In connection with the private offering described below, the Company also disclosed the following preliminary first quarter 2015 financial information:

We expect our adjusted EBITDA for the first quarter of 2015 to improve by a single digit percentage year over year, and to improve by a high single digit percentage when adjusted for timing differences of two major promotional events that occurred in the first quarter of 2014 and will not occur until the second quarter of 2015. Radio advertising revenues are expected to decrease in the first quarter of 2015 by a high single digit percentage, and decrease by a mid-single digit percentage when adjusted for a timing difference related to one of the promotional events. Our radio advertising revenues were negatively impacted by declines in contributions from our Washington, DC market. We have recently announced a new general manager and we plan format adjustments in our Washington, DC market in an effort to improve station performance. TV One revenue and EBITDA are expected to increase in the first quarter of 2015 by a double digit percentage compared to the comparable period in 2014. TV One is on track to post its best first quarter performance ever in total day and prime time ratings.

Currently, TV One is posting significant prime time gains on a year over year basis across all the key demographics, including increasing 27% among the important 25-54 age demographic, while its competitors are down or flat on a year over year basis. We believe that our new multi-year affiliation agreement with Comcast along with the termination of certain TV One amortization charges would have improved our adjusted EBITDA for 2014 by approximately \$14 million on a pro forma basis.

Reach Media is seeing EBITDA growth based on realization of contractual savings in connection with talent and management compensation. Excluding the effect of a timing difference of the other promotional event that occurred in the first quarter of 2014 and will not occur until the second quarter of 2015, we expect that Reach Media’s revenue for the first quarter of 2015 will show growth compared to the comparable period in 2014. Interactive One contributed approximately \$1.3 million to our EBITDA in 2014 and we continue to expect that Interactive One’s EBITDA contribution will increase in 2015.

We have provided the forgoing information to highlight some of the key performance metrics for our business. The first quarter of 2015 is not completed and, as a result, this information constitutes forward-looking statements that reflect our current expectations, which may or may not be realized. Because this information is preliminary in nature, we can only provide general ranges of operating performance and it is not intended to provide a comprehensive overview of all of the factors impacting our business in the first quarter of 2015. As a result, investors are cautioned not to place undue reliance of this information about our preliminary operating results for the first quarter of 2015. Our ultimate results for the completed first quarter of 2015 could differ materially from this information. We do not intend to update any of this information during the remainder of the first quarter of 2015 or during the offering of the notes. See “Risk Factors—Risks Related to the Nature and Operations of Our Business” and “Cautionary Note Regarding Forward-Looking Statements” in our Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q for factors that could impact our future results and financial performance.
