ITEM 8.01 Other Matters...

Dear Shareholders of ACCR and Esteemed Commissioners of the SEC,

We will be pursuing our new venue change on January 24, 2021. We last were told by Liz Heese at OTC Markets that we may re-apply on this date. We will be READY. ACCR never abuses our SEC Edgar Reporting Privileges. One of our friends on the internet found this too:

OTC Markets is still working on the details of how we will transition companies that do not meet the current information standard in the SEC's new Rule 15c-211. We are trying to make it as simple as possible for companies to provide the information required to maintain a public quote. I can tell you that we are not considering using the Caveat Emptor designation for this purpose.

Sincerely,

Liz Heese

We are attesting under penalties of perjury that every single one of them
is 100% true and accurate. Patrick will take full responsibility for the
deals not materializing in 2020, and Patrick loves to WHALE HUNT
for a REVERSE MERGER.

The Company sent off an email to OTC Markets Compliance Chiefs
this past week in preparation for the upcoming application. It was

Subject: ACCR

Hi Liz, Nancy, and Dan,

Here is an excerpt of our email to PLEA with OTC Markets.com:

"...We desire a re-application to be PINK CURRENT on January 24, 2021...soon again. I will continue to look for a real REVERSE MERGER...as these are real investment banking alternative financing for private companies that want to go public.

My deals that went bad in 2020:

The Stephane Bontemps deal... CONFIDENTIAL.

I had more big deals that went bad, just trying to find a GOOD REVERSE MERGER...done the right way. Other deals gone bad...this YEAR.

The TX \$1million Rev Co...

David Lazar and I negotiated for ACCR in June/July 2020...

Stormy Simon and I had a fight because I PR'd our deal...

I even tried to make deal with GRNF and Justin Costello in Spring

2020, we texted back in the Fall 2019 about my Clones by Drones idea, which did receive a grant in the federal trademark in October 2020. He asked for a term sheet in ACCR.

I saved all the texts on my phone. EVERY ONE was saved! "

I have a fiduciary responsibility to my Shareholders, and I want everyone to know of my WARRIOR spirit. We wish to provide full transparency for our Shareholders. ACCR wants OTC Markets to be 100% comfortable with our application to be PINK CURRENT by the January 24, 2021 reapplication date.

Our share structure is the same dating back to March 1, 2012, and we value our shares. Our cash position by the end of April 2021 is estimated to be now over \$70,000.00, and ACCR sees no problem covering any Corporate expenses throughout 2021.

Furthermore, the Company has learned that in 2021, OTC Markets and Market Makers will decide price discovery and entity certification for achieving Solicited Quotes. We understand that the FORM 211 with FINRA will be gone for all PINK CURRENT INFORMATION tier stocks.

The Solicited Quotes will happen on a select basis, and we

believe to have an EXCELLENT relationship with our
Primary Market Maker.

We hope to make a MONUMENTAL deal in 2021.

Sincerely, and with all the respect in the world, as your Director,

Happy New Year to all my Shareholders!

x /s/ _____

confidential, or proprietary. If you are not the intended recipient, you are prohibited from using, copying, relying upon, or disseminating the information, and the sender disclaims any liability for such unauthorized use. Further, if you are not the intended recipient, please notify the sender immediately and delete the message from your computer. Thank you.

The following should be considered in connection with an evaluation of our business and recent market activities as described above: There are various risk factors that should be carefully considered in evaluating our business; because such factors may have a significant impact on our business, our operating results, our liquidity and financial condition. As a result of these various risk factors, actual results could differ materially from those projected in any forward-looking statements. Additional risks and uncertainties not presently known to us, or that we currently consider to be immaterial, may also impact our business, result of operations, liquidity and financial condition. If any such risks occur, our business, its operating results, liquidity and financial condition could be materially affected in an adverse manner. Under such circumstances, if a stable trading market for our securities

is established, the trading price of our securities could decline, and you may lose all or part of your investment.

SECURITIES ISSUED BY THE COMPANY INVOLVE A HIGH DEGREE OF RISK AND, THEREFORE, SHOULD BE CONSIDERED EXTREMELY SPECULATIVE. THEY SHOULD NOT BE PURCHASED BY PERSONS WHO CANNOT AFFORD THE POSSIBILITY OF THE LOSS OF THE ENTIRE INVESTMENT. PROSPECTIVE INVESTORS SHOULD READ ALL OF THE COMPANY'S FILINGS, INCLUDING ALL EXHIBITS, AND CAREFULLY CONSIDER, AMONG OTHER FACTORS THE VARIOUS RISK FACTORS THAT MAY BE PRESENT.

BEWARE OF NAKED SHORTING IN OUR SHARES

You should be aware that there are many substantial risks to an investment in our common stock. Carefully consider these risk factors, along with any available information currently reported by the Company (of which there are note), before you decide to invest in shares of our common stock.

If these risk factors were to occur, our business, financial condition, results of operations or future prospects could be materially adversely affected. If that happens, the market price for our common stock, if any, could decline, and prospective investors would likely lose all or even part of their investment.

Cautionary Language Concerning Forward-Looking Statements

Statements in this press release may be "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as "anticipate", "believe", "estimate", "expect", "intend", and similar expressions, as they relate to the Company or its management, identify forward-looking statements. These statements are based on current expectations, estimates, and projections about the Company's business based, in part, on assumptions made by management. These statements are not guarantees of future performance and involve risks, uncertainties, and assumptions that are difficult to predict.

Therefore, actual outcomes and results may, and probably will, differ materially from what is expressed or forecasted in such forward-looking statements due to numerous factors.
