**04.01 – NOTES TO THE FINANCIAL STATEMENTS**

---

(In thousands of reais, unless otherwise stated)

**1. OPERATIONS**

Companhia Siderúrgica Nacional (“CSN” or “Company”) is engaged in the production of flat steel products and its main industrial complex is the Presidente Vargas Steelworks (“UPV”) located in the city of Volta Redonda in the State of Rio de Janeiro.

CSN is engaged in the mining of iron ore, limestone and dolomite in the State of Minas Gerais and tin in the State of Rondônia, by means of the subsidiary ERSÁ, in order to meet the needs of UPV. It also maintains strategic investments in mining companies, railroad, electricity and ports, to optimize its activities. In addition, it is establishing a cement plant in Volta Redonda.

To be closer to clients and win markets on a global level, CSN owns a steel distributor, two metal package plants to a galvanized steel plant in the South and another plant in the Southeast of Brazil supplying mainly the home appliances and automotive industry. Abroad, the Company has a steel rolling mill in Portugal and the United States.

**2. PRESENTATION OF THE QUARTERLY FINANCIAL INFORMATION**

The individual (Company) and consolidated Quarterly Financial Information was prepared in accordance with the accounting practices adopted in Brazil, based on the Brazilian Corporation Law (Law 6404/76 and its amendments) and rules issued by the Brazilian Securities and Exchange Commission - CVM.

With the objective of improving the information disclosed to the market, the Company is presenting the following additional information covering the Parent Company and the consolidated financial information:

**(a) Segment reporting**

A segment is a distinguishable component of the Company, intended for manufacturing products or rendering services – a business segment -, or in providing products and services within a particular economic environment – geographical segment -, which are subject to risks and rewards that are different from other segments.

**(b) Statements of cash flows**

The additional statements of cash flows are prepared in accordance with the guidance contained in the CVM Circular Letter 01/07, with the purpose of showing how the Company generates and uses cash and cash equivalents resources.

**(c) Statements of added value**

Management discloses, in accordance with the guidance contained in the CVM/SNC/SEP Circular Letter 01/07 and the CFC Resolution 1010/05, the Statement of Added Value with the purpose being to present the value of the wealth generated by the Company and its distribution among the elements that contributed to its generation.

All the information presented has been extracted from the Company’s accounting records including certain reclassifications in the regular statement of income, given that they are recorded in the statement of added value as distribution of the added value generated.

**3. DESCRIPTION OF SIGNIFICANT ACCOUNTING PRACTICES****(a) Statement of income**

The results of operations are recognized on the accrual basis.

Revenue from the sales of products is recognized when the Company no longer controls or holds any responsibility for the property and all risks and rewards have been transferred to the buyer. Revenue from services rendered is recognized in proportion to the stage of completion of the service. Revenue is not recognized in the statement of income if there are significant uncertainties as to the realization of the sale's economic benefit.

#### **(b) Current and non-current assets**

##### **• Marketable securities**

The Company considers the investment funds as trading securities given the funds have daily liquidity. In addition, as the funds are classified as trading securities, the funds have been recorded at fair value which is consistent with the Central Bank of Brazil and CVM.

Fixed income securities and financial investments abroad are recorded at cost plus income accrued up to the date of the Quarterly Financial Information, and do not exceed market value.

##### **• Trade accounts receivable**

Trade accounts receivable are recorded at the invoiced amount, including the respective taxes and ancillary expenses and credits from clients in foreign currency which are restated by the exchange rate as of the date of the Quarterly Financial Information. The allowance for doubtful accounts was recorded in an amount considered adequate by Management to support any losses. Management's assessment takes into account the client's history, the financial situation and the assessment of our legal counselors regarding the receipt of these credits to constitute this provision.

##### **• Inventories**

Inventories are stated at their average cost of acquisition or production and imports in transit are recorded at their cost of acquisition, not exceeding their market or realization values. Provisions for losses or obsolescence are recorded whenever Management considers it appropriate.

##### **• Investments**

Investments in subsidiaries and jointly-owned subsidiary companies are recorded by the equity accounting method, and the goodwill determined in the acquisition of investments is presented by the net amount in a sub-account of this group. The Company holds an interest higher than 20% of the voting capital in all subsidiaries and jointly-owned subsidiary companies.

Other permanent investments are recorded at cost of acquisition.

##### **• Property, plant and equipment**

The property, plant and equipment is presented at market or replacement values, based on appraisal reports issued by independent expert appraisal firms, as permitted by Resolutions 183/95 and 288/98 issued by the Brazilian Securities and Exchange Commission. Depreciation is calculated by the straight-line method, based on the remaining economic useful lives of the assets after revaluation. Depletion of the Casa de Pedra mine is calculated based on the quantity of iron ore extracted. Interest charges related to loans and financing specific for construction in progress are capitalized until the constructions are concluded.

The jointly-owned subsidiaries MRS Logística and Itá Energética S.A. maintain the registration of property, plant and equipment by the cost of acquisition, formation or construction.

- **Deferred charges**

The deferred charges are recorded at the cost of acquisition, formation, development and implementation of projects that will generate an economic return to the Company within the next years, and their amortization is calculated on a straight-line basis based on the period foreseen for economic benefits arising from these projects, for a term no longer than ten years.

- **Other current and non-current assets**

These are stated at their realization value, including, when applicable, the yields earned up to the date of the Quarterly Financial Information or, in the case of prepaid expenses, at cost.

- (c) **Current and non-current liabilities**

These are stated at their known or estimated values, including, when applicable, accrued charges and monetary and foreign exchange variations incurred up to the date of the Quarterly Financial Information.

- **Employees' benefits**

In accordance with Resolution 371/00, issued by the Brazilian Securities and Exchange Commission, the Company has been recording the respective actuarial liabilities since January 1, 2002, in accordance with the aforementioned reported resolution and based on studies prepared by external actuaries.

- **Income and social contribution taxes**

Current and deferred income and social contribution taxes are calculated with the tax rates of 15% plus an additional of 10% on taxable basis for income tax and with a 9% rate on taxable basis for social contribution on net income. In the calculation of taxes, the tax loss carryforward and negative basis of social contribution is also considered, limited to 30% of taxable income.

Tax credits were recorded for deferred taxes on tax losses carryforwards and negative basis of social contribution on net income, pursuant to the CVM Instruction 371/02 and took into consideration the history of profitability and the expectation of generating future taxable income, based on a technical study.

- (d) **Derivatives**

The derivatives operations are recorded in accordance with the characteristics of the financial instruments. Swap operations are recorded based on the net results of the operations, which are recorded monthly in line with the contractual conditions, and swaps traded through the exclusive funds are adjusted to fair value.

Exchange options are adjusted monthly to fair value whenever the position shows a loss. These losses are recognized as the Company's liability with the corresponding entry in the financial results. Options traded through exclusive funds are adjusted to fair value and futures contracts have their positions adjusted to fair value on a daily basis by the Futures and Commodities Exchange - BM&F with recognition of gains and losses directly in the statement of income.

- (e) **Treasury Shares**

As established by the CVM Instruction 10/80, treasury shares are recorded at cost of acquisition, and the market value of these shares is calculated based on the average stock exchange quotation on the last day of the period.

**(f) Accounting estimates**

The preparation of the Quarterly Financial Information in accordance with the accounting practices adopted in Brazil requires that Management uses its judgment in determining and recording the accounting estimates, such as: allowance for doubtful accounts, provision for inventory losses, provisions for labor, civil, tax and social security liabilities. The settlement of the transactions involving these estimates may result in different amounts from those estimated, due to lack of precision inherent to the process of their determination. The Company periodically reviews the estimates and assumptions.

**(g) Foreign Currency**

The monetary assets and liabilities denominated in foreign currencies were converted into reais by the exchange rate of the closing date of the Quarterly Financial Information and the differences resulting from the conversion of currencies were recognized in the results for the period. For the subsidiaries abroad, the assets, liabilities and result accounts were converted into reais by the exchange rate on the closing date of the Quarterly Financial Information.

**(h) Change in the Corporation Law – Law 11638/07**

It was enacted on December 28, 2007, with effectiveness as from January 1, 2008. The purpose of the new law is to update the Brazilian corporate legislation to enable the convergence process of accounting practices adopted in Brazil with those in the International Financial Reporting Standards (IFRS) and allow that new accounting rules are issued by the Brazilian Securities and Exchange Commission - CVM based on these rules.

Pursuant to the CVM Instruction 469 of May 2, 2008, the Management of the Company and of its subsidiaries point out the following issues that in its evaluations may affect the preparation of the financial statements for the year ending December 31, 2008:

- In the shareholders' equity a new subgroup will be created called "Equity Valuation Adjustment" with the purpose of recording the increases and decreases resulting from valuations at market value, mainly of certain financial instruments, and translation adjustments of investments in subsidiaries abroad, whose functional currency of the investee is different from the parent company;
- The assets and liabilities arising from non-current operations and from material current operations will be adjusted at present value. The Company preliminarily determined the amount of R\$101,612 thousand, which represents a reduction in shareholders' equity. The management waits for the determination of the remaining effects introduced by this Law, in order to record all changes simultaneously.
- In property, plant and equipment there is the possibility of reversal of revaluation reserves. The new Law gave companies the option of maintaining the existing balances and realize these balances within the current rules or cancel these balances until the end of 2008 (See note 30).
- In deferred assets only pre-operating and restructuring expenses which will effectively contribute to the increase of the future result will be recorded and which do not characterize solely cost reduction or increase in operating efficiency.

Given that part of the modifications introduced by this Law is still pending regulation, the Management believes that its applicability might affect the amounts estimated by the Company.

#### 4. CONSOLIDATED QUARTERLY FINANCIAL INFORMATION

The accounting practices are consistent with those used in the prior quarter and uniform in all the consolidated companies.

The consolidated Quarterly Financial Information for the period ended June 30, 2008 and March 31, 2008 includes the following direct and indirect subsidiaries and jointly-owned subsidiaries:

Companies	Functional Currency	Ownership interest (%)		Main activities
		06/30/2008	03/31/2008	
Direct investment: full consolidation				
CSN Energy	US\$	100.00	100.00	Equity interest
				Financial operations, trading of products and equity interest
CSN Export	US\$	100.00	100.00	Financial operations

CSN Energia	R\$	0.10	0.10	Trading of electricity

(\*) Up to 1Q08, Transnordestina Logística was called Companhia Ferroviária do Nordeste (CFN).

The information recorded in US dollars, in Euros and in Pounds Sterling were translated into Brazilian Reais at the exchange rate as of June 30, 2008 – R\$/US\$1.5919 (R\$/US\$1.7491 as of March 31, 2008), R\$/EUR 2.50629 (R\$/EUR2.76060 as of March 31, 2008) and R\$/GBP3.17059 (R\$/GBP3.46864 as of March 31, 2008).

The gains and losses from these translations were recorded in the income statements of the related periods, as equity pick-up in the parent company and exchange variation in the consolidated statements.

The following consolidation procedures were adopted in the preparation of the consolidated Quarterly Financial Information:

- Elimination of balances of asset and liability accounts between consolidated companies;
- Elimination of balances of investments and shareholders' equity between consolidated companies;
- Elimination of balances of income and expenses and unrealized income arising from consolidated intercompany transactions;
- Presentation of income and social contribution taxes on the unearned income as deferred taxes in the consolidated Quarterly Financial Information.

Pursuant to the CVM Instruction 408/04 the Company consolidates the Quarterly Financial Information of exclusive investment funds Diplic and Mugen.

The base date for the subsidiaries' and jointly-owned subsidiaries' Quarterly Financial Information coincides with that of the parent company.

The reconciliation between shareholders' equity and net income for the period of the parent company and consolidated is as follows:

	Shareholders' Equity		Net income for the year	
	06/30/2008	03/31/2008	06/30/2008	06/30/2007
<b>Parent Company</b>	<b>9,338,725</b>	<b>8,350,141</b>	<b>1,822,041</b>	<b>1,729,915</b>
Elimination of income in inventories	(109,042)	(89,143)	(23,784)	(14,838)
<b>Consolidated</b>	<b>9,229,683</b>	<b>8,260,998</b>	<b>1,798,257</b>	<b>1,715,077</b>

## 5. RELATED PARTY TRANSACTIONS

The purchase and sale of products and inputs and the contracting of services with subsidiaries are performed under normal market conditions, such as prices, terms, charges, quality etc.

The available financial resources, in the parent company and in subsidiaries headquartered in Brazil, are primarily invested in exclusive investment funds, whose cash is mostly invested in repurchase operations pegged to Brazilian government securities, with daily liquidity. Additionally, a significant portion of the financial resources of the Company and its subsidiaries abroad is invested in Time Deposits in first-tier banks.

The exclusive funds are audited or reviewed by independent auditors and its assets account for possible losses in investments and operations carried out by those funds. The Company may be called to account for the operation fees of the fund (management, custody and audit fees) as well as to ensure the shareholders' equity in the event of losses resulting from interest, exchange rate or other financial asset changes.

The Company holds 77% of the debentures issued by Companhia Brasileira de Latas (CBL) in 2002, in the amount of R\$212,870 and provision for losses in the amount of R\$123,197, recorded in the non-current assets as of June 30, 2008. The Management believes that the provision is adequate to support possible losses in the realization of assets. CSN is CBL's main supplier of raw material.

## 9. DEFERRED INCOME AND SOCIAL CONTRIBUTION TAXES

### (a) Deferred Income and Social Contribution Taxes

Deferred Income and Social Contribution taxes are recognized in order to reflect future tax effects attributable to temporary differences between the tax base of assets and liabilities and their respective carrying value.

Pursuant to the CVM Instruction 371/02, some of the Company's subsidiaries, based on the expectation of future taxable income determined by technical valuation approved by Management, recorded tax credits on tax losses carryforward and negative bases of social contribution of previous years. These credits have no statutory limitation and their offsetting is limited to 30% of annual taxable income. The book value of deferred tax assets is reviewed monthly and projections are reviewed annually. If there are any material aspects that may change the projections, these projections will be revised during the year.

(1) It composes the parent company's equity pick-up, and the consolidated balance of goodwill to amortize is shown in item (e) of this note.

(2) It refers to the percentage loss due to the capital increase resulted from the issue of 136,153,257 common shares.

**c) Additional Information on the main operating subsidiaries**
**• GALVASUD**

Located in Porto Real, in the State of Rio de Janeiro, the Company has as corporate purpose all industrial, commercial and sales promotion activities related to: i) installation and operation of a steel products services center, ii) installation and operation of a hot-immersion galvanization steel line, iii) installation and operation of laser welding lines for the production of welded blanks destined for the automobile production, iv) just-in-time supply to the automotive industry and, v) promotion and sales of the products of the Company and of third parties, shareholders inclusively, to the automobile industry.

CSN holds 15.29% of GalvaSud's capital stock directly and 84.71% indirectly through wholly-owned subsidiary CSN I.

• INDÚSTRIA NACIONAL DE AÇOS LAMINADOS – INAL

Located in Araucária, State of Paraná, with establishments in the States of São Paulo, Rio de Janeiro, Paraná, Rio Grande do Sul, Pernambuco and Minas Gerais. Its objective is to reprocess and act as service and distributor center for CSN's steel products. INAL serves the industrial, automotive, home appliance, home building, and machinery and equipment segments, among others.

• INAL NORDESTE

Based in Camaçari, State of Bahia, the company has as its main purpose to reprocess and distribute CSN's steel products, operating as a service and distribution center in the Northeast region of the country.

• COMPANHIA METALÚRGICA PRADA

Based in the city of São Paulo, Prada has branches in the States of São Paulo, Minas Gerais, Santa Catarina and Rio Grande do Sul and has as main activities the manufacturing and trading of metallic products, manufacturing and trading of metallic packaging, as well as the import and export of these products.

For the manufacturing of its products, Prada uses as raw material tinplates supplied by CSN, which is its indirect parent company by means of INAL.

• CIA. METALIC NORDESTE

Based in Maracanaú, State of Ceará, the company has as corporate purpose the manufacturing of metallic packaging destined to the beverage industry.

Its operation unit is considered as one of the world's most modern and counts on two different production lines: the can production line, whose raw material is tin-coated steel, supplied by parent company CSN, and the lid production line, whose raw material is aluminum.

Its production is mainly focused on the North and Northeast markets of Brazil, with the surplus production of lids sold abroad.

The subsidiary received an incentive from PROVIN – Incentive Program to the Operation of Companies, established by the Government of the State of Ceará, which has as main purpose the promotion of the industrial development and job generation in the State.

• SEPETIBA TECON

Company whose objective is to exploit the No.1 Containers Terminal of the Itaguai Port, located in Itaguai, State of Rio de Janeiro. This terminal is linked to Presidente Vargas Steelworks by the Southeast railroad network, which is granted to MRS Logística.

Sepetiba Tecon was the winner of the Auction occurred on September 3, 1998, which allows the exploitation of the containers terminal for the term of 25 years, extendable for another term of 25 years.

• CSN ENERGIA

Its main objective is distributing and trading the surplus electric power generated by CSN and by companies, consortiums or other entities in which CSN holds an interest.

CSN Energia holds a balance receivable related to the electric power sales under the scope of the Electric Power Trade Chamber ("Câmara de Comercialização de Energia Elétrica") – CCEE, in the amount of R\$59,129 (R\$59,129 as of March 31, 2008), which are due by concessionaires that present injunctions suspending the corresponding payments. Management understands that an allowance for doubtful accounts is not necessary in view of the judicial measures taken by the official entities of the sector.

• CSN CIMENTOS

Based in Volta Redonda, State of Rio de Janeiro, CSN Cimentos is a business under construction, which will have the production and trading of cement as main purpose. CSN Cimentos will use as raw material the blast furnace slag from the pig iron production of Presidente Vargas Steelworks. The results verified in this company refer to expenses related to residual expenditures resulting from activities of projects, constructions and assemblies, which were stopped in 2002, when the company was called FEM – Projetos, Construções e Montagens.

• ESTANHO DE RONDÔNIA – ERSÁ

Ersa is a subsidiary based in the State of Rondônia, where it operates two units, one in the city of Itapuã do Oeste and the other in the city of Ariquemes.

The subsidiary's mining operation for cassiterite (tin ore) is located in Itapuã do Oeste and the casting operations from which metallic tin is obtained, which is one of the main raw materials used in UPV for the production of tin plates, is located in Ariquemes.

• NACIONAL MINÉRIOS - NAMISA

The company is headquartered in the city of Congonhas, State of Minas Gerais, and its main purpose is the trading of own iron ore obtained from mining companies or other companies that trade this raw material, with special focus on exports.

The main operations are developed in the city of Congonhas, State of Minas Gerais, and in Itaguaí, State of Rio de Janeiro.

In July 2007, NAMISA acquired all the shares of the mining company Companhia de Fomento Mineral – CFM, a mining company which has a production capacity of 6 million tonnes of iron ore per year. On March 30, 2008 NAMISA incorporated at book value the net assets of CFM in the amount of R\$30,838, and CSN analyzes the potential sale, partial or total, of this company.

**d) Additional information on the main jointly-owned subsidiaries**

The balances of the balance sheet and of the statement of income of the companies whose control is shared are shown as follows. These amounts were consolidated in the Quarterly Financial Information of the Company, in accordance with the interest described in item (a) of this Note.

#### • TRANSNORDESTINA LOGÍSTICA

Transnordestina has as its main purpose the exploitation and development of the public rail cargo transport service for the Northeast network.

Transnordestina entered into a concession agreement with the Federal Government on December 31, 1997 for a period of 30 years, extendable for another period of 30 years. The agreement allows the development of the public service of exploitation of the northeast network which comprises 7 States of the Federation in an extension of 4,534 km. The concession also comprises the leasing of assets of Rede Ferroviária Federal SA (RFFSA), which serves this network and includes, among others, constructions, permanent tracks, locomotives, railcars, vehicles, tracks and accessories.

In 2006, the merger of Transnordestina into CFN was authorized, which enabled CFN to concentrate its activities and those of its subsidiary in one single company. In addition, BNDESPar became the holder of a direct investment in Transnordestina, thus making feasible the use of funds from FINOR (Northeast Investment Fund) for the project called "Transnordestina".

In accordance with the Annual General Meeting held on May 12, 2008, the corporate name of former CFN was changed to Transnordestina Logística S.A.

On May 12, 2008, CSN capitalized AFACs in the amount of R\$136,153 and the interest changed from 46.88% to 71.24% .

#### • MRS LOGÍSTICA

The Company's main objective is to exploit and to develop public rail cargo transport service for the Southeast network – which comprises the stretch connecting Rio de Janeiro, São Paulo and Belo Horizonte.

MRS entered into a concession agreement with the Federal Government on December 1, 1996 for a period of 30 years, extendable for other 30 years. The agreement allows the development of the public service of exploitation of the southeast network. The concession also comprises the leasing of assets of Rede Ferroviária Federal SA (RFFSA) which serve this network for the same period of the concession and include, among others, constructions, permanent tracks, locomotives, railcars, vehicles, tracks and accessories.

MRS transports the iron ore from Casa de Pedra mine and raw material imported through the Port of Itaguaí, to the Presidente Vargas steelworks (UPV) in Volta Redonda. It also links the UPV steelworks to the ports of Rio de Janeiro and Santos and also to other cargo terminals in the State of São Paulo, for the outflow of production.

• ITÁ ENERGÉTICA S.A. – ITASA

Itasa holds a 60.5% interest in the Itá Consortium created for the exploitation of the Itá Hydroelectric Plant pursuant to the concession agreement of December 28, 1995, and its addendum no.1 dated July 31, 2000, executed between the consortium holders (Itasa and Centrais Geradoras do Sul do Brasil - Gerasul, formerly called Tractebel Energia S.A.) and the Brazilian Agency for Electric Energy (ANEEL).

CSN holds 48.75% of the subscribed capital and the total amount of common shares issued by Itasa, a special purpose company originally established to make feasible the construction of the Itá Hydroelectric Plant, the contracting of the supply of goods and services necessary to carry out the venture and the obtaining of financing through the offering of the corresponding guarantees.

**e) Goodwill on acquisition of investments**

As of June 30, 2008, the Company maintained recorded the amount of R\$836,954 (R\$896,106 as of March 31, 2008), net of amortizations, related to goodwill based on the expectation of future profits, with amortization up to five years.

<b>Goodwill on Investments:</b>	Balance at 03/31/2008	Amortization / write-offs	Balance at 06/30/2008	Investor

**f) Additional information on indirect interests abroad:**

• Companhia Siderúrgica Nacional – LLC

Incorporated in 2001 with the assets and liabilities of the extinct Heartland Steel Inc., headquartered in Wilmington, State of Delaware – USA, it has an industrial plant in Terre Haute, State of Indiana – USA, where there is a complex comprising a cold rolling line, a pickling line for hot spools and a galvanization line. CSN LLC is a wholly-owned indirect subsidiary of CSN Panama.

• LUSOSIDER

Incorporated in 1996 in succession to Siderurgia Nacional – a company privatized by the Portuguese government that year. Lusosider is the only Portuguese company of the steel sector to produce cold-rolled flat steel, with a corrosion-resistant coating. The Company presents in Paio Pires an installed capacity of around 550 thousand tonnes/year to produce four large groups of steel products: galvanized plate, cold-rolled plate, pickled and oiled plate.

Its products may be used in the packaging industry, in civil construction (piping and metallic structures), and in home appliance components.

## 11. PROPERTY, PLANT AND EQUIPMENT

		<b>17,752,234</b>	<b>(2,073,374)</b>	<b>15,678,860</b>	<b>15,381,477</b>

At the Extraordinary General Meeting held on April 30, 2007, pursuant to paragraphs 15 and 17 of the CVM Resolution 183/95, the shareholders approved the reappraisal report which included land, buildings, improvements, Casa de Pedra iron ore mine, machinery, equipment and facilities of the operating units of Volta Redonda, Arcos, Congonhas do Campo, Itaguaí, Barueri and Araucária, as well as the Company's real estate properties for operating support.

In order to maintain procedures uniform, the Company also performed the reappraisal of the assets of the subsidiaries GalvaSud, Inal, Inal Nordeste, Cia Metalic, Sepetiba Tecon, Estanho de Rondônia and CSN Cimentos, which were approved at the Extraordinary General Meetings held by the subsidiaries.

The portion of depreciation, depletion and write-off of the revaluated assets, absorbed in the result of each year, is transferred in shareholders' equity in equal amount, from the revaluation reserve to retained earnings, thus, composing the base for the distribution of dividends. In the first half of 2008, this amount net of income and social contribution taxes amounted to R\$147,458.

For the jointly-owned subsidiaries (MRS and ITASA), property, plant and equipment are recorded by the cost of acquisition, formation or construction and are presented in this note, mainly in the group of other assets.

As of June 30, 2008, the Company presented R\$6,218,847 (R\$6,327,186 as of March 31, 2008) as revaluation of own assets and R\$218,802 (R\$221,896 as of March 31, 2008) as subsidiaries' assets, net of depreciation.

The financial charges capitalized in the quarter amounted to R\$20,559 in the parent company and R\$22,328 in the consolidated. These charges are determined on the financing agreements for the company's mining and cement projects.

As of June 30, 2008, the assets provided as collateral for financial operations amounted to R\$47,985 (R\$47,985 as of March 31, 2008).

## 12. DEFERRED CHARGES

	<b>Consolidated</b>		
	06/30/2008		03/31/2008
	Cost	Accumulated Amortization	Net
Information technology projects	39,510	(35,531)	3,979
Expansion projects	193,905	(139,581)	54,324
Pre-operating expenses	116,428	(90,419)	26,009
Other	277,922	(128,360)	149,562
	<b>627,765</b>	<b>(393,891)</b>	<b>233,874</b>

	<b>Parent Company</b>		
	06/30/2008		03/31/2008
	Cost	Accumulated Amortization	Net
Information technology projects	39,510	(35,531)	3,979
Expansion projects	193,905	(139,581)	54,324
Other	155,445	(47,474)	107,971
	<b>388,860</b>	<b>(222,586)</b>	<b>166,274</b>

The information technology projects are represented by projects for automation and computerization of operating processes that aim to reduce costs and increase the Company's competitiveness.

The expansion projects are primarily related to expanding the production capacity of Casa de Pedra mine and enlarging the port of Itaguaí for the shipping of part of this production.

The amortization of the deferred charges related to information technology projects and other projects in the first half of 2008 was in the amount of R\$30,568 (R\$26,927 in the first half of 2007), of which R\$25,641 (R\$20,777 in the first half of 2007) was allocated to production costs and R\$4,927 (R\$6,150 in the first half of 2007) was allocated to selling, general and administrative expenses.

Funds applied in deferred assets are amortized on a straight-line basis over the time period expected for future benefits, not exceeding 10 years.

In July 2005, the Company issued perpetual bonds amounting to US\$750 million through its subsidiary CSN Islands X Corp.. These bonds of indefinite maturity pay 9.5% p.a. and the Company has the right to settle the transaction at its face value after 5 years, on the maturity dates for the interest.

As of June 30, 2008 loans with certain agents have certain restrictive clauses which are adequately complied with.

The Company contracts derivative operations with the purpose of minimizing significant fluctuation risks in the parity between the Real and foreign currencies.

The loans, financings and debentures recorded in equity accounts as of June 30, 2008, whose estimated market value is different from the book value, are represented as follows:

	<b>Consolidated</b>		<b>Parent Company</b>	
	Book Value	Market Value	Book Value	Market Value
Loans, financings and debentures (short and long-term)	8,797,389	9,035,846	8,803,061	8,767,503

The guarantees provided for loans comprise fixed assets items, bank guarantees, sureties and securitization operations (exports), as shown in the following table and do not consider the guarantees provided to subsidiaries and jointly-owned subsidiaries mentioned in Note 16.

	06/30/2008	03/31/2008
Property, Plant and Equipment	47,985	47,985
Personal Guarantee	63,094	68,391
Imports	67,172	85,087
Securitizations (Exports)	148,048	224,032
	<b>326,299</b>	<b>425,495</b>

The securitization operations carried out through the subsidiary CSN Export have certain covenants, which were adequately complied with on June 30, 2008.

Funding and amortization in the current period are demonstrated in the tables below:

#### 14. DEBENTURES

##### (a) Third issue

As approved at the Board of Directors Meeting held on December 11 and ratified on December 18, 2003, the Company issued, on December 1, 2003, 50,000 registered and non-convertible debentures, in two tranches, unsecured without preference, for the unit face value of R\$10. These debentures were issued for a total issue value of R\$500,000. The credits generated in the negotiations with the financial institutions were received on December 22 and 23, 2003, in the amount of R\$505,029. The difference of R\$5,029, resulting from the variation of the unit price between the date of issue and of the effective trading was recorded in the Shareholders' Equity as Capital Reserve, subsequently used in the stock repurchase program.

The debentures of this 1<sup>st</sup> tranche issue, amounting to R\$250,000, representing 25,000 debentures, were redeemed on December 1, 2006, as provided for in the deed.

The face value of the 2<sup>nd</sup> tranche of this issue is adjusted by the IGP-M plus compensation interest of 10% p.a. and its maturity is scheduled for December 1, 2008.

#### (b) Fourth issue

As approved at the Board of Directors Meeting held on December 20, 2005 and ratified on April 24, 2006, the Company issued, on February 1, 2006, 60,000 non-convertible and unsecured debentures, in one single tranche, with a unit face value of R\$10. These debentures were issued in the total issuance value of R\$600,000. The credits from the negotiations with the financial institutions were received on May 3, 2006 in the amount of R\$623,248. The difference of R\$23,248, resulting from the variation of the unit price between the date of issue and the effective trading was recorded in the Shareholders' Equity as Capital Reserve and subsequently used in the stock repurchase program.

Compensation interest is applied on the face value balance of these debentures, representing 103.6% of the Cetip's CDI, and the maturity of the face value is scheduled for February 1, 2012, without early redemption option.

The deeds for these issues contain certain restrictive covenants, which have been duly complied with.

## 15. DERIVATIVES AND FINANCIAL INSTRUMENTS

### General Considerations

The Company's business mainly consists of the production of flat steel to supply the domestic and foreign markets and mining of iron ore, limestone, dolomite and tin to supply the Presidente Vargas Steelworks' (UPV) needs. The Company also sells the surplus production. In order to finance its activities, the Company often resorts to the domestic and international capital markets, and due to the debt profile it seeks, part of the Company's debt is denominated in U.S. dollar.

As of June 30, 2008, the consolidated position of the derivative agreements was as follows:

	Agreement		Book Value	Fair Value
	Maturity	Notional Value		
Variable income swap (*)	Sep-3- 08	US\$49,223 thousand	R\$1,980,144 thousand	R\$1,979,794 thousand
Exchange swaps registered with CETIP	Jul-1- 08	US\$125,000 thousand	R\$(4,129) thousand	R\$(5,869) thousand
CSFB interest swaps Libor x CDI	Aug-12- 08	US\$150,000 thousand	R\$(2,399) thousand	R\$(2,377) thousand
Exchange swaps registered with CETIP (contracted by exclusive funds)	Jul-1- 08	US\$1,300,000 thousand	R\$(58,603) thousand	R\$(58,603) thousand
	Mar-16- 09	US\$20,000 thousand	R\$(2,707) thousand	R\$(2,707) thousand

(\*) In the quarter, the non-cash swap agreement with UBS Pactual maturing on July 31, 2008 had addenda to it, including counterparties Symmetry Funds, UBS Strategy Fund and Fruhing Fund, postponing settlement to September 3, 2008. These addenda establish a compensation of the positive price variation of variable income assets plus the Company's dividends - American Depositary Receipts - "ADR", while subsidiary CSN Madeira commits to pay the same notional value adjusted at the pre-fixed rate of 6.2569% per annum in US dollars.

These addenda to the swap are pegged to 29,684,400 American Depositary Receipts ("ADR") of Companhia Siderúrgica Nacional, with the purpose of increasing the return of financial assets, exposing shares with higher historical long-term return in relation to fixed income assets, thus reducing the impact of the cost of long-term debt in the Company's result.

The balance of unrealized gains in this operation up to June 30, 2008, is R\$1,980,144 of which R\$268,317 and R\$508,009 relative to the last quarter and half, respectively.

## I - Exchange rate risk

Although most of the Company's revenues are denominated in Brazilian reais, as of June 30, 2008, R\$6,176,557 or 70% of the Company's consolidated loans and financing (except derivatives) were denominated in foreign currency (R\$5,999,852 or 72% as of March 31, 2008). As a result, the Company is subject to variations in exchange and interest rates and manages the risk of the fluctuations in the amounts in Brazilian reais that will be necessary to pay the obligations in foreign currency, using a number of financial instruments, including dollar investments and derivatives, mainly futures contracts, swap contracts, and exchange option contracts.

### Exchange swap transactions

Exchange swap agreements aim to protect its liabilities denominated in foreign currency against the devaluation of the Real. The Company carried out swaps of its U.S. dollar-denominated liabilities for Interbank Deposit Certificate - CDI. The notional value (reference) of these swaps as of June 30, 2008, was US\$1,445,000 thousand.

### Swap transactions - Libor x CDI

Swap transactions are utilized to protect liabilities indexed at US Dollar Libor from variations in Brazilian interest rates. The Company has executed swaps of its liabilities indexed at Libor for Interbank Deposit Certificates (CDI). The notional value (reference) of these swaps as of June 30, 2008 was US\$150,000 thousand.

## II – Interest rate risk

The Company has short and long term liabilities and, consequently, exposure to fixed and floating interest rates and some indexes, such as IGP-M. The Company also has assets which can be indexed to floating interest rates, fixed interest rates and/or other indexes. Due to this exposure, the Company may carry out transactions with derivatives to manage these risks better.

## III – Derivatives associated with other price fluctuation risks of financial assets

### Variable income swap agreements

The outstanding agreements as of June 30, 2008 were the following:

Date of Issue	Maturity date of agreements	Notional value (US\$ thousand)	Assets		Liabilities		Curve value (book value)		Fair value		
			06/30/2008	03/31/2008	06/30/2008	03/31/2008	06/30/2008	03/31/2008	06/30/2008	03/31/2008

#### V - Credit risk

The credit risk exposure with financial instruments is managed through restricting the counterparts to large financial institutions with high credit quality. Thus, Management believes that the risk of non-compliance by the counterparts is insignificant. The Company neither maintains nor issues financial instruments for commercial purposes. The selection of clients, as well as the diversification of its accounts receivable and the control on sales financing conditions through business segment are procedures adopted by CSN to minimize occasional problems with its customers. Since part of the Companies' funds is invested in Brazilian government securities, there is exposure to the credit risk with the government.

#### VI - Fair value

The market values were calculated according to the conditions in the local and foreign markets as of June 30, 2008, for financial transactions with identical features, such as volume and term of the transaction and maturity dates. All transactions carried out in non-organized markets (over-the-counter markets) were contracted with financial institutions previously approved by the Company's Board of Directors.

## 16. SURETIES AND GUARANTEES

The Company has the following responsibilities with its subsidiaries and jointly-owned subsidiaries, in the amount of R\$3,883.70 million (R\$4,298.00 million on March 31, 2008), for guarantees provided:

Companies	Currency	In millions		Maturity	Conditions

## 17. TAXES PAID IN INSTALLMENTS

The parent company filed a lawsuit pleading the right to the presumed credit of IPI on the acquisition of exempt, immune inputs, not taxed or taxed at zero rate and in May 2003 an injunction was obtained authorizing the use of the referred credits. The Regional Federal Court of the 2<sup>nd</sup> Region,

through the appeal filed by the Federal Government, revoked the aforementioned authorization and on August 27, 2007, the lawsuit had an unfavorable decision to the Company. In view of such a decision, the Company paid the debit in 60 months. Jointly-owned subsidiary MRS Logística paid the ICMS in the State of Minas Gerais in 120 months.

As of June 30, 2008, the position of the subsidiary's and the consolidated installments was as follows:

	Consolidated		Parent Company	
	06/30/2008	03/31/2008	06/30/2008	03/31/2008
Corporate Income Tax (IRPJ)	313,084	323,385	313,084	323,385

<b>Parent Company</b>	<b>(1,029,132)</b>	<b>3,538,308</b>	<b>2,509,176</b>	<b>(1,036,308)</b>	<b>3,461,703</b>	<b>2,425,395</b>
<b>Consolidated</b>	<b>(1,041,098)</b>	<b>3,625,989</b>	<b>2,584,891</b>	<b>(1,048,036)</b>	<b>3,560,723</b>	<b>2,512,687</b>
<b>Total – Parent Company</b>	<b>(1,116,337)</b>	<b>3,676,202</b>	<b>2,559,865</b>	<b>(1,125,394)</b>	<b>3,611,228</b>	<b>2,485,834</b>
<b>Total – Consolidated</b>	<b>(1,132,127)</b>	<b>3,777,783</b>	<b>2,645,656</b>	<b>(1,140,681)</b>	<b>3,723,022</b>	<b>2,582,341</b>

The provisions for labor, civil, environmental and tax liabilities were estimated by the Company's Management substantially based on the opinion of its legal counsel, being recorded only the cases classified as risk of probable loss. Additionally, the provisions include tax liabilities arising from actions taken on the Company's initiative, plus SELIC (Special Settlement and Custody System) interest rates.

The Company and its subsidiaries are defending themselves in other judicial and administrative proceedings (labor, civil and tax) in the approximate amount of R\$4.5 billion, R\$3.5 billion of which corresponds to tax lawsuits, R\$0.2 billion of which corresponds to civil lawsuits and R\$0.8 billion of which corresponds to labor and pension proceedings. According to the Company's legal counsel, these administrative and legal proceedings are assessed as possible risk of loss. These proceedings were not provisioned in accordance with the Management's judgment and with the accounting rules adopted in Brazil.

**a) Labor Actions:**

On June 30, 2008, the Company was defendant in 9,245 labor grievances (9,128 grievances as of March 31, 2008), with a provision in the amount of R\$93,770 (R\$93,981 as of March 31, 2008). Most of the lawsuits are related to joint and/or subsidiary responsibility, wage parity, additional allowances for unhealthy and hazardous activities, overtime and differences related to the 40% fine on FGTS (severance pay), and due to the federal government's economic plans.

**b) Civil Actions:**

Among the civil judicial proceedings in which the Company takes part, there are primarily lawsuits related to indemnification request. Such proceedings, in general, arise from occupational accidents and diseases related to the Company's industrial activities. A provision in the amount of R\$44,124 on June 30, 2008 (R\$55,544 on March 31, 2008) was recorded for these demands.

**c) Environmental Actions:**

As of June 30, 2008, the Company had a provision of R\$59,579 (R\$54,529 as of March 31, 2008) for expenses related to environmental recovery within the Company's plants in the States of Rio de Janeiro, Minas Gerais and Santa Catarina.

**d) Tax Proceedings:****• Income and Social Contribution Taxes**

(i) The Company claims the recognition of the financial and tax effects on the calculation of the income and social contribution taxes on net income, related to the write down of inflation of the Consumer Price Index (IPC), which occurred in January and February 1989, by a percentage of 51.87% ("Plano Verão").

In 2004, the proceeding was concluded and a final and unappealable decision was issued, granting to CSN the right to apply the index of 42.72% (January 1989), from which the 12.15% already applied should be deducted. The application of the index of 10.14% (February 1989) was also granted. The proceeding is currently under expert accounting inspection.

The Company maintains a judicial deposit in the amount of R\$332,902 on June 30, 2008 (R\$331,959 on March 31, 2008) and a provision of R\$20,892 (R\$20,892 on March 31, 2008), which represents the portion not recognized by the courts.

(ii) The company filed an action questioning the levying of Social Contribution on Income (CSL) on export revenues, based on Constitutional Amendment no. 33/01 and in March 2004 the Company obtained an injunction authorizing the exclusion of these revenues from the aforementioned calculation basis, as well as the offsetting of the amounts paid as from 2001. The lower court decision was favorable and the decision made by a court of second instance, pronounced before the appeal filed by the Federal Government at the Regional Federal Court (TRF), judged this proceeding unfavorably for CSN. In view of these facts an Extraordinary Appeal for the STF was filed, which has not been judged yet. An initial decision by the Federal Supreme Court (STF) was obtained suspending the effects of the decision by the Regional Federal Court until the judgment of the aforementioned Extraordinary Appeal. Up to June 30, 2008, the amount of suspended liability and the credits offset based on the aforementioned proceedings was R\$1,100,035 (R\$1,026,684 on March 31, 2008), plus SELIC interest rate.

• CIDE – Contribution for intervention in the Economic Domain

CSN questions the legality of Law 10168/00, which established the payment of the CIDE on the amounts paid, credited or remitted to beneficiaries not resident in Brazil, for royalties or remuneration purposes on supply contracts, technical assistance, trademark license agreement and exploitation of patents.

The Company maintains deposits in court and a provision in the amount of R\$26,582 as of June 30, 2008 (R\$26,346 as of March 31, 2008), which includes legal charges.

The lower court decision was unfavorable, which was ratified by the 2<sup>nd</sup> Regional Federal Court (TRF). Embargos of Declaration were filed against the unfavorable decision of the TRF of the 2<sup>nd</sup> Region, which have not been judged yet.

• Education Allowance

The Company discussed the unconstitutionality of the Education Allowance and the possible recovery of the amounts paid in the period from January 5, 1989 to October 16, 1996. The proceeding was judged unfounded, and the Federal Regional Court maintained its unfavorable decision, which is final and unappealable.

In view of this fact, CSN attempted to pay the amount due, but FNDE and INSS did not reach an agreement about who should receive it. A fine was also demanded, but CSN did not agree.

CSN filed new proceedings questioning the above-mentioned facts and deposited in court the amounts due. In the first proceeding, the 1<sup>st</sup> level sentence judged partially favorable the request of CSN, where the Judge removed the amount of the fine, maintaining, however, the SELIC rate. The Company presented brief of respondent to the appeal of the defendant, and appealed concerning SELIC rate.

The amount provisioned as of June 30, 2008 totals R\$33,121 (R\$33,121 as of March 31, 2008).

• Workers' Compensation Insurance (SAT)

The Company understands that it should pay the SAT at the rate of 1% in all of its establishments, and not 3%, as determined by the current legislation.

In addition to the aforementioned thesis, the Company also discussed the raise in SAT for purposes of Contribution to Special Retirement, whose rate was set at 6%, in compliance with the legislation, for those employees who are exposed to harmful agents.

As for the first proceeding mentioned above, the lower court decision was unfavorable and the proceeding is under judgment in the 2<sup>nd</sup> Region of the Federal Regional Court. As for the second proceeding it ended up unfavorably to the Company, and the amounts due in this proceeding in the total amount of R\$33,077, which was judicially deposited, were converted into revenue for INSS.

The amount provisioned as of June 30, 2008 totals R\$75,960 (R\$109,957 as of March 31, 2008), which includes legal additions and is exclusively related to the process of rate difference from 1% to 3% for all establishments of the Company.

• IPI premium credit on exports

The Brazilian tax laws allowed companies to recognize IPI premium credit until 1983, when the Brazilian government, through Executive act, cancelled these benefits, prohibiting companies to use these credits.

The Company challenged the constitutionality of this act and filed a claim to obtain the right to use the IPI premium credit on exports from 1992 to 2002, once only laws enacted by the legislative branch may cancel or revoke benefits prepared by prior legislation.

In August 2003 the Company obtained a favorable lower court decision, authorizing the use of the credits aforementioned. The national treasury appealed against this decision and obtained a favorable decision, and the Company then filed a special and extraordinary appeal against this decision at the Superior Court of Justice and at the Federal Supreme Court, respectively, and is currently waiting for decisions of these courts.

Between September 2006 and May 2007, the Treasury filed 5 tax foreclosures and 3 administrative proceedings against the Company requesting the payment in the amount of approximately R\$3.2 billion related to the payment of taxes which were offset by IPI premium credits.

On August 29, 2007, the Company offered assets in lien represented by treasury shares in the amount of R\$536 million. 25% of this amount will be substituted by judicial deposits in monthly installments performed up to December 31, 2007 and as these substitutions take place, it was requested that the equivalent amount in shares was released from the lien, at the share price determined at the closing price of the day prior to the deposit.

The Company maintains provisioned the amount of credits already offset, accrued of default charges until June 30, 2008, which amount R\$2,151,002 (R\$2,119,561 as of March 31, 2008). The difference between the total amount in litigation and the amount recorded as provision is part of the R\$3.5 billion reported above as tax proceedings, considered as possible loss.

On June 30, 2008, the Company maintains judicial deposits for these liabilities in the amount of R\$941,438 (R\$916,107 on March 31, 2008).

In the middle of 2007, the Superior Court of Justice issued a contrary decision to another taxpayer denying the use of these credits. This decision is subject to revision by the Federal Supreme Court, which, in that event, is the highest court. The Company observed that a number of other Brazilian companies are challenging in court the same prohibition and it has been following up their progress.

• Other

The Company also recorded provisions for proceedings related to FGTS - Supplementary Law 110, COFINS Law 10833/03, PIS - Law 10637/02 and PIS/COFINS - Manaus Free-Trade Zone, in the amount of R\$71,137 as of June 30, 2008 (R\$70,613 as of March 31, 2008), which includes legal charges.

## 19. SHAREHOLDERS' EQUITY

#### **i. Paid-in capital stock**

The Company's fully subscribed and paid-in capital stock on June 30, 2008 is in the amount of R\$1,680,947, split into 804,203,838 common book-entry shares, with no par value. Each share is entitled to one vote in the resolutions of the General Meeting.

#### **ii. Authorized capital stock**

The Company's bylaws in force as of June 30, 2008 determines that the capital stock can be increased to up to 1,200,000,000 shares, by decision of the Board of Directors.

#### **iii. Legal Reserve**

Recorded at the rate of 5% on the net income determined in each fiscal year, pursuant to article 193 of Law 6404/76. The Company reached the limit for recording the legal reserve, as determined by the current legislation.

#### **iv. Revaluation reserve**

This reserve covers the revaluations of the Company's property, plant and equipment, which pursuant to the CVM Resolution 288/98, aimed to adjust the amounts of the Company's property, plant and equipment to the market value, enabling the Quarterly Financial Information to present assets in values closer to their market or replacement value.

In compliance with the provisions of the CVM Resolution 273/98, a provision was recorded for deferred income and social contribution taxes on the balance of the revaluation reserve (except land).

The realized portion of the revaluation reserve, through the depreciation or write-off of assets, net of income and social contribution taxes, is included for purposes of calculating the minimum mandatory dividend.

#### **v. Treasury shares**

The Board of Directors authorized, on May 25, 2005, for a period of 360 days, the purchase of 15,000,000 shares of the Company to be held in treasury for subsequent disposal and/or cancellation.

On January 29, 2007, the Board of Directors authorized the purchase of other 923,628 shares to be also held in treasury for further sale and/or cancellation. The second authorization would expire on January 25, 2008, and the Company repurchased all shares referring to this approval.

At the Extraordinary General Meeting held on June 27, 2008, the Company's Board of Directors authorized the acquisition of 10,800,000 shares issued by the Company, to be held in treasury and subsequently sold or cancelled. The maximum term for the performance of this operation was July 29, 2008, and no share was acquired in line with this authorization.

As of June 30, 2008, the position of treasury shares was as follows:

Number of shares purchased (in units)	Total value paid for shares	Unit cost of shares			Share Market value at 06/30/2008 (*)
		Minimum	Maximum	Average	
34,734,384	R\$571,351	R\$11.96	R\$25.01	R\$14.04	R\$ 2,473,783

(\*) Average quotation of shares on BOVESPA as of June 30, 2008 at the value of R\$71.22 per share.

While held in treasury, the shares will have no proprietorship and/or political rights.

## vi. Shareholding structure

As of June 30, 2008, the Company's shareholding structure was as follows:

	Number of Common Shares	Total % of shares	% excluding treasury shares
Vicunha Siderurgia S.A.	348,859,995	43.38%	45.34%
BNDESPAR	32,744,458	4.07%	4.26%
Caixa Beneficente dos Empregados da CSN - CBS	35,490,867	4.41%	4.61%
Sundry (ADR - NYSE)	201,235,971	25.02%	26.15%
Other shareholders (approximately 10 thousand)	151,138,163	18.79%	19.64%
	<b>769,469,454</b>	<b>95.68%</b>	<b>100.00%</b>
Treasury shares	34,734,384	4.32%	
<b>Total shares</b>	<b>804,203,838</b>	<b>100.00%</b>	

At the Extraordinary General Meeting held on January 22, 2008, the Company's shareholders approved the cancellation of 4,000,000 treasury shares, and also the split of the number of shares representing the Company's capital stock, operation by which each share of the capital stock started being represented by 3 shares after the split. The maintenance of the ratio share/ADR (American Depositary Receipt) at 1/1 was also approved, i.e., each ADR will continue to be represented by one share.

## vii. Investment policy and payment of interest on shareholders' equity and dividends

On December 11, 2000, CSN's Board of Directors decided to adopt a policy for the distribution of profits which, observing the provisions of Law 6404/76, amended by Law 9457/97, will imply in the distribution of all the Company's net profit to the shareholders, provided that the following priorities are preserved irrespective of their order: (i) corporate strategy, (ii) compliance with obligations, (iii) consummation of the necessary investments and (iv) maintenance of the Company's good financial situation.

## 20. INTEREST ON SHAREHOLDERS' EQUITY

The calculation of interest on shareholders' equity is based on the variation of the Long-Term Interest Rate (TJLP) on shareholders' equity, limited to 50% of the income for the year before income tax or 50% of retained earnings and profit reserves, where the higher of the two limits may be used, pursuant to the legislation in force.

In compliance with the CVM Resolution 207, of December 31, 1996 and with tax rules, the Company opted to record the proposed interest on shareholders' equity in the amount of R\$62,359 in the quarter, corresponding to the remuneration of R\$0.081842 per share, as corresponding entries against the financial expenses account, and reverse it in the same account, and not presenting it in the income statement and not generating effects on net income after IRPJ/CSL, except with respect to tax effects, recognized under income and social contribution taxes. The Company's Management will propose that the amount of interest on shareholders' equity be attributed to the mandatory minimum dividend.

On January 30, 2007, the Company took part in an auction for the acquisition of the Anglo-Dutch steel company Corus Group PLC and its 60 cents a pound offer was beaten by the offer of the Indian Tata Steel which was of 608 cents a pound. Thus, in view of the outcome of this auction, the Company verified expenses in the amount of R\$113 million and revenues in the amount of R\$235 million. These amounts are recorded in "Other expenses" and "Other revenues", respectively.

## 24. CLAIM BLAST FURNACE III

On January 22, 2006 an accident involving equipment adjacent to Blast Furnace #3 took place, mainly affecting the powder collecting system and interrupted the equipment production until the end of the first half of that year. The amount of the Company's insurance policy for loss of profits and equipment, effective on the date of the claim, was at most US\$750 million, which the Management deems as sufficient to recover any losses derived from the accident. The cause of the accident is covered by the policy expressly recognized by the insurance companies, and the work to calculate the losses is in progress.

The amount of losses subject to indemnification determined by claims adjusters up to the closing date of the Quarterly Financial Information is R\$922,929 (net of deductible). Based on the insurance policy and confident as to the conclusion of studies about the claim, CSN requested and the insurance companies granted advances in the amount of R\$736,682. The advanced total amount will be deducted from losses subject to indemnification, verified during the normal course of the regulation process.

As of June 30, 2008, the Company maintained balance receivable from losses claimed in the amount of R\$186,247 (R\$186,247 as of March 31, 2008) and it does not identify risks in this credit, taking into account the international reputation and prestige of insurance and reinsurance companies.

## 25. CONSOLIDATED NON-OPERATING EXPENSES AND INCOME

As of June 30, 2008, the consolidated non-operating expenses of the Company amounted to R\$62,829 (a revenue of R\$180,369 as of June 30, 2007). The result of the first half of 2007 includes R\$182,074 related to the gain on the sale of 34,072,613 shares of Corus Group PLC, acquired by CSN for strategic reasons during the bidding process with Tata Steel for the acquisition of the total number of Corus Group PLC's shares, which were sold that quarter.

## 26. INFORMATION BY BUSINESS SEGMENT

## 29. EMPLOYEES' PENSION FUND

### (i) Administration of the Private Pension Plan

The Company is the principal sponsor of CBS Previdência, a private non-profit pension fund established in July 1960, main purpose of which is to pay supplementary benefits to participants in the official Pension Plan. CBS Previdência is composed of employees of CSN, CSN related companies and the entity itself, provided they sign the adherence agreement.

### (ii) Description of characteristics of the plans

CBS Previdência has three benefit plans:

#### 35%-of-average-salary plan

It is a defined benefit plan (BD), which began on February 1, 1966, for the purpose of paying retirements (time service, special, disability or old age) on a life-long basis, equivalent to 35% of the participant's last average 12 salaries. The plan also guarantees the payment of a sickness allowance to a participant on sick leave through the Official Pension Plan and it also guarantees the payment of death grant and a cash grant. The active and retired participants and the sponsors make thirteen contributions per year, which is the same as the number of benefits paid. This plan became inactive on October 31, 1977, when the supplementation plan of the average salary came into force, which is in process of extinction.

#### Supplementary average salary plan

The defined benefit plan (BD) began on November 1, 1977. The purpose of this plan is to supplement the difference between the 12 last average salaries and the Official Pension Plan (Previdência Oficial) benefit, to the retired employees. It is also life-long basis. Like the 35% Average Salary Plan, there is sickness assistance, death grant and pension coverage. Thirteen contributions and payment of benefits are paid per year. This plan became inactive on December 26, 1995, since the combined supplementary benefits plan was implemented.

#### Combined supplementary benefit plan

Begun on December 27, 1995, it is a combined variable contribution plan (CV). Besides the programmed pension benefit, there is the payment of risk benefits (pension in activity, disability and sickness benefit). In this plan, the retirement benefit is calculated based on the accumulated total sponsors' and participants' contributions (thirteen per year). Upon the participant's retirement, the plan becomes a defined benefit plan and thirteen benefits are paid per year.

As of June 30, 2008 and March 31, 2008, the plans are composed as follows:

	<b>35%-of-Average-Salary Plan</b>		<b>Supplementation of Average Salary Plan</b>		<b>Combined Supplementary Benefit Plan</b>		<b>Total members</b>	
	<b>06/30/2008</b>	<b>03/31/2008</b>	<b>06/30/2008</b>	<b>03/31/2008</b>	<b>06/30/2008</b>	<b>03/31/2008</b>	<b>06/30/2008</b>	<b>03/31/2008</b>
<b>Members</b>

### **(iii) Payment of actuarial deficit**

According to the official letter 1555/SPC/GAB/COA, of August 22, 2002, confirmed by official letter 1598/SPC/GAB/COA of August 28, 2002, a proposal was approved for refinancing the reserves to amortize the sponsors' responsibility in 240 consecutive monthly installments, monetarily indexed by INPC + 6% p.a., starting June 28, 2002.

The agreement provides for the prepayment of installments should there be a need for cash in the defined benefit plan and the incorporation to the updated debit balance of the eventual deficits/surpluses under the sponsors' responsibility, so as to preserve the equilibrium of the plans without exceeding the maximum period of amortization stipulated in the agreement.

### **(iv) Actuarial Liabilities**

As provided by the CVM Resolution 371/00, which approved the NPC 26 of IBRACON – "Accounting of the Employee's benefits" and which established new accounting practices for the calculation and disclosure, the Management, through a study from external actuaries, calculated the effects arising from this practice, and the Company has kept records in conformity with the report issued on January 10, 2008.

The Company's Management decided to recognize the adjustments to the actuarial liabilities in the results for the period of five years as from January 1, 2002, in compliance with the established in paragraphs 83 and 84 of the NPC 26 and as of June 30, 2008, the balance of provision for the coverage of the actuarial liability amounts to R\$160,263 (R\$196,217 as of March 31, 2008).

## **30. SUBSEQUENT EVENTS**

### **• Stock repurchase program**

At the Extraordinary General Meeting held on August 1, 2008, the Board of Directors authorized the acquisition of 10,800,000 shares issued by the Company, to be held in treasury and subsequently sold and/or cancelled. The maximum term for the realization of this operation is August 27, 2008.

### **• Variable income swap**

On July 11, 2008, the Company announced to its shareholders and the general public the contracting of a new variable income swap operation – which in the market is called Total Return Equity Swap -, replacing the swap falling mature on September 3, 2008, with a one-year contracted term; the interest rate equivalent to the Libor + 0.75% p.a.; and referred to in 29,684,400 ADRs of the Company. The ADR quotation corresponds to US\$39.19 as of July 31, 2008 (US\$44.41 as of June 30, 2008 and US\$89.57 as of December 31, 2007, before it was split in three).

Under the terms of the new transaction executed, CSN Madeira will owe the Counterparty the amount corresponding to an interest rate based on the LIBOR rate applied on a notional value (notional), corresponding to the average price of the ADRs which represent common shares issued by CSN ("Notional Value"), and the Counterparty will owe CSN Madeira the amount corresponding to the appreciation of the ADRs which constitute the Notional Value and dividends attributed to them.

CSN Madeira will not have any voting rights relative to the ADRs or underlying shares issued by CSN which constitute the Notional Value.

### **• Reversal of the revaluation reserve – Law 11,638/07**

As established in the Law and approved by the Board of Directors at a meeting held on August 12, 2008, the Company resolved to reverse the revaluation reserve up to the end of this year, and this resolution will be subject to approval at the Extraordinary General Meeting to be called. The accounting balances purpose of this reversal are shown below.

<b>Reversal of the Revaluation Reserves in accordance with Law 11638/07 (Parent Company)</b>	<b>R\$/thousand</b>
Revaluation of own assets – property, plant and equipment	6,218,847
Revaluation of assets from subsidiaries - investment	218,802
Deferred income and social contribution taxes on the revaluation reserve of own assets – current	(137,740)
Deferred income and social contribution taxes on the revaluation reserve of own assets – non-current	(1,861,816)
Revaluation reserve of own assets net of income and social contribution taxes – shareholders' equity	4,438,093
Depreciation and write-off of revaluated own assets in 2008	213,973
Depreciation and write-off of revaluated assets from subsidiaries in 2008	9,364
Realization of the revaluation reserve of own assets in 2008, net of income and social contribution taxes	141,222
Realization of the revaluation reserve of assets from subsidiaries in 2008, net of income and social contribution taxes	6,236

## 08.01 – COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

## Production

CSN produced 1.3 million tonnes of crude steel in 2Q08, 3.9% more than the previous quarter and 3.5% down on 2Q07, due to the different blast-furnace charges used over the quarters.

Second-quarter rolled steel output totaled 1.2 million tonnes, 3.4% up on 1Q08. Yet when compared to the 2Q07, production decreased by 7.5% in 2Q08 due to programmed repairs to the plate furnaces of the hot strip mill and increased output of segmented high-specification steels for the auto industry.

Production (in thousand t)	2Q07	1Q08	2Q08	Change(%)	
				2Q08 x 2Q07	2Q08 x 1Q08

## Rolled Products Output-Presidente Vargas Mill (thousand t)

\* Includes shipment to CSN-PR

\*\* Includes shipment to GSD and CSN-PR.

## Production Costs (Parent Company)

CSN's total production costs was of R\$ 1.2 billion in 2Q08, R\$ 86 million, or 7%, up on 1Q08, chiefly due to the following factors:

- **Raw materials:** a R\$ 57 million increase, primarily due to:
  - **Coke:** increase of R\$ 17 million in the 2Q08 expenses due to higher consumption and increased international prices;
  - **Pellets:** increase of R\$ 11 million, mainly due to the price hikes at the end of 1Q08;
  - **Coal:** increase of R\$ 3 million in the expenses in comparison with 1Q08 due to the increase in consumption. **However, there was still no cost impact from the recent hike in international prices;**

- **Aluminum:** increase of R\$ 3 million in the 2Q08 costs in comparison with 1Q08, primarily as a result of increased consumption and higher market prices;
- **Other raw materials:** increase of R\$ 19 million in costs in comparison with 1Q08, essentially due to the higher cost of ferroalloys for steel production;
- **Labor:** growth of R\$ 13 million, thanks to the 8% pay rise in May/08 as a result of the employees' collective bargaining agreement;
- **Other manufacturing costs:** increase of R\$ 27 million, explained by:
  - **Electricity:** growth of R\$ 6 million in expenses due to a turbine maintenance stoppage in Thermoelectric Plant 2;
  - **Maintenance and Third-party Services:** increase of R\$ 21 million, chiefly due to programmed repairs to the hot strip mill.
- **Depreciation:** in 2Q08 there was a decrease of R\$ 11 million compared to 1Q08

## Sales

### Total Sales Volume

CSN recorded total 1H08 sales volume of 2.7 million tonnes in the first half of 2008, a 4% year-on-year increase. Second-quarter sales volume reached 1.3 million tonnes.

### Domestic Market

Second-quarter domestic sales volume were 1.1 million tonnes, 21% up year-on-year and in line with the volume sold in 1Q08. First-half sales volume totaled 2.2 million tonnes, 36% more than in the 1H07.

Domestic sales reached 83% of the total sales in 2Q08, thanks to CSN's strategy of prioritizing the local market, given the fact that prices were more attractive in Brazil than abroad and, also, the healthy performance of Brazil's economy, which fueled a number of industry sectors and as a consequence, demand for steel products.

## Export Market

Second-quarter export volume stood at 224,000 tonnes, which corresponded to a 19% decrease in comparison with the volume exported in 1Q08 and a 56% decrease when compared to 2Q07, due to CSN's strategy of prioritizing the domestic market.

## Market Share and Product Mix

The Company's share in the domestic flat steel market remained at 38% in 2Q08, led by tin plate with 99% market share; galvanized, with 49%; hot-rolled, with 32%; and cold-rolled, with 26%, representing growth of 1%, 6%, 1% and 4%, respectively, over 2Q07.

In 2Q08, CSN had a 46% share of the construction market, 41% of the distribution market, 36% of the home appliance/OEM market, 21% of the auto market and a massive consolidated 99% share of the steel packaging market.

Coated products accounted for 47% of the Company's quarterly sales volume.

(\*) Sources: CSN and the IBS (Brazilian Steel Institute)

## Prices

In the domestic market, net revenue per tonne averaged US\$1.300 in 2Q08, versus US\$1.000 in 1Q08.

In 1H08, CSN implemented two price hikes, namely: 31% for hot-rolled, 20% for cold-rolled, 10% for galvanized and 12% for tin plate products.

Additionally, in July 2008, new price hikes were announced: hot-rolled, cold-rolled and galvanized were subject to an increase of 15% each.

Despite the appreciation of the Real against the dollar, average export prices in Reais moved up 14% over 1Q08.

International prices remain high, with the possibility of further increases.

## Mining

### • PRODUCTION

Casa de Pedra produced in 2Q08 4.9 million tonnes, accumulating a volume of 9.0 million tonnes produced in 1H08.

As for the production volume of Nacional Minérios (NAMISA) in the period, it was 1.4 million tonnes, and third-party purchases totaled 1.2 million tonnes.

The production volumes destined to UPV was 1.9 million tonnes in the quarter, reaching 3.7 million tonnes in the first half.

### • SALES

In 2Q08, the sales volume of iron ore reached 4.1 million tonnes, totaling 7.7 million in 1H08. Out of this total, sales in the domestic market in the first half accounted for 21%, which corresponds to 1.6 million tonnes. As for exports, they accounted for the other 79% in the period, reaching 6.1 million tonnes of iron ore shipped.

### • INVENTORIES

The Company closed the second quarter with iron ore inventories of around 14 million tonnes.

## Net Revenue

Net revenue totaled R\$ 3.5 billion in the 2Q08, a new Company record, 17% up on 1Q08 and 19% in comparison with the net revenue in 2Q07.

These increases can be explained by the greater share in the domestic market sales, coupled with the price hikes in March and May. It is also worth noting the increase in iron ore sales in 2Q08, which accounted for 13% of total net revenue.

Net Revenue (2Q08)	STEEL			MINING *			OTHER	TOTAL
	Domestic	Exports	Total	Domestic	Exports	Total		
Volume (thousand tonnes)	1,103	224	1,327	790	3,309	4,099	-	-
Net Revenue (R\$ MM)	2,265	405	2,670	72	376	448	437	3,555

\* Including only iron ore figures.

## Operating Revenue and Expenses

CSN's operating expenses totaled R\$ 317 million in 2Q08, very close to the R\$ 320 million recorded in 1Q08. The increase in selling expenses due to the sales force's efforts on the domestic market was offset by a lower provision for doubtful accounts in the quarter.

In comparison with 2007, operating expenses fell by a substantial R\$ 61 million, chiefly due to the reduction in provisions for a number of contingencies and the reversal of provisions for civil contingencies.

## EBITDA

Second-quarter EBITDA totaled R\$ 1.7 billion, an all-time company record and 33% up on both the 2Q07 and 1Q08, mainly due to the increases in the price of the Company's steel products. The 1H08 EBITDA accumulated R\$ 3.0 billion, another Company record and 30% up year-on-year. CSN has consistently been recording average EBITDA margins of above 40% for more than 7 years.

EBITDA (R\$ MM) and EBITDA Margin (%)

EBITDA margin stood at a hefty 48%, around 5 p.p. above 2Q07 and an even bigger 6 p.p. up on 1Q08.

The parent-company EBITDA margin came to 50% in the second quarter, one of the highest in the global steel sector.

## Financial Result and Net Debt

The 2Q08 net financial result was positive by R\$ 208 million, an R\$ 87 million improvement over the financial result of 1Q08, highlighted by increased treasury gains coupled with the reduction in the carrying cost of the foreign-currency debt. The main factors contributing to this improvement were:

- The positive impact of the exchange rate variation between the two periods, whose variation between the quarters generated revenue of R\$ 151 million;
- Fiscal arrears charges, negatively affecting 2Q08 result in R\$64 million.

Net debt closed the second quarter at R\$ 5.03 billion, R\$250 million up on the 1Q08, chiefly due to:

- Payment of R\$ 1.31 billion on a dividends and interest on equity basis in 2Q08;
- Investments of approximately R\$ 624 million in a number of expansion projects;
- These effects were partially compensated by EBITDA of R\$ 1.70 billion.

Indebtedness (R\$ MM) and Net Debt / EBITDA\* Ratio

Indebtedness has remained at very similar levels thanks to exceptionally cash flow generation. The net debt/EBITDA ratio, based on EBITDA in the last 12 months, continued to fall, declining from 0.99x in December/07 to 0.93x in March/08 and 0.91x at the end of June/08.

## Non-operating Revenue / Expenses

The Company posted a net non-operating expense of **R\$ 62 million** in 2Q08, versus a net expense of R\$ 1 million in 1Q08, primarily due to the percentage variation in the equity result of the investment in CFN due to the capitalization of advances for capital increase.

## Income Taxes

Income tax and social contribution taxes totaled R\$ 446 million in 2Q08, chiefly due to the increase in taxable income verified in the first period.

## Net Income

CSN posted a 2Q08 net income of R\$ 1.03 billion, a hefty R\$ 264 million, or 34% up on the previous quarter.

Net income for 1H08 totaled R\$1.80 billion, a 5% increase in comparison with 1H07.

It is worth remembering that 1H07 was marked by the following positive non-recurring effects on net income:

- R\$255 million deriving from CSN's participation in the CORUS auction;
- R\$328 million from the reversal of provisions for PIS/COFINS taxes related to the expansion of the taxable base (Law 9718/99).

If these non-recurring items are excluded from 1H07 figures, 1H08 net income would have grown 59%, or R\$666 million.

## Capex

**CSN invested R\$ 624 million** in 2Q08 and totaled R\$ 1.0 billion in 1H08.

In this quarter, the parent company absorbed around R\$ 300 million, mostly allocated to the following projects:

- Expansion of the Casa de Pedra mine: R\$ 149 million;
- Maintenance and repairs: R\$ 71 million.

Investments in subsidiaries totaled R\$ 325 million, most of which in:

- MRS Logística: R\$ 131 million;
- Transnordestina Logística (CFN): R\$ 132 million;
- CSN Cimentos: R\$ 36 million.

Among the investments in subsidiaries, the highlight was the increase in the Company's interest in Transnordestina Logística (CFN) from 46.9% to 71.2% via a capital transfer. The remaining amount was invested in minor maintenance projects and technological improvements designed to increase the operational efficiency of the Company and its subsidiaries.

## Working Capital

Working capital totaled **R\$ 1.2 billion** at the end of June 2008, virtually identical to the 1Q08 balance. The main variation in liabilities was in the “Taxes Payable” line, which was of **R\$ 425 million** higher than the previous quarter due to the increase in taxable income generated in the period. This effect was offset by the **R\$ 552 million** increase in assets, led by “Accounts Receivable” on the domestic market, which climbed by **R\$ 261 million**, and “Inventories”, which moved up by **R\$ 160 million**. Even considering the higher turnover of finished and semi-finished products, the repositioning of inputs with increased costs pushed up the close-of-quarter figures of raw material inventories.

The 2Q08 supplier payment period averaged **61 days**, while the client payment averaged **19 days**. The average inventory turnover period stood at **115 days**.

## Capital Market

### Share Performance

Despite the recent stock market slides, CSN's shares did well on Bovespa in 2Q08, having appreciated by 17%, versus 7% for the São Paulo Stock Exchange Index (Ibovespa).

On NYSE, despite the 7% slide recorded by Dow Jones in 2Q08, the Company's ADRs moved up by 26%, outperforming its 1Q08 appreciation of 21%.

Average daily traded volume also moved up in both markets. On the Brazilian Stock exchange, volume increased by 11%, from R\$ 154 million, in the 1Q08, to R\$ 171 million. In New York, volume climbed by 5%, from US\$ 146 million to US\$ 154 million.

## Allocation of Revenues

The Annual Shareholders' Meeting held on April 18, 2008 approved the payment of R\$ 2,115 million to shareholders as dividends and interest on equity. Of this total, R\$ 800 million were paid as an advance on January 8, 2008 (R\$ 665 million in dividends and R\$ 135 million in interest on equity) and the remaining R\$ 1,315 million (R\$ 1,244 million in dividends and R\$ 71 million in interest on equity) were paid on May 5, 2008.

**15.01 – INVESTMENT PROJECTS**

---

Amongst the Company's major investments, we emphasize the production capacity expansion of Casa de Pedra mine and Itaguaí port, where the Company invested the amount of R\$650,158 and R\$468,104, respectively, up to June 30, 2008.

For further information, see item 8.01.

**17.01 – SPECIAL REVIEW REPORT – UNQUALIFIED OPINION**

---

Independent accountant's review report

(A translation of the original report in Portuguese as published in Brazil containing quarterly financial information prepared in accordance with accounting practices adopted in Brazil and rules from the Brazilian Securities Commission (CVM))

To the Board of Directors  
Companhia Siderúrgica Nacional  
Rio de Janeiro - RJ

**1.** We have reviewed the Quarterly Financial Information of Companhia Siderúrgica Nacional (the Company) and the consolidated Quarterly Financial Information of the Company and its subsidiaries for the quarter ended June 30, 2008, comprising the balance sheets, the statements of income, of cash flows and of added value, the management report and notes, which are the responsibility of its management.

**2.** Our review was conducted in accordance with the specific rules set forth by the Brazilian Institute of Independent Auditors (IBRACON), in conjunction with the Federal Accounting Council (CFC), and consisted mainly of the following: (a) inquiries and discussions with the persons responsible for the Accounting, Finance and Operational areas of the company and its subsidiaries as to the main criteria adopted in the preparation of the Quarterly Financial Information; and (b) reviewing information and subsequent events that have or may have relevant effects on the financial position and operations of the Company and its subsidiaries.

**3.** Based on our review we are not aware of any material modifications that should be made to the Quarterly Financial Information referred to in the first paragraph for it to be in accordance with the rules issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Financial Information, including CVM Instruction nº 469/08.

4. As mentioned in note 3h, on December 28, 2007 Law 11638 was enacted, and effective from January 1, 2008. This Law modified, amended and introduced new rules to the existing Corporate Law (Law 6404/76) and resulted in changes to certain accounting practices currently adopted in Brazil. Despite the fact that the new Law is already in force, some changes required depend on the issuance of further standards by local regulators, in order for them to be fully adopted by the companies. Therefore, in this transition phase, CVM, through Instruction CVM 469/08, allowed the non-application of all rules described within Law 11638/07 in the preparation of Quarterly Financial Information. As a consequence, the accounting information included in the Quarterly Financial Information ended June 30, 2008, were prepared in accordance with the specific rules set forth by the CVM and does not contemplate all the changes to the accounting practices introduced by Law 11638/07.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
