AMERICA MINERAL FIELDS IN ADVANCED NEGOTIATIONS

LONDON, U.K. (November 14, 2003) America Mineral Fields Inc (TSX: AMZ, AIM: AMF), at the request of the Toronto Stock Exchange, today announced that it is in advanced negotiations with respect to its core projects in Central Africa. The Company hopes to conclude these negotiations successfully, but is unable to provide further details until the process is completed.

The Company will provide full details to all shareholders immediately upon the conclusion of the current negotiations.

About America Mineral Fields

America Mineral Fields is an international mining company listed on the Toronto Stock Exchange under the symbol "AMZ". The Company is currently developing several mineral assets in Central Africa, including the Kolwezi cobalt/copper tailings project and the Kipushi zinc mine in the DRC, and the Cuango River diamond project in Angola. The Company's growth strategy emphasizes the creation of shareholder value through the development of world-class resources in stable or stabilizing political environments.

AMERICA MINERAL FIELDS FINALISES KEY KOLWEZI AGREEMENT WITH GECAMINES AND DRC GOVERNMENT

LONDON, U.K. (November 17th, 2003) America Mineral Fields Inc (TSX: AMZ, AIM: AMF) ("AMF"), today announced that its 100% owned subsidiary, Congo Mineral Developments Limited ("CMD") had finalised with both the Government of the Democratic Republic of Congo ("GDRC") and La Générale des Carrières et des Mines ("Gécamines"), the state-owned mining company, the Contract of Association governing the Kolwezi cobalt/copper tailings project. The Contract of Association is the master shareholder agreement that will govern the ownership and management of Kingamyambo Musonoi Tailings SARL ("KMT"), the company that will own the mining title to the tailings and develop the project.

The conclusion of this agreement follows a 10-month period of negotiations and formalises the Heads of Agreement entered into by AMF and Gécamines on 27th June 2003.

The initialling of this agreement by the three parties follows the approval of the Kolwezi project by the Economic and Finance Cabinet Sub-committee of the GDRC cabinet, received on 13th November 2003. Once the documents have been formally ratified by the Boards of Directors of AMF and Gécamines and by the GDRC cabinet, the agreements will be formally executed. This process is expected to take several weeks.

Following the formal execution of this agreement, KMT will be constituted and mining rights to the tailings will be transferred to it.

Under the terms of this agreement, the ownership of KMT will be as follows:

CMD	-	82.5%
Gécamines	-	12.5%
GDRC	-	5.0%

Two payments totalling US\$15 million will be made by KMT to Gécamines as consideration for the tailings. The first instalment of US\$5 million will be made at the time of the transfer of the mining rights and the second instalment of US\$10 million will be made following the completion of the bankable feasibility study, at the time of financial close. In addition, Gécamines will be entitled to a profit participation in circumstances of an elevated cobalt price.

Once the transfer of the mining rights has been effected, the final stage of the feasibility study will commence and financing for the project will be sought.

Tim Read, President and CEO of AMF, commented: “This is a momentous event in the life of AMF and for the Kolwezi Project. It is the culmination of our seven years of commitment to the Project, against a background of considerable political change in the DRC. The conclusion of this agreement has been made possible by the establishment of the Transitional Government, bringing to an end several years of conflict, and by the promulgation of the new DRC mining code, which provides a stable legal and fiscal framework for investment. We now look forward to the development of this important project, which will bring in its wake considerable economic benefits for the country.”

Eugène Diomi Ndongala, Minister of Mines for the GDRC commented: “The conclusion of this ground-breaking agreement with CMD sends a clear message to the international financial community that the DRC is on the road to regaining its rightful place amongst the ranks of the leading mining nations.”

About the Kolwezi Project

AMZ’s Kolwezi Project consists of two dams containing 112.8 million tonnes of oxide tailings, grading 1.49% copper and 0.32% cobalt, as determined by Dr. Isobel Clark of Geostokos Limited. This resource has the potential to host one of the world’s largest and lowest cost cobalt producers. At a conceptual annual output of 42,000 tonnes of copper and 7,000 tonnes of cobalt, the project would have an operating life of 38 years. Such a project would generate significant tax and foreign exchange earnings, as well as providing local employment and contributing to the revival of the DRC’s copper belt infrastructure.

About America Mineral Fields

America Mineral Fields is an international mining company listed on the Toronto Stock Exchange under the symbol “AMZ” and on the Alternative Investment Market of the London Stock Exchange under the symbol “AMF”. The Company is currently developing several mineral assets in Central Africa, including the Kolwezi cobalt/copper tailings project and the Kipushi zinc mine in the DRC, and the Cuango River diamond project in Angola. The Company’s growth strategy emphasizes the creation of shareholder value through the development of world-class resources in stable or stabilizing political environments.
