06.01 – NOTES TO THE FINANCIAL STATEMENTS		

(In thousands of Reais, unless otherwise stated)

1. OPERATIONS

The main activity of Companhia Siderúrgica Nacional (“CSN” or “Company”) is the production of flat steel products and its main industrial complex is the Presidente Vargas Steelworks (“UPV”) located in the city of Volta Redonda, State of Rio de Janeiro.

CSN is engaged in the mining of iron ore, limestone and dolomite in the branches in the State of Minas Gerais and tin in the State of Rondônia, by means of the subsidiary Estanho de Rondônia S.A. (“ERSA”), in order to meet the needs of UPV and the surplus raw materials are traded with subsidiaries and third parties. In order to provide greater synergy to the processes, the Company also maintains strategic investments in mining companies, railroad, electricity and ports. In addition, the Company is establishing a cement plant and a long steel plant in Volta Redonda.

The company, aiming to get closer to clients and exploit markets on a global level, has a steel distributor, metal packaging plants, in addition to a galvanized steel plant in the South and another in the Southeast of Brazil to meet the demand of the home appliance and automotive industry, respectively. Abroad, the Company has a steel rolling mill in Portugal and another mill in the United States.

The Company’s shares are listed on the Stock Exchanges in Brazil (BOVESPA) and in the United States (NYSE).

2. PRESENTATION OF THE QUARTERLY INFORMATION

The individual (Company) and consolidated quarterly information was prepared in accordance with the accounting practices adopted in Brazil, based on the Brazilian Corporate Law, pronouncements issued by the Committee for Accounting Pronouncements– CPC and rules issued by the Brazilian Securities and Exchange Commission – CVM.

In compliance with CPC 02, approved by the CVM Resolution 534, the Company integrated the investments abroad which are not characterized as independent entities into the Parent Company’s quarterly information.

The Company, in order to enhance the disclosures to the market, presents the following supplementary information on the business segments, comprising the Parent Company and the consolidated financial information:

“A distinguishable component of the Company is a segment, goal of which is the manufacturing of products, the rendering of services, or the rendering of products and services within a particular economic environment, which is subject to risks and rewards that are different from other segments”.

The quarterly information includes the changes brought by Law 11638/07 and Provisional Measure 449/08. The Company presents below a table with the effects related to the application of the new rules:

(1) Reversal of the revaluation

(2) Portion related to the reversal of the depreciation of the revaluation

(3) Income and social contribution tax reversal related to the revaluation

(4) Income and social contribution tax reversal related to the depreciation of the revaluation

(5) Write-off of revaluated assets

(6) Write-off of deferred assets referring to 2007 pursuant to law 11638

(7) Exchange rate variation of loans and financing from intercompany operations: Fixed rate notes, intercompany, prepayment and loan

(8) Income tax (IR) and social contribution on net income (CSLL) related to exchange rate variation of loans and financing from intercompany operations: Fixed rate notes, intercompany, prepayment and loan

(9) Assets valuation adjustment referring to equity pick-up effects

In the balance sheet for to the year ended December 31, 2008, presented for comparison purposes, certain reclassifications were made to improve the quality of the information related to the advance received by the jointly-owned subsidiary, as follows:

Balance sheet of the subsidiary:

Current liabilities – The Company reclassified the amount of R\$90,653 thousand from loans and financing to accounts payable – subsidiaries.

Noncurrent liabilities - The Company reclassified the amount of R\$7,195,501 thousand from loans and financing to accounts payable – subsidiaries.

Consolidated balance sheet:

Current liabilities - The Company reclassified the amount of R\$36,261 thousand from loans and financing to accounts payable – subsidiaries.

Noncurrent liabilities - The Company reclassified the amount of R\$2,878,200 thousand from loans and financing to accounts payable – subsidiaries.

3. MAIN ACCOUNTING PRACTICES

(a) Statement of income

The results of operations are recognized on the accrual basis and the revenue from the sales of products is recognized when the Company no longer controls or holds any responsibility for the property and all risks and rewards have been transferred to the buyer. Revenue from services rendered is recognized in proportion to the stage of completion of the service.

Revenue is not recognized if Management cannot measure its value precisely and if there is no significant certainty as to the realization of the economic benefit of the sale.

(b) Current assets and noncurrent assets

• Cash and cash equivalents

These are represented by immediate liquidity amounts, redeemable in up to 90 days from the balance sheet dates and with an insignificant risk of change in their market value. Financial assets included in this group are measured at fair value through the income.

• Trade accounts receivable

Trade accounts receivable are recorded at the invoiced amount, including the respective taxes and ancillary expenses and credits from clients in foreign currency are corrected at the exchange rate as of the date of the quarterly information. The allowance for doubtful accounts was recorded in an amount considered adequate to support possible losses and Management's assessment takes into account the client's history, the financial situation and the assessment of our legal advisors regarding the receipt of these credits for the recording of this provision.

• Inventories

Inventories are stated at their average cost of acquisition or production and imports in transit are recorded at their cost of acquisition, not exceeding their market or realization values. Provisions for losses or obsolescence are recorded whenever Management considers it appropriate.

• Investments

Investments in subsidiaries and jointly-owned subsidiaries are recorded through the equity accounting method and recognized in the income for the period as operating income (or expenses). Other investments are recorded and kept at cost.

When necessary, the accounting practices of the subsidiaries and jointly-owned subsidiaries are changed to ensure criteria consistency and uniformity with the practices adopted by the Company.

Accounting records of the dependent subsidiaries were consolidated to the parent Company's quarterly statements, as established in the CPC Pronouncement 02.

• Property, plant and equipment

These are recorded at acquisition, formation or construction cost. Depreciation is calculated through the straight-line method, based on the remaining economic useful lives of the assets, and depletion of the Casa de Pedra mine is calculated based on the quantity of iron ore extracted. Interest charges related to funds raised for specific construction in progress are capitalized until the constructions are concluded.

Law 11638/07, MP 449/08 and CPC 01 require that the recoverability valuation of all items comprising this subgroup be carried out and if there is evidence of loss, as no item should remain recorded under property, plant and equipment at an amount higher than its recoverable value, then there may be the need of the performance of a recoverability valuation of this asset. The Company valued property, plant and equipment items and did not identify any loss to be recorded.

• Intangible assets

Intangible assets comprise the assets acquired from third parties, including by means of business combination, and/or those internally generated by the Company.

These assets are recorded at the acquisition or formation cost, less amortization calculated through the straight-line method based on exploration or recovery terms.

Intangible assets with an indefinite useful lives, as well as goodwill for expected future profitability, will no longer be amortized as of January 1, 2009, and their recoverable value is tested on a yearly basis. The Company did not identify any circumstance indicating the need to perform an impairment test as of March 31, 2009.

• Deferred charges

The Company maintains in this group just the remaining balances of deferred pre-operating expenses, which will be amortized in accordance with the criteria prior to Law 11638/07 due to the option offered by technical pronouncement CPC - 13 (Initial adoption of Law 11638/07 and Provisional Measure (MP) 449/08).

• Impairment

The recoverable value of the accounts of property, plant and equipment, intangible assets and deferred charges are tested on an yearly basis or whenever significant events or changes in circumstances indicate the book value may not be recovered.

In order to test the recoverability of an individual asset or a group of assets, the Company analyzes supporting evidence that their book values will not be recoverable and, should these evidences be confirmed and the Company identifies an impairment possibility, Management compares the residual book value of this group of assets with their recoverable value and records them.

• **Other current and noncurrent assets**

Stated at their realization value, including, when applicable, the yields earned up to the date of the quarterly information or, in the case of prepaid expenses, at cost.

(c) **Current and noncurrent liabilities**

These are stated at their known or calculatable values, plus, when applicable, the corresponding charges and monetary and foreign exchange variations incurred up to the date of the quarterly information.

• **Employees' benefits**

In compliance with Resolution 371/00, issued by the Brazilian Securities and Exchange Commission, the Company has been recording the respective actuarial liabilities as from January 1, 2002, in accordance with the aforementioned reported resolution and based on independent actuary studies, which are carried out annually .

• **Income and social contribution taxes**

Income and social contribution taxes are calculated at rates of 15% plus an additional of 10% on taxable basis for income tax and at a 9% rate on the taxable basis for social contribution on net income. In the calculation of taxes, the offsetting of the tax loss carryforward and negative basis of social contribution is also considered, and it is limited to 30% of the taxable income.

The deferred tax assets deriving from tax loss carry forwards and negative basis of social contribution on net income were recorded in compliance with the CVM Rule 371/02 and took into consideration the history of profitability and the expectations of generating future taxable income, based on a technical study.

(d) **Derivative financial instruments**

The financial instrument balances, recorded in accordance with the CPC Technical Pronouncement 14, which was approved by the CVM Resolution 565/08, are classified and recorded at fair value and gains and losses are recognized in the income by accrual period.

In order to contract derivative financial instruments with hedging purposes within the Company's internal controls structure, the foreign exchange exposure is ascertained by means of performing an assessment of assets and liabilities exposed to foreign currency, among which we could cite: accounts receivable and payable in foreign currency and foreign currency cash and debt.

This exposure is continuously ascertained and presented to the Board of Directors for approval of the Company's hedging strategy.

(e) **Other derivative financial instruments**

The Company maintains a financial instrument called total return equity swap, purpose of which is to increase the return on financial assets. This instrument is recorded at fair value and gains and losses are recognized in income by accrual period.

The Company recorded this instrument in other accounts payable, and the guarantee margin of this instrument, in other accounts receivable.

(f) Nonderivatives financial instruments

Financial instruments are initially recognized at fair value plus, whereas those financial instruments not classified at fair value through the income, plus the transaction costs that are directly attributable to them. Subsequently to the initial recognition the financial instruments are measured as follows:

Financial asset or liability measured at fair value through the income

A financial instrument is classified as measured at fair value through the income if it is held for trading. These instruments are measured at fair value and the subsequent fluctuation is recognized in the income for the period.

Loans and receivable

These are measured at the amortized cost and by using the effective interest rate method, less impairment loss.

(g) Treasury Shares

As established by the CVM Instruction 10 of February 14, 1980, shares held in treasury are recorded at cost of acquisition, and the market value of these shares is calculated based on the average stock exchange quotation on the last day of the period.

(h) Accounting Estimates

The preparation of the quarterly information, in accordance with the accounting practices adopted in Brazil, requires that Management uses its judgment in determining and recording the accounting estimates, such as: allowance for doubtful accounts, provision for inventory losses, provisions for labor, civil, tax and social security liabilities, depreciation, amortization, depletion, provision for impairment, deferred taxes, financial instruments and employees' benefits. The settlement of the transactions involving these estimates may result in amounts different from those estimated, due to lack of precision inherent to the process of their determination. The Company periodically reviews the estimates and assumptions.

4. CONSOLIDATED QUARTERLY INFORMATION

The accounting practices reflect the changes introduced by the new pronouncements and were treated uniformly in all the consolidated companies.

The consolidated quarterly information for the periods ended March 31, 2009 and December 31, 2008 include the following direct and indirect subsidiaries and jointly-owned subsidiaries:

Companies	Ownership interest (%)		Main activities
	3/31/2009	12/31/2008	
Direct investment: full consolidation			
CSN Energy	100.00	100.00	Equity interest
			Financial operations, trading of products and equity interest
CSN Export	100.00	100.00	equity interest
CSN Overseas	100.00	100.00	Financial operations and equity interest
CSN Panama	100.00	100.00	Financial operations and equity interest
CSN Steel	100.00	100.00	Financial operations and equity interest
Arame Corporation	100.00	100.00	Dorment Company

Itamambuca Participações	99.93	99.93	Mining and equity interest
CSN Energia	0.10	0.10	Electricity trading
Indirect investment: proportional consolidation			
			Equity interest and trading of products and mining
NMSA Madeira	60.00	60.00	Financial operations and equity interest
Inversiones CSN Espanha	60.00	60.00	Financial operations and equity interest
Pelotização Nacional	59.99	59.99	Mining and equity interest
MG Minérios	59.99	59.99	Mining and equity interest
MRS Logística	6.00	6.00	Railroad transport

The following consolidation procedures were adopted in the preparation of the consolidated quarterly information:

- Elimination of the balances of asset and liability accounts between consolidated companies;
- Elimination of the balances of investments and shareholders' equity between consolidated companies;
- Elimination of balances of income and expenses and unrealized income deriving from consolidated intercompany transactions;
- Presentation of income and social contribution taxes on the unearned income as deferred taxes in the consolidated quarterly information;
- Reclassification of exchange rate variations of monetary items with net foreign investment characteristics from financial income to shareholders' equity.

Pursuant to the CVM Instruction 408 of August 18, 2004 the Company consolidates the quarterly information of the exclusive investment funds Diplic and Mugen.

The base date for the subsidiaries' and jointly-owned subsidiaries' quarterly information coincides with that of the parent company.

The reconciliation between shareholders' equity and net income for the period of the parent company and consolidated is as follows:

	Shareholders' equity		Net income for the year	
	3/31/2009	12/31/2008	3/31/2009	3/31/2008
Parent company	6,928,879	6,748,462	313,538	771,098
Elimination of income in inventories	(49,209)	(85,873)	36,682	(3,794)
Exchange rate variation adjustments- CPC02			(9,494)	
Other adjustments	27,921		28,098	
Consolidated	6,907,591	6,662,589	368,824	767,304

Additionally, subsidiaries abroad which are not characterized as independent entities were consolidated to the parent company's quarterly information, pursuant to technical pronouncement CPC - 02, approved by the CVM Resolution 534/08:

Companies	Ownership interest (%)		Main activities
	3/31/2009	12/31/2008	
Branches			
CSN Islands VII	100.00	100.00	Financial operations
CSN Islands VIII	100.00	100.00	Financial operations
CSN Islands IX	100.00	100.00	Financial operations
CSN Islands X	100.00	100.00	Financial operations
CSN Islands XI	100.00	100.00	Financial operations
Tangua	100.00	100.00	Financial operations
International Investment Fund	100.00	100.00	Equity interest

5. RELATED PARTY TRANSACTIONS

a) Transactions with the Parent Company

Vicunha Siderurgia S.A. is a holding company whose purpose is to hold interest in other companies. It is the Company's main shareholder, with a 45.98% interest in the voting capital.

Vicunha Siderurgia's corporate structure is as follows (information not reviewed):

Rio Purus Participações S.A. – holds 60% of National Steel and 59.99% of Vicunha Steel S.A.
 CFL Participações S.A. – holds 40% of National Steel and 39.99% of Vicunha Steel S.A.
 National Steel – holds 33.19% of Vicunha Aços
 Vicunha Steel – holds 66.81% of Vicunha Aços
 Vicunha Aços – holds 99.99% of Vicunha Siderurgia

During the period, CSN paid dividends in advance to Vicunha Siderurgia in the amounts indicated in the table below, in which the proposed dividends and interest on shareholders' equity as of December 31, 2008 are also shown, considering the Vicunha Siderurgia interest in CSN as of the closing date of these quarterly information.

Parent company	Proposed dividends	Proposed interest on shareholders' equity	Dividends paid in the period	Interest on shareholders' equity paid in the period
Total at 3/31/2009		38,261		
Total at 12/31/2008	689,947	123,421	938,223	93,210

b) Transactions with jointly-owned subsidiaries

The Company holds interest in jointly-owned subsidiaries in the strategic areas of mining, logistics and power generation. The characteristics, goals and transactions with these companies are stated as follows:

• Assets

Companies	Accounts receivable	Dividends receivable	Loans / Current accounts(*)	Advance for future capital increase	Total
Nacional Minérios	88,583	59,739	1,216,197		1,364,519
MRS Logística	511	129,420			129,931
Transnordestina				89,958	89,958
Itá Energetica		4,071			4,071
Total at 3/31/2009	89,094	193,230	1,216,197	89,958	1,588,479
Total at 12/31/2008	185,802	190,068		38,617	414,487

(*) Loan agreement of US\$500,000 thousand, starting on January 28, 2009, maturing on January 31, 2012 and with semiannual interest rate of 12% p.a..

• **Liabilities and shareholders' equity**

Companies	Liabilities				Shareholders' equity	
	Advance to suppliers	Loans / Current accounts	Other	Total	Equity Valuation Adjustments - Effects	Total
Nacional Minérios	7,414,098		4,974	7,419,072	49,301	49,301
MRS Logística		2,142	113,147	115,289		
Itá Energetica			20,473	20,473		
Total at 3/31/2009	7,414,098	2,142	138,594	7,554,834	49,301	49,301
Total at 12/31/2008	7,286,154	2,142	68,266	7,356,562	51,825	51,825

Namisa: The advance to suppliers from the jointly-owned subsidiary Nacional Minérios S.A. is related to the contractual obligation of iron ore supply and port services by CSN. The contract has a 12.5% p.a. interest rate and maturity forecast for June 2042.

The valuation adjustment effects refer to an investee abroad whose functional currency is different from the real.

MRS: in other accounts payable from MRS Logística we recorded the amount provisioned by CSN to cover take-or-pay contractual expenses related to the rail transportation contract under normal price conditions practiced in this market.

Itasa: it is related to the electric power supply billed under normal market conditions of the Brazilian energy market, ruled by Electric Power Trade Chamber.

• **Income**

Companies	Revenues			Expenses		
	Products and services	Interest and monetary and exchange variations	Total	Products and services	Monetary and exchange variations	Total
Itá Energética				28,919		28,919
MRS Logística				93,142		93,142

Total at 3/31/2009	95,927	23,739	119,666	142,820	220,501	363,321
Total at 3/31/2008	19,953		19,953	122,673		122,673

• **Nacional Minérios S.A. ("Namisa")**

Its main purpose is to extract and sell own and third-party iron ore. The main operations are developed in the municipality of Congonhas, Ouro Preto, Itabirito and Rio Acima in the state of Minas Gerais, and in Itaguaí, state of Rio de Janeiro. CSN maintains iron ore supply and port service provision transactions, in addition to maintaining operations related to operating and financial support.

• **Transnordestina Logística S.A.**

Its main purpose is to exploit the public rail cargo transportation service concession and the development in the Northeast Network, and it does not provide services to CSN. The Company does not maintain operating transactions with the subsidiary, and the operations between the parties are related to financial support to projects and operations of the subsidiary.

• **MRS Logística S.A.**

Its purpose is to exploit and develop the public rail cargo transportation service in the Southeast Network, which serves the Rio de Janeiro-São Paulo-Belo Horizonte stretch. MRS provides rail cargo transportation services for the supply and outflow of the CSN raw materials and finished products.

• **Itá Energética S.A. – Itasa**

Itasa holds an interest in the Itá Hydroelectric Power Plant consortium and the operations between the parties are related to the contracting of the electric power supply for the CSN operations.

c) Transactions with subsidiaries and special purpose entities (exclusive funds)

• **Assets**

During the year of 2008 and the first quarter of 2009, the subsidiary CSN Export S.à.r.l.'s exported to the CSN subsidiary Lusosider in Portugal and CSN LLC in the United States, intermediated by third parties. These transactions and their effects were eliminated from the consolidated quarterly information.

d) Other related parties

• **CBS Previdência**

The Company is the main sponsor of CBS Previdência, not-for-profit civil association set up in July 1960, whose main purpose is to pay supplementary benefits to those paid by social security. As the CBS Previdência sponsor, CSN maintains payment transactions of contributions and actuarial liability recognition ascertained in defined benefit plans.

• **Fundação CSN**

CSN develops socially responsible policies currently focused on Fundação CSN, whose sponsor is the Company. Transactions between the parties are related to operating and financial support for Fundação CSN to develop social projects, mainly in the localities where CSN operates.

• **Banco Fibra**

Banco Fibra is under the same control structure of Vicunha Siderurgia, and financial transactions with this bank are limited to transactions in checking accounts and financial investments in fixed income.

The balances of transactions between the Company and these entities are shown as follows:

Assets and Liabilities

Companies	Assets		Liabilities

Cash and Cash Equivalents	9,156,722	9,224,113	7,063,239	7,391,679

The available financial funds in the parent company and subsidiaries established in Brazil are primarily invested in exclusive investment funds, whose cash is mostly invested in repurchase operations pegged to Brazilian government bonds, with immediate liquidity. Additionally, a significant portion of the financial funds of the Company and its subsidiaries abroad is invested in Time Deposits in first-tier banks.

The exclusive funds, managed by UBS Pactual Serviços Financeiros S.A DTVM, and its assets, are accountable for possible losses in investments and operations carried out. The Company may bear the fund's operation fees (management, custody and audit fees) and it may also be called to back the shareholders' equity in the event of losses resulting from interest rate, exchange rate or other financial asset variations.

The Company is the Companhia Brasileira de Latas (CBL) main raw material supplier and holds 77% of the debentures issued in 2002 by the latter in the amount of R\$212,870. As of March 31, 2009, CSN recorded a provision for total loss of these debentures.

The Company interrupted, following its maintenance program, the operations of Blast Furnace 2 on March 29, 2009, seeking the general repair of the equipment. Blast Furnace 2 (AF-2) will be ready to resume its regular operations on June 1, 2009. This maintenance is in accordance with the Company's schedule and its purpose is to carry out equipment maintenance and to meet the revamp scheduled for 2012.

9. DEFERRED INCOME AND SOCIAL CONTRIBUTION TAXES

(a) Deferred income and social contribution taxes

Deferred Income and Social Contribution taxes are recognized in order to reflect future tax effects attributable to temporary differences between the tax base of assets, liabilities and the respective carrying value.

	Consolidated		Parent Company	
	3/31/2009	12/31/2008	3/31/2009	12/31/2008
Current assets

Social contribution		59		
		854		
	3/31/2009	3/31/2008	3/31/2009	3/31/2008
Income				
Income tax	21,858	(51,847)	45,678	(48,426)
Social contribution	7,884	(19,566)	16,031	(18,069)
	29,742	(71,413)	61,709	(66,495)

Pursuant to the CVM Instruction 371 of June 27, 2002, some companies of the group, recorded tax credits on tax loss carryforwards and social contribution on a negative basis that are not subject to statute of limitations based on the expectations of future taxable income determined in technical valuation approved by the Management.

The book value of deferred tax assets is reviewed monthly and projections are reviewed annually, and are subject to any material aspects that might change realization projections. These studies indicate the realization of these companies' tax assets within the term established by the CVM Instruction and within the 30% limit of the taxable income, fact which is shown as follows:

					3/31/2009
Year	Consolidated		Parent Company		
	Corporate income tax Tax loss	Social contribution Negative basis	Corporate income tax Tax loss	Social contribution Negative basis	
2009	251,505	90,609	206,349	74,207	
2010	5,781	2,081			
2011	5,400	1,944			
2012	4,971	1,790			
2013	4,577	1,648			
2014 to 2016	11,297	4,308			
Total	283,531	102,380	206,349	74,207	

(b) The sources of the deferred income and social contribution taxes of the parent company are shown as follows:

	3/31/2009				12/31/2008			
	Income tax		Social contribution		Income tax		Social contribution	
	Short-Term	Long-Term	Short-Term	Long-Term	Short-Term	Long-Term	Short-Term	Long-Term

(1) **CSN Export** – it refers to capital increase in the amount of R\$109,990 with issue of 1,004,475 common shares through CSN x CSN Export loan capitalization.

c) Additional Information on the main operating subsidiaries
• GALVASUD

Located in Porto Real, in the State of Rio de Janeiro, the Company has as its main corporate purpose all industrial, commercial and sales promotion activities related to: i) installation and operation of a steel products service center, ii) installation and operation of a hot-immersion galvanization line, iii) installation and operation of laser welding lines for the production of welded blanks destined for the automobile production; iv) just-in-time supply to the automotive industry and, v) promotion and sales of the products of the Company and of third parties, shareholders inclusively, to the automobile industry.

- INAL NORDESTE

Based in Camaçari, State of Bahia, the Company has as its main purpose to reprocess and distribute the CSN steel products, operating as a service and distribution center in the Northeast region of the country.

- COMPANHIA METALÚRGICA PRADA

Based in the city of São Paulo, Prada has branches in several states of the country and has as its main activities the rolled steel reprocessing and distribution, the manufacturing and trading of metallic products, manufacturing and trading of metallic packaging, as well as the import and export of these products.

On December 30, 2008, in order to achieve greater synergy, optimization of operations, cost reduction and, also, become more efficient, Prada incorporated the net assets of Indústria Nacional de Aços Laminados – INAL, at book value.

For the manufacturing of its products, Prada uses as raw material rolled steel supplied by its parent company CSN.

- CIA. METALIC NORDESTE

The Company, with its head office located in Maracanaú, State of Ceará, has as its main corporate purpose the manufacturing of metallic packaging destined to the beverage industry.

Its operation unit can be characterized as one of the world's most modern ones and counts on two different production lines: the can production line, whose raw material is tin-coated steel, supplied by the parent company CSN, and the lid production line, whose raw material is aluminum.

Its production is mainly geared towards the Brazilian northern and northeastern markets, with the surplus production of lids sold abroad.

The subsidiary received an incentive from PROVIN – Incentive Program for the Companies' Operations, established by the Government of the State of Ceará, main purpose of which is the promotion of the industrial development and job generation in the State.

- SEPETIBA TECON

Company whose objective is to exploit the No.1 Containers Terminal of the Itaguaí Port, located in Itaguaí, State of Rio de Janeiro. This terminal is linked to Presidente Vargas Steelworks by the Southeast railroad network, which is granted to MRS Logística.

Sepetiba Tecon was the winner of the auction that occurred on September 3, 1998 for the takeover of the terminal concession and this concession allows the exploitation of the aforementioned terminal for the term of 25 years, extendable for another term of 25 years.

- CSN ENERGIA

Its main purpose is distributing and trading the surplus electric power generated by CSN and by companies, consortiums or other entities in which Company holds an interest.

CSN Energia holds a balance receivable related to the electric power sales under the scope of the Electric Power Trade Chamber ("Câmara de Comercialização de Energia Elétrica") – CCEE, in the amount of R\$54,224 (R\$54,224 as of December 31, 2008), which are due by concessionaires that present injunctions suspending the corresponding payments. Management understands that recording an allowance for doubtful accounts is not necessary in view of the judicial measures taken by the official entities of the sector.

• CSN CIMENTOS

Based in Volta Redonda, State of Rio de Janeiro, CSN Cimentos is a business under construction, which will have the production and trading of cement as its main purpose. CSN Cimentos will use as one of its raw material the blast furnace slag from the pig iron production of the Presidente Vargas Steelworks. The results verified in this Company refer to expenses related to residual expenditures resulting from activities which were discontinued in 2002, when the Company was called FEM – Projetos, Construções e Montagens.

• ESTANHO DE RONDÔNIA - ERSÁ

Ersa is a subsidiary based in the State of Rondônia, where it operates two units, one in the city of Itapuã do Oeste and the other in the city of Ariquemes.

The subsidiary's mining operation for cassiterite (tin ore) is located in Itapuã do Oeste and the casting operation from which metallic tin is obtained, which is the raw material used in UPV for the production of tin plates, is located in Ariquemes.

d) Additional information on the main jointly-owned subsidiaries

The balances of the balance sheet and of the statement of income of the companies whose control is shared are shown as follows. These amounts were consolidated in the Company's quarterly information, in accordance with the interest described in item (a) of this Note.

• NACIONAL MINÉRIOS – NAMISA

Headquartered in Congonhas, state of Minas Gerais, NAMISA's main purpose is the production, purchase and sale of iron ore. NAMISA sells its products mainly in the foreign market.

NAMISA's main operations are developed in the municipalities of Congonhas, Ouro Preto, Itabirito and Rio Acima, state of Minas Gerais, and in Itaguaí, state of Rio de Janeiro.

In December 2008, CSN sold 2,271,825 shares of the voting capital of Nacional Minérios S.A. ("NAMISA") to Big Jump Energy Participações S.A. ("Big Jump"), whose shareholders are the companies Itochu Corporation, JFE Steel Corporation, Nippon Steel Corporation, Sumitomo Metal Industries, Ltd., Kobe Steel, Ltd., Nisshin Steel Co., Ltd. and Posco. Subsequently to this sale, Big Jump subscribed new shares, paying in cash the total of US\$3,041,473 thousand, corresponding to R\$7,286,154 thousand, R\$6,707,886 thousand of which were recorded as goodwill at the subscription of the shares.

Due to the new corporate structure of the jointly-owned subsidiary, in which Big Jump holds 40% and CSN 60% and, due to the shareholders' agreement entered into between the parties, CSN consolidated NAMISA in a proportional manner.

The NAMISA operation is fully integrated, including access to rail transportation in the form of a long-term agreement with MRS and, as part of the business, CSN capitalized NAMISA with a 10% interest in the MRS Logística capital in November 2008.

• TRANSNORDESTINA LOGÍSTICA

Transnordestina has as its main purpose the exploitation and development of the public rail cargo transport service for the Northeast network of Brazil.

Transnordestina entered into a concession agreement with the Federal Government on December 31, 1997 for a period of 30 years, extendable for another equal period. The agreement allows the development of the public service of exploitation of the northeast network which comprises seven States of the Federation in an extension of 4,534 km. The concession also comprises the lease of assets of Rede Ferroviária Federal S.A. (RFFSA) which serve this network and include, among others, constructions, permanent tracks, locomotives, railcars, vehicles, tracks and accessories.

In accordance with the Annual General Meeting held on May 12, 2008, the corporate name of former CFN was changed to Transnordestina Logística S.A, and on this same date, CSN capitalized AFACs in the amount of R\$136,153 and the interest changed from 46.88% to 71.24% . Subsequently, on November 17, 2008, the Company carried out a new capital increase in the amount of R\$253,874, becoming the holder of an 84.50% interest in Transnordestina Logística S.A..

• MRS LOGÍSTICA

The Company's main purpose is to exploit, by onerous concession, the public rail cargo transport service in the right of way of the Southeast network, located in the stretch connecting Rio de Janeiro, São Paulo and Belo Horizonte, of Rede Ferroviária Federal S.A. - RFFSA, privatized on September 20, 1996. CSN paid in Namisa 10% of its interest in MRS, and decreased this direct interest from 32.93% to 22.93% .

In addition to this direct interest, the Company also holds an indirect interest of 6% through Nacional Minérios S.A. – Namisa, a proportionally consolidated company and, 4.3377% through International Investment Fund (pending the National Agency for Land Transport (ANTT) authorization), which integrates the Company's quarterly information as per the CPC Technical Pronouncement 02.

MRS may also exploit modal transportation services regarding the rail transport and take part in developments aiming at the extension of rail transport services granted.

To provide the services which are the purpose of the concession obtained for a 30-year period, as from December 1, 1996, and extendable for another equal period at the exclusive discretion of the grantor, the Company leased from RFFSA, for the same period of the concession, the assets necessary to operate and maintain rail cargo transportation activities.

• ITÁ ENERGÉTICA S.A. - ITASA

Itasa holds a 60.5% interest in the Itá Consortium, which was created for the exploitation of the Itá Hydroelectric Power Plant pursuant to the concession agreement of December 28, 1995, and its Addendum 1 dated July 31, 2000, entered into between the consortium holders (Itasa and Centrais Geradoras do Sul do Brasil - Gerasul, formerly called Tractebel Energia S.A.) and the Brazilian Agency for Electric Energy (ANEEL).

CSN holds 48.75% of the subscribed capital and the total amount of common shares issued by Itasa, a special purpose Company (SPE) originally established to make feasible the construction of the Itá Hydroelectric Power Plant, the contracting of the supply of goods and services necessary to carry out the venture and the obtaining of financing through the offering of the corresponding guarantees.

e) Additional information on indirect interests abroad

• COMPANHIA SIDERURGICA NACIONAL - LLC

Incorporated in 2001 with the assets and liabilities of the extinct Heartland Steel Inc., headquartered in Wilmington, State of Delaware – USA, it has an industrial plant in Terre Haute, State of Indiana – USA, where there is a complex comprising a cold rolling line, a hot pickling line for spools and a galvanization line. CSN LLC is a wholly-owned indirect subsidiary of CSN Panama.

• LUSOSIDER

Incorporated in 1996 in succession to Siderurgia Nacional – a Company privatized by the Portuguese government that year. Lusosider is the only Portuguese Company of the steel sector to produce cold-re-rolled flat steel, with a corrosion-resistant coating. The Company presents in Paio Pires an installed capacity of around 550 thousand tonnes/year to produce four large groups of steel products: galvanized plate, cold-rolled plate, pickled and oiled plate.

Products manufactured by Lusosider may be used in the packaging industry, civil construction (piping and metallic structures), and in home appliance components.

13. DEFERRED CHARGES

In compliance with Law 11638/07 and the CPC Technical Pronouncement 13, the Company maintains a record of the remaining balance of deferred assets referring to preoperating expenses recognized up to December 31, 2007.

These assets will be kept in the Company's accounting up to their total amortization and/or write-off due to impairment. As of March 31, 2009, the balance of these assets was R\$33,183 (R\$34,531 as of December 31, 2008) in the parent company and R\$40,385 (R\$42,482 as of December 31, 2008) in the consolidated.

The amortization of this remaining balance during the period ended as of December 31, 2009 amounted to R\$1,348 (R\$12,504 in the first quarter of 2008), allocated to production costs.

a) Loans and financing with certain financial institutions have limiting contractual clauses (covenants) that are common in financial contracts in general, which the Company has properly complied with as of March 31, 2009. Some of the main covenants are informed as follows:

In export and import financing operations:

“The Company must maintain all authorizations necessary to comply with the obligations established in the contract.”

“The Company undertakes to export in an amount sufficient to cover the principal and interest added value due on the respective payment dates – coverage ratio.”

In financing obtained with the Brazilian Development Bank – BNDES

“The Company undertakes to prove the investment of own funds established in the project.”

“The Company undertakes not to promote acts or measures which may jeopardize or change the economic-financial equilibrium of the loan Beneficiary.”

Debenture issuances:

“The Company must immediately notify the Fiduciary Agent on the call for any general debenture holders’ meeting by the issuer.”

b) The Company and its subsidiaries also assume covenants which are specific to certain contracts, but usual in operations of the same nature, which had also been complied with as of March 31, 2009. For instance:

Covenants of the Company for Eurobonds issued by its subsidiaries:

“In foreign currency and debt operations represented by securities traded on stock exchanges outside Brazil, the Company must not constitute guarantees on its assets, except for those allowed in the operation agreements, without simultaneously guaranteeing the notes.”

Covenants applicable to the Company’s subsidiaries:

CSN Export S.à.r.l (Securitization): “CSN Export must not assume debts except for those established in the operation documentation and debts resulting from law and which do not have a materially adverse effect.”

“The Company undertakes to export in sufficient amounts at the principal and interest added value due on the respective payment dates – coverage ratio.”

CSN Export S.à.r.l recorded in the 23rd quarter of its Securitization program, an insufficient level of exports to meet certain export coverage indices established in the program contracts (cover ratios), resulting in an Accumulation Event. This fact derived from a strong decrease in foreign demand for steel products, and the Company has already taken measures to redress the situation in the next quarter. The Accumulation Event is simply a temporary allocation of funds (up to the amount equivalent to twice the debt service) to an account managed by the custodian bank, until the event is redressed. This does not characterize, therefore, an event of default, and does not produce consequences to the other financial contracts of the Company, nor to the quarterly information as of March 31, 2009.

CSN Islands X Corp. and CSN Islands IX Corp. (Eurobonds): “The issuer must not assume debts, except for those represented by the Notes, or debts representing commissions, costs or indemnifications due in accordance with the established in the operation documentation.”

Transnordestina (BNDES financing): “Transnordestina commits not to change, without prior and express authorization of BNDES, its share control.”

15. DEBENTURES

Fourth issue

As approved at the Board of Directors Meeting held on December 20, 2005 and ratified on April 24, 2006, the Company issued, on February 1, 2006, 60,000 nonconvertible and unsecured debentures, in one single tranche, with a unit face value of R\$10. These debentures were issued in the total issuance value of R\$600,000. The credits from the negotiations with the financial institutions were received on May 3, 2006.

Compensation interest is applied on the face value of these debentures corresponding to 103.6% of the Clearing House for the Custody and Financial Settlement of Securities (Cetip) Interbank Deposit Certificate (CDI), and the maturity of the face value is scheduled for February 1, 2012, without early redemption option.

The deeds of this debenture issue contain restrictive contractual covenants, usual to this kind of operation, described as follows, which have been duly complied with by the Company:

- a) Provision of information: the Company must provide to the trustee any information that the latter may reasonably require the former in up to ten business days counting from the date of the respective requirement;
- b) Audit: the Company must submit, pursuant to the law, its accounts and balance sheets to examination by an independent audit firm registered with CVM;
- c) General Debenture holders’ Meeting: it must immediately notify the trustee on the call for any General Meeting by the Issuer.

16. FINANCIAL INSTRUMENT

I – Derivatives

a) Policies for the use of hedging derivatives

The Company’s financial policy reflects the liquidity parameters, credit risk, and market risk approved by the audit committee and board of directors. The use of derivative instruments, with the purpose of preventing interest rate and foreign exchange rate fluctuations from having a negative impact on the Company’s balance sheet and statement of income, should comply with these same parameters. Pursuant to the Company’s internal rules, this financial investment policy was approved and is managed by the financial department.

As a routine, the financial department presents and discusses, at the meetings of the board of executive officers and board of directors, the company's financial positions. Pursuant to the Bylaws, significant amount operations require previous approval by the Company's management. The use of other derivative instruments is subject to prior approval by the Board of Directors. In this context, considering that equity instruments historically present higher yield than fixed income instruments, and with the purpose of reducing third party capital cost, the Company contracted a total return swap operation on ADRs of its own issuance (see Note 17).

In order to finance its activities, the Company often resorts to capital markets, either domestic or international ones, and due to the debt profile it seeks, part of the Company's debt is pegged to foreign currency, mainly to the U.S. dollar, which motivates the Company to seek hedge for its indebtedness through derivative financial instruments.

In order to contract financial instruments and derivatives with the purpose of hedge in compliance with the structure of internal controls, the Company adopts the following policies:

- Continuous ascertainment of the exchange exposure, which occurs by means of the assessment of assets and liabilities exposed to foreign currency, within the following terms: (i) accounts receivable and payable in foreign currency; (ii) cash and cash equivalents and debt in foreign currency;
- presentation of the Company's financial position and foreign exchange exposure, as a routine, at meetings of the board of executive officers and of the board of directors which approve this hedging strategy;
- contracting of hedge derivative operations only with first-tier banks;

The Company's consolidated net exposure to the foreign exchange rate as of March 31, 2009 is shown as follows:

	Amounts in US\$ thousand
	3/31/2009
Assets in foreign currency	3,219,987
Cash and cash equivalents abroad	2,492,489
Guarantee (margin) surplus	461,372
Accounts receivable - foreign market clients	159,345
Advances to suppliers	106,781
Liabilities in foreign currency	(4,388,881)
Loans and financing	(4,081,595)
Accounts payable to suppliers	(625,786)
Notional value of contracted derivatives	318,500
Net exposure	(1,168,894)

The results obtained with these operations are in accordance with the policies and strategies defined by the Company's management.

b) Main risks resulting from the Company's operations

• Exchange rate risk

Although most of the Company's revenues are denominated in Brazilian Reais, as of March 31, 2009, R\$9,449,708 or 63% of the Company's consolidated loans and financing were denominated in foreign currency (R\$9,560,157 or 66% as of December 31, 2008). As a result, the Company is subject to variations in exchange and interest rates and it manages the risk of the fluctuations in the amounts in Brazilian Reais that will be necessary to pay the obligations in foreign currency using a number of financial instruments, including cash invested in dollar and derivatives (derivative contracts without financial leverage, such as foreign currency put and call option), mainly swaps and futures contracts.

• Interest rate risk

The Company has short and long-term liabilities, indexed to floating interest rates and inflation indexes. Due to this exposure, the Company may maintain derivatives to manage these risks better.

• Credit risk

The exposure to credit risk of financial institutions complies with the parameters established in the Company's financial policy. The exposure to credit risk of our clients and suppliers complies with the parameters established by the Company's credit policy.

Since part of the Companies' funds is invested in Brazilian government bonds, there is also exposure to the Company's credit risk.

In order to mitigate market risks, as foreign exchange and interest rate, the Company's Management contracts operations with derivatives, as shown below:

• Exchange swap transactions

Exchange swap transactions aim to protect its liabilities denominated in foreign currency against the depreciation of the Real. The Company carried out swaps of its U.S. dollar-denominated liabilities, in which the Company will receive the difference between the exchange variation observed in the period plus interest rate which ranges between 4.35% and 9.00% p.a., multiplied by the notional value (long position) and pays interest based on the Interbank Deposit Certificate – CDI, with rates ranging between 93% and 117.3% on the amount in Reais of the notional value on the date of the contracting (short position). The notional value of these swaps as of March 31, 2009, was US\$343,000 thousand (US\$1,528,000 thousand on December 31, 2008). The gains and losses from these contracts are directly related to exchange (dollar) and CDI fluctuations. These transactions are related to operations in the Brazilian over-the-counter market, primarily having first-tier financial institutions as counterparties, contracted within exclusive funds.

As of March 31, 2009, the position of these contracts is as follows:

a) Outstanding operations

Counterparts	Notional value US\$ thousand				Valuation - 2009 (R\$ thousand)		Valuation - 2008 (R\$ thousand)		Fair value (market) (R\$ thousand)		Amount payable or receivable in the period (R\$ thousand)

(4) Early settlement – original maturity August 03, 2009
(5) Early settlement – original maturity August 13, 2009
(6) Early settlement – original maturity December 11, 2009

The net position of the aforementioned contracts is recorded in loans and financing as a gain in the amount of R\$94,925 as of March 31, 2009 (R\$297,844 as of December 31, de 2008) and its effects are recognized in the Company's financial result as gain in the amount of R\$921. The jointly-owned subsidiary MRS Logística has derivative (swap) operations which generated gains of R\$5,900 in the short term and of R\$2,024 in the long term, recognized in the consolidated balance sheet of CSN as of March 31, 2009.

• Libor x CDI Swap transactions

The purpose of these transactions is to hedge liabilities indexed to US Dollar Libor from Brazilian interest rate fluctuations. The Company has basically executed swaps of its liabilities indexed to Libor, in which it receives interest of 1.25% p.a. on the notional value in dollar (long position) and pays 96% of the Interbank Deposit Certificate – CDI on the notional value in Reais on the date of the contracting (short position). The notional value of these swaps as of March 31, 2009 was US\$150,000 thousand, hedging an export pre-payment operation in the same amount. The gains and losses from these contracts are directly related to exchange (dollar), Libor and CDI fluctuations. They are related to operations in the Brazilian over-the-counter market, in general, having first-tier financial institutions as counterparts.

As of March 31, 2009, the position of these contracts is as follows:

a) Outstanding operations

Date of settlement	Counterparts	Notional value US\$ thousand	Valuation - 2009 (R\$ thousand)		Fair value (market) (R\$ thousand)	Amount payable or receivable in the period (R\$ thousand)
		2009	Long-term	Short-term	2009	Amount payable
5/12/2009	CSFB	150,000	255,606	(257,653)	(2,047)	(2,047)

b) Settled operations

Date of settlement	Counterparts	Notional value US\$ thousand		Valuation - 2009 (R\$ thousand)		Valuation - 2008 (R\$ thousand)		Fair value (market) (R\$ thousand)		Amount paid
		2009	2008	Long-term	Short-term	Long-term	Short-term	2009	2008	
2/12/2009	CSFB	150,000	150,000	257,290	(262,062)	256,524	(258,398)	(4,772)	(1,874)	(2,898)

The net position of the aforementioned contracts is recorded in loans and financing as loss in the amount of R\$2,047 as of March 31, 2009 (loss of R\$1,874 as of December 31, 2008) and its effects are recognized in the Company's financial result as loss in the amount of R\$4,944.

• Real-U.S. Dollar Commercial Exchange Rate Futures Contract

It seeks to hedge foreign-denominated liabilities against the Real devaluation. The Company may buy or sell commercial U.S. dollar futures contracts on the Commodities and Futures Exchange (BM&F) to mitigate the foreign currency exposure of its US dollar-denominated liabilities. The specifications of the Real-U.S. dollar exchange rate futures contract, including detailed explanation on the contracts' characteristics and calculation of daily adjustments, are published by BM&F and disclosed on its website (www.bmf.com.br). As of March 31, 2009, the Company had a short position in its exclusive fund of US\$24,500 thousand. During the first quarter, the Company paid R\$127,093 and received R\$240,194 in adjustments, thus having a net result of R\$113,101. Gains and losses from these contracts are directly related to the currency fluctuations.

As of March 31, 2009, the position of these operations is as follows:

Description	Notional value US\$ thousand	Fair value	Amount payable or receivable in the period	
	3/31/2009	3/31/2009	Amount received in R\$	Amount paid in R\$
Sale commitment Foreign currency (US Dollar * MAY-09 BMF)	(24,500)	519	240,458	(127,093)

II – Methods and assumptions used to calculate and measure financial instruments - derivatives

• Foreign exchange swap transactions, Libor x CDI swap transactions

The Company uses an exclusive fund for its foreign exchange swap operations. The fund's manager, Banco UBS Pactual, calculates and discloses the market value of the fund assets (NAV – Net Asset Value) on a daily basis, using the following pricing methodology to ascertain the market value of the foreign exchange swap.

Dollar

Pricing Methodology

The first step in order to calculate the swap is to correct its notional financial value at the foreign exchange rate variation.

$$FinNocSwap_{corr} = \left(1 + \frac{PtaxV_{calc}}{PtaxV_{ini}} \right) \cdot FinNocSwap$$

The second step consists of calculating which value the corrected notional value would have on the maturity date.

$$FinSwap_{vcto} = FinNocSwap_{corr} \cdot \left(1 + i \cdot \frac{DC_{vcto,ini}}{360} \right)$$

The third and last stage of the calculation is to carry the swap value on the maturity date to the calculation date.

$$FinSwap_{calc} = \frac{FinSwap_{vcto}}{\left(1 + tx \cdot \frac{DC_{vcto,calc}}{360} \right)}$$

Combining all steps in one single equation we would have the following:

$$FinSwap_{calc} = \left(1 + \frac{PtaxV_{calc}}{PtaxV_{ini}} \right) \cdot \frac{FinNocSwap \cdot \left(1 + i \cdot \frac{DC_{vcto,ini}}{360} \right)}{\left(1 + tx \cdot \frac{DC_{vcto,calc}}{360} \right)}$$

Where:

$FinSwap_{calc}$	Swap's financial value on calculation date
$FinNocSwap$	Swap's notional financial value (initial financial value)
$FinNocSwap_{corr}$	Swap's notional financial value restated to calculation date
$FinSwap_{vcto}$	Swap's estimated financial value on maturity
$PtaxV_{calc}$	Sale PTAX800 on calculation date. Source: BC
$PtaxV_{ini}$	Sale PTAX800 on initial swap date. Source: BC

$DC_{vcto.ini}$	Days elapsed between initial swap and maturity
$DC_{vcto.hoje}$	Days elapsed between initial swap and calculation date
i	Swap's remuneration rate
tx	Current market foreign exchange coupon rate. Primary Source: BM&F

The rates used for all swaps are the ones disclosed by BM&F. In their absence, or in situations of liquidity squeeze or systemic crisis situations, coupons of the government bonds of each of the respective indexes are used as a notion for calculation. In the absence of the rate for the specific vertex to be calculated, the BM&F interpolated rates are used.

The Libor x CDI swap was directly contracted by the Company out of its exclusive fund and, therefore, its market value was calculated as follows:

- Long position (purchased): carried to future value by current Libor and discounted to present value by the prefixed US Dollar curve.
- Short position (sold): carried to future value of current CDI and discounted to present value by the prefixed Brazilian Real curve.

The data sources for the mark-to-market of these instruments are the following: BBA (British Bankers Association), BM&FBOVESPA and CETIP, and all data were taken from Bloomberg.

III – Sensitivity analysis

For swap operations, based on the foreign exchange rate as of March 31, 2009 of R\$2.3152 per US\$1.00, adjustments to the swap contract amounts were estimated for three scenarios: scenario 1: rate of R\$2.3244 per R\$1.00; scenario 2: (25% devaluation) rate of R\$1.7364 per US\$1.00; scenario 3: (50% devaluation) rate of R\$1.1576 per US\$1.00.

For U.S. dollar futures operations and consolidated exchange position, based on the exchange rate as of March 31, 2009, of R\$2.3152 per US\$1.00, adjustments were estimated for three scenarios, as follows: scenario 1: rate of R\$2.3244 per US\$1.00; scenario 2: (25% devaluation) rate of R\$2.8940 per US\$1.00; scenario 3: (50% devaluation) rate of R\$3.4728 per US\$1.00.

3/31/2009

	Risk	Scenario	US\$ Notional value	Exchange rate	Additional result R\$
Exchange Swap	U.S. Dollar devaluation	1*	343,000	2.3244	3,169
		2		1.7364	(198,528)
		3		1.1576	(397,057)
Swap CDI vs. Libor	U.S. Dollar devaluation	1*	150,000	2.3244	1,386
		2		1.7364	(86,820)
		3		1.1576	(173,640)
U.S. dollar futures	U.S. Dollar appreciation	1*	(24,500)	2.3244	(226)
		2		2.8940	(14,181)
		3		3.4728	(28,361)
Consolidated exchange position	U.S. Dollar appreciation	1	(1,168,894)	2.3244	(10,801)
		2		2.8940	(676,556)
		3		3.4728	(1,353,112)

* Source: U.S. dollar futures closing rate of May 2009 and March 31, 2009

The scenarios of devaluation of the Real versus the Dollar would increase losses in the operations and gains in the hedged exposure according to the expected equilibrium.

IV – Classification of financial instruments

	3/31/2009			12/31/2008		
Consolidated - R\$ thousand	Balances	Fair value through income	Loans and receivables - Effective interest rate	Balances	Fair value through income	Loans and receivables - Effective interest rate
Assets						
Current assets						
Cash and cash equivalents	9,156,722	9,156,722		9,224,113	9,224,113

17. INSTRUMENTS ASSOCIATED TO OTHER FINANCIAL ASSET PRICE FLUCTUATION RISKS

Total return equity swap contracts

The Company contracted a new total return equity swap operation on September 5, 2008 as presented below:

Issuance date	Agreement maturity date	Notional value (US\$ thousand)	Assets	Liabilities	Assets	Liabilities	Market value	
			3/31/2009	3/31/2009	12/31/2008	12/31/2008	3/31/2009	12/31/2008
9/5/2008	9/10/2009	1,050,763	1,080,081	(2,445,051)	888,661	(2,485,053)	(1,364,970)	(1,596,392)

Despite this operation's accumulated losses as from September 5, 2008 in the amount of R\$1,364,970, in the first quarter of 2009 the operation generated a profit totaling R\$200,367. Short position interest is paid quarterly and the first payment in the amount of R\$31,055 was made on January 9, 2009.

Swap contract without cash, having as counterpart Banco Goldman Sachs International, is pegged to 29,684,400 American Depositary Receipts ("ADR") of Companhia Siderúrgica Nacional (long position) and Libor of 3 months + spread of 0.75% p.a. (short position).

The gains and losses from this contract are directly related to foreign exchange fluctuations, the Company's ADRs and Libor quotation. This instrument is recorded in other accounts payable in the balance sheet, and gains and loss, by accrual period, in the Company's financial results.

This operation has deposit related to the guarantee margin with the counterpart and, as of March 31, 2009, this margin totaled US\$1,050,940 remunerated daily at the FedFund rate, which is recorded in the current assets.

I – Methods and assumptions used to calculate and measure financial instruments – derivatives

The market value pricing of the total return equity swap consists of the correction of the swap's notional financial value, by having the 29,684,400 notional number of ADRs multiplied by the CSN ADR closing price (ticker: "SID") on the New York Stock Exchange. We subtracted from this amount the opening notional value, corrected at the contractual interest rate and carried to the calculation date.

II – Sensitivity analysis

Based on the foreign exchange rate as of March 31, 2009 R\$2.3152 per US\$1.00 and on the ADR price of US\$14.84 and, also, in compliance with the historical return correlation between these assets, adjustments to the derivative contract amounts were estimated for three dollar and ADR scenarios: scenario 1 - exchange rate of R\$2.3244 per US\$1.00 and the ADR quotation at US\$20.00; scenario 2 – 25% additional depreciation in relation to the rate of March 31, 2009, with exchange rate of R\$2.8940 per US\$1.00 and the ADR quotation at US\$11.13; and (iii) scenario 3 –50% additional devaluation in relation to the rate of March 31, 2009, with exchange rate of R\$3.4728 per US\$1.00 and the ADR quotation at US\$7.42.

For the total return equity swap, in addition to the foreign exchange rate variation scenarios above, we also used the variation scenarios of ADRs listed on NYSE.

The evaluated scenario follows the perspective of a worldwide economic recovery and the expected growing appreciation of the quotations of the Company's securities.

Reference date	Risk	Scenario	ADR Price	ADR Notional value	Exchange rate	Additional result R\$
12/31/2008			14.84	29,684,400	2.3152	
Swap ADRs	ADR price decrease and dollar devaluation	1	20.00		2.3244	356,038
		2	11.13		2.8940	(318,714)
		3	7.42		3.4728	(764,913)

18. SURETIES AND GUARANTEES

The Company has the following liabilities with its subsidiaries and jointly-owned subsidiaries, in the amount of R\$4,535 million (R\$4,582 million as of December 31, 2008), for guarantees provided:

Companies	Currency	In million		Maturity	Conditions
		3/31/2009	12/31/2008

Total in US\$		1,825.7	1,835.0		

19. TAXES PAID IN INSTALLMENTS

The parent company filed an action pleading the right to the presumed credit of IPI on the acquisition of exempt, immune inputs, not taxed or taxed at zero rate and, in May 2003, an injunction was obtained authorizing the use of the aforementioned credits, which it offset with other federal taxes. The Regional Federal Court of the 2nd Region, through the appeal filed by the Federal Government, revoked the aforementioned authorization and on August 27, 2007, the proceeding had an unfavorable decision. In view of this decision, the Company will pay the debit related to the offset taxes in 60 months.

In 2008, jointly-owned subsidiary MRS Logística will pay the ICMS debit with the State of Minas Gerais in 120 months.

The parent company and the jointly-owned subsidiary MRS Logística are regularly complying with the payment in installments and as of March 31, 2009, the position of these installments was the following:

	Consolidated		Parent Company	
	3/31/2009	12/31/2008	3/31/2009	12/31/2008
Corporate Income Tax (IRPJ)	280,430	292,640	280,430	292,640

Total	3,877,256	14,012	85,142	(81,858)	3,894,552

The provisions for labor, civil, environmental and tax liabilities were estimated by the Company's Management substantially based on the opinion of its legal counsel, and only the cases classified as risk of probable loss were recorded. Additionally, the provisions include tax liabilities arising from actions taken on the Company's initiative, plus SELIC (Special Settlement and Custody System) interest.

The Company and its subsidiaries are defendants in other judicial and administrative proceedings (labor, civil and tax) in the approximate amount of R\$5.8 billion, R\$4.6 billion of which corresponds to tax proceedings, R\$0.3 billion to civil actions and R\$0.9 billion to labor and social security lawsuits. According to the Company's legal counsel, these administrative and legal proceedings are assessed as possible risk of loss. These proceedings were not provided for in accordance with the Management's judgment and with accounting practices adopted in Brazil.

a) Labor actions

As of March 31, 2009, the Company and its subsidiaries were defendant in 9,456 labor claims, with a provision in the amount of R\$164,658 (R\$151,732 on December 31, 2008). Most of the pleadings of the actions are related to joint and/or subsidiary liability, wage parity, additional allowances for unhealthy and hazardous activities, overtime and differences related to the 40% fine on FGTS (severance pay) resulting from the federal government's economic plans.

b) Civil actions

Among the civil judicial proceedings to which the Company and its subsidiaries are parties, there are mainly actions with indemnification request. Such proceedings, in general, arise from occupational accidents and diseases related to the Company's industrial activities. A provision in the amount of R\$75,852 as of March 31, 2009 (R\$62,114 as of December 31, 2008) was recorded for proceedings involving civil matters.

c) Environmental actions

As of March 31, 2009, the Company and its subsidiaries have a provision in the amount of R\$69,628 (R\$73,961 as of December 31, 2008) for use in expenses related to services for environmental investigation and recovery of areas potentially polluted within the Company's plants in the States of Rio de Janeiro, Minas Gerais and Santa Catarina.

d) Tax proceedings

• Income and Social Contribution Taxes

(i) The parent company claims the recognition of the financial-tax effects on the calculation of the income and social contribution taxes on net income, related to the 51.87% inflation write-down of the Consumer Price Index (IPC), which occurred in January and February 1989 ("Plano Verão").

In 2004, the proceeding was concluded and a final and unappealable decision was reached, granting to CSN the right to apply the index of 42.72% (January 1989), from which the 12.15% already applied should be deducted. The use of the index of 10.14% (February 1989) was also granted. The proceeding is currently under expert accounting inspection.

CSN maintains a judicial deposit in the amount of R\$338,084 as of March 31, 2009 (R\$336,826 as of December 31, 2008) and a provision of R\$20,892 (R\$20,892 as of December 31, 2008), which represents the portion not recognized by the courts.

(ii) The parent company filed an action questioning the levying of Social Contribution on Net Income (CSLL) on export revenues, based on Constitutional Amendment 33/01 and in March 2004 the Company obtained an injunction authorizing the exclusion of these revenues from the aforementioned calculation basis, as well as the offsetting of the amounts paid as from 2001. The lower court decision was favorable and the decision made by a court of second instance, pronounced before the appeal filed by the Federal Government at the Regional Federal Court (TRF), judged this proceeding unfavorably for CSN. In view of these facts an Extraordinary Appeal was filed at the STF, which has not been judged yet. An injunction suspending the effects of the decision by the Regional Federal Court was obtained at the Federal Supreme Court (STF) until the judgment of the aforementioned Extraordinary Appeal. Up to March 31, 2009, the amount of suspended liability and the credits offset based on the aforementioned proceeding was R\$1,182,178 (R\$1,156,830 as of December 31, 2008), plus SELIC interest rate.

• Contribution for intervention in the Economic Domain - CIDE

The parent company questions the legality of Law 10168/00, which established the payment of CIDE on the amounts paid, credited or remitted to beneficiaries not resident in Brazil, for royalties or remuneration purposes on supply contracts, technical assistance, trademark license agreement and exploitation of patents.

The parent company maintains judicial deposits and a provision in the amount of R\$27,857 as of March 31, 2009 (R\$27,390 as of December 31, 2008), which includes legal charges.

The lower court decision was unfavorable, which was ratified by the 2nd Regional Federal Court (TRF). Appeals for Clarification of Judgment were filed, which were rejected, and an Extraordinary Appeal was filed at STF, which is awaiting decision as to its admissibility.

• Education Allowance

The parent company discussed the unconstitutionality of the education allowance and the possible recovery of the amounts paid in the period from January 5, 1989 to October 16, 1996. The proceeding was judged unfounded, and the Federal Regional Court maintained its unfavorable decision, which is final and unappealable.

In view of this fact, CSN attempted to pay the amount due, but FNDE and INSS did not reach an agreement about who should receive it. A fine was also demanded, but CSN did not agree.

CSN filed new proceedings questioning the above-mentioned facts and deposited in court the amounts due. In the first proceeding, the 1st level sentence judged partially favorable the CSN pleading, in which the Judge removed the amount of the fine, maintaining, however, the SELIC rate. The Company presented brief of respondent to the defendant's appeal, and appealed concerning the SELIC rate.

The amount provided for as of March 31, 2009 and December 31, 2008 totals R\$33,121.

• Workers' Compensation Insurance (SAT)

The parent company understands that it should pay the SAT at the rate of 1% in all of its establishments, and not 3%, as determined by the current legislation.

In addition to the aforementioned thesis, the Company also discussed the raise in SAT for purposes of Contribution to Special Retirement, whose rate was set at 6%, in accordance with the legislation, for employees who are exposed to harmful agents.

As for the first proceeding mentioned above, the lower court decision was unfavorable and the proceeding is under judgment in the 2nd Region of the Federal Regional Court. As for the second proceeding it ended up unfavorably for the Company, and the total amount due in this proceeding of R\$33,077, which was deposited in court, was converted into revenue for the benefit of INSS.

The amount provided for as of March 31, 2009 totals R\$71,602 (R\$66,650 as December 31, 2008), which includes legal additions and is exclusively related to the process of rate difference from 1% to 3% for all establishments of the Company.

• IPI premium credit on exports

The Brazilian tax laws allowed companies to recognize IPI premium credit until 1983, when the Brazilian government, through Executive act, cancelled these benefits, prohibiting companies to use these credits.

The parent company challenged the constitutionality of this act and filed a claim to obtain the right to use the IPI premium credit on exports from 1992 to 2002, once only laws enacted by the legislative branch may cancel or revoke benefits prepared by prior legislation.

In August 2003 the Company obtained a favorable lower court decision, authorizing the use of the credits aforementioned. The national treasury appealed against this decision and obtained a favorable decision, and the Company then filed a special and extraordinary appeal against this decision at the Superior Court of Justice and at the Federal Supreme Court, respectively, and is currently awaiting for decisions of these courts.

Between September 2006 and May 2007, the Treasury filed 5 tax foreclosures and 3 administrative proceedings against the Company requesting the payment in the amount of approximately R\$5.6 billion related to the payment of taxes which were offset with IPI premium credits.

On August 29, 2007, CSN offered assets in lien represented by treasury shares in the amount of R\$536 million. 25% of this amount will be replaced by judicial deposits in monthly installments performed up to December 31, 2007 and as these substitutions take place, it was requested that the equivalent amount in shares was released from the lien, at the share price determined at the closing price of the day prior to the deposit. The requirement is still pending decision.

The parent company maintains provisioned the amount of credits already offset, plus default charges up to March 31, 2009, which total R\$2,191,915 (R\$2,227,203 as of December 31, 2008). The difference between the total amount in litigation and the amount recorded as provision is part of the R\$4.6 billion reported above as tax proceedings considered as possible loss.

As of March 31, 2009, the Company maintains judicial deposits for the aforementioned liabilities in the amount of R\$1,226,007 (R\$1,196,822 as of December 31, 2008).

In the middle of 2007, the Superior Court of Justice issued a contrary decision to another taxpayer denying the use of these credits. This decision is subject to revision by the Federal Supreme Court, which, in that event, is the highest court. The parent company observed that a number of other Brazilian companies are challenging in court the same prohibition and it has been monitoring their progress.

• Other

The parent company also recorded provisions for proceedings related to Severance Pay (FGTS) - Supplementary Law. 110, COFINS Law 10833/03, PIS - Law 10637/02 and PIS/COFINS - Manaus Free-Trade Zone, amount of which totaled R\$112,700 as of March 31, 2009 (R\$108,702 as of December 31, 2008), which includes legal accruals.

21. SHAREHOLDERS' EQUITY

i. Paid-in capital stock

The Company's fully subscribed and paid-in capital stock as of March 31, 2009 amounted to R\$1,680,947 (R\$1,680,947 as of December 31, 2008), split into 793,403,838 common book-entry shares, with no par value. Each share is entitled to one vote in the resolutions of the General Meeting.

ii. Authorized capital stock

The Company's bylaws in force as of March 31, 2009 determine that the capital stock can be increased up to 1,200,000,000 shares, by decision of the Board of Directors.

iii. Legal reserve

Recorded at the proportion of 5% on the net income determined in each period, pursuant to Article 193 of Law 6404/76. The Company reached the limit for recording the legal reserve, as determined by the current legislation.

iv. Treasury shares

During the year of 2008, the Board of Directors authorized several share repurchase programs, with the purpose of holding those shares in treasury for subsequent disposal and/or cancellation, which are shown as follows:

Board authorization	Number of shares authorized	Program term	Number of shares acquired	Shares cancellation	Average weighted acquisition cost	Maximum and minimum acquisition cost	Balance in treasury
12/21/2007	4,000,000	From 1/23/2008 to 2/27/2008 ⁽¹⁾			Not applicable	Not applicable	34,734,384
3/20/2008	10,800,000 ⁽²⁾	Up to 4/28/2008			Not applicable	Not applicable	34,734,384
5/6/2008	10,800,000	Up to 5/28/2008			Not applicable	Not applicable	34,734,384
6/2/2008	10,800,000	Up to 6/26/2008			Not applicable	Not applicable	34,734,384
6/27/2008	10,800,000	From 6/30/2008 to 7/29/2008			Not applicable	Not applicable	34,734,384
8/1/2008	10,800,000	From 4/8/2008 to 8/27/2008			Not applicable	Not applicable	34,734,384
9/26/2008	10,800,000	From 9/29/2008 to 10/29/2008	10,800,000 ⁽³⁾		29.40	24.99 and 41.85	45,534,384
12/3/2008				(10,800,000)	Not applicable	Not applicable	34,734,384
12/3/2008	9,720,000	From 12/4/2008 to 1/4/2009			Not applicable	Not applicable	34,734,384
1/7/2009	9,720,000	From 1/8/2009 to 1/28/2009			Not applicable	Not applicable	34,734,384
2/2/2009	9,720,000	From 2/3/2009 to 2/25/2009			Not applicable	Not applicable	34,734,384

(1) The start of this program only occurred after the cancellation of shares approved at the Extraordinary General Meeting (AGE) of January 22, 2008.

(2) As from this share repurchase program the number of shares informed already reflects the split and cancellation of shares approved at the AGE of January 22, 2008.

(3) All shares acquired in this program were repurchased as from October 2008.

The Board of Directors at a Board of Directors' meeting held on January 7, 2009 approved the reopening of the repurchase program of shares issued by the Company up to the limit of 9,720,000 shares, to be held in treasury and for their subsequent sale or cancellation. Operations authorized by the new repurchase program could have been carried out from January 8 to 28, 2009, but no repurchase took place until the expiry of the program.

On February 2, 2009, the Board of Directors at a Board of Directors' meeting held on January 7, 2009 approved the reopening of the repurchase program of shares issued by the Company up to the limit of 9,720,000 shares, to be held in treasury and for their subsequent sale or cancellation. Authorized operations would have been carried out from February 3 to 25, 2009, but no repurchase took place until the maturity of the program.

The Company did not sell treasury shares in the period.

As of March 31, 2009, the position of treasury shares was as follows:

Number of shares acquired (in units)	Total amount paid for the shares	Share unit cost			Share market value at 3/31/2009 (*)
		Minimum	Maximum	Average	
34,734,384	R\$ 719,042	R\$ 13.27	R\$ 41.85	R\$ 20.70	R\$ 1,194,863

(*)Average quote of shares on BOVESPA as of March 31, 2009 at the value of R\$34.40 per share.

iv. Shareholding structure

As of March 31, 2009, the Company's shareholding structure was as follows:

	3/31/2009		
	Number of Common Shares	Total % of shares	% excluding treasury shares
Vicunha Siderurgia S.A.	348,859,995	43.97%	45.98%
BNDESPAR	28,886,758	3.64%	3.81%
Caixa Beneficente dos Empregados da CSN - CBS	35,490,867	4.47%	4.68%
Sundry (ADR - NYSE)	191,605,845	24.15%	25.26%
Other shareholders (approximately 10 thousand)	153,825,989	19.39%	20.27%
	758,669,454	95.62%	100.00%
Treasury shares	34,734,384	4.38%	
Total shares	793,403,838	100.00%	

At the Board of Directors' ordinary meeting held on March 24, 2009, shareholders approved the distribution of R\$1,500,000 on a dividends basis, corresponding to R\$1.977146 per share, available as from March 31, 2009. However, the Company was taken by surprise by the order of the 6th Federal Tax Foreclosure Court of the Rio de Janeiro Section, determining the online blocking of R\$799,372, resulting in the partial distribution of dividends in the amount of R\$700,628. The Company is taking the applicable measures for releasing the blocked amounts for distribution to its shareholders.

v. Investment policy and payment of interest on shareholders' equity and dividends distribution

As of December 11, 2000, the CSN Board of Directors decided to adopt a profit distribution policy which will result in the full distribution of net income to its shareholders, in compliance with Law 6404/76 amended by Law 9457/97, provided that the following priorities are preserved, irrespective of their order: (i) business strategy; (ii) compliance with liabilities; (iii) execution of the necessary investments; and (iv) maintenance of the Company's good financial standing.

22. INTEREST ON SHAREHOLDERS' EQUITY

The calculation of interest on shareholders' equity is based on the variation of the Long-Term Interest Rate (TJLP) on shareholders' equity, limited to 50% of the income for the period before income tax or 50% of retained earnings and profit reserves, in which case the higher of the two limits may be used, pursuant to the legislation in force.

In compliance with the CVM Resolution 207, of December 31, 1996, and with tax rules, the Company opted to record the proposed interest on shareholders' equity in the amount of R\$83,206 in the quarter, corresponding to the remuneration of R\$0.1096734 per share, as corresponding entry against the financial expenses account, and reverse it in the same account, and not presenting it in the statement of income and not generating effects on net income after IRPJ/CSL, except with respect to tax effects recognized in income and social contribution taxes. The Management will propose that the amount of interest on shareholders' equity be attributed to the mandatory minimum dividend.

28. EMPLOYEES' PENSION FUND

(i) Management of the Private Pension Plan

The Company is the main sponsor of CBS Previdência, a private not-for-profit pension fund established in July 1960, main purpose of which is to pay supplementary benefits to participants in the official Pension Plan. CBS Previdência is composed of employees of CSN, CSN-related companies and the entity itself, provided they sign the adherence agreement.

(ii) Description of characteristics of the plans

CBS Previdência has three benefit plans:

35%-of-average-salary plan

It is a defined benefit plan (BD), which began on February 1, 1966, for the purpose of paying retirements (due to time in service, special cases, disability or age) on a life-long basis, equivalent to 35% of the participant's last average 12 salaries. The plan also guarantees the payment of a sickness allowance to a participant on sick leave through the Official Pension Plan and it also guarantees the payment of death grant and a cash grant. The active and retired participants and the sponsors make thirteen contributions per year, which is the same as the number of benefits paid. This plan became inactive on October 31, 1977, when the supplementation of the average salary plan, which is in process of extinction, came into force.

Supplementation plan for the average salary

The defined benefit plan (BD) began on November 1, 1977. The purpose of this plan is to supplement the difference between the 12 last average salaries and the benefit paid by the Social Security Pension Plan (Previdência Oficial) benefit, to the retired employees, on a life-long basis. Like in the 35% Average Salary Plan, there is sickness allowance, death grant and pension coverage. Thirteen contributions are paid per year, the same number of benefits paid. This plan became inactive on December 26, 1995, as a result of the combined supplementary benefits plan was implemented.

Combined supplementary benefit plan

Begun on December 27, 1995, this is a combined variable contribution plan (CV). Besides the programmed pension benefit, there is the payment of risk benefits (pension in activity, disability and sickness benefit). In this plan, the retirement benefit is calculated based on the total accumulated sponsor's and participant's contributions (thirteen per year). Upon the participant's retirement grant, the plan starts having a defined benefit plan and thirteen benefits are paid per year.

As of March 31, 2009 and December 31, 2008, the plans are composed as follows:

	35%-of-Average-Salary Plan		Supplementation Plan for the Average Salary		Combined Supplementary Benefit Plan		Total members	
	3/31/2009	12/31/2008	3/31/2009	12/31/2008	3/31/2009	12/31/2008	3/31/2009	12/31/2008

(iii) Solution approaches for the payment of the actuarial deficit

According to Official Letter 1555/SPC/GAB/COA, of August 22, 2002, confirmed by Official Letter 1598/SPC/GAB/COA of August 28, 2002, a proposal for refinancing the reserves to amortize the sponsors' liability in 240 consecutive monthly installments, monetarily indexed by INPC + 6% p.a., starting as from June 28, 2002 was approved.

The agreement establishes the prepayment of installments should there be a need for cash in the defined benefit plan and the incorporation to the updated debit balance of the eventual deficits/surpluses under the sponsors' responsibility, so as to preserve the equilibrium of the plans without exceeding the maximum period of amortization stipulated in the agreement.

(iv) Actuarial Liabilities

Due to the CVM Resolution 371/00, which approved the NPC 26 of IBRACON – "Accounting of the Employee's benefits" and which established new accounting practices for the calculation and disclosure, the Management, through a study performed by external actuaries, determined the effects arising from this practice, and the Company has kept records in conformity with the actuarial report issued on January 9, 2009.

	Plans status on 12/31/2008			
	Plans			Total
	35%-of- Average-Salary	Supplementation Plan for the Average Salary	Combined Supplementary Benefit Plan	
Present value of the actuarial liabilities with guarantee	248,736	988,578	866,700	2,104,014
Plan's assets fair value	(191,517)	(866,909)	(851,450)	(1,909,876)
Present value of the actuarial obligations exceeding the assets fair value	57,219	121,669	15,250	194,138
Adjustments by allowed deferral:	(25,603)	(11,309)	(75,350)	(112,262)
- Unrecognized actuarial gains	(25,603)	(11,309)	(94,341)	(131,253)
- Unrecognized cost of service rendered			18,991	18,991
Present value of the amortizing contributions of members	(5,420)	(18,988)		(24,408)
Actuarial liabilities/ (assets)	26,196	91,372	(60,100)	57,468
Provisioned Actuarial liabilities/ (assets) (Long-term liabilities/Other)	26,196	91,372		117,568

Actuarial liability recognition

Management decided to recognize the adjustments of the actuarial liabilities in income, as established in Paragraphs 83 and 84 of NPC 26. As of March 31, 2009, the balance of the provision for the coverage of the actuarial liability amounts to R\$107,017 (R\$117,568 as of December 31, 2008).

As far as the recognition of the actuarial liability is concerned, the amortizing contribution related to the portion of the participants in the settlement of the reserve insufficiency was deducted from the present value of total actuarial liabilities of the respective plans. Some participants are questioning this amortizing contribution in court, but the Company, grounded on the opinion of its legal and actuarial advisers, understands that this amortizing contribution was duly approved by the Brazilian Department of Supplementary Private Pensions – SPC and, therefore, is legally due by the participants.

According to the actuarial calculations prepared using the projected credit unit method, the amounts to be appropriated in 2009 are as follows:

ESTIMATES PER PLAN - 2009				
	35%-of- Average-Salary	Supplementation Plan for the Average Salary	Combined Supplementary Benefit Plan	Total
Cost of current service	(42)	(207)	(3,682)	(3,931)
Expected contribution of members	28	100		128
Interest on actuarial liabilities	(30,057)	(119,630)	(18,535)	(168,222)
Expected income from assets	23,860	109,176	17,182	150,218
Cost of amortizations	(530)		(3,538)	(4,068)
- Unrecognized actuarial gains	(530)		(4,629)	(5,159)
- Unrecognized cost of service rendered			1,091	1,091
Expected impact on the 2009 result	(6,741)	(10,561)	(8,573)	(25,875)

29. INSURANCE

In view of the nature of its operations, the Company renewed, for the period from February 21, 2008 to February 21, 2009, and with international reinsurance companies, the All Risks coverage for operational risks for the Presidente Vargas Steelworks, Casa de Pedra Mine, Arcos Mine, Paraná Branch, Coal Terminal - Tecar, GalvaSud (property damages and loss of profits), Container Terminal -Tecon and ERSÁ Estanho de Rondônia (loss of profits), in the total risk amount of US\$9.57 billion (property damages and loss of profit) and maximum indemnification amount, in the event of a claim, of US\$750 million (property damages and loss of profits), equivalent to R\$1.3 billion. For the period comprised from February 22, 2009 to February 19, 2010, the Company is negotiating coverage for operational risks with insurance and reinsurance companies in Brazil and abroad. The Company has cash coverage sufficient to support any accident in its equipment.

The risk assumptions adopted, given their nature, are not part of the scope of a financial statements review, and, consequently, they were not reviewed by our independent auditors.

30. SUBSEQUENT EVENTS

• Agreement between CSN and Vale

On April 24, 2009, CSN entered into an agreement with Vale aiming to conclude all pending legal actions between the two companies, including those (i) related to the alleged right to indemnification or compensation deriving from the exclusion of the “right of first refusal” concerning both the acquisition of surplus iron ore produced by the Casa de Pedra mine and the Casa de Pedra mine itself (“Right to Indemnification”); (ii) arising out of liabilities established in the contracts comprising transactions related to the so-called unwinding of cross-shareholdings between Vale and CSN carried out in December 2000 (“Liabilities of the Unwinding of Cross-Shareholdings”); and (iii) referring to other pending issues related to such matters. Pursuant to the Agreement, CSN and Vale performed a mutual, full and general settlement regarding the matters established therein.

• Annual General Meeting

At the Annual General Meeting held on April 30, 2009, shareholders approved the Company’s distribution of net income in the amount of R\$4,675,526, as follows:

- 1 Payment of R\$268,405 on an Interest on Shareholders’ Equity basis, corresponding to the gross value of R\$0.353784 per share. Except for tax immune and exempt shareholders, this amount is subject to withholding income tax at the rate of 15%, except for the use of this rate to shareholders domiciled in a country that does tax income or that taxes income at the maximum rate lower than 20%. The latter, in this case, are subject to a 25% Withholding Income Tax, pursuant to Article 8 of Law 9779/99;
- 2 Ratification of declarations of prepayment of dividends approved by the Board of Directors on August 12, 2008, in the amount of R\$160,000, corresponding to R\$0.207935 per share, and on March 24, 2009, in the amount of R\$1,500,000, corresponding to R\$1.977146 per share;

3 Allocation of the amount of R\$231,679 to the investments reserve, so as to support the investment projects included in the current year's Capital Budget, which is hereby approved, in compliance with the provisions of Article 196 of Law 6404/76;

4 Recording of unrealized Income Reserve is created on the non-mandatory dividend in the amount of R\$2,493,493;

5 Given that the maximum limit of the legal reserve was reached, no amounts will be allocated to this reserve.

• **Approval of quarterly information**

The aforementioned quarterly information was approved by the Company's Board of Directors on May 13, 2009.

07.01 – COMMENTS ON THE COMPANY’S PERFORMANCE IN THE QUARTER

---------	--------------------------------	--------------------

12.01 – COMMENTS ON THE CONSOLIDATED PERFORMANCE IN THE QUARTER

Production

The Presidente Vargas Steelworks produced 1.1 million tonnes of crude steel, 4% down on 4Q08, due to the Company's strategy of stockpiling semi-finished products in view of the programmed maintenance stoppage to Blast Furnace 2, scheduled for 2Q09.

The 2009 first-quarter rolled steel output totaled 627,000 tonnes, a 36% reduction over the 4Q08, due to adjustments to the new demand threshold.

Production (in thousand t)	1Q08	4Q08	1Q09	Change	
				1Q09 x 1Q08	1Q09 x 4Q08

* Products delivered for sale, including shipments to CSN Paraná and GalvaSud.

Rolled Products Output - Presidente Vargas Mill (thousand t)

Production Costs (Parent Company)

The CSN total production costs came to R\$1.44 billion in 1Q09, R\$350 million lower than the 4Q08 figure (R\$1.79 billion). This reduction was chiefly due to the following factors:

Raw materials – reduction of R\$286 million, of which:

- Third-party slabs and hot-rolled coils: in 1Q09, the Company consumed virtually no slabs and hot-rolled coils acquired from third parties, reducing production costs by R\$348 million over the 4Q08;
- Coal: in 1Q09 costs declined by R\$101 million over 4Q08, already reflecting the price falls since the beginning of 2009 and a reduced consumption of coal due to the increment in the use of coke acquired from third parties;
- Coke: in 1Q09 the R\$326 million total cost of imported coke was R\$192 million higher than in 4Q08 due to an increased consumption in 1Q09 of coke acquired in the pick of the cycle;
- Iron ore: decline of R\$10 million over 4Q08;
- Other raw materials: in 1Q09 these presented reduction of R\$18 million over 4Q08.

Labor: in 1Q09 total labor costs were R\$11 million lower than in 4Q08, chiefly due to the reduction in overtime pay, in turn caused by the slide in 1Q09 production.

General costs: These presented decrease of R\$51 million, primarily due to the R\$26 million reduction in natural gas costs and reduced expenses from third party services and supplies, which fell by R\$24 million.

Depreciation: reduction of R\$2 million over the 4Q08 adjusted depreciation, according the new accounting practices described above.

STEEL PRODUCTION COSTS - PARENT COMPANY

Sales

Total Sales Volume

The CSN flat steel sales volume totaled 643,000 tonnes in the 1Q09, 29% and 54% down, respectively, on 4Q08 and 1Q08.

Domestic Market

Domestic sales came to 560,000 tonnes in 1Q09, 32% down on the previous quarter and 50% down year-on-year, jeopardized by contraction in demand for steel products in 1Q09, in turn caused by the impact of the global economic crisis on the Brazilian market.

Consolidated sales volume commercialized by CSN on the domestic market, where margins are historically higher, accounted for 87% of the 1Q09 total sales.

Exports

Steel product exports totaled 83,000 tonnes, 8% up on 4Q08 and 70% down on the 1Q08. First-quarter exports consisted of added-value products, such as galvanized and tin plate.

Market Shares and Product Mix

The Company's share of the domestic flat steel market stood at 37% in 1Q09, led by tin plate, galvanized, hot-rolled and cold-rolled products, where CSN achieved respective market shares of 99%, 43%, 28% and 28%.

As for 1Q09, CSN recorded a 41% share of the home appliance/OEM market, 39% of the distribution market, 30% of the construction market, 21% of the auto market and a massive consolidated 99% share of the steel packaging market.

In addition, in 1Q09 coated products accounted for 55% of the Company's total sales volume.

Market Share by Product - 1Q09

Market Share by Segment - 1Q09

Sales by Product

Prices

On the domestic market, net revenue per tonne averaged R\$2,403 in the 1Q09, versus R\$2,551 in 4Q08. The 6% decrease reflected the domestic price slide, partially offset by a better product mix.

Average net export revenue per tonne in Reais fell by 19% over 4Q08, chiefly due to the decline in international prices.

Mining

• PRODUCTION

The iron ore production in 1Q09 including purchases from third parties totaled 6.5 million tonnes, 8% down on the 7.1 million tonnes produced in 4Q08. It is worth noting that the Company's 4Q08 production did not fully reflect the sale of 40% of NAMISA in December 2008.

• SALES

The 1Q09 iron-ore sales reached the quarterly record level of 5.4 million tonnes, 9% higher than in 4Q08, even considering the NAMISA proportional sales in 1Q09. Exports accounted for a record 4.9 million tonnes, 27% up on 4Q08 and accounting for 91% of total sales volume.

Iron ore production for own consumption totaled 1.6 million tonnes in the 1Q09.

Iron Ore Sales Volume (in million t)

* The CSN consolidated sales include 100% of the NAMISA sales up to November 30, 2008, and 60% as from December 1, 2008, due to the sale of 40% of the NAMISA capital to the Japanese-Korean Consortium.

• INVENTORIES

At the end of 1Q09, iron ore inventories reached approximately 11 million tonnes.

Net Revenue

Net revenue totaled R\$2.4 billion in 1Q09, 28% down on 4Q08, due to reduced sales volume and lower average prices in the quarter.

Selling, General and Administrative Expenses

Selling expenses totaled R\$174 million in 1Q09, R\$73 million down on 4Q08, chiefly due to lower sales volume and reduced expenses with provisions for doubtful accounts.

As for general and Administrative expenses (G&A), these fell by 20% to R\$102 million in 1Q09 as the Company aimed at adapting its structure to the current economic scenario.

Other Income and Expenses

In 1Q09, CSN recorded a negative result of R\$25 million in the “Other Income and Expenses” line, versus a positive R\$4.02 billion in 4Q08, due to the non-recurring gain from the percentage variation in equity income resulting from Namisa sale occurred in 4Q08.

Financial Result and Net Debt

The 1Q09 net financial result was negative by R\$39 million, chiefly due to the following factors:

- Provisions for loans and financing charges totaling R\$291 million;
- Monetary correction of tax provisions according to SELIC rate, amounting to R\$105 million;
- Gain of R\$310 million from derivative transactions, including the corresponding exchange variation. Of this total, R\$200 million refers to gains deriving from the Total Return Equity Swap transaction, based on the CSN ADR price, whose purpose is to swap interest rate asset yield (swap) for the price variation of the Company's ADRs;
- Yields on financial investments totaling R\$48 million.

Consolidated net debt as of December 31, 2008 was R\$5.3 billion, including the operating liability of R\$2.9 billion with NAMISA. Excluding this liability, net debt would have been R\$ 2.4 billion at the close of 2008. As of March 31, 2009, consolidated net debt became R\$2.8 billion, essentially due to the following factors:

- EBITDA of R\$0.7 billion in 1Q09;
- Investment realization in the amount of R\$0.4 billion;
- An increase of R\$0.4 billion in working capital invested in the business;
- Impact of R\$0.2 billion related to the cost of debt;
- Payment of taxes amounting to R\$0.1 billion.

The net debt/EBITDA ratio, based on EBITDA of R\$6.0 billion in the last 12 months, came to 0.96 at the close of 1Q09, a slight increase in relation to the 0.80 recorded at the end of 2008.

Taxes on Income

Income tax and social contribution total expenses amounted R\$85 million in 1Q09, chiefly due to the lower taxable income for the quarter.

Net Income

CSN posted a 1Q09 net income of R\$369 million, 52% down on 1Q08, primarily due to the decline in operating income.

Investments

CSN invested R\$389 million in 1Q09, R\$156 million of which went to the parent company and R\$233 million to the subsidiaries, allocated as follows:

CSN:

- Maintenance and repairs: R\$76 million;
- Expansion of the Casa de Pedra mine: R\$30 million;
- Technological improvements: R\$19 million;
- Construction works plan: R\$8 million;
- Expansion of the Itaguaí Port: R\$5 million.

Subsidiaries:

- CSN Aços Longos: R\$111 million;
- MRS Logística: R\$38 million;
- CSN Cimentos: R\$37 million;
- Transnordestina Logística: R\$24 million;
- NAMISA: R\$16 million.

Working Capital

Working capital balance used in the business closed March at R\$2.7 billion, 21% up on the December 2008 balance, mainly due to the R\$326 million increase in assets, in turn fueled by the R\$138 million increase in “Accounts Receivable” and the R\$68 million rise in “Advances to Suppliers”. In addition, liabilities fell by R\$138 million, mostly impacted by the lower supplier balance of R\$144 million.

The average supplier payment period increased from 98 days at the close of 2008 to 99 days at the end of 1Q09, while the average receivables period lengthened from 22 to 35 days. The inventory turnover period averaged 189 days, 13 days up on the previous quarter, due to the maintenance stoppage of Blast Furnace 2.

Capital Market

Share Performance

The CSN shares appreciated by a substantial 26% in 1Q09, the fourth highest increase among those companies making up the IBOVESPA index, versus 9% for the IBOVESPA itself. In 2009, through May 8, the CSN share price increased approximately 65%.

On NYSE, the CSN ADRs moved up by 23%, which is even more significant given that the Dow Jones index fell by 13% in the same period. In 2009, through May 8, the CSN ADRs appreciated by 80%.

2009 First-quarter daily traded volume averaged R\$103 million on BOVESPA, 8% up on the R\$95 million recorded in 4Q08, and US\$69 million on NYSE, an 8% improvement over the US\$64 million recorded in 4Q08.

19.01 – INVESTMENT PROJECTS

We highlight, among the Company's main investments, the expansion in the production capacity of the Casa de Pedra mine, of Aços Longos and of Itaguaí Port as of March 31, 2009. The Company also maintains investment project balances in the amounts of R\$882,805, R\$36,354 and R\$9,755, respectively.

For further information see the consolidated performance comment for the quarter.

21.01 – SPECIAL REVIEW REPORT - UNQUALIFIED

Independent auditor's review report
(a free translation from the original in Portuguese)

To the Board of Directors of
Companhia Siderúrgica Nacional
Rio de Janeiro - RJ

1. We have reviewed the accounting information contained in the Quarterly Financial Information of Companhia Siderúrgica Nacional (the Company) and in the consolidated Quarterly Financial Information of the Company and its subsidiaries for the quarter ended March 31, 2009, comprising the balance sheet, the statements of income, of changes in shareholders' equity, of cash flows, of added value, explanatory notes and the management report, which are the responsibility of its management.

2. Our review was conducted in accordance with the specific rules set forth by the IBRACON - The Brazilian Institute of Independent Auditors, in conjunction with the Federal Accounting Council - CFC and consisted mainly of the following: (a) inquiry and discussion with management responsible for the accounting, financial and operational areas of the Company and its subsidiaries, regarding the main criteria adopted in the preparation of the Quarterly Financial Information; and (b) reviewing information and subsequent events that have or may have relevant effects on the financial position and operations of the Company and its subsidiaries.

3. Based on our review, we are not aware of any material modifications that should be made to the accounting information contained in the Quarterly Financial Information referred above, in order to be in accordance with the rules issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of the Quarterly Financial Information, including CVM Instruction 469/08.

4. As mentioned in Note 2, the accounting practices adopted in Brazil changed during 2008 and the effects of the first time adoption were only recorded by the Company and its subsidiaries during the fourth quarter of 2008 and incorporated into the annual financial statements as of December 31, 2008. The statements of income, of changes in shareholders' equity, of cash flows and of added value, for the quarter ended March 31, 2008, presented in conjunction with the current quarterly information, are not being restated for comparison purposes, as permitted by Circular Notice /CVM/SNC/SEP 02/2009.

5. As mentioned in Note 29, the Company has been negotiating with insurance and reinsurance companies in Brazil and abroad, in order to obtain insurance coverage for its operational risks.

6. Our review report for the accounting information contained in the Quarterly Financial Information for the quarter ended March 31, 2008 issued on May 6, 2008 was qualified due to a scope limitation related to the evaluation of possible impacts of present value adjustments of assets and liabilities of long-term operations, as required by CVM Instruction 469/08, which was resolved in this Quarterly Financial Information, as per Note 2.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
