FIRST INDUSTRIAL, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands)
(Unaudited)

1. Organization and Formation of Partnership

First Industrial, L.P. (the “Operating Partnership”) was organized as a limited partnership in the state of Delaware on November 23, 1993. The sole general partner is First Industrial Realty Trust, Inc. (the “Company”) with an approximate 85.3% ownership interest at June 30, 2003. The limited partners of the Operating Partnership own approximately a 14.7% interest in the Operating Partnership at June 30, 2003. The Company also owns a preferred general partnership interest in the Operating Partnership with an aggregate liquidation priority of \$250,000. The Company is a real estate investment trust (“REIT”) as defined in the Internal Revenue Code. The Company’s operations are conducted primarily through the Operating Partnership.

The Operating Partnership is the sole member of several limited liability companies (the “L.L.C.s”), the sole stockholder of First Industrial Development Services, Inc., and holds at least a 99% limited partnership interest in each of eight limited partnerships (together, the “Other Real Estate Partnerships”). The Operating Partnership, through separate wholly-owned limited liability companies in which it is the sole member, also owns minority equity interests in and provides asset and property management services to three joint ventures which invest in industrial properties (the “September 1998 Joint Venture”, the “September 1999 Joint Venture” and the “December 2001 Joint Venture”). In May 2003, the Operating Partnership, through separate wholly-owned limited liability companies in which it is the sole member, entered into a joint venture arrangement (the “May 2003 Joint Venture”) with an institutional investor to invest in industrial properties. As of June 30, 2003, the May 2003 Joint Venture did not own any industrial properties.

The general partners of the Other Real Estate Partnerships are separate corporations, each with at least a .01% general partnership interest in the Other Real Estate Partnerships for which it acts as a general partner. Each general partner of the Other Real Estate Partnerships is a wholly-owned subsidiary of the Company.

The financial statements of the Operating Partnership report the L.L.C.s and First Industrial Development Services, Inc. (the “Consolidated Operating Partnership”) on a consolidated basis. The Other Real Estate Partnerships, the September 1998 Joint Venture, the September 1999 Joint Venture and the December 2001 Joint Venture are accounted for under the equity method of accounting. As of June 30, 2003, the Consolidated Operating Partnership owned 777 in-service industrial properties containing an aggregate of approximately 50.4 million square feet of gross leasable area (“GLA”). On a combined basis, as of June 30, 2003, the Other Real Estate Partnerships owned 111 in-service industrial properties containing an aggregate of approximately 10.0 million square feet of GLA.

Profits, losses and distributions of the Operating Partnership, the L.L.C.s and the Other Real Estate Partnerships are allocated to the general partner and the limited partners, or the members, as applicable, in accordance with the provisions contained within the partnership agreements or ownership agreements, as applicable, of the Operating Partnership, the L.L.C.s and the Other Real Estate Partnerships.

2. Summary of Significant Accounting Policies

The accompanying unaudited interim financial statements have been prepared in accordance with the accounting policies described in the financial statements and related notes included in the Operating Partnership’s 2002 Form 10-K and should be read in conjunction with such financial statements and related notes. The following notes to these interim financial statements highlight significant changes to the notes included in the December 31, 2002 audited financial statements included in the Operating Partnership’s 2002 Form 10-K and present interim disclosures as required by the Securities and Exchange Commission.

In order to conform with generally accepted accounting principles, management, in preparation of the Consolidated Operating Partnership’s financial statements, is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of June 30, 2003 and December 31, 2002, and the reported amounts of revenues and

expenses for each of the six and three months ended June 30, 2003 and 2002, respectively. Actual results could differ from those estimates.

In the opinion of management, all adjustments consist of normal recurring adjustments necessary for a fair statement of the financial position of the Consolidated Operating Partnership as of June 30, 2003 and the results of its operations for each of the six and three months ended June 30, 2003 and 2002, respectively, and its cash flows for each of the six months ended June 30, 2003 and 2002, respectively.

Tenant Accounts Receivable, Net:

The Consolidated Operating Partnership provides an allowance for doubtful accounts against the portion of tenant accounts receivable which is estimated to be uncollectible. Tenant accounts receivable in the consolidated balance sheets are shown net of an allowance for doubtful accounts of approximately \$1,477 and \$1,707 as of June 30, 2003 and December 31, 2002, respectively.

Stock Incentive Plan:

Prior to January 1, 2003, the Consolidated Operating Partnership accounted for its stock incentive plans under the recognition and measurement principles of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25"). Under APB 25, compensation expense is not recognized for options issued in which the strike price is equal to the fair value of the Company's stock on the date of grant. Certain options issued in 2000 were issued with a strike price less than the fair value of the Company's stock on the date of grant. Compensation expense is being recognized for the intrinsic value of these options determined at the date of grant over the vesting period. On January 1, 2003, the Consolidated Operating Partnership adopted the fair value recognition provisions of the Financial Accounting Standards Board's ("FASB") Financial Accounting Standards No. 123, "Accounting for Stock Based Compensation" ("FAS 123"), as amended by Financial Accounting Standards No. 148, "Accounting for Stock-Based Compensation-Transition and Disclosure". The Consolidated Operating Partnership is applying the fair value recognition provisions of FAS 123 prospectively to all employee option awards granted after December 31, 2002. The Consolidated Operating Partnership has not awarded options to employees or directors of the Company during the six months ended June 30, 2003, therefore no stock-based employee compensation expense is included in net income available to common stockholders related to the fair value recognition provisions of FAS 123.

Discontinued Operations:

On January 1, 2002, the Consolidated Operating Partnership adopted the FASB’s Statement of Financial Accounting Standards No. 144, “Accounting for the Impairment or Disposal of Long Lived Assets” (“FAS 144”). FAS 144 addresses financial accounting and reporting for the disposal of long lived assets. FAS 144 requires that the results of operations and gains or losses on the sale of properties sold subsequent to December 31, 2001 as well as the results of operations from properties that are classified as held for sale at June 30, 2003 be presented in discontinued operations if both of the following criteria are met: (a) the operations and cash flows of the property have been (or will be) eliminated from the ongoing operations of the Consolidated Operating Partnership as a result of the disposal transaction and (b) the Consolidated Operating Partnership will not have any significant continuing involvement in the operations of the property after the disposal transaction. FAS 144 also requires prior period results of operations for these properties to be restated and presented in discontinued operations in prior consolidated statements of operations.

Recent Accounting Pronouncements:

In January 2003, the FASB issued Financial Accounting Standards Interpretation No. 46, “Consolidation of Variable Interest Entities — an interpretation of ARB No. 51” (“FIN 46”). FIN 46 addresses consolidation by business enterprises of special purpose entities (“SPEs”) to which the usual condition for consolidation described in Accounting Research Bulletin No. 51 does not apply because the SPEs have no voting interests or otherwise are not subject to control through ownership of voting interests. For Variable Interest Entities created before February 1, 2003, the provisions of FIN 46 are effective no later than the beginning of the first interim or annual reporting period that starts after June 15, 2003. For Variable Interest Entities created after January 31, 2003, the provisions of FIN 46 are effective immediately. The Consolidated Operating Partnership is currently assessing its joint venture arrangements to determine if the adoption of FIN 46 will require the Consolidated Operating Partnership to consolidate the assets, liabilities and results of operations of any of its joint ventures.

2. Summary of Significant Accounting Policies, continued

In April 2003, the FASB issued Statement of Financial Accounting Standards No. 149, “Amendment of Statement 133 on Derivative Instruments and Hedging Activities” (“FAS 149”). This statement amends and clarifies financial accounting and reporting for derivative instruments and for hedging activities under FAS 133, “Accounting for Derivative Instruments and Hedging Activities.” This statement is effective for certain contracts entered into or modified after June 30, 2003 and for certain hedging relationships designated after June 30, 2003. FAS 149 does not have a material effect on the Consolidated Operating Partnership’s consolidated financial position, liquidity, and results of operations.

In May 2003, the FASB issued Statement of Financial Accounting Standards No. 150, “Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity” (“FAS 150”). This statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. This statement is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective August 1, 2003 for the Consolidated Operating Partnership. The Consolidated Operating Partnership does not expect this statement to have an impact on the Consolidated Operating Partnership’s consolidated financial position, liquidity, and results of operations.

In July 2003, the Securities and Exchange Commission (the “SEC”) issued a clarification on Emerging Issues Task Force (“EITF”) Abstract, Topic No. D 42, “The Effect on the Calculation of Earnings per Share for the Redemption or Induced Conversion of Preferred Stock” (“EITF 42”). This clarification of EITF 42, states for the purpose of calculating the excess of (1) fair value of the consideration transferred to the holders of the preferred stock over (2) the carrying amount of the preferred stock in the balance sheet, the carrying amount of the preferred stock should be reduced by the issuance costs of the preferred stock. This clarification is effective in the first fiscal period ending September 15, 2003 and requires prior periods presented to be restated. Pursuant to EITF 42, the Consolidated Operating Partnership expects to restate net income available to unitholders and net income available to unitholders per unit for the six months ended June 30, 2002 and for the year ended December 31, 2002 by reducing net income available to unitholders for the issuance costs related to the redemption of the Consolidated Operating Partnership’s 8.75%, \$.01 par value, Series B Cumulative Preferred Units (the “Series B Preferred Units”) on May 14, 2002. Net income available to unitholders and net income available to unitholders per unit will be restated as follows:

Reclassifications:

On January 1, 2003, the Consolidated Operating Partnership adopted the FASB’s Statement of Financial Accounting Standard No. 145, “Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections” (“FAS 145”). FAS 145 rescinds FAS 4, FAS 44 and FAS 64 and amends FAS 13 to modify the accounting for sales-leaseback transactions. FAS 4 required the classification of gains and losses resulting from extinguishment of debt to be classified as extraordinary items. Pursuant to the adoption of FAS 145, the Consolidated Operating Partnership reclassified amounts shown as extraordinary for the six and three months ended June 30, 2002 to continuing operations.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands)
(Unaudited)

11. Commitments and Contingencies

In the normal course of business, the Consolidated Operating Partnership is involved in legal actions arising from the ownership of its properties. In management's opinion, the liabilities, if any, that may ultimately result from such legal actions are not expected to have a materially adverse effect on the consolidated financial position, operations or liquidity of the Consolidated Operating Partnership.

The Consolidated Operating Partnership has committed to the construction of 29 development projects totaling approximately 2.6 million square feet of GLA for an estimated investment of approximately \$151.5 million. Of this amount, approximately \$24.2 million remains to be funded. These developments are expected to be funded with proceeds from the sale of select properties, cash flows from operations and borrowings under the Consolidated Operating Partnership's 2002 Unsecured Line of Credit. The Consolidated Operating Partnership expects to place in service all of the development projects during the next twelve months. There can be no assurance that the Consolidated Operating Partnership will place these projects in service during the next twelve months or that the actual completion cost will not exceed the estimated completion cost stated above.

12. Subsequent Events

From July 1, 2003 to August 1, 2003, the Consolidated Operating Partnership acquired seven industrial properties for an aggregate purchase price of approximately \$17,846, excluding costs incurred in conjunction with the acquisition of these industrial properties. The Consolidated Operating Partnership also sold two industrial properties for approximately \$2,834 of gross proceeds.

On July 21, 2003, the Operating Partnership paid a second quarter 2003 distribution of \$.6850 per Unit, totaling approximately \$31,607.

This report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). The Operating Partnership intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and is including this statement for purposes of complying with these safe harbor provisions. The Operating Partnership’s ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse effect on the operations and future prospects of the Operating Partnership on a consolidated basis include, but are not limited to, changes in: economic conditions generally and the real estate market specifically, legislative/regulatory changes (including changes to laws governing the taxation of real estate investment trusts), availability of financing, interest rate levels, competition, supply and demand for industrial properties in the Operating Partnership’s current and proposed market areas, potential environmental liabilities, slippage in development or lease-up schedules, tenant credit risks, higher-than-expected costs and changes in general accounting principles, policies and guidelines applicable to real estate investment trusts. These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. Further information concerning the Operating Partnership and its business, including additional factors that could materially affect the Operating Partnership’s financial results, is included herein and in the Operating Partnership’s other filings with the Securities and Exchange Commission.

The Operating Partnership was organized as a limited partnership in the state of Delaware on November 23, 1993. The sole general partner of the Operating Partnership is First Industrial Realty Trust, Inc. (the “Company”) with an approximate 85.3% ownership interest at June 30, 2003. The limited partners of the Operating Partnership own, in the aggregate, approximately a 14.7% interest in the Operating Partnership at June 30, 2003. The Consolidated Operating Partnership also took 15 industrial properties out of service that are under redevelopment comprising approximately 2.8 million square feet of GLA and placed in-service four industrial properties comprising approximately .4 million square feet of GLA. During the period between July 1, 2002 and June 30, 2003, the Consolidated Operating Partnership contributed two properties comprising approximately .1 million square feet of GLA to First Industrial Harrisburg, L.P. and contributed one property comprising approximately .1 million square feet of GLA to First Industrial Financing, L.P.

Comparison of Six Months Ended June 30, 2003 to Six Months Ended June 30, 2002

Rental income and tenant recoveries and other income increased by approximately \$6.9 million or 5.0% for the six months ended June 30, 2003 as compared to the six months ended June 30, 2002 due primarily to industrial properties acquired or developed subsequent to December 31, 2001, partially offset by a decrease in average occupied GLA for the six months ended June 30, 2003 as compared to the six months ended June 30, 2002. Rental income and tenant recoveries and other income from in-service industrial properties owned prior to January 1, 2002 decreased by approximately \$5.3 million or 4.2% due primarily to a decrease in average occupied GLA for the six months ended June 30, 2003 as compared to the six months ended June 30, 2002.

Property expenses, which include real estate taxes, repairs and maintenance, property management, utilities, insurance and other expenses increased by approximately \$5.8 million or 13.2% for the six months ended June 30, 2003 as compared to the six months ended June 30, 2002. This increase is due primarily to an increase in same store property expenses as discussed below and an increase in property expenses due to industrial properties acquired subsequent to December 31, 2001. Property expenses from in-service industrial properties owned prior to January 1, 2002 increased by approximately \$2.0 million or 5.1% due primarily to an increase in repairs and maintenance expense, utilities expense and insurance expense, partially offset by a decrease in real estate tax expense. The increase in repairs and maintenance is due primarily to an increase in maintenance and related expenses as well as an increase in snow removal and related expenses in certain of the Consolidated Operating Partnership’s markets. The increase in utilities expense is due to an increase in gas and electricity expenses. The increase in insurance is due primarily to an increase in insurance premiums. The decrease in real estate tax expense is due to a decrease in real estate taxes in certain of the Consolidated Operating Partnership’s markets.

General and administrative expense increased by approximately \$3.8 million due primarily to an increase in employees and employee compensation.

Interest expense increased by approximately \$6.4 million for the six months ended June 30, 2003 compared to the six months ended June 30, 2002 due primarily to a higher average debt balance outstanding for the six months ended June 30, 2003 compared to the six months ended June 30, 2002 as well as a decrease in capitalized interest due to a decrease in development activities. The average debt balance outstanding for the six months ended June 30, 2003 and 2002 was approximately \$1,444.5 million and \$1,352.3 million, respectively. This was slightly offset by a decrease in the weighted average

interest rate on the Consolidated Operating Partnership’s outstanding debt for the six months ended June 30, 2003 (6.72%) as compared to the six months ended June 30, 2002 (6.83%).

Amortization of deferred financing costs remained relatively unchanged.

Depreciation and other amortization increased by approximately \$4.0 million due primarily to additional depreciation and amortization recognized for properties acquired subsequent to December 31, 2001.

The approximate \$.9 million loss from early retirement of debt for the six months ended June 30, 2002 is due to the early retirement of senior unsecured debt. The loss from early retirement of debt is comprised of the amount paid above the carrying amount of the senior unsecured debt, the write-off of unamortized deferred financing fees and legal costs.

Equity in income of Other Real Estate Partnerships decreased by approximately \$7.8 million due primarily to a decrease in gain on sale of real estate for the six months ended June 30, 2003 as compared to the six months ended June 30, 2002, partially offset by an approximate \$10.7 million lease termination fee received from a tenant during the six months ended June 30, 2003.

Equity in income of joint ventures decreased by approximately \$.1 million due primarily to the Consolidated Operating Partnership recognizing its proportionate share of the loss on sale of real estate of one of the Consolidated Operating Partnership’s joint ventures as well as its proportionate share of the decrease in net income in two of the Consolidated Operating Partnership’s joint ventures due to properties sold subsequent to December 31, 2001, partially offset by the Consolidated Operating Partnership recognizing its proportionate share in the increase in net income of one of the Consolidated Operating Partnership’s joint ventures due to properties acquired subsequent to December 31, 2001.

The \$2.7 million gain on sale of real estate for the six months ended June 30, 2003 resulted from the sale of three industrial properties and several land parcels that do not meet the criteria established by the Financial Accounting Standards Board’s Statement of Financial Accounting Standards No. 144, “Accounting for the Impairment or Disposal of Long Lived Assets” (“FAS 144”) for inclusion in discontinued operations. Gross proceeds from these sales were approximately \$23.4 million.

The \$9.8 million gain on sale of real estate for the six months ended June 30, 2002 resulted from the sale of 15 industrial properties and several land parcels that do not meet the criteria established by FAS 144 for inclusion in discontinued operations. Gross proceeds from these sales were approximately \$64.8 million.

Income from discontinued operations of approximately \$34.3 million for the six months ended June 30, 2003 reflects the results of operations and gain on sale of real estate of 40 industrial properties that were sold during the six months ended June 30, 2003 as well as the results of operations of five industrial properties held for sale at June 30, 2003. Gross proceeds from the sales of the 40 industrial properties were approximately \$108.7 million, resulting in a gain on sale of real estate of approximately \$32.8 million.

Gross proceeds from the sales of the 25 industrial properties were approximately \$75.4 million, resulting in a gain on sale of real estate of approximately \$6.7 million.

Comparison of Three Months Ended June 30, 2003 to Three Months Ended June 30, 2002

Rental income and tenant recoveries and other income increased by approximately \$3.0 million or 4.3% for the three months ended June 30, 2003 as compared to the three months ended June 30, 2002 due primarily to industrial properties acquired or developed subsequent to March 31, 2002, partially offset by a decrease in average occupied GLA for the three months ended June 30, 2003 as compared to the three months ended June 30, 2002. Rental income and tenant recoveries and other income from in-service industrial properties owned prior to April 1, 2002 decreased by approximately \$3.3 million or 5.2%

due primarily to a decrease in average occupied GLA for the three months ended June 30, 2003 as compared to the three months ended June 30, 2002 as well as a decrease in tenant recoveries due to a decrease in property expenses (as discussed below) for the three months ended June 30, 2003.

Property expenses, which include real estate taxes, repairs and maintenance, property management, utilities, insurance and other expenses increased by approximately \$1.2 million or 5.0% for the three months ended June 30, 2003 as compared to the three months ended June 30, 2002. This increase is due primarily to an increase in property expenses due to industrial properties acquired subsequent to March 31, 2002, partially offset by a decrease in property expenses from in-service industrial properties owned prior to April 1, 2002. Property expenses from in-service industrial properties owned prior to April 1, 2002 decreased by approximately \$.8 million or 4.0% due primarily to a decrease in real estate tax expense, slightly offset by an increase in insurance expense.

General and administrative expense increased by approximately \$2.3 million due primarily to an increase in employees and employee compensation.

Interest expense increased by approximately \$1.7 million for the three months ended June 30, 2003 compared to the three months ended June 30, 2002 due primarily to a higher average debt balance outstanding for the three months ended June 30, 2003 compared to the three months ended June 30, 2002 as well as a decrease in capitalized interest due to a decrease in development activities. The average debt balance outstanding for the three months ended June 30, 2003 and 2002 was approximately \$1,453.6 million and \$1,396.7 million, respectively. This was slightly offset by a decrease in the weighted average interest rate on the Consolidated Operating Partnership's outstanding debt for the three months ended June 30, 2003 (6.66%) as compared to the three months ended June 30, 2002 (6.96%).

Amortization of deferred financing costs remained relatively unchanged.

The approximate \$.9 million loss from early retirement of debt for the three months ended June 30, 2002 is due to the early retirement of senior unsecured debt. The loss from early retirement of debt is comprised of the amount paid above the carrying amount of the senior unsecured debt, the write-off of unamortized deferred financing fees and legal costs.

Depreciation and other amortization increased by approximately \$2.2 million due primarily to additional depreciation and amortization recognized for industrial properties acquired subsequent to March 31, 2002.

Equity in income of Other Real Estate Partnerships decreased by approximately \$9.6 million due primarily to a decrease in gain on sale of real estate for the six months ended June 30, 2003 as compared to the six months ended June 30, 2002.

Equity in income of joint ventures decreased by approximately \$.1 million due primarily to the Consolidated Operating Partnership recognizing its proportionate share of the loss on sale of real estate of one of the Consolidated Operating Partnership's joint ventures as well as its proportionate share of the decrease in net income in two of the Consolidated Operating Partnership's joint ventures due to industrial properties sold subsequent to March 31, 2002, partially offset by the Consolidated Operating Partnership recognizing its proportionate share in the increase in net income of one of the Consolidated Operating Partnership's joint ventures due to industrial properties acquired subsequent to March 31, 2002.

The \$1.4 million gain on sale of real estate for the three months ended June 30, 2003 resulted from the sale of two industrial properties and several land parcels that do not meet the criteria established by FAS 144 for inclusion in discontinued operations. Gross proceeds from these sales were approximately \$14.8 million.

Six Months Ended June 30, 2002

Net cash provided by operating activities of approximately \$69.1 million for the six months ended June 30, 2002 was comprised primarily of net income of approximately \$69.6 million and adjustments for non-cash items of approximately \$18.8 million, offset by the net change in operating assets and liabilities of approximately \$19.3 million. The Acquisition Mortgage Loan X is collateralized by one property in Hagerstown, Maryland, bears interest at a fixed rate of 8.25% and provides for monthly principal and interest payments based on a 30-year amortization schedule. The Acquisition Mortgage Loan X matures on December 1, 2010. In conjunction with the assumption of the Acquisition Mortgage Loan X, the Consolidated Operating Partnership recorded a premium in the amount of \$2.9 million which will be amortized over the remaining life of the Acquisition Mortgage Loan X as an adjustment to interest expense.

Market Risk

The following discussion about the Consolidated Operating Partnership’s risk-management activities includes “forward-looking statements” that involve risk and uncertainties. Actual results could differ materially from those projected in the forward-looking statements.

This analysis presents the hypothetical gain or loss in earnings, cash flows or fair value of the financial instruments and derivative instruments which are held by the Consolidated Operating Partnership at June 30, 2003 that are sensitive to changes in the interest rates. While this analysis may have some use as a benchmark, it should not be viewed as a forecast.

In the normal course of business, the Consolidated Operating Partnership also faces risks that are either non-financial or non-quantifiable. Such risks principally include credit risk and legal risk and are not represented in the following analysis.

At June 30, 2003, approximately \$1,298.5 million (approximately 89.5% of total debt at June 30, 2003) of the Consolidated Operating Partnership's debt was fixed rate debt (included in the fixed rate debt is \$50.0 million of borrowings under the Consolidated Operating Partnership's 2002 Unsecured Line of Credit for which the Consolidated Operating Partnership fixed the interest rate via the interest rate swap agreements) and approximately \$152.6 million (approximately 10.5% of total debt at June 30, 2003) was variable rate debt. The Consolidated Operating Partnership also had outstanding a written put option (the "Written Option") which was issued in conjunction with the initial offering of one tranche of senior unsecured debt. Currently, the Consolidated Operating Partnership does not enter into financial instruments for trading or other speculative purposes.

For fixed rate debt, changes in interest rates generally affect the fair value of the debt, but not earnings or cash flows of the Consolidated Operating Partnership. Conversely, for variable rate debt, changes in the interest rate generally do not impact the fair value of the debt, but would affect the Consolidated Operating Partnership's future earnings and cash flows. The interest rate risk and changes in fair market value of fixed rate debt generally do not have a significant impact on the Consolidated Operating Partnership until the Consolidated Operating Partnership is required to refinance such debt. See Note 5 to the consolidated financial statements for a discussion of the maturity dates of the Consolidated Operating Partnership's various fixed rate debt.

Based upon the amount of variable rate debt outstanding at June 30, 2003, a 10% increase or decrease in the interest rate on the Consolidated Operating Partnership's variable rate debt would decrease or increase, respectively, future net income and cash flows by approximately \$.3 million per year. A 10% increase in interest rates would decrease the fair value of the fixed rate debt at June 30, 2003 by approximately \$48.1 million to \$1,428.2 million. A 10% decrease in interest rates would increase the fair value of the fixed rate debt at June 30, 2003 by approximately \$51.8 million to \$1,528.1 million. A 10% increase in interest rates would decrease the fair value of the Written Option at June 30, 2003 by approximately \$2.3 million to \$17.8 million. A 10% decrease in interest rates would increase the fair value of the Written Option at June 30, 2003 by approximately \$2.5 million to \$22.6 million.

General Partnership and Limited Partnership Unit Contributions, Employee Stock Options and Restricted Stock

The Operating Partnership has issued Units. The general partnership units resulted from capital contributions from the Company. The limited partnership units are issued in conjunction with the acquisition of certain properties.

Unit Contributions:

During the six months ended June 30, 2003, the Company awarded 692,888 shares of restricted common stock to certain employees and 2,129 shares of restricted common stock to certain Directors. The Operating Partnership issued Units to the Company in the same amount. These shares of restricted common stock had a fair value of approximately \$20.3 million on the date of grant. The restricted common stock vests over periods from one to ten years. Compensation expense will be charged to earnings over the respective vesting periods.

During the six months ended June 30, 2003, certain employees exercised 122,676 non-qualified employee stock options. Net proceeds to the Company were approximately \$3.0 million. The Consolidated Operating Partnership, through the Operating Partnership, issued Units to the Company in the same amount.

Distributions:

On January 27, 2003, the Operating Partnership paid a fourth quarter 2002 distribution of \$.6850 per Unit, totaling approximately \$31.1 million. On April 21, 2003, the Operating Partnership paid a first quarter 2003 distribution of \$.6850 per Unit, totaling approximately \$31.5 million.

On March 31, 2003 and June 30, 2003, the Operating Partnership paid first and second quarter 2003 distributions of \$53.906 per Unit on its 8 5/8% Series C Cumulative Preferred Units (the “Series C Preferred Units”), \$49.688 per Unit on its 7.95% Series D Cumulative Preferred Units (the “Series D Preferred Units”) and \$49.375 per Unit on its 7.90% Series E Cumulative Preferred Units (the “Series E Preferred Units”). The preferred unit distributions paid on March 31, 2003 and June 30, 2003 totaled, in the aggregate, approximately \$5.0 million, respectively.

Purchase of Units:

During the six months ended June 30, 2003, the Company repurchased 37,300 shares of its common stock at a weighted average price per share of approximately \$26.73. The Operating Partnership purchased general partnership Units from the Company in the same amount.

Subsequent Events

From July 1, 2003 to August 1, 2003, the Consolidated Operating Partnership acquired seven industrial properties for an aggregate purchase price of approximately \$17.8 million, excluding costs incurred in conjunction with the acquisition of these industrial properties. The Consolidated Operating Partnership also sold two industrial properties for approximately \$2.8 million of gross proceeds.

On July 21, 2003, the Operating Partnership paid a second quarter 2003 distribution of \$.6850 per Unit, totaling approximately \$31.6 million.

Short-Term and Long-Term Liquidity Needs

The Consolidated Operating Partnership has considered its short-term (one year or less) liquidity needs and the adequacy of its estimated cash flow from operations and other expected liquidity sources to meet these needs. The Consolidated Operating Partnership believes that its principal short-term liquidity needs are to fund normal recurring expenses, debt service requirements and the minimum distribution required by the Company to maintain the Company’s REIT qualification under the Internal Revenue Code. The Consolidated Operating Partnership anticipates that these needs will be met with cash flows provided by operating activities.

The Consolidated Operating Partnership expects to meet long-term (greater than one year) liquidity requirements such as property acquisitions, developments, scheduled debt maturities, major renovations, expansions and other nonrecurring capital improvements through the disposition of select assets, long-term unsecured indebtedness and the issuance of additional Units and preferred units. As of June 30, 2003 and August 1, 2003, \$250.0 million of debt securities was registered and unissued under the Securities Act of 1933, as amended. The Consolidated Operating Partnership also may finance the development or acquisition of additional properties through borrowings under the 2002 Unsecured Line of Credit. At June 30, 2003, borrowings under the 2002 Unsecured Line of Credit bore interest at a weighted average interest rate of 2.345%. The 2002 Unsecured Line of Credit bears interest at a floating rate of LIBOR plus .70%, or the Prime Rate, at the Company’s election. As of August 1, 2003, the Consolidated Operating Partnership, through the Operating Partnership, had approximately \$45.2 million available for additional borrowings under the 2002 Unsecured Line of Credit.

Other

In January 2003, the FASB issued Financial Accounting Standards Interpretation No. 46, “Consolidation of Variable Interest Entities — an interpretation of ARB No. 51” (“FIN 46”). FIN 46 addresses consolidation by business enterprises of special purpose entities (“SPEs”) to which the usual condition for consolidation described in Accounting Research Bulletin No. 51 does not apply because the SPEs have no voting interests or otherwise are not subject to control through ownership of voting interests. For Variable Interest Entities created before February 1, 2003, the provisions of FIN 46 are effective no later than the beginning of the first interim or annual reporting period that starts after June 15, 2003. For Variable Interest Entities created after January 31, 2003, the provisions of FIN 46 are effective immediately. The Consolidated Operating Partnership is currently assessing its joint venture arrangements to determine if the adoption of FIN 46 will require the Consolidated Operating Partnership to consolidate the assets, liabilities and results of operations of any of its joint ventures.

In April 2003, the FASB issued Statement of Financial Accounting Standards No. 149, “Amendment of Statement 133 on Derivative Instruments and Hedging Activities” (“FAS 149”). This statement amends and clarifies financial accounting and reporting for derivative instruments and for hedging activities under FAS 133, “Accounting for Derivative Instruments and Hedging Activities.” This statement is effective for certain contracts entered into or modified after June 30, 2003 and for certain hedging relationships designated after June 30, 2003. FAS 149 does not have a material effect on the Consolidated Operating Partnership’s consolidated financial position, liquidity, and results of operations.

In May 2003, the FASB issued Statement of Financial Accounting Standards No. 150, “Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity” (“FAS 150”). This statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. This statement is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective August 1, 2003 for the Consolidated Operating Partnership. The Consolidated Operating Partnership does not expect this statement to have an impact on the Consolidated Operating Partnership’s consolidated financial position, liquidity, and results of operations.

In July 2003, the Securities and Exchange Commission (the “SEC”) issued a clarification on Emerging Issues Task Force (“EITF”) Abstract, Topic No. D 42, “The Effect on the Calculation of Earnings per Share for the Redemption or Induced Conversion of Preferred Stock” (“EITF 42”). This clarification of EITF 42, states for the purpose of calculating the excess of (1) fair value of the consideration transferred to the holders of the preferred stock over (2) the carrying amount of the preferred stock in the balance sheet, the carrying amount of the preferred stock should be reduced by the issuance costs of the preferred stock. This clarification is effective in the first fiscal period ending September 15, 2003 and requires prior periods presented to be restated. Pursuant to EITF 42, the Consolidated Operating Partnership expects to restate net income available to unitholders and net income available to unitholders per unit for the six months ended June 30, 2002 and for the year ended December 31, 2002 by reducing net income available to unitholders for the issuance costs related to the redemption of the Series B Preferred Units on May 14, 2002. Net income available to unitholders and net income available to unitholders per unit will be restated as follows:

| | Six Months Ended June 30, 2002 | Year Ended December 31, 2002 |
|--|--------------------------------------|------------------------------------|
| Net Income Available to Unitholders | | |
| - For Basic and Diluted EPU, as reported | \$ 56,251 | \$ 112,986 |

| Net Income Available to Unitholders | | |
| - For Basic and Diluted EPU, as restated | \$ 52,544 | \$ 109,279 |
| Basic EPU: | | |
| Net Income Available to Unitholders, as reported | \$ 1.22 | \$ 2.45 |
| Net Income Available to Unitholders, as restated | \$ 1.14 | \$ 2.37 |
| Diluted EPU: | | |
| Net Income Available to Unitholders, as reported | \$ 1.21 | \$ 2.44 |
| Net Income Available to Unitholders, as restated | \$ 1.13 | \$ 2.36 |
