### **WELLS-GARDNER ELECTRONICS CORPORATION**

#### Notes to the Unaudited Condensed Consolidated Financial Statements

1. In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments, consisting of normal recurring adjustments, which are necessary for a fair presentation of the financial position and results of operations for the periods presented. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the audited financial statements and notes included in the Company's 2008 Annual Report to Shareholders. The results of operations for the six months ended June 30, 2009 are not necessarily indicative of the operating results for the full year.

2. The Company has decided not to declare a stock dividend for 2009.

3. Basic earnings per share are based on the weighted average number of shares outstanding whereas diluted earnings per share include the dilutive effect of unexercised common stock equivalents. Potentially dilutive securities are excluded from diluted earnings per share calculations for periods with a net loss. For all periods reported, the earnings per share have been retroactively restated to reflect the stock dividends issued in 2008.

4. The Company maintains an Incentive Stock Option and Stock Award Plan under which officers and key employees may acquire up to a maximum of 1,954,674 common shares. The Board of Directors approved an increase in the number of authorized shares for the Stock Award Plan from 300,000 to 600,000 on February 20, 2009 which was ratified by the shareholders on May 12, 2009.

#### ***Stock Options***

Options may be granted through December 31, 2008 at an option price not less than fair market value on the date of grant and are exercisable not earlier than six months nor later than ten years from the date of grant. Options vest over two and three year periods. As of June 30, 2009, 6 persons held outstanding options and were eligible to participate in the plan. Such options expire on various dates through April 8, 2014.

Under the stock option plan, the exercise price of each option equals the market price of the Company's stock on the date of grant. For purposes of calculating the compensation cost consistent with FAS 123 (R), the fair value of each grant is estimated on the date of grant using the Black-Scholes option-pricing model. The Company has not issued any Incentive Stock Options since 2004, except for adjustments to previous grants for the 5% stock dividend declared in subsequent years. It is the Company's policy to issue new stock certificates to satisfy stock option exercises.

The following table summarizes information about stock options outstanding for the six months ending June 30, 2009:

## [Table of Contents](#)

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Aggregate Intrinsic Value

Exercisable, June 30, 2009	48,454	\$2.02	2.6	0

### ***Restricted Shares***

The employees will earn the restricted shares in exchange for services to be provided to the Company over a three year or five-year vesting period. All shares granted are governed by the Company's Stock Award Plan, which was approved by shareholders in 2000. As of June 30, 2009, 165,935 restricted shares are outstanding on a dividend adjusted basis. Total unrecognized compensation cost related to unvested stock awards is approximately \$163,000 and is expected to be recognized over a weighted average period of 2 years.

The following table summarizes information regarding Restricted Share activity for the six months ending June 30, 2009:

	Options	Weighted Average Grant Date Fair Value
Unvested at December 31, 2008	104,961	\$2.73
Granted	72,000	\$0.46

Forfeited	0	\$0.00
Outstanding, June 30, 2009	165,935	\$1.70

5. Our inventory detail as of June 30, 2009, June 30, 2008 and December 31, 2008 was as follows:

(in \$000's)	June 30, 2009 (unaudited)	June 30, 2008 (unaudited)	December 31, 2008

Total	\$ <u>11,040</u>	\$ <u>11,976</u>	\$ <u>11,786</u>

6. On August 21, 2006, the Company entered into a four-year credit agreement with Wells Fargo Bank. The agreement is a \$15 million revolving credit facility. The credit facility has an interest rate of Prime plus 0.50 points or LIBOR plus 3.25 points, determined at the Company's election, plus foreign credit insurance and other fees including annual maintenance and exam fees. The credit facility has several financial covenants including a minimum book net worth, minimum net earnings, maximum capital expenditures and maximum director, officer and consultant compensation increases. Substantially all of the Company's assets are securitized by the new credit facility. The Company is in compliance with all of its covenants at June 30, 2009.

7. An income tax valuation allowance is provided when it is more likely than not that some portion or all of the deferred tax assets will not be realized. The Company has historically provided a 100% valuation allowance on their net deferred tax benefits. The net change in the valuation allowance for the six months ended June 30, 2009 was a decrease of \$245,000 to recognize the portion of deferred tax assets expected to be realized in the near future. This change represents the Company's belief that it is more likely than not that a profit will be generated through the end of 2009, which will allow them to use a portion of the current net operating loss carry forwards. As of December 31, 2008, the Company has net operating loss carry forwards for Federal income tax purposes of approximately \$5,855,000, which are available to offset future Federal taxable income, if any, through 2021. The Company also has alternative minimum tax credit carry forwards of approximately \$74,000, which are available to reduce future Federal regular income taxes, if any, over an indefinite period. In addition, the Company has general business credit carry forwards of approximately \$129,000, which are available to reduce future Federal regular income taxes, if any. These general business credits are scheduled to expire in 2012. No unrecognized tax benefits are set to expire in the next twelve months that may have an impact upon the Company's effective tax rate.

The Company files tax returns in the U.S. federal jurisdiction and various state jurisdictions. The tax years 2005, 2006, 2007 and 2008 remain open to examinations. Our policy is to recognize interest and penalties related to uncertain tax positions in income tax expense. During the six months ended June 30, 2009, the Company did not recognize expense for interest or penalties related to income tax, and do not have any amounts accrued at June 30, 2009, as the Company does not believe it has taken any uncertain income tax positions.

8. The Company recorded other expense of \$73,000 for the three months ended and \$166,000 for the six months ended June 30, 2009. This expense was primarily due to sales tax, interest & penalties for prior years. The Company is currently reviewing requirements for filing sales tax returns in several states and does not believe that this will have a material impact on the income statement.

9. In September 2006, the FASB issued SFAS 157, Fair Value measurements ("SFAS 157"), which defines fair value, establishes a framework for measuring fair value and expanded disclosures about fair value measurement. In February 2008, the FASB announced the deferral for one year the effective date of SFAS 157 for nonfinancial assets and liabilities that are recognized at fair value in the financial statements on a nonrecurring basis. The Company adopted SFAS 157 effective January 1, 2008 for financial assets and liabilities measured on a recurring basis and effective January 1, 2009 for non-financial assets and liabilities. The adoption did not have an impact on the Company's financial statements.

10. In May 2009, the Company was served with a complaint filed in the Supreme Court of New South Wales in Sydney, Australia by MVD Electronics PTY Limited (formerly Wells-Gardner Electronics Corporation PTY Limited). The plaintiff has made a claim for approximately \$350,000 Australian due to an alleged wrongful termination of a sales representative agreement. The Company believes it properly terminated the agreement, the allegations are without merit, and is vigorously defending the action.

### Item 2. Management's Discussion & Analysis of Financial Condition & Results of Operations

#### **Three Months Ended June 30, 2009 & 2008**

For the second quarter ended June 30, 2009, net sales decreased by 1% to \$14,376,000 from \$14,525,000 in second quarter 2008. Overall video display unit volume was flat with a \$0.5 million sales decline primarily due to a 85% unit decline in CRT sales mostly offset by a 21% unit increase in LCD sales. Parts sales increased \$0.4 million and used games sales decreased \$0.1 million in the second quarter 2009 compared to the same quarter 2008. Gaming sales for the second quarter 2009 increased by 2% to \$13,387,000 from \$13,148,000 in the second quarter 2008 due to an improving gaming market. Amusement sales decreased by 28% to \$989,000 in the second quarter 2009 from \$1,378,000 in the second quarter 2008 primarily due to lower replacement market sales. As a result, gaming sales accounted for 93% of total sales and amusement sales accounted for 7% of total sales in the second quarter 2009 compared to 90% and 10% respectively in the same quarter 2008.

Gross margin for the second quarter 2009 increased \$0.3 million to \$2.6 million or 18.1% of sales compared to \$2.3 million or 16.1% in the second quarter 2008 for a 2.0 point increase in margin percentage. The \$0.15 million sales decline reduced the gross margin by \$24,000, while the increase in margin percentage increased the gross margin by \$293,000. The margin improvement was due to significantly higher parts margin and sales mix and some improvement in display margins due to a higher percentage being produced in China and improved design and purchasing. The company is concentrating on new parts lines with improved margin and introducing new lower cost video display products for all markets.

Operating expense decreased by \$86,000 in the second quarter 2009 compared to the same quarter 2008. As a result, operating expenses decreased to 13.8% of sales in the quarter from 14.2% of sales in the same quarter last year as sales were essentially even. The operating expense reductions were due to a \$61,000 decline in compensation and benefit expense due to lower headcount and a \$86,000 decline in commission expenses partially offset by a \$24,000 increase in occupancy expense and a \$36,000 increase in other primarily bad debt expense. The Company continues to reduce its headcount and to place emphasis on operating expense control.

Operating income increased \$356,000 to \$623,000 in the second quarter 2009 compared to \$268,000 in the second quarter 2008 due to higher margins and lower operating expense on essentially even sales.

Interest expense was \$58,000 in the second quarter 2009 compared to \$87,000 in the second quarter 2008 due to lower average debt balances and lower interest rates. Other expense was \$73,000 in the second quarter 2009 compared to zero in the second quarter 2008 due to state tax audit expenses.

Income tax expense was \$8,000 in the second quarter 2009 compared to \$11,000 in the second quarter 2008. The Company has available a net operating loss carry forward and credits of approximately \$6.1 million as of December 31, 2008.

Net income was \$484,000 in the second quarter 2009 compared to \$170,000 in the second quarter 2008. For the second quarter 2009 basic and diluted earnings per share was \$0.05 compared to basic and diluted earnings per share of \$0.02 in the second quarter 2008.

## [Table of Contents](#)

### **Six Months Ended June 30, 2009 & 2008**

For the first half ended June 30, 2009, net sales decreased by 12% to \$25,980,000 from \$29,441,000 the first half 2008. Overall video display unit volume declined 11% or \$3.9 million primarily due to a 73% unit decline in CRT sales partially offset by a 4% unit increase in LCD sales. Parts sales increased \$0.7 million and used games sales decreased \$0.2 million in the first half 2009 compared to the same period 2008. Gaming sales for the first half 2009 declined by 7% to \$23,856,000 from \$25,765,000 in the first half 2008 due to a sluggish gaming market. Amusement sales decreased by 42% to \$2,124,000 in the first half 2009 from \$3,676,000 in the first half 2008 primarily due to lower replacement market sales. As a result, gaming sales accounted for 92% of total sales and amusement sales accounted for 8% of total sales the first half 2009 compared to 88% and 12% respectively in the same period 2008.

Gross margin for the first half 2009 decreased \$0.1 million to \$4.7 million or 18.0% of sales compared to \$4.8 million or 16.2% in the first half 2008 for a 1.8 point increase in margin percentage. The \$3.5 million sales decline reduced the gross margin by \$561,000 while the increase in margin percentage increased the gross margin by \$472,000. The margin improvement was due to significantly higher parts margin and sales mix and some improvement in display margins due to a higher percentage being produced in China and improved design and purchasing. The company is concentrating on new parts lines with improved margin and introducing new lower cost video display product for class III gaming, class II gaming and amusement markets.

Operating expense decreased by \$382,000 in the first half 2009 compared to the same period 2008. Due to the \$3.5 million sales decline, operating expenses increased to 14.6% of sales in the first half from 14.2% of sales in the same period last year. The operating expense reductions were due to a \$166,000 decline in compensation and benefit expense due to lower headcount, a \$171,000 decline in commission expenses, a \$42,000 decline in IT depreciation expense and a \$36,000 decline in other partially offset by a \$33,000 increase in occupancy expense. The Company continues to reduce its headcount and to place emphasis on operating expense control.

Operating income increased \$293,000 to \$887,000 in the first half 2009 compared to \$594,000 in the first half 2008 even on \$3.5 million lower sales due to higher margins and lower operating expense.

Interest expense was \$116,000 in the first half 2009 compared to \$200,000 in the first half 2008 due to lower average debt balances and lower interest rates. Other expense was \$166,000 in the first half 2009 compared to zero in the first half 2008 due to state tax audit expenses.

Income tax expense was \$18,000 in the first half 2009 compared to \$25,000 in the first half 2008. The Company has available a net operating loss carry forward and credits of approximately \$6.1 million as of December 31, 2008.

Net income was \$587,000 in the first half 2009 compared to \$369,000 in the first half 2008. For the first half 2009 basic and diluted earnings per share was \$0.06 compared to basic and diluted earnings per share of \$0.04 in the first half 2008.

### Item 3. Quantitative & Qualitative Disclosures about Market Risk

There have been no material changes to the Company's market risk during the six months ended June 30, 2009. For additional information on market risk, refer to the "Quantitative and Qualitative Disclosures about Market Risk" section of the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

The Company is subject to certain market risks, mainly interest rate risk. In August 2006, the Company entered into a four-year \$15 million secured credit facility with Wells Fargo Bank.

As of June 30, 2009, the Company had total outstanding bank debt of \$3.2 million at an average interest rate of 3.75%. The loan is at prime plus 0.50% or Libor plus 3.25%. As of June 30, 2009 the entire loan was at prime plus 0.50%. All of the Company's debt is subject to variable interest rates at this time. An adverse change in interest rates during the time that this debt is outstanding would cause an increase in the amount of interest paid. A 100 basis point increase in interest rates would result in an annual increase of approximately \$32,000 in additional interest expense recognized in the financial statements based on the June 30, 2009 outstanding loan balance. The Company may make payments towards the loans at any time without penalty. However, there is a minimum interest charge of \$20,000 per month during the second two years of the credit agreement.

The Company is exposed to credit risk on certain assets, primarily accounts receivable. The currency risk is minimal as almost all of the Company's sales are billed in US dollars. The Company provides credit to customers in the ordinary course of business and performs ongoing credit evaluations. Concentrations of credit risk with respect to trade receivables are limited except for the Company's largest customer.

### Item 4. Controls & Procedures

The Company has established a Disclosure Committee, which is made up of the Company's Chief Executive Officer, Chief Financial Officer and other members of management. The Disclosure Committee conducts an evaluation of the effectiveness of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(e) as of the end of the period covered by this report. While the Company has limited resources and cost constraints due to its size, based on the evaluation required by Rule 13a-15(b), the Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures are effective in ensuring that all material information required to be filed in this quarterly report has been made known to them. As of June 30, 2009, there have been no known significant changes in internal controls or in other factors that could significantly affect these controls.

### **Forward Looking Statements**

Because the Company wants to provide shareholders and potential investors with more meaningful and useful information, this report may contain certain forward-looking statements (as such term is defined in the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended) that reflect the Company's current expectations regarding the future results of operations, performance and achievements of the Company. Such forward-looking statements are subject to the safe harbor created by the Private Securities Litigation Reform Act of 1995. The Company has tried, wherever possible, to identify these forward-looking statements by using words such as "anticipate," "believe," "estimate," "expect" and similar expressions. These statements reflect the Company's current beliefs and are based on information currently available to it. Accordingly, these statements are subject to certain risks, uncertainties and assumptions which could cause the Company's future results, performance or achievements to differ materially from those expressed in, or implied by, any of these statements, which are more fully described in our Securities and Exchange Commission Form 10-K filing. The Company undertakes no obligation to release publicly the results of any revisions to any such forward-looking statements that may be made to reflect events or circumstances after the date of this report or to reflect the occurrence of unanticipated events.

## PART II - OTHER INFORMATION

### Item 1. Legal Proceedings

In May 2009, the Company was served with a complaint filed in the Supreme Court of New South Wales in Sydney, Australia by MVD Electronics PTY Limited (formerly Wells-Gardner Electronics Corporation PTY Limited). The plaintiff has made a claim for approximately \$350,000 Australian due to an alleged wrongful termination of a sales representative agreement. The Company believes it properly terminated the agreement, the allegations are without merit, and is vigorously defending the action.
