August 21, 2007

K.C. Park
Interim Chief Executive Officer
eMagin Corporation
10500 N.E. 8th Street, Suite 1400
Bellevue, WA 98004

**Re: eMagin Corporation
Registration Statement on Form S-1
Filed July 25, 2007
File No. 333-144865**

Dear Dr. Park:

We have limited our review of your filing to those issues we have addressed in our comments. Where indicated, we think you should revise your document in response to these comments. If you disagree, we will consider your explanation as to why our comment is inapplicable or a revision is unnecessary. Please be as detailed as necessary in your explanation. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure. After reviewing this information, we may raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filing. We look forward to working with you in these respects. We welcome any questions you may have about our comments or on any other aspect of our review. Feel free to call us at the telephone numbers listed at the end of this letter.

Recent Developments, page 5

1. It appears from the disclosure that Stillwater has the ability to determine whether interest payments will be made in cash or shares of your stock. If so, please be advised that if Stillwater has not yet made its investment decision with regard to the interest payments, it is premature to register the related shares for resale. Please revise your registration statement accordingly.
2. Please clarify the context of the March 2007 transaction. For example, was the investor obligated to make this investment based on the expiration of prior warrants? What was the nature of the "certain closing conditions" that were amended? How were the conversion and exercise prices selected?

Amendment Agreements – July 2007, page 5

3. Generally it is inconsistent with section 5 of the Securities Act to renegotiate the terms of a private placement after the related securities are the subject of a resale registration statement. Given that in August 2006 it appears that you previously registered for resale shares issuable upon conversion of the notes and upon exercise of the warrants related to the July 2006 private placement, please tell us how the July 23, 2007 Amendment Agreements related to the July 2006 private placement are consistent with section 5.

Security Ownership of Certain Beneficial Owners and Management, page 42

4. Please disclose the natural person or persons who exercise the sole or shared voting and/or dispositive powers with respect to the shares held in the name of an entity. From your revised disclosure, it should be clear why Stillwater does not include in its beneficial ownership the shares held in the name of Ginola given the last sentence of footnote (3).

Selling Stockholders, page 46

5. Please reconcile the disclosure on page 46 about 6,767,148 shares beneficially owned prior to the offering with the reference on page 42 to 4,052,041 shares.
6. Please provide us, with a view toward disclosure in the prospectus, with the total dollar value of the securities underlying the convertible notes that you have registered for resale (using the number of underlying securities that you have registered for resale and the market price per share for those securities on the date of the sale of the convertible notes).
7. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure of the dollar amount of each payment (including the value of any payments to be made in common stock) in connection with the transaction that you have made or may be required to make to the selling stockholder, any affiliate of the selling stockholder, or any person with whom any selling shareholder has a contractual relationship regarding the transaction (including any interest payments, liquidated damages, payments made to “finders” or “placement agents,” and any other payments or potential payments). Please provide footnote disclosure of the terms of each such payment. Please do not include any repayment of principal on the convertible notes in this disclosure.

Further, please provide us, with a view toward disclosure in the prospectus, with disclosure of the net proceeds to the issuer from the sale of the convertible notes and the total possible payments to the selling stockholder and its affiliates in the first year following the sale of convertible notes.

8. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure of:
- the total possible profit the selling stockholder could realize as a result of the conversion discount for the securities underlying the convertible note, presented in a table with the following information disclosed separately [in this comment, the reference to “securities underlying the convertible note” means the securities underlying the note that may be received by the persons identified as the selling stockholder];
 - the market price per share of the securities underlying the convertible note on the date of the sale of the convertible note;
 - the conversion price per share of the underlying securities on the date of the sale of the convertible note, calculated as follows:
 - if the conversion price per share is set at a fixed price, use the price per share established in the convertible note; and
 - if the conversion price per share is not set at a fixed price and, instead, is set at a floating rate in relationship to the market price of the underlying security, use the conversion discount rate and the market rate per share on the date of the sale of the convertible note and determine the conversion price per share as of that date;
 - the total possible shares underlying the convertible note (assuming no interest payments and complete conversion throughout the term of the note);
 - the combined market price of the total number of shares underlying the convertible note, calculated by using the market price per share on the date of the sale of the convertible note and the total possible shares underlying the convertible note;
 - the total possible shares the selling stockholder may receive and the combined conversion price of the total number of shares underlying the convertible note calculated by using the conversion price on the date of the sale of the convertible note and the total possible number of shares the selling stockholder may receive; and
 - the total possible discount to the market price as of the date of the sale of the convertible note, calculated by subtracting the total conversion price on the date of the sale of the convertible note from the combined market price of the total number of shares underlying the convertible note on that date.

If there are provisions in the convertible note that could result in a change in the price per share upon the occurrence of certain events, please provide additional tabular disclosure as appropriate. For example, if the conversion price per share is fixed unless and until the

market price falls below a stated price, at which point the conversion price per share drops to a lower price, please provide additional disclosure.

9. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure of:

- the total possible profit to be realized as a result of any conversion discounts for securities underlying any other warrants, options, notes, or other securities of the issuer that are held by the selling stockholder or any affiliates of the selling stockholder, presented in a table with the following information disclosed separately:
- market price per share of the underlying securities on the date of the sale of that other security;
- the conversion/exercise price per share as of the date of the sale of that other security, calculated as follows:
 - if the conversion/exercise price per share is set at a fixed price, use the price per share on the date of the sale of that other security; and
 - if the conversion/exercise price per share is not set at a fixed price and, instead, is set at a floating rate in relationship to the market price of the underlying security, use the conversion/exercise discount rate and the market rate per share on the date of the sale of that other security and determine the conversion price per share as of that date;
- the total possible shares to be received under the particular securities (assuming complete conversion/exercise);
- the combined market price of the total number of underlying shares, calculated by using the market price per share on the date of the sale of that other security and the total possible shares to be received;
- the total possible shares to be received and the combined conversion price of the total number of shares underlying that other security calculated by using the conversion price on the date of the sale of that other security and the total possible number of underlying shares; and
- the total possible discount to the market price as of the date of the sale of that other security, calculated by subtracting the total conversion/exercise price on the date of the sale of that other security from the combined market price of the total number of underlying shares on that date.

10. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure of:
- the gross proceeds paid or payable to the issuer in the convertible note transaction;
 - all payments that have been made or that may be required to be made by the issuer that are disclosed in response to comment seven;
 - the resulting net proceeds to the issuer; and
 - the combined total possible profit to be realized as a result of any conversion discounts regarding the securities underlying the convertible notes and any other warrants, options, notes, or other securities of the issuer that are held by the selling stockholder or any affiliates of the selling stockholder that is disclosed in response to comment eight and comment nine.

Further, please provide us, with a view toward disclosure in the prospectus, with disclosure – as a percentage – of the total amount of all possible payments as disclosed in response to comment seven and the total possible discount to the market price of the shares underlying the convertible note as disclosed in response to comment eight divided by the net proceeds to the issuer from the sale of the convertible notes, as well as the amount of that resulting percentage averaged over the term of the convertible notes.

11. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure of all prior securities transactions between the issuer (or any of its predecessors) and the selling stockholder, any affiliates of the selling stockholder, or any person with whom the selling stockholder has a contractual relationship regarding the transaction (or any predecessors of those persons), with the table including the following information disclosed separately for each transaction:
- the date of the transaction;
 - the number of shares of the class of securities subject to the transaction that were outstanding prior to the transaction;
 - the number of shares of the class of securities subject to the transaction that were outstanding prior to the transaction and held by persons other than the selling stockholder, affiliates of the company, or affiliates of the selling stockholder;
 - the number of shares of the class of securities subject to the transaction that were issued or issuable in connection with the transaction;
 - the percentage of total issued and outstanding securities that were issued or issuable in the transaction (assuming full issuance), with the percentage calculated by taking the

number of shares issued or issuable in connection with the applicable transaction and dividing that number by the number of shares issued and outstanding prior to the applicable transaction and held by persons other than the selling stockholder, affiliates of the company, or affiliates of the selling stockholder;

- the market price per share of the class of securities subject to the transaction immediately prior to the transaction; and
- the current market price per share of the class of securities subject to the transaction.

12. Please provide us, with a view toward disclosure in the prospectus, with tabular disclosure comparing:

- the number of shares outstanding prior to the convertible note transaction that are held by persons other than the selling stockholder, affiliates of the company, and affiliates of the selling stockholder;
- the number of shares registered for resale by the selling stockholder or affiliates of the selling stockholder in prior registration statements;
- the number of shares registered for resale by the selling stockholder or affiliates of the selling stockholder that continue to be held by the selling stockholder or affiliates of the selling stockholder;
- the number of shares that have been sold in registered resale transactions by the selling stockholder or affiliates of the selling stockholder; and
- the number of shares registered for resale on behalf of the selling stockholder or affiliates of the selling stockholder in the current transaction.

In this analysis, the calculation of the number of outstanding shares should not include any securities underlying any outstanding convertible securities, options, or warrants.

13. Please provide us, with a view toward disclosure in the prospectus, with the following information:

- whether the issuer has the intention, and a reasonable basis to believe that it will have the financial ability, to make all payments on the overlying securities; and
- whether – based on information obtained from the selling stockholder – the selling stockholder has an existing short position in the company's common stock and, if the

selling stockholder has an existing short position in the company's stock, the following additional information:

- the date on which the selling stockholder entered into that short position; and
- the relationship of the date on which the selling stockholder entered into that short position to the date of the announcement of the convertible note transaction and the filing of the registration statement (*e.g.*, before or after the announcement of the convertible note transaction, before the filing or after the filing of the registration statement, etc.).

14. Please provide us, with a view toward disclosure in the prospectus, with the following information:

- a materially complete description of the relationships and arrangements that have existed in the past three years or are to be performed in the future between the issuer (or any of its predecessors) and the selling stockholder, any affiliates of the selling stockholder, or any person with whom the selling stockholder has a contractual relationship regarding the transaction (or any predecessors of those persons) – the information provided should include, in reasonable detail, a complete description of the rights and obligations of the parties in connection with the sale of the convertible notes; and
- copies of all agreements between the issuer (or any of its predecessors) and the selling stockholder, any affiliates of the selling stockholder, or any person with whom the selling stockholder has a contractual relationship regarding the transaction (or any predecessors of those persons) in connection with the sale of the convertible notes.

If it is your view that such a description of the relationships and arrangements between and among those parties already is presented in the prospectus and that all agreements between and/or among those parties are included as exhibits to the registration statement, please provide us with confirmation of your view in this regard.

15. Please provide us, with a view to disclosure in the prospectus, with a description of the method by which the company determined the number of shares it seeks to register in connection with this registration statement.

16. Please disclose the natural person or persons who exercise the sole or shared voting and/or dispositive powers with respect to the shares to be offered by Stillwater.

17. Please tell us whether Stillwater is a broker-dealer or an affiliate of a broker-dealer. A selling stockholder who is a broker-dealer must be identified in the prospectus as an underwriter. In addition, a selling stockholder who is an affiliate of a broker-dealer must be

identified in the prospectus as an underwriter unless that selling stockholder is able to make the following representations in the prospectus:

- The selling stockholder purchased the shares being registered for resale in the ordinary course of business, and
- At the time of the purchase, the selling stockholder had no agreements or understandings, directly or indirectly, with any person to distribute the securities.

Please revise as appropriate.

Undertakings

18. Please include the undertaking required by Item 512(a)(5)(ii) and Item 512(a)(6) of Regulation S-K.

Exhibits

19. Please expand the exhibit index to include the agreements filed as exhibits to the Form 8-K/A filed on April 26, 2007.
20. Please file complete agreements. For example, we note that many annexes were not filed with exhibit 10.7 of the Form 8-K filed on July 25, 2006.

As appropriate, please amend your registration statement in response to these comments. You may wish to provide us with marked copies of the amendment to expedite our review. Please furnish a cover letter with your amendment that keys your responses to our comments and provides any requested information. Detailed cover letters greatly facilitate our review. Please understand that we may have additional comments after reviewing your amendment and responses to our comments.

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filing to be certain that the filing includes all information required under the Securities Act of 1933 and that they have provided all information investors require for an informed investment decision. Since the company and its management are in possession of all facts relating to a company's disclosure, they are responsible for the accuracy and adequacy of the disclosures they have made.

Notwithstanding our comments, in the event the company requests acceleration of the effective date of the pending registration statement, it should furnish a letter, at the time of such request, acknowledging that:

- should the Commission or the staff, acting pursuant to delegated authority, declare the filing effective, it does not foreclose the Commission from taking any action with respect to the filing;
- the action of the Commission or the staff, acting pursuant to delegated authority, in declaring the filing effective, does not relieve the company from its full responsibility for the adequacy and accuracy of the disclosure in the filing; and
- the company may not assert staff comments and the declaration of effectiveness as a defense in any proceeding initiated by the Commission or any person under the federal securities laws of the United States.

In addition, please be advised that the Division of Enforcement has access to all information you provide to the staff of the Division of Corporation Finance in connection with our review of your filing or in response to our comments on your filing.

We will consider a written request for acceleration of the effective date of the registration statement as confirmation of the fact that those requesting acceleration are aware of their respective responsibilities under the Securities Act of 1933 and the Securities Exchange Act of 1934 as they relate to the proposed public offering of the securities specified in the above registration statement. We will act on the request and, pursuant to delegated authority, grant acceleration of the effective date.

We direct your attention to Rules 460 and 461 regarding requesting acceleration of a registration statement. Please allow adequate time after the filing of any amendment for further review before submitting a request for acceleration. Please provide this request at least two business days in advance of the requested effective date.

You may contact Tom Jones at (202) 551-3602 or me at (202) 551-3617 if you have any questions.

Sincerely,

Russell Mancuso
Branch Chief
