Notes to Financial Statements

June 30, 2007 and December 31, 2006

(Stated in Canadian dollars)

(Unaudited)

1. NATURE AND CONTINUANCE OF OPERATIONS

The Company is incorporated in British Columbia, Canada and through its former wholly owned subsidiary, AssistGlobal Inc. ("AGI"), was engaged in the business of developing, selling, hosting and supporting project and facility management software. In June 2005, AGI was distributed to shareholders of AGI upon the redemption of their company shares.

The financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assume that the Company will realize its assets and liabilities in the normal course of business. Realization values may be substantially different from carrying values as shown in these financial statements should the Company be unable to continue as a going concern.

In June 13, 2007, the Company changed its name from Bassett Ventures Inc. to Arris Resources Inc.

As at June 30, 2007, the Company has a working capital of \$522,568 and has accumulated losses of \$2,073,950. The Company's ability to meet its obligations and maintain operations is contingent upon the Company's ability to receive continued financial support, complete equity financing or generate profitable operations in the future.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting principles and use of estimates

The accompanying unaudited interim financial statements of the Company are prepared in accordance with Canadian generally accepted accounting principles for interim financial statements. These interim financial statements should be read in conjunction with the Company's annual audited financial statements dated December 31, 2006. All material adjustments which, in the opinion of management, are necessary for a fair presentation of the results for the interim periods have been reflected. The results for the six month period ended June 30, 2007 are stated utilizing the same accounting policies as those reflected in the Company's most recent annual financial statements, but these interim figures are not necessarily indicative of the results to be expected for the full year.

3. INVESTMENTS

The Company holds a 30% working interest in the Alexander prospect, an oil and gas prospect located 75 km northwest of Edmonton, Alberta. Recompletion work on the Highview Alex 6-7-51-1 W5M is expected to begin in the late summer of 2007.

Summary of Quarterly Results

The following is a summary of certain consolidated financial information concerning the Company for each of the last eight quarters:

Period ended	Jun 30 2007 Q2	Mar 31 2007 Q1	Dec 31 2006 Q4	Sept 30 2006 Q3	Jun 30 2006 Q2	Mar.31 2006 Q1	Dec. 31 2005 Q4	Sept. 30 2005 Q3
Total Revenue	-	-	-	-	-	-	-	-
Net Income (loss)	22,206	(6,595)	(14,471)	(7,394)	(57,829)	(30,069)	(122,669)	116,775
Basic loss per Share	(0.00)	(0.00)	(0.02)	(0.00)	(0.01)	(0.01)	(0.04)	0.04

As the Company has no revenue at this time, the net loss results primarily from corporate overheads including stock based compensation. Stock based compensation is a non cash expense representing an estimate of the fair value of options granted to directors, officers and consultants of the Company calculated by applying the Black Scholes option pricing model.

Liquidity and Capital Resources

The Company had working capital of \$552,568 at June 30, 2007. Historically, the Company has raised funds through equity financing and the exercise of options and warrants to fund its operations and it continues to rely upon these sources of capital to finance its operations. The market price of natural resources is highly speculative and volatile. Instability in prices may affect the interest in resource properties and the development of and production from such properties. This may adversely affect the Company's revenues as well as its ability to raise capital to acquire and explore resource properties.

Financing is potentially available through the exercise of 4,000,000 outstanding share purchase warrants at US\$0.15 per share until June 14, 2008. However, there can be no assurance that any of these outstanding convertible securities will be exercised.

The Company will likely have more capital requirements for any material business acquisition and will therefore be required to raise additional funds. In addition, if the Company's plans change, its assumptions change or prove inaccurate, or its capital resources in addition to projected cash flow, if any, prove to be insufficient to fund operations, the Company may be required to seek additional financing. Although the Company has previously been successful in raising the funds required for its operations, there can be no assurance that the Company will have sufficient financing to meet its future capital requirements or that additional financing will be available on terms acceptable to the Company in the future.

The Company is now in the process of searching for suitable acquisitions, but has not yet identified any. The ability of the Company to continue as a going concern and discharge its liabilities when due is dependent on its ability to identify new business opportunities and convert them into profitable operations. No agreements related to new business opportunities have been reached and there can be no assurance that such agreements will be reached.

Off-Balance Sheet Arrangements

The Company has not entered into any off-balance sheet transactions.

Transactions with Related Parties

There were no related party transactions in the quarter.

Proposed Transactions

There are currently no transactions proposed that would materially effect the performance of the Company.

Critical Accounting Estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

Financial Instruments

The Company's financial instruments consist of cash, amounts receivable, accounts payable and accrued liabilities. Terms of the financial instruments are fully disclosed in the Company's financial statements. It is management's opinion that the Company is not exposed to significant interest, currency, or credit risks arising from its financial instruments and that their fair values approximate their carrying values unless otherwise noted.

Internal Disclosure Controls and Procedures

We have evaluated the effectiveness of our disclosure controls and procedures and have concluded, based on our evaluation that they are sufficiently effective to provide reasonable assurance that material information relating to the Company and its consolidated subsidiaries is made known to management and disclosed in accordance with applicable securities regulations.

Subsequent Events

The following has occurred subsequent to the period ending June 30, 2007.

On July 16, 2007, the Company consolidated its share capital on a 5 old for 1 new basis.

On July 31, 2007, the Company completed a private placement for proceeds of US\$262,500 by issuing 5,250,000 units at US\$0.05 per unit. Each unit consisted of one share and one share purchase warrant, exercisable for a period of two years at a price of US0.065. A finders fee was paid in conjunction with this placement.
