

Heritage Commerce Corp Reports Net Income Allocable to Shareholders of \$2.3 Million for the Fourth Quarter of 2011 and \$9.0 Million for 2011

San Jose, CA – January 26, 2012 – **Heritage Commerce Corp (Nasdaq: HTBK)**, the holding company (“the Company”) for Heritage Bank of Commerce (“the Bank”), today reported that after accrued dividends and discount accretion on preferred stock, 2011 net income allocable to common shareholders totaled \$9.0 million, or \$0.28 per average diluted common share; a significant improvement from the net loss allocable to shareholders of (\$58.3) million, or (\$3.64) per average diluted common share in 2010. For the fourth quarter of 2011, after accrued dividends and discount accretion on preferred stock, net income allocable to common shareholders was \$2.3 million, or \$0.07 per average diluted common share, compared to net income allocable to common shareholders of \$1.1 million, or \$0.03 per average diluted common share, for the fourth quarter of 2010. All results are unaudited.

“We are very encouraged by our fourth quarter results, as the Company was able to post its sixth consecutive quarter of profitability in what many would describe as a continuing difficult and uncertain economic environment,” said Walter Kaczmarek, President and Chief Executive Officer. “Contributing to these results was management’s ongoing efforts to improve credit quality metrics. In fact, we posted our seventh consecutive quarterly decline in nonperforming loans with classified assets dropping 35% in the fourth quarter from a year ago.”

“Although we are encouraged by these positive trends and improvements in the underlying risk of the Company’s loan portfolio, we will continue to monitor the improving credit trends and maintain our reserves at the appropriate level; all the while preserving the strength of our balance sheet,” added Mr. Kaczmarek.

“Our Company’s capital position remains strong, ending the year with a total risk-based capital ratio of 21.9%,” continued Mr. Kaczmarek. “We are stronger than we were at the beginning of 2011, and we continue to gain momentum in expanding our franchise and building upon our reputation as a trusted provider of financial products and services. We are focused on growing our business and achieving industry-leading performance and returns for the benefit of our shareholders, customers, employees, and communities.”

Lower average loan balances and lower yields on securities due to accelerated prepayment speeds on mortgage-backed securities contributed to the margin compression from the preceding quarter. - ◆ The Company had a \$3.7 million partial valuation allowance on deferred tax assets as of December 31, 2010. The Company reversed the partial valuation allowance in 2011, based on the Company’s estimate that it is more likely than not that the remaining net deferred tax assets will be realized.

Heritage Commerce Corp's total assets increased 5% to \$1.31 billion at December 31, 2011, from \$1.25 billion a year ago, and at September 30, 2011.

The investment securities portfolio totaled \$380.5 million at December 31, 2011, an increase of 64% from \$232.2 million at December 31, 2010, and an increase of 22% from \$312.1 million at September 30, 2011. At December 31, 2011, the investment portfolio was comprised of \$350.4 million agency mortgage-backed securities, all of which were issued by U.S. Government sponsored entities, and \$30.1 million of single entity issue trust preferred securities.

Loans, excluding loans held-for-sale, totaled \$764.6 million at December 31, 2011, down 10% from \$846.0 million at December 31, 2010, and down 2% from \$776.7 million at September 30, 2011. The decline in loan balances of \$12.1 million from the third quarter of 2011 to the fourth quarter of 2011 was primarily due to the payoff of classified assets. The loan portfolio remains well-diversified with commercial and industrial ("C&I") loans accounting for 48% of the portfolio at December 31, 2011. Commercial and residential real estate loans accounted for 41% of the total loan portfolio, of which 51% were owner-occupied by businesses. Land and construction loans continued to decrease, accounting for only 3% of the total loan portfolio at the end of 2011, compared to 7% at December 31, 2010, and 5% at September 30, 2011. Consumer and home equity loans accounted for the remaining 8% of the total loan portfolio at December 31, 2011.

The yield on the loan portfolio was 5.39% for the fourth quarter of 2011, compared to 5.25% for the same period in 2010, and 5.29% for the third quarter of 2011.

"While our lending team is steadily bringing in new relationships, new loan originations and usage of existing lines of credit have not kept pace with loan payoffs, particularly in the construction portfolio," continued Mr. Kaczmarek. "Business owners in our market continued to deleverage and conserve cash."

The following table summarizes the allowance for loan losses:

Noninterest-bearing demand deposits increased \$64.0 million to \$344.3 million at December 31, 2011, from \$280.3 million a year ago, and decreased \$167,000 from \$344.5 million at September 30, 2011. The total cost of deposits decreased 34 basis points to 0.28% for the fourth quarter of 2011 from 0.62% for the fourth quarter of 2010, and decreased 6 basis points from 0.34% for the third quarter of 2011.

"We have a solid mix of deposits with noninterest-bearing deposits increasing 23% from a year ago and representing 33% of total deposits at December 31, 2011," added Mr. Kaczmarek. "With our improved capital position, we are once again part of the depository base for the State of California, that has \$50 million in low cost deposits. In addition, we are also less reliant on brokered CDs, and CDARS, which together have declined 22% from a year ago and represent only 9% of total deposits."

Tangible equity was \$195.3 million at December 31, 2011, compared to \$179.1 million at December 31, 2010, and \$194.4 million at September 30, 2011. Tangible book value per common share was \$5.20 at December 31, 2011, compared to \$4.61 at December 31, 2010, and \$5.17 at September 30, 2011. In the per common share data attached, the Company details the pro forma tangible book value per share, assuming the Company's outstanding Series C Preferred Stock issued in June 2010 is converted into common stock. There were 21,004 shares of Series C Preferred Stock outstanding at December 31, 2011 and the Series C Preferred Stock is convertible into an aggregate of 5.6 million shares of common stock at a conversion price of \$3.75, upon a transfer of the Series C Preferred Stock in a widely dispersed offering.

The components of accumulated other comprehensive income at December 31, 2011 include the following balances, net of deferred taxes: a \$5.0 million unrealized gain on available-for-sale securities; a (\$3.0) million unrealized loss on the supplemental executive retirement plan; a (\$2.2) million unrealized loss on the split-dollar life insurance benefit plan; and a \$1.2 million unrealized gain on interest-only strip from SBA loans.

Operating Results

Net interest income, before the provision for loan losses, increased 8% to \$11.8 million in the fourth quarter of 2011, from \$10.9 million in the fourth quarter a year ago, and increased 1% from \$11.7 million in the third quarter of 2011. Net interest income for the year ended December 31, 2011 was \$46.2 million, compared to \$44.6 million a year ago. The net interest income increased primarily due to an increase in the average balance of investment securities, and a decrease in the average balance and rates paid on interest-bearing liabilities, partially offset by a decrease in the average balance of loans.

The net interest margin improved 28 basis points to 3.87% for the fourth quarter of 2011, compared to 3.59% for the same quarter a year ago, and decreased 14 basis points from 4.01% for the third quarter of 2011. The NIM increased 25 basis points to 3.94% for the year ended December 31, 2011, compared to 3.69% for the year ended December 31, 2010. The increase in the NIM for the quarter and year ended December 31, 2011 compared to the same periods in 2010 was primarily due to a higher yield on loans and a lower cost of deposits. The decrease in the NIM for the fourth quarter of 2011, compared to the third quarter of 2011 was primarily due to lower average loan balances and lower yields on securities as a result of accelerated prepayments on mortgage-backed securities.

The Company's provision for loan losses was \$1.2 million for the fourth quarter of 2011, compared to \$1.1 million in the fourth quarter a year ago, and \$1.5 million in the third quarter of 2011. The provision for loan losses was \$4.5 million for the year ended December 31, 2011, compared to \$26.8 million a year ago.

Noninterest income was \$2.4 million for the fourth quarter of 2011, compared to \$2.4 million for the fourth quarter of 2010, and \$1.9 million for the third quarter of 2011. Noninterest income for the fourth quarter of 2011 included a \$459,000 gain on sale of securities, compared to a \$464,000 gain on sale of securities for the fourth quarter a year ago, and no gain on sale of securities for the third quarter of 2011. Noninterest income for the year ended December 31, 2011, was \$8.4 million, compared to \$8.7 million a year ago. Noninterest income for 2011 included a \$459,000 gain on sale of securities, compared to a \$2.0 million gain on sale of securities the year before, which was partially offset by an \$887,000 loss on sale of other loans during 2010.

Noninterest expense for the fourth quarter of 2011 declined 3% to \$9.9 million, compared to \$10.1 million for the fourth quarter a year ago, primarily due to lower FDIC insurance premiums. Noninterest expense for the fourth quarter of 2011 remained relatively flat compared to \$9.8 million for the third quarter of 2011. Noninterest expense for 2011 declined 12% to \$39.6 million, compared to \$44.9 million (excluding the \$43.2 million impairment of goodwill) a year ago. The decrease in noninterest expense for 2011 was primarily due to lower write-downs on loans held-for-sale, a decrease in salaries and benefits expense, lower professional fees and lower FDIC insurance premiums.

The efficiency ratio improved to 69.39% for the fourth quarter of 2011, as compared to 75.65% for the fourth quarter of 2010, and 72.06% for the third quarter of 2011. The efficiency ratio was 72.51% for the year ended December 31, 2011, compared to 84.31% a year ago, excluding the \$43.2 million impairment of goodwill.

The income tax expense for the quarter ended December 31, 2011 was \$234,000, compared to \$506,000 for the same quarter a year ago, and an income tax benefit of (\$2.5) million for the third quarter of 2011. The income tax benefit for the year ended December 31, 2011 was (\$834,000), compared to an income tax benefit of (\$5.8) million a year ago. The Company had a \$3.7 million partial valuation allowance on deferred tax assets as of December 31, 2010. The Company reversed the partial valuation allowance in 2011, based on the Company's estimate that it is more likely than not that the remaining net deferred tax assets will be realized.

In addition to the reversal of the deferred tax asset valuation allowance, investments in life insurance policies whose earnings are not subject to taxes, and tax credits related to investments in low income housing limited partnerships account for the difference in the effective tax rate compared to the combined federal and state statutory tax rate of 42%.
