Report of Independent Registered Public Accounting Firm

To Management of VALIC Financial Advisors, Inc.

In our opinion, the accompanying statement of financial condition and the related statements of operations, changes in stockholder's equity, and cash flows present fairly, in all material respects, the financial position of VALIC Financial Advisors, Inc. (the "Company") as of December 31, 2016, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The accompanying Schedule I is supplemental information required by Rule 17a-5 under the Securities Exchange Act of 1934. The supplemental information is the responsibility of the Company's management. The supplemental information has been subjected to audit procedures performed in conjunction with the audit of the Company's financial statements. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with Rule 17a-5 under the Securities Exchange Act of 1934. In our opinion, the information contained within Schedule I is fairly stated, in all material respects, in relation to the financial statements as a whole.

VALIC Financial Advisors, Inc.
Notes to Financial Statements
December 31, 2016

1. Organization and Nature of Operations

VALIC Financial Advisors, Inc. (the “Company” or “VFA”), is a wholly owned subsidiary of The Variable Annuity Life Insurance Company (“VALIC” or “Parent”), an indirect, wholly owned subsidiary of American International Group, Inc. (“AIG”). The Company was incorporated on November 18, 1996 and was established to engage in the offering of mutual funds and insurance products to customers. The Company is registered with the Securities and Exchange Commission (“SEC”) as a broker-dealer under the Securities Exchange Act of 1934, and is a member of the Financial Industry Regulatory Authority (“FINRA”) and the Securities Investor Protection Corporation. The Company is also registered with the SEC as a registered investment advisor. The Company does not hold customer funds or securities for customers, but operates as an introducing broker-dealer on a fully disclosed basis and forwards some transactions to a clearing broker-dealer. For transactions not forwarded to a clearing broker-dealer, the Company forwards the transactions directly to the appropriate fund company.

The Company is a party to a selling agreement with AIG Capital Services, Inc. (“ACS”), an indirect, wholly owned subsidiary of AIG, whereby the Company may offer and sell shares of mutual funds advised by SunAmerica Asset Management, LLC, also an indirect, wholly owned subsidiary of AIG.

The Company is a party to selling and agency agreements with American General Life Insurance Company (“AGL”), an indirect, wholly owned subsidiary of AIG, whereby the Company may offer and sell fixed and variable annuity products and other life insurance products issued by AGL.

The Company is a party to a selling agreement with The United States Life Insurance Company in the City of New York (“USL”), an indirect, wholly owned subsidiary of AIG, whereby the Company may offer and sell fixed and variable annuity products issued by USL in the State of New York.

2. Significant Accounting Policies

Use of Estimates

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”). The preparation of financial statements requires management to make estimates and assumptions that effect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

The Company is included in the consolidated federal income tax return and certain consolidated state income tax returns filed by AIG. Where the Company does not file a consolidated tax return with AIG, the Company files its own state and local tax returns. Federal income taxes are calculated as if the Company filed on a separate return basis and the amount of current tax provision or benefit calculated is either remitted to or received from AIG. The amount of current and deferred taxes payable or refundable is recognized as of the date of the financial statements, utilizing currently enacted tax laws and rates. Deferred tax expenses or benefits are recognized in the financial statements for the changes in deferred tax liabilities or assets between years. At December 31, 2016, the current federal income taxes receivable from an affiliate was \$1,761,000, and the deferred federal income taxes receivable from an affiliate was \$271,000. At December 31, 2016, the deferred state income taxes receivable was \$4,000 and the current state taxes receivable was \$295,000.

VALIC Financial Advisors, Inc.
Notes to Financial Statements
December 31, 2016

Cash and Cash Equivalents

Cash of \$31,000 at December 31, 2016 was deposited in financial institutions that at times exceeds federally insured amounts. Management believes that the risk of loss is minimal due to its assessment of the credit worthiness and financial viability of the respective financial institutions.

Cash equivalents of \$43,067,000 at December 31, 2016 consist of a money market fund with the Bank of New York. The Company considers this investment a cash equivalent due to its having an original maturity of three months or less.

Dealer Concession Revenue

Dealer concession revenue represents concessions paid to the Company for sales of front-end load mutual funds, variable annuities, and various financial service products to retail customers. Revenues are recorded on a trade-date basis.

Service Fee Income

The Company receives service fee income, under section 12b-1 of the Investment Company Act of 1940, from various mutual fund companies and ACS, with which it has entered into certain selling agreements. Fees are recorded on an accrual basis.

Advisory Service Fees

Advisory service fees represents fees paid to the Company for investment advisory services provided to customers by the Company's registered representatives. Fees are recorded on an accrual basis.

Fair Value Measurements

In accordance with the authoritative guidance on fair value measurements and disclosures under US GAAP, the Company discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to valuations based upon unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to valuations based upon unobservable inputs that are significant to the valuation (level 3 measurements). The guidance establishes three levels of the fair value hierarchy as follows:

Level 1: Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date;

Level 2: Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active;

Level 3: Inputs that are unobservable.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires management judgment. Management considers observable data to be market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Management has determined that the fair value of the Company's money market funds held are equivalent to the carrying amount as presented in the financial statements and are classified as a Level 1 security.

VALIC Financial Advisors, Inc.
Notes to Financial Statements
December 31, 2016

There were no Level 2 or Level 3 securities at December 31, 2016. During 2016, there were no transfers of securities between levels.

Recently Issued Accounting Standards

In August 2014, the Financial Accounting Standards Board issued guidance on management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures. The standard was effective in 2016 and had no impact to the Company's financial statements.

In January 2016, the FASB issued ASU 2016-1, Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Liabilities. In addition to certain measurement changes, the guidance addresses various disclosure and presentation issues related to financial instruments. For public entities, this update is effective for fiscal years beginning after December 15, 2017 with early application permitted. The adoption of this update is not expected to have a material impact on the Company's financial statements.

In May 2014, the Financial Accounting Standards Board issued an accounting standard that supersedes most existing revenue recognition guidance. The standard excludes from its scope the accounting for insurance contracts, leases, financial instruments, and other agreements that are governed under other US GAAP guidance, but affects the revenue recognition for certain of the Company's other activities.

The standard is effective for interim and annual reporting periods beginning after December 15, 2017 and may be applied retrospectively or through a cumulative effect adjustment to retained earnings at the date of adoption. Early adoption is permitted. The Company plans to adopt the standard on the required effective date of January 1, 2018 and is assessing the impact of the standard on the Company's financial condition, results of operations, and cash flows.

In February 2016, the FASB issued amended guidance on the accounting for lease transactions. The primary objective of this update is to increase the transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. The guidance is effective for periods beginning after December 15, 2019. The Company is assessing the impact of this guidance and currently believes adoption will not impact the financial statement amounts.

In June 2016, the FASB issued new guidance amending the current incurred loss impairment methodology. The new standard amends the methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. The guidance is effective for periods beginning after December 15, 2019. The Company is assessing the impact of this guidance and currently believes adoption will not impact the financial statement amounts.

3. Accounts Receivable, Dealer Concession Receivable, Advisory Service Fee Receivable, and Service Fee Receivables

Amounts due to the Company at December 31, 2016 consisted of fees and commissions from the Company's clearing broker. These receivables are short term in nature; therefore, the carrying value approximates fair value.

VALIC Financial Advisors, Inc.
Notes to Financial Statements
December 31, 2016

4. Deposits Held by Clearing Broker

Under the terms of the clearing agreement between the Company and the clearing broker, the Company is required to maintain a level of cash or securities on deposit with the clearing broker. Should the clearing broker suffer a loss due to failure of a customer of the Company to complete the transaction, the Company is required to indemnify the clearing broker. The Company has funds on deposit with the clearing broker to meet this requirement. As of December 31, 2016, there were no amounts owed to the clearing broker.

5. Regulatory

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (the rule of the applicable exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1). The Company is required to maintain minimum net capital equal to the greater of \$50,000 or $6\frac{2}{3}\%$ of aggregate indebtedness.

At December 31, 2016, the Company had net capital of \$25,463,000, which was \$24,201,000 in excess of its required net capital of \$1,262,000. The ratio of aggregate indebtedness to net capital is .744 to 1. See Schedule I.

The Company claims exemption from the computation for determination of reserve requirements under paragraph (k)(2)(ii) of rule 15c3-3.

The Company claims exemption from the possession or control requirements under paragraph (k)(2)(ii) of rule 15c3-3.

6. Transactions With Affiliates

During 2016, the Company paid dividends to VALIC of \$47,000,000.

Salaries, employee benefits and commission expenses associated with VALIC's agents as well as various expenses associated with VALIC's field offices of \$14,331,000 are allocated and paid by SunAmerica Services Company ("SASCO") based on the SASCO shared service agreement with VFA. These expenses are included in the statement of operations.

Dealer concession revenue from affiliates of \$162,187,000 consists of concessions from sales of variable annuities, front-end load mutual funds, term insurance, and other financial services products, and a dealer concession receivable from affiliates of \$387,000 represents amounts due at December 31, 2016 for these services.

Service fee income from affiliates of \$1,128,000 consists of concessions from proprietary mutual fund trails.

SASCO charges the Company for various administrative services provided. During 2016, the Company paid SASCO \$28,940,000 for these services that are reflected in total expenses in the statement of operations.

Accounts payable to affiliates of \$1,664,000 at December 31, 2016 consists of various operating expenses due to SASCO.

VALIC Financial Advisors, Inc.
Notes to Financial Statements
December 31, 2016

During 2016, the Company engaged in selling fixed and variable annuity products of \$88,767,000 and group plans of \$12,298,000 offered by its Parent which are reflected in dealer concession revenue from affiliates and commissions in the statement of operations.

During 2016, the Company paid \$587,000 to VALIC Retirement Services Company ("VRSCO"), a wholly owned subsidiary of AIG, for sub-transfer agent fees deposited by the Company.

Accounts receivable from affiliates of \$1,410,000 at December 31, 2016 consists of various operating expenses due from VALIC.

Balances with affiliates are settled monthly.

At December 31, 2016 the Company had the following intercompany receivables and payables due to and from affiliates:

(in thousands of dollars)

	Due (To)	Due From
The Variable Annuity Life Insurance Company	\$ -	\$ 1,410
SunAmerica Services Company	1,664	-
	<u>\$ 1,664</u>	<u>\$ 1,410</u>

7. Subordinated Liabilities

The Company had no subordinated liabilities at any time during the year ended December 31, 2016. Therefore, the Statement of Changes in Liabilities Subordinated to Claims of General Creditors has not been presented for the year ended December 31, 2016.

8. Commitments and Contingencies

During the normal course of business, the Company enters into contracts that contain a variety of representations and warranties and which provide general indemnifications. The Company's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Company that have not yet occurred. However, based on experience, the Company expects the risk of loss to be remote.

The Company is subject to certain legal and regulatory proceedings, claims and disputes that arise in the ordinary course of business. Although the Company cannot predict the outcome of these legal and regulatory proceedings, the Company's management does not believe these actions will have a material adverse effect on the Company's financial position, results of operations, or liquidity.

Off-Balance-Sheet Risk

Some of the Company's customer securities transactions are executed on a fully disclosed basis through National Financial Services LLC (the "Clearing Broker"). Pursuant to the terms of the agreement between the Company and the Clearing Broker, the Clearing Broker has the right to charge the Company for losses that result from counterparties' failure to fulfill its contractual obligations. The Company has market risk on its customers' buy and sale transactions. If customers do not fulfill their obligations, a gain or loss could be suffered equal to the difference

VALIC Financial Advisors, Inc.
Notes to Financial Statements
December 31, 2016

between a customer's commitment and the market value of the underlying securities between trade date and settlement date. The risk of default depends on the creditworthiness of the retail customers. The Company and the Clearing Broker perform due diligence with respect to each customer accepted to minimize the Company's risk. As the Clearing Broker's right to charge the Company has no maximum amount and applies to all trades executed through the Clearing Broker, the Company believes there is no maximum amount assignable to this right. At December 31, 2016, the Company has recorded no liabilities with regard to the right. During 2016, the Company was not required to pay the Clearing Broker any amounts for these guarantees. The Company is further exposed to credit risk for commissions receivable from the Clearing Broker. Such credit risk is generally limited to the amount of the prior month's concessions receivable.

9. Income Taxes

The current and deferred portions of income tax expense included in the statement of operations as determined in accordance with ASC 740 (Accounting for Income Taxes) are as follows:

(in thousands of dollars)

	Current	Deferred	Total
Federal	\$ 28,915	\$ (158)	\$ 28,757
State income and franchise	<u>2,737</u>	<u>6</u>	<u>2,743</u>
	<u>\$ 31,652</u>	<u>\$ (152)</u>	<u>\$ 31,500</u>

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purpose and the amounts used for income tax reporting purposes. These deferred income taxes are included in prepaid expenses and other assets. The significant components of the deferred tax assets and liabilities are as follows:

(in thousands of dollars)

Deferred Tax Assets:

Commission accrual	\$ <u>273</u>
Total deferred tax assets	<u>273</u>

Deferred Tax Liabilities:

State income taxes	<u>2</u>
Total deferred tax liabilities	<u>2</u>
Net deferred tax assets (included in Prepaid expenses and other assets)	\$ <u>271</u>

The difference between the federal statutory tax rate of 35% and the Company's effective income tax rate of 37.9% for the year ending December 31, 2016 is primarily due to the \$1,400,000 tax benefit related to state taxes partially offset by \$614,000 tax on non-deductible expenses.

The Company recognizes and measures its unrecognized tax benefits in accordance with authoritative guidance. Under that guidance the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts,

VALIC Financial Advisors, Inc.
Notes to Financial Statements
December 31, 2016

circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change.

The Company does not have any tax positions at the end of the year for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly increase or decrease within 12 months of the reporting date.

The Company is currently under Internal Revenue Service examination for the taxable years 2007-2010. Although the final outcome of possible issues raised in any future examination are uncertain, the Company believes that the ultimate liability, including interest, will not materially exceed amounts recorded in the financial statements. The Company's taxable years 2001-2015 remain subject to examination by major tax jurisdictions.

10. Subsequent Events

Management of the Company has performed an evaluation of subsequent events through February 28, 2017, which is the date the financial statements were available to be issued. No subsequent events were noted in management's evaluation which would require disclosure.

VALIC Financial Advisors, Inc.
Computation of Net Capital Under Rule 15c3-1 of
the U.S. Securities and Exchange Commission
December 31, 2016

Schedule I

(in thousands of dollars)

Net capital

Total stockholder's equity	\$ 63,889
Deductions and/or charges:
