On page 33, the section entitled “Dollar Cost Averaging” should be deleted and replaced in its entirety with the following paragraph:

If the amount allocated to the Investment Divisions plus the amount allocated to Guaranteed Fixed Account is at least \$15,000, you can arrange to have a regular amount of money periodically transferred automatically into the Investment Divisions and other guaranteed fixed accounts from the one-year Guaranteed Fixed Account or any of the other Investment Divisions. In the case of transfers from the Guaranteed Fixed Account or Investment Divisions with a stable unit value, this can let you pay a lower average cost per unit over time than you would receive if you made a one-time purchase. Transfers from the more volatile Investment Divisions may not result in lower average costs, and such Investment Divisions may not be an appropriate source of dollar cost averaging transfers in volatile markets. Certain restrictions may apply.
