File No. 1-31326**

Dear Mr. Galton:

We have limited our review of your filing to those issues we have addressed in our comments. Where indicated, we think you should revise your document in response to these comments. If you disagree, we will consider your explanation as to why our comment is inapplicable or a revision is unnecessary. Please be as detailed as necessary in your explanation. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure. After reviewing this information, we may raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filing. We look forward to working with you in these respects. We welcome any questions you may have about our comments or any other aspect of our review. Feel free to call us at the telephone numbers listed at the end of this letter.

Proposal One

1. Please disclose YA Global Investments' and Stanford Venture Capital Holdings' potential ownership of the company after all securities anticipated by the agreements with these entities are issued. Provide this disclosure in the form of a percentage as well as the number of shares they could hold. Include this disclosure both in the discussion of Proposal 1 and in the "Notice of Special Meeting of Stockholders" page in the forepart of the document.

2. We note the proceeds from the transactions covered by proposal 1 “will be used for research and development and working capital purposes.” Please provide more detail by identifying the specific projects you plan to pursue and an approximate amount for each one. If you plan to use the proceeds to develop products, identify the products you plan to develop with the proceeds. For each product, you should state which clinical trials or other development activities you anticipate performing with the proceeds, and you should disclose an approximate amount of proceeds for each such project.

Proposal 3

3. We note that “[a]s of the date of this proxy statement, [you] expect to issue additional equity pursuant to the private placement transaction described in Proposal 1 and potentially pursuant to the antidilution adjustment provisions and the milestone adjustment provision described in Proposal 2.”
 - Please state, in the discussion of Proposal 3, how many shares you may issue pursuant to these two potential uses of the shares.
 - Please discuss any other plans you currently have for the additional shares being authorized through Proposal 3, as well as the number of shares associated with each such plan.
 - It should be clear from your discussion how many shares you currently have authorized, outstanding, reserved for issuance, and available for issuance. It should also be clear, to the extent the company has determined, how many shares may be issued pursuant to plans the company currently has.
 - After discussing all plans you currently have to issue the additional securities, state that you have no other plans besides the ones that are described.
