

FOR IMMEDIATE RELEASE NASDAQ: CRME TSX: COM

CARDIOME REPORTS SECOND QUARTER 2016 FINANCIAL RESULTS

Cardiome to conduct conference call and webcast today,
August 9, 2016 at 4:30pm Eastern (1:30pm Pacific)

Vancouver, Canada, August 9, 2016 -- Cardiome Pharma Corp. (NASDAQ: CRME / TSX: COM) today reported financial results for its second quarter ended June 30, 2016. Amounts, unless specified otherwise, are expressed in U.S. dollars and in accordance with generally accepted accounting principles used in the United States of America (U.S. GAAP).

Commenting on Cardiome's Q2, Dr. William Hunter, CEO, said "We believe that the 16% year-over-year revenue growth reported during the first half of 2016 positions Cardiome well to meet our goal of reporting strong annual growth during 2016 over 2015. We are also very pleased with our license of XYDALBA from Allergan plc that was announced during the quarter, and we anticipate our first commercial sales of XYDALBA before year-end with a larger commercial roll-out during 2017. BRINAVESS continues to grow as per our expectations and we are preparing for the start of Canadian commercial operations to launch both AGGRASTAT and BRINAVESS, which we expect to have in place during 2016. We are well on our way to executing our strategy of building a robust product portfolio consisting of stable revenue generating products coupled with proprietary high growth products, such as XYDALBA. We hope to add more products to our portfolio in the near-term that will shorten our path to profitability as we continue to be very active in business development activities. Subsequent to the quarter end, Cardiome completed a US\$34.5 million equity financing. We believe that our cash on hand will be sufficient to sustain operations well into the future and until Cardiome becomes a profitable company."

Summary of Operations

Since the beginning of 2016 to date, Cardiome has:

- Entered into an exclusive license agreement with Allergan plc for the rights to commercialize dalbavancin (branded DALVANCE[®] in the U.S. and Canada, XYDALBA[™] in the rest of the world) in France, the United Kingdom, Germany, Belgium, Nordic nations, other European nations, various Middle Eastern nations, and Canada.
- Completed an underwritten equity offering whereby it issued 11.5 million shares from treasury for gross proceeds of US\$34.5 million.
- Entered into a term loan agreement with CRG -managed funds for up to US\$30 million. US\$20 million has been drawn to date.
- Extinguished the existing term loan with MidCap Financial LLC.
- Entered into a distribution agreement with Chong Kun Dang to commercialize BRINAVESS in South Korea
- Announced that the European Medicines Agency approved Cardiome's request for a Centralized Review pathway for TREVYENT
- Announced a share purchase agreement with Lincoln Park Capital Fund, LLC

- Filed a marketing authorization application for intravenous vernakalant in the Kingdom Of Saudi Arabia
- Filed an Orphan Drug Application for oral vernakalant with the United States Food and Drug Administration
- Filed a base shelf prospectus and registration statement
- Announced the publication of an independent study comparing BRINAVESS to IBUTILIDE in patients with recent-onset atrial fibrillation

Summary Results

Cardiome recorded a net loss of \$7.5 million (loss per share of \$0.37) for the three months ended June 30, 2016, compared to a net loss of \$7.4 million (loss per share of \$0.43) for the three months ended June 30, 2015. On a year-to-date basis, Cardiome recorded a net loss of \$8.7 million (loss per share of \$0.43) for the six months ended June 30, 2016 compared to a net loss of \$11.2 million (loss per share of \$0.66) for the six months ended June 30, 2015. The decrease in net loss on a year-to-date basis was due primarily to an increase in revenue and a decrease in research and development (“R&D”) expense.

Revenue for the three months ended June 30, 2016 was \$5.9 million compared to revenue of \$5.7 million for the three months ended June 30, 2015. Revenue for the six months ended June 30, 2016 and 2015 was \$13.0 million and \$11.2 million, respectively. The increase in revenue for the six months ended June 30, 2016 was driven by an increase in distributor sales.

Gross margin decreased to 71.4% and 76.1% for the three and six months ended June 30, 2016, respectively, compared to 79.9% and 78.8% for the three and six months ended June 30, 2015. The change in gross margin is primarily due to changes in customer mix.

Selling, general and administration (“SG&A”) expense for the three months ended June 30, 2016 was \$8.0 million compared to \$8.4 million for the three months ended June 30, 2015. On a year-to-date basis, SG&A expense for the six months ended June 30, 2016 was \$14.2 million compared to \$14.7 million for the six months ended June 30, 2015. The decrease in SG&A expense in each period is primarily related to a decrease to Cardiome’s stock-based compensation expense as a result of market fluctuations in Cardiome’s share price.

R&D expense was nil for the three and six-month periods ended June 30, 2016 compared to R&D expense of \$3.1 million for the three and six-month periods ended June 30, 2015. In June 2015, Cardiome made an upfront payment of \$3.0 million to SteadyMed Therapeutics upon the execution of a license and supply agreement for TREVYENT®.

Interest expense was \$0.4 million for the three months ended June 30, 2016, compared to \$0.6 million for the three months ended June 30, 2015. On a year-to-date basis, interest expense was \$0.9 million for the six months ended June 30, 2016 compared to \$1.2 million for the six months ended June 30, 2015. The decrease was due to lower interest expense incurred on the Midcap long-term debt and deferred consideration.

On June 13, 2016, Cardiome extinguished its senior secured term loan facility with Midcap Financial LLC. As a result of the extinguishment, Cardiome incurred a loss of \$1.4 million due to exit and prepayment fees and the write-off of unamortized debt issuance costs.

Liquidity and Outstanding Share Capital

At June 30, 2016, the company had cash and cash equivalents of \$12.9 million. As of August 8, 2016, there were 31,875,819 common shares issued and outstanding, and 1,954,397 common shares issuable upon the exercise of outstanding stock options (of which 1,072,296 were exercisable) at a weighted average exercise price of CAD \$5.93 per share, and 125,362 restricted share units outstanding.

Conference Call

Cardiome will hold a teleconference and webcast on August 9, 2016 at 4:30pm Eastern (1:30pm Pacific). To access the conference call, please dial **416-764-8688** or **888-390-0546** and use conference ID **36846848**. The webcast can be accessed through Cardiome's website at www.cardiome.com or through the following link:

<http://event.on24.com/r.htm?e=1231482&s=1&k=369EF8F5174E3E8FBA0B73393D28C3A5>

Webcast and telephone replays of the conference call will be available approximately two hours after the completion of the call through August 16, 2016. Please dial 416-764-8677 or 888-390-0541 and enter code 846848 # to access the replay.

About Cardiome Pharma Corp.

Cardiome Pharma Corp. is a specialty pharmaceutical company dedicated to the development and commercialization of cardiovascular therapies that will improve the quality of life and health of patients suffering from heart disease. Cardiome has two marketed, in-hospital, cardiology products, BRINAVESSTM (vernakalant IV), approved in Europe and other territories for the rapid conversion of recent onset atrial fibrillation to sinus rhythm in adults, and AGGRASTAT[®] (tirofiban HCl), a reversible GP IIb/IIIa inhibitor indicated for use in patients with acute coronary syndrome. Cardiome also commercializes ESMOCARD[®] and ESMOCARD LYO[®] (esmolol hydrochloride), a short-acting beta-blocker used to control rapid heart rate in a number of cardiovascular indications, on behalf of their partner AOP Orphan Pharma in select European markets. Cardiome has also licensed XYDALBATM (dalbavancin hydrochloride), a second generation, semi-synthetic lipoglycopeptide approved in the EU for the treatment of acute bacterial skin and skin structure infections (ABSSSI) in adults for select European and Middle Eastern nations and Canada from Allergan; and TREVYENT[®], a development state drug device combination that is under development for Pulmonary Arterial Hypertension, for Europe, the Middle East and for Canadian markets from Steadymed Therapeutics.

Cardiome is traded on the NASDAQ Capital Market (CRME) and the Toronto Stock Exchange (COM). For more information, please visit our web site at www.cardiome.com.

Forward-Looking Statement Disclaimer

Certain statements in this news release contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 or forward-looking information under applicable Canadian securities legislation that may not be based on historical fact, including without limitation statements containing the words "believe", "may", "plan", "will", "estimate", "continue", "anticipate", "intend", "expect" and similar expressions. Forward-looking statements may involve, but are not limited to, comments with respect to our objectives and priorities for 2016 and beyond, our strategies or future actions, our targets, expectations for our financial condition and the results of, or outlook for, our operations, research and development and product and drug development. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, events or developments to be materially different from any future results, events or developments expressed or implied by such forward-looking statements. Many such known risks, uncertainties and other factors are taken into account as part of our assumptions underlying these forward-looking statements and include, among others, the following: general economic and business conditions in the United States, Canada, Europe, and the other regions in which we operate; market demand; technological changes that could impact our existing products or our ability to develop and commercialize future products; competition; existing governmental legislation and regulations and changes in, or the failure to comply with, governmental legislation and regulations; availability of financial reimbursement coverage from governmental and third-party payers for products and related treatments; adverse results or unexpected delays in pre-clinical and clinical product development processes; adverse findings related to the safety and/or efficacy of our products or products; decisions, and the timing of decisions, made by health regulatory agencies regarding approval of our technology and products; the requirement for substantial funding to expand commercialization activities; and any other factors that may affect our performance. In addition, our business is subject to certain operating risks that may cause any results expressed or implied by the forward-looking statements in this presentation to differ materially from our actual results. These operating risks include: our ability to attract and retain qualified personnel; our ability to successfully complete pre-clinical and clinical development of our products; changes in our business strategy or development plans; intellectual property matters, including the unenforceability or loss of patent protection resulting from third-party challenges to our patents; market acceptance of our technology and products; our ability to successfully manufacture, market and sell our products; the

availability of capital to finance our activities; and any other factors described in detail in our filings with the Securities and Exchange Commission (“SEC”) available at www.sec.gov and the Canadian securities regulatory authorities at www.sedar.com. Given these risks, uncertainties and factors, you are cautioned not to place undue reliance on such forward-looking statements and information, which are qualified in their entirety by this cautionary statement. All forward-looking statements and information made herein are based on our current expectations and we undertake no obligation to revise or update such forward-looking statements and information to reflect subsequent events or circumstances, except as required by law.
