PDC 1997-D LIMITED PARTNERSHIP  
(A West Virginia Limited Partnership)

Notes to Financial Statements  
(Unaudited)

1. Accounting Policies

Reference is hereby made to the Partnership's Annual Report on Form 10-K for 2001, which contains a summary of significant accounting policies followed by the Partnership in the preparation of its financial statements. These policies were also followed in preparing the quarterly report included herein except as noted below.

On January 1, 2002 the Partnership adopted SFAS No. 142, "Goodwill and Other Intangible Assets" and SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." Adoption of these statements did not have a material effect on the Partnership's financial position, results of operations, or cash flows.

2. Basis of Presentation

The Management of the Partnership believes that all adjustments (consisting of only normal recurring accruals) necessary to a fair statement of the results of such periods have been made. The results of operations for the six months ended June 30, 2002 are not necessarily indicative of the results to be expected for the full year.

3. Oil and Gas Properties

The Partnership follows the successful efforts method of accounting for the cost of exploring for and developing oil and gas reserves. Under this method, costs of development wells, including equipment and intangible drilling costs related to both producing wells and developmental dry holes, and successful exploratory wells are capitalized and amortized on an annual basis to operations by the units-of-production method using estimated proved developed reserves which will be determined at year end by the Managing General Partner's petroleum engineer. If a determination is made that an exploratory well has not discovered economically producible reserves, then its costs are expensed as dry hole costs.

4. Derivative Instruments and Hedging Activities

The Managing General Partner utilizes commodity based derivative instruments as hedges to manage a portion of the Partnership's exposure to price volatility stemming from natural gas production. These instruments consist of costless collars and option contracts traded on the New York Mercantile Exchange. The costless collars and option contracts hedge committed and anticipated natural gas sales generally forecasted to occur within a 12 month period. The Managing General Partner does not hold or issue derivatives for trading or speculative purposes.

PDC 1997-D LIMITED PARTNERSHIP  
(A West Virginia Limited Partnership)

Notes to Financial Statements  
(Unaudited)

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Liquidity and Capital Resources

The Partnership was funded with initial Limited and Additional General Partner contributions of \$18,519,579 and the Managing General Partner contributed \$4,028,009 in accordance with the Agreement. Syndication and management fee costs of \$2,407,545 were incurred leaving available cash of \$20,140,043 for Partnership activities.

The Partnership began exploration and development activities subsequent to the funding of the Partnership and completed well drilling activities by March 31, 1998. One hundred and one wells have been drilled of which ninety-five have been completed as producing wells.

The Partnership had net working capital at June 30, 2002 of \$203,119.

Operations are expected to be conducted with available funds and revenues generated from oil and gas activities. No bank borrowings are anticipated.

Results of Operations

Three Months Ended June 30, 2002 Compared with 2001

Sales of oil and gas decreased 35.3% during the second quarter of 2002 compared to 2001 due to lower average sales prices of natural gas and lower sales volumes of natural gas. While the Partnership experienced a modest net income of \$17,876, depreciation, depletion and amortization is a non-cash expense and therefore the partnership distributed \$30,499 to the partners during the second quarter of 2002.

Six Months ended June 30, 2002 Compared with 2001

Sales of oil and gas decreased 44.1% during the first six months of 2002 compared to 2001 due to lower average sales prices of natural gas and lower sales volumes of natural gas. While the Partnership experienced a modest net loss of \$57,224, depreciation, depletion and amortization is a non-cash expense and therefore the partnership distributed \$111,031 to the partners during the first six months of 2002.

The Partnership's revenues from oil and gas will be affected by changes in prices. As a result of changes in federal regulations, gas prices are highly dependent on the balance between supply and demand. The Partnership's gas sales prices are subject to increase and decrease based on various market sensitive indices.

Critical Accounting Policies

Certain accounting policies are very important to the portrayal of Partnership's financial condition and results of operations and require management's most subjective or complex judgments. The policies are as follows:

Impairment of Long-Lived Assets. The Partnership assesses impairment of capitalized costs of proved oil and gas properties by comparing net capitalized costs to undiscounted future cash flows on a field-by-field basis using expected prices. Prices utilized in each year's calculation for measurement purposes and expected costs are held constant throughout the life of the properties. If net capitalized costs exceed undiscounted future net cash flow, the measurement of impairment is based on estimated fair value which would consider future discounted cash flows.

PDC 1997-D LIMITED PARTNERSHIP  
(A West Virginia Limited Partnership)

Notes to Financial Statements  
(Unaudited)

The judgment used in applying the above policies are based on management's evaluation of the relevant facts and circumstances as of the date of the financial statements. Actual results may differ from those estimates. See additional discussions in this Management's Discussion and Analysis.

New Accounting Standards

In June 2001, the FASB issued SFAS 143, "Accounting for Asset Retirement Obligations" ("SFAS No. 143"). SFAS No. 143 requires the Partnership to record the fair value of an asset retirement obligation as a liability in the period in which it incurs a legal obligation associated with the retirement of tangible long-lived assets that result from the acquisition, construction, development and/or normal use of the assets. The Partnership also records a corresponding asset which is depreciated over the life of the asset. Subsequent to the initial measurement of the asset retirement obligation, the obligation will be adjusted at the end of each period to reflect the passage of time and changes in the estimated future cash flows underlying the obligation. The Partnership is required to adopt SFAS No. 143 on January 1, 2003. At this time, the Partnership cannot reasonably estimate the effect of the adoption of this Statement on either its financial position, results of operations, or cash flows.

Item 3. Quantitative and Qualitative Disclosure About Market Rate Risk

Market-Sensitive Instruments and Risk Management

The Partnership's primary market risk exposure is commodity price risk. This exposure is discussed in detail below:

Commodity Price Risk

Natural gas and oil prices have been unusually volatile for the past 24 months, and the Partnership anticipates continued volatility in the future. Currently, the NYMEX futures reflect a market expectation of gas prices close to or above \$3 per million Btu's (mmbtu) for the balance of 2002 and even higher beyond the end of the year. This price level apparently reflects market concern about the adequacy of natural gas deliverability given a normal winter and/or a recovery of the economy. In contrast natural gas storage levels are at historically high levels, a situation that in the past has resulted in low gas prices. The Managing General Partner believes this situation creates the possibility of both periods of low prices and of significantly higher prices.

Because of the uncertainty surrounding gas prices the Managing General Partner used hedging agreements to reduce some of the impact of fluctuations in prices. Through March of 2003 the Partnership has in place a series of costless collars. Under the collar arrangements, if the applicable index rises above the ceiling price, the Partnership pays the counterparty, however if the index drops below the floor the counterparty pays the Partnership. These floor and ceiling prices were set at levels which allowed the Partnership to set floors on two units of production for each unit of production with a ceiling. For the period from July 2002 to October 2002 the Partnership has floors in place at \$2.85 on 21,779 Mmbtu of monthly production and ceilings in place in a range from \$3.70 to \$3.80 on 10,890 Mmbtu of monthly production. For the period from November 2002 through March 2003, the Partnership has floors in place in a range from \$3.40 to \$3.70 on 10,890 Mmbtu of monthly production and ceilings in place in a range from \$3.75 to \$4.20 on 5,445 Mmbtu of monthly production. The fair value of these floors and ceilings as of June 30, 2002 is \$8,880.

PDC 1997-D LIMITED PARTNERSHIP  
(A West Virginia Limited Partnership)

Notes to Financial Statements  
(Unaudited)

As of June 30, 2002 the Partnership had option contracts for the sale of 70,782 dt of natural gas with an average ceiling price of \$3.88 and for the sale of 141,564 dt of natural gas with an average floor price of \$3.12.

Disclosure of Limitations

As the information above incorporates only those exposures that exist at June 30, 2002, it does not consider those exposures or positions which could arise after that date. As a result, the Partnership's ultimate realized gain or loss with respect to commodity price fluctuations will depend on the exposures that arise during the period, the Partnership's hedging strategies at the time and commodity prices at the time.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 6. Exhibits and Reports on Form 8-K

(a) None.

(b) No reports on Form 8-K have been filed during the quarter ended June 30, 2002.
