Compensation Discussion and Analysis, page 13

Annual Incentives, page 17

1. In your discussion of annual incentives on page 18 you state that an individual performance component was introduced starting in fiscal year 2009 which allows

the compensation committee to adjust bonuses 20%, plus or minus, to reflect individual performance. Your disclosure goes on to state that individual performance is measured based on three performance measures: “(1) a set of core competencies that are commonly applied across all Company executives (40% weighting), (2) individual goals and objectives (50% weighting), and (3) developmental goals and objectives (10% weighting).” Please provide proposed disclosure to be included in your next proxy statement which discusses the referenced individual goals and objectives and development goals and objectives for each named executive officer. To the extent any goal or objective is quantified, your discussion should also be quantified. Additionally, please confirm that you will discuss the level of achievement of each goal and objective and how such level of achievement affected the actual compensation awarded.

Long-Term Incentives, page 19

2. In your discussion of long-term incentive compensation you state that “for fiscal year 2009, the level of achievement of the previously granted performance shares is based on the level of achievement of applicable company financial performance goals, which are based on combined earnings goals for the three-fiscal-year period ending August 31, 2011...The degree to which the goals are met determines the number of performance shares that are earned, if any.” We note that you have not disclosed the “company financial performance goals” for the three year period ending August 31, 2011 or explained how the degree to which the goals are met will determine the number of shares earned. Please provide proposed disclosure to be included in your next proxy statement which discusses the referenced company financial performance goals in detail. To the extent any goal or objective is quantified, your discussion should also be quantified. Also, please confirm that you will provide the same information for the performance share award levels for the fiscal 2010-2012 performance period. Finally, confirm that you will discuss the level of achievement of each goal and how the level of achievement affected the actual compensation awarded once the performance periods are complete.

Certain Relationships and Related Transactions, page 46

3. We note the following statement on page 46: “In fiscal year 2009, the Company paid Talon Air approximately \$230,000 for the charter of Mr. Rosenbluth’s aircraft for his business travel, and Mr. Rosenbluth, in turn, received approximately \$126,000 from Talon Air.” Please explain why Mr. Rosenbluth received \$126,000 from Talon Air and provide a summary of the details of this arrangement.
