The Funds

INTRODUCTION

Each fund is a money market mutual fund with a separate investment portfolio. The operations and results of one fund are unrelated to those of the other fund. This combined prospectus has been prepared for the convenience of investors so that investors can consider two investment choices in one document.

As a money market fund, each fund is subject to maturity, quality and diversification requirements designed to help it maintain a stable share price.

Generally, each fund is required to invest at least 95% of its assets in the securities of issuers with the highest credit rating, with the remainder invested in securities with the second-highest credit rating, or the unrated equivalent as determined by Dreyfus. Each fund, however, intends to purchase only securities with the highest credit rating, or the unrated equivalent.

An investment in a fund is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. Although each fund seeks to preserve the value of a shareholder's investment at \$1.00 per share, it is possible to lose money by investing in a fund.

Concepts to understand

Money market fund: a specific type of fund that seeks to maintain a \$1.00 price per share. Money market funds are subject to strict federal requirements and must:

- maintain an average dollar-weighted portfolio maturity of 90 days or less
- buy individual securities that have remaining maturities of 13 months or less
- invest only in high quality, dollar-denominated obligations

Credit rating: a measure of the issuer's expected ability to make all required interest and principal payments in a timely manner. An issuer with the highest credit rating has a very strong degree of certainty (or safety) with respect to making all payments. An issuer with the second-highest credit rating has a strong capacity to make all payments, but the degree of safety is somewhat less.

Dreyfus Institutional Preferred Money Market Fund

GOAL/APPROACH

The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity. To pursue this goal, the fund invests in a diversified portfolio of high quality, short-term debt securities, including:

- securities issued or guaranteed by the U.S. government or its agencies or instrumentalities
- certificates of deposit, time deposits, bankers' acceptances and other short-term securities issued by domestic or foreign banks or their subsidiaries or branches
- repurchase agreements
- domestic and dollar-denominated foreign commercial paper and other short-term corporate obligations, including those with floating or variable rates of interest
- asset-backed securities

Normally, the fund invests at least 25% of its total assets in bank obligations.

Concepts to understand

Repurchase agreement: a U.S. commercial bank or securities dealer sells securities, typically U.S. government securities, to the fund and agrees to repurchase them at an agreed-upon date (usually the next day) and price. These agreements offer the fund a means of investing money for a short period of time.

MAIN RISKS

The fund's yield will fluctuate as the short-term securities in its portfolio mature and the proceeds are reinvested in securities with different interest rates.

While the fund has maintained a constant share price since inception, and will continue to try to do so, the following factors could reduce the fund's income level and/or share price:

- interest rates could rise sharply, causing the value of the fund's investments and its share price to drop
- interest rates could drop, thereby reducing the fund's yield
- any of the fund's holdings could have its credit rating downgraded or could default
- the risks generally associated with concentrating investments in the banking industry, such as interest rate risk, credit risk and regulatory developments relating to the banking industry
- the risks generally associated with dollar-denominated foreign investments, such as economic and political developments, seizure or nationalization of deposits, imposition of taxes or other restrictions on the payment of principal and interest
- the risk that a counterparty in a repurchase agreement could fail to honor the terms of its agreement

What this fund is – and isn't

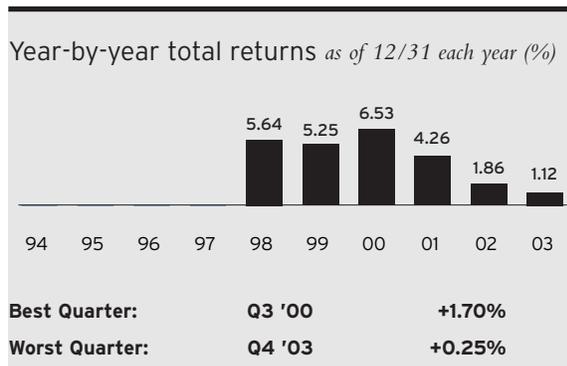

The fund is a mutual fund: a pooled investment that is professionally managed and gives an investor the opportunity to participate in financial markets. It strives to reach its stated goal, although as with all mutual funds, it cannot offer guaranteed results.

An investment in the fund is not a bank deposit. It is not insured or guaranteed by the FDIC or any other government agency. It is not a complete investment program. An investor could lose money in the fund, but also has the potential to make money.

PAST PERFORMANCE

The bar chart and table shown illustrate the risks of investing in the fund. The bar chart shows the changes in the fund's performance from year to year. The table shows the fund's average annual total returns over time. All returns assume reinvestment of dividends and distributions. Of course, past performance is no guarantee of future results.

The fund's year-to-date total return as of 6/30/04 was 0.50%.

Average annual total returns as of 12/31/03

1 Year	5 Years	Since inception (6/11/97)
1.12%	3.79%	4.24%

For the fund's current yield, call toll-free: **1-800-346-3621.**

EXPENSES

Fund investors pay certain fees and expenses in connection with the fund, which are described in the table below. Annual fund operating expenses are paid out of fund assets, so their effect is included in the share price. The fund has no sales charge (load) or Rule 12b-1 distribution fees.

Fee table

Annual fund operating expenses % of average daily net assets	
Management fees	0.10%
Other expenses	0.00%
Total	0.10%

Expense example

1 Year	3 Years	5 Years	10 Years
\$10	\$32	\$56	\$128

This example shows what an investor could pay in expenses over time. It uses the same hypothetical conditions other funds use in their prospectuses: \$10,000 initial investment, 5% total return each year and no changes in expenses. The figures shown would be the same whether the investor sold the shares at the end of a period or kept them. Because actual returns and expenses will be different, the example is for comparison only.

Concepts to understand

Management fee: the fee paid to Dreyfus for managing the fund. Under the fund's management contract, Dreyfus has agreed to pay all other fund expenses except for brokerage commissions, taxes, interest, fees and expenses of the independent board members, fees and expenses of independent counsel to the fund and to the independent board members, and extraordinary expenses.

From time to time, Dreyfus may limit expenses to the extent it deems appropriate to enhance the yield of the fund during periods when fixed expenses have a significant impact on the yield of the fund because of low interest rates. This expense limitation policy is voluntary and temporary and may be revised or terminated by Dreyfus at any time without notice.

Dreyfus Institutional Preferred Plus Money Market Fund

GOAL/APPROACH

The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity. To pursue this goal, the fund invests in a diversified portfolio of high quality, short-term debt securities, including:

- securities issued or guaranteed by the U.S. government or its agencies or instrumentalities
- certificates of deposit, time deposits, bankers' acceptances and other short-term securities issued by domestic or foreign banks or their subsidiaries or branches
- repurchase agreements
- domestic and dollar-denominated foreign commercial paper and other short-term corporate obligations, including those with floating or variable rates of interest
- dollar-denominated obligations issued or guaranteed by one or more foreign governments or any of their political subdivisions or agencies
- asset-backed securities

Normally, the fund invests at least 25% of its total assets in bank obligations.

Concepts to understand

Repurchase agreement: a U.S. commercial bank or securities dealer sells securities, typically U.S. government securities, to the fund and agrees to repurchase them at an agreed-upon date (usually the next day) and price. These agreements offer the fund a means of investing money for a short period of time.

MAIN RISKS

The fund's yield will fluctuate as the short-term securities in its portfolio mature and the proceeds are reinvested in securities with different interest rates.

While the fund has maintained a constant share price since inception, and will continue to try to do so, the following factors could reduce the fund's income level and/or share price:

- interest rates could rise sharply, causing the value of the fund's investments and its share price to drop
- interest rates could drop, thereby reducing the fund's yield
- any of the fund's holdings could have its credit rating downgraded or could default
- the risks generally associated with concentrating investments in the banking industry, such as interest rate risk, credit risk and regulatory developments relating to the banking industry
- the risks generally associated with dollar-denominated foreign investments, such as economic and political developments, seizure or nationalization of deposits, imposition of taxes or other restrictions on the payment of principal and interest
- the risk that a counterparty in a repurchase agreement could fail to honor the terms of its agreement

What this fund is – and isn't

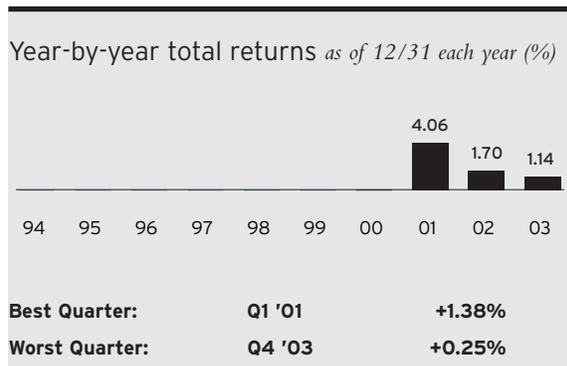

The fund is a mutual fund: a pooled investment that is professionally managed and gives an investor the opportunity to participate in financial markets. It strives to reach its stated goal, although as with all mutual funds, it cannot offer guaranteed results.

An investment in the fund is not a bank deposit. It is not insured or guaranteed by the FDIC or any other government agency. It is not a complete investment program. An investor could lose money in the fund, but also has the potential to make money.

Concepts to understand

Management fee: the fee paid to Dreyfus for managing the fund. Under the fund's management contract, Dreyfus has agreed to pay all other fund expenses except for brokerage commissions, taxes, interest, fees and expenses of the independent board members, fees and expenses of independent counsel to the fund and to the independent board members, and extraordinary expenses. For the fiscal year ended March 31, 2004, Dreyfus waived receipt of its management fee pursuant to an undertaking, so that the fund paid no fees or expenses. This undertaking was voluntary.

From time to time, Dreyfus may limit expenses to the extent it deems appropriate to enhance the yield of the fund during periods when fixed expenses have a significant impact on the yield of the fund because of low interest rates. This expense limitation policy is voluntary and temporary and may be revised or terminated by Dreyfus at any time without notice.

MANAGEMENT

The investment adviser for each fund is The Dreyfus Corporation (Dreyfus), 200 Park Avenue, New York, New York 10166. Founded in 1947, Dreyfus manages approximately \$165 billion in approximately 200 mutual fund portfolios. For the past fiscal year, Dreyfus Institutional Preferred Money Market Fund paid Dreyfus a management fee at the annual rate of 0.10% of the fund's average daily net assets, and Dreyfus Institutional Preferred Plus Money Market Fund paid no management fee during the past fiscal year because of an undertaking by Dreyfus. Dreyfus is the primary mutual fund business of Mellon Financial Corporation (Mellon Financial), a global financial services company with approximately \$3.6 trillion of assets under management, administration or custody, including approximately \$675 billion under management. Mellon Financial provides financial services for institutions, corporations and individuals, offering institutional asset management, mutual funds, private wealth management, asset servicing, human resources services and treasury services. Mellon Financial is headquartered in Pittsburgh, Pennsylvania.

The Dreyfus asset management philosophy is based on the belief that discipline and consistency are important to investment success. For each fund, Dreyfus seeks to establish clear guidelines for portfolio management and to be systematic in making decisions. This approach is designed to provide each fund with a distinct, stable identity.

On March 30, 2004, Mellon Bank, N.A., a wholly owned subsidiary of Mellon Financial and the then-current parent company of Dreyfus, transferred its entire interest in Dreyfus, including Dreyfus Service Corporation (each fund's distributor) and all of Dreyfus' other direct and indirect subsidiaries, to Mellon Financial. The reorganization did not result in a change in the control or management of Dreyfus under the Investment Advisers Act of 1940, as amended, or the Investment Company Act of 1940, as amended (the 1940 Act); Dreyfus merely became a direct, rather than indirect, wholly owned subsidiary of Mellon Financial. The reorganization was part of a larger reorganization of Mellon

Financial that is expected to increase organizational synergies and create a more efficient capital structure throughout the organization.

The funds, Dreyfus and Dreyfus Service Corporation have each adopted a code of ethics that permits its personnel, subject to such code, to invest in securities, including securities that may be purchased or held by each fund. The Dreyfus code of ethics restricts the personal securities transactions of its employees, and requires portfolio managers and other investment personnel to comply with the code's preclearance and disclosure procedures. Its primary purpose is to ensure that personal trading by Dreyfus employees does not disadvantage any Dreyfus-managed fund.

Two class actions (which have been consolidated) have been filed against Mellon Financial and Mellon Bank, N.A., and Dreyfus and Founders Asset Management LLC (the Investment Advisers), and the directors of all or substantially all of the Dreyfus funds, alleging that the Investment Advisers improperly used assets of the Dreyfus funds, in the form of directed brokerage commissions and 12b-1 fees, to pay brokers to promote sales of Dreyfus funds, and that the use of fund assets to make these payments was not properly disclosed to investors. The complaints further allege that the directors breached their fiduciary duties to fund shareholders under the 1940 Act and at common law. The complaints seek unspecified compensatory and punitive damages, rescission of the funds' contracts with the Investment Advisers, an accounting of all fees paid, and an award of attorneys' fees and litigation expenses. Dreyfus and the Dreyfus funds believe the allegations to be totally without merit and will defend the actions vigorously.

Additional lawsuits arising out of these circumstances and presenting similar allegations and requests for relief may be filed against the defendants in the future. Neither Dreyfus nor the Dreyfus funds believe that any of the pending actions will have a material adverse effect on the Dreyfus funds or Dreyfus' ability to perform its contract with the Dreyfus funds.

FINANCIAL HIGHLIGHTS

The following tables describe each fund's performance for the fiscal periods indicated. "Total return" shows how much an investment in the fund would have increased (or decreased) during each period, assuming reinvestment of all dividends and

distributions. These figures have been independently audited by Ernst & Young LLP, whose report, along with the fund's financial statements, is included in the annual report, which is available upon request.

Account Information

ACCOUNT POLICIES

Each fund is designed for institutional investors. Fund shares will not be sold to individuals.

Buying shares

Investors pay no sales charges to invest in these funds. The price for fund shares is the fund's net asset value per share (NAV), which is generally calculated at 5:00 p.m. on days the New York Stock Exchange or the fund's transfer agent (as on Good Friday) is open for regular business. Orders in proper form will be priced at the NAV next calculated after the orders and Federal Funds are received by the fund's custodian or other authorized entity.

Orders in proper form placed prior to 5:00 p.m., and payments for which are received in or converted into Federal Funds by the fund's custodian by 6:00 p.m., will become effective at the price determined at 5:00 p.m., and the shares so purchased will receive the dividend declared on that day. Investors whose orders are placed in proper form after 5:00 p.m., or whose payments are received in or converted into Federal Funds after 6:00 p.m. by the fund's custodian, will begin to accrue dividends on the following business day.

For each fund, all times are Eastern time.

Each fund's investments are valued based on amortized cost.

Minimum investments		
	Initial	Additional
Regular accounts	\$1 billion*	no minimum

*The minimum initial investment is \$1 billion, unless: (a) the investor has invested at least \$1 billion in one fund, in which case there would be no minimum initial investment amount for the other fund; or (b) the investor has, in the opinion of Dreyfus Institutional Services Division, adequate intent and availability of assets to reach a future aggregate level of investment of \$1 billion in the funds.

Concepts to understand

Net asset value (NAV): a mutual fund's share price on a given day. A fund's NAV is calculated by dividing the value of its net assets by the number of existing shares.

Amortized cost: a method of valuing a money market fund's portfolio securities, which does not take into account unrealized gains or losses. As a result, portfolio securities are valued at their acquisition cost, adjusted over time based on the discounts or premiums reflected in their purchase price. This method of valuation is designed for a fund to be able to price its shares at \$1.00 per share.

Selling shares

Investors may sell (redeem) shares at any time and the shares will be sold at the next determined NAV. If a request for redemption is received in proper form, and transmitted to the fund's custodian by 5:00 p.m. Eastern time, the proceeds of the redemption, if transfer by wire is requested, ordinarily will be transmitted in Federal Funds on the same day, and the shares will not receive the dividend declared on that day. If the request is received later that day, the shares will receive the dividend declared on that day, and the proceeds of redemption, if wire transfer is requested, ordinarily will be transmitted in Federal Funds on the next business day. Any certificates representing fund shares being sold must be returned with the redemption request.

The processing of redemptions and the delivery of the proceeds may be delayed beyond the same or next business day, depending on the circumstances, for any period (i) during which the New York Stock Exchange is closed (other than on holidays or weekends), or during which trading on the New York Stock Exchange is restricted; (ii) when an emergency exists that makes difficult the disposal of securities owned by a fund or the determination of the fair value of the fund's net assets; or (iii) as permitted by order of the Securities and Exchange Commission for the protection of fund shareholders. If, for one of these reasons, the processing of redemptions and the delivery of redemption proceeds is delayed beyond the same or next business day, the delay may be for up to seven days. For these purposes, the Securities and Exchange Commission determines the conditions under which trading shall be deemed to be restricted and an emergency shall be deemed to exist.

General policies

Unless an investor declines telephone privileges on the application, the investor may be responsible for any fraudulent telephone order as long as the fund's transfer agent takes reasonable measures to verify the order.

Each fund also reserves the right to:

- refuse any purchase request or exchange request that could adversely affect the fund or its operations
- change or discontinue its exchange privilege, or temporarily suspend the privilege during unusual market conditions
- change its minimum investment amounts
- "redeem in kind," or make payments in portfolio securities rather than cash, if the amount the investor is redeeming is deemed by Dreyfus to be large enough to affect fund operations (for example, if it exceeds 1% of the fund's assets)

Each fund also may process purchase and sale orders and calculate its NAV on days that the fund's primary trading markets are open and the fund's management determines to do so.

DISTRIBUTIONS AND TAXES

Each fund earns dividends, interest and other income from its investments, and distributes this income (less expenses) to shareholders as dividends. Each fund also realizes capital gains from its investments, and distributes these gains (less any losses) to shareholders as capital gain distributions. Each fund normally pays dividends once a month and capital gain distributions annually. Fund dividends and capital gain distributions will be reinvested in the fund unless you instruct the fund otherwise. There are no fees or sales charges on reinvestments.

Distributions paid by each fund are subject to federal income tax, and may also be subject to state or local taxes (unless you are investing through a tax-advantaged retirement account). For federal tax purposes, in general, certain fund distributions, including distributions of short-term capital gains, are taxable to you as ordinary income. Other fund distributions, including dividends from U.S. companies and certain foreign companies and distributions of long-term capital gains, are taxable to you as qualified dividends and capital gains.

The tax status of any distribution generally is the same regardless of how long you have been in the fund and whether you reinvest your distributions or take them in cash.

If you buy shares of a fund when the fund has realized but not yet distributed income or capital gains, you will be “buying a dividend” by paying the full price for the shares and then receiving a portion back in the form of a taxable distribution.

Your sale of shares, including exchanges into other funds, may result in a capital gain or loss for tax purposes. A capital gain or loss on your investment in the fund generally is the difference between the cost of your shares and the amount you receive when you sell them.

The tax status of your distributions will be detailed in your annual tax statement from the fund. Because everyone’s tax situation is unique, please consult your tax advisor before investing.

SERVICES FOR FUND INVESTORS

Exchange privilege

An investor may purchase, in exchange for shares of one fund, shares of the other fund. An exchange may be requested in writing or by telephone. Any new account established through an exchange will have the same privileges as the original account (as long as they are available). There is currently no fee for exchanges.

Dreyfus Auto-Exchange privilege

Dreyfus Auto-Exchange privilege enables an investor to invest regularly (on a monthly, semi-monthly, quarterly or annual basis), in exchange for shares of one fund, in shares of the other fund if the investor is a shareholder in such other fund. There is currently no fee for this privilege.

INSTRUCTIONS FOR ACCOUNTS

TO OPEN AN ACCOUNT

By Telephone

Wire Call us to request an account application and an account number. Transmit your investment to The Bank of New York, with these instructions:

DESCRIPTION OF THE COMPANY AND THE FUNDS

The Company is a Massachusetts business trust that commenced operations on June 11, 1997. Prior to October 3, 2000, the Company's name was Dreyfus Institutional Preferred Money Market Fund. Each Fund is a separate portfolio of the Company, an open-end management investment company, known as a money market mutual fund. Each Fund is a diversified fund, which means that, with respect to 75% of the Fund's total assets, the Fund will not invest more than 5% of its assets in the securities of any single issuer nor hold more than 10% of the outstanding voting securities of any single issuer (other than, in each case, securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities).

The Dreyfus Corporation (the "Manager") serves as each Fund's investment adviser.

Dreyfus Service Corporation (the "Distributor") is the distributor of each Fund's shares.

Certain Portfolio Securities

The following information supplements (except as noted) and should be read in conjunction with the Funds' Prospectus.

U.S. Government Securities. (All Funds) Each Fund may invest in securities issued or guaranteed by the U.S. Government or its agencies or instrumentalities, which include U.S. Treasury securities, that differ in their interest rates, maturities and times of issuance. Some obligations issued or guaranteed by U.S. Government agencies and instrumentalities are supported by the full faith and credit of the U.S. Treasury; others by the right of the issuer to borrow from the Treasury; others by discretionary authority of the U.S. Government to purchase certain obligations of the agency or instrumentality; and others only by the credit of the agency or instrumentality. These securities bear fixed, floating or variable rates of interest. While the U.S. Government currently provides financial support to such U.S. Government-sponsored agencies or instrumentalities, no assurance can be given that it will always do so, since it is not so obligated by law.

Foreign Government Obligations; Securities of Supranational Entities. (Dreyfus Institutional Preferred Plus Money Market Fund only) The Fund may invest in obligations issued or guaranteed by one or more foreign governments or any of their political subdivisions, agencies or instrumentalities that are determined by the Manager to be of comparable quality to the other obligations in which the Fund may invest. Such securities also include debt obligations of supranational entities. Supranational entities include organizations designated or supported by governmental entities to promote economic reconstruction or development and international banking institutions and related government agencies. Examples include the International Bank for Reconstruction and Development (the World Bank), the European Coal and Steel Community, the Asian Development Bank and the InterAmerican Development Bank.

Bank Obligations. (All Funds) Each Fund may purchase certificates of deposit ("CDs"), time deposits ("TDs"), bankers' acceptances and other short-term obligations issued by domestic banks, foreign subsidiaries or foreign branches of domestic banks, domestic and foreign branches of foreign banks, domestic savings and loan associations and other banking institutions.

CDs are negotiable certificates evidencing the obligation of a bank to repay funds deposited with it for a specified period of time.

TDs are non-negotiable deposits maintained in a banking institution for a specified period of time (in no event longer than seven days) at a stated interest rate.

Bankers' acceptances are credit instruments evidencing the obligation of a bank to pay a draft drawn on it by a customer. These instruments reflect the obligation both of the bank and the drawer to pay the face amount of the instrument upon maturity. The other short-term obligations may include uninsured, direct obligations bearing fixed, floating or variable interest rates.

Domestic commercial banks organized under Federal law are supervised and examined by the Comptroller of the Currency and are required to be members of the Federal Reserve System and to have their deposits insured by the Federal Deposit Insurance Corporation (the "FDIC"). Domestic banks organized under state law are supervised and examined by state banking authorities but are members of the Federal Reserve System only if they elect to join. In addition, state banks whose CDs may be purchased by the Fund are insured by the Bank Insurance Fund administered by the FDIC (although such insurance may not be of material benefit to the Fund, depending on the principal amount of the CDs of each bank held by the Fund) and are subject to Federal examination and to a substantial body of Federal law and regulation. As a result of Federal or state laws and regulations, domestic branches of domestic banks whose CDs may be purchased by a Fund are, among other things, generally required to maintain specified levels of reserves, are limited in the amounts which they can loan to a single borrower and are subject to other regulation designed to promote financial soundness. However, not all of such laws and regulations apply to the foreign branches of domestic banks.

Obligations of foreign branches of domestic banks, foreign subsidiaries of domestic banks and domestic and foreign branches of foreign banks, such as CDs and TDs, may be general obligations of the parent banks in addition to the issuing branch, or may be limited by the terms of a specific obligation and governmental regulation. Such obligations are subject to different risks than are those of domestic banks. These risks include foreign economic and political developments, foreign governmental restrictions that may adversely affect payment of principal and interest on the obligations, foreign exchange controls and foreign withholding and other taxes on interest income. Foreign branches and subsidiaries are not necessarily subject to the same or similar regulatory requirements that apply to domestic banks, such as mandatory reserve requirements, loan limitations, and accounting, auditing and financial recordkeeping requirements. In addition, less information may be publicly available about a foreign branch of a domestic bank or about a foreign bank than about a domestic bank.

Obligations of United States branches of foreign banks may be general obligations of the parent bank in addition to the issuing branch, or may be limited by the terms of a specific obligation or by Federal or state regulation as well as governmental action in the country in which the foreign bank has its head office. A domestic branch of a foreign bank with assets in excess of \$1 billion may or may not be subject to reserve requirements imposed by the Federal Reserve System or by the state in which the branch is located if the branch is licensed in that state.

In addition, Federal branches licensed by the Comptroller of the Currency and branches licensed by certain states ("State Branches") may be required to: (1) pledge to the regulator, by

depositing assets with a designated bank within the state, a certain percentage of their assets as fixed from time to time by the appropriate regulatory authority; and (2) maintain assets within the state in an amount equal to a specified percentage of the aggregate amount of liabilities of the foreign bank payable at or through all of its agencies or branches within the state. The deposits of Federal and State Branches generally must be insured by the FDIC if such branches take deposits of less than \$100,000.

In view of the foregoing factors associated with the purchase of CDs and TDs issued by foreign branches of domestic banks, by foreign subsidiaries of domestic banks, by foreign branches of foreign banks or by domestic branches of foreign banks, the Manager carefully evaluates such investments on a case-by-case basis.

Each Fund may purchase CDs issued by banks, savings and loan associations and similar thrift institutions with less than \$1 billion in assets, whose deposits are insured by the FDIC, provided the Fund purchases any such CD in a principal amount of not more than \$100,000, which amount would be fully insured by the Bank Insurance Fund or the Savings Association Insurance Fund administered by the FDIC. Interest payments on such a CD are not so insured. The Fund will not own more than one such CD per such issuer.

Commercial Paper. (All Funds) Each Fund may purchase commercial paper consisting of short-term, unsecured promissory notes issued to finance short-term credit needs. The commercial paper purchased by the Funds will consist only of direct obligations issued by domestic and foreign entities. The other corporate obligations in which each Fund may invest consist of high quality, U.S. dollar denominated short-term bonds and notes (including variable amount master demand notes).

Floating and Variable Rate Obligations. (All Funds) Each Fund may purchase floating and variable rate demand notes and bonds, which are obligations ordinarily having stated maturities in excess of 13 months, but which permit the holder to demand payment of principal at any time, or at specified intervals not exceeding 13 months, in each case upon not more than 30 days' notice. Variable rate demand notes include master demand notes which are obligations that permit the Fund to invest fluctuating amounts, at varying rates of interest, pursuant to direct arrangements between the Fund, as lender, and the borrower. These obligations permit daily changes in the amounts borrowed. Because these obligations are direct lending arrangements between the lender and borrower, it is not contemplated that such instruments generally will be traded, and there generally is no established secondary market for these obligations, although they are redeemable at face value, plus accrued interest. Accordingly, where these obligations are not secured by letters of credit or other credit support arrangements, the Fund's right to redeem is dependent on the ability of the borrower to pay principal and interest on demand.

Repurchase Agreements. (All Funds) Each Fund may enter into repurchase agreements. In a repurchase agreement, the Fund buys, and the seller agrees to repurchase, a security at a mutually agreed upon time and price (usually within seven days). The repurchase agreement thereby determines the yield during the purchaser's holding period, while the seller's obligation to repurchase is secured by the value of the underlying security. The Funds' custodian will have custody of, and will segregate, securities acquired by a Fund under a repurchase agreement. Repurchase agreements are considered by the staff of the Securities and Exchange Commission to be loans by the Fund that enters into them. Repurchase agreements could involve risks in the event of a default or insolvency of the other party to the agreement, including possible delays or restrictions upon the Fund's ability to

dispose of the underlying securities. In an attempt to reduce the risk of incurring a loss on a repurchase agreement, each Fund will enter into repurchase agreements only with domestic banks with total assets in excess of \$1 billion, or primary government securities dealers reporting to the Federal Reserve Bank of New York, with respect to securities of the type in which the Fund may invest, and will require that additional securities be deposited with it if the value of the securities purchased should decrease below the resale price.

Asset-Backed Securities. (All Funds) Each Fund may invest in asset-backed securities, which are securities issued by special purpose entities whose primary assets consist of a pool of mortgages, loans, receivables or other assets. Payment of principal and interest may depend largely on the cash flows generated by the assets backing the securities and in certain cases, supported by letters of credit, surety bonds or other forms of credit or liquidity enhancements. The value of these asset-backed securities also may be affected by the creditworthiness of the servicing agent for the pool of assets, the originator of the loans or receivables or the financial institutions providing the credit support.

Illiquid Securities. (All Funds) Each Fund may invest up to 10% of the value of its net assets in securities as to which a liquid trading market does not exist, provided such investments are consistent with the Fund's investment objective. Such securities may include securities that are not readily marketable, such as securities that are subject to legal or contractual restrictions on resale, and repurchase agreements providing for settlement in more than seven days after notice. As to these securities, the Fund is subject to a risk that should the Fund desire to sell them when a ready buyer is not available at a price the Fund deems representative of their value, the value of the Fund's net assets could be adversely affected.

Investment Techniques

The following information supplements and should be read in conjunction with the Funds' Prospectus.

Borrowing Money. (All Funds) Each Fund is permitted to borrow to the extent permitted under the Investment Company Act of 1940, as amended (the "1940 Act"), which permits an investment company to borrow an amount up to 33-1/3% of the value of its total assets. Each Fund currently intends to borrow money only for temporary or emergency (not leveraging) purposes in an amount up to 15% of the value of its total assets (including the amount borrowed) at the time the borrowing is made. While such borrowings exceed 5% of the value of a Fund's total assets, the Fund will not make any additional investments. In addition, each Fund may borrow for investment purposes on a secured basis through entering into reverse repurchase agreements, as described below.

Reverse Repurchase Agreements. (All Funds) Each Fund may enter into reverse repurchase agreements with banks, broker/dealers or other financial institutions. These agreements involve the transfer by the Fund of an underlying debt instrument in return for cash proceeds based on a percentage of the value of the security. The Fund retains the right to receive interest and principal payments on the security. The Fund will use the proceeds of reverse repurchase agreements only to make investments which generally either mature, or have a demand feature to resell to the issuer, at a date simultaneous with or prior to the expiration of the reverse repurchase agreement. At an agreed upon future date, the Fund repurchases the security, at principal, plus accrued interest. As a result of these transactions, the Fund is exposed to greater potential fluctuations in the value of its assets and its net asset value per share. These borrowings will be subject to interest costs which may or may not

be recovered by appreciation of the securities purchased; in certain cases, interest costs may exceed the return received on the securities purchased. Reverse repurchase agreements constitute borrowings under the 1940 Act and, therefore, together with other borrowings, will be subject to the limitations on borrowing set forth in the 1940 Act. To the extent a Fund enters into a reverse repurchase agreement, the Fund will segregate permissible liquid assets at least equal to the aggregate amount of its reverse repurchase obligations, plus accrued interest, in certain cases, in accordance with releases promulgated by the Securities and Exchange Commission.

Lending Portfolio Securities. (All Funds) Each Fund may lend securities from its portfolio to brokers, dealers and other financial institutions needing to borrow securities to complete certain transactions. In connection with such loans, the Fund remains the owner of the loaned securities and continues to be entitled to payments in amounts equal to the interest, dividends or other distributions payable on the loaned securities. The Fund also has the right to terminate a loan at any time. The Fund may call the loan to vote proxies if a material issue affecting the Fund's investment is to be voted upon. Loans of portfolio securities may not exceed 33-1/3% of the value of the Fund's total assets (including the value of all assets received as collateral for the loan). The Fund will receive collateral consisting of cash, U.S. Government securities or irrevocable letters of credit which will be maintained at all times in an amount equal to at least 100% of the current market value of the loaned securities. If the collateral consists of a letter of credit or securities, the borrower will pay the Fund a loan premium fee. If the collateral consists of cash, the Fund will reinvest the cash and pay the borrower a pre-negotiated fee or "rebate" from any return earned on the investment. The Fund may participate in a securities lending program operated by Mellon Bank, N.A., as lending agent (the "Lending Agent"). The Lending Agent will receive a percentage of the total earnings of the Fund derived from lending its portfolio securities. Should the borrower of the securities fail financially, the Fund may experience delays in recovering the loaned securities or exercising its rights in the collateral. Loans are made only to borrowers that are deemed by the Manager to be of good financial standing. In a loan transaction, the Fund will also bear the risk of any decline in value of securities acquired with cash collateral. A Fund will minimize this risk by limiting the investment of cash collateral to money market funds advised by the Manager, repurchase agreements or other high quality instruments with short maturities.

Forward Commitments. (All Funds) Each Fund may purchase money market instruments on a forward commitment or when-issued basis, which means that delivery and payment take place a number of days after the date of the commitment to purchase. The payment obligation and the interest rate receivable on a forward commitment or when-issued security are fixed when the Fund enters into the commitment, but the Fund does not make payment until it receives delivery from the counterparty. A Fund will commit to purchase such securities only with the intention of actually acquiring the securities, but the Fund may sell these securities before the settlement date if it is deemed advisable. The Fund will segregate permissible liquid assets at least equal at all times to the amount of the Fund's purchase commitments.

Securities purchased on a forward commitment or when-issued basis are subject to changes in value (generally changing in the same way, i.e., appreciating when interest rates decline and depreciating when interest rates rise) based upon the public's perception of the creditworthiness of the issuer and changes, real or anticipated, in the level of interest rates. Securities purchased on a forward commitment or when-issued basis may expose the Fund to risks because they may experience such fluctuations prior to their actual delivery. Purchasing securities on a when-issued basis can involve the additional risk that the yield available in the market when the delivery takes place actually may be

higher than that obtained in the transaction itself. Purchasing securities on a forward commitment or when-issued basis when the Fund is fully or almost fully invested may result in greater potential fluctuation in the value of the Fund's net assets and its net asset value per share.

Certain Investment Considerations and Risks

General. (All Funds) Each Fund attempts to increase yields by trading to take advantage of short-term market variations. This policy is expected to result in high portfolio turnover but should not adversely affect the Funds since the Funds usually do not pay brokerage commissions when purchasing short-term obligations. The value of the portfolio securities held by a Fund will vary inversely to changes in prevailing interest rates. Thus, if interest rates have increased from the time a security was purchased, such security, if sold, might be sold at a price less than its cost. Similarly, if interest rates have declined from the time a security was purchased, such security, if sold, might be sold at a price greater than its purchase cost. In either instance, if the security was purchased at face value and held to maturity, no gain or loss would be realized.

Bank Securities. (All Funds) To the extent a Fund's investments are concentrated in the banking industry, the Fund will have correspondingly greater exposure to the risk factors which are characteristic of such investments. Sustained increases in interest rates can adversely affect the availability or liquidity and cost of capital funds for a bank's lending activities, and a deterioration in general economic conditions could increase the exposure to credit losses. In addition, the value of and the investment return on the Fund's shares could be affected by economic or regulatory developments in or related to the banking industry, which industry also is subject to the effects of competition within the banking industry as well as with other types of financial institutions. Each Fund, however, will seek to minimize its exposure to such risks by investing only in debt securities which are determined to be of highest quality.

Foreign Securities. (All Funds) Since a Fund's portfolio may contain securities issued by foreign branches of domestic banks, domestic and foreign branches of foreign banks, and commercial paper issued by foreign issuers, and with respect to Dreyfus Institutional Preferred Plus Money Market Fund, securities issued by foreign governments, the Fund may be subject to additional investment risks with respect to such securities that are different in some respects from those incurred by a fund which invests only in debt obligations of U.S. domestic issuers, although such obligations may be higher yielding when compared to the securities of U.S. domestic issuers. Such risks include possible future political and economic developments, seizure or nationalization of foreign deposits, imposition of foreign withholding taxes on interest income payable on the securities, establishment of exchange controls, or adoption of other foreign governmental restrictions which might adversely affect the payment of principal and interest on these securities.

Simultaneous Investments. (All Funds) Investment decisions for each Fund are made independently from those of the other Fund and other investment companies advised by the Manager. If, however, such other Fund or investment companies desire to invest in, or dispose of, the same securities as the Fund, available investments or opportunities for sales will be allocated equitably to each. In some cases, this procedure may adversely affect the size of the position obtained for or disposed of by a Fund or the price paid or received by a Fund.

Investment Restrictions

Each Fund's investment objective is a fundamental policy, which cannot be changed without approval by the holders of a majority (as defined in the 1940 Act) of the Fund's outstanding voting shares. In addition, each Fund has adopted investment restrictions numbered 1 through 9 as fundamental policies. Investment restrictions numbered 10 and 11 are not fundamental policies and may be changed, as to a Fund, by vote of a majority of the Company's Board members at any time. Neither Fund may:

1. Invest in commodities.
2. Borrow money, except to the extent permitted under the 1940 Act (which currently limits borrowing to no more than 33-1/3% of the value of the Fund's total assets).
3. Purchase or sell securities on margin.
4. Issue any senior security (as such term is defined in Section 18(f) of the 1940 Act).
5. Act as underwriter of securities of other issuers, except to the extent the Fund may be deemed an underwriter under the Securities Act of 1933, as amended, by virtue of disposing of portfolio securities.
6. Purchase, hold or deal in real estate, or oil, gas, or other mineral leases or exploration or development programs, but the Fund may purchase and sell securities that are secured by real estate or issued by companies that invest in or deal in real estate.
7. Make loans to others except through the purchase of debt obligations and the entry into repurchase agreements. However, the Fund may lend its portfolio securities in an amount not to exceed 33-1/3% of the value of its total assets. Any loans of portfolio securities will be made according to guidelines established by the Securities and Exchange Commission and the Company's Board.
8. Invest more than 5% of its assets in the obligations of any one issuer, except that up to 25% of the value of the Fund's total assets may be invested without regard to any such limitation.
9. Invest less than 25% of its total assets in securities issued by banks or invest more than 25% in the securities of issuers in any other industry, provided that there shall be no limitation on the purchase of obligations issued or guaranteed by the U.S. Government, its agencies or instrumentalities. Notwithstanding the foregoing, for temporary defensive purposes the Fund may invest less than 25% of its assets in bank obligations.
10. Pledge, mortgage, hypothecate or otherwise encumber its assets, except to the extent necessary to secure permitted borrowings and to the extent related to the deposit of assets in escrow in connection with the purchase of securities on a when-issued or forward commitment basis.
11. Enter into repurchase agreements providing for settlement in more than seven days after notice or purchase securities which are illiquid if, in the aggregate, more than 10% of the value of the Fund's net assets would be so invested.

If a percentage restriction is adhered to at the time of investment, a later increase or decrease in percentage resulting from a change in values or assets will not constitute a violation of that restriction.

MANAGEMENT OF THE COMPANY

The Company's Board is responsible for the management and supervision of each Fund, and approves all significant agreements with those companies that furnish services to the Funds. These companies are as follows:

The Dreyfus Corporation	Investment Adviser
Dreyfus Service Corporation.....	Distributor
Dreyfus Transfer, Inc.	Transfer Agent
The Bank of New York.....	Custodian

Board members of the Company, together with information as to their positions with the Company, principal occupations and other board memberships and affiliations, are shown below.

Board Members of the Company¹

<u>Name (Age)</u> <u>Position with Company (Since)</u>	<u>Principal Occupation</u> <u>During Past 5 Years</u>	<u>Other Board Memberships and Affiliations</u>
Joseph S. DiMartino (60) Chairman of the Board (1997)	Corporate Director and Trustee	The Muscular Dystrophy Association, <i>Director</i> Levor International, Inc., an apparel fabric processor, <i>Director</i> Century Business Services, Inc., a provider of outsourcing functions for small and medium size companies, <i>Director</i> The Newark Group, a provider of a national market of paper recovery facilities, paperboard mills and paperboard converting plants, <i>Director</i>
Clifford L. Alexander, Jr. (70) Board Member (1997)	President of Alexander & Associates, Inc., a management consulting firm (January 1981 – present) Chairman of the Board of Moody's Corporation (October 2000 – October 2003) Chairman of the Board and Chief Executive Officer of The Dun and Bradstreet Corporation (October 1999 – September 2000)	Wyeth (formerly, American Home Products Corporation), a global leader in pharmaceuticals, consumer healthcare products and animal health products, <i>Director</i> Mutual of America Life Insurance Company, <i>Director</i>

¹ None of the Board members are "interested persons" of the Company, as defined in the 1940 Act.

<u>Name (Age)</u> <u>Position with Company (Since)</u>	<u>Principal Occupation</u> <u>During Past 5 Years</u>	<u>Other Board Memberships and Affiliations</u>
Lucy Wilson Benson (76) Board Member (1997)	President of Benson and Associates, consultants to business and government (1980 – present)	The International Executive Services Corps., <i>Director</i> Citizens Network for Foreign Affairs, <i>Vice</i> <i>Chairperson</i> Council on Foreign Relations, <i>Member</i> Lafayette College Board of Trustees, <i>Vice</i> <i>Chairperson</i> Atlantic Council of the U.S., <i>Director</i>
David W. Burke (68) Board Member (2003)	Corporate Director and Trustee	John F. Kennedy Library Foundation, <i>Director</i> U.S.S. Constitution Museum, <i>Director</i>
Whitney I. Gerard (69) Board Member (2003)	Partner of Chadbourne & Parke LLP	None
Arthur A. Hartman (78) Board Member (2003)	Chairman of First NIS Regional Fund (ING/Barings Management) and New Russia Fund Advisory Council Member to Barings Vostok	APCO Associates Inc., <i>Senior Consultant</i>
George L. Perry (70) Board Member (2003)	Economist and Senior Fellow at Brookings Institution	State Farm Mutual Automobile Association, <i>Director</i> State Farm Life Insurance Company, <i>Director</i>

Board members are elected to serve for an indefinite term. The Company has standing audit, nominating and compensation committees, each comprised of its Board members who are not "interested persons" of the Company, as defined in the 1940 Act. The function of the audit committee is (i) to oversee the Company's accounting and financial reporting processes and the audits of each Fund's financial statements and (ii) to assist in the Board's oversight of the integrity of each Fund's financial statements, the Company's compliance with legal and regulatory requirements and the independent auditors' qualifications, independence and performance. The Company's nominating committee is responsible for selecting and nominating persons as members of the Board for election or appointment by the Board and for election by shareholders. In evaluating potential nominees, including any nominees recommended by shareholders, the committee takes into consideration various factors, including character and integrity, business and professional experience, and whether the committee believes the person has the ability to apply sound and independent business judgment and would act in the interest of the Company and its shareholders. The function of the compensation committee is to establish the appropriate compensation for serving on the Board. The Company also has a standing evaluation committee comprised of any one Board member of the Company. The function of the evaluation committee is to assist in valuing the Funds' investments. The audit committee met six times and the nominating committee met once during the fiscal year ended March 31, 2004. The compensation committee and evaluation committee had no meetings during the last fiscal year.

The table below indicates the dollar range of each Board member's ownership of Fund shares and shares of other funds in the Dreyfus Family of Funds for which he or she is a Board member, in each case as of December 31, 2003.

<u>Name of Board Member</u>	<u>Dreyfus Institutional Preferred Money Market Fund</u>	<u>Dreyfus Institutional Preferred Plus Money Market Fund</u>	<u>Aggregate Holding of Funds in the Dreyfus Family of Funds for which Responsible as a Board Member</u>
Joseph S. DiMartino	None	None	Over \$100,000
Clifford L. Alexander, Jr.	None	None	Over \$100,000
Lucy Wilson Benson	None	None	\$50,001 to \$100,000
David W. Burke	None	None	Over \$100,000
Whitney I. Gerard	None	None	Over \$100,000
Arthur A. Hartman	None	None	None
George L. Perry	None	None	None

As of December 31, 2003, none of the Board members or their immediate family members owned securities of the Manager, the Distributor or any person (other than a registered investment company) directly or indirectly controlling, controlled by or under common control with the Manager or the Distributor.

The Company pays its Board members its allocated portion of an annual retainer of \$60,000 and a fee of \$7,500 per meeting (with a minimum of \$500 per meeting and per telephone meeting) attended for the Company and sixteen other funds (comprised of 35 portfolios) in the Dreyfus Family of Funds, and reimburses them for their expenses. The Chairman of the Board receives an additional 25% of such compensation. Emeritus Board members, if any, are entitled to receive an annual retainer and a per meeting fee of one-half the amount paid to them as Board members. The aggregate amount of compensation paid to each Board member by the Company for the fiscal year ended March 31, 2004 and by all funds in the Dreyfus Family of Funds for which such person was a Board member (the number of portfolios of such funds is set forth in parenthesis next to each Board member's total compensation) for the year ended December 31, 2003, was as follows:

<u>Name of Board Member</u>	<u>Aggregate Compensation from the Company*</u>	<u>Total Compensation From the Company and Fund Complex Paid to Board Member(**)</u>
Joseph S. DiMartino	\$53,393	\$800,305 (191)
Clifford L. Alexander, Jr.	\$42,717	\$198,500 (65)
Lucy Wilson Benson	\$42,717	\$116,000 (39)
David W. Burke	\$42,717	\$283,744 (83)
Whitney I. Gerard	\$42,717	\$98,000 (37)
Arthur A. Hartman	\$42,717	\$90,500 (37)

<u>Name of Board Member</u>	<u>Aggregate Compensation from the Company*</u>	<u>Total Compensation From the Company and Fund Complex Paid to Board Member(**)</u>
George L. Perry	\$42,717	\$98,000 (37)

* Amount does not include reimbursed expenses for attending Board meetings, which amounted to \$1,068.88 for all Board members as a group. The Manager reimbursed the Company for the aggregate compensation and reimbursed expenses paid to each Board member by the Company.

** Represents the number of separate portfolios comprising the investment companies in the Fund Complex, including the Funds, for which the Board member serves.

Officers of the Company

STEPHEN E. CANTER, President since March 2000. Chairman of the Board, Chief Executive Officer and Chief Operating Officer of the Manager, and an officer of 97 investment companies (comprised of 190 portfolios) managed by the Manager. Mr. Canter also is a Board member and, where applicable, an Executive Committee Member of the other investment management subsidiaries of Mellon Financial Corporation, each of which is an affiliate of the Manager. He is 59 years old and has been an employee of the Manager since May 1995.

STEPHEN R. BYERS, Executive Vice President since November 2002. Chief Investment Officer, Vice Chairman and a director of the Manager, and an officer of 97 investment companies (comprised of 190 portfolios) managed by the Manager. Mr. Byers also is an officer, director or an Executive Committee Member of certain other investment management subsidiaries of Mellon Financial Corporation, each of which is an affiliate of the Manager. He is 50 years old and has been an employee of the Manager since January 2000. Prior to joining the Manager, he served as an Executive Vice President – Capital Markets, Chief Financial Officer and Treasurer at Gruntal & Co., L.L.C.

J. CHARLES CARDONA, Executive Vice President since March 2000. Vice Chairman and a director of the Manager, Executive Vice President of the Distributor, President of Dreyfus Institutional Services Division, a division of the Distributor, and an officer of 14 investment companies (comprised of 22 portfolios) managed by the Manager. He is 48 years old and has been an employee of the Manager since February 1981.

MARK N. JACOBS, Vice President since March 2000. Executive Vice President, Secretary and General Counsel of the Manager, and an officer of 98 investment companies (comprised of 206 portfolios) managed by the Manager. He is 58 years old and has been an employee of the Manager since June 1977.

STEVEN F. NEWMAN, Secretary since March 2000. Associate General Counsel and Assistant Secretary of the Manager, and an officer of 98 investment companies (comprised of 206 portfolios) managed by the Manager. He is 54 years old and has been an employee of the Manager since July 1980.

JEFF PRUSNOFSKY, Assistant Secretary since March 2000. Associate General Counsel of the Manager, and an officer of 26 investment companies (comprised of 87 portfolios) managed by the Manager. He is 39 years old and has been an employee of the Manager since October 1990.

MICHAEL A. ROSENBERG, Assistant Secretary since March 2000. Associate General Counsel of the Manager, and an officer of 95 investment companies (comprised of 199 portfolios) managed by the Manager. He is 44 years old and has been an employee of the Manager since October 1991.

ROBERT R. MULLERY, Assistant Secretary since January 2003. Associate General Counsel of the Manager, and an officer of 26 investment companies (comprised of 58 portfolios) managed by the Manager. He is 51 years old and has been an employee of the Manager since May 1986.

JAMES WINDELS, Treasurer since November 2001. Director – Mutual Fund Accounting of the Manager, and an officer of 98 investment companies (comprised of 206 portfolios) managed by the Manager. He is 45 years old and has been an employee of the Manager since April 1985.

ROBERT ROBOL, Assistant Treasurer since August 2003. Senior Accounting Manager – Money Market Funds of the Manager, and an officer of 39 investment companies (comprised of 85 portfolios) managed by the Manager. He is 40 years old and has been an employee of the Manager since October 1988.

KENNETH J. SANDGREN, Assistant Treasurer since November 2001. Mutual Funds Tax Director of the Manager, and an officer of 98 investment companies (comprised of 206 portfolios) managed by the Manager. He is 49 years old and has been an employee of the Manager since June 1993.

WILLIAM GERMENIS, Anti-Money Laundering Compliance Officer since October 2002. Vice President and Anti-Money Laundering Compliance Officer of the Distributor, and the Anti-Money Laundering Compliance Officer of 93 investment companies (comprised of 201 portfolios) managed by the Manager. He is 34 years old and has been an employee of the Distributor since October 1998.

The address of each Board member and officer of the Company is 200 Park Avenue, New York, New York 10166.

The Company's Board members and officers, as a group, owned less than 1% of each Fund's outstanding shares as of July 2, 2004. See "Information About the Company and the Funds" for a list of shareholders known by the Company to own of record 5% or more of a Fund's outstanding voting securities as of July 2, 2004.

MANAGEMENT ARRANGEMENTS

Investment Adviser. The Manager is a wholly-owned subsidiary of Mellon Financial Corporation ("Mellon"). Mellon is a global financial holding company incorporated under Pennsylvania law in 1971 and registered under the Federal Bank Holding Company Act of 1956, as amended. Mellon provides a comprehensive range of financial products and services in domestic and selected international markets.

The Manager provides management services pursuant to the Management Agreement (the "Agreement") between the Manager and the Company. As to each Fund, the Agreement is subject to annual approval by (i) the Company's Board or (ii) vote of a majority (as defined in the 1940 Act) of the Fund's outstanding voting securities, provided that in either event the continuance also is approved by a majority of the Board members who are not "interested persons" (as defined in the 1940 Act) of the Company or the Manager, by vote cast in person at a meeting called for the purpose of voting on such approval. As to each Fund, the Agreement is terminable without penalty on 60 days' notice by the Board or by vote of the holders of a majority of the Fund's shares or, upon not less than 90 days' notice, by the Manager. The Agreement will terminate automatically, as to the relevant Fund, in the event of its assignment (as defined in the 1940 Act).

In approving the current Agreement, the Board considered a number of factors, including the nature and quality of the services provided by the Manager; the investment philosophy and investment approach as applied to each Fund by the Manager and the investment management expertise of the Manager in respect of the relevant Fund's investment strategies; the personnel, resources and experience of the Manager; each Fund's performance history and the management fees paid to the Manager relative to those of mutual funds with similar investment objectives, strategies and restrictions; the Manager's costs of providing services under the Agreement; the relationship between the fees paid to the Manager under the Agreement and ancillary benefits the Manager may receive from its relationship with the Company.

The following persons are officers and/or directors of the Manager: Stephen E. Canter, Chairman of the Board, Chief Executive Officer and Chief Operating Officer; Michael G. Millard, President and a director; Stephen R. Byers, Chief Investment Officer, Vice Chairman and a director; J. Charles Cardona, Vice Chairman and a director; J. David Officer, Vice Chairman and a director; Ronald P. O'Hanley III, Vice Chairman and a director; Diane P. Durnin, Executive Vice President; Mark N. Jacobs, Executive Vice President, General Counsel and Secretary; Patrice M. Kozlowski, Senior Vice President-Corporate Communications; Lisa A. Fox, Vice President-Human Resources; Mary Beth Leibig, Vice President-Human Resources; Anthony Mayo, Vice President – Information Systems; Angela E. Price, Vice President; Theodore A. Schachar, Vice President-Tax; Alex G. Sciulli, Vice President; Wendy H. Strutt, Vice President; William H. Maresca, Controller; James Bitetto, Assistant Secretary; Steven F. Newman, Assistant Secretary; and Steven G. Elliott, David F. Lamere, Martin G. McGuinn and Richard W. Sabo, directors.

The Manager manages each Fund's portfolio of investments in accordance with the stated policies of the Fund, subject to the approval of the Company's Board. The Manager is responsible for investment decisions, and provides the Funds with portfolio managers who are authorized by the Company's Board to execute purchases and sales of securities. The Funds' portfolio managers are Bernard W. Kiernan, Jr., Patricia A. Larkin and James G. O'Connor. The Manager also maintains a

research department with a professional staff of securities analysts who provide research services for the Funds and for other funds advised by the Manager.

The Manager's Code of Ethics subjects its employees' personal securities transactions to various restrictions to ensure that such trading does not disadvantage any fund advised by the Manager. In that regard, portfolio managers and other investment personnel of the Manager must preclear and report their personal securities transactions and holdings, which are reviewed for compliance with the Code of Ethics, and are also subject to the oversight of Mellon's Investment Ethics Committee. Portfolio managers and other investment personnel who comply with the preclearance and disclosure procedures of the Code of Ethics and the requirements of the Committee, may be permitted to purchase, sell or hold securities which also may be or are held in fund(s) they manage or for which they otherwise provide investment advice.

The Manager maintains office facilities on behalf of the Company and furnishes statistical and research data, clerical help, accounting, data processing, bookkeeping and internal auditing and certain other required services to the Company. The Manager may pay the Distributor for shareholder services from the Manager's own assets, including past profits but not including the management fee paid by the Funds. The Distributor may use part or all of such payments to pay securities dealers, banks or other financial institutions in respect of these services. The Manager also may make such advertising and promotional expenditures, using its own resources, as it from time to time deems appropriate.

All expenses incurred in the operation of the Company are borne by the Manager, except the management fee, taxes, interest, brokerage fees and commissions, if any, fees and expenses of non-interested Board members, fees and expenses of independent counsel to the Company and to the non-interested Board members, and any extraordinary expenses.

As compensation for the Manager's services, the Company has agreed to pay the Manager a monthly management fee at the annual rate of 0.10% of the value of each Fund's average daily net assets. All fees and expenses are accrued daily and deducted before declaration of dividends to shareholders. The Manager has agreed to reduce its management fee in an amount equal to the fees and expenses of the non-interested Board members, and the fees and expenses of independent counsel to the Company and to the non-interested Board members. The management fees paid by Dreyfus Institutional Preferred Money Market Fund to the Manager for the fiscal years ended March 31, 2002, 2003 and 2004, amounted to \$9,245,983, \$10,539,711 and \$10,952,829, respectively. The management fees payable by Dreyfus Institutional Preferred Plus Money Market Fund to the Manager for the fiscal years ended March 31, 2002, 2003 and 2004, amounted to \$47,107, \$201,691 and \$255,248, respectively, of which \$201,673 and \$255,248 was waived in fiscal years 2003 and 2004, respectively, resulting in a net fee of \$18 and \$ -0- being paid by the Fund for 2003 and 2004, respectively.

The aggregate of the fees payable to the Manager is not subject to reduction as the value of the Funds' net assets increases.

Distributor. The Distributor, a wholly-owned subsidiary of the Manager located at 200 Park Avenue, New York, New York 10166, serves as each Fund's distributor on a best efforts basis pursuant to an agreement with the Company which is renewable annually.

Transfer and Dividend Disbursing Agent and Custodian. Dreyfus Transfer, Inc. (the "Transfer Agent"), a wholly-owned subsidiary of the Manager, 200 Park Avenue, New York, New York 10166, is the Company's transfer and dividend disbursing agent. Under a transfer agency agreement with the Company, the Transfer Agent arranges for the maintenance of shareholder account records for each Fund, the handling of certain communications between shareholders and the Fund and the payment of dividends and distributions payable by the Fund. For these services, the Transfer Agent receives a monthly fee computed on the basis of the number of shareholder accounts it maintains for each Fund during the month, and is reimbursed for certain out-of-pocket expenses.

The Bank of New York (the "Custodian"), One Wall Street, New York, New York 10286, is each Fund's custodian. The Custodian has no part in determining the investment policies of the Funds or which securities are to be purchased or sold by the Funds. Under a custody agreement with the Company, the Custodian holds each Fund's securities and keeps all necessary accounts and records.

HOW TO BUY SHARES

Each Fund is designed for institutional investors. Fund shares will not be sold directly to individuals. Third parties may receive payments from the Manager in connection with their offering of Fund shares to their customers, or for marketing, distribution or other services. The receipt of such payments could create an incentive for the third party to offer the Funds instead of other mutual funds where such payments are not received. Investors should consult a representative of their financial institution for further information.

The minimum initial investment is \$1 billion, unless the investor has invested at least \$1 billion in one Fund, in which case there would be no minimum initial investment amount for the other Fund, or the investor has, in the opinion of Dreyfus Institutional Services Division, adequate intent and availability of funds to reach a future aggregate level of investment of \$1 billion in the Funds. There is no minimum for subsequent purchases. A Fund's minimum initial investment requirement will be waived in connection with investments in the Fund by other funds managed by the Manager. The initial investment must be accompanied by the Account Application. Share certificates are issued only upon the investor's written request. No certificates are issued for fractional shares. The Company reserves the right to reject any purchase order.

Fund shares are sold on a continuous basis at the net asset value per share next determined after an order in proper form and Federal Funds (monies of member banks in the Federal Reserve System which are held on deposit at a Federal Reserve Bank) are received by the Custodian or by any agent or entity subject to the direction of such agents. If an investor does not remit Federal Funds, its payment must be converted into Federal Funds. This usually occurs within one business day of receipt of a bank wire and within two business days of receipt of a check drawn on a member bank of the Federal Reserve System. Checks drawn on banks which are not members of the Federal Reserve System may take considerably longer to convert into Federal Funds. Prior to receipt of Federal Funds, the investor's money will not be invested.

Each Fund's net asset value per share is determined as of 5:00 p.m. on each day the New York Stock Exchange or the Transfer Agent is open for regular business. Net asset value per share is

computed by dividing the value of the Fund's net assets (i.e., the value of its assets less liabilities) by the total number of the Fund's shares outstanding. See "Determination of Net Asset Value."

Orders in proper form placed prior to 5:00 p.m., and payments for which are received in or converted into Federal Funds by the Custodian by 6:00 p.m., will become effective at the price determined at 5:00 p.m., and the shares purchased will receive the dividend declared on that day. Investors whose orders are placed in proper form after 5:00 p.m., or whose payments are received in or converted into Federal Funds after 6:00 p.m. by the Custodian, will begin to accrue dividends on the following business day. All times are Eastern time.

Using Federal Funds. The Transfer Agent or the Company may attempt to notify the investor upon receipt of checks drawn on banks that are not members of the Federal Reserve System as to the possible delay in conversion into Federal Funds and may attempt to arrange for a better means of transmitting the money.

HOW TO REDEEM SHARES

Wire Redemption Privilege. By using this privilege, the investor authorizes the Transfer Agent to act on telephone or letter redemption instructions from any person representing himself or herself to be an authorized representative of the investor, and reasonably believed by the Transfer Agent to be genuine. Ordinarily, the Company will initiate payment for shares redeemed pursuant to this privilege on the same business day if Dreyfus Institutional Services Division receives the redemption request in proper form in New York by 5:00 p.m., New York time; otherwise the Company will initiate payment on the next business day. Redemption proceeds will be transferred by Federal Reserve wire only to a bank that is a member of the Federal Reserve System.

The Company reserves the right to refuse any request made by telephone and may limit the amount involved or the number of telephone redemptions. This privilege may be modified or terminated at any time by the Transfer Agent or the Company. Shares for which certificates have been issued may not be redeemed by telephone.

Redemption Through Compatible Automated Facilities. Each Fund makes available to institutions the ability to redeem shares through a compatible automated interface or trading system. Investors desiring to redeem shares in this manner should call Dreyfus Institutional Services Division at one of the telephone numbers listed on the cover of this Statement of Additional Information to determine whether their automated facilities are compatible and to receive instructions for redeeming shares in this manner.

Redemption Commitment. The Company has committed to pay in cash all redemption requests by any shareholder of record, limited in amount during any 90-day period to the lesser of \$250,000 or 1% of the value of a Fund's net assets at the beginning of such period. Such commitment is irrevocable without the prior approval of the Securities and Exchange Commission. In the case of requests for redemption in excess of such amount, the Company's Board reserves the right to make payments in whole or in part in securities or other assets of the Fund in case of an emergency or any time a cash distribution would impair the liquidity of the Fund to the detriment of the existing shareholders. In such event, the securities would be valued in the same manner as the Fund's portfolio is valued. If the recipient sells such securities, brokerage charges might be incurred.

Suspension of Redemptions. The right of redemption may be suspended or the date of payment postponed (a) during any period when the New York Stock Exchange is closed (other than customary weekend and holiday closings), (b) when trading in the markets the relevant Fund ordinarily utilizes is restricted, or when an emergency exists as determined by the Securities and Exchange Commission so that disposal of the Fund's investments or determination of its net asset value is not reasonably practicable, or (c) for such other periods as the Securities and Exchange Commission by order may permit to protect the Fund's investors.

DETERMINATION OF NET ASSET VALUE

Amortized Cost Pricing. The valuation of each Fund's portfolio securities is based upon their amortized cost which does not take into account unrealized capital gains or losses. This involves valuing an instrument at its cost and thereafter assuming a constant amortization to maturity of any discount or premium, regardless of the impact of fluctuating interest rates on the market value of the instrument. While this method provides certainty in valuation, it may result in periods during which value, as determined by amortized cost, is higher or lower than the price the Fund would receive if it sold the instrument.

The Company's Board has established, as a particular responsibility within the overall duty of care owed to each Fund's investors, procedures reasonably designed to stabilize each Fund's price per share as computed for the purpose of purchases and redemptions at \$1.00. Such procedures include review of each Fund's portfolio holdings by the Company's Board, at such intervals as it deems appropriate, to determine whether the Fund's net asset value per share calculated by using available market quotations or market equivalents deviates from \$1.00 per share based on amortized cost. In such review, investments for which market quotations are readily available will be valued at the most recent bid price or yield equivalent for such securities or for securities of comparable maturity, quality and type, as obtained from one or more of the major market makers for the securities to be valued. Other investments and assets will be valued at fair value as determined in good faith by the Company's Board.

The extent of any deviation between a Fund's net asset value based upon available market quotations or market equivalents and \$1.00 per share based on amortized cost will be examined by the Company's Board. If such deviation exceeds 1/2%, the Company's Board will consider promptly what action, if any, will be initiated. In the event the Company's Board determines that a deviation exists which may result in material dilution or other unfair results to investors or existing shareholders, it has agreed to take such corrective action as it regards as necessary and appropriate including: selling portfolio instruments prior to maturity to realize capital gains or losses or to shorten average portfolio maturity; withholding dividends or paying distributions from capital or capital gains; redeeming shares in kind; or establishing a net asset value by using available market quotations or market equivalents.

New York Stock Exchange and Transfer Agent Closings. The holidays (as observed) on which both the New York Stock Exchange and the Transfer Agent are currently scheduled to be closed are: New Year's Day, Martin Luther King Jr. Day, Presidents' Day, Memorial Day, Independence Day, Labor Day, Thanksgiving and Christmas. The New York Stock Exchange also is closed on Good Friday.

SHAREHOLDER SERVICES

Fund Exchanges. Shares of one Fund may be exchanged for shares of the other Fund. To request an exchange, exchange instructions must be given in writing or by telephone. By using the Telephone Exchange Privilege, the investor authorizes the Transfer Agent to act on exchange instructions from any person representing himself or herself to be an authorized representative of the investor and reasonably believed by the Transfer Agent to be genuine. Exchanges may be subject to limitations as to the amount involved or the number of exchanges permitted. Shares will be exchanged at the net asset value next determined after receipt of an exchange request in proper form. Shares in certificate form are not eligible for telephone exchange.

No fees currently are charged shareholders directly in connection with exchanges, although the Company reserves the right, upon not less than 60 days' written notice, to charge shareholders a nominal administrative fee in accordance with rules promulgated by the Securities and Exchange Commission.

Dreyfus Auto-Exchange Privilege. Dreyfus Auto-Exchange Privilege permits an investor to purchase (on a semi-monthly, monthly, quarterly, or annual basis), in exchange for shares of one Fund, shares of the other Fund if the investor is a shareholder in such other Fund. This Privilege is available only for existing accounts. Shares will be exchanged on the basis of relative net asset value. Enrollment in or modification or cancellation of this Privilege is effective three business days following notification by the investor. An investor will be notified if its account falls below the amount designated under this Privilege. In this case, an investor's account will fall to zero unless additional investments are made in excess of the designated amount prior to the next Auto-Exchange transaction. Shares in certificate form are not eligible for this Privilege.

Fund Exchanges and the Dreyfus Auto-Exchange Privilege are available to investors resident in any state in which shares of the Fund being acquired may legally be sold. Shares may be exchanged only between accounts having identical names and other identifying designations.

The Company reserves the right to reject any exchange request in whole or in part. The availability of Fund Exchanges or the Dreyfus Auto-Exchange Privilege may be modified or terminated at any time upon notice to investors.

DIVIDENDS, DISTRIBUTIONS AND TAXES

Management believes that each Fund has qualified for treatment as a "regulated investment company" under the Internal Revenue Code of 1986, as amended (the "Code"), for the fiscal year ended March 31, 2004. Each Fund intends to continue to so qualify if such qualification is in the best interests of its shareholders. Such qualification relieves the Fund of any liability for Federal income tax to the extent its earnings are distributed in accordance with applicable provisions of the Code. If a Fund did not qualify as a regulated investment company, it would be treated for tax purposes as an ordinary corporation subject to Federal income tax.

Each Fund ordinarily declares dividends from net investment income on each day the New York Stock Exchange or the Transfer Agent is open for business. Each Fund's earnings for Saturdays, Sundays and holidays are declared as dividends on the preceding business day. Dividends usually are paid on the last calendar day of each month, and automatically are reinvested in additional shares of the Fund at net asset value or, at the investor's option, paid in cash. If an investor redeems all shares in its account at any time during the month, all dividends to which the investor is entitled are paid along with the proceeds of the redemption.

Ordinarily, gains and losses realized from portfolio transactions will be treated as capital gain or loss. However, all or a portion of any gain realized from the sale or other disposition of certain market discount bonds will be treated as ordinary income.

PORTFOLIO TRANSACTIONS

Portfolio securities ordinarily are purchased directly from the issuer or from an underwriter or a market maker for the securities. Usually no brokerage commissions will be paid by the Funds for such purchases. Purchases from underwriters of portfolio securities may include a concession paid by the issuer to the underwriter and the purchase price paid to, and sales price received from, market makers for the securities may reflect the spread between the bid and asked price. No brokerage commissions have been paid by the Funds to date.

Transactions are allocated to various dealers by the Funds' portfolio managers in their best judgment. The primary consideration is prompt and effective execution of orders at the most favorable price. Subject to that primary consideration, dealers may be selected for research, statistical or other services to enable the Manager to supplement its own research and analysis with the views and information of other securities firms.

Research services furnished by brokers through which the Funds will effect securities transactions may be used by the Manager in advising other funds it advises and, conversely, research services furnished to the Manager by brokers in connection with other funds the Manager advises may be used by the Manager in advising the Funds. Although it is not possible to place a dollar value on these services, it is the opinion of the Manager that the receipt and study of such services should not reduce the overall expenses of its research department.

INFORMATION ABOUT THE COMPANY AND THE FUNDS

Each Fund share has one vote and, when issued and paid for in accordance with the terms of the offering, is fully paid and nonassessable. Fund shares are of one class and have equal rights as to dividends and in liquidation. Shares have no preemptive, subscription or conversion rights, and are freely transferable.

The Company is organized as an unincorporated business trust under the laws of the Commonwealth of Massachusetts. Under Massachusetts law, shareholders of a Fund could, under certain circumstances, be held personally liable for the obligations of that Fund. However, the Company's Agreement and Declaration of Trust (the "Trust Agreement") disclaims shareholder liability for acts or obligations of the Company and requires that notice of such disclaimer be given in

the agreement, obligation or instrument entered into or executed by the Company or a Board member. The Trust Agreement provides for indemnification from the Fund's property for all losses and expenses of any shareholder held personally liable for the obligations of the Fund. Thus, the risk of a shareholder incurring financial loss on account of a shareholder liability is limited to circumstances in which the Fund itself would be unable to meet its obligations, a possibility which management believes is remote. Upon payment of any liability incurred by a Fund, the shareholder paying such liability will be entitled to reimbursement from the general assets of the Fund. The Company intends to conduct its operations in a way so as to avoid, as far as possible, ultimate liability of the shareholders for liabilities of the Funds.

The Company is a "series fund," which is a mutual fund divided into separate portfolios, each of which is treated as a separate entity for certain matters under the 1940 Act and for other purposes. Thus, a shareholder of one Fund is not deemed to be a shareholder of any other Fund. For certain matters shareholders vote together as a group; as to others they vote separately by Fund.

To date, the Board has authorized the creation of two series of shares. All consideration received by the Company for shares of a Fund, and all assets in which such consideration is invested, will belong to that Fund (subject only to the rights of creditors of the Company) and will be subject to the liabilities related thereto. The income attributable to, and the expenses of, a Fund will be treated separately from those of the other Fund. The Company has the ability to create, from time to time, new series without shareholder approval.

Rule 18f-2 under the 1940 Act provides that any matter required to be submitted under the provisions of the 1940 Act or applicable state law or otherwise to the holders of the outstanding voting securities of an investment company, such as the Company, will not be deemed to have been effectively acted upon unless approved by the holders of a majority of the outstanding shares of each Fund affected by such matter. Rule 18f-2 further provides that a Fund shall be deemed to be affected by a matter unless it is clear that the interests of each Fund in the matter are identical or that the matter does not affect any interest of such Fund. However, the Rule exempts the selection of independent accountants and the election of Board members from the separate voting requirements of the Rule.

Unless otherwise required by the 1940 Act, ordinarily it will not be necessary for the Company to hold annual meetings of shareholders. As a result, shareholders may not consider each year the election of Board members or the appointment of auditors. However, the holders of at least 10% of the shares outstanding and entitled to vote may require the Company to hold a special meeting of shareholders for purposes of removing a Board member from office. Shareholders may remove a Board member by the affirmative vote of two-thirds of the Company's outstanding voting shares. In addition, the Board will call a meeting of shareholders for the purpose of electing Board members if, at any time, less than a majority of the Board members then holding office have been elected by shareholders.

Each Fund will send annual and semi-annual financial statements to all its shareholders.

The following persons are known by the Company to own of record 5% or more of a Fund's outstanding voting securities as of July 2, 2004. A shareholder who beneficially owns, directly or indirectly, more than 25% of a Fund's voting securities may be deemed a "control person" (as defined in the 1940 Act) of the Fund.

COUNSEL AND INDEPENDENT AUDITORS

Stroock & Stroock & Lavan LLP, 180 Maiden Lane, New York, New York 10038-4982, as counsel for the Company, has rendered its opinion as to certain legal matters regarding the due authorization and valid issuance of the shares being sold pursuant to the Funds' Prospectus.

Ernst & Young LLP, 5 Times Square, New York, New York 10036, independent auditors, serve as independent auditors of the Company.

APPENDIX

Descriptions of the highest commercial paper, bond and other short- and long-term rating categories assigned by Standard & Poor's Ratings Services ("S&P"), Moody's Investors Service, Inc. ("Moody's"), Fitch Ratings ("Fitch"), and Thomson BankWatch, Inc. ("BankWatch"):

Commercial Paper Ratings and Short-Term Ratings

The designation A-1 by S&P indicates that the degree of safety regarding timely payment is either overwhelming or very strong. Those issues determined to possess overwhelming safety characteristics are denoted with a plus sign (+) designation.

The rating Prime-1 (P-1) is the highest commercial paper rating assigned by Moody's. Issuers of P-1 paper must have a superior capacity for repayment of short-term promissory obligations, and ordinarily will be evidenced by leading market positions in well established industries, high rates of return on funds employed, conservative capitalization structures with moderate reliance on debt and ample asset protection, broad margins in earnings coverage of fixed financial charges and high internal cash generation, and well established access to a range of financial markets and assured sources of alternate liquidity.

The rating Fitch-1 (Highest Grade) is the highest commercial paper rating assigned by Fitch. Paper rated Fitch-1 is regarded as having the strongest degree of assurance for timely payment.

The rating TBW-1 is the highest short-term obligation rating assigned by BankWatch. Obligations rated TBW-1 are regarded as having the strongest capacity for timely repayment.

Bond Ratings and Long-Term Ratings

Bonds rated AAA are considered by S&P to be the highest grade obligation and possess an extremely strong capacity to pay principal and interest.

Bonds rated Aaa are judged by Moody's to be of the best quality. Bonds rated Aa by Moody's are judged by Moody's to be of high quality by all standards and, together with the Aaa group, they comprise what are generally known as high-grade bonds.

Bonds rated AAA by Fitch are judged by Fitch to be strictly high grade, broadly marketable and suitable for investment by trustees and fiduciary institutions and liable to but slight market fluctuation other than through changes in the money rate. The prime feature of an AAA bond is a showing of earnings several times or many times interest requirements, with such stability of applicable earnings that safety is beyond reasonable question whatever changes occur in conditions.

Fitch also assigns a rating to certain international and U.S. banks. A Fitch bank rating represents Fitch's current assessment of the strength of the bank and whether such bank would receive support should it experience difficulties. In its assessment of a bank, Fitch uses a dual rating system comprised of Legal Ratings and Individual Ratings. In addition, Fitch assigns banks long- and short-term ratings as used in the corporate ratings discussed above. Legal Ratings, which range in gradation from 1 through 5, address the question of whether the bank would receive support provided by central banks or shareholders if it experienced difficulties, and such ratings are considered by Fitch to be a

prime factor in its assessment of credit risk. Individual Ratings, which range in gradations from A through E, represent Fitch's assessment of a bank's economic merits and address the question of how the bank would be viewed if it were entirely independent and could not rely on support from state authorities or its owners.

In addition to ratings of short-term obligations, BankWatch assigns a rating to each issuer it rates, in gradations of A through E. BankWatch examines all segments of the organization including, where applicable, the holding company, member banks or associations, and other subsidiaries. In those instances where financial disclosure is incomplete or untimely, a qualified rating (QR) is assigned to the institution. BankWatch also assigns, in the case of foreign banks, a country rating which represents an assessment of the overall political and economic stability of the country in which the bank is domiciled.
