## Report of Independent Registered Public Accounting Firm

To the Members and Board of Managers  
Loop Capital Markets LLC

### Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of Loop Capital Markets LLC (the Company) as of December 31, 2019, and the related notes to the financial statement (collectively, the financial statement). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of December 31, 2019, in conformity with accounting principles generally accepted in the United States of America.

### Basis for Opinion

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

*RSM US LLP*

We have served as the Company's auditor since 2018.

**1. Organization and Nature of Business**

Loop Capital Markets LLC (the Company) is organized as a Delaware limited liability company under the Delaware Limited Liability Company Act. As a limited liability company, the members' liability is limited to the equity in the Company. Profits, losses, contributions, and distributions of the Company are allocated in accordance with the respective members' ownership interests. The Company is majority owned by Loop Capital, LLC, a wholly owned subsidiary of Loop Capital Holdings, LLC.

The Company trades fixed income securities on a principal basis, provides equity brokerage, underwriting services, fixed income analytical services, equity research, financial advisory and mergers and acquisition services for institutional customers.

The Company is an introducing broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA). The Company does not carry security accounts for customers, nor does the Company perform custodial functions relating to customer securities. All customer transactions are executed and cleared through another registered broker on a fully disclosed basis. The Company does participate in various commission recapture programs in which customer funds are held for subsequent payment pursuant to the customer agreements in place. These customer funds are held in a "Special Account for the Exclusive Benefit of Customers". As such, the Company is operating under the provisions of paragraph (k)(2)(i) and (k)(2)(ii) of Rule 15c3-3 of the SEC and accordingly is exempt from the remaining provisions of the Rule.

**2. Summary of Significant Accounting Policies**

**Use of Estimates**

The financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP). The preparation of these financial statements require management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from such estimates.

**Cash**

The Company has defined cash equivalents as highly liquid investments, with original maturities of less than three months at the date of acquisition that are not held for sale in the ordinary course of business.

**Cash Segregated for Regulatory Purposes**

At December 31, 2018, \$52,449 was segregated in a special bank account for the exclusive benefit of customers under Rule 15c3-3 of the SEC. During the year ended December 31, 2019, the Company did not maintain possession or control of customer cash or securities.

**Accrued Expenses**

At December 31, 2019, the Company had accrued expenses primarily consisting of employee compensation, benefits, operating, underwriting and distributions payable.

## **2. Summary of Significant Accounting Policies (continued)**

### **Adoption of New Accounting Standards**

#### **Leases**

In February 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2017-02, *Leases*, with an effective date for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. The Company adopted ASU No. 2017-02 effective January 1, 2019 using Transition Method B, which is applied retrospectively to the beginning of the period of adoption through a cumulative-effect adjustment recognized as of the beginning of that period. The Company elected to recognize the right-of-use asset and lease liabilities arising from their long term leases. Any differences in the right-of-use asset and lease liability result from the deferred rent obligation as defined under ASC 840. Lease payments applied under the short-term lease election will continue to be recognized on a straight-line basis and variable payments, if any, in the period in which the obligation for those payments are incurred on the statement of operations. The Company did not choose to elect any of the practical expedients in the application of ASU No. 2017-02. Please refer to Note 9 for further details regarding any material impact to the statement of financial condition.

#### **Current Expected Credit Losses**

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, which amends several aspects of the measurement of credit losses on financial instruments, including replacing the existing incurred credit loss model and other models with the Current Expected Credit Losses (CECL) model and amending certain aspects of accounting for purchased financial assets with deterioration in credit quality since origination. The new standard is effective for fiscal years beginning after December 15, 2019. Expected credit losses, on receivables will be measured based on historical experience, current conditions and forecasts that affect the collectability of the reported amount. The Company has completed its analysis as of January 1, 2020, related to the above noted financial assets within the scope of Accounting Standards Codification (ASC) 326 and identified no material current expected credit loss to be recorded.

#### **Variable Interest Entities**

The Company evaluates its relationships or investments for consolidation pursuant to authoritative accounting guidance related to the consolidation of variable interest entities under the Variable Interest Model prescribed by the FASB. A variable interest entity (VIE) is consolidated when the Company has the power to direct activities that most significantly impact the economic performance of the variable interest entity and has the obligation to absorb losses or the right to receive benefits from the variable interest entity that could potentially be significant to the variable interest entity. When a variable interest entity is not consolidated, the Company uses either the equity method or the cost method to account for the investment. Under the equity method, the carrying value is generally the Company's share of the net asset value of the unconsolidated entity.

## **2. Summary of Significant Accounting Policies (continued)**

### **Fair Value of Financial Instruments**

Securities owned and securities sold, not yet purchased, if any, may consist of equity and debt securities. They are reported in the statement of financial condition at fair value based on quoted market prices, prices for similar securities or other observable inputs, such as bond spreads and credit default swap spreads. Securities sold, not yet purchased represent obligations to deliver specified securities at predetermined prices. The Company is obligated to purchase the securities at a future date at then-prevailing prices that may differ from the market values reflected in the statement of financial condition.

### **Due To and From Clearing Broker**

Receivables and payables related to trades pending settlement are netted in due to/from clearing broker in the statement of financial condition. The Company may obtain short-term financing from its clearing broker from whom it can borrow against its inventory positions, subject to collateral maintenance requirements. At December 31, 2019, the Company had a net amount due from its clearing broker, which consisted of cash, interest, dividend and fees earned on unsettled trades in the amount of \$11,558,298.

### **Deposit with Clearing Brokers**

Deposits represent amounts held in conjunction with the Company's agreements with its clearing brokers. As of December 31, 2019, the Company had deposits of \$1,200,000 with its clearing brokers.

### **Fixed Assets**

Fixed assets include furniture, equipment and artwork. Furniture and equipment are depreciated using the straight-line method over the estimated useful lives of the assets ranging from 3 to 7 years. Artwork is recorded and held at cost.

The Company reviews long-lived assets, including property and equipment, for impairment whenever events or changes in business circumstances indicate that the carrying amount of an asset may not be fully recoverable, no less than annually. An impairment loss would be recognized when the estimated future cash flows from the use of the asset are less than the carrying amount of that asset. As of December 31, 2019, the Company did not have an impairment of long-lived assets.

### **Stock Based Compensation**

Compensation cost on equity-based compensation is measured at the fair value of the awards on the day they are granted. A Black Scholes model is used to estimate the fair value of the awards. The Company accounts for equity-based compensation expense by measuring the value of the award and recognizes compensation expense ratably over the vesting period. Recognized stock compensation expense is reduced for estimated forfeitures prior to vesting. Upon termination, unvested units are forfeited, and the vested units are payable in accordance with the Company's operating agreement.

Estimated forfeitures are reassessed in subsequent periods and may change based on new facts and circumstances.

## **2. Summary of Significant Accounting Policies (continued)**

### **Income Taxes**

As a limited liability company, the Company elected to be treated as a partnership. Consequently, taxable income or loss is allocated to the members in accordance with the operating agreement and no provision or liability for federal income taxes has been included in the financial statements. The Company files tax returns with the U.S. Internal Revenue Service and various states, as required. The Company is generally not subject to examination by U.S. federal and state tax authorities for tax years before 2016.

The Company has evaluated tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are more likely than not to be sustained by the applicable tax authority. Based on this analysis, there were no material tax positions not deemed to meet a more-likely-than-not threshold. The Company does not believe it is reasonably possible that unrecognized tax benefits will significantly change in the next 12 months.

For the year ended December 31, 2019, the Company has no interest or penalties relating to income tax positions recognized in the statement of financial condition.

## **3. Fair Value of Financial Instruments**

ASC Topic 820-10, *Fair Value Measurement*, establishes a fair value hierarchy that prioritizes inputs used in determining the fair value of financial instruments. The degree of judgment utilized in measuring fair value generally correlates to the level of pricing observability. Fair value is the price that would be received to sell an asset or paid to transfer a liability in the principal market, or in the absence of a principal market, the most advantageous market. Financial instruments are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. These inputs are summarized in the three broad levels below.

Level 1: Valuations are based on quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Valuations are based on quoted prices for identical or similar instruments in less than active markets and valuation techniques for which significant assumptions are observable, either directly or indirectly. The types of assets and liabilities that are categorized by the Company as Level 2 generally include U.S. government and government agency securities, and most state, municipal and corporate obligations.

Level 3: Valuations are based on valuation techniques whereby significant assumptions and inputs are unobservable and reflect the Company's best estimate of assumptions it believes market participants would use in pricing the asset or liability.

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The Company assesses its financial instruments on an annual basis to determine the appropriate classification within the fair value hierarchy, as defined by ASC Topic 820. Transfers between fair value classifications occur when there are changes in pricing observability levels. Transfers of financial instruments among levels are deemed to occur at the beginning of the period.

The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment.

**Loop Capital Markets LLC**  
**Notes to Financial Statement**  
**December 31, 2019**

---

**3. Fair Value of Financial Instruments (continued)**

A description of the valuation techniques applied to the Company's major categories of assets and liabilities measured at fair value on a recurring basis follows:

Municipal bonds – Municipal bonds can be valued under three approaches: (1) occasionally trades of municipal securities can be observed via trading activity posted by the Municipal Securities Rulemaking Board; (2) via a discounted cash flow model that incorporates market observable data such as reported sales of similar securities, broker quotes, yields, yield curves, bids, offers, and other reference data; and/or (3) in certain instances securities are valued principally using dealer quotations. Municipal bonds are categorized in Level 1, Level 2 or Level 3 of the fair value hierarchy depending on the inputs (i.e., observable or unobservable) used and market activity levels for specific bonds.

Corporate bonds – The fair value of corporate bonds is estimated using various techniques, which may consider recently executed transactions in securities of the issuer or comparable issuers or securities, market price quotations (where observable), evaluated prices from pricing sources, bond spreads, fundamental data relating to the issuer, and credit default swap spreads adjusted for any basis difference between cash and derivative instruments. Corporate bonds can be categorized as Level 1, Level 2 or Level 3 in the fair value hierarchy depending on the inputs (i.e., observable or unobservable) used and market activity levels for specific bonds.

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2019:

Description	Level 1	Level 2	Level 3	Total
Assets				
Securities owned:				
Municipal bonds	\$ -	\$ 655,754	\$ -	\$ 655,754
Corporate bonds	-	2,239	-	2,239
	<u>\$ -</u>	<u>\$ 657,993</u>	<u>\$ -</u>	<u>\$ 657,993</u>

The Company assesses the levels of the investments at each measurement day, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer. There were no transfers between the Company's Levels 1, 2 and 3 classified instruments during the year ended December 31, 2019.

**4. Other Investments**

The Company holds an investment in Legacy Acquisition Sponsor I, LLC, which is the sponsor and owner of founder shares of Legacy Acquisition Corp, a blank check company formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses. As of December 31, 2019, the investment is included in other assets on the statement of financial condition at cost in the amount of \$150,000.

**Loop Capital Markets LLC**  
**Notes to Financial Statement**  
**December 31, 2019**

---

**4. Other Investments (continued)**

The Company holds an investment in GRIT Chicago, LLC (GRIT), a non-consolidated variable interest entity as defined in Note 2 above. GRIT was formed to redevelop and revitalize the former Michael Reese Hospital site and MPEA's marshalling yards located in the near Southside neighborhood of Bronzeville, in Chicago, IL. In December 2019, GRIT entered into a loan agreement with a borrowing capacity of \$4.655 million. Loop Capital Markets LLC (LCM) provided a guarantee up to 25% of GRIT's obligations under the loan facility through a guaranty agreement. LCM's maximum exposure of future obligations is \$1.163 million, plus accrued interest and associated fees, which would be required if the term loan agreement is fully utilized and GRIT defaults on certain of its obligations thereunder. At December 31, 2019, GRIT had outstanding borrowings of \$29,297 and Loop's proportionate exposure was \$7,324. In accordance with ASC 460, the Company determined the guarantee amount to be immaterial. As of December 31, 2019, the investment is held at cost which approximates the net asset value and is included in other assets on the statement of financial condition in the amount of \$747,047.

**5. Fixed Assets**

Fixed assets consisted of the following as of December 31, 2019:

Furniture and fixtures	\$ 1,931,162
Equipment	1,714,727
	<u>3,645,889</u>
Less:	
Accumulated depreciation-Furniture and Fixtures	(1,511,701)
Accumulated depreciation-Equipment	(1,544,538)
Fixed assets, net	<u>\$ 589,650</u>

**6. Members' Equity**

On May 3, 2013, the Company authorized an amendment to the operating agreement that created a new class of non-voting B-units. As a result of the amendment, the Company had two classes of units, A (voting) and B (non-voting). On June 1, 2013, certain employees of the Company were granted 20,154 non-voting B-units. Among other things as defined in the agreement, these units are subject to a vesting period. The fair value of the units was determined by a Black Scholes model and recognized on a straight-line basis over a 4-year vesting period. Upon termination of employment, unvested units are forfeited, and the vested units are payable in accordance with the Company's operating agreement. Since inception, 1,715 of the non-voting B-units have been forfeited. As of December 31, 2019, all B-units were fully vested. For the year ended December 31, 2019, the Company had outstanding 110,527 voting A-units and 17,152 non-voting B-units.

**7. Debt**

The Company has a \$75 million senior revolving line-of-credit agreement with BMO Harris Bank N.A. (Harris) due April 30, 2022 on which it intermittently draws based on business needs. Pursuant to this agreement, interest is at a rate determined and agreed upon by the Company and Harris at the time funds are drawn down, which varies from time to time. The agreement is collateralized by certain securities and other property as defined in the agreement. As of December 31, 2019, the Company had no outstanding borrowings under this line-of-credit agreement. The loan had a non-refundable facility fee at the rate of .125 percent per annum payable quarterly in advance. The Company intends to renew this line of credit at or before maturity.

**Loop Capital Markets LLC**  
**Notes to Financial Statement**  
**December 31, 2019**

---

**8. Employee Benefit Plan**

The Company maintains an employee 401(k) plan covering all of its eligible employees as defined by the plan. Under the terms of the plan, management may make discretionary matching contributions.

**9. Leases**

The Company recognizes and measures its leases in accordance with FASB ASC 842, *Leases*. The Company leases office space in various locations under non-cancelable operating leases that expire during various times through January 2027. The Company determines if an arrangement is a lease, or contains a lease, at inception of a contract and when the terms of an existing contract are changed. The Company's incremental borrowing rate for a lease is the rate of interest it would have to pay on a collateralized basis to borrow an amount equal to the lease payments under similar terms and in a similar economic environment.

The Company recognizes a lease liability and a right of use (ROU) asset at the commencement date of the lease. The lease liability is initially and subsequently recognized based on the present value of its future lease payments.

The components of lease cost for the year ended December 31, 2019 are as follows:

Operating lease cost	\$ 1,933,632
Variable lease cost	684,663
Short term lease cost	502,968
Total lease cost	<u>\$ 3,121,263</u>

Weighted average remaining lease term:	
Operating leases	5.77 years

Weighted average discount rate:	
Operating Leases	4.93%

Amounts disclosed for reductions to right of use assets result from reductions to lease obligations.

Future lease payments under non-cancelable operating leases as of December 31, 2019, for each of the next five years and in the aggregate are:

2020	\$ 2,072,630
2021	1,543,007
2022	875,116
2023	863,629
2024	883,713
Thereafter	2,098,831
Total lease payments	<u>8,336,926</u>
Less imputed interest	(1,129,005)
Present value of lease payments	<u>\$ 7,207,921</u>

**Loop Capital Markets LLC**  
**Notes to Financial Statement**  
**December 31, 2019**

---

## **10. Related Party**

The Company has an expense sharing agreement with Loop Capital, LLC, a related party. For the year ended December 31, 2019, the Company paid administrative fees for certain services and personnel necessary for the operation of the business to Loop Capital, LLC in the amount of \$5,500,000.

Loop Capital, LLC paid the Company for general operational expenses in the amount of \$500,000.

The Company transacts business with and incurs amounts due from and payable to other affiliates in the ordinary course of business. The Company had net receivables from other affiliated entities, Loop Capital Financial Consulting Services, Loop Capital, LLC, Loop Capital Principal Investments, LLC, Loop-Counterpointe Pace, LLC, and MJE-Loop Capital Partners, LLC in the amount of \$648,048. At December 31, 2019, this amount was included in due from affiliates on the statement of financial condition.

The Company has an outstanding promissory note with a member, which is recorded as contra equity within member's equity. Accrued interest on the promissory note is recorded in other assets on the statement of financial condition.

## **11. Concentrations of Credit Risk**

The Company is engaged in various trading and brokerage activities through its principal correspondent broker-dealer and others. Amounts due to the clearing broker, if any, and securities sold, not yet purchased, are collateralized by securities owned and cash on deposit with the clearing broker. In the event such parties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the correspondent broker-dealer and others.

It is the Company's policy to periodically review, as necessary, the credit standing of such correspondent broker-dealer and others.

The Company maintains deposits with financial institutions in amounts that exceed the federally insured limits. The Company does not believe it is exposed to significant credit risk.

## **12. Subordinated Borrowings**

The following is a summary of subordination agreements during 2019:

<b>Description</b>	<b>Principal</b>	<b>Interest</b>	<b>Total</b>	<b>Outstanding at December 31, 2019</b>
Subordinated loan, with a related party, interest at 3.0 percent, maturity date of December 18, 2020	\$ 1,500,000	\$ 275,125	\$ 1,775,125	\$ 1,775,125
Subordinated loan, with a third party, matured September 14, 2019	612,000	12,133	624,133	—
Temporary Subordinated loan, with a third party, matured November 22, 2019	27,000,000	—	27,000,000	—
	<u>\$ 29,112,000</u>	<u>\$ 287,258</u>	<u>\$29,399,258</u>	<u>\$ 1,775,125</u>

**12. Subordinated Borrowings (continued)**

The subordinated borrowings have been approved by FINRA for use by the Company in computing its net capital under the Uniform Net Capital Rule (Rule 15c3-1) of the Securities and Exchange Commission (SEC). The borrowings may not be repaid if such repayment would cause the Company to fail to maintain minimum regulatory capital.

The carrying amount of subordinated borrowings closely approximates fair value based upon market rates of interest available to the Company at December 31, 2019. The fair value of subordinated borrowings is \$1,500,000 of which \$1,500,000 is principal, \$275,125 is accrued interest included in accounts payable on the statement of financial condition.

**13. Commitments and Contingent Liabilities**

The Company is an introducing broker, which executes and clears all transactions with and for customers on a fully disclosed basis with another broker-dealer, and in connection with this arrangement the Company is contingently liable for the payment of securities purchased and the delivery of securities sold by customers.

In the ordinary course of business, the Company may be named as a defendant in, or be party to, various pending and threatened legal proceedings. The Company is subject to certain legal, regulatory and arbitration proceedings and claims that may arise from time to time in the ordinary course of business. Management believes that the disposition of these matters will not have a material adverse effect on the financial position of the Company.

**14. Indemnifications**

In the normal course of business, the Company indemnifies and guarantees certain service providers, such as clearing brokers, against specified losses in connection with their acting as an agent of, or providing services to, the Company or its affiliates. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statement for these indemnifications.

Additionally, the Company enters into contracts that contain a variety of representations and warranties that provide indemnifications under certain circumstances. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Company that have not yet occurred. The Company expects the risk of future obligation under these indemnifications to be remote.

**15. Net Capital Requirements**

Pursuant to Rule 15c3-1 of the SEC, the Company is required to maintain minimum "net capital" equal to the greater of \$250,000 or 6-2/3 percent of "aggregate indebtedness," as these terms are defined, and that the ratio of aggregate indebtedness to net capital both as defined, not to exceed 15 to 1. Net capital changes from day to day, but at December 31, 2019, the Company had net capital and net capital requirements of \$12,319,798 and \$460,566, respectively, and its net capital ratio was .58 to 1. The minimum net capital may effectively restrict the payment of distributions.

**16. Subsequent Events**

The Company has evaluated subsequent events through the date this financial statements were issued.
