Form 10-K/A for Fiscal Year Ended December 31, 2023

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations, page 41

1. We have considered your response to prior comment 1, and we believe that given the material impact that the reclassification of the inventory write-downs had on Cost of Sales and Restructuring in the Year Ending December 31, 2021, you should revise your results of operation discussion of 2022 versus 2021 accordingly.
2. We appreciate your response to prior comment 2 and understand that as part of your restatement of previously issued financial statements for the year ended December 31, 2021, you reclassified inventory write-downs from "Restructuring and other charges" to "Cost of sales" to comply with ASC 420-10-S99-3. However, we believe that you should not exclude inventory write-downs from your non-GAAP measures for the same reasons articulated in the staff's position that inventory markdowns should be classified in the

income statement as a component of cost of goods sold. Decisions about the timing, method, and pricing of dispositions of inventory generally are considered to be normal, recurring activities integral to the management of the ongoing business. Please revise to remove this non-GAAP adjustment in future filings.

Please contact Becky Chow at 202-551-6524 or Stephen Krikorian at 202-551-3488 if you have questions regarding comments on the financial statements and related matters.
