

SOLICITATION OF PROXIES

This Management Proxy Circular is provided in connection with the solicitation by the management (the "Management") of Telesystem International Wireless Inc. (the "Corporation") of proxies to be used at the Annual and Special Meeting (the "Meeting") of shareholders of the Corporation to be held at the time and place and for the purposes stated in the accompanying Notice of Meeting and at any adjournment thereof. Unless otherwise indicated, the information contained herein is given as of March 26, 2004.

It is expected that the solicitation will be made primarily by mail but proxies may also be solicited personally by officers, employees or agents of the Corporation. The Corporation may also reimburse brokers and other persons holding shares in their names, or in the names of nominees, for their costs incurred in sending proxy material to principals and obtaining their proxies. The cost of solicitation will be borne by the Corporation and is expected to be nominal.

A beneficial shareholder who completes a Form of Proxy and who wishes to attend and vote at the Meeting personally must appoint himself or herself proxy holder in the foregoing manner.

A proxy given pursuant to this solicitation may be revoked by instrument in writing executed by the shareholder or by his or her attorney authorized in writing if such instrument is deposited either at the registered office of the Corporation to the attention of the Secretary no later than the close of business on the last business day preceding the day of the Meeting or any adjournment thereof or with the Chairman of the Meeting on the day of the Meeting or any adjournment thereof.

VOTING OF PROXIES

The Form of Proxy confers discretionary authority upon the persons named therein with respect to amendments or variations to matters identified in the accompanying Notice of Meeting. As at the date hereof, Management is not aware that any other matter is to be presented at the Meeting. If, however, other matters properly come before the Meeting, the persons designated in the Form of Proxy will vote thereon in accordance with their judgment pursuant to the discretionary authority conferred by such proxy with respect to such matters.

The Common Shares of the Corporation are listed on the Toronto Stock Exchange ("TSX") and on The Nasdaq SmallCap Market ("Nasdaq") under the respective symbols TIW and TIWI. Each holder of Common Shares is entitled to one vote for each share registered in his or her name at the close of business on March 17, 2004, being the date fixed by the Board of Directors for the purpose of determining registered shareholders entitled to receive the accompanying Notice of Meeting (the "Record Date"). In the event that such a shareholder transfers the ownership of any of his or her shares after the Record Date or that a person acquires newly issued shares after the Record Date, the transferee or the acquirer of such shares shall be entitled to vote at the Meeting if he or she produces properly endorsed share certificates or otherwise establishes proof of his or her ownership of the shares and demands, not later than the day before the Meeting, that his or her name be included on the list of shareholders entitled to vote. Stock Option Plans for Directors, Senior Executives and Key Employees

On April 30, 1997, the Corporation established the Employees Stock Option Plan. All of the options granted under the Employees Stock Option Plan to acquire Common Shares may be exercised within a maximum period of five years following the date of grant. Options may be exercised as follows: (i) options granted under the plan to employees and officers are exercisable after the first anniversary of the date of grant as to one-third of the optioned shares, after the second anniversary as to an additional one-third and after the third anniversary as to the remaining one-third of the optioned shares and are exercisable as to 100% upon a change of control of the Corporation; (ii) options granted under the plan to directors are exercisable after the first anniversary of the date of grant as to 100% of the optioned shares. All options are granted at a price not lower than the market price of the Common Shares on the day preceding the date of grant. Any option granted pursuant to the Employees Stock Option Plan will lapse 30 days after the holder thereof ceases to be a director, officer or employee of the Corporation (or within 90 days if the holder is dismissed without cause). In

the event of death, retirement or disability, any option held by the optionee lapses twelve months after the date of any such death, retirement or disability. If an option holder's employment or office with the Corporation is terminated within 18 months of a change of control of the Corporation, his or her options will be exercisable during a period of 12 months following such termination. The maximum number of Common Shares that are currently issuable under the Employees Stock Option Plan is 10,000,000 Common Shares. The maximum number of Common Shares that may be optioned in favor of any individual is 3% of the issued and outstanding shares from time to time.

On April 30, 1997, the Corporation also established the Directors Stock Option Plan. Since March 5, 2002, directors are now eligible participants under the Employees Stock Option Plan. Therefore, it is not expected that options will continue to be granted under the Directors Stock Option Plan.

Performance Unit Plan

On November 15, 2001, the Board of Directors, on the recommendation of the Human Resources and Governance Committee, approved a Performance Unit Plan. Under the Performance Unit Plan, units were issuable to certain holders of options granted under the Employees Stock Option Plan. Units gave right, upon a change of control of the Corporation, to the payment in cash of the difference between the then market price of the Common Shares of the Corporation and the threshold price of the units. Unless a change of control occurs before such dates, units were to expire on the earlier of November 15, 2006 and the participant's date of termination of employment.

On November 15, 2001, an aggregate of 3,086,000 units were issued to option holders at an average threshold price of US\$7.50 or Cdn\$11.90 per unit. For every two options granted to key employees under the Employees Stock Option Plan on November 15, 2001, one performance unit was granted. For each option granted in the future under the Employees Stock Option Plan to a holder of unit, one unit held by such holder was to be cancelled. No units were granted since November 2001.

Following the November 2002 and December 2003 Option Grants, as defined, all units were cancelled as provided under the Performance Unit Plan and the plan was therefore terminated. It should be noted that no payments were made under the Performance Unit Plan as no change of control occurred between its inception and termination.

Restricted Share Unit Plan

On February 24, 2004, the Board of Directors of the Corporation, on the recommendation of the Human Resources and Governance Committee and in the best interest of the shareholders, authorized, subject to regulatory and shareholders' approvals, the creation of a restricted share unit plan (the "Restricted Share Unit Plan"). Under the Corporation's Restricted Share Unit Plan, restricted share units ("RSU") are granted to designated directors (other than those who are employees or consultants of the four principal shareholders of the Corporation), officers and employees. The RSU are "phantom" shares that rise and fall in value based on the value of the Corporation's Common Shares and are redeemed for actual Common Shares on the vesting dates. The RSU typically vest after the first anniversary of the date of grant as to one-third, after the second anniversary as to an additional one-third and after the third anniversary as to the remaining one-third but become 100% vested upon a change of control of the Corporation. Where deemed appropriate, the Board of Directors has the discretion to use a different vesting schedule. On January 9, 2004 and February 24, 2004, the Board of Directors of the Corporation approved the grant of 638,652 RSU upon recommendation of the Human Resources and Governance Committee subject to regulatory and shareholders' approvals. These grants are conditional on the approval of the Restricted Share Unit Plan by the TSX, regulatory authorities and shareholders of the Corporation. The total number of RSU issuable under the proposed plan is 6,250,000. The Restricted Share Unit Plan is presented to shareholders for approval at the Meeting. The full text of the plan is attached as Schedule B to this Management Proxy Circular.

Option and RSU Grants in Last Financial Year

Taking into consideration options granted on November 12, 2002 subject to the approval by shareholders of certain amendments to the Employees Stock Option Plan presented at the annual shareholders' meeting in May 2003, such approval having been obtained at the said meeting, (the "November 2002 Option Grants") and the options granted on December 18, 2003 subject to the review and approval by the Corporation's three major shareholders, such approval having been obtained on February 29, 2004 (the "December 2003 Option Grants") a total of 6,410,400 options were granted to directors, officers, employees and consultants, 2,566,585 options were exercised and 3,280,359 options were forfeited or cancelled under the Employees Stock Option Plan in the last financial year.

The table below shows information regarding the stock option grants made to the Named Executive Officers under the Employees Stock Option Plan during the financial year ended December 31, 2003, taking into consideration the November 2002 and December 2003 Option Grants, and regarding the RSU grants approved by the Board in January and February 2004.

Aggregated Options and Units Exercised in Last Financial Year and Financial Year End Option and RSU Values

The following table summarizes, for each of the Named Executive Officers, the number of stock options exercised and the number of RSU redeemed for Common Shares, if any, during the financial year ended December 31, 2003, the aggregate value realized upon exercise or redemption, as applicable, and the total number of unexercised options and unvested RSU held at December 31, 2003. Value realized upon exercise/redemption is the difference between the market value of the underlying Common Shares on the exercise date and the exercise price in the case of options, and the market value of the underlying Common Shares on the redemption date in the case of RSU. The value of unexercised "in-the-money" options at financial year-end is the difference between the exercise price and the market value of the underlying Common Shares on December 31, 2003, which was Cdn\$10.85 per share, the closing price on the TSX. The value of unvested RSU at financial year-end is the market value of the underlying Common Shares on December 31, 2003, which was Cdn\$10.85. These values, unlike the amounts set forth in the column "Aggregate Value Realized," have not been, and may never be, realized. The options and RSU may never be exercised or redeemed, and actual gains, if any, on exercise or redemption will depend on the value of the Common Shares on the date of exercise or redemption, as applicable. There can be no assurance that these values will be realized. Unexercisable options and unvested RSU are those which have been held for less than the time required for vesting.

Retention Incentive

The Named Executive Officers are covered by the Corporation's retention incentive which, based on independent advice, is in line with industry standards. The retention incentive provides for a payment, upon an involuntary termination of employment for any reason other than performance or cause, of an amount equal to between three months and 36 months of base salary, depending on certain factors including seniority and functions filled, plus a portion of target bonus for the same period. In the case of the Named Executive Officers, the amounts payable under the retention incentives range from 18 to 36 months.

REPORT ON EXECUTIVE COMPENSATION BY THE HUMAN RESOURCES AND GOVERNANCE COMMITTEE

Members of the Human Resources and Governance Committee

During the financial year ended December 31, 2003, the Human Resources and Governance Committee (the "HR Committee") was composed of Jacques A. Drouin, as Chairman, Jonathan Charles Carter-Meggs, Charles Sirois and, prior to her resignation on December 2, 2003, Eva Lee Kwok. The vacancy on the Committee left by Ms. Kwok's departure was filled by Mr. Christian Salbaing on December 18, 2003. None of the individuals serving on the Committee were officers or employees, or former officers or employees, of the Corporation or its subsidiaries.

HR Committee Mandate

The HR Committee is a committee of the Board of Directors. One of its mandates is to review and make recommendations to the Board of Directors in connection with the appointment and remuneration of officers of the Corporation and of its subsidiaries, including the Chief Executive Officer. In addition, the HR Committee makes recommendations to the Board of Directors with respect to the options to be granted under the Employees Stock Option Plan and the RSU to be granted under the Restricted Share Unit Plan.

The HR Committee also reviews and approves the design and competitiveness of the Corporation's total compensation policy, architecture and plans, including the mix between cash and incentive compensation. It is responsible for reviewing and making recommendations with respect to all human resources matters relating to the officers and employees of the Corporation.

The HR Committee held 6 meetings during the financial year ended December 31, 2003.

Executive Compensation Policy

A revised total compensation policy was introduced in 1999 to recognize and reward individual contributions to the short-term and long-term success of the Corporation and also ensure that the Corporation offers competitive compensation.

In accordance with such policy, executive compensation is based on three major components: base salary, benefits and incentive compensation. The Corporation aims to provide base salaries and benefits targeted at a selected market median level as well as incentive programs designed to bring executive total compensation in the third quartile upon the achievement of superior results. Incentive compensation is awarded through plans and criteria approved by the HR Committee.

The benefits consist of insurance coverage and flexible perquisites such as car allowance, club memberships and professional counseling. The Corporation does not provide retirement or savings benefits to its executives.

Incentive compensation, which includes distinct short, medium and long-term components, is based on North American practices. It makes up a significant portion of the total compensation of executives and is designed to link executive remuneration and corporate performance, with a generally higher emphasis on the long-term component. For the Named Executive Officers, the short-term incentive opportunity ranges from 10% to 13% of total compensation and the long-term incentive opportunity ranges from 50% to 70% of total compensation. Therefore, the "at risk" or incentive portion of their total compensation ranges from 63% to 80%.

The Corporation's compensation policy uses different scales for its employees who are local residents than for employees of its operating subsidiaries who are foreign residents ("Expatriates"). The key benefits currently being provided to Expatriates consist mainly of relocation benefits, living conditions benefits such as housing allowance, group insurance, home leave and tax planning. Incentive compensation for Expatriates, which includes distinct short-term and long-term components, is based on North American practices. It makes up a significant portion of the total compensation of Expatriates and is designed to link remuneration and corporate performance, with a generally higher emphasis on the long-term component.

Short-Term Incentive Compensation

The short-term incentive plan offers bonuses tied to the achievement of pre-determined corporate strategic objectives (e.g. financing plan), quantitative operational objectives (e.g. number of subscribers, operating income before depreciation and amortization, and revenues) and individual performance objectives supporting these business objectives. The objectives, and the bonus payouts corresponding to their level of achievement, are established on a yearly basis. The strategic and operational objectives are presented to and approved by the Board of Directors.

For the Named Executive Officers, bonuses range from 30% to 50% of base salary when the strategic, operational and individual objectives are achieved. When such objectives are exceeded, bonuses are higher but cannot exceed twice the target bonuses. When objectives are not met, bonuses are lower and not paid at all when they are met at less than certain specified thresholds.

For the financial year ended December 31, 2003, the HR Committee reviewed and recommended to the Board of Directors approval of bonuses under the short-term incentive plan that were in line with the level of achievement of the strategic and operational objectives.

Long-Term Incentive Compensation

The long-term incentive compensation is made up of the Employees Stock Option Plan and the Restricted Share Unit Plan.

The Employees Stock Option Plan, introduced in 1997, and the Restricted Share Unit Plan, introduced in February 2004, are designed to motivate directors, officers, employees and consultants, align their interests with the Corporation's shareholders over the long-term and create an ownership mentality. They are of limited duration and are subject to the HR Committee review to ensure maintenance of their market competitiveness.

The current Employees Stock Option Plan provides for the issuance of options to directors, officers, employees and consultants to purchase Common Shares. The number of options granted to directors, officers and employees is determined so as to deliver an intended target annual compensation value, which, for officers and employees, is expressed as a multiple of their base salary. Under the current policy, the multiples range from 17.5% to 337.5% (95% to 337.5% for the Named Executive Officers) of the annual base salary. The Restricted Share Unit Plan provides for the issuance of RSU to designated directors, officers, employees and consultants.

Pursuant to the Employees Stock Option Plan and Restricted Share Unit Plan, the option and RSU grants are reviewed and recommended by the HR Committee for approval by the Board of Directors. The exercise price of the options is determined by the Board of Directors at the time of granting the options, subject to compliance with the rules of all stock exchanges on which the Common Shares are listed and with all relevant securities legislation.

Introduced in 2001 in the context of the Corporation's equity recapitalization plan, the Performance Unit Plan was designed, as a supplement to the Employees Stock Option Plan, to provide an additional incentive to employees in various divestiture scenarios. The Performance Unit Plan was terminated in 2003.

Special Cash Incentive Compensation

On November 12, 2002, the Board of Directors, on the recommendation of the HR Committee, approved a mid-term incentive plan called the Special Cash Incentive Plan.

The Special Cash Incentive Plan rewarded the achievement of pre-determined corporate strategic objectives or milestones, including certain asset sales, aimed at maximizing the Corporation's value in the medium term.

The Special Cash Incentive Plan was effective from November 12, 2002 to December 31, 2003 and only employees of the Corporation holding managerial positions were eligible to participate in the Plan.

Each of the pre-determined corporate strategic objectives had a pre-defined incentive "pool", whose size reflected its impact on the Corporation's value. Each participant's share of the "pool" was also pre-defined based on his or her level and degree of influence/impact on the achievement of the said objective.

The actual cash payouts under the Plan were determined on a "pass or fail" basis and there were no grading schedules and no stretches. If the objective was achieved, the pre-defined payouts corresponding to the said objective were made. If it was not achieved, there were no payouts in respect of such objective. The achievement of the objective was determined by the acceptance of the

corresponding transaction by the Board of Directors or by the completion of the corresponding transaction as per the business plan approved by the same board, as applicable.

Two corporate strategic objectives were achieved during the financial year ended December 31, 2003 and the corresponding cash payouts under the Special Cash Incentive Plan for the said objectives were made for an aggregate payout by the Corporation of Cdn\$3,387,937. The cash payouts for the Named Executive Officers are included in the Summary Compensation Table under the header "Long-Term Incentive Program Payouts".

Compensation Plan Control and Review

The HR Committee is responsible for ensuring that executive compensation conforms to the Corporation's total compensation policy. The Corporation's relative position in terms of compensation levels, including the proper balance between cash and incentive compensation, is determined, as needed, through studies performed by independent consulting firms using a selected reference market of comparable companies. Internal pay equity studies are a key factor to complete the process and provide necessary adjustments where required.

Conclusion

By way of application of the Corporation's executive compensation policy, an important part of executive compensation is "at risk" and linked to corporate, business unit and individual performance, and particularly to stock performance and long-term value creation. The HR Committee continuously reviews executive compensation programs to ensure that they maintain their competitiveness and continue to focus on the Corporation's objectives, values and business strategies.

Depending on specific circumstances, the Committee may also recommend, by exception, employment terms and conditions that deviate from the policies and the execution by the Corporation or its subsidiaries of employment contracts on a case-by-case basis.

INTEREST OF INSIDERS AND OTHERS IN MATERIAL TRANSACTIONS

During the financial year ended December 31, 2003, the Corporation and its subsidiaries or affiliates did not enter into any transaction with an insider of the Corporation, any proposed nominee as a director or any associate or affiliate of any such insider or proposed nominee, which has materially affected, or any proposed transaction that could materially affect, the Corporation or any of its subsidiaries, except for transactions already disclosed in the Corporation's past management proxy circulars and transactions entered into under the following agreements:

- A credit agreement between the Corporation and two of its wholly-owned subsidiaries, and a group of lenders, including Caisse de dépôt et placement du Québec and an affiliate of J.P. Morgan Partners, LLC. The amounts drawn under this facility were fully repaid in March 2003 and the facility was terminated.
- A use of premises and service agreement between the Corporation and Telesystem providing for the use and enjoyment by the Corporation of approximately 8,700 square feet of the premises leased by Telesystem at 1250 René-Lévesque West, 38th floor in Montreal, for annual rent of approximately Cdn\$385,000 including furniture.
- An underwriting agreement dated September 11, 2003 among the Corporation, Capital Communications CDPQ Inc., which, at the time the agreement was signed, was an insider of the Corporation, and BMO Nesbitt Burns Inc. pursuant to which Capital Communications CDPQ Inc. agreed to sell and BMO Nesbitt Burns Inc. agreed to purchase 12,960,128 Common Shares held by Capital Communications CDPQ Inc. and certain of its affiliates by way of a short form prospectus in all Provinces of Canada.
- A commitment letter dated as of October 24, 2003 between the Corporation and its co-shareholders in TIW Asia N.V., including certain affiliates of J.P. Morgan Partners, LLC, for the acquisition by the Corporation of shares of TIW Asia N.V. it does not already own in exchange for newly issued shares of the Corporation.

An agreement in principle entered into in December 2003 between the Corporation and EEIF Melville B.V. and certain of its affiliates (together referred to herein as "EEIF"), for which binding share purchase agreements were executed on February 10, 2004, relating to the issuance of 14,621,714 Common Shares in exchange for approximately 5.9% equity interest in MobiFon S.A. and 2.9% equity interest in TIW Czech N.V. held by EEIF Melville B.V. and certain of its affiliates. MobiFon S.A. is a subsidiary of the Corporation operating in Romania and TIW Czech N.V. is a subsidiary of the Corporation holding the Corporation's operating company in the Czech Republic. As a result of this transaction, EEIF became a party to an amended and restated investor rights agreement dated March 17, 2004 entered into among the Corporation and certain of its major shareholders, pursuant to which such major shareholders agreed to vote in favour of one nominee of EEIF on the Corporation's Board of Directors. EEIF has not yet presented a nominee for election on the Board of Directors but Management expects it will do so in the near future. In addition, EEIF entered into an amended and restated registration rights agreements dated March 17, 2004 among the Corporation and certain of its major shareholders.

STATEMENT OF CORPORATE GOVERNANCE PRACTICES

Background

The Board of Directors considers good corporate governance to be important to the effective operations of the Corporation. In 1997, the Board of Directors formed the Nominating and Corporate Governance Committee responsible for, among other things, monitoring the Corporation's corporate governance practices in relation to the Guidelines adopted by the TSX (the "Guidelines") and overseeing disclosure obligations related thereto. In 2002, following the implementation of the Corporation's equity recapitalization plan, the functions of the Nominating and Corporate Governance Committee were divided between the Audit Committee and the Human Resources and Governance Committee.

Since November 2002, the Corporation has conducted a significant review of its corporate governance policies and practices. The Board of Directors and Management reviewed the Corporation's corporate governance policies in light of existing and proposed corporate governance requirements and best practices standards in Canada and the United States. In addition to the corporate

governance guidelines set out in the Guidelines, the Corporation is subject to many of the provisions of the Sarbanes-Oxley Act of 2002 ("SOX") and related rules of the U.S. Securities and Exchange Commission, proposed rules of the Canadian Securities Administrators regarding both audit committees and the certification of certain annual and interim filings and the new governance standards of the NASDAQ Stock Market. The TSX has also proposed revised corporate governance guidelines, which however, will likely be replaced by a new policy of the securities commissions in Canada. Although certain of these governance initiatives are not yet in force, or, in the case of the SOX, may not be completely applicable to non-U.S. corporations, the Corporation is, to the extent possible, working towards compliance with all of the applicable final standards. In this regard, since November 2002, the Board of Directors took the following actions:

- (i) Reviewed and updated the charter of the Audit Committee;
- (ii) Reviewed and updated the charter of the Human Resources and Governance Committee;
- (iii) Implemented a disclosure policy in conformity with the requirement of SOX;
- (iv) Adopted a Code of Business Conduct which includes updated versions of the Corporation's:
 - (a) Foreign Corrupt Practices Act;
 - (b) Confidentiality, Loyalty, Non-Solicitation and Non-Compete Agreement;
 - (c) Information Systems/Information Technology Securities Policies, Procedures and Guidelines;
 - (d) Policy Concerning the Use of Inside Information;
 - (e) Delegation of Authority; and
 - (f) Conflict of Interest Report; and
- (v) Adopted a whistle-blower memorandum allowing direct anonymous access to the Board of Directors for employees of the Corporation.

All employees are required to sign a statement of compliance with respect to the Code of Business Conduct of the Corporation. Furthermore, given the ongoing developments and trends in corporate governance in Canada and the United States, the Corporation continues to review on a regular basis its various internal policies and procedures to ensure compliance with all applicable final standards and best practices.

The corporate governance framework of the Corporation also features an investor rights agreement among the Corporation's major shareholders, namely Telesystem, U.F. Investment (Barbados) Ltd., certain affiliates of J.P. Morgan Partners, LLC., and EEIF (the "Major Shareholders") which provides for proportionate representation rights, including in favour of minority shareholders, on the Board of Directors and setting out certain principles of corporate governance (the "Investor Rights Agreement"). It is expected that Caisse de dépôt et placement du Québec will, directly or through its affiliate, become a party to the Investor Rights Agreement on or before June 30, 2004 as a result of the exchange of the debenture it holds in Telesystem for Common Shares. Pursuant to the Investor Rights Agreement, the Corporation agreed to maintain the size of its Board of Directors to eight members and allow Major Shareholders to present for appointment between one and two nominees on the Board of Directors, depending on their level of equity interest in the Corporation. Any candidate, other than those nominees of the Major Shareholders, is required by the Investor Rights Agreement to be independent not only of the management of the Corporation but also of the Major Shareholders. In addition, the Investor Rights Agreement requires that certain major decisions be approved by no less than two-thirds or, in certain cases, three-quarters of the votes cast by the directors present and eligible to cast votes at a duly constituted meeting of the Board of Directors. The decisions requiring the approval of two-thirds of the votes include, among other things, (i) security issuances, (ii) debt incurrence or pledging of assets, (iii) creation of subsidiaries and (iv) execution of any contract with a related party for an amount in excess of Cdn\$200,000. The decisions requiring the approval of three-quarters of the votes include, among other things, (i) business plan approval or amendment, (ii) repurchase of debt, (iii) investment, acquisition, capital expenditure or development projects and (iv) termination of employment or hiring of executive officers.

Under the Investor Rights Agreement, each Major Shareholder agreed to vote in favor of the nominees put forward for election on the Board of Directors by the other Major Shareholders. The nominees of the Major Shareholders proposed for election as directors at the Meeting are: Daniel Cyr, Michael R. Hannon, Christian Salbaing, Jonathan Charles Carter-Meggs and Charles Sirois. As previously mentioned, it is expected that EEIF will present a nominee for election on the Board of Directors in the near future, therefore increasing the size of the Board of Directors to eight members.

The following disclosure sets out the Corporation's corporate governance practices which conform with the Guidelines unless specifically noted otherwise.

Role and Responsibilities of the Board

The Board of Directors oversees the conduct and supervises the management of the business and affairs of the Corporation pursuant to the powers vested in it by the *Canada Business Corporations Act* and in accordance with the requirements of the *Canada Business*

Corporations Act. The Board of Directors holds regular meetings to consider particular issues or conduct specific reviews whenever deemed appropriate.

Before the start of every financial year, the Board of Directors receives and approves an annual budget and business and strategic objectives submitted by the President and Chief Executive Officer.

In addition to those matters requiring the Board of Directors' approval pursuant to law or the Corporation's articles and by-laws, the Board of Directors decides on significant matters such as those provided for in the Investor Rights Agreement.

Composition of the Board

The Board of Directors is currently comprised of seven directors and believes that its size enables it to conduct its meetings and take decisions effectively and efficiently. All directors are independent of Management and all directors are "unrelated directors", defined in the Guidelines as directors who are independent of Management and free from any interest and any business or other relationship, other than interests and relationships arising from shareholding, which would, or could reasonably, be perceived to materially interfere with the director's ability to act in view of the Corporation's best interest. Although the Board of Directors considers all of its members to be unrelated directors, as defined in the Guidelines, it notes that Jonathan Charles Carter-Meggs and Michael R. Hannon are Partners and employees of J.P. Morgan Partners, LLC, which entity, through certain of its affiliates, holds an equity interest in one of the Corporation's co-shareholder in MobiFon S.A. J.P. Morgan Partners, LLC is also a co-shareholder, through certain of its affiliates, in TIW Czech N.V., which entity holds the Corporation's interest in Český Mobil a.s., as well as a lender under Český Mobil's senior credit facility. Such relationships do not, in the normal course of business, interfere with these directors' abilities to act in view of the best interests of the Corporation. However, if a conflict of interest were to arise from these relationships under particular circumstances, measures would be taken as required by the Corporation's governing law to ensure that the best interest of the Corporation are adequately represented. The Corporation has no shareholder with the ability to exercise a majority of the votes for the election of the directors.

Committees

The Audit Committee reviews the Corporation's annual and interim financial statements before they are approved by the Board of Directors, oversees Management reporting on internal audits and controls and reviews the Corporation's accounting systems and external audit plan. Also in 2002, the Audit Committee began monitoring the Corporation's corporate governance practices and more specifically its compliance with stock exchange and securities commissions disclosure requirements. The Audit Committee also has direct communication channels with internal and external auditors to discuss and review specific issues as required. The Audit Committee is comprised of four outside directors, all of whom are unrelated. Members of the Audit Committee are currently Daniel Cyr, Michael R. Hannon and C. Kent Jespersen (Chair). Composition of the Committee is subject to modification following the Meeting.

The principal mandate of the Human Resources and Governance Committee is described above under the heading "Report On Executive Compensation by the Human Resources and Governance Committee." The responsibilities of the Human Resources and Governance Committee that deal with matters of corporate governance include to assist the Audit Committee in monitoring the Corporation's approach to corporate governance, to annually recommend the members proposed for election to the Board of Directors as well as the membership and chairs of the Committees of the Board of Directors, to develop a process to periodically review the functioning of the Board of Directors and conduct a periodic review of the powers, mandates and performance of committees of the Board of Directors. The Human Resources and Governance Committee is also in charge of periodically reviewing the effectiveness of the Corporation's policies, guidelines and manuals in relation to governance matters, other than those pertaining to disclosure requirements, which are the responsibility of the Audit Committee, and make recommendations to the Board of Directors to ensure compliance with best practices on such matters. The Human Resources and Governance Committee is composed of four outside directors, all of whom are unrelated. Members of the Human Resources and Governance Committee are currently Jacques A. Drouin (Chair), Christian Salbaing, Jonathan Charles Carter-Meggs and Charles Sirois. Composition of the Committee is subject to modification following the Meeting.

Measures for Receiving Shareholders' Feedback and Dealing with their Concerns

In addition to its required public filings, the Corporation regularly communicates with its shareholders and the investment community by means of its quarterly and annual reports as well as press releases issued as appropriate from time to time. Annual meetings allow shareholders to ask questions directly to the President and Chief Executive Officer as well as to other senior executive officers.

The Board of Directors' Expectations of Management

The Board of Directors expects Management to meet the following basic objectives: (i) report in a comprehensive, accurate and timely fashion on the business and affairs of the Corporation generally, and on any specific matters that it considers of significant material consequence for the Corporation and its shareholders; (ii) take timely action and make all appropriate decisions required by the Corporation's activities in accordance with all applicable requirements or obligations and within the framework of the corporate policies in effect, with a view to enhancing shareholder value; (iii) conduct a comprehensive annual budget process and monitor closely the Corporation's financial performance in conjunction with the annual budget approved by the Board of Directors; and (iv) review on an on-going basis the Corporation's strategies and their implementation taking into account changes to the Corporation's business environment.

PROPOSED RESTRICTED SHARE UNIT PLAN

On February 24, 2004, the Board of Directors of the Corporation, on the recommendation of the Human Resources and Governance Committee and in the best interest of the shareholders, authorized, subject to regulatory and shareholders' approvals, the creation of the Restricted Share Unit Plan.

If approved by shareholders at the Meeting, by the TSX and by the necessary securities commissions, the Restricted Share Unit Plan will become effective as of December 18, 2003.

Under the Corporation's Restricted Share Unit Plan, RSU are granted to designated directors (other than those who are employees or consultants of the four principal shareholders of the Corporation), officers and employees. The RSU are "phantom" shares that rise and fall in value based on the value of the Corporation's Common Shares and are redeemed for actual Common Shares on the vesting dates. The RSU typically vest after the first anniversary of the date of grant as to one-third, after the second anniversary as to an additional one-third and after the third anniversary as to the remaining one-third but become 100% vested upon a change of control of the Corporation. Where deemed appropriate, the Board has the discretion to use a different vesting schedule. On January 9, 2004 and February 24, 2004, the Board of Directors of the Corporation approved the grant of 638,652 RSU upon recommendation of the Human Resources and Governance Committee subject to regulatory and shareholders approval. The total number of RSU issuable under the proposed plan is 6,250,000.

The Restricted Share Unit Plan is meant to complement the Employee Stock Option Plan of the Corporation to offer, through combinations of these equity-based incentive programs, optimal alignment of the interest of management and employees of the Corporation to that of its shareholders. The choice of implementing a Restricted Share Unit Plan was taken by the Board of Directors after an analysis of various alternative equity-based plans. Of the potential equity-based plans considered, a combination of the current Employee Stock Option Plan with a Restricted Share Unit Plan was considered to provide the best balance between alignment with shareholder interests, protection against downside risk, share price volatility protection and employee retention.

The full text of the Restricted Share Unit Plan is attached as Schedule B to this Management Proxy Circular.

The Board of Directors recommends that the shareholders vote "For" the adoption of a resolution to approve the Restricted Share Unit Plan. A copy of the resolution is appended hereto as Schedule "A" to this Management Proxy Circular. In order to adopt the resolution approving the plan, at least a majority of the votes cast by holders of Common Shares, present in person or by proxy, must be voted in favor of the resolution. However, in accordance with the rules of the TSX, certain participants to the Restricted Share Unit Plan will not be entitled to vote at the Meeting with respect to the approval of the plan. Therefore, to the best of the Corporation's knowledge, at the time the information was provided, 116,499 Common Shares owned by insiders of the Corporation who are participants to the Restricted Share Unit Plan as well as their associates will not be counted in determining whether or not the resolution is adopted. Unless specified in the enclosed form of proxy that Common Shares represented by the form of proxy shall be voted against this resolution, the persons designated in the enclosed form of proxy intend to vote "For" this resolution.
