	<u>1.00%</u>	<u>1.00%</u>
Total Separate Account Expenses	<u>2.50%</u>	<u>1.95%</u>

## ***Fund Fees and Expenses***

The next item shows the minimum and maximum total operating expenses charged by a fund that you may pay periodically during the time that you own the contract. The minimum and maximum expenses listed below are based on expenses for the fund's most recent fiscal year end without taking into account any fee waiver or expense reimbursement arrangements that may apply. More detail concerning each fund's fees and expenses is contained in the prospectus for each fund.

	<b>Minimum</b>	<b>Maximum</b>
<b>Total Annual Fund Operating Expenses</b>		
(expenses that are deducted from fund assets, including management fees, distribution and/or service (12b-1) fees, and other expenses):	0.34%	1.42%

See the "FEES – Fund Fees and Expenses" section of this prospectus for additional information about the fees and expenses of the funds, including information about the revenue we may receive from each of the funds or the funds' affiliates.

---

<sup>(4)</sup> We currently do not impose an administrative expense charge; however, we reserve the right to impose this charge for new contracts and to deduct a daily charge from the subaccounts equivalent to not more than 0.25% annually.

<sup>(5)</sup> This charge terminates after five years.

## Examples

The following examples are intended to help you compare the costs of investing in the contract with the cost of investing in other variable annuity contracts. For each type of contract, these costs include maximum contract holder transaction expenses, maximum separate account annual expenses, and fund fees and expenses applicable to that type of contract.

**Maximum Fund Fees and Expenses Examples.** The following Examples assume that you invest \$10,000 in the contract and that your investment has a 5% return each year. For the purpose of these Examples, we deducted the **maximum** total annual fees and expenses of any of the funds available for each type of contract and the maximum charges under the contract (i.e., a maximum mortality and expense risk charge of 1.25% annually, an administrative expense charge of 0.25% annually, and the guaranteed minimum income charge of 1.00% annually for the first five years, as applicable) and assume you have selected the “nonlifetime-guaranteed payments” income payment option for a 15 year period with a 3.5% assumed annual net return rate.

Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	(A) If you withdraw your remaining guaranteed payments at the end of the periods shown, you would pay the following fees, including any applicable early withdrawal charge:				(B) If you do not withdraw your remaining guaranteed payments, you would pay the following fees at the end of the periods shown (no early withdrawal charge is reflected):			
	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Applicable to contracts <i>without</i> the guaranteed minimum income feature	\$901	\$1,307	\$1,719	\$3,115	\$294	\$892	\$1,506	\$3,115
Applicable to contracts <i>with</i> the five-year guaranteed minimum income feature	\$956	\$1,471	\$1,991	\$3,141	\$352	\$1,063	\$1,784	\$3,141

**Minimum Fund Fees and Expenses Examples.** The following Examples assume that you invest \$10,000 in the contract and that your investment has a 5% return each year. For the purpose of these Examples, we deducted the **minimum** total annual fees and expenses of any of the funds available for each type of contract and the maximum charges under the contract (i.e., a maximum mortality and expense risk charge of 1.25% annually, an administrative expense charge of 0.25% annually, and the guaranteed minimum income charge of 1.00% annually for the first five years, as applicable) and assume you have selected the “nonlifetime-guaranteed payments” income payment option for a 15 year period with a 3.5% assumed annual net return rate.

Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	(A) If you withdraw your remaining guaranteed payments at the end of the periods shown, you would pay the following fees, including any applicable early withdrawal charge:				(B) If you do not withdraw your remaining guaranteed payments, you would pay the following fees at the end of the periods shown (no early withdrawal charge is reflected):			
	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Applicable to contracts <i>without</i> the guaranteed minimum income feature	\$800	\$1,000	\$1,199	\$2,072	\$186	\$571	\$975	\$2,072
Applicable to contracts <i>with</i> the five-year guaranteed minimum income feature	\$894	\$1,285	\$1,682	\$2,513	\$286	\$869	\$1,468	\$2,513

## CONDENSED FINANCIAL INFORMATION

---

**Understanding Condensed Financial Information.** In APPENDIX IV of this prospectus, we provide condensed financial information about the separate account subaccounts you may invest in through the contract. The numbers show the year-end unit values of each subaccount from the time purchase payments were first received in the subaccount under the contract.

**Financial Statements.** The statements of assets and liabilities, the statements of operations, the statements of changes in net assets and the related notes to financial statements for Variable Annuity Account C and the consolidated financial statements and the related notes to consolidated financial statements for ING Life Insurance and Annuity Company are located in the Statement of Additional Information.

## THE COMPANY

---

ING Life Insurance and Annuity Company (the “Company,” “we,” “us,” “our”) issues the contracts described in this prospectus and is responsible for providing each contract’s insurance and annuity benefits. We are a direct, wholly owned subsidiary of Lion Connecticut Holdings Inc. All guarantees and benefits provided under the contracts that are not related to the separate account are subject to the claims paying ability of the Company and our general account.

We are a stock life insurance company organized under the insurance laws of the State of Connecticut in 1976 and an indirect wholly owned subsidiary of ING Groep N.V. (“ING”), a global financial institution active in the fields of insurance, banking and asset management. Through a merger our operations include the business of Aetna Variable Annuity Life Insurance Company (formerly known as Participating Annuity Life Insurance Company, an Arkansas life insurance company organized in 1954). Prior to January 1, 2002, the Company was known as Aetna Life Insurance and Annuity Company.

Pursuant to an agreement with the European Commission (“EC”), ING has announced its intention to divest itself of ING U.S., Inc. and its subsidiaries, including the Company (“ING U.S.”), which constitutes ING’s U.S.-based retirement, investment management and insurance operations. Under the agreement with the EC, ING is required to divest itself of at least 25% of ING U.S. by the end of 2013, more than 50% by the end of 2014 and 100% by the end of 2016. While all options for effecting the separation from ING remain open, ING has announced that the base case for this separation includes an initial public offering (“IPO”) of ING U.S., and in connection with the proposed IPO of its common stock ING U.S. filed a registration statement on Form S-1 with the SEC in November 2012, which was amended in January, March and April 2013. While the base case for the separation is an IPO, all options remain open and it is possible that ING’s divestment of ING U.S. may take place by means of a sale to a single buyer or group of buyers.

We are engaged in the business of issuing life insurance and annuities.

Our principal executive offices are located at:

One Orange Way  
Windsor, Connecticut 06095-4774

**Product Regulation.** Our products are subject to a complex and extensive array of state and federal tax, securities and insurance laws, and regulations, which are administered and enforced by a number of governmental and self-regulatory authorities, including state insurance regulators, state securities administrators, the SEC, the Financial Industry Regulatory Authority (“FINRA”), the Department of Labor and the Internal Revenue Service (“IRS”). For example, U.S. federal income tax law imposes certain requirements relating to product design, administration and investments that are conditions for beneficial tax treatment of such products under the Tax Code. **See “TAX CONSIDERATIONS,” for further discussion of some of these requirements.** Failure to administer certain product features could affect such beneficial tax treatment. In addition, state and federal securities and insurance laws impose requirements relating to insurance product design, offering and distribution, and administration. Failure to meet any of these complex tax, securities, or insurance requirements could subject the Company to administrative penalties imposed by a particular governmental or self-regulatory authority and unanticipated claims and costs associated with remedying such failure. Additionally, such failure could harm the Company’s reputation, interrupt the Company’s operations or adversely impact profitability.

## CONTRACT PURCHASE AND PARTICIPATION

---

**Contracts Available for Purchase.** The contract is designed for persons who would like to receive regular income payments from an annuity contract. The contract is available as an internal exchange from certain existing annuity contracts issued by the Company or certain of its affiliates, and to any participants in a retirement plan where the plan sponsor has purchased a group master contract (whether or not connected with an internal exchange). We may also issue contracts directly without a relationship to an existing Company contract or a retirement plan. The contract is available as either a nonqualified contract or as a qualified contract for use with a traditional IRA under section 408(b) of the Tax Code or with retirement plans qualifying under Tax Code sections 401, 403(b) or 457. Contracts sold in New York are not available to 457 plans. Availability as a group contract is subject to state approval. We reserve the right to limit purchase of an individual nonqualified contract to natural persons.

When considering whether to purchase or participate in the contract, you should consult with your financial representative about your financial goals, investment time horizon and risk tolerance.

**ERISA Notification.** We must be notified by the employer or plan trustee if the contract is offered in connection with a 403(b) or 401 plan that is subject to Title I of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

**How to Purchase.** You may purchase the contract by submitting your purchase payment and the required application or enrollment forms to us.

**Purchase Payment Amount.** To purchase a contract you must make one payment of at least \$10,000. After your initial payment, no additional purchase payments may be made. We reserve the right to lower the minimum required payment, to establish a maximum payment amount and to reject any payment exceeding the maximum.

**Acceptance or Rejection.** We must accept or reject your application or enrollment materials within two business days of receipt. If the forms are incomplete, we may hold any forms and accompanying purchase payment for five business days pending completion. In all cases, we may hold a purchase payment for longer periods with your permission. If we reject your application or enrollment, we will return the forms and any purchase payment.

**Age Requirements.** The maximum issue age is between 80 and 95, depending upon the income payment option and features selected. We reserve the right to modify the maximum issue age.

**Allocation of Your Purchase Payment to the Investment Options.** We will allocate your purchase payment, less any applicable premium taxes, among the investment options you select. Generally, the contract holder, or you if permitted by the plan, may select no more than 25 investment options at initial enrollment. Thereafter, more options can be selected at any one time. You may also select the fixed dollar option and allocate all or a portion of your purchase payment to the general account. See "INVESTMENT OPTIONS." Allocations must be in whole percentages. Any purchase payment received before we accept the application or enrollment materials will be invested as of the day we do accept them.

**Factors to Consider in the Purchase Decision.** The decision to purchase or participate in the contract should be discussed with your sales representative. Make sure that you understand the investment options it provides, its other features, the risk and potential benefits you will face, and the fees and expenses you will incur when, together with your financial representative, you consider an investment in the contract. You should pay attention to the following issues, among others:

- **Long-Term Investment** - This contract is a long-term investment, and is typically most useful as part of a personal retirement plan. Early withdrawals may be restricted by the Tax Code or your plan or may expose you to early withdrawal charges or tax penalties. The value of deferred taxation on earnings grows with the amount of time funds are left in the contract. You should not participate in this contract if you are looking for a short-term investment or expect to need to make withdrawals before you are 59½;
- **Investment Risk** - The value of investment options available under this contract may fluctuate with the markets and interest rates. You should not participate in this contract in order to invest in these options if you cannot risk getting back less money than you put in;

- **Features and Fees** - The fees for this contract reflect costs associated with the features and benefits it provides. As you consider this contract, you should determine the value that these various benefits and features have for you, given your particular circumstances, and consider the charges for those features; and
- **Exchanges** - Replacing an existing insurance contract with this contract may not be beneficial to you. If this contract will be a replacement for another annuity contract or mutual fund option under the plan, you should compare the two options carefully, compare the costs associated with each, and identify additional benefits available under this contract. You should consider whether these additional benefits justify incurring a new schedule of early withdrawal charges or any increased charges that might apply under this contract. Also, be sure to talk to a qualified financial professional or tax adviser to make sure that the exchange will be handled so that it is tax-free.

**Other Products.** We and our affiliates offer various other products with different features and terms than the contracts described in this prospectus, which may offer some or all of the same funds. These products have different benefits, fees and charges, and may offer different share classes of the funds offered in this contract that are less expensive. These other products may or may not better match your needs. You should be aware that there are other options available, and, if you are interested in learning more about these other products, contact your registered representative. These other options may not be available under your plan.

## **RIGHT TO CANCEL**

---

**When and How to Cancel.** The contract holder may cancel the contract within 10 days of receipt (some states require more than 10 days) by returning it, or the document showing your participation under a group contract, to our Customer Service Center along with a written notice of cancellation. For contracts issued in connection with 401 or 457 plans, the contract holder may follow these procedures on behalf of the participant.

**Refunds.** On the day we receive the request for cancellation in good order, we will calculate your contract value. Your refund will equal that value and will reflect deduction of any income payments made. This amount may be more or less than your purchase payment. In certain states (or if you have purchased the contract as an IRA), we may be required to return your entire purchase payment. We will issue your refund within seven calendar days of our receipt of your request in good order.

## **INVESTMENT OPTIONS**

---

When you purchase the contract, your purchase payment (less any applicable premium tax) will be applied to the investment options you select. If you select variable investment options, you will receive variable income payments. If you select the fixed dollar option, you will receive fixed income payments. If you select one or more variable investment options and the fixed dollar option, a portion of your payment will vary and a portion will remain fixed.

### ***Variable Investment Options***

These options are called subaccounts of Variable Annuity Account C. Each subaccount invests directly in shares of a corresponding mutual fund and earnings on amounts invested in the subaccount will vary depending upon the performance and fees of its underlying fund. You do not invest directly in or hold shares of the funds.

### ***Variable Annuity Account C***

We established Variable Annuity Account C (the separate account) under Connecticut Law in 1976 as a continuation of the separate account established in 1974 under Arkansas Law by Aetna Variable Annuity Life Insurance Company. The separate account was established as a segregated asset account to fund variable annuity contracts. The separate account is registered as a unit investment trust under the Investment Company Act of 1940 (the "1940 Act"). It also meets the definition of separate account under the federal securities laws.

Although we hold title to the assets of the separate account, such assets are not chargeable with the liabilities of any other business that we conduct. Income, gains or losses of the separate account are credited to or charged against the assets of the separate account without regard to other income, gains or losses of the Company. All obligations arising under the contract are obligations of the Company.

## Funds Available Through the Separate Account

The separate account is divided into “subaccounts.” Each subaccount invests directly in shares of a corresponding fund. The funds available through the subaccounts of the separate account are listed in the front of this prospectus. We also provide brief descriptions of each fund in **APPENDIX II**. Investment results of the funds are likely to differ significantly and there is no assurance that any of the funds will achieve their respective investment objectives. Shares of the funds will rise and fall in value and you could lose money by investing in the funds. Shares of the funds are not bank deposits and are not guaranteed, endorsed or insured by any financial institution, the FDIC or any other government agency. Unless otherwise noted, all funds are diversified as defined under the 1940 Act. Please refer to the fund prospectuses for additional information. Fund prospectuses may be obtained, free of charge at the address and telephone number listed in **“CONTRACT OVERVIEW - Questions: Contacting the Company,”** by accessing the SEC’s website or by contacting the SEC Public Reference Branch.

## Risks of Investing in the Funds

**Insurance-Dedicated Funds** (*Mixed and Shared Funding*). The funds described in this prospectus are available only to insurance companies for their variable contracts (or directly to certain retirement plans, as allowed by the Tax Code). Such funds are often referred to as “insurance-dedicated funds,” and are used for “mixed” and “shared” funding.

“Mixed funding” occurs when shares of a fund, which the subaccount buys for variable annuity contracts, are bought for variable life insurance contracts issued by us or other insurance companies.

“Shared funding” occurs when shares of a fund, which the subaccount buys for variable annuity contracts, are also bought by other insurance companies for their variable annuity contracts. In other words:

- Mixed funding--bought for annuities and life insurance; and
- Shared funding--bought by more than one company.

**Possible Conflicts of Interest.** It is possible that a conflict of interest may arise due to mixed and/or shared funding, which could adversely impact the value of a fund. For example, if a conflict of interest occurred and one of the subaccounts withdrew its investment in a fund, the fund may be forced to sell its securities at disadvantageous prices, causing its share value to decrease. Each fund’s board of directors or trustees will monitor events to identify any conflicts which may arise and to determine what action, if any, should be taken to address such conflicts.

For additional risks associated with each fund, please see the fund’s prospectus.

## Voting Rights

Each of the subaccounts holds shares in a fund and each is entitled to vote at regular and special meetings of that fund. Under our current view of applicable law, we will vote the shares for each subaccount as instructed by persons having a voting interest in the subaccount. We will vote shares for which instructions have not been received in the same proportion as those for which we received instructions. Each person who has a voting interest in the separate account will receive periodic reports relating to the funds in which he or she has an interest, as well as any proxy materials and a form on which to give voting instructions. Voting instructions will be solicited by a written communication at least 14 days before the meeting.

The number of votes (including fractional votes) you are entitled to direct will be determined as of the record date set by any fund you invest in through the subaccounts. The number of votes is equal to the portion of reserves set aside for the contract’s share of the fund, divided by the net asset value of one share of that fund.

We may restrict or eliminate any voting rights of persons who have voting rights as to the separate account.

## Right to Change the Separate Account

Subject to state and federal law and the rules and regulations thereunder, we may, from time to time, make any of the following changes to the separate account with respect to some or all classes of contracts:

- Offer additional subaccounts that will invest in funds we find appropriate for contracts we issue;
- Combine two or more subaccounts;

- Close subaccounts. We will provide advance notice by a supplement to this prospectus if we close a subaccount. If a subaccount is closed or otherwise is unavailable for new investment, unless we receive alternative allocation instructions, all future amounts directed to the subaccount that was closed or is unavailable may be automatically allocated among the other available subaccounts according to the most recent allocation instructions we have on file. If the most recent allocation instructions we have on file do not include any available subaccounts, we must be provided with alternative allocation instructions. Alternative allocation instructions can be given by contacting us at the address and telephone number listed in “**CONTRACT OVERVIEW - Questions: Contacting the Company**”;
- Substitute a new fund for a fund in which a subaccount currently invests. In the case of a substitution, the new fund may have different fees and charges than the fund it replaced. A substitution may become necessary if, in our judgment:
  - ▷ A fund no longer suits the purposes of your contract;
  - ▷ There is a change in laws or regulations;
  - ▷ There is a change in the fund’s investment objectives or restrictions;
  - ▷ The fund is no longer available for investment; or
  - ▷ Another reason we deem a substitution is appropriate.
- Stop selling the contract;
- Limit or eliminate any voting rights for the separate account; or
- Make any changes required by the 1940 Act or its rules or regulations.

We will not make a change until the change is disclosed in an effective prospectus or prospectus supplement, authorized, if necessary, by an order from the SEC and approved, if necessary, by the appropriate state insurance department(s).

**The changes described above do not include those changes that may, if allowed under your plan, be initiated by your plan sponsor.**

## ***Selecting Investment Options***

When Selecting Investment Options:

- **Choose options appropriate for you.** Your sales representative can help you evaluate which investment options may be appropriate for your financial goals;
- **Understand the risks associated with the options you choose.** Some subaccounts invest in funds that are considered riskier than others. Funds with additional risks are expected to have values that rise and fall more rapidly and to a greater degree than other funds. For example, funds investing in foreign or international securities are subject to risks not associated with domestic investments, and their investment performance may vary accordingly. Also, funds using derivatives in their investment strategy may be subject to additional risks; and
- **Be informed.** Read this prospectus, the fund prospectuses and the **FIXED DOLLAR OPTION** Appendix in this prospectus.

Furthermore, be aware that there may be:

- **Limits on Availability of Options.** Some funds may be unavailable through your contract or plan or in some states. Your plan sponsor may also have selected a subset of variable investment and/or fixed interest options to be available under your plan;
- **Transfers Among Variable Investment Options.** You may transfer amounts among the available subaccounts. The Company reserves the right to limit such transfers to 12 in any calendar year and to establish a minimum transfer amount. Transfers are not allowed into or out of the fixed dollar option; and
- **Transfer Requests.** Requests may be made, after the contract is issued, in writing, by telephone or, where applicable, electronically.

## Limits on Frequent or Disruptive Transfers

The contract is not designed to serve as a vehicle for frequent transfers. Frequent transfer activity can disrupt management of a fund and raise its expenses through:

- Increased trading and transaction costs;
- Forced and unplanned portfolio turnover;
- Lost opportunity costs; and
- Large asset swings that decrease the fund's ability to provide maximum investment return to all contract owners and participants.

This in turn can have an adverse effect on fund performance. **Accordingly, individuals or organizations that use market-timing investment strategies or make frequent transfers should not purchase or participate in the contract.**

**Excessive Trading Policy.** We and the other members of the ING family of companies that provide multi-fund variable insurance and retirement products have adopted a common Excessive Trading Policy to respond to the demands of the various fund families that make their funds available through our products to restrict excessive fund trading activity and to ensure compliance with Rule 22c-2 of the 1940 Act.

We actively monitor fund transfer and reallocation activity within our variable insurance products to identify violations of our Excessive Trading Policy. Our Excessive Trading Policy is violated if fund transfer and reallocation activity:

- Meets or exceeds our current definition of Excessive Trading, as defined below; or
- Is determined, in our sole discretion, to be disruptive or not in the best interests of other owners of our variable insurance and retirement products, or participants in such products.

We currently define "Excessive Trading" as:

- More than one purchase and sale of the same fund (including money market funds) within a 60 calendar day period (hereinafter, a purchase and sale of the same fund is referred to as a "round-trip"). This means two or more round-trips involving the same fund within a 60 calendar day period would meet our definition of Excessive Trading; or
- Six round-trips involving the same fund within a rolling 12 month period.

The following transactions are excluded when determining whether trading activity is excessive:

- Purchases or sales of shares related to non-fund transfers (for example, new purchase payments, withdrawals and loans);
- Transfers associated with scheduled dollar cost averaging, scheduled rebalancing, or scheduled asset allocation programs;
- Purchases and sales of fund shares in the amount of \$5,000 or less;
- Purchases and sales of funds that affirmatively permit short-term trading in their fund shares, and movement between such funds and a money market fund; and
- Transactions initiated by us, another member of the ING family of companies, or a fund.

If we determine that an individual or entity has made a purchase of a fund within 60 days of a prior round-trip involving the same fund, we will send them a letter warning that another sale of that same fund within 60 days of the beginning of the prior round-trip will be deemed to be Excessive Trading and result in a six month suspension of their ability to initiate fund transfers or reallocations through the Internet, facsimile, Voice Response Unit (VRU), telephone calls to the ING Customer Service Center or other electronic trading medium that we may make available from time to time ("Electronic Trading Privileges"). Likewise, if we determine that an individual or entity has made five round-trips involving the same fund within a rolling 12 month period, we will send them a letter warning that another purchase and sale of that same fund within 12 months of the initial purchase in the first round-trip will be deemed to be Excessive Trading and result in a suspension of their Electronic Trading Privileges. According to the needs of the various business units, a copy of any warning letters may also be sent, as applicable, to the person(s) or entity authorized to initiate fund transfers or reallocations, the agent/registered representative, or the investment adviser for that individual or entity. A copy of the warning letters and details of the individual's or entity's trading activity may also be sent to the fund whose shares were involved in the trading activity.

If we determine that an individual or entity has violated our Excessive Trading Policy, we will send them a letter stating that their Electronic Trading Privileges have been suspended for a period of six months. Consequently, all fund transfers or reallocations, not just those that involve the fund whose shares were involved in the activity that violated our Excessive Trading Policy, will then have to be initiated by providing written instructions to us via regular U.S. mail. Suspension of Electronic Trading Privileges may also extend to products other than the product through which the Excessive Trading activity occurred. During the six month suspension period, electronic “inquiry only” privileges will be permitted where and when possible. A copy of the letter restricting future transfer and reallocation activity to regular U.S. mail and details of the individual’s or entity’s trading activity may also be sent, as applicable, to the person(s) or entity authorized to initiate fund transfers or reallocations, the agent/registered representative or investment adviser for that individual or entity, and the fund whose shares were involved in the activity that violated our Excessive Trading Policy.

Following the six month suspension period during which no additional violations of our Excessive Trading Policy are identified, Electronic Trading Privileges may again be restored. We will continue to monitor the fund transfer and reallocation activity, and any future violations of our Excessive Trading Policy will result in an indefinite suspension of Electronic Trading Privileges. A violation of our Excessive Trading Policy during the six month suspension period will also result in an indefinite suspension of Electronic Trading Privileges.

We reserve the right to suspend Electronic Trading Privileges with respect to any individual or entity, with or without prior notice, if we determine, in our sole discretion, that the individual’s or entity’s trading activity is disruptive or not in the best interests of other owners of our variable insurance and retirement products, or participants in such products, regardless of whether the individual’s or entity’s trading activity falls within the definition of Excessive Trading set forth above.

Our failure to send or an individual’s or entity’s failure to receive any warning letter or other notice contemplated under our Excessive Trading Policy will not prevent us from suspending that individual’s or entity’s Electronic Trading Privileges or taking any other action provided for in our Excessive Trading Policy.

The Company does not allow exceptions to our Excessive Trading Policy. We reserve the right to modify our Excessive Trading Policy, or the policy as it relates to a particular fund, at any time without prior notice, depending on, among other factors, the needs of the underlying fund(s), the best interests of contract owners, participants, and fund investors, and/or state or federal regulatory requirements. If we modify our policy, it will be applied uniformly to all contract owners and participants or, as applicable, to all contract owners and participants investing in the underlying fund.

Our Excessive Trading Policy may not be completely successful in preventing market-timing or excessive trading activity. If it is not completely successful, fund performance and management may be adversely affected, as noted above.

**Limits Imposed by the Underlying Funds.** Each underlying fund available through the variable insurance and retirement products offered by us and/or the other members of the ING family of companies, either by prospectus or stated policy, has adopted or may adopt its own excessive/frequent trading policy, and orders for the purchase of fund shares are subject to acceptance or rejection by the underlying fund. We reserve the right, without prior notice, to implement fund purchase restrictions and/or limitations on an individual or entity that the fund has identified as violating its excessive/frequent trading policy and to reject any allocation or transfer request to a subaccount if the corresponding fund will not accept the allocation or transfer for any reason. All such restrictions and/or limitations (which may include, but are not limited to, suspension of Electronic Trading Privileges and/or blocking of future purchases of a fund or all funds within a fund family) will be done in accordance with the directions we receive from the fund.

**Agreements to Share Information with Fund Companies.** As required by Rule 22c-2 under the 1940 Act, we have entered into information sharing agreements with each of the fund companies whose funds are offered through the contract. Contract owner and participant trading information is shared under these agreements as necessary for the fund companies to monitor fund trading and our implementation of our Excessive Trading Policy. Under these agreements, the Company is required to share information regarding contract owner and participant transactions, including but not limited to information regarding fund transfers initiated by you. In addition to information about contract owner and participant transactions, this information may include personal contract owner and participant information, including names and social security numbers or other tax identification numbers.

As a result of this information sharing, a fund company may direct us to restrict a contract owner or participant's transactions if the fund determines that the contract owner or participant has violated the fund's excessive/frequent trading policy. This could include the fund directing us to reject any allocations of purchase payments or account value to the fund or all funds within the fund family.

**Telephone and Electronic Transactions: Security Measures.** To prevent fraudulent use of telephone and electronic transactions (including, but not limited to, Internet transactions), we have established security procedures. These include recording calls on our toll-free telephone lines and requiring use of a personal identification number ("PIN") to execute transactions. You are responsible for keeping your PIN and account information confidential. If we fail to follow reasonable security procedures, we may be liable for losses due to unauthorized or fraudulent telephone or other electronic transactions. We are not liable for losses resulting from telephone or electronic instructions we believe to be genuine. If a loss occurs when we rely on such instructions, you will bear the loss.

## FEES

The following repeats and adds to information provided under "FEE TABLE." Please review both sections for information on fees.

### Transaction Fees

#### Early Withdrawal Charge

Withdrawals of all or a portion of the present value of remaining guaranteed income payments may be subject to an early withdrawal charge. In the case of a partial withdrawal, the amount withdrawn from your account will be the amount you specified plus adjustment for any applicable early withdrawal charge. Not all contracts permit withdrawals. See "WITHDRAWALS."

**Amount:** The charge is a percentage of the present value of any remaining guaranteed payments that you withdraw. The percentage will be determined by the early withdrawal charge schedule applicable to your contract. Although the maximum early withdrawal charge is 7% of the remaining guaranteed payments withdrawn, the total early withdrawal charge will never be more than 8.5% of your purchase payment to the contract.

Early Withdrawal Charge Schedule:

Number of Years from Contract Effective Date*	Early Withdrawal Charge
Fewer than 1**	7%
1 or more but fewer than 2	6%
2 or more but fewer than 3	5%
3 or more but fewer than 4	4%
4 or more but fewer than 5	3%
5 or more but fewer than 6	2%
6 or more but fewer than 7	1%
7 or more	0%

\* For participants under a group contract, the early withdrawal charge will be calculated based on the number of years from the certificate effective date. For amounts transferred into this contract as an internal exchange, see "Internal Exchanges" below.

\*\* Certain contracts do not allow withdrawals during the first contract year.

**When/How.** At the time of withdrawal we deduct this charge from the amount withdrawn.

**Purpose.** This is a deferred sales charge. It reimburses us for some of the sales and administrative expenses associated with the contract. If our expenses are greater than the amount we collect for the early withdrawal charge, we may use any of our corporate assets, including potential profit that may arise from the mortality and expense risk charge, to make up any difference.

### Types of Fees

The following types of fees and deductions associated with the contract may affect the amount of your variable income payments. For fees applicable to fixed payments see "APPENDIX I."

- Transaction Fees
  - ▷ Early Withdrawal Charge
  - ▷ Redemption Fees
- Fees Deducted from Investments in the Separate Account
  - ▷ Mortality and Expense Risk Charge
  - ▷ Administrative Expense Charge
  - ▷ Five-Year Guaranteed Minimum Income Charge
- Reduction or Elimination of Certain Fees
- Fund Fees and Expenses
  - ▷ Revenue from the Funds
  - ▷ Fund of Funds
- Premium and Other Taxes

**Internal Exchanges.** In the case of amounts transferred from a prior contract or other arrangement issued or administered by the Company or certain of its affiliates, the “Number of Years from Contract Effective Date” is calculated from the date of the first purchase payment made under the individual’s account under the prior contract or if earlier, the effective date of the individual’s account under the prior contract or other arrangement. There is no surrender charge under this contract on amounts transferred or rolled over as an internal transfer when the prior contract or arrangement imposed a front end load, there was no applicable surrender charge under the prior contract or arrangement, or if the prior contract or arrangement would not have assessed a surrender charge if the money had been transferred to a contract issued by a non-affiliated company.

## **Redemption Fees**

Certain funds may impose redemption fees as a result of withdrawals, transfers, or other fund transactions you initiate. If applicable, we would deduct the amount of any redemption fees imposed by the underlying mutual funds as a result of withdrawals, transfers or other fund transactions you initiate and remit such fees back to that fund. Redemption fees, if any are separate and distinct from any transaction charges or other charges deducted from your account value. For a more complete description of the funds’ fees and expenses, review each fund’s prospectus.

## ***Fees Deducted from Investments in the Separate Account***

### **Mortality and Expense Risk Charge**

**Maximum Amount:** 1.25% annually of values invested in the subaccounts. We currently charge 0.95% annually.

**When/How.** We deduct this charge daily from the subaccounts corresponding to the funds you select.

**Purpose.** This charge compensates us for the mortality and expense risks we assume under the contract. It consists of the following risks:

- The mortality risks are those risks associated with our promise to make lifetime income payments based on annuity rates specified in the contract; and
- The expense risk is the risk that the actual expenses we incur under the contract will exceed the maximum costs that we can charge.

If the amount we deduct for this charge is not enough to cover our mortality costs and expenses under the contract, we will bear the loss. We may use any excess to recover distribution costs relating to the contract and as a source of profit. We expect to earn a profit from this charge.

### **Administrative Expense Charge**

**Maximum Amount:** We currently do not charge an administrative expense charge. We reserve, however, the right to charge up to 0.25% annually of values invested in the subaccounts.

**When/How.** If imposed, we deduct this charge daily from the subaccounts corresponding to the funds you select.

**Purpose.** This charge helps defray the cost of providing administrative services under the contracts and in relation to the separate account and subaccounts.

### **Five-Year Guaranteed Minimum Income Charge**

This additional charge is assessed only if you select the five-year guaranteed minimum income feature.

**Amount:** 1.00% annually of values invested in the subaccounts until the five-year guarantee period has ended.

**When/How.** We deduct this charge daily from the subaccounts corresponding to the funds you select. This charge will be assessed only during the first five contract years.

**Purpose.** This charge compensates us for the additional mortality and expense risks we assume by guaranteeing minimum income payments. For additional information regarding those risks, see “**Mortality and Expense Risk Charge - Purpose**” in this section.

## ***Reduction or Elimination of Certain Fees***

When sales of the contract are made to individuals or a group of individuals in a manner that results in savings of sales or administration expenses, we may reduce or eliminate the early withdrawal charge or mortality and expense risk charge. Our decision to reduce or eliminate either of these charges will be based on one or more of the following:

- The size and type of group of individuals to whom the contract is issued;
- A prior or existing relationship with the Company, such as being an employee or former employee of the Company or one of its affiliates, receiving distributions or making transfers from other contracts or arrangements offered by us or one of our affiliates, or transferring amounts held under qualified plans sponsored by the Company or an affiliate; or
- The type and frequency of administrative and sales services to be provided.

The reduction or elimination of any of these charges will not be unfairly discriminatory against any person and will be done according to our rules in effect at the time the contract is issued. We reserve the right to change these rules from time to time. The right to reduce or eliminate any of these charges may be subject to state approval.

## ***Fund Fees and Expenses***

As shown in the fund prospectuses and described in the “**FEE TABLE - Fund Fees and Expenses**” section of this prospectus, each fund deducts management/investment advisory fees from the amounts allocated to the fund. In addition, each fund deducts other expenses, which may include service fees that may be used to compensate service providers, including the Company and its affiliates, for administrative and contract owner services provided on behalf of the fund. Furthermore, certain funds deduct a distribution or 12b-1 fee, which is used to finance any activity that is primarily intended to result in the sale of fund shares. Fund fees and expenses are deducted from the value of the fund shares on a daily basis, which in turn affects the value of each subaccount that purchases fund shares. Fund fees and expenses are one factor that impacts the value of a fund’s shares. **To learn more about fund fees and expenses, the additional factors that can affect the value of a fund’s shares and other important information about the funds, refer to the fund prospectuses.**

Less expensive share classes of the funds offered through this contract may be available for investment outside of this contract. You should evaluate the expenses associated with the funds available through this contract before making a decision to invest.

## ***Revenue from the Funds***

The Company may receive compensation from each of the funds or the funds’ affiliates. For certain funds, some of this compensation may be paid out of 12b-1 fees or service fees that are deducted from fund assets. Any such fees deducted from fund assets are disclosed in the fund prospectuses. The Company may also receive additional compensation from certain funds for administrative, recordkeeping or other services provided by the Company to the funds or the funds’ affiliates. These additional payments may also be used by the Company to finance distribution. These additional payments are made by the funds or the funds’ affiliates to the Company and do not increase, directly or indirectly, the fund fees and expenses.

The amount of revenue the Company may receive from each of the funds or from the funds’ affiliates may be substantial, although the amount and types of revenue vary with respect to each of the funds offered through the contract. This revenue is one of several factors we consider when determining contract fees and charges and whether to offer a fund through our contracts. **Fund revenue is important to the Company’s profitability, and it is generally more profitable for us to offer affiliated funds than to offer unaffiliated funds.**

Assets allocated to affiliated funds, meaning funds managed by Directed Services LLC, ING Investments, LLC or another Company affiliate, generate the largest dollar amount of revenue for the Company. Affiliated funds may also be subadvised by a Company affiliate or by an unaffiliated third party. Assets allocated to unaffiliated funds, meaning funds managed by an unaffiliated third party, generate lesser, but still substantial dollar amounts of revenue for the Company. The Company expects to earn a profit from this revenue to the extent it exceeds the Company’s expenses, including the payment of sales compensation to our distributors.

**Revenue Received from Affiliated Funds.** The revenue received by the Company from affiliated funds may be deducted from fund assets and include:

- A share of the management fee;
- Service fees;
- For certain share classes, compensation paid from 12b-1 fees; and
- Other revenues that may be based either on an annual percentage of average net assets held in the fund by the Company or a percentage of the fund's management fees.

In the case of affiliated funds subadvised by unaffiliated third parties, any sharing of the management fee between the Company and the affiliated investment adviser is based on the amount of such fee remaining after the subadvisory fee has been paid to the unaffiliated subadviser. Because subadvisory fees vary by subadviser, varying amounts of revenue are retained by the affiliated investment adviser and ultimately shared with the Company. The sharing of the management fee between the Company and the affiliated investment adviser does not increase, directly or indirectly, fund fees and expenses. The Company may also receive additional compensation in the form of intercompany payments from an affiliated fund's investment adviser or the investment adviser's parent in order to allocate revenue and profits across the organization. The intercompany payments and other revenue received from affiliated funds provide the Company with a financial incentive to offer affiliated funds through the contract rather than unaffiliated funds.

Additionally, in the case of affiliated funds subadvised by third parties, no direct payments are made to the Company or the affiliated investment adviser by the subadvisers. However, subadvisers may provide reimbursement for employees of the Company or its affiliates to attend business meetings or training conferences.

**Revenue Received from Unaffiliated Funds.** Revenue received from each of the unaffiliated funds or their affiliates is based on an annual percentage of the average net assets held in that fund by the Company. Some unaffiliated funds or their affiliates pay us more than others and some of the amounts we receive may be significant.

The revenue received by the Company or its affiliates from unaffiliated funds may be deducted from fund assets and may include:

- Service fees;
- For certain share classes, compensation paid from 12b-1 fees; and
- Additional payments for administrative, recordkeeping or other services that we provide to the funds or their affiliates, such as processing purchase and redemption requests, and mailing fund prospectuses, periodic reports and proxy materials. These additional payments do not increase directly or indirectly the fees and expenses shown in each fund's prospectus. These additional payments may be used by us to finance distribution of the contract.

If the unaffiliated fund families currently offered through the contract (including funds with limited availability) that made cash payments to us were individually ranked according to the total amount they paid to the Company or its affiliates in 2012, in connection with the registered variable annuity contracts issued by the Company, that ranking would be as follows:

- |                                    |                       |
|------------------------------------|-----------------------|
| • Fidelity Investments®            | • Invesco Investments |
| • Franklin® Templeton® Investments | • Calvert Funds       |
| • Lord Abbett Funds                |                       |

If the revenues received from the affiliated funds were taken into account when ranking the funds according to the total dollar amount they paid to the Company or its affiliates in 2012, the affiliated funds would be first on the list.

In addition to the types of revenue received from affiliated and unaffiliated funds described above, affiliated and unaffiliated funds and their investment advisers, subadvisers or affiliates may participate at their own expense in Company sales conferences or educational and training meetings. In relation to such participation, a fund's investment adviser, subadviser or affiliate may help offset the cost of the meetings or sponsor events associated with the meetings. In exchange for these expense offset or sponsorship arrangements, the investment adviser, subadviser or affiliate may receive certain benefits and access opportunities to Company sales representatives and wholesalers rather than monetary benefits. These benefits and opportunities include, but are not limited to co-branded marketing materials; targeted marketing sales opportunities; training opportunities at meetings; training modules for sales personnel; and opportunity to host due diligence meetings for representatives and wholesalers.

Please note certain management personnel and other employees of the Company or its affiliates may receive a portion of their total employment compensation based on the amount of net assets allocated to affiliated funds. See also “**CONTRACT DISTRIBUTION.**”

## **Fund of Funds**

Certain funds may be structured as “fund of funds” or “Master-Feeder” funds. These funds may have higher fees and expenses than a fund that invests directly in debt and equity securities because they also incur the fees and expenses of the underlying funds in which they invest. Some of these funds are affiliated funds, and the underlying funds in which they invest may be affiliated as well. The fund prospectuses disclose the aggregate annual operating expenses of each fund and its corresponding underlying fund or funds. These funds are identified in the investment option list in the front of this prospectus.

## ***Premium and Other Taxes***

**Maximum Amount.** Some states and municipalities charge a premium tax on annuities. These taxes currently range from 0% to 3.5%, depending upon the jurisdiction.

**When/How.** Our current practice is to reflect the cost of premium taxes in our income payment rates. We reserve the right, however, to deduct a charge for premium taxes from your purchase payment on the contract effective date. We will not deduct a charge for any municipal premium tax of 1% or less, but we reserve the right to reflect such an expense in our annuity purchase rates.

In addition, we reserve the right to assess a charge for any federal taxes due against the separate account. See “**TAX CONSIDERATIONS.**”

## **CALCULATING VARIABLE INCOME PAYMENTS**

---

The amount of any variable income payment is determined by multiplying the number of annuity units that you hold by an annuity unit value (“AUV”) for each unit.

**Annuity Units.** When you select variable income payments, your initial purchase payment purchases annuity units of the separate account subaccounts corresponding to the funds you select. The number of units purchased is based on your purchase payment amount and the value of each unit on the day the purchase payment is invested. Generally, the number of units will not vary over the life of the contract, but the value of each unit will vary daily based on the performance of the underlying fund and deduction of fees. Some events may result in a change in the number of units, including withdrawals, death of an annuitant if a reduction in payment to a surviving annuitant was selected, transfers among subaccounts, or a change in a guaranteed payment period. While the number of units may change if you transfer among subaccounts or make a change in a guaranteed payment period, the current value of your contract will not change as a result of either of these events.

**Annuity Unit Value (“AUV”).** The value of each annuity unit in a subaccount is called the annuity unit value or AUV. The AUV varies daily in relation to the underlying fund’s investment performance. The AUV also reflects daily deductions for fund fees and expenses, the mortality and expense risk charge, the administrative expense charge, if any, and the guaranteed minimum income charge (if applicable). We discuss these deductions in more detail in “**FEE TABLE**” and “**FEES.**”

**Valuation.** We determine the AUV every normal business day after the close of the New York Stock Exchange (“NYSE”) (normally at 4:00 p.m. Eastern Time). At that time we calculate the current AUV by multiplying the AUV last calculated by the net return factor of the subaccount, and by a factor to reflect the assumed annual net return rate. The net return factor measures the investment performance of the subaccount from one valuation to the next. The assumed annual net return rate will be either 3.5% or 5%, as you select. **Currently, we are only offering an assumed annual net return rate of 3.5%.**

$$\text{Current AUV} = \text{Prior AUV} \times \text{Net Return Factor} \times \text{Assumed Annual Net Return Rate Factor}$$

**Net Return Factor.** The net return factor for a subaccount between two consecutive valuations equals the sum of 1.0000 plus the net return rate.

The net return rate is computed according to a formula that is equivalent to the following:

- The net assets of the fund held by the subaccount as of the current valuation; minus
- The net assets of the fund held by the subaccount at the preceding valuation; plus or minus
- Taxes or provisions for taxes, if any, due to subaccount operations (with any federal income tax liability offset by foreign tax credits to the extent allowed); divided by
- The total value of the subaccount's units at the preceding valuation; minus
- A daily deduction for the mortality and expense risk charge, the administrative expense charge, if any and the guaranteed minimum income charge (if applicable). See "FEES."

The net return rate may be either positive or negative.

## WITHDRAWALS

---

### *Withdrawals of Variable Income Payments*

You may make partial or full withdrawals of the present value of any remaining guaranteed variable income payments if you are receiving payments under either one of the following:

- A lifetime payment option with guaranteed payments and you elected a right to make withdrawals. In this circumstance withdrawals are allowed once each year, beginning after the first contract year (subject to state approval); or
- The nonlifetime payment option.

Partial withdrawals are allowed only if each remaining guaranteed payment will be at least \$50.

### *Withdrawals of Fixed Income Payments*

**(For additional details see APPENDIX I - FIXED DOLLAR OPTION.)**

You may make partial or full withdrawals of the present value of any remaining fixed income payments if you are receiving payments under either one of the following:

- A lifetime payment option with guaranteed payments and you elected a right to make withdrawals. In this circumstance withdrawals are allowed once each year, beginning after the first contract year (subject to state approval); or
- The nonlifetime payment option and you elected a right to make withdrawals. In this circumstance withdrawals are allowed once each year, beginning after the first contract year.

Partial withdrawals are allowed only if each remaining guaranteed payment will be at least \$50.

### *Withdrawal Value*

**Variable Income Payments.** For any withdrawal of remaining variable guaranteed income payments, the amount available for withdrawal is equal to the present value of any remaining guaranteed variable payments (less any applicable early withdrawal charge) calculated using the same rate we used to calculate the income payments (i.e., the 3.5% or 5% assumed annual net return rate stated in the contract). Withdrawal values are determined as of the valuation date following our receipt of your written request in good order at our Customer Service Center.

**Fixed Income Payments.** See APPENDIX I for details regarding the withdrawal value of fixed payments.

**Amount Received.** For partial withdrawals, you will receive, reduced by any required withholding tax, the amount you specify, subject to the value in your account. However, the amount actually withdrawn from your account will be adjusted by any applicable early withdrawal charge and redemption fees.

## ***Early Withdrawal Charge***

Withdrawals may be subject to an early withdrawal charge as described in “**FEES - Early Withdrawal Charge**,” and may also be subject to redemption fees as described in “**FEES - Redemption Fees**.”

## ***Reduction of Remaining Payments***

Any withdrawal will result in a proportionate reduction of any remaining guaranteed payments and any applicable guaranteed minimum payment amount. Additionally, the withdrawal amount will be taken from the subaccounts proportionately, unless you designate otherwise. For lifetime income payment options, any payments to be made beyond the guaranteed payment period will be unaffected by any withdrawals.

## **DEATH BENEFIT**

---

The following describes the death benefit applicable to variable income payments. These are also outlined under “**INCOME PAYMENTS - Payment Options**.” For information on the death benefit applicable to the fixed dollar option, refer to **APPENDIX I**.

See “**INCOME PAYMENTS**” for a definition of annuitant and beneficiary as used in this section.

**Payment of Death Benefit.** Upon the death of the annuitant and any surviving joint annuitant, if applicable, a death benefit may be payable if your contract is issued under any of the following income payment options:

1. Life Income - Guaranteed Payments;
2. Life Income - Two Lives - Guaranteed Payments; or
3. Nonlifetime - Guaranteed Payments.

Any death benefit will be paid in the form specified in the contract and will be distributed at least as rapidly as under the method of distribution in effect upon the date of death. See “**TAX CONSIDERATIONS**” for rules where you have elected to delay your payment start date under a nonqualified annuity and you die before the income payment start date. Under payment options 1 and 2 above, a lump-sum payment of the present value of any death benefit may be requested within six months following the date of death. A lump-sum payment may be requested at any time (even after the six month period) if you had elected the right to withdraw. Under payment option 3 above, a lump-sum payment of the present value of any death benefit may be requested at any time. If a lump-sum payment is requested, no early withdrawal charge is applied and payment will be sent within seven calendar days following our receipt of your request in good order.

**Calculation of Lump-Sum Payment of the Death Benefit.** The value of the lump-sum payment of the death benefit will equal the present value of any remaining guaranteed income payments, calculated using the same rate we used to calculate the income payments (i.e., the 3.5% or 5% assumed annual net return rate used for variable payments). We will calculate this value on the next valuation date following our receipt of proof of death acceptable to us and payment request in good order. Such value will reflect any payments made after the date of death. See **APPENDIX I - FIXED DOLLAR OPTION** for information on calculation of a lump-sum payment of the death benefit applicable to the fixed dollar option.

### **Payment of Death Benefit or Proceeds**

Subject to the conditions and requirements of state law, full payment of the death benefit or proceeds (“Proceeds”) to a beneficiary may be made either into an interest bearing retained asset account that is backed by our general account or by check. For additional information about the payment options available to you, please refer to your claim forms or contact us at the address shown in “**CONTRACT OVERVIEW – Questions: Contacting the Company**.” Beneficiaries should carefully review all settlement and payment options available under the contract and are encouraged to consult with a financial professional or tax adviser before choosing a settlement or payment option.

**The Retained Asset Account.** The retained asset account, known as the ING Personal Transition Account, is an interest bearing account backed by our general account. **The retained asset account is not guaranteed by the Federal Deposit Insurance Corporation (“FDIC”).** Beneficiaries that receive their payment through the retained asset account may access the entire Proceeds in the account at any time without penalty through a draftbook feature. The Company seeks to earn a profit on the account, and interest credited on the account may vary from time to time but will not be less than the minimum rate stated in the supplemental contract delivered to the beneficiary together with the paperwork to make a claim to the Proceeds. Interest earned on the Proceeds in the account may be less than could be earned if the Proceeds were invested outside of the account. Likewise, interest credited on the Proceeds in the account may be less than under other settlement or payment options available through the contract.

**Who Receives Death Benefit Proceeds?** The beneficiary is the person entitled to receive any death benefit proceeds. We will pay any death benefit proceeds based on the last written beneficiary designation on file with us as of the date of death.

**Changes in Beneficiary Designations.** The designated beneficiary may be changed at any time during the lifetime of the annuitant and the joint annuitant (if applicable). Such change must be submitted to us in writing, and except for contracts issued in New York, will become effective as of the date written notice of the change is received and recorded by us. For contracts issued in New York, the change will become effective as of the date the notice is signed. However, our obligation to pay death benefits will be fully discharged upon payment to the beneficiary named in the written notice of beneficiary designation that we last received as of the date of such payment.

Some restrictions may apply to beneficiary changes under qualified contracts.

## INCOME PAYMENTS

Under the contract, we will make regular income payments to you or to a payee you designate in writing.

**Initiating Payments.** To initiate income payments, you must make the following selections on your application or enrollment form:

- Payment start date;
- Payment frequency (i.e., monthly, quarterly, semi-annually or annually);
- Income payment option and any special features, such as a right to withdraw or the Five-Year Guaranteed Minimum Income Feature\*;
- Fixed, variable or a combination of both fixed and variable payments;
- The subaccounts to allocate your purchase payment among (only if variable payments are elected); and
- An assumed annual net return rate (only if variable payments are elected).

\*If you select the Five-Year Guaranteed Minimum Income Feature, you may not make any withdrawals.

Your sales representative can help you consider what selections may be appropriate for your financial goals. Generally, your selections may not be changed after the contract is issued. Some changes, such as transfers among subaccounts, may be allowed. Payments need to conform to minimum distribution requirements if applicable.

**What Affects Income Payment Amounts?** Some of the factors that may affect the amount of your income payments include your age, gender, the amount of your purchase payment, the income payment option selected, the number of guaranteed income payments selected (if any), whether you select fixed, variable or a combination of both fixed and variable payments, and, for variable payments, the assumed annual net return rate selected.

**Payment Due Dates.** You will generally receive your first income payment on the last day of the selected payment period. For example, if you elect to receive one payment a year, we will make the payment on the day before the anniversary of the contract effective date. An alternative first payment date may be elected subject to our approval and in compliance with the Tax Code and regulations thereunder.

**Minimum Payment Amounts.** For all payment options, the initial income payment must be at least \$50 per month, or total yearly payments of at least \$250.

### Terms to understand:

**Annuitant(s):** The person(s) whose life or life expectancy(ies) determines the amount or continuation of lifetime income payments or whose death results in payment of death benefits.

**Beneficiary(ies):** The person(s) or entity(ies) entitled to receive a death benefit under the contract.

**Fixed Income Payments.** If you select fixed payments, your purchase payment will be applied to the fixed dollar option and the amount of your payments will not vary. Except where noted, this prospectus describes only the variable investment options. The fixed dollar option is described in **APPENDIX I**.

**Assumed Annual Net Return Rate.** If you select variable income payments we will apply an assumed annual net return rate of 3.5%. We reserve the right to also offer an assumed annual net return rate of 5%, in which case, you must select an assumed annual net return rate of either 5% or 3.5%. If you do not select an assumed annual net return rate, the default will be a 3.5% annual net return rate. **Currently, we are only offering an assumed annual net return rate of 3.5%.**

For contracts issued with an assumed annual net return rate of 5%, your first income payment will be higher, but subsequent payments will increase only if the investment performance of the subaccounts you selected is greater than 5% annually, after deduction of fees. Payment amounts will decline if the investment performance is less than 5%, after deduction of fees.

For contracts issued with an assumed annual net return rate of 3.5%, your first income payment will be lower, but subsequent payments will increase more rapidly and decline more slowly depending upon the investment performance of the subaccounts you selected.

For more information about selecting an assumed annual net return rate, call us for a copy of the SAI. See **“CONTRACT OVERVIEW - Questions: Contacting the Company.”**

**Five-Year Guaranteed Minimum Income Feature.** If you select this feature, we guarantee that during the first five contract years your variable payment will never be less than the guaranteed minimum payment amount shown in the contract. The guaranteed minimum payment amount equals 90% of your estimated initial payment. If the variable annuity minimum income guarantee has been chosen or assumed, an assumed annual net return rate of 3.5% will apply.

**Estimated Initial Payment Amount.** On the date we issue the contract we estimate the amount of your initial payment based on the value of the annuity units your payment purchases on that date. See **“Calculating Variable Income Payments-Annuity Units.”** Your guaranteed minimum payment amount equals 90% of this estimated amount.

This feature requires that you select at issue:

- A lifetime payment option or a nonlifetime payment option of 15 years or more;
- The ability to make withdrawals;
- 100% variable payments;
- A 3.5% assumed annual net return rate; and
- Funds from the following list:

Calvert VP SRI Balanced Portfolio  
Fidelity® VIP Equity-Income Portfolio  
ING Balanced Portfolio  
ING BlackRock Large Cap Growth Portfolio  
ING Clarion Real Estate Portfolio  
ING Growth and Income Portfolio  
ING Index Plus LargeCap Portfolio  
ING Intermediate Bond Portfolio  
ING Invesco Comstock Portfolio  
ING Invesco Equity and Income Portfolio  
ING Large Cap Value Portfolio

ING Money Market Portfolio  
ING Multi-Manager Large Cap Core Portfolio  
ING PIMCO Total Return Portfolio  
ING Pioneer High Yield Portfolio  
ING Russell™ Large Cap Index Portfolio  
ING Strategic Allocation Conservative Portfolio  
ING Strategic Allocation Growth Portfolio  
ING Strategic Allocation Moderate Portfolio  
ING T. Rowe Price Equity Income Portfolio  
Invesco V.I. Core Equity Fund

If you select this feature you may transfer only between these available funds.

Certain age restrictions may also apply.

If you select this feature, any withdrawal during the first five contract years will result in a proportionate reduction in your guaranteed minimum payment amount.

In addition to other contract charges, if you select this feature, the guaranteed minimum income charge will apply for the first five contract years. See “FEES.”

**Start Date.** The contract is designed to be viewed as an immediate annuity contract under the Tax Code. For nonqualified contracts you may elect to delay your income payment start date for up to 12 months following purchase of the contract. See “TAX CONSIDERATIONS” for rules applicable where death occurs before the annuity starting date under a nonqualified annuity. Consult a tax adviser before electing a delay. Annuity payments under a qualified contract must meet the required beginning date applicable to your plan.

**Taxation.** The Tax Code has rules regarding income payments. For example, for qualified contracts, guaranteed payments may not extend beyond (a) the estimated life expectancy of the annuitant or (b) the joint life expectancies of the annuitant and beneficiary. Payments must comply with the minimum distribution requirements of Tax Code section 401(a)(9). In some cases tax penalties will apply if rules are not followed. **For tax rules that may apply to the contract see “TAX CONSIDERATIONS.”**

### ***Payment Options***

The following table lists the income payment options and their accompanying death benefits and rights to withdraw. See “DEATH BENEFIT,” “WITHDRAWALS,” and APPENDIX I for additional detail. We may offer additional income payment options under the contract from time to time.

<b>Lifetime Payment Options</b>	
Life Income	<p><b>Length of Payments:</b> For as long as the annuitant lives. It is possible that no payment will be made if the annuitant dies prior to the first payment's due date.</p> <p><b>Death Benefit-None:</b> All payments end upon the annuitant's death.</p> <p><b>Right to Withdraw-None.</b></p>
Life Income - Guaranteed Payments	<p><b>Length of Payments:</b> For as long as the annuitant lives, with payments guaranteed for your choice of 5-50 years* (or other periods we may make available at the time you select this option).</p> <p><b>Death Benefit-Payment to the Beneficiary:</b> If the annuitant dies before we have made all the guaranteed payments, payments will continue to the beneficiary.</p> <p><b>Right to Withdraw:</b> At the time of purchase, you may elect the right to withdraw all or a portion of any remaining guaranteed payments (some restrictions apply, see <b>"WITHDRAWALS"</b>).</p>
Life Income - Two Lives	<p><b>Length of Payments:</b> For as long as either annuitant lives. It is possible that no payment will be made if both the annuitant and joint annuitant die before the first payment's due date.</p> <p><b>Continuing Payments:</b> When you select this option you will also choose either:</p> <ul style="list-style-type: none"> <li>• Full or reduced payments to continue to the surviving annuitant after the first annuitant's death; or</li> <li>• 100% of the payment to continue to the annuitant on the joint annuitant's death, and a reduced payment to continue to the joint annuitant on the annuitant's death.</li> </ul> <p>In either case, payments cease upon the death of the surviving annuitant.</p> <p>Any reduction in payment will result in a corresponding reduction to the amount of the guaranteed minimum income payment, if applicable.</p> <p><b>Death Benefit-None:</b> All payments end upon the death of both annuitants.</p> <p><b>Right to Withdraw-None.</b></p>
Life Income - Two Lives - Guaranteed Payments	<p><b>Length of Payments:</b> For as long as either annuitant lives, with payments guaranteed for your choice of 5-50 years* (or other periods we may make available at the time you select this option.)</p> <p><b>Continuing Payments:</b> 100% of the payment will continue to the surviving annuitant after the first annuitant's death.</p> <p><b>Death Benefit-Payment to the Beneficiary:</b> If both annuitants die before the guaranteed payments have all been paid, payments will continue to the beneficiary.</p> <p><b>Right to Withdraw:</b> At the time of purchase, you may elect the right to withdraw all or a portion of any remaining guaranteed payments (some restrictions apply, see <b>"WITHDRAWALS"</b>).</p>
<b>Nonlifetime Payment Option</b>	
Nonlifetime - Guaranteed Payments	<p><b>Length of Payments:</b> Payments will continue for your choice of 5-50 years* (or other periods we may make available at the time you select this option).</p> <p><b>Death Benefit - Payment to the Beneficiary:</b> If the annuitant dies before we make all the guaranteed payments, payments will continue to the beneficiary.</p> <p><b>Right to Withdraw:</b></p> <ul style="list-style-type: none"> <li>• If you are receiving variable income payments you may withdraw all or a portion of any remaining guaranteed payments at any time.</li> <li>• If you elect to receive fixed income payments at the time of purchase, you may elect the right to withdraw all or a portion of any remaining guaranteed payments (some restrictions apply, see <b>"WITHDRAWALS."</b>)</li> </ul>

\* For qualified contracts a guaranteed payment period may not extend beyond your life expectancy or age 100 whichever is earlier. For non-qualified contracts, a guaranteed payment period may not extend beyond age 100.

## ***Right to Change Guaranteed Payment Period***

If you are receiving payments under a nonlifetime payment option, you may shorten or lengthen the period for which the guaranteed payments will be made or change to a lifetime payment option, subject to the following:

- You may make the change on any contract anniversary beginning on the second contract anniversary;
- Any change request must be in writing and received by us in good order within 30 days prior to the contract anniversary;
- A guaranteed payment period may be shortened to a period not less than 10 years from the contract effective date;
- For nonqualified contracts, a guaranteed payment period may be lengthened to a period not greater than 50 years from the contract effective date or age 100, whichever is earlier;
- For qualified contracts, a guaranteed payment period may not extend beyond your life expectancy or age 100, whichever is earlier;
- The withdrawal value on the contract anniversary of the change, along with current benefit rates in effect at that time, will be used to determine the amount of the new annuity payments (see “**WITHDRAWALS - Withdrawal Value**”); and
- We will terminate your withdrawal rights if a life annuity option is chosen.

The right to change a payment period is available for both fixed and variable payments. The right to change a payment period may not be available in all states. Certain other conditions and restrictions may apply.

A change to a lifetime payment option and any change in the guaranteed payment period may have an impact on the amount of each payment and the amount of each payment that is taxable. For advice about how any such change will affect your taxes, consult your tax adviser.

## **TAX CONSIDERATIONS**

### ***Introduction***

The contract described in this prospectus is designed to be treated as an annuity for U.S. federal income tax purposes. This section discusses our understanding of current federal income tax laws affecting the contract. The U.S. federal income tax treatment of the contract is complex and sometimes uncertain. You should keep the following in mind when reading this section:

- Your tax position (or the tax position of the designated beneficiary, as applicable) may influence the federal taxation of amounts held or paid out under the contracts;
- Tax laws change. It is possible that a change in the future could affect contracts issued in the past, including the contract described in this prospectus;
- This section addresses some, but not all, applicable federal income tax rules and does not discuss federal estate and gift tax implications, state and local taxes or any other tax provisions; and
- No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of those set forth below.

#### **In this Section:**

- **Introduction;**
- **Taxation of Nonqualified Contracts;**
- **Taxation of Qualified Contracts;**
- **Possible Changes in Taxation; and**
- **Taxation of the Company.**

When consulting a qualified tax adviser, be certain that he or she has expertise in the Tax Code sections applicable to your tax concerns.

**We do not intend this information to be tax advice. No attempt is made to provide more than a general summary of information about the use of the contract with tax-qualified retirement arrangements, and the Tax Code may contain other restrictions and conditions that are not included in this summary. You should consult with a qualified tax adviser for advice about the effect of federal income tax laws, state tax laws or any other tax laws affecting the contract or any transactions involving the contract.**

## **Types of Contracts: Nonqualified or Qualified**

The contract described in this prospectus may be purchased on a non-tax-qualified basis (nonqualified contracts) or purchased on a tax-qualified basis (qualified contracts).

**Nonqualified Contracts.** Nonqualified contracts are not related to retirement plans that receive special income tax treatment under the Tax Code. Rather, they are purchased with after tax contributions and are purchased to save money with the right to receive annuity payments for either a specified period of time or over a lifetime.

**Qualified Contracts.** Qualified contracts are designed for use by individuals and/or employers whose purchase payments are comprised solely of proceeds from and/or contributions to retirement plans or programs that are intended to qualify as plans or programs entitled to special favorable income tax treatment under sections 401(a), 401(k), 403(b), 408 or 457(b) of the Tax Code. **Employers or individuals intending to use the contract with such plans should seek qualified legal advice.**

**Roth Accounts.** Tax Code section 402A allows employees of certain private employers offering 401(k) plans, employees of public schools and certain Tax Code section 501(c)(3) organizations offering 403(b) plans, and employees of certain governmental employers offering 457(b) plans to contribute after-tax salary contributions to a Roth 401(k), Roth 403(b) and Roth 457(b) account, respectively. Roth accounts provide for tax-free distributions, subject to certain conditions and restrictions. If permitted under the plan for which the contract is issued, we will set up one or more accounts for you under the contract for Roth after-tax contributions and the portion of any transfer or rollover attributable to such amounts.

## ***Taxation of Nonqualified Contracts***

### **Taxation of Gains Prior to Distribution.**

**General.** Tax Code section 72 governs taxation of annuities in general. We believe that if you are a natural person you will generally not be taxed on increases in the value of a nonqualified contract until a distribution occurs or until annuity payments begin. This assumes that the contract will qualify as an annuity contract for federal income tax purposes. For these purposes, the agreement to assign or pledge any portion of the contract value generally will be treated as a distribution. In order to be eligible to receive deferral of taxation, the following requirements must be satisfied:

- **Diversification.** Tax Code section 817(h) requires that in a nonqualified contract the investments of the funds be “adequately diversified” in accordance with Treasury Regulations in order for the contract to qualify as an annuity contract under federal tax law. The separate account, through the funds, intends to comply with the diversification requirements prescribed by Tax Code section 817(h) and by the Treasury in Reg. Sec. 1.817-5, which affects how the funds’ assets may be invested. If it is determined, however, that your contract does not satisfy the applicable diversification requirements and rulings because a subaccount’s corresponding fund fails to be adequately diversified for whatever reason, we will take appropriate steps to bring your contract into compliance with such regulations and rulings, and we reserve the right to modify your contract as necessary to do so;
- **Investor Control.** Although earnings under nonqualified contracts are generally not taxed until withdrawn, the IRS has stated in published rulings that a variable contract owner will be considered the owner of separate account assets if the contract owner possesses incidents of investment control over the assets. In these circumstances, income and gains from the separate account assets would be currently includible in the variable contract owner’s gross income. Future guidance regarding the extent to which owners could direct their investments among subaccounts without being treated as owners of the underlying assets of the separate account may adversely affect the tax treatment of existing contracts. The Company therefore reserves the right to modify the contract as necessary to attempt to prevent the contract holder from being considered the federal tax owner of a pro rata share of the assets of the separate account;

- **Required Distributions.** In order to be treated as an annuity contract for federal income tax purposes, the Tax Code requires any nonqualified contract to contain certain provisions specifying how your interest in the contract will be distributed in the event of your death. The nonqualified contracts contain provisions that are intended to comply with these Tax Code requirements, although no regulations interpreting these requirements have yet been issued. When such requirements are clarified by regulation or otherwise, we intend to review such distribution provisions and modify them if necessary to assure that they comply with the applicable requirements;
- **Non-Natural Holders of a Non-Qualified Contract.** If you are not a natural person, a nonqualified contract generally is not treated as an annuity for income tax purposes and the income on the contract for the taxable year is currently taxable as ordinary income. Income on the contract is any increase in the contract value over the “investment in the contract” (generally, the premiums or other consideration you paid for the contract less any nontaxable withdrawals) during the taxable year. There are some exceptions to this rule and a non-natural person should consult with its tax adviser prior to purchasing the contract. When the contract owner is not a natural person, a change in the annuitant is treated as the death of the contract owner; and
- **Delayed Annuity Starting Date.** If the contract’s annuity starting date occurs (or is scheduled to occur) at a time when the annuitant has reached an advanced age (e.g., after age 85), it is possible that the contract would not be treated as an annuity for federal income tax purposes. In that event, the income and gains under the contract could be currently includible in your income.

## Taxation of Distributions

**General.** When a withdrawal from a nonqualified contract occurs, the amount received will be treated as ordinary income subject to tax up to an amount equal to the excess (if any) of the contract value (unreduced by the amount of any surrender charge) immediately before the distribution over the contract owner’s investment in the contract at that time. Investment in the contract is generally equal to the amount of all premiums to the contract, plus amounts previously included in your gross income as the result of certain loans, assignments or gifts, less the aggregate amount of non-taxable distributions previously made.

In the case of a surrender under a nonqualified contract, the amount received generally will be taxable only to the extent it exceeds the contract owner’s investment in the contract (cost basis).

**10% Penalty Tax.** A distribution from a nonqualified contract may be subject to a federal tax penalty equal to 10% of the amount treated as income. In general, however, there is no penalty on distributions:

- Made on or after the taxpayer reaches age 59½;
- Made on or after the death of a contract owner (the annuitant if the contract owner is a non-natural person);
- Attributable to the taxpayer’s becoming disabled as defined in the Tax Code;
- Made as part of a series of substantially equal periodic payments (at least annually) over your life or life expectancy or the joint lives or joint life expectancies of you and your designated beneficiary; or
- The distribution is allocable to investment in the contract before August 14, 1982.

The 10% penalty does not apply to distributions from an immediate annuity as defined in the Tax Code. Other exceptions may be applicable under certain circumstances and special rules may be applicable in connection with the exceptions enumerated above. A tax adviser should be consulted with regard to exceptions from the penalty tax.

**Tax-Free Exchanges.** Section 1035 of the Tax Code permits the exchange of a life insurance, endowment or annuity contract for an annuity contract on a tax-free basis. In such instance, the “investment in the contract” in the old contract will carry over to the new contract. You should consult with your tax adviser regarding procedures for making Tax Code section 1035 exchanges.

If your contract is purchased through a tax-free exchange of a life insurance, endowment or annuity contract that was purchased prior to August 14, 1982, then any distributions other than annuity payments will be treated, for tax purposes, as coming:

- First, from any remaining “investment in the contract” made prior to August 14, 1982 and exchanged into the contract;

- Next, from any “income on the contract” attributable to the investment made prior to August 14, 1982;
- Then, from any remaining “income on the contract;” and
- Lastly, from any remaining “investment in the contract.”

The IRS has concluded that in certain instances, the partial exchange of a portion of one annuity contract for another contract will be tax-free. Pursuant to IRS guidance, receipt of partial withdrawals or surrenders from either the original contract or the new contract during the 180 day period beginning on the date of the partial exchange may retroactively negate the partial exchange. If the partial exchange is retroactively negated, the partial withdrawal or surrender of the original contract will be treated as a withdrawal, taxable as ordinary income to the extent of gain in the original contract and, if the partial exchange occurred prior to you reaching age 59½, may be subject to an additional 10% tax penalty. We are not responsible for the manner in which any other insurance company, for tax reporting purposes, or the IRS, with respect to the ultimate tax treatment, recognizes or reports a partial exchange. We strongly advise you to discuss any proposed Tax Code section 1035 exchange or subsequent distribution within 180 days of a partial exchange with your tax adviser prior to proceeding with the transaction.

**Taxation of Annuity Payments.** Although tax consequences may vary depending on the payment option elected under an annuity contract, a portion of each annuity payment is generally not taxed and the remainder is taxed as ordinary income. The non-taxable portion of an annuity payment is generally determined in a manner that is designed to allow you to recover your investment in the contract ratably on a tax-free basis over the expected stream of annuity payments, as determined when annuity payments start. Once your investment in the contract has been fully recovered, however, the full amount of each subsequent annuity payment is subject to tax as ordinary income.

On September 27, 2010, President Obama signed into law the Small Business Jobs Act of 2010 which included language that permits the partial annuitization of non-qualified annuities, effective for amounts received in taxable years beginning after December 31, 2010. The provision applies an exclusion ratio to any amount received as an annuity under a portion of an annuity provided that the annuity payments are made for a period of 10 years or more or for life. Please consult your tax adviser before electing a partial annuitization.

**Death Benefits.** Amounts may be distributed from a contract because of your death or the death of the annuitant. Generally, such amounts are includible in the income of the recipient as follows:

- If distributed in a lump sum, they are taxed in the same manner as a surrender of the contract, or
- If distributed under a payment option, they are taxed in the same way as annuity payments.

Special rules may apply to amounts distributed after a Beneficiary has elected to maintain contract value and receive payments.

Different distribution requirements apply if your death occurs:

- After you begin receiving annuity payments under the contract; or
- Before you begin receiving such distributions.

If your death occurs after you begin receiving annuity payments, distributions must be made at least as rapidly as under the method in effect at the time of your death.

If your death occurs before you begin receiving annuity payments, your entire balance must be distributed within five years after the date of your death. For example, if you died on September 1, 2012, your entire balance must be distributed by August 31, 2017. However, if distributions begin within one year of your death, then payments may be made over one of the following timeframes:

- Over the life of the designated beneficiary; or
- Over a period not extending beyond the life expectancy of the designated beneficiary.

If the designated beneficiary is your spouse, the contract may be continued with the surviving spouse as the new contract owner. If the contract owner is a non-natural person and the primary annuitant dies, the same rules apply on the death of the primary annuitant as outlined above for the death of a contract owner.

The contract offers a death benefit that may exceed the greater of the purchase payments and the contract value. Certain charges are imposed with respect to the death benefit. It is possible that these charges (or some portion thereof) could be treated for federal tax purposes as a distribution from the contract.

**Assignments and Other Transfers.** A transfer, pledge or assignment of ownership of a nonqualified contract, the selection of certain annuity dates, or the designation of an annuitant or payee other than an owner may result in certain tax consequences to you that are not discussed herein. The assignment, pledge or agreement to assign or pledge any portion of the contract value generally will be treated as a distribution. Anyone contemplating any such transfer, pledge, assignment, or designation or exchange, should consult a tax adviser regarding the potential tax effects of such a transaction.

**Immediate Annuities.** Under section 72 of the Tax Code, an immediate annuity means an annuity:

- Which is purchased with a single premium;
- With annuity payments starting within one year from the date of purchase; and
- Which provides a series of substantially equal periodic payments made annually or more frequently.

While this contract is not designed as an immediate annuity, treatment as an immediate annuity would have significance with respect to exceptions from the 10% early withdrawal penalty, to contracts owned by non-natural persons, and for certain exchanges.

**Multiple Contracts.** Tax laws require that all nonqualified deferred annuity contracts that are issued by a company or its affiliates to the same contract owner during any calendar year be treated as one annuity contract for purposes of determining the amount includible in gross income under Tax Code section 72(e). In addition, the Treasury Department has specific authority to issue regulations that prevent the avoidance of Tax Code section 72(e) through the serial purchase of annuity contracts or otherwise.

**Withholding.** We will withhold and remit to the IRS a part of the taxable portion of each distribution made under a contract unless the distributee notifies us at or before the time of the distribution that he or she elects not to have any amounts withheld. Withholding is mandatory, however, if the distributee fails to provide a valid taxpayer identification number or if we are notified by the IRS that the taxpayer identification number we have on file is incorrect. The withholding rates applicable to the taxable portion of periodic annuity payments are the same as the withholding rates generally applicable to payments of wages. In addition, a 10% withholding rate applies to the taxable portion of non-periodic payments. Regardless of whether you elect to have federal income tax withheld, you are still liable for payment of federal income tax on the taxable portion of the payment.

Certain states have indicated that state income tax withholding will also apply to payments from the contracts made to residents. Generally, an election out of federal withholding will also be considered an election out of state withholding. In some states, you may elect out of state withholding, even if federal withholding applies. If you need more information concerning a particular state or any required forms, please contact our Customer Service Center.

If you or your designated beneficiary is a non-resident alien, then any withholding is governed by Tax Code section 1441 based on the individual's citizenship, the country of domicile and treaty status, and we may require additional documentation prior to processing any requested transaction.

## ***Taxation of Qualified Contracts***

### **Eligible Retirement Plans and Programs**

The contract may be purchased with the following retirement plans and programs to accumulate retirement savings:

- Sections 401(a) and 401(k) of the Tax Code permit certain employers to establish various types of retirement plans for employees, and permit self-employed individuals to establish these plans for themselves and their employees;

- Section 403(b) of the Tax Code allows employees of certain Tax Code section 501(c)(3) organizations and public schools to exclude from their gross income the purchase payments made, within certain limits, to a contract that will provide an annuity for the employee's retirement;
- Section 408 of the Tax Code permits eligible individuals to contribute to an individual retirement program known as an Individual Retirement Annuity ("IRA"); and
- Section 457 of the Tax Code permits certain employers to offer deferred compensation plans for their employees. These plans may be offered by state governments, local governments, political subdivisions, agencies, instrumentalities and certain affiliates of such entities (governmental employers), as well as non-governmental, tax-exempt organizations (non-governmental employers). A 457 plan is a 457(b) (eligible) plan. Participation in a 457(b) plan maintained by a non-governmental employer is generally limited to highly-compensated employees and select management (other than 457(b) plans maintained by nonqualified, church-controlled organizations). Generally, participants may specify the form of investment for their deferred compensation account.

**Special Considerations for IRAs.** IRAs are subject to limits on the amounts that can be contributed, the deductible amount of the contribution, the persons who may be eligible, and the time when distributions commence. Contributions to IRAs must be made in cash or as a rollover or a transfer from another eligible plan. Also, distributions from IRAs, individual retirement accounts, and other types of retirement plans may be "rolled over" on a tax-deferred basis into an IRA. If you make a tax-free rollover of a distribution from an IRA you may not make another tax-free rollover from the IRA within a 1-year period. Sales of the contract for use with IRAs may be subject to special requirements of the IRS. The IRS has not reviewed the contracts described in this prospectus for qualification as IRAs and has not addressed, in a ruling of general applicability, whether the contract's death benefit provisions comply with IRS qualification requirements.

**Special Considerations for Section 457 Plans.** Under 457(b) plans of non-governmental employers, all amounts of deferred compensation, all property and rights purchased with such amounts and all income attributable to such amounts, property and rights remain solely the property and rights of the employer and are subject to the claims of the employer's general creditors. 457(b) plans of governmental employers, on the other hand, are required to hold all assets and income of the plan in trust for the exclusive benefit of plan participants and their beneficiaries. For purposes of meeting this requirement, an annuity contract is treated as a trust.

## Taxation

The tax rules applicable to owners of qualified contracts vary according to the type of qualified contract and the specific terms and conditions of the qualified contract. The ultimate effect of federal income taxes on the amounts held under a qualified contract, or on income phase (e.g., annuity) payments from a qualified contract, depends on the type of qualified contract or program as well as your particular facts and circumstances. Special favorable tax treatment may be available for certain types of contributions and distributions. In addition, certain requirements must be satisfied in purchasing a qualified contract with proceeds from a tax-qualified plan or program in order to continue receiving favorable tax treatment.

Adverse tax consequences may result from:

- Contributions in excess of specified limits;
- Distributions before age 59½ (subject to certain exceptions);
- Distributions that do not conform to specified commencement and minimum distribution rules; and
- Other specified circumstances.

Some qualified plans and programs are subject to additional distribution or other requirements that are not incorporated into the contract described in this prospectus. No attempt is made to provide more than general information about the use of the contract with qualified plans and programs. Contract holders, participants, annuitants, and beneficiaries are cautioned that the rights of any person to any benefit under these qualified plans and programs may be subject to the terms and conditions of the plans themselves, regardless of the terms and conditions of the contract. The Company is not bound by the terms and conditions of such plans to the extent such terms contradict the language of the contract, unless we consent to be so bound.

Generally, contract holders, participants, and beneficiaries are responsible for determining that contributions, distributions and other transactions with respect to the contract comply with applicable law. **Therefore, you should seek qualified legal and tax advice regarding the suitability of a contract for your particular situation.** The following discussion assumes that qualified contracts are purchased with proceeds from and/or contributions under retirement plans or programs that qualify for the intended special federal tax treatment.

**Tax Deferral.** Under federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of a qualified plan (as defined in this prospectus), an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the qualified plan itself. Annuities do provide other features and benefits (such as the guaranteed death benefit or the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with a qualified financial representative taking into account the additional fees and expenses you may incur in an annuity.

## Contributions

In order to be excludable from gross income for federal income tax purposes, total annual contributions to certain qualified plans are limited by the Tax Code. We provide general information on these requirements for certain plans below. You should consult with a qualified tax adviser in connection with contributions to a qualified contract.

**401(a), 401(k) and 403(b) Plans.** The total annual contributions (including pre-tax and Roth 401(k) or Roth 403(b) after-tax contributions) by you and your employer cannot exceed, generally, the lesser of 100% of your compensation or \$51,000 (as indexed for 2013). Compensation means your compensation for the year from the employer sponsoring the plan and, for years beginning after December 31, 1997, includes any elective deferrals under Tax Code section 402(g) and any amounts not includible in gross income under Tax Code sections 125 or 457.

This limit applies to your contributions as well as to any contributions made by your employer on your behalf. An additional requirement limits your salary reduction contributions to a 401(k) or 403(b) plan to generally no more than \$17,500 (2013). Contribution limits are subject to annual adjustments for cost-of-living increases. Your own limit may be higher or lower, depending upon certain conditions.

**457(b) Plans.** The total annual contributions made by you and your employer to a 457(b) plan cannot exceed, generally, the lesser of 100% of your includible compensation or \$17,500 (as indexed for 2013). Generally, includible compensation means your compensation for the year from the employer sponsoring the plan, including deferrals to the employer's Tax Code section 401(k), 403(b) and 125 cafeteria plans in addition to any deferrals to the 457(b) plan.

**Catch-up Contributions.** Notwithstanding the contribution limits noted above, if permitted by the plan, a participant in a 401(k), 403(b) or 457(b) plan of a governmental employer who is at least age 50 by the end of the plan year may contribute an additional amount not to exceed the lesser of:

- \$5,500; or
- The participant's compensation for the year reduced by any other elective deferrals of the participant for the year.

Additional special catch-up provisions may be available for 457(b) plans ("Special 457 Catch-ups") during the three years prior to the participant's normal retirement age. Note that the Special 457 Catch-ups cannot be used simultaneously with the catch-up contribution provisions referenced above. Specifically, a participant may elect to defer the larger of: the applicable dollar amount, which for 2013 is \$17,500, plus the catch-up contribution limit of \$5,500 (2013); or the applicable dollar amount plus the Special 457 Catch-up. For advice with respect to these catch-up provisions, please consult a qualified tax adviser.

## Distributions - General

Certain tax rules apply to distributions from the contract. A distribution is any amount taken from a contract including withdrawals, income phase payments, rollovers, exchanges and death benefit proceeds. We report the taxable portion of all distributions to the IRS.

**401(a), 401(k), 403(b) and Governmental 457(b) Plans.** Distributions from these plans are taxed as received unless one of the following is true:

- The distribution is an eligible rollover distribution and is directly transferred over to another plan eligible to receive rollovers or to a traditional or Roth IRA in accordance with the Tax Code;
- You made after-tax contributions to the plan. In this case, depending upon the type of distribution, the amount will be taxed according to the rules detailed in the Tax Code; or
- The distribution is a qualified health insurance premium of a retired public safety officer as defined in the Pension Protection Act of 2006.

A distribution is an eligible rollover distribution unless it is:

- Part of a series of substantially equal periodic payments (at least one per year) made over the life expectancy of the participant or the joint life expectancy of the participant and his designated beneficiary or for a specified period of 10 years or more;
- A required minimum distribution under Tax Code section 401(a)(9);
- A hardship withdrawal;
- Otherwise excludable from income; or
- Not recognized under applicable regulations as eligible for rollover.

**10% Penalty Tax.** The Tax Code imposes a 10% penalty tax on the taxable portion of any distribution from a contract used with a 401(a), 401(k) or 403(b) plan (or amounts from a governmental 457(b) plan that are attributable to rollovers from such plans) unless certain exceptions, including one or more of the following, have occurred:

- You have attained age 59½;
- You have become disabled, as defined in the Tax Code;
- You have died and the distribution is to your beneficiary;
- You have separated from service with the plan sponsor at or after age 55;
- You have separated from service with the plan sponsor and the distribution amount is made in substantially equal periodic payments (at least annually) over your life or the life expectancy or the joint lives or joint life expectancies of you and your designated beneficiary;
- The distribution is made due to an IRS levy upon your plan;
- The withdrawal amount is paid to an alternate payee under a Qualified Domestic Relations Order (“QDRO”); or
- The distribution is a qualified reservist distribution as defined under the Pension Protection Act of 2006 (401(k) and 403(b) plans only).

In addition, the 10% penalty tax does not apply to the amount of a distribution equal to unreimbursed medical expenses incurred by you during the taxable year that qualify for deduction as specified in the Tax Code. The Tax Code may provide other exceptions or impose other penalty taxes in other circumstances.

## **Distributions - Eligibility**

**401(a) Pension Plans.** Subject to the terms of your 401(a) pension plan, distributions may only occur upon:

- Retirement;
- Death;
- Disability;
- Severance from employment;
- Attainment of normal retirement age;
- Attainment of age 62 under a phased retirement provision if available under your plan as described in the Pension Protection Act of 2006; or
- Termination of the plan.

Such distributions remain subject to other applicable restrictions under the Tax Code.

**401(k) Plans.** Subject to the terms of your 401(k) plan, distributions from your 401(k) employee account, and possibly all or a portion of your 401(k) employer account may only occur upon:

- Retirement;
- Death;
- Attainment of age 59½;
- Severance from employment;
- Disability;
- Financial hardship; or
- Termination of the plan (assets must be distributed within one year).

Such distributions remain subject to other applicable restrictions under the Tax Code.

**403(b) Plans.** Distribution of certain salary reduction contributions and earnings on such contributions restricted under Tax Code section 403(b)(11) may only occur upon:

- Death;
- Attainment of age 59½;
- Severance from employment;
- Disability;
- Financial hardship;
- Termination of the plan (assets must be distributed within one year); or
- Meeting other circumstances as allowed by federal law, regulations or rulings.

Such distributions remain subject to other applicable restrictions under the Tax Code.

Effective January 1, 2009 and for any contracts or participant accounts established on or after that date, 403(b) regulations prohibit the distribution of amounts attributable to employer contributions before the earlier of your severance from employment or prior to the occurrence of some event as provided under your employer's plan, such as after a fixed number of years, the attainment of a stated age, or a disability.

If the Company agrees to accept amounts exchanged from a Tax Code section 403(b)(7) custodial account, such amounts will be subject to the withdrawal restrictions set forth in Tax Code section 403(b)(7)(A)(ii).

**457(b) Plans.** Under 457(b) plans, distributions may not be made available to you earlier than:

- The calendar year you attain age 70½;
- When you experience a severance from employment; or
- When you experience an unforeseeable emergency.

A one-time in-service distribution may also be permitted if the total amount payable to the participant does not exceed \$5,000 and no amounts have been deferred by the participant during the two-year period ending on the date of distribution.

### **Lifetime Required Minimum Distributions (401(a), 401(k), 403(b) and 457(b) Plans)**

To avoid certain tax penalties, you and any designated beneficiary must also meet the minimum distribution requirements imposed by the Tax Code. These rules dictate the following:

- Start date for distributions;
- The time period in which all amounts in your contract(s) must be distributed; and
- Distribution amounts.

**Start Date.** Generally, you must begin receiving distributions by April 1 of the calendar year following the calendar year in which you attain age 70½ or retire, whichever occurs later, unless:

- Under 401(a), 401(k) and governmental 457(b) plans, you are a 5% owner, in which case such distributions must begin by April 1 of the calendar year following the calendar year in which you attain age 70½; or

- Under 403(b) plans, the Company maintains separate records of amounts held as of December 31, 1986. In this case distribution of these amounts generally must begin by the end of the calendar year in which you attain age 75 or retire, if later. However, if you take any distributions in excess of the minimum required amount, then special rules require that the excess be distributed from the December 31, 1986 balance.

**Time Period.** We must pay out distributions from the contract over a period not extending beyond one of the following time periods:

- Over your life or the joint lives of you and your designated beneficiary; or
- Over a period not greater than your life expectancy or the joint life expectancies of you and your designated beneficiary.

**Distribution Amounts.** The amount of each required minimum distribution must be calculated in accordance with Tax Code section 401(a)(9). The entire interest in the account includes the amount of any outstanding rollover, transfer, recharacterization, if applicable, and the actuarial present value of other benefits provided under the account, such as guaranteed death benefits.

**50% Excise Tax.** If you fail to receive the required minimum distribution for any tax year, a 50% excise tax may be imposed on the required amount that was not distributed.

Further information regarding required minimum distributions may be found in your contract or certificate.

### **Required Distributions upon Death (401(a), 401(k), 403(b) and 457(b) Plans)**

Different distribution requirements apply after your death, depending upon if you have begun receiving required minimum distributions. Further information regarding required distributions upon death may be found in your contract or certificate.

If your death occurs on or after the date you begin receiving minimum distributions under the contract, distributions generally must be made at least as rapidly as under the method in effect at the time of your death. Tax Code section 401(a)(9) provides specific rules for calculating the minimum required distributions after your death.

If your death occurs before the date you begin receiving minimum distributions under the contract, your entire balance must be distributed by December 31 of the calendar year containing the fifth anniversary of the date of your death. For example, if you died on September 1, 2012, your entire balance must be distributed to the designated beneficiary by December 31, 2017. However, if distributions begin by December 31 of the calendar year following the calendar year of your death, then payments may be made within one of the following timeframes:

- Over the life of the designated beneficiary; or
- Over a period not extending beyond the life expectancy of the designated beneficiary.

**Start Dates for Spousal Beneficiaries.** If the designated beneficiary is your spouse, distributions must begin on or before the later of the following:

- December 31 of the calendar year following the calendar year of your death; or
- December 31 of the calendar year in which you would have attained age 70½.

**No Designated Beneficiary.** If there is no designated beneficiary, the entire interest generally must be distributed by the end of the calendar year containing the fifth anniversary of the contract holder's death.

**Special Rule for IRA Spousal Beneficiaries (IRAs Only).** In lieu of taking a distribution under these rules, if the sole designated beneficiary is the contract owner's surviving spouse, the spousal beneficiary may elect to treat the contract as his or her own IRA and defer taking a distribution until his or her own start date. The surviving spouse is deemed to have made such an election if the surviving spouse makes a rollover to or from the contract or fails to take a distribution within the required time period.

## Withholding

Any taxable distributions under the contract are generally subject to withholding. Federal income tax withholding rates vary according to the type of distribution and the recipient's tax status.

**401(a), 401(k), 403(b) and 457(b) Plans of Governmental Employers.** Generally, distributions from these plans are subject to a mandatory 20% federal income tax withholding. However, mandatory withholding will not be required if you elect a direct rollover of the distributions to an eligible retirement plan or in the case of certain distributions described in the Tax Code.

**457(b) Plans of Non-Governmental Employers.** All distributions from this plan, except death benefit proceeds, are subject to mandatory federal income tax withholding as wages. Wage withholding is not required on payments to designated beneficiaries.

**Non-resident Aliens.** If you or your designated beneficiary is a non-resident alien, any withholding is governed by Tax Code section 1441 based on the individual's citizenship, the country of domicile and treaty status. Section 1441 does not apply to participants in 457(b) plans of non-governmental employers, and we may require additional documentation prior to processing any requested distribution.

## In-Plan Roth Rollovers

Tax Code section 401(k), 403(b) and governmental 457(b) plans may add a "qualified Roth contribution program," under which employees can forego the current exclusion from gross income for elective deferrals, in exchange for the future exclusion of the distribution of the deferrals and any earnings thereon. That is, participants may elect to make non-excludable contributions to "designated Roth accounts" (instead of making excludable contributions) and to exclude from gross income (if certain conditions are met) distributions from these accounts (instead of having distributions included in gross income).

In-plan Roth rollovers are not subject to the 10% additional tax on early distributions under Tax Code section 72(t) that would normally apply to distributions from a 401(k) or 403(b) plan (or from a governmental 457(b) plan) to the extent such amounts are attributable to rollovers from a 401(a), 401(k), 403(a) or 403(b) plan). However, a special recapture rule applies when a plan distributes any part of the in-plan Roth rollover within a five-year taxable period, making the distribution subject to the 10% additional tax on early distributions under Tax Code section 72(t) unless an exception to this tax applies or the distribution is allocable to any nontaxable portion of the in-plan Roth rollover. The five-year taxable period begins January 1 of the year of the in-plan Roth rollover and ends on the last day of the fifth year of the period. This special recapture rule does not apply when the participant rolls over the distribution to another designated Roth account or to a Roth IRA but does apply to a subsequent distribution from the rolled over account or Roth IRA within the five-year taxable period.

**On January 2, 2013, The American Taxpayer Relief Act of 2012 (HR 8) was signed into law. This law expanded a participant's ability to convert their pre-tax monies in a 401(k), 403(b) or governmental 457 plan into Roth post tax funds through a taxable "In-Plan Roth Rollover" transfer. Although this new law is effective for In-Plan Roth Rollover transfers made on or after December 31, 2012, and may include amounts held under a plan prior to that date, there are many issues from a federal income tax and plan administration perspective that need to be resolved before a recordkeeper may offer this new In-Plan Roth Rollover feature to plan sponsors. Consequently, In-Plan Roth Rollover transfers may not yet be available through the contract.**

**The tax rules associated with Roth accounts and in-plan Roth rollovers can be complex and you should seek qualified legal and tax advice regarding your particular situation.**

## Assignment and Other Transfers

**401(a), 401(k), 403(b) and 457(b) Plans.** Adverse tax consequences to the plan and/or to you may result if your beneficial interest in the contract is assigned or transferred to persons other than:

- A plan participant as a means to provide benefit payments;

- An alternate payee under a QDRO in accordance with Tax Code section 414(p);
- The Company as collateral for a loan; or
- The enforcement of a federal income tax lien or levy.

**IRAs.** The Tax Code does not allow a transfer or assignment of your rights under this contract except in limited circumstances. Adverse tax consequences may result if you assign or transfer your interest in the contract to persons other than your spouse incident to a divorce. Anyone contemplating such an assignment or transfer should contact a qualified tax adviser regarding the potential tax effects of such a transaction.

## ***Same-Sex Marriages***

Pursuant to Section 3 of the federal Defense of Marriage Act (“DOMA”), same-sex marriages currently are not recognized for purposes of federal law. Therefore, the favorable income-deferral options afforded by federal tax law to an opposite-sex spouse under Tax Code sections 72(s) and 401(a)(9) are currently NOT available to a same-sex spouse. Same-sex spouses who own or are considering the purchase of annuity products that provide benefits based upon status as a spouse should consult a tax adviser. In some states, to the extent that an annuity contract or certificate accords to spouses other rights or benefits that are not affected by DOMA, same-sex spouses remain entitled to such rights or benefits to the same extent as any contract holder’s spouse.

## ***Possible Changes in Taxation***

Although the likelihood of changes in tax legislation, regulation, rulings and other interpretation thereof is uncertain, there is always the possibility that the tax treatment of the contract could change by legislation or other means. It is also possible that any change could be retroactive (i.e., effective before the date of the change). You should consult a qualified tax adviser with respect to legislative developments and their effect on the contract.

## ***Taxation of the Company***

We are taxed as a life insurance company under the Tax Code. The separate account is not a separate entity from us. Therefore, it is not taxed separately as a “regulated investment company” but is taxed as part of the Company.

We automatically apply investment income and capital gains attributable to the separate account to increase reserves under the contracts. Because of this, under existing federal tax law we believe that any such income and gains will not be taxed to the extent that such income and gains are applied to increase reserves under the contracts. In addition, any foreign tax credits attributable to the separate account will be first used to reduce any income taxes imposed on the separate account before being used by the Company.

In summary, we do not expect that we will incur any federal income tax liability attributable to the separate account, and we do not intend to make any provision for such taxes. However, changes in federal tax laws and/or their interpretation thereof may result in our being taxed on income or gains attributable to the separate account. In this case, we may impose a charge against the separate account (with respect to some or all of the contracts) to set aside provisions to pay such taxes. We may deduct this amount from the separate account, including from your contract value invested in the subaccounts.

# **CONTRACT DISTRIBUTION**

---

## ***General***

The Company’s subsidiary, ING Financial Advisers, LLC, serves as the principal underwriter for the contracts. ING Financial Advisers, LLC, a Delaware limited liability company, is registered as a broker-dealer with the SEC. ING Financial Advisers, LLC is also a member of FINRA and the Securities Investor Protection Corporation. ING Financial Advisers, LLC’s principal office is located at One Orange Way, Windsor, Connecticut 06095-4774.

We sell the contracts through licensed insurance agents who are registered representatives of broker-dealers that have entered into selling agreements with ING Financial Advisers, LLC. We refer to these broker-dealers as “distributors.” The following distributors are affiliated with the Company and have entered into selling agreements with ING Financial Advisers, LLC for the sale of our variable annuity contracts:

- ING Financial Partners, Inc.
- Systematized Benefits Administrators, Inc.

Registered representatives of distributors who solicit sales of the contracts typically receive a portion of the compensation paid to the distributor in the form of commissions or other compensation, depending upon the agreement between the distributor and the registered representative. This compensation, as well as other incentives or payments, is not paid directly by contract owners or the separate account, but instead is paid by us through ING Financial Advisers, LLC. We intend to recoup this compensation and other sales expenses paid to distributors through fees and charges imposed under the contracts.

**Compensation Arrangements.** Registered representatives who offer and sell the contracts may be paid a commission. The maximum percentage amount that may be paid with respect to a given purchase payment is 7%. In addition to the commission paid upon receipt of a purchase payment to the contract, we may pay an additional amount, the total amount of which will not exceed 7% of the total commission paid with respect to a given purchase payment. Such additional payments will not be made upon receipt of the purchase payment, but will be paid over the same time period as the income payment option selected by the contract owner. Individual registered representatives may receive all or a portion of compensation paid to their distributor, depending upon the firm’s practices. In limited circumstances, certain of these distributors may also receive compensation, overrides or reimbursement for expenses associated with the distribution of the contract. At times certain distributors may be offered an enhanced commission for a limited period of time. Commissions and other payments, when combined, could exceed 7% of total purchase payments.

To the extent permitted by SEC and FINRA rules and other applicable laws and regulations, we may also pay or allow other promotional incentives or payments in the form of cash payments or other compensation to distributors, which may require the registered representative to attain a certain threshold of sales of Company products. These other promotional incentives or payments may not be offered to all distributors, and may be limited only to ING Financial Partners, Inc. and other distributors affiliated with the Company.

We may also enter into special compensation arrangements with certain distributors based on those firms’ aggregate or anticipated sales of the contracts or other criteria. These arrangements may include commission specials, in which additional commissions may be paid in connection with purchase payments received for a limited time period, within the maximum 7.0% commission rate noted above. These special compensation arrangements will not be offered to all distributors, and the terms of such arrangements may differ among distributors based on various factors. These special compensation arrangements may also be limited only to ING Financial Partners, Inc. and other distributors affiliated with the Company. Any such compensation payable to a distributor will not result in any additional direct charge to you by us.

Some personnel may receive various types of non-cash compensation as special sales incentives, including trips, and we may also pay for some personnel to attend educational and/or business seminars. Any such compensation will be paid in accordance with SEC and FINRA rules. Management personnel of the Company, and of its affiliated broker-dealers, may receive additional compensation if the overall amount of investments in funds advised by the Company or its affiliates meets certain target levels or increases over time. Compensation for certain management personnel, including sales management personnel, may be enhanced if management personnel meet or exceed goals for sales of the contracts, or if the overall amount of investments in the contracts and other products issued or advised by the Company or its affiliates increases over time. Certain sales management personnel may also receive compensation that is a specific percentage of the commissions paid to distributors or of purchase payments received under the contracts, or which may be a flat dollar amount that varies based upon other factors including management’s ability to meet or exceed service requirements, sell new contracts or retain existing contracts, or sell additional service features such as a common remitting program.

In addition to direct cash compensation for sales of contracts described above, through ING Financial Advisers, LLC, we may also pay distributors additional compensation or reimbursement of expenses for their efforts in selling contracts to you and other customers. These amounts may include:

- Marketing/distribution allowances that may be based on the percentages of purchase payments received, the aggregate commissions paid and/or the aggregate assets held in relation to certain types of designated insurance products issued by the Company and/or its affiliates during the year;
- Loans or advances of commissions in anticipation of future receipt of purchase payments (a form of lending to registered representatives). These loans may have advantageous terms, such as reduction or elimination of the interest charged on the loan and/or forgiveness of the principal amount of the loan, which may be conditioned on sales;
- Education and training allowances to facilitate our attendance at certain educational and training meetings to provide information and training about our products. We also hold training programs from time to time at our own expense;
- Sponsorship payments or reimbursements for distributors to use in sales contests and/or meetings for their registered representatives who sell our products. We do not hold contests based solely on sales of this product;
- Certain overrides and other benefits that may include cash compensation based on the amount of earned commissions, representative recruiting or other activities that promote the sale of contracts; and
- Additional cash or noncash compensation and reimbursements permissible under existing law. This may include, but is not limited to, cash incentives, merchandise, trips, occasional entertainment, meals and tickets to sporting events, client appreciation events, business and educational enhancement items, payment for travel expenses (including meals and lodging) to pre-approved training and education seminars, and payment for advertising and sales campaigns.

We pay dealer concessions, wholesaling fees, overrides, bonuses, other allowances and benefits and the costs of all other incentives or training programs from our resources, which include the fees and charges imposed under the contracts.

The following is a list of the top 25 distributors that, during 2012, received the most compensation, in the aggregate, from us in connection with the sale of registered variable annuity contracts issued by the Company, ranked by total dollars received:

- |  |  |
|--|--|
| • ING Financial Partners, Inc.                       | • NFP Securities, Inc.                               |
| • Symetra Investment Services, Inc.                  | • Morgan Keegan and Company, Inc.                    |
| • LPL Financial Corporation                          | • Securities America, Inc.                           |
| • American Portfolios Financial Services, Inc.       | • Cadaret, Grant & Co., Inc.                         |
| • MetLife Securities, Inc.                           | • Tower Square Securities, Inc. <sup>®</sup>         |
| • Cetera Financial Group                             | • NIA Securities, L.L.C.                             |
| • Morgan Stanley Smith Barney LLC                    | • RBC Capital Markets, LLC                           |
| • Lincoln Financial Advisors Corporation             | • Woodbury Financial Services, Inc.                  |
| • Financial Telesis Inc./Jhw Financial Services Inc. | • National Planning Corporation                      |
| • Walnut Street Securities, Inc. <sup>®</sup>        | • Merrill Lynch, Pierce, Fenner & Smith Incorporated |
| • PlanMember Securities Corporation                  | • PFS Investments Inc.                               |
| • Northwestern Mutual Investment Services, LLC       | • First Allied Securities, Inc.                      |
| • Royal Alliance Associates, Inc.                    |  |

If the amounts paid to ING Financial Advisers, LLC, were included, ING Financial Advisers, LLC would be first on the list.

This is a general discussion of the types and levels of compensation paid by us for the sale of our variable annuity contracts. It is important for you to know that the payment of volume or sales-based compensation to a distributor or registered representative may provide that registered representative a financial incentive to promote our contracts and/or services over those of another Company, and may also provide a financial incentive to promote one of our contracts over another.

The names of the broker-dealer and the registered representative responsible for your contract are set forth on your application.

**Third Party Compensation Arrangements.** Please be aware that:

- The Company may seek to promote itself and the contracts by sponsoring or contributing to events sponsored by various associations, professional organizations and labor organizations;
- The Company may make payments to associations and organizations, including labor organizations, which endorse or otherwise recommend the contracts to their membership. If an endorsement is a factor in your contract purchasing decision, more information on the payment arrangement, if any, is available upon your request; and
- At the direction of the contract holder, we may make payments to the contract holder, its representatives or third party service providers intended to defray or cover the costs of plan or program related administration.

## OTHER TOPICS

---

### *Anti-Money Laundering*

In order to protect against the possible misuse of our products in money laundering or terrorist financing, we have adopted an anti-money laundering program satisfying the requirements of the USA PATRIOT Act and other current anti-money laundering laws. Among other things, this program requires us, our agents and customers to comply with certain procedures and standards that will allow us to verify the identity of the sponsoring organization and that contributions and loan repayments are not derived from improper sources.

Under our anti-money laundering program, we may require customers, and/or beneficiaries to provide sufficient evidence of identification, and we reserve the right to verify any information provided to us by accessing information databases maintained internally or by outside firms.

We may also refuse to accept certain forms of payments or loan repayments (traveler's cheques, cashier's checks, bank drafts, bank checks and treasurer's checks, for example) or restrict the amount of certain forms of payments or loan repayments (money orders totaling more than \$5,000, for example). In addition, we may require information as to why a particular form of payment was used (third party checks, for example) and the source of the funds of such payment in order to determine whether or not we will accept it. Use of an unacceptable form of payment may result in us returning the payment to you.

**Applicable laws designed to prevent terrorist financing and money laundering might, in certain circumstances, require us to block certain transactions until authorization is received from the appropriate regulator. We may also be required to provide additional information about you and your policy to government regulators.**

Our anti-money laundering program is subject to change without notice to take account of changes in applicable laws or regulations and our ongoing assessment of our exposure to illegal activity.

### *Payment Delay or Suspension*

We reserve the right to suspend or postpone the date of any payment of benefits or values under the following circumstances:

- On any valuation date when the NYSE is closed (except customary holidays or weekends) or when trading on the NYSE is restricted;
- When an emergency exists as determined by the SEC so that disposal of the securities held in the subaccounts is not reasonably practicable or it is not reasonably practicable to determine the value of the subaccount's assets; or
- During any other periods the SEC permits for the protection of investors.

The conditions under which restricted trading or an emergency exists shall be determined by the rules and regulations of the SEC.

## ***Performance Reporting***

We may illustrate the hypothetical values of income payments made from each of the subaccounts over certain periods of time based on historical net asset values of the funds. These numbers will reflect the mortality and expense risk charge, the administrative expense charge (if any), any applicable guaranteed minimum income charge and the advisory fees and other expenses of the funds.

We may also advertise different types of historical performance for the subaccounts including:

- Standardized average annual total returns; and
- Non-standardized average annual total returns.

We may also advertise certain ratings, rankings or other information related to the Company, the subaccounts or the funds.

**Standardized Average Annual Total Returns.** We calculate standardized average annual total returns according to a formula prescribed by the SEC.

This shows the percentage return applicable to \$1,000 invested in the subaccount over the most recent month-end, one, five and 10-year periods. If the investment option was not available for the full period, we give a history from the date money was first received in that option under the separate account or from the date the fund was first available under the separate account. As an alternative to providing the most recent month-end performance, we may provide a phone number, website or both where these returns may be obtained. Standardized average annual returns reflect deduction of all recurring charges during each period (e.g., mortality and expense risk charges, administrative expense charges (if any), any applicable guaranteed minimum income charges and any applicable early withdrawal charges).

**Non-Standardized Average Annual Total Returns.** We calculate non-standardized average annual total returns in a similar manner as that stated above, except we may include returns that do not reflect the deduction of any applicable early withdrawal charges. If we reflected these charges in the calculation, they would decrease the level of performance reflected by the calculation. Non-standardized returns may also include performance from the fund's inception date, if that date is earlier than the one we use for standardized returns.

## ***Contract Modification***

We may change the contract as required by federal or state law or as otherwise permitted in the contract. Certain changes will require the approval of appropriate state or federal regulatory authorities.

## ***Transfer of Ownership***

Ownership of the contract may be changed to the extent permitted by law. You should immediately notify the Company, in writing, of any change in ownership. No such ownership change will be binding until such notification is received and recorded at our Customer Service Center. We reserve the right to reject transfer of ownership to a non-natural person. A transfer of ownership may have tax consequences and you should consult with a qualified tax adviser before transferring ownership of the contract.

## ***Legal Proceedings***

We are not aware of any pending legal proceedings that are likely to have a material adverse effect upon the Company's ability to meet its obligations under the contract, ING Financial Advisers, LLC ability to distribute the contract or upon the separate account.

- **Litigation.** Notwithstanding the foregoing, the Company and/or ING Financial Advisers, LLC, is a defendant in a number of litigation matters arising from the conduct of its business, both in the ordinary course and otherwise. In some of these matters, claimants seek to recover very large or indeterminate amounts, including compensatory, punitive, treble and exemplary damages. Certain claims are asserted as class actions. Modern pleading practice in the U.S. permits considerable variation in the assertion of monetary damages and other relief. The variability in pleading requirements and past experience demonstrates that the monetary and other relief that may be requested in a lawsuit or claim oftentimes bears little relevance to the merits or potential value of a claim. Due to the uncertainties of litigation, the outcome of a litigation matter and the amount or range of potential loss is difficult to forecast and a determination of potential losses requires significant management judgment.
- **Regulatory Matters.** As with other financial services companies, the Company and its affiliates, including ING Financial Advisers, LLC, periodically receive informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the Company or the financial services industry. It is the practice of the Company to cooperate fully in these matters. Regulatory investigations, exams, inquiries and audits could result in regulatory action against the Company or subject the Company to settlement payments, fines, penalties and other financial consequences, as well as changes to the Company's policies and procedures.

It is not possible to predict the ultimate outcome for all pending litigation and regulatory matters and given the large and indeterminate amounts sought and the inherent unpredictability of such matters, it is possible that an adverse outcome in certain litigation or regulatory matters could, from time to time, have a material adverse effect upon the Company's results of operations or cash flows in a particular quarterly or annual period.

## CONTENTS OF THE STATEMENT OF ADDITIONAL INFORMATION

---

The SAI contains more specific information on the separate account and the contract, as well as the financial statements of the separate account and the Company. A list of the contents of the SAI is set forth below:

• Consolidated Financial Statements of ING Life Insurance and Annuity Company	C-1

You may request an SAI by calling the Company at the number listed in “**CONTRACT OVERVIEW - Questions: Contacting the Company.**”

## APPENDIX I

### FIXED DOLLAR OPTION

---

The following summarizes material information concerning the fixed dollar option. You may choose to allocate all or a portion of your purchase payment to the fixed dollar option. If you choose the fixed dollar option, your income payments will generally remain fixed as specified in your contract over the term of the contract. Your fixed payment may vary due to factors including your selection of an increasing annuity or your election and use of a right to withdraw. In certain cases, you may elect a right to withdraw any remaining guaranteed payments (**see “Withdrawals” in this Appendix**). Amounts allocated to the fixed dollar option are held in the Company’s general account that supports general insurance and annuity obligations.

Interests in the fixed dollar option have not been registered with the SEC in reliance upon exemptions under the Securities Act of 1933, as amended. Disclosure in this prospectus regarding the fixed dollar option may, however, be subject to certain generally applicable provisions of the federal securities laws relating to the accuracy and completeness of such statements. Disclosure in this Appendix regarding the fixed dollar option has not been reviewed by the SEC.

#### *Payment Options*

All of the payment options described under “Income Payments” in this prospectus are available for the fixed dollar option. If you allocate all of your purchase payment to the fixed dollar option, you may also elect one of the following features in connection with your fixed income payments:

- **A Cash Refund Feature.** (Only available if you select 100% fixed payments.) With this feature, if the annuitant or both annuitants (as applicable) die, then the beneficiary will receive a lump-sum payment equal to the purchase payment allocated to the fixed dollar option less any premium tax and less the total amount of fixed income payments paid prior to such death. The cash refund feature may be elected only with a “life income” or “life income-two lives” payment option that has no reduction in payment to the survivor. **See “INCOME PAYMENTS - Payment Options.”** You may not elect a right to withdraw or elect an increasing annuity with this feature.
- **An Increasing Annuity.** (Only available if you select 100% fixed payments.) With this feature you may elect for your payments to increase by either one, two, or three percent, compounded annually. The higher your percentage, the lower your initial payment will be. This is available with any payment option, except for those with a reduction in payment to the survivor. **See “INCOME PAYMENTS - Payment Options.”** You may not elect a right to withdraw or elect the cash refund feature with an increasing annuity.

#### *Fixed Income Payment Amounts*

The amount of each payment depends upon: (1) the purchase payment that you allocate to the fixed dollar option, less any premium tax; and (2) the payment option and features chosen.

#### *Withdrawals*

**Withdrawal Value-Lifetime Payment Options.** If you select a lifetime payment option with guaranteed payments and elect the right to make withdrawals, the withdrawal amount available from any fixed portion of remaining guaranteed payments is equal to the present value of the remaining fixed portion of guaranteed payments calculated using the contract rate adjusted by the change in the constant maturity 10 year Treasury note rate from your contract effective date to the date we calculate the withdrawal value. Any applicable early withdrawal charge will be deducted.

**Withdrawal Value-Nonlifetime Payment Options.** If you select a nonlifetime payment option and elect the right to make withdrawals, the withdrawal amount available from any fixed portion of remaining guaranteed payments is equal to the present value of the remaining fixed portion of guaranteed payments calculated using the adjusted contract rate. The calculation is presented below. Any applicable early withdrawal charge will be deducted.

The adjusted contract rate equals (Rate of Return) + WY - IY, where:

**Rate of Return** is the fixed annuity present value interest rate shown in your contract

**WY** is the withdrawal yield

**IY** is the issue yield

**WY** is determined as follows:

- (1) WY is the average of the yields, as published in the Wall Street Journal on the Friday before the date of the withdrawal, of noncallable, non-inflation adjusted Treasury Notes or Bonds maturing on or closest to the withdrawal duration date; where
- (2) The withdrawal duration date is the date (month and year) obtained when the withdrawal duration is added to the date of the withdrawal; and the
- (3) Withdrawal duration equals 1 plus the number of whole years from the date of the withdrawal until the final guaranteed payment is due, divided by 2. Any resulting fraction will be rounded up to the next whole number.

**IY** is determined as follows:

- (1) IY is the average of the yields, as published in the Wall Street Journal on the Friday before the later of the contract effective date or the benefit change date shown in your contract, of noncallable, non-inflation adjusted Treasury Notes or Bonds maturing on or closest to the issue duration date;
- (2) The issue duration date (month and year) is obtained when the issue duration is added to the later of the contract effective date or the benefit change date;
- (3) Issue duration equals 1 plus the number of whole years from the later of the contract effective date or the benefit change date until the final payment is due, divided by 2. Any resulting fraction will be rounded up to the next whole number; or
- (4) Benefit change date is the date of the most recent change, if any, of the guaranteed payment period.

### ***Early Withdrawal Charge***

Withdrawals may be subject to an early withdrawal charge. The charge is a percentage of the amount that you withdraw. The percentage will be determined by the early withdrawal charge schedule applicable to your contract:

<b>Number of Years from Contract Effective Date*</b>	<b>Early Withdrawal Charge</b>
1 or more, but fewer than 2	6%
2 or more, but fewer than 3	5%
3 or more, but fewer than 4	4%
4 or more, but fewer than 5	3%
5 or more, but fewer than 6	2%
6 or more, but fewer than 7	1%
7 or more	0%

The early withdrawal charge, in effect, is a deferred sales charge imposed to reimburse the Company for unrecovered acquisition and distribution costs.

**Internal Exchanges.** In the case of amounts transferred from a prior contract or arrangement issued or administered by the Company or certain of its affiliates, the “Number of Years from Contract Effective Date” is calculated from the date of the first purchase payment made under the individual’s account under the prior contract or if earlier, the effective date of the individual’s account under the prior contract or arrangement. There is no surrender charge under this contract on amounts transferred or rolled over as an internal transfer when the prior contract or arrangement imposed a front end load, there was no applicable surrender charge under the prior contract, or arrangement or if the prior contract or arrangement would not have assessed a surrender charge if the money had been transferred to a contract issued by a non-affiliated company.

---

\* For participants under a group contract, the early withdrawal charge will be calculated based upon the number of years from the certificate effective date.

**Reduction or Elimination of the Early Withdrawal Charge.** We may reduce or eliminate the early withdrawal charge when sales of the contract are made to individuals or a group of individuals in such a manner that results in savings of sales expenses. The entitlement to such a reduction in the early withdrawal charge will be based on one or more of the following criteria:

- The size and type of group of individuals to whom the contract is offered;
- The type and frequency of administrative and sales services to be provided; or
- Whether there is a prior or existing relationship with the Company such as being an employee or former employee of the Company or one of its affiliates; receiving distributions or making internal transfers from other contracts or arrangements offered by the Company or one of its affiliates; or making transfers of amounts held under qualified plans sponsored by the Company or an affiliate.

Any reduction or elimination of the early withdrawal charge will not be unfairly discriminatory against any person.

## ***Death Benefit***

If the annuitant or both annuitants, as applicable, die before all guaranteed payments are paid, payments will continue to the beneficiary in the manner stated in your contract.

**Payment of Death Benefit.** Any death benefit will be paid in the form specified in the contract and will be distributed at least as rapidly as under the method of distribution in effect upon the date of death. **See “TAX CONSIDERATIONS”** for rules that apply if you have elected to delay your payment start date under a nonqualified annuity and you die before the annuity starting date. A lump-sum payment of any death benefit may be requested within six months following the date of death. If a lump-sum payment is requested, no early withdrawal charge is applied and payment will be sent within seven calendar days following our receipt of request in good order. A lump-sum payment may be requested at any time (even after the six month period) if you had elected the right to withdraw. If a cash refund feature was elected, the death benefit will be paid in one lump sum to the beneficiary.

At the time of death benefit election, the beneficiary may elect to receive the death benefit proceeds directly by check rather than through the retained asset account draftbook feature by notifying us at the address shown in the “**CONTRACT OVERVIEW – Questions: Contacting the Company**” section of this prospectus.

If the contract holder who is not the annuitant dies, income payments will continue to be paid to the payee in the form specified in the contract. If no payee survives the death of the contract holder, income payments will be made to the annuitant. Such payments will be paid at least as rapidly as under the method of distribution then in effect.

**Death Benefit Amount.** If you elect a right to withdraw, the death benefit value will be determined as described under “Withdrawal” in this Appendix. No early withdrawal charge will apply. If the contract is issued with guaranteed payments and with no right to withdraw, the rate used to determine the value of the remaining guaranteed payments will be the fixed annuity present value interest rate shown in the contract.

The value of the death benefit will be determined as of the next valuation following the Company’s receipt at its Customer Service Center of proof of death acceptable to us and a request for payment in good order.

## APPENDIX II

### DESCRIPTION OF UNDERLYING FUNDS

---

#### List of Fund Name Changes

<u>New Fund Name</u>	<u>Former Fund Name</u>
ING Columbia Contrarian Core Portfolio	ING Davis New York Venture Portfolio
ING Invesco Comstock Portfolio	ING Invesco Van Kampen Comstock Portfolio
ING Invesco Equity and Income Portfolio	ING Invesco Van Kampen Equity and Income Portfolio
ING Multi-Manager Large Cap Core Portfolio	ING Pioneer Fund Portfolio

The investment results of the mutual funds (funds) are likely to differ significantly and there is no assurance that any of the funds will achieve their respective investment objectives. You should consider the investment objectives, risks and charges, and expenses of the funds carefully before investing. Please refer to the fund prospectuses for additional information. Shares of the funds will rise and fall in value and you could lose money by investing in the funds. Shares of the funds are not bank deposits and are not guaranteed, endorsed or insured by any financial institution, the FDIC or any other government agency. Except as noted, all funds are diversified, as defined under the 1940 Act. Fund prospectuses may be obtained free of charge at the address and telephone number listed in “CONTRACT OVERVIEW - Questions: Contacting the Company,” by accessing the SEC’s web site or by contacting the SEC Public Reference Branch. If you have received a summary prospectus for any of the funds available through your contract, you may obtain a full prospectus and other fund information free of charge by either accessing the internet address, calling the telephone number or sending an email request to the email address shown on the front of the fund’s summary prospectus.

Certain funds offered under the contracts have investment objectives and policies similar to other funds managed by the fund’s investment adviser. The investment results of a fund may be higher or lower than those of other funds managed by the same adviser. There is no assurance and no representation is made that the investment results of any fund will be comparable to those of another fund managed by the same investment adviser.

For the share class of each fund offered through your contract, please see the cover page.

<b>Fund Name</b>	<b>Investment Objective(s)</b>
<b>Investment Adviser/Subadviser</b>	
<b>Calvert VP SRI Balanced Portfolio</b>	<i>A non-diversified</i> portfolio that seeks to achieve a competitive total return through an actively managed portfolio of stocks, bonds and money market instruments which offer income and capital growth opportunity and which satisfy the investment criteria, including financial, sustainability and social responsibility factors.

<b>Investment Adviser:</b> Invesco Advisors, Inc.	
<b>Invesco V.I. Core Equity Fund</b>	Seeks long-term growth of capital.
<b>Investment Adviser:</b> Invesco Advisors, Inc.	
<b>Lord Abbett Series Fund, Inc. - Mid-Cap Stock Portfolio</b>	The Fund seeks capital appreciation through investments, primarily in equity securities, which are believed to be undervalued in the marketplace.
<b>Investment Adviser:</b> Lord, Abbett & Co. LLC (Lord Abbett)	

## APPENDIX III

### CALCULATION OF PRESENT VALUE OF REMAINING GUARANTEED VARIABLE OR FIXED INCOME PAYMENTS

---

To the extent that the contracts allow for the full or partial withdrawal of the present value of remaining guaranteed variable or fixed income payments, the present value for each will be calculated as follows:

#### **Withdrawals - Variable Income**

The present value of remaining guaranteed variable income payments is calculated as follows:

$$\text{Present Value} = [ \text{Units} \times \text{Current Unit Value} ] \times \text{Annuity Factor}$$

Where Annuity Factor equals:

$$\text{Annuity Factor} = [ ( 1 - v^n ) / d ] \times \{ 1 / [ ( 1 + i ) ^ { ( b / ( 365 / m ) ) } ] \}$$

Notes:  $[ ( 1 - v^n ) / d ]$  is the present value of \$1 / mode with the first payment due immediately.

$\{ 1 / [ ( 1 + i ) ^ { ( b / ( 365 / m ) ) } ] \}$  is a discount factor representing the time value difference between the first payment being due immediately and the actual number of days before the first payment is due.

Where:

$$\begin{aligned} i &= [ ( 1 + \text{AIR} ) ^ { ( 1 / \text{mode} ) } ] - 1 \\ v &= 1 / ( 1 + i ) \\ d &= i / ( 1 + i ) \\ n &= \text{number of remaining guaranteed payments} \\ m &= \text{number of payments per year (mode)} \\ b &= \text{days until the next scheduled payment} \end{aligned}$$

This is calculated for each fund held and summed for a total present value amount.

## Withdrawals - Fixed Income

The present value of remaining guaranteed fixed income payments is calculated as follows:

$$\text{Present Value} = \text{Fixed Benefit} \times \text{Annuity Factor}$$

Where Annuity Factor equals:

$$\text{Annuity Factor} = \left[ (1 - v^n) / d \right] \times \left\{ 1 / \left[ (1 + i)^{b / (365 / m)} \right] \right\}$$

Notes:  $\left[ (1 - v^n) / d \right]$  is the present value of \$1 / mode with the first payment due immediately.

$\left\{ 1 / \left[ (1 + i)^{b / (365 / m)} \right] \right\}$  is a discount factor representing the time value difference between the first payment being due immediately and the actual number of days before the first payment is due.

Where:

$$i = [(1 + \text{adjusted contract rate})^{(1 / \text{mode})}] - 1$$

$$v = 1 / (1 + i)$$

$$d = i / (1 + i)$$

n = number of remaining guaranteed payments

m = number of payments per year (mode)

b = days until the next scheduled payment

## Examples

### Withdrawal (assuming variable income with one fund)

The present value of remaining guaranteed variable income payments is calculated as follows (assumes 24 remaining monthly payments will be fully withdrawn):

Let Units = 10 and Current Unit Value = \$15,

$$\text{Present Value} = 10 \times \$15 \times 23.1825 = \$3,477.37$$

Where Annuity Factor equals:

$$\left[ (1 - 0.997137^{24}) / 0.002863 \right] \times \left\{ 1 / \left[ (1 + 0.002871)^{(20 / (365 / 12))} \right] \right\} = 23.1825$$

Where:

Let AIR = 3.5%

$$i = [(1 + 0.035)^{(1 / 12)}] - 1 = 0.002871$$

$$v = 1 / (1 + 0.002871) = 0.997137$$

$$d = 0.002871 / (1 + 0.002871) = 0.002863$$

$$n = 24$$

$$m = 12$$

$$b = 20$$

Withdrawals (assuming fixed income)

The present value of remaining guaranteed fixed income payments is calculated as follows (assumes 24 remaining monthly payments will be fully withdrawn) (using equivalent assumptions as the variable example to see the similarity):

Let Fixed Benefit = \$150,

Present Value = \$150 x 23.1825 = \$3,477.37

Where Annuity Factor equals:

$$\left[ (1 - 0.997137^{24}) / 0.002863 \right] \times \left\{ 1 / \left[ (1 + 0.002871)^{(20 / (365 / 12))} \right] \right\} \\ = 23.1825$$

Where:

Let the Adjusted Contract Rate = 3.5%

$$i = [(1 + 0.035)^{(1 / 12)}] - 1 = 0.002871$$

$$v = 1 / (1 + 0.002871) = 0.997137$$

$$d = 0.002871 / (1 + 0.002871) = 0.002863$$

$$n = 24$$

$$m = 12$$

$$b = 20$$

## **GENERAL INFORMATION AND HISTORY**

ING Life Insurance and Annuity Company (the “Company,” “we,” “us,” “our”) issues the contracts described in this prospectus and is responsible for providing each contract’s insurance and annuity benefits. All guarantees and benefits provided under the contracts that are not related to the separate account are subject to the claims paying ability of the Company and our general account. We are a direct, wholly owned subsidiary of Lion Connecticut Holdings Inc.

We are a stock life insurance company organized under the insurance laws of the State of Connecticut in 1976 and an indirect wholly owned subsidiary of ING Groep N.V. (“ING”), a global financial institution active in the fields of insurance, banking and asset management. Through a merger, our operations include the business of Aetna Variable Annuity Life Insurance Company (formerly known as Participating Annuity Life Insurance Company, an Arkansas life insurance company organized in 1954). Prior to January 1, 2002, the Company was known as Aetna Life Insurance and Annuity Company.

Pursuant to an agreement with the European Commission (“EC”), ING has announced its intention to divest itself of ING U.S., Inc. and its subsidiaries, including the Company (“ING U.S.”), which constitutes ING’s U.S.-based retirement, investment management and insurance operations. Under the agreement with the EC, ING is required to divest itself of at least 25% of ING U.S. by the end of 2013, more than 50% by the end of 2014 and 100% by the end of 2016. While all options for effecting the separation from ING remain open, ING has announced that the base case for this separation includes an initial public offering (“IPO”) of ING U.S., and in connection with the proposed IPO of its common stock ING U.S. filed a registration statement on Form S-1 with the SEC in November 2012, which was amended in January, March and April 2013. While the base case for the separation is an IPO, all options remain open and it is possible that ING’s divestment of ING U.S. may take place by means of a sale to a single buyer or group of buyers.

The Company serves as the depositor for the separate account.

Other than the mortality and expense risk charge and administrative expense charge, if any, described in the prospectus, all expenses incurred in the operations of the separate account are borne by the Company. However, the Company does receive compensation for certain administrative or distribution costs from the funds or affiliates of the funds used as funding options under the contract. (See “FEES” in the prospectus.)

The assets of the separate account are held by the Company. The separate account has no custodian. However, the funds in whose shares the assets of the separate account are invested each have custodians, as discussed in their respective prospectuses.

From this point forward, the term “contract(s)” refers only to those offered through the prospectus.

## **VARIABLE ANNUITY ACCOUNT C**

Variable Annuity Account C is a separate account established by the Company for the purpose of funding variable annuity contracts issued by the Company. The separate account is registered with the Securities and Exchange Commission (“SEC”) as a unit investment trust under the Investment Company Act of 1940, as amended. Purchase payments to accounts under the contract may be allocated to one or more of the subaccounts. Each subaccount invests in the shares of only one of the funds offered under the contract. We may make additions to, deletions from or substitutions of available investment options as permitted by law and subject to the conditions of the contract. The availability of the funds is subject to

applicable regulatory authorization. Not all funds are available in all jurisdictions, under all contracts, or under all plans.

A complete description of each of the funds, including their investment objectives, policies, risks and fees and expenses, is contained in each fund's prospectus and statement of additional information.

## **OFFERING AND PURCHASE OF CONTRACT**

The Company's subsidiary, ING Financial Advisers, LLC serves as the principal underwriter for the contracts. ING Financial Advisers, LLC, a Delaware limited liability company, is registered as a broker-dealer with the SEC. ING Financial Advisers, LLC is also a member of the National Association of Securities Dealers, Inc., and the Securities Investor Protection Corporation. ING Financial Advisers, LLC's principal office is located at One Orange Way, Windsor, Connecticut 06095-4774. The contracts are distributed through life insurance agents licensed to sell variable annuities who are registered representatives of ING Financial Advisers, LLC or of other registered broker-dealers who have entered into sales arrangements with ING Financial Advisers, LLC. The offering of the contracts is continuous. A description of the manner in which contracts are purchased may be found in the prospectus under the section entitled **"CONTRACT PURCHASE AND PARTICIPATION."**

Compensation paid to the principal underwriter, ING Financial Advisers, LLC, for the years ending December 31, 2012, 2011 and 2010 amounted to \$54,904,926.87, \$56,593,822.08 and \$43,979,093.81, respectively. These amounts reflect compensation paid to ING Financial Advisers, LLC attributable to regulatory and operating expenses associated with the distribution of all registered variable annuity products issued by Variable Annuity Account C of the Company.

## **INCOME PAYMENTS**

Your variable income payments will fluctuate as the annuity unit value(s) ("AUV") fluctuates with the investment experience of the selected subaccount(s). The first income payment and subsequent income payments also vary depending upon the assumed annual net return rate selected (3.5% or 5% per annum). Currently only 3.5% assumed annual net return rate is available. Selection of a 5% rate causes a higher first income payment, but payments will increase thereafter only to the extent that the net investment rate increases by more than 5% on an annual basis. Income payments would decline if the rate failed to increase by 5%. Use of the 3.5% assumed rate causes a lower first income payment, but subsequent income payments would increase more rapidly or decline more slowly as changes occur in the net investment rate.

A fixed number of annuity units ("Annuity Units") are determined in each of the designated subaccounts on the contract effective date. When you select variable income payments, your account value purchases Annuity Units of the separate account subaccounts corresponding to the funds you select. The number of Annuity Units purchased is based on your account value and the value of each unit on the day the Annuity Units are purchased. The number of Annuity Units, which generally does not change thereafter, is calculated by dividing (a) by (b), where (a) is the amount of the income payment as if the payment was calculated as of the contract effective date, and (b) is the AUV for that investment option on the contract effective date. The first payment will be calculated as of the 10<sup>th</sup> valuation before the payment due date, which depends upon the payment frequency you have selected. As noted above, AUV fluctuate from one valuation to the next (see "Calculating Variable Income Payments" in the prospectus); such fluctuations reflect changes in the net investment factor for the applicable subaccount(s) (with a 10 valuation lag which gives the Company time to process payments) and a mathematical adjustment which offsets the assumed annual net return rate of 3.5% or 5% per annum.

The operation of all these factors can be illustrated by the following hypothetical example. These procedures will be performed separately for each subaccount selected.

**EXAMPLE:**

Assume that you purchase a single premium immediate annuity contract with a \$50,000 premium. The payment option that you select has a payment factor of \$6.68 per \$1,000 of value applied. Also assume that no premium tax charge is payable.

If a payment was determined as of the contract effective date, that payment would be calculated by multiplying \$6.68 per \$1,000 by 50,000. This would produce an initial payment of \$334.00.

Assume that the value of the Annuity Unit on the contract effective date is 13.400000. The payment calculated as of the contract effective date is divided by the AUV to determine the number of Annuity Units (that is,  $\$334.00/13.400000 = 24.925$  Annuity Units). The number of Annuity Units will generally remain constant over the term of your contract as determined by the income payment option you select. The value of each payment will be determined on the 10<sup>th</sup> valuation before the payment due date by multiplying the number of Annuity Units by that date's AUV.

Payments will subsequently fluctuate depending upon the net investment performance that occurs between payment valuation dates less a factor that represents the assumed annual net return rate. This offsets the assumed annual net return rate built into the number of Annuity Units determined above.

AUVs are calculated on a daily basis by multiplying the AUV by the daily net return factor and by a factor to reflect the daily assumed annual net return rate. The factor for a 3.5% assumed annual net return rate is 0.9999058 and for 5.0% is 0.9998663. The new payment is calculated by multiplying the number of Annuity Units by the new AUV.

## **SALES MATERIAL AND ADVERTISING**

We may illustrate the hypothetical values of income payments made from each of the subaccounts over certain time periods based on the historical net asset values of the funds. We may also advertise returns based on other fee schedules that apply to a particular contract holder. These fee schedules may result in higher returns than those shown.

We may also include hypothetical illustrations in our sales literature that explain the mathematical principles of compounded interest, tax deferred accumulation, and the mechanics of variable annuity contracts. We may also discuss the difference between variable annuity contracts and savings or investment products such as personal savings accounts and certificates of deposit.

We may publish in advertisements and reports, the ratings and other information assigned to us by one or more independent rating organizations such as A.M. Best Company, Duff & Phelps, Standard & Poor's Corporation and Moody's Investors Service, Inc. The purpose of the ratings is to reflect our financial strength and/or claims-paying ability. We may also quote ranking services such as Morningstar's Variable Annuity/Life Performance Report and Lipper's Variable Insurance Products Performance Analysis Service (VIPPAS), which rank variable annuity or life subaccounts or their underlying funds by performance and/or investment objective. We may illustrate in advertisements the performance of the underlying funds, if accompanied by performance which also shows the performance of such funds reduced by applicable charges under the separate account. We may categorize funds in terms of the asset classes they represent and use such categories in marketing materials for the contracts. We may also show in advertisements the portfolio holdings of the underlying funds, updated at various intervals. From time

to time, we will quote articles from newspapers and magazines or other publications or reports such as The Wall Street Journal, Money Magazine, USA Today and The VARDS Report.

We may provide in advertising, sales literature, periodic publications or other materials, information on various topics of interest to current and prospective contract holders. These topics may include the relationship between sectors of the economy and the economy as a whole and its effect on various securities markets, investment strategies and techniques (such as value investing, market timing, asset allocation, constant ratio transfer and account rebalancing), the advantages and disadvantages of investing in tax-deferred and taxable investments, customer profiles and hypothetical purchase and investment scenarios, financial management and tax and retirement planning, and investment alternatives to certificates of deposit and other financial instruments, including comparison between the contracts and the characteristics of and market for such financial instruments.

### **EXPERTS**

The statements of assets and liabilities of Variable Annuity Account C as of December 31, 2012, and the related statements of operations and changes in net assets for the periods disclosed in the financial statements, and the consolidated financial statements of the Company as of December 31, 2012 and 2011, and for each of the three years in the period ended December 31, 2012, included in the Statement of Additional Information, have been audited by Ernst & Young LLP, independent registered public accounting firm, as set forth in their reports thereon appearing elsewhere herein, and are included in reliance upon such reports given on the authority of such firm as experts in accounting and auditing.

The primary business address of Ernst & Young LLP is Suite 1000, 55 Ivan Allen Jr. Boulevard, Atlanta, GA 30308.

## Report of Independent Registered Public Accounting Firm

The Board of Directors and Participants  
ING Life Insurance and Annuity Company

We have audited the accompanying financial statements of Variable Annuity Account C of ING Life Insurance and Annuity Company (the "Account"), which comprise the statements of assets and liabilities of each of the investment divisions disclosed in Note 1 as of December 31, 2012, and the related statements of operations for the year or period then ended, and the statements of changes in net assets for the years or periods ended December 31, 2012 and 2011. These financial statements are the responsibility of the Account's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Account's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Account's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2012, by correspondence with the transfer agents or fund companies. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of each of the investment divisions disclosed in Note 1 constituting Variable Annuity Account C of ING Life Insurance and Annuity Company at December 31, 2012, the results of their operations for the year or period then ended, and the changes in their net assets for the years or periods ended December 31, 2012 and 2011, in conformity with U.S. generally accepted accounting principles.

**VARIABLE ANNUITY ACCOUNT C OF  
ING LIFE INSURANCE AND ANNUITY COMPANY**  
**Notes to Financial Statements**

---

**1. Organization**

Variable Annuity Account C of ING Life Insurance and Annuity Company (the “Account”) was established by ING Life Insurance and Annuity Company (“ILIAC” or the “Company”) to support the operations of variable annuity contracts (“Contracts”). ILIAC is an indirect, wholly owned subsidiary of ING U.S., Inc. (name changed from ING America Insurance Holdings, Inc.), an insurance holding company domiciled in the State of Delaware. ING U.S., Inc. is an indirect, wholly owned subsidiary of ING Groep, N.V. (“ING”), a global financial services holding company based in The Netherlands.

ING has announced the anticipated separation of its global banking and insurance businesses. While all options for effecting this separation remain open, ING has announced that the base case for this separation includes an initial public offering (“IPO”) of ING U.S., Inc., which together with its subsidiaries, constitutes ING’s U.S.-based retirement, investment management, and insurance operations. ING U.S., Inc. filed a registration statement on Form S-1 with the U.S. Securities and Exchange Commission (“SEC”) on November 9, 2012, which was amended on January 23, 2013 and March 19, 2013, in connection with the proposed IPO of its common stock.

The Account is registered as a unit investment trust with the SEC under the Investment Company Act of 1940, as amended. ILIAC provides for variable accumulation and benefits under the Contracts by crediting annuity considerations to one or more divisions within the Account or the fixed account (an investment option in the Company’s general account), as directed by the contract owners. The portion of the Account’s assets applicable to Contracts will not be charged with liabilities arising out of any other business ILIAC may conduct, but obligations of the Account, including the promise to make benefit payments, are obligations of ILIAC. Under applicable insurance law, the assets and liabilities of the Account are clearly identified and distinguished from the other assets and liabilities of ILIAC.

At December 31, 2012, the Account had 309 investment divisions (the “Divisions”), 123 of which invest in independently managed mutual funds and 186 of which invest in mutual funds managed by affiliates, either ING Investments, LLC (“IIL”) or Directed Services LLC (“DSL”). The assets in each Division are invested in shares of a designated fund (“Fund”) of various investment trusts (the “Trusts”). Investment Divisions with asset balances at December 31, 2012 and related Trusts are as follows:

AIM Growth Series:

Invesco Mid Cap Core Equity Fund - Class A  
Invesco Small Cap Growth Fund - Class A

## **2. Significant Accounting Policies**

The following is a summary of the significant accounting policies of the Account:

### *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from reported results using those estimates.

**VARIABLE ANNUITY ACCOUNT C OF  
ING LIFE INSURANCE AND ANNUITY COMPANY**  
**Notes to Financial Statements**

---

*Investments*

Investments are made in shares of a Division and are recorded at fair value, determined by the net asset value per share of the respective Division. Investment transactions in each Division are recorded on the trade date. Distributions of net investment income and capital gains from each Division are recognized on the ex-distribution date. Realized gains and losses on redemptions of the shares of the Division are determined on a first-in, first-out basis. The difference between cost and current fair value of investments owned on the day of measurement is recorded as unrealized appreciation or depreciation of investments.

*Federal Income Taxes*

Operations of the Account form a part of, and are taxed with, the total operations of ILIAC, which is taxed as a life insurance company under the Internal Revenue Code ("IRC"). Under the current provisions of the IRC, the Company does not expect to incur federal income taxes on the earnings of the Account to the extent the earnings are credited to contract owners. Accordingly, earnings and realized capital gains of the Account attributable to the contract owners are excluded in the determination of the federal income tax liability of ILIAC, and no charge is being made to the Account for federal income taxes for these amounts. The Company will review this tax accounting in the event of changes in the tax law. Such changes in the law may result in a charge for federal income taxes.

*Contract Owner Reserves*

The annuity reserves of the Account are represented by net assets on the Statements of Assets and Liabilities and are equal to the aggregate account values of the contract owners invested in the Account Divisions. Net assets allocated to contracts in the payout period are computed according to the industry standard mortality tables. The assumed investment return is elected by the annuitant and may vary from 3.5% to 5.0%. The mortality risk is fully borne by the Company to the extent that benefits to be paid to the contract owners exceed their account values, ILIAC will contribute additional funds to the benefit proceeds. Conversely, if amounts allocated exceed amounts required, transfers may be made to ILIAC. Prior to the annuity date, the Contracts are redeemable for the net cash surrender value of the Contracts.

*Changes from Principal Transactions*

Included in Changes from Principal Transactions on the Statements of Changes in Net Assets are items which relate to contract owner activity, including deposits, surrenders and withdrawals, death benefits, and contract charges. Also included are transfers between the fixed account and the Divisions, transfers between Divisions, and transfers to (from) ILIAC related to gains and losses resulting from actual mortality experience (the full responsibility for which is assumed by ILIAC). Any net unsettled transactions

**VARIABLE ANNUITY ACCOUNT C OF  
ING LIFE INSURANCE AND ANNUITY COMPANY**  
**Notes to Financial Statements**

---

as of the reporting date are included in Payable to related parties on the Statements of Assets and Liabilities.

*Subsequent Events*

The Account has evaluated subsequent events for recognition and disclosure through the date the financial statements as of December 31, 2012 and for the years ended December 31, 2012 and 2011, were issued.

**3. Financial Instruments**

The Account invests assets in shares of open-end mutual funds and funds of funds, which process orders to purchase and redeem shares on a daily basis at the fund's next computed net asset values ("NAV"). The fair value of the Account's assets is based on the NAVs of mutual funds, which are obtained from the custodian and reflect the fair values of the mutual fund investments. The NAV is calculated daily upon close of the New York Stock Exchange and is based on the fair values of the underlying securities.

The Account's financial assets are recorded at fair value on the Statements of Assets and Liabilities and are categorized as Level 1 as of December 31, 2012 based on the priority of the inputs to the valuation technique below. There were no transfers among the levels for the year ended December 31, 2012. The Account had no financial liabilities as of December 31, 2012.

The Account categorizes its financial instruments into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument.

- Level 1 - Unadjusted quoted prices for identical assets or liabilities in an active market. The Account defines an active market as a market in which transactions take place with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 - Quoted prices in markets that are not active or inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
  - a) Quoted prices for similar assets or liabilities in active markets;
  - b) Quoted prices for identical or similar assets or liabilities in non-active markets;
  - c) Inputs other than quoted market prices that are observable; and

**VARIABLE ANNUITY ACCOUNT C OF  
ING LIFE INSURANCE AND ANNUITY COMPANY**  
**Notes to Financial Statements**

---

- d) Inputs that are derived principally from or corroborated by observable market data through correlation or other means.
- Level 3 - Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability.

**4. Charges and Fees**

Under the terms of the Contracts, certain charges and fees are incurred by the Contracts to cover ILIAC's expenses in connection with the issuance and administration of the Contracts. Following is a summary of these charges and fees:

*Mortality and Expense Risk Charges*

ILIAC assumes mortality and expense risks related to the operations of the Account and, in accordance with the terms of the Contracts, deducts a daily charge from the assets of the Account. Daily charges are deducted at annual rates of up to 6.00% of the average daily net asset value of each Division of the Account to cover these risks, as specified in the Contracts. These charges are assessed through a reduction in unit values.

*Asset Based Administrative Charges*

A daily charge to cover administrative expenses of the Account is generally deducted at an annual rate of up to 1.75% of the assets attributable to the Contracts. In addition, a subaccount administrative adjustment charge of up to 0.80% may be charged as specified in the Contract. These charges are assessed through a reduction in unit values.

*Contract Maintenance Charges*

An annual Contract maintenance fee of up to \$50 may be deducted from the accumulation value of Contracts to cover ongoing administrative expenses, as specified in the Contract. These charges are assessed through the redemption of units.

*Contingent Deferred Sales Charges*

For certain Contracts, a contingent deferred sales charge ("Surrender Charge") is imposed as a percentage that ranges up to 7.00% of each premium payment if the Contract is surrendered or an excess partial withdrawal is taken as specified in the Contract. These charges are assessed through the redemption of units.

*Premium Taxes*

**VARIABLE ANNUITY ACCOUNT C OF  
ING LIFE INSURANCE AND ANNUITY COMPANY**  
**Notes to Financial Statements**

---

For certain Contracts, premium taxes are deducted, where applicable, from the accumulation value of each Contract. The amount and timing of the deduction depends on the contract owner's state of residence and currently ranges up to 4.00% of premiums. These charges are assessed through the redemption of units.

*Other Contract Charges*

For certain Contracts, an additional annual charge of 0.25% is deducted daily from the accumulation value for amounts invested in the ING GET U.S. Core Portfolio Funds.

Certain Contracts contain optional riders that are available for an additional charge, such as minimum guaranteed income benefits and minimum guaranteed withdraw benefits. The amounts charged for these optional benefits vary based on a number of factors and are defined in the Contracts.

These charges are assessed through either a reduction in unit values or the redemption of units.

*Fees Waived by ILIAC*

Certain charges and fees for various types of Contracts may be waived by ILIAC. ILIAC reserves the right to discontinue these waivers at its discretion or to conform with changes in the law.

**5. Related Party Transactions**

During the year ended December 31, 2012, management fees were paid indirectly to DSL, an affiliate of the Company, in its capacity as investment adviser to ING Investors Trust and ING Partners, Inc. The Trusts' advisory agreements provided for fees at annual rates up to 1.25% of the average net assets of each respective Fund.

Management fees were also paid indirectly to IIL, an affiliate of the Company, in its capacity as investment adviser to the ING Balanced Portfolio, Inc., ING Equity Trust, ING Funds Trust, ING Intermediate Bond Portfolio, ING Money Market Portfolio, ING Mutual Funds, ING Series Fund, Inc., ING Strategic Allocation Portfolios, Inc., ING Variable Funds, ING Variable Insurance Trust, ING Variable Portfolios, Inc., and ING Variable Products Trust. The Trusts' advisory agreements provided for fees at annual rates ranging from 0.08% to 0.98% of the average net assets of each respective Fund.

**6. Purchases and Sales of Investment Securities**

The aggregate cost of purchases and proceeds from sales of investments for the year ended December 31, 2012 follow:

<b>Purchases</b>	<b>Sales</b>

## Notes to Financial Statements

- (a) As investment Division had no investments until 2008, this data is not meaningful and is therefore not presented.
  - (b) As investment Division had no investments until 2009, this data is not meaningful and is therefore not presented.
  - (c) As investment Division had no investments until 2010, this data is not meaningful and is therefore not presented.
  - (d) As investment Division had no investments until 2011, this data is not meaningful and is therefore not presented.
  - (e) As investment Division had no investments until 2012, this data is not meaningful and is therefore not presented.
  - (f) As investment Division is wholly comprised of new contracts at December 31, 2010, this data is not meaningful and therefore not presented.
  - (g) As investment Division is wholly comprised of new contracts at December 31, 2012, this data is not meaningful and therefore not presented.
- A** The Investment Income Ratio represents dividends received by the Division, excluding capital gains distributions, divided by the average net assets. The recognition of investment income is determined by the timing of the declaration of dividends by the underlying fund in which the Division invests.
  - B** The Expense Ratio considers only the expenses borne directly by the Account, excluding expenses changed through the redemption of units, and is equal to the mortality and expense, administrative, and other charges as defined in the Charges and fees note.  
Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.
  - C** Total Return is calculated as the change in unit value for each Contract presented in the Statements of Assets and Liabilities. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

## **Report of Independent Registered Public Accounting Firm**

The Board of Directors  
ING Life Insurance and Annuity Company

We have audited the accompanying consolidated balance sheets of ING Life Insurance and Annuity Company and subsidiaries as of December 31, 2012 and 2011, and the related consolidated statements of operations, comprehensive income, changes in shareholder's equity, and cash flows for each of the three years in the period ended December 31, 2012. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits include consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of ING Life Insurance and Annuity Company and subsidiaries at December 31, 2012 and 2011, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2012, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 1 to the financial statements, the Company retrospectively changed its method of accounting for costs associated with acquiring or renewing insurance contracts. Additionally, as discussed in Note 1 to the financial statements, the Company has elected to change its method of recognizing actuarial gains and losses related to its pension and post-retirement benefit plans.

**1. Business, Basis of Presentation and Significant Accounting Policies**

***Business***

ING Life Insurance and Annuity Company ("ILIAC") is a stock life insurance company domiciled in the state of Connecticut. ILIAC and its wholly owned subsidiaries (collectively, the "Company") are providers of financial products and services in the United States. ILIAC is authorized to conduct its insurance business in all states and in the District of Columbia.

ILIAC is a direct, wholly owned subsidiary of Lion Connecticut Holdings Inc. ("Lion" or "Parent"), which is a direct, wholly owned subsidiary of ING U.S., Inc. ING U.S., Inc. is a wholly owned subsidiary of ING Insurance International B.V., which is a wholly owned subsidiary of ING Verzekeringen N.V. ("ING Insurance"), which is a wholly owned subsidiary of ING Insurance Topholding N.V., which is a wholly owned subsidiary of ING Groep N.V. ("ING Group" or "ING"), the ultimate parent company. ING is a global financial services holding company based in The Netherlands, with American Depositary Shares listed on the New York Stock Exchange under the symbol "ING."

ING has announced the anticipated separation of its global banking and insurance businesses. While all options for effecting this separation remain open, ING has announced that the base case for this separation includes an initial public offering ("IPO") of ING U.S., Inc., which together with its subsidiaries, constitutes ING's U.S.-based retirement, investment management, and insurance operations. ING U.S., Inc. filed a registration statement on Form S-1 with the U.S. Securities and Exchange Commission ("SEC") on November 9, 2012, which was amended on January 23, 2013 and March 19, 2013, in connection with the proposed IPO of its common stock.

The Company offers qualified and nonqualified annuity contracts that include a variety of funding and payout options for individuals and employer-sponsored retirement plans qualified under Internal Revenue Code Sections 401, 403, 408, 457 and 501, as well as nonqualified deferred compensation plans and related services. The Company's products are offered primarily to individuals, pension plans, small businesses and employer-sponsored groups in the health care, government and education markets (collectively "not-for-profit" organizations) and corporate markets. The Company's products are generally distributed through pension professionals, independent agents and brokers, third party administrators, banks, dedicated career agents and financial planners.

Products offered by the Company include deferred and immediate (i.e., payout) annuity contracts. Company products also include programs offered to qualified plans and nonqualified deferred compensation plans that package administrative and record-keeping services along with a variety of investment options, including affiliated and nonaffiliated mutual funds and variable and fixed investment options. In addition, the Company offers wrapper agreements entered into with retirement plans, which contain certain benefit responsive guarantees (i.e., guarantees of principal and previously accrued interest for benefits paid under the terms of the plan) with respect to portfolios of plan-owned assets not invested with the Company. The Company also offers pension and retirement savings plan administrative services.

The Company has one operating segment.

***Basis of Presentation***

The accompanying Consolidated Financial Statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP"). The Consolidated Financial Statements include the accounts of ILIAC and its wholly owned subsidiaries, ING Financial Advisers, LLC ("IFA") and Directed Services LLC ("DSL"). Intercompany transactions and balances between ILIAC and its subsidiaries have been eliminated.

Certain reclassifications have been made to prior year financial information to conform to the current year classifications, including the presentation of changes in fair value of embedded derivatives within annuity products and the presentation of market value adjustment items in order to align with the presentation of the Consolidated Financial Statements of ING U.S., Inc. For the years ended December 31, 2011 and 2010, respectively, reclassifications decreased Fee income by \$(1.1) and \$(6.3), (decreased) increased Other net realized capital gains (losses) by \$(216.1) and \$9.3, decreased Other revenue by \$(6.0) and \$(1.4), and (decreased) increased Interest credited and other benefits to contract owners by \$(223.2) and \$1.6, in the Statements of Operations. Such reclassifications had no impact on Shareholder's equity or Net income (loss).

## ***Accounting Changes***

### ***Employee Benefit Plans***

As of January 1, 2012, the Company voluntarily changed its method of recognizing actuarial gains and losses related to its pension and post-retirement benefit plans. Previously, actuarial gains and losses were recognized in Accumulated other comprehensive income and, to the extent outside a corridor, amortized into operating results over the average remaining service period of active plan participants or the average remaining life expectancy of inactive plan participants, as applicable. The Company has elected to immediately recognize actuarial gains and losses in the Consolidated Statements of Operations in the year in which the gains and losses occur. The new accounting method is preferable, as it eliminates the delay in recognition of actuarial gains and losses. These gains and losses are generally only measured annually as of December 31 and, accordingly, will generally be recorded during the fourth quarter.

The Company's change in accounting methodology has been applied retrospectively. The cumulative effect of this change as of January 1, 2010, is a decrease to Retained earnings, with a corresponding increase to Accumulated other comprehensive income, of \$17.4, net of tax. In addition, the impact of this change on the Company's Net income was an increase (decrease) of \$1.0, \$(7.2) and \$(3.8) for the years ended December 31, 2012, 2011 and 2010, respectively. The impact of this change as of December 31, 2012 and 2011, respectively, is an additional decrease to Retained earnings, with a corresponding increase to Accumulated other comprehensive income, of \$27.4 and \$28.4, net of tax.

### ***Deferred Policy Acquisition Costs***

In October 2010, the FASB issued ASU 2010-26, "Financial Services - Insurance (ASC Topic 944): Accounting for Costs Associated with Acquiring or Renewing Insurance Contracts" ("ASU 2010-26"), which clarifies what costs relating to the acquisition of new or renewal insurance contracts qualify for deferral. Costs that should be capitalized include (1) incremental direct costs of successful contract acquisition and (2) certain costs related directly to successful acquisition activities (underwriting, policy issuance and processing, medical and inspection, and sales force contract selling) performed by the insurer for the contract. Advertising costs should be included in deferred acquisition costs only if the capitalization criteria in the U.S. GAAP direct-response advertising guidance are met. All other acquisition-related costs should be charged to expense as incurred.

The provisions of ASU 2010-26 were adopted retrospectively by the Company on January 1, 2012. As a result of implementing ASU 2010-26, the Company recognized a cumulative effect of change in accounting principle of \$375.9, net of income taxes of \$202.4, as a reduction to January 1, 2010 Retained earnings (deficit). In addition, the Company recognized a \$13.9 increase to Accumulated other comprehensive income ("AOCI").

## ***Significant Accounting Policies***

### ***Estimates and Assumptions***

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Consolidated Financial Statements and the reported amounts of revenues and expenses during the reporting period. Those estimates are inherently subject to change and actual results could differ from those estimates.

The Company has identified the following accounts and policies as the most significant in that they involve a higher degree of judgment, are subject to a significant degree of variability and/or contain significant accounting estimates:

Reserves for future policy benefits, valuation and amortization of deferred policy acquisition costs ("DAC") and value of business acquired ("VOBA"), valuation of investments and derivatives, impairments, income taxes and contingencies.

#### *Fair Value Measurement*

The Company measures the fair value of its financial assets and liabilities based on assumptions used by market participants in pricing the asset or liability, which may include inherent risk, restrictions on the sale or use of an asset, or nonperformance risk, which is the risk that the Company will not fulfill its obligation. The estimate of an exchange price is the price in an orderly transaction between market participants to sell the asset or transfer the liability ("exit price") in the principal market, or the most advantageous market in the absence of a principal market, for that asset or liability. The Company utilizes a number of valuation sources to determine the fair values of its financial assets and liabilities, including quoted market prices, third-party commercial pricing services, third-party brokers, industry-standard, vendor-provided software that models the value based on market observable inputs, and other internal modeling techniques based on projected cash flows.

#### *Investments*

The accounting policies for the Company's principal investments are as follows:

*Fixed Maturities and Equity Securities:* The Company's fixed maturities and equity securities are currently designated as available-for-sale, except those accounted for using the fair value option ("FVO"). Available-for-sale securities are reported at fair value and unrealized capital gains (losses) on these securities are recorded directly in Accumulated other comprehensive income (loss) ("AOCI") and presented net of related changes in DAC, VOBA and deferred income taxes. In addition, certain fixed maturities have embedded derivatives, which are reported with the host contract on the Consolidated Balance Sheets.

The Company has elected the FVO for certain of its fixed maturities to better match the measurement of assets and liabilities in the Consolidated Statements of Operations. Certain collateralized mortgage obligations ("CMOs"), primarily interest-only and principal-only strips, are accounted for as hybrid instruments and valued at fair value with changes in the fair value recorded in Other net realized capital gains (losses) in the Consolidated Statements of Operations.

Purchases and sales of fixed maturities and equity securities, excluding private placements, are recorded on the trade date. Purchases and sales of private placements and mortgage loans are recorded on the closing date. Investment gains and losses on sales of securities are generally determined on a first-in-first-out ("FIFO") basis.

Interest income on fixed maturities is recorded when earned using an effective yield method, giving effect to amortization of premiums and accretion of discounts. Dividends on equity securities are recorded when declared. Such dividends and interest income are recorded in Net investment income in the Consolidated Statements of Operations.

Included within fixed maturities are loan-backed securities, including residential mortgage-backed securities ("RMBS"), commercial mortgage-backed securities ("CMBS") and asset-backed securities ("ABS"). Amortization of the premium or discount from the purchase of these securities considers the estimated timing and amount of prepayments of the underlying loans. Actual prepayment experience is periodically reviewed and effective yields are recalculated when differences arise between the prepayments originally anticipated and the actual prepayments received and currently anticipated. Prepayment assumptions for single class and multi-class mortgage-backed securities ("MBS") and ABS are estimated by management using inputs obtained from third-party specialists, including broker-dealers and based on management's knowledge of the current market. For prepayment-sensitive securities such as interest-only, principal-only strips, inverse floaters and credit-sensitive MBS and ABS securities, which represent beneficial interests in securitized financial assets that are not of high credit quality or that have been credit impaired, the effective yield is recalculated on a prospective basis. For all other MBS and ABS, the effective yield is recalculated on a retrospective basis.

*Short-term Investments:* Short-term investments include investments with remaining maturities of one year or less, but greater than three months, at the time of purchase. These investments are stated at fair value.

*Assets Held in Separate Accounts:* Assets held in separate accounts are reported at the fair values of the underlying investments in the separate accounts. The underlying investments include mutual funds, short-term investments, cash and fixed maturities.

*Mortgage Loans on Real Estate:* The Company's mortgage loans on real estate are all commercial mortgage loans, which are reported at amortized cost, less impairment write-downs and allowance for losses. If a mortgage loan is determined to be impaired

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

(i.e., when it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement), the carrying value of the mortgage loan is reduced to the lower of either the present value of expected cash flows from the loan discounted at the loan's original purchase yield or fair value of the collateral. For those mortgages that are determined to require foreclosure, the carrying value is reduced to the fair value of the underlying collateral, net of estimated costs to obtain and sell at the point of foreclosure. The carrying value of the impaired loans is reduced by establishing a permanent write-down recorded in Other net realized capital gains (losses) in the Consolidated Statements of Operations. Property obtained from foreclosed mortgage loans is recorded in Other investments on the Consolidated Balance Sheets.

Mortgage loans are evaluated by the Company's investment professionals, including an appraisal of loan-specific credit quality, property characteristics, and market trends. Loan performance is continuously monitored on a loan-specific basis throughout the year. The Company's review includes submitted appraisals, operating statements, rent revenues, and annual inspection reports, among other items. This review evaluates whether the properties are performing at a consistent and acceptable level to secure the debt.

Mortgages are rated for the purpose of quantifying the level of risk. Those loans with higher risk are placed on a watch list and are closely monitored for collateral deficiency or other credit events that may lead to a potential loss of principal or interest. The Company defines delinquent mortgage loans consistent with industry practice as 60 days past due.

The Company's policy is to recognize interest income until a loan becomes 90 days delinquent or foreclosure proceedings are commenced, at which point interest accrual is discontinued. Interest accrual is not resumed until the loan is brought current.

The Company records an allowance for probable losses incurred on non-impaired loans on an aggregate basis, rather than specifically identified probable losses incurred by individual loan.

*Loan - Dutch State Obligation:* The reported value of the State of The Netherlands (the "Dutch State") loan obligation was based on the outstanding loan balance, plus any unamortized premium. This loan obligation was sold to a related party in November 2012.

*Policy Loans:* Policy loans are carried at an amount equal to the unpaid balance. Interest income on such loans is recorded as earned in Net investment income using the contractually agreed upon interest rate. Generally, interest is capitalized on the policy's anniversary date. Valuation allowances are not established for policy loans, as these loans are collateralized by the cash surrender value of the associated insurance contracts. Any unpaid principal or interest on the loan is deducted from the account value or the death benefit prior to settlement of the policy.

*Limited Partnerships/Corporations:* The Company uses the equity method of accounting for investments in limited partnership interests that are not consolidated, which consists primarily of private equities and hedge funds. Generally, the Company records its share of earnings using a lag methodology, relying upon the most recent financial information available, generally not to exceed three months. The Company's earnings from limited partnership interests accounted for under the equity method are recorded in Net investment income.

*Securities Lending:* The Company engages in securities lending whereby certain domestic securities from its portfolio are loaned to other institutions for short periods of time. Initial collateral, primarily cash, is required at a rate of 102% of the market value of the loaned securities. For portions of the program, the lending agent retains 5% of the collateral deposited by the borrower and transfers the remaining 95% to the Company. For other portions of the program, the lending agent retains the cash collateral. Collateral retained by the agent is invested in liquid assets on behalf of the Company. The market value of the loaned securities is monitored on a daily basis with additional collateral obtained or refunded as the market value of the loaned securities fluctuates.

**Other-than-temporary Impairments**

The Company periodically evaluates its available-for-sale investments to determine whether there has been an other-than-temporary decline in fair value below the amortized cost basis. Factors considered in this analysis include, but are not limited to, the length of time and the extent to which the fair value has been less than amortized cost, the issuer's financial condition and near-term prospects, future economic conditions and market forecasts, interest rate changes and changes in ratings of the security. An extended and severe unrealized loss position on a fixed maturity may not have any impact on: (a) the ability of the issuer to service all scheduled interest and principal payments and (b) the evaluation of recoverability of all contractual cash flows or the ability

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

to recover an amount at least equal to its amortized cost based on the present value of the expected future cash flows to be collected. In contrast, for certain equity securities, the Company gives greater weight and consideration to a decline in market value and the likelihood such market value decline will recover.

When assessing the Company's intent to sell a security or if it is more likely than not it will be required to sell a security before recovery of its amortized cost basis, management evaluates facts and circumstances such as, but not limited to, decisions to rebalance the investment portfolio and sales of investments to meet cash flow or capital needs.

When the Company has determined it has the intent to sell or if it is more likely than not that the Company will be required to sell a security before recovery of its amortized cost basis and the fair value has declined below amortized cost ("intent impairment"), the individual security is written down from amortized cost to fair value and a corresponding charge is recorded in Net realized capital gains (losses) in the Consolidated Statements of Operations as an other-than-temporary impairment ("OTTI"). If the Company does not intend to sell the security and it is not more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis, but the Company has determined that there has been an other-than-temporary decline in fair value below the amortized cost basis, the OTTI is bifurcated into the amount representing the present value of the decrease in cash flows expected to be collected ("credit impairment") and the amount related to other factors ("noncredit impairment"). The credit impairment is recorded in Net realized capital gains (losses) in the Consolidated Statements of Operations. The noncredit impairment is recorded in Other comprehensive income (loss) on the Consolidated Balance Sheets.

The Company uses the following methodology and significant inputs to determine the amount of the OTTI credit loss:

- The Company performs a discounted cash flow analysis comparing the current amortized cost of a security to the present value of future cash flows expected to be received including estimated defaults and prepayments. The discount rate is generally the effective interest rate of the fixed maturity prior to impairment.
- When determining collectability and the period over which the value is expected to recover, the Company applies the same considerations utilized in its overall impairment evaluation process, which incorporates information regarding the specific security, the industry and geographic area in which the issuer operates and overall macroeconomic conditions. Projected future cash flows are estimated using assumptions derived from the Company's best estimates of likely scenario-based outcomes, after giving consideration to a variety of variables that includes, but is not limited to: general payment terms of the security; the likelihood that the issuer can service the scheduled interest and principal payments; the quality and amount of any credit enhancements; the security's position within the capital structure of the issuer; possible corporate restructurings or asset sales by the issuer; and changes to the rating of the security or the issuer by rating agencies.
- Additional considerations are made when assessing the unique features that apply to certain structured securities such as subprime, Alt-A, non-agency RMBS, CMBS and ABS. These additional factors for structured securities include, but are not limited to: the quality of underlying collateral; expected prepayment speeds; loan-to-value ratios; debt service coverage ratios; current and forecasted loss severity; and the payment priority within the tranche structure of the security.
- When determining the amount of the credit loss for U.S. and foreign corporate securities, foreign government securities and state and political subdivision securities, the Company considers the estimated fair value as the recovery value when available information does not indicate that another value is more appropriate. When information is identified that indicates a recovery value other than estimated fair value, the Company considers in the determination of recovery value the same considerations utilized in its overall impairment evaluation process, which incorporates available information and the Company's best estimate of scenarios-based outcomes regarding the specific security and issuer; possible corporate restructurings or asset sales by the issuer; the quality and amount of any credit enhancements; the security's position within the capital structure of the issuer; fundamentals of the industry and geographic area in which the security issuer operates and the overall macroeconomic conditions.

In periods subsequent to the recognition of the credit related impairment components of OTTI on a fixed maturity, the Company accounts for the impaired security as if it had been purchased on the measurement date of the impairment. Accordingly, the discount (or reduced premium) based on the new cost basis is accreted into net investment income over the remaining term of the fixed maturity in a prospective manner based on the amount and timing of estimated future cash flows.

### *Derivatives*

The Company's use of derivatives is limited mainly to economic hedging to reduce the Company's exposure to cash flow variability of assets and liabilities, interest rate risk, credit risk, exchange rate risk and market risk. It is the Company's policy not to offset amounts recognized for derivative instruments and amounts recognized for the right to reclaim cash collateral or the obligation to return cash collateral arising from derivative instruments executed with the same counterparty under a master netting arrangement.

The Company enters into interest rate, equity market, credit default and currency contracts, including swaps, futures, forwards, caps, floors and options, to reduce and manage various risks associated with changes in value, yield, price, cash flow, or exchange rates of assets or liabilities held or intended to be held, or to assume or reduce credit exposure associated with a referenced asset, index, or pool. The Company also utilizes options and futures on equity indices to reduce and manage risks associated with its annuity products. Open derivative contracts are reported as Derivatives assets or liabilities on the Consolidated Balance Sheets at fair value. Changes in the fair value of derivatives are recorded in Net realized capital gains (losses) in the Consolidated Statements of Operations.

To qualify for hedge accounting, at the inception of the hedging relationship, the Company formally documents its risk management objective and strategy for undertaking the hedging transaction, as well as its designation of the hedge as either (a) a hedge of the exposure to changes in the estimated fair value of a recognized asset or liability or an identified portion thereof that is attributable to a particular risk ("fair value hedge") or (b) a hedge of a forecasted transaction or of the variability of cash flows that is attributable to interest rate risk to be received or paid related to a recognized asset or liability ("cash flow hedge"). In this documentation, the Company sets forth how the hedging instrument is expected to hedge the designated risks related to the hedged item and sets forth the method that will be used to retrospectively and prospectively assess the hedging instrument's effectiveness and the method that will be used to measure ineffectiveness. A derivative designated as a hedging instrument must be assessed as being highly effective in offsetting the designated risk of the hedged item. Hedge effectiveness is formally assessed at inception and periodically throughout the life of the designated hedging relationship.

- *Fair Value Hedge:* For derivative instruments that are designated and qualify as a fair value hedge, the gain or loss on the derivative instrument, as well as the hedged item, to the extent of the risk being hedged, are recognized in Other net realized capital gains (losses).
- *Cash Flow Hedge:* For derivative instruments that are designated and qualify as a cash flow hedge, the effective portion of the gain or loss on the derivative instrument is reported as a component of AOCI and reclassified into earnings in the same periods during which the hedged transaction impacts earnings in the same line item associated with the forecasted transaction. The ineffective portion of the derivative's change in value, if any, along with any of the derivative's change in value that is excluded from the assessment of hedge effectiveness, are recorded in Other net realized capital gains (losses).

When hedge accounting is discontinued because it is determined that the derivative is no longer expected to be highly effective in offsetting changes in the estimated fair value or cash flows of a hedged item, the derivative continues to be carried on the Consolidated Balance Sheets at its estimated fair value, with subsequent changes in estimated fair value recognized immediately in Other net realized capital gains (losses). The carrying value of the hedged asset or liability under a fair value hedge is no longer adjusted for changes in its estimated fair value due to the hedged risk and the cumulative adjustment to its carrying value is amortized into income over the remaining life of the hedged item. Provided the hedged forecasted transaction is still probable of occurrence, the changes in estimated fair value of derivatives recorded in Other comprehensive income (loss) related to discontinued cash flow hedges are released into the Consolidated Statements of Operations when the Company's earnings are affected by the variability in cash flows of the hedged item.

When hedge accounting is discontinued because it is no longer probable that the forecasted transactions will occur on the anticipated date or within two months of that date, the derivative continues to be carried on the Consolidated Balance Sheets at its estimated fair value, with changes in estimated fair value recognized currently in Other net realized capital gains (losses). Derivative gains and losses recorded in Other comprehensive income (loss) pursuant to the discontinued cash flow hedge of a forecasted transaction that is no longer probable are recognized immediately in Other net realized capital gains (losses).

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

If the Company's current debt and claims paying ratings were downgraded in the future, the terms in the Company's derivative agreements may be triggered, which could negatively impact overall liquidity. For the majority of the Company's counterparties, there is a termination event should the Company's long-term debt ratings drop below BBB+/Baa1.

The Company also has investments in certain fixed maturities and has issued certain annuity products that contain embedded derivatives whose fair value is at least partially determined by levels of or changes in domestic and/or foreign interest rates (short-term or long-term), exchange rates, prepayment rates, equity markets, or credit ratings/spreads. Embedded derivatives within fixed maturities are included with the host contract on the Consolidated Balance Sheets and changes in fair value of the embedded derivatives are recorded in Other net realized capital gains (losses) in the Consolidated Statements of Operations. Embedded derivatives within certain annuity products are included in Future policy benefits and contract owner account balances on the Consolidated Balance Sheets and changes in the fair value of the embedded derivatives are recorded in Other net realized capital gains (losses) in the Consolidated Statements of Operations.

*Cash and Cash Equivalents*

Cash and cash equivalents include cash on hand, amounts due from banks and other highly liquid investments, such as money market instruments and debt instruments with maturities of three months or less at the time of purchase. Cash and cash equivalents are stated at fair value.

*Property and Equipment*

Property and equipment are carried at cost, less accumulated depreciation and included in Other assets on the Consolidated Balance Sheets. Expenditures for replacements and major improvements are capitalized; maintenance and repair expenditures are expensed as incurred. Depreciation on property and equipment is provided on a straight-line basis over the estimated useful lives of the assets with the exception of land and artwork, which are not depreciated.

The Company's property and equipment are depreciated using the following estimated useful lives.

	<b>Estimated Useful Lives</b>
Buildings	40 years
Furniture and fixtures	5 years
Leasehold improvements	10 years, or the life of the lease, whichever is shorter
Equipment	3 years

*Deferred Policy Acquisition Costs and Value of Business Acquired*

DAC represents policy acquisition costs that have been capitalized and are subject to amortization and interest. Capitalized costs are incremental, direct costs of contract acquisition, as well as certain costs related directly to successful acquisition activities. Such costs consist principally of certain commissions, underwriting, sales and contract issuance and processing expenses directly related to the successful acquisition of new and renewal business. Indirect or unsuccessful acquisition costs, maintenance, product development and overhead expenses are charged to expense as incurred. VOBA represents the outstanding value of in force business acquired and is subject to amortization and interest. The value is based on the present value of estimated net cash flows embedded in the insurance contracts at the time of the acquisition and increased for subsequent deferrable expenses on purchased policies.

Amortization Methodologies

Generally, the Company amortizes DAC and VOBA related to fixed and variable deferred annuity contracts over the estimated lives of the contracts in relation to the emergence of estimated gross profits. Assumptions as to mortality, persistency, interest crediting rates, returns associated with separate account performance, impact of hedge performance, expenses to administer the business and certain economic variables, such as inflation, are based on the Company's experience and overall capital markets. At each valuation date, estimated gross profits are updated with actual gross profits and the assumptions underlying future estimated gross profits are evaluated for continued reasonableness. Adjustments to estimated gross profits require that amortization rates be revised retroactively to the date of the contract issuance ("unlocking").

The Company also reviews the estimated gross profits for each block of business to determine the recoverability of DAC and VOBA balances each period. DAC and VOBA are deemed to be recoverable if the estimated gross profits exceed these DAC and VOBA balances and the present value of future deferrable acquisition costs.

#### Assumptions

Changes in assumptions can have a significant impact on DAC and VOBA balances and amortization rates.

Several assumptions are considered significant in the estimation of future gross profits associated with the Company's variable products. One significant assumption is the assumed return associated with the variable account performance. To reflect the volatility in the equity markets, this assumption involves a combination of near-term expectations and long-term assumptions regarding market performance. The overall return on the variable account is dependent on multiple factors, including the relative mix of the underlying sub-accounts among bond funds and equity funds, as well as equity sector weightings. The Company practice assumes that intermediate-term appreciation in equity markets reverts to the long-term appreciation in equity markets ("reversion to the mean"). The Company monitors market events and only changes the assumption when sustained deviations are expected. This methodology incorporates a 9% long-term equity return assumption, a 14% cap and a five-year lookforward period. The reversion to the mean methodology was implemented prospectively on January 1, 2011.

Prior to January 1, 2011, the Company utilized a static long-term equity return assumption for projecting account balance growth in all future years. This return assumption was reviewed annually or more frequently, if deemed necessary. Actual returns that were higher than long-term expectations produced higher contract owner account balances, which increased future fee expectations resulting in higher expected gross profits. The opposite result occurred when returns were lower than long-term expectations.

Other significant assumptions include estimated policyholder behavior assumptions, such as surrender, lapse and annuitization rates. Estimated gross profits of variable annuity contracts are sensitive to these assumptions.

Contract owners may periodically exchange one contract for another, or make modifications to an existing contract. These transactions are identified as internal replacements. Internal replacements that are determined to result in substantially unchanged contracts are accounted for as continuations of the replaced contracts. Any costs associated with the issuance of the new contracts are considered maintenance costs and expensed as incurred. Unamortized DAC and VOBA related to the replaced contracts continue to be deferred and amortized in connection with the new contracts. Internal replacements that are determined to result in contracts that are substantially changed are accounted for as extinguishments of the replaced contracts and any unamortized DAC and VOBA related to the replaced contracts are written off to Net amortization of deferred policy acquisition costs and value of business acquired in the Consolidated Statements of Operations.

#### *Future Policy Benefits and Contract Owner Accounts*

##### Future Policy Benefits

The Company establishes and carries actuarially-determined reserves that are calculated to meet its future obligations. The principal assumptions used to establish liabilities for future policy benefits are based upon Company experience and periodically reviewed against industry standards. These assumptions include mortality, morbidity, policy lapse, contract renewal, payment of subsequent premiums or deposits by the contract owner, retirement, investment returns, benefit utilization, inflation and expenses. Changes in, or deviations from, the assumptions used can significantly affect the Company's reserve levels and related results of operations.

Reserves for payout contracts with life contingencies are equal to the present value of expected future payments. Assumptions as to interest rates, mortality, and expenses are based upon the Company's experience at the period the policy is sold or acquired, including a provision for adverse deviation. Such assumptions generally vary by annuity plan type, year of issue, and policy duration. Interest rates used to calculate the present value of future benefits ranged from 3.0% to 8.0%.

Although assumptions are "locked-in" upon the issuance of payout contracts with life contingencies, significant changes in experience or assumptions may require the Company to provide for expected future losses on a product by establishing premium deficiency reserves. Premium deficiency reserves are determined based on best estimate assumptions that exist at the time the premium deficiency reserve is established and do not include a provision for adverse deviation.

**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

Contract Owner Account Balances

Contract owner account balances relate to investment-type contracts.

Account balances for fixed annuities and payout contracts without life contingencies are equal to cumulative deposits, less charges and withdrawals, plus credited interest thereon. Credited interest rates vary by product and ranged up to 6.5% for the years 2012, 2011 and 2010. Account balances for group immediate annuities without life contingent payouts are equal to the discounted value of the payment at the implied break-even rate.

Guarantees

The Company records reserves for product guarantees, which can be either assets or liabilities, for contracts containing guaranteed credited rates. The guarantee is treated as an embedded derivative or a stand-alone derivative (depending on the underlying product) and is reported at fair value.

Reserves for guaranteed minimum death benefits ("GMDB") on certain variable annuities are determined by estimating the value of expected benefits in excess of the projected account balance and recognizing the excess ratably over the accumulation period based on total expected assessments. Expected experience is based on a range of scenarios. Assumptions used, such as the long-term equity market return, lapse rate and mortality, are consistent with assumptions used in estimating gross profits for purposes of amortizing DAC. The assumptions of investment performance and volatility are consistent with the historical experience of the appropriate underlying equity index, such as the Standard & Poor's ("S&P") 500 Index. The Company periodically evaluates estimates used and adjusts the additional liability balance, with a related charge or credit to benefit expense, if actual experience or other evidence suggests that earlier assumptions should be revised.

Products with guaranteed credited rates treat the guarantee as an embedded derivative for Stabilizer products and a stand-alone derivative for Managed custody guarantee ("MCG") products. These derivatives are measured at estimated fair value and recorded in Future policy benefits and contract owner account balances on the Consolidated Balance Sheets. Changes in estimated fair value along with attributed fees collected are reported in Other net realized capital gains (losses) in the Consolidated Statements of Operations.

The estimated fair value of the Stabilizer and MCG contracts is determined based on the present value of projected future claims, minus the present value of future guaranteed premiums. At inception of the contract the Company projects a guaranteed premium to be equal to the present value of the projected future claims. The income associated with the contracts is projected using actuarial and capital market assumptions, including benefits and related contract charges, over the anticipated life of the related contracts. The cash flow estimates are projected under multiple capital market scenarios using observable risk-free rates and other best estimate assumptions.

The Stabilizer embedded derivative liabilities and the stand-alone derivative for MCG include a risk margin to capture uncertainties related to policyholder behavior assumptions. The margin represents additional compensation a market participant would require to assume these risks.

The Company incorporates nonperformance risk in the calculation of the fair value of these guarantees.

*Separate Accounts*

Separate account assets and liabilities generally represent funds maintained to meet specific investment objectives of contract owners or participants who bear the investment risk, subject, in limited cases, to minimum guaranteed rates. Investment income and investment gains and losses generally accrue directly to such contract owners. The assets of each account are legally segregated and are not subject to claims that arise out of any other business of the Company or its affiliates.

Separate account assets supporting variable options under variable annuity contracts are invested, as designated by the contract owner or participant under a contract, in shares of mutual funds that are managed by the Company or its affiliates, or in other selected mutual funds not managed by the Company or its affiliates.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

The Company reports separately, as assets and liabilities, investments held in the separate accounts and liabilities of separate accounts if:

- Such separate accounts are legally recognized;
- Assets supporting the contract liabilities are legally insulated from the Company's general account liabilities;
- Investments are directed by the contract owner or participant; and
- All investment performance, net of contract fees and assessments, is passed through to the contract owner.

The Company reports separate account assets that meet the above criteria at fair value on the Consolidated Balance Sheets based on the fair value of the underlying investments. Separate account liabilities equal separate account assets. Investment income and net realized and unrealized capital gains (losses) of the separate accounts, however, are not reflected in the Consolidated Statements of Operations. The Consolidated Statements of Cash Flows do not reflect investment activity of the separate accounts.

*Long-term Debt*

Short-term and long-term debt are carried at an amount equal to the unpaid principal balance, net of any remaining unamortized discount or premium attributable to issuance. Direct and incremental costs to issue the debt are recorded in Other assets on the Consolidated Balance Sheets and are recognized as a component of Interest expense in the Consolidated Statements of Operations over the life of the debt, using the effective interest method of amortization.

*Repurchase Agreements*

The Company engages in dollar repurchase agreements with MBS ("dollar rolls") and repurchase agreements with other collateral types to increase its return on investments and improve liquidity. Such arrangements meet the requirements to be accounted for as financing arrangements.

The Company enters into dollar roll transactions by selling existing MBS and concurrently entering into an agreement to repurchase similar securities within a short time frame at a lower price. Under repurchase agreements, the Company borrows cash from a counterparty at an agreed upon interest rate for an agreed upon time frame and pledges collateral in the form of securities. At the end of the agreement, the counterparty returns the collateral to the Company and the Company, in turn, repays the loan amount along with the additional agreed upon interest.

Company policy requires that at all times during the term of the dollar roll and repurchase agreements that cash or other collateral types obtained is sufficient to allow the Company to fund substantially all of the cost of purchasing replacement assets. Cash received is invested in Short-term investments, with the offsetting obligation to repay the loan included as an Other liability on the Consolidated Balance Sheets. The carrying value of the securities pledged in dollar rolls and repurchase agreement transactions and the related repurchase obligation are included in Securities pledged and Short-term debt, respectively, on the Consolidated Balance Sheets.

The primary risk associated with short-term collateralized borrowings is that the counterparty will be unable to perform under the terms of the contract. The Company's exposure is limited to the excess of the net replacement cost of the securities over the value of the short-term investments. The Company believes the counterparties to the dollar rolls and repurchase agreements are financially responsible and that the counterparty risk is minimal.

*Recognition of Insurance Revenue and Related Benefits*

Premiums related to payouts contracts with life contingencies are recognized in Premiums in the Consolidated Statements of Operations when due from the contract owners. When premiums are due over a significantly shorter period than the period over which benefits are provided, any gross premium in excess of the net premium (i.e., the portion of the gross premium required to provide for all expected future benefits and expenses) is deferred and recognized into revenue in a constant relationship to insurance in force. Benefits are recorded in Interest credited and other benefits to contract owners in the Consolidated Statements of Operations when incurred.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

Revenues from investment-type and payout contracts without life contingencies, and FIA consist primarily of fees assessed against the contract owner account balance for mortality and policy administration and are reported in Fee income. In addition, the Company earns investment income from the investment of contract deposits in the Company's general account portfolio which is reported in Net investment income in the Consolidated Statements of Operations. Fees assessed that represent compensation to the Company for services to be provided in future periods and certain other fees are deferred and amortized into revenue over the expected life of the related contracts in proportion to estimated gross profits, in a manner consistent with DAC for these contracts. Benefits and expenses for these products include claims in excess of related account balances, expenses of contract administration and interest credited to contract owner account balances.

*Income Taxes*

The Company uses certain assumptions and estimates in determining the income taxes payable or refundable to/from the Parent for the current year, the deferred income tax liabilities and assets for items recognized differently in its financial statements from amounts shown on its income tax returns and the federal income tax expense. Determining these amounts requires analysis and interpretation of current tax laws and regulations, including the loss limitation rules associated with change in control. Management exercises considerable judgment in evaluating the amount and timing of recognition of the resulting income tax liabilities and assets. These judgments and estimates are reevaluated on a continual basis as regulatory and business factors change.

The Company's deferred tax assets and liabilities resulting from temporary differences between financial reporting and tax bases of assets and liabilities are measured at the balance sheet date using enacted tax rates expected to apply to taxable income in the years the temporary differences are expected to reverse.

Deferred tax assets represent the tax benefit of future deductible temporary differences and operating loss and tax credit carryforwards. The Company evaluates and tests the recoverability of its deferred tax assets. Deferred tax assets are reduced by a valuation allowance if, based on the weight of evidence, it is more likely than not that some portion, or all, of the deferred tax assets will not be realized. Considerable judgment and the use of estimates are required in determining whether a valuation allowance is necessary and if so, the amount of such valuation allowance. In evaluating the need for a valuation allowance, the Company considers many factors, including:

- The nature and character of the deferred tax assets and liabilities;
- Taxable income in prior carryback years;
- Projected future income, exclusive of reversing temporary differences and carryforwards;
- Projected future reversals of existing temporary differences;
- The length of time carryforwards can be utilized;
- Any prudent and feasible tax planning strategies the Company would employ to avoid a tax benefit from expiring unused;
- The nature, frequency and severity of cumulative U.S. GAAP losses in recent years; and
- Any tax rules that would impact the utilization of the deferred tax assets.

In establishing unrecognized tax benefits, the Company determines whether a tax position is more likely than not to be sustained under examination by the appropriate taxing authority. The Company also considers positions that have been reviewed and agreed to as part of an examination by the appropriate taxing authority. Tax positions that do not meet the more likely than not standard are not recognized. Tax positions that meet this standard are recognized in the Consolidated Financial Statements. The Company measures the tax position as the largest amount of benefit that is greater than 50% likely of being realized upon ultimate resolution with the tax authority that has full knowledge of all relevant information.

*Reinsurance*

The Company utilizes reinsurance agreements in most aspects of its insurance business to reduce its exposure to large losses from GMDBs. Such reinsurance permits recovery of a portion of losses from reinsurers, although it does not discharge the primary liability of the Company as direct insurer of the risks reinsured.

For each of its reinsurance agreements, the Company determines whether the agreement provides indemnification against loss or liability relating to insurance risk. The Company reviews all contractual features, particularly those that may limit the amount of insurance risk to which the reinsurer is subject or features that delay the timely reimbursement of claims.

For reinsurance of long-duration contracts that transfer significant insurance risk, the difference, if any, between the amounts paid and benefits received related to the underlying contracts is included in the expected net cost of reinsurance which is recorded as a component of the reinsurance asset or liability. Any difference between actual and expected net cost of reinsurance is recognized in the current period and included as a component of profits used to amortize DAC.

The Company has a significant concentration of reinsurance arising from the disposition of its individual life insurance business. In 1998, the Company entered into an indemnity reinsurance agreement with certain subsidiaries of Lincoln National Corporation ("Lincoln"). Effective March 1, 2007, the reinsurance agreements were assigned to a single subsidiary of Lincoln, and that subsidiary established a trust to secure its obligations to the Company under the reinsurance transaction. Of the Reinsurance recoverable on the Consolidated Balance Sheets, \$2.1 billion and \$2.2 billion as of December 31, 2012 and 2011, respectively, equal the Company's total individual life reserves and are related to the reinsurance recoverable from the subsidiary of Lincoln under this reinsurance agreement. Individual life reserves are included in Future policy benefits and contract owner account balances on the Consolidated Balance Sheets.

The Company utilizes a reinsurance agreement to manage reserve and capital requirements in connection with a portion of its deferred annuities business. This agreement is accounted for under the deposit method.

Accounting for reinsurance requires extensive use of assumptions and estimates, particularly related to the future performance of the underlying business and the potential impact of counterparty credit risks. The Company periodically reviews actual and anticipated experience compared to the assumptions used to establish assets and liabilities relating to ceded and assumed reinsurance. The Company also evaluates the financial strength of potential reinsurers and continually monitors the financial condition of reinsurers. Only those reinsurance recoverable balances deemed probable of recovery are reflected as assets on the Consolidated Balance Sheets and are stated net of allowances for uncollectible reinsurance. Amounts currently recoverable under reinsurance agreements are included in Reinsurance recoverable and amounts currently payable are included in Other liabilities. Such assets and liabilities relating to reinsurance agreements with the same reinsurer are recorded net on the Balance Sheets if a right of offset exists within the reinsurance agreement.

Premiums, Fee income and Policyholder benefits are reported net of reinsurance ceded. Amounts received from reinsurers for policy administration are reported in Other revenue.

#### *Contingencies*

A loss contingency is an existing condition, situation, or set of circumstances involving uncertainty as to possible loss that will ultimately be resolved when one or more future events occur or fail to occur. Examples of loss contingencies include pending or threatened adverse litigation, threat of expropriation of assets and actual or possible claims and assessments. Amounts related to loss contingencies are accrued and recorded in Other liabilities on the Consolidated Balance Sheets if it is probable that a loss has been incurred and the amount can be reasonably estimated, based on the Company's best estimate of the ultimate outcome. If determined to meet the criteria for a reserve, the Company also evaluates whether there are external legal or other costs directly associated with the resolution of the matter and accrues such costs if estimable.

#### *Adoption of New Pronouncements*

##### *Financial Instruments*

##### Reconsideration of Effective Control for Repurchase Agreements

In April 2011, the Financial Accounting Standards Board ("FASB") issued ASU 2011-03, "Transfers and Servicing (ASC Topic 860): Reconsideration of Effective Control for Repurchase Agreements" ("ASU 2011-03"), which removes from the assessment of effective control (1) the criterion requiring the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed terms and (2) the collateral maintenance implementation guidance related to that criterion.

The provisions of ASU 2011-03 were adopted by the Company on January 1, 2012. The Company determined that there was no effect on the Company's financial condition, results of operations, or cash flows, as the guidance is consistent with that previously applied by the Company.

A Creditor's Determination of Whether a Restructuring is a Troubled Debt Restructuring

In April 2011, the FASB issued Accounting Standards Update ("ASU") 2011-02, "Receivables (Accounting Standards Codification<sup>TM</sup> ("ASC") Topic 310): A Creditor's Determination of Whether a Restructuring is a Troubled Debt Restructuring" ("ASU 2011-02"), which clarifies the guidance on a creditor's evaluation of whether it has granted a concession and whether the debtor is experiencing financial difficulties, as follows:

- If a debtor does not have access to funds at a market rate for similar debt, the restructuring would be considered to be at a below-market rate;
- An increase in the contractual interest rate does not preclude the restructuring from being considered a concession, as the new rate could still be below the market interest rate;
- A restructuring that results in a delay in payment that is insignificant is not a concession;
- A creditor should evaluate whether it is probable that the debtor would be in payment default on any of its debt without the modification to determine if the debtor is experiencing financial difficulties; and
- A creditor is precluded from using the effective interest rate test.

Also, ASU 2011-02 requires disclosure of certain information about troubled debt restructuring, which was previously deferred by ASU 2011-01, "Deferral of the Effective Date of Disclosures about Troubled Debt Restructurings in Update No. 2010-20" ("ASU 2011-01").

The provisions of ASU 2011-02 were adopted by the Company on July 1, 2011, and applied retrospectively to January 1, 2011. The Company determined, however, that there was no effect on the Company's financial position, results of operations or cash flows upon adoption, as there were no troubled debt restructurings between January 1, 2011 and July 1, 2011. The disclosures required by ASU 2011-02 are included in the Investments note to these Consolidated Financial Statements.

Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses

In July 2010, the FASB issued ASU 2010-20, "Receivables (ASC Topic 310): Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses" ("ASU 2010-20"), which requires certain existing disclosures to be disaggregated by class of financing receivable, including the rollforward of the allowance for credit losses, with the ending balance further disaggregated on the basis of impairment method. For each disaggregated ending balance, an entity also is required to disclose the related recorded investment in financing receivables, the nonaccrual status of financing receivables and impaired financing receivables.

ASU 2010-20 also requires new disclosures by class of financing receivable, including credit quality indicators, aging of past due amounts, the nature and extent of troubled debt restructurings and related defaults and significant purchases and sales of financing receivables disaggregated by portfolio segment.

In January 2011, the FASB issued ASU 2011-01, which temporarily delayed the effective date of the disclosures about troubled debt restructurings in ASU 2010-20.

The provisions of ASU 2010-20 were adopted by the Company on December 31, 2010, and are included in the Investments note to these Consolidated Financial Statements, as well as the "Reinsurance" section above, except for the disclosures about troubled debt restructurings included in ASU 2011-02, that were adopted by the Company on July 1, 2011, (see above). The disclosures that include information for activity that occurs during a reporting period were adopted by the Company on January 1, 2011, and are included in the Investments note to these Consolidated Financial Statements. As this pronouncement only pertains to additional disclosure, the adoption had no effect on the Company's financial condition, results of operations, or cash flows.

Scope Exception Related to Embedded Credit Derivatives

In March 2010, the FASB issued ASU 2010-11, "Derivatives and Hedging (ASC Topic 815): Scope Exception Related to Embedded Credit Derivatives" ("ASU 2010-11"), which clarifies that the only type of embedded credit derivatives that are exempt from bifurcation requirements are those that relate to the subordination of one financial instrument to another.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

The provisions of ASU 2010-11 were adopted by the Company on July 1, 2010. The Company determined, however, that there was no effect on the Company's financial condition, results of operations, or cash flows upon adoption, as the guidance is consistent with that previously applied by the Company.

*Consolidation and Business Combinations*

Consolidation Analysis of Investments Held through Separate Accounts

In April 2010, the FASB issued ASU 2010-15, "Financial Services-Insurance (ASC Topic 944): How Investments Held through Separate Accounts Affect an Insurer's Consolidation Analysis of Those Investments" ("ASU 2010-15"), which clarifies that an insurance entity generally should not consider any separate account interests in an investment held for the benefit of policy holders to be the insurer's interests, and should not combine those separate account interests with its general account interest in the same investment when assessing the investment for consolidation.

The provisions of ASU 2010-15 were adopted by the Company on January 1, 2011; however, the Company determined that there was no effect on its financial condition, results of operations or cash flows upon adoption, as the guidance is consistent with that previously applied by the Company.

Improvements to Financial Reporting by Enterprises Involved in Variable Interest Entities

In December 2009, the FASB issued ASU 2009-17, "Consolidations (ASC Topic 810): Improvements to Financial Reporting by Enterprises Involved in Variable Interest Entities" ("ASU 2009-17"), which amends the consolidation guidance for VIEs, as follows:

- Eliminates the quantitative-based assessment for consolidation of VIEs and, instead, requires a qualitative assessment of whether an entity has the power to direct the VIEs activities and whether the entity has the obligation to absorb losses or the right to receive benefits that could be significant to the VIE;
- Requires an ongoing reassessment of whether an entity is the primary beneficiary of a VIE; and
- Requires enhanced disclosures, including (i) presentation on the balance sheet of assets and liabilities of consolidated VIEs that meet the separate presentation criteria and disclosure of assets and liabilities recognized on the balance sheet and (ii) the maximum exposure to loss for those VIEs in which a reporting entity is determined to not be the primary beneficiary but in which it has a variable interest.

In addition, in February 2010, the FASB issued ASU 2010-10, "Consolidations (ASC Topic 810): Amendments for Certain Investment Funds" ("ASU 2010-10"), which defers to ASU 2009-17 for a reporting entity's interests in certain investment funds that have attributes of investment companies, for which the reporting entity does not have an obligation to fund losses and that are not structured as securitization entities. The Company has determined that all of its managed funds, with the exception of certain CLOs, qualify for the deferral.

The provisions of ASU 2009-17 and ASU 2010-10 were adopted, prospectively, by the Company on January 1, 2010. The Company determined, however, that there was no effect on the Company's financial condition, results of operations, or cash flows upon adoption, as the consolidation conclusions were consistent with those under previous U.S. GAAP. The disclosure provisions required by ASU 2009-17 are presented in the Financial Instruments note to these Financial Statements.

*Fair Value*

Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS").

In May 2011, the FASB issued ASU 2011-04, "Fair Value Measurement (ASC Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS" ("ASU 2011-04"), which includes the following amendments:

- The concepts of highest and best use and valuation premise are relevant only when measuring the fair value of nonfinancial assets;
- The requirements for measuring the fair value of equity instruments are consistent with those for measuring liabilities;
- An entity is permitted to measure the fair value of financial instruments managed within a portfolio at the price that would be received to sell or transfer a net position for a particular risk; and

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

- 
- The application of premiums and discounts in a fair value measurement is related to the unit of account for the asset or liability.

ASU 2011-04 also requires additional disclosures, including use of a nonfinancial asset in a way that differs from its highest and best use, categorization by level for items in which fair value is required to be disclosed and further information regarding Level 3 fair value measurements.

The provisions of ASU 2011-04 were adopted, prospectively, by the Company on January 1, 2012. The adoption had no effect on the Company's financial condition, results of operations or cash flows as the pronouncement only pertains to additional disclosure. The disclosures required by ASU 2011-04 are included in the Fair Value Measurements note to these Consolidated Financial Statements.

Improving Disclosures about Fair Value Measurements

In January 2010, the FASB issued ASU 2010-06, "Fair Value Measurements and Disclosure (ASC Topic 820): Improving Disclosures about Fair Value Measurements" ("ASU 2010-06"), which requires several new disclosures, as well as clarification to existing disclosures, as follows:

- Significant transfers in and out of Level 1 and Level 2 fair value measurements and the reason for the transfers;
- Purchases, sales, issuances and settlement, in the Level 3 fair value measurements reconciliation on a gross basis;
- Fair value measurement disclosures for each class of assets and liabilities (i.e., disaggregated); and
- Valuation techniques and inputs for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3 fair value measurements.

The provisions of ASU 2010-06 were adopted by the Company on January 1, 2010, except for the disclosures related to the Level 3 reconciliation that were adopted by the Company on January 1, 2011. The adoption had no effect on the Company's financial condition, results of operations, or cash flows as the pronouncement only pertains to additional disclosure. The disclosures required by ASU 2010-06 are included in the Fair Value Measurements note to these Consolidated Financial Statements.

*Other Pronouncements*

Presentation of Comprehensive Income

In June 2011, the FASB issued ASU 2011-05, "Comprehensive Income (ASC Topic 220): Presentation of Comprehensive Income" ("ASU 2011-05"), which states that an entity has the option to present total comprehensive income and the components of net income and other comprehensive income either in a single, continuous statement of comprehensive income or in two separate, consecutive statements.

In December 2011, the FASB issued ASU 2011-12, which defers the ASU 2011-05 requirements to present, on the face of the financial statements, the effects of reclassification out of AOCI on the components of net income and other comprehensive income. The Company early adopted provisions of ASU 2011-05 and ASU 2010-12 on December 31, 2011, and applied the provisions retrospectively. The Consolidated Statement of Comprehensive Income, with corresponding revisions to the Consolidated Statements of Changes in Shareholder's Equity, is included in the Consolidated Financial Statements. In addition, the required disclosures are included in the Accumulated Other Comprehensive Income (Loss) note to these Consolidated Financial Statements.

***Future Adoption of Accounting Pronouncements***

Disclosures about Offsetting Assets and Liabilities

In December 2011, the FASB issued ASU 2011-11, "Balance Sheet (ASC Topic 210): Disclosures about Offsetting Assets and Liabilities" ("ASU 2011-11"), which requires an entity to disclose both gross and net information about instruments and transactions eligible for offset in the statement of financial position, as well as instruments and transactions subject to an agreement similar to a master netting arrangement. In addition, the standard requires disclosure of collateral received and posted in connection with master netting agreements or similar arrangements.

In January 2013, the FASB issued ASU 2013-01, "Balance Sheet (Topic 210): Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities" ("ASU 2013-01"), which clarifies that the scope of ASU 2011-11 applies to derivatives accounted for in

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

accordance with ASU Topic 815, Derivatives and Hedging, including bifurcated embedded derivatives, repurchase agreements and reverse repurchase agreements, and securities borrowing and securities lending transactions that are either offset in accordance with Section 210-20-45 or Section 815-10-45 or subject to an enforceable master netting arrangement or similar agreement.

The provisions of ASU 2013-01 and ASU 2011-11 are effective retrospectively for annual reporting periods beginning on or after January 1, 2013 and periods within those annual reporting periods. The Company will adopt the provisions of these ASUs in the first quarter of 2013 which will include additional disclosure of the gross and net information instruments deemed in scope, including any related collateral received or posted.

Disclosures about Amounts Reclassified out of AOCI

In January 2013, the FASB issued ASU 2013-02, "Comprehensive Income (ASC Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income" ("ASU 2013-02"), which requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under U.S. GAAP that provide additional detail about those amounts.

The provisions of ASU 2013-02 are effective prospectively for reporting periods beginning after December 15, 2012. The Company will adopt the provisions of ASU 2013-02 in the first quarter of 2013 to provide additional information about amounts reclassified out of accumulated other comprehensive income by component.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

**2. Investments**

*Fixed Maturities and Equity Securities*

Available-for-sale and fair value option ("FVO") fixed maturities and equity securities were as follows as of December 31, 2012:

	<b>Amortized Cost</b>	<b>Gross Unrealized Capital Gains</b>	<b>Gross Unrealized Capital Losses</b>	<b>Embedded Derivatives<sup>(2)</sup></b>	<b>Fair Value</b>	<b>OTTI<sup>(3)</sup></b>

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

The amortized cost and fair value of fixed maturities, including securities pledged, as of December 31, 2012, are shown below by contractual maturity. Actual maturities may differ from contractual maturities as securities may be restructured, called, or prepaid. Mortgage-backed securities ("MBS") and Other asset-backed securities ("ABS") are shown separately because they are not due at a single maturity date.

	<b>Amortized Cost</b>	<b>Fair Value</b>
Due to mature:		
One year or less	\$ 853.5	\$ 880.9
After one year through five years	3,953.8	4,249.9
After five years through ten years	5,700.3	6,339.8
After ten years	5,408.2	6,292.4
Mortgage-backed securities	2,819.1	3,196.6
Other asset-backed securities	475.7	495.6
Fixed maturities, including securities pledged	<u>\$ 19,210.6</u>	<u>\$ 21,455.2</u>

The investment portfolio is monitored to maintain a diversified portfolio on an ongoing basis. Credit risk is mitigated by monitoring concentrations by issuer, sector and geographic stratification and limiting exposure to any one issuer.

As of December 31, 2012, the Company did not have any investments in a single issuer, other than obligations of the U.S. government and government agencies with a carrying value in excess of 10% of the Company's consolidated Shareholder's equity. As of December 31, 2011, the Company did not have any investments in a single issuer, other than obligations of the U.S. government and government agencies and the Dutch State loan obligation, with a carrying value in excess of 10% of the Company's consolidated Shareholder's equity.

The following tables set forth the composition of the U.S. and foreign corporate securities within the fixed maturity portfolio by industry category as of December 31, 2012 and 2011:

	<b>Amortized Cost</b>	<b>Gross Unrealized Capital Gains</b>	<b>Gross Unrealized Capital Losses</b>	<b>Fair Value</b>
<b><u>2012</u></b>				
Communications	\$ 1,154.1	\$ 161.4	\$ 0.9	\$ 1,314.6
Financial	1,859.3	240.1	10.9	2,088.5
Industrial and other companies	7,883.1	850.9	6.9	8,727.1
Utilities	2,715.4	349.8	7.3	3,057.9
Transportation	396.1	46.5	0.4	442.2
Total	<u>\$ 14,008.0</u>	<u>\$ 1,648.7</u>	<u>\$ 26.4</u>	<u>\$ 15,630.3</u>
<b><u>2011</u></b>				
Communications	\$ 1,108.8	\$ 116.3	\$ 2.0	\$ 1,223.1
Financial	1,948.9	133.2	39.6	2,042.5
Industrial and other companies	6,577.6	559.0	20.7	7,115.9
Utilities	2,527.2	259.2	6.4	2,780.0
Transportation	356.9	31.9	0.8	388.0
Total	<u>\$ 12,519.4</u>	<u>\$ 1,099.6</u>	<u>\$ 69.5</u>	<u>\$ 13,549.5</u>

The Company invests in various categories of collateralized mortgage obligations ("CMOs"), including CMOs that are not agency-backed, that are subject to different degrees of risk from changes in interest rates and defaults. The principal risks inherent in holding CMOs are prepayment and extension risks related to significant decreases and increases in interest rates resulting in the prepayment of principal from the underlying mortgages, either earlier or later than originally anticipated. As of December 31,

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

2012 and 2011, approximately 41.8% and 41.1%, respectively, of the Company's CMO holdings, such as interest-only or principal-only strips, were invested in those types of CMOs which are subject to more prepayment and extension risk than traditional CMOs.

*Repurchase Agreements*

As described in the Business, Basis of Presentation and Significant Accounting Policy note, the Company engages in dollar repurchase agreements with mortgage-backed securities ("dollar rolls") and repurchase agreements with other collateral types to increase its return on investments and improve liquidity. Such arrangements meet the requirements to be accounted for as financing arrangements. As of December 31, 2012 and 2011, the Company did not have any securities pledged in dollar rolls and repurchase agreement transactions.

The Company also enters into reverse repurchase agreements. These transactions involve a purchase of securities and an agreement to sell substantially the same securities as those purchased. As of December 31, 2012 and 2011, the Company did not have any securities pledged under reverse repurchase agreements.

*Securities Lending*

As described in the Business, Basis of Presentation and Significant Accounting Policy note, the Company engages in securities lending whereby certain domestic securities from its portfolio are loaned to other institutions for short periods of time. As of December 31, 2012 and 2011, the fair value of loaned securities was \$180.2 and \$515.8, respectively and is included in Securities pledged on the Consolidated Balance Sheets. As of December 31, 2012 and 2011, collateral retained by the lending agent and invested in liquid assets on the Company's behalf was \$186.1 and \$524.8, respectively, and is recorded in Short-term investments under securities loan agreement, including collateral delivered. As of December 31, 2012 and 2011, liabilities to return collateral of \$186.1 and \$524.8, respectively, are included in Payables under securities loan agreement, including collateral held, on the Consolidated Balance Sheets.

*Variable Interest Entities ("VIEs")*

The Company holds certain VIEs for investment purposes. VIEs may be in the form of private placement securities, structured securities, securitization transactions, or limited partnerships. The Company has reviewed each of its holdings and determined that consolidation of these investments in the Company's financial statements is not required, as the Company is not the primary beneficiary, because the Company does not have both the power to direct the activities that most significantly impact the entity's economic performance and the obligation or right to potentially significant losses or benefits, for any of its investments in VIEs. The Company provided no non-contractual financial support and its carrying value represents the Company's exposure to loss. The carrying value of the equity tranches of the collateralized loan obligations ("CLOs") of \$1.3 and \$0.9 as of December 31, 2012 and 2011, respectively, is included in Limited partnerships/corporations on the Consolidated Balance Sheets. Income and losses recognized on these investments are reported in Net investment income in the Consolidated Statements of Operations.

On June 4, 2012, the Company entered into an agreement to sell certain general account private equity limited partnership investment interest holdings with a carrying value of \$331.9 as of March 31, 2012 to a group of private equity funds that are managed by Pomona Management LLC, an affiliate of the Company. The transaction resulted in a net pretax loss of \$38.7 in the second quarter of 2012 reported in Net investment income on the Consolidated Statements of Operations. The transaction closed in two tranches with the first tranche closed on June 29, 2012 and the second tranche closed on October 29, 2012. Consideration received included \$23.0 of promissory notes due in two equal installments at December 31, 2013 and 2014. In connection with these promissory notes, ING U.S., Inc. unconditionally guarantees payment of the notes in the event of any default of payments due. No additional loss was incurred on the second tranche since the fair value of the alternative investments was reduced to the agreed-upon sales price as of June 30, 2012.

*Securitizations*

The Company invests in various tranches of securitization entities, including Residential Mortgage-backed Securities ("RMBS"), Commercial Mortgage-backed Securities ("CMBS") and ABS. Through its investments, the Company is not obligated to provide any financial or other support to these entities. Each of the RMBS, CMBS and ABS entities are thinly capitalized by design and considered VIEs under ASC 810-10-25 as amended by ASU 2009-17. The Company's involvement with these entities is limited

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

to that of a passive investor. The Company has no unilateral right to appoint or remove the servicer, special servicer, or investment manager, which are generally viewed to have the power to direct the activities that most significantly impact the securitization entities' economic performance, in any of these entities, nor does the Company function in any of these roles. The Company through its investments or other arrangements does not have the obligation to absorb losses or the right to receive benefits from the entity that could potentially be significant to the entity. Therefore, the Company is not the primary beneficiary and does not consolidate any of the RMBS, CMBS and ABS entities in which it holds investments. These investments are accounted for as investments available-for-sale as described in the Business, Basis of Presentation and Significant Accounting Policies note to these Consolidated Financial Statements.

*Unrealized Capital Losses*

Unrealized capital losses (including noncredit impairments), along with the fair value of fixed maturity securities, including securities pledged, by market sector and duration were as follows as of December 31, 2012 and 2011:

	Six Months or Less Below Amortized Cost		More Than Six Months and Twelve Months or Less Below Amortized Cost		More Than Twelve Months Below Amortized Cost		Total	
	Fair Value	Unrealized Capital Losses	Fair Value	Unrealized Capital Losses	Fair Value	Unrealized Capital Losses	Fair Value	Unrealized Capital Losses
<b>2012</b>

All investments with fair values less than amortized cost are included in the Company's other-than-temporary impairments analysis and impairments were recognized as disclosed in the "Evaluating Securities for Other-Than-Temporary Impairments" section below. The Company evaluates non-agency RMBS and ABS for other-than-temporary impairments each quarter based on actual and projected cash flows after considering the quality and updated loan-to-value ratios of underlying collateral, forecasted loss severity, the payment priority within the tranche structure of the security and amount of any credit enhancements. The Company's assessment of current levels of cash flows compared to estimated cash flows at the time the securities were acquired indicates the amount and the pace of projected cash flows from the underlying collateral has generally been lower and slower, respectively. However, since cash flows are typically projected at a trust level, the impairment review incorporates the security's position within the trust structure as well as credit enhancement remaining in the trust to determine whether an impairment is warranted. Therefore,

---

while lower and slower cash flows will impact the trust, the effect on a particular security within the trust will be dependent upon the trust structure. Where the assessment continues to project full recovery of principal and interest on schedule, the Company has not recorded an impairment. Unrealized losses on below investment grade securities are principally related to RMBS (primarily Alt-A RMBS) and ABS (primarily subprime RMBS) largely due to economic and market uncertainties including concerns over unemployment levels, lower interest rate environment on floating rate securities requiring higher risk premiums since purchase and valuations of residential real estate supporting non-agency RMBS. Based on this analysis, the Company determined that the remaining investments in an unrealized loss position were not other-than-temporarily impaired and therefore no further other-than-temporary impairment was necessary.

#### *Fixed Maturity Securities Credit Quality - Ratings*

The Securities Valuation Office ("SVO") of the National Association of Insurance Commissioners ("NAIC") evaluates the fixed maturity securities investments of insurers for regulatory reporting and capital assessment purposes and assigns securities to one of six credit quality categories called "NAIC designations." An internally developed rating is used if no rating is available as permitted by the NAIC. These designations are generally similar to the credit quality designations of the NAIC acceptable rating organization ("ARO") for marketable fixed maturities, called "rating agency designations," except for certain structured securities as described below. NAIC designations of "1," highest quality and "2," high quality, include fixed maturity securities generally considered investment grade. NAIC designations "3" through "6" include fixed maturity securities generally considered below investment grade.

The NAIC designations for structured securities, including subprime and Alt-A RMBS, are based upon a comparison of the bond's amortized cost to the NAIC's loss expectation for each security. Securities where modeling results in no expected loss in all scenarios are considered to have the highest designation of NAIC 1. A large percentage of the Company's RMBS securities carry a NAIC 1 designation while the ARO rating indicates below investment grade. This is primarily due to the credit and intent impairments recorded by the Company which reduced the amortized cost on these securities to a level resulting in no expected loss in all scenarios, which corresponds to a NAIC 1 designation. The revised methodology reduces regulatory reliance on rating agencies and allows for greater regulatory input into the assumptions used to estimate expected losses from such structured securities. In the tables below, the Company presents the rating of structured securities based on ratings from the NAIC rating methodologies described above (which may not correspond to rating agency designations). All NAIC designations (e.g., NAIC 1-6) are based on the revised NAIC methodologies.

As a result of time lags between the funding of investments, the finalization of legal documents and the completion of the SVO filing process, the fixed maturity portfolio generally includes securities that have not yet been rated by the SVO as of each balance sheet date, such as private placements. Pending receipt of SVO ratings, the categorization of these securities by NAIC designation is based on the expected ratings indicated by internal analysis.

Information about certain of the Company's fixed maturity securities holdings, by NAIC designations is set forth in the following tables. Corresponding rating agency designation does not directly translate into NAIC designation, but represents the Company's best estimate of comparable ratings from rating agencies, including Moody's Investors Service ("Moody's"), Standard & Poor's ("S&P") and Fitch Ratings Ltd. ("Fitch"). If no rating is available from a rating agency, then an internally developed rating is used.

The fixed maturities in the Company's portfolio are generally rated by external rating agencies and, if not externally rated, are rated by the Company on a basis similar to that used by the rating agencies. Ratings are derived from three ARO ratings and are applied as follows based on the number of agency ratings received:

- when three ratings are received then the middle rating is applied;
- when two ratings are received then the lower rating is applied;
- when a single rating is received, the ARO rating is applied; and
- when ratings are unavailable then an internal rating is applied.

#### *Subprime and Alt-A Mortgage Exposure*

The Company does not originate or purchase subprime or Alt-A whole-loan mortgages. Subprime lending is the origination of loans to customers with weaker credit profiles. The Company defines Alt-A Loans to include the following: residential mortgage

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

loans to customers who have strong credit profiles but lack some elements, such as documentation to substantiate income; residential mortgage loans to borrowers that would otherwise be classified as prime but whose loan structure provides repayment options to the borrower that increase the risk of default; and any securities backed by residential mortgage collateral not clearly identifiable as prime or subprime.

The Company's exposure to subprime mortgage backed securities is primarily in the form of ABS structures collateralized by subprime residential mortgages and the majority of these holdings are included in Other ABS in the "Fixed Maturities and Equity Securities" section above. As of December 31, 2012, the fair value and gross unrealized losses related to the Company's exposure to subprime mortgage backed securities was \$61.2 and \$6.2, respectively, representing 0.3% of total fixed maturities, including securities pledged, based on fair value. As of December 31, 2011, the fair value and gross unrealized losses related to the Company's exposure to subprime mortgage backed securities were \$59.1 and \$21.7, respectively, representing 0.3% of total fixed maturities, including securities pledged, based on fair value.

The following tables summarize the Company's exposure to subprime mortgage-backed securities by credit quality using NAIC designations, ARO ratings and vintage year as of December 31, 2012 and 2011:

% of Total Subprime Mortgage-backed Securities					
NAIC Designation		ARO Ratings		Vintage	
<u>2012</u>					
1	67.8 %	AAA	3.2 %	2007	8.0 %

*Commercial Mortgage-backed and Other Asset-backed Securities*

As of December 31, 2012 and 2011, the fair value of the Company's CMBS totaled \$839.1 and \$911.3, respectively and Other ABS, excluding subprime exposure, totaled \$435.6 and \$381.0, respectively. As of December 31, 2012 and 2011, the gross unrealized losses related to CMBS totaled \$0.2 and \$5.8, respectively and gross unrealized losses related to Other ABS, excluding subprime exposure, totaled \$0.6 and \$0.7, respectively. CMBS investments represent pools of commercial mortgages that are broadly diversified across property types and geographical areas.

The following tables summarize the Company's exposure to CMBS holdings by credit quality using NAIC designations, ARO ratings and vintage year as of December 31, 2012 and 2011:

***Troubled Debt Restructuring***

The Company invests in high quality, well performing portfolios of commercial mortgage loans and private placements. Under certain circumstances, modifications are granted to these contracts. Each modification is evaluated as to whether a troubled debt restructuring has occurred. A modification is a troubled debt restructure when the borrower is in financial difficulty and the creditor makes concessions. Generally, the types of concessions may include reducing the face amount or maturity amount of the debt as originally stated, reducing the contractual interest rate, extending the maturity date at an interest rate lower than current market interest rates and/or reducing accrued interest. The Company considers the amount, timing and extent of the concession granted in determining any impairment or changes in the specific valuation allowance recorded in connection with the troubled debt restructuring. A valuation allowance may have been recorded prior to the quarter when the loan is modified in a troubled debt restructuring. Accordingly, the carrying value (net of the specific valuation allowance) before and after modification through a troubled debt restructuring may not change significantly, or may increase if the expected recovery is higher than the pre-modification recovery assessment. As of December 31, 2012, the Company did not have any troubled debt restructurings. For the year ended December 31, 2011, the Company had one private placement troubled debt restructuring with a pre-modification and post-modification carrying value of \$13.0 and \$12.9, respectively.

As of December 31, 2012 and 2011, the Company did not have any commercial mortgage loans or private placements modified in a troubled debt restructuring with a subsequent payment default.

*Mortgage Loans on Real Estate*

The Company's mortgage loans on real estate are all commercial mortgage loans, which are reported at amortized cost, less impairment write-downs and allowance for losses.

The Company diversifies its commercial mortgage loan portfolio by geographic region and property type to reduce concentration risk. The Company manages risk when originating commercial mortgage loans by generally lending only up to 75% of the estimated fair value of the underlying real estate. Subsequently, the Company continuously evaluates all mortgage loans based on relevant current information including an appraisal of loan-specific credit quality, property characteristics and market trends. Loan performance is monitored on a loan-specific basis through the review of submitted appraisals, operating statements, rent revenues and annual inspection reports, among other items. This review ensures properties are performing at a consistent and acceptable level to secure the debt.

The following table summarizes the Company's investment in mortgage loans as of December 31, 2012 and 2011:

	<b>2012</b>	<b>2011</b>
Commercial mortgage loans	\$ 2,874.0	\$ 2,374.8
Collective valuation allowance	(1.3 )	(1.3 )
Total net commercial mortgage loans	<u>\$ 2,872.7</u>	<u>\$ 2,373.5</u>

There were no impairments taken on the mortgage loan portfolio for the years ended December 31, 2012 and 2011.

The following table summarizes the activity in the allowance for losses for all commercial mortgage loans as of December 31, 2012 and 2011:

	<b>2012</b>	<b>2011</b>
Collective valuation allowance for losses, beginning of period	\$ 1.3	\$ 1.3
Addition to (reduction of) allowance for losses	—	—
Collective valuation allowance for losses, end of period	<u>\$ 1.3</u>	<u>\$ 1.3</u>

The carrying values and unpaid principal balances of impaired mortgage loans were as follows as of December 31, 2012 and 2011:

	<b>2012</b>	<b>2011</b>
Impaired loans with allowances for losses	\$ —	\$ —
Impaired loans without allowances for losses	5.6	5.8
Subtotal	5.6	5.8
Less: Allowances for losses on impaired loans	—	—
Impaired loans, net	<u>\$ 5.6</u>	<u>\$ 5.8</u>
Unpaid principal balance of impaired loans	<u>\$ 7.1</u>	<u>\$ 7.3</u>

The following table presents information on impaired loans as of December 31, 2012 and 2011:

	<b>2012</b>	<b>2011</b>
Impaired loans, average investment during the period	\$ 5.7	\$ 7.7

There were no mortgage loans in the Company's portfolio in process of foreclosure as of December 31, 2012 and 2011. There were no other loans in arrears with respect to principal and interest as of December 31, 2012 and 2011.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

The following table presents information on interest income recognized on impaired and restructured loans for the years ended December 31, 2012, 2011 and 2010:

	<b>2012</b>	<b>2011</b>	<b>2010</b>
Interest income recognized on impaired loans, on an accrual basis	\$ 0.4	\$ 0.6	\$ 0.9
Interest income recognized on impaired loans, on a cash basis	0.4	0.6	1.0

Loan-to-value ("LTV") and debt service coverage ("DSC") ratios are measures commonly used to assess the risk and quality of mortgage loans. The LTV ratio, calculated at time of origination, is expressed as a percentage of the amount of the loan relative to the value of the underlying property. A LTV ratio in excess of 100% indicates the unpaid loan amount exceeds the underlying collateral. The DSC ratio, based upon the most recently received financial statements, is expressed as a percentage of the amount of a property's net income to its debt service payments. A DSC ratio of less than 1.0 indicates that property's operations do not generate sufficient income to cover debt payments. These ratios are utilized as part of the review process described above.

The following table presents the LTV ratios as of December 31, 2012 and 2011:

	<b>2012<sup>(1)</sup></b>	<b>2011<sup>(1)</sup></b>
Loan-to-Value Ratio:		
0% - 50%	\$ 501.3	\$ 552.4

*Evaluating Securities for Other-Than-Temporary Impairments*

The Company performs a regular evaluation, on a security-by-security basis, of its available-for-sale securities holdings, including fixed maturity securities and equity securities in accordance with its impairment policy in order to evaluate whether such investments are other-than-temporarily impaired.

The following tables identify the Company's credit-related and intent-related impairments included in the Consolidated Statements of Operations, excluding impairments included in Other comprehensive income by type for the years ended December 31, 2012, 2011 and 2010:

	2012		2011		2010	
	Impairment	No. of Securities	Impairment	No. of Securities	Impairment	No. of Securities
U.S. Treasuries	\$ —	—	\$ —	—	\$ 1.7	1

<sup>(1)</sup> Primarily U.S. dollar denominated.

The Company may sell securities during the period in which fair value has declined below amortized cost for fixed maturities or cost for equity securities. In certain situations, new factors, including changes in the business environment, can change the

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

Company's previous intent to continue holding a security. Accordingly, these factors may lead the Company to record additional intent related capital losses.

The fair value of fixed maturities with OTTI as of December 31, 2012 and 2011 was \$1.2 billion and \$1.9 billion, respectively.

The following tables identify the amount of credit impairments on fixed maturities for which a portion of the OTTI loss was recognized in Other comprehensive income (loss) and the corresponding changes in such amounts for the years ended December 31, 2012, 2011 and 2010:

	<b>2012</b>	<b>2011</b>	<b>2010</b>
Balance at January 1	\$ 19.4	\$ 50.7	\$ 46.0
Additional credit impairments:			
On securities not previously impaired	1.5	0.9	12.0
On securities previously impaired	3.7	6.7	11.7
Reductions:			
Securities intent impaired	—	(8.7 )	(5.9 )
Securities sold, matured, prepaid or paid down	(4.6 )	(30.2 )	(13.1 )
Balance at December 31	<u>\$ 20.0</u>	<u>\$ 19.4</u>	<u>\$ 50.7</u>

*Net Investment Income*

The following table summarizes Net investment income for the years ended December 31, 2012, 2011 and 2010:

	<b>2012</b>	<b>2011</b>	<b>2010</b>
Fixed maturities	\$ 1,222.5	\$ 1,224.2	\$ 1,182.4
Equity securities, available-for-sale	7.5	13.6	15.3
Mortgage loans on real estate	143.5	118.1	104.0
Policy loans	13.2	13.7	13.3
Short-term investments and cash equivalents	1.4	0.8	0.8
Other	6.8	95.5	68.0
Gross investment income	<u>1,394.9</u>	<u>1,465.9</u>	<u>1,383.8</u>
Less: Investment expenses	<u>46.1</u>	<u>45.0</u>	<u>41.5</u>
Net investment income	<u>\$ 1,348.8</u>	<u>\$ 1,420.9</u>	<u>\$ 1,342.3</u>

As of December 31, 2012 and December 31, 2011, the Company did not have any investments in fixed maturities which produced no investment income. Fixed maturities are moved to a non-accrual status immediately when the investment defaults.

*Net Realized Capital Gains (Losses)*

Net realized capital gains (losses) are comprised of the difference between the amortized cost of investments and proceeds from sale and redemption, as well as losses incurred due to the credit-related and intent-related other-than-temporary impairment of investments. Realized investment gains and losses are also primarily generated from changes in fair value of embedded derivatives within product guarantees and fixed maturities, changes in fair value of fixed maturities recorded at FVO and changes in fair value including accruals on derivative instruments, except for effective cash flow hedges. The cost of the investments on disposal is generally determined based on first-in-first-out ("FIFO") methodology.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

Net realized capital gains (losses) were as follows for the years ended December 31, 2012, 2011 and 2010:

	<b>2012</b>	<b>2011</b>	<b>2010</b>
Fixed maturities, available-for-sale, including securities pledged	\$ 67.5	\$ 112.6	\$ 38.7
Fixed maturities, at fair value option	(124.2 )	(60.6 )	(39.2 )
Equity securities, available-for-sale	(0.2 )	7.4	4.1
Derivatives	1.3	(64.3 )	(44.6 )
Embedded derivative - fixed maturities	(5.5 )	4.9	8.0
Embedded derivative - product guarantees	120.4	(216.1 )	9.3
Other investments	—	0.3	4.9
Net realized capital gains (losses)	<u>\$ 59.3</u>	<u>\$ (215.8 )</u>	<u>\$ (18.8 )</u>
After-tax net realized capital gains (losses)	<u>\$ 38.5</u>	<u>\$ (53.3 )</u>	<u>\$ 1.5</u>

Proceeds from the sale of fixed maturities and equity securities, available-for-sale and the related gross realized gains and losses, before tax were as follows for the years ended December 31, 2012, 2011 and 2010:

	<b>2012</b>	<b>2011</b>	<b>2010</b>
Proceeds on sales	\$ 2,887.1	\$ 5,596.3	\$ 5,312.9
Gross gains	88.7	249.0	213.6
Gross losses	(12.7 )	(33.6 )	(27.8 )

### **3. Derivative Financial Instruments**

The Company enters into the following types of derivatives:

*Interest rate caps:* The Company uses interest rate cap contracts to hedge the interest rate exposure arising from duration mismatches between assets and liabilities. Interest rate caps are also used to hedge interest rate exposure if rates rise above a specified level. Such increases in rates will require the Company to incur additional expenses. The future payout from the interest rate caps fund this increased exposure. The Company pays an upfront premium to purchase these caps. The Company utilizes these contracts in non-qualifying hedging relationships.

*Interest rate swaps:* Interest rate swaps are used by the Company primarily to reduce market risks from changes in interest rates and to alter interest rate exposure arising from mismatches between assets and/or liabilities. Interest rate swaps are also used to hedge the interest rate risk associated with the value of assets it owns or in an anticipation of acquiring them. Using interest rate swaps, the Company agrees with another party to exchange, at specified intervals, the difference between fixed rate and floating rate interest payments, calculated by reference to an agreed upon notional principal amount. These transactions are entered into pursuant to master agreements that provide for a single net payment to be made to/from the counterparty at each due date. The Company utilizes these contracts in qualifying hedging relationships as well as non-qualifying hedging relationships.

*Foreign exchange swaps:* The Company uses foreign exchange or currency swaps to reduce the risk of change in the value, yield or cash flows associated with certain foreign denominated invested assets. Foreign exchange swaps represent contracts that require the exchange of foreign currency cash flows against U.S. dollar cash flows at regular periods, typically quarterly or semi-annually. The Company utilizes these contracts in non-qualifying hedging relationships.

*Credit default swaps:* Credit default swaps are used to reduce credit loss exposure with respect to certain assets that the Company owns, or to assume credit exposure on certain assets that the Company does not own. Payments are made to or received from the counterparty at specified intervals. In the event of a default on the underlying credit exposure, the Company will either receive a payment (purchased credit protection) or will be required to make a payment (sold credit protection) equal to the par minus recovery value of the swap contract. The Company utilizes these contracts in non-qualifying hedging relationships.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

*Forwards:* The Company uses forward contracts to hedge certain invested assets against movement in interest rates, particularly mortgage rates. The Company uses To Be Announced securities as an economic hedge against rate movements. The Company utilizes forward contracts in non-qualifying hedging relationships.

*Futures:* Futures contracts are used to hedge against a decrease in certain equity indices. Such decreases may result in a decrease in variable annuity account values which would increase the possibility of the Company incurring an expense for guaranteed benefits in excess of account values. The Company also uses futures contracts as a hedge against an increase in certain equity indices. Such increases may result in increased payments to the holders of the fixed index annuity contracts. The Company enters into exchange traded futures with regulated futures commissions that are members of the exchange. The Company also posts initial and variation margin with the exchange on a daily basis. The Company utilizes exchange-traded futures in non-qualifying hedging relationships.

*Swaptions:* A swaption is an option to enter into a swap with a forward starting effective date. The Company uses swaptions to hedge the interest rate exposure associated with the minimum crediting rate and book value guarantees embedded in the retirement products that the Company offers. Increases in interest rates will generate losses on assets that are backing such liabilities. In certain instances, the Company locks in the economic impact of existing purchased swaptions by entering into offsetting written swaptions. Swaptions are also used to hedge against an increase in the interest rate benchmarked crediting strategies within Fixed indexed annuities ("FIA") contracts. Such increases may result in increased payments to contract holders of FIA contracts and the interest rate swaptions offset this increased exposure. The Company pays a premium when it purchases the swaption. The Company utilizes these contracts in non-qualifying hedging relationships.

*Managed custody guarantees ("MCG"):* The Company issues certain credited rate guarantees on externally managed variable bond funds that represent stand-alone derivatives. The market value is partially determined by, among other things, levels of or changes in interest rates, prepayment rates and credit ratings/spreads.

*Embedded derivatives:* The Company also invests in certain fixed maturity instruments and has issued certain annuity products, that contain embedded derivatives whose market value is at least partially determined by, among other things, levels of or changes in domestic and/or foreign interest rates (short term or long-term), exchange rates, prepayment rates, equity rates, or credit ratings/spreads. Embedded derivatives within fixed maturities are reported with the host contract on the Consolidated Balance Sheets and changes in fair value are recorded in Other net realized capital gains (losses) in the Consolidated Statements of Operations. Embedded derivatives within annuity products are included in Future policy benefits and contract owner account balances on the Consolidated Balance Sheets and changes in the fair value of the embedded derivatives are recorded in Other net realized capital gains (losses) in the Consolidated Statements of Operations.

Changes in fair value upon disposal for effective cash flow hedges are recorded in Other net realized capital gains (losses) in the Consolidated Statements of Operations. For the years ended December 31, 2012, 2011 and 2010, ineffective amounts are deemed to be immaterial.

<sup>(2)</sup> Changes in value are included in Other net realized capital gains (losses) in the Consolidated Statements of Operations.

*Credit Default Swaps*

The Company has entered into various credit default swaps. When credit default swaps are sold, the Company assumes credit exposure to certain assets that it does not own. Credit default swaps may also be purchased to reduce credit exposure in the

---

Company's portfolio. Credit default swaps involve a transfer of credit risk from one party to another in exchange for periodic payments. These instruments are typically written for a maturity period of five years and do not contain recourse provisions, which would enable the seller to recover from third parties. The Company has International Swaps and Derivatives Association, Inc. ("ISDA") agreements with each counterparty with which it conducts business and tracks the collateral positions for each counterparty. To the extent cash collateral is received, it is included in Payables under securities loan agreements, including collateral held, on the Consolidated Balance Sheets and is reinvested in short-term investments. Collateral held is used in accordance with the Credit Support Annex ("CSA") to satisfy any obligations. Investment grade bonds owned by the Company are the source of noncash collateral posted, which is reported in Securities pledged on the Consolidated Balance Sheets. In the event of a default on the underlying credit exposure, the Company will either receive an additional payment (purchased credit protection) or will be required to make an additional payment (sold credit protection) equal to par value minus recovery value of the swap contract. As of December 31, 2012, the fair value of credit default swaps of \$3.6 were included in Derivatives assets and there were no credit default swaps included in Derivatives liabilities, on the Consolidated Balance Sheets. As of December 31, 2011, the fair value of credit default swaps of \$2.6 and \$21.2 were included in Derivatives assets and Derivatives liabilities, respectively, on the Consolidated Balance Sheets. As of December 31, 2012 and 2011, the maximum potential future exposure to the Company on the sale of credit default swaps was \$329.0 and \$518.3, respectively.

#### **4. Fair Value Measurements**

##### *Fair Value Measurement*

The Company categorizes its financial instruments into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument. Financial assets and liabilities recorded at fair value on the Consolidated Balance Sheets are categorized as follows:

- Level 1 - Unadjusted quoted prices for identical assets or liabilities in an active market. The Company defines an active market as a market in which transactions take place with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 - Quoted prices in markets that are not active or valuation techniques that require inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
  - a) Quoted prices for similar assets or liabilities in active markets;
  - b) Quoted prices for identical or similar assets or liabilities in non-active markets;
  - c) Inputs other than quoted market prices that are observable; and
  - d) Inputs that are derived principally from or corroborated by observable market data through correlation or other means.
- Level 3 - Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability.

When available, the estimated fair value of financial instruments is based on quoted prices in active markets that are readily and regularly obtainable. When quoted prices in active markets are not available, the determination of estimated fair value is based on market standard valuation methodologies, including discounted cash flow methodologies, matrix pricing, or other similar techniques.

*Valuation of Financial Assets and Liabilities at Fair Value*

Certain assets and liabilities are measured at estimated fair value on the Company's Consolidated Balance Sheets. The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The exit price and the transaction (or entry) price will be the same at initial recognition in many circumstances. However, in certain cases, the transaction price may not represent fair value. The fair value of a liability is based on the amount that would be paid to transfer a liability to a third-party with an equal credit standing. Fair value is required to be a market-based measurement which is determined based on a hypothetical transaction at the measurement date, from a market participant's perspective. The Company considers three broad valuation techniques when a quoted price is unavailable: (i) the market approach, (ii) the income approach and (iii) the cost approach. The Company determines the most appropriate valuation technique to use, given the instrument being measured and the availability of sufficient inputs. The Company prioritizes the inputs to fair valuation techniques and allows for the use of unobservable inputs to the extent that observable inputs are not available.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

The Company utilizes a number of valuation methodologies to determine the fair values of its financial assets and liabilities in conformity with the concepts of "exit price" and the fair value hierarchy as prescribed in ASC Topic 820. Valuations are obtained from third party commercial pricing services, brokers and industry-standard, vendor-provided software that models the value based on market observable inputs. The valuations obtained from third-party commercial pricing services are non-binding. The Company reviews the assumptions and inputs used by third-party commercial pricing services for each reporting period in order to determine an appropriate fair value hierarchy level. The documentation and analysis obtained from third-party commercial pricing services are reviewed by the Company, including in-depth validation procedures confirming the observability of inputs. The valuations are reviewed and validated monthly through the internal valuation committee price variance review, comparisons to internal pricing models, back testing to recent trades, or monitoring of trading volumes.

The following valuation methods and assumptions were used by the Company in estimating the reported values for the investments and derivatives described below:

*Fixed maturities:* The fair values for the actively traded marketable bonds are determined based upon the quoted market prices and are classified as Level 1 assets. Assets in this category would primarily include certain U.S. Treasury securities. The fair values for marketable bonds without an active market are obtained through several commercial pricing services which provide the estimated fair values and are classified as Level 2 assets. These services incorporate a variety of market observable information in their valuation techniques, including benchmark yields, broker-dealer quotes, credit quality, issuer spreads, bids, offers and other reference data. This category includes U.S. and foreign corporate bonds, ABS, U.S. agency and government guaranteed securities, CMBS and RMBS, including certain CMO assets.

Generally, the Company does not obtain more than one vendor price from pricing services per instrument. The Company uses a hierarchy process in which prices are obtained from a primary vendor and, if that vendor is unable to provide the price, the next vendor in the hierarchy is contacted until a price is obtained or it is determined that a price cannot be obtained from a commercial pricing service. When a price cannot be obtained from a commercial pricing service, independent broker quotes are solicited. Securities priced using independent broker quotes are classified as Level 3.

Broker quotes and prices obtained from pricing services are reviewed and validated through an internal valuation committee price variance review, comparisons to internal pricing models, back testing to recent trades, or monitoring of trading volumes. As of December 31, 2012, \$175.5 and \$16.7 billion of a total fair value of \$21.5 billion in fixed maturities, including securities pledged, were valued using unadjusted broker quotes and unadjusted prices obtained from pricing services, respectively and verified through the review process. The remaining balance in fixed maturities consisted primarily of privately placed bonds valued using a matrix-based pricing. As of December 31, 2011, \$194.9 and \$14.8 billion of a total of \$19.2 billion in fixed maturities, including securities pledged, were valued using unadjusted broker quotes and unadjusted prices obtained from pricing services, respectively, and verified through the review process. The remaining balance in fixed maturities consisted primarily of privately placed bonds valued using a matrix-based pricing model.

All prices and broker quotes obtained go through the review process described above including valuations for which only one broker quote is obtained. After review, for those instruments where the price is determined to be appropriate, the unadjusted price provided is used for financial statement valuation. If it is determined that the price is questionable, another price may be requested from a different vendor. The internal valuation committee then reviews all prices for the instrument again, along with information from the review, to determine which price best represents "exit price" for the instrument.

Fair values of privately placed bonds are determined primarily using a matrix-based pricing model and are generally classified as Level 2 assets. The model considers the current level of risk-free interest rates, current corporate spreads, the credit quality of the issuer and cash flow characteristics of the security. Also considered are factors such as the net worth of the borrower, the value of collateral, the capital structure of the borrower, the presence of guarantees and the Company's evaluation of the borrower's ability to compete in its relevant market. Using this data, the model generates estimated market values which the Company considers reflective of the fair value of each privately placed bond.

*Equity securities, available-for-sale:* Fair values of publicly traded equity securities are based upon quoted market price and are classified as Level 1 assets. Other equity securities, typically private equities or equity securities not traded on an exchange, are valued by other sources such as analytics or brokers and are classified as Level 2 or Level 3 assets.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

*Derivatives:* Derivatives are carried at fair value, which is determined using the Company's derivative accounting system in conjunction with observable key financial data from third party sources, such as yield curves, exchange rates, S&P 500 Index prices, London Interbank Offered Rates ("LIBOR") and Overnight Index Swap ("OIS") rates. In June 2012, the Company began using OIS rather than LIBOR for valuations of collateralized interest rate derivatives, which are obtained from third-party sources. For those derivatives that are unable to be valued by the accounting system, the Company typically utilizes values established by third-party brokers. Counterparty credit risk is considered and incorporated in the Company's valuation process through counterparty credit rating requirements and monitoring of overall exposure. It is the Company's policy to transact only with investment grade counterparties with a credit rating of A- or better. The Company's nonperformance risk is also considered and incorporated in the Company's valuation process. Valuations for the Company's futures and interest rate forward contracts are based on unadjusted quoted prices from an active exchange and, therefore, are classified as Level 1. The Company also has certain credit default swaps and options that are priced using models that primarily use market observable inputs, but contain inputs that are not observable to market participants, which have been classified as Level 3. However, all other derivative instruments are valued based on market observable inputs and are classified as Level 2.

The Company has entered into a number of options as hedges on its FIA liabilities. The maximum exposure is the current value of the option. The payoff of these contracts depends on market conditions during the lifetime of the option. The fair value measurement of options is highly sensitive to implied equity and interest rate volatility and the market reflects a considerable variance in broker quotes. The Company uses a third-party vendor to determine the market value of these options.

*Cash and cash equivalents, Short-term investments and Short-term investments under securities loan agreement:* The carrying amounts for cash reflect the assets' fair values. The fair value for cash equivalents and most short-term investments are determined based on quoted market prices. These assets are classified as Level 1. Other short-term investments are valued and classified in the fair value hierarchy consistent with the policies described herein, depending on investment type.

*Assets held in separate accounts:* Assets held in separate accounts are reported at the quoted fair values of the underlying investments in the separate accounts. The underlying investments include mutual funds, short-term investments and cash, the valuations of which are based upon a quoted market price and are included in Level 1. Fixed maturity valuations are obtained from third-party commercial pricing services and brokers and are classified in the fair value hierarchy consistent with the policy described above for fixed maturities.

*Product guarantees:* The Company records an embedded derivative liability for its FIA contracts for interest payments to contract holders above the minimum guaranteed interest rate. The guarantee is treated as an embedded derivative and is required to be accounted for separately from the host contract. The fair value of the obligation is calculated based on actuarial and capital market assumptions related to the projected cash flows, including benefits and related contract charges, over the anticipated life of the related contracts. The cash flow estimates are produced by market implied assumptions. These derivatives are classified as Level 3 liabilities in the fair value hierarchy.

The Company records reserves for Stabilizer and MCG contracts containing guaranteed credited rates in accordance with U.S. GAAP for derivative instruments and hedging activities. The guarantee is treated as an embedded derivative or a stand-alone derivative (depending on the underlying product) and is required to be reported at fair value. The estimated fair value is determined based on the present value of projected future claims, minus the present value of future guaranteed premiums. At inception of the contract, the Company projects a guaranteed premium to be equal to the present value of the projected future claims. The income associated with the contracts is projected using relevant actuarial and capital market assumptions, including benefits and related contract charges, over the anticipated life of the related contracts. The cash flow estimates are produced by using stochastic techniques under a variety of risk neutral scenarios and other market implied assumptions. These derivatives are classified as Level 3 liabilities.

The discount rate used to determine the fair value of the embedded derivatives and stand-alone derivative associated with the Company's product guarantees includes an adjustment to reflect the risk that these obligations will not be fulfilled ("nonperformance risk"). Through June 30, 2012, the Company's nonperformance risk adjustment was based on the credit default swap spreads of ING Insurance, the Company's indirect parent company, with similar term to maturity and priority of payment. The ING Insurance credit default spread was applied to the risk-free swap curve in the Company's valuation models for these product guarantees. As a result of the availability of ING U.S., Inc.'s market observable data following the issuance of its long-term debt on July 13, 2012, the Company changed its estimate of nonperformance risk to incorporate a blend of observable, similarly rated peer company

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

credit default swap spreads, adjusted to reflect the Company's own credit quality as well as an adjustment to reflect the priority of policyholder claims.

The Company's valuation actuaries are responsible for the policies and procedures for valuing the embedded derivatives, reflecting the capital markets and actuarial valuation inputs and nonperformance risk in the estimate of the fair value of the embedded derivatives. The actuarial and capital market assumptions for each liability are approved by each product's Chief Risk Officer ("CRO"), including an independent annual review by the U.S. CRO. Models used to value the embedded derivatives must comply with the Company's governance policies.

Quarterly, an attribution analysis is performed to quantify changes in fair value measurements and a sensitivity analysis is used to analyze the changes. The changes in fair value measurements are also compared to corresponding movements in the hedge target to assess the validity of the attributions. The results of the attribution analysis are reviewed by the valuation actuaries, responsible CFOs, Controllers, CROs and/or others as nominated by management.

*Transfers in and out of Level 1 and 2*

There were no securities transferred between Level 1 and Level 2 for the years ended December 31, 2012 and 2011. The Company's policy is to recognize transfers in and transfers out as of the beginning of the reporting period.

*Level 3 Financial Instruments*

The fair values of certain assets and liabilities are determined using prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement (i.e., Level 3 as defined by ASC Topic 820), including but not limited to liquidity spreads for investments within markets deemed not currently active. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability. In addition, the Company has determined, for certain financial instruments, an active market is such a significant input to determine fair value that the presence of an inactive market may lead to classification in Level 3. In light of the methodologies employed to obtain the fair values of financial assets and liabilities classified as Level 3, additional information is presented below.

**ING Life Insurance and Annuity Company and Subsidiaries**

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

The transfers in and out of Level 3 for fixed maturities, equity securities and separate accounts for the year ended December 31, 2012 were due to the variation in inputs relied upon for valuation each quarter. Securities that are primarily valued using independent broker quotes when prices are not available from one of the commercial pricing services are reflected as transfers into Level 3. When securities are valued using more widely available information, the securities are transferred out of Level 3 and into Level 1 or 2, as appropriate.

The transfers out of Level 3 for the year ended December 31, 2011 in fixed maturities, including securities pledged, were primarily due to the Company's determination that the market for subprime RMBS securities had become active in the first quarter 2011 and to an increased utilization of vendor valuations for certain CMO assets, as opposed to the previous use of broker quotes in the second quarter of 2011. While the valuation methodology for subprime RMBS securities has not changed, the Company has concluded that the frequency of transactions in the market for subprime RMBS securities represent regularly occurring market transactions and therefore are now classified as Level 2.

*Significant Unobservable Inputs*

Quantitative information about the significant unobservable inputs used in the Company's Level 3 fair value measurements of its annuity product guarantees is presented in the following sections and table.

The Company's Level 3 fair value measurements of its fixed maturities, equity securities available-for-sale and equity and credit derivative contracts are primarily based on broker quotes for which the quantitative detail of the unobservable inputs is neither provided nor reasonably corroborated, thus negating the ability to perform a sensitivity analysis. The Company performs a review of broker quotes by performing a monthly price variance comparison and back tests broker quotes to recent trade prices.

Significant unobservable inputs used in the fair value measurements of FIAs include nonperformance risk and lapses. Such inputs are monitored quarterly.

The significant unobservable inputs used in the fair value measurement of the Stabilizer embedded derivatives and MCG derivative are interest rate implied volatility, nonperformance risk, lapses and policyholder deposits. Such inputs are monitored quarterly.

Following is a description of selected inputs:

*Interest Rate Volatility:* A term-structure model is used to approximate implied volatility for the swap rates for the Stabilizer and MCG fair value measurements. Where no implied volatility is readily available in the market, an alternative approach is based on historical volatility.

*Nonperformance Risk:* For the estimate of the fair value of embedded derivatives associated with the Company's product guarantees, the Company uses a blend of observable, similarly rated peer company credit default swap spreads, adjusted to reflect the credit quality of the Company as well as adjustment to reflect the priority of policyholder claims.

*Actuarial Assumptions:* Management regularly reviews actuarial assumptions, which are based on the Company's experience and periodically reviewed against industry standards. Industry standards and the Company experience may be limited on certain products.

The following table presents the unobservable inputs for Level 3 fair value measurements as of December 31, 2012:

Unobservable Input	Range <sup>(1)</sup>	
	FIA	Stabilizer / MCG
Interest rate implied volatility	—	0% to 4.0%
Nonperformance risk	0.10% to 1.3%	0.10% to 1.3%
Actuarial Assumptions:		
Lapses	0% - 10% <sup>(2)</sup>	0% to 55% <sup>(3)</sup>
Policyholder Deposits <sup>(4)</sup>	—	0% to 60% <sup>(3)</sup>

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

<sup>(1)</sup> Represents the range of reasonable assumptions that management has used in its fair value calculations.

<sup>(2)</sup> Lapse rates tend to be lower during the contractual surrender charge period and higher after the surrender charge period ends; the highest lapse rates occur in the year immediately after the end of the surrender charge period. We make dynamic adjustments to lower the lapse rates for contracts that are more "in the money."

<sup>(3)</sup> Stabilizer contracts with recordkeeping agreements have different range of lapse and policyholder deposit assumptions from Stabilizer (Investment only) and MCG contracts as shown below:

	<b>Percentage of Plans</b>	<b>Overall Range of Lapse Rates</b>	<b>Range of Lapse Rates for 85% of Plans</b>	<b>Overall Range of Policyholder Deposits</b>	<b>Range of Policyholder Deposits for 85% of Plans</b>
Stabilizer (Investment Only) and MCG Contracts	87 %	0-30%	0-15%	0-55%	0-20%
Stabilizer with Recordkeeping Agreements	13 %	0-55%	0-25%	0-60%	0-30%
Aggregate of all plans	100 %	0-55%	0-25%	0-60%	0-30%

<sup>(4)</sup> Measured as a percentage of assets under management or assets under administration.

Generally, the following will cause an increase (decrease) in the FIA embedded derivative fair value liability:

- A decrease (increase) in nonperformance risk
- A decrease (increase) in lapses

Generally, the following will cause an increase (decrease) in the MCG derivative and Stabilizer embedded derivative fair value liabilities:

- An increase (decrease) in interest rate volatility
- A decrease (increase) in nonperformance risk
- A decrease (increase) in lapses
- A decrease (increase) in policyholder deposits

The Company notes the following interrelationships:

- Generally, an increase (decrease) in interest rate volatility will increase (decrease) lapses of Stabilizer and MCG contracts due to dynamic participant behavior.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

*Other Financial Instruments*

The carrying values and estimated fair values of the Company's financial instruments were as follows as of December 31, 2012 and December 31, 2011:

	2012		2011	
	Carrying Value	Fair Value	Carrying Value	Fair Value
<b>Assets:</b>				
Fixed maturities, including securities pledged	\$ 21,455.2	\$ 21,455.2	\$ 19,240.2	\$ 19,240.2
Equity securities, available-for-sale	142.8	142.8	144.9	144.9
Mortgage loans on real estate	2,872.7	2,946.9	2,373.5	2,423.1
Loan - Dutch State obligation	—	—	417.0	421.9

Limited partnerships/corporations	179.6	179.6	510.6	510.6
Cash, cash equivalents, short-term investments and short-term investments under securities loan agreements	1,229.3	1,229.3	958.7	958.7
Derivatives	512.7	512.7	446.6	446.6
Notes receivable from affiliates	175.0	194.3	175.0	165.2
Assets held in separate accounts	53,655.3	53,655.3	45,295.2	45,295.2
<b>Liabilities:</b>				
Investment contract liabilities:				
Funding agreements without fixed maturities and deferred annuities <sup>(1)</sup>	20,263.4	25,156.5	18,889.8	22,212.7
Supplementary contracts, immediate annuities and other	680.0	837.3	742.9	896.2
Annuity product guarantees:				
FIA	20.4	20.4	16.3	16.3
Stabilizer and MCGs	102.0	102.0	221.0	221.0
Derivatives	346.8	346.8	360.0	360.0
Long-term debt	4.9	4.9	4.9	4.9

<sup>(1)</sup> Certain amounts included in Funding agreements without fixed maturities and deferred annuities are also reflected within the Annuity product guarantees section of the table above.

The following disclosures are made in accordance with the requirements of ASC Topic 825 which requires disclosure of fair value information about financial instruments, whether or not recognized at fair value on the Consolidated Balance Sheets, for which it is practicable to estimate that value. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates, in many cases, could not be realized in immediate settlement of the instrument.

ASC Topic 825 excludes certain financial instruments, including insurance contracts and all nonfinancial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented do not represent the underlying value of the Company.

The following valuation methods and assumptions were used by the Company in estimating the fair value of the following financial instruments, which are not carried at fair value on the Consolidated Balance Sheets:

*Mortgage loans on real estate:* The fair values for mortgage loans on real estate are estimated on a monthly basis using discounted cash flow analyses and rates currently being offered in the marketplace for similar loans to borrowers with similar credit ratings. Loans with similar characteristics are aggregated for purposes of the calculations. Mortgage loans on real estate are classified as Level 3.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

*Loan - Dutch State obligation:* The fair value of the Dutch State loan obligation is estimated utilizing cash flows net of certain contract fees discounted using The Netherlands Strip Yield Curve and is classified as Level 2.

*Policy loans:* The fair value of policy loans is equal to the carrying value of the loans. Policy loans are collateralized by the cash surrender value of the associated insurance contracts and are classified as Level 2.

*Limited partnerships/corporations:* The fair value for these investments, primarily private equity fund of funds and hedge funds, is based on actual or estimated Net Asset Value ("NAV") information as provided by the investee and are classified as Level 3.

*Notes receivable from affiliates:* Estimated fair value of the Company's notes receivable from affiliates is determined primarily using a matrix-based pricing. The model considers the current level of risk-free interest rates, credit quality of the issuer and cash flow characteristics of the security model and is classified as Level 2.

*Investment contract liabilities:*

*Funding agreements without a fixed maturity and deferred annuities:* Fair value is estimated as the mean present value of stochastically modeled cash flows associated with the contract liabilities taking into account assumptions about contract holder behavior. The stochastic valuation scenario set is consistent with current market parameters and discount is taken using stochastically evolving risk-free rates in the scenarios plus an adjustment for nonperformance risk. Margins for non-financial risks associated with the contract liabilities are also included. These liabilities are classified as Level 3.

*Supplementary contracts and immediate annuities:* Fair value is estimated as the mean present value of the single deterministically modeled cash flows associated with the contract liabilities discounted using stochastically evolving short risk-free rates in the scenarios plus an adjustment for nonperformance risk. The valuation is consistent with current market parameters. Margins for non-financial risks associated with the contract liabilities are also included. These liabilities are classified as Level 3.

*Long-term debt:* Estimated fair value of the Company's notes to affiliates is based upon discounted future cash flows using a discount rate approximating the current market rate, incorporating nonperformance risk and is classified as Level 2.

Fair value estimates are made at a specific point in time, based on available market information and judgments about various financial instruments, such as estimates of timing and amounts of future cash flows. Such estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument, nor do they consider the tax impact of the realization of unrealized capital gains (losses). In many cases, the fair value estimates cannot be substantiated by comparison to independent markets, nor can the disclosed value be realized in immediate settlement of the instruments. In evaluating the Company's management of interest rate, price and liquidity risks, the fair values of all assets and liabilities should be taken into consideration, not only those presented above.

(Dollar amounts in millions, unless otherwise stated)

**5. Deferred Policy Acquisition Costs and Value of Business Acquired**

Activity within DAC was as follows for the years ended December 31, 2012, 2011 and 2010.

	<b>2012</b>	<b>2011</b>	<b>2010</b>
Balance at January 1	\$ 334.9	\$ 307.6	\$ 355.7
Deferrals of commissions and expenses	79.1	79.8	74.7
Amortization:			
Amortization	(72.1 )	(71.5 )	(40.5 )
Interest accrued <sup>(1)</sup>	31.1	31.9	29.9
Net amortization included in the Consolidated Statements of Operations	(41.0 )	(39.6 )	(10.6 )
Change in unrealized capital gains/losses on available-for-sale securities	(76.5 )	(12.9 )	(112.2 )
Balance at December 31	<u>\$ 296.5</u>	<u>\$ 334.9</u>	<u>\$ 307.6</u>

<sup>(1)</sup> Interest accrued at 5.0% to 7.0% during 2012, 2011 and 2010.

Activity within VOBA was as follows for the years ended December 31, 2012, 2011 and 2010.

	<b>2012</b>	<b>2011</b>	<b>2010</b>
Balance at January 1	\$ 593.6	\$ 864.2	\$ 981.2
Deferrals of commissions and expenses	8.1	8.5	17.6
Amortization:			
Amortization	(152.6 )	(125.1 )	(16.0 )
Interest accrued <sup>(1)</sup>	62.5	70.5	67.8
Net amortization included in the Consolidated Statements of Operations	(90.1 )	(54.6 )	51.8
Change in unrealized capital gains/losses on available-for-sale securities	(130.2 )	(224.5 )	(186.4 )
Balance at December 31	<u>\$ 381.4</u>	<u>\$ 593.6</u>	<u>\$ 864.2</u>

<sup>(1)</sup> Interest accrued at 5.0% and 7.0% during 2012, 2011 and 2010

The estimated amount of VOBA amortization expense, net of interest, is \$66.0, \$50.7, \$45.4, \$42.3 and \$34.9, for the years 2013, 2014, 2015, 2016 and 2017, respectively. Actual amortization incurred during these years may vary as assumptions are modified to incorporate actual results.

**6. Additional Insurance Benefits and Minimum Guarantees**

The Company calculates an additional liability for certain GMDBs and other minimum guarantees in order to recognize the expected value of these benefits in excess of the projected account balance over the accumulation period based on total expected assessments.

The Company regularly evaluates estimates used to adjust the additional liability balance, with a related charge or credit to benefit expense, if actual experience or other evidence suggests that earlier assumptions should be revised.

As of December 31, 2012, the account value for the separate account contracts with guaranteed minimum benefits was \$35.2 billion. The additional liability recognized related to minimum guarantees was \$108.1. As of December 31, 2011, the account value for the separate account contracts with guaranteed minimum benefits was \$32.1 billion. The additional liability recognized related to minimum guarantees was \$226.4.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

The aggregate fair value of equity securities, including mutual funds, supporting separate accounts with additional insurance benefits and minimum investment return guarantees as of December 31, 2012 and 2011, was \$9.3 billion and \$7.9 billion, respectively.

## **7. Reinsurance**

At December 31, 2012, the Company had reinsurance treaties with 6 unaffiliated reinsurers covering a significant portion of the mortality risks and guaranteed death benefits under its variable contracts. As of December 31, 2012, the Company had one outstanding cession and a reinsurance treaty with its affiliate, Security Life of Denver International Limited ("SLDI"), to manage the reserve and capital requirements in connection with a portion of its deferred annuities business. The agreement is accounted for under the deposit method of accounting.

On October 1, 1998, the Company disposed of its individual life insurance business under an indemnity reinsurance arrangement with a subsidiary of Lincoln for \$1.0 billion in cash. Under the agreement, the Lincoln subsidiary contractually assumed from the Company certain policyholder liabilities and obligations, although the Company remains obligated to contract owners. The Lincoln subsidiary established a trust to secure its obligations to the Company under the reinsurance transaction.

The Company assumed \$25.0 of premium revenue from Aetna Life for the purchase and administration of a life contingent single premium variable payout annuity contract. In addition, the Company is also responsible for administering fixed annuity payments that are made to annuitants receiving variable payments. Reserves of \$10.1 and \$10.3 were maintained for this contract as of December 31, 2012 and 2011, respectively.

Reinsurance ceded in force for life mortality risks were \$15.1 billion and \$16.2 billion at December 31, 2012 and 2011, respectively. At December 31, 2012 and 2011, net receivables were comprised of the following:

	<b>2012</b>	<b>2011</b>
Claims recoverable from reinsurers	\$ 2,153.8	\$ 2,276.3
Reinsured amounts due to reinsurers	(0.3 )	(0.3 )
Other	0.2	0.3
Total	<u>\$ 2,153.7</u>	<u>\$ 2,276.3</u>

Premiums were reduced by the following amounts for reinsurance ceded for the years ended December 31, 2012, 2011 and 2010.

	<b>2012</b>	<b>2011</b>	<b>2010</b>
<b>Premiums:</b>			
Direct premiums	\$ 36.2	\$ 34.0	\$ 67.6
Reinsurance assumed	—	0.1	—
Reinsurance ceded	(0.2 )	(0.2 )	(0.3 )
Net premiums	<u>\$ 36.0</u>	<u>\$ 33.9</u>	<u>\$ 67.3</u>

## **8. Capital Contributions, Dividends and Statutory Information**

ILIAC's ability to pay dividends to its parent is subject to the prior approval of insurance regulatory authorities of the State of Connecticut for payment of any dividend, which, when combined with other dividends paid within the preceding twelve months, exceeds the greater of (1) ten percent (10.0%) of ILIAC's earned statutory surplus at the prior year end or (2) ILIAC's prior year statutory net gain from operations. Connecticut law also prohibits a Connecticut insurer from declaring or paying a dividend except out of its earned surplus unless prior insurance regulatory approval is obtained.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

During the year ended December 31, 2012, ILIAC did not receive any capital contributions from its Parent. During the year ended December 31, 2011, ILIAC received capital contributions of \$201.0 in the aggregate from its Parent. During the year ended December 31, 2010, ILIAC did not receive any capital contributions from its Parent.

During the year ended December 31, 2012, following receipt of required approval from the State of Connecticut Insurance Department (the "Department"), ILIAC paid a cash distribution of \$340.0 to its Parent. During the year ended December 31, 2011, ILIAC did not pay a dividend or distribution on its common stock to its Parent. During the year ended December 31, 2010, ILIAC paid a \$203.0 dividend on its common stock to its Parent. On October 15, 2012, December 22, 2011 and October 30, 2010, IFA paid a \$90.0, \$65.0 and \$60.0 dividend, respectively, to ILIAC, its parent, which was eliminated in consolidation. On December 21, 2012, DSL paid a \$15.0 dividend to ILIAC, its parent, which was eliminated in consolidation.

The Department recognizes as net income and capital and surplus those amounts determined in conformity with statutory accounting practices prescribed or permitted by the Department, which differ in certain respects from accounting principles generally accepted in the United States. Statutory net income (loss) was \$261.6, \$194.4 and \$66.0, for the years ended December 31, 2012, 2011 and 2010, respectively. Statutory capital and surplus was \$1.9 billion as of December 31, 2012 and 2011.

The Company is subject to minimum risk-based capital ("RBC") requirements established by the Department. The formulas for determining the amount of RBC specify various weighting factors that are applied to financial balances or various levels of activity based on the perceived degree of risk. Regulatory compliance is determined by a ratio of total adjusted capital ("TAC"), as defined by the NAIC, to authorized control level RBC, as defined by the NAIC. The Company exceeded the minimum RBC requirements that would require any regulatory or corrective action for all periods presented herein.

The Company is required to prepare statutory financial statements in accordance with statutory accounting practices prescribed or permitted by the Department. Such statutory accounting practices primarily differ from U.S. GAAP by charging policy acquisition costs to expense as incurred, establishing future policy benefit liabilities and contract owner account balances using different actuarial assumptions as well as valuing investments and certain assets and accounting for deferred taxes on a different basis. Certain assets that are not admitted under statutory accounting principles are charged directly to surplus. Depending on the regulations of the Department, the entire amount or a portion of an insurance company's asset balance can be non-admitted based on the specific rules regarding admissibility.

## **9. Accumulated Other Comprehensive Income (Loss)**

Shareholder's equity included the following components of AOCI as of December 31, 2012, 2011 and 2010.

	<b>2012</b>	<b>2011</b>	<b>2010</b>
Fixed maturities, net of OTTI	\$ 2,190.9	\$ 1,518.7	\$ 933.8
Equity securities, available-for-sale	13.5	13.1	21.0
Derivatives	215.2	173.7	0.5
DAC/VOBA and sales inducements adjustments on available-for-sale securities	(810.6 )	(603.6 )	(362.4 )
Premium deficiency reserve adjustment	(152.6 )	(64.8 )	(61.0 )
Other investments	—	—	0.1
Unrealized capital gains (losses), before tax	1,456.4	1,037.1	532.0
Deferred income tax asset (liability)	(444.6 )	(302.3 )	(149.3 )
Unrealized capital gains (losses), after tax	1,011.8	734.8	382.7
Pension and other post-employment benefits liability, net of tax	11.2	12.7	7.8
AOCI	<u>\$ 1,023.0</u>	<u>\$ 747.5</u>	<u>\$ 390.5</u>

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**

**Notes to the Consolidated Financial Statements**

(Dollar amounts in millions, unless otherwise stated)

Changes in AOCI, net of DAC, VOBA and tax, related to changes in unrealized capital gains (losses) on securities, including securities pledged, were as follows for the years ended December 31, 2012, 2011 and 2010.

	<b>2012</b>	<b>2011</b>	<b>2010</b>
Fixed maturities	\$ 661.6	563.6	813.1
Equity securities, available-for-sale	0.4	(7.9 )	8.2
Derivatives	41.5	173.2	0.5
DAC/VOBA and sales inducement adjustment on available-for-sale securities	(207.0 )	(241.2 )	(295.3 )
Premium deficiency reserve adjustment	(87.8 )	(3.8 )	(61.0 )
Other investments	—	(0.1 )	0.1
Change in unrealized gains/losses on securities, before tax	408.7	483.8	465.6
Deferred income tax asset/liability	(138.6 )	(145.5 )	(82.2 )
Change in unrealized gains/losses on securities, after tax	270.1	338.3	383.4
Change in OTTI, before tax	10.6	21.3	(12.7 )
Deferred income tax asset/liability	(3.7 )	(7.5 )	4.4
Change in OTTI, after tax	6.9	13.8	(8.3 )
Pension and other post-employment benefit liability, before tax	(2.2 )	7.6	(1.4 )
Deferred income tax asset/liability	0.7	(2.7 )	0.5
Pension and other post-employment benefit liability, after tax	(1.5 )	4.9	(0.9 )
Net change in AOCI, after tax	<u>\$ 275.5</u>	<u>\$ 357.0</u>	<u>\$ 374.2</u>

Changes in unrealized capital gains/losses on securities, including securities pledged and noncredit impairments, as recognized in AOCI, reported net of DAC, VOBA and income taxes, were as follows for the years ended December 31, 2012, 2011 and 2010.

	<b>2012</b>	<b>2011</b>	<b>2010</b>
Net unrealized capital gains/losses arising during the year <sup>(1)</sup>	\$ 320.6	\$ 408.8	\$ 335.6
Less: reclassification adjustment for gains (losses) and other items included in Net income (loss) <sup>(2)</sup>	43.6	78.7	29.2
Change in deferred tax valuation allowance	—	22.0	68.7
Net change in unrealized capital gains/losses on securities	<u>\$ 277.0</u>	<u>\$ 352.1</u>	<u>\$ 375.1</u>

<sup>(1)</sup> Pretax net unrealized capital gains/losses arising during the period were \$485.4, \$625.1 and \$495.7 for the years ended December 31, 2012, 2011 and 2010, respectively.

<sup>(2)</sup> Pretax reclassification adjustments for gains (losses) and other items included in Net income (loss) were \$66.1, \$120.0 and \$42.8 for the years ended December 31, 2012, 2011 and 2010, respectively.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

**10. Income Taxes**

Income tax expense (benefit) consisted of the following for the years ended December 31, 2012, 2011 and 2010.

	<b>2012</b>	<b>2011</b>	<b>2010</b>
Current tax expense (benefit):			
Federal	\$ 200.9	\$ 60.3	\$ 73.2
Total current tax expense (benefit)	<u>200.9</u>	<u>60.3</u>	<u>73.2</u>
Deferred tax expense (benefit):			
Federal	(9.7 )	(65.3 )	35.8
Total deferred tax expense (benefit)	<u>(9.7 )</u>	<u>(65.3 )</u>	<u>35.8</u>
Total income tax expense (benefit)	<u>\$ 191.2</u>	<u>\$ (5.0 )</u>	<u>\$ 109.0</u>

Income taxes were different from the amount computed by applying the federal income tax rate to income (loss) before income taxes for the following reasons for the years ended December 31, 2012, 2011 and 2010:

	<b>2012</b>	<b>2011</b>	<b>2010</b>
Income (loss) before income taxes	\$ 516.6	\$ 315.3	\$ 486.9
Tax rate	35.0 %	35.0 %	35.0 %
Income tax expense (benefit) at federal statutory rate	<u>180.8</u>	<u>110.4</u>	<u>170.4</u>
Tax effect of:			
Dividends received deduction	(18.6 )	(37.0 )	(23.3 )
Valuation allowance	—	(87.0 )	(13.7 )
IRS audit adjustment	(0.3 )	3.7	(26.8 )
Prior year tax	28.1	—	—
State tax expense (benefit)	—	—	0.6
Other	1.2	4.9	1.8
Income tax expense (benefit)	<u>\$ 191.2</u>	<u>\$ (5.0 )</u>	<u>\$ 109.0</u>

Based on its 2011 tax return as filed, the Company decreased its estimated deferred tax assets by \$28.1.

(Dollar amounts in millions, unless otherwise stated)

---

***Temporary Differences***

The tax effects of temporary differences that give rise to Deferred tax assets and Deferred tax liabilities as of December 31, 2012 and 2011, are presented below.

	<b>2012</b>	<b>2011</b>
<b>Deferred tax assets:</b>		
Insurance reserves	\$ 255.4	\$ 269.6
Investments	87.5	89.2
Postemployment benefits	50.6	97.1
Compensation and benefits	44.4	22.9
Other assets	24.5	22.5
Total gross assets before valuation allowance	462.4	501.3
Less: Valuation allowance	11.1	11.1
Assets, net of valuation allowance	451.3	490.2
<b>Deferred tax liabilities:</b>		
Net unrealized investment (gains) losses	(482.4 )	(357.5 )
Deferred policy acquisition costs	(143.8 )	(127.0 )
Value of business acquired	(332.2 )	(360.9 )
Total gross liabilities	(958.4 )	(845.4 )
Net deferred income tax liability	<u>\$ (507.1 )</u>	<u>\$ (355.2 )</u>

Net unrealized capital losses are presented as a component of other comprehensive income (loss) in Shareholder's equity, net of deferred taxes.

Valuation allowances are provided when it is considered unlikely that deferred tax assets will be realized. As of December 31, 2012 and 2011, the Company had a tax valuation allowance of \$62.8 that was allocated to Net income (loss) and \$(51.7) that was allocated to Other comprehensive income. As of December 31, 2012 and 2011, the Company had a full valuation allowance of \$11.1 related to foreign tax credits, the benefit of which is uncertain.

***Tax Sharing Agreement***

The Company had a payable to ING U.S., Inc. of \$32.1 and \$1.3 for federal income taxes as of December 31, 2012 and 2011, respectively, for federal income taxes under the intercompany tax sharing agreement.

The results of the Company's operations are included in the consolidated tax return of ING U.S., Inc. Generally, the Company's consolidated financial statements recognize the current and deferred income tax consequences that result from the Company's activities during the current and preceding periods pursuant to the provisions of Income Taxes (ASC 740) as if the Company were a separate taxpayer rather than a member of ING U.S., Inc.'s consolidated income tax return group with the exception of any net operating loss carryforwards and capital loss carryforwards, which are recorded pursuant to the tax sharing agreement. The Company's tax sharing agreement with ING U.S., Inc. states that for each taxable year prior to January 1, 2013 during which the Company is included in a consolidated federal income tax return with ING U.S., Inc., ING U.S., Inc. will pay to the Company an amount equal to the tax benefit of the Company's net operating loss carryforwards and capital loss carryforwards generated in such year, without regard to whether such net operating loss carryforwards and capital loss carryforwards are actually utilized in the reduction of the consolidated federal income tax liability for any consolidated taxable year.

Effective January 1, 2013, the Company entered into a new tax sharing agreement with ING U.S., Inc. which provides that, for 2013 and subsequent years, ING U.S., Inc. will pay the Company for the tax benefits of ordinary and capital losses only in the event that the consolidated tax group actually uses the tax benefits of losses generated.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

***Unrecognized Tax Benefits***

Reconciliations of the change in the unrecognized income tax benefits for the years ended December 31, 2012 and 2011 are as follows:

	<b>2012</b>	<b>2011</b>
Balance at beginning of period	\$ —	\$ 23.0
Additions for tax positions related to prior years	—	4.5
Reductions for tax positions related to prior years	—	(4.5 )
Reductions for settlements with taxing authorities	—	(23.0 )
Balance at end of period	<u>\$ —</u>	<u>\$ —</u>

The Company had no unrecognized tax benefits as of December 31, 2012 and 2011 which would affect the Company's effective tax rate if recognized.

***Interest and Penalties***

The Company recognizes accrued interest and penalties related to unrecognized tax benefits in Current income taxes and Income tax expense on the Consolidated Balance Sheets and the Consolidated Statements of Operations, respectively. The Company had no accrued interest as of December 31, 2012 and 2011.

***Tax Regulatory Matters***

In March 2012, the Internal Revenue Service ("IRS") completed its examination of the Company's return for tax year 2010. The 2010 audit settlement did not have a material impact on the financial statements.

The Company is currently under audit by the IRS for tax years 2011 through 2012 and it is expected that the examination of tax year 2011 will be finalized within the next twelve months. The Company and the IRS have agreed to participate in the Compliance Assurance Program ("CAP") for tax years 2011, 2012 and 2013.

**11. Benefit Plans**

***Defined Benefit Plan***

ING North America Insurance Corporation ("ING North America") sponsors the ING Americas Retirement Plan (the "Retirement Plan"), effective as of December 31, 2001. Substantially all employees of ING North America and its affiliates (excluding certain employees) are eligible to participate, including the Company's employees other than Company agents. ING North America filed a request for a determination letter on the qualified status of the Retirement Plan, but has not yet received a favorable determination letter.

Beginning January 1, 2012, the Retirement Plan implemented a cash balance pension formula instead of a final average pay ("FAP") formula, allowing all eligible employees to participate in the Retirement Plan. Participants will earn an annual credit equal to 4% of eligible pay. Interest is credited monthly based on a 30-year U.S. Treasury securities bond rate published by the Internal Revenue Service in the preceding August of each year. The accrued vested cash balance benefit is portable; participants can take it when they leave the Company's employ. For participants in the Retirement Plan as of December 31, 2011, there will be a two-year transition period from the Retirement Plan's current FAP formula to the cash balance pension formula. Due to ASC Topic 715 requirements, the accounting impact of the change in the Retirement Plan was recognized upon Board approval November 10, 2011. This change had no material impact on the Consolidated Financial Statements.

The Retirement Plan is a tax-qualified defined benefit plan, the benefits of which are guaranteed (within certain specified legal limits) by the Pension Benefit Guaranty Corporation ("PBGC"). As of January 1, 2002, each participant in the Retirement Plan earns a benefit under a FAP formula. Subsequent to December 31, 2001, ING North America is responsible for all Retirement

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

Plan liabilities. The costs allocated to the Company for its employees' participation in the Retirement Plan were \$19.1, \$24.6 and \$27.2 for the years ended December 31, 2012, 2011 and 2010, respectively and are included in Operating expenses in the Consolidated Statements of Operations.

***Defined Contribution Plan***

ING North America sponsors the ING Americas Savings Plan and ESOP (the "Savings Plan"). Substantially all employees of ING North America and its affiliates (excluding certain employees, including but not limited to Career Agents) are eligible to participate, including the Company's employees other than Company agents. Career Agents are certain, full-time insurance salespeople who have entered into a career agent agreement with the Company and certain other individuals who meet specified eligibility criteria. The Savings Plan is a tax-qualified defined contribution retirement plan, which includes an employee stock ownership plan ("ESOP") component. The Savings Plan was most recently amended effective January 1, 2011 to permit Roth 401(k) contributions to be made to the Plan. ING North America filed a request for a determination letter on the qualified status of the Plan and received a favorable determination letter dated May 19, 2009. Savings Plan benefits are not guaranteed by the PBGC. The Savings Plan allows eligible participants to defer into the Savings Plan a specified percentage of eligible compensation on a pre-tax basis. ING North America matches such pre-tax contributions, up to a maximum of 6.0% of eligible compensation. Matching contributions are subject to a 4-year graded vesting schedule (although certain specified participants are subject to a 5-year graded vesting schedule). All contributions made to the Savings Plan are subject to certain limits imposed by applicable law. The cost allocated to the Company for the Savings Plan were \$9.7, \$9.8 and \$10.7, for the years ended December 31, 2012, 2011 and 2010, respectively and are included in Operating expenses in the Consolidated Statements of Operations.

***Non-Qualified Retirement Plans***

Effective December 31, 2001, the Company, in conjunction with ING North America, offered certain eligible employees (other than Career Agents) a Supplemental Executive Retirement Plan and an Excess Plan (collectively, the "SERPs"). Benefit accruals under Aetna Financial Services SERPs ceased, effective as of December 31, 2001 and participants begin accruing benefits under ING North America SERPs. Benefits under the SERPs are determined based on an eligible employee's years of service and average annual compensation for the highest five years during the last ten years of employment.

Effective January 1, 2012, the Supplemental Executive Retirement Plan was amended to coordinate with the amendment of the Retirement Plan from its current final average pay formula to a cash balance formula.

The Company, in conjunction with ING North America, sponsors the Pension Plan for Certain Producers of ING Life Insurance and Annuity Company (formerly the Pension Plan for Certain Producers of Aetna Life Insurance and Annuity Company) (the "Agents Non-Qualified Plan"). This plan covers certain full-time insurance salespeople who have entered into a career agent agreement with the Company and certain other individuals who meet the eligibility criteria specified in the plan ("Career Agents"). The Agents Non-Qualified Plan was frozen effective January 1, 2002. In connection with the termination, all benefit accruals ceased and all accrued benefits were frozen.

The SERPs and Agents Non-Qualified Plan, are non-qualified defined benefit pension plans, which means all the SERPs benefits are payable from the general assets of the Company and Agents Non-Qualified Plan benefits are payable from the general assets of the Company and ING North America. These non-qualified defined benefit pension plans are not guaranteed by the PBGC.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

*Obligations and Funded Status*

The following table summarizes the benefit obligations, fair value of plan assets and funded status, for the SERPs and Agents Non-Qualified Plan, for the years ended December 31, 2012 and 2011.

	<u>2012</u>	<u>2011</u>
Change in benefit obligation:		
Benefit obligation, January 1	\$ 98.7	\$ 96.8
Interest cost	4.4	5.0
Benefits paid	(9.3 )	(8.4 )
Actuarial gain on obligation	3.4	18.4
Plan adjustments	—	(8.8 )
Curtailments or settlements	—	(4.3 )
Benefit obligation, December 31	<u>\$ 97.2</u>	<u>\$ 98.7</u>
Fair Value of Plan Assets:		
Fair value of plan assets, December 31	<u>\$ —</u>	<u>\$ —</u>

Amounts recognized in the Consolidated Balance Sheets consist of:

	<u>2012</u>	<u>2011</u>
Accrued benefit cost	\$ (97.2 )	\$ (98.7 )
Accumulated other comprehensive income:		
Prior service cost	(7.3 )	(8.5 )
Net amount recognized	<u>\$ (104.5 )</u>	<u>\$ (107.2 )</u>

*Assumptions*

The weighted-average assumptions used in the measurement of the December 31, 2012 and 2011 benefit obligation for the SERPs and Agents Non-Qualified Plan, were as follows:

	<u>2012</u>	<u>2011</u>
Discount rate	4.05 %	4.75 %
Rate of compensation increase	4.00 %	4.00 %

In determining the discount rate assumption, the Company utilizes current market information provided by its plan actuaries, including a discounted cash flow analysis of the Company's pension obligation and general movements in the current market environment. The discount rate modeling process involves selecting a portfolio of high quality, noncallable bonds that will match the cash flows of the Retirement Plan. Based upon all available information, it was determined that 4.05% was the appropriate discount rate as of December 31, 2012, to calculate the Company's accrued benefit liability.

The weighted-average assumptions used in calculating the net pension cost were as follows:

	<u>2012</u>	<u>2011</u>	<u>2010</u>
Discount rate	4.75 %	5.50 %	6.00 %
Rate of increase in compensation levels	4.00 %	4.00 %	3.00 %

Since the benefit plans of the Company are unfunded, an assumption for return on plan assets is not required.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

*Net Periodic Benefit Costs*

Net periodic benefit costs for the SERPs and Agents Non-Qualified Plan, for the years ended December 31, 2012, 2011 and 2010, were as follows:

	<b>2012</b>	<b>2011</b>	<b>2010</b>
Interest cost	\$ 4.4	\$ 5.0	\$ 5.1
Net loss (gain)	3.4	16.0	11.5
Unrecognized past service cost recognized in the year	(1.2 )	—	0.1
The effect of any curtailment or settlement	—	2.2	—
Net periodic benefit cost	<u>\$ 6.6</u>	<u>\$ 23.2</u>	<u>\$ 16.7</u>

*Cash Flows*

In 2013, the employer is expected to contribute \$8.6 to the SERPs and Agents Non-Qualified Plan. Future expected benefit payments related to the SERPs and Agents Non-Qualified Plan, for the years ended December 31, 2013 through 2017 and thereafter through 2022, are estimated to be \$8.6, \$7.7, \$6.0, \$5.8, \$6.0 and \$30.1, respectively.

***Stock Option and Share Plans***

*Long-term Equity Ownership Plan:* Starting in 2004, ING Group began issuing options under the Long-term Equity Ownership Plan ("leo"). Under leo, participants are awarded both stock options and performance shares. Leo options are nonqualified options on ING Group shares in the form of American Depositary Receipts ("ADRs"). The leo options give the recipient the right to purchase an ING Group share in the form of ADRs at a price equal to the fair market value of one ING Group share on the date of grant. The options have a ten-year term and vest three years from the grant date subject to the participant meeting the three-year service vesting condition. Upon vesting, participants generally have up to seven years in which to exercise their vested options. A shorter exercise period applies in the event of termination due to redundancy, business divestiture, voluntary termination, or termination for cause.

Leo performance shares are a contingent grant of ING Group stock and generally vest three years from the grant date, and can range from 0-200% of target based on ING's Total Shareholder Return ("TSR") relative to a peer group of global financial services companies as determined at the end of the vesting period. To vest, a participant must be actively employed on the vesting date, although immediate vesting will occur in the event of the participant's death, disability or retirement. If a participant is terminated due to redundancy or business divestiture, vesting will occur but in only a portion of the award. Unvested shares are generally subject to forfeiture when an employee voluntarily terminates employment or is terminated for cause (as defined in the leo plan document).

Long-term Sustainable Performance Plan performance shares ("LSPP") were granted on March 30, 2011 and 2012 with a three year graded vesting schedule. Participants were awarded a conditional right to receive a number of ING Group shares in the form of ADR's in the future. Awards under the LSPP vest, and shares are delivered 1/3 each of the first, second and third anniversary of the award date, provided the participants are still employed by ING. The LSPP performance shares are subject to a performance measure. The number of ADR's that would be ultimately granted at the end of each performance period is dependent upon a measure of the Company's performance over that period.

At the end of the specified performance period, the extent to which ING's performance targets have been met will determine the actual number of leo and LSPP performance shares that the participants will receive on the vesting date.

The Company was allocated from ING compensation expense for the leo options, leo performance shares and LSPP of \$5.0, \$5.1 and \$3.4 for the years ended December 31, 2012, 2011 and 2010, respectively.

The Company recognized tax benefits of \$1.5, \$0.8 and \$0.7 in 2012, 2011 and 2010, respectively.

---

In addition, the Company, in conjunction with ING North America, sponsors the following benefit plans:

- The ING 401(k) Plan for ILIAC Agents, which allows participants to defer a specified percentage of eligible compensation on a pre-tax basis. Effective January 1, 2006, the Company match equals 60% of a participant's pre-tax deferral contribution, with a maximum of 6% of the participant's eligible pay. A request for a determination letter on the qualified status of the ING 401(k) Plan for ILIAC Agents was filed with the IRS on January 1, 2008. A favorable determination letter was received dated January 5, 2011.
- The Producers' Incentive Savings Plan, which allows participants to defer up to a specified portion of their eligible compensation on a pre-tax basis. The Company matches such pre-tax contributions at specified amounts.
- The Producers' Deferred Compensation Plan, which allows participants to defer up to a specified portion of their eligible compensation on a pre-tax basis.
- Certain health care and life insurance benefits for retired employees and their eligible dependents. The post retirement health care plan is contributory, with retiree contribution levels adjusted annually and the Company subsidizes a portion of the monthly per-participant premium. Beginning August 1, 2009, the Company moved from self-insuring these costs and began to use a private-fee-for-service Medicare Advantage program for post-Medicare eligible retired participants. In addition, effective October 1, 2009, the Company no longer subsidizes medical premium costs for early retirees. This change does not impact any participant currently retired and receiving coverage under the plan or any employee who is eligible for coverage under the plan and whose employment ended before October 1, 2009. The Company continues to offer access to medical coverage until retirees become eligible for Medicare. The life insurance plan provides a flat amount of noncontributory coverage and optional contributory coverage.
- The ING Americas Supplemental Executive Retirement Plan, which is a non-qualified defined benefit restoration pension plan.
- The ING Americas Deferred Compensation Savings Plan, which is a deferred compensation plan that includes a 401(k) excess component.

The benefit charges allocated to the Company related to these plans for the years ended December 31, 2012, 2011 and 2010, were \$11.9, \$9.9 and \$11.9, respectively.

## **12. Financing Agreements**

### *Windsor Property Loan*

On June 16, 2007, the State of Connecticut acting by the Department of Economic and Community Development ("DECD") loaned ILIAC \$9.9 (the "DECD Loan") in connection with the development of the corporate office facility located at One Orange Way, Windsor, Connecticut that serves as the principal executive offices of the Company (the "Windsor Property"). The loan has a term of twenty years and bears an annual interest rate of 1.00%. As long as no defaults have occurred under the loan, no payments of principal or interest are due for the initial ten years of the loan. For the second ten years of the DECD Loan term, ILIAC is obligated to make monthly payments of principal and interest.

The DECD Loan provided for loan forgiveness during the first five years of the term at varying amounts up to \$5.0 if ILIAC and its affiliates met certain employment thresholds at the Windsor Property during that period. On December 1, 2008, the DECD determined that the Company had met the employment thresholds for loan forgiveness and, accordingly, forgave \$5.0 of the DECD Loan to ILIAC in accordance with the terms of the DECD Loan. The DECD Loan provides additional loan forgiveness at varying amounts up to \$4.9 if ILIAC and its ING affiliates meet certain employment thresholds at the Windsor Property during years five through ten of the loan. ILIAC's obligations under the DECD Loan are secured by an unlimited recourse guaranty from its affiliate, ING North America Insurance Corporation. In November 2012, ILIAC provided a letter of credit to the DECD in the amount of \$10.6 security for its repayment obligations with respect to the loan.

At both December 31, 2012 and 2011, the amount of the loan outstanding was \$4.9, which was reflected in Long-term debt on the Consolidated Balance Sheets.

### **13. Commitments and Contingencies**

#### ***Leases***

All of the Company's expenses for leased and subleased office properties are paid for by an affiliate and allocated back to the Company, as all remaining operating leases were executed by ING North America Insurance Corporation as of December 31, 2008, which resulted in the Company no longer being party to any operating leases. For the years ended December 31, 2012, 2011 and 2010, rent expense for leases was \$4.9, \$5.0 and \$4.0, respectively.

#### ***Commitments***

Through the normal course of investment operations, the Company commits to either purchase or sell securities, commercial mortgage loans, or money market instruments, at a specified future date and at a specified price or yield. The inability of counterparties to honor these commitments may result in either a higher or lower replacement cost. Also, there is likely to be a change in the value of the securities underlying the commitments.

As of December 31, 2012 and 2011, the Company had off-balance sheet commitments to purchase investments equal to their fair value of \$314.9 and \$536.4, respectively.

#### ***Collateral***

Under the terms of the Company's Over-The-Counter Derivative International Swaps and Derivatives Association, Inc. Agreements ("ISDA Agreements"), the Company may receive from, or deliver to, counterparties, collateral to assure that all terms of the ISDA Agreements will be met with regard to the CSA. The terms of the CSA call for the Company to pay interest on any cash received equal to the Federal Funds rate. As of December 31, 2012 and 2011, the Company held \$167.0 and \$110.0 of net cash collateral, respectively, related to derivative contracts, which was included in Payables under securities loan agreement, including collateral held, on the Consolidated Balance Sheets. In addition, as of December 31, 2012 and 2011, the Company delivered collateral of \$39.5 and \$77.9, respectively, in fixed maturities pledged under derivatives contracts, which was included in Securities pledged on the Consolidated Balance Sheets.

#### ***Restricted Assets***

The Company is required to maintain assets on deposit with various regulatory authorities to support its insurance operations. The Company may also post collateral in connection with certain securities lending, repurchase agreements, funding agreement, LOC and derivative transactions as described further in this note. The components of the fair value of the restricted assets were as follows as of December 31, 2012 and 2011:

	<b>2012</b>	<b>2011</b>
Other fixed maturities-state deposits	\$ 13.4	\$ 13.6
Securities pledged <sup>(1)</sup>	219.7	593.7
Total restricted assets	<u>\$ 233.1</u>	<u>\$ 607.3</u>

<sup>(1)</sup> Includes the fair value of loaned securities of \$180.2 and \$515.8 as of December 31, 2012 and 2011, respectively, which is included in Securities pledged on the Consolidated Balance Sheets.

#### ***Litigation and Regulatory Matters***

The Company is a defendant in a number of litigation matters arising from the conduct of its business, both in the ordinary course and otherwise. In some of these matters, claimants seek to recover very large or indeterminate amounts, including compensatory, punitive, treble and exemplary damages. Modern pleading practice in the U.S. permits considerable variation in the assertion of monetary damages and other relief. Claimants are not always required to specify the monetary damages they seek or they may be required only to state an amount sufficient to meet a court's jurisdictional requirements. Moreover, some jurisdictions allow claimants to allege monetary damages that far exceed any reasonable possible verdict. The variability in pleading requirement and past experience demonstrates that the monetary and other relief that may be requested in a lawsuit or claim oftentimes bears

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

little relevance to the merits or potential value of a claim. Litigation against the Company includes a variety of claims including negligence, breach of contract, fraud, violation of regulation or statute, breach of fiduciary duty, negligent misrepresentation, failure to supervise, elder abuse and other torts. Due to the uncertainties of litigation, the outcome of a litigation matter and the amount or range of potential loss is difficult to forecast and a determination of potential losses requires significant management judgment.

As with other financial services companies, the Company periodically receives informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the Company or the financial services industry. It is the practice of the Company to cooperate fully in these matters. Regulatory investigations, exams, inquiries and audits could result in regulatory action against the Company. The potential outcome of such action is difficult to predict but could subject the Company to adverse consequences, including, but not limited to, settlement payments, additional payments to beneficiaries, additional escheatment of funds deemed abandoned under state laws and disgorgement of retained gains. They may also result in fines and penalties and changes to the Company's procedures for the identification and escheatment of abandoned property or the correction of processing errors and other financial liability.

It is not possible to predict the ultimate outcome or to provide reasonably possible losses or ranges of losses for all pending regulatory matters and litigation. While it is possible that an adverse outcome in certain cases could have a material adverse effect upon the Company's financial position, based on information currently known, management believes that the outcome of pending litigation and regulatory matters is not likely to have such an effect. However, given the large and indeterminate amounts sought and the inherent unpredictability of such matters, it is possible that an adverse outcome in certain of the Company's litigation or regulatory matters could, from time to time, have a material adverse effect upon the Company's results of operations or cash flows in a particular quarterly or annual period.

For some matters, the Company is able to estimate a possible range of loss. For such matters in which a loss is probable, an accrual has been made. For matters where the Company, however, believes a loss is reasonably possible, but not probable, no accrual is required to be made. Accordingly, the Company's estimate reflects both types of matters. For matters for which an accrual has been made, but there remains a reasonably possible range of loss in excess of the amounts accrued, the estimate reflects the reasonably possible range of loss in excess of the accrued amounts. For other matters included within this estimation, for which a reasonably possible but not probable range of loss exists, the estimate reflects the reasonably possible and unaccrued loss or range of loss. As of December 31, 2012, the Company estimates the aggregate range of reasonably possible losses, in excess of any amounts accrued for these matters as of such date, to be up to approximately \$30.0.

For other matters, the Company is currently not able to estimate the reasonably possible loss or range of loss. It is often unable to estimate the possible loss or range of loss until developments in such matters have provided sufficient information to support an assessment of the range of possible loss, such as quantification of a damage demand from plaintiffs, discovery from plaintiffs and other parties, investigation of factual allegations, rulings by a court on motions or appeals, analysis by experts and the progress of settlement discussions. On a quarterly and annual basis, the Company reviews relevant information with respect to litigation and regulatory contingencies and updates the Company's accruals, disclosures and reasonably possible losses or ranges of loss based on such reviews.

Litigation against the Company includes a case styled Healthcare Strategies, Inc., Plan Administrator of the Healthcare Strategies Inc. 401(k) Plan v. ING Life Insurance and Annuity Company (U.S.D.C. D. CT, filed February 22, 2011), which has been filed by the administrator of a 401(k) ERISA Plan who claims that the Company has entered into revenue sharing agreements with mutual funds and others in violation of the prohibited transaction rules of the Employee Retirement Income Act ("ERISA"). Among other things, Claimant seeks declaratory relief and the disgorgement of all revenue sharing payments and profits earned in connection with such payments, as well as attorney's fees. On January 26, 2012, Plaintiff filed a motion requesting to be allowed to represent a class of similarly situated ERISA Plans, which the court granted on September 26, 2012. The Company denies Claimant's allegations and is vigorously defending this litigation.

The regulatory examination of the Company's policy for addressing and correcting an error that is made when processing the trade instructions of an ERISA plan or one of its participants has been resolved. Under that policy, the Company absorbs any loss and retains any gain that results from such an error correction. The resolution will not have a material impact on the Company's results of operations or financial position.

## **14. Related Party Transactions**

### ***Operating Agreements***

ILIAC has certain agreements whereby it generates revenues and expenses with affiliated entities, as follows:

- Investment Advisory agreement with ING Investment Management LLC ("IIM"), an affiliate, in which IIM provides asset management, administrative and accounting services for ILIAC's general account. ILIAC incurs a fee, which is paid quarterly, based on the value of the assets under management. For the years ended December 31, 2012, 2011 and 2010, expenses were incurred in the amounts of \$27.0, \$22.8 and \$23.7, respectively.
- Services agreement with ING North America for administrative, management, financial and information technology services, dated January 1, 2001 and amended effective January 1, 2002. For the years ended December 31, 2012, 2011 and 2010, expenses were incurred in the amounts of \$183.5, \$180.6 and \$209.7, respectively.
- Services agreement between ILIAC and its U.S. insurance company affiliates for administrative, management, financial and information technology services, dated January 1, 2001 and amended effective January 1, 2002 and December 31, 2007. For the years ended December 31, 2012, 2011 and 2010, net expenses related to the agreement were incurred in the amount of \$30.8, \$29.8 and \$53.3, respectively.
- Service agreement with ING Institutional Plan Services, LLC ("IIPS") effective November 30, 2008 pursuant to which IIPS provides recordkeeper services to certain benefit plan clients of ILIAC. For the years ended December 31, 2012, 2011 and 2010, ILIAC's net earnings related to the agreement were in the amount of \$7.1, \$8.4 and \$2.2, respectively.
- Intercompany agreement with IIM pursuant to which IIM agreed, effective January 1, 2010, to pay the Company, on a monthly basis, a portion of the revenues IIM earns as investment adviser to certain U.S. registered investment companies that are investment options under certain of the Company's variable insurance products. For the years ended December 31, 2012, 2011 and 2010, revenue under the IIM intercompany agreement was \$26.2, \$24.7 and \$24.1, respectively.

Management and service contracts and all cost sharing arrangements with other affiliated companies are allocated in accordance with the Company's expense and cost allocation methods. Revenues and expenses recorded as a result of transactions and agreements with affiliates may not be the same as those incurred if the Company was not a wholly owned subsidiary of its Parent.

DSL has certain agreements whereby it generates revenues and expenses with affiliated entities, as follows:

- Underwriting and distribution agreements with ING USA Annuity and Life Insurance Company ("ING USA") and ReliaStar Life Insurance Company of New York ("RLNY"), affiliated companies as well as ILIAC, whereby DSL serves as the principal underwriter for variable insurance products and provides wholesale distribution services for mutual fund custodial products. In addition, DSL is authorized to enter into agreements with broker-dealers to distribute the variable insurance products and appoint representatives of the broker-dealers as agents. For the years ended December 31, 2012, 2011 and 2010, commissions were collected in the amount of \$225.5, \$218.3 and \$220.0, respectively. Such commissions are, in turn, paid to broker-dealers.
- Intercompany agreements with each of ING USA, ILIAC, IIPS, ReliaStar Life Insurance Company and Security Life of Denver Insurance Company (individually, the "Contracting Party") pursuant to which DSL agreed, effective January 1, 2010, to pay the Contracting Party, on a monthly basis, a portion of the revenues DSL earns as investment adviser to certain U.S. registered investment companies that are either investment option under certain variable insurance products of the Contracting Party or are purchased for certain customers of the Contracting Party. For the years ended December 31, 2012, 2011 and 2010, expenses were incurred under these intercompany agreements in the aggregate amount of \$212.3, \$207.9 and \$204.5, respectively.
- Service agreement with RLNY whereby DSL receives managerial and supervisory services and incurs a fee. For the years ended December 31, 2012, 2011 and 2010, expenses were incurred under this service agreement in the amount of \$3.2, \$3.2 and \$3.3, respectively.
- Administrative and advisory services agreements with ING Investment LLC and IIM, affiliated companies, in which DSL receives certain services for a fee. The fee for these services is calculated as a percentage of average assets of ING Investors Trust. For the years ended December 31, 2012, 2011 and 2010, expenses were incurred in the amounts of \$27.0, \$23.3 and \$19.8, respectively.

### ***Reinsurance Agreement***

Effective, December 31, 2012, the Company entered into an automatic reinsurance agreement with its affiliate, Security Life of Denver International Limited ("SLDI") to manage the reserve and capital requirements in connection with a portion of its deferred annuities business. Under the terms of the agreement, the Company will reinsure to SLDI, on an indemnity reinsurance basis, a quota share of its liabilities on the certain contracts. The quota share percentage with respect to the contracts that are delivered or issued for delivery in the State of New York will be 90% and the quota share percentage with respect to the contracts that are delivered or issued for delivery outside of the State of New York will be 100%. This agreement is accounted for under the deposit method of accounting and had an immaterial impact to the Consolidated Balance Sheets.

### ***Investment Advisory and Other Fees***

Effective January 1, 2007, ILIAC's investment advisory agreement to serve as investment advisor to certain variable funds offered in Company products (collectively, the "Company Funds"), was assigned to DSL. ILIAC is also compensated by the separate accounts for bearing mortality and expense risks pertaining to variable life and annuity contracts. Under the insurance and annuity contracts, the separate accounts pay ILIAC daily fees that, on an annual basis are, depending on the product, up to 3.4% of their average daily net assets. The total amount of compensation and fees received by the Company from the Company Funds and separate accounts totaled \$135.0, \$103.2 and \$246.1 (excludes fees paid to ING Investment Management Co.) in 2012, 2011 and 2010, respectively.

DSL has been retained by ING Investors Trust ("IIT"), an affiliate, pursuant to a management agreement to provide advisory, management, administrative and other services to IIT. Under the management agreement, DSL provides or arranges for the provision of all services necessary for the ordinary operations of IIT. DSL earns a monthly fee based on a percentage of average daily net assets of IIT. DSL has entered into an administrative services subcontract with ING Fund Services, LLC, an affiliate, pursuant to which ING Fund Services, LLC, provides certain management, administrative and other services to IIT and is compensated a portion of the fees received by DSL under the management agreement. In addition to being the investment advisor of the Trust, DSL is the investment advisor of ING Partners, Inc. (the "Fund"), an affiliate. DSL and the Fund have an investment advisory agreement, whereby DSL has overall responsibility to provide portfolio management services for the Fund. The Fund pays DSL a monthly fee which is based on a percentage of average daily net assets. For the years ended December 31, 2012, 2011 and 2010, revenue received by DSL under these agreements (exclusive of fees paid to affiliates) was \$370.6, \$323.2 and \$314.3, respectively. At December 31, 2012 and 2011, DSL had \$25.6 and \$22.9, respectively, receivable from IIT under the management agreement.

### ***Financing Agreements***

#### ***Reciprocal Loan Agreement***

The Company maintains a reciprocal loan agreement with ING U.S., Inc., an affiliate, to facilitate the handling of unanticipated short-term cash requirements that arise in the ordinary course of business. Under this agreement, which became effective in June 2001 and based upon its renewal on April 1, 2011 expires on April 1, 2016, either party can borrow from the other up to 3% of the Company's statutory admitted assets as of the preceding December 31. Interest on any Company borrowing is charged at the rate of ING U.S., Inc.'s cost of funds for the interest period, plus 0.15%. Interest on any ING U.S., Inc. borrowing is charged at a rate based on the prevailing interest rate of U.S. commercial paper available for purchase with a similar duration.

Under this agreement, the Company incurred an immaterial amount of interest expense for the years ended December 31, 2012, 2011 and 2010. The Company earned interest income of \$0.5, \$1.3 and \$0.9 for the years ended December 31, 2012, 2011 and 2010, respectively. Interest expense and income are included in Interest expense and Net investment income, respectively, on the Consolidated Statements of Operations. As of December 31, 2012, the Company did not have any outstanding receivable. As of December 31, 2011, the Company had an outstanding receivable of \$648.0 from ING U.S., Inc. under the reciprocal loan agreement.

During the second quarter of 2012, ING U.S., Inc. repaid the then outstanding receivable due under the reciprocal loan agreement from the proceeds of its \$5.0 billion Senior Unsecured Credit Facility which was entered into on April 20, 2012. The Company and ING U.S., Inc. continue to maintain the reciprocal loan agreement, and future borrowings by either party will be subject to the reciprocal loan terms summarized above.

**ING Life Insurance and Annuity Company and Subsidiaries**  
**(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)**  
**Notes to the Consolidated Financial Statements**  
(Dollar amounts in millions, unless otherwise stated)

---

*Note with Affiliate*

On December 29, 2004, ING USA issued a surplus note in the principal amount of \$175.0 (the "Note") scheduled to mature on December 29, 2034, to ILIAC. The Note bears interest at a rate of 6.26% per year. Interest is scheduled to be paid semi-annually in arrears on June 29 and December 29 of each year, commencing on June 29, 2005. Interest income was \$11.1 for each of the years ended December 31, 2012, 2011 and 2010.

***Alt-A Back-Up Facility***

On January 26, 2009, ING, for itself and on behalf of certain subsidiaries, including the Company, reached an agreement with the Dutch State on an Illiquid Asset Back Up Facility (the "Alt-A Back-up Facility") regarding Alt-A RMBS owned by certain subsidiaries of ING U.S., Inc., including the Company. Pursuant to this transaction, the Company transferred all risks and rewards on 80% of a \$1.1 billion par Alt-A RMBS portfolio to ING Support Holding B.V. ("ING Support Holding"), a wholly owned subsidiary of ING Group by means of the granting of a participation interest to ING Support Holding. ING and ING Support Holding entered into a back-to-back arrangement with the Dutch State on this 80%. As a result of this first transaction, the Company retained 20% of the exposure for any results on the \$1.1 billion Alt-A RMBS portfolio.

The purchase price for the participation payable by the Dutch State was set at 90% of the par value of the 80% interest in the securities as of that date. This purchase price was payable in installments, was recognized as a loan granted to the Dutch State with a value of \$794.4, and was recorded as Loan-Dutch State Obligation on the Consolidated Balance Sheets (the "Dutch State Obligation"). Under the transaction, other fees were payable by both the Company and the Dutch State. The Company incurred net fees of \$1.4, \$1.9 and \$2.3 in the years ended December 31, 2012, 2011 and 2010, respectively.

The Company executed a second transaction effective January 26, 2009, in which an additional \$5.0 par Alt-A RMBS portfolio owned by the Company were sold to ING Direct Bancorp. ING Direct Bancorp paid cash in the amount of \$3.6 for 80% of the Company's additional \$5.0 par Alt-A RMBS and included those purchased securities as part of its Alt-A RMBS portfolio sale to the Dutch State. ING Direct Bancorp paid cash in the amount of \$0.6 and retained the remaining 20% of this Alt-A RMBS portfolio.

On November 13, 2012, ING, all participating ING U.S., Inc. subsidiaries, including the Company, ING Support Holding and ING Bank N.V. ("ING Bank") entered into restructuring arrangements with the Dutch State, which closed the following day (the "Termination Agreement"). Pursuant to the restructuring transaction, the Company sold the Dutch State Obligation to ING Support Holding at fair value and transferred legal title to 80% of the securities subject to the Alt-A Back-up Facility to ING Bank. The restructuring resulted in an immaterial pre-tax loss. Following the restructuring transaction, the Company continues to own 20% of the Alt-A RMBS from the first transaction. The Company has the right to sell these securities, subject to a right of first refusal granted to ING Bank.

***Transfer of Registered Representatives***

On January 1, 2011, IFA transferred a group of registered representatives and their related customer accounts to its broker-dealer affiliate, ING Financial Partners, Inc. and received \$5.0 as consideration for the transfer. Effective January 1, 2011, IFA operates exclusively as a wholesale broker-dealer.
